PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS

TO BE HELD DECEMBER 19, 2008

SOLICITATION AND REVOCABILITY OF PROXIES

The accompanying proxy is solicited by the Board of Directors on behalf of Entheos Technologies, Inc., a Nevada corporation (sometimes referred to in this Proxy Statement as the "Company," "we," "our," and "us"), to be voted at the 2008 Annual Meeting of Stockholders of the Company (the "Annual Meeting") to be held on December 19, 2008, at the time and place and for the purposes set forth in the accompanying Notice of Annual Stockholders (the "Notice") and at any adjournment(s) thereof. When proxies in the accompanying form are properly executed and received, the shares represented thereby will be voted at the Annual Meeting in accordance with the directions noted thereon; if no direction is indicated, such shares will be voted FOR the election of the nominees listed thereon, FOR the ratification of the independent auditor, FOR amending the Company's Articles of Incorporation to change the name of Company to Sterling Energy, Inc. and in their discretion with respect to any other matters that may properly come before the stockholders at the Annual Meeting.

The executive offices of the Company are located at, and the mailing address of the Company is 888 3rd Street SW, Suite 1000, Calgary, AB. Management does not anticipate that any matters will be presented at the Annual Meeting other than matters set forth in the Notice.

This proxy statement (the "Proxy Statement") and accompanying proxy are being mailed on or about November 16, 2008. The Company's Annual Report on Form 10-KSB (the "2007 Annual Report"), which serves as the Annual Report to Stockholders, covering the Company's fiscal year ended December 31, 2007, is attached.

Any stockholder of the Company giving a proxy has the right to revoke their proxy at any time prior to the voting thereof by voting in person at the Annual Meeting, by delivering a duly executed proxy bearing a later date or by giving written notice of revocation to the Company addressed to Derek Cooper, President, 888 3rd Street SW, Suite 1000, Calgary, AB, T2P 5C5; no such written notice shall be effective, however, until such notice of revocation has been received by the Company at or prior to the Annual Meeting.

In addition to the solicitation of proxies by use of the mail, officers and regular employees of the Company may solicit the return of proxies, either by mail, telephone, telefax, telegraph or through personal contact. Such officers and employees will not be additionally compensated but will be reimbursed for out-of-pocket expenses. Brokerage houses and other custodians, nominees, and fiduciaries will, in connection with shares of the Company's common stock, \$0.00001 par value per share (the "Common Stock"), registered in their names, be requested to forward solicitation material to the beneficial owners of such shares of Common Stock.

The cost of preparing, printing, assembling, and mailing the 2007 Annual Report, the Notice, this Proxy Statement, and the enclosed form of proxy, as well as the cost of forwarding solicitation materials to the beneficial owners of shares of Common Stock and other costs of solicitation, are to be borne by the Company.

QUORUM AND VOTING

The record date for the determination of stockholders entitled to notice of and to vote at the Annual Meeting was the close of business on November 3, 2008 (the "Record Date"). On the Record Date, there were 63,075,122 shares of Common Stock issued and outstanding.

Each share of Common Stock is entitled to one vote on all matters to be acted upon at the Annual Meeting, and neither the Company's Certificate of Incorporation (the "Certificate of Incorporation") nor its Bylaws allow for cumulative voting rights.

The presence, in person or by proxy, of the holders of a majority of the issued and outstanding Common Stock entitled to vote at the meeting is necessary to constitute a quorum to transact business. If a quorum is not present or represented at the Annual Meeting, the stockholders entitled to vote thereat, present in person or by proxy, may adjourn the Annual Meeting from time to time without notice or other announcement until a quorum is present or represented. Assuming the presence of a quorum, the affirmative vote of a plurality of votes cast is required for the election of each of the nominees for director. A majority of the votes represented and entitled to vote at the Annual Meeting will be required for the approval of all other matters to be voted upon. Abstentions and broker non-votes will each be counted towards the presence of a quorum, but (i) will not be counted as votes cast and, accordingly, will have no effect on the plurality vote required for the election of directors, and (ii) will be counted as votes represented at the Annual Meeting and, accordingly, will have the effect of a vote "against" all other matters to be acted upon.

Proxies in the accompanying form which are properly executed and returned to the Company will be voted at the Annual Meeting in accordance with the instructions contained in such proxies and, at the discretion of the proxy holders, on such other matters as may properly come before the meeting. Where no such instructions are given, the shares will be voted for the election of each of the nominees for director, the ratification of Peterson Sullivan, PLLC as the independent auditor and for the amendment of the Company's Articles of Incorporation to change the Company's name to Sterling Energy, Inc.

A stockholder that intends to present a proposal at the 2008 Annual Meeting of Stockholders for inclusion in the Company's proxy statement and form of proxy relating to such meeting must submit such proposal by December 1, 2008. The proposal must be mailed to the Company's offices at 888 3rd Street SW, Suite 1000, Calgary, AB.

RIGHT TO REVOKE PROXIES

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before it is voted. Proxies may be revoked by:

- filing with the President of the Company, before the polls are closed with respect to the vote, a written notice of revocation bearing a later date than the proxy;
- duly executing a subsequent proxy relating to the same shares of Common Stock and delivering it to the President of the Company; or
- attending the Meeting and voting in person (although attendance at the Meeting will not in and of itself constitute a revocation of a proxy).

Any written notice revoking a proxy should be sent to: 888 3rd Street SW, Suite 1000, Calgary, AB, Attention: Derek Cooper.

("PROPOSAL 3").

PROPOSAL NO. 1:

ELECTION OF BOARD MEMBERS

Nominees

The Company's Board of Directors is currently comprised of three directors. Each of the nominees is presently a director of the Company. If so directed in the enclosed proxy, the persons named in such proxy will vote the shares represented by such proxy for the election of the following named nominees for the office of director of the Company, to hold office until the next annual meeting of the stockholders or until their respective successors shall have been duly elected and shall have been duly qualified.

Information Concerning Nominees

Name	Age	Position	Director/Officer Since
Derek Cooper	31	President, CEO, Director	September 12, 2008

Each of Messrs. Cooper, Hudson and Sidhu were initially appointed to the Company's Board of Directors on September 12, 2008.

The Board of Directors does not contemplate that any of the above-named nominees for director will refuse or be unable to accept election as a director of the Company, or be unable to serve as a director of the Company. Should any of them become unavailable for nomination or election or refuse to be nominated or to accept election as a director of the Company, then the persons named in the enclosed form of proxy intend to vote the shares represented in such proxy for the election of such other person or persons as may be nominated or designated by the Board of Directors. No nominee is related by blood, marriage, or adoption to another nominee or to any executive officer of the Company or its subsidiaries or affiliates.

Assuming the presence of a quorum, each of the nominees for director of the Company requires for his election the approval of a plurality of the votes cast by the shares of Common Stock entitled to vote at the Annual Meeting.

PROPOSAL NO. 3:

AMENDMENT TO OUR ARTICLES OF INCORPORATION

The Company's Board of Directors has unanimously adopted a resolution seeking stockholder approval to amend the Articles of Incorporation to change the Company's name to "Sterling Energy, Inc." The Board of Directors believes that this amendment is in the Company's best interests as it more accurately reflects the Company's focus and interests in the participation in producing and the recompletion re-development of oil and gas wells. The Board of Directors does not believe that the proposed amendment will not have any material effect on the Company's business, operations, reporting requirements or stock price. However, in connection with the proposed name change, it is anticipated that the Company's stock symbol will be changed. ITEM 1. DESCRIPTION OF BUSINESS

Cautionary Statement Pursuant to Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995:

Except for the historical information presented in this document, the matters discussed in this Form 10-KSB for the fiscal year ending December 31, 2007, and specifically in the items entitled "Management's Discussion and Analysis or Plan of Operation", or otherwise incorporated by reference into this document, contain "forward-looking statements" (as such term is defined in the Private Securities Litigation Reform Act of 1995). These statements are identified by the use of forward-looking terminology such as "believes", "plans", "intend", "scheduled", "potential", "continue", "estimates", "hopes", "goal", "objective", "expects", "may", "will", "should" or "anticipates" or the negative thereof or other variations thereon or comparable terminology, or by discussions of strategy that involve risks and uncertainties.

The safe harbor provisions of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended, apply to forward-looking statements made by the Company. The reader is cautioned that no statements contained in this Form 10-KSB should be construed as a guarantee or assurance of future performance or results. These forward-looking statements involve risks and uncertainties, including those identified within this Form 10-KSB. The actual results that the Company achieves may differ materially from any forward-looking statements due to such risks and uncertainties. These forward-looking statements are based on current expectations, and the Company assumes no obligation to update this information. Readers are urged to carefully review and consider the various disclosures made by the Company in this Form 10-KSB and in the Company's other reports filed with the Securities and Exchange Commission that attempt to advise interested parties of the risks and factors that may affect the Company's business.

The Company

Entheos Technologies, Inc. (the Company), through its wholly-owned subsidiary Email Solutions, Inc., serves as an Application Service Provider providing reliable, real time, high volume outsourced email and search engine optimization services.

The Company is a Nevada corporation with an authorized capital of 200,000,000 shares of \$0.00001 par value common stock, of which 56,625,122 shares are outstanding and 10,000,000 shares of \$0.0001 par value preferred stock, of which none are outstanding.

Employees

At December 31, 2007, the Company employed 2 part-time persons. To the best of the Company's knowledge, none of the Company's officers or directors is bound by restrictive covenants from prior employers. None of the Company's employees are represented by labor unions or other collective bargaining groups. We consider relations with our employees to be good. We plan to retain and utilize the services of outside consultants as the need arises.

Risk Factors

We have sought to identify what we believe to be the most significant risks to our business. However, we cannot predict whether, or to what extent, any of such risks may be realized nor can we guarantee that we have identified all possible risks that might arise. Investors should carefully consider all of such risk factors before making an investment decision with respect to our Common Stock. We provide the following cautionary discussion of risks, uncertainties

and possible inaccurate assumptions relevant to our business. These are factors that we think could cause our actual results to differ materially from expected results. Other factors besides those listed here could adversely affect us.

Lack of Operating History

Our business is subject to the risks inherent in the establishment of a new business. Specifically, in formulating our business plan, we have relied on the judgment of our officers, directors and consultants but have not conducted any formal independent market studies concerning the demand for our services.

We have had limited revenues since inception, and revenues of \$0 for the years ended December 31, 2007 and 2006. We have not been profitable, experiencing an accumulated deficit of \$3,817,888 through December 31, 2007. Even if we become profitable in the future, we cannot accurately predict the level of, or our ability to sustain profitability. Because we have not yet been profitable and cannot predict any level of future profitability, you bear the risk of a complete loss of your investment in the event our business plan is unsuccessful.

The Company's ability to generate revenues and to achieve profitability and positive cash flow has depended on the successful commercialization of our ASP service, which has had limited success so far. Even if we eventually generate enough revenues from the sale of our services, we expect to incur significant operating losses over the next several years due to intense competition, a dearth of high volume email clients and low priced email software packages.

Intense Competition

The market for our services is intensely competitive, constantly evolving and subject to rapid technological change. We expect the intensity of competition to increase in the future. Increased competition may result in price reductions, changes in our pricing model, reduced gross margins and loss of market share, any one of which could materially damage our business. Many of our competitors have more resources and broader and deeper customer access than we do. In addition, many of these competitors have or can readily obtain extensive knowledge of our industry. Our competitors may be able to respond more quickly than we can to new technologies or changes in Internet user preferences and devote greater resources than we can to the development, promotion and sale of their services. We may not be able to maintain our competitive position against current and future competitors, especially those with significantly greater resources.

Dependence On Key Personnel

We depend on the continued service of our key technical, sales and senior management personnel and the loss of one or more of these individuals could cause us to incur increased operating expenses and divert other senior management time in searching for their replacements. We do not have employment agreements with any employee, nor do we maintain any key person life insurance policies for any of our key employees. The loss of any of our key technical, sales or senior management personnel could harm our business. In addition, we must attract, retain and motivate highly skilled employees. We face significant competition for individuals with the skills required to develop, market and support our services. We may not be able to recruit and retain sufficient numbers of highly skilled employees, and as a result our business could suffer.

Inability to Obtain Funding

We may not be able to obtain additional funding when needed, which could limit future expansion and marketing opportunities and result in lower than anticipated revenues. We may require additional financing to further develop our business and to pursue other technology-based business opportunities. If the market price of the common stock declines, some potential financiers may either refuse to offer us any financing or will offer financing at unacceptable rates or unfavorable terms. If we are unable to obtain financing on favorable terms, or at all, this unavailability could prevent us from expanding our business, which could materially impact our future potential revenues.

Continued Control by Management.

You may lack an effective vote on corporate matters and management may be able to act contrary to your objectives. As of March 24, 2008, our officers and board members own 76% of the 56,625,122 outstanding common stock, excluding stock options. If management votes together, it could influence the outcome of corporate actions requiring shareholder approval, including the election of directors, mergers and asset sales. As a result, new stockholders may lack an effective vote with respect to the election of directors and other corporate matters. Therefore, it is possible that management may take actions with respect to its ownership interest, which may not be consistent with your objectives or desires.

Liquidity of Shares in Market Place

As of March 24, 2008, one of our directors beneficially owns approximately 76% of the Company's outstanding common stock, which could affect the liquidity of the company's shares in the market.

Adverse Effect From Future Sale of Stock

Future sales of large amounts of our common stock by existing stockholders pursuant to Rule 144 under the Securities Act of 1933, or following the exercise of outstanding options, could adversely affect the market price of our common stock. Substantially all of the outstanding shares of our common stock are freely tradable, without restriction or registration under the Securities Act, other than the sales volume reporting and transaction restrictions of Rule 144 applicable to shares held beneficially by persons who may be deemed to be affiliates. Our directors and executive officers and their family members are not under lockup letters or other forms of restriction on the sale of their common stock. The issuance of any or all of these additional shares upon exercise of options or warrants will dilute the voting power of our current stockholders on corporate matters and, as a result, may cause the market price of our common stock to decrease. Further, sales of a large number of shares of common stock in the public market could adversely affect the market price of the common stock and could materially impair our future ability to generate funds through sales of common stock or other equity securities.

We are considered a penny stock.

The Company's stock differs from many stocks, in that it is a "penny stock." The Securities and Exchange Commission has adopted a number of rules to regulate "penny stocks." These rules include, but are not limited to, Rules 3a51-1, 15g-1, 15g-2, 15g-3, 15g-4, 15g-5, 15g-6 and 15g-7 under the Securities and Exchange Act of 1934, as amended.

Because our securities probably constitute "penny stock" within the meaning of the rules, the rules would apply to us and our securities. The rules may further affect the ability of owners of our stock to sell their securities in any market that may develop for them. There may be a limited market for penny stocks, due to the regulatory burdens on broker-dealers. The market among dealers may not be active. Investors in penny stock often are unable to sell stock back to the dealer that sold them the stock. The mark-ups or commissions charged by the broker-dealers may be greater than any profit a seller may make. Because of large dealer spreads, investors may be unable to sell the stock immediately back to the dealer at the same price the dealer sold the stock to the investor. In some cases, the stock may fall quickly in value. Investors may be unable to reap any profit from any sale of the stock, if they can sell it at all.

Stockholders should be aware that, according to the Securities and Exchange Commission Release No. 34- 29093, the market for penny stocks has suffered in recent years from patterns of fraud and abuse. These patterns include:

- Control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer;
- Manipulation of prices through prearranged matching of purchases and sales and false and misleading press releases;
- "Boiler room" practices involving high pressure sales tactics and unrealistic price projections by inexperienced sales persons;
- Excessive and undisclosed bid-ask differentials and markups by selling broker-dealers; and
- The wholesale dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired level, along with the inevitable collapse of those prices with consequent investor losses.

Furthermore, the "penny stock" designation may adversely affect the development of any public market for the Company's shares of common stock or, if such a market develops, its continuation. Broker-dealers are required to personally determine whether an investment in "penny stock" is suitable for customers.

Penny stocks are securities (i) with a price of less than five dollars per share; (ii) that are not traded on a "recognized" national exchange; (iii) whose prices are not quoted on the NASDAQ automated quotation system (NASDAQ-listed stocks must still meet requirement (i) above); or (iv) of an issuer with net tangible assets less than \$2,000,000 (if the issuer has been in continuous operation for at least three years) or \$5,000,000 (if in continuous operation for less than three years), or with average annual revenues of less than \$6,000,000 for the last three years.

Section 15(g) of the Exchange Act, and Rule 15g-2 of the Commission require broker-dealers dealing in penny stocks to provide potential investors with a document disclosing the risks of penny stocks and to obtain a manually signed and dated written receipt of the document before effecting any transaction in a penny stock for the investor's account. Potential investors in the Company's common stock are urged to obtain and read such disclosure carefully before purchasing any shares that are deemed to be "penny stock."

Rule 15g-9 of the Commission requires broker-dealers in penny stocks to approve the account of any investor for transactions in such stocks before selling any penny stock to that investor. This procedure requires the broker-dealer to (i) obtain from the investor information concerning his or her financial situation, investment experience and investment objectives; (ii) reasonably determine, based on that information, that transactions in penny stocks are suitable for the investor and that the investor has sufficient knowledge and experience as to be reasonably capable of evaluating the risks of penny stock transactions; (iii) provide the investor with a written statement setting forth the basis on which the broker-dealer made the determination in (ii) above; and (iv) receive a signed and dated copy of such statement from the investor, confirming that it accurately reflects the investor's financial situation, investment experience and investment objectives. Compliance with these requirements may make it more difficult for the Company's stockholders to resell their shares to third parties or to otherwise dispose of them.

Independent Directors

We cannot guarantee our Board of Directors will have a majority of independent directors in the future. In the absence of a majority of independent directors, our executive officers, who are also principal stockholders and directors, could establish policies and enter into transactions without independent review and approval thereof. This could present the potential for a conflict of interest between the Company and its stockholders generally and the controlling officers, stockholders or directors.

Environmental Matters

The Company believes it conducts its business in compliance with all environmental laws presently applicable to its facilities. To date, there have been no expenses incurred by the Company related to environmental issues.

Government Regulation

The Company is not subject to any direct governmental regulation other than the securities laws and regulations applicable to all publicly owned companies, and laws and regulations applicable to businesses generally.

ITEM 2. DESCRIPTION OF PROPERTY

The Company's corporate offices, located at Suite 216, 1628 West 1st Avenue, Vancouver, BC, V6J 1G1, are owned by a privately held corporation controlled by a Director and majority shareholder of the Company. At present, the Company pays a monthly rent of C\$700 effective from April 1, 2006.

ITEM 3. LEGAL PROCEEDINGS

The Company is not party to any current legal proceedings.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the security holders in our fiscal fourth quarter of year ended December 31, 2007.

It is our intention to schedule a shareholder's meeting to elect directors, appoint auditors and transact any additional business in the second or third quarter of 2007.

Dividend Policy

We intend to use any earnings, which may be generated, to finance the growth of our businesses. Our Board of Directors has the right to authorize the issuance of preferred stock, without further

shareholder approval, the holders of which may have preferences over the holders of the Common Stock as to payment of dividends.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

The following discussion should be read in conjunction with the financial statements and notes thereto included in Item 7 of this Form 10-KSB. Except for the historical information contained herein, the discussion in this Annual Report on Form 10-KSB contains certain forward-looking statements that involve risk and uncertainties, such as statements of the Company's plans, objectives, expectations and intentions as of the date of this filing. The cautionary statements made in this document should be read as being applicable to all related forward-looking statements wherever they appear in this document. The Company's actual results could differ materially from those discussed here. Factors that could cause differences include those discussed in "Risk Factors", as well as discussed elsewhere herein.

Overview

Entheos Technologies, Inc. (the Company), through its wholly-owned subsidiary Email Solutions, Inc., serves as an Application Service Provider providing reliable, real time, high volume outsourced email and search engine optimization services.

The Company is a Nevada corporation with an authorized capital of 200,000,000 shares of \$0.00001 par value common stock, of which 56,625,122 shares are outstanding and 10,000,000 shares of \$0.0001 par value preferred stock, of which none are outstanding.

Results of Operations

Revenues: The Company generated no revenues for the years ended December 31, 2007 and December 31, 2006.

General and Administrative Expenses: During 2007, the Company incurred \$27,610 in general and administrative expenses, a decrease of 67% over 2005 expenses of \$82,904. The increase is primarily attributable to a decrease in professional and management fees.

Interest Income: Interest income was \$2,928 and \$1,862 for the years ended December 31, 2007, and 2006, respectively. Interest earned in the future will be dependent on Company funding cycles and prevailing interest rates.

Provision for Income Taxes: As of December 31, 2007, the Company's accumulated deficit was \$3,817,888, and as a result, there has been no provision for income taxes to date.

Net Loss: For the year ended December 31, 2007, the Company recorded a net loss of \$24,682, a decrease of 45%, compared to a net loss of \$45,004 for the same period in 2005. The decrease is primarily as a result of the lower professional and management fees.

Liquidity and Capital Resources

At December 31, 2007, the Company had a cash balance of \$46,306, compared to a cash balance of \$178 at December 31, 2006.

During 2007, the Company provided \$46,128 of net cash from operating activities, as compared to net cash flows used by operating activities of \$81,800 in 2006.

Plan of Operation

The Company is currently seeking to augment its position in technology based services through the acquisition of and or joint venture with, other technology based ventures. Additionally, the Company is engaged in the development of search engine optimization, and search engine results-positioning and marketing services.

The Company's principal source of liquidity is cash in bank, which we anticipate will be sufficient to fund our operations for the next twelve months. The Company's future funding requirements will depend on numerous factors, including the time and investment required to source out and invest in promising technology-based ventures, to recruit and train qualified management personnel and the Company's ability to compete against other, better capitalized corporations in similar businesses.

Due to the "start up" nature of the Company's businesses, the Company expects to incur losses as it expands. The Company expects to raise additional funds through private or public equity investment in order to expand the range and scope of its business operations. The Company will seek access to private or public equity but there is no assurance that such additional funds will be available for the Company to finance its operations on acceptable terms, if at all. See "Risk Factors" for additional details.

Related Party Transactions

Management fees: During the year ended December 31, 2007, the Company paid \$1,500 (2006: \$7,800) in management fees to directors.

Accounts Payable: As of December 31, 2007, the Company owed \$23,812 (2006: \$23,812) for outstanding management fees to a director, which is included in accounts payable - related parties.

Rent: The Company's principal office is located at 1628 West 1st Avenue, Suite 216, Vancouver, British Columbia, Canada, V6J 1G1. These premises are owned by a private corporation controlled by a Director and majority shareholder. The Company pays a monthly rent of C\$700 effective from April 1, 2006. The Company paid rent of \$7,812 (2006: \$5,631) for the year ended December 31, 2007.

Mr. Harmel S. Rayat is also an officer, director and shareholder of each of International Energy, Inc., PhytoMedical Technologies, Inc., Octillion Corp., MicroChannel Technologies Corporation and HepaLife Technologies, Inc.

All related party transactions are recorded at the exchange amount established and agreed to between related parties and are in the normal course of business.

Going Concern

The Company has incurred net operating losses since inception. The Company faces all the risks common to companies in their early stages of development, including under capitalization and uncertainty of funding sources, high initial expenditure levels, uncertain revenue streams, and difficulties in managing growth. The Company's recurring losses raise substantial doubt about its ability to continue as a going concern. The Company's consolidated financial statements do not reflect any adjustments that may result from the outcome of this uncertainty. The Company expects to incur losses from its business operations and will require additional funding during 2007. The satisfaction of our cash hereafter will depend in large part on the Company's ability to successfully raise capital from external sources to pay for planned expenditures and to fund operations.

In view of these conditions, the ability of the Company to continue as a going concern is in substantial doubt and dependent upon achieving a profitable level of operations and on the ability of the Company to obtain necessary financing to fund ongoing operations. Management believes that its current and future plans enable it to continue as a going concern. These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors
Entheos Technologies, Inc.
Vancouver, British Columbia

We have audited the accompanying consolidated balance sheets of Entheos Technologies, Inc. and Subsidiaries ("the Company") as of December 31, 2007 and 2006, and the related consolidated statements of operations, stockholders' equity, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company has determined that it is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Entheos Technologies, Inc. and Subsidiaries as of December 31, 2007 and 2006, and the results of their operations and their cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has experienced recurring losses from operations since inception and has a substantial accumulated deficit. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans regarding these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.
