**Item 1.01 Entry into a Material Definitive Agreement**

On July 27, 2005, Southern Peru Copper Corporation (the Company) entered into two indentures (together, the Indentures) with The Bank of New York, acting as Trustee. The Company issued two series of notes, one series under each such Indenture. One series, which will mature on July 27, 2015 (the 2015 Notes), has an aggregate principal amount of US\$200 million and bears interest at 6.375% per annum. The other series, which will mature on July 27, 2035 (the 2035 Notes and, together with the 2015 Notes, the Notes), has an aggregate principal amount of US\$600 million and bears interest at 7.500% per annum. Interest due on the Notes will be payable on January 27 and July 27 of each year beginning on January 27, 2006.

These Notes constitute the Company's senior unsecured obligations and rank *pari passu* in priority of payment with all of the Company's other present and future unsecured and subordinated indebtedness. The Company may, at its option, redeem some or all of the Notes by paying a make-whole premium plus accrued and unpaid interest to the date of such redemption.

The Indentures contain certain covenants, including limitations on liens, limitations on sale and leaseback transactions, rights of the holders of the notes upon the occurrence of a change of control triggering event, limitations on subsidiary indebtedness and limitations on consolidations, mergers, sales or conveyances. All of these limitations and restrictions are subject to a number of significant exceptions and qualifications. The Indentures also contain certain events of default.

The Notes are not registered under the Securities Act or any U.S. state securities laws. However, the Company has agreed to (i) file a registration statement with the Securities and Exchange Commission with respect to a registered offer to exchange the 2015 Notes and the 2035 Notes for new exchange notes having terms substantially identical in all material respects to the 2015 Notes and the 2035 Notes, respectively, except that in each case the new exchange notes will not contain terms with respect to transfer restrictions or special interest or (ii) file a shelf registration statement with respect to resales of each series of Notes. Failure to comply with the registration provision may result in certain increases in per annum interest on the Notes.

The foregoing description of the Notes and the Indentures is qualified in its entirety by reference to the Indentures, copies of which are included as Exhibit 4.1 and 4.2 hereto and incorporated herein by reference.
