TD BANK FINANCIAL GROUP TAKES ACTION TO DELIVER ON COMMITMENTS TO DEAL WITH UNDER-PERFORMING BUSINESSES

***All figures in CDN\$ dollars.**

TORONTO, April 3, 2003 TD Bank Financial Group (TDBFG) will announce today at the Bank's 14th Annual Meeting in London, Ontario that it will restructure the international unit of its wealth management business, TD Waterhouse, and the US equity options arm of its wholesale banking operation, TD Securities, in a move to deliver on its previously stated commitment to address issues in these under-performing businesses. Restructuring plans are to be finalized and in place by the end of the second quarter and substantially implemented by the end of the current fiscal year.

"We have indicated on a number of occasions over the last few months that there were three issues that we were addressing our corporate loan portfolio, our international wealth management business and our equity options business in the United States," said W. Edmund Clark, TDBFG President and Chief Executive Officer. "On the first issue, we are making good progress and are pleased with our results in exiting unprofitable loans in our non-core portfolio and following an extensive review and evaluation we are taking further action to tackle the two remaining issues."

Declining volumes in the discount brokerage business worldwide have resulted in excess capacity, which has impacted on the Bank's ability to profitably run a global brokerage model. Restructuring plans for TD Waterhouse International will include a streamlining of UK operations and discussions with its joint venture partners to agree on appropriate plans to manage the businesses in light of current trading volumes. TDBFG will incur restructuring costs of approximately \$30 million, the bulk of which will be taken in the second quarter with the balance coming during the rest of the fiscal year as the plan is implemented.

"We made a commitment to take the necessary steps to bring TD Waterhouse to break even internationally by 2004, and it is now clear we needed to restructure," said Clark. "Once our restructuring plan is complete, we believe we will have the right infrastructure, market position and customer base to meet this commitment."

Dramatic volume and margin declines have been a major disappointment for the Bank's US equity options business since making the acquisition in March 2002. TDBFG has taken steps to stem the losses but has now reached the conclusion that it cannot turn the business around without a major shift in strategy and restructuring. TDBFG will retain a clearly focused equity options group centered in Chicago, with floor operations on the Chicago and American Stock Exchanges. TDBFG will take the bulk of a restructuring charge of approximately \$80 million during the second quarter and the balance over the remainder of the fiscal year as the plan is implemented. Restructuring to develop a profitable niche is expected to take six to nine months. If the initial plan does not meet expectations, the Bank will take further action that would include up to an additional \$50 million in restructuring costs.

It is not expected that the restructuring plans for either business will restore operations to a level that would justify the carrying amount of current goodwill. Accordingly, the Bank will write-down in TD Waterhouse International goodwill and book value of \$305 million (excluding the goodwill associated with the Bank's joint venture with NatWest) and write-off \$369 million of previously recorded goodwill associated with the equity options group through a charge to earnings in the second quarter.

"These problem areas are not new I have publicly pointed to them over the last two quarters as areas that we were watching very closely. I have also said very clearly that I intend to address our problems proactively and transparently, by bringing issues forward sooner rather than later to rid ourselves of any obstacles standing in our way of generating sustainable and consistent earnings," said Clark. "In total these restructuring charges will cost us \$0.12 per share and will save us \$0.04 per share of losses per quarter that we have been incurring to date. These actions will make a positive difference in our earnings going forward and we look forward to moving ahead without distraction."

TDBFG expects little or no decline in its Tier 1 capital ratio, which stood at 8.5% as at January 31, 2003, for the second quarter because goodwill is largely already deducted in calculating the Tier 1 capital ratio. As a result, the Bank sees no change in its stated intention to review what to do with its capital surplus at the end of the year. Earnings are expected to be reduced approximately \$1.15 per share when you consider the impact of both the restructuring and goodwill writedowns.

ABOUT TD BANK FINANCIAL GROUP

Edgar Filing: TORONTO DOMINION BANK - Form 6-K

The Toronto-Dominion Bank and its subsidiaries are collectively known as TD Bank Financial Group. In Canada and around the world, TD Bank Financial Group serves more than 13 million customers in three key businesses: personal and commercial banking including TD Canada Trust; wealth management including the global operations of TD Waterhouse; and a leading wholesale bank, TD Securities, operating in a number of locations in key financial centres around the globe. TD Bank Financial Group also ranks among the world's leading on-line financial services firms, with more than 4.5 million on-line customers. TD Bank Financial Group had CDN\$311 billion in assets, as at January 31, 2003. The Toronto-Dominion Bank trades on the Toronto and New York Stock Exchanges under the symbol "TD".
