- o Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 8.01 Other Events.

In a Current Report on Form 8-K filed on May 26, 2006, ITC Holdings Corp. (the Company) announced that on May 17, 2006, the Midwest Independent Transmission System Operator, Inc. and the Company's subsidiary International Transmission Company (ITCTransmission) jointly filed revised tariff sheets with the Federal Energy Regulatory Commission (the FERC) to adjust the implementation of ITCTransmission's Attachment O formula rate. In an order dated July 14, 2006, the FERC approved the proposed adjustment, which will allow ITCTransmission to recover its expenses and investments in transmission property, plant and equipment on a current rather than on a lagging basis. As a result of the FERC order, ITCTransmission will be allowed to collect revenues based on current investments. The FERC order authorized ITCTransmission to use a forward-looking test period in the fall of each year for rates commencing January 1 of the next year through December 31 of that same year. The FERC also approved a true-up mechanism to correct for any differences between the forecast rate and what the actual rate should have been based on actual costs. The FERC order was issued under FERC Docket No. ER06-1006 and can be accessed at the FERC's website at <http://www.ferc.gov>.

On July 18, 2006, the Company issued a press release announcing the July 14, 2006 FERC order described above. The press release is attached as Exhibit 99.1 to this Current Report on Form 8-K and incorporated herein by reference.

Item 9.01 Financial Statements and Exhibits.

(c) Exhibits.

99.1 Press release dated July 18, 2006
