Notes to Financial Statements  
September 30, 2008 and 2007  
(Unaudited)

**Note 1 Basis of Presentation and Nature of Operations**

The accompanying consolidated balance sheet as of December 31, 2007 has been derived from audited financial statements and the accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ( GAAP ) for interim financial information and the interim reporting requirements of Regulation S-X. The accompanying consolidated financial statements included herein have been prepared by Westsphere Asset Corporation, Inc. (the Company ) without audit, pursuant to the rules and regulations of the Securities and Exchange Commission for reporting on Form 10-Q. In management 's opinion, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. Certain information and footnote disclosure normally included in the financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted as allowed by such rules and regulations, and Westsphere Asset Corporation, Inc. believes that the disclosures are adequate to make the information presented not misleading. It is suggested that these financial statements be read in conjunction with the December 31, 2007 audited financial statements and the accompanying notes thereto contained in the Annual Report on Form 10-KSB filed with the Securities and Exchange Commission. While management believes the procedures followed in preparing these financial statements are reasonable, the accuracy of the amounts are in some respects dependent upon the facts that will exist, and procedures that will be accomplished by Westsphere Asset Corporation, Inc. later in the year. The results of operations for the interim periods are not necessarily indicative of the results of operations for the full year. In management 's opinion all adjustments necessary for a fair presentation of the Company 's financial statements are reflected in the interim periods included.

The Company 's primary business is the sale and operation of cash vending (ATM) and point of sale (POS) machines in Canada.

There is no provision for dividends for the quarter to which this quarterly report relates.

**Note 2 Recent Accounting Pronouncements**

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities ( SFAS No. 159 ). SFAS No. 159 permits entities to choose to measure, on an item-by-item basis, specified financial instruments and certain other items at fair value. Unrealized gains and losses on items for which the fair value option has been elected are required to be reported in earnings at each reporting date. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007, the provisions of which are required to be applied prospectively. The Company believes that SFAS 159 should not have a material impact on the consolidated financial position or results of operations.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), Business Combinations ( SFAS No. 141R ). SFAS No. 141R will change the accounting for business combinations. Under SFAS No. 141R, an acquiring entity will be required to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited exceptions. SFAS No. 141R will change the accounting treatment and disclosure for certain specific items in a business combination. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Accordingly, any business combinations the Company engages in will be recorded and disclosed following existing GAAP until January 1, 2009. The Company expects SFAS No. 141R will have an impact on accounting for business combinations once adopted but the effect is dependent upon acquisitions at that time. The Company is still assessing the impact of this pronouncement.

In December 2007, the FASB issued SFAS No. 160, *Non-controlling Interests in Consolidated Financial Statements - An Amendment of ARB No. 51, or SFAS No. 160* ( SFAS No. 160 ). SFAS No. 160 establishes new accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008. The Company believes that SFAS 160 should not have a material impact on the consolidated financial position or results of operations.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities* ( SFAS No. 161 ). SFAS 161 requires companies with derivative instruments to disclose information that should enable financial-statement users to understand how and why a company uses derivative instruments, how derivative instruments and related hedged items are accounted for under FASB Statement No. 133 *Accounting for Derivative Instruments and Hedging Activities* and how derivative instruments and related hedged items affect a company's financial position, financial performance and cash flows. SFAS 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The adoption of this statement is not expected to have a material effect on the Company's future financial position or results of operations.

**Note 3 Inventory**

Inventory consists primarily of cash vending and POS machines, which are valued at the lesser of cost (on a first-in, first-out method) or net realizable value.

## Plan of Operations

### *Results of Operations - Three Month Period*

During the three (3) month period of operations ending September 30, 2008, Westsphere and its subsidiaries generated a net loss from operations of \$121,757, while a net loss from operations of \$23,743 was realized for the same period from the previous year. The increase in net loss of \$98,014 over the same period from the previous year was caused by a decrease in net of residual and interchanges income of \$95,407 and a decrease in net equipment and supplies revenue of \$29,176. The increase in net loss is partially offset against a decrease in salaries and benefits of \$27,882 over the same period from the previous year.

The decrease in net of residual and interchange income was mainly caused by a decrease in the number of placements of ATMs in the latter part of year 2007 to present. The decrease in the number of placements was due to Westsphere's subsidiary Vencash no longer having the finance/lease program available offered by an ATM supplier to place more ATMs in the market place at a lower cost. This is due to changes within the organization of a major Vencash ATM supplier, equipment and supply agreements along with related transaction processing agreements signed in the latter part of year 2006 that are presently in dispute.

The decrease in net of equipment and supplies sales was due to Westsphere's subsidiary Vencash Capital Corporation mainly focusing on the placement, and finance/lease program offered by an ATM supplier in year 2006. The finance/lease program provides Vencash Capital an opportunity to place more ATMs in the marketplace at a lower cost. However, as mentioned above, the finance/lease program offered by an ATM supplier is currently under dispute. The dispute with the ATM supplier is an ongoing matter with no further agreement in place. This has resulted in a requirement to find additional financial resources related to growth in its ATM business and to determine whether or not Vencash's current ATM equipment supplier can meet the upgrade requirements as set forth in regards to meeting ongoing regulatory compliance.

The decrease in salaries and benefits was primarily due to a deletion of one accounting position during the year 2008.

### *Results of Operations - Nine Month Period*

During the nine (9) month period of operations ending September 30, 2008, Westsphere and its subsidiaries generated a net loss from operations of \$360,632, while a net loss from operations of \$140,967 was realized for the same period from the previous year. The increase in net loss for the nine (9) month period of \$219,665 over the same period from the previous year was caused by a decrease in net of residual and interchanges income of \$117,864, a decrease in net equipment and supplies revenue of \$75,399, an increase in salaries and benefits of \$55,285, an increase in other expenses of \$35,415, an increase in interest expense of \$42,608, and a decrease in interest income of \$7,683. The increase in net loss is partially offset against a significant decrease in legal and accounting fees of \$93,071 and a decrease in travel, delivery and vehicle expenses of \$24,407 over the same period from the previous year.

The decrease in net of residual and interchange income for the nine (9) month period was mainly caused by a decrease in the number of placements of ATMs in the latter part of year 2007 to present. The decrease in the number of placements was due to Westsphere's subsidiary Vencash no longer having the finance/lease program available offered by an ATM supplier to place more ATMs in the market place at a lower cost. This is due to changes within the organization of a major Vencash ATM supplier, equipment and supply agreements along with related transaction processing agreements signed in the latter part of year 2006 that are presently in dispute. In addition, according to Canadian Interac data, the number of transactions using an ATM other than the cardholder's institution has dropped from 375 million in 2001 to 285 million in 2006 and the number of shared ATMs increased by 4% but the number of shared cash dispensing decreased by 6.5%.

The decrease in net of equipment and supplies sales for the nine (9) month period was due to Westsphere's subsidiary Vencash Capital Corporation mainly focusing on the placement, and finance/lease program offered by an ATM supplier in year 2006. The finance/lease program provides Vencash Capital an opportunity to place more ATMs in the marketplace at a lower cost. However, as mentioned above, the finance/lease program offered by an ATM supplier is currently under dispute. The dispute with the ATM supplier is an ongoing matter with no further agreement in place. This has resulted in a requirement to find additional financial resources related to growth in its ATM business and to determine whether or not Vencash's current ATM equipment supplier can meet the upgrade requirements as set forth in regards to meeting ongoing regulatory compliance.

The addition in salaries and benefits for the nine (9) month period was primarily due to an additional three new positions to the organization during the second quarter of year 2007; a sales manager, a service technician, and a junior accountant.

An increase in other expenses for the nine (9) month period was primarily caused by the writing off of an unsecured promissory note of \$15,835 (\$16,000 CDN), an increase in rent of \$25,809, a decrease in office supplies of \$14,808, and the remaining \$8,579 was related to various general and administrative expenses.

The increase in interest expense for the nine (9) month period was due to Westsphere entering into two new loan agreements during year 2007 totaling \$222,492 (\$231,000 CDN), bearing interest at 12% per annum, blended monthly payments of interest only of \$2,225 (\$2,310 CDN). The purpose of these loans is to supply vault cash to Westsphere's wholly owned subsidiary Vencash's customer's ATM equipment and site locations. Westsphere also committed to pay \$1,445 (\$1,500 CDN) interest per month to an investor who provides vault cash to Westsphere's subsidiary Vencash's customer's ATM equipment and site locations. Revenue from these funds will be generated from surcharge transactions. In January 2008, Westsphere entered into a new loan agreement with Westsphere's Vice President totaling \$52,974 (\$55,000 CDN), bearing interest at 12% per annum, blended monthly payments of interest only of \$530 (\$550 CDN). As of September 30, 2008, the balance is \$42,767 (\$44,402 CDN). The purpose of the loan is to purchase ATM parts and accessories.

A significant decrease in interest income for the nine (9) month period was primarily caused by the sale of the sales-type lease contract in November 2006 and the mortgage receivable was paid in full on April 1, 2007. Therefore, no interest income was earned.

The significant decrease in legal and accounting fees of \$93,071 for the nine (9) month period was primarily due to the recording of the annually and quarterly audit fees in the same period from the previous year. The prior year's legal and accounting fees include the annual audit fee for year ending December 31, 2005, accrued annual and quarterly audit fees for the year ending December 31, 2006, and two quarterly audit fees accrued for the year 2007.

A decrease in travel, delivery and vehicle expenses for the nine (9) month period was caused by a decrease in number of placement of ATMs in the marketplace. The decrease in the number of placements was due to Westsphere's subsidiary Vencash no longer having the finance/lease program available offered by an ATM supplier to place more ATMs in the market place at a lower cost. This is due to changes within the organization of a major Vencash ATM supplier, equipment and supply agreements along with related transaction processing agreements signed in the latter part of year 2006 that are presently in dispute.

To this date, 892 ATM and 482 POS sites are being processed between two switches. There was no change in operations during the third quarter of year 2008.

Westsphere and its subsidiaries currently generate sufficient revenues to meet overhead needs. In order to meet its growth plan, Westsphere will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds. Westsphere believes that it will continue as a going concern with the present revenues from its subsidiary Vencash but it would be unable to meet its market growth projections without further funding outside of the ongoing revenue from the operations of Vencash.

WestspHERE is unable to continue supporting the switch development project where it has funded the start up costs. This is due to WestspHERE's subsidiary Vencash experiencing a steady decrease in gross profit; specifically in the residual and interchange income over the past year. WestspHERE's President has advanced deposits of \$225,789 (\$234,423 CDN) to support the switch development project. WestspHERE will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds to fund the switch development project.

The switch development project is in the final phase where the testing of the systems is expected to be completed by the end of November this year. The production date of the project is expected to commence by the end of this year.

In order to grow WestspHERE's businesses in ATM machines and in POS machines, WestspHERE is dependent upon private placements, loans and/or joint venture arrangements. The profits are expected to be generated by the interchange and surcharges collected from ATM and POS machines and the sale of ATM and POS machines.

In order for WestspHERE's subsidiaries to remain competitive in the marketplace, WestspHERE, through its subsidiary WestspHERE Systems Inc., has successfully gained membership into the Canadian Interac Association as an Acquirer. This will enable the direct processing of ATM, POS and other transactions for its other subsidiaries, Vencash and Trac POS. WestspHERE has sourced out an industry leader, ACI Worldwide, and invested in the development and ongoing support required to facilitate the processing of transactions.

WestspHERE Systems Inc. will process all transactions through its association with ACI thereby eliminating the costs, restrictions, and potential risks of relying on third party processors. Most importantly, the investment in the processor, or switch, will also enable WestspHERE's direct entry into new and emerging markets such as card management and processing. The switch project is expected to launch in December 2008.

#### **Changes in Financial Position**

During the Nine (9) month period ending September 30, 2008, total assets decreased to \$1,404,998 primarily due to a collection of accounts receivable of \$89,627, a collection from accounts receivable related parties of \$20,679, a decrease in property and equipment of \$88,690. The decrease in total assets is partially offset against an increase in intellectual property of \$50,828.

### ***Liquidity***

Westsphere and its subsidiaries currently generate sufficient revenues to meet overhead needs. In order to meet its growth plan, Westsphere will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds. Westsphere believes that it will continue as a going concern with the present revenues from its subsidiary Vencash Capital Corporation but it would be unable to meet its market growth projections without further funding outside of the ongoing revenue from operations of Vencash.

Westsphere will not have sufficient cash flow to continue supporting the switch development project. This is due to Westsphere's subsidiary Vencash experiencing a steady decrease in gross profit; specifically in the residual and interchange income over the past year. As a result, Westsphere will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds to fund the switch development project. The switch development project is in the final phase where the testing of the systems is expected to complete by the end of November this year.
