Management Report

Introduction

Edgar Filing: PORTUGAL TELECOM SGPS SA - Form 6-K

The 2009 consolidated annual report of Portugal Telecom, SGPS, S.A. (Company or Portugal Telecom) provides a detailed explanation of its consolidated activity and the evolution of its businesses during 2009 and, as such, we propose to the shareholders the analysis of that report in conjunction with this report.

The standalone financial statements of Portugal Telecom SGPS, S.A were prepared in accordance with the accounting policies generally accepted in Portugal (PGAAP), while the consolidated financial statements were prepared in accordance with International Financial Reporting Standards as adopted by the European Union (IFRS), which are applicable to the listed companies in the European Union. The reconciliation of the shareholders' equity as at 31 December 2009 and net income for the year then ended, attributable to the Company's shareholders, between the standalone (under PGAAP) and the consolidated financial statements (under IFRS), is as follows (amounts in Euro million):

	Net income	Shareholders' equity
Under PGAAP	530	2,008
Financial instruments (IAS 39)	(7)	(141)
Post retirement benefits (IAS 19)	60	(804)
Goodwill and licences amortization (IAS 36 e 38)	77	323
Sale and lease back transactions (IAS 17)	6	(34)
Asset retirement obligation (IAS 16)	3	(21)
Start-up and research and development expenses (IAS 38)	(7)	(14)
Foreign currency translation adjustments related to the application of the equity method (IAS 21)	22	
Under IFRS	684	1,318

Business overview

Edgar Filing: PORTUGAL TELECOM SGPS SA - Form 6-K

In 2009, apart from management of investments, Portugal Telecom did not conduct any other activity. In 2008, on a standalone basis, operating revenues resulted from management services rendered to Vivo Participações, S.A. until August 2008, when the contract entered into with this company ended and was not renewed.

Legal Information

Edgar Filing: PORTUGAL TELECOM SGPS SA - Form 6-K

- There are no amounts due to the Portuguese State and the Social Security.

- The Company and its board and supervisory members did not enter into any material businesses or transactions, except for those mentioned in Note 44 of the 2009 Consolidated Annual Report.

Proposal for application of profits

Edgar Filing: PORTUGAL TELECOM SGPS SA - Form 6-K

Considering that the net income for the year ended 31 December 2009 was Euro 529,778,473, and that as of that date the legal reserve represents at least 20% of the share capital, and therefore complies with the number 1 of the article 295.^o of the Portuguese Securities Code, the Board of Directors proposes:

- The total amount of Euro 515,494,687.5 shall be paid to the shareholders, corresponding to 57,5 Euro cents per share, with respect to the total number of issued shares, and the remaining amount of Euro 14,283,785.5 shall be transferred to retained earnings;

- As it is not possible to determine precisely the number of own shares that will be held in treasury on the date of the above mentioned payment without limiting the Company's capacity of intervention, the distribution of the overall amount of Euro 515,494,687.5, as provided for in the paragraph above, calculated on the basis of a unit amount per share issued (in this case, 57.5 Euro cents per share), shall be executed as follows:
 - a) Each share issued be paid the unit amount of 57.5 Euro cents;

 - b) The amount corresponding to the shares that belong to the Company itself on the day of the payment of the above mentioned amount (calculated on said unit amount of 57.5 Euro cents per share issued), which is not paid, shall be transferred to retained earnings.

- Considering that the shares resulting from the conversion of exchangeable bonds issued have the right to the payment mentioned above:
 - a) Each share resulting from the conversion of convertible bonds and entitled to a dividend be paid the said unit amount of 57.5 Euro cents;

 - b) The payment to each share resulting from the conversion of convertible bonds be carried out by using the retained earnings that are available after the payment mentioned above.

2009 events and recent developments

Edgar Filing: PORTUGAL TELECOM SGPS SA - Form 6-K

The 2009 events and recent developments are described in the 2009 Consolidated Annual Report of Portugal Telecom.

NOTES TO THE FINANCIAL STATEMENTS

As at 31 de December 2009

(Amounts in Euro)

Introduction

Portugal Telecom, SGPS, S.A. (Portugal Telecom or Company) and its subsidiaries and associated companies (Note 16), which represent its corporate Group (Portugal Telecom Group or Group), operate primarily in the telecommunications sector, in Portugal and in foreign countries.

These financial statements, which are related to the Company on a standalone basis, were prepared in accordance with accounting principles generally accepted in Portugal, and, as such, the financial investments were accounted for under the equity method, as explained in Note 3.c). The Company prepared and presented separately its consolidated financial statements, which include the financial statements of the companies controlled by Portugal Telecom. In these standalone financial statements, the shareholders' equity as at 31 December 2009 and the net income for the year then ended include the effect of the consolidation of the shareholders' equity and net income of the Company's subsidiaries, based on their respective financial statements, but do not include the effect of the fully proportionally consolidation of their assets, liabilities, costs and revenues.

The consolidated financial statements of Portugal Telecom have been prepared, since 1 January 2005, in accordance with International Financial Reporting Standards (IFRS), as adopted by the European Union. Therefore, the shareholders' equity as at 31 December 2009 and 2008 and the net income for the years then ended, which are included in the consolidated financial statements of Portugal Telecom, differ from the amounts presented in these standalone financial statements.

a) Shareholders

As a result of the privatization process between 1 June 1995 and 4 December 2000, Portugal Telecom's share capital is held mainly by private shareholders. As at 31 December 2009, the Portuguese State and its controlled entities owned, 9.72% of the capital of Portugal Telecom, including the 500 Class A shares (Note 36), which grant it special rights.

b) Listed shares

The shares of Portugal Telecom are listed on the Euronext and on the *NYSE - New York Stock Exchange*.

3. Basis of presentation and main accounting policies

The standalone financial statements of Portugal Telecom were prepared in accordance with the accounting principles established under the Official Accounting Plan (POC) and other Portuguese legislation, and, when appropriate, in accordance with the International Financial Reporting Standards; these financial statements were prepared in accordance with the principle of historic cost and with the accounting principles of prudence, going concern assumption, accrual basis, consistency, materiality and substance over form.

The notes of this report use the order and index defined by the POC for presentation of standalone financial statements. Certain notes were not included in this report because they are not applicable to the Company or because its presentation is not considered relevant for the analysis of the standalone financial statements.

The main valuation criteria used in the preparation of these standalone financial statements were as follows:

a) Intangible fixed assets

Intangible fixed assets include primarily goodwill arising from the acquisition of equity investments in Group and associated companies, which is amortized in accordance with the criteria mentioned in Note 9.

b) Tangible fixed assets

Tangible fixed assets are stated at acquisition cost and are amortized on a straight line basis from the month they are incorporated or available for use.

The depreciation rates correspond to the following estimated average economic useful lives (in years):

Buildings and other constructions	3 -5
Transport equipment	4
Administrative equipment	3 - 8
Other tangible fixed assets	3 - 8

c) Financial investments

Financial investments in Group and associated companies are recorded under the equity method of accounting, being initially recorded at acquisition cost. The difference between the acquisition cost and the value corresponding to the Company's proportion in the equity of those companies at the acquisition date, if positive, is recorded as goodwill and amortized over the recoverable period of the investment, and, if negative, is recorded under shareholders' equity under the caption Adjustments to shareholders' equity of subsidiaries and associates.

In accordance with the equity method of accounting, financial investments are adjusted for the Company's share in net income and other changes in shareholders' equity, which are recorded under financial income or costs, and as adjustments to capital of subsidiaries and associates, respectively. Dividends distributed by subsidiaries and associated companies are deducted from financial investments when they are attributed. Additionally, the accumulated losses that exceed the total investment amount are recorded under the caption Provisions for losses in financial investments (Note 34).

Gains resulting from the disposal of subsidiaries and associated companies within the Group are deferred or reversed until the date these investments are disposed of to a third party. Whenever these gains are deferred, its recognition in earnings is recorded under the caption Extraordinary income, on the same proportion that goodwill recorded by the acquirer is amortized (Note 46.a).

Additional capital contributions and loans granted to Group and associated companies are recorded at nominal value, reduced by adjustments for estimated losses if applicable.

The financial investments in other companies (interests lower than 20%) are recorded at acquisition cost or, for loans granted, at nominal value, reduced by adjustments for estimated losses if applicable.

d) Finance leasing

Fixed assets acquired under finance lease contracts, which meet the conditions of Accounting Directive no. 25, as well as the corresponding liabilities, are recorded in the balance sheet and are amortized in accordance with the useful lives referred to in Note 3.b). The capital and interest components of the rents related to the finance lease contracts are recorded as a reduction to the liability and as financial costs, respectively (Note 15).

e) Accruals and deferrals

The Company records its revenue and expenses as they are generated or incurred, regardless of when they are received or paid.

f) Balance classification

Realizable assets and liabilities due over a period greater than one year from the balance sheet date are classified under non-current assets and non-current liabilities, respectively.

g) Vacation pay and vacation subsidy

Vacation pay and vacation subsidies are recorded as a cost for the period in which the employee acquires the right to receive them. Consequently, the amount of vacation pay and subsidies due and unpaid at the balance sheet date has been estimated and included under the caption Accruals and deferrals (Note 50).

h) Income tax

From the year 2000, Portugal Telecom adopted the special taxation regime for Groups of companies, which applies to all companies in which it holds, directly or indirectly, at least 90% of the share capital and that, simultaneously, are located in Portugal and are subject to corporate income tax. Any gain generated as a result of the adoption of this regime is recorded in earnings under the caption Gains in Group and associated companies (Note 45.d). The companies which are not under this regime are subject to corporate income tax on a standalone basis, based on the respective taxable profits and tax rates.

The income tax recorded in the financial statements was assessed in accordance with the terms of the Accounting Directive no. 28. In assessing the cost of income tax for the year, besides the current tax determined on the basis of profit before-tax adjusted for in accordance with tax legislation, it is also considered the effects resulting from temporary differences between the income before tax and the taxable earnings arising

in that year or in the preceding ones, as well as the effect of reportable tax losses at the balance sheet date. Deferred tax assets are only

recorded when there is a reasonable expectation of sufficient future tax profits which allow their use, or when there is deferred tax liabilities whose reversal is expected to occur in the same period in which those deferred tax assets will be reversed.

The current or deferred income tax related to transactions recorded directly in reserves or retained earnings, is also recorded directly in those same captions, without any impact in the net income for the period.

Deferred tax assets and liabilities are computed and evaluated annually, using the taxation rates which are expected to be in force at the date of reversal of these temporary differences, and other relevant changes in the tax legislation.

i) Foreign currency balances and transactions

All assets and liabilities expressed in foreign currency and for which no agreement on fixing the exchange rate exists, were converted into Euros using the exchange rates applicable at the balance sheet date (Note 4).

Favourable and unfavourable exchange rate differences arising from the differences between exchange rates in force at the date of the respective transactions and those applying on the date of collection, payment or balance sheet date have been recorded as income and costs in the income statements (Note 45).

For purposes of the application of the equity method of accounting, the exchange rate differences arising from the conversion into Euros of the financial statements of subsidiaries and associated companies presented in foreign currency is made through the following exchange rates:

- Exchange rate at the balance sheet date, for the conversion of assets and liabilities;
- Average exchange rate of the period, for the conversion of the income statements and cash flows; and
- Historical exchange rates, for the conversion of the captions of shareholders' equity.

The exchange rate differences arising from the conversion into Euros of the financial statements of subsidiaries and associated companies presented in foreign currency have been included in shareholders' equity under the caption Adjustments to shareholders' equity of subsidiaries and associates (Note 40).

j) Financial instruments and risk management

Financial instruments include primarily interest and exchange rate swaps and equity swaps over own shares.

The interest rate and exchange rate swaps are contracted to reduce the exposure to fluctuations in interest and exchange rates, following the policy of hedging financial liabilities. In addition, Portugal Telecom also enters into *forwards* and exchange rate options (Note 51).

The gains or losses resulting from derivative instruments which are hedging the risks mentioned above, are recorded in earnings in order to compensate the losses and gains related to the respective assets and liabilities. If the instruments are not hedging those risks, or are not related to any specific risk, they are recorded at fair value at the balance sheet date, with gains and losses related to the change in the fair value recorded in earnings.

Fees received or paid, as well as other expenses incurred in connection with these transactions, are recognized in earnings through the period of these transactions.

Equity swaps over own shares were contracted in connection with the share buyback program, with the purpose of allowing a more flexible execution of the program.

4. Rates Used for Conversion of Balances into Foreign Currency

Assets and liabilities as at 31 December 2009 and results for the year then ended denominated in foreign currencies were translated into Euros using the following exchange rates:

Designation	Closing exchange rate	Average exchange rate
US Dollar	1.4406	1.3948
British Pound	0.8881	0.8881
Brazilian Real	2.5113	2.7674

6. Taxes

(a) The Company is subject to corporate income tax (IRC), at a normal rate of 25%, added by a municipal tax up to a maximum of 1.5%, resulting in an aggregate tax rate of 26.5%.

In the year ended 31 December 2009, the taxable profit of the Company was estimated in accordance with the special taxation regime for groups of companies (tax consolidation), including the following companies: PT Comunicações, S.A. (PT Comunicações); TMN Telecomunicações Móveis Nacionais, S.A. (TMN); PT Prime Soluções Empresariais de Telecomunicações e Sistemas, S.A. (PT Prime); PT Contact Telemarketing e Serviços de Informação, S.A. (PT Contact); PT Imobiliária, S.A. (PT Imobiliária); PT Inovação, S.A. (PT Inovação); PT Móveis, SGPS, S.A. (PT Móveis); PT Pro - Serviços Administrativos e de Gestão Partilhados, S.A. (PT Pro); PT-Sistemas de Informação, S.A. (PT SI); PT Compras - Serviços de Consultoria e Negociação, S.A. (PT Compras); PT Participações SGPS, S.A. (PT Participações); PT Investimentos Internacionais Consultoria Internacional, S.A. (PT II); PT Prestações Mandatária de Aquisições e Gestão de Bens, S.A. (PT Prestações); PT Portugal, SGPS, S.A. (PT Portugal); PT Sales, S.A. (PT Sales); PT Centro Corporativo, S.A. (PT Centro Corporativo); and Infonet Portugal Serviços de Valor Acrescentado, Lda. (Infonet).

(b) In accordance with the prevailing legislation, taxation returns are subject to review and correction by the fiscal authorities during a period of four years (five years for Social Security, with a period of ten years formerly applying for payments and contributions for years prior to 2001), except where there have been tax losses, fiscal benefits have been granted, or there are inspections, claims or challenges under way; in such cases these periods may be extended or suspended, depending on the circumstances. Based on the information supplied by its tax advisory services, the Board of Directors considers that any corrections to the tax returns that might result from reviews carried out by the tax authorities will not have a significant effect on the financial statements as at 31 December 2009, considering the provisions record and the actual expectations to resolve the current situations (Note 34).

As at 31 December 2009, there are some tax contingencies against certain Portuguese subsidiaries of the Group which are primarily related to the deductibility of certain financial costs incurred between 2004 and 2007 (Euro 120 million) and the deductibility of a capital loss occurred in 2007 following the liquidation of a subsidiary (Euro 63 million). The Company already received tax assessments regarding these matters for all the years mentioned above

and granted bank guarantees to tax authorities totaling Euro 78 million (Note 18) related to the years 2004 and 2005. As at 31 December 2009, Portugal Telecom strongly disagrees with these assessments and considers, based on the opinion of its tax advisers, that there are solid arguments to oppose the position of the tax authorities.

(c) In relation to the Value Added Tax, the Company uses the effective allocation and the pro rate method in order to compute the deductible tax.

(d) The detail of balances and movements occurred in deferred tax assets during the year ended 31 December 2009 was as follow:

	Opening balance	Net income	Ending balance
Financial instruments (i)	14,590,299	(14,590,299)	
Other	3,243,600	471,793	3,715,393
	17,833,899	(14,118,506)	3,715,393

(i) As at 31 December 2008, these deferred tax assets were related primarily to: (1) exchange rate swaps existing as at that date amounting to Euro 43.3 million (Notes 50 and 51), which were settled in 2009; and (2) exchange and interest rate swaps entered into by Portugal Telecom (Note 51), which still existed as at 31 December 2009, but, following a decision from the Portuguese Tax Authority in 2009, there is no longer any difference between the accounting and tax basis regarding this matter.

The reconciliation between the nominal tax rate and the income tax recorded in the income statement is as follows:

Income before taxes	508,963,352
Nominal tax rate	26.5%
Estimated tax charge	134,875,288
Permanent differences (i)	(160,490,210)
Reversal of deferred taxes from previous years (ii)	2,923,184
Effect of the change in municipal tax (iii)	1,938,730
Collection adjustments	(62,113)
	(20,815,121)
Income tax has the following composition:	
Income tax-current (Note 49)	(34,933,627)
Deferred tax	14,118,506
	(20,815,121)

(i) The detail of permanent differences is as follows:

Effect of the equity method of accounting (Notes 45.b) and d))	(545,071,860)
Recognition of deferred capital gains (Note 46)	(67,059,241)
Gains on disposal of other investments (Note 46)	(13,647,630)
Gain related to the tax consolidation regime (Note 45.d)	(42,384,378)
Non deductibility of certain financial costs	36,476,578
Adjustments to the provision for income taxes of previous year (Note 46)	17,216,274
Goodwill amortization (Note 45)	9,959,142
Other	(1,112,318)
	(605,623,433)
Nominal tax rate	26.5%
	(160,490,210)

(ii) This caption corresponds to the reversal of a deferred tax recognized in previous years related to interest and exchange rate swaps entered into by Portugal Telecom, following a decision by the Portuguese Tax Authority in 2009 regarding to taxation of these operations. The difference as at 31 December 2008 was considered for tax purposes in 2009 as an adjustment to the provision for income taxes of previous periods.

(iii) In accordance with tax legislation in force, municipal tax is only applicable for collectable tax, and, as such, when tax losses occurs, the tax rate applicable is only 25%.

7. Average number of employees

In 2009 and 2008, the average number of employees working for the Company, which includes employees of other Group companies, is as follows:

	2009	2008
Effective personnel	23	20
Personel on term contract		1
	23	21
Personnel on loan from other entities	3	3
	26	24

The liabilities with post retirement benefits related to employees from other Group companies were recorded directly by those companies and the respective cost was then invoiced to Portugal Telecom and included under the caption Wages and salaries .

8. Research and development expenses and industrial property and other rights

As at 31 December 2009 and 2008, these captions are as follows:

	2009	2008
Research and development expenses:		
Studies and projects	7,305,329	7,305,329
Accumulated amortization	(7,305,329)	(7,305,329)
Industrial property and other rights:		
Software user licenses	433,050	433,050
Other	193,654	193,654
Accumulated amortization	(626,704)	(607,957)
		18,747

9. Goodwill

As at 31 December 2009, the detail of goodwill is as follows (Note 10.a):

Gross amount	Accumulated amortization	Net amount
-----------------	-----------------------------	---------------

Edgar Filing: PORTUGAL TELECOM SGPS SA - Form 6-K

Páginas Amarelas	89,338,063	(32,385,048)	56,953,015

36. Share capital

As at 31 December 2009, the Company's share capital amounted to Euro 26,895,375 (Note 40) and was represented by 896,512,000 ordinary shares and 500 Class A shares, each with a nominal value of 3 cents of Euro.

The following matters may not be approved at a General Shareholders Meeting against the majority of the votes corresponding to Class A Shares:

- Authorization for the acquisition of Ordinary Shares representing more than 10% of the share capital by shareholders that directly or indirectly carry out a business competing with that of the companies in a control relationship with Portugal Telecom;
- Amendments to the by-laws and share capital increases, as well as the limitation or suppression of pre-emptive rights and the determination of parameters for share capital increases as may be resolved upon by the Board of Directors;
- Issuance of bonds or other securities, determination of the value of issuance of such securities to be resolved by the Board of Directors and limitation or suppression of pre-emptive rights in the issuance of bonds convertible into shares, as well as determination of parameters for the issuance of such bonds as may be resolved upon by the Board of Directors;
- Resolutions on the application of the financial year results, in the event of a dividend in a percentage in excess of 40% of the distributable profits;
- Election of the Board of the General Meeting of Shareholders, as well as of the Chairman of the Audit Committee and the Chartered Accountant;
- Approval of the general goals and fundamental principles of the Company's policies;

- Definition of the general principles concerning the policy for shareholdings in companies, as well as, in cases where those principles require prior authorization by the General Meeting of Shareholders, the approval of resolutions on such acquisitions and sales;
- Moving the Company's registered office.

In addition, the election of one third of the total number of Directors, including the Chairman of the Board of Directors, requires the votes issued by the State, in its capacity as holder of the Class A shares.

The Company's Bylaws further determine that, among the members of the Executive Committee designated by the Board of Directors, at least one or two designated directors, according to the Executive Committee being composed of five or seven members, must be elected in accordance with the election rule that grants special rights to the State as holder of the class A shares.

The Executive Committee included five executive board members during 2008 and as from April 2009 includes seven executive board members. Following the changes in corporate governance occurred in the second quarter of 2008, the Chairman no longer has the function of Chief Executive Officer.

Under the terms of the remuneration policy established by the Remunerations Committee, executive board members are entitled to receive annual variable remuneration related to the performance achieved in the year and payable in the following year, and multi-annual variable remuneration for the performance achieved during the term of office and payable at the end of that period. On an annual basis, Portugal Telecom recognizes an accrual for the annual and multi-annual variable remuneration. At the end of the term of office 2006/2008 and considering the performance achieved during the period, executive board members and the Chairman, who served as an executive board member during 2006 and 2007, received in total Euro 3,799,101 of multi-annual variable remuneration. In addition to the above mentioned remunerations, executive board members are also entitled to fringe benefits that are primarily used in their daily functions, in connection with a policy defined for the Group. As at 31 December 2009, there were not board member entitled to post retirement benefits under the plans of PT Comunicações, and there was not in place any share based payment program or termination benefit.

For additional information regarding the remunerations of board members and key employees, please read the Corporate Governance Report included in the Consolidated Annual Report for 2009.

(e) Medium and long-term debt

As at 31 December 2009, medium and long-term debt matures on the following years:

2011	113,515,035
2012	709,795,905
2013	112,989,181
2014	798,571,428
2015 and following years (Note 29)	1,503,921,428
	3,238,792,977

(f) Covenants

As at 31 December 2009, the Company and its subsidiaries had several covenants related to its indebtedness, which are as follows:

• **Change in control**

The exchangeable bonds, the credit facilities amounting to Euro 1,315 million and the loans obtained from EIB totalling Euro 471 million as at 31 December 2009, grant the lenders the right to demand the repayment of all amounts due in the case of any change in the control of Portugal Telecom. According to the terms and conditions of these debt instruments, a change of control would occur if any person or group of persons acting in concert acquires or controls more than 50 per. cent of voting rights, whether obtained by ownership of share capital, the holding of voting rights or pursuant to the terms of a shareholders' agreement. In certain cases, gaining the power to appoint or remove all, or the majority, of the directors or other equivalent officers of the company or to give directions with respect to the operating and financial policies of the company with which the directors or equivalent officers of the company are obliged to comply are also considered a change of control.

The Eurobonds amounting to Euro 1,000 million and Euro 750 million issued in 2009 grant the bondholders the right to demand the repayment of all amounts due in the case of any change in the control of Portugal Telecom, as described above, if simultaneously a rating downgrade to sub-investment grade occurs during the Change of Control Period, as defined under the terms and conditions of these notes.

• **Credit rating**

Certain loan agreements with the EIB, totalling Euro 236 million as at 31 December 2009, stated that Portugal Telecom may be asked to present a guarantee acceptable by the EIB if, at any time, the long-term credit rating assigned by the rating agencies to Portugal Telecom is reduced from the current rating (BBB- by S&P, Baa2 by Moody's and BBB by Fitch). In addition, the pricing conditions applicable to the commercial paper programs may be revised in case the credit rating assigned to Portugal Telecom is changed.

• **Control/disposal of subsidiaries**

Certain credit facilities amounting to Euro 615 million state that Portugal Telecom must, directly or indirectly, maintain majority ownership and control of each material subsidiary. Material subsidiaries are those companies whose total assets are equal or exceed 10% of total consolidated assets or whose total revenues are also equal or exceed 10% of total consolidated revenues.

• **Disposals of assets**

Credit facilities totalling Euro 150 million and the EIB loans totalling Euro 471 million as at 31 December 2009 include certain restrictions regarding the disposal of assets by Portugal Telecom.

• **Financial ratios**

Certain credit facilities amounting to Euro 815 million require that the ratio Consolidated Net Debt/EBITDA should not be higher than 3.5. Other credit facilities totalling Euro 200 million require that the ratio Consolidated Net Debt/EBITDA should not be higher than 4.0. In addition, the pricing conditions applicable to certain facilities in the total amount of Euro 1,111 million may be changed depending on the ratio Consolidated Net Debt/EBITDA. Finally, certain loan agreements with the EIB, totalling Euro 80 million as at 31 December 2009, state that Portugal Telecom may be asked to present a guarantee acceptable by the EIB if the ratio Consolidated Net Debt/EBITDA, as defined in the agreements, is higher than 3.5.

• **Negative Pledge**

The Global Medium Term Notes, the exchangeable bonds, the revolving credit facilities and one of the commercial paper programmes are subject to negative pledge clauses, which restrict the pledge of security interests in the assets of companies included in the consolidation.

The penalties applicable in the event of default in any of these covenants are generally the early payment of the loans obtained or the termination of available credit facilities. As at 31 December 2009, the Company had fully complied with the covenants mentioned above.

54. Subsequent events

On 7 February 2010, Portugal Telecom agreed to acquire a 100% equity stake in GPTI, SA (GPTI), a company which renders services related to information systems and technologies. The purchase price of this acquisition will be made through the issuance of shares of Dedic, Portugal Telecom's call centre operation in Brazil, which as at 31 December 2009 was wholly-owned by the Group. Following this acquisition, current shareholders of GPTI will hold a 12.5% stake in Dedic which, depending on the operational and financial performance of the acquired

company in 2010 and 2011, may be reduced or increased from 5% to 20%. GPTI has a strong customer base and about 75% of its revenues in 2009 (R\$ 140 million or Euro 51 million) is derived from recurring contracts. The financial debt of GPTI amounts to R\$ 80 million (Euro 32 million).

Regarding the proceeding initiated by Autoridade da Concorrência in 2004 against PT Comunicações, alleging that PT Comunicações was denying access to the ducts in which the basic telecommunications network is installed, following which Autoridade da Concorrência imposed a fine of Euro 38 million on PT Comunicações in August 2007, the Commerce Court of Lisbon decided on 2 March 2010 to cancel that fine applied to Portugal Telecom. Autoridade da Concorrência still has an option within 10 days from this decision to appeal to a superior court.

Report and Opinion of the Audit Committee

Translation of the original version issued in the Portuguese Language

**REPORT AND OPINION OF THE AUDIT COMMITTEE
ON THE STANDALONE ANNUAL REPORT AND ACCOUNTS
FOR THE FISCAL YEAR OF 2009**

1 Introduction

Under the terms and for the purposes of paragraph g) to Article 423-F of the Portuguese Companies Act and of Article 28 of the Company's articles of incorporation, the Audit Committee of Portugal Telecom, SGPS, S.A. ("The Company" or "PT SGPS") hereby presents its report and opinion on the Company's Standalone Annual Report and Accounts for the year ended December 31, 2009 and the proposal for application of profits presented by the Board of Directors.

The financial statements included in the Standalone Annual Report and Accounts refer to the Company's activity at an individual level and were prepared in accordance with accounting principles generally accepted in Portugal. The Company has prepared, in accordance with applicable legislation, consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union, published separately.

2 Supervisory activities

Within its responsibilities as the Company's supervisory body, in 2009 the Audit Committee has overseen the management and the evolution of the Company's businesses and its compliance with the applicable legal, regulatory and accounting rules and pursued various supervisory activities of the quality and integrity of the Company's financial information preparation and disclosure processes.

During the fiscal year, the Audit Committee held periodic meetings with the officers responsible for the preparation of the Company's Standalone Annual Report and Accounts and of the

www.telecom.pt

accounts of relevant subsidiaries, as well as with the Company's Independent Auditors and the Statutory Auditor, with which discussed the adequacy of the accounting principles and valuation criteria adopted in the closing of the accounts and of the criteria adopted in the preparation of the management report. In addition, the Audit Committee has reviewed the Statutory Auditor's Opinion and the Independent Auditors' Report, both referring to the aforementioned standalone financial statements approved by the Board of Directors, which were issued without any qualifications.

The Audit Committee has also supervised the qualifications, independence and work of the Company's Independent Auditors and Statutory Auditor, as well as of the quality, integrity and effectiveness of the Company's internal control and risk management systems and of the internal audit function of PT SGPS.

As far as the internal control system is concerned, we highlight that it was certified by the Company's Independent Auditors in 2009, by reference to the year of 2008, in accordance with the requirements of *Section 404* of the *Sarbanes-Oxley Act* and on the basis of the methodology defined by *COSO (Committee of Sponsoring Organizations)*.

The aforementioned supervisory activities will be further detailed in the Audit Committee's activities report relating to the year of 2009 disclosed in the Company's website.

3 - Opinion on the Standalone Annual Report and Accounts for the fiscal year of 2009 and the related proposal for application of profits

Taking into consideration the above-mentioned, it is the opinion of the Audit Committee that:

1 - The Standalone Annual Report and Accounts for the year ended December 31, 2009, which include the balance sheet, the statements of income by nature and by function and of cash flows and the related notes thereto, for the year then ended, comply with the applicable accounting principles and legal and statutory provisions and give a true and fair view of the

assets, liabilities, financial position and results of Portugal Telecom, SGPS, SA, and should be approved by the General Shareholders Meeting of PT SGPS;

2 - The proposal for application of profits presented by the Board of Directors, and included in the Standalone Annual Report, should also be approved by the General Shareholders Meeting of PT SGPS.
