SELLING SECURITY HOLDERS

The information appearing in the table below supplements and supersedes the information with respect to such selling security holders in the table appearing under the heading “Selling Security Holders” in the prospectus supplement dated April 2, 2007. The information is based solely on information provided to us by or on behalf of the selling security holders on or prior to July 20, 2007. The number of common shares issuable upon conversion of the notes shown in the table below assume conversion of the full amount of notes held by each holder at the initial conversion rate of 32.4002 common shares per \$1,000 principal amounts of the notes. This conversion rate is subject to adjustments in certain circumstances. Because the selling security holders may offer all or some portion of the notes or common shares issuable upon conversion of the notes, we have assumed for purposes of the table below that the named selling security holders will sell all of the notes or convert all of the notes and sell all of the common shares issuable upon conversion of the notes offered pursuant to this prospectus supplement and the prospectus supplement dated April 2, 2007. In addition, the selling security holders identified below may have sold, transferred or otherwise disposed of all or a portion of their notes since the date on which they provided the information regarding their notes in transactions exempt from the registration requirements of the Securities Act.

- (1) Amounts indicated may be in excess of the total amount registered due to sales or transfers exempt from the registration requirements of the Securities Act since the date upon which the selling security holders provided us with the information regarding their holdings of notes and common shares for inclusion herein.
- (2) Consists of common shares issuable upon conversion of the notes, assuming the initial conversion rate of 32.4002 common shares per \$1,000 principal amount of notes and a cash payment in lieu of any fractional share interests. The conversion price is subject to adjustment as described in the prospectus supplement dated April 2, 2007 under “Description of Notes—Conversion Rights.”
- (3) Calculated based on Rule 13d-3(d)(i) under the Securities Exchange Act of 1934, as amended, using 32,130,608 shares outstanding as of May 9, 2007. In calculating this
