PRESIDENTS letter, April 11, 2005

Dear Shareholders:

Once again it is annual report time. Interestingly, the gold price is higher today at \$ 425.00 vs \$390.00 when I wrote this letter last year, but the exploration market is softer. This may be a cause for concern to some, but I cannot help but be optimistic about the future for our industry and our company.

The game plan we have outlined in our previous Annual Reports remains on track □ we will continue to explore, mainly for gold, in western Northern America. We focus on grass roots properties with potential for large deposits. Early stage acquisitions or staking allows this potential to be obtained at minimal entry and holding costs and therefore giving us much

greater leverage to any discovery. Dealing these to aggressive junior companies to explore minimizes risk and allows us to get exposure to more projects than if the Company explored each property on its own account.

Besides our existing joint ventures, we have an inventory of promising projects to deal in anticipation of a gold price increase. These include the exciting Sam property, in British Columbia, where a new vein zone was found late last fall. Recently several of our projects have demonstrated silver-lead- zinc potential giving us greater exposure to these commodities as well.

As recently reported, last year's exploration on the Elk property continues to yield high grade gold results from the Siwash and WD veins. We plan one more season of surface drilling to further explore both high grade and wider, lower grade zones before considering an under ground development program.

Thank you for your continuing support.

Yours sincerely J. Duane Poliquin President

MANAGEMENT'S DISCUSSION & ANALYSIS

The following discussion and analysis is management's assessment of the results and financial condition of Almaden Minerals Ltd. (the "Company" or "Almaden") and should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2004 and related notes contained in the annual report. The date of this management's discussion and analysis is March 28, 2005. Additional information on the Company is available on SEDAR at www.sedar.com and on the Company's website at www.almadenminerals.com.

Business of Almaden

Almaden is an exploration stage company engaged in the acquisition, exploration and development of mineral properties of merit in Canada, the United States and Mexico with the aim of developing them to a stage where they can be exploited at a profit or to arrange joint ventures whereby other companies provide funding for development and exploitation.

Forward looking statements

Certain information included in this discussion may constitute forward-looking statements. Forward-looking statements are based on current expectations and entail various risks and uncertainties. These risks and uncertainties could cause or contribute to actual results that are materially different than those expressed or implied. The Company disclaims any obligation or intention to update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise.

Trends

The mineral exploration industry has been through a very difficult period with low prices for both precious and base metals. Lack of interest lead to low market capitalizations and major mining companies found it was easier to grow by purchasing companies or mines rather than explore for them. This, in turn, lead to downsizing of major mining company exploration staffs and many professionals took early retirement or left the industry to

pursue other careers. As a result of these trends, there are few good gold-silver projects in the pipeline and a developing shortage of experienced explorationists. With improving metal prices and increasing demand, especially from Asia, supply difficulties may occur in the future and there is a discernible need for good exploration projects based on sound geological work. As junior companies (many of which are staffed by former large company geologists) find it easier to raise funds, they are beginning to seek properties of merit to explore.

Risks and uncertainties

The Company is subject to a number of risks and uncertainties, the more significant of which are discussed below. Additional risks and uncertainties not presently known to the Company may impact the Company's financial results in the future.

Industry

Almaden is engaged in the exploration of mineral properties, an inherently risky business. There is no assurance that a mineral deposit will ever be discovered and economically produced. Most exploration projects do not result in the discovery of commercially mineable ore deposits.

Reserve and mineralization estimates

The estimation of reserves and mineralization is a subjective process and the accuracy of any such estimates is a function of the quality of available data and of engineering and geological interpretation and judgment. No assurances can be given that the volume and grade of reserves recovered and rates of production will not be less than anticipated.

4

Gold and metal prices

The price of gold is affected by numerous factors beyond the control of the Company including central bank sales, producer hedging activities, the relative exchange rate of the U.S. dollar with other major currencies, demand, political, economic conditions and production levels. In addition, the price of gold has been volatile over short periods of time due to speculative activities. The price of other metals and mineral products that the Company may explore for all have the same or similar price risk factors.

Cash flows and additional funding requirements

Almaden currently has no revenues from operations. If any of the Company's exploration programs are successful and optionees of properties complete their earn-in, the Company would have to provide its share of ongoing exploration and development costs in order to maintain its interest in the projects, or be reduced to a royalty interest. Additional capital would be required to put a property into commercial production. The sources of funds currently available to the Company are the sale of its inventory of gold, sale of marketable securities, sale of equity capital or the offering of an interest in its projects to another party. Although the Company presently has sufficient financial resources to undertake all of its currently planned exploration programs and has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be advantageous to the Company.

Exchange rate fluctuations

Fluctuations in currency exchange rates, principally the Canadian/U.S. dollar exchange rate, can significantly impact cash flows. The exchange rate has varied substantially over time. Most of the Company's exploration expenses in Mexico are denominated in U.S. dollars. Fluctuations in exchange rates may give rise to foreign currency exposure, either favourable or unfavourable, which may impact financial results. The Company does not engage in currency hedging to offset any risk of exchange rate fluctuation.

Environmental

Almaden's exploration and development activities are subject to extensive laws and regulations governing environment protection. The Company is also subject to various reclamation-related conditions. Although the Company closely follows and believes it is operating in compliance with all applicable environmental regulations, there can be no assurance that all future requirements will be obtainable on reasonable terms. Failure to comply may result in enforcement actions causing operations to cease or be curtailed and may include corrective measures requiring capital expenditures.

Laws and regulations

Almaden's exploration activities are subject to extensive federal, provincial, state and local laws and regulations governing prospecting, development, production, exports, taxes, labour standards, occupational health and safety, mine safety and other matters in all the jurisdictions it operates in. Such laws and regulations are subject to change, can become more stringent and compliance can therefore become more costly. The Company applies the expertise of its management, its advisors, its employees and contractors to ensure compliance with current laws and relies on its land man in Mexico and legal council in both Mexico and the United States.

Title to mineral properties

While the Company has investigated title to its mineral properties, this should not be construed as a guarantee of title. The properties may be subject to prior unregistered agreements or transfers and title may be affected by undetected defects. Unresolved native land claim issues in British Columbia and the Yukon Territory may affect the Company's properties in these jurisdictions in the future.

Possible Dilution to Present and Prospective Shareholders

The Company's plan of operation, in part, contemplates the financing of the conduct of its business by the issuance of cash, securities of the Company, or a combination of the two, and possibly, incurring debt. Any transaction involving the issuance of previously authorized but unissued shares of common stock, or securities

5

convertible into common stock, would result in dilution, possibly substantial, to present and prospective holders of common stock. The Company usually seeks joint venture partners to fund in whole or in part exploration projects. This dilutes the Company's interest in properties it has acquired. This dilution of interest in properties is done to spread or minimize the risk and to expose the Company to more exploration plays but means that any profit that might result from a possible discovery would be shared with the joint venture partner. There is no guarantee that the Company can find a joint venture partner for any property.

Material Risk of Dilution Presented by Large Number of Outstanding Share Purchase Options and Warrants

As of March 11, 2005 there were share purchase options outstanding allowing the holders of these options to purchase 4,176,783 shares of common stock and share purchase warrants outstanding allowing the holders to purchase 1,848,105 shares of common stock. Directors and officers of the Company hold 3,619,783 of these share purchase options. An additional 557,000 share purchase options are held by employees and consultants of the Company. None of the share purchase warrants are held by Directors. Given the fact that as of March 11, 2005 there were 31,172,767 shares of common stock outstanding, the exercise of all of the existing share purchase options and warrants would result in further dilution to the existing shareholders and could depress the price of the Company's shares.

These shares may be issued and could depress the price of the Company's shares.

Lack of Trading Volume

The lack of trading volume of the Company's shares reduces the liquidity of an investment in the Company's shares.

Volatility of Share Price

Market prices for shares of early stage companies are often volatile. Factors such as announcements of mineral discoveries, financial results, and other factors could have a significant effect on the price of the Company's shares.

Competition

There is competition from other mining exploration companies with operations similar to those of the Company's. Many of the mining companies with which the Company competes have operations and financial strength greater than that of the Company.

Dependence on management

The Company strongly depends on the business and technical expertise of its management and there is little possibility that this dependence will decrease in the near term.

Conflict of Interest

Some of the Company's directors and officers are directors and officers of other natural resource or mining-related companies. These associations may give rise from time to time to conflicts of interest. As a result of which, the Company may miss the opportunity to participate in certain transactions and may have a material, adverse effect on its financial position.

Selected financial information

The following selected annual financial information is derived from the audited consolidated financial statements for the three most recently completed financial years and is prepared in accordance with Canadian generally accepted accounting principles ("GAAP").

6

	2004	Years ended December 31 2003	2002
Total revenues	\$ 242,896	\$ 110,230	\$ 122,538
Net loss	3,065,803	1,326,305	3,198,025
Net loss per share	0.11	0.06	0.16
Write-down of interests in mineral properties	903,358	105,666	2,180,738
Stock option compensation	1,234,783	220,000	162,000
Working capital	4,659,617	5,100,785	1,521,627
Total assets	10,215,275	10,341,770	5,635,752

Exploration projects - Canada Siwash Gold Deposit

The Company completed a 44-hole, 10,265 meter diamond drill program in 2004 to test the continuity of mineralization at its wholly owned Siwash Gold Mine in B.C. Calculation of an updated resource estimate incorporating the diamond drill and mine sample data up to and including 2003 was completed in May of 2004 by Giroux Consultants Ltd. The estimate included a measured and indicated resource of 207,600 oz (6,457,000 grams) gold in 736,670 tons and an inferred resource of 207,800 oz (6,463,300 gm) gold in 1,451,950 tons. During 2004, \$912,549 was spent on exploration on the project. A drill program of approximately \$1,000,000 has been proposed for the current year.

ATW Diamond Project, NWT, Canada

Almaden has a net 37.5% interest in this project where work over the past several field seasons has identified the source area of the diamond indicator mineral train. Gravity, magnetic and electromagnetic geophysical surveys were completed in April 2004 over these areas and several subtle anomalies were outlined at a cost to Almaden of \$25,483.

PV and NIC Gold-Silver Projects, Canada

The PV and NIC properties were discovered, staked and are held 100% by Almaden. The properties were optioned to Consolidated Spire Ventures Ltd. (["Spire"]) on terms whereby Spire can earn a 60% interest by spending \$1.3 million on exploration and issuing 600,000 shares to Almaden, all before the end of 2007. Spire expanded the PV claim group to include the NIC claims during 2004 at a cost of \$33,835. Exploration by Spire on PV during 2004 consisted primarily of helicopter borne soil and stream sediment sampling and hand trenching.

Sam Gold-Silver Project, Canada

The Sam property was discovered, staked and is held 100% by Almaden. Exploration costs on Sam during 2004 were \$47,060 consisting of soil, stream sediment and rock sampling and hand trenching. A two metre wide gold-silver bearing quartz vein was exposed by trenching in the central property area.

Nicoamen River Gold-Silver Project, Canada

The Nicoamen River property was discovered, staked and is held 100% by Almaden. Acquisition and exploration costs during 2004 were \$6,310.

Exploration projects - Mexico

Fuego Gold-Silver Property

Almaden acquired this gold silver property in Mexico by staking during 2003. In early 2004, the property was optioned to Horseshoe Gold Mining Inc. (["Horseshoe"]) under terms whereby Horseshoe has an option to earn a 50% interest by spending US\$2 million on exploration and issuing 1,000,000 shares to Almaden. Horseshoe has the option to acquire a further 10% interest by spending an additional US\$1 million on exploration. Upon Horseshoe earning a 60% interest, Almaden would have 120 days to sell its remaining 40% interest to Horseshoe

7

in return for a 40% interest in the then issued capital of Horseshoe. Horseshoe has a firm commitment to spend US\$200,000 and to issue 200,000 shares in the first year. By reason of delays in obtaining requisite permits to conduct exploratory drilling and consequent delays in securing appropriate drilling equipment, Horseshoe was unable to make requisite expenditures within the times provided in the Horseshoe Option. By amendment dated as of the 31st of January 2005, times to perform work requirements and to meet share issuances were extended essentially by one year. Horseshoe has informed the Company that a field program consisting of linecutting, soil and rock sampling and geologic mapping has been completed and that diamond drilling is planned for the first half of 2005.

Caballo Blanco Gold-Silver Project

The Caballo Blanco project is optioned to Comaplex Minerals Ltd. (["Comaplex"]) who can earn a 60% interest by spending US\$2 million. Comaplex completed several programs of work in 2003 and 2004 that defined a number of drill targets in three parts of the property. Comaplex has informed the Company that road building to the Northern Zone has been difficult. It is now planned to access this area with a man-portable drill. Several drill holes have been completed in the Central Grid area and the Highway Zone, but no results have been received at the time of writing.

Galeana Gold-Silver Project

The Galeana property was optioned to Grid Capital Corp. (Grid) who had the right to earn a 60% interest by spending US\$2 million and issuing 500,000 shares to Almaden. Grid completed field programs in 2003 and 2004 including limited diamond drilling. The property was returned to Almaden early in 2005 and associated carrying costs were written off in 2004. The Company is waiting for final reports from Grid before determining further plans.

El Pulpo Gold-Copper-Silver Project

The El Pulpo property is located north-east of Mazatlan and covers an area of approximately 100 square kilometres. Almaden optioned this property to Ross River Minerals Ltd. (Ross River) who had the right to earn a 60% interest by spending US\$3 million and issuing 425,000 shares to Almaden. Almaden and Ross River have identified high-grade porphyry related gold, silver and copper mineralisation over a surface area in excess of 12 square kilometres. The property hosts at least two copper-gold porphyry targets and three high grade gold vein targets. Ross River completed several programs of work in 2003 and 2004 including diamond drilling on vein targets. In December 2004, the Company entered into an agreement, subject to regulatory approval (granted March 24, 2005), with Ross River in which the Company agreed to sell a 100% of its right, title and interest in the prospect. In consideration for the Company's interest, Ross River will issue to the Company 2.2 million shares of Ross River. Ross River is required to issue an additional 1.0 million shares when exploration and development expenditures on the property meet or exceed US \$10.0 million and an additional 1.0 million shares on the delivery of a positive feasibility study recommending production on any part of the property. Almaden will retain a 2% NSR regarding any minerals from its formerly 100% owned concessions. After a feasibility study is completed on a mineral deposit, one half of this 2% NSR (a 1% NSR) can be purchased by Ross River from Almaden for fair market value as determined by an internationally recognized engineering firm acceptable to both parties.

BHP Billiton Joint Venture

A phase one program was completed over the area of interest at a cost of US\$200,000 to each company. Based on results, a further program of exploration has been agreed to which will focus on the area deemed of most interest from the previous work. All properties acquired in the first work phase have been or will be quit claimed to Almaden. The Company is currently renegotiating the agreement with BHP which would decrease the amount of funding required to earn an interest in any properties acquired.

8

San Carlos Copper-Gold Project

In 2004, the Company signed a joint venture agreement with Hawkeye Gold and Diamond Inc. (Hawkeye) on terms whereby Hawkeye can earn a total of 60% by spending US\$4 million on exploration and issuing 800,000 shares to Almaden over seven years. Hawkeye has conducted line cutting, geochemical, geophysical and geological programs during 2004 and early in 2005, and this work has outlined a number of drill targets. Drilling is anticipated in the first half of 2005. As of February 2, 2005, Hawkeye had not reimbursed Almaden for taxes paid for the prospect on Hawkeye's behalf and a notice of default was issued giving Hawkeye 90 days to rectify the failure to pay the taxes. As of March 16, 2005, Hawkeye has provided no information as to initial expenditures as required in the agreement and a notice giving 30 days to cure the default has been given. If the default is not cured, Notice of Termination of the option will be given. Subsequent to default notices negotiations have been instituted with a view of concluding a new contractual arrangement with Hawkeye but no agreement has been concluded.

Results of operations

Almaden's operations during the year ended December 31, 2004 produced a net loss of \$3,065,803 or \$0.11 per share (2003 - \$1,326,305 or \$0.06 per share). The significant fluctuation in net loss is primarily due to an increase in the write-down of interests in mineral properties and the expense recognized for stock options granted during the year.

The Company has no revenue from mining operations. Revenue currently consists of proceeds received from mineral properties option agreements in excess of the carrying value of the properties, interest income and the recovery of value-added tax in Mexico, all of which increased during Fiscal 2004 as compared to Fiscal 2003.

Edgar Filing: ALMADEN MINERALS LTD - Form 6-K

General and administrative costs were \$705,826 in the year ended December 31, 2004 (2003 - \$605,763). The increase was primarily due to an increase in travel and promotion due to the Company's participation in numerous investment conferences throughout the year including the Vancouver Investment Conference, the Prospectors and Developers Association Conference in Toronto, the New York Institutional Gold Conference, the Las Vegas Precious Metals Conference and the San Francisco Precious Metals Conference. The Company also engaged Roth Investor Relations Inc. of New Jersey to introduce senior management to various fund managers in eastern United States.

General exploration costs were \$539,794 (2003 - \$439,503). This increase was primarily due to the purchase of satellite imagery and data maps at a cost of \$183,472.

Significant non-cash expenses include the write-down of interests in mineral properties, stock option compensation and income tax recovery. Write-down of interests in mineral properties during the year ended December 31, 2004 increased to \$903,358 (2003 - \$105,666). This write-down is based on managements evaluation of the carrying value of each mineral property interest held. Stock option compensation during the year ended December 31, 2004 increased to \$1,234,782 (2003 - \$220,000). This expense is directly related to the number of stock options granted during any year. A future income tax recovery was recorded upon the adoption of the recommendations of Emerging Issues Committee ¶ 146 with respect to flow-through shares. Refer to Changes in accounting principles ¶ Flow-through shares below.

Liquidity and capital resources

At December 31, 2004, the Company had working capital of \$4,659,617 (2003 - \$5,100,785) and cash and cash equivalents of \$4,125,706 (2003 - \$4,838,914). The decrease in cash is primarily due to an increase in investment in mineral properties during the year ended December 31, 2004. In addition, the market value of the Company's inventory of gold bullion at December 31, 2004 was \$843,599 - \$568,831 above book value. The market value of equity securities at December 31, 2004 was \$1,045,147 - \$540,393 above book value. These values differ from the GAAP based carrying value on the balance sheet which is at the lower of cost or market. Also, included in working capital is a liability arising from the contingent obligation in the event the Company is unsuccessful in its appeal of assessed additional mineral tax for prior years. The Company expects its level of

9

cash resources to be sufficient to meet its working capital and mineral exploration requirements for the next several years. The Company has no long-term debt.

Cash used for operating activities during 2004 was \$1,212,115 (2003 ¶ 911,766) after adjusting for the non-cash activities. Significant non-cash expenses are discussed above.

Cash flows from financing activities during 2004 were \$2,071,427 (2003 - \$5,779,301). The source of cash during 2004 is from the completion of private placement financings (\$2,553,913), the exercise of share purchase warrants (\$1,088,919) and the exercise of stock options (\$138,984). In January 2004, the Company completed a private placement of 1,300,000 common shares raising proceeds of \$1,699,435 net of issue costs. These funds were received prior to December 31, 2003 and were recorded as a subscription for shares. In August 2004, the Company completed two flow-through private placement financings issuing a total of 420,000 common shares at \$2.25 per share raising proceeds of \$849,415 net of issue costs.

During 2004, Almaden had net proceeds from the sale of equity securities in excess of purchases of \$22,689 (2003 - \$244,768). This relates to the investment of excess cash in investments earning a higher rate of interest. During 2004, \$173,747 was invested in property, plant and equipment, primarily the purchase of vehicles to be used in exploration in Mexico, a geological data base and IP survey equipment (2003 - \$247,879). During 2004, investments of \$1,421,462 were made in mineral properties interests, primarily the Elk property in British Columbia (\$912,549) and the acquisition of several new interest in British Columbia and Mexico (2003 -\$990,477). These investments are net of any proceeds received from option agreements and costs recovered. There were no gold sales during 2004 and 2003.

Contractual commitments

Edgar Filing: ALMADEN MINERALS LTD - Form 6-K

The Company is committed under an operating lease for its office premises with the following aggregate minimum lease payments to the expiration of the lease on January 31, 2009. During Fiscal 2005, the Company intends to pay \$1,995 cash-in-lieu of work on its Cabin Lake claims to keep them in good standing. The Company must pay \$1,500 yearly for mineral lease rent on its Elk property. The Company renewed its Rock River coal licenses in Fiscal 2004 for a three-year term. The cost to Almaden (50%) will be \$9,385 in Fiscal 2005 and \$18,770 in Fiscal 2006. Should the Company not option its Galeana and As de Oro prospects in Mexico by the time their next option payments are due, the Company intends to make these payments of \$14,250 each (U.S.\$10,000 plus value added tax). All other property options payments on the Company's projects have been assumed by third parties who are earning their interests in the projects. In January 2005, the Company entered into a letter agreement to fund the purchase of a diamond drill at an estimated cost of \$200,000 of which \$105,000 has been advanced to date. The following table indicates the total aggregate contractual commitments for each period.

	2005	2006	2007	2008	2009	Thereafter
Office lease	\$ 37,260	\$ 37,260	\$ 37,260	\$ 37,260	\$ 3,105	-
Mineral property acquisition/maintenance payments	\$ 41,380	\$ 20,270	-	-	-	-
Property, plant and equipment acquisition	\$ 200,000	-	-	-	-	-

Off-balance sheet arrangements

The Company has no off-balance sheet arrangements other than disclosed above.

Critical accounting estimates

A detailed summary of all the Company's significant accounting policies is included in note 2 to the annual consolidated financial statements for the year ended December 31, 2004.

10

Significant estimates used in the preparation of these consolidated financial statements include, amongst other things, depreciation, determination of net recoverable value of assets, determination of fair value on taxes and contingencies.

Changes in accounting principles Stock-based compensation

The Canadian Institute of Chartered Accountants (CICA) amended the stock option compensation and other stock based payments accounting standard during 2003. The Company early adopted the standard and the consolidated financial statements for the years ended December 31, 2004 and 2003 reflect this. This change has been applied retroactively and the consolidated financial statements for 2002 have been restated. The effect of this change was to increase the net loss for the year ended December 31, 2002 by \$162,000 for a net loss of \$3,198,025. Please see Note 2(j) and 3(a) to the audited consolidated financial statements for the year ended December 31, 2004 for further details.

Flow-through shares

The Emerging Issues Committee 146 amended the accounting standard with respect to flow-through shares during 2004. The standard requires, for all flow-through shares issued subsequent to December 31, 2003, the recognition of the future income tax liability and a corresponding increase to deficit on the date the company renounces the tax credits associated with the expenditures, provided there is a reasonable assurance that the expenditures will be made. The recognition of any portion of previously unrecognized future income tax assets will be recorded as a reduction of income tax expenses. The Company adopted the standard and the consolidated financial statements for the year ended December 31, 2004 reflect these recommendations.

Asset retirement

Edgar Filing: ALMADEN MINERALS LTD - Form 6-K

The CICA issued a new standard relating to asset retirement obligations effective for fiscal years beginning on January 1, 2004. The standard requires the recognition in the financial statements of the liability associated with the net present value of future site reclamation costs when the liability is incurred. These obligations are initially measured at fair value and subsequently adjusted for the accretion of discount and any changes to the underlying costs. The asset retirement cost is to be capitalized and amortized into operations over time. Please see Note 3(c) to the audited consolidated financial statements for further details.

Summary of selected quarterly information

	March 31, 2004	Quarter Ended (unaudited) June 30, 2004	September 30, 2004	December 31, 2004
Total revenues	\$ 62,682	\$ 113,281	\$ 40,516	\$ 26,417
Net loss	324,218	258,688	725,410	1,757,487
Net loss per share	0.01	0.01	0.02	0.07
Total assets	10,591,469	10,695,340	11,238,229	10,215,275

	March 31, 2003	Quarter Ended (unaudited) June 30, 2003	September 30, 2003	December 31, 2003
Total revenues	\$ 11,707	\$ 35,825	\$ 3,592	\$ 59,106
Net loss	275,709	223,008	260,373	567,215
Net loss per share	0.01	0.01	0.01	0.03
Total assets	5,584,450	5,300,783	6,834,870	10,341,770

During the quarter ended December 31, 2004, the Company's operations produced a net loss of \$1,757,487 or \$0.07 per share (2003 - \$567,215 or \$0.03 per share). Revenue was \$26,417 during the quarter (2003 - \$59,106) and consists primarily of interest income and the recovery of value-added tax in Mexico. General and administrative costs decreased to \$182,885 during the quarter (2003 - \$234,507) primarily due to B.C. mineral taxes and higher professional fees paid in 2003. General exploration also decreased to \$26,341 during the quarter ended December 31, 2004 (2003 - \$109,598).

11

Outstanding share data

The Company is authorized to issue 100,000,000 common shares without par value. As at February 28, 2005, there were 31,172,767 outstanding common shares compared to 29,639,854 outstanding shares at February 28, 2004. Subsequent to December 31, 2004, 30,000 stock options were exercised.

During the year ended December 31, 2004, the Company received cash proceeds of \$2,553,913, net of share issue costs, on from private placement financings, \$1,088,919 and \$138,984 pursuant to the exercise of share purchase warrants and stock options, respectively.

In January 2004, the Company completed a private placement of 1,300,000 common shares raising proceeds of \$1,699,435 net of issue costs. These funds were received prior to December 31, 2003 and were recorded as a subscription for shares. Further details regarding the private placements are disclosed in note 9 to the consolidated financial statements.

Directors, officers, employees and contractors are granted options to purchase common shares under the Company Stock Option Plan. This plan and its terms and outstanding balance are disclosed in note 9 to the consolidated financial statements.

At the Annual & Special General Meeting of the Company scheduled for May 18, 2005, shareholders will be asked to consider and if deemed advisable to pass appropriate resolutions to change the number of common shares which the Company is authorized to issue from 100,000,000 to an unlimited number and to change the Company's

Edgar Filing: ALMADEN MINERALS LTD - Form 6-K

Stock Option Plan from a fixed maximum number of 2,900,000 shares to a number not to exceed 10% of the issued and outstanding shares of the Company.

Related party transactions

A total of \$110,400 (2003 - \$110,400) was paid to a company controlled by Duane Poliquin, the President of the Company, for geological consulting services and web-site management services during the year. A total of \$66,542 (2003 - \$80,064) was paid to a company controlled by Morgan Poliquin, a Director of the Company, for geological consulting services during the year. These amounts are included in general exploration and mineral property costs. A total of \$55,637 (2003 - \$53,075) was paid to Dione Bitzer, an Officer of the Company for accounting services during the year. This amount is included in professional fees.

Outlook

Almaden currently has ten joint ventures and a regional exploration program with BHP Billiton underway to explore for copper-gold deposits in Mexico. The Company ended 2004 with a strong cash position that will enable it to continue its own exploration efforts in Mexico and Canada, seeking to identify new projects through early stage grass roots exploration and managing risk by forming joint ventures in which partner companies explore and develop such projects in return for the right to earn an interest in them.

Report of Independent Registered Chartered Accountants and Consolidated Financial Statements

ALMADEN MINERALS LTD.

(An exploration stage company)

December 31, 2004 and 2003

Report of Independent Registered Chartered Accountants

To the Shareholders of

Almaden Minerals Ltd.

We have audited the consolidated balance sheets of Almaden Minerals Ltd. (an exploration stage company) as at December 31, 2004 and 2003 and the consolidated statements of operations and deficit and cash flows for each of the years in the three year period ended December 31, 2004 and the cumulative amount from incorporation, September 25, 1980, to December 31, 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards and the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2004 and 2003 and the results of its operations and its cash flows for each of the years in the three year period ended December 31, 2004 and the cumulative amount from incorporation, September 25, 1980, to December 31, 2004 in accordance with Canadian generally accepted accounting principles.

The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit

procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Comments by Independent Registered Chartered Accountants on Canada - United States of America Reporting Differences

The standards of the Public Company Accounting Oversight Board (United States) require the addition of an explanatory paragraph (following the opinion paragraph) when there are changes in accounting principles that have a material effect on the comparability of the Company's financial statements, such as the change described in Note 3 to the consolidated financial statements. Our report to the shareholders dated March 11, 2005 is expressed in accordance with Canadian reporting standards which do not require a reference to such changes in accounting principles in the auditors' report when the changes are properly accounted for and adequately disclosed in the financial statements.

SUPPLEMENTARY CASH FLOW INFORMATION (Note 11)

ALMADEN MINERALS LTD.

(An exploration stage company)

Notes to the Consolidated Financial Statements

(Expressed in Canadian dollars)

1.

NATURE OF OPERATIONS

Almaden Minerals Ltd. (the "Company") is in the process of exploring its mineral properties and has not yet determined whether these properties contain reserves that are economically recoverable. The recoverability of amounts shown for mineral properties is dependent upon the establishment of a sufficient quantity of economic recoverable reserves, the ability of the Company to obtain necessary financing to complete the development and upon future profitable production or proceeds from the disposition of mineral properties.

2.

SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles, which in respect of these financial statements are different in some respects from generally accepted accounting principles in the United States of America as discussed in Note 17 and include the following policies:

(a)

Basis of consolidation

The consolidated financial statements include the accounts of the Company and its subsidiaries as follows:

Almaden America Inc.

Nevada

Republic Resources Ltd.

British Columbia

Almaden de Mexico, S.A. de C.V.

Mexico

Minera Gavilan, S.A. de C.V.

Mexico

Compania Minera Zapata, S.A. de C.V.

Mexico

(b)

Foreign exchange

The functional currency of the Company's subsidiaries has been determined to be the Canadian dollar. U.S. dollar and Mexican peso denominated amounts in these financial statements are translated into Canadian dollars on the following basis:

(i)

Monetary assets and liabilities - at the rate of exchange prevailing at the year-end.

(ii)

Non-monetary assets - at the rates of exchange prevailing when the assets were acquired or the liabilities assumed.

(iii)

Income and expenses - at the rate approximating the rates of exchange prevailing on the dates of the transactions.

(iv)

Gains and losses on translation are credited or charged to operations.

ALMADEN MINERALS LTD.

(An exploration stage company)

Notes to the Consolidated Financial Statements

(Expressed in Canadian dollars)

2.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c)

Cash and cash equivalents

Cash equivalents include money market instruments which are readily convertible into cash or have maturities at the date of purchase of less than ninety days.

(d)

Marketable securities

Investment in marketable securities is recorded at the lower of cost and quoted market value.

(e)

Inventory

Inventory is valued at the lower of the average cost of mining and estimated net realizable value.

(f)

Property, plant and equipment

Property, plant and equipment are stated at cost and are depreciated annually on a declining-balance basis at the following rates:

Automotive equipment

30%

Computer hardware and software

30%

Field equipment

20%

Furniture and fixtures

20%

Geological data library

20%

Mill equipment

10%

On a quarterly basis the Company compares the carrying value of property, plant and equipment to estimated net recoverable amounts, based on estimated future cash flows, to determine whether there is any indication of impairment. An impairment loss is recognized when the carrying value of the assets is not recoverable and exceeds their fair value. During the periods covered by these financial statements there was no indication of impairment.

ALMADEN MINERALS LTD.

(An exploration stage company)

Notes to the Consolidated Financial Statements

(Expressed in Canadian dollars)

2.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

(g)

Mineral properties

The Company is in the exploration stage with respect to its investment in mineral claims and accordingly follows the practice of capitalizing all costs relating to the acquisition of, exploration for and development of mineral claims and crediting all revenues received against the cost of the related claims. At such time as commercial production commences, these costs will be charged to operations on a unit-of-production method based on proven and probable reserves. The aggregate costs related to abandoned mineral claims are charged to operations at the time of any abandonment or when it has been determined that there is evidence of a permanent impairment.

The recoverability of amounts shown for mineral properties is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain financing to complete development of the properties and on future production or proceeds of disposition.

(h)

Income taxes

Future income tax liabilities and future income tax assets are recorded based on differences between the financial reporting basis of the Company's assets and liabilities and their corresponding tax basis. The future benefits of income tax assets, including unused tax losses are recognized, subject to a valuation allowance, to the extent that it is more

likely than not that such losses will be ultimately utilized. These future income tax assets and liabilities are measured using enacted tax rates and laws that are expected to apply when the tax liabilities or assets are to be either settled or realized.

(i)

Revenue recognition

Recovery of costs incurred are determined in accordance with agreements related to a mineral property acquisition, exploration and development. Amounts recovered in excess of costs incurred are reflected as revenue when receivable and collection is probable.

(j)

Stock-based compensation plans

The Company accounts for options granted under its fixed stock option plan (Notes 3 and 9) using the fair value based method of accounting for stock-based compensation. Accordingly, the fair value of the options at the date of grant is accrued and charged to operations, with an offsetting credit to contributed surplus, on a straight-line basis over the vesting period. If and when the stock options are ultimately exercised, the applicable amounts of contributed surplus are transferred to share capital.

ALMADEN MINERALS LTD.

(An exploration stage company)

Notes to the Consolidated Financial Statements

(Expressed in Canadian dollars)

2.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

(k)

Loss per share

The loss per share is based on the weighted average number of common shares of the Company that were outstanding each year.

(l)

Use of estimates

The preparation of financial statements in conformity with the Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. Significant estimates used in the preparation of these consolidated financial statements include, amongst other things, depreciation, determination of net recoverable value of assets, determination of fair value on taxes and contingencies.

3.

ACCOUNTING CHANGES

(a)

Effective January 1, 2003, the Company adopted the recommendations of the Canadian Institute of Chartered Accountants (the "CICA") for stock-based compensation and other stock-based payments. These recommendations established standards for the recognition, measurement and disclosure of stock-based compensation and other stock-based payments in exchange for goods and services. The Company adopted the fair value based method of accounting for stock-based compensation, as described in Note 2 (j), on a retroactive basis with restatement of the 2002 financial statements. The effect of this change was to increase the net loss for the year ended December 31, 2002 by \$162,000 for a net loss of \$3,198,025 (no change to loss per share). The contributed surplus balance at December 31, 2002 increased to \$162,000 and the deficit at January 1, 2003 increased to \$12,369,896.

ALMADEN MINERALS LTD.

(An exploration stage company)

Notes to the Consolidated Financial Statements

(Expressed in Canadian dollars)

3.

ACCOUNTING CHANGES

(b)

Effective January 1, 2004 the Company adopted, on a prospective basis, the recommendations of Emerging Issues Committee -146 with respect to flow-through shares. For all flow-through shares issued subsequent to December 31, 2003, the Company will recognize the future income tax liability and a corresponding increase to deficit on the date the company renounces the tax credits associated with the expenditures, provided there is reasonable assurance that the expenditures will be made. The recognition of any portion of previously unrecognized future income tax assets will be recorded as a reduction of income tax expenses. The impact of this adoption was a future income tax recovery of \$338,400 in 2004.

(c)

Effective January 1, 2004 the Company adopted the new accounting standard for asset retirement obligations, a standard that applies to future site reclamation costs for the Company's mineral properties. Under this standard, the Company recognizes and records the liability for dismantling and remediation at the fair value of the date the liability is incurred. The liability is accreted over time to the estimate amount ultimately payable through periodic charges to earnings. In addition, the asset retirement obligation is capitalized as part of the carrying value of the related mineral properties and amortized to operations. Adoption of this standard did not have a material impact on the financial position of the Company at December 31, 2004.

4.

MARKETABLE SECURITIES

	2004	2003
Money market investments	\$ -	\$163,049
Equity securities	504,754	206,237
	\$504,754	\$369,286

The market value of the investments as at December 31, 2004 was \$1,045,147 (2003 - \$1,268,497).

5.

INVENTORY

Inventory consists of gold bullion which is valued at the lower of average cost of mining and estimated net realizable value. The market value of the gold at December 31, 2004 is \$843,599.

MINERAL PROPERTIES (Continued)

The following is a description of the Company's most significant property interests and related spending commitments.

(a)

Caballo Blanco

In terms of the original agreement, to earn a 60% interest in the property, the Company had to issue a total of 200,000 shares and pay U.S.\$500,000 plus value added tax over four and a half years. To earn the remaining 40% interest, the Company had to pay an additional U.S.\$500,000 plus value added tax within a year of earning its 60% interest, plus a 2.5% net smelter return ("NSR"). The Company could have reduced this NSR to 1.5% for a fixed payment of U.S.\$2,000,000 plus value added tax payable equally over 10 years.

The agreement was amended in January 2003. To earn a 100% interest, the Company must issue a total of 200,000 common shares and must pay U.S.\$668,500 plus value added tax by February 26, 2007. The underlying owner would also receive a NSR of 2.5% to 1% based on the rate of production. The Company can purchase 50% of this NSR for a fixed payment of U.S.\$750,000 plus value added tax. As at December 31, 2004, the Company had issued the required 200,000 common shares and paid U.S.\$341,000 of this obligation.

During 2003, the Company entered into an agreement with Comaplex Minerals Corp. ("Comaplex"). To earn a 60% interest, Comaplex must keep the property in good standing and incur exploration expenditures totalling U.S.\$2,000,000 by January 16, 2007.

(b)

El Pulpo

The Company acquired a 100% interest in the Gavilan claims by staking. Two additional claims, which are surrounded by the Gavilan claims, are held under option. To earn a 100% interest, the Company must pay U.S.\$162,000 plus value added tax by February 2005. The claims are subject to a 1% NSR which can be purchased for a fixed payment of U.S.\$500,000 plus value added tax. As at December 31, 2004, U.S.\$33,000 of the obligation had been satisfied.

During 2003, the Company entered into an agreement with Ross River Minerals Ltd. ("Ross River"). To earn an initial 50.1% interest, Ross River must maintain the property in good standing, incur exploration expenditures totalling U.S.\$2,000,000 and issue 425,000 common shares to the Company by April 30, 2008. Ross River can increase its interest to 60% by incurring a further U.S.\$1,000,000 of exploration expenditures by April 30, 2010.

ALMADEN MINERALS LTD.

(An exploration stage company)

Notes to the Consolidated Financial Statements

(Expressed in Canadian dollars)

7.

MINERAL PROPERTIES (Continued)

(b)

El Pulpo (continued)

In December 2004, the Company entered into an agreement with Ross River whereby the Company will sell 100% of its right, title and interest in the El Pulpo concessions and the underlying agreements for an initial issuance of 2,200,000 shares of Ross River, an additional 1,000,000 shares when exploration and development expenditures meet or exceed U.S.\$10,000,000, and a further 1,000,000 shares on the delivery of a positive feasibility study recommending production on any part of the property. The Company will retain a 2% NSR regarding any minerals from its formerly 100% owned concessions. Should Ross River give notice to the Company that a decision has been made to place all or any part of the concessions into commercial production, Ross River can then purchase one-half of the NSR (such that the NSR would be reduced to 1% of the NSR) for consideration equal to the fair market value of the 1% royalty based upon the feasibility study, such value to be determined by an internationally recognized engineering firm mutually acceptable to both parties. The agreement is subject to regulatory approval.

(c)

San Carlos

The Company acquired a 100% interest in the San Carlos claims by staking and purchased a 100% interest in the San Jose claim, subject to a 2% NSR. The Begonia claims, which are surrounded by the San Carlos claims, were held under option. During 2004, the Company abandoned its option on these claims.

During 2004, the Company entered into an agreement with Hawkeye Gold & Diamond Inc. ("Hawkeye"). To earn an initial 51% interest, Hawkeye must maintain the property in good standing, incur exploration expenditures totalling U.S.\$2,000,000 by March 15, 2008 and issue 500,000 shares to the Company by March 15, 2007. Hawkeye can increase its interest to 60% by incurring an additional \$2,000,000 of exploration expenditures by March 15, 2011 and issuing a further 300,000 shares to the Company by March 15, 2010.

(d)

Galeana

The Galeana claims are held under option. To earn a 100% interest, the Company must pay U.S.\$100,000 plus value added tax over seven years. The Company must also pay U.S.\$400,000 plus value added tax should the property go into production. The claims are subject to a NSR of 3% to 1% based on the rate of production. The Company can purchase 50% of this NSR for a fixed payment of U.S.\$500,000 plus value added tax at any time. As at December 31, 2004, U.S.\$15,000 of this obligation had been satisfied.

ALMADEN MINERALS LTD.

(An exploration stage company)

Notes to the Consolidated Financial Statements

7.

MINERAL PROPERTIES (Continued)

(d)

Galeana (continued)

During 2002, the Company entered into an agreement with Grid Capital Corporation ("Grid"). To earn an initial 50% interest, Grid must maintain the property in good standing, incur exploration expenditures totalling U.S.\$1,000,000 and issue 400,000 shares to the Company by July 31, 2006. Grid can increase its interest to 60% by incurring an additional U.S.\$1,000,000 of exploration expenditures and issuing a further 100,000 shares to the Company by July 31, 2007. Subsequent to year end, Grid abandoned its option on the property. The property was written down to \$1 at December 31, 2004.

(e)

Yago / La Sarda

The Company acquired a 100% interest in the Tepic claim by staking and purchased a 100% interest in the La Sarda claims. The adjoining Guadalupe and Sagitario claims were held under option. To earn a 100% interest in the Guadalupe claim, the Company had to pay U.S.\$30,000 plus value added tax over six years. To earn a 100% interest in the Sagitario claim the Company had to pay U.S.\$250,000 plus value added tax by January 1, 2005.

During 2004, the Company purchased a 100% interest in the Guadalupe claim for U.S.\$15,000 plus value added tax and a 100% interest in the Sagitario claim for U.S.\$10,000 plus value added tax.

(f)

Fuego

The Company acquired a 100% interest in the Fuego claim by staking. During 2004, the Company entered into an agreement with Horseshoe Gold Mining Inc. ("Horseshoe"). To earn an initial 50% interest, Horseshoe must maintain the property in good standing, incur exploration expenditures totalling U.S.\$2,000,000 and issue 1,000,000 shares to the Company by December 31, 2006. Horseshoe can increase its interest to 60% by incurring an additional \$1,000,000 of exploration expenditures by December 31, 2007. Once Horseshoe has earned a 60% interest, Almaden has the right, but not the obligation, to exchange its remaining 40% interest in the property for 40% of the then issued capital of Horseshoe.

(g)

Guadalupe

The Company acquired a 100% interest in the Guadalupe claim by staking. During 2004, the Company entered into an agreement with Grid Capital Corporation ("Grid"). To earn an initial 50% interest, Grid must maintain the property in good standing, incur exploration expenditures totalling U.S.\$1,000,000 and issue 400,000 shares to the Company by June 30, 2007. Grid can increase its interest to 60% by incurring an additional \$1,000,000 of exploration expenditures and issuing a further 100,000 shares to the Company by December 31, 2008.

ALMADEN MINERALS LTD.

(An exploration stage company)

Notes to the Consolidated Financial Statements

(Expressed in Canadian dollars)

7.

MINERAL PROPERTIES (Continued)

(h)

Gallo de Oro

During 2004, the Company entered into an agreement to acquire a 100% interest in As de Oro claim. To earn its interest, the Company must pay U.S.\$50,000 plus value added tax by 2007. At December 31, 2004, U.S.\$10,000 of this obligation had been paid. The Company acquired a 100% interest in additional claims in the surrounding area by staking.

(i)

PV and Nic

The Company acquired the PV and Nic claims by staking. During 2004, the Company entered into an agreement with Consolidated Spire Ventures Ltd. ("Spire"). To earn a 60% interest, Spire must incur exploration expenditures totalling U.S.\$1,300,000 by December 31, 2007 and issue 600,000 shares to the Company by January 10, 2007.

(j)

BHP Billiton Joint Venture

On May 9, 2002, the Company entered into a joint venture agreement with BHP Billiton World Exploration Inc. ("BHP") to undertake exploration in eastern Mexico. Each company committed to fund U.S.\$200,000 of exploration in the first phase. To earn a 51% interest in any property which may be acquired, BHP must fund an initial U.S.\$1,000,000 of exploration, after which both companies are committed to fund a further U.S.\$750,000 of exploration. If either company fails to make its contribution, it would be diluted to a 2% net smelter return royalty. If both companies maintain their interest of funding, BHP can earn a further 19% interest in each project by completing a feasibility study. A final 10% interest can be earned by BHP by funding the property into production. At December 31, 2004, each company had incurred U.S.\$200,000 of exploration expenditures. BHP is reviewing the results of the first phase program. The Company is currently renegotiating the agreement with BHP which would decrease the amount of funding required to earn an interest in any properties acquired.

(k)

Other

(i)

Tropico

The Company acquired a 100% interest in the property. During 2001, Santoy Resources Ltd. ("Santoy") completed its obligations and earned a 60% interest in the property. The property is subject to a 2.25% NSR.

(ii)

Goz Creek

The Company has a 100% interest in the Goz Creek property, Yukon Territory, which is subject to a 5% net profits interest.

9.

SHARE CAPITAL (Continued)

Options

The Company has a fixed stock option plan which permits the issuance of options up to 10% of the Company's issued share capital. During 2002, the maximum number of shares reserved for issuance under this plan was increased from 1,000,000 to 2,000,000. During 2003 the maximum number of shares reserved for issuance under this plan was increased from 2,000,000 to 2,900,000. At December 31, 2004, the Company has no reserved stock options that may be granted. The exercise price of an option cannot be less than the closing price of the common shares on the Toronto Stock Exchange on the day immediately preceding the grant of the option and the maximum term of all options is ten years. The Company also has stock options outstanding relating to the period before the introduction of the fixed stock option plan.

The Board of Directors determines the term of the option (to a maximum of five years) and the time during which any option may vest. All options granted during 2004 vested on the date granted.

The following table presents the outstanding options as of December 31, 2004, 2003 and 2002 and changes during the years ended on those dates:

2004	2003	2002
Weighted	Weighted	Weighted
Average	Average	Average
Exercise	Exercise	Exercise

Edgar Filing: ALMADEN MINERALS LTD - Form 6-K

ALMADEN MINERALS LTD.**(An exploration stage company)****Notes to the Consolidated Financial Statements****(Expressed in Canadian dollars)****12.****SEGMENTED INFORMATION**

The Company operates in one reportable operating segment, being the acquisition and exploration of mineral resource properties.

The Company's revenues arose primarily from gold sales, interest income on corporate cash reserves and revenue from mineral properties. The Company has long-lived assets in the following geographic locations:

	2004	2003	1999
Canada	\$3,586,578	\$2,606,115	\$1,595,968
Mexico	1,428,793	2,066,081	4,155,173
	\$5,015,371	\$4,672,196	\$5,751,141

The Company earns revenue in the following geographic locations as determined by the location of their mineral properties:

	2004	2003	2002
Canada	\$185,080	\$110,230	\$122,538
Mexico	57,816	-	-
	\$242,896	\$110,230	\$122,538

13.

FINANCIAL RISK

The Company is exposed to financial risk arising from fluctuations in foreign exchange rates and the degree of volatility of these rates. The Company does not use derivative instruments to reduce its exposure to foreign currency risk.

14.

FAIR VALUE

The Company's financial instruments include cash and cash equivalents, accounts receivable, marketable securities and accounts payable and accrued liabilities. The fair values of these financial instruments approximate their carrying values.

ALMADEN MINERALS LTD.**(An exploration stage company)****Notes to the Consolidated Financial Statements****(Expressed in Canadian dollars)****15.****INCOME TAXES**

The Company's Canadian income tax rate is approximately 35.6% (2003 - 37.6%; 2002 - 39.6%) while the Mexico income tax rate is approximately 35%. The provision for income taxes differs from the amounts computed by applying the statutory rates to the loss before tax provision due to the following:

	2004	2003	2002
Statutory rate	0.4%	0.4%	0.4%
Income taxes recovered at the Canadian statutory rate	\$1,212,600	\$425,000	\$1,207,300
Effect of lower tax rates in foreign jurisdiction	(200)	(1,200)	(3,900)
Non-deductible expenses	(440,000)	(83,000)	(61,000)
Tax losses not recognized in period benefit arose	(434,000)	(340,800)	(1,142,400)
	\$338,400	\$-	\$-

The approximate tax effects of each type of temporary difference that gives rise to future tax assets are as follows:

	2004	2003
Future income tax assets		
Operating loss carryforwards	\$2,302,000	\$2,241,000
Canadian exploration expenditures and foreign exploration and development costs in excess of book value of resource properties	2,831,600	3,616,000
Impairment of long-term investment	21,800	21,800

Undeducted capital cost allowance on property, plant and equipment	93,000	71,000
	5,248,400	5,949,800
Valuation allowance	(5,248,400)	(5,949,800)
Future income taxes, net	\$-	\$-

At December 31, 2003, the Company had operating loss carryforwards available for tax purposes in Canada and Mexico of \$6,549,000 which expire between 2005 and 2014.

ALMADEN MINERALS LTD.

(An exploration stage company)

Notes to the Consolidated Financial Statements

(Expressed in Canadian dollars)

16.

COMMITMENTS AND CONTINGENCIES

(a)

The Company was assessed additional mineral tax of \$197,233 plus interest of \$84,638 by the British Columbia Ministry of Energy and Mines (the "Ministry"). The assessment relates to the deductibility of certain expenditures between February 1, 1995 and January 31, 1997. While management intends to defend its position, the outcome of this issue is uncertain. In order to reduce the exposure to interest charges, the Company paid \$281,871. This amount will be refunded with interest if the Company is successful in defending its position.

In addition, should the Company be unsuccessful in defending its position, approximately \$353,000 will be payable in respect of gold sales in fiscal 2000 to 2002. The Company has provided for the liability arising from the assessment. Any recovery will be credited to operations when received.

(b)

The Company has, in the normal course of business, entered into various long-term contracts which include commitments for future operating payments for the rental of premises as follows:

2005	\$37,260
2006	37,260
2007	37,260
2008	37,260
2009	3,105

\$152,145

(a)

Canadian GAAP allows exploration costs and costs of acquiring mineral rights to be capitalized during the search for a commercially mineable body of ore. Under US GAAP, exploration expenditures can only be deferred subsequent to the establishment of mining reserves. For US GAAP purposes, the Company therefore expensed its exploration expenditures.

ALMADEN MINERALS LTD.

(An exploration stage company)

17.

DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (Continued)

(b)

During 2003, the Company adopted the fair value based method of accounting under Canadian GAAP for stock-based compensation, as described in Notes 2 (j) and 3, with retroactive application with restatement of the prior year's income statement. Statement of Financial Accounting Standards ("SFAS") No. 148, *Accounting for Stock-based Compensation - Transition and Disclosure*, issued by the United States Financial Accounting Standards Board ("FASB") provides alternative methods of transition for entities that voluntarily change to the fair value based method of accounting and amends the disclosure provisions of SFAS No. 123, *Accounting for Stock-based Compensation*. For US GAAP purposes, the Company has adopted SFAS No. 123 prospectively as of January 1, 2003. As a result, the stock option compensation expense recognized in 2002 under Canadian GAAP has been reversed for US GAAP purposes.

Prior to 2002, in accordance with SFAS No. 123 and Accounting Principles Board Opinion No. 25, which specifies use of the intrinsic value method, since stock options were granted at the quoted market value of the Company's common shares at the date of grant, no compensation cost was recognized by the Company under US GAAP.

Had the fair value assigned to the stock options granted during the year ended December 31, 2002 been charged to net earnings, the net loss for US GAAP purposes for the year ended December 31, 2002 would have been \$2,571,917 while the basic and diluted loss per share would remain unchanged. The weighted average assumptions used for this calculation are consistent with those disclosed in Note 9.

Under Canadian GAAP, the measurement of the recorded stock-based compensation, as well as the assumptions and methodology, are consistent with those prescribed by SFAS No. 123.

ALMADEN MINERALS LTD.**(An exploration stage company)****Notes to the Consolidated Financial Statements****(Expressed in Canadian dollars)**

17.

DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (Continued)*(c)*

In May 1993, the FASB issued SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities* ("SFAS No. 115"). Under SFAS No. 115, management determines the appropriate classification of investments in debt and equity securities at the time of purchase and re-evaluates such designation as of each balance sheet date. Under SFAS No. 115, equity securities and long-term investments are classified as available-for-sale securities and accordingly, is required to include the net unrealized holding gain on these securities in other comprehensive income. SFAS No. 130, *Reporting Comprehensive Income*, establishes standards for the reporting and display of comprehensive income and its components (revenue, expenses, gains and losses) in a full set of general purpose financial statements. Details would be disclosed as follows:

	2004	2003	2002
Net loss under US GAAP	\$(3,779,947)	\$(2,000,721)	\$(2,409,917)
Other comprehensive (loss) income			
Adjustment to unrealized			
(losses) gains on			
available-for-sale securities	(223,350)	718,451	119,530
Comprehensive loss under			
US GAAP	\$(4,003,297)	\$(1,282,270)	\$(2,290,387)

(d)

Under Canadian GAAP, future income taxes are calculated based on enacted or substantially enacted tax rates applicable to future years. Under US GAAP, only enacted rates are used in the calculation of future income taxes. This difference in GAAP did not result in a difference in the financial position, results of operations or cash flows of the Company for the years ended December 31, 2004, 2003 and 2002.

(e)

Under Canadian income tax legislation, a company is permitted to issue shares whereby the company agrees to incur qualifying expenditures and renounce the related income tax deductions to the investors. The Company has accounted for the issue of flow-through shares using the method in accordance with Canadian GAAP. At the time of issue, the funds received are recorded as share capital. For US GAAP, the premium paid in excess of the market value is credited to other liabilities and included in income as the qualifying expenditures are made. There was no premium on the flow-through shares issued for all periods presented.

Also, notwithstanding whether there is a specific requirement to segregate the funds, the flow through funds which are unexpended at the consolidated balance sheet dates are considered to be restricted and are not considered cash or cash equivalents under US GAAP. As at December 31, 2004, unexpended flow through funds were \$370,172 (2003 - \$393,481).

ALMADEN MINERALS LTD.

(An exploration stage company)

Notes to the Consolidated Financial Statements

(Expressed in Canadian dollars)

17.

DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (Continued)

(f)

Recent accounting pronouncements

In May 2003, the FASB issued Statement No. 150 ("SFAS No. 150"), *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*. SFAS No. 150 establishes standards for classifying and measuring as liabilities certain financial instruments that embody obligations of the issuer and have characteristics of both liabilities and equity. SFAS No. 150 represents a significant change in practice in the accounting for a number of financial instruments, including mandatorily redeemable equity instruments and certain equity derivatives. SFAS No. 150 is effective for all financial instruments created or modified after May 31, 2003, and to other instruments as of September 1, 2003. The Company has not issued any financial instruments that fall under the scope of SFAS No. 150 and the adoption of this statement did not have a material impact on the Company's financial position or results of operations.

In April 2003, SFAS No. 149, *Amendment of Statement 133 on Derivative Instruments and Hedging Activities*, was issued. In general, this statement amends and clarifies accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS No. 133. This statement is effective for contracts entered into or modified after June 30, 2003, and for hedging relationships designated after June 30, 2003. As the Company has no derivative transactions the impact of the adoption of SFAS No. 149 had no effect on its consolidated financial position or results of operations.

In January 2003, the FASB issued FIN No. 46, *Consolidation of Variable Interest Entities, an interpretation of ARB No. 51*. FIN No. 46 requires certain variable interest entities to be consolidated by the primary beneficiary of the

entity if the equity investors in the entity do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. FIN No. 46 is effective for all new variable interest entities created or acquired prior to February 1, 2003, the provisions of FIN No. 46 must be applied for the first interim or annual period beginning after June 15, 2003. The adoption of FIN No. 46 had no effect on the Company's financial position or results of operations.

During 2004, EITF formed a committee ("Committee") to evaluate certain mining industry accounting issues, including issues arising from the application of SFAS No. 141, *Business Combinations* ("SFAS No. 141") to business combinations within the mining industry and the capitalization of costs after the commencement of production, including deferred stripping.

ALMADEN MINERALS LTD.

(An exploration stage company)

Notes to the Consolidated Financial Statements

(Expressed in Canadian dollars)

17.

DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (Continued)

(f)

Recent accounting pronouncements (continued)

In March 2004, the EITF reached a consensus, based upon the Committee's deliberations and ratified by the FASB, that mineral interests conveyed by leases should be considered tangible assets. On April 30, 2004, the FASB issued a FASB Staff Position ("FSP") amending SFAS No. 141 and SFAS No. 142 to provide that certain mineral use rights are considered tangible assets and that mineral use rights should be accounted for based on their substance. The FSP is effective for the first reporting period beginning after April 29, 2004, with early adoption permitted. The Company does not expect that the adoption of this statement will have a material impact on the Company's financial position or results of operation.

The Emerging Issues Task Force ("EITF") reached a consensus, Issue No 04-2, *Whether Mineral Rights are Tangible or Non-Tangible Assets*. The conclusion is that mineral rights are tangible assets and should be amortized over the productive life of the asset. Previously, mineral rights were regarded as intangible assets and were amortized over their life on a straight-line basis. The Company has adopted this new guidance with effect from 2004 on a prospective basis with no effect to the Company's reported financial position or results of operation.

The EITF published Issue No. 04-03, *Mining Assets: Impairment and Business Combinations*. The consensus provided guidance with respect to commodity prices and value attributable to mineral resources other than proven and probable reserves to be used in the conduct of impairment tests and in the allocation of purchase price arising from a business combination. The Company has applied EITF Issue No. 04-03 when performing the impairment review conducted at December 31, 2004.

(Expressed in Canadian dollars)

17.

DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (Continued)

(f)

Recent accounting pronouncements (continued)

During 2004, deliberations began on EITF Issue No. 04-6, *Accounting for Stripping Costs Incurred during Production in the Mining Industry*. In the mining industry, companies may be required to remove overburden and other mine waste materials to access mineral deposits. The costs of removing overburden and waste materials are often referred to as "stripping costs." During the development of a mine (before production begins), it is generally accepted in practice that stripping costs are capitalized as part of the depreciable cost of building, developing, and constructing the mine. Those capitalized costs are typically amortized over the productive life of the mine using the units-of-production method. A mining company may continue to remove overburden and waste materials, and therefore incur stripping costs, during the production phase of the mine. Questions have been raised about the appropriate accounting for stripping costs incurred during the production phase, and diversity in practice exists. In response to these questions, the EITF has undertaken a project to develop an Abstract to address the questions and clarify the appropriate accounting treatment for stripping costs under US GAAP. The EITF issued EITF 04-6, *Accounting for Stripping Costs in the Mining Industry*, which recommends that stripping costs are considered development costs that should be recognized as investments in the mine. The Company is currently evaluating the impact, if any, the adoption of EITF 04-6 will have on the Company's financial position or results of operation.

During 2004, EITF Issue No. 03-1, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*, was issued and establishes guidance to be used in determining when an investment is considered impaired, whether that impairment is other than temporary, and the measurement of an impairment loss. The Company does not expect that the adoption of this statement will have a material impact on the Company's financial position or results of operation.

Financial Statement Request Form

In accordance with the rules of National Instrument 51-102 "Continuous Disclosure Obligations", effective March 30, 2004, a reporting issuer must send annually a request form to the registered holders and to the beneficial owners of its securities, that the registered holders and beneficial owners may use to request a copy of the reporting issuer's annual financial statements and Management Discussion & Analysis ("MD & A"), the interim financial statements and MD & A, or both. Please complete the form below if you wish to receive the statement(s) this year.

You will not automatically receive copies of the financial statement(s) unless this card is completed and returned. Copies of all previously issued annual and quarterly financial statements and related MD & A are available to the public on the SEDAR website at www.sedar.com.

To use electronic methods for communication between issuers and their shareholders, we are requesting that you provide us with your email address and consent to electronic delivery. **In order to provide your consent, please complete our Consent to Electronic Delivery form at www.pctc.com/PCTCPortal/Public/ConsentForm.aspx.**

Holders that return this card in the mail and have requested delivery of statements via email must at some time prior to the mailing, complete the Consent Form at the above noted URL, or the statements will be sent via mail.

I, the undersigned, certify that I am the owner of the securities (other than debt instruments) of the Company shown below, and request that my name be placed on the Company's Mailing List in respect of its quarterly and/or annual financial statements and MD & A for the **ensuing financial year**.

GENERAL MEETING OF SHAREHOLDERS OF

ALMADEN MINERALS LTD.

(Name of Company)

TO BE HELD AT 1550 - 1185 West Georgia Street, Vancouver, B.C. V6E 4E6

(Location of Meeting)

ON Wednesday May 18, 2005 AT 10:00 AM

(Day of week)

(Month/day)

(Year)

(Time of Meeting)

Edgar Filing: ALMADEN MINERALS LTD - Form 6-K

The undersigned member ("Registered Shareholder") of the Company hereby appoints, Duane Poliquin, a Director of the Company, or failing this person, James E. McInnes, a Director of the Company, or in the place of the foregoing, _____, as proxyholder for and on behalf of the Registered Shareholder with the power of substitution to attend, act and vote for and on behalf of the Registered Shareholder in respect of all matters that may properly come before the aforesaid meeting of the Registered Shareholders of the Company (the "Meeting") and at every adjournment thereof, to the same extent and with the same powers as if the undersigned Registered Shareholder were present at the said Meeting, or any adjournment thereof.

The Registered Shareholder hereby directs the proxyholder to vote the securities of the Company recorded in the name of the Registered Shareholder as specified herein.

The undersigned Registered Shareholder hereby revokes any proxy previously given to attend and vote at said Meeting.

REGISTERED HOLDER SIGN HERE: _____

DATE SIGNED: _____

Resolutions (For full details of each item, please see the enclosed Notice of Meeting and Information Circular)

	For	Against	Withhold
1.			
Appointment of Deloitte & Touche LLP as auditors of the Company		N/A	
2.			
To authorize the Directors to fix the Auditors' remuneration			N/A
3.			N/A
To determine the number of Directors at seven (7)			
4.		N/A	
To elect as Director, Duane Poliquin			
5.		N/A	
To elect as Director, James E. McInnes			
6.		N/A	
To elect as Director, Morgan Poliquin			
7.		N/A	
To elect as Director, Joseph Montgomery			
8.		N/A	

To elect as Director, Jack McCleary	
9.	N/A
To elect as Director, Gerald Carlson	
10.	N/A
To elect as Director, Donald M. Lorimer	
11.	N/A
Approve the resolution re: amended stock option plan	
12.	N/A
Approve the resolution re: Notice of Articles	
13.	N/A
Approve the resolution re: Authorized Capital	
14.	N/A
Approve the resolution re: Adoption of Articles	

THIS PROXY MUST BE SIGNED AND DATED.

SEE IMPORTANT INSTRUCTIONS ON REVERSE.

INSTRUCTIONS FOR COMPLETION OF PROXY

1.

This Proxy is solicited by the Management of the Company.

2.

This form of proxy ("Instrument of Proxy") ***must be signed by you, the Registered Shareholder***, or by your attorney duly authorized by you in writing, or, in the case of a corporation, by a duly authorized officer or representative of the corporation; and ***if executed by an attorney, officer, or other duly appointed representative***, the original or a notarial copy of the instrument so empowering such person, or such other documentation in support as shall be acceptable to the Chairman of the Meeting, must accompany the Instrument of Proxy.

3.

If this Instrument of Proxy is not dated in the space provided, authority is hereby given by you, the Registered Shareholder, for the proxyholder to date this proxy seven (7) calendar days after the date on which it was mailed to you, the Registered Shareholder, by Pacific Corporate Trust Company.

4.

A Registered Shareholder who wishes to attend the Meeting and vote on the resolutions in person, may simply register with the scrutineers before the Meeting begins.

5.

A Registered Shareholder who is not able to attend the Meeting in person but wishes to vote on the resolutions, may do the following:

(a)

appoint one of the management proxyholders named on the Instrument of Proxy, by leaving the wording appointing a nominee as is (i.e. do not strike out the management proxyholders shown and do not complete the blank space provided for the appointment of an alternate proxyholder). Where no choice is specified by a Registered Shareholder with respect to a resolution set out in the Instrument of Proxy, a management appointee acting as a proxyholder will vote the resolution as if the Registered Shareholder had specified an affirmative vote;

OR

(b)

appoint another proxyholder, who need not be a Registered Shareholder of the Company, to vote according to the Registered Shareholder's instructions, by striking out the management proxyholder names shown and inserting the name of the person you wish to represent you at the meeting in the space provided for an alternate proxyholder. If no choice is specified, the proxyholder has discretionary authority to vote as the proxyholder sees fit.

6.

The securities represented by this Instrument of Proxy will be voted or withheld from voting in accordance with the instructions of the Registered Shareholder on any poll of a resolution that may be called for and, if the Registered Shareholder specifies a choice with respect to any matter to be acted upon, the securities will be voted accordingly. Further, if so authorized by this Instrument of Proxy, the securities will be voted by the appointed proxyholder with respect to any amendments or variations of any of the resolutions set out on the Instrument of Proxy or matters which may properly come before the Meeting as the proxyholder in its sole discretion sees fit.

7.

If a Registered Shareholder has submitted an Instrument of Proxy, *the Registered Shareholder may still attend the Meeting and may vote in person*. To do so, the Registered Shareholder must record his/her attendance with the scrutineers before the commencement of the Meeting and revoke, in writing, the prior votes.

To be represented at the Meeting, voting instructions *must be DEPOSITED* at the office of "PACIFIC CORPORATE TRUST COMPANY" no later than

forty eight ("48") hours (excluding Saturdays, Sundays and holidays) prior to the time of the Meeting, or adjournment thereof.

The mailing address of Pacific Corporate Trust Company is 625 Howe Street, 10th Floor, Vancouver, British Columbia, V6C 3B8, and its fax number is (604) 689-8144.

ONLY REGISTERED HOLDERS ARE ABLE TO COMPLETE TELEPHONE VOTING AT 1-888-Tel-Vote
(1-888-835-8683) OR

INTERNET VOTING AT <http://www.stocktronics.com/webvote>

GENERAL MEETING OF SHAREHOLDERS OF

ALMADEN MINERALS LTD.

(Name of Company)

TO BE HELD AT 1550 -1185 West Georgia St., Vancouver, B.C. V6E 4E6

(Location of Meeting)

ON Wednesday, May, 18, 2005, AT 10:00 AM

(Day of week) (Month/day/Year) (Time of Meeting)

To our securityholders:

We are sending to you the enclosed proxy-related materials that relate to a meeting of the holders of the series or class of securities that are held on your behalf by the intermediary identified below. Unless you or someone on your behalf attends the meeting as a proxyholder, your securities can be voted only by management, as proxyholder of the registered holder, in accordance with your instructions.

We are prohibited from voting these securities on any of the matters to be acted upon at the meeting without your specific voting instructions. In order for these securities to be voted at the meeting, it will be necessary for us to have your specific voting instructions. Please complete and return the information requested in this form to provide your voting instructions to us promptly.

Should you wish to attend and vote at the meeting or have someone else attend and vote at the meeting on your behalf, please complete the reverse side of this form.

Resolutions (For full details of each item, please see the enclosed Notice of Meeting and Information Circular)

For Against Withhold

1.

Appointment of Deloitte & Touche LLP as auditors of the Company

N/A

2.

Edgar Filing: ALMADEN MINERALS LTD - Form 6-K

To authorize the Directors to fix the Auditors' remuneration N/A

THIRD NEW (2004) GOLD DISCOVERY IN SOUTHERN BC

Further to its press releases of JAN 21/05 & FEB 11/05 concerning the SAM and MERIT prospects, respectively, Almaden Minerals Ltd. (Almaden) is pleased to announce the discovery of a third new epithermal gold vein prospect during 2004 in southern British Columbia. This prospect is called the Nicoamen River property, which includes the ZAK mineral claims comprising about 1850 hectares or 18.5 sq. km. The claims were acquired by staking, and are 100% owned by Almaden. They are accessible by good forestry roads which link with the Trans-Canada Highway near the communities of Boston Bar and Lytton, BC. The property is underlain dominantly by the same Cretaceous volcanic belt which hosts similar mineralization on the SAM, MERIT, and Prospect Valley (PV) claim blocks. Collectively, the numerous mineral occurrences covered by these four properties herald the emergence of a new epithermal district in a mature mining region that has excellent infrastructure.

The initial ZAK claims (32 units) were staked to cover multi-element silt geochemical anomalies and mineral occurrences located by Almaden personnel in 2003 and 2004, during follow-up of a regional gold stream sediment anomaly. Low sulphidation type epithermal quartz vein float and bedrock occurrences were found near a major fault structure which cuts through volcanics and adjacent altered granitic rocks.

Twelve of 16 rock grab samples, consisting of composite quartz float fragments, have returned gold analyses ranging from 257 ppb (0.25 g/t) to 55,526 ppb (55.5 g/t) with coincident elevated to strongly anomalous values of arsenic +- antimony +- mercury +- molybdenum. A recent check of the high gold analysis (55,526 ppb) by fire assaying the reject portion of this sample has reported **64.87 g/t Au** (or 1.892 oz/t Au). The silver assay from this same sample is 6.0 g/t (or 0.175 oz/t).

Six soil samples collected at 25-metre spacing over a 130-metre long alteration zone exposed in an old roadcut have yielded anomalous gold values of 26 to 94 ppb. Five grab samples of angular quartz vein rubble collected along the base of this zone have returned gold analyses ranging from 257 ppb to 1604 ppb, with an average value of 739 ppb (0.74 g/t Au). The high grade (64.87 g/t Au) float sample described above was collected approximately 600 metres distant from this alteration zone, along the projected trend of the local fault structure. The banded chalcedony vein rubble sampled at the base of the alteration zone included fragments up to 24 centimetres (~9 1/2 inches) in width.

Forty stream sediment samples collected in and around the property area have identified additional gold, arsenic, and antimony anomalies which remain to be examined.

All samples collected on the property to date were prepared and tested by Acme Analytical Laboratories in Vancouver, BC using conventional ICP-MS and fire assay techniques. The field programs were designed and conducted by or under the supervision of Edward Balon, P. Geo., who is the qualified person for this project under the meaning of National Instrument 43-101.

Almaden considers the very preliminary results from the Nicoamen River discovery to be extremely encouraging, and a work program for 2005 is planned.

For additional information, please contact Duane Poliquin, President (604) 689-7644.

On behalf of the board of directors

ADuane Poliquin@

Duane Poliquin, President

Miscellaneous Project Updates

ATW Diamond Project, Canada

Almaden Minerals Ltd. (Almaden), along with Williams Creek Explorations Ltd. (Williams Creek) have together purchased for cash Santoy Resources Ltd.'s (Santoy) 20% interest in the North West Territories corporation ATW, which owns a 75% interest in the ATW diamond property in the MacKay Lake area, Northwest Territories. This leaves Almaden and Williams Creek each with a net 37 1/2 % interest in the project. The remaining 25% is held by Aberex Ltd. (15% working interest) and Southernera Resources Ltd. (10% working interest). The property covers the likely source area of a significant indicator mineral train that is known to be at least 20 kilometers long. Past microprobe work on these indicator minerals identified G10 garnets and other minerals that are interpreted to have been derived from at least one kimberlite source that is also interpreted to be at least moderately diamond-bearing (see Almaden's March 22, 2002 news release). Till sampling efforts in the past have narrowed the indicator mineral source area to roughly 1 by 1.5 kilometers in size. This work was also confirmed by abrasion studies carried out on the indicator minerals, indicated a very local source. Last year this reduced area was covered by electromagnetic, magnetic and gravity ground geophysical surveys. These surveys identified several subtle targets within the interpreted indicator mineral source area. A bathymetric survey of the lake bottom in this area has been recommended in order to give better control for the gravity results. This survey will be completed in the coming summer in preparation for diamond drilling the targets in the field season (February to April) of 2006.

Mor, Caribou Creek and Cabin Lake Properties, Yukon

Almaden acquired these three properties by staking. Kobex Resources Ltd. (Kobex), which optioned these three properties in 2003 (See Almaden news release of September 2, 2003), has returned the Caribou Creek and Cabin Lake properties to Almaden. Kobex has informed Almaden that it never visited the Caribou Creek and Cabin Lake properties, but did carry out a diamond drill program in the summer of 2004 on the Mor property in which Kobex has retained its right to earn an interest through spending and share payment to Almaden. Almaden has received a report from Kobex prepared by C. Downie, P. Geo., the qualified person on the project under the meaning of National Instrument 43-101, on work completed last summer on the Mor property. Kobex carried out a two phase program on the property which included induced polarization (IP) ground geophysics in a first phase and identifying targets that were drilled in a second phase two hole, diamond drill program. These previously reported results (see table below and Almaden news release of October 29, 2004) included intersection from a newly identified zone of massive sulphides which returned anomalous base and precious metal values that are considered by Almaden to be extremely

significant and representative of a volcanogenic massive sulphide system in an area underlain by similar geology to that in the Finlayson Lake district (160 km to the northeast) where several important VMS deposits have been discovered since 1994 including the Kudz Ze Kayah and Wolverine deposits.

Results from Hole MO04001

From (m)	To (m)	Interval (m)	Copper %	Zinc %	Silver ppm	Gold ppm	Lead %

Including:							
67.30	68.00	0.70	1.23	0.37	37.65	0.50	0.12

Mr. Downie has recommended a further diamond drill program on the Mor property totaling \$247,720.00 in expenditures. The same report states:

"IP appears to be a valuable tool in defining the location of buried VMS horizons on the Mor claims. Similar surveys should be conducted on the Caribou Creek and Cabin Lake properties in areas identified as prospective by past geological and geophysical surveys."

Almaden will be seeking new joint venture partner(s) to explore the Cabin Lake and Caribou Creek properties where past geochemical and geophysical surveys carried out by Almaden identified anomalous responses in similar geology to that of the Mor prospect .

Galeana Project, Mexico

Almaden has been informed by Grid Capital Corp (Grid) that Grid is dropping its option to acquire a 60% interest in the Galeana property from Almaden. In 2004 Grid carried out a diamond drill program on the Galeana gold-silver property, located in Chihuahua State, Mexico.

The drill program, consisting of 3 diamond drill holes totaling 560 meters, tested the San Miguel Ahumada zone, one of three major vein structures on the property. All three holes intersected zones of brecciation with local zones of silicification and minor quartz veining. One hole did not reach its intended depth. The highest value was intersected in hole GAD04-05, where a 0.73 meter core interval from 129.12 meters to 129.85 meters assayed 5.01 g/t gold. The drill program was carried out under the direction of Mr. Juan Caelles, Ph.D., P.Geo., a qualified person within the meaning of National Instrument 43-101. Samples were sent to ALS Chemex Labs in North Vancouver for analysis.

The Galeana property hosts three major classic epithermal banded quartz-adularia vein systems, the San Miguel-Ahumada-Estrella de Oro, the Faldo Norte and the San Geronimo. All have had limited historic production prior to the Mexican revolution when all mining activity ceased. Mapping, sampling and alteration mineralogic and petrographic analyses of the veins in the Galeana area has resulted in the interpretation that the exposed veins represent a high level within the original hydrothermal system. This interpretation coupled with the identification of high gold grades in fragments found in breccia bodies identified as part of the Miguel Ahumada vein system, suggest that the potential to identify high grade gold and silver ore shoots in the veins may increase with depth. Almaden has not yet received a report of the drilling activities from Grid. At this time it is not understood why the drilling failed to intersect banded vein material identified in shallow historic workings, however the holes may not have been long enough to intersect steeply dipping structures.

In a news release made April 22, 2004, Grid announced the results of prospecting on the Galeana which included those from high-grade gold-silver mineralization in epithermal quartz-carbonate float found in the area of the Estrella de Oro vein structure. The area is located 2 kilometers to the south along the projected strike extent of the Ahumada Zone and was not drilled by Grid. The highest assay was returned from sample No. 1519 which assayed 96.9 g/t (3.11oz/ton) gold and >100 g/t (3.2oz/ton) silver. A second piece of float from the same area, sample No. 1518,

assayed 18.85 g/t (0.61oz/ton) gold and 98.8 g/t (3.18oz/ton) silver. Detailed prospecting and mapping program to determine the source of the high- grade boulders was never carried out.

Upon receiving a report Almaden will review the drilling results and the all the data collected to date to determine how to proceed with the Galeana project.

ON BEHALF OF THE BOARD OF DIRECTORS

"J. Duane Poliquin, P. Eng."

J. Duane Poliquin, President

www.almadenminerals.com

New Mexican Ag-Pb-Zn Project Acquired by Staking

Almaden Minerals Ltd. (Almaden) is pleased to announce that it has acquired by staking a 100% interest in the Santa Isabela property. The property covers a roughly 14,000 hectare area and is located in Coahuila State, Mexico. The project was identified in a regional helicopter-borne prospecting program and covers an a low-lying ridge located within 50 kilometers of the large Penasquito Ag-Pb-Zn deposit owned by Western Silver Corporation and the historic Concepcion del Oro polymetallic mining camp.

The Santa Isabela property is road accessible and covers an area of structurally controlled jasperoid replacement silicification and calcite veining traceable over 700 meters in outcrop and developed within a package of limestones. To date twenty four samples have been taken of oxidized jasperoid and calcite veined limestone returning zinc values up to 11.95% and averaging 4.68%, lead values up to 7.33% and averaging 1.94% and silver values up to 172 g/t and averaging 34.8 g/t.

Preliminary soil geochemical and induced polarization (IP) geophysical surveys were conducted along three lines, approximately 1 km long established at roughly 500 m intervals perpendicular to the ridge. Seventy-four soil samples were collected along the lines at 25 m spacings within the arc of the ridge and at 50 m intervals along the flats at its base. The strongest response for lead, zinc and silver was obtained from the central line. A continuous series of samples representing a width of 150 m yielded lead values >250 ppm (to 1.78%), zinc values >300 ppm (to 2.10%) and silver values >1 g/t (to 17.1 g/t). The preliminary pole-dipole IP survey identified a broad chargeability high that was most prominent on one line with chargeability values over 40 mV/V. This response likely indicates the presence of significant sulphides at depth.

Silver-lead-zinc mineralization at the Santa Isabela property is thought to represent the upper levels of a potentially much larger mineralized carbonate replacement (CRD) system at depth, likely identified by the IP survey described above. Although the work at the Santa Isabela property to date is preliminary in nature, it has identified an interesting and prospective CRD style target. Grades associated with the mineralization sampled are consistent with CRD style mineralization from the districts within the Mexican CRD Belt. The most notable of which is the nearby Concepcion del Oro mining district which is thought to have produced in excess of 40 Mt reportedly grading 12.8% Zn, 5.8% Pb, 275 g/t Ag, up to 1.5 g/t Au and up to 1.5% Cu. Western Silver Corporation has recently released a new resource estimate for its Penasquito deposit, located immediately west of the Concepcion del Oro camp, with a total measured and indicated sulphide resource of 309.75 Million tonnes grading 31.56 g/t Ag, 0.31% Pb and 0.78% Zn.

Samples were collected under the supervision of Bill Wengzynowski, P.Eng., president of the consulting firm Archer Cathro and Associates (1981) Ltd., and Morgan Poliquin, M.Sc., P.Eng., a director of Almaden, and the qualified person on the project under the meaning of National Instrument 43-101. Samples were analysed at ALS Chemex Labs of North Vancouver, B.C., using conventional fire assay, and inductively coupled plasma atomic emission spectroscopy (ICP).

Almaden currently has **11** active joint ventures, including **7** in which other companies are carrying all costs in order to earn an interest in the projects. Almaden will continue with its successful business model of identifying exciting new projects through early stage grass roots exploration and managing risk by forming joint ventures in which partner companies explore and develop our projects in return for the right to earn an interest in them. Almaden is seeking a joint venture partner to advance the Santa Isabela property under similar terms to those of its present joint venture agreements.

ON BEHALF OF THE BOARD OF DIRECTORS

"Morgan J. Poliquin"

Morgan J. Poliquin, M.Sc., P.Eng.

www.almadenminerals.com

Update: Exploration Joint Venture, Mexico

Almaden Minerals Ltd. (Almaden) is pleased to announce that it has signed two amendments in order to extend its agreement with BHP Billiton World Exploration Inc. (BHP Billiton) to carry out grass roots exploration in a portion of Mexico for copper-gold deposits. The terms of the agreement outline two separate phases dependant upon success in the first phase.

The first phase of work is focused on grassroots exploration with Almaden as operator and consists of a minimum of US\$50,000 to be spent in the first year of the joint venture. If both Almaden and BHP Billiton agree to acquire any properties discovered, BHP Billiton will have the option to carry out US\$750,000 of work on each such property in order to earn a 51% interest in that property. After BHP Billiton has completed this expenditure each property would enter a joint-venture phase of exploration during which both Almaden and BHP Billiton would contribute US\$750,000 for a total of US\$1,500,000. If one party fails to contribute to this phase, it would be diluted to a 2% net smelter return royalty. After this joint-venture stage is complete and if both parties have maintained their interests by funding, BHP Billiton can then elect to earn an additional 19% interest, for a total of 70% in each project, by completing a feasibility study not to exceed US\$25 Million for each project. A final 10% interest can be earned if BHP Billiton funds the property into production.

Since signing the original agreement in May, 2003, Almaden and BHP Billiton, under the operator ship of Almaden, have spent US\$400,000 on a regional exploration program that covered a large area of Mexico considered prospective for copper-gold deposits. This program resulted in the identification of a smaller area where copper-gold mineralization has been identified that is considered highly prospective for porphyry copper-gold systems. This new smaller area is now the area of influence for the ongoing joint venture and is the focus of the new exploration program. This program will consist of geochemical stream sediment sampling and prospecting and will begin immediately.

As part of the new agreement BHP Billiton has relinquished any and all rights to six projects identified and staked by Almaden during the original exploration program. These properties include the Santa Isabela and Candy Ag-Pb-Zn prospects, Coahuila State, the Saby and Fierro Au prospects in San Luis Potosi State and the Zapotec and Tuligtic Au-Ag and Au-Ag-Cu prospects in Puebla State. All projects are now held 100% by Almaden. Results and future plans for these projects will be reported by Almaden in the near future.

The agreement with BHP Billiton has helped Almaden to aggressively pursue an already successful generative grassroots exploration program for copper-gold deposits in an area with little modern exploration. Almaden has been active in Mexico since the favourable changes in foreign investment legislation in 1991. Since that time Almaden has

had one of its projects reach production and has formed numerous joint ventures to explore properties acquired. At present Almaden has five active joint ventures in Mexico. [BHP Billiton is the world's largest diversified natural resources company. Created in June 2001 through the Dual Listed Companies merger of Australian listed BHP Limited and UK listed Billiton Plc, BHP Billiton occupies industry leader, or near leader positions in major commodity businesses including aluminium, energy coal, metallurgical coal, copper, ferro-alloys, iron ore and titanium minerals. BHP Billiton also has substantial interests in oil, gas, liquefied natural gas, nickel, diamonds and silver. BHP Billiton employs around 35,000 people in more than 20 countries and is headquartered in Melbourne, Australia.]

INFORMATION CIRCULAR

as at and dated April 4, 2005

(unless otherwise noted)

PERSONS OR COMPANIES MAKING THE SOLICITATION

The Enclosed Proxy is Being Solicited by Management of The Company

This Information Circular is furnished in connection with the solicitation of proxies by the management of **Almaden Minerals Ltd.** (the "Company") for use at the annual general meeting (the "Meeting") of the Company to be held on **May 18, 2005**, and at any adjournment thereof. The solicitation will be by mail and possibly supplemented by telephone or other personal contact to be made without special compensation by regular officers and employees of the Company. The Company does not reimburse shareholders, nominees or agents for the cost incurred in obtaining from their principals authorization to execute forms of proxy. No solicitation will be made by specifically engaged employees or soliciting agents. The cost of solicitation will be borne by the Company. No director of the Company has informed management in writing that he or she intends to oppose any action intended to be taken by management at the meeting.

APPOINTMENT AND REVOCATION OF PROXY

The persons named in the enclosed form of proxy are directors or officers of the Company.

A SHAREHOLDER HAS THE RIGHT TO APPOINT SOME OTHER PERSON (WHO NEED NOT BE A SHAREHOLDER) TO REPRESENT THE SHAREHOLDER AT THE MEETING BY STRIKING OUT THE NAMES OF THOSE PERSONS NAMED IN THE ACCOMPANYING FORM OF PROXY AND BY INSERTING SUCH OTHER PERSON'S NAME IN THE BLANK SPACE PROVIDED IN THE FORM OF PROXY OR BY COMPLETING ANOTHER FORM OF PROXY.

IF THE INSTRUCTIONS AS TO VOTING INDICATED THEREIN ARE CERTAIN, THE SHARES REPRESENTED BY THE PROXY SOLICITED HEREBY WILL BE VOTED OR WITHHELD FROM VOTING IN ACCORDANCE WITH SUCH INSTRUCTIONS. WHERE NO CHOICE IS SPECIFIED IN RESPECT OF ANY MATTER TO BE ACTED UPON, THE PROXY CONFERS ON THE PROXY HOLDER DISCRETIONARY AUTHORITY WITH RESPECT TO SUCH MATTER AND IF ONE OF MANAGEMENT'S NOMINEES NAMED IN THE ATTACHED FORM OF PROXY IS APPOINTED AS PROXY HOLDER, THE SHARES REPRESENTED BY SUCH PROXY SHALL BE VOTED FOR SUCH MATTER. IN THE EVENT THAT AMENDMENTS OR VARIATIONS TO THE MATTERS IDENTIFIED IN THE NOTICE OF MEETING ARE PROPERLY BROUGHT BEFORE THE MEETING, THE

PROXYHOLDER WILL VOTE IN ACCORDANCE WITH THEIR BEST JUDGEMENT ON SUCH MATTERS. AT THE DATE OF THIS CIRCULAR, MANAGEMENT KNOWS OF NO SUCH AMENDMENT, VARIATION OR OTHER MATTER WHICH MAY BE PRESENTED TO THE MEETING.

SEE ALSO THE FORM OF PROXY FOR INSTRUCTIONS AS TO USE OF TELEPHONE AND INTERNET VOTING.

The instrument of proxy, and the power of attorney or other authority, if any, under which it is signed or a notarially certified copy thereof, must be deposited at the office of the registrar and transfer agent of the Company, Pacific Corporate Trust Company, 830 -625 Howe Street, Vancouver, B.C. V6C 3B8, not less than 48 hours, Saturdays, Sundays and holidays excepted, prior to the scheduled time of the Meeting or any adjournment thereof.

Any shareholder returning the enclosed form of proxy may revoke it at any time if it has not been exercised. In addition to revocation in any other manner permitted by law, a proxy may be revoked by instrument in writing executed by a member or his attorney authorized in writing or, if the shareholder is a corporation, by a duly authorized officer or attorney thereof, and deposited either at the registered office of the Company or the registrar and transfer agent of the Company at least 24 hours prior to the scheduled time of the Meeting or any adjournment thereof, or with the Chairman of the Meeting at the scheduled commencement of the Meeting or any adjournment thereof, and upon either of such deliveries the proxy is revoked.

NON-REGISTERED HOLDERS

Only registered shareholders or duly appointed proxyholders are permitted to vote at the Meeting. Most shareholders of the Company are "non-registered" shareholders because the shares they own are not registered in their names but are instead registered in the name of the brokerage firm, bank or trust company through which they purchased the shares. More particularly, a person is not a registered shareholder in respect of shares which are held on behalf of that person (the "Non-Registered Holder") but which are registered either: (a) in the name of an intermediary (an "Intermediary") that the Non-Registered Holder deals with in respect of the shares including, among others, banks, trust companies, securities dealers or brokers and trustees or administrators of self-administered RRSP's, RRIF's, RESPs and similar plans); or (b) in the name of a clearing agency (such as The Canadian Depository for Securities Limited ("CDS") of which the Intermediary is a participant. In accordance with the requirements of applicable securities law, the Company has distributed copies of the Notice of Meeting, this Information Circular and the form of proxy accompanying this Information Circular (collectively, the "Meeting Materials") to the clearing agencies and Intermediaries for onward distribution to Non-Registered Holders.

Intermediaries are required to forward the Meeting Materials to Non-Registered Holders unless a Non-Registered Holder has waived the right to receive them. Very often, Intermediaries will use service companies to forward the Meeting Materials to Non-Registered Holders. Generally, Non-Registered Holders who have not waived the right to receive Meeting Materials will either:

(a)

be given a form of proxy **which has already been signed by the Intermediary** (typically by a facsimile, stamped signature), which is restricted as to the number of shares beneficially owned by the Non-Registered Holder but which is otherwise not completed. Because the Intermediary has already signed the form of proxy, this form of proxy is not required to be signed by the Non-Registered Holder when submitting the proxy. In this case, the Non-Registered Holder who wishes to submit a proxy should otherwise properly complete the form of proxy and **submit it to the Company, c/o Pacific Corporate Trust Company, 830-625 Howe Street, Vancouver, B.C. V6C 3B8** or

(b)

more typically, be given a voting instruction form **which is not signed by the Intermediary**, and which, when properly completed and signed by the Non-Registered Holder and **returned to the Intermediary or its service company**, will constitute voting instructions (often called a "proxy authorization form") which the Intermediary must follow. Typically, the proxy authorization form will consist of a one page pre-printed form. Sometimes, instead of the one page pre-printed form, the proxy authorization form

will consist of a regular printed proxy form accompanied by a page of instructions which contains a removable label containing a bar-code and other information. In order for the form of proxy to validly constitute a proxy authorization form, the Non-Registered Holder must remove the label from the instructions and affix it to the form of proxy, properly complete and sign the form of proxy and return it to the Intermediary or its service company in accordance with the instructions of the Intermediary or its service company.

In either case, the purpose of this procedure is to permit Non-Registered Holders to direct the voting of the shares which they beneficially own. **Should a Non-Registered Holder who receives one of the above forms wish to vote at the Meeting in person, the Non-Registered Holder should strike out the persons named in the form and insert the Non-Registered Holder's name in the blank space provided. In either case, Non-Registered Holders should carefully follow the instructions of their Intermediary, including those regarding when and where the proxy or proxy authorization form is to be delivered.**

INTEREST OF CERTAIN PERSONS IN MATTERS TO BE ACTED UPON

None of the directors or executive officers of the Company, no management nominee for election as a director of the Company, none of the persons who have been directors or executive officers of the Company since the commencement of the Company's last completed financial year, and no associate or affiliate of any of the foregoing has any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any matter, other than the election of directors or the appointment of auditors, to be acted upon at the Meeting other than as disclosed under the heading "Statement of Executive Compensation".

VOTING SHARES AND PRINCIPAL HOLDERS THEREOF

The Company is authorized to issue 100,000,000 common shares without par value. There is one class of shares only. There are issued and outstanding 31,172,767 Common Shares as at April 4, 2005.

The directors of the Company have determined that all shareholders of record as of April 13, 2005 will be entitled to receive notice of and to vote at the Meeting. At a general meeting of the Company, on a show of hands, every member present in person and entitled to vote will have one vote and on a poll, every member present in person or represented by proxy or other proper authority will have one vote for each share of which such member is the registered holder.

To the knowledge of the directors and senior officers of the Company, no person beneficially owns, or exercises control or direction over, more than 10% of the outstanding Common Shares of the Company.

ELECTION OF DIRECTORS

Each director of the Company is elected at each annual general meeting and holds office until the next annual general meeting unless that person ceases to be a director before then. In the absence of instructions to the contrary, the enclosed proxy will be voted for the nominees listed below, all of whom are presently members of the Board of Directors.

MANAGEMENT DOES NOT CONTEMPLATE THAT ANY OF THE NOMINEES WILL BE UNABLE TO SERVE AS A DIRECTOR. IF, PRIOR TO THE MEETING, ANY VACANCIES OCCUR IN THE SLATE OF NOMINEES LISTED BELOW, IT IS INTENDED THAT DISCRETIONARY AUTHORITY WILL BE EXERCISED BY THE PERSON NAMED IN THE PROXY AS NOMINEE TO VOTE THE SHARES REPRESENTED BY PROXY FOR THE ELECTION OF ANY OTHER PERSON OR PERSONS AS DIRECTORS.

The members will be asked to pass an ordinary resolution to set the number of directors of the Company at seven (7) for the ensuing year, subject to such increases as may be permitted by the Articles of the Company. Management of the Company proposes to nominate each of the following persons for election as director. Information concerning such persons, as furnished by the individual nominees, is as follows:

Name and Present Office Held	Director / Officer Since	Number of Shares Beneficially Owned, Directly or Indirectly, or over which Control or Direction is Exercised *	Principal Occupation During the Past Five Years
DUANE POLIQUIN Director and President Chief Executive Officer	February 1, 2002	1,661,174	Registered Professional Geological Engineer; President, Director and CEO of the Company
JAMES E. McINNES⁽¹⁾ Director	February 1, 2002	404,060	Businessman; Director of the Company; President and Director of Horseshoe Gold Mining Inc; President and Director of Williams Creek Explorations Limited
JOHN (JACK) McCLEARY⁽²⁾ Director	February 1, 2002	188,650	Registered Professional Geologist; President and Director of Troymin Resources Ltd. to April 2003; Director of Santoy Resources Ltd. (formerly Troymin Resources Ltd.)

CORPORATE CEASE TRADE ORDERS OR BANKRUPTCIES

To the knowledge of the directors and officers of the Company, no proposed director of the Company:

(a)

is, as at the date of this information circular or has been, within the 10 years before the date of this information circular, a director or executive officer of any company, that, while the person was acting in that capacity:

(i)

was the subject of a cease trade or similar order that denied the relevant company access to any exemption under securities legislation, for a period of more than 30 consecutive days;

(ii)

was subject to an event that resulted, after the director or executive officer ceased to be a director or executive officer, in the company being the subject of a cease trade or similar order or an order that denied the relevant company access to any exemption under securities legislation, for a period of more than 30 consecutive days; or

(iii)

or within a year of that person ceasing to act in that capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets; or

(b)

has, within the 10 years before the date of this information circular, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or become subject to or instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold his assets.

STATEMENT OF EXECUTIVE COMPENSATION

See Form 51-102F6 attached to this Information Circular as Schedule A.

SECURITIES AUTHORIZED FOR ISSUE UNDER EQUITY COMPENSATION PLANS

There are no equity compensation plans of the Company.

INDEBTEDNESS OF DIRECTORS AND EXECUTIVE OFFICERS

Aggregate Indebtedness

None of the directors or executive officers of the Company, proposed nominees for election as directors of the Company, and no associates or affiliates of any of them, is or has been indebted to the Company or its subsidiaries nor is there indebtedness to any other entity where the indebtedness is the subject of a guarantee, support agreement, letter of credit or similar arrangement provided by the Company or any of its subsidiaries at any time since the beginning of the last completed financial year and no indebtedness remains outstanding as at the date of this Information Circular.

Indebtedness Under Securities Purchase and Other Programs

None of the directors or executive officers of the Company, proposed nominee for election as directors of the Company, and no associate or affiliates of any of them is or has been indebted the Company or any of its subsidiaries under any Securities Purchase or other programs.

DIRECTORS' AND OFFICERS' INDEMNITY AND INSURANCE

The Company has contracted with each director and officer to indemnify each of them against liability incurred in their capacity as an officer or director to the extent permitted in accordance with the provisions of the *Business Corporations Act (British Columbia)*. The Company has not obtained any insurance coverage for such indemnity.

MANAGEMENT CONTRACTS

No management functions of the Company or any of its subsidiaries are to any substantial degree performed other than by the directors or executive officers of the Company or subsidiary.

No pension plan or retirement benefit plans have been instituted by the Company and none are proposed at this time.

Termination of Employment, Changes in Responsibilities and Employment Contracts

The Company has no employment contract with the Named Executive Officers nor any compensatory plan, contract or arrangement where the Named Executive Officers are entitled to receive any money from the Company or its subsidiaries in the event of the resignation, retirement or any other termination of the Named Executive Officers' employment with the Company and its subsidiaries, a change in control of the Company or any of its subsidiaries or a change in the Named Executive Officers' responsibilities following a change in control.

INTEREST OF INFORMED PERSONS IN MATERIAL TRANSACTIONS

No person or company beneficially holding more than 10% of the outstanding voting securities of the Company, no proposed nominee for election as a director of the Company and no associate or affiliate of any of the foregoing, has any material interest, direct or indirect, in any transaction since the commencement of the Company's last financial year or in any proposed transaction, which, in either case, has materially affected or will materially affect the Company or any of its subsidiaries other than as disclosed under the headings "Statement of Executive Compensation" or as a potential grantee of an option or options under the Amended Plan referenced under the Heading "Proposed Amendment to Stock Option Plan".

APPOINTMENT OF AUDITOR

Unless otherwise instructed, the proxies given pursuant to this solicitation will be voted for the re-appointment of Deloitte & Touche LLP, Chartered Accountants, British Columbia, as auditors of the Company to hold office until the close of the next annual general meeting of the Company. It is proposed that the Board of Directors be authorized to fix the remuneration to be paid to the auditor of the Company. Deloitte & Touche LLP was appointed the Company's auditors in February 2002.

PARTICULARS OF MATTERS TO BE ACTED UPON

Proposed Amendment to Stock Option Plan

The TSX, effective January 1, 2005, adopted a number of amendments to the TSX Company Manual (referred to herein as the "TSX Amendments"), including amendments with respect to the TSX's policies and requirements regarding security based compensation arrangements. The TSX Amendments permits, among other things, "rolling maximum" or "evergreen" plans which fix a maximum number of shares issuable thereunder as a percentage of the issued and outstanding securities. The Company's present Option Plan was created with the approval (effective December 20, 2001) of the shareholders of the predecessor companies, became effective at the time of the listing of the Company's shares on the TSX (as an amalgamated company) and was limited to 1,000,000 shares (the "Plan"). At the Company's 2002 AGM (June 28, 2002), the Plan was amended to increase the number of options to purchase shares of the Company to 2,000,000 shares. At the annual general meeting of the Company (June 4, 2004) the Plan was further amended to increase the number of shares on which options could be granted to 2,900,000 shares. Both amendments were approved by disinterested shareholder vote and approved by the TSX.

Under the prior policies of the TSX, "disinterested shareholder vote", is a majority of votes cast at the meeting other than votes attached to securities beneficially owed by insiders and affiliates of insiders of the Company to whom shares may be issued pursuant to such grants, and associates of such persons, if the grants of stock options to insiders

of the Company together with any other proposed stock options or stock option plans (among other things) involving the issuance or potential issuance of shares of the Company to one or more employees, insiders of the Company or any of its subsidiaries or any other person or company engaged to provide ongoing management or consulting services for the Company or any entity controlled by the Company, could result, at any time, in:

(a)

the number of shares reserved for issuance pursuant to stock options granted to insiders of the Company exceeding 10% of the outstanding issue;

(b)

the issuance to insiders, within a one-year period, a number of shares exceeding 10% of the outstanding issue; and, or

(c)

the issuance to any one insider and such insider's associates, within a one-year period, of a number of shares exceeding 5% of the outstanding issue.

(collectively, the "Limitations").

The Plan does not contain the Limitations, accordingly, at the meeting, the shareholders approval of the Plan by was, on creation and for each amendment, by disinterested shareholder vote.

In order to update and restate the Plan in light of the TSX Amendments, the Board resolved to approve an amendment to the Plan (the "Amended Plan"), subject to appropriate shareholder and regulatory approval. The proposed Amended Plan changes the maximum number of Common Shares which may be issued from the current fixed maximum number of 2,900,000 Common Shares to a fixed maximum percentage of 10% (the "Percentage Limit") of the Common Shares issued and outstanding from time to time.

Among the objectives of the Amended Plan is to provide directors, officers, employees and service providers of the Company and its subsidiaries with a proprietary interest in the Company through the grant of options to purchase Common Shares of the Company. By the grant of such options, the Company intends to increase the interest in the Company's welfare of those directors, officers, employees and service providers who share the responsibility for the management, growth and protection of the business of the Company, to furnish an incentive to such directors, officers, employees and service providers to continue their services for the Company and to provide a means through and by which the Company may attract able persons to join the board, management and employment by the Company.

In making the decision to adopt and recommend to the shareholder the approval of the Amended Plan the Board considered a number of factors including the availability of option to attract and continue to retain and motivate qualified directors and employees and the number of options currently outstanding under the current Plan. Under the current Plan, options to the maximum of the 2,900,000 shares (which, represents 9.3% of the issued and outstanding shares of the Company as at the date of this information circular) have been granted. There are therefore no further shares available for grant of options under the Plan. Of the options granted, options to acquire 110,000 shares have, as of the date of this Information Circular, been exercised.

Based on a review of these factors the Board determined that adoption of the Amended Plan is reasonable and in the best interests of the Company. The Board is of the view that the use of a maximum percentage of the issued and outstanding Common Shares (rather than a fixed maximum number) will ensure that a reasonable percentage of Common Shares are available for the grant of options by taking into account future issuances of Common Shares.

Under the Amended Plan the Board or a Committee of the Board may by resolution grant options to directors, officers, employees and service providers of the Company, provided that the maximum number of Common Shares reserved for issuance upon the exercise of the options granted under the Amended Plan, together with any shares reserved for issuance under the Plan cannot exceed the Percentage Limit. For greater certainty, in the event options (whether granted under the Plan or the Amended Plan) are exercised, the Board may grant an equivalent number of new options under the Amended Plan and thus the Company may continue to grant options under the Plan even after the Amended Plan has received shareholder and regulatory approval. Subject

to the Percentage Limit, there is no maximum percentage of shares which may be granted under option to any person including Insiders of the Company except as follows:

(i)

the number of Shares reserved for issuance pursuant to options to any one consultant shall not exceed 2% of the issued Shares in any 12-month period, and

(iii)

the aggregate number of Shares reserved for issuance pursuant to options to persons employed to provide investor relations activities shall not exceed 2% of the issued Shares in any 12-month period;

There are no vesting restrictions except under options granted to consultants performing investor relations activities where such options shall vest in stages over 12 months with no more than 1/4 of such options vesting in any 3 month period.

No financial assistance will be granted by the Company to optionees to exercise options granted under the Plan or Amended Plan.

Except as to a Qualified Successor or as otherwise permitted by applicable securities laws, Options are non-assignable and non-transferable. "Qualified Successor" means a person who is entitled to ownership of an Option upon the death of an Optionee, pursuant to a will or the applicable laws of descent and distribution upon death or a "permitted assign" as that term is defined in MI 45-105;

Under the Amended Plan the exercise price of the options shall be not less than the "Market Price" of the Common Shares at the date of granting such options. "Market Price" shall mean the volume weighted average trading price of the Common Shares on the TSX, calculated by dividing the total value by the total volume of Common Shares traded, for the five trading days immediately preceding the day on which the option is granted. In the event that the Common Shares did not trade on the TSX during the said five days, Market Price shall mean the weighted average trading price of the Common Shares on the TSX for the thirty trading days immediately preceding the day on which the option is granted.

The maximum period during which an option may be exercised is five years from the date of grant. The options may be exercised in whole or in part at any time during the term of the option.

Under the Amended Plan upon an optionee's employment with the Company being terminated for cause, any option not exercised terminates immediately. If an optionee is a director and is removed from office, any option not exercised terminates immediately. If an optionee becomes permanently disabled or dies, any option may be exercised for a period of twelve months after the date of permanent disability or death. If an optionee's employment, office, term as a director, or service provider relationship is ended or expires other than by termination for cause, such option may be exercised for a period of thirty days after such ending.

In the event of the Company proposes to amalgamate, merge or consolidate with or into any other company (other than with a wholly owned subsidiary of the Company) or to liquidate, dissolve or wind up, or in the event an offer to purchase the Common Shares of the Company or any part thereof shall be made to all the holders of Common Shares of the Company, the Company shall have the right, upon written notice to each optionee holding options under the Amended Plan, to permit the exercise of all such options within the 30 day period next following the date of such notice and to determine that upon expiration of such 30 day period that all rights of the optionees to such options or to exercise same (to the extent not theretofore exercised) shall terminate and to

have no force and effect. No option shall be assignable except to a Qualified Successor (as defined in the Amended Plan agreement).

The Amended Plan contains a provision that amendments to the Amended Plan do not require shareholder approval or the approval of the participants therein, provided that such amendment shall not alter or impair any option previously granted under the Amended Plan, except as permitted to give effect to certain adjustments, and that such amendment has been approved by the TSX.

The TSX Amendments require that all unallocated options under the Amended Plan be approved by the Board of Directors, including a majority of the unrelated directors) and the shareholders every three years after the institution of the Amended Plan. Shareholder approval must be by way of a duly called meeting (rather than by the written consent of an appropriate number of shareholders) and Insiders entitled to receive a benefit under the Amended Plan are not eligible to vote unless the Common Shares issued and issuable to Insiders of the Company under the Plan and the Amended Plan could not exceed 10% of the Company's total issued and outstanding Common Shares ("Insider Restriction").

The Amended Plan is subject to TSX approval The TSX has been asked to conditionally approve the Amended Plan subject to ratification by the shareholders at the Meeting as herein set forth. Such ratification and confirmation requires approval by resolution passed by a majority of the votes cast by the holders of Common Shares, present or represented by proxy, and entitled to vote on such resolution. On the consideration of such resolution, by reason of the Insider Restrictions, Insiders will not be entitled to vote. To the knowledge of the Company, 2,757,890 shares of the Company are beneficially owned by Insiders (and their associates and affiliates) of the Company and are subject to Insider Restrictions.

Accordingly, shareholders will be asked to consider, and if deemed advisable, to confirm and ratify, with or without amendment, the following resolution:

"RESOLVED as an ordinary resolution that

1.

the maximum number of common shares of the Company (the "Common Shares") that may be issued under the Company's stock option plan be amended from the current fixed maximum number of 2,900,000 (the "Plan") to a fixed maximum percentage of 10 % of the Common Shares issued and outstanding from time to time pursuant to recent amendments to the Toronto Stock Exchange ("TSX") Company Manual which amendments became effective as of January 1, 2005 and which permit "evergreen plans";

2.

the directors of the Company are hereby authorized to make such other amendments to the Plan as the directors of the Company may, in their sole discretion, determine are necessary, desirable or useful as a consequences of the amendment set out above in paragraph 1 (the "Amended Plan") including, without limiting the generality thereof, authority, from time to time, to make amendments to the Amended Plan without approval of or further authority from the shareholders;

3.

the directors of the Company are hereby authorized and directed to execute and deliver an Amended Plan giving effect to the amendments authorized in paragraphs 1 and 2, in such form as the directors of the Company may in their

sole discretion approve, such approval to be evidenced conclusively by the director's execution of the Amended Plan;

4.

that any one officer or director of the Company be authorized for and on behalf of the and in the name of the Company to do all such acts and to execute and deliver, whether under corporate seal or otherwise, all such documents, instruments and writings as in his sole secretion are necessary or desirable to give effect to the foregoing resolutions; and

5.

notwithstanding the passage of this resolution by the shareholders, the directors of the Company are hereby authorized and empowered without further notice to or approval of the shareholders of the Company not to proceed with the Amended Plan."

The Board recommends that shareholder vote FOR the approval of the resolution ratifying and confirming the Amended Plan. The persons named in the proxy enclosed intend to vote at the Meeting for the approval of the resolution unless otherwise directed by the shareholders appointing them.

If the resolution is not passed or if the Amended Plan does not receive regulatory approval, the Amended Plan will not become effective.

TRANSITION UNDER THE *BUSINESS CORPORATIONS ACT (B.C.)*, INCREASE IN AUTHORIZED CAPITAL AND ADOPTION OF NEW ARTICLES

On March 29, 2004 the *Business Corporations Act* S.B.C. 2002, c. 57 (the "New Act") was adopted in British Columbia replacing the *Company Act* (the "Former Act"). The New Act makes the laws governing British Columbia corporations similar to those contained in corporate legislation elsewhere in Canada and provides shareholders with a greater choice of effective governance structures.

The New Act requires that every company incorporated under the Former Act substitute a Notice of Articles for its Memorandum and complete this transition by March 28, 2006. Furthermore, under the New Act, certain mandatory changes are required to be made to the articles of a company incorporated under the Former Act and such a company cannot take advantage of many of the new provisions contained in the New Act until this transition is completed. After comparing the existing articles of the Company with those permitted under the New Act, the Board of Directors believes that there are advantages offered by the New Act that provide benefit to the Company and its shareholders. Accordingly, the Board of Directors has resolved to undertake the transition at this time rather than wait until March

28, 2006 and the Company is in the process of filing a Transition Application containing a Notice of Articles with the B.C. Registrar of Companies.

At the same time, shareholder approval will be sought at the Meeting to increasing the Company's authorized capital and to certain proposed alterations to the Company's Notice of Articles (the "Altered Notice of Articles") and to the adoption of a new form of Articles (the "New Articles") with a view to updating the Company's charter documents to bring them in line with the New Act and incorporating some of the new provisions of the New Act. The directors believe that altering the Company's Notice of Articles, increasing the authorized capital and adopting New Articles will enable the Company to be more efficient, flexible and cost-effective

and will bring the Company's charter documents into line with charter documents of companies in other jurisdictions.

Copies of the proposed form of Altered Notice of Articles and the New Articles are available for viewing up to the date of the Meeting at the Company's office at Suite 1103- 750 West Pender Street, Vancouver, B.C., and at the Meeting.

Deletion of Pre-Existing Company Provisions

The regulations under the New Act effectively added certain provisions, called "Pre-Existing Company Provisions" to every pre-existing company's Notice of Articles. The Pre-Existing Company Provisions provide that the number of votes required to pass a special resolution (also referred to as a special resolution under the Former Act) or a special separate resolution is at least three quarters of the votes cast by shareholders present in person or by proxy at the meeting. This is the majority that was required under the Former Act.

The New Act allows a special resolution to be passed by at least two-thirds of the votes cast by shareholders present in person or by proxy at the meeting. It has been proposed that the Company's Notice of Articles be altered to delete the Pre-Existing Company Provisions so that the provisions of the New Act permitting a two thirds majority will apply to the Company.

If Shareholders approve this resolution, special resolutions will require a two-thirds majority vote, instead of a three-quarters majority vote. Management believes that this will provide the Company with greater flexibility for future corporate activities and is consistent with companies in other jurisdictions. This resolution must be passed by not less than three-quarters of the votes cast by the shareholders present in person or by proxy at the Meeting. At the Meeting, therefore, shareholders will be asked to consider and, if thought fit, to pass, with or without amendment, the following special resolution:

"RESOLVED, as a special resolution, that:

1.

the Pre-Existing Company Provisions in the Company's Notice of Articles are deleted and no longer apply to the Company, and the Company's Notice of Articles is altered accordingly;

2.

any director or officer of the Company is hereby authorized and empowered for and in the name of and on behalf of the Company to execute and file, or cause to be filed, a Notice of Alteration to the Notice of Articles with the B.C. Registrar of Companies (British Columbia) along with all such other documents and instruments, and to do or to cause to be done all such other acts and things, as in the opinion of such director or officer may be necessary or desirable in order to carry out the intent of this special resolution; and

3.

the Board of Directors of the Company is hereby authorized, at any time in its sole discretion, to determine whether or not to proceed with this special resolution without further approval, ratification or confirmation by the shareholders."

The alteration to the Notice of Articles shall take effect immediately on the date and time the Notice of Alteration to the Notice of Articles is filed with the B.C. Registrar of Companies.

Proposed Increase in Authorized Capital

As now permitted by the New Act, the Company proposes an alteration to its Notice of Articles to increase the number of shares that the Company is authorized to issue from One Hundred Million (100,000,000) common shares without par value to an unlimited number of common shares without par value.

Management believes that having an unlimited number of common shares authorized to be issued provides the Company with greater flexibility for future corporate activities. This resolution must be passed by not less than three-quarters of the votes cast by the shareholders present in person or by proxy at the Meeting.

At the Meeting, therefore, shareholders will be asked to consider and, if thought fit, to pass, with or without amendment, the following special resolution (the "Capital Increase Resolution"):

"RESOLVED, as a special resolution, that:

(a)

the number of common shares without par value that the Company is authorized to issue is increased to an unlimited number of common shares without par value and the Company's Notice of Articles is altered accordingly;

(b)

any director or officer of the Company is hereby authorized and empowered for and in the name of and on behalf of the Company to execute and file, or cause to be filed, a Notice of Alteration to the Notice of Articles with the B.C. Registrar of Companies (British Columbia) along with all such other documents and instruments, and to do or to cause to be done all such other acts and things, as in the opinion of such director or officer may be necessary or desirable in order to carry out the intent of this special resolution; and

(c)

the Board of Directors is hereby authorized, at any time in its sole discretion, to determine whether or not to proceed with this special resolution without further approval, ratification or confirmation by the shareholders."

The alteration to the Notice of Articles shall take effect immediately on the date and time the Notice of Alteration to the Notice of Articles is filed with the B.C. Registrar of Companies.

Adoption of New Articles

The Board of Directors believes that the New Articles will provide the Company with greater flexibility for future corporate activities and will result in efficiencies and greater cost-effectiveness. The special resolution approving the New Articles must be passed by not less than three-quarters of the votes cast by the shareholders present in person or by proxy at the Meeting.

Management believes the major changes from the Company's existing Articles are:

1.

certain changes to the Notice of Articles, New Articles and share structure, described below, may be made by directors' resolution or by ordinary resolution;

2.

the directors, by directors' resolution, may approve a change of name of the Company without the necessity for shareholder approval;

3.

shareholders' meetings may be held by electronic means;

4.

shareholders' meetings may, if authorized by directors' resolution, be held in jurisdictions outside British Columbia;

5.

a special resolution will require at least two-thirds of the votes cast by shareholders in order to be passed; and

6.

the quorum for directors meetings will be a majority of the number of directors then in office.

If the New Articles are adopted by the shareholders, the Company may alter its Notice of Articles, New Articles and share structure in the following manner:

1.

by directors' resolution or ordinary resolution, as determined in each case by the directors, to:

a.

create one or more classes or series of shares and, if none of the shares of a class or series of shares are allotted or issued, eliminate that class or series of shares and alter the identifying name of any of its shares;

b.

establish, increase, reduce or eliminate the maximum number of shares that the Company is authorized to issue out of any class or series of shares;

c.

change unissued shares with par value into shares without par value or vice versa or change all or any of its fully paid issued shares with par value into shares without par value;

d.

create, attach, vary or delete special rights or restrictions for the shares of any class or series of shares, if none of those shares have been issued;

e.

subdivide all or any of its unissued, or fully issued, shares;

f.

consolidate all or any of its unissued, or fully paid issued, shares; and

g.

authorize alterations to the New Articles that are procedural or administrative in nature or are matters that, pursuant to the New Articles, are solely within the directors' powers, control or authority.

2.

If the New Act does not specify the type of resolution and the New Articles do not specify another type of resolution, by ordinary resolution or otherwise alter its shares, authorized share structure or the New Articles.

At the Meeting, therefore, shareholders will be asked to consider and, if thought fit, to pass, with or without amendment, the following special resolution:

"RESOLVED, as a special resolution, that:

1.

the existing Articles of the Company filed with the Registrar of Companies are cancelled, and the form of Articles presented to the Meeting are adopted as the Articles of the Company in substitution for, and to the exclusion of, such existing Articles;

2.

any director or officer of the Company is hereby authorized and empowered for and in the name of and on behalf of the Company to execute or cause to be executed and file or cause to be filed such documents and take such further action, including any

filings with the B.C. Registrar of Companies as may be necessary to effect the alteration and to execute, or cause to be executed, and to deliver or cause to be delivered all such other documents and instruments, and to do or to cause to be done all such other acts and things, as in the opinion of such director or officer may be necessary or desirable in order to carry out the intent of this special resolution ;and

3.

the Board of Directors of the Company is hereby authorized at any time in its sole discretion, to determine whether or not to proceed with this special resolution without further approval, ratification or confirmation by the shareholders."

If the Capital Increase Resolution is passed, the New Articles shall have effect immediately on the issue by the Registrar of Companies of the Notice of Articles reflecting the Capital Increase Resolution after the New Articles are deposited at the Company's records office. If the Capital Increase Resolution is not passed, the New Articles shall have effect immediately on the date and time the New Articles are deposited at the Company's records office.

STATEMENT OF CORPORATE GOVERNANCE PRACTICES

This Statement of Corporate Governance Practices has been prepared by the Corporate Governance Committee of the Board and has been approved by the Board.

General

The Toronto Stock Exchange ("TSX") in the Company Manual Corporate Governance Guidelines ("TSX Guidelines"), has established a series of recommended guidelines for effective corporate governance of companies listed on the TSX. The guidelines deal with matters such as the constitution and independence of corporate boards, their functions, the effectiveness and education of the board members and other matters. The TSX now requires that each listed company disclose on an annual basis its approach to corporate governance with reference to those guidelines (Schedule "B" to this circular delineates the Company's conformance to these guidelines). The Company's approach to corporate governance is set forth below.

In this Statement, the term "unrelated director" has the meaning given to the term the TSX Guidelines, namely, a director who is independent from management or free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the director's ability to act with a view to the best interests of the Company, other than interests arising from their shareholding. As well, the term "independent director" means an unrelated director who is free from any interest in or relationships with any significant shareholder of the Company or any affiliate of a "significant shareholder" (that is, a shareholder with the ability to exercise the majority of the votes for the election of the directors attached to the outstanding shares of the corporation).

Corporate Governance

The Company's Board and management are committed to the highest standards of corporate governance. The Company's corporate governance practices are in accordance with the TSX Guidelines. The Company is also cognizant of and compliant with various corporate governance requirements in Canada and is in compliance with applicable U.S. requirements.

The Company's prime objective in directing and managing its business and affairs is to enhance shareholder value. The Company views effective corporate governance as a means of improving corporate performance and accordingly of benefit to the Company and all shareholders.

In accordance with recommendations in National Policy 51-201 the Company has adopted a Corporate Communications Policy.

The Company also believes that director and management honesty and integrity are essential factors in ensuring good and effective corporate governance. To that end the Company's directors have adopted code of ethics for the Company, its directors and its Chief Executive Officer and Chief Financial Officer. The Code of Ethics may be viewed on the Company's website at www.almadenminerals.com.

Mandate of the Board

The mandate of the Board is to supervise the management of the business and affairs of the Company and to act with a view to the best interests of the Company. In fulfilling its mandate, the Board, among other matters, is responsible for:

3

(i)

adoption of a strategic planning process for the Company;

(ii)

identification of the principal risks of the Company's business and ensuring the implementation of the appropriate systems to manage these risks;

(iii)

succession planning for the Company including appointing, training and monitoring senior management;

(iv)

a communications policy for the Company; and

(v)

the integrity of the Company's internal control and management information systems.

In the fiscal year ended December 31, 2004 there were seven meetings of the Board. The frequency of meetings as well as the nature of agenda items change, depending upon the state of the Company's affairs and in light of opportunities or risks which the Company is subject to.

In carrying out its mandate, the Board relies primarily on management and its employees to provide it with regular detailed reports on the operations of the Company and its financial position. Certain members of management are also on the Board and provide the Board with direct access to information concerning their areas of responsibility. Management personnel are also regularly asked to attend Board meetings to provide information, answer questions and receive the direction of the Board. The reports and information provided to the Board enable them to monitor and manage the risks associated with the Company's operations and its compliance with legal and safety requirements, environmental issues and the financial position and liquidity of the Company. At least annually the Board prepares a strategic plan for implementation by management.

The Board discharges its responsibilities directly and through committees. At regularly scheduled meetings, members of the Board and management discuss the broad range of matters and issues relevant to the Company's business interests and the Board is responsible for the approval of the Company's Strategic Plan. In addition, the Board receives reports from management on the Company's operational and financial performance. Between scheduled meetings, matters requiring Board authorization is effected by means of signed Consent Resolutions.

Board Assessment

The Governance Committee reports to the Board annually on the evaluation of the Board's performance and that of the individual directors. The Performance of the Chief Executive Officer is evaluated by the Governance Committee

Composition of the Board

The TSX Guidelines recommend that a board of directors be constituted with a majority of individuals who qualify as "unrelated directors". The TSX Guidelines also recommend that the Board should also include a number of independent directors which fairly reflect the investment in the Company by shareholders other than any significant shareholders.

In deciding whether a particular director is a "related director" or an "unrelated director", the Board examined the factual circumstances of each director and considered them in the context of many factors. In this regard, the definitions in the TSX Guidelines are broad and, in some cases, difficult to apply. The proposed Board is composed of seven members. The Board believes that 6 directors would be considered "unrelated directors", and Duane Poliquin is a "related director", within the meaning of the TSX Guidelines.

Accordingly, the Board is constituted with a majority of individuals who qualify as "unrelated directors" within the meaning of the TSX Report.

Proportionate Representation

The Company does not have a controlling or significant shareholder. The Board believes that the membership on the Board fairly reflects the investment in the Company by minority shareholders.

The Board considers its size and composition to be appropriate and effective for carrying out its responsibilities. However, the Board may consider adding an additional director if a suitable candidate can be found who may bring additional experience or knowledge to the Board.

Board Committees

The Board currently has two committees: the Audit Committee and the Corporate Governance Committee.

All of the members of the committees have been determined by the Board to be unrelated directors, such determination being made in accordance with the TSX Guidelines, taking into consideration any relationship an individual director may have with the Company and if such relationship could be perceived to materially interfere with the director's ability to act with a view to the best interest of the Company. Mandates of each of the committees will undergo review to bring them into line with any new Canadian and U.S. governance requirements as these requirements are finalized and determined by the Board to be applicable and appropriate to the Company and its operations. Any revisions to the mandates will be available on the Company's website at www.almadenminerals.com.

Audit Committee

The members of the Audit Committee are Messrs. Donald Lorimer, James E. McInnes and Gerald Carlson, The committee is responsible for reviewing the Company's financial reporting procedures, internal controls and the performance of the Company's external auditors. In addition, that committee is also responsible for reviewing the

annual financial statements prior to their approval by the full Board and is available for consultation by management or the Auditors of the Company. The Audit Committee has met two (2) times this year. The Audit Committee Charter is annexed as Schedule "C".

Audit Fees

For the year ended December 31, 2004, the Company's external auditor charged the Company \$39,500 plus GST in audit fees (\$36,000 plus GST for the year ended December 31, 2003).

Audit Related Fees

N/A

Tax fees

For the year ended December 31, 2004, tax fees were \$2,000 (\$6,500 for the year ended December 31, 2003).

All Other Fees

For the year ended December 31, 2004, fees for the preparation of foreign affiliate reporting forms were \$1,000 (2003 - \$0) and fees for advice relating to mining expenditures for claiming BC flow-through share tax credits and mining tax credit were \$500 (2003 - \$0).

Corporate Governance Committee

Members of the Corporate Governance Committee are Messrs. Donald Lorimer, Jack McCleary and Morgan Poliquin. That committee was responsible for making recommendations to the Board with respect to developments in the area of corporate governance, the practices of the Board, and appropriate candidates for nomination to the Board, and for evaluating the performance of the Board and the Chief Executive Officer.

Decisions Requiring Board Approval

In addition to those matters which must by law be approved by the Board, management is also required to seek Board approval for any major acquisition, disposition or expenditure. Management is also required to consult with the Board before entering into any venture which is outside of the Company's existing line of business.

Changes in officers are to be approved by the Board including changes in officers of the Company's principal operating subsidiaries.

Other

The Company considers its orientation and education program for new directors to be an important element of ensuring responsible corporate governance. In addition to extensive discussions with existing directors and the President with respect to the business and the operations of the Company, new directors will, if they so request, receive a record of historical public information on the Company together with the mandates and prior minutes of the applicable board and committees of the Board. In addition, meetings with the directors are regularly held at the Company's locations in order to assist the directors in better understanding the Company's operations.

In certain circumstances it may be appropriate for an individual director to engage an outside advisor at the expense of the Company. The engagement of the outside advisor would be subject to the approval of the Corporate Governance Committee.

Investor Relations

Senior management of the Company receives and responds to shareholder enquiries. Shareholder enquiries and concerns are dealt with promptly by senior management of the Company. To date the Board has not needed to take an active role in responding to shareholder enquiries and concerns.

Communications, Insider Trading, Confidential Information and Disclosure Policies

The Board is committed to an effective communications policy with all stakeholders including shareholders and members of the investment community and to complying with all applicable laws, regulations and policies. The Board or the Audit committee reviews in advance all press releases which disclose financial results.

In accordance with the recommendations of the TSX and the Canadian Securities Administrators, the Company has also established policies on whistle blowing procedures, insider trading and the confidential treatment of information.

6

MANAGEMENT IS NOT AWARE OF ANY OTHER MATTER TO COME BEFORE THE MEETING OTHER THAN AS SET FORTH IN THE NOTICE OF MEETING. IF ANY OTHER MATTER PROPERLY COMES BEFORE THE MEETING, IT IS THE INTENTION OF THE PERSONS NAMED IN THE ENCLOSED FORM OF PROXY TO VOTE THE SHARES REPRESENTED THEREBY IN ACCORDANCE WITH THEIR BEST JUDGMENT ON SUCH MATTER.

ADDITIONAL INFORMATION

The Company's financial information is included in the consolidated financial statements of the Company and the notes thereto, Management Discussion and Analysis and auditor's report for the financial year ended December 31, 2004.

Additional information relating to the Company can be found at www.sedar.com. A copy of the following documents may be obtained, without charge, upon request to the Chief Executive Officer of the Company at 1103-750 West Pender Street Vancouver B.C. V6C 2T8 Phone (604) 689-7644 Fax (604) 689-7645

SCHEDULE "A"

Form 51-102F6

STATEMENT OF EXECUTIVE COMPENSATION

Summary Compensation Table

The following table sets forth the compensation paid by the Company to the President and Chief Executive Officer and the Chief Financial Officer in 2004, (collectively, the "Named Executive Officers") for services rendered to the Company for the periods indicated.

Summary Compensation Table

Named Executive Officer ("NEO")

NEO Name and Principal Position	Year	Annual Compensation			Long Term Compensation			All Other Compensation (\$)
		Salary (\$)	Bonus (\$)	Other Annual Compensation (\$)	Securities Under Options/ SARs Granted (#)	Awards Shares or Units Subject to Resale Restrictions (\$)	Payouts LTIP ⁽³⁾ Payouts (\$)	
Duane Poliquin	2004	Nil	Nil	Nil	236,000	Nil	Nil	110,400
CEO	2003	Nil	Nil	Nil	Nil	Nil	Nil	110,400
(since Feb 1, 2002)	2002	Nil	Nil	Nil	375,000	Nil	Nil	102,000
Dione Bitzer	2004	Nil	Nil	Nil	100,000	Nil	Nil	55,637

CFO	2003	Nil	Nil	Nil	112,000	Nil	Nil	53,075
(since Feb.1, 2002)	2002	Nil	Nil	Nil	40,000	Nil	Nil	48,400

Stock Options Granted During 2004

The following table sets forth the options to purchase common shares of the Company granted during 2004 to Named Executive Officers of the Company.

Options/SAR Grants During The Most Recently Completed Financial Year

NEO Name	Securities Under Options/SARs Granted (#)	Percent of Total Options/ SARs Granted to Employees in Financial Year	Exercise or Base Price (\$/Security)	Market Value of Securities Underlying Options/SARs on the Date of Grant (\$/Security)	Expiration Date
Duane Poliquin	236,000	17%	1.67	1.71	December 14, 2009
Dione Bitzer	100,000	7%	1.67	1.71	December 14, 2009

Aggregated Option Exercises During 2004 and Option Values at December 31, 2004

The following table sets forth information in respect of the aggregate stock options exercised by the Named Executive Officers during 2004 and the value of unexercised, in-the-money options as at December 31, 2004. The actual value of the unexercised in-the-money options will be determined by the market price of the Company's common shares on the date such options are exercised by any of the Named Executive Officers. There is no assurance that the values of such in-the-money options shown in this table will be realized.

**Aggregated Options/SAR Exercises During The Most Recently Completed Financial Year And
Financial Year-End Option/SAR Values**

NEO Name	Securities, Acquired on Exercise (#)	Aggregate Value Realized (\$)	Unexercised Options/SARs at FY_End (#) Exercisable/ Unexercisable (#)	Value of Unexercised in-the-Money Options/SARs at FY-End (\$) Exercisable/ Unexercisable (\$)
Duane Poliquin	20,000	37,200	1,316,463/0	1,318,952/0
Dione Bitzer	20,000	43,000	212,000/0	99,700/0

Report on Executive Compensation

The Company does not have a compensation committee. The Board of Directors reviews the compensation of the NEOs annually following review of the performance of the Board and the CEO by the Corporate Governance Committee.

Under the terms of the stock option plan, options will be granted from time to time at the discretion of the Board of Directors. All options granted have a five year term and vest upon granting. During 2004 the NEO's were granted a total of 336,000 options.

Directors of the Company receive no fees. Directors are entitled to re-imbusement of out of pocket expenses. Pursuant to the terms of the existing stock option plan and the proposed Amended Stock Option Plan, if approved by shareholders, directors have received and are entitled to be granted options.

SCHEDULE "B"

ALMADEN MINERALS LTD.

STATEMENT OF CORPORATE

GOVERNANCE POLICIES

Pursuant to TSX Company Manual

The Corporation's corporate governance practices are compared for conformity with the TSX corporate governance disclosure guidelines.

Guideline 1

The board of directors should explicitly assume responsibility for the stewardship of the corporation.

Conform?

Yes

Comments:

The Board has responsibility for the stewardship of the business and affairs of the Corporation and ultimate accountability for the governance of the Corporation's business and management. The Board delegates to the Corporation's senior officers the responsibility for the day to day management of the Corporation, including the preparation of periodic reports. Management provides the support and information necessary to enable the Board to effectively fulfill its oversight obligations. Decisions requiring Board authorization include: the appointment and replacement of the Corporation's senior corporate officers; the issuance of securities of the Corporation, with the exception of securities issued under the Corporation's option plans; major acquisitions, dispositions' and joint venture and other arrangements for the conduct of operations on the Corporation's properties; borrowing; significant corporate policies; and the payment of dividends. The Board acts in accordance with the British Columbia Business Corporations Act, the Corporation's articles of incorporation and by-laws, the Corporation's Code of Business Conduct, the mandate of the Board and the Board committee charters, the corporate governance guidelines and other applicable laws and company policies. Copies of the Corporation's Code of Business Conduct, the corporate governance guidelines, the Board mandate and the Board committee charters can be found on the Corporation's website at www.almadenminerals.com.

Guideline 1a

The board of directors should specifically assume responsibility for the adoption of a strategic planning process.

Conform?

Yes

Comments:

The Board, directly or through its committees, has the responsibility to participate with Management in developing and approving the objectives and goals of the business, and the strategy by which it proposes to reach those goals. Strategic issues are reviewed with Management and addressed by the full

11

Board at regularly scheduled Board meetings and at meetings specifically called for this purpose. The Board reviews and approves the Corporation's strategic plan as it is developed by Management. The CEO reports to the Board on the operations of the Corporation at regularly scheduled Board Meetings. Management must seek the Board's approval for any material transaction, including any material transaction that would have a significant impact on the strategic plan of the Corporation.

Guideline 1b

The board of directors should specifically assume responsibility for the identification of the principal risks of the corporation's business and ensuring the implementation of appropriate systems to manage these risks.

Conform?

Yes

Comments:

The Board has responsibility overall to identify the principal risks of the Corporation's business. The Board, as a whole, has oversight responsibility with respect to risks related to the Corporation's practices. A number of other specific risks, such as financial controls are reviewed periodically at regularly scheduled meetings, by the Audit Committee.

Guideline 1c

The board of directors should specifically assume responsibility for succession planning, including appointing, training and monitoring senior management.

Conform?

Yes

Comments:

The Board is responsible for appointing the Chief Executive Officer and the other officers of the Corporation. The Board through the Corporate Governance Committee has an active role in identifying and assessing potential succession candidates and is responsible for approving Management's succession plans for the Chief Executive Officer and the other officers of the Corporation.

Guideline 1d

The board of directors should specifically assume responsibility for a communications policy for the corporation.

Conform?

Yes

Comments:

The Corporation has implemented a corporate communications policy which has been approved by the Board. Adequate structures are in place to ensure effective, timely and non-selective communications between the Corporation and its shareholders, the public and regulatory agencies. The Board, or the appropriate Board committee, reviews the Corporation's major communications with shareholders, the Corporation's annual and quarterly reports, the Circular, and the Annual Information Form (S.E.C. Form 20F). The Corporation's website contains information regarding the Corporations Annual and Quarterly financial statements.

Guideline 1e

The board of directors should specifically assume responsibility for the integrity of the Corporation's internal control and management information systems.

Conform?

Yes

Comments:

The Board, through review processes and the creation and appointment of various committees, has put in place an effective system to satisfy itself that the Corporation's internal control and management information systems are operating properly. The Corporation does not have an Internal auditor.

Guideline 2

The board of directors should be constituted with a majority of the individuals who qualify as "unrelated" directors.

Conform?

Yes

Comments:

As used herein, the term "unrelated director" means a director who is determined by the Board to be independent of Management and is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the director's ability to act with a view to the best interests of the Corporation, other than interests and relationships arising from shareholding. The directors have determined that with the exception of Mr. Duane Poliquin, the President and CEO of the Corporation, all of the nominees for director are unrelated directors.

Guideline 3

The application of the definition of "unrelated director" to the circumstances of each individual director should be the responsibility of the board which will be required to disclose on an annual basis whether the Board has a majority of unrelated directors. The board will also be required to disclose on an annual basis the analysis of the application of the principles supporting this conclusion.

Conform?

Yes

Comments:

The Corporation is subject to various requirements governing the independence of its Board and committee members, including the Sarbanes-Oxley Act of 2002, and as a result of being listed on the TSX. The Corporate Governance Committee has the responsibility to review annually directors' relationships with regard to potential conflicts of interest and to determine the independence of the members of the Board. As part of this assessment process, all directors are required to disclose the particulars of their external affiliations, business or family relationships, transactions and interests, including potential conflicts of interest, which could impact the director's independence. Based on the information provided by the nominees for election as directors as to their individual circumstances and applying the standards for the independence of directors set out in the corporate governance guidelines, the

Board has affirmatively determined that, with the exception of Mr. Duane Poliquin, President and CEO of the Corporation, all of the nominees for director are outside, unrelated and independent directors.

Guideline 4

The board of directors should appoint a committee of directors composed exclusively of outside directors, a majority of whom are unrelated directors, with the responsibility for proposing new nominees to the board and for assessing directors on an ongoing basis

Conform?

Yes

Comments:

The Corporation does not have a Nominating Committee. The Corporate Governance Committee is responsible for recommending nominees to the Board for eventual proposal as candidates for election or appointment as directors. Nominees must have a track record in general business management and a willingness and ability to devote the necessary time to Board matters. The Committee also seeks candidates with high personal and professional ethics, integrity and values and a commitment to represent the long-term interests of shareholders. The Corporate Governance Committee is also responsible for the evaluation process of the Board and each Board committee and reporting on such evaluation to the Board. All members of the Corporate Governance Committee are outside, unrelated and independent directors.

Guideline 5

The board of directors should implement a process for assessing the effectiveness of the board of directors as a whole, its committees and the contribution of individual directors.

Conform?

Yes

Comments:

The Board has established a review process designed to provide for periodic examinations of important governance issues such as the effectiveness of Board procedures and performance. The Corporate Governance Committee

evaluates the performance of the Board and its committees annually. The Committee reports on its evaluation to the Board. The objective of the evaluations is to ensure the continued effectiveness of the Board in the execution of its responsibilities and to contribute to a process of continuing improvement. The Corporate Governance Committee makes recommendations relative to the composition of the committees of the Board.

Guideline 6

Every corporation should provide an orientation and education program for new recruits to the board of directors.

Conform?

Yes

Comments:

New Board members are able to receive an orientation program designed to acquaint the director with the Corporation's activities and management systems. The Secretary maintains a "Director's Information Manual" comprised of key corporate governance and policy issues, as well as the Board mandate and committee charters, which is updated regularly for existing Board members and to new members. Senior Management from time to time prepares presentations to the Board on pertinent topics of interest as they relate to the Corporation's business. New Board members are given an early opportunity to visit the Corporation's operations to give them additional insight into the Corporation's business. The Corporation encourages the professional development and continuing education of its directors.

Guideline 7

Every board of directors should examine its size and undertake, where appropriate, a program to reduce the number of directors to a number which facilitates more effective decision-making.

Conform?

Yes

Comments:

The Corporate Governance Committee at least annually reviews, advises and recommends to the Board any matters concerning the size and composition of the Board, organization and responsibilities of Board committees, and the evaluation process for the Chairman and the Board. The Board, based on a recommendation from the Corporate Governance Committee, has determined that the present size of the Board is appropriate for effective decision-making. At the Annual and Special Meeting on June 4, 2004, 7 directors will stand for election.

Guideline 8

The board of directors should review adequacy and form of the compensation of directors and ensure the compensation realistically reflects the responsibilities and risk involved in being an effective director.

Conform?

Yes

Comments:

The Corporate Governance Committee reviews and recommends to the Board the amount, if any, of compensation of the Board. At least once every year the Corporate Governance Committee reviews the adequacy and form of compensation of the directors with regard to practices of comparable corporations and to ensure that the directors' compensation is aligned with the interests of the shareholders, while allowing the Corporation to attract and retain individuals having the necessary qualifications.

Guideline 9

Subject to Guideline 13, committees of the board of directors should generally be composed of outside directors, a majority of whom are unrelated directors.

15

Conform?

Yes

Comments:

All members of the Board's committees are independent, outside and unrelated directors.

Guideline 10

The board of directors should expressly assume responsibility for, or assign to a committee of directors the general responsibility for developing the corporation's approach to governance issues, including the corporation's response to the TSX corporate governance guidelines

Conform?

Yes

Comments:

The Corporate Governance Committee has the general responsibility for developing the Corporation's approach to governance issues. In 2004 the Corporate Governance Committee reviewed and revised in consultation with each Board committee, all committee charters, the Board mandate and the corporate governance guidelines. Best practices among comparable sized Canadian companies are reviewed by the Corporation to ensure that the Corporation maintains high standards of corporate governance.

Guideline 11

The board of directors, together with the Chief Executive Officer, should develop position descriptions for the board of directors and for the Chief Executive Officer, involving the definition of the limits to management's responsibilities. The board of directors should approve or develop the corporate objectives which the Chief Executive Officer is responsible for meeting.

Conform?

Yes

Comments:

The Board and the CEO have developed position descriptions for the Board and the CEO. The Board may delegate to Board committees matters the Board is responsible for, but the Board retains oversight and ultimate responsibility for delegated responsibilities. The Board has established limits to Management's responsibilities in respect of major acquisitions, dispositions and joint venture and other arrangements for the conduct of operations on the Corporation's properties, borrowing and significant corporate policies. Further details respecting the Board mandate and matters which Management is required to bring to the Board are contained in response to Guideline 1 above.

Guideline 12

The board of directors should implement structures and procedures to ensure that the board of directors can function independently of management.

Conform?

Yes

Comments:

Mr. James E. McInnes, who is the Non-Executive Chairman of the Board and is not a member of Management, chairs all Board meetings. The Corporate Governance Committee may convene

meetings of the directors without the presence of management. The Board may also choose to do so at any other time. With the exception of Mr. Duane Poliquin, the President and CEO of the Corporation, all of the nominees for director are independent and unrelated directors.

Guideline 13

The audit committee of the board of directors should be composed only of unrelated directors. The roles and responsibilities of the audit committee should be specifically defined so as to provide appropriate guidance to audit committee members as to their duties. The audit committee should have direct communication channels with the internal and external auditors to discuss and review specific issues as appropriate. The audit committee duties should include oversight responsibility for management reporting on internal control. While it is management's responsibility to design and implement an effective system of internal control, it is the responsibility of the audit committee to ensure that management has done so.

Conform?

Yes

Comments:

The Audit Committee is composed entirely of independent and unrelated directors. The Board determined the definition of "financial literacy" to be the ability to read and understand a balance sheet, an income statement and a cash flow statement. The Board determined the definition of "accounting or related financial expertise" to be the ability to analyze and interpret a full set of financial statements, including the notes attached thereto. The Board has adopted the U.S. Securities and Exchange Commission definition of "audit committee financial expert". Based on information provided by each director, the Board has determined that all members of the Audit Committee are financially literate (as that term is defined in MI 52-110), and at least one member has accounting or-related financial expertise. The Board has determined that Mr. Donald Lorimer qualifies as an "audit committee financial expert". Mr. Lorimer qualified as a Chartered Accountant with Price Waterhouse & Co. and subsequently was a financial executive with the Patino Mining Corporation and Little Long Lac Gold Mines Ltd. In 1971 he joined A.E. Ames & Co. and on his transfer to Vancouver became a director and vice president responsible for corporate and government underwriting in British Columbia. He is currently a portfolio manager with Odlum Brown Ltd. The Board has adopted a charter for the Audit Committee which sets out the roles and responsibilities of the Committee. These roles and responsibilities are defined to provide appropriate guidance to Audit Committee members as to their duties. The Audit Committee charter is available on the Corporation's website. At least once each year the Audit Committee meets alone and

separately with the senior financial officer of the Corporation and with the external auditors to review and discuss specific issues as appropriate. The Audit Committee requires Management to design and implement an effective system of internal control.

17

Guideline 14

The board of directors should implement a system which enables an individual director to engage an outside adviser at the corporation's expense, in appropriate circumstances. The engagement of the outside adviser should be subject to the approval of an appropriate committee of the board.

Conform?

Yes

Comments:

Individual directors can engage outside advisers at the expense of the Corporation with the authorization of the Corporate Governance Committee. Each Board committee charter enables the committee to retain special legal, accounting, financial or other consultants to advise the committee at the Corporation's expense. Each of the committees has the sole authority to retain and terminate any firm and to approve all fees and retention terms.

SCHEDULE "C"

Audit Committee Charter

Dated: January 28, 2004

Purpose

To assist the Board of Directors in fulfilling its oversight responsibilities for the financial reporting process, the system of internal control over financial reporting, the audit process, and the company's process for monitoring compliance with laws and regulations and the code of conduct.

Authority

The audit committee has authority to conduct or authorize investigations into any matters within its scope of responsibility. It is empowered to:

0

With the consent of the board, retain outside counsel, accountants or others to advise the committee or assist in the conduct of an investigation

0

Seek any information it requires from employees-all of whom are directed to cooperate with the committee's requests-or external parties.

0

Meet with company officers, external auditors or outside counsel, as necessary.

Composition

The audit committee will consist of at least two and no more than four members of the board of directors. The board will appoint committee members and the committee chair.

Each committee member be both independent and financially literate, as defined by applicable regulation and the board of directors. At least one member shall have expertise in financial reporting.

Meetings

The committee will meet at least once a year, with authority to convene additional meetings, as circumstances require.

All committee members are expected to attend each meeting, in person or via tele- or video-conference. The committee will invite members of management, auditors or others to attend meetings and provide pertinent information, as necessary. It will hold private meetings with auditors (see below) and executive sessions. Minutes will be prepared.

Responsibilities

The committee will carry out the following responsibilities.

Financial Statements

0

Review significant accounting and reporting issues, including complex or unusual transactions and highly judgmental areas, and recent professional and regulatory pronouncements, and understand their impact on the financial statements.

0

Review with management and the auditors the results of the audit, including any difficulties encountered.

0

Review the annual financial statements, and consider whether they are complete, consistent with information known to committee members, and reflect appropriate accounting principles.

0

Review other sections of the annual report before release and consider the accuracy and completeness of the information.

0

Review with management and the auditors all matters required to be communicated to the board under generally accepted auditing standards.

0

Understand how management develops interim financial information, and the nature and extent of auditor involvement.

0

Review interim financial reports with management before filing with regulators, and consider whether they are complete and consistent with the information known to committee members.

19

Internal Control

0

Consider the effectiveness of the company's internal control over annual and interim financial reporting, including information technology security and control

0

Understand the scope of auditors' review of internal control over financial reporting, and obtain reports on significant findings and recommendations, together with management's responses.

Audit

0

Review the auditors' proposed audit scope and approach

0

Review the performance of the auditors, and exercise final approval on the appointment or discharge of the auditors

0

Review and confirm the independence of the auditors by obtaining statements from the auditors on relationships between the auditors and the company, including nonaudit services, and discussing the relationships with the auditors

0

On a regular basis, meet separately with the auditors to discuss any matters that the committee or auditors believe should be discussed privately

Compliance

0

Review the effectiveness of the system for monitoring compliance with laws and regulations and the results of management's investigation and follow-up (including disciplinary action) of any instances of noncompliance

0

Review the findings of any examinations by regulatory agencies, and any auditor observations

0

Review the process for communicating the code of conduct to company personnel, and for monitoring compliance therewith

0

Obtain regular updates from management and company legal counsel regarding compliance matters

Reporting Responsibilities

0

Regularly report to the board of directors about committee activities, issues and related recommendations

0

Provide and open avenue of communication between the auditors and the board of directors

0

Review any other reports the company issues that relate to committee responsibilities

Other Responsibilities

0

The committee shall establish procedures for the receipt, retention, and treatment of complaints received by the issuer regarding accounting, internal accounting controls, or auditing matters, and the confidential, anonymous submission by employees of the issuer of concerns regarding questionable accounting or auditing matters.

0

Perform other activities related to this charter as requested by the board of directors

0

Institute and oversee special investigations as needed

0

Review and assess the adequacy of the committee charter annually, requesting board approval for proposed changes

0

Confirm annually that all responsibilities outlined in this charter have been carried out

0

Evaluate the committee's and individual members' performance on a regular basis.

**ALMADEN MINERALS LTD,
1103 -750 West Pender Street
Vancouver, B.C. V6C 2T8**

NOTICE OF ANNUAL AND SPECIAL GENERAL MEETING OF MEMBERS

TAKE NOTICE that the 2005 Annual General Meeting of the members of **Almaden Minerals Ltd.** (hereinafter called the "Company") will be held at 1550 -1185 West Georgia Street, Vancouver, B.C. V6E 4E6, on:

Wednesday, May 18, 2005

at the hour of 10:00 o'clock in the forenoon (Vancouver time) for the following purposes:

1.
to receive the Report of the Directors;

2.

to receive the financial statements of the Company for its fiscal year ended December 31, 2004 and the report of the Auditors thereon;

3.

to appoint Auditors for the ensuing year and to authorize the directors to fix their remuneration;

4.

to determine the number of directors and to elect directors;

5.

to ask the shareholders to consider and, if deemed advisable, approve the following resolution:

"BE IT RESOLVED AS A RESOLUTION OF SHAREHOLDERS THAT:

(a)

the maximum number of common shares of the Company (the "Common Shares") that may be issued under the Company's stock option plan be amended from the current fixed maximum number of 2,900,000 (the "Plan") to a fixed maximum percentage of 10% of the Common Shares issued and outstanding from time to time pursuant to recent amendments to the Toronto Stock Exchange ("TSX") Company Manual which amendments became effective as of January 1, 2005 and which permit "evergreen plans";

(b)

the directors of the Company are hereby authorized to make such other amendments to the Plan as the directors of the Company may, in their sole discretion, determine are necessary, desirable or useful as a consequences of the amendment set out above in paragraph 1 (the "Amended Plan") including, without limiting the generality thereof, authority, from time to time, to make amendments to the Amended Plan without approval of or further authority from the shareholders;

(c)

the directors of the Company are hereby authorized and directed to execute and deliver an Amended Plan giving effect to the amendments authorized in paragraphs 1 and 2, in such form as the directors of the

Company may in their sole discretion approve, such approval to be evidenced conclusively by the director's execution of the Amended Plan;

(d)

that any one officer or director of the Company be authorized for and on behalf of the and in the name of the Company to do all such acts and to execute and deliver, whether under corporate seal or otherwise, all such documents, instruments and writings as in his sole discretion are necessary or desirable to give effect to the foregoing resolutions; and

(e)

notwithstanding the passage of this resolution by the shareholders, the directors of the Company are hereby authorized and empowered without further notice to or approval of the shareholders of the Company not to proceed with the Amended Plan."

6.

to ask the shareholders to consider and, if deemed advisable, approve the following resolution:

"BE IT RESOLVED AS A RESOLUTION OF SHAREHOLDERS THAT:

(a)

the Pre-Existing Company Provisions in the Company's Notice of Articles are deleted and no longer apply to the Company, and the Company's Notice of Articles is altered accordingly;

(b)

any director or officer of the Company is hereby authorized and empowered for and in the name of and on behalf of the Company to execute and file, or cause to be filed, a Notice of Alteration to the Notice of Articles with the B.C. Registrar of Companies (British Columbia) along with all such other documents and instruments, and to do or to cause to be done all such other acts and things, as in the opinion of such director or officer may be necessary or desirable in order to carry out the intent of this special resolution; and

(c)

the Board of Directors of the Company is hereby authorized, at any time in its sole discretion, to determine whether or not to proceed with this special resolution without further approval, ratification or confirmation by the shareholders."

7.

to ask the shareholders to consider and, if deemed advisable, approve the following resolution:

"BE IT RESOLVED AS A RESOLUTION OF SHAREHOLDERS THAT:

(a)

the number of common shares without par value that the Company is authorized to issue is increased to an unlimited number of common shares without par value and the Company's Notice of Articles is altered accordingly;

(b)

any director or officer of the Company is hereby authorized and empowered for and in the name of and on behalf of the Company to execute and file, or cause to be filed, a Notice of Alteration to the Notice of Articles with the B.C. Registrar of Companies (British Columbia) along with all such other documents and instruments, and to do or to cause to be done all such other acts and things, as in the opinion of such director or officer may be necessary or desirable in order to carry out the intent of this special resolution; and

(c)

the Board of Directors is hereby authorized, at any time in its sole discretion, to determine whether or not to proceed with this special resolution without further approval, ratification or confirmation by the shareholders."

8.

to ask the shareholders to consider and, if deemed advisable, approve the following resolution:

"BE IT RESOLVED AS SPECIAL RESOLUTION OF SHAREHOLDERS THAT:

(a)

the existing Articles of the Company filed with the Registrar of Companies are cancelled, and the form of Articles presented to the Meeting are adopted as the Articles of the Company in substitution for, and to the exclusion of, such existing Articles;

(b)

any director or officer of the Company is hereby authorized and empowered for and in the name of and on behalf of the Company to execute or cause to be executed and file or cause to be filed such documents and take such further action, including any filings with the B.C. Registrar of Companies as may be necessary to effect the alteration and to execute, or cause to be executed, and to deliver or cause to be delivered all such other documents and instruments, and to do or to cause to be done all such other acts and things, as in the opinion of such director or officer may be necessary or desirable in order to carry out the intent of this special resolution; and

the Board of Directors of the Company is hereby authorized at any time in its sole discretion, to determine whether or not to proceed with this special resolution without further approval, ratification or confirmation by the shareholders."

9.

to transact such other business as may properly come before the Meeting.

Accompanying this Notice are an Information Circular and form of Proxy.

A shareholder entitled to attend and vote at the Meeting is entitled to appoint a proxyholder to attend and vote in his stead. If you are unable to attend the Meeting, or any adjournment thereof, in person, please read the Notes accompanying the form of Proxy enclosed herewith and then complete and return the Proxy within the time set out in the Notes. The enclosed form of Proxy is solicited by Management but, as set out in the Notes, you may amend it if you so desire by striking out the names listed therein and inserting in the space provided the name of the person you wish to represent you at the Meeting.

DATED at Vancouver, British Columbia, this 4th day of April, 2005.

BY ORDER OF THE BOARD OF DIRECTORS

"Duane Poliquin"

Duane Poliquin, President
