 - o Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

Item 1.01. Entry into a Material Definitive Agreement

On January 19, 2007, Michigan Electric Transmission Company, LLC (METC), an indirect wholly-owned subsidiary of ITC Holdings Corp., Midwest Independent Transmission System Operator, Inc., Consumers Energy Company, Michigan Public Power Agency, Michigan South Central Power Agency, Wolverine Power Supply Cooperative, Inc. and International Transmission Company entered into a settlement agreement resolving all pending matters in the case, including those set for hearing in the Federal Energy Regulatory Commission s (the FERC) December 30, 2005 rate order, which authorized METC, beginning on January 1, 2006, to charge rates for its transmission service using the rate setting formula contained in Attachment O. On December 5, 2006, METC and other parties to the rate case had jointly filed a motion to suspend the procedural schedule and the FERC chief administrative law judge had approved the suspension. The terms of this settlement agreement have been filed with the FERC and remain subject to its approval.

Under the filed settlement terms, METC would be required to make payments totaling \$20.0 million to various transmission customers within 30 days after there is a final FERC order approving the settlement. METC s payment pursuant to this settlement would be in lieu of any and all refund and/or refund with interest requirements in this proceeding in connection with METC s rates in effect on and after January 1, 2006. METC shall have no other refund obligation or liability beyond this payment in connection with this proceeding. Additionally, the settlement would establish the balances and amortization to be used for ratemaking for the Regulatory Deferrals and ADIT Deferrals as defined in the settlement.

A copy of the settlement agreement as it was filed with the FERC is attached hereto as Exhibit 10.57 and is incorporated by reference herein.
