ITEM 7. Financial Statements and Exhibits.

(c) Exhibits

The following exhibits are furnished pursuant to Item 12:

99.1 Transocean Inc. Report of First Quarter 2003 Financial Results.

99.2 Transcript of Earnings Call.

ITEM 9. Regulation FD Disclosure.

The following information is furnished under Item 12 of Form 8-K (Results of Operations and Financial Condition) in accordance with Securities and Exchange Commission Release No. 33-8216.

Our news release dated April 29, 2003, concerning first quarter 2003 financial results, furnished as Exhibit 99.1 to this report, is incorporated by reference herein. The news release contains certain measures (discussed below) which may be deemed "non-GAAP financial measures" as defined in Item 10 of Regulation S-K of the Securities Exchange Act of 1934, as amended.

In the attached news release, we discuss net income, excluding a non-cash charge for impairment of goodwill, on a total and per share basis for the quarter ended March 31, 2002. This information is provided because management believes exclusion of the impairment will help investors compare results between two periods and identify operating trends that could otherwise be masked by the impairment. The most directly comparable GAAP financial measure, net income,

## Edgar Filing: TRANSOCEAN INC - Form 8-K

and information reconciling the GAAP and non-GAAP measures are included in the news release.

In the news release, we also discuss field operating income for each of our business segments for the quarters ended December 31, 2002 and March 31, 2003. Management believes field operating income is a useful measure of the operating results of a particular segment since the measure only deducts expenses directly related to a segment's operations from that segment's revenues. The most directly comparable GAAP financial measure, operating income before general and administrative expenses, and information reconciling the GAAP and non-GAAP measures are included in the news release.

In the news release, we also discuss net debt at December 31, 2002 and March 31, 2003. This information is provided because management believes net debt provides useful information regarding the level of our indebtedness by reflecting cash and investments that could be used to repay debt. The most directly comparable GAAP financial measure, total debt, and information reconciling the GAAP and non-GAAP measures are included in the news release.

In addition, on April 29, 2003, we conducted our quarterly earnings conference call for the period ended March 31, 2003. A transcript of the call is furnished as Exhibit 99.2 to this report and is incorporated by reference herein.

-1-

Statements in the transcript of the call and in this Form 8-K regarding future market conditions (including market conditions in the North Sea), dayrates (including dayrates for fourth generation rigs and dayrates in West Africa and India), activity levels (including exercise of rig contract options), operating costs (including amounts), cost increases associated with shipyard work, resolution of the strike in Nigeria, timing and amount of increase and subsequent downward trend in interest expense, the exercise of the put option by holders of Zero Coupon Convertible Debentures, potential repurchase of the Nautilus Class A2 Notes, plans for cash reserves, future debt repayments and share repurchases, targeted debt levels, reimbursables (including amounts), anticipated loss associated with debt retirement, depreciation, effective tax rate, financial results, estimated contract duration (including terms in India), contract commencement dates and locations, prospects for unstacking cold stacked rigs and for term contracts in the Gulf of Mexico, downtime, shipyard and rig reactivation programs, prospects for additional deepwater rigs in India, timing and results of independents moving in and majors moving out of the North Sea, prospects for fourth generation rigs, participation in drilling opportunities in Mexico, as well as any other statements that are not historical facts in the transcript of the call or in this Form 8-K are forward-looking statements that involve certain risks, uncertainties and assumptions. These include but are not limited to the future price of oil and gas, demand for rigs, operating hazards and delays, risks associated with international operations, actions by customers and other third parties, competition, risks of drilling, contract terminations or suspensions and other factors detailed in the company's most recent Form 10-K for the year ended December 31, 2002 and other filings with the Securities and Exchange Commission. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated.

The information furnished pursuant to this Item 9, including Exhibit 99.1 and Exhibit 99.2, shall not be deemed to be "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, nor will it be incorporated by reference into any registration statement filed by Transocean Inc. under the Securities Act of 1933, as amended, unless specifically identified therein as being incorporated therein by reference. The furnishing of the information in this report is not intended to, and does not, constitute a determination or admission
