Net Assets (100.0%)		\$ 416,439

(a) Non-income producing security.

(b) At March 31, 2012, the Fund held fair valued securities valued at approximately \$180,000, representing less than 0.05% of net assets. These securities have been fair valued as determined in good faith under procedures established by and under the general supervision of the Fund's Directors.

(c) The Fund invests in the Morgan Stanley Institutional Liquidity Funds - Money Market Portfolio - Institutional Class (the Liquidity Funds), an open-end management investment company managed by the Adviser. Investment advisory fees paid by the Fund are reduced by an amount equal to the advisory and administrative service fees paid by the Liquidity Funds with respect to assets invested by the Fund in the Liquidity Funds.

+ At March 31, 2012, the U.S. Federal income tax cost basis of investments was approximately \$390,552,000 and, accordingly, net unrealized appreciation for U.S. Federal income tax purposes was approximately \$19,702,000 of which approximately \$58,373,000 related to appreciated securities and approximately \$38,671,000 related to depreciated securities.

ADR American Depositary Receipt.

Fair Value Measurement Information:

The following is a summary of the inputs used to value the Fund's investments as of March 31, 2012. (See Notes to the Portfolio of Investments for further information regarding fair value measurement.)

Investment Type	Level 1 Unadjusted quoted prices (000)	Level 2 Other significant observable inputs (000)	Level 3 Significant unobservable inputs (000)	Total (000)
Assets:

Transfers between investment levels may occur as the markets fluctuate and/or the availability of data used in an investment's valuation changes. The Fund recognizes transfers between the levels as of the end of the period. As of March 31, 2012, the Fund did not have any significant investments transfer between investment levels.

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value.

Edgar Filing: MORGAN STANLEY INDIA INVESTMENT FUND, INC. - Form N-Q

	Common Stock (000)	
Beginning Balance	\$	167
Purchases		
Sales		
Amortization of discount		
Transfers in		
Transfers out		
Change in unrealized appreciation (depreciation)		13
Realized gains (losses)		
Ending Balance	\$	180
Net change in unrealized appreciation/depreciation from investments still held as of March 31, 2012	\$	13

The following table presents additional information about valuation techniques and inputs used for investments that are measured at fair value and categorized within Level 3 as of March 31, 2012.

	Fair Value at March 31, 2012 (000)	Valuation Technique(s)	Unobservable Input	Range	Weighted Average	Impact to Valuation from an Increase in Input
Common Stock						
Information Technology Services	\$ 180	Market Approach	Discount for lack of Marketability		50%	Decrease

Morgan Stanley India Investment Fund, Inc.

Notes to the Portfolio of Investments • March 31, 2012 (unaudited)

Security Valuation: Securities listed on a foreign exchange are valued at their closing price except as noted below. Unlisted securities and listed securities not traded on the valuation date for which market quotations are readily available are valued at the mean between the current bid and ask prices. Equity securities listed on a U.S. exchange are valued at the latest quoted sales price on the valuation date. Equity securities listed or traded on NASDAQ, for which market quotations are available, are valued at the NASDAQ Official Closing Price. Short-term debt securities purchased with remaining maturities of 60 days or less are valued at amortized cost, unless the Board of Directors (the Directors) determines such valuation does not reflect the securities' fair value, in which case these securities will be valued at their fair value as determined in good faith under procedures adopted by the Directors.

All other securities and investments for which market values are not readily available, including restricted securities, and those securities for which it is inappropriate to determine prices in accordance with the aforementioned procedures, are valued at fair value as determined in good faith under procedures adopted by the Directors, although the actual calculations may be done by others. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, or the appropriate stock exchange (for exchange-traded securities), analysis of the issuer's financial statements or other available documents and, if necessary, available information concerning other securities in similar circumstances.

Most foreign markets close before the New York Stock Exchange (NYSE). Occasionally, developments that could affect the closing prices of securities and other assets may occur between the times at which valuations of such securities are determined (that is, close of the foreign market on which the securities trade) and the close of business on the NYSE. If these developments are expected to materially affect the value of the securities, the valuations may be adjusted to reflect the estimated fair value as of the close of the NYSE, as determined in good faith under procedures established by the Directors.

Fair Value Measurement: Financial Accounting Standards Board (FASB) Accounting Standards Codification™ (ASC) 820, Fair Value Measurements and Disclosure (ASC 820), defines fair value as the value that the Fund would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. ASC 820 establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in valuing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in valuing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Fund's investments. The inputs are summarized in the three broad levels listed below.

- Level 1 unadjusted quoted prices in active markets for identical investments

- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Edgar Filing: MORGAN STANLEY INDIA INVESTMENT FUND, INC. - Form N-Q

- Level 3 significant unobservable inputs including the Fund's own assumptions in determining the fair value of investments. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, or the appropriate stock exchange (for exchange-traded securities), analysis of the issuer's financial statements or other available documents and, if necessary, available information concerning other securities in similar circumstances
-

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities and the determination of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to each security.

Item 2. Controls and Procedures.

(a) The Fund's principal executive officer and principal financial officer have concluded that the Fund's disclosure controls and procedures are sufficient to ensure that information required to be disclosed by the Fund in this Form N-Q was recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, based upon such officers' evaluation of these controls and procedures as of a date within 90 days of the filing date of the report.

(b) There were no changes in the Fund's internal control over financial reporting that occurred during the registrant's fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Fund's internal control over financial reporting.

Item 3. Exhibits.

(a) A separate certification for each principal executive officer and principal financial officer of the registrant are attached hereto.
