Edgar Filing: PIPELINE TECHNOLOGIES INC - Form 10QSB

PIPELINE TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2001
(UNAUDITED)

(1) Basis Of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and Item 310(b) of Regulation S-B. They do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included.

The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year. For further information, refer to the consolidated financial statements of the Company as of June 30, 2001 and for the two years then ended, including notes thereto, included in the Company's Form 10-KSB.

(2) Earnings Per Share

The Company calculates net income (loss) per share as required by SFAS No. 128, "Earnings per Share." Basic earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares and dilutive common stock equivalents outstanding. During periods when anti-dilutive, common stock equivalents are not considered in the computation.

(3) Impairment of Long Lived Assets

Long lived assets and certain identifiable intangibles held and used by the Company are reviewed for possible impairment whenever events or circumstances indicate the carrying amount of an asset may not be recoverable or is impaired. Management has not identified any impairment losses as of December 31, 2001 other than those described in Note 5.

(4) Income Taxes

The Company accounts for income taxes under Statement of Financial Accounting Standards No. 109 (FAS 109), "Accounting for Income Taxes", which requires use of the liability method. FAS 109 provides that deferred tax assets and liabilities are recorded based on the differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, referred to as temporary differences. Deferred tax assets and liabilities at the end of each period are determined using the currently enacted tax rates applied to taxable income in the periods in which the deferred tax assets and liabilities are expected to be settled, or realized.

The Company's deferred tax asset resulting from net operating loss carryforwards is fully offset by a valuation allowance. The Company has recorded a valuation allowance to state its deferred tax assets at estimated net realizable value due to the uncertainty related to realization of these assets through future taxable income.

Edgar Filing: PIPELINE TECHNOLOGIES INC - Form 10QSB

The provision for income taxes differs from the amount computed by applying the statutory rate of 34% to income before income taxes due to the effect of the net operating loss.

(5) Acquisition

During November 2001, the Company completed the acquisition of Achieve Networks, Inc. ("Achieve"), a company that operates a private IP network for transmission of voice and data communications. The Company issued 2,449,012 shares of its common stock in exchange for 83% of the issued and outstanding shares of Achieve. The business combination was accounted for as a purchase. The results of operations for Achieve are included in the accompanying financial statements since the acquisition date. The total purchase price of the acquisition was \$2,449,012, which represents the fair market value of the common shares issued. The acquisition price exceed the fair value of the net liabilities acquired of \$659,940 by \$3,108,952. This excess has been recorded as goodwill and has been charged to operations as an impairment loss.

The net liabilities acquired consisted of the following:

| | | |
|-----------------------------|----|-------------|
| Cash | \$ | 3,510 |
| Other current assets | | 97,276 |
| Property and equipment, net | | 221,298 |
| Other assets | | 20,000 |
| Current liabilities | | (1,002,024) |
| | | ----- |
| | \$ | (659,940) |
| | | ===== |

(6) Operating Leases

The Company leases office space and certain equipment pursuant to leases classified as operating leases. Subsequent to its fiscal year end of June 30, 2001, the Company either entered into or assumed responsibility pursuant to the acquisition of Achieve of various operating leases ranging in terms from 24 to 36 months. The leases require monthly payments aggregating approximately \$23,000 and future minimum payments of approximately \$752,000.

(7) Legal Proceedings

On January 14, 2002, Mark Roberts, a former shareholder of Achieve, brought a civil action against our President, Timothy J. Murtaugh, and us alleging breach of contract and other claims in connection with the acquisition of Achieve. The claim was brought in the District Court of Dallas County, Texas in the G-134th Judicial District. The complaint seeks damages suffered by the Plaintiff and other relief.

As a result of satisfaction of claims alleged by the Plaintiff and certain actions taken by us, we have recently agreed to settle the lawsuit and to resolve the dispute. As part of that settlement, Plaintiff has agreed to dismiss the suit.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Introduction

Edgar Filing: PIPELINE TECHNOLOGIES INC - Form 10QSB

The following discussion and analysis covers (i) material changes in the financial condition and liquidity of Pipeline Technologies, Inc. ("us" or the "Company") since fiscal year end June 30, 2001 and (ii) the results of operations for the three and six months ended December 31, 2001 and 2000. This discussion and analysis should be read in conjunction with the audited financial statements and "Management's Discussion and Analysis or Plan of Operation" included in the Company's Annual Report on Form 10-KSB for the fiscal year ended June 30, 2001 as filed with the Securities and Exchange Commission ("Commission").

Reference is made to the exhibits to this report or otherwise filed by the Company with the Commission. The discussion contained herein is qualified in its entirety by reference to those exhibits.

Results of Operations

Overview. The second quarter of our current fiscal year marked the first period for which we included results of operations for our newly acquired subsidiary, Achieve Networks, Inc. Achieve is the operator of a private voice and data network that we acquired in December of 2001. We now use this network to serve our long distance customers in place of networks owned by independent third parties that we have contracted in the past. Our hope is that this acquisition will provide us a more reliable source of network access and eventually result in lower costs for service.

For the three months ended December 31, 2001, we reported a net loss of \$4,175,126, or \$.38 per share, on total revenue of \$706,557. This compares to a net loss of \$1,210,483, or \$.12 per share, on revenue of \$73,532 for the quarter ending December 31, 2000. Our loss for the six months ended December 31, 2001 was \$4,489,796 on revenue of \$2,319,512, compared to a loss of \$1,706,798 on revenue of \$86,285 for the six months ended December 31, 2000. Thus, while our revenue during the first half of 2002 increased significantly from the corresponding periods in 2001, our net loss also increased substantially. The substantial increase in the net loss for the periods ended in 2001 is attributable to an impairment of goodwill that resulted from the acquisition.

Our revenue increased 861% from the first quarter of fiscal 2001, while our net loss increased 245%. Comparable figures for the six months ended December 31, 2001 were increases of 2588% and 163%, respectively. The substantial increase in our revenue is attributable to additional customers that we have added with new and renewed marketing efforts during the fourth quarter of last fiscal year and the first two quarters of this year. The increase in our net loss is attributable to the impairment discussed above.

Impairment. The impairment of goodwill recorded for the three and six month period ended December 31, 2001 resulted from the acquisition. As described in the notes to the unaudited financial statements for the period, the acquisition price of \$2,449,012 exceeded the fair value of the net liabilities of Achieve by

\$3,108,952. This situation resulted from our estimate of the appropriate value of Achieve. Notwithstanding the book value, we estimated that the acquisition was worth approximately \$2,500,000 based on such non-balance sheet items as access to the network, potential customer contacts and synergies between the companies. The excess of the purchase price over the fair value of the liabilities assumed was recorded as an impairment loss during the quarter ended December 31, 2001.

Edgar Filing: PIPELINE TECHNOLOGIES INC - Form 10QSB

Unearned Revenue. We have recorded a substantial amount of unearned revenue during the last six months. This results from two factors: (i) our fees for long distance telephone service are charged in advance and we recognize revenue ratably over the period that services are provided; and (ii) we suspect that a substantial portion of the new customers for which cash was received by us may have been signed up involuntarily ("slammed") as the result of the efforts of a third-party entity marketing our service. Accordingly, these customers may demand cancellation of the service and we may be forced to refund any unauthorized credit card charges. We terminated the services of the third party during our first fiscal quarter, after learning of the situation.

We have carefully evaluated our new customer accounts in an effort to determine the appropriate amount of the reserve, using our previous cancellation experience and information from our credit card servicing company as a gauge. We are still unable to determine the exact amount of unauthorized charges. However, we believe that they will be substantial and that we have adequately reserved for these charge backs. The gross amount of fees collected by us through the efforts of that third-party entity marketing our services was \$3,434,140, of which \$1,162,388 has been classified as unearned revenue. As of December 31, 2001, approximately \$1,171,000 has been refunded to these customers.

Marketing. We have retained a new entity to market our services. Although this new entity will use outbound telemarketing in its efforts, we do not anticipate a recurrence of the unauthorized charges we encountered with our prior third-party marketing entity due to the initiation of more stringent controls. Furthermore, this entity has committed to incorporate inbound telemarketing as well as internet-based marketing to reduce our reliance on outbound methods. We are also increasing our agent-based and direct marketing efforts which should increase sales volume and customer retention.

Gross Profit. Costs of revenue for the second quarter of 2002 exceeded our revenue by \$65,653. This results from a new dealer arrangement which we recently commenced for marketing our service which provides for front-loaded commissions. However, we anticipate that this arrangement will produce more favorable results in the future as the customers renew and the commissions are reduced. We did report positive gross profit for the first six months of the year. None-the-less, we still reported a net loss for the six-month period, as our gross profit was insufficient to cover general and administrative expenses.

Included in our costs of sales for the six-month period was commission paid to the terminated marketing company of approximately \$750,000. This represented the largest component of our costs, even exceeding our network access charges. Unfortunately, we may be unable to recover any commission paid to this entity for perceived improper sales or marketing techniques. We also paid a significant amount in credit card charges in connection with billings to customers during the period.

7

General and Administrative Expenses. General and administrative expenses of \$916,624 for the three-month period ended December 31, 2001 consisted primarily of salaries, payroll expenses, and professional fees. This represents an increase of \$351,000 from the first quarter of this year, but a decrease of \$205,000 from the comparable period of the prior fiscal year. The increase from the last quarter is attributable to expenses acquired in connection with the acquisition of Achieve. Professional fees are related to the expenses of maintaining the Company's status as a public reporting entity, pursuing the marketing entity for its perceived improper conduct and other routine business matters. The Company also incurred advertising and marketing related expenses. Management believes that development and maintenance of a Web site is integral

Edgar Filing: PIPELINE TECHNOLOGIES INC - Form 10QSB

to the Company's marketing efforts.

Liquidity and Capital Resources

Overview. Our financial condition declined from fiscal year end June 30, 2001, a trend that unfortunately carried over from last year. At December 31, 2001, we reported negative working capital of \$6,030,343, a decrease of \$1,627,217, or 37%, from fiscal year end June 30, 2001. The Company continues to suffer from a serious lack of liquidity and capital. The decrease in working capital since fiscal year end is primarily attributable to cash applied to operations and the vendor payments associated with the acquisition of Achieve.

Recent Acquisition. During the second quarter, we completed the acquisition of Achieve Networks. Achieve is the operator of an IP network in partnership with a national provider. This acquisition resulted in the acquisition of net liabilities of \$659,940, which contributed to our decrease in working capital. All of those liabilities are current liabilities. However, we believe that the acquisition will help our long-term growth, because it allows us more control over network access necessary to serve our customers.

In the short-term, the acquisition may increase our losses, as we are required to make payments to Achieve's network partners for network access. However, once our customer base is expanded to a critical mass, we believe that our operations will be improved.

Current Assets and Liquidity. Current assets reported at December 31, 2001 increased substantially from fiscal year end; current liabilities, however, increased in a greater amount. Of our current assets, accounts receivable increased the most, rising over \$388,000 from fiscal year end.

The largest increase in our current liabilities was accounts payable, which increased \$1,398,000, or 264% from fiscal year end. The increase in accounts payable is primarily attributable to expenses assumed in connection with the acquisition and our increased sales. Deferred revenue also increased substantially, rising \$1,135,000 or 4200%. As discussed above, this amount results primarily from our concern about the unauthorized sales of our service and potential cancellations by customers.

Cash Flow. After returning to positive cash flow for one quarter, our operations returned to negative cash flow during the second quarter of the current fiscal year, the net effect of which was negative cash flow for the first six months of the year. Negative cash flow of \$252,914 for the first half of the year was slightly reduced from the negative cash flow of \$563,521 for the first half of 2001.

8

We remain dependent on future operations or cash from outside sources to continue as a going concern. Our most significant obligations are notes payable, all of which are due on demand. We also have a significant amount of accounts payable. Our representatives have had discussions with certain of these vendors and lenders in an effort to restructure and extend or convert the debt. However, there is no assurance that these discussions will be successful.

The Company is currently exploring other financing options as well. It is anticipated that any new financing would take the form of private equity financing, as the Company is not a candidate for conventional debt financing due to its limited cash flow and limited assets with which to secure such debt.

Forward-Looking Statements. This Report (including any documents

Edgar Filing: PIPELINE TECHNOLOGIES INC - Form 10QSB

incorporated herein by reference) and other oral statements subsequently made by or on behalf of the Company contain "forward-looking statements" within the meaning of the Federal securities laws. Such forward-looking statements include, without limitation, statements regarding the Company's plans for working capital, future revenues, acquisitions and plan of operation and are identified by words such as "anticipates," "plans," "expects" and "estimates." A variety of factors could cause the Company's actual results to differ materially from those contemplated by these forward-looking statements, including, without limitation, the Special Factors discussed below and in our Form 10-KSB for the fiscal year ended June 30, 2001. Most of these factors are beyond the control of the Company. Investors are cautioned not to put undue reliance on any forward-looking statements. The Company hereby disclaims any intent or obligation to update publicly these forward-looking statements.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

On January 14, 2002, Mark Roberts, a former shareholder of Achieve, brought a civil action against our President, Timothy J. Murtaugh, and us alleging breach of contract and other claims in connection with the acquisition of Achieve. The claim was brought in the District Court of Dallas County, Texas in the G-134th Judicial District. The complaint seeks damages suffered by the Plaintiff and other relief.

As a result of satisfaction of claims alleged by the Plaintiff and certain actions taken by us, we have recently agreed to settle the lawsuit and to resolve the dispute. As part of that settlement, Plaintiff has agreed to dismiss the suit.

Item 2. Changes in Securities

(c) In a transaction completed December 3, 2001, we issued 2,449,012 shares of our common stock to certain former owners of Achieve Networks, Inc. in a transaction exempt from the registration requirements of the Securities Act of 1933 pursuant to the provisions of Regulation D and Rule 506. In connection with the transaction, the Company obtained written representations that the former shareholders were "accredited investors" within the meaning of Rule 501 and that

9

such individuals had such knowledge and experience in financial and business matters that they were capable of evaluating the merits and risks of the investment. The Company also restricted transfer of the certificates representing the shares by placing legends thereon and by giving stop transfer orders to its transfer agent.

The shares were issued directly by the Company in an exchange, and accordingly, no commissions or discounts were paid or allowed in connection with the transaction.

Item 4. Submission of Matters to a Vote of Security Holders

We held our annual meeting of shareholders on December 10, 2001. At the meeting, all nominees for election to the Board of Directors were reelected, and two new members were elected. The shareholders also ratified the appointment of Stark Winter Schenkein & Co., LLP as the Company's auditors for the fiscal year ending June 30, 2002 and an Amendment to the Articles of Incorporation increasing the amount of authorized capital stock. The votes on these resolutions were as follows:
