Notes to Consolidated Financial Statements

(Unaudited)

1. BASIS OF PRESENTATION

References to Brinker, the Company, we, us, and our in this Form 10-Q are references to Brinker International, Inc. and its subsidiaries and predecessor companies of Brinker International, Inc.

Our consolidated financial statements as of December 24, 2008 and June 25, 2008 and for the thirteen week and twenty-six week periods ended December 24, 2008 and December 26, 2007 have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). We are principally engaged in the ownership, operation, development, and franchising of the Chili's Grill & Bar (Chili's), On The Border Mexican Grill & Cantina (On The Border) and Maggiano's Little Italy (Maggiano's) restaurant brands. We also hold a minority investment in Romano's Macaroni Grill (Macaroni Grill) after completion of the sale of a majority interest in the brand to Mac Acquisition LLC (Mac Acquisition), an affiliate of San Francisco-based Golden Gate Capital, in December 2008. See Note 4 for additional disclosures.

The information furnished herein reflects all adjustments (consisting only of normal recurring accruals and adjustments) which are, in our opinion, necessary to fairly state the interim operating results for the respective periods. However, these operating results are not necessarily indicative of the results expected for the full fiscal year. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to SEC rules and regulations. The notes to the consolidated financial statements (unaudited) should be read in conjunction with the notes to the consolidated financial statements contained in the June 25, 2008 Form 10-K. We believe the disclosures are sufficient for interim financial reporting purposes.

Certain prior year amounts in the accompanying consolidated financial statements have been reclassified to conform to fiscal 2009 presentation. These reclassifications have no effect on our net income or financial position as previously reported.

2. EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share is computed by dividing income (loss) available to common shareholders by the weighted average number of common shares outstanding for the reporting period. Diluted earnings (loss) per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. For the calculation of diluted net income (loss) per share, the basic weighted average number of shares is increased by the dilutive effect of stock options and restricted share awards determined using the treasury stock method. We had approximately 9.2 million stock options and restricted share awards outstanding at December 24, 2008 and 2.3 million stock options and restricted share awards outstanding at December 26, 2007 that were not included in the dilutive earnings (loss) per share calculation because the effect would have been antidilutive.

Table of Contents**3. OTHER GAINS AND CHARGES**

Other gains and charges consist of the following (in thousands):

	Thirteen Week Periods Ended		Twenty-six Week Periods Ended	
	December 24, 2008	December 26, 2007	December 24, 2008	December 26, 2007
Restaurant closures and impairments	\$ 45,701	\$ 11,420	\$ 48,126	\$ 12,242
Charges related to the sale of Macaroni Grill	43,254	1,902	44,548	9,671

	\$ 85,149	\$ (16,343)	\$ 90,102	\$ (7,752)

In the second quarter of fiscal 2009, we recorded a \$45.7 million charge primarily related to long-lived asset impairments of \$44.2 million resulting from the decision to close or decline lease renewals for 35 underperforming restaurants. The decision to close the restaurants and decline lease renewals was based on a comprehensive analysis that examined restaurants not performing at required levels of return. In December 2008, we completed the sale of a majority interest in Macaroni Grill to Mac Acquisition and recorded a loss on the sale of \$43.3 million. See Note 4 for additional disclosures. We also recorded gains of \$3.6 million related to the sale of nine restaurants to a franchisee and land sales.

In the first quarter of fiscal 2009, we recorded \$2.0 million in lease termination charges, a \$1.7 million charge related to uninsured hurricane damage and a \$1.3 million charge for expenses associated with the sale of Macaroni Grill.

During the second quarter of fiscal 2008, we recorded a \$29.2 million gain on the sale of 76 company-owned Chili's restaurants to ERJ Dining IV LLC. The sale was completed in November 2007. We also recorded \$11.4 million in charges primarily related to long-lived asset impairments. The charges include a \$5.5 million impairment related to two restaurants which were impaired based on an analysis of projected operating performance and operating cash flows as well as a \$4.0 million asset impairment charge associated with restaurant closures. Also included is a \$1.0 million charge related to the decrease in estimated sales value of land associated with previously closed restaurants. Additionally, we recorded a \$1.9 million charge for expenses associated with the sale of Macaroni Grill during the second quarter of fiscal 2008.

In the first quarter of fiscal 2008, other gains and charges consisted primarily of a \$9.2 million impairment charge to write-down the net assets of certain Macaroni Grill restaurants to their fair value less costs to sell to a franchisee.

4. SALE OF MACARONI GRILL

In August 2008, we entered into an agreement with Mac Acquisition for the sale of a majority interest in Macaroni Grill. The assets and liabilities associated with these restaurants were classified as held for sale in the consolidated balance sheet for the fiscal year ended June 25,

Edgar Filing: BRINKER INTERNATIONAL INC - Form 10-Q

2008. The sale was completed on December 18, 2008. We received cash proceeds of approximately \$88.0 million and recorded a loss of \$43.3 million in other gains and charges in the consolidated statements of income. The net assets sold totaled approximately \$110 million and consisted primarily of property and equipment of \$105 million. Assets previously held for sale of \$19.5 million were retained by us and included in property, plant and equipment as of December 24, 2008. The land and buildings related to these locations were leased to Mac Acquisition as part of the sale agreement. Liabilities associated with assets held for sale at

Table of Contents

December 24, 2008 totaled approximately \$7.9 million and consisted primarily of remaining transaction costs from the sale of Macaroni Grill which are expected to be paid in the third quarter of fiscal 2009.

On December 18, 2008, we contributed \$6.0 million to Mac Acquisition for a 19.9% ownership interest in the new entity. We account for the investment under the equity method of accounting and record our share of the net income or loss from the investee within operating income since the operations of Macaroni Grill are similar to our ongoing operations. This amount has been included in restaurant expense in our consolidated statements of income due to the immaterial nature. In accordance with the reporting provisions of SFAS 144,

Accounting for the Impairment or Disposal of Long-Lived Assets, we have classified the results of Macaroni Grill in continuing operations for fiscal 2009 and prior years as we will have continuing involvement in the ongoing operations of Macaroni Grill.

As part of the sale, we entered into an agreement with Mac Acquisition whereby we have provided a three-year \$10.0 million unsecured standby letter of credit. Certain conditions must be met in order for Mac Acquisition to draw upon the letter of credit. No amount was outstanding as of December 24, 2008. We will also provide corporate support services for the new entity for one year with an option for one additional year.

5. LONG-TERM DEBT

Long-term debt consists of the following (in thousands):

	December 24, 2008	June 25, 2008
Term loan	\$ 400,000	\$ 400,000
Revolving credit facility	90,000	
Uncommitted credit facilities		158,000
5.75% notes	299,149	299,070
Capital lease obligations	50,777	46,507
	839,926	903,577
Less current installments	(91,703)	(1,973)
	\$ 748,223	\$ 901,604

As of June 25, 2008, we had credit facilities aggregating \$550 million, consisting of a revolving credit facility of \$300 million and uncommitted credit facilities of \$250 million. During the second quarter of fiscal 2009, Standard and Poor's (S&P) reaffirmed our debt rating of BBB- (investment grade) with a stable outlook. However, Moody's downgraded our corporate family rating to Ba1 (non-investment grade) and our senior unsecured note rating to Ba2 (non-investment grade) with a stable outlook. As a result of our split rating, our borrowing costs will increase due to increased spreads over LIBOR on our term loan (LIBOR plus 0.95%) and revolving credit facility (LIBOR plus 1.25%).

Additionally, under the terms and conditions of our uncommitted credit facility agreements, we have to maintain an investment grade rating with both S&P and Moody's in order to utilize the credit facilities. Therefore, our uncommitted credit facilities totaling \$250 million are no longer available. We manage total borrowings under all of our credit facilities to never exceed total capacity under the revolving credit facility. As a result, outstanding balances on the uncommitted credit facilities were repaid with funds drawn on the revolving credit facility. As of December 24, 2008, we have \$90 million outstanding and \$210 million available to us under our revolving credit facility. Subsequent to December 24, 2008, we paid down the outstanding balance on the revolving credit facility by approximately \$20 million.

Our revolving credit facility expires in October 2009. As a result, the \$90 million outstanding under this facility has been classified as current in our consolidated balance sheet as of December 24, 2008. We are in the final stages of renewing this credit facility for a three-year term with a syndicate of banks and, based on the levels of commitment provided in discussions to date with lenders, we expect to complete the transaction in February 2009. Under the new revolving credit facility, the spreads over LIBOR will increase due to market conditions as well as a change in our credit rating. Due to the divestiture of Macaroni Grill, the reduction in new company-owned restaurant development and our focus on debt repayment, we anticipate that our future borrowing needs will be reduced and, therefore, we have elected to reduce the size of the revolving credit facility to a level that still provides us with adequate liquidity.

Table of Contents**6. SHAREHOLDERS EQUITY**

The Board of Directors has authorized a total of \$2,060.0 million of share repurchases. As of December 24, 2008, approximately \$60 million was available under our share repurchase authorizations. We did not repurchase any common shares under our share repurchase plan during the first two quarters of fiscal 2009. Our stock repurchase plan has been and will be used to return capital to shareholders and to minimize the dilutive impact of stock options and other share-based awards. We have currently placed a moratorium on share repurchases but, in the future, we may consider additional share repurchases under our plan based on several factors, including our cash position, share price, operational liquidity, and planned investment and financing needs. During the first two quarters of fiscal 2009, approximately 642,000 restricted share awards vested with a fair value of \$12.3 million. Approximately 190,000 of these shares were repurchased from employees upon vesting for \$3.6 million to satisfy minimum tax withholding obligations. Repurchased common stock is reflected as a reduction of shareholders' equity. We paid dividends of \$11.2 million, or \$0.11 per share, to common stock shareholders in December 2008 and a total of \$22.9 million, or \$0.22 per share, to common stock shareholders year-to-date.

7. SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for income taxes and interest for the first two quarters of fiscal 2009 and 2008 are as follows (in thousands):

	December 24, 2008	December 26, 2007
Income taxes, net of refunds	\$ 19,306	\$ 20,079
Interest, net of amounts capitalized	15,370	28,043

Non-cash investing for the first two quarters of fiscal 2009 and 2008 are as follows (in thousands):

	December 24, 2008	December 26, 2007
Retirement of fully depreciated assets	\$ 43,951	\$ 21,070

8. CONTINGENCIES

As of December 24, 2008, we remain secondarily liable for lease payments totaling \$228.9 million as a result of the sale of a majority interest in Macaroni Grill and the sale of other brands and restaurants to franchisees in previous periods. This amount represents the maximum potential liability of future payments under the guarantees. These leases have been assigned to the buyers and expire at the end of the respective lease terms, which range from fiscal 2009 through fiscal 2023. In the event of default, the indemnity and default clauses in our assignment agreements govern our ability to pursue and recover damages incurred. No material liabilities have been recorded as of December 24, 2008.

Edgar Filing: BRINKER INTERNATIONAL INC - Form 10-Q

Certain current and former hourly restaurant employees filed a lawsuit against us in California Superior Court alleging violations of California labor laws with

Table of Contents

respect to meal and rest breaks. The lawsuit seeks penalties and attorney's fees and was certified as a class action in July 2006. On July 22, 2008, the California Court of Appeal decertified the class action on all claims with prejudice. On October 22, 2008, the California Supreme Court granted a writ to review the decision of the Court of Appeal. We intend to vigorously defend our position. It is not possible at this time to reasonably estimate the possible loss or range of loss, if any.

We are engaged in various other legal proceedings and have certain unresolved claims pending. The ultimate liability, if any, for the aggregate amounts claimed cannot be determined at this time. However, management, based upon consultation with legal counsel, is of the opinion that there are no matters pending or threatened which are expected to have a material adverse effect, individually or in the aggregate, on our consolidated financial condition or results of operations.

a) At the end of the second quarter of fiscal year 2009, international company-owned restaurants by brand included six Chili s and one Maggiano s. International franchise restaurants by brand included 177 Chili s and five On The Border s.

b) As of December 24, 2008, we continue to own two Macaroni Grill restaurants which have been excluded from the total restaurants. Per terms of the sale to Mac Acquisition, we have a limited period of time to close the restaurants or change to an existing Brinker brand.

At December 24, 2008, we owned the land and buildings for 228 of the 1,064 company-owned restaurants. The net book values of the land and buildings associated with these restaurants totaled \$180.6 million and \$186.1 million, respectively.

GENERAL

The following Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to help the reader understand Brinker International, our operations, and our current operating environment. For an understanding of the significant factors that influenced our performance during the quarters ended December 24, 2008 and December 26, 2007, the MD&A should be read in conjunction with the consolidated financial statements and related notes included in this quarterly report.

OVERVIEW

We are principally engaged in the ownership, operation, development, and franchising of the Chili's Grill & Bar (Chili's), On The Border Mexican Grill & Cantina (On The Border) and Maggiano's Little Italy (Maggiano's) restaurant brands. At December 24, 2008, we owned, operated, or franchised 1,704 restaurants. We also hold a minority investment in Romano's Macaroni Grill (Macaroni Grill) after completion of the sale of a majority interest in the brand to Mac Acquisition LLC (Mac Acquisition), an affiliate of San Francisco-based Golden Gate Capital, in December 2008. We will also provide corporate support services for the new entity for one year with an option for one additional year. We will account for our interest in the ongoing operations of the brand through an equity method investment.

Our second quarter of fiscal 2009 was marked by many of the same challenges we faced in the first three months of the fiscal year. External factors such as the volatile financial market, rising unemployment and the housing crisis continued to put significant pressure on consumer spending in the U.S and overseas. The holiday season brought little relief as consumers remained cautious about discretionary spending. As a result, our traffic trends indicated the guests' choice to limit restaurant dining occasions or scale back on check totals during their visits. We also experienced a decline in our gift card sales of approximately 15% compared to the prior year which will negatively impact third quarter revenue when the majority of these cards are expected to be redeemed.

Despite these challenging times, we are still committed to our long term strategies and initiatives centered around our five areas of focus - hospitality; food and beverage excellence; restaurant atmosphere; pace and convenience; and international expansion. These strategic priorities are designed to strengthen Brinker brands and build on the long-term health of the company by engaging and delighting our guests, differentiating our brands from the competition, reducing the costs associated with managing our restaurants and establishing a strong presence in key markets around the world. However, we will monitor the results closely as well as the current business environment in order to pace the implementation of our initiatives appropriately.

We strongly believe investments in these five strategic priorities will strengthen our brands and allow us to emerge from these tough economic times in a better competitive position to deliver profitable growth over the long term for our shareholders. For example, with growing economic pressures in the United States, international expansion allows further diversification of our portfolio, enabling Brinker to build strength in a variety of markets and economic conditions. Our growth will be driven by cultivating relationships with equity investors, joint venture partners and franchisees. Our growing percentage of franchise operations both domestically and internationally enable us to improve margins as royalty payments flow through to the bottom line. Another top area of focus remains creating a culture of hospitality that will differentiate Brinker brands from all others in the industry. Through our investments in team member training and guest measurement programs, we are gaining significant traction in this area and providing guests a reason to make Brinker brands their preferred choice when dining out. We also believe that the unique and craveable food and beverages as well as the new flavors and offerings we continue to create at each of our brands, the warm, welcoming and

Table of Contents

revitalized atmospheres, and technologies and process improvements related to pace and convenience will give customers new reasons to dine with us more often.

This difficult operating environment highlights the need to be disciplined with our capital allocation and maintain the health of our balance sheet in order to provide a stable financial base to weather these uncertain times. Generating strong cash flows has long been a hallmark of Brinker and in the second quarter we have taken further steps to shore up our cash flows to provide the necessary flexibility to address current challenges and help drive the business forward. In the second quarter, we completed an annual evaluation of our restaurant base which led to the decision to close 35 underperforming restaurants. We also made the decision to further reduce our fiscal 2009 capital expenditures by \$30 million, eliminate virtually all company-owned restaurant development in fiscal 2010 and place a moratorium on all share repurchase activity. This financial discipline designed to improve free cash flow combined with the Macaroni Grill proceeds will allow us to reduce our debt levels and survive in the current economic environment.

The casual dining industry is a highly competitive business which is sensitive to changes in economic conditions, trends in lifestyles and fluctuating costs. Our top priority remains increasing profitable traffic over time. We believe that this focus, combined with discipline around the use of capital and efficient management of operating expenses, will enable Brinker to emerge from the current economic recession as an industry leader. Despite the disappointing results for the first half of fiscal 2009 and an uncertain outlook for the remainder of fiscal 2009, we remain confident in the financial health of our company, the long-term prospects of the industry as well as in our ability to perform effectively in an extremely competitive marketplace and a variety of economic environments.

REVENUES

Revenues for the second quarter of fiscal 2009 decreased to \$949.4 million, a 7.8% decrease from the \$1,029.8 million generated for the same quarter of fiscal 2008. Revenues for the twenty-six week period ended December 24, 2008 were \$1,933.8 million, a 7.2% decrease from the \$2,084.5 million generated for the same period in fiscal 2008. The decrease in revenue was primarily attributable to a decrease in comparable restaurant sales across all brands as well as net declines in capacity at company-owned restaurants primarily due to 47 restaurant closures and the sale of 198 restaurants since the second quarter of fiscal 2008 as well as the sale of 76 restaurants during the second quarter of fiscal 2008.

Comparable restaurant sales for the second quarter of fiscal 2009 decreased 5.4% compared to the same quarter of the prior year. The decrease in comparable restaurant sales resulted from a decline in customer traffic and unfavorable product mix shifts at all brands. These decreases were partially offset by an increase in menu prices at all brands.

Our capacity decreased 3.3% for the second quarter of fiscal 2009 (as measured by average-weighted sales weeks) compared to the respective prior year period. The reduction in capacity is primarily due to the sale of 198 restaurants and 47 restaurant closures since the second quarter of fiscal 2008 as well as the sale of 76 restaurants during the second quarter of fiscal 2008, partially offset by the development of new company-owned restaurants. Including the impact of restaurant sales to franchisees, we experienced a net decrease of 199 company-owned restaurants.

Table of Contents

since December 26, 2007. Excluding the impact of the sale of Macaroni Grill, the capacity decline was 0.3%.

Royalty revenues from franchisees increased approximately 9.7% to \$15.8 million in the second quarter of fiscal 2009 compared to \$14.4 million in the prior year. For the year-to-date period, royalty revenues from franchisees increased 19.6% to \$32.4 million compared to \$27.1 million in fiscal 2008. Excluding the impact of the sale of Macaroni Grill, the increase is primarily due to the net addition of 61 franchise restaurants since December 26, 2007. Franchise and development fee revenues decreased to approximately \$1.3 million for the second quarter of fiscal 2009 and \$1.7 million for the year-to-date as compared to \$6.5 million and \$7.9 million in the respective prior year periods, primarily due to the sale of 76 restaurants to a franchisee in the prior year.

COSTS AND EXPENSES

Cost of sales, as a percent of revenues, decreased to 28.2% for the second quarter of fiscal 2009 from 28.3% in the prior year. Cost of sales was positively impacted in the current quarter by favorable menu price increases, partially offset by unfavorable commodity price changes primarily in chicken, produce and oils and sauces. Cost of sales, as a percent of revenues, increased to 28.3% for the year-to-date period from 28.0% in the prior year. Cost of sales was negatively impacted by unfavorable commodity prices primarily in beef, ribs, chicken and produce, partially offset by favorable menu price changes and product mix shifts.

Restaurant expenses, as a percent of revenues, increased to 58.0% for the second quarter of fiscal 2009 as compared to 56.8% in the same period of the prior year. Restaurant expenses, as a percent of revenues increased to 58.4% for the year-to-date period from 56.9% in the prior year. The increase was primarily driven by sales deleverage on fixed costs and increased utility and labor expenses. These increases were partially offset by lower pre-opening expenses since the same quarter of last year due to fewer restaurant openings.

Depreciation and amortization increased \$1.6 million for the second quarter as compared to the same period of the prior year primarily due to additional depreciation on new restaurants and remodel investments, partially offset by restaurant closures. Depreciation and amortization decreased \$2.2 million for the year-to-date period of fiscal 2009 compared to the same period of the prior year primarily driven by restaurant closures, the classification of Macaroni Grill as held for sale and assets which became fully depreciated, partially offset by an increase in depreciation due to the addition of new restaurants and remodel investments.

General and administrative expenses decreased \$2.3 million, or 5.6%, for the second quarter of fiscal 2009 as compared to the same period of fiscal 2008. General and administrative expenses decreased \$5.6 million, or 6.6%, for the year-to-date period of fiscal 2009 as compared to the same period of fiscal 2008. The decreases were primarily due to reduced salary expenses and overall cost management in light of the difficult environment.

Other gains and charges consist of net charges of \$85.1 million and \$90.1 million for the second quarter and year-to-date periods of fiscal 2009, respectively, compared to net gains of \$16.3 million and \$7.8 million for the second quarter and year-to-date periods of fiscal 2008, respectively. Other gains and charges in fiscal 2009 include a \$45.7 million charge primarily related to long-lived asset impairments of \$44.2 million resulting from the decision to close or decline lease renewals for 35 underperforming restaurants based on a comprehensive analysis that examined restaurants not performing at required levels of return. In December 2008, we completed the sale of a majority interest in Macaroni Grill to Mac Acquisition and recorded a loss on the sale of \$43.3 million. We also recorded gains of \$3.6 million related to the sale of nine restaurants to a

franchisee and land sales during the

Table of Contents

quarter. In the first quarter of fiscal 2009, we recorded \$2.0 million in lease termination charges, a \$1.7 million charge related to uninsured hurricane damage and a \$1.3 million charge for expenses associated with the sale of Macaroni Grill. Other gains and charges in the second quarter of fiscal 2008 include a \$29.2 million gain related to the sale of 76 Chili's restaurants to a franchisee, partially offset by an \$11.4 million charge related to restaurant closures and impairments and a \$1.9 million charge for expenses associated with the sale of Macaroni Grill. Additionally, in the first quarter of fiscal 2008, we incurred a \$9.2 million impairment charge to write-down the net assets of certain Macaroni Grill restaurants to their fair value less costs to sell to a franchisee.

Interest expense was \$10.5 million for the second quarter of fiscal 2009 and \$20.0 million for the year-to-date period of fiscal 2009 compared to \$12.5 million for the second quarter and \$25.4 million for the year-to-date period of the prior year. The decrease in interest expense is primarily due to lower interest rates and lower average borrowing balances in fiscal 2009.

INCOME TAXES

The effective income tax rate decreased to a benefit of 51.1% and 116.6% for the second quarter and year-to-date periods of fiscal 2009, respectively, compared to an expense of 30.2% and 29.7% for the second quarter and year-to-date periods of fiscal 2008. The change in the tax rate was primarily due to the loss on the sale of Macaroni Grill and charges for long-lived asset impairments.

LIQUIDITY AND CAPITAL RESOURCES

Our primary source of liquidity is cash flows generated from our restaurant operations. We expect our ability to generate solid cash flows from operations to continue into the future. Net cash provided by operating activities for the first two quarters of fiscal 2009 decreased to approximately \$94.8 million compared to \$241.1 million for the first two quarters in the prior year primarily due to a decline in operating profitability, a reduction in gift card sales and the timing of income tax payments as well as operational payments and receipts.

Capital expenditures consist of purchases of land for future restaurant sites, new restaurants under construction, purchases of new and replacement restaurant furniture and equipment, investments in information technology infrastructure and ongoing remodel investments. Capital expenditures were \$59.6 million for the first two quarters of fiscal 2009 compared to \$159.2 million for the same period of fiscal 2008. The reduction in capital expenditures is primarily due to a decrease in company-owned restaurants developed in the first two quarters of fiscal 2009 compared to the same period of prior year. We estimate that our capital expenditures during fiscal 2009, excluding Macaroni Grill, will be approximately \$110 million and will be funded entirely by cash from operations.

Excluding the impact of assets held for sale, the working capital deficit increased to \$199.6 million at December 24, 2008 from \$188.2 million at June 25, 2008 primarily due to the reclassification of \$90 million of long-term debt to current liabilities, partially offset by an increase in third party gift card receivables due to sales during the holiday season and timing of operational payments and receipts.

We paid dividends of \$11.2 million, or \$0.11 per share, to common stock shareholders in December 2008 and a total of \$22.9 million, or \$0.22 per share, to common stock shareholders year-to-date. We plan to keep future quarterly dividend payouts stable at \$0.11 per share.

The Board of Directors has authorized a total of \$2,060.0 million in share repurchases, which has been and will be used to return capital to shareholders and to minimize the dilutive impact of stock options and other share-based awards. As of December 24, 2008, approximately \$60 million was available under our share repurchase authorizations. We did not repurchase any common shares under our share repurchase

Table of Contents

plan during the first two quarters of fiscal 2009. We have currently placed a moratorium on share repurchases but, in the future, we may consider additional share repurchases under our plan based on several factors, including our cash position, share price, operational liquidity, and planned investment and financing needs. During the first two quarters of fiscal 2009, approximately 642,000 restricted share awards vested with a fair value of \$12.3 million. Approximately 190,000 of these shares were repurchased from employees upon vesting for \$3.6 million to satisfy minimum tax withholding obligations. The repurchased common stock is reflected as a reduction of shareholders' equity.

During the second quarter of fiscal 2009, Standard and Poor's (S&P) reaffirmed our debt rating of BBB- (investment grade) with a stable outlook. However, Moody's downgraded our corporate family rating to Ba1 (non-investment grade) and our senior unsecured note rating to Ba2 (non-investment grade) with a stable outlook. As a result of our split rating, our borrowing costs will increase due to increased spreads over LIBOR on our term loan (LIBOR plus 0.95%) and revolving credit facility (LIBOR plus 1.25%). Additionally, under the terms and conditions of our uncommitted credit facility agreements, we have to maintain an investment grade rating with both S&P and Moody's in order to utilize the credit facilities. Therefore, our uncommitted credit facilities totaling \$250 million are no longer available. We manage total borrowings under all of our credit facilities to never exceed total capacity under the revolving credit facility. As a result, outstanding balances on the uncommitted credit facilities were repaid with funds drawn on the revolving credit facility. As of December 24, 2008, we have \$90 million outstanding and \$210 million available to us under our revolving credit facility. Subsequent to December 24, 2008, we paid down the outstanding balance on the revolving credit facility by approximately \$20 million.

Our revolving credit facility of \$300 million expires in October 2009. As a result, the \$90 million outstanding under this facility has been classified as current in our consolidated balance sheet as of December 24, 2008. We are in the final stages of renewing this credit facility for a three-year term with a syndicate of banks and, based on the levels of commitment provided in discussions to date with lenders, we expect to complete the transaction in February 2009. Under the new revolving credit facility, the spreads over LIBOR will increase due to market conditions as well as a change in our credit rating. Due to the divestiture of Macaroni Grill, the reduction in new company-owned restaurant development and our focus on debt repayment, we anticipate that our future borrowing needs will be reduced and, therefore, we have elected to reduce the size of the revolving credit facility to a level that still provides us with adequate liquidity. As of December 24, 2008, we are in compliance with all financial debt covenants.

Our balance sheet is a primary focus as we have committed to reducing our leverage allowing us to retain the investment grade rating from S&P and ultimately regain our investment grade rating from Moody's. To accomplish this goal, we used cash proceeds from the sale of Macaroni Grill as well as free cash flow to pay down our credit facilities by \$60 million in the second quarter, leaving the remainder of the Macaroni Grill cash proceeds to fund our short term working capital needs. We currently plan to continue utilizing available free cash flow to pay down debt in fiscal 2009 and 2010. We have also reduced capital expenditures for fiscal 2009, eliminated virtually all company-owned restaurant development in fiscal 2010 and placed a moratorium on all share repurchase activity to ensure we maintain adequate cash flow to meet our current obligations and continue to pay down debt.

We believe that our various sources of capital, including cash flow from operating activities and availability under our existing and future credit facility are adequate to finance operations as well as the repayment of current debt obligations. We are not aware of any other event or trend that would potentially affect our liquidity. In the event such a trend develops, we believe that there are sufficient funds available under our credit facility and from our internal cash generating capabilities to adequately manage our ongoing business.

RECENT ACCOUNTING PRONOUNCEMENTS

In December 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements, (SFAS 157). SFAS 157 clarifies the definition of fair value, describes methods used to appropriately measure fair value, and expands fair value disclosure requirements, but does not change existing guidance as to whether or not an instrument is carried at fair value. For financial assets and liabilities, SFAS 157 is effective for fiscal years beginning after November 15, 2007, which required that we adopt these provisions in first quarter fiscal 2009. The adoption of SFAS 157 did not have an impact on our consolidated financial statements. For nonfinancial assets and liabilities, SFAS 157 is effective for fiscal years beginning after November 15, 2008, which will require us to adopt these provisions in fiscal 2010. We are currently evaluating the impact, if any, that an adoption of the deferred provisions of this statement will have on our consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141R, Business Combinations, (SFAS 141R). Under SFAS 141R, all business combinations will be accounted for by applying the acquisition method. SFAS 141R requires most identifiable assets, liabilities, noncontrolling interests, and goodwill acquired in a business combination to be recorded at full fair value. SFAS 141R is effective for annual reporting periods beginning on or after December 15, 2008 and will be effective for us beginning in the first quarter of fiscal 2010 for business combinations occurring on or after the effective date.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51, (SFAS 160). SFAS 160 will require noncontrolling interests (previously referred to as minority interests) to be treated as a separate component of equity, not as a liability or other item outside of permanent equity. The Statement applies to the accounting for noncontrolling interests and transactions with noncontrolling interest holders in consolidated financial statements. SFAS 160 is effective for periods beginning on or after December 15, 2008 and will be effective for us beginning in the third quarter of fiscal 2009. We do not expect that SFAS 160 will have a material impact on our financial statements.

In June 2008, the FASB issued FASB Staff Position (FSP) EITF 03-6-1, Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities. FSP EITF 03-6-1 provides that unvested share-based payment awards that contain nonforfeitable rights to dividends that are paid or unpaid are participating securities and shall be included in the computation of earnings per share based on the two-class method. The two-class method is an earnings allocation method for computing earnings per share when an entity's capital structure includes either two or more classes of common stock or common stock and participating securities. FSP EITF 03-6-1 is effective for fiscal years beginning after December 15, 2008, which will require us to adopt these provisions in fiscal 2010. We do not expect that FSP EITF 03-6-1 will have a material impact on our financial statements.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in our quantitative and qualitative market risks since the prior reporting period.

Item 4. CONTROLS AND PROCEDURES

Edgar Filing: BRINKER INTERNATIONAL INC - Form 10-Q

Based on their evaluation of our disclosure controls and procedures (as defined in Rules 13a-15 and 15d-15 under the Securities Exchange Act of 1934 [the Exchange Act]), as of the end of the period covered by this report, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures are effective.

There were no changes in our internal control over financial reporting during our second quarter ended December 24, 2008, that have materially affected or are reasonably likely to materially affect, our internal control over financial reporting.

FORWARD-LOOKING STATEMENTS

We wish to caution you that our business and operations are subject to a number of risks and uncertainties. We have identified certain factors in Part I, Item 1A Risk Factors in our Annual Report on Form 10-K for the year ended June 25, 2008 and below in Part II, Item 1A Risk Factors in this report on Form 10-Q, that could cause actual results to differ materially from our historical results and from those projected in forward-looking statements contained in this report, in our other filings with the SEC, in our news releases, written or electronic communications, and verbal statements by our representatives. We further caution that it is not possible to see all such factors, and you should not consider the identified factors as a complete list of all risks and uncertainties.

You should be aware that forward-looking statements involve risks and uncertainties. These risks and uncertainties may cause our or our industry's actual results, performance or achievements to be materially different from any future results, performances or achievements contained in or implied by these forward-looking statements. Forward-looking statements are generally accompanied by words like believes, anticipates, estimates, predicts, expects, and other similar expressions that convey uncertainty about future events or outcomes.

The risks related to our business include:

- The affect of competition on our operations and financial results.
- The general decrease in sales volumes during winter months.
- The affect of potential changes in governmental regulation on our ability to open new restaurants and to maintain our existing and future operations.
- The risk inflation may increase our operating expenses.
- Increases in energy costs and the impact on our profitability.
- Increased costs or reduced revenues from shortages or interruptions in the availability and delivery of food and other supplies.
- Our ability to consummate successful mergers, acquisitions, divestitures and other strategic transactions that are important to our future growth and profitability.
- If we are unable to meet our growth plan, our profitability in the future may be adversely affected.
- Disruptions in the financial markets may adversely impact the availability and cost of credit and consumer spending patterns.
- Declines in the market price of our common stock or changes in other circumstances that may indicate an impairment of goodwill could adversely affect our financial position and results of operation.
- Unfavorable publicity relating to one or more of our restaurants in a particular brand may taint public perception of the brand.

- Identification of material weakness in internal control may adversely affect our financial results.

Table of Contents

- Other risk factors may adversely affect our financial performance, including, pricing, consumer spending and consumer confidence, changes in economic conditions and financial and credit markets, credit availability, increased costs of food commodities, increased fuel costs and availability for our team members, customers and suppliers, health epidemics or pandemics or the prospects of these events, consumer perceptions of food safety, changes in consumer tastes and behaviors, governmental monetary policies, changes in demographic trends, availability of employees, terrorist acts, energy shortages and rolling blackouts, and weather and other acts of God.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

Information regarding legal proceedings is incorporated by reference from Note 8 to our consolidated financial statements set forth in Part I of this report.

Item 1A. RISK FACTORS

There has been no material change in the risk factors set forth in Part I, Item 1A, Risk Factors in our Annual Report on Form 10-K for the year ended June 25, 2008, except the addition of the following risk factors to read in their entirety as follows:

Disruptions in the financial markets may adversely impact the availability and cost of credit and consumer spending patterns.

The subprime mortgage crisis, subsequent disruptions to the financial markets, and continuing economic downturn may adversely impact the availability of credit already arranged and the availability and cost of credit in the future. The disruptions in the financial markets may also have an adverse effect on the U.S. and world economy, which may negatively impact consumer spending patterns. There can be no assurance that various U.S. and world government responses to the disruptions in the financial markets in the near future will restore consumer confidence, stabilize the markets, or increase liquidity or the availability of credit.

Declines in the market price of our common stock or changes in other circumstances that may indicate an impairment of goodwill could adversely affect our financial position and results of operations.

We perform our annual goodwill impairment test in the second quarter of each fiscal year in accordance with the Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets. Interim goodwill impairment tests are also required when events or circumstances change between annual tests that would more likely than not reduce the fair value of our reporting units below their carrying value. It is possible that a change in circumstances such as the decline in the market price of our common stock or changes in consumer spending levels, or in the numerous variables associated with the judgments, assumptions and estimates made in assessing the appropriate valuation of our goodwill, could negatively impact the valuation of our brands and create the potential for a non-cash charge to recognize

Edgar Filing: BRINKER INTERNATIONAL INC - Form 10-Q

impairment losses on some or all of our goodwill. If we were required to write down a portion of our goodwill and record related non-cash impairment charges, our financial position and results of operations would be adversely affected.

The above risks and other risks described in this report and our other filings with the SEC could have a material impact on our business, financial condition or results of operations. It is not possible to predict or identify all risk factors. Additional risks and uncertainties not presently known to us or that we currently

Table of Contents

believe to be immaterial may also impair our operations. Therefore, the risks identified are not intended to be a complete discussion of all potential risks or uncertainties.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Shares repurchased during the second quarter of fiscal 2009 are as follows (in thousands, except share and per share amounts):

	Total Number of Shares Purchased (a)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Approximate Dollar Value that May Yet be Purchased Under the Program
September 25, 2008 through October 29, 2008	189	\$ 14.87	\$	59,797
October 30, 2008 through November 26, 2008	120	\$ 17.42	\$	59,797
November 27, 2008 through December 24, 2008	149	\$ 6.91	\$	59,797
	458	\$ 12.95		

(a) These amounts represent shares owned and tendered by employees to satisfy tax withholding obligations on the vesting of restricted share awards, which are not deducted from shares available to be purchased under publicly announced programs. Unless otherwise indicated, shares owned and tendered by employees to satisfy tax withholding obligations were purchased at the average of the high and low prices of the Company's shares on the date of vesting.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS
