Notes to Unaudited Consolidated Financial Statements

Three and six month periods ended June 30, 2005 and 2004

(1) Basis of Presentation

The accompanying unaudited consolidated financial statements of Team Financial, Inc. and Subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes necessary for a comprehensive presentation of financial condition and results of operations required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all normal recurring adjustments necessary for a fair presentation of results have been included. The consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2004.

The interim consolidated financial statements include the accounts of Team Financial, Inc. and its wholly owned subsidiaries, Team Financial Acquisition Subsidiary, Inc., including TeamBank, N.A. and its subsidiaries, and Post Bancorp including Colorado National Bank. All material inter-company transactions, profits, and balances are eliminated in consolidation. The consolidated financial statements do not include the accounts of our wholly owned statutory trust, Team Financial Capital Trust I (the Trust). The Trust qualifies as a special purpose entity that is not required to be consolidated in the financial statements of Team Financial, Inc. The Trust Preferred Securities issued by the Trust is included in Tier I capital for regulatory capital purposes.

The December 31, 2004 statement of financial condition has been derived from the audited consolidated financial statements as of that date. Certain amounts in the 2004 financial statements have been reclassified to conform to the 2005 presentation. The results of the interim periods ended June 30, 2005, are not necessarily indicative of the results that may occur for the year ending December 31, 2005.

(2) Recent Accounting Pronouncements

In December of 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 123 (revised 2004), *Share Based Payments*, (SFAS 123R). This statement requires that the cost resulting from all share-based transactions be recognized in the financial statements. SFAS 123R establishes fair value as the measurement objective in accounting for share-based arrangements and requires all entities to apply a fair-value based measurement method in accounting for share based payments with employees except for equity instruments held by employee share ownership plans. SFAS 123R replaces FASB Statement No. 123, *Accounting for Stock-Based Compensation*, and supercedes Accounting Principal Board Opinion No. 25, *Accounting for Stock Issued to Employees*, (APB 25) and is effective as of the beginning of 2006. We apply APB 25 to account for stock incentive plans which requires compensation cost be recognized as the excess, if any, of the fair market value of our stock at the date of grant over the amount the employee must pay to acquire the stock. In accordance with SFAS 123, we report the effect on net income as if the transactions were accounted for using the fair value method in a footnote. The adoption of SFAS 123R will result in higher salaries and employee benefits expense in future periods.

(3) Discontinued Operations

On February 25, 2005, we completed the sale of our insurance agency subsidiary, Team Insurance Group, Inc. We sold all the issued and outstanding shares of the insurance agency subsidiary to an unaffiliated third party for total cash consideration of \$6,836,000. Our investment in Team Insurance Group, Inc. as of December 31, 2004 and February 25, 2005 was approximately \$7,000,000. The loss on the sale of the subsidiary of approximately \$164,000 was recorded in the second quarter of 2005 upon finalization of the selling price and is presented, net of tax, as loss from discontinued operations in the accompanying financial statements. The sale was effective December 31, 2004, and therefore, the operating activities of the insurance subsidiary during 2005 were assumed by the new owners. Pursuant to the terms of the agreement, the buyer has until August 25, 2006 to contest representations and warranties.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

As a result of the sale, the operations related to the insurance agency subsidiary during the three and six months ended June 30, 2004 have been reclassified as discontinued operations in the unaudited consolidated financial statements and notes to the unaudited consolidated financial statements.

Summarized results of operations of the insurance agency for the three and six months ended June 30, 2004 are as follows:

	Three Months Ended June 30, 2004	Six Months Ended June 30, 2004

(4) Stock Compensation and Income Per Share

Basic income per share excludes dilution and is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted income per share reflects the potential

dilution that would occur if securities or other contracts to issue common stock were exercised or converted into common stock.

We account for employee options under the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*, with pro forma disclosures of net income and income per share, as if the fair value method of accounting defined in Statement of Financial Accounting Standards No. 123, *Accounting for Stock Based Compensation*, (SFAS 123) had been applied. SFAS 123 establishes a fair value based method of accounting for stock based employee compensation plans. Under the fair value method, compensation cost is measured at the grant date based on the value of the award and is recognized over the vesting period. Under SFAS 123, our net income and net income per share would have decreased as reflected in the following pro forma amounts.

Item 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS
OF OPERATIONS

OVERVIEW

Team Financial, Inc. is a financial holding company incorporated in the State of Kansas. Our common stock is listed on the Nasdaq National Market (NASDAQ) under the symbol TFIN .

We offer full service community banking and financial services through 18 locations in Kansas, Missouri, Nebraska and Colorado through our wholly owned banking subsidiaries, TeamBank N.A and Colorado National Bank. Our presence in Kansas consists of seven locations in the Kansas City metropolitan area and three locations in southeast Kansas. We operate two locations in western Missouri, three in the metropolitan area of Omaha, Nebraska and three in the Colorado Springs, Colorado metropolitan area

Results of operations depend primarily on net interest income, which is the difference between interest income from interest-earning assets and interest expense on interest-bearing liabilities. Results of operations are also affected by non-interest income, such as service charges, loan fees, and gains and losses from the sales of mortgage loans. The principal operating expenses, aside from interest expense, consist of compensation and employee benefits, occupancy costs, data processing expense and provisions for loan losses.

On February 25, 2005, we completed the sale of Team Insurance Group, Inc., our insurance agency subsidiary. Team Insurance Group, Inc., based in Tulsa, Oklahoma, operated as a subsidiary of TeamBank, N.A. since December of 2002 and offered employee benefit insurance and property and casualty insurance to businesses and individuals. We sold all the issued and outstanding shares of the insurance agency subsidiary to an unaffiliated third party for total cash consideration of \$6.8 million. Our investment in Team Insurance Group, Inc. as of February 25, 2005 was approximately \$7.0 million. The loss on the sale of the subsidiary of approximately \$164,000, pre-tax, was recorded in the second quarter of 2005 upon finalization of the selling price and is presented as loss from discontinued operations. The sale was effective December 31, 2004 and, therefore, the operating activities of the insurance subsidiary during 2005 were assumed by the new owners. Pursuant to the terms of the agreement, the buyer has until August 25, 2006 to contest representations and warranties.

As a result of the sale, the operations related to the insurance agency subsidiary during the three and six months ended June 30, 2004 have been reclassified as discontinued operations in the unaudited consolidated financial statements and notes to the unaudited consolidated financial statements.

Summarized results of operations of the insurance agency for the three and six months ended June 30, 2004 are as follows:

Total assets at June 30, 2005, were \$671.4 million compared to \$664.1 million at December 31, 2004, an increase of \$7.3 million. Loans receivable increased \$24.5 million to \$403.3 million at June 30, 2005, from \$378.8 million at December 31, 2004. The increases in loans receivable were funded with excess cash and an increase in deposits.

Investment Securities

Total investment securities were \$197.9 million at June 30, 2005, compared to \$191.8 million at December 31, 2004, an increase of \$6.1 million, or 3.2%. This increase was primarily due to investing excess cash in the securities markets.

Loans Receivable

Loans receivable increased \$24.5 million, or 6.5%, to \$403.3 million at June 30, 2005, compared to \$378.8 million at December 31, 2004. This increase was due to increases in real estate loans, primarily loans secured by construction and land development.

The following table presents the composition of the loan portfolio by type of loan at the dates indicated:

Non-performing Assets

Non-performing assets consist of loans 90 days or more delinquent and still accruing interest, non-accrual loans, restructured loans and assets acquired through foreclosure. Loans are generally placed on non-accrual status when principal or interest is 90 days or more past due, unless the loans are well-secured and in the process of collection. Loans may be placed on non-accrual status earlier when, in the opinion of management, reasonable doubt exists as to the full, timely collection of interest or principal.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

The following table summarizes non-performing assets:

	June 30, 2005	December 31, 2004
	(Dollars in thousands)	
Non-accrual loans	2,009	1,281
Loans 90 days past due and still accruing	496	420

Non-performing loans	3,595	2,754

Total non-performing assets	\$ 3,771	\$ 3,162
Non-performing loans as a percentage of total loans	0.89%	0.73%
Non-performing assets as a percentage of total assets	0.56%	0.48%

Non-performing assets totaled approximately \$3.8 million at June 30, 2005, compared to \$3.2 million at December 31, 2004. This increase is primarily a result of an increase in non-accrual loans.

Non-performing loans of approximately \$3.6 million at June 30, 2005 were comprised of several small non-accrual loans. The largest two loans included in non-accrual at June 30, 2005 were a loan to a manufacturer for \$539,800 and a loan for \$225,000 for a single family dwelling. The largest loan included in non-accrual at December 31, 2004 was approximately \$234,000 for a single-family dwelling. Restructured loans at June 30, 2005 and December 31, 2004 included several relationships; the largest was an agricultural loan restructured through Farmer Home Administration of approximately \$500,000.

Other real estate owned at June 30, 2005 consisted of four properties. The properties consisted of three commercial buildings and one single family dwelling. These properties are located within our market areas. Management is working to sell the real estate as soon as practical.

The loan portfolio is continuously monitored for possible non-performing assets as information becomes available. The magnitude of any increase in non-performing loans is not determinable.

Allowance for loan losses

The allowance for loan losses is based on industry standards, historical experience, an evaluation of economic conditions and information regarding the collectibility of specific loans. The loan portfolio is regularly reviewed for delinquencies and other quality indicators. The evaluation of the allowance for loan losses is based on various estimates and assumptions. Actual losses may differ due to changing conditions or information that is currently not available.

The following table summarizes our allowance for loan losses:

Six Months Ended June 30,

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

Allowance as a percent of total loans	1.30%	1.30%
Allowance as a percent of non-performing loans	145.37%	89.53%

Allowance for loan losses was 1.30% of total loans at June 30, 2005 and 2004. The allowance for loan losses as a percent of non-performing loans increased to 145.37% at June 30, 2005, compared to 89.53% at June 30, 2004 due to a decrease in non-accrual loans at June 30, 2005 compared to June 30, 2004. Non-accrual loans at June 30, 2005 were \$2.1 million and were \$3.6 million at June 30, 2004. This decrease was primarily due to the resolution of a loan classified as non-accrual at June 30, 2004 for a single family dwelling of approximately \$1 million that had specific reserves of approximately \$200,000 as the property was collateralized. This loan was foreclosed and the related property was sold in December 2004.

Deposits

Total deposits increased approximately \$10.2 million to \$478.2 million at June 30, 2005 from \$468.0 million at December 31, 2004. This increase was primarily a result of an increase in certificates of deposits as a result of branch promotional campaigns offset by a decrease in checking deposits.

Principal maturities of time deposits at June 30, 2005 are as follows:

Year:	
2005	83,587
2006	100,433

Core capital to average assets	8.42%	4.00%

Liquidity

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

Liquidity is continuously forecasted and managed in order to satisfy cash flow requirements of depositors and borrowers and meet other operating cash flow needs. We have developed internal and external sources of liquidity to meet our liquidity needs. These sources include, but are not limited to, the ability to raise deposits through branch promotional campaigns, purchase brokered certificates of deposits, maturity of overnight funds, short term investment securities classified as available-for-sale and draws on credit facilities established through the Federal Home Loan Bank of Topeka.

The most liquid assets are cash and cash equivalents and investment securities available-for-sale. The levels of these assets are dependent on operating, financing, lending, and investing activities during any given period. At June 30, 2005, these assets, approximating \$217.2 million, consist of investment securities available-for-sale of \$197.9 million. Approximately

\$158.4 million of these investment securities were pledged as collateral for borrowings, repurchase agreements and for public funds on deposit at June 30, 2005.

At June 30, 2005, there was approximately \$30.8 million borrowing capacity remaining under agreements with Federal Home Loan Bank of Topeka.

The average rate of interest earning assets increased 33 basis points to 5.98% for the six months ended June 30, 2005 from 5.65% during the same period in 2004. The average cost of interest-bearing liabilities increased 27 basis points for the six months ended June 30, 2005, compared to the same period in 2004. Changes in interest income or interest expense attributable to volume changes are calculated by multiplying the change in volume by the average interest rate during the prior year's respective three or six months periods. The changes in interest income or interest expense attributable to change in interest rates are calculated by multiplying the change in interest rate by the average volume during the prior year's respective three or six months periods. The changes in interest income or interest expense attributable to the combined impact of changes in volume and change in interest rate are calculated by multiplying the change in rate by the change in volume.

Interest-earning assets of continuing operations

The average rate on interest-earning assets from continuing operations was 6.05% for the three months ended June 30, 2005, representing an increase of 37 basis points from 5.68% for the same three months ended 2004. The average rate on interest-earning assets was 5.98% for the six months ended June 30, 2005, representing a 33 basis point increase from 5.65% for the same six months ended 2004. Interest-earning assets are comprised of loans receivable, investment securities, interest-bearing deposits and an investment in a non-consolidated wholly owned subsidiary that was formed for the purpose of issuing Trust Preferred Securities.

The average rate on loans receivable increased 31 basis points to 6.76% for the three months ended June 30, 2005, compared to 6.45% for the three months ended June 30, 2004. The average rate on loans receivable increased 21 basis points to 6.67% for the six months ended June 30, 2005, compared to 6.46% for the six months ended June 30, 2004. The average balance

of loans receivable increased approximately \$39.4 million during the three months ended June 30, 2005 compared to the same three months in 2004 and \$36.7 million during the six months ended June 30, 2005 compared to the same six months in 2004. The combination of the rate increases and average balance increases resulted in an increase in interest income from loans receivable of \$944,000, or 16.2%, during the second quarter of 2005 compared to the second quarter of 2004 and an increase of \$1.6 million, or 13.9%, during the six months ended June 30, 2005 compared to the same period in 2004. During the three and six months ended June 30, 2004, approximately \$200,000 of interest income on a non-accrual loan was reported in interest income. Excluding this income, the average rate on loan receivables would have been 6.23% for the quarter ended June 30, 2004 and 6.35% for the six months ended June 30, 2004.

The average rate on investment securities, adjusted for the tax effect of tax exempt securities, increased 33 basis points to 4.76% for the quarter ended June 30, 2005 compared to 4.43% for the quarter ended June 30, 2004 and 33 basis points to 4.77% for the six months ended June 30, 2005, compared to 4.44% for the six months ended June 30, 2004. This increase in average interest rate was offset by a decrease in the average balances of investment securities during the three and six months ended June 30, 2005 compared to the previous year.

Interest-bearing liabilities of continuing operations

The average rate paid on interest-bearing liabilities of continuing operations increased 38 basis points to 2.74% for the three months ended June 30, 2005, compared to 2.36% for the same three months ended 2004. The average rate paid on interest-bearing liabilities increased 27 basis points to 2.66% for the six months ended June 30, 2005, compared to 2.39% for the same six months ended 2004. The average rate paid on interest-bearing savings and interest-bearing checking deposits increased 39 basis points to 1.02% for the three months June 30, 2005 compared to 0.63% for the three months ended June 30, 2004. The average rate paid on time deposits increased 65 basis points to 2.90% during the second quarter of 2005 from 2.25% during the second quarter of 2004. The average rate paid on interest-bearing savings and interest-bearing checking deposits increased 31 basis points to 0.96% for the six months ended June 30, 2005, compared to 0.65% for the six months ended June 30, 2004. The average rate paid on time deposits increased 49 basis points to 2.78% during the six months ended June 30, 2005 compared to 2.29% during the six months ended June 30, 2004.

The effective interest rate on the subordinated debentures was 9.75% for the three months ended June 30, 2005 and 2004 and 9.79% for the six months ending June 30, 2005 and 2004. The difference between the contractual interest rate of 9.50% and the effective interest rate is the amortization of debt issuance costs, which are being amortized over a 30-year period ending August 10, 2031.

Provision for Loan Losses

A provision for losses on loans is charged to earnings to bring the total allowance for loan losses to a level considered appropriate by management based on historical loss experience, the volume and type of lending conducted, the status of past due principal and interest payments, general economic conditions, particularly as such conditions relate to our market areas, and other factors related to the collectibility of the loan portfolio. After considering the above factors, management recorded a provision for loan losses on loans totaling \$267,000 for the three months ended June 30, 2005, and \$310,000 for the three months ended June 30, 2004. The provision for loan losses for the six months ended June 30, 2005, was \$412,000, compared to \$560,000 for the six months ended June 30, 2004. The decreases in the provision for loan losses is due to increased loan quality.

Non-Interest Income from Continuing Operations

The following table summarizes non-interest income from continuing operations for the three and six months ended June 30, 2005, compared to the same periods ended June 30, 2004.

	Three Months Ended		Six Months Ended	
	2005	2004	2005	2004
	(In thousands)			
Service charges	\$ 998	\$ 1,012	\$ 1,902	\$ 1,842
Trust fees	183	161	370	312
Brokerage service revenue	18	39	77	149
Gain on sales of mortgage loans	212	377	427	720
Gain (loss) on sales of investment securities		(35)		(29)
Mortgage servicing fees	63	75	128	152
Merchant processing fees	9	54	19	103
ATM and debit card fees	120	91	217	169
Bank owned life insurance income	208	210	416	425
Other	121	92	211	192
Total non-interest income	\$ 1,932	\$ 2,076	\$ 3,767	\$ 4,035

Non-interest income for the three months ended June 30, 2005, was approximately \$1.9 million, a decrease of \$200,000, or 9.5%, from \$2.1 million for the three months ended June 30, 2004. Non-interest income for the six months ended June 30, 2005 was \$3.8 million, a decrease of \$200,000, or 5.0%, from \$4.0 million for the six months ended June 30, 2004.

Contributing to the decrease in non-interest income from continuing operations for the three and six months ended June 30, 2005 was a decrease in gain on sales of mortgage loans. Gain on sales of mortgage loans decreased \$165,000, or 43.8%, during the quarter ended June 30, 2005 and \$293,000, or 40.7%, during the six months ended June 30, 2005 compared to the same periods ended June 30, 2004. The decrease in gain on sales of mortgage loans experienced in 2005 was the result of the decrease in the volume of loans originated and sold compared to 2004.

Non-Interest Expense from Continuing Operations

The following table presents non-interest expense from continuing operations for the three and six months ended June 30, 2005, compared to the same periods ended June 30, 2004.

	Three Months Ended June 30		Six Months Ended June 30	
	2005	2004	2005	2004
	(In thousands)			
Salaries and employee benefits	\$ 2,833	\$ 2,665	\$ 5,450	\$ 5,336
Occupancy and equipment	695	669	1,367	1,332
Data processing	722	640	1,411	1,252
Professional fees	320	355	655	634
Marketing	86	95	147	155
Supplies	82	81	161	171
Intangible asset amortization	157	221	313	428
Other	805	887	1,627	1,755
Total non-interest expenses	\$ 5,700	\$ 5,613	\$ 11,131	\$ 11,063

Total non-interest expense from continuing operations for the three and six months ended June 30, 2005 remained consistent with the three and six months ended June 30, 2004.

Data processing expense increased approximately \$159,000, or 12.7%, during the six months ended June 30, 2005 compared to the same period ended June 30, 2004 as a result of increased software license expense and increased data processing fees. This was offset by a decrease in other expenses during the six months ended June 30, 2005 as a result of decreased merchant processing expense due to outsourcing the merchant processing program.

Income Tax Expense from Continuing Operations

We recorded income tax expense from continuing operations of \$292,000 for the three months ended June 30, 2005, an increase of \$119,000 compared to an income tax expense of \$173,000 for the three months ended June 30, 2004. Income tax expense for the six months ended June 30, 2005 was \$589,000, an increase of \$258,000 from \$331,000 recorded for the six months ended June 30, 2004.

The effective tax rate from continuing operations for the three months ended June 30, 2005, was 23.2%, compared to 16.9% for the three months ended June 30, 2004. The effective tax rate for the six months ended June 30, 2005, was 23.1%, compared to 16.9% for the six months ended June 30, 2004. The effective tax rate is less than the statutory federal rate of 34.0% due primarily to municipal interest income and income from the investment in bank owned life insurance. The increase in the effective tax rate was due to an increase in taxable income relative to the total pretax earnings between periods.

Item 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Asset and Liability Management

Asset and liability management refers to management's efforts to minimize fluctuations in net interest income caused by interest rate changes. This is accomplished by managing the repricing of interest rate sensitive interest-bearing assets and interest-bearing liabilities. Controlling the maturity of repricing of an institution's liabilities and assets in order to minimize interest rate risk is commonly referred to as gap management.

The following table indicates that at June 30, 2005, if there had been a sudden and sustained increase in prevailing market interest rates, our 2005 interest income would be expected to increase, while a decrease in rates would indicate a decrease in income.

Change in interest rates	Net interest income	(Decrease) increase (Dollars in thousands)	% change
200 basis point rise	\$ 24,419	\$ 1,724	7.60%
100 basis point rise	23,557	862	3.80%
Base rate scenario	22,695		
100 basis point decline	21,132	(1,563)	(6.89)%
200 basis point decline	18,504	(4,191)	(8.47)%

Item 4: CONTROLS AND PROCEDURES
