

Item 1.01 Entry into a Material Definitive Agreement.

On November 4, 2015, HC2 Holdings, Inc. (the “Company”) entered into an underwriting agreement (the “Underwriting Agreement”) with Jefferies LLC (the “Underwriter”), relating to the issuance and sale of 7,350,000 shares of the Company’s common stock, par value \$0.001 per share (the “Common Stock”) in a public offering (the “Firm Shares”). In addition, on November 5, 2015 the Underwriter exercised its option under the terms of the Underwriting Agreement to purchase an additional 1,102,500 shares of Common Stock from the Company (the “Option Shares”). The issuance and sale of the Firm Shares and the Option Shares pursuant to the Underwriting Agreement is referred to as the “Offering.” The total number of shares sold by the Company in the Offering pursuant to the Underwriting Agreement was 8,452,500 shares. The price to the public of the Common Stock in the Offering was \$7.00 per share. The Underwriter agreed to purchase the Common Stock pursuant to the Underwriting Agreement at a price per share of \$6.65. The Offering closed on November 9, 2015. The net proceeds to the Company from the Offering, after deducting underwriting discounts and commissions and estimated offering expenses, were approximately \$54.3 million.

The Offering was made pursuant to the Company’s effective registration statement on Form S-3 (Registration Statement No. 333-207470) previously filed with and declared effective by the Securities and Exchange Commission (the “SEC”) and a prospectus supplement thereunder filed with the SEC.

The Underwriting Agreement contains customary representations, warranties and agreements by the Company, customary conditions to closing, indemnification obligations of the Company and the Underwriter, including for liabilities under the Securities Act of 1933, as amended, other obligations of the parties and termination provisions. The representations, warranties and covenants contained in the Underwriting Agreement were made only for purposes of such agreement and as of specific dates, were solely for the benefit of the parties to such agreement, and may be subject to limitations agreed upon by the contracting parties. A copy of the Underwriting Agreement is attached as Exhibit 1.1 to this report and is incorporated by reference herein. The foregoing description of the terms of the Underwriting Agreement does not purport to be complete and is qualified in its entirety by reference to such exhibit.

The legal opinion of Latham & Watkins LLP relating to the legality of the issuance and sale of the Common Stock in the Offering is attached as Exhibit 5.1 to this Current Report on Form 8-K.

Item 5.02 Compensatory Arrangements of Certain Officers

(e)

Anti-Dilution Adjustment Option Issuance

The Company filed a Form 8-K with the SEC on May 23, 2014 that disclosed, among other things, the grant of an option (the “Option”) to Philip Falcone, the President and Chief Executive Officer of the Company, to purchase 1,568,864 shares of Common Stock, at an exercise price of \$4.56 per share. The number of shares for which the Option is exercisable and the exercise price of the Option are subject to adjustment for certain events, with the effect that at all times the Option as so adjusted will enable Mr. Falcone to purchase the same percentage ownership interest in the Company that the Option represented on its grant date. The Option contemplated that the anti-dilution adjustments would be in the form of additional options to be granted as of the date of the event requiring adjustment.

On October 26, 2014, the Company and Mr. Falcone reformed and clarified the Option (the “Option Clarification”) to clarify the operation of the anti-dilution provisions of the Option upon the issuance of rights, warrants, options, exchangeable securities or convertible securities entitling the holder thereof to subscribe for, purchase or otherwise acquire shares of the Company’s capital stock (each referred to as “Rights”). Specifically, pursuant to the terms of the Option Clarification, additional options granted to Mr. Falcone pursuant to the anti-dilution provisions upon the issuance of Rights (i) would have an exercise price equal to the greater of the fair market value of the Common Stock on the trading day immediately preceding the date of grant of the option or the price payable or deemed payable in

respect of the applicable Common Stock upon the exercise or conversion of the Rights and (ii) would be exercisable as and to the extent the Rights are exercised or converted.

On November 9, 2015, the Company consummated the Offering. The Offering required the issuance of additional options pursuant to the anti-dilution provisions of the Option. On November 9, 2015, the Company issued an option to purchase 845,250 shares of Common Stock at an exercise price of \$7.17 per share (“Additional Options”). The Additional Options vest in three equal installments on the date of issuance and on each of the first and second anniversaries of the date of issuance, subject to Mr. Falcone’s continued employment with the Company on each vesting date, and with accelerated vesting upon the occurrence of specified events. The Additional Options expire on May 20, 2024.
