#### Notes to Portfolio of Investments

- (a) Non-income producing.
- (b) At September 30, 2011, security was partially or fully on loan.
- (c) At September 30, 2011, investments in securities included securities valued at \$605,076 that were partially pledged as collateral to cover initial margin deposits on open stock index futures contracts.
- (d) Represents a foreign security. At September 30, 2011, the value of foreign securities, excluding short-term securities, amounted to \$14,683,162 or 1.46% of net assets.
- (e) At September 30, 2011, there was no capital committed to the LLC or LP for future investment.
- (f) Identifies issues considered to be illiquid as to their marketability. The aggregate value of such securities at September 30, 2011 was \$1,995,100, representing 0.20% of net assets. Information concerning such security holdings at September 30, 2011 was as follows:

Security	Acquisition Dates	Cost
WCAS Capital Partners II LP	12-11-90 03-24-98 \$	4.212.137

(g) At September 30, 2011, the Fund owned one limited partnership investment that was purchased through a private offering and cannot be sold without prior registration under the Securities Act of 1933 or pursuant to an exemption therefrom. The investment is valued at fair value as determined in accordance with procedures approved by the Board of Trustees of the Fund. The acquisition dates of investment in the limited partnership, along with the cost and value at September 30, 2011, were as follows:

 Security
 Acquisition Date
 Cost
 Value (a)

 WCAS Capital Partners II LP
 12-11-90
 03-24-98
 \$ 4,212,137
 \$ 1,995,100

- (h) The rate shown is the seven-day current annualized yield at September 30, 2011.
- (i) Investments in affiliates during the period ended September 30, 2011:

<b>Issuer</b> Columbia	Begin	ning Cost	ı	Purchase Cost	Sales Cost/ Proceeds from Sales	Realized Gain/ Loss	Eı	nding Cost	Dividends or Interest Income	Value
Short-Term Cash Fund	\$	3.118.708	\$	35,874,722	\$ (35,032,908)	\$	\$	3,960,522	\$ 1.512 \$	3.960.522

(j) The table below represents securities received as collateral for repurchase agreements. This collateral, which is generally high quality short-term obligations, is deposited with the Fund s custodian and, pursuant to the terms of the repurchase agreement, must have an aggregate market value greater than or equal to the repurchase price plus accrued interest at all times. The value of securities and/or cash held as collateral for repurchase agreements is monitored on a daily basis to ensure the existence of the proper level of collateral.

(k) At September 30, 2011, the cost of securities for federal income tax purposes was approximately \$1,074,867,000 and the approximate aggregate gross unrealized appreciation and depreciation based on that cost was:

Unrealized Appreciation	\$ 106,534,000
Unrealized Depreciation	(87,786,000)
Net Unrealized Appreciation	\$ 18,748,000

(I) Securities are valued using policies described in the notes to financial statements in the most recent shareholder report.

#### **Fair Value Measurements**

Generally accepted accounting principles (GAAP) require disclosure regarding the inputs and valuation techniques used to measure fair value and any changes in valuation inputs or techniques. In addition, investments shall be disclosed by major category.

The Fund categorizes its fair value measurements according to a three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs by prioritizing that the most observable input be used when available. Observable inputs are those that market participants would use in pricing an investment based on market data obtained from sources independent of the reporting entity. Unobservable inputs are those that reflect the Fund's assumptions about the information market participants would use in pricing an investment. An investment is level within the fair value hierarchy is based on the lowest level of any input that is deemed significant to the asset or liability is fair value measurement. The input levels are not necessarily an indication of the risk or liquidity associated with investments at that level. For example, certain U.S. government securities are generally high quality and liquid, however, they are reflected as Level 2 because the inputs used to determine fair value may not always be quoted prices in an active market.

Fair value inputs are summarized in the three broad levels listed below:

• Level 1 - Valuations based on quoted prices for investments in active markets that the Fund has the ability to access at the measurement date (including NAV for open-end mutual funds). Valuation adjustments are not applied to Level 1 investments.

•	Level 2	Valuations based on other significant observable inputs (including quoted prices for similar securities, interest rates,
prepayment s	peeds, credit	risks, etc.).

• Level 3 Valuations based on significant unobservable inputs (including the Fund s own assumptions and judgment in determining the fair value of investments).

Inputs that are used in determining fair value of an investment may include price information, credit data, volatility

statistics, and other factors. These inputs can be either observable or unobservable. The availability of observable inputs can vary between investments, and is affected by various factors such as the type of investment, and the volume and level of activity for that investment or similar investments in the marketplace. The inputs will be considered by the Investment Manager, along with any other relevant factors in the calculation of an investment s fair value. The Fund uses prices and inputs that are current as of the measurement date, which may include periods of market dislocations. During these periods, the availability of prices and inputs may be reduced for many investments. This condition could cause an investment to be reclassified between the various levels within the hierarchy.

Investments falling into the Level 3 category are primarily supported by quoted prices from brokers and dealers participating in the market for those investments. However, these may be classified as Level 3 investments due to lack of market transparency and corroboration to support these quoted prices. Additionally, valuation models may be used as the pricing source for any remaining investments classified as Level 3. These models rely on one or more significant unobservable inputs and/or significant assumptions by the Investment Manager. Inputs used in valuations may include, but are not limited to, financial statement analysis, capital account balances, discount rates and estimated cash flows, and comparable company data.

The following table is a summary of the inputs used to value the Fund s investments as of September 30, 2011:

The Fund s assets assigned to the Level 2 input category are generally valued using the market approach, in which a security s value is determined

through reference to prices and information from market transactions for similar or identical assets.

The Fund s assets assigned to the Level 3 category are valued utilizing the valuation technique deemed most appropriate in the circumstances. Certain Limited Partnerships classified as Level 3 securities are valued using the market approach. To determine fair value for these securities, management considered various factors which may have included, but were not limited to, estimated cash flows of the securities and observed yields on securities management deemed comparable.

(a) See the Portfolio of Investments for all investment classifications not indicated in the table.		
(b) There were no significant transfers between Levels 1 and 2 during the period.		
(c) Money market fund that is a sweep investment for cash balances in the Fund at September 30, 2011.		
(d) Derivative instruments are valued at unrealized appreciation (depreciation).		
The following table is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determ	ne fa	ir value.
Balance as of December 31, 2010 Accrued discounts/premiums Realized gain (loss) Change in unrealized appreciation (depreciation)* Sales Purchases Transfers into Level 3 Transfers out of Level 3 Balance as of September 30, 2011	Pa \$	Limited artnerships 2,019,088 (23,988)
*Change in unrealized appreciation (depreciation) relating to securities held at September 30, 2011 was \$(23,988).		

Transfers in and/or out of Level 3 are determined based on the fair value at the beginning of the period for security positions held throughout the period.

#### Item 2. Controls and Procedures.

- (a) The registrant s principal executive officer and principal financial officers, based on their evaluation of the registrant s disclosure controls and procedures as of a date within 90 days of the filing of this report, have concluded that such controls and procedures are adequately designed to ensure that information required to be disclosed by the registrant in Form N-Q is accumulated and communicated to the registrant s management, including the principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.
- (b) There was no change in the registrant s internal control over financial reporting that occurred during the registrant s last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant s internal control over financial reporting.

#### Item 3. Exhibits.

Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) attached hereto as Exhibit 99.CERT.

#### **SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

(Registrant) Tri-Continental Corporation
