

Item 8.01 – Other Events

On March 31, 2016, pursuant to an agreement dated March 10, 2016, Vishay Intertechnology, Inc. ("Vishay" or the "Company") acquired from a holder approximately \$26.2 million principal amount of the Company's floating rate exchangeable unsecured notes due 2102. The purchase price for this privately negotiated transaction was approximately \$22.6 million. Vishay will recognize a gain on early extinguishment of debt of approximately \$3.6 million in its fiscal quarter ending April 2, 2016.

The exchangeable unsecured notes were issued in 2002 in connection with an acquisition, and are subject to a put and call agreement dated December 13, 2002. Holders may at any time put the notes to Vishay in exchange for shares of common stock; and Vishay may call the notes in exchange for cash or for shares of its common stock at any time after January 2, 2018. Subsequent to the spin-off of Vishay Precision Group in 2010, the put/call rate of the notes is \$15.39 per share of common stock. The notes bear interest at LIBOR, payable quarterly.

The notes that Vishay repurchased from a holder had been exchangeable for 1,702,813 shares of Vishay common stock.

Following this transaction, Vishay has outstanding exchangeable unsecured notes with a principal amount of approximately \$12.4 million, which are exchangeable for an aggregate of approximately 808,000 shares of Vishay common stock.

This transaction will reduce the number of shares considered in the Company's calculation of the weighted average shares outstanding used for computing diluted earnings per share, because the Company's earnings per share computation assumes that the exchangeable unsecured notes would be converted. Because of the timing of the transaction, the impact on the weighted average shares outstanding for the first fiscal quarter of 2016 will not be significant. See the Company's Form 8-K filed February 9, 2016 for additional discussion of factors impacting the diluted earnings per share computation.
