Summary of 1st Quarter Business Report

On May 15, 2003, Kookmin Bank filed a business report with the Financial Supervisory Commission of Korea pursuant to the Securities and Exchange Act of Korea (the Business Report). This is a summary of the 1st quarter Business Report translated into English. Non-material or previously disclosed portions were omitted or abridged.

All references to Kookmin Bank mean Kookmin Bank on a non-consolidated basis, and all references to we or us the Bank mean Kookmin Bank and, as the context may require, its subsidiaries. Kookmin Bank means a new entity established by a merger with former Kookmin Bank and H&CB on the merger date of October 31, 2001. Sometimes we refer it to New Kookmin Bank. On the other hand, we use the Former Kookmin Bank for the name of the former Kookmin Bank, which had been another entity before it merged H&CB.

We were formed through a merger between the Former Kookmin Bank and H&CB, which merged into a new corporation named Kookmin Bank effective November 1, 2001. Accordingly, financial information in this Business Report since the merger date reflects the impact of the merger. Under generally accepted accounting principles in Korea, the Former Kookmin Bank is deemed the accounting acquiror of H&CB in the merger, and we have accounted for the acquisition using the purchase method of accounting. However, trust accounts are not accounted by the purchase method accounting according to the Korean Financial Supervisory Service s guidelines.

Therefore, unless indicated otherwise, any comparative description or table of year 2000 or before 1) for bank accounts is based on the Former Kookmin Bank s results and 2) for trust accounts is based on simple consolidated numbers of Former Kookmin Bank s and H&CB s results.

All references to Won or W in this document are to the currency of the Republic of Korea.

Independent Accountants' Review Report

To the Board of Directors and Shareholders of Kookmin Bank

We have reviewed the accompanying non-consolidated balance sheet of Kookmin Bank (the Bank) as of March 31, 2003, the related non-consolidated income statements for three-month periods ended March 31, 2003 and 2002, and the related non-consolidated statement of cash flows for the three-month period ended March 31, 2003, expressed in Korean Won. These non-consolidated financial statements are the responsibility of the Bank's management. Our responsibility is to issue a report on these financial statements based on our review.

We conducted our review in accordance with quarterly review standards established by the Securities and Futures Commission of the Republic of Korea. These standards require that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of the Bank's personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying non-consolidated financial statements are not presented fairly, in all material respects, in accordance with financial accounting standards generally accepted in the Republic of Korea.

We have audited the accompanying non-consolidated balance sheet of the Bank as of December 31, 2002, and the related non-consolidated statements of income, appropriations of retained earnings, and cash flows for the year then ended (not accompanied in this review report), expressed in Korean Won. We conducted our audit in accordance with auditing standards generally accepted in the Republic of Korea. We expressed an unqualified opinion on our audit report issued on February 7, 2003. The balance sheet as of December 31, 2002 provided herein for the comparative purposes does not differ, in all material respects, from the balance sheet in the audit report.

Without qualifying our review opinion, we draw attention to the following matters.

(Unaudited See Independent Accountants Review Report)

1. The Bank:

Kookmin Bank (the Bank) was established in 1963 under the Citizens National Bank Act to provide and administer funds for financing the general public and small businesses. Pursuant to the repeal of the Citizens National Bank Act effective January 5, 1995, the Bank has conducted its operations in accordance with the provisions of the General Banking Act.

The Bank merged with Korea Long Term Credit Bank (KLB) on December 31, 1998 and with Daegu, Busan, Jeonnam Kookmin Mutual Savings & Finance Co., Ltds. on August 22, 1999. Also, under the decision of the Financial Supervisory Commission in accordance with the Act concerning the Structural Improvement of the Financial Industry, the Bank purchased certain assets, including the loans classified as normal or precautionary, and assumed most of the liabilities of Daedong Bank as of June 29, 1998. The Bank completed the legal consolidation with H&CB as of October 31, 2001 (See Note 32).

The Bank had its shares listed on the Korea Stock Exchange since September 1994. As a result of the business combination with H&CB, the former shareholders of the Bank and H&CB received new common shares of the Bank on the basis of a pre-determined ratio. The new common shares of the Bank were relisted on the Korea Stock Exchange on November 9, 2001. The Bank's paid-in capital amounts to (Won)1,641,293 million as of March 31, 2003. Also, as of March 31, 2003, 37,728,214 shares of the Bank are listed on the New York Stock Exchange as American Depositary Shares (ADS).

The Bank is engaged in the banking and trust business according to the provisions of the General Banking Act and the Trust Business Act and operates through 1,245 domestic branches and offices (including ATMs) and 3 overseas branches as of March 31, 2003.

2. Summary of Significant Accounting Policies:

The significant accounting policies followed by the Bank in the preparation of its non-consolidated financial statements in accordance with Financial Accounting Standards are summarized below.

Application of the Statements of Korean Financial Accounting Standards -

Edgar Filing: KOOKMIN BANK - Form 6-K

The Korean Accounting Standards Board (KASB) has published a series of Statements of Korean Financial Accounting Standards (SKFAS) which has replaced the existing financial accounting standards established by the Korean Financial and Supervisory Board. SKFAS No. 2 through No. 9 become effective for the Bank as of January 1, 2003, and the Bank has adopted these SKFASs from January 1, 2003. The balance sheet as of December 31, 2002 and income statement for the three-month period ended March 31, 2002, presented herein for the comparative purposes, were prepared in accordance with Korean Financial Accounting Standards applicable to the Bank for the year ended December 31, 2002, which applied prior period and were not prepared in accordance with Statements of Korean Financial Accounting Standards No 2 or No 9, which became effective for the Bank from January 1, 2003. And the interim statement of cash flows for the three-month period ended March 31, 2002 are also not presented in accordance with Statement of Korean Financial Accounting Standards No 2.

Recognition of Interest Income -

The Bank recognizes interest income on loans and debt securities on an accrual basis. However, interest income on delinquent and dishonored loans and debt securities, other than those subject to security deposits and guaranteed by financial institutions, is recognized on a cash basis. Accordingly, interest not accrued related to such loans and securities amounted to (Won)501,780 million and (Won)206,603 million respectively, as of March 31, 2003.

Translation of Foreign Currency -

Assets and liabilities denominated in foreign currencies are translated into Korean Won at exchange rates announced by Seoul Money Brokerage Services, Ltd. (USD1:(Won)1,259.9) at the March 31, 2003. The resulting exchange gains or losses are reflected in other operating income or expenses.

2. Summary of Significant Accounting Policies, Continued;

Allowances for Loan Losses -

The Bank applies its internal credit rating system, the Forward Looking Criteria (FLC), to corporate loans in order to classify the borrowers and to determine allowances for loan losses. Effective as of January 1, 2002, the classification of corporate borrowers changed from 10 credit risk categories (AAA, AA, A, BBB, BB, B, CCC, CC, C, D) to 12 credit risk categories (AAA, AA, A, BBB, BB, BB-, B, B-, CCC, CC, C, D). Credit risk classification under the FLC is based on a scaled valuation of financial and non-financial risks with additional consideration of the loan type, collateral and/or guarantees.

Allowances are determined by applying at minimum the following rates to the outstanding balances of each credit risk classification.

<u>Credit Risk Classification</u>	<u>Credit Ratings</u>	<u>Credit Ratings</u>	<u>Allowance Rates</u>
	<u>before Changes</u>	<u>after Changes</u>	
Normal	AAA ~ B	AAA ~ B	0.5%
Precautionary	CCC	B-, CCC	2%
Sub-standard	CC	CC	20%
Doubtful	C	C	50%
Estimated loss	D	D	100%

However, the Bank does not apply the FLC to small-sized corporate loans, consumer loans, and credit cards. Alternatively, the bank classifies such loans by considering the current financial status including delinquent number of days, bankruptcies and collateral value. During the current period, the rates used for determining the allowances for small-sized corporate loans, consumer loans, and credit cards were changed as follows:

<u>Credit Risk Classification</u>	<u>Allowance Rates</u>	<u>Allowance Rates after Changes</u>		
		<u>Small-sized Corporate</u>	<u>Consumer</u>	<u>Credit Cards</u>
	<u>before Changes</u>			

Edgar Filing: KOOKMIN BANK - Form 6-K

Normal	0.50%	0.50%	0.75%	1.00%
Precautionary	2.00%	2.00%	8.00%	12.00%
Sub-standard	20.00%	20.00%	20.00%	20.00%
Doubtful	50.00%	50.00%	55.00%	60.00%
Estimated loss	100.00%	100.00%	100.00%	100.00%

As a result of the changed allowance rates, the Bank's allowances for loan losses as of March 31, 2003 were increased by

(Won)299,971 million for consumer loans and (Won)118,353 million for credit cards.

Present Value Discounts -

Troubled debt restructuring loans, which are modified as to outstanding principal, interest rate, and/or maturity under programs such as workout, court receivership, court mediation, or debt restructuring agreements of parties concerned, are carried at present value if the difference between the book value and the present value of the restructured loan is significant. When estimating the present value of the loans, the Bank applies the interest rate as of the inception of the loans, except for the interest rate of variable rate loans and extended maturity loans, which are adjusted to reflect the interest rate as of the restructuring date. The present value discounts are recorded by reclassifying allowances for loan losses and if additional allowances need to be provided for, the additional allowances are provided and recognized as provision for loan losses of the current period. These present value discounts are amortized using the effective interest method and are recognized as interest income. Allowances for loan losses on the restructured loans are provided for based on the loan balances net of present value discounts.

The Bank recorded (Won)18,824 million of present value discounts as of March 31, 2003 on long-term deposits placed with Hansol Mutual Savings & Finance Co., Ltd. (previously, Bukook Mutual Savings & Finance Co., Ltd.), a subsidiary of the Bank sold in December 1999 (See Note 3). The receivables from the disposal of foreclosed assets that are redeemed in long-term installments are recorded in the balance sheet net of the related present value discounts.

2. Summary of Significant Accounting Policies, Continued;

Securities -

Marketable securities held for short-term capital gain purposes, which exclude stocks issued by associates and debt securities held to maturity, are classified as trading securities. Securities that are not classified as trading securities are classified as investment securities. Securities are recorded at cost, including incidental expenses, with cost being determined using the moving average or specific identification method. The subsequent valuation methods used for the securities are summarized as follows:

	Valuation	Recognition of Unrealized
	Method	Gains and Losses
Trading securities	Fair value	Net income
Investment securities		
Available-for-sale securities and marketable equity securities	Fair value	Capital adjustments
Held-to-maturity securities and non-marketable equity securities	Cost	N/A
Investment in associates	Equity	Net income, retained earnings, or capital adjustments per source of the gain or loss

If the fair value of the investment securities are significantly below the book value and the decrease in value is anticipated to be permanent, the Bank adjusts the investment securities to their fair value and recognizes impairment losses in non-operating expenses of the current period.

The financial statement presentation of securities has been changed in accordance with Statements of Korean Financial Accounting Standards (SKFAS) No. 2 in effect for the fiscal periods beginning after December 31, 2002.

Fixed Assets and Related Depreciation -

Edgar Filing: KOOKMIN BANK - Form 6-K

Tangible assets are recorded at cost, except for upward revaluation of certain assets in accordance with Korean Asset Revaluation Law. Depreciation is calculated based on the estimated average useful lives of the assets and is presented as accumulated depreciation, which is a contra account of tangible assets in the financial statements.

The estimated useful lives and depreciation methods of the tangible assets are as follows:

<u>Tangible assets</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Buildings and structures	Straight-line method	40 years
Leasehold improvements	Declining balance method	4 years
Equipment and vehicles	Declining balance method	4 years

Expenditures that enhance the value or extend the useful life of the assets involved are capitalized as additions to tangible assets. Routine maintenance and repairs are recognized as expenses as incurred.

The Bank adjusts the book value of asset to its net realizable value and recognizes the differences as impairment loss when the future economic benefits of a fixed asset is significantly below the book value due to obsolescence or significant decline in market value. The subsequent recovery of the net realizable value is recognized, to the extent of the pre-impairment book value, as reversal of fixed asset impairment losses.

2. Summary of Significant Accounting Policies, Continued;

Fixed Assets and Related Depreciation, Continued

Foreclosed assets acquired through, or in lieu of, loan redemption are stated at cost and are not depreciated. Valuation allowance is recorded where the latest bidding price at a public auction is below the book value, and is presented as a contra account of foreclosed assets in the financial statements.

Intangible assets are amortized based on the following estimated average useful lives using the straight-line method and are presented in the financial statements net of accumulated amortization.

<u>Intangible Asset</u>	<u>Amortization Method</u>	<u>Estimated Useful Life</u>
Goodwill	Straight-line method	9 years
Trademarks	Straight-line method	1-10 years
Others	Straight-line method	7-30 years

The Bank recorded goodwill as a result of the merger with H&CB for the cost of the merger exceeding the fair value of the net assets acquired.

The Bank adjusts the book value on intangible asset to net realizable value and recognizes the differences as impairment loss when the future economic benefits of an intangible asset is significantly below the book value due to obsolescence or significant decline in market value. The subsequent recovery of its net realizable value is recognized, to the extent of the pre-impairment book value, as reversal of intangible asset impairment losses.

Stock Issuance Costs and Debenture Issuance Costs -

Stock issuance costs are deducted from paid-in capital in excess of par value. Debenture issuance costs are recorded as discounts on debentures and amortized over the maturity of the debentures using the effective interest method.

Accrued Retirement Benefits -

Employees and directors with more than one year of service as of March 31, 2003 are entitled to receive a lump-sum payment upon termination of their employment with the Bank, based on their length of service and rate of pay at the time of termination. Additionally, the Bank records the contributions to pension funds, which grant the payment rights to its employees, and contributions to the national pension fund as contra accounts of accrued retirement benefits.

Guarantees and Acceptances -

By applying the credit risk classification used for loans to the guarantees and acceptances, the Bank records an allowance for losses on outstanding guarantees and acceptances according to their classification as sub-standard, doubtful, or estimated loss (allowance rates are at minimum 20%, 50% and 100%, respectively).

Deferred Income Taxes -

The Bank records the future tax effects of temporary differences between the financial and tax bases of assets and liabilities as deferred tax assets or liabilities. The tax effects of temporary differences arising from the cumulative effects of accounting changes are adjusted in retained earnings.

Bonds under Repurchase/Resale Agreements -

Securities bought under resale agreements are recorded in loans as bonds purchased under resale agreements. Securities sold under repurchase agreements are recorded in borrowings as bonds sold under repurchase agreements.

2. Summary of Significant Accounting Policies, Continued;

Derivatives Instruments -

Derivative financial instruments for trading or hedging purpose are recorded at fair value and resulting unrealized gains or losses are recognized in current operations, except for the effective portion of derivative transactions entered into for the purpose of cash-flow hedges, which is recorded as an adjustment to shareholders' equity.

Fair value hedge accounting is applied to a derivative instrument with the purpose of hedging the exposure to changes in the fair value of an asset or a liability or a firm commitment that is attributable to a particular risk. The gain or loss, both on the hedging derivative instrument and on the hedged item attributable to the hedged risk, is reflected in current operations.

Cash flow hedge accounting is applied to a derivative instrument with the purpose of hedging the exposure to variability in expected future cash flows of an asset or a liability or a forecasted transaction that is attributable to a particular risk. The effective portion of the gain or loss on a derivative instrument designated as a cash flow hedge is recorded as a capital adjustment and the ineffective portion is recognized in current operations. The effective portion of the gain or loss recorded as a capital adjustment is reclassified to current operations in the same period during which the hedged forecasted transaction affects earnings. If the hedged transaction results in the acquisition of an asset or the incurrence of a liability, the gain or loss recognized as a capital adjustment is added to or deducted from the asset or the liability.

Stock Options -

The Bank applies the intrinsic value method, as it expects the settlement of stock options in cash. Accordingly, the Bank recognizes the compensation cost, which is the differences between the exercise price and the stock price as of the balance sheet date, by allocating the amount over the contracted service period. As a result, previous amounts that had been recorded in capital adjustments (stock options) were reclassified into accrued expenses (See Note 13).

National Housing Fund -

Edgar Filing: KOOKMIN BANK - Form 6-K

The Bank, as designated by the Korean Government under the Housing Construction Promotion Law, manages the sources and uses of funds of the National Housing Fund (the NHF) and records the related NHF account in other liabilities. In addition, the Bank pays interest, which is computed by multiplying the average balance of the NHF account by the passbook deposit interest rate, to the NHF.

Gains and Losses on Trust Management -

The Bank's trust accounts (the Trust Accounts) recognize as an expense the trust commissions paid to the banking accounts, which is equivalent to the total trust revenue less total trust expenses and trustee benefits (including the guaranteed principal and minimum rate of return). The Bank recognizes these trust commissions as a gain on trust management in other operating income. The trust fees on money trusts consist of base fees of 0.5% ~ 2.0% (depending on trust fund types) and special fees applied to the invested capital.

Under the Trust Business Act, reserves for future losses are set up in the trust accounts for losses related to those trust funds with a guarantee of the principal or of a certain minimum rate of return. The reserves are used to provide for the losses on such trust funds and, if the losses are incurred in excess of the reserves for future losses, the excess losses are compensated by the Bank. Accordingly, the banking accounts recognize the compensation paid as a loss on trust management in other operating expenses and the trust accounts recognize the corresponding compensation as compensation from banking accounts. There were no compensations paid for the three-month period ended March 31, 2003.

The Bank's derivative instruments are divided between hedge derivatives and trading derivatives based on the purpose of the transaction. The Bank enters into hedge transactions mainly for purposes of hedging fair value risks related to its assets and liabilities.

Trading derivatives include future contracts, forward contracts, swaps, and options entered into by the Bank to meet the financing needs of its customers and to gain profit from arbitrage transactions between customers and other banks. The Bank also uses derivative instruments in managing its own trading and asset-liability management exposures to fluctuations in interest rates and foreign exchange risks.

Hedge derivatives mainly comprise of interest rate swaps to hedge the fair value changes or cash flow changes of bonds or debentures arising from the interest rate fluctuations. Some hedge purpose transactions do not qualify for hedge accounting and are thus accounted for as trading derivatives. These transactions include the hedge relationships where the hedged item is an asset or liability that is re-measured with the changes in fair value attributable to the hedged risk reported currently in earnings or where the hedged item cannot be specifically identified.

NOTES TO NON-CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2003

(Unaudited See Independent Accountants Review Report)

17. Commitments and Contingencies:

As of March 31, 2003, 153 pending legal actions with an aggregate amount of claims of (Won)281,301 million are charged against the Bank and the Bank had also filed 181 lawsuits, which are still pending with an aggregate amount of claims of (Won)118,576 million. Management believes that the actions against the Bank are without merit and that the ultimate liability, if any, will not materially affect the Bank's financial position.

The Bank, under the Mutual Savings & Finance Company Act, is liable for the payment of the deposits of Orange Mutual Savings & Finance Co., Ltd. (previously, Kookmin Mutual Savings & Finance Co., Ltd.) and Hansol Mutual Savings & Finance Co., Ltd. (previously, Bukook Mutual Savings & Finance Co., Ltd.), previously the Bank's subsidiaries but which were sold during 1999, if they enter into bankruptcy within 3 years of sale. Orange Mutual Savings & Finance Co., Ltd. is currently under going bankruptcy procedures due to the disapproval of its business by the Financial Supervisory Commission. Korea Deposit Insurance Corporation (KDIC) has paid for the deposit money subject to the Depositor Protection Act. Despite the fact that Resolution and Finance Corp. (a subsidiary of KDIC) has filed a lawsuit against the Bank for the recovery of the repayment, such lawsuit is not expected to cause any loss which could materially affect the Bank's financial statements.

The Bank has credit lines, with commitments to purchase commercial paper from asset securitization companies. Under these commitments, the Bank provides money, in case of a temporary fund shortage, for the principal and interest repayment of these companies' senior bonds within the contracted term and amounts. As of March 31, 2003, under these commitments, the aggregate committed credit line and loans outstanding are (Won)3,864,400 million and (Won)32,842 million, respectively. Also, the Bank entered into arrangements to purchase (Won)1,760,000 million of commercial papers issued by the securitization companies and the amount purchased as of March 31, 2003, is (Won)136,700 million. The Bank has arranged various methods to compensate for losses on these credit line commitments including payment guarantees, repurchase contracts, surety certificate guarantees, and cash reserve. Also, resulting expected losses amounting to (Won)9,938 million are reserved as other allowances.

Pursuant to the asset securitization plans, the Bank previously sold loans to special purpose entities in previous periods. The related contracts for asset securitization stipulate the Bank's performance of warranty liabilities for loans sold to Kookmin 6th-ABS Specialty Co., Ltd. and Joeeun 5th-ABS Specialty Co., Ltd. (collectively, the SPEs) when underlying loans are delinquent for certain period of time or go into default. Accordingly, the Bank bears possible liabilities for collateral performance toward the SPEs within the limits of (Won)72,000 million and (Won)66,500 million, respectively, as of March 31, 2003. No adjustments have been made in the accompanying financial statements related to such uncertainties.

As of March 31, 2003, loan sales transaction with Korea Asset Management Corporation (KAMCO) has all been settled and the Bank provided an allowance of (Won)10,053 million for estimated losses from repurchase of loans sold to KAMCO that are under the repurchase agreement (See Note 15).

Edgar Filing: KOOKMIN BANK - Form 6-K

The Bank sold 65.43% of its 85.43% investment in Alpha Capital Corp. (Jooeun Leasing Co., Ltd. Until prior period) and (Won)172,024 million of loans to Sun Capital Inc. for (Won)145,000 million on August 30, 2002. The Bank also sold an additional 5.03% of its investment in Alpha Capital Corp. to Sun Capital Inc. for (Won)900 million on October 28, 2002.

The Bank sold its 87.00% ownership of Kookmin Investment Trust Management Co., Ltd. and 88.66% ownership of Kookmin Leasing Co., Ltd. to Morgan Stanley Private Equity, the M&A private funds led by Morgan Stanley Global Emerging Markets Inc. and affiliated funds, and Sun Capital Inc. on May 29, 2002 and December 27, 2002, respectively.

In response to the generally unstable economic conditions, the Korean government and the private sector have been implementing structural reforms to historical business practices. Implementation of these reforms is progressing slowly, particularly in the areas of restructuring private enterprises and reforming the banking industry. The Korean government continues to apply pressure to Korean companies to restructure into more efficient and profitable firms.

The Bank may be either directly or indirectly affected by these general unstable economic conditions and the reform program described above. The accompanying non-consolidated financial statements reflect management's assessment of the impact to date of the economic situation on the financial position of the Bank. Actual results may differ materially from management's current assessment. As of March 31, 2003, the balances of loans (including acceptances and guarantees of (Won)200,938 million) and securities related to SK Global (including foreign subsidiaries), one of major borrowers of the Bank, amount to (Won)380,575 million and (Won)52,608 million, respectively, with related allowances of (Won)34,131 million and impairment losses of (Won)9,995 million, respectively. SK Global is under investigations and due diligence reviews concerning on accounting fraud. In case additional accounting fraud is discovered which materially affects the financial conditions of SK Global, actual loss for non-collectible accounts and impairment of securities may differ from management's current assessment. No adjustments have been made in the accompanying financial statements related to such uncertainties.
