Explanatory Note to Amendment

Filed with this Amendment No. 1 on Form 40-F/A, please find the audited comparative consolidated balance sheets of TransGlobe Energy Corporation (the "**Company**") for the years ended December 31, 2007 and 2006, and the consolidated statements of income, retained earnings, comprehensive income and cash flows for the years then ended, together with the notes thereto and the auditors' reports thereon, as amended and restated as at February 10, 2009 (collectively, the "**Restated 2007 Financial Statements**").

As was announced on April 30, 2008, the Company sold its Canadian oil and natural gas interests to a third party for the purchase price of Cdn\$56.7 million, before normal closing adjustments. By reason of this disposition, the Company is required, as part of normal course compliance with Canadian GAAP, to restate the results of its prior periods, including in respect of its results for the 12-month period ended December 31, 2007. The specific purpose of such restatement is to account for the Canadian operations as discontinued operations. The Company has similarly restated the results of its prior, comparative periods in respect of its financial statements filed for the three months ended March 31, 2008, the three and six months ended June 30, 2008 and the three and nine months ended September 30, 2008.

As was also recently announced, the Company has entered into an agreement with a syndicate of underwriters respecting the purchase for resale, on a bought deal basis, of 5,798,000 common shares (**Common Shares**) of the Company at Cdn\$3.45 per Common Share (the **Offering**) to raise gross proceeds of approximately Cdn\$20.0 million. In order to comply with Canadian generally accepted accounting principles, the Company is required to file the Restated 2007 Financial Statements in conjunction with filing the preliminary prospectus for the Offering, and incorporate the Restated 2007 Financial Statements in such preliminary prospectus. Accordingly, the Restated 2007 Financial Statements have been filed as at today's date - rather than being filed in conjunction with the filing of the audited financial statements for the 12-month period ended December 31, 2008.

DISCLOSURE CONTROLS AND PROCEDURES

After evaluating the effectiveness of the Registrant's disclosure controls and procedures as required by paragraph (b) of 17 CFR 240.13a-15 or 240.15d-15, the Chief Executive Officer and Chief Financial Officer of the Registrant have concluded that, as of the fiscal year ended December 31, 2007, the Registrant's disclosure controls and procedures were effective to ensure that material information required to be disclosed by the Registrant in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms, and accumulated and communicated to the Registrant's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND CHANGES THERETO

Management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) under the *Securities Exchange Act of 1934*, as amended (the Exchange Act). Our internal control system is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles in Canada and in the United States.

Management recognizes that effective internal control over financial reporting may nonetheless not prevent or detect all possible misstatements or frauds. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with policies or procedures may deteriorate.

Pursuant to published guidance from the SEC Staff, management has excluded from its assessment the internal control over financial reporting at Dublin International Petroleum (Egypt) Limited and Drucker Petroleum Inc., which were acquired on September 25, 2007 and whose financial statements constitute 55 percent and 35 percent of net and total assets, respectively, 8 percent of revenues, and 9 percent of net income of the Consolidated Audited Annual Financial Statement amounts as of and for the fiscal year ended December 31, 2007. Subject to the foregoing, no change in the Registrant's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rule 13a-15 occurred during the fiscal year ended December 31, 2007 that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Management has evaluated the effectiveness of the Registrant's internal control over financial reporting as of fiscal year ended December 31, 2007 based on the framework in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this evaluation, management concluded that, as of fiscal year ended December 31, 2007, the Registrant maintained effective internal control over financial reporting.

Deloitte & Touche LLP, the independent registered public accounting firm that audited the Registrant's consolidated financial statements as of fiscal year ended December 31, 2007, has expressed its opinion on the effectiveness of the Registrant's internal control over financial reporting as of fiscal year ended December 31, 2007. A copy of Deloitte & Touche LLP's attestation report on internal control over financial reporting is included herein as Exhibit 99.4 of this Annual Report on Form 40-F.

FORWARD-LOOKING STATEMENTS

This Annual Report on Form 40-F may include certain statements deemed to be forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Such statements relate to possible future events. All statements other than statements of historical fact may be forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as "seek", "anticipate", "plan", "continue", "estimate",

"expect", "may", "will", "project", "predict", "potential", "targeting", "intend", "could", "might", "should", "believe" and similar expressions. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. Although the Registrant's forward-looking statements are based on the beliefs, expectations, opinions and assumptions of the Registrant's management on the date the statements are made, such statements are inherently uncertain and provide no guarantee of future performance. Actual results may differ materially from the Registrant's expectations as reflected in such forward-looking statements as a result of various factors, many of which are beyond the control of the Registrant. These factors include, but are not limited to, unforeseen changes in the rate of production from the Registrant's oil and gas properties, changes in the price of crude oil and natural gas, adverse technical factors associated with exploration, development, production or transportation of the Registrant's crude oil and natural gas reserves, changes or disruptions in the political or fiscal regimes in the Registrant's areas of activity, changes in tax, energy or other laws or regulations, changes in significant capital expenditures, delays or disruptions in production due to shortages of skilled manpower, equipment or materials, economic fluctuations, and other factors beyond the Registrant's control.

In particular, this Annual Report on Form 40-F contains forward-looking statements pertaining to the following:

- the quantity of reserves;
- oil and natural gas production levels;
- capital expenditure programs;
- projections of market prices and costs;
- supply and demand for oil and natural gas;
- expectations regarding the Company's ability to raise capital and to continually add to reserves through exploration, acquisitions and development; and
- treatment under government regulatory and taxation regimes.

The Registrant's actual results could differ materially from those anticipated in these forward-looking statements as a result of the risk factors set forth below and elsewhere in this Annual Report on Form 40-F:

- volatility in market prices for oil and natural gas;
- liabilities and risks inherent in oil and natural gas operations;
- uncertainties associated with estimating reserves;
- competition for, among other things, capital, acquisitions of reserves, undeveloped lands, equipment and skilled personnel;
- incorrect assessments of the value of acquisition; and
- geological, technical, drilling and processing problems.

The Registrant does not assume any obligation to update forward-looking statements if circumstances or management's beliefs, expectations or opinions should change, and investors should not attribute undue certainty to, or place undue reliance on, any forward-looking statements. Please consult the Registrant's public filings at http://www.sedar.com/search/search_form_pc_en.htm and <http://www.sec.gov/edgar/searchedgar/companysearch.html> for further, more detailed information concerning these matters.
