SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT

Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the Quarter Ended March 31, 2014

001-08931

Commission File Number

CUBIC CORPORATION

Exact Name of Registrant as Specified in its Charter

Delaware
State of Incorporation

95-1678055
IRS Employer Identification No.

9333 Balboa Avenue
San Diego, California 92123
Telephone (858) 277-6780

Edgar Filing: CUBIC CORP /DE/ - Form 10-Q

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company (as defined in Rule 12b-2 of the Exchange Act).

Large accelerated filer

Accelerated filer

Non-accelerated filer

Small Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12-b-2 of the Exchange Act). Yes No

As of April 28, 2014, registrant had only one class of common stock of which there were 26,788,525 shares outstanding (after deducting 8,945,300 shares held as treasury stock).

EXPLANATORY NOTE REGARDING RESTATEMENT

This Quarterly Report on Form 10-Q of Cubic Corporation (Company , we , and us) for the three- and six-month periods ended March 31, 2014, includes our restated Condensed Consolidated Balance Sheet as of September 30, 2013 and our restated Condensed Consolidated Statements of Income, Comprehensive Income, and Cash Flows for the three- and six-month periods ended March 31, 2013. The restatement resulted from our identification of certain errors in our recognition of revenue for one of our wholly owned subsidiaries. See Note 2, Restatement of Condensed Consolidated Financial Statements of the Notes to Condensed Consolidated Financial Statements in Part I Item 1 for a detailed discussion of the errors and effect of the restatement.

The restatement is more fully described in our Annual Report on Form 10-K/A for the year ended September 30, 2013 filed concurrently herewith.

CUBIC CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

March 31, 2014

Note 1 Basis for Presentation

Cubic Corporation (we , us , and Cubic) has prepared the accompanying unaudited condensed consolidated financial statements in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all information and footnotes required by accounting principles generally accepted in the United States for complete financial statements.

In our opinion, all adjustments necessary for a fair presentation of these financial statements have been included, and are of a normal and recurring nature as well as all adjustments discussed in Note 2, Restatement of Condensed Consolidated Financial Statements, considered necessary to fairly state the financial position of Cubic Corporation at March 31, 2014 and September 30, 2013; the results of its operations for the three- and six-month periods ended March 31, 2014 and 2013; and its cash flows for the three- and six-month periods ended March 31, 2014 and 2013. Operating results for the three- and six-month periods ended March 31, 2014 are not necessarily indicative of the results that may be expected for the year ending September 30, 2014. For further information, refer to the consolidated financial statements and footnotes thereto included in our Annual Report on Form 10-K/A for the year ended September 30, 2013 filed concurrently herewith.

The preparation of the financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

There have been no material changes to our significant accounting policies as compared with the significant accounting policies described in our Annual Report on Form 10-K/A for the year ended September 30, 2013 filed concurrently herewith.

Note 2 Restatement of Condensed Consolidated Financial Statements

We have restated our Condensed Consolidated Balance Sheet at September 30, 2013 and our Condensed Consolidated Statements of Income, Comprehensive Income, and Cash Flows for the three- and six-month periods ended March 31, 2013.

Edgar Filing: CUBIC CORP /DE/ - Form 10-Q

The cumulative adjustments to correct the errors in the consolidated financial statements for all periods prior to October 1, 2012 are recorded as adjustments to retained earnings and accumulated other comprehensive income (loss) at September 30, 2012. The cumulative effect of those adjustments increased previously reported retained earnings by \$6.3 million and reduced previously reported accumulated other comprehensive loss by \$0.5 million at September 30, 2012.

The following tables present the summary impacts of the restatement adjustments on our previously reported consolidated retained earnings at September 30, 2012 and consolidated net income for the three and six months ended March 31, 2013 (in thousands):

Retained earnings at September 30, 2012 - As previously reported	\$	715,043
Adjustments		6,290
Retained earnings at September 30, 2012 - As restated	\$	721,333

	Six Months Ended		Three Months Ended	
	March 31,		March 31,	
	2013		2013	
Net Income - As previously reported	\$	39,604	\$	27,158
Adjustments		4,287		2,492
Net Income - As restated	\$	43,891	\$	29,650

Table of Contents

Description of Adjustments

On February 10, 2014, we announced that we would be restating certain previously issued audited consolidated financial statements and unaudited condensed consolidated financial statements primarily to correct two errors in the recognition of revenue.

In 2012, we restated our financial statements for the years ended September 30, 2011, 2010 and 2009, the quarters ended March 31, 2012 and December 31, 2011 and each of the prior quarters of 2011 and 2010. This previous restatement was the result of our determination that we had made errors in the calculation of revenues for a significant number of our contracts due to incorrect application of GAAP. In the course of our financial statement closing process for the quarter ended December 31, 2013, we identified two errors related to revenue recognition for two contracts with the same customer that date back to the previous restatement period. The first error was related to the computation of revenues for a contract that was entered in 2011. The error resulted from a miscalculation in a revenue recognition model that was created during the previous restatement activity. The second error relates to a contract entered into in 2007 and was the result of a failure to appropriately update the contract value in our revenue accounting system as well as a failure to properly account for a 2008 amendment to this contract. Upon modification of this second contract in 2008, the cost-to-cost percentage of completion method should no longer have been used, and revenue should have been recognized using a service-based model.

In addition to the errors described above, we also made adjustments related to other individually immaterial errors including certain corrections that had been previously identified but not recorded because they were not material, individually or in the aggregate, to our consolidated financial statements. These corrections included certain accrued liabilities and reserves and miscellaneous reclassification entries; adjustments to various income tax and indirect tax accrual accounts; and adjustments to sales and cost of sales to correct cutoff on immaterial revenue recognition transactions.

Table of Contents

The following tables present the impact of the restatement on the our previously issued Consolidated Balance Sheet as of September 30, 2013, and our Consolidated Statements of Income, Comprehensive Income and Cash Flows for the three and six months ended March 31, 2013:

Financial information in the accompanying footnotes to the condensed consolidated financial statements reflects the effects of the preceding discussions and tables.

Note 3 Acquisitions

Each of the following acquisitions has been treated as a business combination for accounting purposes. The results of operations of each acquired business has been included in our consolidated financial statements since the respective date of each acquisition.

Intific

On February 28, 2014 we acquired all of the outstanding capital stock of Intific Inc. (Intific), an Austin, Texas based advanced technology company focused on software and game-based solutions in modeling and simulation, training and education, cyber warfare, and neuroscience. The acquisition of Intific expands the portfolio of services and customer base of our Cubic Defense Systems (CDS) segment.

For the three months ended March 31, 2014, the amount of Intific's sales and net loss after taxes included in our Consolidated Statement of Income were \$0.8 million and \$2.1 million, respectively. Included in Intific's operating results for the three months ended March 31, 2014 are \$0.2 million of transaction and acquisition related costs and \$3.1 million of compensation expense which was paid to Intific employees upon the close of the acquisition.

The purchase agreement states that the cost of the acquisition is approximately \$12.6 million, adjusted by the difference between the net working capital acquired and the targeted working capital amounts. The acquisition date fair value of the consideration transferred is estimated to be \$12.9 million. In February 2014, we paid cash of approximately \$10.7 million and have recorded a liability of approximately \$2.2 million as an estimate of the cash that will be paid to the seller in connection with the working capital settlement and cash that will be owed to the seller due to the passage of time.

Table of Contents

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the acquisition date (in millions):

Customer relationships	\$	2.0
Technology		0.7
Backlog		0.7
Other intangible assets		0.2
Accounts receivable		1.5
Deferred tax liabilities, net		(0.5)
Accounts payable and accrued expenses		(0.6)
Other net assets acquired		0.6
Net identifiable assets acquired		4.6
Goodwill		8.3
Net assets acquired	\$	12.9

The estimated fair values of the assets acquired and liabilities assumed, including the fair value of purchased intangibles and net deferred tax liabilities are preliminary estimates pending the finalization of our valuation analyses. The net deferred tax liabilities were primarily recorded to reflect the tax impact of amortization related to identified intangible assets that is not expected to be deductible for tax purposes, net of acquisition consideration that is a tax deductible expense. The estimated fair value of the accounts receivable and accounts payable and accrued expenses will be finalized as further information is received from the seller regarding these items.

The fair values of purchased intangibles were determined using the valuation methodology deemed to be the most appropriate for each type of asset being valued. The customer relationships and backlog valuation used the excess earnings approach and the technology valuation used the replacement cost approach.

The intangible assets will be amortized using a combination of straight-line and accelerated methods based on the expected cash flows from the assets, over a weighted average useful life of two years from the date of acquisition. .

The goodwill resulting from the acquisition consists primarily of the synergies expected from combining the operations of Intific with our existing CDS business and the acquired assembled workforce. The anticipated synergies include the ability to expand services offerings and cost reductions. The amount recorded as goodwill is allocated to our CDS segment and is not expected to be deductible for tax purposes.

Based upon the preliminary estimate of the fair value of identifiable intangible assets, the estimated amortization expense related to the intangible assets recorded in connection with our acquisition of Intific for fiscal years 2014 through 2018 is as follows (in millions):

Year Ended September 30,		
2014	\$	0.6
2015		0.9
2016		0.7
2017		0.6
2018		0.5

ITMS

On November 26, 2013 we acquired all of the outstanding capital stock of Intelligent Transport Management Solutions Limited (ITMS) from Serco Limited. ITMS is a provider of traffic management systems technology, traffic and road enforcement and maintenance of traffic signals, emergency equipment and other critical road and tunnel infrastructure. The acquisition of ITMS expands the portfolio of services and customer base of our Cubic Transportation Systems (CTS) segment.

Table of Contents

For the three months ended March 31, 2014, the amount of ITMS sales and net loss after taxes included in our Consolidated Statement of Income were \$12.6 million and \$0.2 million, respectively. For the six months ended March 31, 2014, the amount of ITMS sales and net loss after taxes included in our Consolidated Statement of Income were \$17.3 million and \$0.7 million, respectively. Included in the ITMS operating results are \$0.1 million and \$0.5 million of transaction costs incurred during the three and six months ended March 31, 2014, respectively.

The purchase agreement states that the cost of the acquisition was approximately \$69.0 million, adjusted by the difference between the net working capital acquired and the targeted working capital amounts. The acquisition date fair value of the consideration transferred is estimated to be \$72.3 million. In November 2013, we paid cash of approximately \$69.0 million and have recorded a liability of approximately \$3.3 million as an estimate of the cash that will be paid to the seller in connection with the working capital settlement.

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the acquisition date (in millions):

Customer relationships	\$	15.7
Intellectual property		1.6
Backlog		5.7
Supplier relationships		0.6
Agreements with Seller		1.3
Accounts receivable - billed		4.4
Accounts receivable - unbilled		6.9
Deferred tax liabilities, net		(0.2)
Deferred revenue		(2.4)
Accounts payable and accrued expenses		(4.6)
Other net assets acquired		2.6
Net identifiable assets acquired		31.6
Goodwill		40.7
Net assets acquired	\$	72.3

The estimated fair values of the assets acquired and liabilities assumed, including the fair value of purchased intangibles and net deferred tax liabilities are preliminary estimates pending the finalization of our valuation analyses. The net deferred tax liabilities were primarily recorded to reflect the tax impact of the identified intangible assets that will not generate tax deductible amortization expense. The estimated fair value of the accounts receivable, deferred revenue, and accounts payable and accrued expenses will be finalized as further information is received from the seller regarding these items.

The fair values of purchased intangibles were determined using the valuation methodology deemed to be the most appropriate for each type of asset being valued. The customer relationships and backlog valuation used the excess earnings approach and the non-compete agreement and seller agreements valuations used the with and without approach. The supplier relationship and intellectual property valuations used the replacement cost approach.

The intangible assets will be amortized using a combination of straight-line and accelerated methods based on the expected cash flows from the assets, over a weighted average useful life of two years from the date of acquisition and is not expected to be deductible for tax purposes.

Edgar Filing: CUBIC CORP /DE/ - Form 10-Q

The goodwill resulting from the acquisition consists primarily of the synergies expected from combining the operations of ITMS with our existing CTS business and the acquired assembled workforce. The anticipated synergies include the ability to expand services offerings and cost reductions. The amount recorded as goodwill is allocated to our CTS segment and is not expected to be deductible for tax purposes.

Table of Contents

Based upon the preliminary estimate of the fair value of identifiable intangible assets, the estimated amortization expense related to the intangible assets recorded in connection with our acquisition of ITMS for fiscal years 2014 through 2018 is as follows (in millions):

Year Ended September 30,		
2014	\$	7.4
2015		6.8
2016		5.4
2017		3.9
2018		1.9

NEK

On December 14, 2012, we acquired from NEK Advanced Securities Group, Inc. (Seller) the customer contracts and operating assets of NEK Special Programs Group LLC (NEK), which consists of the Seller's Special Operation Forces training business based in Fayetteville, North Carolina and Colorado Springs, Colorado.

For the three months ended March 31, 2014, the amounts of NEK's sales and net loss after taxes included in our Condensed Consolidated Statement of Income were \$8.9 million and \$0.3 million, respectively. For the three months ended March 31, 2013, the amounts of NEK's sales and net loss after taxes included in our Condensed Consolidated Statement of Income were \$9.1 million and \$0.3 million, respectively.

For the six months ended March 31, 2014, the amounts of NEK's sales and net loss after taxes included in our Condensed Consolidated Statement of Income were \$19.6 million and \$0.4 million, respectively. For the six months ended March 31, 2013, the amounts of NEK's sales and net loss after taxes included in our Condensed Consolidated Statement of Income were \$9.6 million and \$0.3 million, respectively.

Included in the NEK operating results are \$0.4 million in transaction related costs incurred during the first quarter of fiscal 2013.

The acquisition agreement states that the cost of the acquisition will total \$52.0 million, adjusted by the difference between the net working capital acquired and targeted working capital amounts, less amounts that will not be due if certain future events fail to occur. The acquisition-date fair value of consideration transferred is estimated to be \$52.6 million. Through March 31, 2014 we have paid the Seller cash consideration of \$49.6 million from our existing cash resources and we have recorded a current liability of approximately \$3.0 million at March 31, 2014 as an estimate of additional cash consideration that is due to the Seller. The timing of the payment of \$0.6 million of the additional cash consideration will be accelerated if the Seller causes certain events to occur, but will ultimately be paid over the passage of time regardless of whether these events occur. Approximately \$2.4 million of the additional cash consideration is contingent upon future events, including the novation of certain of the Seller's contracts to NEK. We have estimated the fair value of the contingent consideration using a probability-weighted discounted cash flow model. We have estimated that the probability of our payment to the Seller of any amounts less than the maximum possible additional cash consideration of \$2.4 million is remote. As such, we have estimated that the fair value of the additional cash consideration at March 31, 2014 approximates the maximum possible contingent payments to the Seller of \$2.4 million. There has been no significant change in the estimated fair value of the total estimated contingent payments to be made to the Seller since the date of the acquisition.

Table of Contents

The following table summarizes the fair values of the assets acquired and liabilities assumed at the acquisition date (in millions):

Customer relationships	\$	13.3
Corporate trade names		4.9
Non-compete agreements		0.2
Accounts receivable -billed		3.1
Accounts receivable -unbilled		7.7
Accounts payable		(3.0)
Other net liabilities assumed		(0.4)
Net identifiable assets acquired		25.8
Goodwill		26.8
Net assets acquired	\$	52.6

The fair values of purchased intangibles were determined using the valuation methodology deemed to be the most appropriate for each type of asset being valued. Each of the valuation methodologies used were various methods under the income approach. The trade names valuation used the relief from royalty approach. The customer relationships valuation used the excess earnings approach and the non-compete agreements valuation used the with and without approach. The intangible assets are being amortized using a combination of straight-line and accelerated methods based on the expected cash flows from the assets, over a weighted average useful life of four years from the date of acquisition.

The goodwill resulting from the acquisition consists primarily of the synergies expected from combining the operations of NEK and our Mission Support Services (MSS) business and the acquired assembled workforce. The anticipated synergies include the ability to expand services offerings and cost reductions. The amount recorded as goodwill is allocated to our MSS segment and is expected to be deductible for tax purposes.

Based upon the fair value of identifiable intangible assets, the amortization expense related to the intangible assets recorded in connection with our acquisition of NEK for fiscal years 2014 through 2018 is as follows (in millions):

Year Ended		
September 30,		
2014	\$	3.4
2015		2.9
2016		2.4
2017		1.9
2018		1.4

NextBus

On January 24, 2013, we acquired all of the outstanding capital stock of NextBus, Inc. (NextBus) from Webtech Wireless, Inc. NextBus provides products and services to transit agencies which provide real-time passenger information to transit passengers, expanding the portfolio of services and customer base of our CTS segment. For the three months ended March 31, 2014 the amount of NextBus sales and net loss after taxes included in our Condensed Consolidated Statement of Income were \$2.5 million and \$0.1 million, respectively. For the six months ended March 31, 2014, the amounts of NextBus sales and net loss after taxes included in our Condensed Consolidated Statement of Income were \$4.7

million and \$0.5 million, respectively.

Table of Contents

We paid the seller cash of \$20.2 million for NextBus from our existing cash resources. The following table summarizes the fair values of the assets acquired and liabilities assumed at the acquisition date (in millions):

Customer relationships	\$	8.8
Accounts receivable, net		2.2
Backlog		1.7
Acquired technology		1.3
Corporate trade names		1.0
Accounts payable and accrued expenses		(1.1)
Deferred tax liabilities, net		(3.3)
Other net liabilities assumed		(1.2)
Net identifiable assets acquired		9.4
Goodwill		10.8
Net assets acquired	\$	20.2

The net deferred tax liabilities were primarily recorded to reflect the tax impact of the identified intangible assets that will not generate tax deductible amortization expense. The fair values of purchased intangibles were determined using the valuation methodology deemed to be the most appropriate for each type of asset being valued. Each of the valuation methodologies used were various methods under the income approach. The customer relationships and backlog valuations used the excess earnings approach. The trade names and technology valuations used the relief from royalty approach.

The goodwill resulting from the acquisition consists primarily of the synergies expected from combining the operations of NextBus and our CTS business and the acquired assembled workforce. The anticipated synergies include the ability to expand services offerings and cost reductions. The amount recorded as goodwill is allocated to our CTS segment and is not expected to be deductible for tax purposes.

The intangible assets are being amortized using a combination of accelerated and straight-line based on the expected cash flows from the assets, over a weighted average useful life of 5 years from the date of acquisition. Based upon the estimate of the fair value of identifiable intangible assets, the estimated amortization expense related to the intangible assets recorded in connection with our acquisition of NextBus for fiscal years 2014 through 2018 is as follows (in millions):

Year Ended September 30,		
2014	\$	1.6
2015		1.5
2016		1.4
2017		1.3
2018		1.2

AIS

On July 1, 2013 we acquired certain assets of Advanced Interactive Systems (AIS) and all of the capital stock of its foreign subsidiaries through a bankruptcy auction. AIS is a supplier of live fire specialized range facilities, virtual simulation products, engineering design and project

management services for counter-terrorism, law enforcement and military forces worldwide. For the three months ended March 31, 2014 the amount of AIS sales and net loss after taxes included in our Condensed Consolidated Statement of Income were \$1.8 million and \$0.1 million, respectively. For the six months ended March 31, 2014, the amounts of AIS sales and net loss after taxes included in our Condensed Consolidated Statement of Income were \$3.1 million and \$0.4 million, respectively.

We paid cash of \$2.0 million from our existing cash resources, net of cash acquired, for the assets of AIS. At September 30, 2013, the estimated fair value of liabilities for potential claims from customers were preliminary estimates pending the finalization of our valuation analyses. The finalization of the estimation of these values was completed in the quarter ended December 31, 2013 as further information was received from the customers as to the facts and circumstances that existed as of the July 1, 2013 acquisition date. As a result of this additional information, we have estimated that the fair value of the potential customer claims was \$1.3 million. As a result, the carrying amount of the potential customer claims liabilities was retrospectively increased by \$1.3 million on July 1, 2013, due to this new information, with a corresponding increase to goodwill.

Table of Contents

The following table summarizes the fair values of the assets acquired and liabilities assumed at the acquisition date (in millions) including the retrospective adjustments described above:

Customer relationships	\$	1.4
Technology		0.9
Backlog		0.6
Other net liabilities assumed		(2.8)
Net identifiable assets acquired		0.1
Goodwill		1.9
Net assets acquired	\$	2.0

The amount recorded as goodwill is allocated to our CDS segment and is not expected to be deductible for tax purposes.

PSMC

On July 1, 2013 we acquired certain assets of PS Management Consultants Pty Ltd. (PSMC). PSMC is a specialist project management and engineering enterprise, based in Canberra, Australia. For the three months ended March 31, 2014 the amount of PSMC's sales and net income after taxes included in our Condensed Consolidated Statement of Income were \$0.5 million and \$0.1 million, respectively. For the six months ended March 31, 2014, the amounts of PSMC's sales and net income after taxes included in our Condensed Consolidated Statement of Income were \$1.2 million and \$0.3 million, respectively.

We paid cash of \$1.3 million from our existing cash resources to acquire PSMC. The following table summarizes the estimated fair values of the assets acquired at the acquisition date (in millions):

Customer relationships	\$	0.6
Backlog		0.1
Net identifiable assets acquired		0.7
Goodwill		0.6
Net assets acquired	\$	1.3

The goodwill resulting from the acquisition consists primarily of the synergies expected from combining the operations of PSMC and our CDS business and the acquired assembled workforce. The anticipated synergies include the ability to expand services offerings and cost reductions. The amount recorded as goodwill is allocated to our CDS segment and is not expected to be deductible for tax purposes.

Changes in goodwill for the six months ended March 31, 2014 were as follows (in millions):

Balances at September 30, 2013	\$	18.3	\$	94.4	\$	23.4	\$	136.1
Acquisitions		40.7				8.3		49.0
Foreign currency exchange rate changes		1.4				0.4		1.8
Balances at March 31, 2014	\$	60.4	\$	94.4	\$	32.1	\$	186.9

Table of Contents*Pro forma information*

The following unaudited pro forma information presents our consolidated results of operations as if Intific, ITMS, NEK, NextBus, AIS and PSMC had been included in our consolidated results since October 1, 2012 (in millions):

	Six Months Ended March 31,		Three Months Ended March 31,	
	2014	2013 (As Restated)	2014	2013 (As Restated)
Net sales	\$ 674.3	\$ 744.6	\$ 356.8	\$ 393.0
Net income attributable to Cubic	\$ 24.1	\$ 48.0	\$ 15.6	\$ 29.5

The pro forma information includes adjustments to give effect to pro forma events that are directly attributable to the acquisitions and have a continuing impact on operations including the amortization of purchased intangibles and the elimination of interest expense for the repayment of debt. No adjustments were made for transaction expenses, other adjustments that do not reflect ongoing operations or for operating efficiencies or synergies. The pro forma financial information is not necessarily indicative of what the consolidated financial results of our operations would have been had the acquisitions been completed on October 1, 2012, and it does not purport to project our future operating results.

Note 4 Net Income Per Share

Basic net income per share (EPS) is computed by dividing the net income for the period by the weighted average number of common shares outstanding during the period, including vested restricted stock units (RSUs).

Diluted EPS is computed by dividing the net income for the period by the weighted average number of common and common equivalent shares outstanding during the period. Common equivalent shares consist of dilutive restricted stock units. Dilutive restricted stock units are calculated based on the average share price for each fiscal period using the treasury stock method. For RSUs with performance-based vesting, no common equivalent shares are included in the computation of diluted EPS until the related performance criteria have been met.

Basic and diluted EPS are computed as follows (amounts in thousands, except per share data).

	Six Months Ended March 31,		Three Months Ended March 31,	
	2014	2013 (As Restated)	2014	2013 (As Restated)
Net income attributable to Cubic	\$ 24,480	\$ 43,891	\$ 16,092	\$ 29,650
Weighted average shares - basic	26,785	26,736	26,786	26,736

Edgar Filing: CUBIC CORP /DE/ - Form 10-Q

Effect of dilutive securities	107			115		
Weighted average shares - diluted	26,892		26,736	26,901		26,736
Net income per share attributable to Cubic, basic	\$ 0.91	\$	1.64	\$ 0.60	\$	1.11
Effect of dilutive securities						
Net income per share attributable to Cubic, diluted	\$ 0.91	\$	1.64	\$ 0.60	\$	1.11
Anti-dilutive employee share-based awards	15					

Note 5 Balance Sheet Details

Marketable Securities

Marketable securities consist of exchange traded funds whose underlying assets consist of highly liquid debt instruments with short- term maturities. Marketable securities are classified and accounted for as available-for-sale. These investments are recorded at fair

Table of Contents

value in the accompanying Condensed Consolidated Balance Sheets and the change in fair value is recorded, net of taxes, as a component of other comprehensive income. There have been no significant realized or unrealized gains or losses on these marketable securities to date. Marketable securities have been classified as current assets in the accompanying Condensed Consolidated Balance Sheets based upon the nature of the securities and availability for use in current operations.

Accounts Receivable

The components of accounts receivable are as follows (in thousands):

	March 31, 2014	September 30, 2013 (As Restated)
Trade and other receivables	\$ 28,277	\$ 17,352
Long-term contracts:		
Billed	138,095	98,983
Unbilled	291,147	282,346
Allowance for doubtful accounts	(483)	(658)
Total accounts receivable	457,036	398,023
Less estimated amounts not currently due	(17,410)	(19,021)
Current accounts receivable	\$ 439,626	\$ 379,002

The amount classified as not currently due is an estimate of the amount of long-term contract accounts receivable that will not be collected within one year from March 31, 2014 under transportation systems contracts in the U.S. and Australia based upon the payment terms in the contracts. The non-current balance at September 30, 2013 represented non-current amounts due from customers under transportation systems contracts in the same locations.

Inventories

Inventories consist of the following (in thousands):

	March 31, 2014	September 30, 2013 (As Restated)
Work in process and inventoried costs under long-term contracts	\$ 89,621	\$ 80,918
Customer advances	(25,998)	(21,865)
Raw material and purchased parts	680	693
Net inventories	\$ 64,303	\$ 59,746

Edgar Filing: CUBIC CORP /DE/ - Form 10-Q

Pursuant to contract provisions, agencies of the U.S. government and certain other customers have title to, or security interest in, inventories related to such contracts as a result of advances, performance-based payments, and progress payments. Contract advances, performance-based payments and progress payments received are recorded as an offset against the related inventory balances for contracts that are accounted for on a percentage-of-completion basis using units-of-delivery as the basis to measure progress toward completing the contract. This determination is performed on a contract by contract basis. Any amount of payments received in excess of the cumulative amount of accounts receivable and inventoried costs for a contract is classified as customer advances, which is classified as a liability on the balance sheet.

At March 31, 2014, work in process and inventoried costs under long-term contracts includes approximately \$1.2 million in costs incurred outside the scope of work or in advance of a contract award compared to \$5.8 million at September 30, 2013. We believe it is probable that we will recover these costs, plus a profit margin, under contract change orders or awards within the next year.

Table of Contents

Long-term Capitalized Costs

Long-term capitalized contract costs consist of costs incurred on a contract to develop and manufacture a transportation fare system for a customer for which revenue recognition did not begin until the customer began operating the system in the fourth quarter of 2013. These capitalized costs are being amortized into cost of sales based upon the ratio of revenue recorded during the period compared to the revenue expected to be recognized over the term of the contract.

Note 6 Fair Value of Financial Instruments

The valuation techniques required to determine fair value are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect internal market assumptions. The two types of inputs create the following fair value hierarchy:

- Level 1 - Quoted prices for identical instruments in active markets.
- Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.
- Level 3 - Significant inputs to the valuation model are unobservable.

The fair value of cash equivalents and short term borrowings approximates their cost. The fair value of our available for sale marketable securities is determined based on quoted market prices for identical securities. Derivative financial instruments are measured at fair value, the material portions of which are based on active or inactive markets for identical or similar instruments or model-derived valuations whose inputs are observable. Where model-derived valuations are appropriate, we use the applicable credit spread as the discount rate. Credit risk related to derivative financial instruments is considered minimal and is managed by requiring high credit standards for counterparties and through periodic settlements of positions.

The fair value of our contingent consideration obligation to the Seller of NEK is revalued to its fair value each period and any recorded increase or decrease is recorded into selling, general and administrative expense. Any changes in the assumed timing and amount of the probability of payment scenarios could impact the fair value. At September 30, 2013, the estimated fair value of the liability for contingent consideration was \$3.5 million. We paid the Seller \$1.1 million during the six months ended March 31, 2014 upon the resolution of certain of the contingencies and at March 31, 2014 the estimated fair value of the remaining contingent consideration is \$2.4 million. We have estimated the fair value of the contingent consideration using a probability-weighted discounted cash flow model. We have estimated that the probability of payment of any amounts less than the maximum possible additional cash consideration of \$2.4 million is remote, and we have estimated that all contingent consideration amounts will be due within sixteen months of the acquisition date. As such, we have estimated that the fair value of the additional cash consideration approximates the maximum possible contingent payments to the Seller of \$2.4 million. There was no change in the fair value of the contingent consideration between the date of the acquisition of NEK and March 31, 2014 other than for payments of amounts to the Seller; therefore, there has been no change in contingent consideration recorded in operations. Significant judgment is employed in determining the appropriateness of these assumptions as of the acquisition date and each subsequent period. Accordingly, changes in the assumptions described above can materially impact the amount of contingent consideration expense we record in any period.

Table of Contents

The following table presents assets and liabilities measured and recorded at fair value on our balance sheets on a recurring basis (in thousands):

	March 31, 2014			Total
	Level 1	Level 2	Level 3	
Assets				
Cash equivalents	\$ 28,797	\$	\$	\$ 28,797
Marketable securities				
Current derivative assets		6,282		6,282
Noncurrent derivative assets		8,588		8,588
Total assets measured at fair value	\$ 28,797	\$ 14,870	\$	\$ 43,667
Liabilities				
Current derivative liabilities	\$	\$ 6,084	\$	\$ 6,084
Noncurrent derivative liabilities		8,286		8,286
Contingent consideration to Seller of NEK			2,368	2,368
Total liabilities measured at fair value	\$	\$ 14,370	\$ 2,368	\$ 16,738

	September 30, 2013			Total
	Level 1	Level 2	Level 3

Contingent consideration to Seller of NEK			3,485	3,485
Total liabilities measured at fair value	\$	\$ 7,726	\$ 3,485	\$ 11,211

We did not have any significant non-financial assets or liabilities measured at fair value after initial recognition on a non-recurring basis during the three and six months ended March 31, 2014 or 2013.

We carry financial instruments, including cash equivalents, accounts receivable, accounts payable and accrued liabilities at cost, which we believe approximates fair value because of the short-term maturity of these instruments.

Long-term debt and short-term borrowings are carried at amortized cost. The fair value of long-term debt is calculated by discounting the value of the note based on market interest rates for similar debt instruments, which is a Level 2 technique. The following table presents the estimated fair value and carrying value of our long-term debt (in millions):

	March 31, 2014	September 30, 2013
Fair value	\$ 97.1	\$ 95.8

Carrying value	\$	102.7	\$	102.9
----------------	----	-------	----	-------

Note 7 Financing Arrangements

In March 2013, we entered into a note purchase and private shelf agreement pursuant to which we issued \$100.0 million of senior unsecured notes, bearing interest at a rate of 3.35% and maturing on March 12, 2025. Interest on these notes is due semi-annually and principal payments are due from 2021 through 2025. In addition, pursuant to the agreement, we may from time to time issue and sell, and the purchasers may in their sole discretion purchase, within the next three years, additional senior notes in aggregate principal amount of up to \$25.0 million that will have terms, including interest rate, as we and the purchasers may agree upon at the time of issuance.

Table of Contents

We have a committed five-year revolving credit agreement (Revolving Credit Agreement) with a group of financial institutions in the amount of \$200 million, which expires in May 2017. The available line of credit is reduced by any letters of credit issued under the Revolving Credit Agreement. As of March 31, 2014, there were borrowings totaling \$30.0 million under this agreement and there were letters of credit outstanding totaling \$27.8 million, which reduce the available line of credit to \$142.2 million.

We have a secured letter of credit facility agreement with a bank (Secured Letter of Credit Facility) which is cancellable by us at any time upon the completion of certain conditions to the satisfaction of the bank. At March 31, 2014 there were letters of credit outstanding under this agreement of \$59.7 million. Restricted cash at March 31, 2014 of \$69.0 million was held on deposit in the U.K. as collateral in support of this Secured Letter of Credit Facility. We are required to leave the cash in the restricted account so long as the bank continues to maintain associated letters of credit under the facility. The maximum amount of letters of credit currently allowed by the facility is \$62.7 million, and any increase above this amount would require bank approval and additional restricted funds to be placed on deposit. We may choose at any time to terminate the facility and move the associated letters of credit to another credit facility. Letters of credit outstanding under the Secured Letter of Credit Facility do not reduce the available line of credit under the Revolving Credit Agreement.

As of March 31, 2014, we had letters of credit and bank guarantees outstanding totaling \$91.5 million, including the letters of credit outstanding under the Revolving Credit Agreement and the Secured Credit Facility described above, which guarantee either our performance or customer advances under certain contracts. In addition, we had financial letters of credit outstanding totaling \$11.2 million as of March 31, 2014, which primarily guarantee our payment of certain self-insured liabilities. We have never had a drawing on a letter of credit instrument, nor are any anticipated; therefore, we estimate the fair value of these instruments to be zero.

We maintain short-term borrowing arrangements in New Zealand and Australia totaling \$0.5 million New Zealand dollars (equivalent to approximately \$0.4 million) and \$3.0 million Australian dollars (equivalent to approximately \$2.8 million) to help meet the short-term working capital requirements of our subsidiaries in those countries. At March 31, 2014, no amounts were outstanding under these borrowing arrangements.

The terms of certain of our lending and credit agreements include provisions that require and/or limit, among other financial ratios and measurements, the permitted levels of debt, coverage of cash interest expense, and under certain circumstances, payments of dividends or other distributions to shareholders. As of March 31, 2014 this agreement does not restrict such distributions to shareholders. As a result of our restatement, we have been unable to comply with covenants requiring us to provide our lenders with audited financial statements and interim financial information on a timely basis. However, we have entered into amendments to our financing arrangements which have included waivers to extend the dates by which we are required to deliver our audited financial statements and interim financial information to May 31, 2014, and as such we are not in default under our lending arrangements or credit agreements.

Our self-insurance arrangements are limited to certain workers' compensation plans, automobile liability and product liability claims. Under these arrangements, we self-insure only up to the amount of a specified deductible for each claim. Self-insurance liabilities included in other current liabilities on the balance sheet amounted to \$8.0 million and \$8.8 million as of March 31, 2014, and September 30, 2013, respectively.

Note 8 Pension Plans

Edgar Filing: CUBIC CORP /DE/ - Form 10-Q

The components of net periodic pension cost (benefit) are as follows (in thousands):

	Six Months Ended March 31,		Three Months Ended March 31,	
	2014	2013	2014	2013
Service cost	\$ 306	\$ 276	\$ 154	\$ 136
Interest cost	4,956	4,461	2,485	2,217
Expected return on plan assets	(6,556)	(5,834)	(3,287)	(2,900)
Amortization of actuarial loss	397	907	199	450
Administrative expenses	76	38	38	19
Net pension benefit	\$ (821)	\$ (152)	\$ (411)	\$ (78)

Table of Contents

Note 9 - Stockholders' Equity

Long Term Equity Incentive Plan

On March 21, 2013, the Executive Compensation Committee of the Board of Directors (Compensation Committee) approved a long-term equity incentive award program and awarded 264,549 RSUs with time-based vesting and 161,962 RSUs with performance-based vesting to certain officers, directors and management. On December 12, 2013, the Compensation Committee approved additional awards of 110,812 RSUs with time-based vesting and 152,694 RSUs with performance-based vesting. On March 1, 2014 an additional 21,158 RSUs with time-based vesting were approved and awarded.

Each RSU represents a contingent right to receive one share of our common stock. Dividend equivalent rights accrue with respect to the RSUs when and as dividends are paid on our common stock and vest proportionately with the RSUs to which they relate. Vested shares are delivered to the recipient following each vesting date.

The RSUs with time-based vesting that were granted in March 2013 will vest in four equal installments on each of October 1, 2013, 2014, 2015 and 2016, subject to the recipient's continued service through such date. The RSUs with time-based vesting that were granted in December 2013 will vest in four equal installments on each of October 1, 2014, 2015, 2016 and 2017, subject to the recipient's continued service through such date. The RSUs with time-based vesting that were granted in March 2014 will vest in three installments on October 1, 2014, 2015 and 2016. The first installment is equal to 27% of the award, the second installment is equal to 33% of the award, and the third installment is equal to 40% of the award. This is subject to the recipient's continued service through such date.

The performance period for the performance-based vesting RSUs granted on March 21, 2013 is the period from October 1, 2012 to September 30, 2015. The performance period for the performance-based vesting RSUs granted on December 12, 2013 is October 1, 2013 to September 30, 2016. Recipients of the performance-based vesting RSUs will be eligible to vest in the RSUs at the end of the three-year performance period based on Cubic's achievement of performance goals established by the Executive Compensation Committee over the performance period, subject to the recipient's continued service through the end of the respective performance period. For the performance-based RSUs granted to date, the vesting will be contingent upon Cubic meeting one of three types of vesting criteria over the performance period. These three categories of vesting criteria consist of revenue growth targets, earnings targets, and return on equity targets. The level at which Cubic performs against scalable targets over the performance period will determine the percentage of the RSUs that will ultimately vest.

Through March 31, 2014, Cubic has granted 711,175 restricted stock units of which 69,994 have vested. At March 31, 2014, the total number of unvested RSUs that are ultimately expected to vest, after consideration of expected forfeitures and estimated vesting of performance-based RSUs is 363,311.

The following table summarizes our RSU activity for the six months ended March 31, 2014. The weighted-average grant date fair value of each RSU represents the fair market value of one share of our common stock at the grant date:

Unvested Restricted Stock Units

	Number of Shares		Weighted- Average Grant- Date Fair Value
Unvested at September 30, 2013	421,369	\$	43.76
Granted	263,506		49.51
Vested	(69,994)		43.76
Forfeited	(458)		43.76
Unvested at December 31, 2013	614,423		46.22
Granted	21,158		52.00
Vested			
Forfeited	(8,522)		49.88
Unvested at March 31, 2014	627,059	\$	46.46

Table of Contents**Note 10 - Stock-Based Compensation**

We recorded non-cash compensation expense related to stock-based awards for the three- and six-month periods ended March 31, 2014 and 2013 as follows (in thousands):

	Six Months Ended				Three Months Ended			
	March 31,		2013		March 31,		2013	
	2014		2013		2014		2013	
Cost of sales	\$	205	\$	4	\$	144	\$	4
Selling, general and administrative		2,380		55		1,581		55
	\$	2,585	\$	59	\$	1,725	\$	59

As of March 31, 2014, there was \$26.3 million of unrecognized compensation cost related to unvested RSUs. This amount is expected to be recognized over a weighted-average period of 1.7 years. Based upon the expected forfeitures and the expected vesting of performance-based RSUs, the aggregate grant-date fair value of unvested RSUs at March 31, 2014 expected to ultimately vest is \$17.0 million.

We are required to estimate forfeitures at the time of grant and revise those estimates in subsequent periods on a cumulative basis in the period the estimated forfeiture rate changes for all stock-based awards when significant events occur. We consider our historical experience with employee turnover as the basis to arrive at our estimated forfeiture rate. The forfeiture rate was estimated to be 12.5% per year as of March 31, 2014. To the extent the actual forfeiture rate is different from what we have estimated, stock-based compensation related to these awards will be different from our expectations.

Note 11 Income Taxes

Our effective tax rate for the three months ended March 31, 2014 was 27% as compared to 36% for the year ended September 30, 2013. The effective tax rate for the three months ended March 31, 2014 is lower than the year ended September 30, 2013, which reflected the unfavorable impact related to the goodwill impairment loss as well as an increase in the valuation allowance against deferred tax assets.

The amount of unrecognized tax benefits was \$4.7 million as of March 31, 2014 and \$4.8 million as of September 30, 2013, exclusive of interest and penalties. At March 31, 2014, the amount of unrecognized tax benefits from permanent tax adjustments that, if recognized, would favorably impact the effective rate was \$4.7 million. During the next 12 months, it is reasonably possible that resolution of reviews by taxing authorities, both domestic and international, could be reached with respect to approximately \$2.2 million of the unrecognized tax benefits depending on the timing of examinations and expiration of statute of limitations, either because our tax positions are sustained or because we agree to their disallowance and pay the related income tax.

We are subject to ongoing audits from various taxing authorities in the jurisdictions in which we do business. As of March 31, 2014, the tax years open under the statute of limitations in significant jurisdictions include fiscal years 2010-2013 in the U.K., 2009-2013 in New Zealand and 2010-2013 in the U.S. We have effectively settled all tax matters with the IRS for fiscal years prior to fiscal year 2011. We believe we have

adequately provided for uncertain tax issues that have not yet been resolved with federal, state and foreign tax authorities.

Companies are required to assess whether a valuation allowance should be recorded against their deferred tax assets (DTAs) by jurisdiction based on the consideration of all available evidence, with significant weight given to evidence that can be objectively verified and using a more likely than not realization standard. As of September 30, 2013, we evaluated our net DTAs, including an assessment of the cumulative income or loss over the prior three-year and future periods, to determine if a valuation allowance was required. With respect to Australia, we recorded a valuation allowance on net DTAs of approximately \$4.0. As of March 31, 2014, we continue to assess the need for a valuation allowance on DTAs and will record the related tax effects in the quarter in which a change in circumstance occurs.

Note 12 Derivative Instruments and Hedging Activities

In order to manage our exposure to fluctuations in interest and foreign currency exchange rates we utilize derivative financial instruments such as forward starting swaps and foreign currency forwards. We do not use any derivative financial instruments for trading or other speculative purposes.

Table of Contents

All derivatives are recorded at fair value, however, the classification of gains and losses resulting from changes in the fair values of derivatives are dependent on the intended use of the derivative and its resulting designation. If a derivative is designated as a fair value hedge, then a change in the fair value of the derivative is offset against the change in the fair value of the underlying hedged item and only the ineffective portion of the hedge, if any, is recognized in earnings. If a derivative is designated as a cash flow hedge, then the effective portion of a change in the fair value of the derivative is recognized as a component of accumulated other comprehensive income until the underlying hedged item is recognized in earnings, or the forecasted transaction is no longer probable of occurring. If a derivative does not qualify as a highly effective hedge, any change in fair value is immediately recognized in earnings. We formally document all hedging relationships for all derivative hedges and the underlying hedged items, as well as the risk management objectives and strategies for undertaking the hedge transactions. We classify the fair value of all derivative contracts as current or non-current assets or liabilities, depending on the realized and unrealized gain or loss position of the hedged contract at the balance sheet date, and the timing of future cash flows. The cash flows from derivatives treated as hedges are classified in the Condensed Consolidated Statements of Cash Flows in the same category as the item being hedged.

The following table shows the notional principal amounts of our outstanding derivative instruments as of March 31, 2014 and September 30, 2013 (in thousands):

	Notional Principal	
	March 31, 2014	September 30, 2013
Instruments designated as accounting hedges:		
Foreign currency forwards	\$ 395,739	\$ 361,337
Forward starting swap		58,415
Instruments not designated as accounting hedges:		
Foreign currency forwards	\$ 885	\$ 2,697
Forward starting swap	55,962	

The notional principal amounts for outstanding derivative instruments provide one measure of the transaction volume outstanding and do not represent the amount of our exposure to credit or market loss. Credit risk represents our gross exposure to potential accounting loss on derivative instruments that are outstanding or unsettled if all counterparties failed to perform according to the terms of the contract, based on then-current interest or currency exchange rates at each respective date. Our exposure to credit loss and market risk will vary over time as a function of interest and currency exchange rates. The amount of credit risk from derivative instruments and hedging activities was not material for the periods ended March 31, 2014 and September 30, 2013. Although the table above reflects the notional principal amounts of our forward starting swaps and foreign exchange instruments, it does not reflect the gains or losses associated with the exposures and transactions that the forward starting swaps and foreign exchange instruments are intended to hedge. The amounts ultimately realized upon settlement of these financial instruments, together with the gains and losses on the underlying exposures, will depend on actual market conditions during the remaining life of the instruments.

We generally enter into master netting arrangements, which reduce credit risk by permitting net settlement of transactions with the same counterparty. We present our derivative assets and derivative liabilities at their gross fair values. We did not have any derivative instruments with credit-risk related contingent features that would require us to post collateral as of March 31, 2014 or September 30, 2013.

Table of Contents

The table below presents the fair value of our derivative financial instruments that qualify for hedge accounting as well as their classification in the Condensed Consolidated Balance Sheets as of March 31, 2014 and September 30, 2013 (in thousands):

	Balance Sheet Location	Fair Value	
		March 31, 2014	September 30, 2013
Asset derivatives:			
Foreign currency forwards	Other current assets	\$ 6,282	\$ 1,597
Foreign currency forwards	Other noncurrent assets	7,738	4,957
Forward starting swap	Other noncurrent assets	850	1,139
		\$ 14,870	\$ 7,693
Liability derivatives:			
Foreign currency forwards	Other current liabilities	\$ 6,084	\$ 2,360
Foreign currency forwards	Other noncurrent liabilities	8,286	5,366
Total		\$ 14,370	\$ 7,726

The tables below present gains and losses recognized in other comprehensive income (OCI) for the three and six months ended March 31, 2014 and 2013 related to derivative financial instruments designated as cash flow hedges, as well as the amount of gains and losses reclassified into earnings during those periods (in thousands):

Derivative Type	March 31, 2014		March 31, 2013		Six Months Ended		March 31, 2014		March 31, 2013	
	Gains (losses) recognized in OCI	Gains (losses) reclassified into earnings - Effective Portion	Gains (losses) recognized in OCI	Gains (losses) reclassified into earnings - Effective Portion	Gains (losses) recognized in OCI	Gains (losses) reclassified into earnings - Effective Portion	Gains (losses) recognized in OCI	Gains (losses) reclassified into earnings - Effective Portion	Gains (losses) recognized in OCI	Gains (losses) reclassified into earnings - Effective Portion
Foreign currency forwards	\$ (97)	\$ 35	\$ (1,892)	\$ (2,052)	Other income/(expense), net		\$		\$	
Forward starting swap	(217)		(164)		Other income/(expense), net			837		
	\$ (314)	\$ 35	\$ (2,056)	\$ (2,052)			\$	837	\$	

Derivative Type	March 31, 2014		March 31, 2013		Three Months Ended		March 31, 2014		March 31, 2013	
	Gains (losses) recognized in OCI	Gains (losses) reclassified into earnings - Effective Portion	Gains (losses) recognized in OCI	Gains (losses) reclassified into earnings - Effective Portion	Gains (losses) recognized in OCI	Gains (losses) reclassified into earnings - Effective Portion	Gains (losses) recognized in OCI	Gains (losses) reclassified into earnings - Effective Portion	Gains (losses) recognized in OCI	Gains (losses) reclassified into earnings - Effective Portion
Foreign currency forwards	\$ (2,066)	\$ 84	\$ (1,435)	\$ 20	Other income/(expense), net		\$		\$	
Forward starting swap			309		Other income/(expense), net			434		
	\$ (2,066)	\$ 84	\$ (1,126)	\$ 20			\$	434	\$	

For the three and six months ended March 31, 2014, we recognized a gain of \$0.4 million and \$0.8 million, respectively, related to derivative instruments classified as not highly effective. The amount of gains and losses from derivative instruments and hedging activities classified as not highly effective did not have a material impact on the results of operations for the three and six months ended March 31, 2013. The amount of estimated unrealized net gains from cash flow hedges which are expected to be reclassified to earnings in the next twelve months is \$0.1 million, net of income taxes.

Forward starting swap

In connection with a transportation systems contract that we entered in December 2011, we have incurred significant costs to develop the customer's fare collection system before we begin receiving payments under the contract. In order to finance certain of these costs, we had planned to issue at least \$83 million of 10-year fixed rate debt. Originally, the planned date of issuance of the debt was January 1, 2014. In the first quarter of fiscal 2014, we continued to believe that it was probable that we would issue the debt, but we revised our estimated date of the issuance to July 1, 2014. In the second quarter of fiscal 2014, we again revised our estimate such that we now believe that it is not probable that the debt issuance will occur. Instead, we believe that it is likely that the transportation contract will be monetized in a manner other than the originally contemplated debt issuance.

Table of Contents

Due to concern that market interest rates for the 10-year forward period of January 1, 2014 to January 1, 2024 would change through January 1, 2014, exposing the LIBOR benchmark component of each of the 20 projected semi-annual interest cash flows of that future 10-year period to risk of variability, in July 2012 we entered into a forward-starting 10-year swap contract with a bank to reduce the interest rate variability exposure of the projected interest cash flows on the planned debt issuance. This forward-starting swap had a termination date of January 1, 2014. On December 18, 2013, we modified the forward starting swap such that the termination date is now July 1, 2014. The modified forward-starting swap has a notional amount of \$56.0 million, and a pay 1.881% fixed rate, receive 3- month LIBOR, with fixed rate payments due semi-annually on the first day each June and December commencing June 1, 2014 through December 1, 2023, floating payments due quarterly on the first day of each quarter commencing March 1, 2014 through December 2023, and floating reset dates two days prior to the first day of each calculation period. The swap contracts accrual period, January 1, 2014 to December 1, 2023 was designed to match the tenor of the planned debt issuance.

Prior to the modification of the forward-starting swap on December 18, 2013, the forward starting swap was deemed to be a highly effective cash flow hedge. Upon modification of the forward-starting swap, we did not elect to designate the modified forward-starting swap as an accounting hedge. As such, an amount equal to the fair value of the forward-starting swap immediately prior to the modification of the instrument of \$1.0 million was included in accumulated other comprehensive income at December 31, 2013, and changes in the fair value of the forward-starting swap subsequent to the date of the modification were recognized in earnings. The change in the fair value of the forward starting swap from the date of the modification to December 31, 2013 resulted in the recognition of income of \$0.4 million in the first quarter of fiscal 2014. Changes in the fair value of the forward starting swap in the second quarter of fiscal 2014 resulted in the recognition of a loss of \$0.6 million. Also, in the second fiscal quarter of 2014, upon making the assessment that it was no longer probable that the originally planned debt issuance would occur, the derivative gain of \$1.0 million previously reported in accumulated other comprehensive income was reclassified into earnings.

Foreign currency forwards

In order to limit our exposure to foreign currency exchange rate risk we generally hedge those commitments greater than \$50,000 by using foreign currency exchange forward and option contracts that are denominated in currencies other than the functional currency of the subsidiary responsible for the commitment, typically the British pound, Canadian dollar, Singapore dollar, euro, Swedish krona, New Zealand dollar and Australian dollar. These contracts are designed to be effective hedges regardless of the direction or magnitude of any foreign currency exchange rate change, because they result in an equal and opposite income or cost stream that offsets the change in the value of the underlying commitment.

Table of Contents**Note 13 Segment Information**

Business segment financial data is as follows (in millions):

	Six Months Ended March 31,		Three Months Ended March 31,	
	2014	2013 (As Restated)	2014	2013 (As Restated)
Sales:				
Transportation Systems	\$ 276.1	\$ 263.6	\$ 149.0	\$ 142.4
Mission Support Services	199.9	235.6	100.7	122.2
Defense Systems	185.6	183.9	104.8	103.9
Other		0.3		0.1
Total sales	\$ 661.6	\$ 683.4	\$ 354.5	\$ 368.6
Operating income (loss):				
Transportation Systems	\$ 19.9	\$ 50.5	\$ 16.8	\$ 35.3
Mission Support Services	4.2	7.8	1.4	3.6
Defense Systems	12.8	1.5	5.7	
Unallocated corporate expenses and other	(2.9)	(1.9)	(1.7)	(1.5)
Total operating income	\$ 34.0	\$ 57.9	\$ 22.2	\$ 37.4
Depreciation and amortization:				
Transportation Systems	\$ 5.8	\$ 1.5	\$ 3.2	\$ 1.0
Mission Support Services	5.8	6.5	2.6	3.4
Defense Systems	3.2	2.9	1.8	2.1
Other	0.4	0.7	0.2	0.4
Total depreciation and amortization	\$ 15.2	\$ 11.6	\$ 7.8	\$ 6.9

Changes in estimates on contracts for which revenue is recognized using the cost-to-cost-percentage-of-completion method had no impact to operating profit for the three months ended March 31, 2014 and increased operating profit by \$3.5 million for the three months ended March 31, 2013, and increased operating profit by \$2.5 million and \$4.4 million for the six months ended March 31, 2014 and 2013, respectively.

These adjustments had no impact to net income for the three months ended March 31, 2014 and increased net income by approximately \$2.8 million (\$0.11 per share) for the three months ended March 31, 2013, and increased net income by \$2.5 million (\$0.09 per share) and \$3.7 million (\$0.14 per share) for the six months ended March 31, 2014 and 2013, respectively.

Note 14 Legal Matters

In November 2011, we received a claim from a public transit authority customer which alleges that the authority incurred a loss of transit revenue due to the inappropriate and illegal actions of one of our former employees, who has pled guilty to the charges. This individual was employed to work on a contract we acquired in a business combination in 2009 and had allegedly been committing these illegal acts from almost two years prior to our acquisition of the contract, until his arrest in May 2011. The transit system was designed and installed by a company

unrelated to us. The claim currently seeks recoupment from us of a total amount of \$3.9 million for alleged lost revenue, fees and damages. In March 2012, the county superior court entered a default judgment against our former employee and others for \$2.9 million based upon the estimated loss of revenue by the public transit authority customer. In 2012, we recorded an accrued cost of \$2.9 million within general and administrative expense in the transportation systems segment based upon the court's assessment of these losses. We have not recorded expense for any amount in excess of the \$2.9 million through March 31, 2014 as no other amount of loss is deemed probable. Insurance may cover all, or a portion, of any losses we could ultimately incur for this matter. However, any potential insurance proceeds will not be recognized in the financial statements until receipt of any such proceeds is probable.

Table of Contents

In October and December of 2013, and January of 2014, lawsuits were filed in the United States District Court for the Northern District of Illinois, Eastern Division against us and one of our transit customers alleging variously, among other things, breach of contract, violation of the Illinois Consumer Fraud Act, unjust enrichment and violation of the Electronic Funds Act. In January 2014 these cases were consolidated into a single case and the Plaintiffs are seeking to have the case certified as a class action. Plaintiffs variously claim, among other things, that: (i) they were wrongly charged for calling the call center that we operate for patrons of our transit customer, (ii) they were wrongly charged for a transfer and a second fare, (iii) they were not credited the cost of a transit card even after registration of the card, as is required under the terms of the cardholder agreement, and (iv) they were double charged for rides taken. We are undertaking the defense of the transit customer pursuant to our contractual obligations to that customer. We are investigating the matter and plan to vigorously defend this lawsuit. Due to the preliminary nature of this case, we cannot estimate the probability of loss or any range of estimate of possible loss.

Also in October 2013, a lawsuit was filed in the Circuit Court of Cook County, Illinois, County Department, Chancery Division against our same transit customer alleging conversion and unjust enrichment. The plaintiff alleges his bank debit card was charged two dollars and twenty-five cents for his ride on the transit system rather than the ride being charged to his transit fare card. This plaintiff is also seeking to have his case certified as a class action for all patrons whose bank cards were charged in the same manner. We are investigating the matter and we are undertaking the defense pursuant to our contractual obligations to our transit customer. We plan to vigorously defend this lawsuit. Our Motion to Dismiss was granted on April 30, 2014 and the plaintiff has until May 27, 2014 to file an Amended Complaint. Due to the preliminary nature of this case, we cannot estimate the probability of loss or any range of estimate of possible loss.

We are not a party to any other material pending proceedings and we consider all other matters to be ordinary proceedings incidental to the business. We believe the outcome of these other proceedings will not have a materially adverse effect on our financial position, results of operations, or cash flows.

Note 15 Subsequent Events

We have completed an evaluation of all subsequent events through the issuance date of these consolidated financial statements and concluded no subsequent events have occurred that require recognition or disclosure.

CUBIC CORPORATION

**ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS**

March 31, 2014

We are a leading international provider of cost-effective systems and solutions that address the transportation and global defense markets most pressing and demanding requirements. We are engaged in the design, development, manufacture, integration, and sustainment of advanced technology systems and products. We also provide a broad range of engineering, training, technical, logistic, and information technology services. We serve the needs of various federal and regional government agencies in the U.S. and other allied nations around the world with

Edgar Filing: CUBIC CORP /DE/ - Form 10-Q

products and services that have both defense and civil applications. Our main areas of focus are in transportation payment and information systems, defense, intelligence, homeland security, and information technology, including cyber security.

We operate in three reportable business segments: Cubic Transportation Systems (CTS), Mission Support Services (MSS) and Cubic Defense Systems (CDS). We organize our business segments based on the nature of the products and services offered.

CTS is a systems integrator that develops and provides fare collection infrastructure, services and technology, traffic management and road enforcement systems and services, and real-time passenger information systems and services for transportation authorities and operators worldwide. We offer fare collection devices, software systems and multiagency, multimodal transportation integration technologies, as well as a full suite of operational services that help agencies efficiently collect fares, manage operations, reduce revenue leakage and make transportation more convenient. We provide a wide range of services for transportation authorities in major markets worldwide, including computer hosting services, call center and web services, payment media issuance and distribution services, retail point of sale network management, payment processing and enforcement, financial clearing and settlement, software application support and outsourced asset operations and maintenance.

Table of Contents

MSS is a leading provider of highly specialized support services to the U.S. government and allied nations. Services provided include live, virtual and constructive training, real-world mission rehearsal exercises, professional military education, intelligence support, information technology, information assurance and related cyber support, development of military doctrine, consequence management, infrastructure protection and force protection, as well as support to field operations, and logistics.

CDS is focused on two primary lines of business: Training Systems and Secure Communications. CDS is a diversified supplier of live and virtual military training systems, and secure communication systems and products to the U.S. Department of Defense, other U.S. government agencies and allied nations. We design and manufacture instrumented range systems for fighter aircraft, armored vehicles and infantry force-on-force live training weapons effects simulations, laser-based tactical and communication systems, and precision gunnery solutions. Our secure communications products are aimed at intelligence, surveillance, asset tracking and search and rescue markets.

Consolidated Overview

Sales for the quarter ended March 31, 2014 decreased 4% to \$354.5 million from \$368.6 million last year. MSS sales decreased 18% compared to the second quarter of last year, while CTS sales and CDS sales increased 5% and 1%, respectively. For the first six months of the fiscal year, sales decreased to \$661.6 million compared to \$683.4 million last year, a decrease of 3%. MSS sales decreased 15% compared to the first six months of last year, while CTS and CDS sales increased 5% and 1%, respectively. The sales generated by businesses we acquired during 2014 and 2013 totaled \$27.1 million and \$46.7 million for the three- and six-month periods ended March 31, 2014 and \$10.6 million and \$11.1 million for the three- and six-month periods ended March 31, 2013, respectively. See the segment discussions following for further analysis of segment sales.

Operating income was \$22.2 million in the second quarter compared to \$37.4 million in the second quarter of last year, a decrease of 41%. CTS operating income decreased 52% and MSS operating income decreased 61% while CDS operating income increased \$5.7 million, from break-even in the second quarter of last year, which had included a restructuring charge of \$6.1 million compared to \$0.2 million this year. Businesses we acquired during 2014 and 2013 contributed an operating loss of \$4.4 million, including \$0.2 million of transaction-related costs and \$3.1 million of compensation expense, which was paid to Intific Inc. (Intific) employees upon the acquisition by Cubic, for the three months ended March 31, 2014 and an operating loss of \$0.6 million, including \$0.2 million of transaction-related costs, for the three months ended March 31, 2013. Unallocated corporate and other costs for the second quarter of 2014 were \$1.7 million compared to \$1.5 million in 2013.

Operating income for the six-month period decreased 41% to \$34.0 million from \$57.9 million last year. CTS and MSS operating income decreased 61% and 46%, respectively, compared to the first six months of last year, while CDS operating income increased to \$12.8 million from \$1.5 million last year. CDS operating results for the six-month period included the restructuring costs mentioned above. Businesses we acquired in 2014 and 2013 generated operating losses of \$5.9 million, including \$0.6 million of transaction-related costs and \$3.1 million of compensation expense, which was paid to Intific employees upon the acquisition by Cubic, for the six months ended March 31, 2014 and \$0.8 million for the six months ended March 31, 2013, including \$0.6 million of transaction-related costs. Unallocated corporate and other expenses for the first six months of the fiscal year were \$2.9 million for 2014 and \$1.9 million for 2013.

Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (Adjusted EBITDA) decreased to \$30.0 million in the quarter from \$44.3 million in the second quarter of last year. For the first six months of the fiscal year, Adjusted EBITDA decreased to \$49.2 million compared to \$69.5 million last year. The changes in Adjusted EBITDA for the quarter and six-month period ended March 31, 2014 are primarily related to the changes in operating income for the corresponding periods. See below for a reconciliation of this non-GAAP metric to net income and an explanation of why we believe it to be an important measure of performance.

Net income attributable to Cubic for the second quarter of fiscal 2014 decreased to \$16.1 million, or 60 cents per share, compared to \$29.7 million, or \$1.11 per share last year. Net income decreased for the quarter primarily due to the decrease in operating income partially offset by a decrease in income tax expense.

For the first six months of the year, net income attributable to Cubic decreased to \$24.5 million, or 91 cents per share, from \$43.9 million, or \$1.64 per share last year. The decrease in net income for the six-month period was primarily due to a decrease in operating income, partially offset by a decrease in income tax expense. In the first quarter of fiscal 2013, we recorded \$0.6 million of interest expense related to a judgment against us, which required us to pay such amount of interest to the court on behalf of a party that had filed claims against us. Also, interest and dividend income decreased for the six-month period based upon the decrease in our average cash balances over the periods. Included in other income was a net foreign currency exchange loss of \$1.2 million in the first six months this year compared to a loss of \$0.2 million last year, before applicable income taxes. Gains recognized in other income related to our forward starting swap totaled \$0.4 million and \$0.8 million for the three- and six-month periods ended March 31, 2014, respectively. No gains or losses related to our forward starting swap were recognized in fiscal year 2013.

Table of Contents

Our gross margin percentage on product sales decreased to 25% in the second quarter of 2014 from 29% last year, and stayed consistent at 27% for the six months ended March 31, 2014 and 2013. The decrease in the gross margin percentage in the second quarter of 2014 is primarily due to lower sales of air combat training systems in CDS.

Our gross margin percentage on service sales decreased to 22% in the second quarter of 2014 from 24% last year, and decreased to 17% in the first six months of 2014 from 22% last year. The decrease in the gross margin percentages on services sales for the three- and six-month periods ended March 31, 2014 is primarily the result of increased costs of providing services on a transportation contract in Chicago. The provision of services under this contract began just prior to the end of fiscal 2013. Revenue recognized on this contract is limited to billable amounts, which will be significantly less than costs incurred to provide these services until the billable amounts increase as the contract progresses.

Selling, general and administrative (SG&A) expenses increased in the second quarter of 2014 to \$48.3 million compared to \$41.3 million in 2013. For the six-month period, SG&A increased to \$85.0 million compared to \$82.3 million last year. As a percentage of sales, SG&A expenses were 14% for the second quarter and 13% for the six-month period of fiscal 2014 compared to 11% and 12%, respectively, in 2013. The increase in SG&A expenses in the second quarter was primarily due to SG&A expenses associated with companies acquired in 2013 and 2014. In addition, share based compensation expense added \$1.6 million and \$2.4 million to SG&A expenses for the second quarter and first six months of the year, respectively, compared to \$0.1 million for each of the corresponding periods last year.

Company funded research and development expenditures, which relate to new defense and transportation technologies under development, decreased to \$5.0 million for the second quarter compared to \$7.1 million last year, and decreased to \$9.9 million for the six-month period this year compared to \$12.9 million last year. Amortization of purchased intangibles increased for the second quarter of 2014 to \$6.0 million compared to \$4.3 million last year due to the increase in intangible assets related to businesses acquired during 2013 and 2014. Amortization of purchased intangibles for the first six months of 2014 increased to \$11.4 million from \$7.8 million in 2013.

We estimate our annual effective income tax rate for fiscal 2014 will be approximately 26%. The effective rate for fiscal 2014 could be affected by, among other factors, the mix of business between the U.S. and foreign jurisdictions, our ability to take advantage of available tax credits and audits of our records by taxing authorities.

Transportation Systems Segment (CTS)

	Six Months Ended March 31,			Three Months Ended March 31,		
	2014	2013	(in millions)	2014	2013	(in millions)
		(As Restated)			(As Restated)	
Transportation Systems Segment Sales	\$ 276.1	\$ 263.6		\$ 149.0	\$ 142.4	
Transportation Systems Segment Operating Income	\$ 19.9	\$ 50.5		\$ 16.8	\$ 35.3	

CTS sales increased 5% in the second quarter to \$149.0 million compared to \$142.4 million last year, and increased 5% for the six-month period to \$276.1 million from \$263.6 million last year. Businesses acquired by CTS in fiscal years 2013 and 2014 contributed sales of \$15.1

Edgar Filing: CUBIC CORP /DE/ - Form 10-Q

million and \$22.0 million during the quarter and six months ended March 31, 2014, respectively, compared to \$1.5 million for the quarter and six months ended March 31, 2013. During the first half of fiscal 2014, sales increased from a system development and services contract in Chicago and from system development contracts in the U.K.

For the quarter and six-month period ended March 31, 2014, CTS realized lower sales from a contract to design and build a system in Vancouver compared to the quarter and six-month period ended March 31, 2013 and from a contract to design and build a system in Sydney and other related contracts in Australia. These decreases primarily reflect expected reductions in activity based on the stage of completion of these contracts for the quarter and six-month period ended March 31, 2014 as compared to the corresponding periods in 2013. The average exchange rates between the prevailing currency in our foreign operations and the U.S. dollar resulted in an increase in sales of \$0.3 million for the second quarter and a decrease of \$2.0 million for the six-month period compared to the same period last year.

Table of Contents

CTS operating income decreased 52% in the second quarter to \$16.8 million compared to \$35.3 million last year, and decreased 61% for the six-month period to \$19.9 million from \$50.5 million last year. The provision of services on a contract in Chicago began towards the end of fiscal year 2013, however, revenue recognized on this contract is limited to billable amounts, which will be significantly less than costs incurred to provide these services until the billable amounts increase as the contract progresses. As a result, the operating losses from the Chicago contract in the quarter and six-month period were \$13.7 million and \$26.1 million, respectively. In addition, for the six-month period operating margins were lower on decreased sales and increases in estimated total costs for the development of a system in Vancouver mentioned above. We are also in a phase of the Sydney contract where we are continuing to install the system while transitioning to full operations and the costs incurred to provide services are greater than the billable revenues for those services. Profit margins are expected to improve as the Sydney system moves into full operations in the first half of next year. An increase in estimated development costs of a supplier for new rail ticketing technology for a customer in the U.K. also impacted the first half this year by \$2.2 million and we have since diversified the supply of development work for this contract. The decrease in operating income for the quarter and six-month period was partially offset by increased system usage bonuses on our contract in London. Businesses acquired by CTS in 2013 and 2014 had operating losses of \$0.5 million and \$1.7 million, respectively, for the three- and six-month periods ended March 31, 2014 compared to an operating loss of \$0.3 million for each of the three- and six-month periods ended March 31, 2013. The average exchange rates between the prevailing currency in our foreign operations and the U.S. dollar resulted in an increase in operating income of \$1.5 million for the second quarter and \$1.9 million for the six-month period compared to the same periods last year.

Mission Support Services Segment (MSS)

	Six Months Ended March 31,			Three Months Ended March 31,		
	2014	2013	(in millions)	2014	2013	(in millions)
		(As Restated)			(As Restated)	
Mission Support Services Segment Sales	\$ 199.9	\$ 235.6		\$ 100.7	\$ 122.2	
Mission Support Services Segment Operating Income	\$ 4.2	\$ 7.8		\$ 1.4	\$ 3.6	

MSS sales decreased 18% in the second quarter to \$100.7 million compared to \$122.2 million last year, and decreased 15% for the six-month period to \$199.9 million from \$235.6 million last year. Sales in the first half of the fiscal year were lower due in part to the U.S. government's shut down in October 2013 and to reductions in spending by the U.S. government. The decrease in sales was also caused by the loss of a contract due to a lower bid by a competitor. These reductions were partially offset by growth in the Simulator Training business area due to the win of a new contract. NEK Special Programs Group LLC (NEK), a Special Operation Forces training business acquired in December 2012 had sales of \$8.9 million and \$19.6 million for the three- and six-month periods ended March 31, 2014 compared to sales of \$9.1 million and \$9.6 million for the three- and six-month periods ended March 31, 2013. Absent the increase in sales from NEK, MSS sales would have decreased by 20% in the six-month period.

MSS operating income decreased 61% in the second quarter to \$1.4 million compared to \$3.6 million last year, and decreased 46% for the six-month period to \$4.2 million from \$7.8 million last year. The decreased operating income for the quarter and six-month period resulted from the sales decreases described above and reduced profit margins on contracts due to competitive pressures driving down bid prices. Operating income also decreased as a result of a focused investment we are making to increase our footprint in the Special Operations Forces market. NEK had an operating loss of \$0.4 million for the quarter and \$0.6 million for the six-month period ended March 31, 2014 compared to \$0.3 million for the quarter and \$0.5 million for the six-month period ended March 31, 2013, which had included \$0.4 million of acquisition-related costs.

Table of Contents**Defense Systems Segment (CDS)**

	Six Months Ended March 31,		Three Months Ended March 31,	
	2014	2013	2014	2013
	(in millions)			
	(As Restated)		(As Restated)	
<u>Defense Systems Segment Sales</u>				
Training systems	\$ 159.3	\$ 152.7	\$ 89.3	\$ 88.3
Secure communications	26.3	31.2	15.5	15.6
	\$ 185.6	\$ 183.9	\$ 104.8	\$ 103.9
<u>Defense Systems Segment Operating Income</u>				
Training systems	\$ 12.4	\$ 9.5	\$ 5.8	\$ 6.7
Secure communications	0.7	(1.9)	0.3	(0.6)
Restructuring costs	(0.3)	(6.1)	(0.4)	(6.1)
	\$ 12.8	\$ 1.5	\$ 5.7	\$

Training Systems

Training systems sales increased 1% in the second quarter to \$89.3 million compared to \$88.3 million last year, and increased 4% for the six-month period to \$159.3 million from \$152.7 million last year. Businesses acquired by CDS in 2013 and 2014 contributed training system sales of \$3.1 million and \$5.1 million for the three- and six-month periods ended March 31, 2014 and had no significant sales for the comparable periods ended March 31, 2013. In addition, sales were higher for both the quarter and six-month period from a new ground combat training system development contract in the Far East, from tactical engagement simulation system contracts and from simulator contracts, including a new contract to develop simulation trainers for the Littoral Combat Ships. These increases in sales were nearly offset by lower sales of air combat training systems for the quarter and six-month period.

Operating income decreased 13% in the second quarter to \$5.8 million compared to \$6.7 million last year, and increased 31% for the six-month period to \$12.4 million from \$9.5 million last year. Higher operating income on increased sales from the ground combat training system, simulator and development contracts mentioned above contributed to the increase in operating income for the six-month period. Profit margin improvement was also partially due to the restructuring activity in the second quarter of 2013, which reduced ongoing costs. Training system businesses acquired by CDS in 2013 and 2014 incurred operating losses of \$3.5 million and \$3.6 million for the three- and six-month periods ended March 31, 2014, respectively, and had no operating losses in the comparable periods ended March 31, 2013. These operating losses, for the three- and six-month periods ended March 31, 2014, included \$0.2 million of transaction and acquisition related costs and \$3.1 million of compensation expense which was paid to Intific employees upon the close of the acquisition. The increases in operating income for the quarter and first half of the fiscal year were also partially offset by decreased operating income on lower sales of air combat training systems.

Secure Communications

Secure communications sales decreased 1% in the second quarter to \$15.5 million compared to \$15.6 million last year, and decreased 16% for the six-month period to \$26.3 million from \$31.2 million last year. Sales were lower from personnel locator system and asset tracking products, while sales of data links increased.

Operating income was \$0.3 million in the second quarter compared to an operating loss of \$0.6 million last year, and increased for the six-month period to an operating income of \$0.7 million from an operating loss of \$1.9 million last year. In the second quarter and first half of fiscal 2013, we had experienced cost increases of \$1.4 million and \$2.6 million, respectively, on a U.S. government contract for data link products. The improvement this year from data links was partially offset by lower profits on lower sales of personnel locator systems.

Table of Contents**Backlog**

	March 31, 2014	September 30, 2013
	(in millions)	
		(As Restated)
Total backlog		
Transportation Systems	\$ 1,403.7	\$ 1,526.4
Mission Support Services	604.3	626.7
Defense Systems:		
Training systems	614.1	457.8
Secure communications	42.4	35.7
Total Defense Systems	656.5	493.5
Total	\$ 2,664.5	\$ 2,646.6
Funded backlog		
Transportation Systems	\$ 1,403.7	\$ 1,526.4
Mission Support Services	154.0	221.0
Defense Systems:		
Training systems	614.1	457.8
Secure communications	42.4	35.7
Total Defense Systems	656.5	493.5
Total	\$ 2,214.2	\$ 2,240.9

Total backlog increased \$17.9 million from September 30, 2013 to March 31, 2014. Decreases in backlog for CTS and MSS were more than offset by an increase in backlog for CDS. Changes in exchange rates between the prevailing currency in our foreign operations and the U.S. dollar as of the end of the quarter increased backlog by \$17.0 million compared to September 30, 2013.

The difference between total backlog and funded backlog represents options under multiyear MSS service contracts. Funding for these contracts comes from annual operating budgets of the U.S. government and the options are normally exercised annually. Funded backlog includes unfilled firm orders for our products and services for which funding has been both authorized and appropriated by the customer (Congress, in the case of U.S. government agencies). Options for the purchase of additional systems or equipment are not included in backlog until exercised. In addition to the amounts identified above, we have been selected as a participant in or, in some cases, the sole contractor for several substantial indefinite delivery/ indefinite quantity (ID/IQ) contracts. ID/IQ contracts are not included in backlog until an order is received. In the past, many of the contracts we were awarded in MSS were long-term in nature, spanning periods of five to ten years. The U.S. Department of Defense now awards shorter-term contracts for the services we provide and increasingly relies upon ID/IQ contracts which can result in a lower backlog and/or lower funded backlog due to the shorter-term nature of Task Orders issued under these ID/IQ awards. We also have several service contracts in our transportation business that include contingent revenue provisions tied to meeting certain performance criteria. These variable revenues are also not included in the amounts identified above.

Table of Contents

Adjusted EBITDA

Adjusted EBITDA represents net income attributable to Cubic before interest, taxes, non-operating income, goodwill impairment charges, depreciation and amortization. We believe that the presentation of Adjusted EBITDA included in this report provides useful information to investors with which to analyze our operating trends and performance and ability to service and incur debt. Also, Adjusted EBITDA is a factor we use in measuring our performance and compensating certain of our executives. Further, we believe Adjusted EBITDA facilitates company-to-company operating performance comparisons by backing out potential differences caused by variations in capital structures (affecting net interest expense), taxation, the age and book depreciation of property, plant and equipment (affecting relative depreciation expense), goodwill impairment charges and non-operating expenses which may vary for different companies for reasons unrelated to operating performance. In addition, we believe that Adjusted EBITDA is frequently used by securities analysts, investors and other interested parties in their evaluation of companies, many of which present an Adjusted EBITDA measure when reporting their results. Adjusted EBITDA is not a measurement of financial performance under U.S. generally accepted accounting principles (GAAP) and should not be considered as an alternative to net income as a measure of performance. In addition, other companies may define Adjusted EBITDA differently and, as a result, our measure of Adjusted EBITDA may not be directly comparable to Adjusted EBITDA of other companies. Furthermore, Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

- Adjusted EBITDA does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;
- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;
- Adjusted EBITDA does not reflect the interest expense, or the cash requirements necessary to service interest or principal payments, on our debt;
- Adjusted EBITDA does not reflect our provision for income taxes, which may vary significantly from period to period; and
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements.

Because of these limitations, Adjusted EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business. We compensate for these limitations by relying primarily on our GAAP results and using Adjusted EBITDA only supplementally. You are cautioned not to place undue reliance on Adjusted EBITDA.

The following table reconciles Adjusted EBITDA to net income attributable to Cubic, which we consider to be the most directly comparable GAAP financial measure to Adjusted EBITDA:

Edgar Filing: CUBIC CORP /DE/ - Form 10-Q

Table of Contents

Liquidity and Capital Resources

Operating activities used cash of \$29.3 million for the six-month period. Increases in accounts receivable, inventories, and long-term capitalized contract costs and decreases in accounts payable contributed to the use of cash. Long-term capitalized contract costs consist of costs incurred on a contract to develop and manufacture a transportation fare system for a customer for which revenue recognition did not begin until the customer began operating the system in the fourth quarter of 2013. These capitalized costs are being amortized into cost of sales based upon the ratio of revenue recorded during the period compared to the revenue expected to be recognized over the term of the contract. The growth in inventory relates primarily to air and ground combat training systems being built for customer orders for which revenue and costs will be recorded upon delivery. The growth in accounts receivable primarily related to several large on-going contracts we worked on during the first half of fiscal 2014, including transportation systems contracts in Australia and the U.S. Negative cash flows on these contracts at this stage of their completion is in accordance with contract terms. Contract terms, including payment terms on our long-term development contracts, are customized for each contract based upon negotiations with the respective customer. The customized payment terms on long-term development projects also often include payment milestones based upon such items as the delivery of components of systems, meeting specific contractual requirements in the contracts, or other events. These milestone payments can vary significantly based upon the negotiated terms of the contracts. In the second quarter of 2014, much of the growth in the unbilled accounts receivable was based upon when we are entitled to receive milestone payments.

CTS contributed to the use of cash from operating activities, while MSS and CDS provided cash from operating activities.

Investing activities for the six-month period included \$79.7 million of cash paid related to the acquisitions of Intelligent Transport Management Solutions Limited (ITMS) and Intific and capital expenditures of \$10.9 million. Financing activities for the six-month period consisted primarily of the receipt of proceeds of \$30.0 million from short-term borrowings, a dividend paid to shareholders of

\$3.2 million and a payment of \$1.1 million related to the acquisition of NEK for contingent consideration.

A change in exchange rates between foreign currencies, primarily between the Australian dollar and the U.S. dollar and between the British Pound and the U.S. dollar, resulted in an increase of \$11.4 million to our cash balance as of March 31, 2014 compared to September 30, 2013, and a decrease to Accumulated Other Comprehensive Income of \$11.7 million during the six-month period.

We have a committed revolving credit agreement with a group of financial institutions in the amount of \$200.0 million that expires in May 2017 (Revolving Credit Agreement). The available line of credit on the Revolving Credit Agreement is reduced by any letters of credit issued under the agreement. As of March 31, 2014, there were borrowings totaling \$30.0 million under this agreement. Any borrowings under the Revolving Credit Agreement bear interest at a variable rate, which was 1.535% at March 31, 2014. At March 31, 2014 there were letters of credit outstanding under the Revolving Credit Agreement totaling \$27.8 million, which reduce the available line of credit to \$142.2 million.

We have a secured letter of credit facility agreement with a bank (Secured Letter of Credit Facility) which is cancellable by us at any time upon the completion of certain conditions to the satisfaction of the bank. At March 31, 2014, there were letters of credit outstanding under this agreement of \$59.7 million. In support of the Secured Letter of Credit Facility, we placed \$69.0 million of our cash on deposit in the U.K. as collateral in a restricted account with the bank providing the facility. We are required to leave the cash in the restricted account so long as the bank continues to maintain associated letters of credit under the facility. The maximum amount of letters of credit currently allowed by the facility is \$62.7 million, and any increase above this amount would require bank approval and additional restricted funds to be placed on deposit. We may choose at any time to terminate the facility and move the associated letters of credit to another credit facility. Letters of credit

outstanding under the Secured Letter of Credit Facility do not reduce the available line of credit available under the Revolving Credit Agreement.

In March 2013, we entered into a note purchase and private shelf agreement pursuant to which we issued \$100.0 million of senior unsecured notes, bearing interest at a rate of 3.35% and maturing on March 12, 2025. Interest on these notes is due semi-annually and principal payments are due from 2021 through 2025. In addition, pursuant to the agreement, we may from time to time issue and sell, and the purchasers may in their sole discretion purchase, within three years from the agreement date, additional senior notes in aggregate principal amount of up to \$25.0 million that will have terms, including interest rate, as we and the purchasers may agree upon at the time of issuance.

As of March 31, 2014, \$111.4 million of the \$125.3 million of our cash and cash equivalents was held by our foreign subsidiaries. If these funds are needed for our operations in the U.S., we would be required to accrue and pay U.S. taxes to repatriate these funds.

However, our intent is to permanently reinvest these funds outside of the U.S. and our current plans do not demonstrate a need to repatriate them to fund our U.S. operations.

Our financial condition remains strong with working capital of \$444.4 million and a current ratio of 2.5 to 1 at March 31, 2014. We expect that cash on hand, cash flows from operations, and our unused lines of credit will be adequate to meet our liquidity requirements for the foreseeable future.

Table of Contents

Critical Accounting Policies, Estimates and Judgments

Our financial statements are prepared in accordance with accounting principles that are generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. We continually evaluate our estimates and judgments, the most critical of which are those related to revenue recognition, income taxes, valuation of goodwill, purchased intangibles, accounting for business combinations, and pension costs. We base our estimates and judgments on historical experience and other factors that we believe to be reasonable under the circumstances. Materially different results can occur as circumstances change and additional information becomes known.

Besides the estimates identified above that are considered critical, we make many other accounting estimates in preparing our financial statements and related disclosures. All estimates, whether or not deemed critical affect reported amounts of assets, liabilities, revenues and expenses, as well as disclosures of contingent assets and liabilities. These estimates and judgments are also based on historical experience and other factors that are believed to be reasonable under the circumstances. Materially different results can occur as circumstances change and additional information becomes known, even for estimates and judgments that are not deemed critical.

For further information, refer to Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies, Estimates and Judgments and the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K/A for the year ended September 30, 2013 filed concurrently herewith.

CAUTIONARY STATEMENT ABOUT FORWARD-LOOKING INFORMATION

This report, including the documents incorporated by reference herein, contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are subject to the safe harbor created by such Act. Any statements about our expectations, beliefs, plans, objectives, assumptions, future events or our future financial and/or operating performance are not historical and may be forward-looking. These statements are often, but not always, made through the use of words or phrases such as may, will, anticipate, estimate, plan, project, continuing, ongoing, expect, believe, intend, predict, potential, opportunity and similar words or phrases or the negatives of these words or phrases. These forward-looking statements involve risks, estimates, assumptions and uncertainties, including those discussed in Part I - Item 1A. Risk Factors in our Annual Report on Form 10-K/A for the year ended September 30, 2013 filed concurrently herewith, and throughout this report that could cause actual results to differ materially from those expressed in these statements. Such risks, estimates, assumptions and uncertainties include, among others:

- unanticipated issues related to the restatement of our financial statements;
- our ability to develop and implement new processes and procedures to remediate the material weaknesses that exist in our internal control over financial reporting;

Edgar Filing: CUBIC CORP /DE/ - Form 10-Q

- our dependence on U.S. and foreign government contracts;
- delays in approving U.S. and foreign government budgets and cuts in U.S. and foreign government defense expenditures;
- the ability of certain government agencies to unilaterally terminate or modify our contracts with them;
- our ability to successfully integrate new companies into our business and to properly assess the effects of such integration on our financial condition;
- the U.S. government's increased emphasis on awarding contracts to small businesses, and our ability to retain existing contracts or win new contracts under competitive bidding processes;
- negative audits by the U.S. government;
- the effects of politics and economic conditions on negotiations and business dealings in the various countries in which we do business or intend to do business;
- competition and technology changes in the defense and transportation industries;
- our ability to accurately estimate the time and resources necessary to satisfy obligations under our contracts;

Table of Contents

- the effect of adverse regulatory changes on our ability to sell products and services;
- our ability to identify, attract and retain qualified employees;
- business disruptions due to cyber security threats, physical threats, terrorist acts, acts of nature and public health crises;
- our involvement in litigation, including litigation related to patents, proprietary rights and employee misconduct;
- our reliance on subcontractors and on a limited number of third parties to manufacture and supply our products;
- our ability to comply with our development contracts and to successfully develop, introduce and sell new products, systems and services in current and future markets;
- defects in, or a lack of adequate coverage by insurance or indemnity for, our products and systems;
- changes in U.S. and foreign tax laws, exchange rates or our economic assumptions regarding our pension plans; and
- other factors discussed elsewhere in this report.

Because the risks, estimates, assumptions and uncertainties referred to above could cause actual results or outcomes to differ materially from those expressed in any forward-looking statements made by us or on our behalf, you should not place undue reliance on any forward-looking statements. In addition, past financial and/or operating performance is not necessarily a reliable indicator of future performance and you should not use our historical performance to anticipate results or future period trends. Further, any forward-looking statement speaks only as of the date on which it is made, and, except as required by law, we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, and it is not possible for us to predict which factors will arise. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Our market risks at March 31, 2014 have not changed materially from those described under Item 7A. Quantitative and Qualitative Disclosure about Market Risk in our Annual Report on Form 10-K/A for the year ended September 30, 2013.

ITEM 4 - CONTROLS AND PROCEDURES

We performed an evaluation of the effectiveness of our disclosure controls and procedures as of March 31, 2014. The evaluation was performed with the participation of senior management of each business segment and key corporate functions, and under the supervision of our Chief Executive Officer and our Chief Financial Officer. Based upon our evaluation we identified material weaknesses in internal control over financial reporting as of that date.

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act) are designed to provide reasonable assurance that information required to be disclosed in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission (SEC) and that such information is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosures.

As described below, management has identified material weaknesses in our internal control over financial reporting, which is an integral component of our disclosure controls and procedures. As a result of those material weaknesses, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were not effective as of March 31, 2014.

Table of Contents

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. In connection with management's assessment of our internal control over financial reporting described above, management has identified the following deficiencies that constituted individually, or in the aggregate, material weaknesses in our internal control over financial reporting as of March 31, 2014:

- In our process of assessing the appropriate accounting treatment for revenue and costs for certain of our contracts with customers of one of our significant wholly owned subsidiaries, we did not maintain a sufficient number of personnel with an appropriate level of knowledge and experience or ongoing training in U.S. generally accepted accounting principles (GAAP) to challenge our application of GAAP commensurate with the number and complexity of this subsidiary's contracts to prevent or detect material misstatements in revenue or cost of sales in a timely manner.
- Our policies for the review and approval of revenue recognition decisions required review and analysis by personnel with an appropriate level of GAAP knowledge and experience for contracts over certain materiality thresholds. For one of our significant wholly owned subsidiaries, these thresholds were not designed to ensure that sufficient review was being performed for revenue recognition decisions for this subsidiary that could have a material impact on our financial statements.

Because of these material weaknesses, management has concluded that we did not maintain effective internal control over financial reporting as of March 31, 2014.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended March 31, 2014 that materially affected or are reasonably likely to materially affect our internal control over financial reporting. However, we have continued to dedicate resources to support our efforts to improve the control environment and to remedy the control weaknesses described herein.

PART II - OTHER INFORMATION

ITEM 1 - LEGAL PROCEEDINGS

In November 2011, we received a claim from a public transit authority customer which alleges that the authority incurred a loss of transit revenue due to the inappropriate and illegal actions of one of our former employees, who has pled guilty to the charges. This individual was employed to work on a contract we acquired in a business combination in 2009 and had allegedly been committing these illegal acts from almost two years prior to our acquisition of the contract, until his arrest in May 2011. The transit system was designed and installed by a company unrelated to us. The claim currently seeks recoupment from us of a total amount of \$3.9 million for alleged lost revenue, fees and damages. In March 2012, the county superior court entered a default judgment against our former employee and others for \$2.9 million based upon the

estimated loss of revenue by the public transit authority customer. In 2012, we recorded an accrued cost of \$2.9 million within general and administrative expense in the transportation systems segment based upon the court's assessment of these losses. We have not recorded expense for any amount in excess of the \$2.9 million through March 31, 2014 as no other amount of loss is deemed probable. Insurance may cover all, or a portion, of any losses we could ultimately incur for this matter. However, any potential insurance proceeds will not be recognized in the financial statements until receipt of any such proceeds is probable.

In October and December of 2013, and January of 2014, lawsuits were filed in the United States District Court for the Northern District of Illinois, Eastern Division against us and one of our transit customers alleging variously, among other things, breach of contract, violation of the Illinois Consumer Fraud Act, unjust enrichment and violation of the Electronic Funds Act. In January 2014 these cases were consolidated into a single case and the Plaintiffs are seeking to have the case certified as a class action. Plaintiffs variously claim, among other things, that: (i) they were wrongly charged for calling the call center that we operate for patrons of our transit customer, (ii) they were wrongly charged for a transfer and a second fare, (iii) they were not credited the cost of a transit card even after registration of the card, as is required under the terms of the cardholder agreement, and (iv) they were double charged for rides taken. We are undertaking the defense of the transit customer pursuant to our contractual obligations to that customer. We are investigating the matter and plan to vigorously defend this lawsuit. Due to the preliminary nature of this case, we cannot estimate the probability of loss or any range of estimate of possible loss.

Also in October 2013, a lawsuit was filed in the Circuit Court of Cook County, Illinois, County Department, Chancery Division against our same transit customer alleging conversion and unjust enrichment. The plaintiff alleges his bank debit card was charged two dollars and twenty-five cents for his ride on the transit system rather than the ride being charged to his transit fare card. This plaintiff is also seeking to have his case certified as a class action for all patrons whose bank cards were charged in the same manner. We are investigating the matter and we are undertaking the defense pursuant to our contractual obligations to our transit customer. We plan to vigorously defend this lawsuit. Our Motion to Dismiss was granted on April 30, 2014 and the plaintiff has until May 27, 2014 to file an Amended Complaint. Due to the preliminary nature of this case, we cannot estimate the probability of loss or any range of estimate of possible loss.

Table of Contents

ITEM 1A - RISK FACTORS

There have been no material changes to the risk factors disclosed in Part I - Item 1A. Risk Factors of our Annual Report on Form 10-K/A for the year ended September 30, 2013 filed concurrently herewith.

ITEM 6 - EXHIBITS

(a) The following exhibits are included herein:

Exhibit No.	Description
3.1	Amended and Restated Certificate of Incorporation. Incorporated by reference to Form 10-Q for the quarter ended June, 30, 2006, file No. 001-08931, Exhibit 3.1.
3.2	Amended and Restated Bylaws. Incorporated by reference to Form 8-K filed April 22, 2014, file No. 001-08931, Exhibit 3.1.
31.1	Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certification of Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32.1	Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350
32.2	Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350
101	Financial statements from the Cubic Corporation Quarterly Report on Form 10-Q for the quarter ended March 31, 2014, formatted in Extensible Business Reporting Language (XBRL): (i) Condensed Consolidated Statements of Income, (ii) Condensed Consolidated Statements of Comprehensive Income, (iii) Condensed Consolidated Balance Sheets, (iv) Condensed Consolidated Statements of Cash Flows, and (v) Notes to Condensed Consolidated Financial Statements.

* Indicates management contract or compensatory plan or arrangement.
