(1) Significant Accounting and Other Policies

The New America High Income Fund, Inc. (the Fund) was organized as a corporation in the state of Maryland on November 19, 1987 and is registered with the Securities and Exchange Commission as a diversified, closed-end investment company under the Investment Company Act of 1940. The Fund commenced operations on February 26, 1988. The investment objective of the Fund is to provide high current income while seeking to preserve stockholders—capital through investment in a professionally managed, diversified portfolio of—high yield—fixed-income securities.

The Fund invests primarily in fixed maturity corporate debt securities that are rated less than investment grade. Risk of loss upon default by the issuer is significantly greater with respect to such securities compared to investment grade securities because these securities are generally unsecured and are often subordinated to other creditors of the issuer and because these issuers usually have high levels of indebtedness and are more sensitive to adverse economic conditions, such as a recession, than are investment grade issuers. In some cases, the collection of principal and timely receipt of interest is dependent upon the issuer attaining improved operating results, selling assets or obtaining additional financing.

The Fund may focus its investments in certain industries, subjecting it to greater risk than a Fund that is more diversified. See the schedule of investments for information on individual securities as well as industry diversification and credit quality ratings.

The Fund s financial statements have been prepared in conformity with accounting principles generally accepted in the United States for investment companies that require the management of the Fund to, among other things, make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

The following is a summary of significant accounting policies consistently followed by the Fund, which are in conformity with those generally accepted in the investment company industry.

(a) Valuation of Investments Investments Investments for which market quotations are readily available are stated at market value, which is determined by using the most recently quoted bid price provided by an independent pricing service or principal market maker. Independent pricing services provide market quotations based primarily on quotations from dealers and brokers, market transactions, accessing data from quotations services, offering sheets obtained from dealers and various relationships between securities. Short-term investments with original maturities of 60 days or less are stated at amortized cost, which approximates market value. Following procedures approved by the Board of Directors, investments for which market quotations are not readily available (primarily fixed-income corporate bonds and notes) are stated at fair value on the basis of subjective valuations furnished by securities dealers and brokers. Other investments, for which market quotations are not readily available with a cost of approximately \$7,214,000 and a value of \$90,000, are valued in good faith at fair market value using methods determined by the Board of Directors.

(b) Securities Transactions and Net Investment Income Securities transactions are recorded on trade date. Realized gains or losses on sales of securities are calculated on the identified cost basis. Interest income is accrued on a daily basis. Discount on short-term investments is amortized to investment income. Premiums or discounts on corporate debt securities are amortized based on the interest method for financial reporting purposes. All income on original issue

The New America High Income Fund, Inc.

Note 1 to Schedule of Investments Continued September 30, 2008 (Unaudited)

discount and step interest bonds is accrued based on the effective interest method. The Fund does not amortize market premiums or discounts for tax purposes. Dividend payments received in the form of additional securities are recorded on the ex-dividend date in an amount equal to the value of the security on such date.

(c) Fair Value Measurement In September 2006, the Financial Accounting Standards Board issued Statement on Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). This standard establishes the definition of fair value, sets out a framework for measuring fair value and requires additional disclosures about fair value measurements. FAS 157 was effective for the Funds fiscal year beginning January 1, 2008.

The three levels of the fair value hierarchy under FAS 157 are described below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund s own assumptions in determining fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of September 30, 2008 in valuing the Fund s investments:

		Other
	Investments in	Financial
Valuation Inputs	Securities	Instruments
Level 1 Quoted Prices	\$ 438,000	\$
Level 2 Other Significant Observable Inputs	292,755,000	(840,000)
Level 3 Significant Unobservable Inputs	90,000	
Total	\$ 293,283,000	\$ (840,000)

The following is a reconciliation of Fund investments using Level 3 inputs for the period:

Balance, December 31, 2007	\$ 90,000
Net purchases (sales)	
Change in unrealized appreciation (depreciation)	
Realized gain (loss)	
Transfers in and/or out of Level 3	
Balance, September 30, 2008	\$ 90,000

Item 2.
(a) The registrant s President and Treasurer have concluded that the registrant s disclosure controls and procedures (as defined in rule 30a-3(c) under the Investment Company Act of 1940 (the Act)) are effective, based on their evaluation of these disclosure controls and procedures required by Rule 30a-3(b) as of a date within 90 days of the filing date of this report.
(b) There were no changes in the registrant s internal control over financial reporting (as defined in rule 30a-3(d) under the Act) that occurred during the registrant s last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant s internal control over financial reporting.
Item 3.
Certifications as required by Rule 30a-2(a) under the Act are attached hereto.
