Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation

The condensed consolidated financial statements contained herein have been prepared in accordance with generally accepted accounting principles for interim financial statements, the instructions to Form 10-QSB and Item 310 of Regulation S-B. Accordingly, these financial statements do not include all the information and footnotes required by generally accepted accounting principles for annual financial statements. In addition, certain comparative figures presented have been reclassified to conform the prior year's data to the Company's current financial statements. In the opinion of management, the accompanying condensed consolidated financial statements contain all the adjustments necessary (consisting only of normal recurring accruals) to fairly present the financial position of the Company at February 28, 2005, and its results of operations and cash flows for the three months ended February 29, 2004 and February 28, 2005. Operating results for the three months ended February 28, 2005, are not necessarily indicative of the results that may be expected for the fiscal year ending November 30, 2005.

Principles of Consolidation

The accompanying unaudited condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant inter-company balances and transactions have been eliminated.

Customer Base & Credit Concentration

The Company has over the last three years, developed a large, diverse, and distinguished customer base of traditional retailers, that include national as well as large regional chains, specialty retailers, corporate accounts, college bookstores, motor sports, souvenir and gift shops, and golf shops. This expansion has been achieved through the acquisition of CMJ, Lil Fan, Choice, and their respective customer base, the introduction of additional major product lines and distribution channels, such as the Motor Sports Division, which sells to a national auto dealer market consisting of approximately 9,000 customers, as well as expansion of its traditional national retail merchant customer base. As a result of the expansion, the Company has reduced its dependence on any one large customer or distribution channel. During the three months ended February 28, 2005, the Company's sales to seven customers made up 77.6% of total sales. One of these seven customers was not a customer in the three months ended February 29, 2004. The Company's management believes that the Company's credit risk exposure is limited based on current information available with respect to the financial strength of its customers and previously recorded reserves. Such estimates could change in the future.

New Pronouncements

Statement of Financial Accounting Standards (SFAS) No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," SFAS No. 145, "Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections," SFAS No. 141, "Business Combinations," SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities," SFAS No. 148, "Accounting for Stock Based Compensation," FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others," FASB Interpretation No. 46, "Consolidation for Variable Interest Entities" all became effective for the Company during 2002. SFAS 142 also requires the Company to complete a transitional goodwill impairment test six months from the date of adoption. The provisions of these interpretations that are applicable to the Company were implemented on a prospective basis as of January 1, 2002, which had no material effect on the Company's financial statements.

Introduction

As noted elsewhere in this report, the Company's principal customers are large national and regional retailers. In order to maintain its relationship with these customers, enhance revenues from them and enable them to improve their revenues and margins, the Company must work closely with these customers to ensure they receive the Company's products expeditiously and economically. The Company works diligently to maintain what Management calls supply chain excellence—a way for the Company to provide value added services to its customers.

In servicing its customers, the Company faces competition from numerous other providers of licensed promotional products. Many of these competitors are larger and better capitalized than the Company. Additionally, if the Company is to continue to grow its business by adding additional products and by making strategic acquisitions, it will require additional capital. Therefore, Management may enter into negotiations with sources of equity in an effort to furnish additional capital.

In assessing the Company's performance, Management focuses on (a) increasing revenues primarily through enhancing its licensing programs and (b) protecting such revenues by diversifying its customer bases regionally and demographically. In order to enhance profitability, Management monitors and seeks to improve gross margins primarily by internal cost controls and through international purchases of raw materials. Management also strives to reduce fixed costs as a percentage of sales, improve inventory turnover and reduce receivables measured by day's sales outstanding, all in an effort to improve profitability and cash flow.

Overview

The Company is a creative and innovative sales and marketing organization that designs, develops, markets, and distributes licensed and branded promotional products and imprinted sportswear primarily through key licensing agreements and the Company's own proprietary designs. Management believes that there are substantial growth opportunities in the promotional products and imprinted sportswear industries. Management believes that the

Company is well positioned to take advantage of such growth opportunities. Management believes that the Company has an excellent reputation in the marketplace as a result of its ability to provide quality products and services, on-time delivery, at competitive prices. In recent years, licensed imprinted sportswear has become very popular. Licensing agreements are available for branded products and services, amateur and professional sports teams, and many other promotional areas. To maximize its potential, the Company has, over the last two years, significantly expanded its license program to include the following:

Approximately 200 licenses and agreements to distribute its **Cadre Athletic™**, and **Campus Traditions USA™** line for most major colleges and universities in the U.S.;

Licensing agreements with **Chevy®**, **Pontiac®**, **Hummer®**, **Cadillac®**, **Dodge®**, **GMC®**, **Ford®** **Plymouth®**, **Jeep®**, and **Chrysler®** for their respective “branded” logos for the **RPM Sports USA™** motor sports line, targeting the automotive dealership network and automotive venue markets;

Licensing and distribution agreements with **Sturgis “Bike Rally”**, **Professional Bull Riders**, and **James Dean 50 commemorative anniversary; the 3 Stooges, and Fellowship of Christian Athletics.**

Proprietary designs including **American Biker™**, **American Wildlife™**, **Ragtops Sportswear™**, **Cadre Athletic™**, and **Campus Traditions USA™**, among others.

Operations and Expansion

The Company is one of the significant companies in the highly fragmented licensed promotional products and imprinted sportswear industries. The Company has implemented its strategy of The Total Solution Company to meet its customers key requirements including: art design and development, manufacturing (for imprinted sportswear), sourcing (for distributed products), warehousing and fulfillment. The Company has, over the last three years, developed a large, diverse, and distinguished customer base of traditional retailers, ranging from national as well as large regional chains, specialty retailers, corporate accounts, college bookstores, motor sports, souvenir and gift shops, and golf shops.

The Company is actively engaged in discussions with various potential acquisition targets and plans to grow through strategic acquisitions of complementary businesses. The Company has embarked on an aggressive acquisition program that targets companies servicing other segments of the promotional products and imprinted sportswear industry not currently serviced by the Company. It is anticipated that such strategic acquisition targets will enable the Company to more effectively utilize its marketing and sales expertise, acquire the ability to cross-distribute its branded products and licenses throughout a wider distribution base, lessen its dependency on the seasonality of retail customers and reduce overall operating costs by consolidating its services and distribution facilities, to the extent feasible.

The Company has expanded its business to include e-commerce web sites through which some of the Company’s most popular licensed products are marketed. The Company has been successful in establishing itself as a premier supplier

under various e-commerce web sites, currently the most significant of which are www.campustraditionsusa.comTM; www.rpmsportswearusa.comTM; www.americanwildlifeusa.comTM; and www.americanbiker.netTM. The Company plans to establish additional e-commerce web sites as other product lines are established. Another recent addition includes a corporate website, www.nextinc.net, which gives information to the general public about the Company.

Net Sales

Net sales increased 24.0% to \$4,718,012 for the three months ended February 28, 2005, from \$3,805,421 for the three months ended February 29, 2004. The growth in sales is twofold; the inclusion of sales related to Choice International which was \$235,379 or 6.2% and was not in the prior period ending February 29, 2004. The remaining increase of sales is in six existing national retail customers which purchased increased amounts of automotive licensed products; partially offset by a reduction in one major national customer. Management believes that future sales growth will continue primarily through the diversification and expansion of the Company's customer base and its expanded product offerings.

Cost of Sales

Cost of sales was 68.9% for the three months ended February 28, 2005, compared to 66.5% of the Company's sales for the three months ended February 29, 2004. This increase in cost as a percentage of sales resulted primarily from increased domestic purchasing and reduced imports due to difficulties our primary vendors incurred with customs during the first quarter of 2005. Management believes this situation has been resolved and shipments from international sources are expected to be delivered in a timely manner for the balance of 2005.

Expenses included in cost of sales were primarily raw materials, labor, shipping supplies, and the depreciation of both the Company's principal manufacturing facility in Indiana and its equipment.

Operating and Other Expenses

General and administrative expenses were \$655,961 (13.9% of sales) for the three months ended February 28, 2005, compared to \$518,712 (13.6 % of sales) for the three months ended February 29, 2004. The primary increase in

expenses is related to the addition of the Choice International sales office, which the Company did not have in the three months ended February 29, 2004 or \$99,658 (2.1% of sales) for the quarter ended February 28, 2005.

Royalty and commission expenses were \$495,866 (10.3% of sales) for the three months ended February 28, 2005, compared to \$417,248 (11.0% of sales) for the three months ended February 29, 2004. The increase in expense was directly related to a higher sales mix of automotive licensed products which have a higher royalty expense percentage than prior year.

Corporate expenses were \$263,404 for the three months ended February 28, 2005, compared to \$280,413 for the three months ended February 29, 2004. The decrease in corporate expenses was a result of lower banking fees due to change in primary banks from previous year.

Interest expense relates to the Company's short and long-term debt. Interest expense was \$117,235 for the three months ended February 28, 2005, compared to \$117,571 for the three months ended February 29, 2004.

Other income was \$22,660 for the three months period ending February 28, 2005, as compared to \$13,534 for the three months ended February 29, 2004.

The benefit for income taxes for the three months ended February 28, 2005, was \$13,129, which is attributable to the Company's quarterly operating loss adjusted by book and income tax recognition of temporary differences. The benefit for income taxes for the three-month period ended February 29, 2004, was \$18,268, which was higher related to the pre-tax loss and recognition of book and tax temporary differences.

Financial Position, Capital Resources, and Liquidity February 28, 2005 and November 30, 2004

At February 28, 2005, working capital was \$5,527,401 representing a decrease of \$4,073,278 from working capital at November 30, 2004 of \$9,600,679. The decrease in working capital was primarily due to increase in short term debt of \$2,743,967 from long term associated with the due date of debt on the primary plant and reduction of account receivable, \$2,066,143, related to seasonality. The Company is subject to seasonality in its sales cycle due to the amount of college-licensed products. The seasonality of sales results in the majority of the Company's revenues being generated in the third and fourth quarters.

Liquidity and Capital Resources

The Company has historically financed its operations through a combination of earnings and debt. The Company's principal sources of debt financing are its revolving line of credit with National City Bank and promissory notes issued by First Federal Bank. The credit facility has a maximum limit of \$8,000,000 of which the Company has drawn \$3,682,076 as of February 28, 2005. This credit facility matures on April 1, 2006, and is governed by various financial covenants. The First Federal Bank Promissory Notes consist of one principal loan in the amount of \$2,743,967 payable in monthly installments of \$26,000 of principal and interest and with a balloon payment of \$2,625,334 due January 16, 2006. The Company has entered into two credit agreements in 2005 to purchase a warehouse and certain production equipment; the debt instruments are \$365,000 (15 years) and \$250,000 (5 years) respectively at 6.5% when fully drawn. The Company has also entered into a subordinated loan agreement with Next Investors, LLC in the amount of \$400,000 (see Note 5 to the Financial Statements).

The Company's principal use of cash is for operating activities and working capital. Cash provided by operations in the three months ended February 28, 2005, was \$736,266 as compared to \$13,872 of cash used in operations for the three months ended February 28, 2004. The increase in cash provided stemmed primarily from accounts receivable and accrued expenses.

Cash used for investing activities was \$708,939 for the three months ended February 28, 2005, compared to \$86,924 for the three months ended February 29, 2004. The Company's investing activities during these periods were primarily the purchase a warehouse, equipment, acquisition costs and intangible assets.

Net cash used in financing activities was \$271,873 for the three months ended February 28, 2005, compared to \$362,728 provided by financing activities for the three months ended February 29, 2004. The proceeds of common stock issued in the first quarter ended February 28, 2005 of \$2,691,000 was applied against the company's revolving credit facility as required by the loan agreement. The net change or reduction of cash used between the quarter ending February 28, 2005, and February 29, 2004 relate to the reduction of the revolving credit facility, offset by the cash received from issuance of common stock, and a reduction in note proceeds from loans.

On January 24, 2005, the Company entered into a Securities Purchase Agreement (the "Agreement") with Bonanza Master Fund, Ltd. ("Bonanza"), MidSouth Investor Fund, L.P. ("MidSouth") and Itasca Capital Partners LLC ("Itasca" and collectively with Bonanza and Mid South, the "Purchasers"), and raised \$2,990,000 in a private placement. None of the Purchasers has any other material relationship with the Company. Pursuant to the Agreement, the Company issued Bonanza 2,000,000 shares of its common stock and a warrant to purchase 1,000,000 shares of common stock, issued to MidSouth 250,000 shares and a warrant to purchase 125,000 shares of common stock, and issued to Itasca 50,000 shares and a warrant to purchase 25,000 shares of common stock. The shares of common stock were issued at \$1.30 per share and the warrants are exercisable at \$1.75 per share for five years. In addition, the Company will issue a warrant to purchase 115,000 shares of common stock to a consultant for its services in connection with the private placement. The warrants are exercisable at \$1.75 per share for five years, but the average closing price of the Company's common stock must be equal to at least \$2.10 for ten consecutive trading days to exercise a purchase. The total offering price was \$2,990,000 in cash, less fees of \$299,000, for a net cash infusion of \$2,691,000.

On April 8, 2004, the Company issued, pursuant to a Securities Purchase Agreement 1,750 shares of Series A Convertible Preferred Stock to GCA Strategic Investment Fund Limited. The Company received net proceeds of \$1,471,500, which was utilized for working capital and debt reduction. The Company has registered these shares but will receive no proceeds related to the sale of the securities. The Company also issued a Preferred Stock Warrant to purchase 358,000 shares of common stock at \$1.88, which expires April 8, 2009. As of February 28, 2005 GCA Strategic Investment Fund Limited had converted 1,546 shares of Preferred Stock to 1,361,300 shares of Common which leaves \$204,000 of Preferred stock remaining to convert. The Company has also received a commitment letter from Global Capital Advisors, LLC for an additional \$1,250,000 under the same terms and conditions discussed above at the Company's option for a one-year period, which will expire on March 31, 2005.
