Services revenues amounted to \$32,874 (+31.7% vs. 9M15) and represented 84.7% of consolidated revenues (vs. 87.3% in 9M15). Equipment revenues increased 64.1%, amounting to \$5,944 and represented 15.3% of consolidated revenues (vs. 12.7% in 9M15).

Fixed Services

During 9M16, services revenues generated by this segment amounted to \$10,812 (+\$3,136 or +40.9% vs. 9M15), where Internet revenues have grown the most (+\$1,078 or +32.9% vs. 9M15), followed by voice retail services (+\$954 or +40.1% vs. 9M15) and data transmission services (+\$843 or +65.3% vs. 9M15).

Ø **Voice**

Voice retail revenues reached \$3,333 in 9M16 (+40.1% vs. 9M15). Revenues from regulated services reached approximately 27% of the segment services revenues in 9M16 (vs. 26% in 9M15).

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Monthly Charges and Supplementary Services increased \$744 or +75.0% vs. 9M15, reaching \$1,736, as a consequence of an increase in supplementary services (not regulated), mainly due to a higher monthly charges to commercial customers since May 2016 and to the increase in the prices of non regulated supplementary services.

Revenues generated by measured services (Local Measured Service, Domestic Long Distance and International Long Distance services) amounted to \$1,524 (+\$209 or +15.9% vs. 9M15). The increase was mainly due to the increase in plans prices (both in local and long national distance). According to this, local measured service revenues increased 20.7% vs. 9M15 and DLD revenues increased 11.8% vs. 9M15. The Average Monthly Revenue per User (ARBU) amounted to \$93.1 pesos per month in 9M16 vs. \$64.8 pesos per month amounted in 9M15, representing an increase of 43.7%. The remaining retail voice revenues amounted to \$73 in 9M16 (slightly higher vs.9M15).

Voice wholesale revenues (including fixed and mobile interconnection revenues and lease of circuits, together with the revenues generated by the subsidiary Telecom USA amounting to \$194) amounted to \$995 in 9M16 (+35.6% vs. 9M15). Interconnection fixed and mobile revenues amounted to \$620 (+28.1% vs. 9M15) and the other wholesale revenues amounted to \$375 in 9M16 (+50.0% vs. 9M15), mainly due to higher prices related to cell sites rentals due to the variation of the \$/US\$ exchange rate.

Ø ***Data***

Data revenues (including the revenues generated by the subsidiary Telecom USA amounting to \$6) amounted to \$2,133 (+\$843 vs. 9M15). These revenues were generated focusing on Telecom Argentina's position as an integrated ICTs provider (Datacenter, VPN, among others) for wholesale and government segments. The increase was primarily due to higher prices of these services related to the variation of the \$/US\$ exchange rate and to the increase in the number of customers of these services (the increase amounted to \$587 vs. 9M15).

Table of Contents

TELECOM ARGENTINA S.A.

Ø **Internet**

Internet revenues amounted to \$4,351 (+\$1,078 or +32.9% vs. 9M15) mainly due to an increase in average prices resulting in an improvement in the Average Monthly Revenue per User (ARPU), that amounted to \$260.4 pesos per month in 9M16 vs. \$199.3 pesos per month in 9M15 (+30.7% vs. 9M15). As of September 30, 2016, Telecom Argentina reached approximately 1,800,000 ADSL customers (of which 1,289,000 correspond to +3Mb access vs. 958,000 in 9M15). These connections represent approximately 45.6% of Telecom Argentina s fixed lines in service (vs. 44.5% in 9M15). The churn rate per month amounted to 1.5% in 9M16 (vs. 1.4% in 9M15).

Internet services revenues represent 13.2% of consolidated services revenues (vs. 13.1% in 9M15) and 40.2% of Fixed Services segment revenues (vs. 42.6% in 9M15).

Personal Mobile Services

During 9M16, total services revenues amounted to \$20,297 (+\$4,134 or +25.6% vs. 9M15), being the principal business segment in revenues terms (61.7% and 64.7% of services consolidated revenues in 9M16 and 9M15, respectively). Personal reached 19.9 million subscribers in Argentina (+2.4% vs. 9M15). Approximately 67% of the subscriber base is prepaid subscribers and 33% is postpaid subscribers (including Cuentas claras plans and Mobile Internet dongles). The churn rate per month amounted to 2.7% in 9M16 (vs. 3.1% in 9M15).

Ø **Voice**

Voice retail revenues amounted to \$6,255 in 9M16 (+22.4% vs. 9M15). The increase was mainly due to the increase in monthly charges prices in the postpaid and Cuentas claras subscriber base and prepaid services, and due to the net variation of the subscriber base showing an increase in Cuentas claras (+5% vs. 9M15), in postpaid (+3% vs. 9M15), and prepaid subscribers (+2% vs. 9M15).

Voice wholesale revenues amounted to \$1,442 in 9M16 (+3.4% vs. 9M15), mainly due to the increase in interconnection traffic average prices (especially TLRD and CPP).

Ø **Data**

Mobile data services revenues amounted to \$5,103 (-\$273 or -5.1% vs. 9M15). The decrease was due to lower revenues from the principal item of VAS revenues, SMS consumption, which decreased \$704 as compared to 9M15 (-23.8%). Notwithstanding, this effect was partially offset with a constant increase of the SMS with content sales, as a result of several campaigns launched by Personal, which represented an inter-annual increase of \$369 or +16.2%.

Ø **Internet**

Mobile Internet revenues amounted to \$7,497 (+\$3,214 or +75.0% vs. 9M15). This increase is mainly explained by the increase in browsing services consumption of Personal's subscribers, which was mainly fueled by the increase in the offer of services, plans and packs (including VAS) launched by Personal. This growth was fueled by new subscribers, the migration of the existing ones to higher-value plans and the increase of subscribers that acquired 3G and 4G handsets, which facilitate Internet browsing in all subscribers' segments.

As a consequence of the increase in VAS consumption (Internet and Data), ARPU increased to \$108.2 pesos per month in 9M16 (vs. \$88.8 pesos per month in 9M15), which represents an increase of 21.8%.

VAS revenues (data and Internet) amounted to \$12,600 (+30.4% vs. 9M15) and represented 62.1% of Personal Mobile Services services revenues (vs. 59.8% in 9M15).

Núcleo Mobile Services

This segment generated services revenues equivalent to \$1,765 during 9M16 (+\$636 or +56.3% vs. 9M15) mainly due to the Internet revenues increase (+81.7% vs. 9M15), mainly related to the increase of browsing generated by subscribers with mobile equipment prepared for that purpose. As of September 30, 2016, Núcleo's subscriber base reached 2.5 million customers. Prepaid and postpaid subscribers (including Plan Control subscribers and mobile Internet subscribers) represented 81% and 19% in 9M16 and the effect of the appreciation of the Guaraní respect to the Argentine peso reached a 46% (inter-annual).

VAS revenues (data and Internet) amounted to \$1,026 (+68.8% vs. 9M15) and represented 58.1% of Núcleo Mobile Services segment services revenues (vs. 53.9% in 9M15).

OPERATING AND FINANCIAL REVIEW AND PROSPECTS AS OF SEPTEMBER 30, 2016

Table of Contents**TELECOM ARGENTINA S.A.**

The Telecom Group's services revenues increased 31.7% fueled by a 35.6% increase of data and Internet revenues in all segments vs. 9M15, increasing its relative weight over total services revenues according to the following table:

	<u>Nine-month periods ended</u>				<u>9M16 vs.</u>

Equipment

Revenues from equipment amounted to \$5,944, +\$2,322 or +64.1% vs. 9M15. This increase is mainly related to the Personal Mobile Services segment with an increase of \$2,181 vs. 9M15 due to higher handsets unit sold (+14% vs. 9M15) with an increase in handset's average sale prices (+43% vs. 9M15), resulting in a higher operating margin of handsets (+\$531 or + 61.3% vs. 9M15).

- **Operating costs**

Consolidated operating costs including depreciations, amortizations and gain on disposal of PP&E and impairment of PP&E totaled \$33,329 in 9M16, which represents an increase of \$9,183 or +38.0% vs. 9M15. The increase in costs is mainly a consequence of a higher revenues, higher expenses related to competition in mobile and Internet businesses, higher direct and indirect labor costs on the cost structure of the Telecom Group in Argentina, the increase in fees for services related to higher supplier prices, the increase in taxes and fees with the Regulatory Authority, the increase of cost of equipment and handsets and the increase in bad debt expenses, among other concepts.

The costs breakdown is as follows:

Employee benefit expenses and severance payments

Employee benefit expenses and severance payments amounted to \$7,213 (+\$1,921 or +36.3% vs. 9M15). The increase was mainly due to increases in salaries agreed by Telecom Argentina with several trade unions for the unionized employees and also to non-unionized employees, together with related social security charges. With a total headcount of 16,241 by the end of 9M16 (vs. 16,269 in 9M15), lines in service per employee reached 357 in the Fixed Services segment (-4.3% vs. 9M15), subscribers per employee reached 4,172 in the Personal Mobile Services segment (+7.4% vs. 9M15) and subscribers per employee reached 6,240 (+0.9% vs. 9M15) in the Núcleo Mobile Services segment.

Interconnection costs and other telecommunication charges

Interconnection costs and other telecommunication charges (including charges for TLRD, Roaming, Interconnection costs, cost of international outbound calls and lease of circuits) amounted to \$1,954 (+\$395 or +25.3% vs. 9M15). The increase was mainly due to higher TLRD and roaming costs.

OPERATING AND FINANCIAL REVIEW AND PROSPECTS AS OF SEPTEMBER 30, 2016

Table of Contents

TELECOM ARGENTINA S.A.

Fees for services, maintenance, materials and supplies

Fees for services, maintenance, materials and supplies amounted to \$3,580, +\$720 or +25.2% vs. 9M15. The increase was mainly due to higher maintenance costs of radio bases in the mobile services segments, as a result of the variation in the \$/US\$ exchange rate, an increase in technical assistance cost of radio bases, higher system licenses costs, higher costs of sites location and higher storage costs. There were also increases in other maintenance costs and fees for services, mainly due to higher costs recognized to suppliers in all segments.

Taxes and fees with the Regulatory Authority

Taxes and fees with the Regulatory Authority (including turnover tax, fees with the Regulatory Authority, IDC, municipal and other taxes) amounted to \$3,799 (+33.7% vs. 9M15), influenced mainly by the increase in revenues of fixed and mobile services and by the increase of the IDC related to higher collections and payments to suppliers and dividends in 9M16 vs. 9M15.

Commissions

Commissions (including Agent, distribution of prepaid cards and other commissions) amounted to \$3,841 (+\$865 or +29.1% vs. 9M15). The increase was mainly due to the increase in Agents' commissions (associated to higher revenues) as a result of higher customer's acquisition and retention costs recognized to them and the increase of outsourced sales commissions and collection commissions.

On the other hand, agent commissions capitalized as SAC amounted to \$1,046, +\$265 or +33.9% vs. 9M15, and it's directly related to the increase in the Cuentas claras subscribers' base in the Personal Mobile Services segment and the increase in the commissions prices.

Cost of equipment and handsets

Cost of equipments and handsets amounted to \$4,725 (+\$1,868 or +65.4% vs. 9M15) mainly due to the increase in the units of handsets sold (+14% vs. 9M15) and the increase in the average unit cost of sales (+44% vs. 9M15) in the Personal Mobile Services segment.

On the other hand, SAC deferred costs from handsets sold amounted to \$94, +\$28 or +42.4% vs. 9M15.

Advertising

Advertising amounted to \$548 (-\$43 vs. 9M15).

Cost of VAS

Cost of VAS amounted to \$1,142 (+\$232 or +25.5% vs. 9M15). The increase was mainly due to the increase of VAS sales in the Personal Mobile Services segment, especially the SMS with content service, which grew as a consequence of several campaigns launched by Personal. Cost of VAS over its related revenues increased from 36% in 9M15 to 38% in 9M16.

Provisions

Provisions amounted to \$106, -\$68 or -39.1% vs. 9M15. The decrease was mainly due to lower civil and commercial claims (-\$64 vs. 9M15) and lower regulatory and municipal contingencies (-\$6 vs. 9M15).

Bad debt expenses

Bad debt expenses amounted to \$844 (+\$434 or +105.9% vs. 9M15), representing approximately 2.2% and 1.4% of the consolidated revenues in 9M16 and 9M15, respectively. The major increase is observed in the Personal Mobile Services segment by \$393 as a consequence of higher aging of the accounts receivables and higher incidence of handsets sales directly financed by Personal and Núcleo to its postpaid and Cuentas claras subscribers.

Other operating costs

Other operating costs amounted to \$2,032 (+\$714 or +54.2% vs. 9M15). The increase was mainly due to higher prices on related services, especially in transportation, freight and travel expenses (+\$254 or +48.6% vs. 9M15), among others, in the operations in Argentina; the increase of rent prices (+\$172 or +44.3% vs. 9M15), as a result of new agreements and the renegotiation of some of the existing ones and the increase of the consumption of electricity (+\$209 or +83.9% vs. 9M15).

Table of Contents

TELECOM ARGENTINA S.A.

- **Operating income before depreciation and amortization**

Operating income before depreciation and amortization amounted to \$10,208 (+\$2,544 or +33.2% vs. 9M15), representing 26.3% of consolidated revenues in 9M16 (vs. 26.8% in 9M15). This growth was mainly fueled by the Fixed Services segment (+\$456 or +26.2% vs. 9M15) and Personal Mobile Services segment (+\$1,898 or +34.5% vs. 9M15).

Operating income before depreciation and amortization generated by equipment and handset sales (including SAC capitalization) amounted to \$1,313 in 9M16 vs. \$831 in 9M15 (+\$482 or +58.0% vs. 9M15), while operating income before depreciation and amortization generated by services sales amounted to \$8,895 in 9M16 vs. \$6,833 in 9M15 (+\$2,062 or +30.2% vs. 9M15).

Depreciation and amortization

Depreciation and amortization amounted to \$4,485 (+\$1,331 or +42.2% vs. 9M15). The increase in depreciation and amortization includes \$922 from PP&E depreciation, \$55 from amortization of intangible assets without SAC and \$354 from amortization of SAC and service connection costs. The increase in depreciation and amortization corresponds 21% to the Fixed Services segment and 79% to the mobile services segments.

Gain on disposal of PP&E and impairment of PP&E

Gain on disposal of PP&E and impairment of PP&E amounted to a loss of \$200 in 9M16 (vs. \$51 in 9M15) and were mainly related to the Personal Mobile Services segment for the modernization of the mobile access by the development of 4G.

- **Operating income**

Operating income amounted to \$5,523 in 9M16 (+\$1,064 or +23.9% vs. 9M15). The margin over consolidated revenues represented 14.2% in 9M16 (vs. 15.6% in 9M15). This growth was mainly fueled by the Personal Mobile Services segment (+\$925 or +25.2% vs. 9M15) and the Fixed Services segment (+\$164 or +24.7% vs. 9M15).

- **Financial results, net**

Financial results, net resulted in a net loss of \$1,682, representing an increase of \$1,490 vs. 9M15. The increase was mainly due to higher net foreign currency exchange losses (+\$543) and higher interests on loans (+\$925) partially offset by higher interests on receivables (+\$119 vs. 9M15).

- **Net income**

Telecom Argentina reached a net income of \$2,495 in 9M16, -\$283 or -10.2% as compared to 9M15, representing 6.4% of the consolidated revenues in 9M16 (vs. 9.7% in 9M15). Net income attributable to Telecom Argentina amounted to \$2,471 in 9M16, -\$286 or -10.4% as compared to 9M15.

- **Net financial debt**

As of September 30, 2016, consolidated net financial debt (Cash and Cash Equivalents plus financial investments minus financial debt) amounted to \$7,157, showing an increase of \$5,571 as compared to the consolidated net financial debt as of September 30, 2015 (amounting to \$1,586). This variation was mainly due to a decrease in the generation of cash from operating activities of the Telecom Group, mainly by higher CAPEX and cash dividends paid to its shareholders. As of September 30, 2016, the Fixed Services segment has a net financial asset of \$363, the Personal Mobile Services segment has a net financial debt of \$6,928 and the Núcleo Mobile Services segment has a net financial debt of \$592.

- **Capital expenditures (CAPEX)**

CAPEX composition for 9M16 and 9M15 is as follows:

8. Outlook

A new political, economic and regulatory environment for the telecommunications industry is being developed in 2016. Activity levels will continue depending on the country's macroeconomic situation and, in particular, on the purchasing power and levels of consumption of our customers. We are aware that in the 9M16 readjustments in prices of many goods and services were implemented as a result of their adaptation to changes in the US dollar exchange rate, after certain exchange restrictions were eliminated and the subsidy policy of several public services was reduced. However, a deceleration of the inflation rate is expected during the fourth quarter of 2016 as a consequence of the monetary policy measures adopted by the Central Bank of Argentina. Also, the announcement made by the National Government of the voluntary declaration of possession of property creates favorable expectations to the public treasury aiming a reactivation of the economic activity for the last quarter of 2016 and during 2017.

We are confident that our products and services demand will remain at fair levels, especially those related to the fixed and mobile Internet usage, taking into account the innovative offerings that the Telecom Group is planning to launch in the market.

The fixed telephony evolution will continue in line with the trend in recent years, influenced by the maturity of the market. The steadily deploying of the Ultra-Broadband will continue for Broadband, with new technologies replacing copper with optical fiber in different points of the network. During 2016, the Company expects to add 4,000 kilometers of optical fiber to the existing 22,000 kilometers, expanding the network capacity throughout the country, granting more speed and security to our customers consumption. The Company will continue providing convergent solutions to the corporate segment with a portfolio that provides customers next-generation Datacenter services.

Table of Contents

TELECOM ARGENTINA S.A.

To maximize business, Personal will continue to focus on the quality of service, innovation and the deployment of the LTE/4G network at national level. Personal will also continue to work on optimizing the customers' experience to offer the best User experience, improving the coverage and speed of the network. 3G technology will also be expanded with new frequencies and more investment, thus continuing with the technological conversion and capacity enlargement of the network. This infrastructure improvement comes together with the evolution of the Data Centric offering in line with the evolution of the mobile market and the new business model that requires evolution and simplification.

Customer service quality will continue to focus mainly on the efficiency of channels and segmentation of the service customer with a customer-centric vision. The self-management channel will also continue to be encouraged (promoting the use of social networks), in order to simplify more and more the customers' management and control over their lines.

Operational excellence will remain a goal to aim a better use of the physical, human and technological resources of the Group so as to continue meeting profitability expectations of our stakeholders without neglecting the business profitability.

The strategy implemented by the Company's Management, renewed with the incorporation of a new indirect controlling shareholder and its management team, will procure to lead the convergent connectivity of people, homes and companies. The Telecom Group believes that this goal will be achieved by placing customers and their experience in the core of the operation, developing an innovative offering, establishing an agile and excellent organization, strengthening the employees' satisfaction and commitment, implementing a major investment plan and reaffirming day by day its commitment to the country and its people.

Table of Contents**TELECOM ARGENTINA S.A.****NOTE 1 BASIS OF PREPARATION OF THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES****a) Basis of preparation and significant accounting policies**

As required by the CNV for most of public companies, these consolidated financial statements have been prepared in accordance with RT 26 of FACPCE (as amended by RT 29 and RT 43) and in accordance with IFRS as issued by the IASB, as adopted by the CPCECABA.

For the preparation of these consolidated financial statements, the Company has elected to make use of the option provided by IAS 34, so, these consolidated financial statements do not include all the information required in an annual financial statement, and must be read jointly with the 2015 annual consolidated financial statements which can be consulted at the Company's website (www.telecom.com.ar/inversores).

As of September 30, 2016, entities included in the consolidation process and the respective equity interest owned by Telecom Argentina is presented as follows:

Subsidiaries	Percentage of capital stock owned and voting rights (i)	Indirect control through	Date of acquisition	Segment that consolidates (Note 4)
Telecom USA	100.00%		09.12.00	Fixed Services
Micro Sistemas (ii)	99.99%		12.31.97	Fixed Services
Personal	99.99%		07.06.94	Personal Mobile Services
Núcleo (iii)	67.50%	Personal	02.03.98	Núcleo Mobile Services
Personal Envíos (iii)	67.50%	Núcleo	07.24.14	Núcleo Mobile Services

(i) Percentage of equity interest owned has been rounded.

(ii) Dormant entity as of September 30, 2016 and December 31, 2015 and for the nine-month periods ended September 30, 2016 and 2015.

(iii) Non-controlling interest of 32.50% is owned by the Paraguayan company ABC Telecomunicaciones S.A.

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

For the preparation of these consolidated financial statements, the Company followed the same accounting policies applied in the most recent annual consolidated financial statements.

The preparation of these consolidated financial statements in conformity with IFRS requires the Company's Management to use certain critical accounting estimates. Actual results could differ from those estimates.

These consolidated financial statements (except for cash flow information) are prepared on an accrual basis of accounting. Under this basis, the effects of transactions and other events are recognized when they occur. Therefore income and expenses are recognized at fair value on an accrual basis regardless of when they are perceived or paid. When significant, the difference between the fair value and the nominal amount of income and expenses is recognized as finance income or expense using the effective interest method over the relevant period.

These consolidated financial statements have also been prepared on a going concern basis, as there is a reasonable expectation that Telecom Argentina and its subsidiaries will continue its operational activities in the foreseeable future (and in any event with a time horizon of more than twelve months).

Publication of these consolidated financial statements for the period ended September 30, 2016 was approved by resolution of the Board of Directors' meeting held on November 8, 2016.

b) Financial statement formats

The financial statement formats adopted are consistent with IAS 1, In particular:

- the consolidated statements of financial position have been prepared by classifying assets and liabilities according to current and non-current criterion. Current assets and liabilities are those that are expected to be realized within twelve months after the period-end;
- the consolidated income statements have been prepared by classifying operating expenses by nature of expense as this form of presentation is considered more appropriate and representative of the specific business of the Telecom Group as evaluated by the Management, and are in line with the industrial sector of telecommunications;

Table of Contents

TELECOM ARGENTINA S.A.

- the consolidated statements of comprehensive income include the profit or (loss) for the period as shown in the consolidated income statement and all components of other comprehensive income;
- the consolidated statements of changes in equity have been prepared showing separately (i) profit (loss) for the period, (ii) other comprehensive income (loss) for the period, and (iii) transactions with shareholders (controlling and non-controlling);
- the consolidated statements of cash flows have been prepared by presenting cash flows from operating activities according to the indirect method , as permitted by IAS 7.

These consolidated financial statements contain all material disclosures required under IAS 34. Some additional disclosures required by the LGS and/or by the CNV have been also included, among them, complementary information required in the last paragraph of Article 1 Chapter III Title IV of the CNV General Resolution No. 622/13. Such information is disclosed in Notes 2 and 6 to these consolidated financial statements, as admitted by IFRS.

c) Segment reporting

An operating segment is defined as a component of an entity that engages in business activities from which it may earn revenues and incur expenses, and whose financial information is available, held separately, and evaluated regularly by the Telecom Group's Chief Executive Officer (CEO).

Operating segments are reported in a consistent manner with the internal reporting provided to the CEO, who is responsible for allocating resources and assessing performance of the operating segments at the net income (loss) level and under the accounting principles effective (IFRS as issued by the IASB) at each time for reporting to the Regulatory Bodies. The accounting policies applied for segment information are the same for all operating segments.

Information regarding segment reporting is included in Note 4.

d) Net income per share

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

The Company computes net income per common share by dividing net income for the period attributable to Telecom Argentina (Controlling Company) by the weighted average number of common shares outstanding during the period. Diluted net income per share is computed by dividing the net income for the period by the weighted average number of common and dilutive potential common shares then outstanding during the period. Since the Company has no dilutive potential common stock outstanding, there are no dilutive earnings per share amounts.

For the nine-month periods ended September 30, 2016 and 2015, the weighted average number of shares outstanding totaled 969,159,605 shares, respectively.

e) Application of IAS 29 (Financial reporting in hyperinflationary economies)

IAS 29 establishes the conditions under which an entity shall restate its financial statements if it is located in an economic environment considered hyperinflationary. It is worth mentioning that if at any time an economy qualifies as hyperinflationary as a result of the qualitative and quantitative assessment established by paragraph 3 of IAS 29, the restatement of financial statements must be made retroactively from the date of the revaluation used as deemed cost (February 2003 for entities of Telecom Group located in Argentina) or from the acquisition date for assets acquired after that date.

In compliance with the provisions of IAS 29, the Company's Management periodically verifies the evolution of official statistics as well as the general factors of the economic environment in the countries in which the Telecom Group operates.

Although the standard does not establish an absolute rate at which hyperinflation is deemed to arise, usually a cumulative inflation rate over three years approaching or exceeding 100% is used as reference in conjunction with other qualitative factors related to the macroeconomic environment.

The Company analyzes the economic environment as required by the provisions of IAS 29, based on the inflation rates published by the National Institute of Statistics and Census (INDEC), following the same criteria adopted by the accounting profession in the Argentine Republic.

After declaring a state of statistical emergency in January 2016 and due to the reorganization of the INDEC structure, that agency was impelled to publish the Internal Wholesale Price Index for November and December 2015 and the Consumer Price Index for the period November 2015- April 2016. Under these circumstances, the INDEC suggested the alternative utilization of Price Indexes published by the Province of San Luis and the City of Buenos Aires, which are integral part of the National Statistic System until the INDEC publishes Price Indexes in compliance with international standards of quality. Finally, in May 2016 the INDEC published the Internal Wholesale Price Index (IPIM) retroactively from January 2016 while the Consumer Price Index (IPC) was published from May 2016.

Table of Contents**TELECOM ARGENTINA S.A.**

Therefore, for year 2015 the Company analysis was performed according to Consumer Price Index and Internal Wholesale Price Index published by the INDEC until October 2015 and it was complemented applying November and December 2015 Price Index published by the Province of San Luis and the City of Buenos Aires, as the INDEC suggested. It is worth mentioning that this simplified procedure as provided in paragraph 17 of IAS 29 was performed due to the unavailability of official statistics at national level.

The tables below show the evolution of these indexes in the last three years according to official statistics (INDEC), with the exceptions explained above regarding the use of alternative indexes for November and December 2015:

	<u>2013</u>	<u>2014</u>	<u>2015 (*)</u>
<u>Consumer Price Variation</u>			
Annual	10.9%	23.9%	20.6%
3 years accumulated	34.7%	52.4%	65.8%
<u>Internal Wholesale Price Variation</u>			
Annual	14.8%	28.3%	19.2%
3 years accumulated	46.2%	66.5%	75.4%

(*) Consumer Price Index and Internal Wholesale Price Index published by the INDEC until October 2015 were 11.9% and 10.6% respectively. These rates (which contain ten months accumulated), were complemented with November and December 2015 Consumer Price Index average rates for these two months published by the Province of San Luis and the City of Buenos Aires (7.8%). As of the date of these Financial Statements we have taken note that the INDEC will not publish Internal Wholesale Price Index for November and December 2015 nor they will review the inflation rates for prior periods.

According to the high inflation levels in Argentina registered in the last years, the Company's Management has further assessed the characteristics set out in paragraph 3 of IAS 29, including (i) the quantitative condition provided in section (e) *the cumulative inflation rate over three years is approaching, or exceeds, 100%*, as well as (ii) the qualitative characteristics contained in paragraphs a) to d) of that paragraph. Based on the analysis made at December 31, 2015 and with the evidence available as of the date of issuance of the consolidated financial statements then ended, the Company's Management concluded that Argentina did not qualify as a hyperinflationary country in terms of IAS 29.

Under US GAAP the Argentine economy was not considered highly inflationary at December 31, 2015 according with the conclusions of the International Practices Task Force (IPTF) dated May 2016, to which the Company has had access. An extract of the meeting, stated the following: *The SEC staff noted the IMF's concerns on the accuracy of the inflation data. However, the SEC staff noted that they have not observed objectively verifiable data that would indicate the economy of Argentina is highly-inflationary at December 31, 2015. The staff would expect registrants to monitor the level of inflation, in combination with other pertinent factors and data points, in determining whether Argentina should be considered a highly-inflationary economy.*

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

While there may be differences in the definition of a hyperinflationary environment between IFRS and US GAAP, the Company believes that the assessment of the macroeconomic situation of a country should be substantially similar under both accounting frameworks and, therefore, considers that the IPTF conclusion is consistent with the conclusions arrived in the analysis made by the Company's Management.

Additionally, while the CNV required public companies the full implementation of IFRS-as issued by the IASB- from periods beginning on January 1st, 2012, Decree No. 664/03 continues to be in force as of the date of issuance of these consolidated financial statements. Through this Decree, the PEN instructed the control authorities including the CNV- not to accept filings of restated financial statements. This legal restriction is foreseen in the current Regulations of the CNV (Title IV - Chapter III - Article 3 - paragraph 1).

Developments of the 9M16

The indexes published by the INDEC as from May 2016 (a variation for the nine month period ended September 30, 2016 of 29.5 % for the IPC and 31.3% for the IPIM and a variation for the three-year period of approximately 99.8% for the IPC and approximately 108.4% for the IPIM) have shown high level of inflation that reflects among other factors the impact on internal price due to the devaluation of the Argentine peso against the US dollar since December 2015, the elimination of exchange rate restrictions and the increase of the public service rates allowed by the Government after more than ten years of rate freezing.

All these qualitative and quantitative circumstances, require that issuers, regulatory authorities both in Argentina and abroad, and the accounting profession reach a conclusion whether the Argentine economy qualifies as hyperinflationary under the terms of IAS 29 for the year 2016. Discussions on this matter have been recently initiated among the players involved in the assessment process and it is expected that resolutions will be reached before the issuance of the annual financial statements as of December 31, 2016.

Company's Management believes that the periodic assessment of the macroeconomic environment of the countries in which it operates and the possible restatement of financial statements in accordance to IAS 29, represent an element of care and concern for investors, analysts and regulators of capital markets where Argentine companies list their equity and debt securities, related to the impact that such restatement might have on their financial position and results of operations of Argentine companies, including the Telecom Group.

Table of Contents**TELECOM ARGENTINA S.A.**

In the case that IAS 29 should be applied in Argentina during year 2016 as a result of the consensus reached by the Argentine accounting profession and the regulatory authorities both in Argentina and abroad, Management of the Company has performed an aggregate estimation of its effects taking into account that the restatement for inflation should be made from February 2003 only for Argentine entities of the Group and using the IPIM evolution published by the INDEC (which increased approximately 498% in the period February 2003 - September 2016, assuming an inflation rate of 7.8% for November - December 2015 period as explained above).

The table below shows the evolution of the consolidated shareholders' equity estimating that IAS 29 is applied for the years 2014, 2015 and for the nine-month period ended September 30, 2016:

<u>Consolidated statements of changes in equity restated for inflation according with IAS 29 (*)</u>	9.30.16	12.31.15	12.31.14
(in billions of Argentine pesos and in constant currency as of September 30, 2016) (figures not covered by the limited review of the independent external auditors)			
Equity at the beginning of the year	34.3	32.8	32.2
Dividends	(2.2)	(1.3)	(2.2)
Net income	0.5	2.7	2.8
Other Comprehensive Results	(0.1)	0.1	-
Comprehensive Income	0.4	2.8	2.8
Equity at the end of the period/year	32.5	34.3	32.8
<i>Capital + Adjustment of Capital</i>	<i>21.9</i>	<i>21.9</i>	<i>21.9</i>
<i>Treasury shares acquisition cost</i>	<i>(0.9)</i>	<i>(0.9)</i>	<i>(0.9)</i>
<i>Reserves + Retained Earnings</i>	<i>11.1</i>	<i>12.8</i>	<i>11.4</i>
Other Comprehensive Results	(0.1)	-	(0.1)
Attributable to Telecom Argentina (Controlling Company)	32.0	33.8	32.3
Attributable to non-controlling interest	0.5	0.5	0.5

(*) These figures represent the best estimation of the Company's Management as of the date of these Consolidated Financial Statements. An estimation of restatement of financial statements with more detail and precision as required by IAS 29 could generate different figures. However, the Company's Management believes that figures would be similar to those presented in the table above with the same trends of impacts. The estimation includes the effect of adjustment for inflation not taxable/ deductible under income tax law, which was recorded as a temporary difference resulting in a deferred tax liability.

In connection with the impact of IAS 29 in the results of the periods presented, there are no significant impacts identified regarding Operating income before depreciation and amortization to Revenues ratio. Depreciations and amortizations increase its relative weight to Revenues and the Financial results are impacted by the Result from exposure to inflation, which is positive (gain) in all periods presented due to the Net monetary liability position of the Telecom Group.

The Company's Management will continue monitoring the characteristics and the evolution of the inflation rates in Argentina in order to comply properly with IAS 29 provisions, with special consideration of the pronouncements of Argentine regulators which as of the date are forbidden to accept the filing of financial statements restated for inflation according to Decree No. 664/03 and its supplementary standards. The Company's Management will also monitor the pronouncements of foreign regulators, as well as the evaluation that the accounting profession will perform with regards to the uniform application of IAS 29 together with other issuers that apply IFRS in the Argentine Republic.

EURO	(11)	17.213	(192)
Total liabilities			(7,981)
Net liabilities			(5,612)

(i) US\$ = United States dollar; G= Guaraníes.

(ii) As foreign currency figures and their amount in Argentine pesos are in millions, the calculation of the amount of the foreign currency by its exchange rate could not be exact.

(iii) Includes 708 corresponding to Government bonds valued at fair value (equivalent to US\$ 45 million).

In order to partially reduce this net liability position in foreign currency the Telecom Group, as of September 30, 2016, holds investments adjustable to the variation of the US\$/\$ exchange rate (dollar linked) by \$95. So, the net liability position in foreign currency amounted to \$5,517 as of September 30, 2016 (equivalent to approximately US\$ 360 million).

	Total liabilities		(7,977)
	Net liabilities		(6,063)

(i) US\$ = United States dollar; G= Guaraníes.

(ii) As foreign currency figures and their amount in Argentine pesos are in millions, the calculation of the amount of the foreign currency by its exchange rate could not be exact.

(iii) Includes 616 corresponding to Government bonds valued at fair value (equivalent to US\$ 46 million).

In order to partially reduce this net liability position in foreign currency, the Telecom Group, as of December 31, 2015, hold investments adjustable to the variation of the US dollar/\$ exchange rate (US dollar linked) by \$1,105 and other short-term investments whose main underlying asset are financial assets dollar linked for a total amount of \$314. According to this, the Telecom Group's net liability position in foreign currency amounts to \$4,644 as of December 31, 2015, equivalent to approximately US\$ 357 million. Additionally, the Group entered into several NDF contracts as of December 31, 2015 amounting to US\$ 165 million, so, the portion of the net liability position in foreign currency not covered by these instruments amounted to US\$ 192 million as of December 31, 2015.

NOTE 3 SUPPLEMENTARY CASH FLOW INFORMATION

For purposes of the statements of cash flows, cash and cash equivalents comprise cash, bank current accounts and short-term highly liquid investments (with a maturity of three months or less from the date of acquisition) and bank overdrafts, which integrate the Telecom Group's cash management and whose balances fluctuate according to the Group's needs (as happened as of December 31, 2014). Bank overdrafts are disclosed in the statement of financial position as financial debts. During 9M16 bank overdrafts have been part of the permanent short-term financing structure of Personal, so, net funds requests under that method (with maturities less than three months) are included in financing activities.

The corresponding tax withholdings were paid in January 2016 (of which \$1 corresponded to ABC Telecomunicaciones, the minority shareholder).

d) *Additional information required by IAS 7*

In January 2016, IAS 7 was amended through the incorporation of paragraphs 44A to 44E. This amendment included additional information requirements that allow financial statements users to assess changes in liabilities generated by financing activities. Although these disclosures are mandatory for annual periods beginning on or after January 1, 2017, the Telecom Group s Management has adopted the early application option set forth in IAS 7. Reconciliation between the opening and closing balances of liabilities generated by financing activities is disclosed below.

NOTE 5 BALANCES AND TRANSACTIONS WITH COMPANIES UNDER SECT. 33 OF LAW No. 19,550 AND RELATED PARTIES

a) Controlling group

Nortel, residing in A. Moreau de Justo 50 - 11th floor Ciudad Autónoma de Buenos Aires, holds 54.74% stake in the Company, meaning that exercises control of the Company in the terms of sect. 33 of Law No. 19,550. As of September 30, 2015, Nortel owns all of the Class A Preferred shares (51% of total shares of the Company) and 7.64% of the Class B Preferred shares (3.74% of total shares of the Company).

As a result of the Company's Treasury Shares Acquisition Process described in Note 7.b) Acquisition of Treasury Shares, as of September 30, 2016, Nortel's equity interest in Telecom Argentina amounts to 55.60% of the outstanding shares. Pursuant to Section 221 of the LGS, the rights of treasury shares shall be suspended until such shares are sold, and shall not be taken into account to determine the quorum or the majority of votes at the Shareholders' Meetings.

All shares of common stock of Nortel belong to Sofora. As of September 30, 2016 these shares represent 78.38% of Nortel's capital stock.

Sofora's capital stock consists of shares of common stock, with a par value of \$1 Argentine peso each and one vote per share. As of September 30, 2016, Sofora's shares are held by Fintech Telecom LLC (68%) and W de Argentina Inversiones S.A. (32%). Additionally, Fintech holds 18,086,059 Class B shares of Telecom Argentina, which represent 1.837% of Telecom Argentina's total capital stock.

Fintech Telecom LLC, a Delaware (United States) limited liability company, is a wholly-owned direct subsidiary of Fintech Advisory Inc. and its primary purpose is to hold, directly and indirectly, the securities of Telecom Argentina. Fintech Advisory Inc., a Delaware (United States) company, is directly controlled by Mr. David Martínez (a member of Telecom Argentina's Board of Directors). Fintech Advisory Inc. is an investor and investment manager in equity and debt securities of sovereign and private entities primarily in emerging markets.

In connection with the Shareholders' Agreement entered into by the Telecom Italia Group and W de Argentina Inversiones S.A., as last amended on October 24, 2014 (the New Shareholders' Agreement), Fintech Telecom LLC adhered as a party to the New Shareholders' Agreement by means of execution of a Deed of Adherence, following its acquisition of 17% of Sofora's capital stock. On March 8, 2016, as a result of its acquisition of 51% of Sofora's shares, Fintech acquired all the rights and obligations of the Telecom Italia Group under the New Shareholders' Agreement.

b) Related parties

For the purposes of these consolidated financial statements, related parties are those individuals or legal entities which are related (in terms of IAS 24) to the Telecom Italia Group, Fintech Telecom LLC or W de Argentina - Inversiones S.A., except Nortel and companies under sect. 33 of the LGS, as explained below.

In connection with the change of control explained in Note 10.a), on March 8, 2016, Fintech Telecom LLC acquired 51% of Sofora s shares from the Telecom Italia Group. As a result, Fintech Telecom LLC acquired the indirect control of the Telecom Group, increasing its holding in Sofora to 68% of Sofora s shares and voting rights. Therefore, the transactions disclosed in d) below corresponding to the Telecom Italia Group are those performed until March 8, 2016, as from which date the Telecom Italia Group has ceased to be a related party of the Telecom Group. Please note that no operations with related parties of Fintech Telecom LLC conducted as from March 8, 2016 have been identified.

For the periods presented, the Telecom Group has not conducted any transactions with Key Managers and/or persons related to them, as described above.

As of September 30, 2016, \$30 remained unpaid.

As of September 30, 2016 and 2015, the Telecom Group has recorded a provision of \$21 and \$16, respectively, for the fees of its Board of Directors members. The members and alternate members of the Board of Directors do not hold executive positions in the Company or Company s subsidiaries.

Table of Contents**TELECOM ARGENTINA S.A.****NOTE 6 COMMITMENTS AND CONTINGENCIES OF THE TELECOM GROUP****a) Purchase commitments**

The Telecom Group has entered into various purchase orders amounting in the aggregate to approximately \$7,336 as of September 30, 2016 (of which \$3,160 corresponds to PP&E commitments), primarily related to the supply of switching equipment, external wiring, infrastructure agreements, inventory and other service agreements.

b) Contingencies

The Telecom Group is a party to several civil, tax, commercial, labor and regulatory proceedings and claims that have arisen in the ordinary course of business. In order to determine the proper level of provisions, Management of the Company, based on the opinion of its internal and external legal counsel, assesses the likelihood of any adverse judgments or outcomes related to these matters as well as the range of probable losses that may result from the potential outcomes. A determination of the amount of provisions required, if any, is determined after an analysis of each individual case.

The determination of the required provisions may change in the future due to new developments or unknown facts at the time of the evaluation of the claims or changes as a matter of law or legal interpretation. Consequently, as of September 30, 2016, the Telecom Group has recorded provisions in an aggregate amount of \$1,668 (\$84 for regulatory contingencies deducted from assets and \$1,584 included under provisions) to cover potential losses under these claims and certain amounts deposited in the Company's bank accounts have been restricted as to their use due to some judicial proceedings. As of September 30, 2016, these restricted funds totaled \$58 (included under Other receivables item line in the consolidated statement of financial position).

(a) Capital information

The total capital stock of Telecom Argentina amounted to \$984,380,978, represented by an equal number of ordinary shares, of \$1 argentine peso of nominal value and entitled to one vote per share. The capital stock is fully integrated and registered with the Public Registry of Commerce.

The Company's shares are authorized by the CNV, the BCBA and the NYSE for public trading. Only Class B shares are traded since Nortel owns all of the outstanding Class A shares; and Class C shares are dedicated to the employee stock ownership program, as described below.

Telecom Argentina's breakdown of capital stock as of September 30, 2016 is as following:

Registered, subscribed and authorized for public offering

Shares	Outstanding shares	Treasury shares	Total capital stock
Ordinary shares, \$1 argentine peso of nominal value each

Each ADS represents 5 Class B shares and are traded on the NYSE under the ticker symbol TEO.

(b) Acquisition of Treasury Shares

The Company's Ordinary Shareholders Meeting held on April 23, 2013, which was adjourned until May 21, 2013, approved at its second session of deliberations, the creation of a Voluntary Reserve for Capital Investments of \$1,200, granting powers to the Company's Board of Directors to decide its total or partial application, and to approve the methodology, terms and conditions of such investments.

In connection with the foregoing, on May 22, 2013, Telecom Argentina's Board of Directors approved a Treasury Shares Acquisition Program of Telecom Argentina in the market in Argentine pesos (the Treasury Shares Acquisition Program) for the purpose of avoiding any possible damages to Telecom Argentina and its shareholders derived from fluctuations and unbalances between the shares' price and Telecom Argentina's solvency, for the following maximum amount and with the following deadline:

- Maximum amount to be invested: \$1,200.
- Deadline for the acquisitions: until April 30, 2014.

According to the offer made on November 7, 2013 by Fintech Telecom LLC for the acquisition of the controlling interest of the Telecom Italia Group in Telecom Argentina, Telecom Argentina suspended the acquisition of treasury shares and its Board of Directors considered appropriate to request the opinion of the CNV on the applicability of the new provisions contained in the rules issued by that entity (Title II, Chapter I, Section 13 and concurring) with respect to the continuation of the Treasury Shares Acquisition Program.

The CNV did not answer the Company's request and the Telecom Argentina's Board of Directors, at its meeting held on May 8, 2014, decided to conclude the request considering that the Treasury Shares Acquisition Program finished on April 30, 2014, which had been approved by Telecom Argentina's Board of Directors Meeting held on May 22, 2013.

Telecom Argentina's Board of Directors, at its meeting held on June 27, 2014, decided to request a new opinion from the CNV to confirm whether Telecom Argentina is obliged to refrain from acquiring treasury shares in the market under Section 13, Chapter I, Title II of the CNV rules (NT 2013).

Table of Contents**TELECOM ARGENTINA S.A.**

Pursuant to Section 67 of Law No. 26,831, the Company must sell its treasury shares within three years of the date of acquisition. Pursuant to Section 221 of the LGS, the rights of treasury shares shall be suspended until such shares are sold, and shall not be taken into account to determine the quorum or the majority of votes at the Shareholders Meetings. No restrictions apply to Retained Earnings as a result of the creation of a specific reserve for such purposes named Voluntary Reserve for Capital Investments, which, as of September 30, 2016 amounted to \$3,191. On April 29, 2016, the Ordinary and Extraordinary Shareholders Meeting approved an additional 3-year extension for the disposal due date of treasury shares provided by Section 67 of Law No. 26,831.

As of September 30, 2016, the Company owns 15,221,373 treasury shares, representing 1.55% of its total capital. The acquisition cost of these shares in the market amounted to \$461.

NOTE 8 RESTRICTIONS ON DISTRIBUTION OF PROFITS

The Company is subject to certain restrictions on the distribution of profits. Under the LGS, the by-laws of the Company and rules and regulations of the CNV, a minimum of 5% of net income for the year in accordance with the statutory books, plus/less previous years adjustments and accumulated losses, if any, must be appropriated by resolution of the shareholders to a legal reserve until such reserve reaches 20% of the outstanding capital (common stock plus inflation adjustment of common stock). On May 21, 2014, Telecom Argentina reached the maximum amount of its Legal Reserve according to LGS and CNV provisions previously disclosed.

NOTE 10 RECENT DEVELOPMENTS CORRESPONDING TO THE NINE-MONTH PERIOD ENDED SEPTEMBER 30, 2016 FOR THE TELECOM GROUP

a) **Change of indirect parent company of the Telecom Group**

On November 14, 2013, Telecom Italia S.p.A and Telecom Italia International N.V. (jointly, the Sellers) and Tierra Argentea (a company controlled by the Sellers) announced the acceptance of an offer by Fintech Telecom LLC to acquire the controlling stake held by the Telecom Italia Group in Telecom Argentina, owned by the Sellers, through its subsidiaries Sofora, Nortel and Tierra Argentea. Closing of the transfer of the Telecom Italia Group's shares in Sofora was subject to certain required regulatory authorizations.

On December 10, 2013, Tierra Argentea transferred to Fintech Telecom LLC Telecom Argentina's Class B shares representing 1.58% of Telecom Argentina's capital stock and Nortel's ADRs representing 8% of Nortel's Preferred Class B Shares.

On October 25, 2014, Telecom Italia S.p.A. announced its acceptance of an offer by Fintech Telecom LLC to amend and restate the agreement announced on November 14, 2013. Within the frame of this amendment agreement: 1) on October 29, 2014 Telecom Italia International N.V. transferred 17% of Sofora's capital stock to Fintech Telecom LLC; 2) it was confirmed that the transfer of the 51% controlling interest in Sofora was subject to the prior approval of the telecommunications regulatory authority (previously the SC, then the AFTIC and currently the ENACOM).

On October 16, 2015, AFTIC's Resolution No. 491/2015 was published in the Official Gazette, denying authorization for the transfer of Telecom Italia's controlling equity interest in Sofora to Fintech. Such Resolution was challenged in several opportunities by Fintech, the Sellers, W de Argentina Inversiones S.A., Telecom Argentina and Personal.

Table of Contents

TELECOM ARGENTINA S.A.

On February 17, 2016 Telecom Argentina was notified of ENACOM Resolution No. 64/16 pursuant to which ENACOM partially revoked AFTIC Resolution No. 491/15 and decided to continue analyzing the transfer of Telecom Italia Group's shares in Sofora.

On February 24, 2016, Telecom Argentina was notified of Fintech Telecom LLC's intention to launch a Mandatory Tender Offer (the OPA) resulting from a change of control event for all Class B common shares of Telecom Argentina listed on the Buenos Aires Securities Market, or Mercado de Valores de Buenos Aires S.A. The OPA's background and purpose, price, timing and terms of acceptance, and details of the facts that condition its performance, are described in an OPA notice published in the newspaper *El Cronista Comercial* on February 24, 2016, in page No. 5. On July 22, 2016 Fintech informed the Company the modifications to certain terms of the OPA announced previously by Fintech, including the offering price. The offered price has been amended from \$46 Argentine pesos per share to US\$ 3.925 per share (from which US\$ 0.050 (five cents) should be deducted per share as cash dividends paid on May 13, 2016, together with any other cash dividend to be paid by Telecom Argentina from the date of the OPA's announcement to the date of the OPA's payment.

On September 6, 2016, the CNV's Board of Directors approved the formal terms of the OPA. Subsequently, on September 14, 15 and 16 of 2016, Fintech published in *El Cronista Comercial* newspaper the notice provided on the CNV Rules (modified by complementary notices published in the same newspaper on October 5, 6 and 7-the first-, and on October 26, 27 and 28- the second-) setting the opening and closing dates of the OPA and the amendments to the OPA Notice published on February 24, 2016. The end of the OPA and its additional deadline took place on November 4, 2016 for Argentina.

On November 7, 2016, Fintech informed the Company that, having ended the OPA's offers reception period in Argentina, a total of 12,337,723 Class B shares acceptances were received, representing 1.253% of Telecom Argentina's total capital.

Simultaneously, Fintech had launched an OPA in the United States of America, which offers reception period is expected to expire on November 23, 2016. This OPA does not affect in any way the OPA launched by Fintech in Argentina.

On March 7, 2016, ENACOM Resolution No. 277/16 authorized Fintech's acquisition of 51% of Sofora's shares of common stock, and on March 8, 2016, the transfer of Telecom Italia Group's 51% stake in Sofora to Fintech was closed.

On March 8, 2016, the new members of the Board of Directors of Telecom Argentina and Personal appointed by Fintech replaced the members of such Boards of Directors appointed by the Telecom Italia Group. The Personal's Unanimous General Ordinary and Extraordinary Shareholders Meeting held on March 29, 2016 and the Telecom Argentina's General Ordinary and Extraordinary Shareholders Meeting held on April 8, 2016 approved, among other items, the performance of duties of the directors and alternate directors and the members of the Supervisory Committee appointed by the Sellers in such companies and appointed new directors and alternate directors and members of the Supervisory Committee to cover the vacancy generated by those appointed by the

Sellers. This new directors and alternate directors and members of the Supervisory Committee would hold their positions until the next Shareholders Meetings that would consider the financial statements as of December 31, 2015.

On March 8, 2016 the change of Sofora's controlling shareholder became effective and, accordingly, the Telecom Italia Group ceased being the Company's indirect controlling shareholder (position assumed by Fintech). Based on such facts, on April 15, 2016 Telecom Argentina and Personal notified the CNCD that the *Telco and TI-W Commitments have become moot and have completely lost its cause and purpose*.

Additional information regarding the transaction between the Telecom Italia Group and Fintech as well as the OPA promoted by Fintech is available in the Relevant Facts section of the CNV at www.cnv.gob.ar, and in the Company filings section (Telecom Italia S.p.A and Telecom Argentina) of the SEC at www.sec.gov.

b) The Company and Personal's filings to the Regulatory Authority due to price changes in accordance with the LAD

• **Change of price in fixed services**

On February 1, 2016, the Company informed the ENACOM, that effective May 15, 2016, the new rate of SBT for residential segment will be \$50 Argentine pesos (plus VAT) and that the Retired customer's category will have a discount of 50% on the mentioned new rate.

However, on March 11, 2016, the Company informed the ENACOM that the new rate of SBT for the residential segment will be \$38 Argentine pesos (plus VAT) since May 1st, 2016, in response to a collaboration request made by the Regulatory Authority taking into consideration the special circumstances of the current macroeconomic environment in Argentina.

Table of Contents

TELECOM ARGENTINA S.A.

As of the date of issuance of these consolidated financial statements, Telecom Argentina has communicated the new rate to its affected customers.

- **Change of CPP price in mobile services**

On June 14, 2016, Personal informed ENACOM that, as from August 15, 2016, the TLRD price, in CPP mode for calls from fixed origin to mobile destination, without distinguishing time band, will be \$0.90 Argentine pesos plus VAT per minute, with a discount during the first 120 days, during which the price will be \$0.66 Argentine pesos plus VAT per minute.

Personal through fixed operators informed the changes of the mentioned prices to its affected subscribers.

On August 18, 2016, ENACOM ordered Personal to refrain from modifying the amounts established by SC Resolution No. 48/03. Personal submitted its response on August 26, 2016, maintaining the right to increase the price informed. Personal's Management and its legal counsel consider that they have strong legal and factual arguments to maintain the price increase. As of the date of issuance of these consolidated financial statements, ENACOM has not rejected the disclaimer presented by Personal.

- c) **Commission for the reform, update and unification of the LAD and the Law of Audiovisual Communication Services**

Section 28 of Decree of Need and Urgency (Decreto de Necesidad y Urgencia or hereinafter the DNU) No. 267/15 created, within the Ministry of Communications, the Commission for the Preparation of the Reform, Update and Unification Draft Law of Laws No. 26,522 and 27,078 (the Commission). The Commission will be responsible for the study of both laws reforms under the principles established therein.

On April 15, 2016, the Ministry of Communications through Resolution No. 9/16 provided that the Commission shall be composed by 6 members and 1 Secretary, who will perform their duties ad honorem . The Resolution also appointed its members. The Commission should submit a pre-draft of reform, updating and adaptation of a unified system of the Regulatory Framework Law for the Telecommunications and Audiovisual Communication Services in Argentina, within the 180 days from the date of its constitution. This term could be extended at the Commission's request.

On April 8, 2016, the Congress voted in favor of the validity of the DNU No. 267/15.

Through Resolution No. 1,098-E/16 published on October 31, 2016, the Ministry of Communications extended for 180 calendar days the term for the preparation of the Reform, Update and Unification project for Laws No. 26,522 and 27,078.

d) Resolution No. 38/16 Mobile Virtual Operators Regulation

Resolution No. 38/16, issued by the Ministry of Communications on May 5, 2016, approved the new Regulation of Virtual Mobile Operators (VMO) and repealed SC Resolution No. 68/14, which had approved the Regulation of Virtual Mobile Operators previously stated by the ex SC.

The mentioned Resolution provides that Network Mobile Operators (NMO), which have spectrum and infrastructure (among them, Personal), shall file, within 120 days since the Resolution issuance, a Reference Offer (the RO) for those interested in providing VMO services. The RO shall be annually published in the NMO and the Regulatory Authority institutional web sites, and shall provide the economic and technical conditions (that will be freely established between the parties, reasonable, and nondiscriminatory), clearly stating the price and conditions of the services to be provided.

This new Regulation applies for Mobile Communications Service (SCM), which includes Mobile Telephone Service (STM), Cellular Mobile Radiocommunications Service (SRMC), Personal Communications Service (PCS) and Mobile Advanced Communications Service (SCMA). The Resolution also provides the procedures for the Services Contracts subscription between the NMO and the VMO, which will state the terms and conditions for the NMO to provide the VMO telecommunications network access and, if needed, telecommunications network interconnection.

On September 1, 2016, Personal filed a presentation before the Ministry of Communications explaining the reasons for finding essential the suspension of the term for submission of the OR provided in Section 2 Resolution No. 38/16 of the Ministry of Communications, until the 700MHz frequencies that compose Lot 8 (awarded and paid by Personal) were in full conditions of use and the spectrum of Lot 1 of the Frequency Public Auction developed by SC Resolution No. 38/14 was allocated and on-air . Through the mentioned presentation it was also requested: a) the removal of Section 10 of Annex I of the above-mentioned rule (which does not allow agreements with VMO on an exclusive basis); b) that ENACOM attaches interference measurements carried out in the 700MHz Band awarded to Personal; and c) that ENACOM informs whether it has definitively resolved all the claims made by the users of such band. As of the date of issuance of these consolidated financial statements, the resolution of the mentioned presentation is pending.

e) **New SU regulation**

ENACOM Resolution No. 2,642/16 approved the new SU Regulation, which was published on May 31, 2016.

The new Regulation still requires a contribution of 1% of the aggregate accrued income from the provision of ICT services, net of applicable taxes and duties, including the possibility of granting exemptions, in which case those persons obliged to pay shall comply with the obligations set forth by the Regulatory Authority.

As of the date hereof, issuance by the Regulatory Authority of the regulations relating to the information regime to be followed in order to show compliance with the SU obligations is still pending. The Company and Personal have continued complying with the submittal of their monthly statements to the ENACOM, with all the formalities in effect before issuance of Resolution No. 2,642/16.

As of the date of issuance of these financial statements, the Company and Personal s Managements are analyzing the legal and constitutional impact of Resolution No. 2,642/16.

Through ENACOM Resolution 6,981 -E/16 issued on October 19, 2016, the Regime Information for FFSU Deposit Investment Contributions and the FFSU Investment Contributions settlement forms and interest reports were approved and will be in force since January 1, 2017.

Through ENACOM Resolution 7,243 -E/16 issued on October 24, 2016, the licensees of ICT services were summoned, for the term of 30 calendar days, to present the projects within the Connectivity Program approved by ENACOM Resolution No. 3,597/16 aimed to promote the universalization of Broadband Internet service in areas without coverage and/or the strengthening of quality service in areas with unsatisfied needs.

f) **Decree No. 798/16: Federal Plan for the Development of Competitiveness and Quality Conditions of the Mobile Communications Services**

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Decree No. 798 published in the Official Gazette on June 22, 2016 issued within the scope of the Ministry of Communications approved the Federal Plan for the development of competitiveness and quality conditions of the SCM, which strategic axis is to favor greater market efficiency, with quality services, at fair and reasonable prices.

The above referred plan provides that within 90 days the Ministry of Communications shall, i) begin to adequate the set of rules approved by SC Resolution No. 157/97 (CPP rules) to the LAD provisions; ii) update the General Clients Regulation of SCM following up on the process initiated by SC Resolution No. 12/2013, including the introduction of mechanisms that allow clients to access information about the service quality and obtain discounts and/or compensations for their services in case of breach of the required quality levels; iii) initiate the process of adequating the Regulation about Administration, Management and Control of the Radioelectric Spectrum to the LAD provisions, for the purpose of increasing competition in all services; iv) update the Federal Awarding Table of Radioelectric Spectrum Bands, so as to increase the availability of frequencies for the provision of mobile communication services, for which purpose the Ministry of Communications shall initiate the procedures set forth in Section 30 of the LAD; v) incorporate to the General Regulation of the Universal Service approved by ENACOM Resolution No. 2,642/16 a priority to consider eligible for programs with SU funding projects to be developed in Municipalities that have adopted the regulation proposed by the Code of Good Practices for the Deployment of Mobile Communications Network prepared by the Argentine Federation of Municipalities and Operators of Mobile Communications, and sponsored by the former Secretary of Communications of the former Ministry of Federal Planning, Public Investment and Services, of August 20, 2009, or contemplate regulations of similar characteristics that do not disrupt by fact or by law, the deployment of said network; vi) design a Federal Contingency Plan for catastrophic events; vii) update the Federal Interconnection Regulations, the Regulation of Licenses for Telecommunication Services and the Rules of Number Portability approved by SC Resolution No. 98/10.

This Decree also provides that the Ministry of Communications, through the ENACOM, shall within 60 days prepare measurement protocols to allow exteriorization of the quality perception of SCM users, taking into account UIT parameters, and review and update quality rules for the ICT service networks in applicable areas.

TELECOM ARGENTINA S.A.

In addition, the ENACOM shall perform measurements of non ionising radiations in order to control that they are within levels not harmful to human health, and the Agency of State-owned Assets Management (AABE) shall, as the Entity governing the public policy on state-owned real estate, perform procedures and administrative acts, and enter into applicable contracts, to grant the use against payment of terraces, roofs, towers, sites and/or any installation, plant or sector of state owned assets that may be suitable for the installation of structures that may carry antennas, equipment and other installations relating to the telecommunication services, information and communications technology, and/or audiovisual communication. The AABE shall facilitate the list of state owned assets with a potential capability for such installations, to the licensees of such services and to independent companies of passive infrastructure sharing.

Among other aspects, the Decree provides that, as a way to encourage the fast deployment of networks and infrastructure sharing, the use of state-owned real estate on which radio bases are installed within three months of the Decree s date of publication in the City of Buenos Aires, and within six months in the rest of the country, shall be free during the first year. In those same cases, the lease shall be free during the first three years when the infrastructure is shared between two Mobile Services Licensees, and during the first four years, when it is shared between more than two Licensees. The same benefit shall be granted to independent companies of passive infrastructure sharing when the above referred conditions are met.

As of the date of issuance of these financial statements, issuance of the rules regulating the above mentioned provisions is still pending.

g) Disengagement of Spectrum

Pursuant to SC Resolution No. 25/15 of June 11, 2015, Personal acquired the Frequency Bands SCMA 713-723 Mhz and 768-778 Mhz, which made up Lot 8 and were pending of award by the SC.

On June 25, 2015 Personal paid the offered amounts corresponding to the awarded Frequency Bands (which were equivalent to US\$ 247.3 millions) pursuant to the provisions of the Bidding Terms and Conditions and its complementary clarifying documents, as a result of which the whole amount of the sum offered for Lot 8 was paid. In addition, in its bid documents, Personal stated that such Lot formed a unique and comprehensive block for purposes of complying with the obligations undertaken in connection with the deployment of the SCMA, also expressing that the Federal Government has the obligation to cause the awarded bands to be free from occupants and interferences.

Pursuant to SC Resolution No. 18/14, it was decided that the frequency bands from 698 to 806MHz had to be disengaged before a deadline of two years, following which, the irradiating systems involved in the migration had to stop their emissions.

Pursuant to ENACOM Resolution No. 6,396/16, published in the Official Gazette on July 22, 2016, it was decided that the licensees covered by the migration provided by SC Resolution No. 18/14 that are currently providing services within the frequency range from 698 MHz to 806 MHz, may elect to: (i) continue to provide their respective services temporarily, in other frequencies corresponding to the bands awarded to the broadcasting service, particularly band 512-698 MHz, subject to technical feasibility verified in each case, and for the period set forth in Section 2 of Resolution No. 6,396/16; or (ii) request the awarding of a band width equivalent to the one currently authorized to them, in the destination band from 12.2 to 12.7 GHz.

As of the date of issuance of these financial statements, the deadline provided by SC Resolution No. 18/2014 for the disengagement of the band from 698 to 806 MHz expired on July 18, 2016. However, such frequency band continues to be occupied.

On the other hand, execution by the Regulatory Authority of the Agreement for Authorization of Frequency Bands Use corresponding to the bands awarded to Personal as a result of the public bid called pursuant to the provisions of SC Resolution No. 38/14 is still pending.

Personal has submitted a filing before the ENACOM, requesting a clarification on what deadline applies to the operators involved in the migration to comply with the provisions of ENACOM Resolution No. 6,396/16. In addition Personal has requested to review all documentation relating to the migration of services that are operating in the bands that were awarded to it pursuant to SC Resolution No. 25/15.

h) Legal Procedures relating to the Definition of the Scope of Fixed and Mobile Telephone Services under Broadcasting Law No. 22,285, repealed by Law No. 26,522 of Audiovisual Communication Services

The Group offers a wide range of telecommunications services in the market, including, among others, those referred to as VAS, which provide additional functionality to the basic services of voice transmission through a telecommunications network. Recent developments about these procedures are described below:

ii **Supercanal Case**

Within the context of a claim filed by Supercanal S.A. in 2003, an injunction was ordered against the fixed and mobile telephone companies, by which the Court ordered them to abstain from *providing supplementary broadcasting services or issuing any kind of broadcasting contents and programming*, as well as *making any advertisement relating to future services to be provided, or the provision of television services as VAS or any other kind of technical method through the fixed or mobile telephone and Internet services that they provide*.

On May 10, 2016, the judge decided that the claim is moot, ordered the lifting of the injunction and the closing of the claim.

ii **Claim by the Argentine Association of Cable Television**

Within the context of a claim filed by the Argentine Association of Cable Television in 2006, an injunction was ordered against the fixed and mobile telephone companies, by which the Court ordered them to abstain from *transmitting, repeating and/or providing directly or indirectly broadcasting services or their supplementary services*, based on the former Broadcasting Law No. 22,285. Subsequently, such injunction was extended to the commercialization of the Superpack service (joint offer of satellite television services provided by DirecTV and telephone and Internet services provided by Telecom Argentina, where each entity invoiced the services provided by it directly to the final customer).

On June 18, 2015 a lower Court decided to postpone the declaration that the claim was moot and to limit the term of the injunction for six months. The decision was appealed by the Company and other defendants. On October 8, 2015 the Court of Appeals decided the revocation of the judge's decision that the claim is moot and ruled that the injunction has ceased to apply. Against this

decision, the plaintiff has filed an extraordinary resource. On March 17, 2016, the Court of Appeals rejected the resource. The plaintiff filed a complaint with the Supreme Court on March 29, 2016, which it was dismissed by the Supreme Court on August 4, 2016 and ended the claim.

i) Lawsuit against Personal on changes in services prices

In June 2012 the consumer trade union Proconsumer filed a lawsuit against Personal claiming that the company did not provide the clients with enough information regarding the new prices for the services provided by Personal between May 2008 and May 2011. It demands the reimbursement of the increase in the price billed to customers for a period of two months.

According to the provisions of the Supreme Court on May 27, 2016, the demand will continue its proceedings in the commercial courts.

j) Claims for Project AFA Plus

In June 2016 the Company initiated a compulsory pre-judicial mediation procedure. The first audience, held on July 12, 2016, was attended by both parties. A second audience was held on August 3, 2016 and a new one was held on August 23, 2016, which resulted in no agreement between the parties.

k) Law No. 27,181 Statement of public interest in the protection of the Argentine government's equity interest that are part of the FGS investment portfolio (Sustainability Guarantee Fund)

As mentioned in Note 19 to the Consolidated Financial Statements as of December 31, 2015, on October 6, 2015 Law No. 27,181 was published in the Official Gazette, which:

(i) declared of public interest the protection of the Argentine government's equity interest in the investment portfolio of the Sustainability Guarantee Fund of the Argentine Pension Integrated System (FGS) and its equity interests or share holdings in companies in which the Argentine government is a minority partner or where the Ministry of Economy and Public Finances holds shares or equity interest. Transfer of those interests is forbidden without prior authorization of two-thirds (2/3) of the National Congress.

(ii) created the Agencia Nacional de Participaciones Estatales en Empresas (Argentine National Agency for Government Equity Interests in Companies) (ANPEE).

TELECOM ARGENTINA S.A.

On July 22, 2016, Law No. 27,260 of Historic Reparation for Retired Persons and Pensioners, abolishing Law No. 27,181 in its Section 35, was published in the Official Gazette. In addition, Section 30 of Law No. 27,260 provides that the transfer of shares of public corporations authorized by the CNV that are part of the FGS is banned without a previous and express authorization of the Federal Congress if, as a result of such transfer, the FGS's holding of the above referred securities becomes less than 7% of the aggregate assets of the FGS. The following exceptions apply: 1. *Tender offers addressed to all holders of such assets at a fair price authorized by the CNV, pursuant to the terms of Chapters II, III and IV of Title III of Law No. 26,831.* 2. *Swaps of shares for other shares of the same or another corporation as a result of a merger, split or other corporate reorganization.*

l) Decree No. 894/16: exercise of corporate, political and economic rights by the ANSES

Decree No. 1,278/12 provided that the Secretary of Economic Politics and Development Planning of the Ministry of Economy and Public Finances was in charge of the execution of the policies and acts relating to the exercise of the corporate rights attached to the equity participations in corporations where the Federal State is a minority shareholder, and for such purpose approved a set of Rules applicable to representatives and directors appointed by the shares or equity participations held by the Federal State.

On July 28, 2016, Decree No. 894/16 was published, modifying Decree No. 1,278/12 and providing that in those corporations which shares are part of the FGS portfolio, the corporate, political and economic rights corresponding to such shares shall not be exercised by the Secretary of Economic Politics and Development Planning, but shall instead be exercised by the Federal Management of Social Security (ANSES).

In addition, Decree No. 894/16 provides that the Directors appointed by the ANSES shall have the functions, duties and powers set forth in the LGS, the Capital Market Law No. 26,831 and their complementary regulations, all other rules applicable to the corporation in which they act as directors, and their bylaws and internal regulations, and that they shall be exposed to all the liabilities applicable under such rules, not being subject to the provisions of Decree No. 1,278/12 and 196/15 (the latter in connection with its delimitation of responsibility).

m) Repeal of Income tax on dividend payments

Law No. 26,893 and Decree No. 2,334/13 stated that dividends and profits, in cash or in any kind -except in shares or share participation - distributed by companies and other entities established in the country made available as from September 23, 2013, were subject to a withholding tax of 10%, excluding dividends received by corporations and other local entities, that continued not computable for the purposes of the tax.

Law No. 27,260 repealed the above mentioned provision, as a result of which, as from July 23, 2016 all dividends and profits, in cash or in any kind, made by companies and other entities established in the country (such as Telecom Argentina), regardless their beneficiary, are not subject to the aforementioned withholding.

n) Salary agreements

In August 2016, Telecom Argentina and Personal have concluded the salary negotiation process with various telecommunications unions for the period July 2016 – June 2017. Pursuant to the agreements reached, the unionized employees will receive in installments different fixed amounts per category, representing an annual raise of 37%.

3Q16 salary increases affected the Telecom Group's operating results in approximately \$404. For 4Q16 an additional cost of approximately \$281 is expected (figures not covered by the limited review of the independent external auditors).

o) Regulation Draft for Mobile Communication Service Subscribers

SECTIC Resolution 6-E/16 issued on September 16, 2016 declared the opening of the Procedure provided by the General Regulation for the Standards Participatory Preparation in relation to the Regulation for Mobile Communication Service Subscribers published in the Official Bulletin and on the ENACOM website. This Procedure invites citizens to express their opinions and proposals regarding the Regulation draft. The deadline for opinions and proposals submission expired on November 1, 2016. Personal submitted its comments to the Regulation draft.

p) Amendment Draft to the Number Portability Regulation

Through SECTIC Resolution 7-E/16 issued on September 16, 2016, the ICT Secretary declared the opening of the Consultation Document procedure provided by the General Regulation of Public Hearings and Communications Consultation Documents, in relation to the Number Portability Regulation Amendment Project. The presentation of opinions and proposals deadline expired on October 17, 2016. Personal presented its opinion to the amendments proposed in the published Project.

q) Consultation on Interconnection and ICT Services Network Access Document

Through SECTIC Resolution 9-E/16: published on September 22, 2016, the ICT Secretary declared the opening of the procedure provided by the General Regulation of Public Hearings and Communications Consultation Documents in relation to the document Consultation on Interconnection and ICT Services Networks Access . On October 20, 2016, the Company submitted to the ICT Secretary its opinions and proposals for the published consultation.

NOTE 11 SUBSEQUENT EVENTS TO SEPTEMBER 30, 2016

a) Tuves shares purchase option

On October 4, 2016, Núcleo s Board of Directors authorized the execution of the shares purchase option that TU VES S.A. (Chile) granted to Núcleo in order to acquire the controlling interest in Tuves.

On October 6, 2016 Tuves shareholders accepted Núcleo s proposal for executing the shares purchase option (70% Tuves total capital), which is subject to the CONATEL s previous approval.

As of the date of issuance of these consolidated financial statements, the CONATEL has not concluded on this matter.

b) Mobile Services Partial Interruption

On October 5, 2016, while upgrading some Personal s network equipment, an equipment failure caused difficulties in establishing voice communications in some random areas for approximately five hours. The rest of the mobile services, such as data, were not affected. Clients could continue communicating by data instant messaging and other applications without inconveniences. The failure affected approximately one million mobile subscribers across the country.

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Due to this partial interruption, during October 2016, Personal subsidized to its prepaid subscribers a full day of calls to other Personal s subscribers and also subsidized to postpaid subscribers a full day of their monthly charges.

c) **Notes Global Issuance Program**

Personal s Ordinary and Extraordinary Shareholders Meeting held on December 2, 2010 had approved the creation of a Note s Global Issuance Program for a maximum circulation amount up to US\$ 500 million or its equivalent in other currencies for a five year period. On October 13, 2011, the CNV had authorized the mentioned Program through Resolution No. 16,670.

Personal s Ordinary Shareholders Meeting held on May 26, 2016 authorized to extend the due date and expand the Program s maximum circulation amount up to US\$ 1,000 million or its equivalent in other currencies.

On October 20, 2016, the CNV authorized the extension and expansion of the mentioned Program through Resolution No. 18,277.

On November 3, 2016 the CNV authorized the issuance of two series of Notes (Series III in Argentine pesos and Series IV in US dollars) for a maximum amount up to \$1,500 million each. Additional information on this subscription announcement can be consulted in the Relevant Facts section on the CNV website (www.cnv.gob.ar) and in the Investors section on Personal s website (www.personal.com.ar).

d) **Loan with the IFC**

On July 5, 2016, Personal accepted an offer from the International Finance Corporation (IFC) for the assessment and transfer of funds for purposes of financing investment needs, work capital and debt refinancing for an amount of up to US\$ 400 million.

On October 6, 2016 Personal and the IFC signed the loan agreement for an amount of US\$ 400 million and for a six year period, payable in 8 equal half-yearly installments since the 30th month, with a 6 month LIBO rate + 400bp. This loan will be used to deploy the 4G network and refinance short-term financial liabilities. The loan terms include standard commitments for this type of financial transactions.

On October 26, 2016 Personal received the loan proceeds for an amount of US\$ 392.5 million (net of expenses of US\$ 7.5 million).

LIMITED REVIEW REPORT ON CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders, President and Directors of

Telecom Argentina S.A.

Legal address: Alicia Moreau de Justo 50

City of Buenos Aires

Tax Code No.: 30-63945373-8

Introduction

We have reviewed the accompanying condensed interim consolidated financial statements of Telecom Argentina S.A. and its subsidiaries (Telecom or the Company), which comprise the consolidated statement of financial position as of September 30, 2016, the consolidated statements of income and of comprehensive income for the three and nine- month periods ended September 30,2016, the consolidated statements of changes in equity and of cash flows for the three and nine- month periods ended September 30, 2016 and selected explanatory notes.

The balances and other information for the fiscal year 2015 and interim periods are an integral part of the above-mentioned financial statements and therefore they should be considered in relation with those financial statements.

Management Responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of the financial statements in accordance with International Financial Reporting Standards, as approved by the International Accounting Standards Board (IASB), which have been adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and incorporated by the National Securities Commission (CNV) to its regulations and is therefore responsible for the preparation and presentation of the condensed interim consolidated financial statements mentioned in the first paragraph, in accordance with International Accounting Standard No. 34 Interim Financial Information (IAS 34).

Scope of our review

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Our review was limited to the application of the procedures established under International Standards on Review Engagements 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity (ISRE 2410), approved by the International Auditing and Assurance Standards Board (IAASB) and adopted as a review standard in Argentina by Technical Pronouncement No. 33 of the FACPCE. A review of interim financial information consists of inquiries of Company personnel responsible for preparing the information included in the condensed interim consolidated financial statements and of analytical and other review procedures. This review is substantially less in scope than an audit performed in accordance with International Auditing Standards; consequently, a review does not enable us to obtain assurance that we would become aware of all significant matters that could be identified in an audit. Therefore, we do not express an opinion on the consolidated financial position, the consolidated comprehensive income and the consolidated cash flow of the Company.

Conclusion

On the basis of our review, nothing has come to our attention that causes us to believe that the condensed interim consolidated financial statements mentioned in the first paragraph of this report are not prepared, in all material respects, in accordance with International Accounting Standard No. 34.
