SECTION 1 - REGISTRANTS BUSINESS AND OPERATIONS

Item 2.02 – Results of Operations and Financial Condition.

Northern Oil and Gas, Inc. (the “Company”) announced fourth quarter 2008 net earnings of \$1,391,744 (representing \$0.04 per share) on revenues of \$1,907,667 for the quarter. These results represent a 60% increase in earnings and a 40% increase in revenue over the third quarter of 2008.

Fiscal year 2008 total net earnings were \$2,359,751 (representing approximately \$0.07 per share) on revenue of \$4,321,879, compared to a net loss of \$4,305,293 for fiscal year 2007. The Company drilled with a 100% success rate in 2008 with 59 Bakken or Three Forks wells completed or completing and three successful Red River discoveries.

The Company’s most recent and highest working interest well—the Jericho—will provide the Company a 42% working interest in a Bakken well that is expected to drill and complete for approximately \$4 million, substantially below average drilling and completing costs from 2008 summer highs.

The Company plans to spend approximately \$26 million in 2009 for developmental drilling on its Bakken and Three Forks position, a decrease from a previous budget of \$31 million primarily due to lower drilling and completing costs.

A copy of the press release which the Company issued reporting the foregoing information is attached as Exhibit 99.1.
