..

Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 8.01

Other Events.

On November 3, 2005, Imperial Industries, Inc. (the Company) issued a Press Release announcing the findings of a preliminary assessment of the physical condition of all its facilities after Hurricane Wilma hit South Florida and provided an update of the damages caused by Hurricane Katrina to its Gulfport, Mississippi distribution facility.

It was reported that of the Company s facilities, only the Pompano Beach, Florida manufacturing facility was impacted by Hurricane Wilma. The Pompano Beach facility manufactures roof tile mortar and serves as the Company s corporate headquarters. Although the facility only suffered minimal physical damage, the facility was without power from October 24, 2005, the date that Hurricane Wilma hit South Florida until November 2, 2005. While the power was out, the products normally manufactured at this facility were switched to the Company s Winter Springs, Florida facility.

The Company reported that its distribution facility in Gulfport, Mississippi, which was impacted by Hurricane Katrina, was able to reopen and sell product within one week following the storm. Repairs to the one damaged building at the facility are expected to be completed shortly to allow the facility to resume normal operations.
