PART I

Item 1. Business

General Description

Team Financial, Inc. (the Company) is a financial holding company incorporated in the State of Kansas. Our common stock is listed on the Nasdaq National Market under the symbol TFIN .

We offer full service community banking and financial services through 18 locations in Kansas, Missouri, Nebraska and Colorado through our wholly owned banking subsidiaries, TeamBank, N.A., and Colorado National Bank. Our presence in Kansas consists of seven locations in the Kansas City metropolitan area and three locations in southeast Kansas. We operate two locations in western Missouri, three in metropolitan Omaha, Nebraska, and three in metropolitan Colorado Springs, Colorado.

We were formed in 1986 when our founders, along with an Employee Stock Ownership Plan (ESOP), purchased a one-bank holding company in Paola, Kansas, in a leveraged transaction. Since formation, we have grown from \$85 million in assets to \$697 million in assets as of December 31, 2005. This growth was achieved through a combination of bank and branch acquisitions, the establishment of new branches and by internal growth. In 1999 our common stock began trading on the Nasdaq National Market upon completion of a public offering.

The ESOP owned 23.1% of our outstanding common stock as of December 31, 2005. Management believes the ESOP reflects our corporate culture in that employees are the integral component of a financial institution. Management intends to continue the ESOP, as it is a significant incentive to attract and retain qualified employees.

We serve the needs and cater to the economic strengths of the local communities in which we operate and strive to provide a high level of personal and professional customer service. We offer a variety of financial services to our retail and commercial banking customers. These services include personal and corporate banking services, mortgage banking, trust and estate planning, and personal investment financial counseling services.

Our assortment of lending services includes:

- a broad array of residential mortgage products, both fixed and adjustable rate;
- consumer loans, including home equity lines of credit, auto loans, recreational vehicle, and other secured and unsecured loans;
- specialized financing programs to support community development;
- mortgages for multi-family real estate;
- commercial real estate loans;
- commercial loans to businesses, including revolving lines of credit and term loans;
- real estate development;
- construction lending; and
- agricultural lending.

We also provide a broad selection of deposit instruments which include:

- multiple checking and NOW accounts for both personal and business accounts;
- various savings accounts, including those for minors;

- money market accounts;
- tax qualified deposit accounts such as Health Savings Accounts and Individual Retirement Accounts; and
- a broad array of certificate of deposit products.

We also support our customers by providing services such as:

- functioning as a federal tax depository;
- access to merchant bankcard services;
- various forms of electronic funds transfer;
- debit cards and credit cards; and
- telephone and internet banking.

Through our trust and estate planning and our personal investment financial counseling services, we offer a wide variety of mutual funds, equity investments, and fixed and variable annuities.

We participate in the wholesale capital markets through the management of our investment securities portfolio and our use of various forms of wholesale funding. Our investment securities portfolio contains a variety of instruments, including callable debentures, taxable and nontaxable debentures, fixed and adjustable rate mortgage backed securities and collateralized mortgage obligations.

Our results of operations depend primarily on net interest income, which is the difference between interest income from interest-earning assets and interest expense on interest-bearing liabilities. Our operations are also affected by non-interest income, such as service charges, loan fees, and gains and losses from the sale of mortgage loans. Our principal operating expenses, aside from interest expense, consist of compensation and employee benefits, data processing expenses, occupancy costs, and provisions for loan losses.

Recent Developments

On February 25, 2005, we completed the sale of Team Insurance Group, Inc., our insurance agency subsidiary. This subsidiary was operated as a subsidiary of TeamBank, N.A. from December of 2002 until December, 2004 and offered employee benefit insurance and property and casualty insurance to businesses and individuals. We sold all the issued and outstanding shares of the subsidiary to an unaffiliated third party for total cash consideration of \$6.8 million after adjustments. Our investment in this subsidiary as of February 25, 2005 was approximately \$7.0 million. As a result of the sale, the operations related to this subsidiary have been reclassified in discontinued operations in the consolidated financial statements and related footnotes. A loss on the sale of the subsidiary of approximately \$164,000 was recorded in the second quarter of 2005 upon finalization of the selling price and is presented in our consolidated financial statements, net of tax, in loss from discontinued operations.

The sale was effective December 31, 2004 and, therefore, the operating activities of the insurance subsidiary during 2005 were assumed by the new owners. Pursuant to the terms of the agreement, the buyer has until August 25, 2006 to present any breach of warranty or representations claims.

During 2004, we opened two de novo branches in the Colorado Springs, Colorado metropolitan area. One opened for operation in March of 2004 in downtown Colorado Springs and the second opened in June of 2004 in Monument, Colorado, on the Interstate 25 corridor north of Colorado Springs.

Competition

We face a high degree of competition. In our market areas, there are numerous small banks and several larger national and regional financial banking groups. We also compete with savings and loan associations,

credit unions, leasing companies, mortgage companies, and other financial service providers. Many of these competitors have capital resources and legal lending limits substantially in excess of our capital resources and legal lending limits.

We compete for loans and deposits principally based on the availability and quality of services provided, responsiveness to customers, interest rates, loan fees and office locations. We actively solicit deposit customers and compete by offering them high quality customer service and a complete product line. We believe our personalized customer service, broad product line, and banking franchise enables us to compete effectively in our market area.

In order to compete with other financial service providers, we rely upon local community involvement, personal service, and the resulting personal relationships of our staff and customers, and the development and sale of products and services tailored to meet our customers' needs.

We face competition for our personnel. We compete for our personnel by offering competitive wages and benefit packages in our respective markets and by offering a pleasant work environment through our emphasis as a community banking culture. Management also believes that the ESOP contributes to our ability to effectively retain personnel in our market areas because it provides incentives for employees to continue their employment and motivation to enhance shareholder value.

We will also face significant competition from other financial institutions in any potential acquisitions. This competition can increase purchase prices to levels beyond our financial capability or to levels that would not result in economical returns on our investment.

We have two wholly owned bank subsidiaries. The table below presents information concerning these subsidiaries.

Name of Bank	Number of locations	Lending Limit (In millions)	Asset size at December 31, 2005
TeamBank, N.A. Paola, Kansas a national banking association	15	\$ 7.6	\$ 585
Colorado National Bank Colorado Springs, Colorado, a national banking association	3	1.4	110

Market Areas Served

TeamBank, N.A.

TeamBank, N.A. has banking locations in Kansas, Missouri, and Nebraska. TeamBank, N.A.'s primary Kansas service area is in Miami County, Kansas.

TeamBank, N.A.'s Miami County branches are located in Paola, the county seat of Miami County, Osawatomie, the second largest city in the county and Spring Hill, a community developed across the Miami County and Johnson County border. TeamBank, N.A. also operates a branch in Ottawa, Kansas, the county seat of adjoining Franklin County; Iola, Kansas, the county seat of Allen County; and operates two locations in Parsons, Kansas of Labette County. TeamBank, N.A.'s Johnson County branches are located in Prairie Village and De Soto, Kansas. TeamBank, N.A.'s Missouri service areas are in Barton and Vernon counties, which adjoin each other and are located in the southwest section of Missouri along the Kansas-Missouri border. TeamBank, N.A. also operates three facilities in the Omaha, Nebraska metropolitan area. The primary Nebraska service areas are in Washington and Sarpy Counties.

Colorado National Bank

Colorado National Bank, located in Colorado Springs, Colorado, services El Paso County and Teller County, which are located along the front range of the Colorado Rocky Mountains. In January 2003, the name of Colorado Springs National Bank was changed to Colorado National Bank to reflect our expansion plans to other markets beyond Colorado Springs along the front range of the Colorado Rocky Mountains. The bank operates two full service branches in Colorado Springs and a third branch located in Monument, Colorado, which is a community located between Denver and Colorado Springs, along the growing Interstate 25 corridor.

Growth and Operating Strategies

Our operating strategy is to serve the needs and cater to the economic strengths of the local communities in which we operate and strive to provide a high level of personal and professional customer service. We offer a variety of financial services to our retail and commercial banking customers.

Our growth strategy is focused on a combination of acquisitions and expansion in our existing markets through internal growth as well as establishing new branches.

Acquisitions

Management believes that the consolidation in the banking industry, along with the easing of legal requirements of branch banking throughout Kansas, Missouri, Nebraska, and Colorado as well as increased regulatory requirements, concerns about technology and marketing, are likely to lead owners of community banks within these areas to explore the possibility of sale or combination with broader-based financial service companies such as ourselves. In addition, branching opportunities can arise from time to time as a result of divestiture of branches by large national and regional bank holding companies of certain overlapping branches resulting from consolidations. As a result, branch locations have become available for purchase. We completed three branch acquisitions and three bank holding company acquisitions from 1997 through 2003.

Management's strategy in assimilating acquisitions is to emphasize revenue growth and to continuously review the operations of the acquired entities and streamline operations where feasible. Management does not believe that implementing wholesale administrative cost reductions in acquired institutions is beneficial to our long-term growth, because significant administrative changes in community banks can have an adverse impact on customer satisfaction in the acquired institution's community. However, management has determined that certain human resource, operations, and accounting functions can be consolidated immediately upon acquisition to achieve greater efficiencies without compromising customer service.

Branch Location Expansion

On an ongoing basis, management reviews opportunities to expand through acquisition of branches or developing de novo branches. Because of the economic growth over the past several years in the Omaha, Nebraska area, the Colorado Springs, Colorado area, as well as Johnson County, Kansas; management may consider further branch expansion in these areas. However, we will not rule out branch expansion in other areas experiencing economic growth.

We consider a variety of criteria when evaluating potential acquisition candidates or branching opportunities. These include:

- the market location of the potential acquisition target or branch and demographics of the surrounding community;
- the financial soundness of a potential acquisition target;

- opportunities to improve the efficiency and/or asset quality of an acquisition target;
- the effect of the acquisition on earnings per share and book value, seeking acquisitions that will be accretive to earnings within 18 months of the acquisition;
- whether we have sufficient management and other resources to integrate or add the operations of the target or branch; and
- the investment required for, and opportunity costs of, the acquisition or branch.

Internal Growth

We believe that our largest source of internal growth is through our ongoing solicitation practices conducted by bank presidents, market leaders and lending officers, followed by referrals from customers. The primary reason for referrals is positive customer feedback regarding our customer service and response time.

Our goal in continuing our expansion is to maintain a profitable, customer-focused financial institution. We believe that our existing structure, management, data and operational systems are sufficient to achieve further internal growth in asset size, revenues, and capital without proportionate increases in operating costs. This internal growth should also allow us to increase the legal lending limits of our banks, thereby enabling us to increase our ability to serve the needs of existing and new customers. Our operating strategy has always been to provide high quality community banking services to our customers and increase market share through active solicitation of new business, repeat business, referrals from customers, and continuation of selected promotional strategies.

For the most part, our banking customers seek a banking relationship with a service-oriented community banking organization. Our operational systems have been designed to facilitate personalized service. Management believes our banking locations have an atmosphere which facilitates personalized services and decision-making, yet are of sufficient financial size with broad product lines to meet customers' needs. Management also believes that economic expansion in our market areas will continue to contribute to internal growth. Through our primary emphasis on customer service and our management's banking experience, we intend to continue internal growth by attracting customers and primarily focusing on the following:

- **Products Offered** We offer personal and corporate banking services, trust and estate planning, mortgage origination, mortgage servicing, personal investment, and financial counseling services as well as internet and telephone banking. We offer a full range of commercial banking services, checking accounts, ATM's, checking accounts with interest, savings accounts, money market accounts, certificates of deposit, NOW accounts, Health Savings Accounts, Individual Retirement Accounts, brokerage and residential mortgage services, branch banking, and debit and credit cards. We also offer installment loans, including auto, recreational vehicle, and other secured and unsecured loans sourced directly by our branches. See **Loans** below for a discussion of products we provide to commercial accounts.
- **Operational Efficiencies** We seek to maximize operational and support efficiencies consistent with maintaining high quality customer service. Where feasible, our banks share a common information system designed to enhance customer service and improve efficiencies by providing system-wide voice and data communication connections. We have consolidated loan processing, bank balancing, financial reporting, investment management, information systems, payroll and benefit management, loan review, and audits.
- **Marketing Activities** We focus on a proactive solicitation program for new business, as well as identifying and developing products and services that satisfy customer needs. We actively sponsor

community events within our branch areas. We believe that active community involvement contributes to our long-term success.

Loans

We provide a broad range of commercial and retail lending services. Our banks follow a uniform credit policy, which contains underwriting and loan administration criteria, levels of loan commitment, loan types, credit criteria, concentration limits, loan administration, loan review and grading and related matters. In addition, we provide ongoing loan officer training and operate a centralized processing and servicing center for loans. Each loan portfolio is subject to loan review on a regular basis in accordance with our loan review process. At December 31, 2005, substantially all loans outstanding were to customers within our market areas.

Loan Administration

We maintain a loan committee approach to lending, which we believe yields positive results in both responsiveness to customer needs and asset quality. Each of our subsidiary banks and some branches have a loan committee, which meets at least once per week to review and discuss loans. Each bank and some branches also have a loan level threshold, which, if exceeded, requires the approval of our holding company loan committee, which meets on an on-call basis. Interest rates charged on loans vary with the degree of risk, maturity, costs of underwriting and servicing, loan amount, and the extent of other banking relationships maintained with customers, and are further subject to competitive pressures, availability of funds and government regulations.

Commercial Loans

These loans consist primarily of loans to businesses for various purposes, including revolving lines of credit, equipment financing, and accounts receivable factoring. Commercial loans secured by collateral other than real estate generally mature within one year, have adjustable interest rates and are secured by inventory, accounts receivable, machinery, government guarantees, or other commercial assets. Revolving lines of credit are generally for business purposes, mature annually and have adjustable interest rates. The primary repayment risk of commercial loans is the failure of the borrower's business.

Real Estate Loans

These loans include various types of loans for which we hold real property as collateral. Interest rates on these loans typically adjust annually. Real estate construction loans include commercial and residential real estate construction loans, but are principally made to builders to construct business buildings or single and multi-family residences. Real estate construction loans typically have maturities of six to 12 months, and are charged origination fees. Terms may vary depending upon many factors, including the type of project and financial condition of the borrower. It is our standard practice in making commercial loans to receive real estate as collateral in addition to other appropriate collateral. Therefore, loans categorized in the other real estate loan category can be characterized as commercial loans, which are secured by real estate. Commercial loans secured by real estate typically have adjustable interest rates. The primary risks of real estate mortgage loans include the borrower's inability to pay, deterioration in value and increased government planning and zoning activity that may negatively affect the value of real estate that is held as collateral.

Agricultural Loans

We make a variety of agricultural loans which are included in real estate and commercial loans. These loans relate to equipment, livestock, crops, and farmland. The primary risks of agricultural loans include the fluctuating prices of crops and livestock, as well as weather conditions.

Installment Loans

Installment loans are primarily to individuals, are typically secured by the financed assets, generally have terms of two to five years and bear interest at fixed rates. These loans usually are secured by motor vehicles or other personal assets and in some instances are unsecured. The primary risk of consumer lending relates to the personal financial circumstances of the borrower.

Letters of Credit

In the ordinary course of business, we issue letters of credit. See note 17 to Item 8 Financial Statements. We apply the same credit standards to these commitments as we use in all our lending activities and have included these commitments in our lending risk evaluations. Our exposure to credit loss under letters of credit is represented by the amount of these commitments.

Employees

As of December 31, 2005, we had approximately 240 full-time equivalent employees. Neither our company nor any of our subsidiaries is a party to any collective bargaining agreement.

Principal Sources of Revenue

Our results of operations depend primarily on net interest income, which is the difference between interest income from interest-earning assets and interest expense on interest-bearing liabilities. Our operations are also affected by non-interest income, such as service charges, loan fees, and gains and losses from the sale of mortgage loans. Our principal operating expenses, aside from interest expense, consist of compensation and employee benefits, data processing expense, occupancy costs, and provisions for loan losses.

Supervision and Regulation

Government Regulation

We are extensively regulated under federal and state law. These laws and regulations are primarily intended to protect depositors and the deposit insurance fund of the Federal Deposit Insurance Corporation, not our shareholders. The following information is qualified in its entirety by reference to the particular statutory and regulatory provisions. Any change in applicable laws, regulations or regulatory policies may have a material effect on our business, operations, and prospects. We are unable to predict the nature or extent of the effects that fiscal or monetary policies, economic controls or new federal or state legislation may have on our business and earnings in the future.

The Company

General

We operate as a financial holding company registered with the Federal Reserve Board under the Gramm-Leach-Bliley Act (GLBA). This law permits former bank holding companies that have registered as financial holding companies to affiliate with securities firms and insurance companies and engage in other activities that are financial in nature.

No regulatory approval is required for a financial holding company to acquire a company, other than a bank or savings association, engaged in activities that are financial in nature or incidental to activities that are financial in nature, as determined by the Federal Reserve Board. The GLBA defines "financial in nature" to include securities underwriting, dealing, and market making; sponsoring mutual funds and investment companies; insurance underwriting and agency; merchant banking activities; and activities that the Federal Reserve Board has determined to be closely related to banking. A national bank also may engage, subject to limitations on investment, in activities that are financial in nature, other than insurance.

underwriting, insurance company portfolio investment, real estate development and real estate investment, through a financial subsidiary of the bank, if the bank is well capitalized, well managed and has at least a satisfactory Community Reinvestment Act (CRA) rating.

Although it preserves the Federal Reserve Board as the umbrella supervisor of financial holding companies, the GLBA defers the administration of the non-banking activities to the customary regulators of insurers, broker-dealers, investment companies and banks. Thus, the various state and federal regulators of a financial holding company's operating subsidiaries would retain their jurisdiction and authority over such operating entities. As the umbrella supervisor, however, the Federal Reserve Board has the potential to affect the operations and activities of financial holding companies' subsidiaries through its power over the financial holding company parent. The GLBA contains restrictions on financial institutions regarding the sharing of customer nonpublic personal information with nonaffiliated third parties unless the customer has had an opportunity to opt out of the disclosure. The GLBA also imposes periodic disclosure requirements concerning a financial institution's policies and practices regarding data sharing with affiliated and nonaffiliated parties.

Subsidiary banks of a financial holding company or national banks with financial subsidiaries must continue to be well capitalized and well managed in order to continue to engage in activities that are financial in nature without regulatory actions or restrictions, which could include divestiture of the subsidiary or subsidiaries. In addition, a financial holding company or a bank may not acquire a company that is engaged in activities that are financial in nature unless each of the subsidiary banks of the financial holding company or the bank has CRA rating of satisfactory or better.

Acquisitions

As a financial holding company, we are required to obtain the prior approval of the Federal Reserve Board before acquiring direct or indirect ownership or control of more than 5% of the voting shares of a bank or financial holding company. The Federal Reserve Board will not approve any acquisition, merger, or consolidation that would have a substantial anti-competitive effect, unless the anti-competitive effects of the proposed transaction are outweighed by a greater public interest in meeting the needs and convenience of the community. The Federal Reserve Board also considers managerial resources, current and projected capital positions and other financial factors in acting on acquisition or merger applications.

Capital Adequacy

The Federal Reserve Board monitors the regulatory capital adequacy of financial holding companies. As discussed below, our banks are also subject to the regulatory capital adequacy requirements of the Federal Deposit Insurance Corporation and the Comptroller of the Currency, as applicable. The Federal Reserve Board uses a combination of risk-based guidelines and leverage ratios to evaluate our regulatory capital adequacy.

The Federal Reserve Board has adopted a system using risk-based capital adequacy guidelines to evaluate the regulatory capital adequacy of financial holding companies. The guidelines apply on a consolidated basis to financial holding companies with consolidated assets of at least \$150 million. Under the risk-based capital guidelines, different categories of assets are assigned to different risk categories based generally on the perceived credit risk of the asset. The risk weights of the particular category are multiplied by the corresponding asset balances and added together to determine a risk-weighted asset base. Some off-balance sheet items, such as loan commitments in excess of one year, mortgage loans sold with recourse and letters of credit, are added to the risk-weighted asset base by converting them to a credit equivalent and assigning them to the appropriate risk category. For purposes of the Federal Reserve Board's regulatory risk-based capital guidelines, total capital is defined as the sum of core and secondary capital elements, with secondary capital being limited to 100% of core capital. For financial holding companies,

core capital, also known as Tier 1 capital, generally includes common shareholders' equity, perpetual preferred stock and minority interests in consolidated subsidiaries, less goodwill and other intangible assets. No more than 25% of core capital elements may consist of cumulative preferred stock. Secondary capital, also known as Tier 2 capital, generally includes the allowance for loan losses limited to 1.25% of weighted risk assets, certain forms of perpetual preferred stock, as well as hybrid capital instruments. The Federal Reserve Board's regulatory guidelines require a minimum ratio of qualifying total capital to weighted risk assets of 8%, of which at least 4% should be in the form of core capital. At December 31, 2005, our core capital was \$56.7 million.

In addition to the risk-based capital guidelines, the Federal Reserve Board, the Federal Deposit Insurance Corporation and the Comptroller of the Currency use a leverage ratio as an additional tool to evaluate capital adequacy. The leverage ratio is defined by the Federal Reserve Board to be a company's core capital divided by its average total consolidated assets, and the Comptroller of the Currency's and Federal Deposit Insurance Corporation's definitions are similar. Based upon our current capital status, the applicable minimum required leverage ratio is 4%.

The table below presents certain capital ratios at December 31, 2005.

Ratio	Actual	Minimum required
Total capital to risk weighted assets	12.72 %	8.00 %
Core capital to risk weighted assets	11.60 %	4.00 %
Core capital to average assets	8.42 %	4.00 %

Failure to meet the regulatory capital guidelines may result in the initiation by the Federal Reserve Board of appropriate supervisory or enforcement actions, including but not limited to delaying or denying pending or future applications to acquire additional financial or bank holding companies.

Sarbanes-Oxley Act

The Sarbanes-Oxley Act (the Act), signed into law in 2002, addresses issues related to corporate governance of publicly traded companies. The Act requires, among other items, certification of the quality of financial reporting by the Chief Executive Officer and Chief Financial Officer, enhanced and timely disclosure of financial reporting and strengthens the rules regarding auditor and audit committee independence. Certain provisions of the Act were effective immediately and others became effective or are in process of becoming effective through Securities and Exchange Commission rules. As of the end of fiscal year 2007, the Company expects to be subject to all provisions of the Act and anticipates increased future expenditures in order to comply with the provisions of the Act.

The Banks

General

We own two national chartered banks. TeamBank, N.A. and Colorado National Bank, as national banks, are subject to regulations by the Office of the Comptroller of the Currency. The deposits of the banks are insured by the Federal Deposit Insurance Corporation.

Community Reinvestment Act (CRA)

Under the federal Community Reinvestment Act, financial institutions have a continuing and affirmative obligation, consistent with safe and sound operations of such institutions, to serve the convenience and needs of the communities in which they are chartered to do business, including low and moderate-income neighborhoods. The Community Reinvestment Act currently requires that regulators consider an

applicant's Community Reinvestment Act record when evaluating certain applications, including charters, branches, and relocations, as well as mergers and consolidations. The applicable federal regulators regularly conduct Community Reinvestment Act examinations to assess the performance of financial institutions and assign one of four ratings to the institution's records of meeting the credit needs of its community. During their last examinations, ratings of at least satisfactory were received by all of our banks. As a result, management believes that the performance of our banks under the Community Reinvestment Act will not impede regulatory approvals of any proposed acquisitions or branching opportunities.

Dividend Restrictions

Dividends paid by our banks to the holding company provide a substantial amount of our operating and investing cash flow. During 2005, our subsidiary banks paid \$5,730,000 in dividends to the holding company and could have paid an additional \$1,200,000 without prior regulatory approval.

With respect to national banks, the directors may declare dividends of as much of the bank's undivided profits as they deem expedient, except until the bank's surplus fund equals its common capital at which time, no dividends may be declared unless the bank has carried to the surplus fund at least one-tenth of the bank's net income of the preceding half year in the case of quarterly or semiannual dividends, or at least one-tenth of its net income of the preceding two consecutive half-year periods in the case of annual dividends. However, the Comptroller of the Currency's approval is required if the total of all dividends declared by a bank in any calendar year exceeds the total of its net income of that year combined with its retained net income of the preceding two years, less any required transfers to surplus or a fund for the retirement of any preferred stock.

Examinations

The primary federal banking regulators examine our banks from time to time. Based upon an evaluation, the examining regulator may revalue a bank's assets and require that it establish specific reserves to compensate for the difference between the value determined by the regulator and the book value of the assets.

Capital Adequacy

The Federal Deposit Insurance Corporation and the Comptroller of the Currency have adopted regulations establishing minimum requirements for the capital adequacy of insured institutions. The requirements address both risk-based capital and leverage capital, with risk-based assets and core and secondary capital being determined in basically the same manner as described above for financial holding companies. The Federal Deposit Insurance Corporation or the Comptroller of the Currency may establish higher minimum requirements if, for example, a bank has previously received special attention or has a high susceptibility to interest rate risk.

The Comptroller of the Currency risk-based capital guidelines require national banks to maintain a minimum ratio of total capital, after deductions, to weighted risk assets of 8%, and national banks and state nonmember banks must have and maintain core capital in an amount equal to at least 3% of adjusted total assets; but for all but the most highly rated banks, the minimum core leverage ratio is to be 3% plus an additional cushion of at least 100 to 200 basis points. The applicable guideline for TeamBank, N.A. and Colorado National Bank is 4%.

The table below presents the regulatory capital ratios of TeamBank N.A. and Colorado National Bank at December 31, 2005.

Ratio	TeamBank, N.A.		Colorado National Bank	
	Actual	Minimum Required	Actual	Minimum Required
Total capital to risk weighted assets	12.18 %	8.00 %	13.34 %	8.00 %
Core capital to risk weighted assets	11.05 %	4.00 %	12.31 %	4.00 %
Core capital to average assets	8.16 %	4.00 %	8.04 %	4.00 %

Banks with regulatory capital ratios below the required minimum are subject to administrative actions, including the termination of deposit insurance upon notice and hearing, or a temporary suspension of insurance without a hearing in the event the institution has no tangible capital.

The Federal Deposit Insurance Corporation and Comptroller of the Currency regulators have adopted regulations that define five capital levels: well capitalized, adequately capitalized, undercapitalized, severely undercapitalized and critically undercapitalized. An institution is critically undercapitalized if it has a tangible equity to total assets ratio that is equal to or less than 2%. An institution is well capitalized if it has a total risk-based capital ratio of 10% or greater, core risk-based capital ratio of 6% or greater, and a leverage ratio of 5% or greater, and the institution is not subject to an order, written agreement, capital directive, or prompt corrective action directive to meet and maintain a specific capital level for any capital measure. An institution is adequately capitalized if it has a total risk-based capital ratio of 8% or greater, a core risk-based capital ratio of 4% or greater, and a leverage ratio of 4% or greater. Currently, our banks are well capitalized.

The Federal Deposit Insurance Corporation Improvement Act requires the federal banking regulators to take prompt corrective action to resolve the problems of insured depository institutions, including capital-deficient institutions. In addition to requiring the submission of a capital restoration plan, the Federal Deposit Insurance Corporation Improvement Act contains broad restrictions on activities of institutions that are not adequately capitalized involving asset growth, acquisitions, branch establishment, and expansion into new lines of business. With limited exceptions, an insured depository institution is prohibited from making capital distributions, including dividends, and is prohibited from paying management fees to control persons if the institution would be undercapitalized after any distribution or payment.

As an institution's capital decreases, the powers of the federal regulators become greater. A significantly undercapitalized institution is subject to mandated capital raising activities, restrictions on interest rates paid and transactions with affiliates, removal of management, and other restrictions. The regulators have limited discretion in dealing with a critically undercapitalized institution and are virtually required to appoint a receiver or conservator if the capital deficiency is not promptly corrected.

Real Estate Lending Evaluations

The federal regulators have adopted uniform standards for evaluations of loans secured by real estate or made to finance improvements to real estate. Banks are required to establish and maintain written internal real estate lending policies consistent with safe and sound banking practices and appropriate to the size of the institution and the nature and scope of its operations. The regulations establish loan to value ratio limitations on real estate loans, which generally are equal to or greater than the loan to value limitations established by our banks.

Deposit Insurance Premiums

Deposits of our banks are insured up to the regulatory limit by the FDIC and are subject to deposit assessments. The assessment schedule for banks ranges from 0 to 27 cents per \$100 of deposits, based on capital and supervisory factors. The banks' insured deposits are subject to assessment payable to the Bank Insurance Fund. An institution's assessment is based on the assignment of the institution by the Federal Deposit Insurance Corporation to one of three capital groups and to one of three supervisory subgroups. The capital groups are well capitalized, adequately capitalized and undercapitalized. The three supervisory subgroups are Group A, for financially solid institutions with only a few minor weaknesses, Group B, for those institutions with weaknesses which, if uncorrected could cause substantial deterioration of the institution and increase the risk to the deposit insurance fund, and Group C, for those institutions with a substantial probability of loss to the fund absent effective corrective action. Currently, both of our banks are in Group A.

Interstate Banking Legislation

The Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994, which became effective September 1995, eliminated many of the historical barriers to the acquisition of banks by out-of-state financial holding companies. This law facilitates the interstate expansion and consolidation of banking organizations by permitting: (1) financial holding companies that are adequately capitalized and managed, subject to certain limitations, to acquire banks located in states outside their home states regardless of whether acquisitions are authorized under the laws of the host state; (2) the interstate merger of banks after June 1, 1997, subject to the right of individual states either to pass legislation providing for earlier effectiveness of mergers or to opt out of this authority prior to that date; (3) banks to establish new branches on an interstate basis provided that this action is specifically authorized by the laws of the host state; (4) foreign banks to establish, with approval of the appropriate regulators in the United States, branches outside their home states to the same extent that national or state banks located in that state would be authorized to do so; and (5) banks to receive deposits, renew time deposits, close loans, service loans and receive payments on loans and other obligations as agent for any bank or thrift affiliate, whether the affiliate is located in the same or different state.

Item 1A. Risk Factors

Set forth below are material risks we face in the operation of our business.

Changing regulatory structure Industry regulators such as the Federal Reserve, the Comptroller of the Currency and the Federal Deposit Insurance Corporation may modify current regulations applicable to our operations. Additionally, future changes in legislation, including legislation governing publicly traded companies could impact our operations. We cannot predict the impact of implementing any future regulatory changes on the results of our operations or financial condition.

Monetary policy and economic environment The policies of regulatory authorities, including the monetary policy of the Federal Reserve, have a significant effect on the operating results of financial holding companies and their subsidiaries. Among the means available to the Federal Reserve to affect the money supply are open market operations in U.S. Government securities, changes in the discount rate on member bank borrowings, and changes in reserve requirements against member bank deposits. These means are used in varying combinations to influence overall growth and distribution of bank loans, investments and deposits, and their use may affect interest rates charged on loans or paid on deposits.

The Federal Reserve's monetary policies have materially affected the operating results of commercial banks in the past and are expected to continue to do so in the future. The nature of future monetary policies and the effect of these policies on our business and earnings cannot be predicted.

Our growth strategy involves operating and acquisition risks that may negatively impact our profits We face risks in our growth strategy, including the risks that we will be unable to expand our business through the acquisition of other financial institutions or bank branches or by internal growth, including the opening of new branch offices. Our ability to grow profitably through the opening of new branches involves risks that the growth depends primarily on our ability to identify attractive markets and acquire or establish branch locations in those markets at reasonable costs. In addition, we must attract the necessary deposits and generate sound loans in those markets.

Acquiring other financial institutions or bank branches involves these same risks, as well as additional risks, including:

- adverse change in the results of operations of the acquired entities;
- unforeseen liabilities or asset quality problems of the acquired entities;
- greater than anticipated costs of integrating acquisitions;
- adverse personnel relations;
- loss of customers; and
- deterioration of local economic conditions.

The risks discussed above may inhibit or restrict our strategy to grow through acquisition and branch expansion, and may negatively impact our revenue growth and ultimately reduce profits.

If we are unable to successfully integrate acquisitions, our earnings could decrease In connection with our acquisitions of other banks, bank branches or other financial service providers, we face risks in integrating and managing these businesses. We have a history of growth through acquisitions and plan to continue this strategy. To integrate an acquisition operationally, we must:

- centralize and standardize policies, procedures, practices, and processes;
- combine employee benefit plans;

14

- implement a unified investment policy and adjust the combined investment portfolio to comply with the policy;
- implement a unified loan policy and confirm lending authority;
- implement a standard loan management system; and
- implement a loan loss reserve policy.

Integrating acquisitions may detract attention from our day-to-day business and may result in unexpected costs.

Once an acquired business is integrated, our future prospects will be subject to a number of risks, including, among others:

- our ability to compete effectively in new market areas;
- our successful retention of earning assets, including loans acquired in acquisitions;
- our ability to generate new earning assets;
- our ability to attract deposits;
- our ability to achieve cost savings. Historically, we have not implemented wholesale cost cutting after acquisitions, preferring to adjust operational costs on an ongoing basis in order to preserve market share and each acquired entity's standing in its community; and
- our ability to attract and retain qualified management and other appropriate personnel.

An inability to manage these factors may have a material adverse effect on our financial condition and results of operations.

Our growth may require us to raise additional capital in the future, but sufficient capital may not be available when it is needed We are required by federal and state regulatory authorities to maintain adequate levels of capital to support our operations. We anticipate that our existing capital resources will satisfy our immediate foreseeable capital requirements. However, to the extent that we further expand our asset base, primarily through loan growth, we will be required to support this growth by increasing our capital. Accordingly, we may need to raise additional capital in the future to support continued asset growth.

Our ability to raise additional capital to support future loan growth will depend on conditions in the capital markets, which are outside of our control, and on our financial performance. Accordingly, we cannot assure our ability to raise additional capital when needed or on economical terms. If we cannot raise additional capital when needed, we will be subject to increased regulatory supervision and the imposition of restrictions on our growth and our business. Also, these restrictions could negatively impact our ability to further expand our operations through acquisitions or the establishment of additional branches and result in increases in operating expenses and reductions in revenues that would negatively affect our operating results.

We rely heavily on our management team, and the unexpected loss of key managers may adversely affect our operations Much of our success to date has been influenced strongly by our ability to attract and retain senior management experienced in banking and financial services. Our ability to retain executive officers, the current management teams and loan officers of our operating subsidiaries will continue to be important to the successful implementation of our strategies. It is also critical to be able to attract and retain qualified additional management and loan officers. The unexpected loss of services of any key management personnel, or the inability to recruit and retain qualified personnel in the future, could have an adverse effect on our business, financial condition and results of operations.

We may not be able to successfully implement our strategy to enter new markets Our strategic plan includes expansion into growing markets by acquisition or by establishing new offices. Expansion requires a significant expenditure of capital in order to prepare the facilities for operation and additional expense in order to staff these new facilities. As our new offices mature and grow, we are able to spread our overhead costs over a broader asset base. While our new offices are generating loan activity consistent with our expectations, we may encounter unanticipated difficulties that could adversely affect future profitability. In addition, we cannot ensure that we will be able to operate and manage our operations in new markets successfully or recover our initial capital investment in these operations. To the extent that we expand, we may experience the negative effects of higher operating expenses relative to operating income from the new offices.

We may not be successful in implementing our internal growth strategy due to numerous factors, which would negatively affect earnings We intend to continue pursuing an internal growth strategy, the success of which is subject to our ability to generate an increasing level of loans and deposits at acceptable risk levels without corresponding increases in non-interest expenses. We may not be successful in our internal growth strategies due to competition, delays, and other impediments resulting from regulatory oversight, lack of qualified personnel, scarcity of branch sites or deficient site selection of bank branches. In addition, the success of our internal growth strategy will depend on maintaining sufficient regulatory capital levels and on positive economic conditions in our primary market areas.

We face intense competition in all phases of our business from other banks and financial institutions We compete for deposits with a large number of depository institutions including commercial banks, savings and loan associations, credit unions, money market funds and other financial institutions and financial intermediaries serving our operating areas. Principal competitive factors with respect to deposits include interest rates paid on deposits, customer service, convenience, and location.

We compete for loans with other banks located in our operating areas, with loan production offices of large banks headquartered in other states, as well as with savings and loan associations, credit unions, finance companies, mortgage bankers, leasing companies and other institutions. Competitive factors with respect to loans include interest rates charged, customer service and responsiveness in tailoring financial products to the needs of customers.

We face significant competition from other financial institutions in making any potential acquisitions. Many of our acquisition competitors have substantially greater monetary resources than we do, as well as the ability to issue marketable equity securities with significantly greater value than we can to pay for part or all of the purchase price. Many of the entities that we compete with are substantially larger in size, and many non-bank financial intermediaries are not subject to the regulatory restrictions applicable to our bank subsidiaries.

Our allowance for loan losses may prove to be insufficient to absorb losses in our loan portfolio We establish an allowance for loan losses in consultation with management of our bank subsidiaries and maintain it at a level considered adequate by management to absorb loan losses that are inherent in our loan portfolio. The amount of future loan losses is susceptible to changes in economic, operating and other conditions, including changes in interest rates that may be beyond our control and these losses may exceed current estimates. Although management believes that our allowance for loan losses is adequate to absorb losses on any existing loans that may become uncollectible, we cannot predict loan losses with certainty, and we cannot ensure that our allowance for loan losses will prove sufficient to cover actual loan losses in the future. Loan losses in excess of our allowance for loan losses may adversely affect our business, financial condition and results of operations.

If economic conditions in general and in our primary market areas deteriorate, our revenues could decrease Our financial results may be adversely affected by changes in prevailing economic conditions, including declines in real estate values, changes in interest rates which cause a decrease in interest rate

spreads, adverse employment conditions and the monetary and fiscal policies of the federal government. Because we have a significant amount of real estate loans, declines in real estate values could adversely affect the value of property used as collateral.

In addition, substantially all of our loans are to individuals and businesses in suburban Kansas City, Eastern Kansas, Western Missouri, the Colorado Springs metropolitan area, and the Omaha, Nebraska metropolitan area. Any decline in the economy of these market areas could have an adverse impact on our revenues. There can be no assurance that positive trends or developments discussed in this report will continue or that negative trends or developments will not have significant downward effects on our revenues.

Our business is subject to credit risks, which may adversely affect our earnings Our loan customers may not repay their loans according to their terms, and collateral securing their loans, if any, may not have a value equal to amounts owed under their loans. Should the economic climate deteriorate, borrowers may experience difficulty in repaying their loans, and the level of non-performing loans, charge-offs, and delinquencies could rise and require further increases in the provision for loan losses which would cause our net income to decline.

Forward-Looking Statements

Certain statements contained in this Annual Report on Form 10-K, which are not statements of historical fact, constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act (the Act), including, without limitation, the statements specifically identified as forward-looking statements within this document. In addition, certain statements in our future filings with the Securities and Exchange Commission, press releases or oral and written statements made by or with our approval, which are not statements of historical fact, constitute forward-looking statements within the meaning of the Act. Examples of forward-looking statements include, but are not limited to: (i) projections of revenue, income or loss, earnings or loss per share, the payment or nonpayment of dividends, capital structure and other financial items, (ii) statements of plans and objectives of the Company, management or board of directors, including those relating to products or services, (iii) statements of future economic performance and (iv) statements such as anticipates, expects, intends, plans, targets, and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements.

Forward-looking statements involve risks and uncertainties, which may cause actual results to differ materially from those in such statements. Factors that could cause actual results to differ from those discussed in the forward-looking statements include, but are not limited to: (i) the strength of the U.S. economy in general and the strength of the local economies in which operations are conducted; (ii) the effects of and changes in trade, monetary and fiscal policies and laws, including interest rate policies of the Federal Reserve Board; (iii) inflation, interest rates, market and monetary fluctuations; (iv) the timely development of and acceptance of new products and services and perceived overall value of these products and services by users; (v) changes in consumer spending, borrowing, and savings habits; (vi) technological changes; (vii) acquisitions and our ability to assimilate them; (viii) the ability to increase market shares and control expenses; (ix) the effect of changes in laws and regulations (including laws and regulations concerning taxes, banking, and securities) with which we must comply; (x) the effect of changes in accounting policies and practices, as may be adopted by the regulatory agencies as well as the Financial Accounting Standards Board, (xi) changes in our organization, compensation, and benefits plans; (xii) the costs and effects of litigation and of unexpected or adverse outcomes in such litigation; (xiii) the risks discussed above under Item 1A. Risk Factors and (xiv) our success at managing risks involved in the foregoing.

Such forward-looking statements speak only as of the date on which such statements are made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made to reflect the occurrence of unanticipated events.

Item 1B. Unresolved Staff Comments

None.

18

Item 2. Properties

The table below presents property information concerning our offices at December 31, 2005.

Name and Address of Office	Type of Interest	Lease Expiration	Square Footage of Facility
Team Financial, Inc. 8 West Peoria Paola, Kansas 66071	Owned	NA	5,000
TeamBank, N.A., Paola Branch (Main Office) 1 South Pearl Paola, Kansas 66071	Owned	NA	17,951
Team Bank, N.A., East Bank, Paola Branch 1515 Baptiste Drive Paola, Kansas 66071	Owned	NA	9,630
TeamBank, N.A., DeSoto Branch 34102 Commerce Drive DeSoto, Kansas 66018	Owned	NA	6,800
TeamBank, N.A., Lamar Branch 1011 Gulf Street Lamar, Missouri 64759	Leased	2006	2,650
TeamBank, N.A., Nevada Branch 201 East Cherry Nevada, Missouri 64772	Owned	NA	16,000
TeamBank, N.A., Osawatomie Branch 6th and Brown Osawatomie, Kansas 66064	Owned	NA	4,756
TeamBank, N.A., Ottawa Branch 421 South Hickory Ottawa, Kansas 66067	Owned	NA	8,000
TeamBank, N.A., Spring Hill Branch 22330 Harrison Street Spring Hill, Kansas 66083	Owned	NA	2,800
TeamBank, N.A., Iola Branch 119 East Madison Iola, Kansas 66749	Owned	NA	13,768
TeamBank, N.A., Parsons Branch (including drive in) 1902 Main Parsons, Kansas 66357	Owned	NA	11,000
TeamBank, N.A., Prairie Village Branch 5206 West 95th Street Prairie Village, Kansas 66207	Owned	NA	3,602

TeamBank, N.A., Omaha Branch (Main Office) 1902 Harlan Drive Bellevue, Nebraska 68005	Leased	2007	4,679
TeamBank, N.A., Bellevue Branch 7001 South 36th Bellevue, Nebraska 68147	Leased	2006	1,980
TeamBank, N.A., Fort Calhoun Branch 101 N. 14th Street Fort Calhoun, Nebraska 68023	Owned	NA	4,250
Colorado National Bank, Colorado Springs Branch (Main Office) 3100 North Nevada Avenue Colorado Springs, Colorado 80907	Owned	NA	7,859
Colorado National Bank, Colorado Springs Branch 601 North Nevada Avenue Colorado Springs, Colorado 80907	Owned	NA	4,600
Colorado National Bank, Monument Branch 581 Highway 105 Monument, Colorado 80132	Owned	NA	5,150

All of the leased properties are leased from unrelated third parties.

Item 3. Legal Proceedings

On September 15, 2005, a summary judgment was entered against the Company and its subsidiaries by the District Court of Douglas County, Nebraska in litigation that began in 2004 regarding a contract provision in the Company's 1999 acquisition of Ft. Calhoun State Bank, a wholly owned subsidiary of Ft. Calhoun Investment Company (FCIC), now operated as part of TeamBank, N.A. The motion for summary judgment was filed by plaintiff John C. Mitchell, acting on behalf of FCIC. The motion for summary judgment was on the basis that the Company failed to provide Mitchell with quarterly interest payments and status reports on one problem loan that had specific purchase contract provisions associated with it. Mitchell sought relief of \$170,000 plus interest accrued from March 24, 2000, the closing date of the acquisition. Although this judgment is currently on appeal, it did result in a charge of \$214,000 to other non-interest expense in the third quarter of 2005. We do not anticipate that any interest that may be accruing on this amount until the appeal is settled will be material to our financial position or operating results. The Company does not believe that any other pending litigation to which we are a party will have a material adverse effect on our liquidity, financial condition, or results of operations.

Item 4. Submission of Matters to a Vote of Security Holders

There were no matters submitted to a vote of our security holders during the fourth quarter of 2005.

PART II**Item 5. Market for Registrant's Common Stock, Related Stockholder Matters and Issuer Purchases of Equity Securities**

Our common stock is traded on the Nasdaq National Market (NASDAQ) under the symbol TFIN .

The following table sets forth, for the periods indicated, the amount of cash dividends paid on our common stock and the high and low closing prices per share of our common stock as reported on the NASDAQ.

Quarter Ended	Dividends Declared per Share	Common Stock High	Low
2005:			
December 31, 2005	\$ 0.08	\$ 15.16	\$ 13.86
September 30, 2005	0.08	16.00	13.81
June 30, 2005	0.08	15.00	13.35
March 31, 2005	0.08	15.05	12.33
Year	\$ 0.32		
2004:			
December 31, 2004	\$ 0.08	\$ 12.75	\$ 10.80
September 30, 2004	0.08	12.00	10.50
June 30, 2004	0.08	12.40	11.77
March 31, 2004	0.08	13.15	12.00
Year	\$ 0.32		

At February 28, 2006 we had approximately 230 holders of record of our common stock; management estimates that the number of beneficial owners is significantly greater.

The following table summarizes information about the shares of common stock we repurchased during the fourth quarter of 2005.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares That May Yet Be Purchased Under The Program
October 1-October 31	4,100	\$ 15.21	4,100	377,130
November 1-November 30				377,130
December 1-December 31				377,130
Total	4,100	\$ 15.21	4,100	

The Board of Directors approved a stock repurchase program, announced October 14, 2004, authorizing the repurchase of up to 400,000 shares of our common stock. There is no expiration date on this program.

During 2005 we repurchased a total of 6,100 shares of our common stock under our stock repurchase program at an average price of \$15.30 per share. Pursuant to the repurchase plan authorized by the Board of Directors, 377,130 shares of our common stock remain to be purchased under this program.

We have paid cash dividends on our common stock since 1987. Although we currently intend to continue the payment of dividends, we cannot give any assurance that we will continue to pay or declare dividends on our common stock in the future.

Kansas law permits us to pay dividends on our common stock when we are solvent and when dividend payments would not render us insolvent. Under Kansas law, dividends may be declared and paid only out of the unsecured, unrestricted earned surplus of a corporation.

Our ability to pay cash dividends largely depends on the amount of cash dividends paid to us by our subsidiary banks. Capital distributions, including dividends by financial institutions such as our subsidiary banks, are subject to restrictions tied to the institutions' earnings and capital. Payment of dividends on our common stock depends on payment of dividends to us by our subsidiary banks. Generally, without prior bank regulatory approval, the subsidiary banks cannot pay dividends during any calendar year in excess of the sum of their earnings during that year and the two previous years, less any other distributions during that period. At December 31, 2005, our subsidiaries could have paid additional dividends to Team Financial, Inc. of approximately \$1,200,000 without prior regulatory approval.

The following table summarizes the securities authorized for issuance under our equity compensation plans. We have no equity compensation plans that have not been approved by our shareholders.

Equity Compensation Plan Information

	(a)	(b)	(c)
Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders	304,850	\$ 10.08	116,500

Item 6. Selected Financial Data

	Years ended December 31				
	2005	2004	2003	2002	2001
	(Dollars in thousands, except per share data)				
Consolidated statement of operations data:

(1) Includes loans 90 days or more delinquent and still accruing interest, non-accrual loans, restructured loans, and other real estate owned.

(2) On a tax equivalent basis using a federal tax rate of 34%.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Business Environment and Risk Factors

Management's discussion and analysis should be read in conjunction with the audited Consolidated Financial Statements contained within this report, including the Notes thereto. Our future operating results may be affected by various trends and factors that are beyond our control. These include the factors set forth in Risk Factors and Forward-Looking Statements. Accordingly, past results and trends may not be reliable indicators of future results or trends. With the exception of historical information, the matters discussed below include forward-looking statements that involve risks and uncertainties. We caution readers that a number of important factors discussed in this report could affect our actual results and cause actual results to differ materially from those in the forward-looking statements.

Overview

We are a financial holding company offering full-service community banking and financial services through 18 locations in Kansas, Missouri, Nebraska and Colorado through our wholly owned banking subsidiaries, TeamBank N.A. and Colorado National Bank. Our presence in Kansas consists of seven locations in the Kansas City metropolitan area and three locations in southeast Kansas. We operate two locations in western Missouri, three in metropolitan Omaha, Nebraska, and three in the Colorado Springs, Colorado metropolitan area. Our total assets over the past ten years have more than doubled, growing from \$260.3 million at January 1, 1996 to \$696.5 million at December 31, 2005. The growth in assets and the corresponding increase in earnings were achieved primarily through purchases of branches of large banks, purchases of community banks, and branch expansions. Our branch expansion includes growth at existing branches as well as the opening of new branches. Accompanying the acquisition growth were increased operating expenses as well as increases in provisions for loan losses and amortization expense of intangible assets related to acquisitions, and in some instances, issuance of our common stock in conjunction with the acquisitions. Our experience is that it takes 12 to 18 months to realize meaningful net income improvements from acquisitions due to our emphasis on retaining key employees rather than the immediate implementation of cost reduction measures.

On February 25, 2005, we sold our interest in the insurance agency subsidiary. Financial information as of and for the years ended December 31, 2005, 2004 and 2003 presents the assets, liabilities and operating results of this subsidiary in discontinued operations.

At December 31, 2005 total assets were \$696.5 million, an increase of \$32.4 million, or 4.9%, from \$664.1 million at December 31, 2004. The increase in total assets was primarily due to an increase in loans receivable of \$41.4 million. The increase in loans was offset by a decrease in assets of discontinued operations of \$8.3 million. At December 31, 2004 total assets were \$664.1 million, an increase of \$14.3 million, or 2.2%, from \$649.8 million at December 31, 2003. The increase in total assets was primarily due to an increase in cash and cash equivalents of \$16.2 million as a result of an increase in checking deposits. Loans increased \$30.7 million, or 8.8%, from December 31, 2003 offset by a decrease in investment securities of \$28.4 million, or 12.9%.

Net income from continuing operations totaled \$4.1 million for the year ended December 31, 2005 versus \$3.8 million for the year ended December 31, 2004. The increase of \$300,000, or 7.9%, was primarily the result of an increase in net interest income of \$2.0 million, or 10.3%, a decrease in the provision for loan losses of \$645,000, or 44.0%, offset by a decrease in non-interest income of \$444,000, or 5.4%, an increase in non-interest expense of \$1.2 million, or 5.4%, and an increase in income tax expense of \$722,000, or 325.2%.

Net income from continuing operations totaled \$3.8 million for the year ended December 31, 2004 versus \$3.4 million for the year ended December 31, 2003. The increase of \$400,000, or 11.8%, was primarily the

result of an increase in net interest income of \$1.3 million, or 7.2%, a decrease in the provision for loan losses of \$325,000, or 18.1%, and a decrease in tax expense of \$736,000, or 76.8%, offset by a decrease in non-interest income of \$1.7 million, or 17.3%.

For the year ended December 31, 2005, discontinued operations resulted in a net loss of \$108,000 compared to a net loss of \$218,000 for the year ended December 31, 2004 and net income of \$350,000 for the year ended December 31, 2003. During the second quarter of 2005, a loss on the sale of the insurance agency subsidiary of approximately \$164,000 was recorded upon finalization of the selling price and is presented, net of the tax effect, in discontinued operations in the accompanying consolidated financial statements. The sale was effective December 31, 2004 and, therefore, the operations of the insurance subsidiary during 2005 were assumed by the new owners. Although no formal warranty or representation claims have been presented, pursuant to the terms of the agreement, the buyer has until August 25, 2006 to present any breach of warranty or representation claims. In the event that such claims are presented, their ultimate outcome is not ascertainable at this time.

As a result of the sale, the operations related to the insurance agency subsidiary have been reclassified as discontinued operations in the consolidated financial statements and notes to the consolidated financial statements.

Critical Accounting Policies

Our accounting and reporting policies conform to accounting principles generally accepted in the United States of America. In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the statement of financial condition and revenues and expenses for the period presented. Actual results could differ significantly from those estimates.

Allowance for Loan Losses

We establish allowances for loan losses. The provision for loan losses charged to operations is based on historical loss experience, an evaluation of economic conditions and regular review of delinquencies and loan portfolio quality. Based upon these factors, management makes various assumptions and judgments about the ultimate collectibility of the loan portfolio and provides an allowance for probable loan losses based upon a percentage of the outstanding balances and for specific loans if their ultimate collectibility is considered questionable. Since certain lending activities involve greater risks, the percentage applied to specific loan types may vary. The allowance provided is subject to review by our regulators. Management believes that the allowance is adequate for probable loan losses inherent in the loan portfolio. While management uses available information to provide appropriate allowances for inherent losses on loans, future additions to the allowance may be necessary based on borrowers' circumstances and changes in economic conditions.

Impairment of Goodwill Analysis

The provisions of Statement of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets* (SFAS 142), require that goodwill be evaluated for impairment annually or more frequently if conditions indicate impairment may have occurred. The evaluation of possible impairment of intangible assets involves judgment based upon short-term and long-term projections of future performance. The Company has completed its most recent evaluation of goodwill of continuing operations and determined that no impairment exists for the year ended December 31, 2005. Net loss from discontinued operations included an impairment of goodwill of \$174,000 during the year ended December 31, 2004 as a result of the annual impairment testing and the sale of the insurance agency. There was no impairment of goodwill in 2003.

Analysis of the Results of Operations***Net Interest Income from Continuing Operations***

Our income is derived primarily from net interest income, which is the difference between interest income, principally from loans, investment securities, federal funds sold, and interest bearing deposits, and interest expense, principally on customer deposits and other borrowings. Changes in net interest income result from changes in volume and interest rates earned and expensed. Volume refers to the average dollar levels of interest-earning assets and interest-bearing liabilities.

The following tables set forth the average balances of interest-earning assets and interest-bearing liabilities associated with continuing operations, as well as the amount of interest income or interest expense from continuing operations and the average rate for each category of interest-earning assets and interest-bearing liabilities on a tax-equivalent basis assuming a 34% tax rate for the periods indicated.

	Year ended December 31, 2005			Year ended December 31, 2004			Year ended December 31, 2003		
	Average Balance (Dollars in thousands)	Interest	Average Rate	Average Balance	Interest	Average Rate	Average Balance	Interest	Average Rate
Interest earning assets:

	89.14	%		90.53	%		90.29	%	

(1) Loans are net of deferred fees.

(2) Non-accruing loans are included in the computation of average balances.

(3) Interest income includes loan fees. These fees for the years ended December 31, 2005, 2004, and 2003 were \$1,230,000, \$967,000, and \$989,000, respectively.

(4) Yield is adjusted for the tax effect of tax-exempt securities. The tax effects for the years ended December 31, 2005, 2004, and 2003 were \$800,000, \$861,000, and \$877,000, respectively.

Net interest margin increased to 3.64% for the year ended December 31, 2005 as compared to 3.49% and 3.29% for the years ended 2004 and 2003, respectively. The increase in net interest margin resulted from higher average rates earned on interest-earning assets than average rates paid on interest-bearing liabilities.

Total interest income on a tax equivalent basis from continuing operations for 2005 was \$37.4 million, representing an increase of \$4.6 million, or 14.0%, from \$32.8 million for 2004. The increase was primarily the result of a \$4.5 million increase in interest income on loans receivable.

Interest income on loans receivable increased due to a 51 basis point increase in the average yield on the loans receivable to 6.89% in 2005 from 6.38% in 2004, coupled with an increase of \$37.6 million in the average loan receivable balance to \$403.2 million in 2005 from \$365.6 million in 2004. The increase in the yield of loans receivable reflects the increase in the rates applied to loans that re-priced in 2005 as required by the notes terms and the pricing of newly originated loans at higher rates.

The average yield on taxable investment securities increased 28 basis points from 4.17% in 2004 to 4.45% in 2005, contributing to a \$500 thousand increase in interest income. Offsetting the increase in interest income due to higher yields was a decrease in average balances of approximately \$11.3 million, resulting in a decrease in interest income of approximately \$500 thousand. However, the net decrease in interest income as a result of the higher average yield and lower average balance was \$12 thousand.

Total interest expense from continuing operations was \$15.2 million for 2005, a \$2.6 million, or 20.6%, increase from \$12.6 million in 2004. The increase was primarily related to the increase in average rates paid on time deposits to 3.01% in 2005 from 2.34% in 2004, representing a 67 basis point increase. An increase of approximately \$28.8 million in the average balances of time deposits as a result of branch CD promotions also contributed to a \$673 thousand increase in interest expense. Additionally, the average rates paid on interest bearing savings and checking deposits increased from 0.69% in 2004 to 1.09% in 2005, an increase of 40 basis points.

As a result of the changes described above, net interest income on a tax equivalent basis from continuing operations increased to \$22.2 million during 2005, representing an increase of \$2.0 million, or 9.9%, compared to \$20.2 million in 2004.

Although interest income on loans receivable remained consistent for the year ended December 31, 2004 compared to the year ended December 31, 2003, the average yield on loans receivable decreased 41 basis points to 6.38% from 6.79% in 2003. This was offset with an increase of \$23.8 million in the average loan receivable balance to \$365.6 million in 2004 from \$341.8 million in 2003. The decrease in the yield of loans receivable reflects the decrease in the rates applied to loans that re-priced in 2004 as required by the notes terms or were refinanced by customers at lower rates.

Interest income from taxable investment securities was \$7.4 million during 2004, an increase of \$300,000, or 4.2%, from 2003 of \$7.1 million. The average yield on taxable investment securities increased 51 basis points to 4.17% in 2004 from 3.66% in 2003 due to increases in interest rates experienced in the market. This was offset by a decrease of \$18.6 million in the average balances of taxable investment securities. Cash flow from the reduction of investment securities was redirected to fund loan growth.

Total interest expense from continuing operations was \$12.6 million for 2004, a \$900,000, or 6.67%, decrease from \$13.5 million in 2003. The decrease was primarily related to the decrease in average rate paid on savings deposits and interest bearing checking balances to .69% in 2004 from .76% in 2003, representing a 7 basis point decrease, and to the decrease in average rate paid on time deposits to 2.34% in 2004 from 2.65% in 2003, representing a 31 basis point decrease. The average balance of notes payable and Federal Home Loan Bank advances decreased \$1.4 million and the average rate on notes payable and Federal Home Loan Bank advances decreased 11 basis points to 4.33% during 2004 from 4.44% during 2003.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-K/A

As a result of the changes described above, the net interest income from continuing operations, on a tax equivalent basis, increased to \$20.2 million during 2004, representing an increase of \$1.3 million, or 6.9%, compared to 2003 of \$18.9 million.

The average rate paid on our 9.50% subordinated debentures, which we issued in third quarter 2001 in connection with the sale by our wholly owned subsidiary, Team Financial Capital Trust I, of 9.50% Trust Preferred Securities, was 9.70% for 2005, 2004 and 2003. The difference between the contractual amount of 9.50% and the 9.70% reported interest rate is the amortization of debt issuance costs, which are amortized over a 30-year period. The terms of the subordinated debentures allow us to redeem them in whole or in part beginning August 10, 2006. Pursuant to the provisions of Financial Accounting Standards Board Interpretation No. 46 Revised (FIN 46R), *Consolidation of Variable Interest Entities*, the Trust is not consolidated in the financial statements.

The following table presents the components of changes in our net interest income from continuing operations, on a tax equivalent basis, attributed to volume and rate. Changes in interest income or interest expense attributable to volume changes are calculated by multiplying the change in volume by the prior fiscal year's average interest rate. The changes in interest income or interest expense attributable to changes in interest rates are calculated by multiplying the change in interest rate by the prior fiscal year's average volume. The changes in interest income or interest expense attributable to the combined impact of changes in volume and change in interest rate are calculated by multiplying the change in rate by the change in volume.

	Year ended December 31, 2005 Compared To Year ended December 31, 2004 Increase (decrease) due to			Year ended December 31, 2004 Compared To Year ended December 31, 2003 Increase (decrease) due to		
	Volume (In thousands)	Rate	Net	Volume (In thousands)	Rate	Net

Net change in net interest income	\$ 1,390	\$ 531	\$ 1,921	\$ 1,286	\$ 26	\$ 1,312

(1) Loans are net of deferred fees.

(2) Non-accruing loans are included in the computation of average balances.

(3) Interest income includes loan fees. These fees for the years ended December 31, 2005, 2004, and 2003 were \$1,230,000, \$967,000, and \$989,000, respectively.

(4) Income is adjusted for the tax effect of tax-exempt securities. The tax effects for the years ended December 31, 2005, 2004, and 2003 were \$800,000, \$861,000, and \$877,000, respectively.

Provision for Loan Losses

A provision for losses on loans is charged to earnings to bring the total allowance for loan losses to a level considered appropriate by management based on historical loss experience, the volume and type of lending conducted, the status of past due principal and interest payments, general economic conditions, particularly as such conditions relate to our market areas, and other factors related to the collectibility of our loan portfolio. After considering the above factors, management recorded a provision for loan losses on loans totaling \$0.8 million for the year ended 2005, \$1.5 million for the year ended 2004 and \$1.8 million for the year ended 2003. The provision recorded for the year ended 2005 decreased from 2004 primarily as a result of the increased levels of loans secured by real estate which are secured by higher collateral values, therefore, not necessitating large amounts of loan loss reserves.

Non-Interest Income from Continuing Operations

The following table sets forth non-interest income from continuing operations for the indicated periods.

	Years ended December 31		
	2005	2004	2003
	(In thousands)		
Service charges	\$ 3,891	\$ 3,952	\$ 3,573
Trust fees	702	664	608
Brokerage service revenue	167	234	369
Gain on sales of mortgage loans	887	1,264	2,788
Gain (loss) on sales of investment securities	(1)	(50)	294
Mortgage servicing fees, net of amortization	248	290	329
Merchant processing fees	65	188	186
ATM and debit card fees	444	368	318
Income from investment in bank owned life insurance	842	821	892
Other	461	419	451
Total non-interest income	\$ 7,706	\$ 8,150	\$ 9,808

Non-interest income from continuing operations decreased \$500 thousand during 2005 to \$7.7 million, compared to \$8.2 million during 2004. The decrease was primarily the result of a \$400 thousand, or 30% decrease in gain on sales of mortgage loans as a result of the decrease in volume of loans refinanced and originated and sold due to the continued decline in mortgage banking activity as a result of the higher interest rate environment as compared to the interest rate environment of recent prior years. We do not expect gain on sales of mortgage loans to increase materially unless interest rates decrease significantly. Further decreases in gain on sales of mortgage loans could occur in the event that long-term interest rates increase. Also contributing to the decrease was a \$100 thousand, or 65%, decrease in merchant processing fees from \$188 thousand in 2004 to \$65 thousand in 2005. The decrease in merchant processing fees was a result of selling our merchant processing portfolio in the fourth quarter of 2004. Since the sale of the portfolio, all merchant processing fee income is a result of a referral program with the vendor.

Non-interest income from continuing operations was \$8.2 million for 2004, a \$1.6 million, or 16.3%, decrease from 2003. This decrease was primarily a result of a decrease of gain on sales of mortgage loans of \$1.5 million, or 53.6%. The decrease in gain on sales of mortgage loans was the result of the decrease in volume of loans refinanced and originated and sold due to stabilizing interest rate environment experienced during the year compared to previous years interest rate environments that were experiencing declining interest rates. Service charges increased approximately \$400,000 for the year ended 2004 compared to the year ended 2003 due to an increased volume of overdraft fees and other service charges. Gain on sales of investment securities decreased approximately \$300,000 for the year ended 2004

compared to the year ended 2003 due to planned decisions to re-invest certain investments maintained in our portfolio.

Non-Interest Expense from Continuing Operations

The following table presents non-interest expense for the indicated periods:

	Years ended December 31		
	2005	2004	2003
	(In thousands)		
Salaries and employee benefits	\$ 11,406	\$ 10,638	\$ 10,927
Occupancy and equipment	2,759	2,765	2,495
Data processing	2,851	2,528	2,190
Professional fees	1,348	1,179	1,090
Marketing	378	355	267
Supplies	322	378	381
Intangible asset amortization	616	798	823
Disposal of branch assets			258
Other	3,550	3,410	3,243
Total non-interest expenses	\$ 23,230	\$ 22,051	\$ 21,674

Non-interest expense from continuing operations was \$23.2 million for the year ended 2005, an increase of \$1.2 million, or 5.4%, compared to \$22.1 million for the year ended 2004. Salaries and employee benefits increased \$768,000, or 7.2%, over the prior year primarily due to an increase in bonuses earned in 2005 of approximately \$634,000 as compared to 2004. Data processing expense increased approximately \$323,000 due to increases in computer license expense and other computer support. Additionally, professional fees increased \$169,000, or 14.3%, primarily due to increased internal audit expenses. These increases were offset by a decrease in intangible asset amortization of \$182,000, or 22.8%, primarily due to a reduction of the valuation allowance on mortgage servicing rights based on our valuation of the fair value of the mortgage servicing assets.

Non-interest expense from continuing operations was \$22.1 million for the year ended 2004, an increase of \$400,000, or 1.8%, compared to \$21.7 million for the year ended 2003. Occupancy and equipment increased approximately \$300,000 during 2004 due to increased depreciation associated with two new locations in Colorado, which were opened in the first and second quarters of 2004, and increased maintenance and repair costs experienced in 2004 compared to 2003. Additionally, data processing expense increased approximately \$300,000 due to increases in computer license expense and other computer support and increases resulting from converting the Colorado locations on to the core operating system in June of 2003. These increases were offset by a decrease in salary and employee benefits of approximately \$300,000 and a decrease in disposal of branch assets of approximately \$300,000 associated with disposal of branch assets in 2003.

Income Tax Expense from Continuing Operations

We recorded income tax expense from continuing operations of \$944,000 for the year ended 2005 compared to \$222,000 for the year ended 2004, representing an increase of \$722,000. The effective tax rate from continuing operations for 2005 and 2004 was 18.8% and 5.5%, respectively. An increase in taxable income contributed to the higher effective tax rate in 2005 compared to 2004. The lower effective tax rate in 2004 was a result of approximately \$165,000 due to the completion of the year ended December 31, 2003 income tax returns and the reconciliation of actual tax liabilities to those previously estimated in the tax provision and approximately \$291,000 due to the reversal of previously provided tax reserves from closed tax years. Otherwise, the effective tax rate was less than the statutory federal rate of 34.0% in 2005 and

2004 primarily due to municipal interest income and non-taxable income from our investment in bank owned life insurance.

Discontinued Operations

On February 25, 2005, we completed the sale of our insurance agency subsidiary, Team Insurance Group, Inc. All of the issued and outstanding shares of the insurance agency subsidiary were sold to an unaffiliated third party for total cash consideration of \$6,836,000. Our investment in the subsidiary as of February 25, 2005 was approximately \$7,000,000. A loss on the sale of the subsidiary of approximately \$164,000 was recorded in the second quarter of 2005 upon finalization of the selling price and is presented, net of tax, as loss from discontinued operations in the accompanying financial statements. The sale was effective December 31, 2004 and, therefore, the operations of the insurance subsidiary during 2005 were assumed by the new owners. Pursuant to the terms of the agreement, the buyer has until August 25, 2006 to present any breach of warranty or representation claims.

As a result of the sale, the insurance agency's operations have been classified as a discontinued operation in the consolidated financial statements.

Team Insurance Group, Inc. was purchased on December 18, 2002 and operated as a subsidiary until its sale. Total consideration paid for the insurance agency when purchased in 2002 was \$6,850,000. Cash of \$5,000,000 was paid at closing. Additional consideration of \$1,850,000 plus interest was paid to the previous owners because certain revenue contingencies were met during the years ended 2003 and 2004.

The following table presents the net assets of Team Insurance Group, Inc. as of December 31, 2004.

	2004 (In thousands)
Cash	\$ 1,033
Investments	
Premises and equipment, net	571
Goodwill	5,514
Intangible assets, net of accumulated amortization	1,039
Other assets	125
Accrued expenses and other liabilities	(1,282)
Total net assets	\$ 7,000

The revenue contingencies discussed above for both 2003 and 2004 were achieved. Additional cash consideration of \$925,000 plus interest was paid to the previous owners during the first quarter of 2004 for the 2003 fiscal year achievements and \$925,000 was paid in the first quarter of 2005 for the 2004 fiscal year achievements. The 2005 payment was accrued at December 31, 2004 and included in the payables of TeamBank N.A. Goodwill increased by \$1,850,000 during 2004 as a result of these contingent payments. In compliance with annual impairment testing required by Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets*, we recognized an impairment on goodwill of \$174,000 during the fourth quarter of 2004.

Included in intangible assets of discontinued operations at December 31, 2003 was a non-compete agreement between an employee of Team Insurance Group, Inc. and Team Financial, Inc. of approximately \$159,000. Amortization expense was recognized during the year ended 2004 of approximately \$40,000, bringing the net book value of the non-compete agreement to approximately \$119,000. However, as a result of the sale of the insurance agency, the non-compete agreement was written-off at December 31, 2004.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-K/A

Summarized results of operations related to the insurance agency are as follows for the years ended December 31, 2004, and 2003.

	For the years ended December 31	
	2004	2003
	(In thousands)	
Insurance agency commissions	\$ 4,153	\$ 4,454
Other income	193	229
Total income	4,346	4,683
Salary and employee benefits	3,092	2,864
Occupancy and equipment	338	274
Professional fees	90	53
Marketing	126	161
Supplies	39	58
Intangible asset amortization	170	175

Intangible asset write-off	119	
Other	455	498
Total expenses	4,603	4,083
Net income (loss) from discontinued operations before income taxes	(257)	600
Income tax expense (benefit)	(39)	250
Net income (loss) from discontinued operations, net of tax	\$ (218)	\$ 350

Comprehensive Income

Comprehensive income is the total of net income and other comprehensive income. Our other comprehensive income is composed of the change in equity resulting from an increase or decrease in the market value of our available for sale investment securities, due to the changes in interest rates, net of tax.

Comprehensive income was \$1.7 million for the year ended 2005, a decrease of \$1.0 million from \$2.7 million for the year ended 2004. The decrease was primarily the result of a \$1.4 million decrease in other comprehensive income as unrealized losses experienced during 2005 increased compared to the unrealized losses experienced during 2004.

Comprehensive income was \$2.7 million for the year ended 2004, an increase of \$1.0 million from \$1.7 million for the year ended 2003. The increase was primarily the result of a \$1.2 million increase in other comprehensive income as unrealized losses experienced during 2004 decreased compared to the unrealized losses experienced during 2003.

Analysis of Financial Condition

Overview

Total assets were \$696.5 million at December 31, 2005, an increase of \$32.4 million, or 4.9%, from \$664.1 million in total assets as of December 31, 2004. The increase in total assets was primarily due to an increase in loans receivable of \$41.4 million. This was offset by a decrease in assets of discontinued operations of \$8.3 million.

Total assets were \$664.1 million at December 31, 2004, compared to \$649.8 million as of December 31, 2003, an increase of \$14.3 million, or 2.2%. The increase in total assets was primarily due to an increase in cash and cash equivalents of \$16.2 million. Loans increased approximately \$30.7 million in 2004 compared to 2003. This was offset by a decrease in investment securities of \$28.4 million.

Loan Portfolio Composition

The following tables present the composition of our loan portfolio by type of loan at the dates indicated.

	December 31 2005		2004		2003		2002		2001

Total net loans receivable	(5,424)	(1.3)	(4,898)	(1.3)	(4,506)	(1.3)	(4,611)	(1.4)	(4,392)	(1.2)
	\$ 414,757	100.0 %	\$ 373,873	100.0 %	\$ 343,589	100.0 %	\$ 336,375	100.0 %	\$ 352,688	100.0 %

Total loans receivable were \$420.2 million at December 31, 2005 compared to \$378.8 million at December 31, 2004, representing an increase of \$41.4 million, or 10.9%. The increase in total loans receivable was primarily due to increases in the construction and land development and commercial real estate. The internal loan growth in these areas produced an increase of \$45.8 million, or 26.7% in these loans compared to 2004. Offsetting the increase in our construction and land development and commercial real estate loans was a decrease in our commercial and agricultural portfolio, representing a 23.9% decrease in 2005 compared to 2004, or approximately \$19.8 million. Installment loans continued to decrease as a percentage of our loan portfolio over the past several years as we have placed more emphasis on growing our small to mid-size business lending. At December 31, 2005 installment loans were \$11.8 million, representing a \$1.9 million decrease, or 13.9%, from installment loans at December 31, 2004 of \$13.7 million.

Loans secured by real estate

Loans secured by real estate represent our largest loan category. At December 31, 2005 these loans totaled \$340.9 million, a \$64.1 million, or 23.2%, increase from \$276.8 million at December 31, 2004. The increase was generated from a \$31.5 million, or 63.8% increase in construction and land development loans and a \$14.3 million increase in commercial real estate loans. Other loans secured by real estate increased \$18.9 million from \$17.8 million at December 31, 2004. The decline in our one to four family loan portfolio seen in recent years slowed in 2005 as this portfolio declined only \$753,000, or 0.9%. Included in one to four family loans were loans held for sale of \$1.8 million at December 31, 2005 and \$3.1 million at December 31, 2004. We typically sell fixed rate one to four family loans to the secondary market instead of holding such loans in our one to four family portfolio. We occasionally retain the servicing rights on these loans. Capitalized servicing rights are recorded at the time the loan is sold, thereby increasing the gain on sale by such amount. The balance of our mortgage servicing rights was \$403,000 at December 31, 2005 compared to \$514,000 at December 31, 2004.

Non-farm, non-residential commercial loans secured by real estate increased \$14.3 million, or 11.7%, to \$136.3 million at December 31, 2005 from \$122.0 million at December 31, 2004. We have experienced steady growth in this area increasing in each of the last five years. We anticipate continued growth in this loan portfolio with our continued emphasis on small to mid-size business loans in our metropolitan markets.

At December 31, 2004, loans secured by real estate totaled \$276.8 million, a \$20.6 million, or 8.0%, increase from \$256.2 million at December 31, 2003. The increase was generated from an \$18.4 million increase in commercial real estate loans and a \$5.7 million increase in construction and development loans. Offsetting this increase was a \$6.1 million decrease in one to four family loans. At December 31, 2004, the balance of real estate loans held for sale was \$3.1 million, representing a \$2.0 million increase from the balance at December 31, 2003 of \$1.1 million. Construction and land development loans secured by real estate increased \$5.7 million, or 13.0%, to \$49.4 million at December 31, 2004 from \$43.7 million at December 31, 2003.

Commercial and Agricultural

Commercial and agricultural loans were \$63.1 million at December 31, 2005, a decrease of \$19.8 million, or 23.9%, from \$82.9 million at December 31, 2004. Commercial loans include loans to service, retail, wholesale, and light manufacturing businesses. Agricultural loans include loans to farmers for production and other agricultural needs.

Commercial loans were \$55.1 million at December 31, 2005, compared to \$68.0 million at December 31, 2004, a decrease of \$12.9 million, or 19.0%. At December 31, 2004, commercial loans were \$68.0 million compared to \$56.7 million at December 31, 2003, an increase of \$11.3 million, or 19.9%.

At December 31, 2005, agricultural loans were \$8.0 million compared to \$14.9 million at December 31, 2004, a decrease of \$6.9 million, or 46.3%. Agricultural loans at December 31, 2004 increased \$0.9 million or 6.4% from \$14.0 million at December 31, 2003.

Installment and Other

Installment and other loans include automobile and other personal loans, leases and loans to state and political subdivisions. The majority of these loans are installment loans with fixed interest rates. Installment and other loans were \$17.2 million at December 31, 2005, a decrease of \$2.7 million, or 13.6%, from \$19.9 million at December 31, 2004. At December 31, 2004, installment and other loans decreased \$1.9 million, or 8.7%, from \$21.8 million at December 31, 2003. Installment and other loans have been decreasing as a percentage of total loans over the past several years as we have placed less emphasis in this area and more emphasis on our small to mid-size business loans in our markets.

Loan Maturities

The following tables present, at December 31, 2005 and 2004, loans by maturity in each major category of our portfolio based on contractual schedules. Actual maturities may differ from the contractual maturities shown below as a result of renewals and prepayments. Loan renewals are re-evaluated using substantially the same credit procedures that are used when loans are made.

Non-performing assets

Non-performing assets consist of non-performing loans and other real estate owned. Non-performing loans consist of loans 90 days or more delinquent and still accruing interest, non-accrual loans, and restructured loans. When, in the opinion of management, a reasonable doubt exists as to the collectibility of interest, regardless of the delinquency status of a loan, the accrual of interest income is discontinued and any interest accrued to date is reversed through a charge to interest income. While a loan is on non-accrual status, it is our policy that interest income is recognized only after payment in full of the past due principal. Loans are generally placed on non-accrual status when principal or interest is 90 days or more past due, unless the loans are well-secured and in the process of collection.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-K/A

The following table presents information concerning the non-performing assets at the dates indicated.

	December 31		2003	2002	2001	
	2005	2004				
	(Dollars in thousands)					
Non-accrual loans	\$ 2,343	\$ 1,281	\$ 5,481	\$ 3,413	\$ 2,316	
Loans 90 days past due and still accruing	1,184	420	641	1,163	1,380	
Restructured loans	1,055	1,053	1,138			
Non-performing loans	4,582	2,754	7,260	4,576	3,696	
Other real estate owned	455	408	1,117	1,770	1,572	
Total non-performing assets	\$ 5,037	\$ 3,162	\$ 8,377	\$ 6,346	\$ 5,268	
Non-performing loans as a percentage of total loans	1.09	% 0.73	% 2.09	% 1.34	% 1.04	%
Non-performing assets as a percentage of total assets	0.72	% 0.48	% 1.29	% 0.97	% 0.81	%

Total non-performing assets were \$5.0 million at December 31, 2005 compared to \$3.2 million at December 31, 2004, representing an increase of \$1.8 million, or 56.3%. The increase in non-performing assets was due to an increase in non-accrual loans of \$1.1 million and an increase in loans 90 days past due and still accruing of approximately \$800,000. The increase in loans 90 days past due and still accruing was the result of several new loans in this category at December 31, 2005, the largest of which was approximately \$375,000 to a distribution company.

Non-performing loans increased \$1.8 million, or 64.3%, to \$4.6 million at December 31, 2005 from \$2.8 million at December 31, 2004. The increase in non-performing loans was a result of an increase in non-accrual loans of \$1.1 million and an increase in loans 90 days past due and still accruing of approximately \$800,000. This increase was partially due to a commercial loan to a manufacturing company of approximately \$540,000 being put on non-accrual as of December 31, 2005.

Also included in the \$2.3 million of non-accrual loans at December 31, 2005 were several small loans, the largest of which was approximately \$216,000. Non-accrual loans had approximately \$613,000 specific reserves included in the allowance for loan losses at December 31, 2005. We do not anticipate losses on these credits in excess of the specific reserves. Restructured loans at December 31, 2005 consisted of eight relationships. The largest relationship included an agricultural loan restructured through Farmer Home Administration of approximately \$554,000.

Other real estate owned was \$455,000 at December 31, 2005 compared to \$408,000 at December 31, 2004. Other real estate owned consisted of ten properties held by our subsidiary banks, consisting of three commercial buildings and seven single family dwellings, at December 31, 2005. The properties are all located within our market areas. Management is working to sell the real estate as soon as practicable. During the year ended December 31, 2005, three properties held in other real estate owned were sold at a total gain of approximately \$70,000.

Non-performing assets as a percent of total assets were 0.72% at December 31, 2005, compared to 0.48% at December 31, 2004, and 1.29% at December 31, 2003. Non-performing assets will generally increase in times of economic uncertainty or stress. Management believes the level of non-performing assets may increase if economic weaknesses are experienced in 2006, although the magnitude of any increase in non-performing loans is not determinable.

Impaired loans

We consider a loan to be impaired when it is deemed probable by management that we will be unable to collect all contractual principal and interest payments in accordance with the terms of the original loan agreement. However, when determining whether a loan is impaired, management also considers the loan documentation, the current ratio of the loan's balance to collateral value, and the borrower's present

financial position. Included as impaired loans are all loans contractually delinquent 90 days or more and all loans upon which accrual of interest has been suspended.

At December 31, 2005, we had impaired loans totaling \$3.5 million, which have related specific reserves of \$613,000. This compares to \$1.7 million of impaired loans, which had related specific reserves of \$262,000 at December 31, 2004. The increase in impaired loans was the result of the increase in non-accrual loans and loans 90 days past due and still accruing described above. The average recorded investment in impaired loans during the year ended December 31, 2005 was \$2.3 million. Interest income recognized on impaired loans during the period the loans were considered to be impaired for 2005 and 2004 approximated \$50,000. Impaired loans will generally increase in times of economic uncertainty or stress. Management believes the level of impaired loans could increase if economic weaknesses are experienced in our market area during 2006.

Allowance for Loan Losses

Management maintains its allowance for loan losses based on historical experience, an evaluation of economic conditions and regular review of delinquencies and loan portfolio quality. Based upon these factors, management makes various assumptions and judgments about the ultimate collectibility of the loan portfolio and provides an allowance for probable loan losses based upon a percentage of the outstanding balances and for specific loans if their ultimate collectibility is considered questionable. Since certain lending activities involve greater risks, the percentage applied to specific loan types may vary. The allowance is increased by provisions for loan losses and reduced by loans charged off, net of recoveries.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-K/A

The following table sets forth information regarding changes in the allowance for loan losses for the periods indicated.

	Year ended December 31		2003	2002	2001
	2005	2004			
	(Dollars in thousands)				
Average total loans	\$ 403,234	\$ 365,587	\$ 341,782	\$ 335,194	\$ 339,258
Total loans at end of period	\$ 420,181	\$ 378,771	\$ 348,095	\$ 340,986	\$ 357,080
Allowance at beginning of year	\$ 4,898	\$ 4,506	\$ 4,611	\$ 4,392	\$ 3,911
Loans charged off:					
Real estate:					
One to four family	(87)	(307)	(229)	(238)	(99)
Construction		(200)		(18)	(141)
Other		(218)	(2)	(103)	(38)
Commercial	(293)	(267)	(1,296)	(561)	(441)
Lease financing receivables		(16)	(32)	(20)	(36)
Installment and other	(331)	(298)	(688)	(635)	(930)
Total charge-offs	(711)	(1,306)	(2,247)	(1,575)	(1,685)
Recoveries:					
Real estate:					
One to four family	39	16	49	13	4
Construction	5	3	7	29	
Other	7		80	19	
Commercial	175	38	35	38	67
Lease financing receivables	1	6		22	24
Installment and other	190	170	181	239	254
Total recoveries	417	233	352	360	349
Net charge-offs	(294)	(1,073)	(1,895)	(1,215)	(1,336)
Provision for loan losses	820	1,465	1,790	1,434	1,435
Allowance related to acquisitions					382
Allowance at end of period	\$ 5,424	\$ 4,898	\$ 4,506	\$ 4,611	\$ 4,392
Ratio of net charge-offs to average total loans	0.07	% 0.29	% 0.55	% 0.36	% 0.39
Allowance to total loans at end of period	1.29	% 1.29	% 1.29	% 1.35	% 1.23
Allowance to non-performing loans	118.4	% 177.9	% 62.10	% 100.76	% 118.83

The decrease in the allowance as a percent of non-performing loans was due to higher collateral values securing the non-performing loans in 2005 compared to 2004. Net charge-offs were \$294,000 for the year ended 2005 compared to \$1.1 million for the year ended 2004. Net charge-offs for 2005 consisted of several small credits. The largest charge-off during 2005 was approximately \$99,000 for a commercial loan.

Net charge-offs for 2004 consisted of several small credits. The largest charge-off during 2004 was approximately \$300,000 for a one to four family real estate loan that went into foreclosure and was sold from other real estate owned.

Lending personnel are responsible for continuous monitoring of the loan portfolio. Additionally we have a separate loan review process, which reviews the loan portfolio on a quarterly basis to determine compliance with loan policy, including the appropriateness of risk ratings assigned to individual loans, as well as the adequacy of the allowance for loan losses. The allowance for loan losses is based primarily on management's estimates of probable loan losses from the foregoing processes and historical experience.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-K/A

The following table presents an allocation of the allowance for loan losses by loan category as of the dates indicated. The allocation table should not be interpreted as an indication of the specific amounts, by loan classification, to be charged to the allowance. The table has been derived in part by applying historical loan loss ratios to both internally classified loans and the portfolio as a whole to determine the allocation of the loan losses attributable to each category of loans.

The provision for loan losses takes into account many factors such as our prior experience with loan losses and an evaluation of the risks in the loan portfolio at any given time, including changes in economic, operating, and other conditions of borrowers, the economies in our areas of operations and to a lesser extent, the national economy. The allowance for loan losses allocated to construction and land development increased approximately \$300,000 at December 31, 2005 compared to December 31, 2004 due to an increase in the allocation of the allowance associated with historical trends and economic conditions due to an increased balance in this category in 2005 compared to 2004. The allowance for loan losses allocated to commercial and agricultural loans increased approximately \$257,000 due to an increase in specific reserves at 2005 compared to 2004. The allowance for loan losses allocated to installment and other loans increased approximately \$189,000 due to an increase in the specific allocations of this category of loans in 2005 compared to 2004.

Investments

We invest a portion of our available funds in short-term and long-term instruments, including federal funds sold and investment securities. Our investment portfolio is designed to provide liquidity for cash flow requirements, to assist in managing interest rate risk, and to provide collateral for certain public deposits and other borrowing arrangements. At December 31, 2005 and 2004, the investment portfolio was comprised principally of mortgage-backed securities, obligations of U.S. government agencies and obligations of states and political subdivisions. Total investment securities at December 31, 2005 of \$190.4 million represented a decrease of \$1.4 million from total investments at December 31, 2004 of \$191.8 million. The decrease was primarily a result of a decrease in mortgage backed securities of \$3.2 million, the proceeds of which were used to fund the loan portfolio growth.

We initiated a long-term balance sheet management strategy starting in the fourth quarter of 2001 to increase the asset sensitivity of our balance sheet with the expectation of benefiting from an anticipated increase in interest rates and to borrow long-term borrowings during the period of historically low interest rates.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-K/A

Under this strategy we borrowed \$88.0 million in Federal Home Loan advances and purchased short-term investment securities and funded loans. The Federal Home Loan Bank borrowings, which carry an average rate of 4.04%, consist of \$70.0 million in 10-year fixed rate advances convertible to floating rate advances if LIBOR increases to a range of 6.0% to 7.50% within the 10 years, \$10.0 million in 5-year fixed rate advances convertible to floating rate advances if LIBOR increases to 7.50% within the 5 years, \$5.0 million in 10-year floating rate advances and \$3.0 million in 3-year fixed rate advances.

A decreasing interest rate environment may cause an unfavorable impact on net interest income and net interest margin and an increasing interest rate environment may increase net interest income and net interest margin over the remaining borrowing period, but the actual magnitude of this impact cannot be estimated.

The following table presents our investments in certain securities accounted for as available for sale. Other investments is comprised of Federal Home Loan Bank of Topeka common stock, Federal Reserve Bank common stock and certain equity securities, all of which carry no stated maturity.

	December 31 2005	2004

Deposits

Our primary source of funds has historically been customer deposits, which totaled \$507.9 million at December 31, 2005, a \$39.9 million, or 8.5%, increase from \$468.0 million at December 31, 2004. The increase was a result of an increase in certificates of deposits of \$41.1 million, primarily due to branch promotional campaigns and an increase in public funds in the fourth quarter of 2005. Average balance for checking, savings and money market deposits was \$255.2 million for the year ended December 31, 2005 compared to \$253.2 million for the same accounts in 2004.

The following table sets forth the average balances and weighted average rates for categories of deposits for the periods indicated.

	For the years ended December 31		2004 Average Balance	Average Rate	2003 Average Balance	Average Rate
	2005 Average Balance (Dollars in thousands)	Average Rate				
Non-interest-bearing demand	\$ 73,972		\$ 68,256		\$ 64,329	
Interest-bearing demand	148,059	1.18 %	151,871	0.70 %	146,527	0.76 %
Savings	33,206	0.67 %	33,045	0.64 %	31,672	0.78 %

One year and over	15,346	18,784
Total	\$ 74,373	\$ 52,785

Federal Home Loan Bank and Federal Reserve Bank Borrowings

Our subsidiary banks are members of the Federal Home Loan Bank of Topeka (FHLB). The FHLB system functions as a central bank providing credit for members. As members of the FHLB, our subsidiary banks are entitled to borrow funds from the FHLB and are required to own FHLB stock in an amount determined by a formula based upon total assets and FHLB borrowings. Our subsidiary banks may use FHLB borrowings to supplement deposits as a source of funds.

At December 31, 2005, FHLB borrowings aggregated \$111.1 million, compared to \$111.9 million at December 31, 2004 and \$111.2 million at December 31, 2003. As discussed in the investment section above, approximately \$88.0 million of the FHLB borrowings are part of a long-term balance sheet strategy to increase the sensitivity of our balance sheet by borrowing long-term funds at historically low interest rates and purchasing short-term investments securities and fund loans. At December 31, 2005, the aggregate available and unused borrowing capacity of our subsidiary banks was approximately \$15.1 million, which was available through a line of credit and term advances. FHLB borrowings are collateralized by FHLB common stock, investment securities and certain qualifying mortgage loans of our subsidiary banks.

TeamBank, N.A. and Colorado National Bank are member banks of the Federal Reserve Bank and may use the Federal Reserve Bank discount window to meet short-term funding needs. Neither of our subsidiary banks utilized short-term Federal Reserve Bank borrowings during 2005 or 2004.

Subordinated Debentures

On August 10, 2001, Team Financial Capital Trust I (the Trust), a Delaware business trust formed by Team Financial, Inc., completed the sale of \$15.5 million 9.50% Cumulative Trust Preferred Securities. The Trust used the net proceeds from the offering to purchase a like amount of Team Financial, Inc.'s 9.50% Trust Preferred Securities. The debentures, maturing August 10, 2031, are the sole assets of the Trust. In exchange for the capital contribution made to the Trust by Team Financial, Inc. upon formation, Team Financial, Inc. owns all of the common securities of the Trust. On August 10, 2006, we have the right to redeem the debentures, in whole or in part, at a redemption price specified in the Indentures plus any accrued but unpaid interest to the redemption date.

In accordance with Financial Accounting Standards Board Interpretation No. 46R, *Consolidation of Variable Interest Entities* (FIN 46 R), adopted in December 2003, the Trust qualifies as a special purpose entity that is not required to be consolidated in our financial statements. The \$15.5 million Trust Preferred Securities issued by the Trust are reported on the records of the Trust.

We continue to include the Trust Preferred Securities issued by the Trust in Tier I capital for regulatory capital purposes.

Total expenses associated with offering the Trust Preferred Securities, paid by Team Financial, Inc., approximated \$1.0 million and are reflected in our financial statements. The costs are included in *Other Assets* and are being amortized on a straight-line basis to interest expense over the life of the debentures. As of December 31, 2005, approximately \$846,000 of the cost related to offering the Trust Preferred Securities remained unamortized. In the event that we would redeem all or part of our 9.50% subordinated debentures on or after August 10, 2006, we would amortize the proportionate unamortized cost of the offering and incur a charge. The maximum charge that would be incurred should we redeem all of the subordinated debentures on August 10, 2006 would be approximately \$826,000.

The Trust Preferred Securities accrue and pay distributions quarterly at annual rates of 9.50% of the stated liquidation amount of \$10 per preferred security. We have fully and unconditionally guaranteed all of the obligations of the Trust. The guaranty covers the quarterly distributions and payments on liquidation or redemption of the Trust Preferred Securities.

Contractual Obligations, Commitments and Off-Balance Sheet Arrangements

We have various contractual obligations in the normal course of business that are integral to our operations. The following table summarizes payments due per these contractual obligations at December 31, 2005.

	Payments Due By				
	One Year or less (In thousands)	Over One to Three Years	Over Three to Five Years	Over Five Years	Total
Time deposits	\$ 173,910	\$ 63,002	\$ 5,750	\$ 16	\$ 242,678
Repurchase agreements	4,036				4,036
Subordinated debentures, FHLB advances and notes payable	19,207	10,000	10,000	88,131	127,338
Operating lease obligations	108,000	85,000			193,000
Loan commitments	57,550	10,374	2,662	10,725	81,310
Data processing contracts	555	677			1,232
Total	\$ 363,258	\$ 169,053	\$ 18,412	\$ 98,872	\$ 649,594

Payments on time deposits are based on contractual maturity dates. These funds may be withdrawn prior to maturity with or without penalties.

Included in subordinated debentures and notes payable in the above table is subordinated debt of \$16,005,000. The debentures mature on August 10, 2031; however, we may redeem all or part of the debentures at any time on or after August 10, 2006. These debentures are included in the one year or less maturity category in the table above based on the date of earliest redemption.

Operating lease obligations represent property rented for branch offices. Payments represent the minimum lease payments and exclude related costs such as utilities.

Loan commitments represent obligations to provide financing to our customers. As some of these commitments will expire prior to funding the full amount, the total commitment amounts do not necessarily represent future cash obligations.

Data processing contracts represent the minimum obligations under these contracts and exclude additional payments that are based on volume of transactions processed.

Additionally, we offer standby letters of credit to our customers, which are a conditional, but irrevocable form of guarantee, issued to guarantee payment upon default of payment by our customer. Standby letters of credit are initially issued for a period of one year, but can be extended depending on customer needs. The contractual amount of standby letters of credit was \$6,202,000 at December 31, 2005 and the maximum remaining term for any standby letter of credit is December 2008; however, we have several standby letters of credit that are backed by demand notes that automatically renew and have no stated maturity. Commitments for standby letters of credit do not necessarily represent future cash requirements.

Capital Resources

We monitor compliance with bank and financial holding company regulatory capital requirements, focusing primarily on risk-based guidelines. Under the risk-based capital method of capital measurement, the ratio computed is dependent upon the amount and composition of assets recorded on the balance sheet, and the amount and composition of off-balance sheet items, in addition to the level of capital. Included in the risk-based capital method are two measures of capital adequacy, core capital and total capital, which consist of core and secondary capital. Core capital, also known as Tier 1 capital, generally includes common shareholders' equity, perpetual preferred stock and minority interests in consolidated subsidiaries, less goodwill and intangible assets. No more than 25% of core capital elements may consist of cumulative preferred stock. The Trust Preferred Securities, issued by our subsidiary, Team Financial Capital Trust I, to purchase Team Financial, Inc. subordinated debentures, is included in Tier 1 capital of Team Financial, Inc. for regulatory purposes. Total risk based capital, also known as Tier 2 capital, generally includes the allowance for loan losses limited to 1.25% of weighted risk assets, certain forms of perpetual preferred stock, as well as hybrid capital instruments.

The following tables present capital ratios as of the indicated dates.

	Risk Based Capital Ratios					
	At December 31					
	2005		2004		2003	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
	(Dollars in thousands)					
Core capital	\$ 56,661	11.60 %	\$ 46,857	10.70 %	\$ 46,320	11.08 %
Core capital minimum requirement(1)	19,530	4.00 %	17,524	4.00 %	16,721	4.00 %
Excess	\$ 37,131	7.60 %	\$ 29,333	6.70 %	\$ 29,599	7.08 %
Total risk based capital	\$ 62,085	12.72 %	\$ 51,755	11.81 %	\$ 50,826	12.16 %
Total risk based capital requirement(1)	39,061	8.00 %	35,049	8.00 %	33,442	8.00 %
Excess	\$ 23,024	4.72 %	\$ 16,706	3.81 %	\$ 17,384	4.16 %
Total risk adjusted assets	\$ 488,260		\$ 438,109		\$ 418,026	

	Leverage Ratios					
	At December 31					
	2005		2004		2003	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
	(Dollars in thousands)					
Core capital	\$ 56,661	8.42 %	\$ 46,857	7.43 %	\$ 46,320	7.46 %
Core capital minimum requirement(2)	26,903	4.00 %	25,213	4.00 %	24,829	4.00 %
Excess	\$ 29,758	4.42 %	\$ 21,644	3.43 %	\$ 21,491	3.46 %
Average total assets	\$ 672,578		\$ 630,323		\$ 620,723	

(1) Based on risk-based capital guidelines of the Federal Reserve Board, a bank holding company is required to maintain a core capital to risk-adjusted assets ratio of 4% and a total capital, risk-based, to risk-adjusted assets ratio of 8%.

(2) The leverage ratio is defined as the ratio of core capital to average tangible assets. Based on Federal Reserve Board guidelines, a bank holding company generally is required to maintain a leverage ratio in excess of 4%.

Recent Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 123 (revised 2004), *Share Based Payments*, (SFAS 123R). This statement requires that the cost resulting from all share-based transactions be recognized in the financial statements. SFAS 123R establishes fair value as the measurement objective in accounting for share-based arrangements and requires all entities to apply a fair-value based measurement method in accounting for share-based payments with employees except for equity instruments held by employee share ownership plans. SFAS 123R replaces FASB Statement No. 123, *Accounting for Stock-Based Compensation*, and supersedes Accounting Principal Board Opinion No. 25, *Accounting for Stock Issued to Employee*, (APB 25) and is effective as of the beginning of the first interim or annual reporting period beginning after June 15, 2005. As discussed in the notes to consolidated financial statements, in 2005 and previous years, we have applied APB 25 in accounting for our stock incentive plans which required compensation cost be recognized as the excess, if any, of the fair market value of our stock at the date of grant over the amount the employee must pay to acquire the stock. In accordance with APB 25 we have reported the pro forma effect on net income if the share-based awards were accounted for using the fair value method in a footnote.

On September 30, 2004 the FASB issued a final FASB Staff Position, FSP EITF Issue 03-1-1, that delays the effective date for the measurement and recognition guidance included in EITF Issue 03-1, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*, (EITF 03-1). Originally, this statement was effective for reporting periods beginning after June 15, 2004 and provided guidance on when to record a loss in the statement of operations and when additional information needed to be disclosed on unrealized losses. Other components of EITF 03-1 regarding quantitative and qualitative information was required to be presented in the financial statements effective for fiscal years ending after December 15, 2003 and was not deferred by the FASB's Staff Position. This portion of EITF 03-1 was adopted in December, 2003 and the required disclosures are included in footnote 3 in the Notes to the Consolidated Financial Statements. The adoption of the measurement and recognition guidance, have not had a material impact on our financial position and results of operations.

In December 2003, the American Institute of Certified Public Accountants issued Statement of Position 03-3, *Accounting for Certain Loans or Debt Securities Acquired in a Transfer*, (SOP 03-3). SOP 03-3 addresses the accounting for certain acquired loans or debt securities, including those acquired in a purchase business combination, that have experienced a deterioration of credit quality between the loan origination date that the date the loan is acquired by an investor, and for which it is probable that at acquisition the investor will be unable to collect all contractually required payments on the loan. Loans within the scope of this SOP that are acquired should be recognized initially at the present value of amounts expected to be received and no allowance for loan losses should be carried over related to these loans at acquisition. SOP 03-3 prohibits displaying accretable yield and nonaccretable differences in the balance sheet. SOP 03-3 is effective for loans acquired in fiscal years beginning after December 15, 2004. We adopted SOP 03-3 on January 1, 2005. The adoption of SOP 03-3 did not have a material impact on our financial position or results of operations.

Item 7a. Quantitative and Qualitative Disclosures about Market Risk

Liquidity

We continuously forecast and manage our liquidity in order to satisfy cash flow requirements of depositors, borrowers, and our own cash flow needs. We have developed internal and external sources of liquidity to meet our continued growth needs. These liquidity sources include, but are not limited to, raising deposits through branch promotional campaigns, purchasing brokered certificates of deposits, overnight funds, short term investment securities classified as available-for-sale and drawing on credit facilities established through the Federal Home Loan Bank of Topeka.

Our most liquid assets are cash and cash equivalents and investment securities available-for-sale. The levels of these assets are dependent on our operating, financing, lending, and investing activities during any given period. At December 31, 2005 and December 31, 2004, these liquid assets totaled \$224.8 million and \$226.6 million, respectively. Included in these liquid assets are investment securities of \$161.1 million at December 31, 2005 and \$162.7 million at December 31, 2004 that were pledged as collateral for borrowings, repurchase agreements and for public funds on deposit.

At December 31, 2005 there was approximately \$15.1 million borrowing capacity remaining under agreements with the Federal Home Loan Bank of Topeka.

During 2005, our loan portfolio increased approximately 10.9%. Decreased liquidity may result in the inability to continue this growth rate in the future or may result in an increased cost of funding. Deposit growth through branch promotional campaigns is expected to provide additional sources of funding. Another source of additional funding is the use of brokered certificates of deposits.

Management believes our sources of liquidity are adequate to meet expected cash needs for the foreseeable future.

Asset and Liability Management

Asset and liability management refers to management's efforts to minimize fluctuations in net interest income caused by interest rate changes. This is accomplished by managing the re-pricing of interest rate sensitive interest-earning assets and interest-bearing liabilities. Controlling the maturity of re-pricing of an institution's liabilities and assets in order to minimize interest rate risk is commonly referred to as gap management. Close matching of re-pricing assets and liabilities will normally result in little change in net interest income when interest rates change. We monitor our asset and liability mix monthly in an effort to maintain consistent earnings performance through the control of interest rate risk.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-K/A

Below is a static gap schedule as of December 31, 2005. This is just one of several tools which may be used to measure and manage interest rate sensitivity. Interest-earning assets and interest-bearing liabilities are presented below within selected time intervals based on their re-pricing and maturity characteristics. In this presentation, the sensitivity position would be perfectly matched when an equal amount of assets and liabilities re-price during any given time period. Excess assets or liabilities re-pricing in a given time period results in the interest rate gap shown in the table. A positive gap indicates more assets than liabilities will re-price in that time period, while a negative gap indicates more liabilities than assets will re-price.

Static Gap Analysis at December 31, 2005							
	3 months or less	4 through 12 months	13 through 36 months	37 through 60 months	61 through 120 months	More than 120 months	Total

Notes payable and subordinated debentures	202	16,005					16,207
Total interest-bearing liabilities	\$ 336,285	\$ 131,067	\$ 90,002	\$ 10,751	\$ 70,417	\$ 730	\$ 639,252
Periodic repricing gap	\$ (203,184)	\$ 17,107	\$ 22,126	\$ 54,885	\$ (18,065)	\$ 118,717	\$ (8,414)
Cumulative repricing gap	(203,184)	(186,077)	(163,951)	(109,066)	(127,131)	(8,414)	
Periodic repricing gap as a percent of interest earning assets	(152.65)%	11.55 %	19.73 %	83.62 %	(34.51)%	99.39 %	%
Cumulative repricing gap as a percent of interest earning assets	(152.65)%	(125.58)%	(146.22)%	(166.17)%	(242.84)%	(7.04)%	%

The table indicates that we are liability sensitive in the less than three-month period and the 61 through 120 month period, and are asset sensitive for all other periods. The liability sensitivity during the three months or less period is primarily due to the classification of savings and interest-bearing checking as three months or less as these funds may be withdrawn at any time. This means that during the first period classification, interest-bearing liabilities re-price faster than interest-earning assets, thereby improving net interest income when rates are falling and reducing net interest income when rates are rising. While the static gap method is a widely used measure of interest sensitivity, it is not, in management's opinion, the only indicator of our interest rate sensitivity.

The following table indicates that at December 31, 2005, if there had been a sudden and sustained increase in prevailing market interest rates, our 2006 net interest income would be expected to increase, while a decrease in rates would indicate a decrease in net interest income.

Change in Interest Rates	Net Interest Income (Dollars in thousands)	(Decrease) Increase	Percent Change
200 basis point rise	\$ 25,234	\$ 1,363	5.71 %
100 basis point rise	24,552	681	2.85
Base rate scenario	23,871		
100 basis point decline	22,851	(1,020)	(4.27)
200 basis point decline	20,474	(3,397)	(14.23)

We believe we are appropriately positioned for future interest rate movements, although we may experience fluctuations in net interest income due to short-term timing differences between the re-pricing of assets and liabilities.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
Team Financial, Inc.:

We have audited the accompanying consolidated statements of financial condition of Team Financial, Inc. and subsidiaries (the Company) as of December 31, 2005 and 2004, and the related consolidated statements of operations, comprehensive income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2005. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Team Financial, Inc. and subsidiaries as of December 31, 2005 and 2004, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2005, in conformity with accounting principles generally accepted in the United States of America.

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements
December 31, 2005, 2004 and 2003

(1) Summary of Significant Accounting Policies

The following accounting policies, together with those disclosed elsewhere in the consolidated financial statements, represent the significant accounting policies used in presenting the accompanying consolidated financial statements.

Principles of Consolidation

The consolidated financial statements include the accounts of Team Financial, Inc. and its wholly owned subsidiaries, Team Financial Acquisition Subsidiary, Inc., including TeamBank, N.A. and its subsidiaries, and Post Bancorp including Colorado National Bank, all of which are collectively considered one segment. All material inter-company transactions, profits, and balances are eliminated in consolidation.

Financial Statement Presentation and Use of Estimates

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, and contingent assets and liabilities as of the balance sheet dates and revenues and expenses for the reporting years. Actual results could differ from those estimates.

Cash and Cash Equivalents

For the purposes of reporting cash flows, cash and cash equivalents include cash on hand, amounts due from banks and federal funds sold.

Securities Available-for-Sale

Securities to be held for indefinite periods of time, including securities that management intends to use as a part of its asset/liability strategy that may be sold in response to changes in interest rates, loan prepayments, or other factors, are classified as available-for-sale and carried at fair value. Gains or losses on the sale of securities are determined using the specific identification method. Premiums and discounts are recognized in interest income using the interest method over the period to call date and maturity date, respectively. Unrealized holding gains or losses, net of tax, for securities available-for-sale are reported as a component of other comprehensive income (loss).

A decline in the fair value of any security below cost that is deemed other than temporary is charged to earnings, resulting in the establishment of a new cost basis for the security.

Loans

Loans are stated at unpaid principal balances, reduced by unearned fees. Interest on loans is accrued and credited to income as it is earned using the simple interest method on daily balances of the principal amount outstanding. However, interest is generally not accrued on loans over 90 days contractually delinquent. Accrued interest income is reversed when a loan is placed on non-accrual status. Fees received on loans in excess of amounts representing the estimated cost of origination are deferred and credited to income using the interest method.

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

Mortgage Banking

Loans held for sale in the secondary market are carried at the lower of aggregate cost or fair value. Unrealized losses are recognized via a charge against operations through the establishment of a valuation reserve. Realized gains and losses on such loans are accounted for under the specific identification method. Loan origination fees and costs are not amortized during the period the loans are held for sale and are recorded as part of the gain or loss on the sale of loans.

Certain mortgage loans are sold to permanent investors while we retain the right to service the loans. Service fees are recorded in income when earned. Capitalized servicing rights are recorded at the time the loan is sold, thereby increasing the gain on sale by such amount, and subsequently amortized over the period of the estimated future net servicing income of the underlying financial assets. Any remaining unamortized amount is charged to expense if the related loan is repaid prior to maturity.

Management monitors the capitalized mortgage servicing rights for impairment based on the fair value of those rights, as determined on a quarterly basis. Any impairment is recognized through a valuation allowance.

Allowances for Loan Losses

We account for impaired loans in accordance with Statement of Financial Accounting Standards (SFAS) No. 114, *Accounting By Creditors For Impairment Of A Loan*, as amended by SFAS No. 118, *Accounting By Creditors For Impairment Of A Loan - Income Recognition And Disclosures*. SFAS No. 114 generally requires all creditors to account for impaired loans, except those loans that are accounted for at fair value or at the lower of cost or fair value, at the present value of the expected future cash flows discounted at the loan's effective interest rate at the date of initial impairment, or, as a practical expedient, at the loan's observable market prices or fair value of the collateral if the loan is collateral dependent. SFAS No. 114 indicates that a creditor should evaluate the collectibility of both contractual interest and contractual principal when assessing the need for a loss accrual.

We consider a loan to be impaired when it is deemed probable by management that we will be unable to collect all contractual principal and interest payments in accordance with the terms of the original loan agreement. However, when determining whether a loan is impaired, management also considers the loan documentation, the current ratio of the loan's balance to collateral value, and the borrower's present financial position. Included as impaired loans are all loans contractually delinquent 90 days or more and all loans upon which accrual of interest has been suspended.

Management believes that the allowance for loan losses as of December 31, 2005 is adequate. However, additions to or recaptures from the allowances may be necessary based upon changes in economic conditions, borrower financial status, the regulatory environment, real estate values, and loan portfolio size and composition. As such, periodic provisions for estimated loan losses may vary from time to time.

Real Estate Owned

Real estate acquired through foreclosure is initially recorded at the lower of cost or fair value less estimated cost to sell. If fair value less cost to sell is less than amortized cost, a charge against the allowance for loan losses is recorded at property acquisition. Declines in property value subsequent to acquisition are charged to operations.

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

Recognition of gains on the sale of real estate is dependent upon the transaction meeting certain criteria relating to the nature of the property and the terms of the sale and potential financing. These criteria are presented within SFAS No. 66 *Accounting For Sales Of Real Estate*, and Accounting Principal Board No. 21, *Interest On Receivables and Payables*. Under certain circumstances, a gain on sale of real estate, or a portion thereof, may be deferred until the criteria are met. Losses on disposition of real estate, including expenses incurred in connection with the disposition, are charged to operations.

Premises and Equipment

Land is carried at cost. Other premises and equipment are reported at cost less accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method over the estimate useful lives of the assets or the term of the related lease, whichever is shorter. The useful lives for the principal classes of assets are:

Assets	Useful life
Buildings and improvements	5 to 40 years
Furniture, fixtures, and equipment	3 to 10 years

Goodwill and Other Intangible Assets

Goodwill resulting from the acquisition of bank branches and subsidiaries represents the excess of the purchase price over the fair value of the net assets acquired or net liabilities assumed. Goodwill and intangible assets with indefinite useful lives are tested for impairment at least annually. Intangible assets with estimated useful lives are amortized to their estimated residual values and reviewed for impairment.

Core deposit intangible assets resulting from the acquisition of bank branches and subsidiaries represent the fair value assigned to core deposits assumed. Core deposit intangible assets are amortized using the straight-line method over periods ranging from seven to fifteen years.

The intangible asset resulting from the acquisition of an insurance agency represents the fair value assigned to the existing customer list of the insurance agency acquired. The agency expiration intangible asset was amortized using a straight-line basis over a period of ten years. In February 2005, the insurance agency subsidiary was sold to an independent third party. Therefore, the agency expiration intangible asset is presented in assets of discontinued operations in the 2004 consolidated financial statements.

Bank Owned Life Insurance

Bank owned life insurance is recorded at the cash surrender value of the underlying policies. Income on the investments in the policies, net of insurance costs, is recorded as non-interest income.

Insurance Agency Commissions

Insurance agency commissions are recorded as of the effective date of insurance coverage or the billing date, whichever is later. Contingent commissions and commissions on premiums billed and collected directly by insurance companies are recorded as revenue when received, which is our first notification of amounts earned. Insurance agency commissions are included in net income (loss) from discontinued operations in the 2004 and 2003 consolidated financial statements.

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

Income Taxes

We file consolidated federal income tax returns. Certain income and expense items are treated differently for financial reporting purposes than for income tax purposes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to the difference between the consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Stock Incentive Plan

The Company has applied the provisions of Accounting Principals Board (APB) Opinion No. 25 and related interpretations in accounting for options issued under the Stock Incentive Plan. The exercise price of certain of the stock options granted equals the market price of the underlying stock options on the date of grant, and therefore, no compensation expense is recorded. Certain other stock options granted have contingent vesting schedules based on various performance goals and therefore expense may be recorded as the difference between the exercise price and the fair market value at the date of vesting. We have adopted the disclosure-only provisions of Statement of Financial Accounting Standards No. 123, *Accounting for Stock-Based Compensation* (SFAS 123), included in footnote 13 of the notes to the consolidated financial statements.

Income per Share

Basic income per share is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding for the year. Diluted income per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. The shares used in the calculation of basic and diluted income per share are shown below:

	Years ended		
	2005	2004	2003
Basic weighted average common shares outstanding	4,038,097	4,060,587	4,095,903
Stock options	56,696	34,127	35,478
Diluted weighted average common shares outstanding	4,094,793	4,094,714	4,131,381

Recent Accounting Developments

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 123 (revised 2004), *Share Based Payments*, (SFAS 123R). This statement requires that the cost resulting from all share-based transactions be recognized in the financial statements. SFAS 123R establishes fair value as the measurement objective in accounting for share-based arrangements and requires all entities to apply a fair-value based measurement method in accounting for share based payments with employees except for equity instruments held by employee share ownership plans. SFAS 123R replaces FASB Statement No. 123, *Accounting for Stock-Based Compensation*, and

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

supercedes Accounting Principal Board Opinion No. 25, *Accounting for Stock Issued to Employee*, (APB 25) and is effective as of the beginning of the first interim or annual reporting period beginning after June 15, 2005. As discussed in the notes to consolidated financial statements, in 2005 and previous years, we have applied APB 25 in accounting for our stock incentive plans which requires compensation cost be recognized as the excess, if any, of the fair market value of our stock at the date of grant over the amount the employee must pay to acquire the stock. In accordance with APB 25 we have reported the pro forma effect on net income in the notes to the consolidated financial statements as if the share-based awards were accounted for using the fair value method in a footnote.

On September 30, 2004 the FASB issued a final FASB Staff Position, FSP EITF Issue 03-1-1, that delays the effective date for the measurement and recognition guidance included in EITF Issue 03-1, *The Meaning of Other-than-temporary Impairment and Its Application to Certain Investments*, (EITF 03-1). Originally, this statement was effective for reporting periods beginning after June 15, 2004 and provided guidance on when to record a loss in the statement of operations and when additional information needed to be disclosed on unrealized losses. Other components of EITF 03-1 regarding quantitative and qualitative information was required to be presented in the financial statements effective for fiscal years ending after December 15, 2003 and was not deferred by the FASB's Staff Position. This portion of EITF 03-1 was adopted in December 2003 and the required disclosures are included in footnote 3 in the Notes to Consolidated Financial Statements. The adoption of the measurement and recognition guidance, have not had a material impact on the financial position and results of operations.

In December 2003, the American Institute of Certified Public Accountants issued Statement of Position 03-3, *Accounting for Certain Loans or Debt Securities Acquired in a Transfer*, (SOP 03-3). SOP 03-3 addresses the accounting for certain acquired loans or debt securities, including those acquired in a purchase business combination, that have experienced a deterioration of credit quality between the loan origination date that the date the loan is acquired by an investor, and for which it is probable that at acquisition the investor will be unable to collect all contractually required payments on the loan. Loans within the scope of this SOP that are acquired should be recognized initially at the present value of amounts expected to be received and no allowance for loan losses should be carried over related to these loans at acquisition. SOP 03-3 prohibits displaying accretable yield and nonaccretable differences in the balance sheet. SOP 03-3 is effective for loans acquired in fiscal years beginning after December 15, 2004. We adopted SOP 03-3 on January 1, 2005. The adoption of SOP 03-3 did not have a material impact on the financial position or results of operations.

(2) Discontinued Operations

On February 25, 2005, we completed the sale of our insurance agency subsidiary, Team Insurance Group, Inc. All of the issued and outstanding shares of the subsidiary were sold to an unaffiliated third party for total cash consideration of \$6,836,000. Our investment in Team Insurance Group, Inc. at February 25, 2005 was approximately \$7,000,000. A loss on the sale of the subsidiary of approximately \$164,000 was recorded in the second quarter of 2005 upon finalization of the selling price and is presented, net of the tax effect of \$56,000, in discontinued operations in the accompanying consolidated financial statements. The sale was effective December 31, 2004 and, therefore, the operations of the insurance subsidiary during 2005 were assumed by the new owners. Pursuant to the terms of the agreement, the buyer has until August 25, 2006 to present any breach of warranty or representation claims.

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

As a result of the sale, the operations related to the insurance agency subsidiary have been classified as discontinued operations in the consolidated financial statements and notes to the consolidated financial statements.

The following table presents the net assets of Team Insurance Group, Inc. as of December 31, 2004.

	2004 (In thousands)
Cash	\$ 1,033
Investments	
Premises and equipment, net	571
Goodwill	5,514
Intangible assets, net of accumulated amortization	1,039
Other assets	125
Accrued expenses and other liabilities	(1,282)
Total net assets	\$ 7,000

Summarized results of operations of the insurance agency for the years ended December 31, 2004 and 2003 are as follows:

	2004	2003
	(In thousands)	
Insurance agency commissions	\$ 4,153	\$ 4,454
Other income	193	229
Total income	4,346	4,683
Salary and employee benefits	3,092	2,864
Occupancy and equipment	338	274
Professional fees	90	53
Marketing	126	161
Supplies	39	58
Intangible asset amortization	170	175
Goodwill impairment	174	
Intangible asset write-off	119	
Other	455	498
Total expenses	4,603	4,083
Net income (loss) from discontinued operations before income taxes	(257)	600
Income tax expense (benefit)	(39)	250
Net income (loss) from discontinued operations, net of tax	\$ (218)	\$ 350

Total available for sale securities	\$ 190,369	\$ 2,460	\$ (987)	\$ 191,842

Equity securities held at cost consist primarily of \$6.8 million of Federal Home Loan Bank of Topeka common stock and \$1.5 million of Federal Reserve Bank common stock.

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

Gross realized gains and losses on sale of investment securities available for sale are summarized as follows:

	Year ended December 31		
	2005	2004	2003
	(In thousands)		
Gain on sales of investment securities available for sale	\$ 25	\$ 12	\$ 300
Loss on sales of investment securities available for sale	(26)	(62)	(6)
Net gain (loss) on sales of investment securities available for sale	\$ (1)	\$ (50)	\$ 294
Proceeds from the sale of investment securities available for sale	\$ 1,014	\$ 8,593	\$ 5,686

Information on temporarily impaired securities at December 31, 2005 and 2004, segregated by those investments that have been in continuous unrealized loss position for less than 12 months and those investments that have been in continuous unrealized loss position for 12 months or longer, is summarized as follows:

Description of securities	December 31, 2005		12 months or longer		Total	Unrealized
	Less than 12 months		Fair			
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Value	Losses
	(In thousands)					
Debt securities:						
U. S. Agency securities	\$ 23,615	\$ (344)	\$ 30,052	\$ (764)	\$ 53,667	\$ (1,108)
Mortgage-backed securities	45,512	(838)	21,002	(679)	66,514	(1,517)
Nontaxable municipal securities	8,355	(130)	1,158	(38)	9,513	(168)
Other debt securities	2,853	(152)			2,853	(152)
Total debt securities	80,335	(1,464)	52,212	(1,481)	132,547	(2,945)
Equity securities	7	(3)	6	(1)	13	(4)
Total temporarily impaired securities	\$ 80,342	\$ (1,467)	\$ 52,218	\$ (1,482)	\$ 132,560	\$ (2,949)

Description of securities	December 31, 2004		12 months or longer		Total	Unrealized
	Less than 12 months		Fair			
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Value	Losses
	(In thousands)					
Debt securities:						
U. S. Agency securities	\$ 28,312	\$ (305)	\$ 6,133	\$ (167)	\$ 34,445	\$ (472)
Mortgage-backed securities	35,978	(362)	4,257	(73)	40,235	(435)
Nontaxable municipal securities	3,083	(35)	1,507	(38)	4,590	(73)
Total debt securities	67,373	(702)	11,897	(278)	79,270	(980)
Equity securities	4		10	(7)	14	(7)
Total temporarily impaired securities	\$ 67,377	\$ (702)	\$ 11,907	\$ (285)	\$ 79,284	\$ (987)

The table above represents 218 investment securities at December 31, 2005 where the current fair value is less than the related amortized cost. The unrealized losses on these temporarily impaired securities are a result of changes in interest rates for fixed-rate securities where the interest rate received is less than the

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

current rate available for new offerings of similar securities, changes in market spreads as a result of shifts in supply and demand, and changes in the level of prepayments for mortgage-backed securities. These unrealized losses are considered temporary based on our ability and intent to hold until values recover.

Contractual maturities of investment securities classified as available-for-sale are set forth in the following table. Expected maturities will differ from contractual maturities because issuers may have the right to call or prepay obligations with or without penalties.

	December 31, 2005		December 31, 2004	
	Amortized Cost (In thousands)	Fair Value	Amortized Cost (In thousands)	Fair Value
Available-for-sale:				
Due less than one year	\$ 12,159	\$ 12,064	\$ 4,861	\$ 4,901
Due after one through five years	27,288	26,838	36,192	36,329
Due after five through ten years	39,598	39,309	29,547	30,195
Due after ten years	104,566	103,373	111,310	111,912
Equity investments	8,777	8,825	8,459	8,505
	\$ 192,388	\$ 190,409	\$ 190,369	\$ 191,842

At December 31, 2005, securities with amortized cost of approximately \$163,126,000 and fair value of approximately \$161,145,000 were pledged as collateral to creditors, collateral for repurchase agreements, collateral for public funds on deposits and for other purposes as required by law. At December 31, 2004 securities with amortized cost of approximately \$161,723,000 and fair value of approximately \$162,677,000 were pledged for the same purposes.

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

Included in one-to-four family real estate loans are mortgage loans held for sale of approximately \$1,845,000 and \$3,107,000 at December 31, 2005 and 2004, respectively.

A summary of non-performing assets is as follows:

	December 31	
	2005	2004
	(In thousands)	
Non-performing assets:		
Non-accrual loans:		
Real estate loans	\$ 1,303	\$ 710
Commercial, industrial, and agricultural	906	308
Installment loans	134	263
Total non-accrual loans	2,343	1,281
Loans past due 90 days or more still accruing:		
Real estate loans	604	40
Commercial, industrial, and agricultural	534	344
Installment loans	46	36
Total past due 90 days or more still accruing	1,184	420
Restructured loans	1,055	1,053
Total non-performing loans	4,582	2,754
Assets acquired through foreclosure	455	408
Total non-performing assets	\$ 5,037	\$ 3,162

An analysis of impaired loans is summarized as follows:

	Accrual status		Non-accrual status		Total impaired loans	
	Principal	Specific Allowances	Principal	Specific Allowances	Principal	Specific Allowances
	(In thousands)					
December 31, 2005	\$ 1,184	\$	\$ 2,343	\$ 613	\$ 3,527	\$ 613
December 31, 2004	\$ 420	\$	\$ 1,281	\$ 262	\$ 1,701	\$ 262

Average investment in impaired loans was \$2,331,000, \$4,008,000 and \$6,683,000 during the years ended December 31, 2005, 2004 and 2003 respectively.

Activity related to loans made to our directors and executive officers during 2005 is presented below. Such loans were made in the ordinary course of business on normal credit terms, including interest rate and collateralization (in thousands):

Loans to executive officers and directors at January 1, 2005	\$ 1,263
Additions	618
Amounts collected	(371)
Balance at December 31, 2005	\$ 1,510

Our primary market areas in Kansas are Miami County, Allen County, Franklin County, Labette County, Johnson County and surrounding counties. The primary market areas in Nebraska are Washington

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

County, and Sarpy County. The primary market areas in Colorado are El Paso County and Teller County along the front range of the Colorado Rocky Mountains and in Missouri the primary market areas are Vernon County and Barton County. The majority of the loans made by our subsidiary banks are within these primary market areas.

(5) Mortgage Banking Activities

We service first mortgage loans for secondary investors. Escrow balances are held on deposit for first mortgage loans serviced in our subsidiary banks. The aggregate first mortgage loans serviced and escrow balances held are as follows:

	December 31	
	2005	2004
	(In thousands)	
Mortgage loans serviced	\$ 88,959	\$ 106,371
Escrow deposits	501	522

Included in gain on sales of mortgage loans are capitalized mortgage servicing rights. A summary of the net mortgage servicing rights, which are included in intangible assets for the years ended December 31, 2005, 2004, and 2003 is as follows:

	2005	2004	2003
	(In thousands)		
Balance January 1	\$ 514	\$ 656	\$ 637
Mortgage servicing rights capitalized during the year	29	80	288
Amortization	(140)	(222)	(510)
Valuation adjustment			241
Balance December 31	\$ 403	\$ 514	\$ 656

Service fees earned, included in other income, were approximately \$248,000, \$290,000, and \$329,000 for the years ended December 31, 2005, 2004 and 2003, respectively.

(6) Allowance for Loan Losses

A summary of the allowances for loan losses for the years ended December 31, 2005, 2004, and 2003 is as follows:

	December 31		
	2005	2004	2003
	(In thousands)		
Balance, beginning of year	\$ 4,898	\$ 4,506	\$ 4,611
Provision for loan losses	820	1,465	1,790
Charge-offs	(711)	(1,306)	(2,247)
Recoveries	417	233	352
Balance, end of year	\$ 5,424	\$ 4,898	\$ 4,506

Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

(7) Premises and Equipment, Net

Major classifications of bank premises and equipment at December 31, 2005 and 2004 for continuing operations are summarized as follows:

	December 31 2005	2004
	(In thousands)	
Land	\$ 4,666	\$ 3,020
Bank premises	13,582	12,450
Furniture, fixtures, and equipment	11,012	11,591
	29,260	27,061
Less accumulated depreciation	12,901	11,744
	\$16,359	\$ 15,317

Depreciation expense from continuing operations aggregating \$1,231,000, \$1,194,000, and \$1,083,000 for the years ended December 31, 2005, 2004, and 2003, respectively, is included in occupancy and equipment expense in the accompanying consolidated statements of operations.

Space in certain facilities is rented under operating leases extending to 2007. Rent expense for continuing operations related to the leases was approximately \$108,000 during 2005 and \$107,000 during 2004 and 2003. Following is a summary of future minimum lease payments for years following December 31, 2005:

	(In thousands)
2006	\$ 108,000
2007	85,000
Thereafter	\$193,000

(8) Goodwill and Intangible Assets

The following table presents the original cost and accumulated amortization of intangible assets for continuing operations.

	December 31 2005		2004	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
	(In thousands)		(In thousands)	
Core deposit intangible	\$ 6,400	\$ 3,581	\$ 6,400	\$ 3,103
Noncompete agreements			150	150
Mortgage servicing rights	2,450	2,046	2,420	1,906
Total intangible assets	\$ 8,850	\$ 5,627	\$ 8,970	\$ 5,159

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

Expected amortization expense is as follows:

Year ending December 31,	Estimated amortization expense		Total
	Core Deposit Intangible (In thousands)	Mortgage Servicing Rights	
2006	\$ 475	\$ 69	\$ 544
2007	475	69	544
2008	391	69	460
2009	383	69	452
2010	383	69	452

Goodwill was \$10,700,000 at December 31, 2005 and December 31, 2004. There was no impairment of goodwill associated with continuing operations recorded for the years ended December 31, 2005, 2004 and 2003. See additional information in footnote 2, Discontinued Operations, for goodwill associated with discontinued operations in 2004.

(9) Deposit Accounts

Deposits are summarized as follows:

	December 31	
	2005	2004
	(In thousands)

(10) Securities Sold under Agreements to Repurchase

Our obligation to repurchase securities sold at December 31, 2005 and 2004 aggregated approximately \$4,036,000 and \$5,669,000, respectively. Information concerning securities sold under agreements to repurchase is as follows:

	December 31	
	2005	2004
	(Dollars in thousands)	
Average monthly balance during the year	\$ 5,347	\$ 10,481
Average interest rate during the year	2.54	% 1.36
Maximum month-end balance during the year	\$ 12,936	\$ 22,416

At December 31, 2005 and 2004, such agreements were secured by investment securities.

(11) Advances from the Federal Home Loan Bank, Notes Payable and Other Borrowings

Following is a summary of the advances from the Federal Home Loan Bank, notes payable and other borrowings at December 31:

	2005	2004
	(In thousands)	
Borrowing under a line of credit, interest floating at 2.00% over one month LIBOR (5.51% and 4.28% at December 31, 2005 and 2004); due June 30, 2006; secured by common stock of subsidiary banks; maximum credit limit as of December 31, 2005 was \$6,000,000	\$	\$ 3,400
Other borrowings	202	144
	202	3,544
Federal Home Loan Bank borrowings at interest rates ranging from 2.62% to 6.96%; maturities ranging from 2006 to 2019; secured by real estate loans, investments securities, and Federal Home Loan Bank stock	111,131	111,915
	\$ 111,535	\$ 119,003

As of December 31, 2005, we did not have an outstanding balance on the \$6,000,000 line of credit. Interest of .1875% is payable on the unused line of credit amounts.

Our subsidiary banks maintain lines of credit with the Federal Home Loan Bank of Topeka approximating \$167,603,000. As of December 31, 2005, our subsidiary banks had \$111,131,000 outstanding on the lines of credit and \$41,400,000 of outstanding letters of credit, leaving available borrowings of approximately \$15,072,000.

The Federal Home Loan Bank borrowings at December 31, 2005 consisted of \$4,131,000 in fixed rate advances with interest ranging from 2.62%-6.96%, maturing in 2006 through 2019, \$22,000,000 in variable rate advances with interest ranging from 3.52% to 5.87%, maturing in 2010 through 2015 and \$85,000,000

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

in fixed rate advances convertible to floating rate if LIBOR increases to a range of 6.0% to 7.50%, interest ranging from 3.66% to 4.21%, maturing in 2007 through 2012.

Principal maturities on advances from the Federal Home Loan Bank, and long-term notes payable at December 31, 2005 were as follows:

	Amount (In thousands)
Year:	
2006	\$ 3,202
2007	10,000
2008	
2009	5,000
2010	5,000
Thereafter	88,131
	\$ 111,333

(12) Subordinated Debentures

On August 10, 2001, Team Financial Capital Trust I (the Trust), a Delaware business trust formed by Team Financial, Inc., completed the sale of \$15.5 million 9.50% Cumulative Trust Preferred Securities. The Trust used the net proceeds from the offering to purchase a like amount of Team Financial, Inc.'s 9.50% subordinated debentures. The debentures, maturing August 10, 2031, are the sole assets of the Trust. In exchange for the capital contribution made to the Trust by Team Financial, Inc. upon formation, Team Financial, Inc. owns all of the common securities of the Trust.

In accordance with Financial Accounting Standards Board Interpretation No. 46R, *Consolidation of Variable Interest Entities* (FIN 46 R), adopted in December 2003, the Trust qualifies as a special purpose entity that is not required to be consolidated in the financial statements of Team Financial, Inc. The \$15.5 million Trust Preferred Securities issued by the Trust will remain on the records of the Trust.

We continue to include the Trust Preferred Securities issued by the Trust in Tier I capital for regulatory capital purposes.

Total expenses associated with offering the preferred securities of the Trust, paid by Team Financial, Inc., approximated \$1.0 million and are reflected in Team Financial Inc.'s financial statements. The costs are included in Other Assets and are being amortized on a straight-line basis to interest expense over the life of the debentures. As of December 31, 2005, approximately \$846,000 of the cost related to offering the Trust Preferred Securities remained unamortized.

The Trust Preferred Securities accrue and pay distributions quarterly at annual rates of 9.50% of the stated liquidation amount of \$10 per preferred security. We have fully and unconditionally guaranteed all of the obligations of the Trust. The guaranty covers the quarterly distributions and payments on liquidation or redemption of the Trust Preferred Securities.

The Trust Preferred Securities are mandatorily redeemable upon the maturity of the debentures on August 10, 2031 or upon earlier redemption as provided in the Indentures. We have the right to redeem the debentures, in whole or in part, on or after August 10, 2006 at a redemption price specified in the

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

Indentures plus any accrued but unpaid interest to the redemption date. In the event that we would redeem all or part of the debentures on or after August 10, 2006, we would amortize the proportionate unamortized cost of the offering and incur a charge. The maximum charge that would be incurred should we redeem all of the subordinated debentures on August 10, 2006 would be approximately \$826,000.

(13) Employee Benefit Plans

Eligible employees participate in an employee stock ownership plan (ESOP). ESOP contributions charged to salaries and benefits expense were approximately \$250,000 in 2005, \$365,000 in 2004, and \$441,400 in 2003. The 2005 contribution consisted of cash only. The 2004 contribution consisted of 30,500 shares of common stock with a fair value of \$11.95 per share. The 2003 contribution consisted of 33,000 shares of common stock with a fair value of \$12.50 per share and 2,300 shares with fair value of \$12.55.

Employees have the opportunity to purchase our common stock pursuant to Section 423 of the Internal Revenue Code through the ESOP. The price per share of the common stock under the ESOP is 85% of the fair market value of the stock at the commencement of each offering period. We issued 2,717 shares in January 2005 in exchange for cash of \$30,485. We issued 7,915 and 4,678 shares in January 2004 and 2003, respectively, in exchange for cash of approximately \$67,000 and \$33,000.

Under various performance incentive programs, employees may be granted awards for their performance based on certain financial and growth targets determined by management. Bonus awards for the Chief Executive Officer and Chief Financial Officer are at the discretion of the Compensation Committee of the Board of Directors, and bonus awards for all other employees are at the discretion of executive management. Bonus awards consist of cash, common stock, or a combination thereof. We charged approximately \$643,900, \$74,800 and \$46,500 to salaries and employee benefits expense as a result of this bonus program in 2005, 2004, and 2003, respectively.

Employees meeting certain conditions are eligible to participate in the Team Financial, Inc. 401(k) Savings Plan immediately upon their employment date. Upon meeting certain conditions, the Company matches 50% of the first 6% of deferred compensation that employees contribute to the Plan. Team Financial, Inc.'s contributions vest ratably over five years. We recorded \$164,000, \$186,400 and \$210,000, to salaries and employee benefits expense as a result of this program in 2005, 2004, and 2003, respectively.

Employees meeting certain conditions are eligible to participate in the Stock Incentive Plan (the Plan). The selection of participants is solely within the discretion of the board of directors. The stock incentive awards authorized to be distributed under the Plan on a stand alone, combination, or tandem basis are (i) stock options, (ii) stock appreciation rights, (iii) other stock based awards. Pursuant to the Plan, 470,000 shares of Team Financial, Inc. common stock are reserved for issuance under the stock option components of the Plan. We charged approximately \$91,000, \$15,000 and \$125,600 to compensation expense during 2005, 2004 and 2003, respectively, in connection with stock options to acquire shares of common stock granted at exercise prices below market value.

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

The following table presents option activity for the years ended December 31, 2005, 2004 and 2003:

	Number	Weighted Average Exercise Price
Options outstanding at December 31, 2002	228,300	\$ 8.25
Options awarded	49,750	10.79
Options exercised	(2,750)	7.86
Options outstanding at December 31, 2003	275,300	8.71
Options awarded	39,750	12.33
Options exercised	(39,200)	8.33
Options forfeited	(21,300)	8.80
Options outstanding at December 31, 2004	254,550	9.33
Options awarded	54,500	13.33
Options exercised	(4,200)	7.03
Options outstanding at December 31, 2005	304,850	\$ 10.08
Options vested at December 31, 2005	250,250	\$ 9.36

The following table summarizes information about the plan's stock options at December 31, 2005:

Options Outstanding				Options Vested	
Range of Exercise Price	Number Outstanding	Weighted Average Remaining Contractual Life (years)	Weighted Average Exercise Price	Number Vested	Weighted Average Exercise Price
\$ 6.50 - 6.75	47,050	5.01	\$ 6.625	47,050	\$ 6.625
8.25 - 8.50	34,850	6.01	8.320	34,850	8.320
8.75 - 9.00	70,000	4.00	8.940	70,000	8.940

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

The Company has applied the provisions of Accounting Principals Board (APB) Opinion No. 25 and related interpretations in accounting for options issued under the Stock Incentive Plan. Under APB No. 25, compensation cost for stock options is measured as the excess, if any, of the fair market value of our stock at the date of grant over the amount the employee must pay to acquire the stock. Had compensation costs for the stock option components of the Plan been determined based upon the fair value at the date of grant consistent with SFAS No. 123, *Accounting For Stock Based Compensation*, our net income and earnings per share would have been reported as the pro forma amounts indicated below:

	2005	2004	2003
	(Dollars in thousands, except per share data)		
Net income:			
As reported	\$ 3,970	\$ 3,578	\$ 3,792
Stock-based compensation expense included in reported net income, net of tax	60	10	83
Compensation expense determined under fair value, net of tax	(143)	(98)	(188)
Pro forma	\$ 3,887	\$ 3,490	\$ 3,687
Basic earnings per share:			
As reported	\$ 0.98	\$ 0.88	\$ 0.93
Pro forma	0.96	\$ 0.86	0.90
Diluted earnings per share:			
As reported	\$ 0.97	\$ 0.87	\$ 0.92
Pro forma	0.95	0.85	0.89
Shares applicable to basic earnings per share	4,038,097	4,060,587	4,095,903
Shares applicable to diluted earnings per share	4,094,793	4,094,714	4,131,381

For purposes of the table above, the fair value of options granted was estimated at the date of grant using a Black-Scholes option pricing model with the following weighted average assumptions; risk free interest rate of 4.39% for 2005, 4.23% for 2004, and 4.26% for 2003; an expected life of 10 years; expected volatility of stock price of 17.13% for 2005, 16.14% for 2004, and 15.93% for 2003; and expected dividends of 2.19% per year for 2005, 2.69% for 2004, and 2.45% for 2003. The weighted average of the estimated fair value of the options granted in 2005, 2004 and 2003 was \$2.60, \$2.60 and \$2.70, respectively. As described in note 1, the Company will adopt the provisions of SFAS 123R *Share Based Payment* in 2006 which requires that the cost resulting from all share-based transactions be recognized in the consolidated financial statements.

In July 2001, our board of directors approved a nonqualified salary continuation plan for executive officers and certain other officers whereby the officer will receive monthly benefits for ten years commencing with the month after retirement or termination due to disability. The monthly benefits accrue based upon a stated percentage ranging from 25% to 65% of the average of the highest of the participant's salary for any three years in the ten year period immediately preceding termination of employment on or after the normal retirement date. In the event of death of certain participants, the plan provides a continuing benefit to the spouse based on a vesting schedule defined by a percentage of the participant's age. The subsidiary banks charged \$306,800, \$285,500 and \$246,600 to salary and employee benefits expense for 2005, 2004 and 2003, respectively, as a result of this program. In connection with the plan, we have recorded a liability of \$1,144,400 and \$837,700 at December 31, 2005 and 2004, respectively.

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

In January of 2002, our board of directors approved a nonqualified deferred compensation plan for executive officers and certain other bank officers whereby the officer may defer a stated percentage of salary ranging from 2% of compensation to 10% of compensation. The deferral amounts are matched by the Company based on a stated percentage ranging from 15% to 25%. We accrue interest on the deferred amounts based on a modified return on equity calculation, which includes the return on equity of our subsidiary bank, TeamBank, N.A, net of core deposit intangible asset amortization. We charged \$40,600 during 2005, \$31,200 during 2004 and \$22,600 during 2003 to salary and employee benefits expense as a result of this program. A liability of \$382,900 and \$285,000 was recorded at December 31, 2005 and 2004, respectively, associated with this plan.

(14) Income Taxes

Total income tax expense for 2005, 2004, and 2003 was allocated as follows:

	2005	2004	2003
	(In thousands)		
Income from continuing operations	\$ 944	\$ 222	\$ 958
Income (loss) from discontinued operations	(56)	(39)	250
Other comprehensive income	(1,174)	(477)	(1,070)
Stockholders' equity, recognition to tax benefit for stock options	(38)		
Total	\$ (324)	\$ (294)	\$ 138

Income tax expense (benefit) attributable to income from continuing operations for 2005, 2004, and 2003 consists of the following:

	2005	2004	2003
	(In thousands)		
Current			
Federal	\$ 1,240	\$ 335	\$ 1,129
State	186	273	162
Deferred			
Federal	(428)	(339)	(372)
State	(54)	(47)	39
Total	\$ 944	\$ 222	\$ 958

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

Following is a reconciliation between income tax expense attributable to income from continuing operations and the amount computed by multiplying earnings before income taxes by the statutory federal income tax rate of 34%:

	2005	2004	2003
	(In thousands)		
Expected federal income tax expense	\$ 1,707	\$ 1,366	\$ 1,496
Interest on obligations of state and political subdivisions	(500)	(516)	(508)
State income taxes, net of federal tax benefit	24	125	138
Cash value increase of bank owned life insurance, net of premiums paid	(245)	(242)	(271)
Income tax benefit on dividends paid to ESOP	(105)	(109)	(87)
Reduction of estimated income tax accrual	(25)	(453)	
Other	88	51	190
Income tax expense attributable to income from continuing operations	\$ 944	\$ 222	\$ 958

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

The income tax effects of temporary differences that give rise to significant portions of the deferred tax assets and deferred tax liabilities of continuing operations at December 31, 2005 and 2004 are presented below:

	2005	2004
	(In thousands)	
Deferred tax assets:		
Allowance for loan losses	\$ 1,844	\$ 1,665
Net unrealized loss on securities available for sale	673	
State net operating losses	735	635
Deferred compensation	572	437
Self insurance accrual	108	148
Other	41	113
State taxes, net	78	42
Deferred tax assets from continuing operations	4,051	3,040
Deferred tax assets of discontinued operations		171
Total gross deferred tax assets	4,051	3,211
Less valuation allowance	(735)	(635)
Total net deferred tax assets	3,316	2,576
Deferred liabilities:		
Dividends from real estate investment trust		202
Net unrealized gain on securities available for sale		501
Mortgage servicing rights	137	175
Premises and equipment	937	1,029
Core deposit intangible asset	65	97
FHLB stock	367	259
Carrying value of bonds due to acquisition	9	23
Other	39	13
Deferred tax liabilities from continuing operations	1,554	2,299
Deferred tax liabilities of discontinued operations		535
Total gross deferred tax liabilities	1,554	2,834
Net deferred tax (liability) asset	\$ 1,762	\$ (258)

The Company carries a valuation allowance to reduce certain state net operating loss carryforwards which expire at various times through 2025. At December 31, 2005, management believes it is more likely than not that these items will not be realized.

We had deferred income for tax purposes related to our investment in a Real Estate Investment Trust because of a different tax year for a subsidiary entity. As a result of a new regulation promulgated by the Treasury Department in 2002, income of \$606,000 has been included in taxable income ratably over a four-year period beginning in 2002. As a result of this change in tax law, deferred income taxes payable of \$202,000 as of December 31, 2004 were paid during 2005. There was no remaining balance payable as of December 31, 2005.

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

(15) Fair Value of Financial Instruments

Fair value of financial instruments at December 31, 2005 and 2004, including methods and assumptions utilized, are set forth below:

	2005	Estimated	2004	Estimated
	Carrying	Fair Value	Carrying	Fair Value
	Amount		Amount	
	(In thousands)		(In thousands)	
Cash and cash equivalents	\$ 34,000	\$ 34,000	\$ 35,000	\$ 35,000
Accrued interest receivable	5,000	5,000	4,000	4,000
Investment securities	190,000	190,000	192,000	192,000
Loans, net of unearned discounts and allowance for loan losses	415,000	414,000	374,000	373,000
Bank owned life insurance policies	19,173	19,173	18,460	18,460

Money market and NOW deposits	157,000	157,000	161,000	161,000
Savings deposits	32,000	32,000	33,000	33,000
Time deposits	243,000	243,000	202,000	202,000
Total deposits	\$ 508,000	\$ 505,000	\$ 468,000	\$ 466,000
Accrued interest payable	\$ 2,000	\$ 2,000	\$ 1,000	\$ 1,000
Notes payable and FHLB advances	111,000	108,000	115,000	114,000
Subordinated debentures	16,000	16,000	16,000	17,000

Methods and assumptions

The estimated fair value of cash and cash equivalents has no stated maturity and is equal to the carrying value.

The estimated fair value of accrued interest receivable has no stated maturity and is equal to the carrying value.

The estimated fair value of investment securities is based on quoted market prices or bid quotations received from securities dealers.

The estimated fair value of our loan portfolio is based on the segregation of loans by maturity using a weighted average pool rate. In estimating the fair value of loans, the carrying amount is reduced by the allowance for loan losses. The estimated fair value is calculated by discounting scheduled cash flow through the estimated maturity using estimated market discount rates based upon our current offering rates with similar maturities that reflect the interest rate risk inherent in the loans.

The estimated fair value of bank owned life insurance policies is based on quoted net policy values from the insurance carrier and is equal to the carrying value.

The estimated fair value of deposits with no stated maturity, such as non-interest bearing demand deposits, savings, NOW accounts, and money market accounts, is equal to the amount payable on demand. The fair value of interest bearing time deposits is based on the discounted value of contractual cash flows of such deposits. The discount rate is estimated using the rates currently offered for deposits of similar remaining maturities.

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

The estimated fair value of accrued interest payable has no stated maturity and is equal to the carrying value.

The estimated fair value of fixed rate notes payable and Federal Home Loan Bank Advances is based on the discounted value of contractual maturities. The discount rate is estimated using the spread adjusted London Inter-Bank Offering Rate (LIBOR). The carrying value of all floating rate notes payable and Federal Home Loan Bank Advances approximates fair value, as all these notes are based upon floating market rates, which approximate market rates.

The estimated fair value of our obligated mandatory redeemable preferred securities of subsidiary trust holding solely subordinated debentures is based on quoted market prices on the NASDAQ National Market.

Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instruments. These estimates do not reflect any premium or discount that could result from offering for sale at one time our entire holdings of a particular financial instrument. Because no market exists for a significant portion of our financial instruments, fair value estimates are based on judgments regarding future loss experience, current economic conditions, risk characteristics of various financial instruments and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates. Fair value estimates are based on existing balance sheet financial instruments without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments.

Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

(16) Capital Adequacy

Quantitative measures established by regulation to ensure capital adequacy require us to maintain minimum amounts and ratios (set forth in the table below for Team Financial Inc. and our subsidiary banks) of total risk-based and Tier 1 capital (as defined in the regulations) to risk-weighted assets, and of Tier 1 capital to average assets. Management believes, as of December 31, 2005 and 2004, that the banks and Team Financial Inc. met all applicable capital adequacy requirements.

	Actual Amount (Dollars in thousands)	Ratio	For capital adequacy purposes Amount	Ratio	To be well capitalized under prompt corrective action provisions Amount	Ratio
At December 31, 2005:						
Team Financial, Inc.:						
Risk-based capital (to risk weighted assets)	\$ 62,085	12.72 %	\$ 39,061	8.00 %		
Tier 1 capital (to risk weighted assets)	56,661	11.60 %	19,530	4.00 %		
Tier 1 capital (to average assets)	56,661	8.42 %	26,903	4.00 %		
TeamBank, N.A.:

(17) Commitments, Contingencies and Off-Balance Sheet Risks

Team Financial, Inc. has commitments to extend credit to our customers of approximately \$81,310,000 at December 31, 2005. Additionally, the contractual amount of standby letters of credit at December 31, 2005 was approximately \$6,202,000. These commitments involve credit risk in excess of the amount stated in the consolidated balance sheet. Exposure to credit loss in the event of nonperformance by the customer is represented by the contractual amount of those instruments.

Standby letters of credit are a conditional, but irrevocable form of guarantee issued to guarantee payment to a third party obligee upon default of payment by our customer. Standby letters of credit are initially issued for a period of one year, but can be extended depending on the customers needs. As of December 31, 2005, the maximum remaining term for any standby letter of credit was 2008. Since the credit risk involved in issuing standby letters of credit is the same as that involved in extending loans to customers, Team Financial, Inc. uses the same credit policies in evaluating the creditworthiness of the customers and determining the required collateral.

Pursuant to the terms of the agreement to sell our insurance agency subsidiary on February 25, 2005, the buyer has until August 25, 2006 to present any breach of warranty or representation claims. Although no formal warranty or representation claims have been presented, in the event that claims are presented, their ultimate outcome is not ascertainable at this time. See note 2 to the consolidated financial statements for additional information on the sale of this subsidiary.

TEAM FINANCIAL, INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
December 31, 2005, 2004 and 2003

During the third quarter of 2005, a summary judgment was entered against the Company and its subsidiaries by a Nebraska district court in pending litigation regarding a contract provision in the Company's 1999 acquisition of Ft. Calhoun State Bank, now operated as part of TeamBank, N.A. Although this judgment is currently on appeal, it did result in a charge of \$214,000 to other non-interest expense in the third quarter of 2005. We do not anticipate that any interest that may be accrued on this amount until the appeal is settled will be material to our financial position or operating results. The Company does not believe that any other pending litigation to which we are a party will have a material adverse effect on our liquidity, financial condition, or results of operations.

The primary source of funds available to us is the payment of dividends by our subsidiaries. Subject to maintaining certain minimum regulatory capital requirements, regulations limit the amount of dividends that may be paid without prior approval of the subsidiaries' regulatory agencies. At December 31, 2005, the subsidiaries could pay additional dividends of \$1,200,000 without prior regulatory approval.

Item 9. Changes in and Disagreements with Accountants and Financial Disclosures

None.

Item 9A. Controls and Procedures*Evaluation of Disclosure Controls and Procedures*

As of December 31, 2005, Team Financial, Inc.'s management, including the Chief Executive Officer and Chief Financial Officer, performed an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(e) and Rule 15d-15(e) of the Securities Exchange Act of 1934 (the Exchange Act). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in recording, processing, summarizing and reporting information required to be disclosed within the time periods specified in the Securities Exchange Commission's rules and forms.

Change in Internal Controls

No changes in our internal controls over financial reporting have occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Item 9B. Other Information

None.

Item 10. Directors and Executive Officers of the Registrant

The following sets forth certain information concerning our directors and executive officers as of March 30, 2006

-
- (1) Member of the Audit Committee in 2005 and currently serving.
 - (2) Member of Executive Compensation Committee in 2005 and currently serving.
 - (3) Member of Executive Compensation Committee in 2005 and not currently serving.

Robert J. Weatherbie has served as our Chief Executive Officer since September 1995, and Chairman of the Board and director since May 1986. Effective January 2004, Mr. Weatherbie was appointed President and Chief Executive Officer of TeamBank N.A. Prior to 1986 he was an executive officer of TeamBank, N.A., formally known as Miami County National Bank, for 13 years. Mr. Weatherbie is a director of Colorado National Bank. Mr. Weatherbie is a member of the Miami County Bankers Association. He obtained a Bachelor of Arts degree from Emporia State University, Emporia, Kansas, in 1969 and graduated from the Colorado School of Banking at the University of Colorado and the American Institute of Banking-Kansas City Chapter.

Michael L. Gibson has served as an executive officer and director since May 1986 and as President of Investments and Chief Financial Officer since September 1995. Prior to 1986 he was an executive officer for TeamBank, N.A., formerly known as Miami County National Bank, for 15 years. He obtained a Bachelor's degree from Kansas State University in Manhattan, Kansas in 1970, and graduated from the Colorado School of Banking at the University of Colorado, the Intermediate School of Banking in Lincoln, Nebraska, and the American Institute of Banking-Kansas City Chapter. He is a member and a former President of the Kansas Bankers Association and Chairman of the Kansas Bankers Association Federal Affairs Committee and a member of the Governing Council. He also currently serves on the American Bankers Association Government Relations Council.

Carolyn S. Jacobs has served as our Treasurer and director since May 1986 and has been a director of TeamBank, N.A. since 1990. She has been Senior Vice President and Trust Officer of TeamBank, N.A., since May 1986. Prior to 1986, she worked for Miami County National Bank, the predecessor to TeamBank, N.A., since 1961. Ms. Jacobs has attended the American Institute of Banking Kansas City Chapter, MoKan Basic Trust School, graduating in 1977, the National Business Institute and was designated as a Certified Trust Financial Advisor in June 1992. Ms. Jacobs is a member of the Kansas Bankers Association Trust Division and the Miami County Bankers Association.

Denis A. Kurtenbach has served as a director of Team Financial, Inc. since December 1995. Prior to serving as a director at Team Financial, Inc., he served as a director of Miami County National Bank, the predecessor to TeamBank, N.A., for 13 years. He is a retired Chairman and director of Pemco, Inc., a privately held construction management company and former officer for Carrothers Construction Company, L.L.C. and Triangle Builders, L.L.C. Mr. Kurtenbach is a life director of the Associated General Contractors of America and was a member of the 1996 and 1997 Executive Committees. He is also a director of the Kansas Contractors Association. Mr. Kurtenbach graduated in 1962 with a Bachelor's Degree in Civil Engineering from South Dakota State University.

R.G. (Gary) Kilkenny has served as a director of Team Financial, Inc. since June 1997. He has been Chairman or President of Taylor Forge Engineered Systems, Inc., a manufacturing company, since 1982. He has served as director of the Steel Plate Fabricators Association from 1990 to 2000 and during two of those years served as President of the association. Mr. Kilkenny received a Bachelor's Degree in 1953 from the University of Santa Clara, Santa Clara, California. Additionally, he attended an executive management program at Columbia University in 1981.

Keith B. Edquist has served as a director of Team Financial, Inc. since June 2002. Mr. Edquist was a Director of First United Bank of Bellevue and was the Chairman of the Board of Fort Calhoun State Bank, both of which merged into TeamBank, N.A. He has been a director of TeamBank, N.A. since June 1999. Mr. Edquist currently serves as a member of the Bellevue University Board of Directors in Bellevue, Nebraska. He was a director of Omaha Public Power from 1980 to 1999, where he served as Vice President, Treasurer, and Chairman of the Board. He is the owner and operator of North Omaha Airport of Omaha, Nebraska and attended the University of Nebraska, Omaha.

Lloyd A. Byerhof was elected to the Board of Directors effective April 16, 2004, filling a position created after the bylaws were amended to increase the number of directors serving on the Board from eight

members to nine members. Mr. Byerhof is founder, owner and president of Byerhof Capital Management, Inc., a money management company located in Omaha, Nebraska that manages money for corporations, foundations, not-for-profit organizations and high net-worth individuals. He is a certified public accountant who retired as a managing partner of KPMG in 1987. He has served on several community boards of directors throughout his career including the International Aerobatic Club from 1997 to 2000. Mr. Byerhof received a Bachelor's Degree in 1961 from Northern Illinois University.

Kenneth L. Smith was elected to the Board of Directors effective April 16, 2004 filling a position on the Board as a result of a director's retirement. Mr. Smith has been President and principal owner of G.K. Smith & Sons, Inc., a mechanical contracting firm since 1987. He continues to serve on the Board of Directors for TeamBank N.A. where he has been a director since 1992. Throughout his career, he has served on the board of directors for several community organizations. Mr. Smith was one of the organizers of the Miami County Economic Development Corporation and served on the original Board of Directors for two terms.

Jerry D. Wiesner was elected to the Board of Directors effective May 24, 2005. Mr. Wiesner has served as the Administrator and Vice President / Chief Operating Officer of Miami County Medical Center since 1991. Mr. Wiesner also has prior experience as an auditor for Grant Thornton. He holds an MBA from Kansas State University and is a CPA and a Fellow in the Healthcare Financial Management Association as well as a member of the Kansas Society of Certified Public Accountants. Mr. Wiesner continues to serve on the Board of Directors for TeamBank N.A. where he has been a director and member of the audit committee since 1998. On June 21, 2005, the Board of Directors appointed Mr. Wiesner to the Company's Audit Committee and on April 13, 2006 the Board of Directors appointed Mr. Wiesner to the Company's Executive Compensation Committee.

There are no family relationships between or among any directors, nominees or executive officers and none of such persons serve as a director of any other company required to file reports under the Securities Exchange Act of 1934 or which is registered as an investment company under the Investment Company Act of 1940.

Audit Committee

The members of the Audit Committee during 2005 included Lloyd A. Byerhof, Keith B. Edquist, Jerry D. Wiesner and R.G. (Gary) Kilkenny. The Audit Committee met four times during 2005. Lloyd A. Byerhof was appointed Chairman of the Audit Committee on September 28, 2004. Jerry D. Wiesner was appointed to the Audit Committee on June 21, 2005 and Keith B. Edquist was reassigned to the Compensation Committee at that time.

The primary function of the Audit Committee is to assist our Board in its oversight of the financial reporting process. The Audit Committee selects our independent auditors, reviews the scope and results of the auditor's services, approves auditor's fees and reviews the financial reporting and internal control functions. The Audit Committee performs duties set forth in its amended written charter, which was adopted by the Board of Directors March 29, 2004 and included with our proxy materials for the annual meeting of shareholders which was held on June 21, 2005.

The Board has determined that each member of the Audit Committee is independent within the meaning of the rules and regulations of the Securities and Exchange Commission and NASDAQ rule 4200. The Board has identified independent Director Lloyd A. Byerhof as an Audit Committee Financial Expert as defined in Item 401 (h) of the Securities and Exchange Commission Regulation S-K.

Item 11. Executive Compensation

The following sets forth certain information concerning the compensation our directors and executive officers.

Executive Compensation

The following table sets forth summary information regarding the compensation earned for services rendered in all capacities during 2005, 2004 and 2003 with respect to (i) our Chief Executive Officer, and (ii) our other named executive officers whose total annual compensation for 2005 exceeded \$100,000:

Name and Principal Position	Year	Annual Compensation			Long Term Compensation Awards Payouts		
		Salary	Bonus(1)	All Other Compensation(2)	Securities Underlying Options/SARS	All Other Compensation	
Robert J. Weatherbie	2005	\$ 250,000	75,000	\$ 24,054	15,000	\$ 135,186	(3)
Chairman of the Board and Chief Executive Officer	2004	233,000		24,363	15,000	117,828	(3)
	2003	215,822		18,206	15,000	88,523	(3)
Michael L. Gibson	2005	164,750	45,000	19,997	10,000	87,303	(4)
President of Investments and Chief Financial Officer	2004	159,750		22,860	10,000	79,998	(4)
	2003	156,687		16,315	10,000	61,046	(4)
Frank J. Connealy	2005	165,000	20,000	6,500			
Chief Accounting Officer(5)							

(1) Represents bonuses earned and later paid in cash.

(2) Perquisites paid by the Company to Mr. Weatherbie include \$17,155, \$16,146, and \$13,635 for fiscal years 2005, 2004 and 2003, respectively for Company automobile usage. For Mr. Gibson, perquisites paid by the Company include \$11,640, \$12,925, and \$12,529 for fiscal years 2005, 2004, and 2003, respectively for Company automobile usage. The amount set forth for Mr. Connealy in 2005 represents a \$6,000 signing bonus and a \$500 car allowance. No other perquisites exceeded 25% of the amounts disclosed.

(3) Includes funds contributed to Mr. Weatherbie's account in connection with our salary continuation plan of \$104,380, \$90,092 and \$59,503 for 2005, 2004 and 2003 respectively; funds contributed to Mr. Weatherbie's account in connection with our deferred compensation program of \$9,616, \$8,962 and \$8,409 for 2005, 2004 and 2003, respectively; funds contributed to Mr. Weatherbie's account for contributions to the Employee Stock Ownership Plan of \$7311 for 2005, \$8,824 for 2004 and \$10,993 for 2003; and funds contributed to Mr. Weatherbie's account for contributions under the deferred savings 401(k) plan of \$6,300 for 2005, \$6,150 for 2004 and \$6,000 for 2003. Also includes the value of premiums paid by us in connection with life insurance policies issued pursuant to a split dollar life insurance agreement of \$4,054 for 2005, \$3,800 for 2004 and \$3,618 for 2003.

(4) Includes funds contributed to Mr. Gibson's account in connection with our salary continuation plan of \$68,505, \$61,862 and \$43,821 for 2005, 2004 and 2003, respectively; funds contributed to Mr. Gibson's account in connection with our deferred compensation program of \$5,994 for 2005, \$6,145 for 2004 and \$6,117 for 2003; funds contributed to Mr. Gibson's account for contributions to the Employee Stock Ownership Plan of \$6,159 for 2005, \$7,038 for 2004 and \$7,967 for 2003; and funds contributed to Mr. Gibson's account for contributions under the deferred savings 401(k) plan of \$1,769 for 2005, \$1,226 for 2004 and \$795 for 2003. Also includes the value of premiums paid by us in connection with life insurance policies issued pursuant to a split dollar life insurance agreement of \$3,936, \$3,727 and \$2,346 for 2005, 2004 and 2003, respectively.

(5) Mr. Connealy resigned as of March 2, 2006 and served since November 21, 2005. Actual salary received during 2005 was \$23,721.

Option Grants in Last Fiscal Year

Name and Principal Position	Individual Grants			Expiration Date	Potential realizable value at assumed annual rates of stock price appreciation for option term	
	Number of Shares Underlying Options Granted(1)	% of Total Options Granted to Employees in Fiscal Year	Exercise or Base Price (\$/Share)		5%	10%
Robert J. Weatherbie Chairman of the Board and Chief Executive Officer	15,000	28 %	\$ 12.19	1/1/2015	\$ 115,031	\$ 291,511
Michael L. Gibson President of Investments and Chief Financial Officer	10,000	18 %	12.19	1/1/2015	76,687	194,341

(1) Options granted vest over a period of up to three years depending on the type of grant.

The following table sets forth the aggregate options held by our named executive officers. No options were exercised by the specified officers in 2005.

Aggregated Option Exercise and Fiscal Year-End Option Values

Name	Shares Acquired On Exercise	Value Realized	Number of Securities Underlying Options Exercisable/Unexercisable	Value of Unexercised In-the Money Options December 31, 2005	
				Exercisable	Unexercisable
Robert J. Weatherbie Chairman of the Board and Chief Executive Officer			114,000 / 15,000	\$ 616,780	30,510
Michael L. Gibson President of Investments and Chief Financial Officer			69,900 / 10,100	\$ 355,874	20,536

Board Compensation

Our non-employee directors receive an annual fee of \$10,000 and \$300 per board meeting attended. Non-employee directors who serve as Chairmen of our board committees receive \$500 for each committee meeting they chair. Our non-employee directors who serve on our board committees receive \$300 for each committee meeting they attend.

Code of Ethics

The Board of Directors adopted a Code of Ethics that applies to all employees including executive officers, directors and principal accounting officers. The Code of Ethics is available on our website at www.teamfinancialinc.com.

Employment Agreements

On January 1, 2006, we entered into a three-year employment agreement with Mr. Weatherbie under which he receives a base annual salary of \$262,500 for 2006, an annual bonus not to exceed 50% of Mr. Weatherbie's annual base salary to be determined at the discretion of the Compensation Committee of the Board of Directors, life insurance, personal use of a Company-owned automobile, a home office expense allowance, business club dues, and participation in all other benefits received by our employees.

Under certain circumstances, such as his death or disability, we have also agreed to pay Mr. Weatherbie or his estate not less than \$500,000. We have obtained life insurance and disability insurance for these contingencies. In the event of termination of Mr. Weatherbie's employment without cause, he will be entitled to payments equal to his annual base salary for the longer of one year or the remaining term of the agreement discounted at 8% annually, along with reimbursement for out-of-pocket expenses incurred for professional and tax advice not to exceed 25% of his annual base salary. He would also be entitled to continue participation in our medical, dental, life and disability insurance plans in effect at the time of termination, a home office allowance for one year and business club dues for one year. In addition, all stock options previously granted would accelerate and become exercisable, and the title of the automobile furnished by the Company for him in use at the time of termination would transfer to Mr. Weatherbie.

We have also entered into an employment agreement with Mr. Gibson, effective January 1, 2006, the terms of which are substantially similar to the employment agreement with Mr. Weatherbie, except that Mr. Gibson's annual base salary for 2006 is \$172,987.

Employee Stock Ownership Plan

The ESOP is a restatement and continuation of a plan previously maintained by our predecessor company, which commenced receiving contributions in 1981. In 1986, the ESOP was the vehicle used in establishing our company and financing the acquisition of the one-bank holding company that owned TeamBank, N.A. All of our wholly-owned subsidiaries with employees participate in the ESOP.

The ESOP is a retirement plan for eligible employees and is funded entirely with contributions made by us and dividends paid by us with respect to our common stock owned by the ESOP. The ESOP is designed to be invested primarily in our securities. The ESOP is a leveraged plan which permits it to borrow money to buy our securities, which are held in a suspense account until the loan is paid. As of May 5, 2006 the ESOP had no outstanding debt. Allocations are made annually and are based on the relative compensation of the participants. Allocations are also potentially subject to certain maximums. Retirement benefits under the ESOP depend on the amount of an employee's account balance at death, disability, separation from service or retirement, and there is no fixed amount.

Employees are eligible to participate in the ESOP on January 1 or July 1 following the date six months after the first day of employment. Employees also must achieve a minimum age in order to participate. To be eligible for allocations of the ESOP's contributions, employees must complete 1,000 hours of service during a year and must be employed on the last day of the plan year. The employment requirement does not apply if the participant dies or becomes disabled or attains age 65 in the plan year. Following three years of service, employees become vested in their ESOP accounts at 20% per year, with 100% vesting occurring after seven years. However, if a participant dies or is disabled while still employed, a participant becomes 100% vested immediately.

Salary Continuation Plan

In July 2001, we adopted a non-qualified salary continuation plan for certain members of our management employees and officers whereby the participant will receive benefits for 10 years commencing after retirement. The annual benefits for our executive officers is 65% of the highest base salary paid to the executive for any three years in the five to ten year period immediately preceding retirement or termination of employment. Benefits under the plan for Messrs Weatherbie and Gibson are fully vested. Amounts and timing of benefits are as follows:

- *Normal Retirement* Generally, if termination of employment is due to normal retirement age at 65, the officer is entitled to the full annual benefits paid in a lump sum or in equal monthly installments.

- *Termination of Employment Prior to Normal Retirement* If employment is voluntarily or involuntary terminated (other than by disability, death or change in control), the officer is entitled to the vested portion of the annual benefits which is to be paid in a lump sum to the officer. However, no benefits are payable if employment is terminated due to (i) the officer's gross negligence or gross neglect of his or her duties, (ii) conviction in a court involving moral turpitude in connection with the officer's employment, (iii) fraud, disloyalty, dishonesty or willful violation of our policies committed in connection with the officer's employment and resulting in an adverse effect on us and personal benefit to the officer, or (iv) the officer committing suicide (or, making any material misstatement of facts on any application for life insurance purchased by the company).
- *Disability* If employment is terminated due to disability, the officer is entitled to the vested portion of the annual benefits which is payable at the election of the officer in (i) a lump sum upon termination of employment due to the disability (ii) a lump sum at age 65, or (iii) equal monthly installments over 10 years beginning at age 65 with a credit for interest at the rate of 7.5% compounded monthly on the remaining balance of the benefit owed.
- *Death* If the officer dies while employed by us and prior to receiving any benefits under the plan, the officer will not be entitled to any benefits under the plan. If the officer dies while receiving monthly payments under the plan, benefits cease in the month following death.
- *Change of Control* If employment is terminated in connection with a change in control of our company, such as by acquisition, merger, change in ownership of 50% or more of our outstanding voting stock, or change in the majority of members of our board of directors pursuant to a contested transaction (such as a tender offer, exchange offer or contested election), the officer is entitled to fully vested annual benefits to be paid in a lump sum.

We may terminate the plan at any time provided we pay our officers in a lump sum the amount vested under the plan at such date of termination.

Deferred Compensation Program

In January 2002, we adopted a non-qualified deferred compensation program for certain members of our management employees and officers whereby the participant may defer from 1% to 10% of their base salary. Executive officers, consisting of Messrs. Weatherbie and Gibson, are required to defer at least 5% of their base salaries under the program. We make matching contributions of 25% of these officers' deferrals under the program. We also pay interest, compounded monthly, on the deferral accounts at a rate equal to the modified return on the equity of TeamBank N.A.; provided, however, that such interest rate may not be less than 6% or greater than 12%. Payment and timing of benefits are as follows:

- *Normal Retirement* If termination of employment is due to normal retirement at age 65, the officer is entitled to the full amount in the deferral account paid in equal monthly installments over a ten-year period.
- *Termination of Employment Prior to Normal Retirement* If employment is voluntarily or involuntary terminated (other than by disability, death or change in control), the officer is entitled to the full amount in the deferral account which is to be paid in a lump sum to the officer. However, the officer will not be entitled to any matching amounts or interest credited by us if employment is terminated due to (i) the officer's gross negligence or gross neglect of his or her duties, (ii) conviction in a court involving moral turpitude in connection with the officer's employment, (iii) fraud, disloyalty, dishonesty or willful violation of our policies committed in connection with the officer's employment and resulting in an adverse effect on us and personal benefit to the officer, or (iv) the officer committing suicide or making a material misstatement of fact in any application for life insurance purchased by us.

- *Disability* If employment is terminated due to disability, the officer is entitled to the full amount in the deferral account which is payable at the election of the officer in (i) a lump sum upon termination of employment due to the disability (ii) a lump sum at age 65, or (iii) equal monthly installments over 10 years beginning at age 65 with a credit for interest at the rate of 7.5% compounded monthly on the remaining balance of the benefit owed.
- *Death* If the officer dies while employed by us and prior to receiving any benefits under the program, the officer will not be entitled to any benefits under the program. If the officer dies while receiving monthly payments under the plan, benefits cease in the month following death.
- *Change of Control* If employment is terminated in connection with a change in control of our company, such as by acquisition, merger, change in ownership of 50% or more of our outstanding voting stock, or change in the majority of members of our Board of Directors pursuant to a contested transaction (such as a tender offer, exchange offer or contested election), the officer is entitled to the full amount in the deferral account to be paid in a lump sum.

We may terminate the program at any time provided we pay our officers in a lump sum the amount vested under the program at such date of termination.

Split Dollar Life Insurance Benefit

We provide split dollar life insurance benefits to certain management employees, including our executive officers. Under the agreements, we pay the premiums on the life insurance policies. We are the owner of the life insurance policies. If the covered employee dies, we are entitled to the greater of (i) the cash surrender value of the policy as of the date of death plus reimbursement for all payments we have made to the employee under the Salary Continuation Plan and the Deferred Compensation Program discussed above, or (ii) the aggregate premiums paid on the insurance policy less any outstanding indebtedness to the insurer. The covered employee's survivors or estate will receive an amount equal to the death proceeds minus the cash surrender value on the date of death.

Non-Competition Agreements

In connection with the benefit plans discussed above, we have required our named executive officers to sign non-competition agreements which provide that for a period of 12 months following voluntary or involuntary termination of employment, the executive will not (i) engage in competition with us by working with another person or organization that sells any product or service sold by us in a geographic area within a 30 mile radius of any of our locations (ii) solicit, contact, or communicate with our customers or prospective customers for purposes of distributing, marketing or selling any product or service that we market.

Other Employee Plans

We have a 401(k) plan and an employee performance bonus plan that covers all of our employees, including executive officers. With respect to the 401(k) plan, we make a matching contribution of 50% of the employee's contribution up to a maximum contribution of 6% of the employee's salary. The bonus plan utilizes a continuous improvement model to determine the amount of award from us and each of our subsidiaries. The model measures improvements in asset growth, profitability, productivity and asset quality growth. Our employees, including executive officers, must exceed the performance of the previous year to earn a bonus.

Item 12. Security Ownership of Certain Beneficial Owners and Management**STOCK OWNERSHIP**

The following table shows the number of shares of our common stock beneficially owned as of March 30, 2006 by:

- each person whom we know beneficially owns more than 5% of our common stock;
- each director;
- each of our executive officers; and
- our directors and executive officers as a group.

Names and Addresses of Beneficial Owner(1)	Common Shares Beneficially Owned	
	Number	Percent
Robert J. Weatherbie(2) 8 West Peoria, Suite 200 Paola, Kansas 66071-0402	307,514	7.7 %

-
- (1) Unless otherwise indicated, the shares are held directly in the names of the named beneficial owners and each person has sole voting and sole investment power with respect to the shares. ESOP participants to whom certain shares held by our Employee Stock Ownership Plan (ESOP) have been allocated are entitled to direct the ESOP trustee with respect to all matters requiring a vote of the shareholders, and the ESOP trustee will vote such shares.
- (2) Includes 58,999 shares of common stock owned by Mr. Weatherbie s wife and 340 shares owned by his minor children, over which shares he may be deemed to have shared voting and investment power. Includes 24,663 shares owned in a self-directed trust. Includes approximately 109,512 shares of common stock that have been allocated to Mr. Weatherbie s account in our ESOP. Includes 114,000 shares which have vested pursuant to options issued under our 1999 stock incentive plan.
- (3) Includes 43,700 shares of common stock owned in a trust, over which Mr. Gibson may be deemed to have shared voting and investment power. Includes approximately 14,000 shares owned in a self-directed trust. Includes approximately 114,517 shares of common stock that have been allocated to Mr. Gibson s account in our ESOP. Includes 69,900 shares which have vested pursuant to options issued under our 1999 stock incentive plan.
- (4) Includes 10,000 shares of common stock owned by Ms. Jacobs husband s revocable trust, over which she may be deemed to have shared voting and investment power. Includes 10,000 shares of common stock owned in a self-directed trust. Includes approximately 82,071 shares of common stock that have been allocated to Ms. Jacobs s account in our ESOP. Includes 15,000 shares which have vested pursuant to options issued under our 1999 stock incentive plan.
- (5) Includes 15,545 shares owned jointly by Mr. Kilkenny and his wife and 10,640 shares owned by a corporation of which he is a principal. He may be deemed to have shared voting and investment power over all of these shares.
- (6) Includes 925 shares of common stock held by Mr. Kurtenbach in an Individual Retirement Account and 500 shares owned by his wife, over which he may be deemed to have voting and investment power.
- (7) All 1,800 shares of common stock are owned jointly by Mr. Smith and his wife.
- (8) Our ESOP holds 947,172 shares of record which includes 16,000 unallocated shares as of the record date. Team Financial, Inc. is the ESOP trustee.
- (9) The following information for the following group of shareholders was obtained from a Schedule 13D filed with the Securities and Exchange Commission on or about December 30, 2005. Mr. Brown is the indirect owner of 4,400 shares of common stock. Mr. Brown shares power to vote and dispose of 1,500 of such shares with his wife, Lynne K. Brown. Mr. Brown shares voting and dispositive powers of 1,500 of such shares with members of an investment club, Branch Growth Associates. Mr. Brown as successor co-trustee of the Schwartz Non-Marital Trust shares voting and dispositive powers with Leah Cohen of 1,400 of such shares of common stock held by the trust. McCaffree Financial Corporation (MFC) is the direct beneficial owner of 368,400 shares. As the holder of 80% of the

outstanding voting securities of MFC, Mr. McCaffree is the indirect beneficial owner of the common stock. Mr. Zuk, Jr. is the direct beneficial owner of 5,500 shares of common stock. He is also the indirect owner of 4,000 shares of common stock which includes 1,000 shares owned jointly with his wife, Gayle Line Zuk, 2,000 shares owned by his mother-in-law, Mary A. Line, 500 shares owned by his brother-in-law, Richard M. Line, and 500 shares owned by his brother-in-law, Gordon L. Dugger, over which he may be deemed to have shared voting and investment power.

* Less than one percent.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our directors and executive officers, and persons who own more than 10% of our common stock to file with the Securities and Exchange Commission initial reports of ownership and reports of changes in ownership of our common stock. Executive officers, directors and greater than 10% shareholders are required by Securities and Exchange Commission regulations to furnish us with copies of all Section 16(a) reports they file. To our knowledge, based solely on review of the copies of such reports furnished to us or advice that no filings were required, during 2005 all executive officers, directors, and greater than 10% beneficial owners complied with the Section 16 (a) filing requirements.

Item 13. Certain Relationships and Related Transactions

Our executive officers, directors and principal shareholders and businesses they control may be customers of our subsidiary banks. Credit transactions with these parties are subject to review by loan committees of the banks and/or by the banks boards of directors. All outstanding loans and extensions of credit to these parties were made in the ordinary course of business on terms substantially similar to comparable transactions with unaffiliated persons. At December 31, 2005, the aggregate balance of loans and advances under extensions of credit made by the subsidiary banks to these persons was approximately \$1,510,000.

Since 1996, we have employed Sean Weatherbie as a network administrator. Sean Weatherbie is the son of our Chairman, Robert J. Weatherbie. Sean Weatherbie earned approximately \$68,000 and received standard employee benefits in 2005, and his employment with us has continued in 2006.

Item 14. Principal Accountant Fees and Services

Independent Auditor Fees

The following table presents fees for professional audit services rendered by KPMG LLP for the audit of our annual financial statements for 2005 and 2004, and fees billed for other services rendered by KPMG LLP.

	Fiscal Year Ended December 31, 2005	Fiscal Year Ended December 31, 2004
Audit Fees(1)	\$ 160,000	\$ 144,400
Audit Related Fees(2)	20,200	16,800
Tax Fees(3)	66,750	107,000
All Other Fees		
Total	246,950	268,200

(1) Audit fees consisted of fees for services provided in connection with the audit of the annual financial statements and review of the quarterly financial statements and services that are normally provided in connection with statutory and regulatory filings.

(2) Audit related fees consisted of audits of financial statements of certain employee benefit plans, agreed upon procedures related to public funds on deposit and accounting consultation.

(3) Tax fees consisted of tax compliance and tax consultation.

Preapproval of Services

The Audit Committee is required under the Sarbanes Oxley Act of 2002 and related Securities Exchange Commission and NASDAQ rules to approve all auditing services and non-audit services provided by the independent auditors prior to the commencement of the services. Since these rules became effective, all services in audit fees, audit related fees, tax fees and all other fees were approved by the Audit Committee.

Item 15. Exhibits, Financial Statement Schedules

- (a) 1. Financial Statements
These documents are listed in the Index to Consolidated Financial Statements under Item 8.
2. Financial Statement Schedules
All financial statement schedules required by Article 9 of Regulation S-X have been included in the Consolidated Financial Statements or are either not applicable or not significant.
