All or a portion of this security is on loan.

144A Security that may be sold to qualified institutional buyers under Rule 144A of the Securities Act of 1933, as amended. This security has been determined to be liquid under guidelines established by the Board of Trustees, unless otherwise noted.

# When-issued or delayed delivery security

† Security initially issued in zero coupon form which converts to coupon form at a specified rate and date. An effective interest rate is applied to recognize interest income daily for the bond. This rate is based on total expected interest to be earned over the life of the bond which consists of the aggregate coupon-interest payments and discount at acquisition. The rate shown is the stated rate at the current period end.

\* Non-income producing security

+ Security is deemed illiquid and is valued using market quotations when readily available, unless otherwise noted.

o Security is valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.

q Rate shown is the 7-day annualized yield at period end.

^ Collateral is pooled with the collateral of other Evergreen funds and allocated on a pro-rata basis into 147 issues of high grade short-term securities such that sufficient collateral is applied to the respective repurchase agreement.

## All or a portion of this security has been segregated for when-issued or delayed delivery securities.

∅ Evergreen Investment Management Company, LLC is the investment advisor to both the Fund and the money market fund.

μ All or a portion of this security has been segregated as collateral for reverse repurchase agreements.

<u>Repurchase Amount</u>	<u>Counterparty</u>	<u>Interest Rate</u>	<u>Maturity Date</u>
\$6,498,709	Lehman Brothers Holdings, Inc.	5.74%	01/09/2008

At November 30, 2007, the Fund had the following open credit default swap contracts outstanding:

<u>Expiration</u>	<u>Counterparty</u>	<u>Reference Index</u>	<u>Notional Amount</u>	<u>Fixed Payments Made by the Fund</u>	<u>Frequency of Payments Made</u>	<u>Unrealized Gain (Loss)</u>
12/20/2012	Goldman Sachs Group, Inc.	Down Jones CDX North America Investment Grade Index	\$695,000	3.75%	Quarterly	\$484
12/13/2049	Goldman Sachs Group, Inc.	CMBX North America Index	210,000	0.27%	Monthly	(14,265)

On November 30, 2007, the aggregate cost of securities for federal income tax purposes was \$288,452,836. The gross unrealized appreciation and depreciation on securities based on tax cost was \$47,573,136 and \$4,382,537, respectively, with a net unrealized appreciation of \$43,190,599.

**Valuation of investments**

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded.

Foreign securities traded on an established exchange are valued at the last sales price on the exchange where the security is primarily traded. If there has been no sale, the securities are valued at the mean between bid and asked prices. Foreign securities may be valued at fair value according to procedures approved by the Board of Trustees if the closing price is not reflective of current market values due to trading or events occurring in the foreign markets between the close of the established exchange and the valuation time of the Fund. In addition, substantial changes in values in the U.S. markets subsequent to the close of a foreign market may also affect the values of securities traded in the foreign market. The value of foreign securities may be adjusted if such movements in the U.S. market exceed a specified threshold.

Portfolio debt securities acquired with more than 60 days to maturity are fair valued using matrix pricing methods determined by an independent pricing service which takes into consideration such factors as similar security prices, yields, maturities, liquidity and ratings. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of market value obtained from yield data relating to investments or securities with similar characteristics.

Short-term securities with remaining maturities of 60 days or less at the time of purchase are valued at amortized cost, which approximates market value.

Investments in other mutual funds are valued at net asset value. Securities for which market quotations are not readily available or not reflective of current market value are valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.

### **Repurchase agreements**

Securities pledged as collateral for repurchase agreements are held by the custodian bank or in a segregated account in the Fund's name until the agreements mature. Collateral for certain tri-party repurchase agreements is held at the counterparty's custodian in a segregated account for the benefit of the Fund and the counterparty. Each agreement requires that the market value of the collateral be sufficient to cover payments of interest and principal. However, in the event of default or bankruptcy by the other party to the agreement, retention of the collateral may be subject to legal proceedings. The Fund will enter into repurchase agreements with banks and other financial institutions, which are deemed by the investment advisor to be creditworthy pursuant to guidelines established by the Board of Trustees. In certain instances, the Fund's securities lending agent may provide collateral in the form of repurchase agreements.

### **Reverse repurchase agreements**

To obtain short-term financing, the Fund may enter into reverse repurchase agreements with banks and other financial institutions, which are deemed by the investment advisor to be creditworthy. At the time the Fund enters into a reverse repurchase agreement, it will establish a segregated account with the custodian containing qualified assets having a value not less than the repurchase price, including accrued interest. If the counterparty to the transaction is rendered insolvent, the Fund may be delayed or limited in the repurchase of the collateral securities.

### **Foreign currency translation**

All assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of portfolio securities and income items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not separately account for that portion of the results of operations resulting from changes in foreign exchange rates on investments and the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses on investments.

### **When-issued and delayed delivery transactions**

The Fund records when-issued or delayed delivery securities as of trade date and maintains security positions such that sufficient liquid assets will be available to make payment for the securities purchased. Securities purchased on a when-issued or delayed delivery basis are marked-to-market daily and begin earning interest on the settlement date. Losses may occur on these transactions due to changes in market

conditions or the failure of counterparties to perform under the contract.

### **Securities lending**

The Fund may lend its securities to certain qualified brokers in order to earn additional income. The Fund receives compensation in the form of fees or interest earned on the investment of any cash collateral received. The Fund also continues to receive interest and dividends on the securities loaned. The Fund receives collateral in the form of cash or securities with a market value at least equal to the market value of the securities on loan, including accrued interest. In the event of default or bankruptcy by the borrower, the Fund could experience delays and costs in recovering the loaned securities or in gaining access to the collateral. The Fund has the right under the lending agreement to recover the securities from the borrower on demand.

**Credit default swaps**

Swaps are marked-to-market daily based on quotations from market makers and any change in value is recorded as an unrealized gain or loss. The Fund may enter into credit default swaps. Credit default swaps involve an exchange of a fixed rate premium for protection against the loss in value of an underlying debt instrument in the event of default or bankruptcy. Under the terms of the swap, one party acts as a “guarantor” and receives a periodic stream of payments that is a fixed percentage applied to a notional principal amount over the term of the swap. In return, the party agrees to purchase the notional amount of the underlying instrument, at par, if a credit event occurs during the term of the swap. Periodic payments are recorded as realized gains or losses. Any premiums or discounts received on the transactions are recorded as an asset or liability on the Statement of Assets and Liabilities and amortized. The Fund may enter into credit default swaps as either the guarantor or the counterparty.

Payments received or made as a result of a credit event or termination of the contract are recognized as realized gains or losses. The Fund could be exposed to risks if the counterparty defaults on its obligation to perform, or if there are unfavorable changes in the fluctuation of interest rates or in the price of the underlying security.

**Item 2 - Controls and Procedures**

- (a) The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) within 90 days of this filing and have concluded that the registrant's disclosure controls and procedures were effective, as of that date, in ensuring that information required to be disclosed by the registrant in this Form N-Q was recorded, processed, summarized, and reported timely.
- (b) There has been no change in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonable likely to materially affect, the registrant's internal control over financial reporting.
