Edgar Filing: Perfect World Co., Ltd. - Form 6-K

- Launched open beta testing for Holy King in China on September 10, 2013.
- Launched unlimited closed beta testing for DOTA2 in China on September 25, 2013.

1 The U.S. dollar (USD) amounts disclosed in this press release, except for those transaction amounts that were actually settled in U.S. dollars, are presented solely for the convenience of the reader. The conversion of Renminbi (RMB) into USD in this release is based on the noon buying rate in The City of New York for cable transfers in RMB per USD as certified for customs purposes by the Federal Reserve Bank of New York as of September 30, 2013, which was RMB6.1200 to USD1.00. The percentages stated in this press release are calculated based on the RMB amounts.

2 As used in this press release, non-GAAP operating profit, non-GAAP net income attributable to the Company's shareholders and non-GAAP earnings per ADS are defined to exclude share-based compensation charge from operating profit, net income attributable to the Company's shareholders and earnings per ADS, respectively. See Non-GAAP Financial Measures and Reconciliation of GAAP and Non-GAAP Results at the end of this press release.

3 Each ADS represents five ordinary shares.

We are pleased to report an upbeat quarter as our top line increased by 18% from the previous quarter, exceeding the high end of our previous expectations, and our bottom line also achieved sequential growth of 50%, Mr. Robert Xiao, CEO of Perfect World commented. The strong performance of the third quarter was primarily attributable to the solid revenue contribution from Swordsman Online and Saint Seiya Online, both of which were launched in China earlier this year.

We remain committed to continuously developing and enhancing our competitive portfolio and pipeline. As part of our ongoing efforts to invigorate our existing portfolio, we released a number of expansion packs and content updates for our existing games. In addition, we launched Holy King, a new 3D fantasy MMORPG adapted from the popular online novel of the same Chinese name, toward the end of the third quarter. Our web and mobile games are also developing well and some of them, such as our mobile game Return of the Condor Heroes and web game Touch, have received positive feedback from gamers. Moreover, our long-term prospects remain encouraging with a diverse lineup in our future pipeline. Our robust pipeline consists of a variety of attractive upcoming titles, such as the world-class title DOTA2, our 3D MMORPG Legend of Condor Heroes, and a number of web and mobile games. The highly-anticipated DOTA2 is currently under unlimited closed beta testing and is expected to be launched soon in China. We are also working on localizing Neverwinter, a title that was developed by our U.S. subsidiary Cryptic Studios and successfully launched in North America and Europe, for its launch in China next year.

The successful launch of Neverwinter in North America and Europe exemplifies the competitive edge in our global R&D capabilities and the strength of our overseas subsidiaries, which are some of the key drivers for our business and important components of our globalization strategy. In addition, we keep strengthening our globalization strategy by launching and licensing our games in various markets through our overseas partners. With a geographic coverage of over 100 countries and regions worldwide and over a quarter of our total revenues generated overseas, our global network underpins our leading position among Chinese online gaming companies in overseas markets. This strength overseas, combined with our vast operational experience and solid R&D capabilities in China, make us well-positioned to cater to the varied preferences and tastes of game players around the world.

As we look ahead, we are very excited by the outlook and growth opportunities in the gaming industry. As such, we recently announced agreements to invest in two leading gaming portals, namely TGBus.com and PTBus.com. By combining our expertise in game development with the deep understanding that these gaming portals have of the industry and of game players, we believe these strategic investments would create synergies and provide better support for our gaming business, and help us capture new growth opportunities in the broad spectrum of the future gaming industry.

Third Quarter 2013 Financial Results

Total Revenues

Total revenues were RMB833.3 million (USD136.2 million), compared with RMB708.5 million in the previous quarter and RMB695.8 million in the same quarter last year.

Online game operation revenues, which include both domestic and overseas online game operations, were RMB750.2 million (USD122.6 million), compared with RMB650.1 million in the previous quarter and RMB608.2 million in the same quarter last year. The sequential growth in online game operation revenues was primarily attributable to the strong performance of some of the Company's new games, including *Swordsman Online* and *Saint Seiya Online*, which were recently launched in China.

The aggregate average concurrent users (ACU) for games under operation in mainland China was approximately 778,000, compared with 742,000 in the previous quarter and 601,000 in the same quarter last year. The increase from the previous quarter was mainly attributable to the strong performance of some of the Company's new games and existing games.

Licensing revenues were RMB39.1 million (USD6.4 million), compared with RMB31.5 million in the previous quarter and RMB39.0 million in the same quarter last year. The increase from the previous quarter was mainly attributable to some of the Company's recently-launched new games.

Other revenues were RMB44.0 million (USD7.2 million), compared with RMB26.9 million in the previous quarter and RMB48.6 million in the same quarter last year. The increase from the previous quarter was primarily associated with the increased installations of *Torchlight 2* following some promotional activities for this game in 3Q13. *Torchlight 2* is a popular pay-per-install game developed by Runic Games, the Company's majority-owned subsidiary based in the U.S.

Cost of Revenues

The cost of revenues was RMB194.3 million (USD31.8 million), compared with RMB173.5 million in the previous quarter and RMB128.9 million in the same quarter last year. The increase from the previous quarter was mainly due to increases in internet data center cost, royalty cost and sales-related taxes in connection with several of the Company's recently-launched new games.

Gross Profit and Gross Margin

Edgar Filing: Perfect World Co., Ltd. - Form 6-K

Gross profit was RMB639.0 million (USD104.4 million), compared with RMB535.0 million in the previous quarter and RMB566.9 million in the same quarter last year. Gross margin was 76.7%, compared with 75.5% in the previous quarter and 81.5% in the same quarter last year.

Operating Expenses

Operating expenses were RMB528.5 million (USD86.4 million), compared with RMB468.0 million in the previous quarter and RMB457.5 million in the same quarter last year. The increase in operating expenses from the previous quarter was mainly due to increases in R&D expenses and sales and marketing expenses in 3Q13.

R&D expenses were RMB237.3 million (USD38.8 million), compared with RMB199.4 million in the previous quarter and RMB197.1 million in the same quarter last year. The increase from the previous quarter was primarily due to an increase in staff cost.

Sales and marketing expenses were RMB213.8 million (USD34.9 million), compared with RMB194.9 million in the previous quarter and RMB177.1 million in the same quarter last year. The increase from the previous quarter was primarily due to an increase in advertising and promotional expenses associated with several recently-launched new games.

General and administrative expenses were RMB77.5 million (USD12.7 million), compared with RMB73.6 million in the previous quarter and RMB83.3 million in the same quarter last year.

Operating Profit

Operating profit was RMB110.4 million (USD18.0 million), compared with RMB67.1 million in the previous quarter and RMB109.4 million in the same quarter last year. Non-GAAP operating profit was RMB131.0 million (USD21.4 million), compared with RMB84.2 million in the previous quarter and RMB127.5 million in the same quarter last year.

Total Other Income

Total other income was RMB26.6 million (USD4.4 million), compared with RMB33.5 million in the previous quarter and RMB16.1 million in the same quarter last year. Due to fluctuations in exchange rates, a foreign exchange loss was recognized in 3Q13 while a foreign exchange gain was recognized in the previous quarter.

Income Tax Expense

Income tax expense was RMB14.1 million (USD2.3 million), compared with RMB20.2 million in the previous quarter and RMB29.1 million in the same quarter last year. The decrease from the previous quarter was primarily because some of the recently-launched new games are operated by some of the Company's controlled entities that enjoy a greater preferential tax treatment.

Net Income Attributable to the Company's Shareholders

Net income attributable to the Company's shareholders was RMB120.9 million (USD19.8 million), compared with RMB80.7 million in the previous quarter and RMB86.2 million in the same quarter last year. Non-GAAP net income attributable to the Company's shareholders was RMB141.5 million (USD23.1 million), compared with RMB97.8 million in the previous quarter and RMB104.3 million in the same quarter last year.

Basic and diluted earnings per ADS were RMB2.47 (USD0.40) and RMB2.41 (USD0.39), respectively, compared with RMB1.66 and RMB1.65, respectively, in the previous quarter, and RMB1.78 and RMB1.77, respectively, in the same quarter last year. Non-GAAP basic and diluted earnings per ADS were RMB2.89 (USD0.47) and RMB2.82 (USD0.46), respectively, compared with RMB2.01 and RMB2.00, respectively, in the previous quarter, and RMB2.16 and RMB2.14, respectively, in the same quarter last year.

Cash and Cash Equivalents

As of September 30, 2013, the Company had RMB932.9 million (USD152.4 million) of cash and cash equivalents, compared with RMB1.0 billion as of June 30, 2013. The decrease was mainly due to the Company's short-term investments in certain structured deposits, and was

partially offset by the net cash inflow generated from the Company's online game operations.

Recent Development

Entered into Definitive Agreements to Invest in Two Gaming Portals

In November 2013, the Company entered into definitive agreements to acquire 100% equity interest in Wuhu Huitian Shengshi Network Technology Co., Ltd. (Wuhu Huitian) for approximately RMB255 million and a minority interest in Beijing Shouyou Daqu Technology Co., Ltd. (Daqu) from Beijing Huitian Shengshi Technology Co., Ltd. (Beijing Huitian) for approximately RMB40 million. Wuhu Huitian and Daqu run TGBus.com and PTBus.com, two leading Chinese gaming portals, respectively. Prior to Perfect World's investments, Wuhu Huitian and Beijing Huitian were ultimately controlled by an individual unrelated to Perfect World. Perfect World believes these investments would create synergies and provide better support for the Company's gaming business, and help capture new growth opportunities in the broad spectrum of the future gaming industry.

Business Outlook

Based on the Company's current operations, total revenues for the fourth quarter of 2013 are expected to be between RMB850 million and RMB892 million, representing an increase of 2% to 7% on a sequential basis. This takes into consideration the continued strength of some of the Company's flagship titles and recently-launched new games.

Non-GAAP Financial Measures

To supplement the financial measures prepared in accordance with generally accepted accounting principles in the United States, or GAAP, this press release presents non-GAAP operating profit, non-GAAP net income attributable to the Company's shareholders and non-GAAP earnings per ADS by excluding share-based compensation charge from operating profit, net income attributable to the Company's shareholders and earnings per ADS, respectively. The Company believes these non-GAAP financial measures are important to help investors understand the Company's operating and financial performance, compare business trends among different reporting periods on a consistent basis and assess the Company's core operating results, as they exclude certain expenses that are not expected to result in cash payments. The use of the above non-GAAP financial measures has certain limitations. Share-based compensation charge has been and will continue to be incurred in the future and is not reflected in the presentation of the non-GAAP financial measures, but should be considered in the overall evaluation of the Company's results. None of the non-GAAP measures is a measure of net income attributable to the Company's shareholders, operating profit, operating performance or liquidity presented in accordance with GAAP. The Company compensates for these limitations by providing the relevant disclosure of its share-based compensation charge in the reconciliations to the most directly comparable GAAP financial measures, which should be considered when evaluating the Company's performance. These non-GAAP financial measures should be considered in addition to financial measures prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, financial measures prepared in accordance with GAAP. Reconciliation of each of these non-GAAP financial measures to the most directly comparable GAAP financial measure are set forth at the end of this release.
