NOTE 1. ORGANIZATION AND NATURE OF BUSINESS

Paperclip Software, Inc. ("the Company") was incorporated under the laws of the State of Delaware in October, 1991.

On November 6, 2006, the Company entered into a Stock Purchase and Share Exchange Agreement with American Sunrise International, Inc., a Delaware corporation ("ASI"), Jilin Dongsheng Weiye Science and Technology Co., Ltd., a corporation organized under the laws of the People's Republic of China ("PRC") and a wholly-owned subsidiary of ASI ("Dongsheng"), and the ASI Shareholders party thereto (the "ASI Shareholders"). On November 9, 2006 (the "Closing Date"), the Company acquired 100% of the issued and outstanding capital stock of ASI owned by the ASI Shareholders, thereby making ASI a wholly-owned subsidiary of the Company, in consideration for a cash payment of \$280,000 and in exchange for the issuance of (i) 18,153,934 shares of the Company's common stock and (ii) 1,762,472 shares of the Company's newly-designated Series B Convertible Preferred Stock, of which series each share can be convert into 500 shares of the Company's common stock. After giving effect to the transactions contemplated by the Share Exchange Agreement (the "Transaction"), the ASI Shareholders and the former shareholders of the Company own 98.7% and 1.3%, respectively, of the Company's common stock on a fully-diluted basis, thereby resulting in a substantial dilution to the Company's shareholders of record as of November 6, 2006 (the "Historic PaperClip Shareholders") and constituting a change in control of the Company.

For accounting purposes, the transaction described above has been accounted for as a reverse acquisition under the purchase method of accounting. Accordingly, ASI is treated as the continuing entity for accounting purposes. The financial statements of the acquired business and pro forma financial information required by Regulation S-B Items 310(c) and (d), respectively, were furnished on the Current Report on Form 8-K filed by the Company on November 9, 2006. Following the merger, the officers and directors of the historic Paperclip resigned and were replaced with the officers and directors of ASI.

ASI operates its business through its wholly-owned subsidiary, Dongsheng, which is primarily engaged in the manufacturing and distributing of nutritional supplements, beauty care products and other alternative health care products.

financial information and with the instructions to Item 310 of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the six months ended December 31, 2006 are not necessarily indicative of the results that may be expected for the full year.

MANAGEMENT ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principals requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

PRINCIPLES OF CONSOLIDATION

The accompanying consolidated Financial Statements include the accounts of Paperclip Software, Inc. and its wholly owned subsidiaries, American Sunrise International, Inc., Jilin Dongsheng Weiye Science and Technology Co., Ltd and the Spinco. Inter-company transactions and balances have been eliminated in consolidation and combination.

CONCENTRATIONS OF CREDIT RISK

After merging with ASI, the principle operations of the Company are now located in the PRC. Accordingly, the Company's business, financial condition, and results of operations may be influenced by the political, economic, and legal environments in the PRC, in addition to the general state of the PRC economy. The Company's operations in the PRC are subject to special considerations and significant risks not typically associated with companies in North America and Western Europe. These include risks associated with, among others, the political, economic and legal environments legal environments and foreign currency exchange.

The Company's results may be adversely affected by changes in the political and social conditions in the PRC, and by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion and remittance abroad, and rates and methods of taxation, among other things.

FOREIGN CURRENCY TRANSLATION

The functional currency for the Company's operations in China is the Renminbi ("RMB"). Foreign currency transactions are translated at the applicable rates of exchange in effect at the transaction dates. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the applicable rates of exchange in effect at that date. Revenues and expenses are translated at the average exchange rates in effect during the reporting period.

Translation adjustments arising from the use of different exchange rates from period to period are included as a component of stockholders' equity as "Accumulated Other Comprehensive Income". Gains and losses resulting from foreign currency translations are included in Accumulated Other Comprehensive Income.

NEW ACCOUNTING PRONOUNCEMENTS

In September 2006, the FASB issued SFAS No. 157 "Fair Value Measurements," which provides a definition of fair value, establishes a framework for measuring fair value and requires expanded disclosures about fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The provisions of SFAS No. 157 should be applied prospectively. The Company is currently analyzing whether this new standard will have impact on its financial position and results of operations.

In September 2006, the FASB issued SFAS No. 158 "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans", which amends SFAS No. 87 "Employers' Accounting for Pensions" (SFAS No. 87), SFAS No. 88 "Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits" (SFAS No. 88), SFAS No. 106 "Employers' Accounting for Postretirement Benefits Other Than Pensions" (SFAS No. 106), and SFAS No. 132R "Employers' Disclosures about Pensions and Other Postretirement Benefits (revised 2003)" (SFAS No. 132R). This Statement requires companies to recognize an asset or liability for the overfunded or underfunded status of their benefit plans in their financial statements. SFAS No. 158 also requires the measurement date for plan assets and liabilities to coincide with the sponsor's year end. The standard provides two transition alternatives related to the change in measurement date provisions. The recognition of an asset and liability related to the funded status provision is effective for fiscal year ending after December 15, 2006 and the change in measurement date provisions is effective for fiscal years ending after December 15, 2008. The implementation of this standard did not have a material impact on the Company's financial position, results of operations or cash flows.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In February 2006, the Financial Accounting Standards Board ("FASB") issued SFAS No. 155, Accounting for Certain Hybrid Financial Instruments, which amends SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities ("SFAS No. 155), and SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. SFAS No. 155 simplifies the accounting for certain derivatives embedded in other financial instruments by allowing them to be accounted for as a whole if the holder elects to account for the whole instrument on a fair value basis. The Company does not expect the adoption of SFAS No. 155 to have a material impact on its financial position, results of operations or cash flows as the Company currently has no financial instruments within the scope of SFAS No. 155.

In May 2005, the FASB issued Statement No. 154, "Accounting Changes and Error Corrections" ("FAS 154"). FAS 154 generally require that accounting changes and errors be applied retrospectively. FAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The Company does not expect FAS 154 to have a material impact on its financial statements.

Cost is determined on a first-in, first-out basis and includes all expenditures incurred in bringing the goods to the point of sale and putting them in a sellable condition. Dongsheng has been accruing the income tax payable since the first year it had profits.

In 2006, Dongsheng changed its status from the private-run enterprise to foreign-invested enterprise following the acquisition by ASI. In accordance with Chinese laws, the subsidiary is now eligible to the income tax holiday of 5 years commencing from its first profit-making year. The subsidiary is applying for the income tax exemption from Chinese tax authority and is expected to be approved soon. Until then, the subsidiary is continuing to accrue the income taxes as usual. The accrued income tax payable will be reversed and recorded as income tax benefit in the period when the certificate of approval and tax clearance are granted by the Chinese authority.

NOTE 11. NET INCOME PER COMMON SHARE

Introduction

Management's discussion and analysis of financial condition and results of operations is intended to help provide an understanding of Paperclip Software, Inc. (the "Company") and its subsidiaries' (together, the "Group") financial condition, changes in financial condition and results of operations. This discussion is organized as follows.

Overview of the Group's Business

PaperClip Software, Inc., a Delaware Corporation, was originally incorporated in New Jersey in October 1991 as PaperClip Imaging Software, Inc. and is the successor by merger as of March 1992. Prior to the Reverse Merger, we were engaged in the development and distribution of computer software for document management and transport of electronic document packages across the public Internet or a private intranet with interoperability, security and tracking capabilities.

American Sunrise International, Inc., a Delaware Corporation, was incorporated on May 30, 2006. Jilin Dongsheng Weiye Science & Technology Development Co., Ltd. was incorporated in the People's Republic of China (the "PRC" or "China") on August 16, 2002. On July 31, 2006, Dongsheng signed an agreement with ASI, whereby ASI agreed to purchase all of the net assets of Dongsheng for \$1,250,000. Due to this change of ownership, Dongsheng became a wholly foreign owned entity. Dongsheng received its business license indicating its status as a wholly foreign owned entity on August 3, 2006.

As a result of the Reverse Merger, the Company does not intend to carry on its business of software development. Instead, it will operate its business through ASI's wholly-owned subsidiary Dongsheng, which is engaged in the development and manufacture of nutritional supplements and personal care products domestically in China. It sells these products through a network marketing system of retail outlets in twenty six provinces throughout China.

Three Months Ended December 31, 2006 Compared to the Three Months Ended December 31, 2005

Net income for the three months ended December 31, 2006, was \$3,866,700, as compared to the three months ended December 31, 2005, which was \$2,733,729, resulting in a increase of 41%. Components of sales and expenses resulting in this increase in net income are discussed below.

Sales Revenues. Sales revenues in 2006 increased by \$2,838,190, or 37%, to \$10,493,470 from \$7,655,280 in 2005. The reason for the increase in sales revenues for the three months ended December 31, 2006 is primarily attributed to the increase in sales volume of Aidong Nutritionals and Jiujiu Ozone Purifiers which can be directly linked to the increase in the total number of individual distributors. We believe the Reverse Merger transaction described above was a major contributory factor in the increase and retention of individual distributors during the three months ended

December 31, 2006 as the achievement of listing on the US capital markets brought instant recognition and loyalty to the Company. As our competitors are non-US public companies, this gives us a distinct advantage in selling our products and recruiting new distributors.

Cost of Goods Sold. Cost of goods increased by \$904,463, or 26%, to \$4,402,089 for the three months ended December 31, 2006, from \$3,497,626 in 2005. The increase is due in part to a 37% increase in sales. As our products have been primarily manufactured by contracted parties, the increase in sales and total number of units order led to our higher cost of goods sold.

Gross Profit Margin. Gross profit margin increased to 58% for the three months ended December 31, 2006, compared to the three months ended December 31, 2005 of 54%. This increase is due to the lower marginal price per unit we were able to negotiate with our suppliers as a result of our increased total number of units ordered.

Operating Expenses. Operating expenses increased by \$214,303, or 113%, to \$403,606 for the quarter ended December 31, 2006, compared to \$189,303 for the quarter ended December 31, 2005. The increase was due to the approximately \$150,000 spent in general and administrative expenses during the period as part of our going public expenses.

Income Taxes. The provision for income taxes increased to \$1,910,514 for the three months ended December 31, 2006 as compared to \$1,346,152 for the three months ended December 31, 2005. This increase was due to the increase of our sales revenue. In 2006, Dongsheng changed its status from the private-run enterprise to foreign-invested enterprise following the acquisition by ASI. In accordance with Chinese laws, the subsidiary is now eligible to the income tax holiday of 5 years commencing from its first profit-making year. The subsidiary is applying for the income tax exemption from Chinese tax authority and is expected to be approved sometime in 2007. Until then, the subsidiary is continuing to accrue the income taxes as usual. The accrued income tax payable will be reversed and recorded as income tax benefit in the period when the certificate of approval and tax clearance are granted by the Chinese authority. The total tax payable of \$14,723,568 accrued in the Company's book as of December 31, 2006 includes \$14,620,068 for the Company's operating subsidiary, Dongsheng, and \$103,500 for the parent company, Paperclip Software, Inc. Majority of the tax payable for Dongsheng is the accrued income tax liability, which is expected to be forgiven
