DRC RESOURCES CORPORATION

PRESS RELEASE

DRC Announces Closing of \$3 Million Financing

(All Dollar Amounts in Canadian dollars unless otherwise indicated)

April 22 2005, Vancouver, British Columbia DRC Resources Corporation (DRC:TSX; DRJ:AMEX) is pleased to announce the successful completion of its previously announced non-brokered private placement to investors who are at arm's length with the Company. As a result, the Company has issued 400,000 flow-through common shares at a price of \$7.50 per share for gross proceeds of \$3 million.

Proceeds of the private placement will be used to expand and accelerate the Company's exploration efforts at its Afton

and Ajax Copper-Gold properties, near Kamloops, British Columbia, Canada.

The securities offered have not been registered under the United States Securities Act of 1933, as amended, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons absent U.S. registration or an applicable exemption from U.S. registration requirements. This press release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States.

DRC's main focus is the exploration and development of its 100%-owned Afton Copper-Gold Project, located 10 km west of Kamloops, B.C. To date the Company has outlined a Measured and Indicated Mineral Resource of 68.7 Million Tonnes grading 1.68% Copper Equivalent or 2.61 g/t Gold Equivalent (1.08% Cu, 0.85 g/t Au, 2.62 g/t Ag, 0.12 g/t Pd), which contains approximately 1.6 billion pounds of copper, and 1.9 million ounces of gold. At current metal prices this mineralized zone has an in-situ value in excess of US\$3 Billion. The Company is currently conducting a US\$14.5 million feasibility study at the project, to determine the potential economics and capital requirements of developing a new underground Copper-Gold Mine at the site. According to the British Columbia Ministry of Energy & Mines, the Afton Project is the largest advanced exploration project in South Central B.C.

DRC is in excellent financial condition with cash of US\$20 million (at year end 2004) and no debt. The Company has only 14.3 million shares outstanding and 15.9 million shares fully diluted.

Safe Harbor Statement under the United States Private Securities Litigation Act of 1995: This release made may contain forward-looking statements that are affected by known and unknown

risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed, implied or anticipated by such forward-looking statements. Such forward-looking statements herein represent management's best judgment as of the date hereof based on information currently available. The Company does not intend to update this information and disclaims any legal liability to the contrary. Cautionary Note to U.S. Investors concerning resource estimates. This press release discusses the results of a scoping study, which is a preliminary assessment as defined in the Canadian NI 43-101, under which the use of inferred mineral resources is permitted under certain circumstances. The U.S. Securities and Exchange Commission regulations do not recognize any circumstances in which inferred mineral resources may be so used. U.S. investors are cautioned not to assume that any part or all of an inferred resource category described as a resource falling within the mine plan will ever be converted into reserves within the definition of that term in SEC Industry Guide 7. Cautionary Note to U.S. Investors concerning estimates of Measured and Indicated Resources. This section uses the terms measured and indicated resources. We advise U.S. investors that, while those terms are recognized and required by Canadian regulations, the U.S. Securities and Exchange Commission does not recognize them. U.S. investors are cautioned not to assume that any part or all of mineral deposits in these categories will ever be converted into reserves.

WARNING: The Company relies upon litigation protection for forward-looking statements.
