SECTION 2 FINANCIAL INFORMATION

Item 2.02 Results of Operations and Financial Condition

On October 21, 2004, Gilead Sciences, Inc., a Delaware corporation, issued a press release announcing earnings for the third quarter ended September 30, 2004. A copy of the earnings press release is filed as Exhibit 99.1 to this report.

Each non-GAAP financial measure reflected in the earnings press release is included because our management uses this information to monitor and evaluate on-going results and trends excluding certain items. Our management believes the non-GAAP information is also useful for investors because these transactions, which include the fair value gain on our EyeTech Pharmaceuticals, Inc. (EyeTech) warrants as a result of EyeTech completing an initial public offering in February 2004, the in-process research and development charge of \$488.6 million from the acquisition of Triangle Pharmaceuticals, Inc. in January 2003 and the \$13.2 million settlement payment in September 2003 resulting from a contractual dispute with a vendor, were unusual due to their nature, size and infrequency. Consequently, excluding these transactions from our results provides users of the financial statements an important insight into our results and related trends that affect our core business.
