PROXY STATEMENT

This Proxy Statement, dated April 17, 2019, relates to the solicitation of proxies by the Board of Directors of California Water Service Group (Group) for use at our 2019 Annual Meeting of Stockholders, which is scheduled to be held on May 29, 2019, at 9:30 a.m., at the executive offices of California Water Service Group, located at 1720 North First Street, San Jose, California 95112. We expect to begin mailing this Proxy Statement to stockholders on or about April 17, 2019.

QUESTIONS AND ANSWERS ABOUT THE PROXY MATERIALS AND THE ANNUAL MEETING

What am I voting on?

Election of the ten directors named in the Proxy Statement to serve until the 2020 Annual Meeting;

An advisory vote to approve executive compensation; and

Ratification of the selection of Deloitte & Touche LLP as the Group's independent registered public accounting firm for 2019.

Who may attend the Annual Meeting?

Any stockholders of the Group may attend.

Who is entitled to vote?

Stockholders of record on the record date are entitled to vote. The Board has fixed the close of business on April 2, 2019 as the record date (Record Date) for the determination of stockholders entitled to notice of, and to vote at, the Annual Meeting.

How many votes do I get?

Each share of common stock is entitled to one vote.

What constitutes a quorum?

A majority of the outstanding shares present at the Annual Meeting or represented by persons holding valid proxies constitutes a quorum. If you submit a valid proxy card, your shares will be considered in determining whether a quorum is present.

Without a quorum, no business may be transacted at the Annual Meeting. However, whether or not a quorum exists, a majority of the voting power of those present at the Annual Meeting may adjourn the Annual Meeting to another date, time, and place.

At the Record Date, there were 1,901 stockholders of record. There were 48,133,750 shares of our common stock outstanding and entitled to vote at the Annual Meeting.

Table of Contents

How are the directors elected?

Our bylaws provide for a majority voting standard for the election of directors in uncontested elections. Under this majority voting standard, each director must be elected by the affirmative vote of a majority of the votes cast with respect to the director. A majority of the votes cast means that the number of votes cast "FOR" a nominee for director exceeds the number of votes cast "AGAINST" that nominee for director. As a result, abstentions will not be counted in determining which nominees receive a majority of votes cast since abstentions do not represent votes cast for or against a nominee. If you hold your shares through a stockbroker (or other nominee), the stockbroker does not have authority to vote your shares in the election of directors without instructions from you. Shares that your stockbroker does not vote ("broker non-votes") are not considered votes cast for or against a nominee, and they will not be counted in determining which nominees receive a majority of votes cast. In accordance with our director resignation policy, the Nominating/Corporate Governance Committee has established procedures that require an incumbent nominee for director who does not receive the required votes for re-election to tender his or her resignation offer to the Nominating/Corporate Governance Committee. The Nominating/Corporate Governance Committee will recommend to the Board whether to accept or reject the offer, or whether other action should be taken. The Board will act on the Nominating/Corporate Governance Committee's recommendation within 90 days after certification of the election results. We will promptly publicly disclose the Board's decision regarding the resignation offer, including the rationale for rejecting the resignation offer, if applicable.

Who are the Board's nominees?

The nominees are Gregory E. Aliff, Terry P. Bayer, Shelly M. Esque, Edwin A. Guiles, Martin A. Kropelnicki, Thomas M. Krummel, M.D., Richard P. Magnuson, Peter C. Nelson, Carol M. Pottenger, and Lester A. Snow. All of the nominees are current Board members. See "Proposal No. 1 Election of Directors" for biographical information and qualifications.

What are the Board's voting recommendations?

"FOR" each of the nominees to the Board (Proposal No. 1);

"FOR" the proposal regarding an advisory vote to approve executive compensation (Proposal No. 2); and

"FOR" the ratification of the selection of Deloitte & Touche LLP as the Group's independent registered public accounting firm for 2019 (Proposal No. 3).

How do I vote?

If you are a stockholder of record (that is, you hold your shares in your own name), you may vote by Internet, by telephone, by mail, or in person at the Annual Meeting. Different rules apply if your stockbroker or another nominee holds your shares for you (see below).

You may vote by Internet.

You do this by following the "Vote by Internet" instructions on the proxy card. If you vote by Internet, you do not have to mail in your proxy card.

Table of Contents

You may vote by telephone.

You do this by following the "Vote by Phone" instructions on the proxy card. If you vote by telephone, you do not have to mail in your proxy card. You must have a touch-tone phone to vote by telephone.

You may vote by mail.

You do this by signing the proxy card and mailing it in the enclosed, prepaid, and addressed envelope. If you mark your voting instructions on the proxy card, your shares will be voted as you instruct.

If you return a signed card but do not provide voting instructions, your shares will be voted:

For the ten named director nominees;

For the advisory vote to approve executive compensation; and

For the ratification of the selection of Deloitte & Touche LLP as the Group's independent registered public accounting firm for 2019.

You may vote in person at the Annual Meeting.

We will distribute written ballots to anyone who wants to vote at the Annual Meeting. If you hold your shares in street name, you must request a legal proxy from your stockbroker in order to vote at the Annual Meeting.

What if I change my mind after I return my proxy?

You may revoke your proxy and/or change your vote at any time before the polls close at the Annual Meeting. You may do this by:

Signing another proxy with a later date;

Voting by Internet or by telephone (your latest Internet or telephone proxy is counted);

Voting again at the Annual Meeting; or

Notifying the Corporate Secretary, in writing, that you wish to revoke your previous proxy. We must receive your notice prior to the vote at the Annual Meeting.

Will my shares be voted if I do not return my proxy?

If you are a stockholder of record, and you do not return your proxy, your shares will not be voted unless you attend the Annual Meeting and vote in person.

What happens if my shares are held by my stockbroker (or other nominee)?

If your shares are held by a stockbroker (or other nominee), you will receive a voting instruction card so that you can instruct your stockbroker on how to vote your shares. If you do not return your voting instruction card, then your stockbroker, under certain circumstances, may vote your shares.

Edgar Filing: CALIFORNIA WATER SERVICE GROUP - Form DEF 14A

Specifically, stockbrokers have authority under exchange regulations to vote your uninstructed shares on certain "routine" matters. For "non-routine" matters, no votes will be cast on your behalf if you do not instruct your stockbroker on how to vote. If you wish to change the voting instructions that you gave to your stockbroker, you must ask your stockbroker how to do so.

CALIFORNIA WATER SERVICE GROUP | 2019 Proxy Statement 3

Table of Contents

If you do not give your stockbroker voting instructions, your stockbroker may either:

Proceed to vote your shares on routine matters and refrain from voting on non-routine matters; or

Leave your shares entirely unvoted.

Shares that your stockbroker does not vote ("broker non-votes") will count towards the quorum only. We encourage you to provide your voting instructions to your stockbroker. This ensures that your shares will be voted at the Annual Meeting.

As to my stockbroker voting, which proposals are considered "routine" or "non-routine"?

The ratification of the selection of Deloitte & Touche LLP as the Group's independent registered public accounting firm for 2019 (Proposal No. 3) is routine. A stockbroker may generally vote on routine matters if the stockbroker has not received voting instructions from you with respect to such matters.

The election of directors (Proposal No. 1) and the advisory vote to approve executive compensation (Proposal No. 2) are matters considered "non-routine" under applicable rules. A stockbroker cannot vote without your instructions on non-routine matters.

What is the voting requirement to approve each of the proposals?

Proposal		Vote Required
Proposal No. 1	Election of ten directors	Majority of Votes Cast
Proposal No. 2	Advisory vote to approve executive compensation	Majority of Shares Present in Person or Represented by Proxy and Entitled to Vote
Proposal No. 3	Ratify the selection of Deloitte & Touche LLP as the Group's independent registered public accounting firm for 2019	Majority of Shares Present in Person or Represented by Proxy and Entitled to Vote

How are broker non-votes and abstentions treated?

Broker non-votes and abstentions are counted for purposes of determining whether a quorum is present. Only "FOR" and "AGAINST" votes are counted for purposes of determining the votes received in connection with the proposal relating to the election of directors (Proposal No. 1), and therefore broker non-votes and abstentions have no effect on that proposal. Stockbrokers may not vote your shares on Proposal No. 1 without instructions from you. The affirmative vote of the majority of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting is required to approve Proposal No. 2 and Proposal No. 3. Proposal No. 2 is advisory, meaning that it is not binding on the Board, although the Board will consider the outcome of the vote on this proposal. Abstentions have the effect of a vote "AGAINST" Proposal No. 2 and Proposal No. 3. Stockbrokers may vote your shares on Proposal No. 3 (but not on Proposal No. 2) without instructions from you. Shares resulting in broker non-votes, if any, are not entitled to vote and will have no effect on the outcome of these proposals.

Who will count the vote?

Representatives of Broadridge Financial Services, Proxy Services, will serve as the inspector of elections and count the votes.

What does it mean if I receive more than one proxy card?

It means that you have multiple accounts at the transfer agent and/or with stockbrokers. Please sign and return all proxy cards to ensure that all your shares are voted.

What is the deadline for submitting stockholder proposals for the Group's proxy materials for next year's Annual Meeting?

Any proposals that stockholders intend to submit for inclusion in next year's Group proxy materials must be received by the Corporate Secretary of the Group by December 19, 2019. A proposal, together with any supporting statement, may not exceed 500 words and must comply with other requirements of Rule 14a-8 under the Securities Exchange Act of 1934. Please submit the proposal to the Corporate Secretary, California Water Service Group, 1720 North First Street, San Jose, California 95112-4508.

How can a stockholder propose a nominee for the Board or other business for consideration at a stockholders' meeting?

Stockholders who are entitled to vote at a stockholders' meeting may propose a nominee for the Board or other business for consideration at a meeting without seeking to have the matter included in the proxy materials for the Annual Meeting pursuant to Rule 14a-8. The bylaws contain the requirements for doing so. The bylaws are posted on the Group's website at <http://www.calwatergroup.com>. Physical copies of these documents are also available upon request to the Corporate Secretary, California Water Service Group, 1720 North First Street, San Jose, CA 95112-4508. Briefly, a stockholder must give timely prior notice of the matter to the Group. The notice must be received by the Corporate Secretary at the Group's principal place of business by the 150th day before the first anniversary of the prior year's Annual Meeting. For the 2020 Annual Meeting, to be timely, notice must be received by the Corporate Secretary not later than the close of business on December 31, 2019. If we change the date of the Annual Meeting by more than thirty days before or more than sixty days after the date of the previous meeting, notice is due not later than the close of business on the later of the 150th day before the Annual Meeting or the 10th day after we publicly announce the holding of the Annual Meeting. If the Group's Corporate Secretary receives notice of a matter after the applicable deadline, the notice will be considered untimely. In that case, or where notice is timely but the stockholder fails to satisfy the requirements of Rule 14a-4 under the Securities

Table of Contents

Exchange of 1934, the persons named as proxies may exercise their discretion in voting with respect to the matter when and if it is raised at the Annual Meeting.

The bylaws specify what the notice must contain. Stockholders must comply with applicable law with respect to matters submitted in accordance with the bylaws. The bylaws do not affect any stockholder's right to request inclusion of proposals in the Group's Proxy Statement under Rule 14a-8.

How can a stockholder or other interested parties contact the independent directors, the director who chairs the Board's executive sessions, or the full Board?

Stockholders or other interested parties may address inquiries to any of the Group's directors, to the lead director (who chairs the Board's executive sessions), or to the full Board, by email to stockholdercommunication@calwater.com or by writing to them in care of the Corporate Secretary, California Water Service Group, 1720 North First Street, San Jose, California 95112-4508. All such communications are sent directly to the intended recipient(s).

Can I make comments and/or ask questions during the Annual Meeting?

Yes. Stockholders wishing to address the Annual Meeting are welcome to do so by adhering to the following guidelines:

1. Stockholders may address the Annual Meeting when recognized by the Chairman or President & Chief Executive Officer (CEO);
2. Each stockholder, when recognized, should stand and identify himself or herself; and
3. Stockholder remarks must be limited to matters before the Annual Meeting and may not exceed two minutes in duration per speaker.

No cameras, video, or recording equipment will be permitted at the Annual Meeting. Many cellular phones have built-in digital cameras, and while these phones may be brought into the Annual Meeting, the camera function may not be used at any time.

Where and when will I be able to find the results of the voting?

Preliminary results will be announced at the Annual Meeting. We will publish the final results in a current report on Form 8-K to be filed with the Securities and Exchange Commission ("SEC") within four business days of the Annual Meeting.

BOARD STRUCTURE

This section briefly describes the structure of the Board and the functions of the principal committees of the Board. The Board has adopted Corporate Governance Guidelines that, along with the charters of the Board committees, provide a framework for the governance of the Group. The Corporate Governance Guidelines and the current charters for the Audit, Organization and Compensation, Finance and Capital Investment, Nominating/Corporate Governance, and Enterprise Risk Management, Safety and Security committees are posted on the Group's website at <http://www.calwatergroup.com>. Physical copies of these documents are also available upon request to the Corporate Secretary, California Water Service Group, 1720 North First Street, San Jose, California 95112-4508.

The Group's policy is that all directors must be able to devote the required time to carry out director responsibilities and should attend all meetings of the Board and of committees on which they sit.

Table of Contents

Leadership Structure

Peter C. Nelson has served as Chairman of the Board since 2012. The roles of Chairman of the Board and CEO are separate. The Board believes that separating these roles is the most appropriate leadership structure for the Group, based on numerous factors, including the Board's historical practice (which has predominantly been to separate the roles), its assessment of the Group's leadership, and the Group's current and anticipated needs. The Board attributes a portion of the historical success of its leadership model to the Chairman of the Board's 17-plus years of service as the former President & CEO of the Group. The Board believes that Mr. Nelson, who retired from the Group in 2013, brings significant experience in the water and public utility industries making him best positioned to lead the Board as it oversees and monitors implementation of the Group's business strategy, considers risks related to strategy and business decisions, and performs its oversight function with respect to the Group's operations.

The Board also has established the position of lead director because it supports having an independent director in a Board leadership position at all times. The lead director is an independent director who is elected by the independent directors to serve for a period of at least one year. Richard P. Magnuson currently serves as lead director. As set forth in the Corporate Governance Guidelines, the lead director's responsibilities and authority include:

Presiding over executive sessions of the non-management and independent directors and having the authority to call executive sessions;

Presiding at meetings of the Board in the absence of the Chairman of the Board;

Recommending to the Chairman of the Board items for consideration on the Board meeting agendas and schedules;

Serving as liaison between the Chairman of the Board and the independent directors; and

Being available for consultation and communication with major stockholders upon request.

Risk Oversight

Under the Corporate Governance Guidelines, the full Board oversees the Group's processes for assessing and managing risk. The Board does not view risk in isolation, but considers risk as part of its regular consideration of business decisions and business strategy. The Board exercises its risk oversight function through the Board as a whole and through its committees. Each of the Board committees considers the risks within its areas of responsibility and identified in its charter. The Enterprise Risk Management, Safety and Security Committee, founded in 2019, reviews the Group's major risk exposures and the steps management has taken or proposes to take to mitigate, monitor, or control such risks. The Audit Committee reviews with management risks related to financial reporting and internal controls. At least annually, the Enterprise Risk Management, Safety and Security Committee discusses the Group's risk assessment and risk management plans with the Audit Committee. The Finance and Capital Investment Committee discusses with management the policies and procedures with respect to major risk exposures and the steps management has taken and/or proposes to take to monitor, mitigate, and control such exposures within the capital investment programs. The Organization and Compensation Committee reviews enterprise risks to ensure that our compensation plans and programs do not encourage management to take unreasonable risks relating to our business. The Nominating/Corporate Governance Committee oversees risks related to matters of corporate governance, including director independence and Board performance, as well as risks related to environmental, social responsibility, and sustainability matters. The Enterprise Risk

Table of Contents

Management, Safety and Security Committee also oversees the Group's physical and cyber risk management program.

The Group has a Management Committee (MC) that provides oversight of major risks and risk management reporting. The MC is chaired by the Group's President & CEO and membership is comprised of our Group and subsidiary executives, hereafter collectively known as "executives" and meets monthly. Among other functions, the MC identifies and prioritizes key risks and recommends the implementation of appropriate mitigation measures, as needed. The MC provides reporting to the Audit Committee no less frequently than annually. Further review or reporting on risks is conducted as needed or as requested by the Board or committee. The Enterprise Risk Management Committee regularly briefs the full Board on issues related to the cyber risk management program and related cyber issues.

Committees

There are five committees within our Board of Directors: (1) Audit; (2) Organization and Compensation; (3) Finance and Capital Investment; (4) Nominating/Corporate Governance; (5) and Enterprise Risk Management, Safety and Security. The membership and the function of each of these committees are described below.

AUDIT: Reviews the Group's auditing, accounting, financial reporting, and internal audit functions. The Audit Committee is also directly responsible for the appointment, compensation, and oversight of the independent registered public accounting firm, although stockholders are asked to ratify the Audit Committee's selection of this firm. All members are independent as defined in the listing standards of the New York Stock Exchange and meet the additional independence requirements for audit committee members imposed by the Sarbanes-Oxley Act and the rules of the SEC thereunder.

The Board has determined that Gregory E. Aliff, chair of the Audit Committee, Terry P. Bayer, and Edwin A. Guiles are audit committee financial experts and are independent under the standards applicable to audit committee members. Designation as an audit committee financial expert means that the Board believes Mr. Aliff, Ms. Bayer, and Mr. Guiles have:

- (i) An understanding of generally accepted accounting principles and financial statements;

Table of Contents

- (ii) The ability to assess the general application of such principles in connection with the accounting for estimates, accruals, and reserves;
- (iii) Experience preparing, auditing, analyzing, or evaluating financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the Group's financial statements, or experience actively supervising one or more persons engaged in such activities;
- (iv) An understanding of internal controls over financial reporting; and
- (v) An understanding of audit committee functions.

Designation of a person as an audit committee financial expert does not result in the person being deemed an expert for any purpose, including under Section 11 of the Securities Act of 1933. The designation does not impose on the person any duties, obligations, or liability greater than those imposed on any other Audit Committee member or any other director and does not affect the duties, obligations, or liability of any other member of the Audit Committee or Board of Directors.

ORGANIZATION AND COMPENSATION: Reviews the Group's executive compensation programs, including their establishment, modification, and administration. All members are independent as defined in the listing standards of the New York Stock Exchange, and meet additional independence requirements for compensation committee members applicable under the New York Stock Exchange listing standards. The Organization and Compensation Committee has taken steps to analyze the current risk profile of the Group's executive compensation programs. In its evaluation, the Organization and Compensation Committee review took into account that the Group operates in a highly regulated environment and thus maintains strong internal controls, which factors tend to mitigate against undue risk.

As a result of this evaluation, the Committee does not believe that the Group's compensation practices and programs create risks that are reasonably likely to have a material adverse effect on the Group, nor does it believe that the Group's executive compensation practices and programs are designed to promote risk taking.

Compensation Consultant: The Organization and Compensation Committee retained Veritas Executive Compensation Consultants (Veritas) to advise it on marketplace trends in executive compensation, management proposals for the 2018 compensation program, and executive officer compensation decisions. Additionally, Veritas generally evaluated the Group's equity compensation programs. Veritas also consulted with the Nominating/Corporate Governance Committee about its recommendations to the Board on director compensation. Veritas has been retained for advice on 2019 executive compensation.

Veritas was directly accountable to the Organization and Compensation Committee. To maintain the independence of their advice, Veritas did not provide any services for the Group other than those described above. In addition, the Organization and Compensation Committee conducted a conflict of interest assessment, considering the following six factors with respect to Veritas: (i) the provision of other services to the Group by Veritas; (ii) the amount of fees received from the Group by Veritas, as a percentage of total revenue of Veritas; (iii) the policies and procedures of Veritas that are designed to prevent conflicts of interest; (iv) any business or personal relationship between the consultants at Veritas with whom the Group work and any members of the Organization and Compensation Committee; (v) any of our stock owned by the Veritas consultants; and (vi) any business or personal relationship of Veritas or the Veritas consultants with any of the Group's executive officers, and no conflict of interest was identified.

Table of Contents

For a description of the processes and procedures used by the Organization and Compensation Committee for the consideration and determination of executive compensation, see "Compensation Discussion and Analysis" elsewhere in this Proxy Statement.

FINANCE AND CAPITAL INVESTMENT: Assists the Board in reviewing the Group's financial policies, strategies, and capital structure. All members are independent as defined in the listing standards of the New York Stock Exchange.

NOMINATING/CORPORATE GOVERNANCE: Reviews the Group's director compensation and assists the Board by (i) overseeing director succession planning and recruitment of individuals qualified to become Board members; (ii) overseeing the Group's corporate governance practices; (iii) reviewing the Group's Corporate Governance Guidelines annually and recommending changes to the Board; and (iv) overseeing strategies, policies, and practices relating to environmental and social responsibility, and sustainability (collectively, "ESG Matters") issues and impacts. All members are independent as defined in the listing standards of the New York Stock Exchange.

ENTERPRISE RISK MANAGEMENT, SAFETY AND SECURITY: Assists the Board in reviewing the Group's enterprise risk management, safety, and security programs, including physical and cyber security.

During 2018, there were twelve meetings of the Board, five meetings of the Audit Committee, three meetings of the Organization and Compensation Committee, three meetings of the Finance and Risk Management Committee, and two meetings of the Nominating/Corporate Governance Committee. The incumbent directors attended at least 75% of all Board and applicable committee meetings in 2018 (held during the period each director served).

Independence of Directors

As discussed in the Group's Corporate Governance Guidelines, a substantial majority of the Board is comprised of independent directors. Currently, the Group's independent directors are Gregory E. Aliff, Terry P. Bayer, Shelly M. Esque, Edwin A. Guiles, Thomas M. Krummel, M.D., Richard P. Magnuson, Carol M. Pottenger, and Lester A. Snow. Under the listing standards of the New York Stock Exchange, a director is independent if he or she has no material relationship, whether commercial, industrial, banking, consulting, accounting, legal, charitable, familial, or otherwise, with the Group, either directly or indirectly as a partner, stockholder, or executive officer of an entity that has a material relationship with the Group. The Board makes an affirmative determination regarding the independence of each director annually, based on the recommendation of the Nominating/Corporate Governance Committee. The Board has adopted standards to assist it in assessing the independence of directors, which are set forth in the Corporate Governance Guidelines, which are posted on the Group's website at <http://www.calwatergroup.com>. Under these standards, the Board has determined that a director is not independent if:

The director is, or has been within the last three years, an employee of any company that comprises the Group or an immediate family member is, or has been within the last three years, an executive officer of any company that comprises the Group;

The director has received, or has an immediate family member who has received, during any twelve-month period during the last three years, more than \$120,000 in direct compensation from companies that comprise the Group, other than director or committee fees and pension or other forms of deferred compensation for prior service (compensation received by an immediate family member for service as an employee, other than an executive officer, of the Group is not considered for purposes of this standard);

Table of Contents

The director, or an immediate family member, is a current partner of the Group's internal or external auditor; the director is a current employee of such a firm; the director's immediate family member is a current employee of such a firm who personally works on the Group's audit, or the director or an immediate family member was within the last three years a partner or employee of such a firm and personally worked on the Group's audit within that time;

The director, or an immediate family member, is, or has been within the last three years, employed as an executive officer of another company where any of the Group's present executive officers serves or served at the same time on that company's compensation committee;

The director is a current employee, or has an immediate family member who is a current executive officer, of a customer or vendor or other party that has made payments to or received payments from companies that comprise the Group for property or services in an amount that, in any of the last three fiscal years, exceeded the greater of \$1 million or 2% of the party's consolidated gross revenues; or

The director, or the director's spouse, is an executive officer of a non-profit organization to which the Group makes, or in the past three years has made, payments that, in any single fiscal year, exceeded the greater of \$1 million or 2% of the non-profit organization's consolidated gross revenues.

In addition, the Board has determined that none of the following relationships, by itself, is a material relationship that would impair a director's independence:

Being a residential customer of any subsidiary of the Group;

Being a current executive officer or employee of, or being otherwise affiliated with, a commercial customer from which the Group has received payments that, in any of the last three fiscal years, did not exceed the greater of (i) 1% of the Group's consolidated gross revenues for the year; or (ii) \$500,000;

Being a current executive officer or employee of, or having a 5% or greater ownership or similar financial interest in, a supplier or vendor that has received payments from the Group that, in any of the last three fiscal years, did not exceed the lesser of (i) 1% of the Group's consolidated gross revenues for the year; or (ii) \$500,000; or

Being a director of any of the Group's subsidiaries.

Directors inform the Board as to their relationships with the Group and provide other pertinent information pursuant to questionnaires that they complete, sign, and certify on an annual basis. The Board reviews such relationships to identify possible impairments to director independence and in connection with disclosure obligations. For those directors who reside in a service territory of California Water Service Company and are customers, the Board has determined that it is not a material relationship that would impair their independence under the above standards.

Director Qualifications and Diversity

The Board believes that the Board of Directors, as a whole, should possess a combination of skills, professional experience, and diversity of backgrounds necessary to oversee the Group's business. In addition, the Board believes that there are certain attributes that every director should possess, as reflected in the Board's membership criteria. Accordingly, the Board and the Nominating/Corporate Governance Committee consider the qualifications of directors and

Table of Contents

director nominees individually and in the broader context of the Board's overall composition as well as in the Group's current and future business and operations.

The Nominating/Corporate Governance Committee is responsible for developing and recommending Board membership criteria to the Board for approval. The Board and the Nominating/Corporate Governance Committee seek a variety of occupational and personal backgrounds on the Board in order to obtain a range of viewpoints and perspectives and to enhance the diversity of the Board as a group. An annual evaluation of the Board's composition enables the Board and Nominating/Corporate Governance Committee to update the skills and experience they seek in the Board as a whole, and in individual directors, as the Group's needs evolve and change over time and to assess the diversity of the Board as a group. In identifying director nominees from time to time, the Board and the Nominating/Corporate Governance Committee may identify specific skills and experience that it believes the Group should seek in order to constitute a balanced and effective board.

The Group seeks directors having the following specific qualifications:

Evidence of leadership in his or her particular field;

Broad experience and sound business judgment;

Expertise in an area of importance to the Group and its subsidiaries;

The ability to work in a collegial Board environment;

High personal and professional ethics and integrity;

The ability to devote the required time to carry out director responsibilities;

The ability and willingness to contribute special competencies to Board activities, including appointment to Board committees;

Freedom from conflicts of interest that would interfere with serving and acting in the best interests of the Group and its stockholders;
and

Evidence of being a high caliber individual who has achieved a level of prominence in his or her career; for example, a CEO or highest level financial officer of a sizeable organization, a director of a major corporation, or a prominent civic or academic leader.

Additionally, Section 2.9 of the Group's bylaws contains requirements that a person must meet to avoid conflicts of interest that would disqualify that person from serving as a director.

Board membership should reflect diversity in its broadest sense. The Group seeks a Board that represents a diversity of backgrounds and experiences that will enhance the quality of the Board's deliberations and decisions. The Board, as a whole, should possess a combination of skills, professional experience, and backgrounds necessary to oversee the Group's business. The Board assesses the diversity of skills, experience, and backgrounds represented on the Board as part of the annual Board self-evaluation process.

Identification of Director Nominees

The Group identifies new director nominees through a variety of sources. The Nominating/Corporate Governance Committee will consider director nominees recommended by stockholders in the same manner it considers other nominees, as described in "Board Structure Director Qualifications and Diversity" elsewhere in this Proxy Statement. Stockholders seeking to recommend nominees for consideration by the Nominating/Corporate Governance Committee should submit a recommendation in writing describing the nominee's qualifications and other relevant biographical information and provide confirmation of the

Table of Contents

nominee's consent to serve as director. Please submit this information to the Corporate Secretary, California Water Service Group, 1720 North First Street, San Jose, California 95112-4508.

Stockholders may also propose director nominees by adhering to the advance notice procedure described under "Questions and Answers About the Proxy Materials and the Annual Meeting How can a stockholder propose a nominee for the Board or other business for consideration at a stockholders' meeting?" elsewhere in this Proxy Statement.

Executive Sessions of the Board

Under the Group's Corporate Governance Guidelines, the non-management directors meet at least four times each year in executive session without management present, and the independent directors meet in executive session at least once a year. The lead director, Richard P. Magnuson, chairs these sessions.

Retirement Age of Directors

The Group has established a mandatory retirement age for directors. A director must retire no later than the Annual Meeting that follows the date of the director's 75th birthday. An employee director must retire as an employee no later than the Annual Meeting that follows the date of his or her 70th birthday, but may remain on the Board at the discretion of the Board of Directors.

Annual Meeting Attendance

All directors are expected to attend each Annual Meeting of the Group's stockholders, unless attendance is prevented by an emergency. All of the Group's directors who were directors as of the date of the Group's 2018 Annual Meeting attended the Group's 2018 Annual Meeting.

Other Governance Best Practices

The Group has adopted other practices that we believe reflect our commitment to good corporate governance including:

No Hedging and Pledging Policies

In accordance with our Insider Trading Policy, our directors and executives are prohibited from (i) hedging their ownership of Group stock, including trading in options, puts, calls, or other derivative instruments related to Group stock or debt; and (ii) pledging their ownership of Group stock.

Executive Compensation Recovery ("Clawback") Policy

The Board has adopted an executive compensation recovery, or "clawback," policy requiring the reimbursement of excess incentive-based compensation provided to the executives in the event of certain restatements of the Group's financial statements. A more detailed description of the Executive Compensation Recovery Policy appears in the "Compensation Discussion and Analysis" section of this Proxy Statement.

Stock Ownership Requirements

PROPOSAL NO. 1 ELECTION OF DIRECTORS

Upon the recommendation of the Nominating/Corporate Governance Committee, the Board has nominated for election at the 2019 Annual Meeting of Stockholders a slate of ten director nominees. All of the nominees, except Ms. Esque, have served as directors since the last Annual Meeting. Ms. Esque was recommended to the Nominating/Corporate Governance Committee by a third-party search firm and elected to the Board effective June 27, 2018. All directors are elected annually to serve until the next Annual Meeting or until their respective successors are elected.

Nominee Qualifications

When an incumbent director is up for re-election, the Nominating/Corporate Governance Committee reviews the performance, skills, and characteristics of such incumbent director before making a determination to recommend that the Board nominate him or her for re-election.

The Nominating/Corporate Governance Committee believes that all of the following ten director nominees listed are highly qualified and have the skills and experience required for membership on our Board. A description of the specific experience, qualifications, attributes and skills that led our Board to conclude that each of the nominees should serve as a director follows the biographical information of each nominee.

Vote Required

Each director must be elected by the affirmative vote of a majority of the votes cast. A majority of the votes cast means that the number of votes cast "FOR" a director nominee exceeds the number of votes cast "AGAINST" that nominee for director.

Short-term performance incentive award opportunity: For 2018, the target opportunity for short-term incentives was increased to 100% of salary (from 85% in 2017) for our President & CEO, and 25% of base salary (from 20% in 2017) for all other executives. The payout will range from 0% to 200% of target, based on actual performance.

Performance and time-based equity compensation: Grant values for 2018 were unchanged from 2017 and 2016. For 2018, the Committee set the target total value for the equity compensation awards at \$575,000 for our President & CEO, \$150,000 for the Group's vice presidents, and \$90,000 for all other executives, with 50% in the form of time-based RSAs vesting over three years and 50% in the form of performance-based RSUs with a three-year performance period vesting 0% to 200% based on performance of each metric for each year of the performance period aggregated to attain the three-year performance period's final achievement.

Role of the Organization and Compensation Committee

The Organization and Compensation Committee (Committee), which is comprised entirely of independent outside directors, is responsible for overseeing our compensation programs for executives and executive succession. After a review of compensation levels, the Committee recommends to the Board compensation levels and incentive performance objectives for executives for the 12-month period beginning January 1st of each year. These objectives align with stockholder and customer interests and support our long-term growth and health. The Committee starts its planning and review process in February of each preceding year and typically concludes its process in November. After year-end results are final, the Committee reviews the achieved results for the prior year, certifies the achievement of each goal, approves payment of incentive compensation as certified, and approves the incentive compensation targets for the current year.

Table of Contents

The following is a summary of the key features of our executive compensation program:

WHAT WE DO

We pay for performance with compensation in the form of annual short-term performance-based incentives as well as awarding 50% of long-term equity incentive compensation in the form of restricted stock units (RSUs) subject to performance-based vesting criteria over a three-year period.

We cap individual payouts in short-term performance-based incentive and long-term equity incentive compensation plans.

We require stock ownership for all directors and executives to promote a long-term perspective in managing the Group and to help align the interests of our stockholders, directors, and executives.

We have implemented an executive compensation recovery ("clawback") policy requiring the reimbursement of excess incentive-based compensation provided to the Group's executives in the event of certain restatements of the Group's financial statements.

We have retained an independent compensation consultant who reports to the Organization and Compensation Committee.

We hold an annual "say-on-pay" advisory vote.

Pay for Performance

Our executive compensation program is designed to link executive compensation to our performance (as measured by key operational and financial objectives incorporated in both long-term and short-term performance-based compensation programs), including:

Use of a short-term performance-based compensation program in the form of an annual performance-based short-term incentive that supports our long-term growth objectives of the Group;

Awarding 50% of long-term equity incentive compensation in the form of restricted stock units (RSUs) subject to performance-based vesting criteria, with the remaining 50% awarded in the form of time-based restricted stock awards (RSAs); and

WHAT WE DON'T DO

We do not provide employment agreements. Other than participation in the Executive Severance Plan, none of the executives are party to individual employment or severance agreements.

We do not provide single-trigger change in control benefits. The Group's Executive Severance Plan provides for change in control severance benefits upon a termination of employment following a change in control. In addition, the Group's equity incentive plan does not require single-trigger vesting acceleration upon a change in control.

We do not provide tax gross-ups on perquisites or other personal benefits.

We limit perquisites. As detailed below, the Group provides executives with only limited perquisites consisting of a company car with related excess liability insurance and an employee relocation program.

We do not allow hedging and pledging with respect to Group stock. Group's directors and executives are prohibited from hedging their ownership of Group stock, including trading in options, puts, calls, or other derivative instruments related to Group stock or debt, in accordance with an anti-hedging prohibition in our insider trading policy. Our directors and executives are also prohibited from pledging their ownership of Group stock in accordance with an anti-pledging provision in our insider trading policy.

2018 Say-on-Pay Vote and Stockholder Outreach

From 2013 thru 2017 our executive compensation program received stockholder support averaging 93%. During that time, we received positive feedback from our stockholders and did not make any material changes in design or execution to our executive compensation program.

For fiscal year 2018, we received 75% of the votes cast on the Say-on-Pay advisory vote taken at the 2018 Annual Meeting of Stockholders (Say-on-Pay). While the Committee believes this strong level of support is indicative of the Committee's commitment to maintaining an executive compensation program focused on pay for performance, the Committee engaged in significant outreach to stockholders to understand the cause of the decline from the prior level of support.

The Committee recognizes that best practices in executive compensation continue to evolve and we strongly believe in soliciting feedback from stockholders to better understand their views, to receive their input on our business strategy and execution, and to gather feedback regarding other matters of investor interest.

In 2018 we contacted 14 of our largest stockholders, representing 42.2% of our outstanding shares at that time. Among these, we spoke with stockholders representing 32.2% of our then-outstanding shares. These stockholders shared favorable views of the Group's executive leadership team, including each of the named executive officers, and the alignment between pay and performance. We specifically discussed the change in the value of our CEO's pension benefits as reported in the Summary Compensation Table, which represented a large non-cash portion of the reported total compensation for our CEO. What we heard from stockholders was that they understood the drivers of the non-cash change in pension value and did not see the reported amount as an egregious compensation element or a risk factor that influenced their Say-on-Pay vote. This was true across stockholders with whom we spoke, including those who had voted against the Say-on-Pay proposal at the 2018 Annual Meeting. Instead, stockholders tended to focus on changes in our CEO's pay excluding the actuarial change in pension value. As such, we have added a column to the right of the Summary Compensation Table to show the total compensation of our named executive officers subtracting out the actuarial changes in pension value from the total compensation figure required to be reported.

As part of our stockholder outreach we also solicited feedback from the stockholders with whom we spoke on the short-term and long-term incentive compensation metrics used in 2017 in our executive compensation program. A number of stockholders (including both stockholders who supported the Say-on-Pay resolution and those who voted against it) expressed that they would generally prefer to see less overlap in the performance metrics used in our short-term and long-term incentive compensation programs. Taking this feedback into account, as well as an extensive review of the compensation plans within our proxy peer group, we made a number of changes to the performance criteria used for our 2019 incentive compensation programs. The performance-based RSUs granted to all officers in 2019, as our long-term incentive program, will vest based upon our achievement with respect to three different performance metrics over a three-year period from 2019 to 2021. These performance metrics are based upon three-year return on equity, three-year cumulative growth in stockholder's equity and a third metric tied to the implementation, by the end of the performance period, of certain customer service-related initiatives. In contrast, our 2019 short-term incentive program will continue to be based upon the achievement of performance criteria related to the following, measured over fiscal year 2019: water quality, earnings per share, utility plant investment, emergency preparedness and workplace safety metrics, and customer service metrics (which are different from the customer service-related initiatives on which the performance-based long-term incentive RSUs are measured).

The annual adopted gross revenue associated with the November 2018 filing was \$16.2 million, effective January 1, 2019.

CEO Pay Overview

Martin A. Kropelnicki, our CEO since September 1, 2013, made significant contributions managing our performance in 2018. Based on the 2018 performance objectives, the Committee granted Mr. Kropelnicki an equity incentive award with a total value of \$575,000 for 2018, consisting of \$287,500 in the form of time-based RSAs vesting over three years and \$287,500 in the form of performance-based RSUs with a three-year performance period and the opportunity to earn up to 200% of the target performance-based RSU award based on achievement with respect to Committee approved objectives. With a 2018 base salary of \$958,000 and \$1,245,400 annual performance-based short-term incentive compensation (representing a payout of 130% of target for 2018 and reflecting superior performance during the year as described in more detail below), Mr. Kropelnicki's total direct compensation for 2018 was \$2,753,879 (comprised of salary, annual performance based short-term incentive compensation bonus, performance-based restricted stock units, and time-based restricted stock awards).

The main difference between Mr. Kropelnicki's total direct compensation and the amount reported in the 2018 Summary Compensation Table later in this Proxy Statement is the non-cash change in net present value of his pension from 2017 to 2018, a \$3.1 million increase in the actuarial estimate of his future potential pension benefits. The change in pension value represents the present value of future retirement benefits and does not represent a cash transaction made to Mr. Kropelnicki. No pension benefit will be paid to Mr. Kropelnicki until after his retirement from the Group. Changes in actuarial assumptions for the pension costs are included in customer rates through a rate recovery mechanism. The net present value of the pension benefit ultimately received by Mr. Kropelnicki will change based on a number of factors, including changes in interest rates, changes in mortality tables, Mr. Kropelnicki's current age, years of service, and age at retirement.

Compensation Philosophy for Executives

Our overall philosophy is to provide compensation that attracts, retains, and motivates talented executives, rewards excellent job performance, overall leadership, and provides for fair, reasonable, and competitive total compensation that aligns executives' interests with the long-term interests of our stockholders and customers.

The Committee believes that a balance of fixed and variable compensation, with short-term and long-term compensation elements, maintains a strong link between the NEOs' compensation and the overall Group's performance, as well as promotes the interests of both customers and stockholders. The Committee annually re-evaluates the mix of fixed and variable compensation, including the proportions of incentive compensation awarded as short-term cash-based and long-term equity-based awards and stockholder feedback. Additionally, the Committee continues to monitor our program on an annual basis to ensure that the structure will not incentivize excessive risk-taking.

Table of Contents

Overall, we believe our executive compensation program is achieving the intended results. We believe our compensation is competitive in the industry and has resulted in the attraction and retention of executives who contribute to the long-term success of the Group. In addition, the program creates a strong linkage between pay and performance through our long-term equity and annual performance-based short-term incentive compensation without encouraging imprudent risk taking by our executives.

Elements of Compensation

The material elements of our executive compensation program for 2018 included:

Base Salary;

Annual Performance-Based Short-Term Incentive Compensation;

Performance and Time-Based Long-Term Equity Compensation;

Basic and Supplemental Pension Plan Benefits;

Deferred Compensation Plan Benefits; and

Limited Perquisites.

In determining compensation, the Committee is mindful that as a holding company for a California regulated utility, the Group's financial performance is substantially dependent upon CPUC regulation plus other factors, which to a large extent are beyond the control of executives. Therefore, the Committee's decisions regarding overall compensation are determined largely by evaluation of factors that are within the executives' control and its comparisons with companies in its peer group. As discussed below, the metrics used to determine our executives' annual short-term performance-based incentive compensation and the vesting of long-term performance-based equity compensation awards are appropriate metrics that will align executive performance in a manner beneficial to both stockholders and customers and not encourage imprudent risk-taking.

Base Salary

The only guaranteed portion of executive total compensation is in the form of base salaries that compensate our executives for performance of primary roles and responsibilities. The Committee reviews base salaries for our executives annually and determines whether or not to recommend adjustments to salaries. To assist the Committee in this review, our President & CEO provides an assessment of each executive's performance and contribution towards the key corporate goals and makes recommendations regarding base salary adjustments to the Committee for each of our executives other than himself based on the competitive data and the other factors described below under "Determining Executive Compensation."

The Committee has and continues to target base salaries for each executive that are appropriate for the performance, skills, capabilities, and individual contributions in his/her position. The base salary levels are established by reference to the competitive data described below.

Consistent with last year's practice, when determining 2018 base salaries, the base salaries for our executives were compared to the base salaries for similar positions within the competitive data. Similarly, the total target cash compensation for our executives (taking into account annual short-term incentive compensation targets) was compared to the competitive market target total cash compensation. Each executive's base salary for 2018 was within the competitive range (defined as plus or minus 20% from the median compensation level, based upon available survey data) of target total cash compensation.

Table of Contents

Each year, our executives, including our NEOs, establish a number of corporate goals and objectives that promote the long-term growth and align the interests of stockholders, customers, and employees. The objectives are communicated internally and monitored quarterly. Changes in base salary levels for our President & CEO and other NEOs are generally based on progress against certain of these key corporate goals and individual executive performance. For 2018, the following corporate goals were used to evaluate 2018 compensation for our current President & CEO and NEOs:

1. **Group Operations Goal** Achieve planned operating results as defined in the 2018 Corporate Goals and Objectives. Our overall goal was to manage the controllable elements of administrative and general, other operations, and maintenance expenses within budget.

Achieved Results for Group Operations For 2018, the Group achieved the majority of its operational goals while keeping controllable costs within budget. The Group completed key strategic objectives in the year including:

Continued enhancement of the Group's safety organization and programs making safety a top priority;

Continued focus on advancing the Group's cyber security intrusion prevention system and incidence response program including continued employee training, implementation of a cyber security dashboard, and conducting a cyber security table top exercise with representatives of the Department of Homeland Security and Federal Bureau of Investigation;

Implemented a new Enterprise Risk Management tool and dashboard reporting; and

Co-hosted Emergency Operation Center exercises with three districts and five communities.

2. **Stockholder Value Goal** Achieve budgeted earnings per share of \$1.26, return on equity on invested capital of 9.20%, and company-funded capital expenditures of \$210 million.

Achieved Results for Stockholder Value For 2018, the Group achieved the following result for the major objective in this category:

Earnings per share of \$1.36 or 108% of target, which represents a return on equity (as determined in accordance with GAAP) of 9.18% as reported in item 7 of the Group's Form 10-K for the year ended December 31, 2018 as filed with the SEC.

Company-funded capital expenditures were \$253.0 million, exceeding the 2018 Capital program by \$43 million or 20%. The Group's 2018 achieved capital expenditures was \$271.7 million as reported in item 7 of the Group's Form 10-K for the year ended December 31, 2018 as filed with the SEC. Excluding developer funded expenditures of \$16.0 million and excluding a decrease in accounts payable accrual of \$2.7 million for capital project spend, the Group spent \$253.0 million on company-funded capital expenditures for the 2018 performance period.

3. **Regulatory Goal** Earn authorized annual escalation rate increases for 2019, file the Cal Water GRC; conclude California's Cost of Capital application; conclude the Hawaii Water Service Company's (Hawaii Water) GRC for its Waikoloa Village and Resort Systems; file the Washington Water Service Company (Washington Water) GRC.

Achieved Results for Regulatory On December 15, 2016, the CPUC voted to approve Cal Water's 2015 GRC settlement agreement. As a part of the decision Cal Water was authorized to request annual escalation rate increases for 2019 for those districts that passed the earnings test. In November of 2018, Cal Water requested escalation rate increases in all of its regulated

Table of Contents

districts increasing adopted gross revenue by \$16.2 million. The new rates became effective on January 1, 2019.

On July 2, 2018, Cal Water filed a GRC application with the CPUC proposing \$828.5 million of infrastructure improvements. Cal Water has proposed to the CPUC to increase revenues by \$51.0 million, or 7.7%, in 2020; \$29.8 million, or 4.2%, in 2021; and \$31.4 million, or 4.2%, in 2022 as compared to the last authorized revenue. Any changes in customer rates are expected to become effective in 2020.

On March 22, 2018, the CPUC adopted a revised proposed decision in the cost of capital proceeding for Cal Water and three other water utilities for the years 2018-2020, establishing for Cal Water a 9.20% return on equity and a 5.51% cost of debt, with a capital structure of 46.60% long-term debt and 53.40% common equity, and an authorized return on rate base of 7.48%. The adopted capital structure did not change.

In December of 2017, Hawaii Water filed GRC applications requesting additional revenues of \$3.8 million on an annual basis for its Waikoloa Village and Resort Systems with the Hawaii Public Utilities Commission (HPUC). On January 1, 2019, the HPUC authorized Waikoloa Village rate increases of \$0.8 million for 2019 and \$0.1 million for 2020. On January 7, 2019, the HPUC authorized Waikoloa Resort rate increases of \$0.8 million for 2019, \$0.8 million for 2020, and \$0.1 million for 2021.

On July 2, 2018, Washington Water submitted a GRC application to the Washington Utilities and Transportation Commission (UTC) requesting an increase of \$1.6 million in annual revenue, which is an increase of 13.8% over 2017 revenue. The application reflected increases in materials, equipment, depreciation expense due to the addition of new facilities, and increases in employee wages and health care costs. The UTC authorized an annual rate increase of \$1.1 million on November 1, 2018 and the new rates became effective on December 1, 2018.

4. **Customer Service and Water Quality Goal** Complete key strategic projects in the areas of customer service and water quality including:

Meet or exceed all customer service standards as set by the CPUC;

Meet or exceed all water quality standards in every state, every day, with no water quality violations in 2018; and

Meet or exceed all wastewater discharge standards in every system, every day, in 2018.

Achieved Results for Customer Service and Water Quality During 2018, we completed key strategic objectives in the areas of customer service and water quality. Cal Water successfully exceeded the nine CPUC standards which encompass key measurements for telephone responsiveness, service responsiveness, billing accuracy, and general levels of customer complaints. The nine CPUC customer service standards are found in the CPUC's General Order 103-A.

Additional key objectives include:

Planned, designed, and constructed treatment to meet the new limit of five parts per trillion for TCP set by the California State Water Resources Control Board in July 2017 by the compliance deadline of January 2018;

Met new Environmental Protection Agency (EPA)/State of California guidance on the revised Lead and Copper Rule and completed lead testing in all Kindergarten through grade 12 private and public schools in Cal Water's service areas; and

Group maintained an excellent environmental standards record throughout 2018.

Table of Contents

5. ***Employee Retention and Development Goal*** Implement key strategic projects in the area of employee retention and development.

Achieved Results for Employee Retention and Development During 2018, we completed key strategic objectives in the area of employee retention and development, including:

Implemented the updated and enhanced Continuous Improvement Program throughout all of the Group's subsidiaries;

Completed the 2018 succession and employee development plan, including implementation of the Executive Development Program under our leadership strategy;

Implemented a Vehicle Accident Reduction Program including revision of our preventable vehicle accident policy and rollout of our driver training program;

Continued focus on developing partnerships with local schools and other entities to build interest in individuals wanting a career in the water industry at Cal Water;

Received the American Society of Civil Engineers (ASCE) San Joaquin Branch and Los Angeles Section's "Water Project of the Year" award for Cal Water's TCP treatment and compliance project;

Received the American Water Works Association's (AWWA) Diversity Award for 2018;

Named a "Top 100 Workplace" in the San Francisco Bay Area for the seventh consecutive year; and

Received certification as a Great Place to Work® by the Great Place to Work® Institute for the third consecutive year.

Once the Committee assesses the business results for each goal as described above, the Committee then reviews and discusses the overall performance of each executive and the competitive data provided by the independent consultant retained by the Committee. Once reviewed and agreed upon, the Committee recommends to the Board the base salaries for our executives (including the President & CEO).

The increases to salaries are intended to compensate the individuals for job performance and overall leadership while being within the "competitive range" of the market data for target total cash compensation for similar positions ("competitive range" is described in more detail above and below) when taking into account the short-term incentive compensation described below.

Performance-Based Short-Term Incentive Compensation

As strategic goals are long-term in nature, we maintain an annual performance-based short-term incentive compensation program for executives designed to align annual performance and achievement with the long-term strategic goals of the Group. The performance-based short-term incentive compensation is fully at risk with payout dependent upon achievement of certain performance objectives over a one-year performance period.

The Committee considered a number of factors when establishing the 2018 performance metrics including our long-term strategic plan, historical performance, the regulatory environments it operates in, feedback from the independent compensation consultant, stockholder feedback, and management discussions. The performance metrics are intended to foster and enhance cross-functional integration, customer relationships, continuous improvement, and team accountability. Targets for each of the performance metrics were designed to be challenging but achievable with strong management performance.

Table of Contents

As in prior years, the 2018 performance objectives for the annual short-term incentive compensation were selected to match the performance metrics used for the long-term performance-based RSUs eligible to be earned for 2018 performance, which are listed in the table that follows under "Performance and Time-Based Equity Compensation." The Committee feels that the metrics selected are designed to complement both the short-term and long-term goals as well as the strategic plans of the Group. In the short-term, our executives are motivated to execute on strategies and policies while making good operating decisions to maximize performance over the course of the year while simultaneously being motivated to develop strategies and policies to achieve long-term growth and increase the value of the organization over the long-term. By aligning performance metrics between short-term and long-term incentive compensation, our executives are discouraged from short-term risk taking at the expense of the long-term health of our regulated utilities, customers, and operations. The performance metrics selected have previously undergone regulatory review, and as such, compensation payable based upon these metrics are currently included in customer rates through a rate recovery mechanism.

For 2018, the Committee granted the opportunity for our executives (other than our President & CEO) to receive short-term performance incentive awards with a target payout equal to 25% of base salary (up from 20% in 2017) with an actual payout range of 0% to 200% of target, based on performance. For our President & CEO, the Committee granted the opportunity to receive a short-term performance based incentive award in 2018 with a target payout equal to 100% of base salary (up from 85% in 2017), with an actual payout range of 0% to 200% of target, based on performance.

Payment of the short-term performance incentive awards is typically made in March, following the Group's receipt of audited financial statements and the subsequent certification of the Group's performance by the Committee. See below for additional information regarding the performance goals and resulting payouts under the annual short-term incentive program for 2018.

Performance and Time-Based Equity Compensation

The purpose of our long-term equity incentive compensation is to better align executive compensation with the interests of both stockholders and customers, to create incentives for executive recruiting and retention, to encourage long-term performance by our executives, and to promote stock ownership. Risk is taken into account in determining the aggregate amount of incentive compensation and performance criteria, including assessment of risk management and risk mitigation.

As with target short-term incentive compensation, the Committee reviewed the competitive range of long-term equity compensation and total direct compensation for similar positions within the competitive market in making decisions regarding long-term equity compensation awards for 2018. However, the Committee also believes that, in the interest of strengthening and rewarding teamwork and collaboration within the executive team, the annual equity incentive awards granted to each of our executives (other than our President & CEO) should be based on the same objectives and methodology. The Committee recommended awarding our President & CEO a greater value of equity awards in 2018 than our other executives because of his substantially greater level of responsibility and ability to influence Group's operational results.

Based on the methodology described above, the grant values for 2018 were unchanged from 2017's grant values. For 2018, the Committee set the total value for the equity compensation awards at \$575,000 for our President & CEO, \$150,000 for the Group's vice presidents, and \$90,000 for all other executives, assuming a target level of performance. All equity awards for

Table of Contents

executives were granted 50% in the form of time-based RSAs vesting over three years and 50% in the form of performance-based RSUs with a three-year performance period and the opportunity to earn up to 200% of the target performance-based RSU award based on achievement with respect to Committee-approved objectives.

The performance-based RSUs awarded to our executives provide for a three-year performance period with vesting based solely upon the achievement of objective performance criteria. The Committee certifies and approved the performance of each metric for each year of the performance period. At completion of the three-year performance period, the annual performance is aggregated to attain the three-year performance period's final achievement. The number of shares awarded at the end of the three-year performance period is based on the extent the performance criteria is met over such time and subject to the executive's continued employment through such date. Each year following the performance period, the Committee establishes performance metrics with respect to each of the performance criteria described below. As noted above, for 2018, the performance criteria for our annual short-term incentive program are the same metrics applicable to the performance-based RSUs for 2018.

The following section provides a more detailed look at each performance metric, along with the maximum, target, and threshold levels for each:

Water Quality: This metric evaluates performance based on number of procedural violations and violations of primary and secondary drinking water standards. The CPUC has authority to set drinking water standards for Cal Water. It has adopted the California State Water Resources Control Board, Division of Drinking Water (DDW) standards, which also incorporate U.S. Environmental Protection Agency (EPA) drinking water standards. Similarly, the Group's subsidiaries in Washington, Hawaii, and New Mexico are regulated by the EPA and their respective state health regulators. For 2018, all state operations are included in the performance metric for primary water quality. The secondary and procedural water quality metrics measure activity in the California subsidiary only.

A primary drinking water standard violation is related to public health, either acute or long-term.

A secondary drinking water standard violation is related to taste or aesthetics, such as excessive iron and manganese, and can generate customer complaints.

A procedural violation is a missed sample or other non-compliance item that is not a violation of a primary or secondary standard.

We make it a priority to meet all water quality standards, every day, in every service area. For this reason, the target performance level was set for no primary water standard violations, two or fewer secondary water standard violations, and no more than four procedural violations.

Performance Level*	Primary Water Standards Violations (all states)	Secondary Water Standards Violations (California only)	Procedural Violations (California only)	Goal Achieved
Maximum	0	0	0	200%
Target	0	2 or fewer	Up to 4	100%
Threshold	1 or fewer	4 or fewer	Up to 8	50%

* An additional tier applies between the target and maximum level.

Customer Service: A combination of nine CPUC standards and one internal Cal Water performance indicator which encompass key measurements for telephone responsiveness, service responsiveness, billing accuracy, and general levels of customer complaints

comprises this metric. The nine CPUC customer service standards are found in the CPUC's

General Order 103-A. This metric is evaluated each quarter for 10 measurements in 20 California service areas for an annual target of 764-771 and a maximum annual metric measurement of 800. For 2018 performance-based short-term incentive compensation and long-term performance-based equity grants, the criteria for each performance level was set above prior year criteria in response to prior year actual results.

Performance Level*	Criteria	Goal Achieved
Maximum	99.5% of maximum annual metric	200%
Target	95.5% of maximum annual metric	100%
Threshold	92.5% of maximum annual metric	25%

*

Multiple tiers apply between the threshold and target level and between the target and maximum level.

Utility Plant Investment: The annual Board-approved capital expenditures budget is the target for this metric. Investment in utility plant, property, and equipment is a driver of stockholder return and a key component of providing reliable, high-quality water service to customers. This metric is updated each year to reflect the annual approved capital program and budget for the Group and its subsidiaries and is tied to regulatory approvals. For 2018, the annual Board-approved capital expenditure budget and target performance level was set at \$210 million.

Performance Level*	2018 (In Millions)	Goal Achieved
Maximum	\$230	200%
Target	\$210	100%
Threshold	\$195	25%

*

Multiple tiers apply between the threshold and target level and between the target and maximum level

Return on Equity (ROE): The return on equity of 9.2% is the target for this metric. Return on equity is defined using net income divided by average common stockholders' equity. This metric's target is aligned with the authorized ROE for Cal Water as adopted by the CPUC in a revised proposed decision in the cost of capital proceeding for Cal Water for fiscal years 2018 through 2020. The CPUC increases or reduces the amounts Cal Water can collect from customers when it changes the authorized return on equity. Group's actual or recorded ROE may be higher or lower than what the CPUC has authorized, depending on the effectiveness of the Group's financial management and regulatory strategy. This metric provides for a substantial increase in the award for performing above the authorized ROE (20% increase for a 10 basis points increase in ROE) and a more graduated downside measure (20% decrease in award for a 50 bps decrease in ROE) due to the regulatory mechanisms in place which limit the possibility of achieving high returns on equity. For 2018, the ROE authorized by the CPUC was 9.20%.

Performance Level*	Each Annual Period	Goal Achieved
Maximum	9.70%	200%
Target	9.20%	100%
Threshold	7.20%	20%

*

Multiple tiers apply between the threshold and target level and between the target and maximum level.

SAFETY: This metric is measured annually for Cal Water and is comprised of three of our safety program components. These three components include full attendance at Cal Water mandated safety training for all employees (minimum of five training topics annually), Total Case Incident Rate (TCIR) which represents the average number of work-related injuries incurred by 100 workers during a one-year period as measured against California companies, and the number of preventable vehicle accidents. The three safety components are weighted as follows:

Training rate measure 20%

TCIR measure 40%

Preventable vehicle accident measure 40%

Our executives have been focused on improving its management of the safety program and we have set this metric to improve performance from current conditions towards industry averages, where applicable, and performance expectations.

President & CEO 5,584 shares of RSAs and 5,584 RSUs;

Group's Vice Presidents 1,457 shares of RSAs and 1,457 RSUs; and

Basic and Supplemental Pension Plan Benefits

In addition to the tax-qualified defined benefit plan that covers all permanent employees, supplemental retirement benefits are provided to our executives under the SERP. The SERP plan is designed primarily to compensate for limitations imposed by the Internal Revenue Code (Code) on allocations and benefits that may be paid to executives under the Group's tax-qualified plan. Because the Code restricts benefits under the tax-qualified plan, our executives otherwise would not be eligible to receive the retirement benefits that are proportional to the benefits received by our employees that generally are based on compensation. The SERP is structured such that benefits are paid to our executives on a "pay as you go" basis. The SERP is an unfunded, unsecured obligation of the Group and is designed to assist in attracting and retaining key executives while providing a competitive, total compensation program. The annual expenses of the pension and SERP have allowable costs recovered in rates through the regulatory process in California and other states.

Deferred Compensation Plan

The Group maintains a deferred compensation plan for its directors, executives, and qualified managers. The plan is intended to promote retention by providing eligible employees, including the executives, with a long-term savings opportunity on an income tax-deferred basis. This plan is voluntary and funded by the individuals who elect to participate in the program. There are no company-matching contributions.

401(k) Plan

All employees satisfying the eligibility requirements are entitled to participate in our 401(k) plan and receive matching contributions from the Group. Pursuant to the plan, all employees, including executives, are entitled to contribute up to the statutory limit set by the Internal Revenue Service (IRS) and the Group matches 75% for each dollar contributed up to eight percent for a maximum company-matching contribution of six percent of employee's base salary.

Table of Contents

Limited Perquisites

As part of the Group's automobile policy, executives have the use of a company-owned automobile, including excess liability insurance. The Committee believes that the use of a company-owned automobile allows our executives to work more efficiently because many of the geographic areas served by the Group are most effectively reached by automobile as opposed to other forms of transportation, such as air travel. Any personal mileage incurred by our executives are taxed as additional compensation in accordance with IRS regulations and paid for by the executives. The Group offers its executives a supplemental medical providing proactive health protection services including executive physicals and emergency travel assistance. Additionally, the Group also has a relocation program assisting employees required to move on behalf of the Group to remain as productive as possible during the relocation transition. Employees who receive relocation assistance are required to sign a repayment agreement. Other than these benefits, the Committee's general philosophy is not to provide perquisites and other personal benefits of substantial value to the executives.

Severance Arrangements

None of our executives are party to an individual employment agreement. Additionally, our executives are not provided with single-trigger change in control benefits.

Consistent with the Group's compensation philosophy, the Committee believes that the interests of stockholders are best served if the interests of senior management are aligned with those of our stockholders. To this end, the Group provides change in control severance benefits to our executives under the Group's Executive Severance Plan to reduce any reluctance of our executives to pursue or support potential change in control transactions that would be beneficial to our stockholders. The Group adopted the plan in 1998, and its purpose is to promote the continued employment and dedication of our executives without distraction in the face of a potential change in control transaction. The Executive Severance Plan provides severance pay equal to three times base salary to each of our executives if their employment is terminated without good cause or they resign for good reason during the two-year period following a change in control. Each executive will also be eligible to receive a gross-up payment if the executive is required to pay an excise tax under Section 4999 of the Internal Revenue Code. This provision for a tax gross-up has been a part of the Executive Severance Plan since its inception in 1998 and has not been modified since then.

In the event of a termination not in connection with a change in control, each executive is covered by the Group's general severance policy which states that each non-union employee of the Group whose employment is terminated without cause is entitled to severance pay of either one week's pay after completing two years of service or two weeks' pay after completing five or more years of service, provided in each case that at least two weeks' notice is given. Under the Group's policies, all executives are entitled to a pay-out of six weeks of vacation time upon termination of employment.

Determining Executive Compensation

Each year the Committee reviews, assesses, and recommends to the Board all compensation for our executives after determining that the compensation for these individuals is competitive relative to companies of comparable size, complexity, location, and business nature (see below for additional discussion of this comparison). In addition, the Committee approves the retention, fees, and termination of any compensation consultant or compensation consulting firm used to assist in the evaluation of executive compensation. With respect to 2018 compensation decisions, the Committee retained the services of an independent compensation consultant, Veritas Executive Compensation Consultants (Veritas), for investigation into and

Table of Contents

advice on compensation for executives. The Committee believes that having an independent evaluation of compensation is a valuable tool for the Committee, the Group, and stockholders. Veritas is not engaged to perform any additional work for the Group. The Committee retained Veritas for several purposes, including:

Constructing and reviewing compensation comparisons from readily available published survey and public filings data; and

Performing a competitive assessment of the compensation programs, practices, and levels for directors and executives.

The Committee made a number of compensation recommendations, including those pertaining to the executives that were based on the competitive assessments provided by and through consultation with Veritas. The Committee's recommendations were made, however, entirely by the Committee, in its sole discretion.

The total compensation level for each executive is based on one or more of the following factors:

The individual's duties and responsibilities within the Group;

The individual's experience and expertise;

The compensation levels for the individual's peers within the Group;

Compensation levels for similar positions based on a review of published compensation surveys; and

The levels of compensation necessary to recruit, retain, and motivate executives.

In order to determine competitive compensation practices for 2018, the Committee relied, in part, on published survey compensation data as well as proxy data for individual companies. The individual companies are referred to in this proxy statement as the "Peer Group." The Peer Group includes companies that are generally gas, water, or multi-utility-based organizations with one-half to two times the annual revenue size of the Group.

On November 28, 2018, the Committee approved the following companies for inclusion in the Peer Group for 2018 for determining competitive compensation levels, which were the same as the companies for the Peer Group in 2017:

Allete, Inc.	Northwest Natural Gas Company
American States Water Company	NorthWestern Corp.
Aqua America, Inc.	Otter Tail Corporation
Avista Corporation	Ormat Technologies
Black Hills Corp.	PMN Resources
Chesapeake Utilities Corp.	Portland General Electric
El Paso Electric	San Jose Water Company
MGE Energy	South Jersey Industries, Inc.

Veritas utilized the data from these sources (competitive data) to compile the competitive pay information comparing each executive's compensation to market levels for his/her executive position.

After consideration of the competitive data, the Committee makes decisions regarding each individual executive's target total compensation opportunities based on the Group and individual performance and the need to attract, motivate, and retain an experienced and effective management team. The Committee examined the relationship of each executive's

Table of Contents

base salary, long-term equity incentives, short-term incentive awards, and total compensation to the competitive data from several perspectives by reviewing the following:

The competitive data without any adjustments;

Annual incentive or bonus valued at 50% of median of the market competitive data;

The lower range of 20% below the median of the market competitive data;

Target total direct compensation reduced by 20% from the median of the market competitive data; and

Actual short-term incentive compensation reduced by 20% from the median of the market competitive data.

In making compensation recommendations for the 2018 fiscal year for the executives, the Committee's general objective was to set total compensation within a "competitive range" for each executive's position based on the competitive data. The Committee considers the "competitive range" to mean that compensation levels are within plus or minus 20% of the median compensation levels as determined by reference to the competitive data. Actual compensation decisions for the executives were, however, influenced by a variety of additional factors, including considerations of each individual's experience, expertise, performance and leadership, Group's performance, and internal equity among the executives. With respect to 2018 compensation planning, the Committee retained the services of Veritas as the independent compensation consultant.

Other Compensation Policies

Stock Ownership Requirements

The Board adopted requirements for our executives and members of our Board to own shares of Group's stock to further align their interests with those of our stockholders. The requirements were adopted to promote a long-term perspective in managing the Group and to help align the interests of our stockholders, directors, and executives. Each non-employee director and executive must directly own Group stock having a market or intrinsic value (i.e., paper gain for vested, unexercised stock options); whichever is higher, equal to:

For the Group's President & CEO, three times annual base salary;

For the Group's Vice Presidents, one and one-half times annual base salary;

For all other executives, one time annual base salary; and

For non-employee directors, five times annual base retainer.

Executives must retain 50% of the net after-tax shares from equity awards until the relevant ownership requirement is achieved. Non-employee directors are required to achieve the relevant ownership threshold within five years following adoption of the requirements or five years after commencing service, whichever is later. For executives, the Committee reviews compliance with these requirements annually. The Nominating/Corporate Governance Committee reviews compliance with these requirements for non-employee directors annually.

Anti-hedging and No Pledging Policy

In 2012, the Board adopted an insider trading policy that prohibits our directors and executives from participating in put or call options transactions, hedging and pledging transactions, or other inherently speculative transactions with respect to Group stock. This policy was

adopted as a matter of good corporate governance and, by prohibiting such transactions for executives,

Table of Contents

the compensatory value of equity awards on both the upside and the downside remains strong.

Executive Compensation Recovery ("Clawback") Policy

In 2012, the Board also adopted an executive compensation recovery, or "clawback," policy requiring the reimbursement of excess incentive-based compensation provided to our executives in the event of certain restatements of the Group's financial statements. The policy allows the Group to clawback incentive-based compensation from executives who were actually involved in the fraud or misconduct that triggered the accounting restatement to the extent that the compensation was in excess of what would have been paid under the accounting restatement. This policy is applicable to all incentive-based compensation paid after implementation of the policy, and it covers the three-year period preceding the date on which the Group is required to prepare the accounting restatement.

Tax and Section 162(m) Implications

When designing compensation policies and setting compensation levels, we consider the potential tax treatment of the compensation, but the primary factor influencing program design is the support of business objectives. As a result of the Tax Cuts and Jobs Act of 2017 (the "Act"), for tax years beginning after December 31, 2017, the exemption from Section 162(m)'s deduction limit for performance-based compensation has been repealed. As such, compensation in excess of \$1 million paid to applicable executives will not be deductible unless it qualifies for transition relief applicable to certain arrangements in place as of November 2, 2017.

Prior to the Act, Section 162(m)'s deduction limit included an exception for "performance-based" compensation that permitted qualifying compensation to be deductible even if it exceeded the \$1 million limit. RSAs granted by the Group do not qualify as "performance-based compensation," and thus counted against the \$1,000,000 deductibility limit. Despite the Committee's best intention to implement performance based awards eligible to qualify as tax deductible to the Group under Section 162(m) as in existence at the beginning of 2017, assurances cannot be made that compensation intended to satisfy the requirements for performance-based exemption from Section 162(m) will, due to the ambiguities and uncertainties as to the application and interpretation of Section 162(m) and the regulations issued thereunder.

In designing the executive compensation decisions for 2019, the Committee carefully considered the effect of the changes made to Section 162(m) together with our factors relevant to our business needs, but did not make any changes to the executive compensation program as a result of those changes.

The amounts reported are as follows: Mr. Kropelnicki, RSAs of \$265,111 and RSUs granted in 2018 of \$88,370 with a maximum value of \$176,741; Mr. Smegal, RSAs of \$69,172 and RSUs granted in 2018 of \$23,057 with a maximum value of \$46,114; Mr. Townsley, RSAs of \$69,172 and RSUs granted in 2018 of \$23,057 with a maximum value of \$46,114; Mr. Kuta, RSAs of \$69,172 and RSUs granted in 2018 of \$23,057 with a maximum value of \$46,114; and Ms. McGhee, RSAs of \$69,172 and RSUs granted in 2018 of \$23,057 with a maximum value of \$46,114. The RSUs reported reflect the grant date fair value of the 2018 portion of the award as performance goals are set for each year of the performance period.

(2) Amounts in this column reflect the amount paid to each executive pursuant to the performance-based short-term incentive compensation program for the applicable year.

(3) Amounts in this column are the year-over-year, non-cash, changes in the actuarial present value of the accrued pension liability and do not represent actual compensation paid to any of the Named Executive Officers. Pension values are included in customer rates through a rate recovery mechanism and may fluctuate significantly from year to year depending on a number of factors including changes in the discount rate, changes in mortality rates, changes in compensation, years of service, and vesting. The interest rate and mortality rate assumptions are consistent with those used in the Group's financial statements and include amounts which the executives may not be entitled to receive due to vesting requirements consistent with the plans. For further information, see the "Basic and Supplemental Pension Plan Benefits" section of this Proxy Statement. Earnings on the nonqualified deferred compensation plan are noted on the Nonqualified Deferred Compensation table for those executives participating in the plan. Earnings have been excluded from this table since earnings were not at above market or at preferential rates.

(4) All other compensation for 2018 is comprised of 401(k) matching contributions made by the Group on behalf of the executive, the personal use of company-provided vehicles and associated insurance,

supplemental medical reimbursement plan, and relocation benefits. The value of the 401(k) matching contributions made by Group on behalf of the named executives was \$16,500 for all five listed executives. The reported value attributable to personal use of company-provided cars are as follows: Mr. Kropelnicki, \$10,286; Mr. Smegal, \$13,635; Mr. Townsley, \$4,236; Mr. Kuta, \$10,454; and Ms. McGhee, \$6,775. The recorded cost for the supplemental medical plan was \$17,184 for all named executive officers, except Ms. McGhee who was \$6,072. Additionally, Mr. Kuta received a housing allowance for the first three months of 2018 in connection with his relocation to San Jose, California as approved by the Organization and Compensation Committee.

(2) Includes amounts the NEOs may not currently be entitled to receive because such amounts are not vested.

The benefits under the SERP are obtained by applying the same benefit provisions of the Pension Plan, a tax-qualified plan, to all compensation included under the Pension Plan, without regard to these limits, reduced by benefits actually accrued under the Pension Plan. Under the SERP, all eligible executives are fully vested after 15 years of service and at age 60. SERP participants are eligible for early retirement starting at age 55 and would receive a reduced benefit ranging from 74% to 95% of their monthly SERP benefit upon early retirement between the ages of 55 and 60. Under the Pension Plan, all eligible employees, including executives, are fully vested after 35 years of service. The SERP is structured such that benefits are paid to executives on a "pay as you go" basis. None of our executives received any payments under the Pension Plan or SERP during 2018.

The combined maximum benefit payout under the SERP and Pension Plan achievable by an executive is 60% of the average, eligible compensation paid over the previous 36 months prior to retirement, excluding any equity compensation.

The Deferred Compensation Plan provides specified benefits to a select group of management and highly compensated employees who contribute materially to the continued growth, development, and future business success of the Group. The Deferred Compensation Plan permits the Group's executives and eligible managers to defer up to 50% of their base salary. The Group does not make any contributions to the Deferred Compensation Plan. The Deferred Compensation Plan's investment options are similar, but not identical, to the Group's tax-qualified 401(k) plan and are funded by a Rabbi trust created for the funding of such benefits. Benefits under the Deferred Compensation Plan are payable by the Group upon separation from service with the Group either in lump sum at separation, in monthly installments over five years following separation, or in lump sum or installments commencing five years following separation.

Potential Payments upon Termination or Change in Control

The information below describes certain compensation that would have become payable under existing plans and contractual arrangements assuming a termination of employment, or a change in control and termination of employment, had occurred on December 31, 2018, given the executive's compensation and service levels as of such date. In addition to the benefits described below, upon any termination of employment, each of the executives would also be entitled to the benefits as described in the table of Pension Benefits for Fiscal Year 2017 and the amount shown in the column labeled "Aggregate Balance at Last FY" of the table of Nonqualified Deferred Compensation for Fiscal Year 2018 above.

On December 16, 1998, the Group adopted the Executive Severance Plan. The Executive Severance Plan provides that if within 24 months following a change in control of the Group, the executive's employment is terminated by the Group for any reason other than good cause or by the executive for good reason, the Group will make a cash payment to the executive in an amount equal to three times such executive's base salary on the date of the change in control or on the date that the executive's employment terminates, whichever is greater. The payments would be paid in three equal annual installments commencing on the first of the month following the month in which the executive's employment terminated and payable thereafter on the anniversary of the initial payment date. Each executive will also receive a gross-up payment if the executive is required to pay an excise tax under section 4999 of the Internal Revenue Code.

Table of Contents

Each executive's entitlement to the severance payment is conditioned upon execution of a release agreement. Additionally, the executive forfeits the right to receive the severance payment if he or she violates the non-solicitation and confidentiality provisions of the Executive Severance Plan.

For purposes of the Executive Severance Plan, the term "change in control" means the occurrence of (i) any merger or consolidation of the Group in which the Group is not the surviving organization, a majority of the capital stock of which is not owned by the stockholders of the Group immediately prior to such merger or consolidation; (ii) a transfer of all or substantially all of the assets of the Group; (iii) any other corporate reorganization in which there is a change in ownership of the outstanding shares of the Group wherein thirty percent (30%) or more of the outstanding shares of the Group are transferred to any person; (iv) the acquisition by or transfer to a person (including all affiliates or associates of such person) of beneficial ownership of capital stock of the Group if after such acquisition or transfer such person (and their affiliates or associates) is entitled to exercise thirty percent (30%) or more of the outstanding voting power of all capital stock of the Group entitled to vote in elections of directors; or (v) the election to the Board of Directors of the Group of candidates who were not recommended for election by the Board of Directors of the Group in office immediately prior to the election, if such candidates constitute a majority of those elected in that particular election.

For purposes of the Executive Severance Plan, "good cause" will be deemed to exist if (i) the applicable executive engages in acts or omissions that result in substantial harm to the business or property of the Group and that constitute dishonesty, intentional breach of fiduciary obligation, or intentional wrongdoing; or (ii) the applicable executive is convicted of a criminal violation involving fraud or dishonesty.

For purposes of the Executive Severance Plan, "good reason" will be deemed to exist if, without the applicable executive's consent, (i) there is a significant change in the nature or the scope of the applicable executive's authority or in his or her overall working environment; (ii) the applicable executive is assigned duties materially inconsistent with his or her present duties, responsibilities and status; (iii) there is a reduction in the applicable executive's rate of base salary or bonus; or (iv) the Group changes by 100 miles or more the principal location in which the applicable executive is required to perform services. Had a change in control occurred during fiscal year 2018 and had their employment been terminated on December 31, 2018, either without good cause or by the executive for good reason, the NEOs would have been eligible to receive the payments set forth in the table below.

In addition to the Executive Severance Plan, each executive is covered by the Group's general severance policy. Under the severance policy, each non-union employee of Group whose employment is terminated without cause is entitled to severance pay of either one week's pay after completing two years of service or two weeks' pay after completing five or more years of service, provided at least two weeks' notice is given. In addition, all executives are entitled to a payout of six weeks of vacation time upon any termination of employment, to be paid in a lump sum at termination. In the absence of a change in control, had their employment been terminated on December 31, 2018, without cause, the executives would have been eligible to receive the payments set forth below.

CEO Pay Ratio

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and Item 402(u) of Regulation S-K, we are providing the following information about the ratio of the annual total compensation, calculated in accordance with the requirements of Item 402(c)(2)(x) of Regulation S-K of our median compensated employee and the annual total compensation of our President & CEO, Martin A. Kropelnicki.

The 2018 annual total compensation of the median compensated of all our employees who were employed on December 31, 2018, other than our President & CEO, was \$93,630; Mr. Kropelnicki's 2018 annual total compensation was \$5,913,608, inclusive of \$3,113,669 which as previously disclosed represents the estimated non-cash present value changes in the actuarial projections of his future potential pension benefits under the groups authorized retirement plans; the ratio of these amounts was 1-to-63. Actual benefits earned are contingent upon a number of factors including years of service, age at retirement, expected life mortality tables, interest rates, and service level vesting requirements. Excluding the \$3,114,609 estimated change in present value of the actuarially projected pension benefits, the 2018 annual total compensation of both Mr. Kropelnicki's and our median compensated employee, who had a negative change in present value during 2018 due to an increase in the discount rate of the plan, would result in 2018 annual compensation of \$2,798,999 and \$93,630 respectively, the ratio of these amounts was 1-to-30.

The SEC's rules for identifying the median compensated employee and calculating the pay ratio based on that employee's annual total compensation allow companies to adopt a variety of methodologies, to apply certain exclusions, and to make reasonable estimates and assumptions that reflect their employee populations and compensation practices. As a result, the pay ratio reported by other companies may not be comparable to the pay ratio reported above, as other companies have different employee populations and compensation practices and may utilize different methodologies, exclusions, estimates and assumptions in calculating their own pay ratios.

The pay ratio reported above is a reasonable estimate calculated in a manner consistent with SEC rules based on our payroll and employment records and the methodology described below. For these purposes, we identified the median compensated employee by first including full-time, part-time, seasonal, and temporary employees, excluding the President & CEO, for a total of 1,174 employees in the median compensation pool. We used actual salary and compensation paid in 2018, as reflected in our payroll records, excluding equity awards and bonus payments as these are not broadly distributed, to determine the median employee. We then calculated the median employee's total compensation in accordance with SEC rules to

Table of Contents

determine the pay ratio. We did not annualize the compensation for any employee who did not work for the entire year. We identified our employee population as of December 31, 2018 based on our payroll records.

Director Compensation**For Fiscal Year Ended 2018**

The Group's non-employee directors receive retainers comprised of both a cash award and an equity award along with meeting fees for their service. The Nominating/Corporate Governance Committee is responsible for non-employee director compensation and makes recommendations to the Board. For 2018, the Nominating/Corporate Governance retained the services of Veritas for determining non-employee director compensation.

Our 2018 director compensation program is summarized in the table below:

(1)

In 2018, non-employee directors received grants of restricted stock valued at \$80,000 as the Board retainer. The restricted stock grants were made on March 1, 2018, and were fully vested on the first anniversary of the grant date.

In September of 2018, Veritas provided assistance to the Nominating/Corporate Governance Committee in the annual review of director compensation, with recommendations based on competitive positioning, both in terms of individual compensation components and total compensation. With consideration for this review, the Nominating/Corporate Governance Committee approved increases to the foregoing amounts, effective January 1, 2019, as follows: non-employee directors will receive an annual base retainer of \$63,600 (an increase from \$55,000 in 2017) and a grant of restricted stock valued at \$80,000. The Audit Committee chair will receive an \$18,000 retainer, while chair retainers for the Finance and Risk Management Committee, the Organization and Compensation Committee, and the Nominating/Corporate Governance Committee will be unchanged, at \$10,000, \$13,500, and \$12,500, respectively. Board and committee meeting fees for the chairman and other non-employee directors will remain unchanged for 2019. The chairman will receive a Board retainer of \$63,600 and a chairman retainer of \$60,000 for 2019. The lead director will receive a \$22,000 retainer due to continued increased responsibilities, including stockholder engagement.

Table of Contents

The Board of Directors requires non-employee directors to maintain a certain amount of stock ownership consistent with our stock ownership requirements. Pursuant to the Group's Corporate Governance Guidelines, available on the Group's website at <http://www.calwatergroup.com>, beneficial ownership of an aggregate amount of shares having a value of five times the amount of the annual base retainer is required. Non-employee directors are required to achieve the relevant ownership threshold within five years following adoption of the requirements or five years after commencing service, whichever is later. The Nominating/Corporate Governance Committee will review compliance with these requirements for non-employee directors on an annual basis.

Directors may elect to defer cash compensation payable to them under the Group's deferred compensation plan in the same manner as applicable to the Group's executives as described above. In addition, the Group maintains a Director Retirement Plan for the benefit of its non-employee directors. In December 2005, this plan was closed to new participants; however Mr. Magnuson was, at that time, a participant in the plan and thus continues to accrue benefits thereunder. Under the Director Retirement Plan, a director who participates in the plan and retires after serving on the Board for a total of five or more years will receive a retirement benefit equivalent to \$22,000 per year. This benefit will be paid for the number of years the director served on the Board, up to 10 years. Under this program in 2018, amounts were paid to former directors Douglas M. Brown, Robert W. Foy, Bonnie G. Hill, Linda R. Meier, and George A. Vera.

(1) Mr. Nelson's retainer consists of \$60,000 for his role as Chairman of the Board.

(2) Amounts reflect the full grant date fair value of each RSA granted in 2018 to the non-employee directors, calculated in accordance with FASB ASC Topic 718, disregarding estimates for forfeitures. Assumptions used in the calculation of these amounts are included in footnote 12 of Group's annual report on Form 10-K filed with the Securities and Exchange Commission on March 1, 2019.

(3) At the end of 2018, the aggregate number of RSAs held by each current non-employee director was as follows: Peter C. Nelson, 17,272; Gregory E. Aliff, 8,013; Terry P. Bayer, 11,315; Shelly M. Esque, 1,138; Edwin A. Guiles, 32,036; Dr. Thomas M. Krummel, M.D., 23,799; Richard P. Magnuson, 30,196; Carol M. Pottenger, 2,657; and Lester A. Snow, 17,583.

(4) Amounts in this column represent the actuarial increase in the present value of the director benefits under the Group's Director Retirement Plan. In December 2005, this plan was closed to new participants; however, any director active in 2005 will continue to accrue benefits. Amounts for 2018 consist of the negative change in present value during 2018 due to an increase in the discount rate

of the plan for Mr. Richard P. Magnuson, \$10,397.

REPORT OF THE ORGANIZATION AND COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS ON EXECUTIVE COMPENSATION

The Organization and Compensation Committee of the Group's Board of Directors has submitted the following report for inclusion in this Proxy Statement:

The Organization and Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis contained in this Proxy Statement with management. Based on our review of and the discussions with management with respect to the Compensation Discussion and Analysis, the Organization and Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and in the Group's annual report on Form 10-K for the fiscal year ended December 31, 2018, for filing with the SEC.

The foregoing report is provided by the following directors, who constitute the Organization and Compensation Committee:

ORGANIZATION AND COMPENSATION COMMITTEE

Thomas M. Krummel, M.D., Committee Chair
Terry P. Bayer
Edwin A. Guiles
Lester A. Snow

ORGANIZATION AND COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The following directors were members of the Organization and Compensation Committee during the 2018 fiscal year: Thomas M. Krummel, M.D., Committee Chair, Terry P. Bayer, Edwin A. Guiles, and Lester A. Snow. No member of the Organization and Compensation Committee was an executive or employee of the Group or any of its subsidiaries during 2018, nor was any such member previously an executive of the Group or any of its subsidiaries. No member of the Organization and Compensation Committee had any material interest in a transaction of the Group or a business relationship with, in each case that would require disclosure under "Procedures for Approval of Related Person Transactions" included elsewhere in this Proxy Statement.

None of the executives of the Group have served on the board of directors or on the compensation committee of any other entity, any of whose executives served either on the Board of Directors or on the Organization and Compensation Committee of the Group.

PROCEDURES FOR APPROVAL OF RELATED PERSON TRANSACTIONS

Transactions involving related persons are reviewed on a case-by-case basis and approved as appropriate. The Board's Nominating/Corporate Governance Committee is responsible for review, approval, or ratification of "related person transactions" involving the Group or its subsidiaries and related persons. Under rules of the Securities and Exchange Commission, a related person is a director, executive officer, nominee for director, or a greater than 5% stockholder of the Group since the beginning of the previous fiscal year. Potential related person transactions are brought to the attention of management and the Board in a number of ways. Each of our directors and executive officers is instructed and periodically reminded to inform the Corporate Secretary of any potential related person transactions. In addition, each director and executive office completes a questionnaire on an annual basis designed to elicit information about any potential related person transactions.

Since the beginning of 2018, there were no related person transactions under the relevant standards.

PROPOSAL NO. 2 ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

The Group is asking stockholders to vote on an advisory resolution to approve the Group's executive compensation programs as reported in this Proxy Statement in accordance with Section 14A of the Securities Exchange Act of 1934. The Board has adopted a policy providing for an annual advisory vote to approve executive compensation. Stockholders previously indicated their preference that the advisory vote on named executive compensation occur once every year.

We believe that our executive compensation program is strongly aligned with the long-term interests of our stockholders as well as customers. As discussed in the Compensation Discussion and Analysis section of this Proxy Statement, the Board and the Organization and Compensation Committee considered the results of these "Say-on-Pay" votes and modified our executive compensation program for 2013 and continued to apply the same effective principles when making compensation decisions for 2018.

The Group's goal for its executive compensation programs is to attract, motivate, and retain talented executives who will provide leadership for the Group. The Group seeks to accomplish this goal in a way that rewards performance and is aligned with the long-term interests of customers and stockholders. The Group believes that its executive compensation programs achieve this goal.

The "Compensation Discussion and Analysis" section of this Proxy Statement describes the Group's executive compensation programs and the decisions made by the Organization and Compensation Committee for 2018 in more detail. Highlights of the programs include the following:

Performance-based Equity Compensation;

Short-term Performance-based Incentive Compensation;

No Employment Agreements;

No Single Trigger Change in Control Benefits;

No Tax Gross-Ups on Perquisites;

Limited Perquisites;

Director and Executive Stock Ownership Requirements;

Clawback Policy; and

Anti-hedging and Anti-pledging Policies.

For 2018, 50% of long-term equity awards granted to our executives are in the form of RSUs subject to performance-based vesting criteria and 50% are in the form of time-based RSAs. The performance-based RSUs provide for a three-year performance period and provide for vesting based solely upon the achievement of objective performance criteria. The performance criteria are tied to the following performance metrics: water quality, customer service, plant additions, return on assets, and safety.

Further, in 2014, we introduced annual performance-based short-term incentive compensation for executives as part of the Group's executive compensation program. The Committee believes that our executive compensation program provides a good mix of short-term and long-term compensation that supports the business strategies and creates long-term stockholder value.

The Group is asking stockholders to support the named executive officer compensation as described in this Proxy Statement. The Organization and Compensation Committee and the

Table of Contents

Board believe that the policies and procedures articulated in the "Compensation Discussion and Analysis" are effective in achieving the Group's goals and that the compensation of the Group's named executive officers reported in this Proxy Statement has supported and contributed to the Group's success. Accordingly, the Group asks stockholders to vote "FOR" the following resolution at the Annual Meeting:

"RESOLVED, that the stockholders of California Water Service Group approve, on an advisory basis, the compensation paid to California Water Service Group's named executive officers, as disclosed in this Proxy Statement pursuant to the SEC's compensation disclosure rules, including the Compensation Discussion and Analysis, the compensation tables and related narrative discussion."

This advisory resolution, commonly referred to as a "Say-on-Pay" resolution, is not binding upon the Group, the Organization and Compensation Committee, or the Board. However, the Board and the Organization and Compensation Committee, which is responsible for designing and administering the Group's executive compensation programs, value the opinions expressed by stockholders in their vote on this proposal and will consider the outcome of the vote when making future compensation decisions for named executive officers. After consideration of the vote of stockholders at the 2018 Annual Meeting of Stockholders and other factors, the Board decided to hold advisory votes on the approval of executive compensation annually until the next advisory vote on frequency occurs. Unless the Board modifies its policy on the frequency of future advisory votes, the advisory vote to approve the 2019 executive compensation will be held at the 2020 Annual Meeting.

Vote Required

Approval of Proposal No. 2 requires the affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting.

Recommendation of the Board

Our Board of Directors unanimously recommends that you vote "FOR" this proposal.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee oversees the Group's financial reporting process on behalf of the Board of Directors. The Audit Committee's purpose and responsibilities are set forth in the Audit Committee charter. The current charter is available on the Group's website at <http://www.calwatergroup.com>. The Audit Committee consists of four members, each of whom meet the New York Stock Exchange standards for independence and the Sarbanes-Oxley Act independence standards for Audit Committee membership, and two of the Audit Committee's four members meet the requirements of an Audit Committee financial expert. During 2018, the Audit Committee met five times.

The Group's management has primary responsibility for preparing the Group's financial statements and the overall reporting process, including the Group's system of internal controls. Deloitte & Touche LLP, the Group's independent registered public accounting firm, audited the financial statements prepared by the Group and expressed their opinion that the financial statements fairly present the Group's financial position, results of operations, and cash flows in conformity with generally accepted accounting principles. Deloitte & Touche LLP expressed an adverse opinion on the Group's internal control over financial reporting as of December 31, 2018.

In connection with the December 31, 2018 financial statements, the Audit Committee:

- (1) Reviewed and discussed the audited financial statements with management and Deloitte & Touche LLP;
- (2) Discussed with Deloitte & Touche LLP the matters required to be discussed under applicable rules of the Public Company Accounting Oversight Board;
- (3) Received from Deloitte & Touche LLP the written disclosures and the letter required by applicable rules of the Public Company Accounting Oversight Board regarding the firm's communications with the Audit Committee concerning independence, and also discussed with Deloitte & Touche LLP the firm's independence, and considered whether the firm's provision of non-audit services and the fees and costs billed for those services are compatible with Deloitte & Touche LLP's independence; and
- (4) Met privately with Deloitte & Touche LLP and the Group's internal auditor, each of whom has unrestricted access to the Audit Committee, without management present, and discussed their evaluations of the Group's internal controls and overall quality of the Group's financial reporting and accounting principles used in preparation of the financial statements. The Committee also met privately with the Group's President & CEO, the CFO and the Controller to discuss the same issues.

Based upon these reviews and discussions, the Audit Committee recommended to the Board that the audited financial statements be included in the annual report on Form 10-K to be filed with the Securities and Exchange Commission. Additionally, the Audit Committee reviewed and discussed with management the material weakness in internal controls over financial reporting related to the design and maintenance of effective internal controls over the Group's accounting for regulatory assets and liabilities under ASC 980, specifically controls over the accuracy and completeness of the pension balancing and healthcare balancing accounts as they relate to the amounts authorized in the 2015 General Rate Case.

After consideration, and as a matter of good corporate governance, the Board is requesting stockholder ratification of Deloitte & Touche LLP as the independent registered public accounting firm, to audit the Group's books, records, and accounts for the year ending December 31, 2019. Stockholders Sharing an Address

The SEC allows the Group to deliver a single proxy statement and annual report to an address shared by two or more of our stockholders. This delivery method, referred to as "householding," can result in significant cost savings for the Group. In order to take advantage of this opportunity, banks and brokerage firms that hold shares for stockholders who are the beneficial owners, but not the record holders, of the Group's shares, have delivered only one proxy statement and annual report to multiple stockholders who share an address, unless one or more of the stockholders has provided contrary instructions. For stockholders who are the record holders of the Group's shares, the Group may follow a similar process absent contrary instructions. The Group will deliver promptly, upon written or oral request, a separate copy of the proxy statement and annual report to a stockholder at a shared address to which a single copy of the documents was delivered. A stockholder who wishes to receive a separate copy of the proxy statement and annual report, now or in the future, may obtain one, without charge, by addressing a request to the Corporate Secretary, California Water Service Group, 1720 North First Street, San Jose, California 95112-4508 or calling (408) 367-8200. Stockholders of record sharing an address who are receiving multiple copies of proxy materials and annual reports and wish to receive a single copy of such materials in the future should submit their request by contacting the Group in the same manner. If you are the beneficial owner, but not the record holder, of the Group's shares and wish to receive only one copy of the proxy statement and annual report in the future, you will need to contact your broker, bank, or other nominee to request that only a single copy of each document be mailed to all stockholders at the shared address in the future.

Copies of Annual Report on Form 10-K

The Group, upon written request, will furnish to record and beneficial holders of its common stock, free of charge, a copy of its Annual Report on Form 10-K (including financial statements and schedules but without exhibits) for fiscal year 2018. Copies of exhibits to Form 10-K also will be furnished upon request for a payment of a fee of \$0.50 per page. All requests should be directed to the Corporate Secretary, California Water Service Group, 1720 North First Street, San Jose, California 95112-4508.

Electronic copies of the Group's Form 10-K, including exhibits and this Proxy Statement will be available on the Group's website at <http://www.calwatergroup.com>.
