COBALIS CORP. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2007
(UNAUDITED)

NOTE 1 - BASIS OF PRESENTATION

The unaudited consolidated financial statements have been prepared by Cobalis Corp. (the "Company"), pursuant to the rules and regulations of the Securities and Exchange Commission. The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments) which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. Certain information and footnote disclosures normally present in annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to such rules and regulations. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and footnotes for the year ended March 31, 2007 included in the Company's Annual Report on Form 10-KSB. The results of the three months ended June 30, 2007 are not necessarily indicative of the results to be expected for the full year ending March 31, 2008.

Going Concern and Impending Bankruptcy

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. The Company has incurred a net loss of \$563,382 for the three months ended June 30, 2007, and as of June 30, 2007, the Company had a working capital deficit of \$12,837,551 and a stockholder deficit of \$12,228,741. In addition, as of June 30, 2007, the Company has not developed a substantial source of revenue.

On March 31, 2006, the Company reached a settlement with Gryphon Master Lund LP ("Gryphon") related to two investments in the Company by Gryphon in September 2003 totaling \$1,600,000. Full repayment is due under the settlement agreement on or before April 1, 2007. The Company did not make the payment by April 1, 2007; therefore, the stipulated judgment into which the Company entered with Gryphon provides that Gryphon has the right to enter a judgment of \$1.6 million against the Company with the court upon the Company's default.

On April 2, 2007, the Company filed a motion to vacate an agreed judgment based on several grounds including that allegation that Gryphon breached the "no shorting" provision contained in the settlement agreement. The Company believes, and so allege in the Motion to Vacate, that despite Gryphon's agreement, Gryphon engaged in shorting of the Company's stock.

On April 23, 2007, Gryphon sued the Company for breach of contract. This new lawsuit alleges that the Company breached a settlement agreement with Gryphon. Gryphon is also seeking a declaratory judgment that it did not breach the same settlement agreement. Gryphon's alleged breach of the settlement agreement is the subject of the Company's Motion to Vacate. In addition to the declaratory relief, Gryphon's complaint seeks unspecified damages and attorneys' fees. On April 23, 2007, Gryphon also filed an opposition to the Company's Motion to Vacate repeating the same allegations.

Since June 2007, Gryphon has aggressively been moving forward with judgment collection activities, including, but not limited to, conducting a debtor's exam, levying the Company's bank accounts and attaching the Company's assets to the extent such assets are not already encumbered.

Edgar Filing: Cobalis Corp - Form 10QSB

There is no guarantee that the Company will be successful in vacating the judgment or in defending the new lawsuit. If the Company is unsuccessful in vacating the judgment or in defending the subsequent lawsuit, and, if the Company is unable to subsequently timely resolve the Gryphon matter or raise capital to satisfy the judgment, the Company's ability to move its business forward could be adversely affected.

COBALIS CORP. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2007
(UNAUDITED)

On July 23, 2007, the Company received a notice of default from Cornell Capital Partners, LP (“Cornell Capital”) with regard to the convertible debentures entered into between the Company and Cornell Capital on December 20, 2006 and February 20, 2007. Cornell Capital is taking the position that the recent collection efforts against the Company by Gryphon with regard to the litigation described above constitute a default under the relevant Cornell Capital funding documents. In the first notice of default, Cornell Capital, in referencing the contractual 15 day cure period, gave the Company until August 7, 2007 to cure the perceived default (i.e., resolve the dispute with Gryphon). If not cured, Cornell Capital has indicated that it will exercise all of its contractual rights, including, but not limited to, accelerated full repayment of the convertible debentures between the parties and exercising its rights under the pledge and escrow agreement and security agreement entered into between the parties.

On July 25, 2007, the Company received a second notice of default from Cornell Capital which also asserted that the Company was in default of certain provisions of the security agreement between the Company and Cornell Capital, entered into on December 20, 2006. Per the terms of that security agreement, Cornell Capital could demand payment in full for all amounts due under the debenture agreements between the parties. It is also possible that Cornell Capital may enforce the terms of the security agreement and the pledge and escrow agreement.

On August 1, 2007, the Company received an informal notice from YA Global Investments, L.P., formerly known as Cornell Capital that Cornell Capital had filed a petition for involuntary bankruptcy proceedings pursuant to Chapter 7 on that same date with the U.S. Bankruptcy Court for the Central District of California, which seeks liquidation of the Company’s assets. Also on August 1, 2007, the Company received a copy of a file-stamped Chapter 7 petition confirming the notice provided by Cornell Capital. The petition alleges past due debts not less than \$3,000,000 plus other amounts with regard to the convertible debentures entered into between the Company and Cornell Capital on December 20, 2006 and February 20, 2007.

The Company is investigating the options of either contesting the petition, or electing to consent to a voluntary Chapter 11 proceeding, (re-organization), which would allow the Company to continue operating under supervision of the bankruptcy court. The breathing room provided under Chapter 11 would allow the Company to attempt to raise equity or debt financing to provide the necessary capital to reorganize its affairs. There is no guarantee that the Company will be permitted to proceed under Chapter 11 and, further, there is no guarantee that the Company will be successful in raising equity and/or debt financing sufficient to reorganize its affairs. If the Company is not able to successfully contest the petition or successfully file and finance a Chapter 11, the Company will likely be forced to cease operations. As of the date of this report, no orders have been entered by this court, and no trustees or other similar officers have been appointed.

These conditions raise substantial doubt as to the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. These consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

COBALIS CORP. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2007
(UNAUDITED)

Debt Issuance Costs

The Company had capitalized fees and expenses associated with the issuance of its convertible debentures as debt issuance costs, which were being amortized over the term of the convertible debentures. Cornell Capital Partners declared an event of default regarding the convertible debentures; therefore, the Company accelerated the amortization of the debt issuance costs, and recorded an expense of \$368,878 for the three months ended June 30, 2007.

Patent Costs

Patent costs are carried at cost less accumulated amortization, which is calculated on a straight-line basis, over the estimated economic life of the patent. In accordance with SFAS No. 142, "Goodwill and Other Intangible Assets," the Company evaluates intangible assets and other long-lived assets (including patent costs) for impairment, at least on an annual basis and whenever events or changes in circumstances indicate that the carrying value may not be recoverable from its estimated future cash flows. Recoverability of intangible assets and other long-lived assets is measured by comparing their net book value to the related projected undiscounted cash flows from these assets, considering a number of factors including past operating results, budgets, economic projections, market trends and product development cycles. If the net book value of the asset exceeds the related undiscounted cash flows, the asset is considered impaired, and a second test is performed to measure the amount of impairment loss. During the year ended March 31, 2004, the Company recognized an impairment expense of \$111,522 related to one of its patents as it determined that this patent had no future value based on its assessment of expected future cash flows to be generated by this patent and the results of an independent appraisal done in April 2004. Amortization expense related to these patents for the three months ended June 30, 2007 and 2006 was \$13,233, and \$13,644, respectively. Projected amortization expense approximates \$53,000, \$53,000, \$53,000, \$53,000 and \$53,000, respectively, for each of the five years ended March 31, 2012. The weighted-average life of the remaining patents is approximately 11.5 years.

Stock Based Compensation

The Company adopted SFAS No. 123 (Revised 2004), *Share Based Payment* ("SFAS No. 123R"), under the modified-prospective transition method on January 1, 2006. SFAS No. 123R requires companies to measure and recognize the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value. Share-based compensation recognized under the modified-prospective transition method of SFAS No. 123R includes share-based compensation based on the grant-date fair value determined in accordance with the original provisions of SFAS No. 123, *Accounting for Stock-Based Compensation*, for all share-based payments granted prior to and not yet vested as of January 1, 2006 and share-based compensation based on the grant-date fair-value determined in accordance with SFAS No. 123R for all share-based payments granted after January 1, 2006. SFAS No. 123R eliminates the ability to account for the award of these instruments under the intrinsic value method prescribed by Accounting Principles Board ("APB") Opinion No. 25, *Accounting for Stock Issued to Employees*, and allowed under the original provisions of SFAS No. 123. Prior to the adoption of SFAS No. 123R, the Company accounted for our stock option plans using the intrinsic value method in accordance with the provisions of APB Opinion No. 25 and related interpretations.

COBALIS CORP. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2007
(UNAUDITED)

As a result of adopting SFAS No. 123R, the Company recognized \$478,895 and \$128,908 in share-based compensation expense for the three months ended June 30, 2007 and 2006. The impact of this share-based compensation expense on the Company's basic and diluted earnings per share was \$0.01 and \$0.01 per share for the three months ended June 30, 2007 and 2006, respectively.

The fair value for these options was estimated at the date of grant using a Black-Scholes option pricing model with the following weighted-average assumptions for 2006: risk-free interest rate of 4.5%; dividend yields of 0%; volatility factors of the expected market price of the Company's common shares of 188%; and a weighted average expected life of the option of 5 years.

Loss Per Share

The Company reports earnings (loss) per share in accordance with SFAS No. 128, "Earnings per Share." Basic earnings (loss) per share is computed by dividing income (loss) available to common shareholders by the weighted average number of common shares available. Diluted earnings (loss) per share is computed similar to basic earnings (loss) per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. Diluted earnings (loss) per share has not been presented since the effect of the assumed conversion of options and warrants to purchase common shares would have an anti-dilutive effect. The Company has excluded all outstanding options, warrants, and convertible note payable and preferred stock from the calculation of diluted net loss per share because these securities are anti-dilutive. As of June 30, 2007 and 2006, the Company has approximately 17,463,780 and 10,467,600 common stock equivalents, respectively. In addition, as of June 30, 2007, 10,884,426 shares of common stock are issuable upon the conversion of the convertible note payable and convertible debentures.

Recently Issued Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements." This statement clarifies the definition of fair value, establishes a framework for measuring fair value and expands the disclosures on fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. Management has not determined the effect, if any, the adoption of this statement will have on the financial statements.

In September 2006, the FASB issued SFAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans--an amendment of FASB Statements No. 87, 88, 106, and 132(R)". One objective of this standard is to make it easier for investors, employees, retirees and other parties to understand and assess an employer's financial position and its ability to fulfill the obligations under its benefit plans. SFAS No. 158 requires employers to fully recognize in their financial statements the obligations associated with single-employer defined benefit pension plans, retiree healthcare plans, and other postretirement plans. SFAS No. 158 requires an employer to fully recognize in its statement of financial position the overfunded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. This Statement also requires an employer to measure the funded status of a plan as of the date of its year end statement of financial position, with limited exceptions. SFAS No. 158 requires an entity to recognize as a component of other comprehensive income, net of tax, the gains or losses and prior service costs or credits that arise during the period but are not recognized as components of net periodic benefit cost pursuant to SFAS No. 87. This Statement requires an entity to disclose in the notes to financial statements

additional information about certain effects on net periodic benefit cost for the next fiscal year that arise from delayed recognition of the gains or losses, prior service costs or credits, and transition asset or obligation. The Company is required to initially recognize the funded status of a defined benefit postretirement plan and to provide the required disclosures for fiscal years ending after December 15, 2006. Management believes that this statement will not have a significant impact on the financial statements.

COBALIS CORP. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2007
(UNAUDITED)

In February of 2007 the FASB issued SFAS 159, "The Fair Value Option for Financial Assets and Financial Liabilities--Including an amendment of FASB Statement No. 115." The statement permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. The statement is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The company is analyzing the potential accounting treatment.

FASB Staff Position on FAS No. 115-1 and FAS No. 124-1 ("the FSP"), "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments," was issued in November 2005 and addresses the determination of when an investment is considered impaired, whether the impairment on an investment is other-than-temporary and how to measure an impairment loss. The FSP also addresses accounting considerations subsequent to the recognition of other-than-temporary impairments on a debt security, and requires certain disclosures about unrealized losses that have not been recognized as other-than-temporary impairments. The FSP replaces the impairment guidance on Emerging Issues Task Force (EITF) Issue No. 03-1 with references to existing authoritative literature concerning other-than-temporary determinations. Under the FSP, losses arising from impairment deemed to be other-than-temporary, must be recognized in earnings at an amount equal to the entire difference between the securities cost and its fair value at the financial statement date, without considering partial recoveries subsequent to that date. The FSP also required that an investor recognize other-than-temporary impairment losses when a decision to sell a security has been made and the investor does not expect the fair value of the security to fully recover prior to the expected time of sale. The FSP is effective for reporting periods beginning after December 15, 2005. The adoption of this statement will not have a material impact on our consolidated financial statements.

FASB Interpretation 48 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Benefits from tax positions should be recognized in the financial statements only when it is more likely than not that the tax position will be sustained upon examination by the appropriate taxing authority that would have full knowledge of all relevant information. The amount of tax benefits to be recognized for a tax position that meets the more-likely-than-not recognition threshold is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. Tax benefits relating to tax positions that previously failed to meet the more-likely-than-not recognition threshold should be recognized in the first subsequent financial reporting period in which that threshold is met or certain other events have occurred. Previously recognized tax benefits relating to tax positions that no longer meet the more-likely-than-not recognition threshold should be derecognized in the first subsequent financial reporting period in which that threshold is no longer met. Interpretation 48 also provides guidance on the accounting for and disclosure of tax reserves for unrecognized tax benefits, interest and penalties and accounting in interim periods. Interpretation 48 is effective for fiscal years beginning after December 15, 2006. The change in net assets as a result of applying this pronouncement will be a change in accounting principle with the cumulative effect of the change required to be treated as an adjustment to the opening balance of retained earnings on January 1, 2007, except in certain cases involving uncertainties relating to income taxes in purchase business combinations. In such instances, the impact of the adoption of Interpretation 48 will result in an adjustment to goodwill. The adoption of this standard had no material impact on the Company's consolidated financial statements.

COBALIS CORP. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2007
(UNAUDITED)

In September 2006, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements," ("SAB 108"), which provides interpretive guidance on the consideration of the effects of prior year misstatements in quantifying current year misstatements for the purpose of a materiality assessment. The Company adopted SAB 108 in the fourth quarter of 2006 with no impact on its consolidated financial statements.

NOTE 2 - PROPERTY AND EQUIPMENT

The cost of property and equipment at June 30, 2007 consisted of the following:

Furniture and fixtures	\$ 73,203
Office equipment	42,120
	115,323
Less accumulated depreciation and amortization	(113,018)
	\$ 2,305

Depreciation expense for the three months ended June 30, 2007 and 2006 was \$551 and \$3,118, respectively.

NOTE 3 - ACCRUED LEGAL SETTLEMENTS

Gryphon Master Fund LP

On March 31, 2006, the Company reached a settlement with Gryphon Master Lund LP related to two investments in the Company by Gryphon in September 2003 totaling \$1,600,000. The settlement agreement requires the Company to pay a maximum of \$1,600,000 which will be reduced to \$1,400,000 if the Company is able to pay the judgment on or before October 1, 2006. Full repayment is due under the settlement agreement on or before April 1, 2007. The settlement agreement also provides for Gryphon to convert its two investments (convertible debenture and convertible preferred stock) in the Company totaling \$1,600,000 into 716,667 shares of the Company common stock as per the terms of the original investment agreements. In addition the settlement agreement provides for a reduction of the exercise price to \$0.01 for the 194,167 warrants currently held by Gryphon. During the year ended March 31, 2007, Gryphon did a cashless exercise of these warrants and received a total of 192,997 shares of the Company's common stock and converted a total of \$885,000 worth of preferred stock into 416,667 shares of the Company's common stock.

COBALIS CORP. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2007
(UNAUDITED)

As of June 30, 2007, the full \$1,600,000 was still due under the settlement agreement. (Refer to Note 1). Also as a result of non-payment on this settlement amount, the Company has accrued interest of \$89,683 on the unpaid balance per the terms of the settlement agreement.

NOTE 4 - PROMISSORY NOTES

In June 2005, the Company converted a total of \$205,174 of amounts due for clinical trials into nine promissory notes that accrued interest at a rate of 10% per annum and were due on December 27, 2005. During the three months ended March 31, 2006 and June 30, 2006, respectively, the Company converted \$131,042 and \$27,319 of these promissory notes plus accrued interest into 105,250 and 27,200 shares of the Company's common stock. At June 30, 2007, \$46,813 of these notes was still outstanding.

NOTE 5 - NOTES PAYABLE

In August 2006, the Company issued a note payable to MDC Enterprises Ltd. in the amount of \$250,000 that accrues interest at 40% per annum and is due on December 29, 2006. In addition, the Company also issued to MDC Enterprises Ltd. a warrant to purchase 150,000 shares of the Company's common stock for \$0.75 per shares. In January 2007, the Company repaid \$150,000 of this note leaving a balance due at June 30, 2007 of \$100,000.

In September 2006, the Company issued a note payable in the amount of \$50,000 to an investor. The note bears interest at 10% per annum and is payable upon demand. This note is outstanding at June 30, 2007.

NOTE 6 - CONVERTIBLE NOTE PAYABLE

Gryphon Master Fund, LP (See Note 3)

In September 2003, the Company sold a \$600,000, six-year, 8% convertible note payable to Gryphon Master Fund, LP, which is convertible into shares of the Company's common stock at the initial conversion price of \$2.00 per share. During the three months ended June 30, 2007 the Company issued 300,000 shares of its common stock for the conversion of this \$600,000 convertible note payable.

COBALIS CORP. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2007
(UNAUDITED)

Cornell Capital Partners, L.P.

On December 20, 2006, the Company entered into a Securities Purchase Agreement with Cornell Capital Partners, L.P. ("Cornell Capital") pursuant to which the Company agreed to issue up to an aggregate principal amount of \$3,850,000 of convertible debentures. Of that amount, \$2,500,000 was funded on December 20, 2006. Two additional closings of \$675,000 each are scheduled to occur as follows: the first upon the Company's filing of a registration statement with the Securities and Exchange Commission ("SEC"), and the second upon that registration statement being declared effective by the SEC. The two additional closing took place on February 22, 2007 and March 16, 2007.

The convertible debenture is convertible into shares of the Company common stock determined by dividing the dollar amount being converted by the lower of the fixed conversion price of \$0.99 or the market conversion price, defined as 90% of the average of the lowest three daily volume weighted average trading prices per share of the Company's common stock for the fifteen trading days immediately preceding the conversion date. The convertible debenture is secured by the assets of the Company and shares of common stock pledged by certain founding shareholders of the Company. The Company, at its option, may redeem the convertible debenture beginning four months after the registration statement has been declared effective by the SEC.

As part of the funding commitment, the Company issued four classes of warrants exercisable on a cash basis that enable Cornell Capital to purchase up to 6,640,602 shares of common stock for an additional \$5,500,000: an A Warrant to purchase 1,333,333 shares at \$0.75 per share; B Warrant to purchase 1,205,400 shares at \$0.8296 per share; C Warrant to purchase 2,343,959 shares at \$0.7466 per share; and D Warrant to purchase 1,757,910 shares at \$0.9955 per share. The A and B Warrants expire six months following the effective date of the registration and carry forced exercise provisions. The C & D Warrants are non-callable and have a five-year term. The warrants and convertible debenture are subject to certain anti-dilution rights. On April 24, 2007, Cornell Capital exercised Class A Warrants for 1,333,333 shares at an exercise price of \$0.75 per share.

Per EITF 00-19, paragraph 4, these convertible debentures do not meet the definition of a "conventional convertible debt instrument" since the debt is not convertible into a fixed number of shares. The debt can be converted into common stock at a conversions price that is a percentage of the market price; therefore the number of shares that could be required to be delivered upon "net-share settlement" is essentially indeterminate. Therefore, the convertible debenture is considered "non-conventional," which means that the conversion feature must be bifurcated from the debt and shown as a separate derivative liability. This derivative liability conversion liability is as follows:

Funding Date	Amount
December 20, 2006	\$ 1,897,735
February 22, 2007	745,921
March 16, 2007	561,774
	\$ 3,205,430

In addition, since the convertible debenture is convertible into an indeterminate number of shares of common stock, it is assumed that the Company could never have enough authorized and unissued shares to settle the conversion of the warrants into common stock. Therefore, the warrants issued in connection with this transaction have a fair value of \$3,667,558 at December 20, 2006 are shown as a liability. The value of the warrant was calculated using the Black-Scholes model using the following assumptions: Discount rate of 4.5%, volatility of 137% and expected term of

1 to 5 years. The fair value of the derivative liability and the warrant liability will be adjusted to fair value each balance sheet date with the change being shown as a component of net loss.

COBALIS CORP. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2007
(UNAUDITED)

The fair value of the derivative liability and the warrants at the inception of these convertible debentures were shown as a debt discount with any discount greater than the face amount of the debt being as financing costs in the accompanying statement of operations as follows.

Funding Date	Amount of Debt	Fair Value of Warrants	Fair Value of Derivative Liability	Amount Applied to Debt Discount	Recorded as Financing Cost
December 20, 2006	\$ 2,500,000	\$ 3,667,558	\$ 1,897,735	\$ 2,500,000	\$ 3,065,293
February 22, 2007	675,000	-	745,921	675,000	70,921
March 16, 2007	675,000	-	561,774	561,774	-
	\$ 3,850,000	\$ 3,667,558	\$ 6,872,988	\$ 3,736,774	\$ 3,136,214

At June 30, 2007, the fair value of the warrant and derivative liabilities were \$2,861,922 and \$2,637,971, respectively. During the three months ended June 30, 2007, the Company recorded income of \$5,427,491 as a result of adjusting the warrant and derivative liabilities to fair value.

In April, 2007, Cornell Capital converted \$525,000 into 767,319 shares at an exercise price of \$0.68. On July 23, 2007, the Company received a notice of default from Cornell Capital with regard to the convertible debentures. Therefore, the Company has accelerated the amortized the remaining debt issuance costs and debt discount during the three months ended June 30, 2007 which resulted in a charge to earnings of \$3,692,316. Subsequently, in July 2007, Cornell Capital converted \$365,000 into 3,273,543 shares (Refer to Note 10).

NOTE 7 - SENIOR DEBENTURE

On October 26, 2005, the Company issued a senior debenture to the Brad Chisick Trust in the amount of \$250,000 that accrues interest at 10% per annum and is due on October 26, 2007. In addition, the Company also issued to the Brad Chisick Trust a warrant to purchase 500,000 shares of the Company's common stock for \$1.75 per shares.

The fair value of these warrants totaling \$276,827 was computed using the Black-Scholes model under the following assumptions: (1) expected life of 5 years; (2) volatility of 194%, (3) risk free interest of 4.50% and (4) dividend rate of 0%. The face amount of the senior debenture of \$250,000 was proportionately allocated to the senior debenture and the warrants in the amount of \$118,635 and \$131,365, respectively. The amount allocated to the warrants of \$131,365 was recorded as a discount on the senior debenture and is being amortized over the term of the debenture. During the period ended June 30, 2007, the Company amortized \$16,376 of the discount to interest expense. At June 30, 2007, the balance of the debenture is shown as \$228,766 net of unamortized discount of \$21,234 in the consolidated balance sheet. In addition, on October 26, 2005, the Company issued to the Brad Chisick Trust 125,000 shares of its common stock valued at \$72,500 as pre-payment of the accrued interest on this senior debenture. The prepaid interest will be amortized to interest expense over the two year term of the senior debenture.

COBALIS CORP. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2007
(UNAUDITED)

During the year ended March 31, 2007, the Company issued an additional 20,000 warrants to the Brad Chisick Trust as additional consideration for this senior convertible debentures. The fair value of these warrants totaling \$17,840 was computed using the Black-Scholes model under the following assumptions: (1) expected life of 5 years; (2) volatility of 139%, (3) risk free interest of 4.50% and (4) dividend rate of 0%.

NOTE 8 - STOCKHOLDERS' DEFICIT

Preferred Stock

The Company has authorized 5,000,000 shares of \$0.001 par value preferred stock of which 1,000 have been designated at Convertible Preferred Stock .

Common Stock

The Company has authorized 100,000,000 shares of \$0.001 par value common stock.

Stock Options

In 2002, the Company adopted a Stock Option Plan (the "Plan") initially reserving an aggregate of 1,250,000 shares of the Company's common stock (the "Available Shares") for issuance pursuant to the exercise of stock options, which may be granted to employees and consultants to the Company. The Plan options were subsequently increased to 2,000,000 shares.

The Plan provides for the granting at the discretion of the Board of Directors of both qualified incentive stock options and non-qualified stock options. Consultants may receive only non-qualified stock options. The maximum term of the stock options are three to five years and generally vest proportionately throughout the term of the option.

Transactions under the Plans during the period ended June 30, 2007 are summarized as follows:

The following table summarizes the options outstanding:

	Options Outstanding	Weighted Average Exercise	Aggregate Intrinsic Value
Outstanding, March 31, 2007	6,141,667	\$ 1.58	\$ -
Granted			
Forfeited/Canceled	(300,000)	\$ 1.00	
Outstanding, June 30, 2007	5,841,667	\$ 1.61	\$ -

COBALIS CORP. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2007
(UNAUDITED)

The weighted average remaining contractual life of options outstanding is 7.0 years at June 30, 2007. The number of vested options at June 30, 2007 is 3,453,922. The exercise prices for the options outstanding at June 30, 2007 are as follows:

Number of Options	Exercise Price
175,000	\$1.00
2,800,000	\$1.40
1,666,667	\$1.75
1,200,000	\$2.0
5,841,667	

Warrants

As a result of the issuance of the convertible debenture to Cornell Capital (See Note 7) the fair value of all warrant issued to non-employees have been removed from stockholders' equity and shown as a liability. On December 20, 2006, the fair value of such warrants was \$3,545,880. The fair value of these warrants and those issued to Cornell Capital will be adjusted to fair value at each balance sheet date.

The following table summarizes the warrants outstanding:

	Warrants Outstanding	Weighted Average Exercise Price	Aggregate Intrinsic Value
Outstanding, March 31, 2007	12,955,446	\$ 1.67	\$ 1,435,630
Granted	-	-	-
Forfeited/Canceled	-	-	-
Exercised	(1,333,333)	\$ 0.75	
Outstanding, June 30, 2007	11,622,113	\$ 1.17	\$ 289,667

The weighted average remaining contractual life of warrants outstanding is 3.44 years at June 30, 2007. The number of vested warrants at June 30, 2007 is 11,622,113. The exercise prices for the warrants outstanding at June 30, 2007 are as follows:

Number of Warrants	Exercise Price
150,000	\$0.01
4,597,292	\$0.75
1,205,400	\$0.83
2,860,154	\$1.00
3,942,600	\$1.75
200,000	\$2.00
11,622,113	

COBALIS CORP. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2007
(UNAUDITED)

NOTE 9 - LITIGATION

InnoFood/Modofood: On July 28, 2003, the Company entered into a Stock Exchange Agreement ("InnoFood Agreement") with InnoFood Inc. ("InnoFood") wherein the Company agreed, among other things, to provide InnoFood with funding totaling \$5,000,000 in exchange for, among other things, 100% interest in InnoFood. The completed purchase of InnoFood was not to occur until the \$5,000,000 funding was delivered. Under the InnoFood Agreement, the Company was obligated to provide InnoFood with the funding on or before December 31, 2003. The Company did provide InnoFood with \$2,220,000. The Company has confirmation that \$1,850,000 of the funds provided to InnoFood was sent to Modofood S.P.A., an Italian company ("Modofood"). InnoFood originally entered into a licensing agreement with Modofood to market and distribute Modofood's food processing technology. On October 17, 2003, the Company entered into a Letter of Understanding ("LOU") with InnoFood to restructure the relationship between ourselves and InnoFood. The Company believes that InnoFood and certain related individuals may have intentionally misled our management regarding certain material matters.

On January 8, 2004, InnoFood sent us a letter attempting to terminate the original InnoFood Agreement and the October 17, 2003 LOU. InnoFood claimed that the Company breached both the InnoFood Agreement and the LOU by failing to provide the funding called for under those agreements. With the letter of termination, InnoFood delivered a signed promissory note agreeing to pay back \$2,160,000 (net of \$60,000 interest InnoFood charged to the Company for non-payments). The promissory note accrues interest at 10% and is due and payable on or before January 15, 2009. Though the Company did not accept that note, the Company believes that this promissory note represents an acknowledgment of InnoFood's debt to the Company.

In September 2006, the Company filed a complaint entitled Cobalis Corp. v. InnoFood, Reynato Giordano, James Luce, Robert Dietrich, Randal Lanham, in Orange County Superior Court, California, Case No. 06CC10355, to attempt to recapture the funds transferred to InnoFood and acquire any intellectual property related to the food preservation process at issue. Cobalis has entered defaults against Innofood, Renato Giordano and Robert Dietrich. The only remaining defendants are James Luce and Randall Lanham.

In February 2007, James Luce filed a Cross-Complaint against Cobalis and Chaslov Radovich, who filed an Answer to the Cross-Complaint. On March 3, 2007 Randal Lanham filed a cross complaint against Cobalis and Chaslov Radovich which was amended on May 28, 2007. Cobalis filed a Demurrer to the Lanham First Amended Cross Complaint for which a hearing date was set for August 17, 2007. Prior to the August 17 hearing on Cobalis' demurrer, the Innofood case has been stayed with respect to the cross-complaints filed by Randall Lanham and James Luce. Accordingly, the hearing on Cobalis' demurrer was taken off calendar, subject to the stay.

Subject to the stay, the Company intends to vigorously prosecute this matter and to defend the Lanham and Luce Cross-Complaints, although, as with any litigation, there is no guarantee of a favorable outcome. The Case Management Conference on August 20, 2007 was continued to October 22, 2007.

Gryphon Master Fund, LP. On November 8, 2004, Gryphon Master Fund, LP, ("Gryphon") filed a lawsuit against the Company in United States District Court, Northern District of Texas, Dallas Division, Case No. 3:04-CV-2405-L. The lawsuit sought repayment of a \$600,000 convertible note payable, accrued interest on the convertible note payable within the prescribed period, penalties for failing to register shares underlying the conversion of the convertible note payable, attorneys fees and court costs. In March 2006, the Company entered into settlement agreement with Gryphon

where both parties agreed to dismiss any and all current and future claims, legal proceedings and litigation upon full satisfaction of the settlement agreement.

The settlement, which relates to two investments in the Company totaling \$1.6 million made by Gryphon in September 2003, includes an agreed judgment totaling \$1.6 million. Of the remaining unconverted instruments, Gryphon is also eligible to convert its convertible note and convertible preferred stock it holds to 508,334 shares of the Company's common stock. Under the settlement agreement, full repayment of the \$1.6 million was due on or before April 1, 2007. The Company did not make the payment by April 1, 2007; therefore, the stipulated judgment into which the Company entered with Gryphon provides that Gryphon has the right to enter a judgment of \$1.6 million against the Company with the court upon the Company's default.

COBALIS CORP. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2007
(UNAUDITED)

On April 2, 2007, the Company filed a motion to vacate an agreed judgment (the "Motion to Vacate") in the U.S. District Court for the Northern District of Texas, Dallas Division with regard to case #3:04-CV- 2405 between Gryphon Master Fund, L.P. ("Gryphon") and the Company. The Company based the Motion to Vacate on several grounds including that allegation that Gryphon breached the "no shorting" provision contained in the settlement agreement. The Company believes, and so allege in the Motion to Vacate, that despite Gryphon's agreement, Gryphon engaged in shorting of the Company's stock. Since June 2007, Gryphon has aggressively been moving forward with judgment collection activities, including, but not limited to, conducting a debtor's exam, levying the Company's bank accounts and attaching the Company's assets to the extent such assets are not already encumbered.

On April 23, 2007, Gryphon sued the Company for breach of contract in the same U.S. District Court as above, Case #3:07-cv-00701B. This new lawsuit alleges that the Company breached a settlement agreement with Gryphon. Gryphon is also seeking a declaratory judgment that it did not breach the same settlement agreement. Gryphon's alleged breach of the settlement agreement is the subject of the Company's Motion to Vacate. In addition to the declaratory relief, Gryphon's complaint seeks unspecified damages and attorneys' fees. On April 23, 2007, Gryphon also filed an opposition to the Company's Motion to Vacate repeating the same allegations. A trial date is scheduled for the September 2007 docket.

There is no guarantee that the Company will be successful in vacating the judgment or in defending the new lawsuit. If the Company is unsuccessful in vacating the judgment or in defending the subsequent lawsuit, and, if the Company is unable to subsequently timely resolve the Gryphon matter or raise capital to satisfy the judgment, the Company's ability to move its business forward could be adversely affected. On August 6, 2007, the Company filed the Suggestion of Bankruptcy requesting for an automatic stay in the proceedings.

Marinko Vekovic: On March 9, 2006, Marinko Vekovic, a former consultant, filed a complaint against the Company alleging a breach of a written consulting agreement, specific performance of common stock warrants and the "reasonable value of work and labor performed," seeking damages in excess of \$700,000, and specific performance of an alleged obligation to issue 600,000 free trading warrants at a \$1.75 share price. The lawsuit, entitled Vekovic vs. Cobalis, is pending in Orange County Superior Court, Central Justice Center, Case No. 06CC03923.

On April 18, 2006, the Company filed an answer to the complaint, denying the allegations by Mr. Vekovic. On the same date, the Company also filed a cross-complaint for rescission of the consulting agreement, on grounds that Mr. Vekovic made numerous material misrepresentations intended to fraudulently induce the Company to enter the consulting agreement and to issue to Vekovic 112,500 shares of its S-8 common stock. Through the Company's cross-complaint, it sought to rescind the consulting agreement and seek restitution from Mr. Vekovic in an amount no less than the price for which Mr. Vekovic sold the 112,500 shares of its S-8 common stock, plus all or some portion of the compensation paid to Mr. Vekovic, given that the Company believes Mr. Vekovic substantially failed to perform the consulting services which were the subject of the consulting agreement. The Company also sought to recover attorneys' fees incurred in the defense of the complaint and the prosecution of its cross-complaint, pursuant to the attorneys' fee provision in the consulting agreement. On March 5, 2007, the Company entered into a settlement agreement with Mr. Vekovic with regard to this case, whereby the Company agreed to register on a future Form S-8 and issue 50,000 shares to Mr. Vekovic in addition to a grant of 25,000 warrants to purchase shares of our common stock at \$1.75 per share, expiring December 31, 2009. The settlement agreements were issued on March 12, 2007 and the shares were registered on April 11, 2007 and issued subsequently.

COBALIS CORP. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2007
(UNAUDITED)

Cappello Capital Corp. In March 2005, the Company entered into an agreement with Cappello Capital Corp. (“Cappello”) for investment banking and related financial services. Pursuant to a financing agreement, the Company issued 100,000 shares as an initial retainer. The Company believes that Cappello did not perform per the agreement, but no settlement can be guaranteed.

Noel Marshall. On March 1, 2007, the Company became aware for the first time of the complaint for damages, Case # 07CC03208 filed in Superior Court Orange County California, entitled Noel Marshall v. Cobalis Corp. Chas Radovich, Radul Radovich, Drsgica Radovich, R.R. Holdings, Biogentec, Silver Mountain Productions and St. Petka Trust, alleging breach of contract, fraud, constructive trust, money had and received, and account stated (the "Marshall Action"). In the Marshall Action, plaintiff is alleging, among other things, that certain misrepresentations were made with the intent of inducing plaintiff to purchase shares of the Company's common stock. The Company believes this lawsuit is frivolous and without merit. The Company intends to vigorously defend this matter. As with any litigation, there is no guarantee of a favorable outcome. In August, 2007 a notice of stay was filed, and subsequently the court notified all parties that the action was stayed as to Cobalis only.

As of the date of this filing, all pending cases are now stayed because of Cornell Capital's involuntary bankruptcy petition against the Company.

In the ordinary course of business, the Company is generally subject to claims, complaints, and legal actions. At March 31, 2007, management believes that the Company is not a party to any action which would have a material impact on its financial condition, operations, or cash flows.

NOTE 10 - SUBSEQUENT EVENTS

The following events occurred subsequent to June 30, 2007:

- the Company issued 1,524,664 shares to Cornell Capital on July 12, 2007 pursuant to the conversion of convertible debentures in the amount of \$170,000.
- the Company issued 1,748,879 shares to Cornell Capital on July 19, 2007 pursuant to the conversion of convertible debentures in the amount of \$195,000.
 - the Company issued 250,000 shares to investor relations on July 27, 2007.

Also see Note 1 for additional subsequent events.

Item 2. Management's Discussion and Analysis or Plan of Operations

This following information specifies certain forward-looking statements of management of the company. Forward-looking statements are statements that estimate the happening of future events and are not based on historical fact. Forward-looking statements may be identified by the use of forward-looking terminology, such as “may”, “shall”, “could”, “expect”, “estimate”, “anticipate”, “predict”, “probable”, “possible”, “should”, “continue”, variations of those terms or the negative of those terms. The forward-looking statements specified in the following information have been compiled by our management on the basis of assumptions made by management and considered by management to be reasonable. Our future operating results, however, are impossible to predict and no representation, guaranty, or warranty is to be inferred from those forward-looking statements.

The assumptions used for purposes of the forward-looking statements specified in the following information represent estimates of future events and are subject to uncertainty as to possible changes in economic, legislative, industry, and other circumstances. As a result, the identification and interpretation of data and other information and their use in developing and selecting assumptions from and among reasonable alternatives require the exercise of judgment. To the extent that the assumed events do not occur, the outcome may vary substantially from anticipated or projected results, and, accordingly, no opinion is expressed on the achievability of those forward-looking statements. No assurance can be given that any of the assumptions relating to the forward-looking statements specified in the following information are accurate, and we assume no obligation to update any such forward-looking statements.

Our Management's Discussion and Analysis of Financial Condition and Results of Operations section discusses our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, we evaluate our estimates and judgments, including those related to revenue recognition, accrued expenses, financing operations, and contingencies and litigation. We base our estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The most significant accounting estimates inherent in the preparation of our financial statements include estimates as to the appropriate carrying value of certain assets and liabilities which are not readily apparent from other sources, primarily valuation of patent costs and stock-based compensation. The methods, estimates and judgments we use in applying these most critical accounting policies have a significant impact on the results we report in our consolidated financial statements.

OVERVIEW

As discussed above, we were incorporated in 1997 and on July 6, 2004 changed our name to Cobalis Corp., having previously used the BioGentech Corp. In 2003, we acquired our operational subsidiary, BioGentech Incorporated, (BioGentec). To distinguish between parent and subsidiary, a slight spelling difference was utilized. BioGentec, a private Nevada corporation, was incorporated on November 21, 2000 according to the laws of Nevada, under the name St Petka, Inc. On May 4, 2001, St. Petka, Inc. changed its name to BioGentec Incorporated. On July 2, 2003, BioGentec was merged into Togs for Tykes Acquisition Corp., a wholly owned subsidiary formed for the purpose of acquiring BioGentec. As allowed under SFAS 141, “Business Combinations” (“SFAS 141”), we designated a date of convenience of the closing for accounting purposes as June 30, 2003. Under the terms of the merger agreement, all of BioGentec's outstanding common stock (19,732,705 shares of \$0.001 par value stock) was exchanged for 19,732,705 shares newly issued shares of \$0.001 par value stock of Cobalis Corp. common stock. This transaction was consummated with the filing of the Articles of Merger with the State of Nevada on July 2, 2003. BioGentec

shareholders then effectively controlled approximately 95% of the issued and outstanding common stock of Cobalis. Since the shareholders of BioGentec obtained control of Cobalis, according to SFAS 141, this acquisition was treated as a recapitalization for accounting purposes, in a manner similar to reverse acquisition accounting.

GOING CONCERN

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation as a going concern. We incurred a net loss of \$563,382 for the three months ended June 30, 2007 and as of June 30, 2007; we had a working capital deficit of \$12,837,551 and a stockholder deficit of \$12,228,741. In addition, as of June 30, 2007, we have not developed a substantial source of revenue. These conditions raise substantial doubt as to our ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. The consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might be necessary should we be unable to continue as a going concern.

On March 31, 2006, we reached a settlement with Gryphon Master Lund LP (Gryphon) related to two investments in the company by Gryphon in September 2003 totaling \$1,600,000. Full repayment is due under the settlement agreement on or before April 1, 2007. We did not make the payment by April 1, 2007; therefore, the stipulated judgment into which we entered with Gryphon provides that Gryphon has the right to enter a judgment of \$1.6 million against us with the court upon our default.

On April 2, 2007, we filed a motion to vacate an agreed judgment based on several grounds including that allegation that Gryphon breached the “no shorting” provision contained in the settlement agreement. We believe, and so allege in the Motion to Vacate, that despite Gryphon’s agreement, Gryphon engaged in shorting of our stock.

On April 23, 2007, Gryphon sued us for breach of contract. This new lawsuit alleges that we breached a settlement agreement with Gryphon. Gryphon is also seeking a declaratory judgment that it did not breach the same settlement agreement. Gryphon’s alleged breach of the settlement agreement is the subject of our Motion to Vacate. In addition to the declaratory relief, Gryphon’s complaint seeks unspecified damages and attorneys’ fees. On April 23, 2007, Gryphon also filed an opposition to our Motion to Vacate repeating the same allegations.

Since June 2007, Gryphon has aggressively been moving forward with judgment collection activities, including, but not limited to, conducting a debtor’s exam, levying our bank accounts and attaching our assets to the extent such assets are not already encumbered.

There is no guarantee that we will be successful in vacating the judgment or in defending the new lawsuit. If we are unsuccessful in vacating the judgment or in defending the subsequent lawsuit, and, if we are unable to subsequently timely resolve the Gryphon matter or raise capital to satisfy the judgment, our ability to move its business forward could be adversely affected.

On July 23, 2007, we received a notice of default from Cornell Capital Partners, LP (Cornell Capital) with regard to the convertible debentures entered into between the company and Cornell Capital on December 20, 2006 and February 20, 2007. Cornell Capital is taking the position that the recent collection efforts against us by Gryphon with regard to the litigation described above constitute a default under the relevant Cornell Capital funding documents. In the first notice of default, Cornell Capital, in referencing the contractual 15 day cure period, gave us until August 7, 2007 to cure the perceived default (i.e., resolve the dispute with Gryphon). If not cured, Cornell Capital has indicated that it will exercise all of its contractual rights, including, but not limited to, accelerated full repayment of the convertible debentures between the parties and exercising its rights under the pledge and escrow agreement and security agreement entered into between the parties.

On July 25, 2007, we received a second notice of default from Cornell Capital which also asserted that we were in default of certain provisions of the security agreement between the company and Cornell Capital, entered into on December 20, 2006. Per the terms of that security agreement, Cornell Capital could demand payment in full for all amounts due under the debenture agreements between the parties. It is also possible that Cornell Capital may enforce the terms of the security agreement and the pledge and escrow agreement.

On August 1, 2007, we received an informal notice from YA Global Investments, L.P., formerly known as Cornell Capital that Cornell Capital had filed a petition for involuntary bankruptcy proceedings pursuant to Chapter 7 on that same date with the U.S. Bankruptcy Court for the Central District of California, which seeks liquidation of our assets. Also on August 1, 2007, we received a copy of a file-stamped Chapter 7 petition confirming the notice provided by Cornell Capital. The petition alleges past due debts not less than \$3,000,000 plus other amounts with regard to the convertible debentures entered into between the company and Cornell Capital on December 20, 2006 and February 20, 2007.

We are investigating the options of either contesting the petition, or electing to consent to a voluntary Chapter 11 proceeding, (re-organization), which would allow us to continue operating under supervision of the bankruptcy court. The breathing room provided under Chapter 11 would allow us to attempt to raise equity or debt financing to provide the necessary capital to reorganize its affairs. There is no guarantee that we will be permitted to proceed under Chapter 11 and, further, there is no guarantee that we will be successful in raising equity and/or debt financing sufficient to reorganize its affairs. If we are not able to successfully contest the petition or successfully file and finance a Chapter 11, we will likely be forced to cease operations. As of the date of this report, no orders have been entered by this court, and no trustees or other similar officers have been appointed.

CRITICAL ACCOUNTING POLICY AND ESTIMATES

Our Management's Discussion and Analysis of Financial Condition and Results of Operations section discusses our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of the consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, management evaluates its estimates and judgments, including those related to revenue recognition, accrued expenses, financing operations, and contingencies and litigation. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The most significant accounting estimates inherent in the preparation of our consolidated financial statements include estimates as to the appropriate carrying value of certain assets and liabilities which are not readily apparent from other sources, primarily valuation of patent costs and stock-based compensation. The methods, estimates and judgments we use in applying these most critical accounting policies have a significant impact on the results we report in our consolidated financial statements.

Patent Cost Valuation. The determination of the fair value of certain acquired assets and liabilities is subjective in nature and often involves the use of significant estimates and assumptions. Determining the fair values and useful lives of intangible assets requires the exercise of judgment. While there are a number of different generally accepted valuation methods to estimate the value of intangible assets acquired, we primarily use the weighted-average probability method outlined in SFAS 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." This method requires significant management judgment to forecast the future operating results used in the analysis. In addition, other significant estimates are required such as residual growth rates and discount factors. The estimates we have used are consistent with the plans and estimates that we use to manage our business, based on available historical information and industry averages. The judgments made in determining the estimated useful lives assigned to each class of assets acquired can also significantly affect our net operating results.

Stock-based Compensation. We adopted SFAS No. 123 (Revised 2004), *Share Based Payment* ("SFAS No. 123R"), under the modified-prospective transition method on January 1, 2006. SFAS No. 123R requires companies to measure and recognize the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value. Share-based compensation recognized under the modified-prospective transition method of SFAS No. 123R includes share-based compensation based on the grant-date fair value determined in accordance with the original provisions of SFAS No. 123, *Accounting for Stock-Based Compensation*, for all share-based payments granted prior to and not yet vested as of January 1, 2006 and share-based compensation based on the grant-date fair-value determined in accordance with SFAS No. 123R for all share-based payments granted after January 1, 2006. SFAS No. 123R eliminates the ability to account for the award of these instruments under the intrinsic value method prescribed by Accounting Principles Board ("APB") Opinion No. 25, *Accounting for Stock Issued to Employees*, and allowed under the original provisions of SFAS No. 123. Prior to the adoption of SFAS No. 123R, we accounted for our stock option plans using the intrinsic value method in accordance with the provisions of APB Opinion No. 25 and related interpretations.

Estimate of Litigation-based Liability. We are a defendant in certain claims and litigation in the ordinary course of business. We accrue liabilities relating to these lawsuits on a case-by-case basis. We generally accrue attorney fees and interest in addition to the liability being sought. Liabilities are adjusted on a regular basis as new information becomes available. We consult with our attorneys to determine the viability of an expected outcome. The actual amount paid to settle a case could differ materially from the amount accrued.

LIQUIDITY AND CAPITAL RESOURCES

We had cash and cash equivalents of \$38,494 and prepaid expenses and other current assets of \$14,715 at June 30, 2007. Our total current assets at June 30, 2007 were \$53,209. We also had the following long term assets: \$2,305 in property and equipment, net; \$709 in net website development costs; net, and \$605,796 in patents; net. Our total assets as of June 30, 2007 were \$662,019.

Our total liabilities were \$12,890,760 at June 30, 2007, which was represented by accounts payable of \$374,146; accrued expenses of \$755,605; accrued clinical trials costs of \$591,229; accrued legal settlements of \$1,689,683; accrued salaries of \$254,625; warrant liability of \$2,861,922; accrued derivative liability of \$2,637,971; promissory notes of \$46,813; notes payable of \$150,000, senior debenture of \$228,766 and convertible notes payable of \$3,300,000. Our liabilities exceeded our assets by \$12,837,551.

In June 2005, we converted a total of \$205,174 of amounts due for clinical trials into nine promissory notes that accrued interest at a rate of 10% per annum and were due on December 27, 2005. During the three months ended March 31, 2006 and June 30, 2006, respectively, we converted \$131,042 and \$27,319 of these promissory notes plus accrued interest into 105,250 and 27,200 shares of our common stock. At June 30, 2007, \$46,813 of these notes was still outstanding.

On July 18, 2006, we entered into an Accord and Satisfaction Agreement (“Agreement”) with several related party creditors, arranging to settle debt of \$5,194,553 including interest accrued through June 30, 2006, in exchange for the issuance of 3,995,809 shares of our \$.001 par value common stock. This debt was incurred in the form of related party advances and services rendered to the company over recent months. The conversion rate was \$1.30 per share, representing a premium on the market price of our closing share price on Monday, July 17, 2006 of \$1.00 per share.

The related parties that were owed funds include Radul Radovich, our Chairman of the Board of Directors, and several entities owned and controlled by Mr. Radovich. The amounts owed were as follows: Mr. Radovich was owed \$952,611 principal along with interest of \$127,509, for a total of \$1,084,120, which was converted to 833,938 restricted shares of our common stock; St. Petka Trust, a majority shareholder of the company, and of which Mr. Radovich is the beneficiary and trustor, was owed \$1,585,500 principal, along with interest of \$211,335, for a total of \$1,796,835, which was converted to 1,382,180 restricted shares of our common stock; R and R Holdings, Inc. a Nevada corporation owned by Mr. Radovich, was owed \$471,507 principal, along with interest of \$62,848, for a total of \$534,355, which was converted to 411,042 restricted shares of our common stock; Silver Mountain Promotions, Inc., a Nevada corporation, owned by Mr. Radovich, was owed \$922,103 principal, along with interest of \$122,909, for a total of \$1,045,012, which was converted to 803,855 restricted shares of our common stock; R R Development, Inc., a California corporation, owned by Mr. Radovich, was owed \$170,000 principal, along with interest of \$51,838, for a total of \$221,838, which was converted to restricted 170,644 shares of our common stock. In addition, Mr. Radovich was owed \$512,392 for consulting fees, pursuant to a consulting contract with the company. This amount was converted to 394,147 restricted shares of our common stock.

We have financed our operations primarily through cash generated from related party debt financing as well as issuing a convertible debenture.

Our net cash used by investing activities was \$0 for the three months ended June 30, 2007 and 2006.

Our net cash provided by financing activities was \$1,000,000 for the three months ended June 30, 2007 compared to net cash used by financing activities of \$10,000 for the three months ended June 30, 2006. The increase is primarily due to the exercise of warrants.

In June 2005, we entered into a loan agreement with Tejada and Tejada, Inc. in the amount of \$100,000. The loan is due in one year. The note is personally guaranteed by Mr. Radul Radovich, the chairman of our board of directors, and Mr. Chas Radovich, our President, Secretary and one of our directors. When the loan is due, the holder of the note has the option to convert the loan into shares of our common stock at \$0.50 per share or at a price equal to a 25% discount to the closing bid price on the day of conversion at maturity. In July 2006, the holder of the note elected to convert the note to 200,000 shares of our common stock. We recognized an additional expense of \$91,583 related to the conversion of this note and accrued interest into shares of common stock.

In October 2005, we issued a senior debenture to the Brad Chisick Trust for \$250,000 that accrues interest at 10% per annum, and is due in two years. We also issued the holder of this debenture a warrant to purchase 500,000 shares of our common stock at \$1.75 per share.

During the three months ended June 30, 2006, we issued 111,416 shares of our common stock that were registered on or about May 11, 2006 on Form S-8 as payment for certain accounts payable, past due salaries to certain related parties and amounts due to consultants.

In July 2006, we issued notes payable in the aggregate amount of \$250,000 to three investors. The notes bear interest at 5% per month and were due on September 14, 2006. We exercised our option to extend the due date to October 14, 2006 and issued to the investors a total of 25,000 warrants. These notes were repaid subsequent to the quarter ended December 31, 2006.

In August 2006, we issued a note payable to MDC Enterprises Ltd. in the amount of \$250,000 that accrues interest at 40% per annum and is due on December 29, 2006. In addition, we also issued to MDC Enterprises Ltd. a warrant to purchase 150,000 shares of our common stock for \$0.75 per shares.

In September 2006, we issued a note payable in the amount of \$50,000 to an investor. The note bears interest at 10% per annum and is payable upon demand.

On December 20, 2006, the we entered into a Securities Purchase Agreement with Cornell Capital Partners, L.P. ("Cornell Capital") pursuant to which we agreed to issue up to an aggregate principal amount of \$3,850,000 of convertible debentures. Of that amount, \$2,500,000 was funded on December 20, 2006. Two additional closings of \$675,000 each are scheduled to occur as follows: the first upon the Company's filing of a registration statement with the Securities and Exchange Commission ("SEC"), and the second upon that registration statement being declared effective by the SEC and Shareholder approval of additional authorized shares. There is no guarantee that we will complete and file a registration statement, or that if filed, there is no guarantee that the SEC will declare the registration statement effective. Further, there is no guarantee that Shareholders will approve the increase in authorized shares.

The convertible debenture is convertible into shares of our common stock determined by dividing the dollar amount being converted by the lower of the fixed conversion price of \$0.99 or the market conversion price, defined as 90% of the average of the lowest three daily volume weighted average trading prices per share of our common stock for the fifteen trading days immediately preceding the conversion date. The convertible debenture is secured by our assets and shares of common stock pledged by certain founding shareholders. At our option, we may redeem the convertible debenture beginning four months after the registration statement has been declared effective by the SEC.

As part of the funding commitment, we issued four classes of warrants exercisable on a cash basis that enable Cornell Capital to purchase up to 6,640,602 shares of common stock for an additional \$5,500,000: an A Warrant to purchase 1,333,333 shares at \$0.75 per share; B Warrant to purchase 1,205,400 shares at \$0.8296 per share; C Warrant to purchase 2,343,959 shares at \$0.7466 per share; and D Warrant to purchase 1,757,910 shares at \$0.9955 per share. The A and B Warrants expire six months following the effective date of the registration and carry forced exercise provisions. The C and D Warrants are non-callable and have a five-year term. The warrants and convertible debenture are subject to certain anti-dilution rights.

Per EITF 00-19, paragraph 4, these convertible debentures do not meet the definition of a “conventional convertible debt instrument” since the debt is not convertible into a fixed number of shares. The debt can be converted into common stock at a conversions price that is a percentage of the market price; therefore the number of shares that could be required to be delivered upon “net-share settlement” is essentially indeterminate. Therefore, the convertible debenture is considered “non-conventional,” which means that the conversion feature must be bifurcated from the debt and shown as a separate derivative liability. This beneficial conversion liability has been calculated to be \$1,897,735 on December 20, 2006. In addition, since the convertible debenture is convertible into an indeterminate number of shares of common stock, it is assumed that the Company could never have enough authorized and unissued shares to settle the conversion of the warrants into common stock. Therefore, the warrants issued in connection with this transaction have a fair value of \$3,667,558 at December 20, 2006. The value of the warrant was calculated using the Black-Scholes model using the following assumptions: Discount rate of 4.5%, volatility of 137% and expected term of 1 to 5 years. The fair value of the beneficial conversion feature and the warrant liability will be adjusted to fair value each balance sheet date with the change being shown as a component of net loss.

The fair value of the beneficial conversion feature and the warrants at the inception of these convertible debentures were \$1,897,735 and \$3,667,558, respectively. The first \$2,500,000 of these discounts has been shown as a discount to the convertible debentures which will be amortized over the term of the convertible debenture and the excess of \$3,065,293 has been shown as financing costs in the accompanying statement of operations.

As a result of the issuance of the convertible debenture to Cornell Capital the fair value of all warrant issued to non-employees have been removed from stockholders’ equity and shown as a liability. On December 20, 2006, the fair value of such warrants was \$3,545,880. The fair value of these warrants and those issued to Cornell Capital will be adjusted to fair value at each balance sheet date.

During the three months ended June 30, 2007, Cornell Capital converted \$525,000 of their convertible debt into 767,319 shares. In addition Cornell Capital exercised 1,333,333 Class A Warrants at a stock price of \$0.75 for gross proceeds of \$1,000,000.

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED JUNE 30, 2007 AS COMPARED TO THE THREE MONTHS ENDED JUNE 30, 2006

Revenues and Cost of Sales. We had no significant revenues for the three months ended June 30, 2007 and December 31, 2005 as we are undertaking twin Phase III clinical trials in order to obtain FDA approval of PreHistin™ as an over the counter drug. Our net sales were \$0, as were our cost of sales and gross loss for the three months ended June 30, 2007, as compared net sales of \$0 as were our cost of sales and gross loss for the three months ended June 30, 2006.

Operating Expenses. Our operating expenses for the three months ended June 30, 2007 were \$2,083,919 compared to \$1,470,557 for the three months ended June 30, 2006. For both periods, we incurred expenses for two major purposes: i) ongoing development of our PreHistin™ product and related product management and ii) general management and fund raising efforts. For the three months ended June 30, 2007, this amount was represented by \$13,783 in depreciation and amortization; \$1,149,707 in professional fees; \$210,461 in salary and wages; \$37,640 in rent expense; \$0 in marketing and research, \$478,865 in stock option expense; and \$193,463 in other operating expenses and. This is compared to the three months ended June 30, 2006, where we had \$16,762 in depreciation and amortization; \$916,905 in professional fees; \$185,302 in salary and wages; \$63,076 in rent expense; \$25,809 in marketing and research; and \$133,795 in other operating expenses. Our operating expenses increased during the three months ended June 30, 2007 as compared to the three months ended June 30, 2006 principally as a result of an increase in professional fees and stock option expense related to the adoption of SFAS No. 123R.

Interest expense and financing costs for the three months ended June 30, 2007 were \$3,906,954 compared to \$131,795 for the three months ended June 30, 2006. The increase is because Cornell Capital called their convertible debenture which resulted in accelerating the amortization of the outstanding debt issuance costs and debt discounts during the period ended June 30, 2007.

The Company recorded other income of \$5,427,491 and \$0 related to the change in fair value of the warrant and derivative liabilities for the three months ended June 30, 2007 and 2006, respectively. The change in the fair value in the warrant and accrued derivative liabilities relates to the change in the value of the detachable warrants and beneficial conversion feature issued in connection with the convertible debentures and convertible preferred stock.

OUR PLAN OF OPERATION FOR THE NEXT TWELVE MONTHS.

In a content of our reorganization strategy we will be evaluating our business strategy for the next twelve months which could include moving forward with the completion of Phase III clinical trials of our planned allergy prevention product, PreHistin™; or pursuing development of PreHistin™ for other atopic and allergic conditions; or pursuing a national and global marketing and licensing strategy for PreHistin™. We anticipate generating revenues from product sales in the next twelve months. We estimate the cost to complete the Phase III clinical trials and the submission of an NDA to the FDA for marketing approval will be significant. We are determining the costs for alternative strategies as of the date of this filing. However, we will need to raise funds to execute studies for the further development of our proposed PreHistin™ product line, to complete the development of additional products, or to pursue alternative strategies. We are in the process of raising additional funds to execute further studies. We could be able to raise through the exercise of Cornell Capital's warrants, entering into a partnership agreement or private or other equity offerings, or we may attempt to secure loans from lending institutions or other sources. There is no guarantee we will be able to raise additional funds through offerings or other sources. If we are unable to raise funds, our ability to continue with product development will be hindered.

Off-balance sheet arrangements. There are no off balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

Item 3. Controls and Procedures

As required by SEC rules, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures at the end of the period covered by this report. This evaluation was carried out under the supervision and with the participation of our management, including our principal executive officer and principal financial officer. Based on this evaluation, these officers have concluded that the design and operation of our disclosure controls and procedures are effective. There were no changes in our internal control over financial reporting or in other factors that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Disclosure controls and procedures are our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, including principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

InnoFood/Modofood: On July 28, 2003, the Company entered into a Stock Exchange Agreement ("InnoFood Agreement") with InnoFood Inc. ("InnoFood") wherein the Company agreed, among other things, to provide InnoFood with funding totaling \$5,000,000 in exchange for, among other things, 100% interest in InnoFood. The completed purchase of InnoFood was not to occur until the \$5,000,000 funding was delivered. Under the InnoFood Agreement, the Company was obligated to provide InnoFood with the funding on or before December 31, 2003. The Company did provide InnoFood with \$2,220,000. The Company has confirmation that \$1,850,000 of the funds provided to InnoFood was sent to Modofood S.P.A., an Italian company ("Modofood"). InnoFood originally entered into a licensing agreement with Modofood to market and distribute Modofood's food processing technology. On October 17, 2003, the Company entered into a Letter of Understanding ("LOU") with InnoFood to restructure the relationship between ourselves and InnoFood. The Company believes that InnoFood and certain related individuals may have intentionally misled our management regarding certain material matters.

On January 8, 2004, InnoFood sent us a letter attempting to terminate the original InnoFood Agreement and the October 17, 2003 LOU. InnoFood claimed that the Company breached both the InnoFood Agreement and the LOU by failing to provide the funding called for under those agreements. With the letter of termination, InnoFood delivered a signed promissory note agreeing to pay back \$2,160,000 (net of \$60,000 interest InnoFood charged to the Company for non-payments). The promissory note accrues interest at 10% and is due and payable on or before January 15, 2009. Though the Company did not accept that note, the Company believes that this promissory note represents an acknowledgment of InnoFood's debt to the Company.

In September 2006, the Company filed a complaint entitled Cobalis Corp. v. InnoFood, Reynato Giordano, James Luce, Robert Dietrich, Randal Lanham, in Orange County Superior Court, California, Case No. 06CC10355, to attempt to recapture the funds transferred to InnoFood and acquire any intellectual property related to the food preservation process at issue. Cobalis has entered defaults against Innofood, Renato Giordano and Robert Dietrich. The only remaining defendants are James Luce and Randall Lanham.

In February 2007, James Luce filed a Cross-Complaint against Cobalis and Chaslov Radovich, who filed an Answer to the Cross-Complaint. On March 3, 2007 Randal Lanham filed a cross complaint against Cobalis and Chaslov Radovich which was amended on May 28, 2007. Cobalis filed a Demurrer to the Lanham First Amended Cross Complaint for which a hearing date was set for August 17, 2007. Prior to the August 17 hearing on Cobalis' demurrer, the Innofood case has been stayed with respect to the cross-complaints filed by Randall Lanham and James Luce. Accordingly, the hearing on Cobalis' demurrer was taken off calendar, subject to the stay.

Subject to the stay, the Company intends to vigorously prosecute this matter and to defend the Lanham and Luce Cross-Complaints, although, as with any litigation, there is no guarantee of a favorable outcome. The Case Management Conference on August 20, 2007 was continued to October 22, 2007.

Gryphon Master Fund, LP. On November 8, 2004, Gryphon Master Fund, LP, (“Gryphon”) filed a lawsuit against the Company in United States District Court, Northern District of Texas, Dallas Division, Case No. 3:04-CV-2405-L. The lawsuit sought repayment of a \$600,000 convertible note payable, accrued interest on the convertible note payable within the prescribed period, penalties for failing to register shares underlying the conversion of the convertible note payable, attorneys fees and court costs. In March 2006, the Company entered into settlement agreement with Gryphon where both parties agreed to dismiss any and all current and future claims, legal proceedings and litigation upon full satisfaction of the settlement agreement.

The settlement, which relates to two investments in the Company totaling \$1.6 million made by Gryphon in September 2003, includes an agreed judgment totaling \$1.6 million. Of the remaining unconverted instruments, Gryphon is also eligible to convert its convertible note and convertible preferred stock it holds to 508,334 shares of the Company's common stock. Under the settlement agreement, full repayment of the \$1.6 million was due on or before April 1, 2007. The Company did not make the payment by April 1, 2007; therefore, the stipulated judgment into which the Company entered with Gryphon provides that Gryphon has the right to enter a judgment of \$1.6 million against the Company with the court upon the Company's default.

On April 2, 2007, the Company filed a motion to vacate an agreed judgment (the “Motion to Vacate”) in the U.S. District Court for the Northern District of Texas, Dallas Division with regard to case #3:04-CV- 2405 between Gryphon Master Fund, L.P. (“Gryphon”) and the Company. The Company based the Motion to Vacate on several grounds including that allegation that Gryphon breached the “no shorting” provision contained in the settlement agreement. The Company believes, and so allege in the Motion to Vacate, that despite Gryphon's agreement, Gryphon engaged in shorting of the Company's stock. Since June 2007, Gryphon has aggressively been moving forward with judgment collection activities, including, but not limited to, conducting a debtor's exam, levying the Company's bank accounts and attaching the Company's assets to the extent such assets are not already encumbered.

On April 23, 2007, Gryphon sued the Company for breach of contract in the same U.S. District Court as above, Case #3:07-cv-00701B. This new lawsuit alleges that the Company breached a settlement agreement with Gryphon. Gryphon is also seeking a declaratory judgment that it did not breach the same settlement agreement. Gryphon's alleged breach of the settlement agreement is the subject of the Company's Motion to Vacate. In addition to the declaratory relief, Gryphon's complaint seeks unspecified damages and attorneys' fees. On April 23, 2007, Gryphon also filed an opposition to the Company's Motion to Vacate repeating the same allegations. A trial date is scheduled for the September 2007 docket.

There is no guarantee that the Company will be successful in vacating the judgment or in defending the new lawsuit. If the Company is unsuccessful in vacating the judgment or in defending the subsequent lawsuit, and, if the Company is unable to subsequently timely resolve the Gryphon matter or raise capital to satisfy the judgment, the Company's ability to move its business forward could be adversely affected. On August 6, 2007, the Company filed the Suggestion of Bankruptcy requesting for an automatic stay in the proceedings.

Marinko Vekovic: On March 9, 2006, Marinko Vekovic, a former consultant, filed a complaint against the Company alleging a breach of a written consulting agreement, specific performance of common stock warrants and the “reasonable value of work and labor performed,” seeking damages in excess of \$700,000, and specific performance of an alleged obligation to issue 600,000 free trading warrants at a \$1.75 share price. The lawsuit, entitled Vekovic vs. Cobalis, is pending in Orange County Superior Court, Central Justice Center, Case No. 06CC03923.

On April 18, 2006, the Company filed an answer to the complaint, denying the allegations by Mr. Vekovic. On the same date, the Company also filed a cross-complaint for rescission of the consulting agreement, on grounds that Mr. Vekovic made numerous material misrepresentations intended to fraudulently induce the Company to enter the consulting agreement and to issue to Vekovic 112,500 shares of its S-8 common stock. Through the Company's cross-complaint, it sought to rescind the consulting agreement and seek restitution from Mr. Vekovic in an amount no less than the price for which Mr. Vekovic sold the 112,500 shares of its S-8 common stock, plus all or some portion of the compensation paid to Mr. Vekovic, given that the Company believes Mr. Vekovic substantially failed to perform the consulting services which were the subject of the consulting agreement. The Company also sought to recover attorneys' fees incurred in the defense of the complaint and the prosecution of its cross-complaint, pursuant to the attorneys' fee provision in the consulting agreement. On March 5, 2007, the Company entered into a settlement agreement with Mr. Vekovic with regard to this case, whereby the Company agreed to register on a future Form S-8 and issue 50,000 shares to Mr. Vekovic in addition to a grant of 25,000 warrants to purchase shares of our common stock at \$1.75 per share, expiring December 31, 2009. The settlement agreements were issued on March 12, 2007 and the shares were registered on April 11, 2007 and issued subsequently.

Cappello Capital Corp. In March 2005, the Company entered into an agreement with Cappello Capital Corp. (“Cappello”) for investment banking and related financial services. Pursuant to a financing agreement, the Company issued 100,000 shares as an initial retainer. The Company believes that Cappello did not perform per the agreement, but no settlement can be guaranteed.

Noel Marshall. On March 1, 2007, the Company became aware for the first time of the complaint for damages, Case # 07CC03208 filed in Superior Court Orange County California, entitled Noel Marshall v. Cobalis Corp. Chas Radovich, Radul Radovich, Drsgica Radovich, R.R. Holdings, Biogentec, Silver Mountain Productions and St. Petka Trust, alleging breach of contract, fraud, constructive trust, money had and received, and account stated (the “Marshall Action”). In the Marshall Action, plaintiff is alleging, among other things, that certain misrepresentations were made with the intent of inducing plaintiff to purchase shares of the Company's common stock. The Company believes this lawsuit is frivolous and without merit. The Company intends to vigorously defend this matter. As with any litigation, there is no guarantee of a favorable outcome. In August, 2007 a notice of stay was filed, and subsequently the court notified all parties that the action was stayed as to Cobalis only.

As of the date of this filing, all pending cases are now stayed because of Cornell Capital's involuntary bankruptcy petition against the Company.

In the ordinary course of business, the Company is generally subject to claims, complaints, and legal actions. At March 31, 2007, management believes that the Company is not a party to any action which would have a material impact on its financial condition, operations, or cash flows.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three months ended June 30, 2007, we issued 1,255,396 shares of our unregistered common stock for services rendered. These transactions were not registered under the Act in reliance on the exemption from registration in Section 4(2) of the Act, as transactions not involving any public offering. The securities were issued to our employees, officers, directors, creditors, consultants, advisors, and existing shareholders, who by virtue of those relationships, we believe were familiar with our business, and were able to assess the risks and merits of the investment.

Item 3. Defaults Upon Senior Securities
