PROXY STATEMENT

GENERAL

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors (the Board) of Hercules Capital, Inc. (the Company) for use at a special meeting of the stockholders of the Company (the Special Meeting). The Special Meeting will be held at Hercules Capital, Inc. 400 Hamilton Avenue, Suite 310, Palo Alto, California 94301, on December 6, 2018, at 9:00 a.m. (Pacific Time), and may be adjourned and reconvened as provided in the Proxy Statement. This Proxy Statement, the accompanying Notice of Special Meeting of Stockholders, and the enclosed proxy card(s) are expected to be mailed on or about October 5, 2018.

PURPOSE OF SPECIAL MEETING

At the Special Meeting, you will be asked to (i) approve the application of the reduced asset coverage requirements in Section 61(a)(2) of the Investment Company Act of 1940, as amended (the 1940 Act), to the Company, which would permit the Company to double the maximum amount of leverage that it is currently permitted to incur by reducing the asset coverage requirements applicable to the Company from 200% to 150% to become effective the day after the Special Meeting (without giving effect to any exemptive relief with respect to Small Business Administration (SBA) debentures) and (ii) transact such other business as may properly come before the Special Meeting or any adjournment thereof.

VOTING INFORMATION

General

THE BOARD HAS APPROVED AND UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR THE PROPOSAL TO APPROVE THE APPLICATION OF THE REDUCED ASSET COVERAGE REQUIREMENTS IN SECTION 61(A)(2) OF THE 1940 ACT TO THE COMPANY, WHICH WOULD PERMIT THE COMPANY TO DOUBLE THE MAXIMUM AMOUNT OF LEVERAGE THAT IT IS CURRENTLY PERMITTED TO INCUR BY REDUCING THE ASSET COVERAGE REQUIREMENTS APPLICABLE TO THE COMPANY FROM 200% TO 150% TO BECOME EFFECTIVE THE DAY AFTER THE SPECIAL MEETING (WITHOUT GIVING EFFECT TO ANY EXEMPTIVE RELIEF WITH RESPECT TO SBA DEBENTURES (THE PROPOSAL)).

Voting Securities

You may cast one vote for each share of common stock of the Company that you owned as of the close of business on October 4, 2018. Shares of the Company's common stock have equal voting rights as all other shares of the Company's common stock and are the only class of voting securities outstanding of the Company. As of October 4, 2018, the Company had 96,704,611 shares of common stock outstanding.

Quorum Required

For the Company to conduct business at the Special Meeting, a quorum of stockholders of the Company must be present. The presence at the Special Meeting, in person or by proxy, of the holders of a majority of the outstanding shares entitled to vote at the Special Meeting will constitute a quorum of the Company. Abstentions will be treated as shares present for quorum purposes. Shares for which brokers have not received voting instructions from the beneficial owner of the shares will not be voted and will not be treated as shares that are present for quorum purposes. If there are not sufficient votes for a quorum to be established, the chairman of the Special Meeting may adjourn the Special Meeting to permit further solicitation of proxies by the Company.

TABLE OF CONTENTS

Votes Required

The affirmative vote of a majority of the votes cast at the Special Meeting, in person or by proxy, is required to approve the Proposal. Abstentions and broker non-votes, if any, will not be included in determining the number of votes cast and, as a result, will have no effect on the Proposal.

Submitting Voting Instructions for Shares Held Through a Broker, Bank, Trustee or Nominee

If you hold shares of the Company's common stock through a broker, bank, trustee or nominee and want to participate in the Special Meeting, you must follow the instructions you receive from your broker, bank, trustee or nominee.

Please instruct your broker, bank, trustee or nominee so your vote can be counted.

Discretionary Voting

Brokers, banks, trustees and nominees have discretionary authority to vote on routine matters, but not on non-routine matters. The Proposal being considered by the Company at the Special Meeting is a non-routine matter. If you hold your shares in street name through a broker, bank, trustee or nominee and do not provide your broker, bank, trustee or nominee who holds such shares of record with specific instructions regarding how to vote on the Proposal, your broker will not be permitted to exercise voting discretion with respect to the Proposal.

Please note that to be sure your vote is counted on the Proposal, you should instruct your broker, bank, trustee or nominee how to vote your shares. If you do not provide voting instructions, your shares will not be voted at the Special Meeting and will not be counted as present for quorum purposes.

Authorizing a Proxy for Shares Held in Your Name

If you are a record holder of shares of the Company's common stock, you may authorize a proxy to vote on your behalf by following the instructions provided on the enclosed proxy card. Authorizing your proxy will not limit your right to participate in the Special Meeting. A properly completed and submitted proxy will be voted in accordance with your instructions, unless you subsequently revoke your instructions. If you authorize a proxy without indicating your voting instructions, the proxyholder will vote your shares according to the Board's recommendations. Internet and telephone voting procedures are designed to authenticate the stockholder's identity and to allow stockholders to vote their shares and confirm that their instructions have been properly recorded. Your Internet or telephone vote authorizes the named proxies to vote your shares in the same manner as if you had marked, signed and returned a proxy card.

Receipt of Multiple Proxy Cards

Some of the Company's stockholders hold their shares in more than one account and may receive a separate proxy card or voting instruction form for each of those accounts. To ensure that all of your shares are represented at the Special Meeting, we recommend that you vote by following the instructions on each proxy card or voting instruction form that you receive.

Revoking Your Proxy

If you are a stockholder of record of the Company, you can revoke your proxy at any time before it is exercised by: (i) delivering a written revocation notice that is received prior to the Special Meeting to Hercules Capital, Inc. 400 Hamilton Avenue, Suite 310, Palo Alto, California 94301 Attn: Melanie Grace, Secretary; (ii) submitting a later-dated proxy that we receive before the conclusion of voting at the Special Meeting; or (iii) participating in person at the Special Meeting and submitting a proxy card. The following table sets forth, as of October 1, 2018 the beneficial ownership of each current director, each nominee for director, our named executive officers, each person known to us to beneficially own 5% or more of the outstanding shares of our common stock, and our executive officers and directors as a group.

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission (SEC). Common stock subject to options or warrants that are currently exercisable or exercisable within 60 days of October 1, 2018 are deemed to be outstanding and beneficially owned by the person holding such options or warrants. Such shares, however, are not deemed outstanding for the purposes of computing the percentage ownership of any other person. Percentage of ownership is based on 96,634,774 shares of common stock outstanding as of October 1, 2018.

Unless otherwise indicated, to our knowledge, each stockholder listed below has sole voting and investment power with respect to the shares beneficially owned by the stockholder, except to the extent authority is shared by their spouses under applicable law. Unless otherwise indicated, the address of all executive officers and directors is c/o Hercules Capital, Inc., 400 Hamilton Avenue, Suite 310, Palo Alto, California 94301.

Our directors are divided into two groups—interested directors and independent directors. Interested directors are interested persons as defined in Section 2(a)(19) of the 1940 Act and independent directors are all other directors.

PROPOSAL

APPROVAL OF APPLICATION OF REDUCED ASSET COVERAGE REQUIREMENTS IN SECTION 61(a)(2) OF THE 1940 ACT TO THE COMPANY, WHICH WOULD PERMIT THE COMPANY TO DOUBLE THE MAXIMUM AMOUNT OF LEVERAGE THAT IT IS CURRENTLY PERMITTED TO INCUR BY REDUCING THE ASSET COVERAGE REQUIREMENTS APPLICABLE TO THE COMPANY FROM 200% TO 150% TO BECOME EFFECTIVE THE DAY AFTER THE SPECIAL MEETING (WITHOUT GIVING EFFECT TO ANY EXEMPTIVE RELIEF WITH RESPECT TO SBA DEBENTURES)

The Board of Directors unanimously recommends that you vote FOR the Proposal.

Background and 1940 Act Requirements

The Company is an internally managed, non-diversified, closed-end investment company that has elected to be regulated as a business development company (BDC) under the 1940 Act. As a BDC, we are required to meet a minimum asset coverage ratio, reflecting the value of our total assets to our total senior securities, which include all of our borrowings and any preferred stock we may issue in the future, under the 1940 Act. The Company has received exemptive relief from the SEC to exclude from its asset coverage ratio the debentures of any small business investment company subsidiary. Prior to March 23, 2018, Section 61(a) of the 1940 Act (which incorporates the requirements of Sections 18(a)(1) and 18(a)(2) of the 1940 Act) did not permit a BDC to issue senior securities unless, at the time of issuance, such BDC had an asset coverage ratio of at least 200% taking into account such issuance of senior securities. However, on March 23, 2018, the Small Business Credit Availability Act (the SBCAA) was signed into law and permits BDCs to be subject to an asset coverage ratio of at least 150%, if certain conditions are satisfied as set forth in the SBCAA. The reduced asset coverage requirement would permit a BDC to have a debt to equity ratio of a maximum of 2x (i.e. \$2 of debt outstanding for each \$1 of equity) as compared to a maximum of 1x (i.e. \$1 of debt outstanding for each \$1 of equity) under the 200% asset coverage requirement (without giving effect to any exemptive relief with respect to SBA debentures).

The SBCAA provides that in order for a BDC whose common stock is traded on a national securities exchange to be subject to the 150% asset coverage ratio, the BDC must obtain either: (i) approval of the required majority of its non-interested directors who have no financial interest in the proposal of the 150% asset coverage ratio, which would become effective one (1) year after the date of such approval, or (ii) stockholder approval (of more than 50% of the votes cast for the proposal) of the 150% asset coverage ratio, which would become effective on the first day after the date of such stockholder approval. BDCs must provide stockholders with timely notice of such approvals and must make periodic reports of the aggregate outstanding principal amounts of senior securities issued by the BDC and the asset coverage percentage as of the most recent financial statements included in that filing, the effective date of the approval of the modified asset coverage requirements, and the principal risk factors associated with the senior securities, to the extent incurred by the BDC.

On September 4, 2018, the Board, including a majority of non-interested directors who have no financial interest in the Proposal, approved the 150% asset coverage ratio, which will automatically become effective on September 4, 2019.

In addition, on September 4, 2018, the Board determined that the Proposal is in the best interests of the Company and its stockholders, and is recommending that the Company's stockholders vote in favor of the Proposal to immediately become subject to the minimum asset coverage ratio of at least 150%, permitting the Company to double its amount of debt incurrence earlier than the current effective date of September 4, 2019, pursuant to the SBCAA. **If the Proposal is approved by stockholders at the Special Meeting, the Company would become subject to an asset coverage ratio of at least 150% the day after the Special Meeting instead of on September 4, 2019.** If the Proposal is not

approved by the Company's stockholders, the Company currently intends to continue to operate within the 200% asset coverage requirements in accordance with its current investment strategy until September 4, 2019.

As of June 30, 2018, the Company had \$1,792 million in total assets and \$818 million of borrowings outstanding. If the Proposal is approved, calculated as of June 30, 2018 (without giving effect to any exemptive relief with respect to SBA debentures), the Company would be permitted to incur \$1,300 million in additional borrowings, for a total amount of borrowings outstanding equal to \$2,118 million.

TABLE OF CONTENTS

Recommendation and Rationale

On September 4, 2018, the Board unanimously recommended that the stockholders vote in favor of the application of the reduced asset coverage requirements in Section 61(a)(2) of the 1940 Act to the Company, which would permit the Company to double the maximum amount of leverage that it is currently permitted to incur by reducing the asset coverage requirements applicable to the Company from 200% to 150% to become effective the day after the Special Meeting (without giving effect to any exemptive relief with respect to SBA debentures). The Board concluded that the Proposal is in the best interests of the Company and the stockholders. In doing so, the Board considered and evaluated various factors, including the following (each, as discussed more fully below):

- the additional flexibility to manage capital to take advantage of attractive investment opportunities and better optimize the timing of potential equity capital raises;
- the current venture lending landscape;
- the potential impact (both positive and negative) on net investment income, return to stockholders, and net asset value; and
- the additional flexibility to make required regulated investment company distributions without violating the 1940 Act.

The additional flexibility to manage capital to take advantage of attractive investment opportunities and better optimize the timing of potential equity capital raises.

The Company cannot predict when attractive investment opportunities will present themselves, and attractive opportunities may arise at a time when market conditions are not favorable to raising additional equity capital. If the Company is not able to access additional capital (either at all or on favorable terms) when attractive investment opportunities arise, the Company's ability to grow over time and to continue to pay distributions to stockholders could be adversely affected. Based on the Company's balance sheet as of June 30, 2018, reducing the asset coverage requirements applicable to the Company from 200% to 150% (without giving effect to any exemptive relief with respect to SBA debentures) would allow the Company to borrow nearly \$1.3 billion in additional capital. This amount would provide additional flexibility to pursue attractive investment opportunities. The Board believes that the greater deal flow that may be achieved with this additional capital would enable the Company to participate more meaningfully in the private debt markets and to make larger loans to its portfolio companies with no loss of diversification of the overall portfolio. With more capital, the Company expects that it would, over time, be a more meaningful capital provider to the venture debt market and be able to better compete for high-quality investment opportunities with other companies having greater resources than the Company currently has.

In addition, the Board believes that the capital made available by incurring additional leverage would allow the Company to better manage its capital and to only undertake equity capital raises when market conditions are optimal for doing so.

The Board noted that over 85% of the Company's total assets at fair value were invested in first-lien senior secured debt as of June 30, 2018, and that a portfolio comprised of such assets is well suited to take advantage of additional leverage. As a result, with additional leverage, the Company may continue to seek investments with lower absolute, but higher risk-adjusted, returns.

The Board further noted that the increase in total assets available for investment as a result of incurring additional leverage would increase the assets available for investment in assets considered non-qualifying assets for purposes of Section 55 of the 1940 Act, which will also give the Company greater flexibility when evaluating investment opportunities.

The current venture lending market.

The Board considered the venture lending landscape in which the Company operates. The Company's primary competitors in providing financing to development stage, venture-backed companies include public and private funds, other BDCs, commercial and investment banks, and, to the extent they provide an alternative form of financing, private equity and hedge funds. Many of the Company's potential competitors are substantially larger and have considerably greater financial, technical and marketing resources than the Company. For example, some competitors may have a lower cost of funds and access to funding sources that may not be available to the Company. In addition, some competitors may have higher risk tolerances or different risk assessments than the Company, which could allow them to consider a wider variety of investments than the Company. Furthermore, many of the Company's competitors are not subject to the

PROPOSAL 8

TABLE OF CONTENTS

regulatory restrictions to which the Company is subject under the 1940 Act. Enabling the Company to incur additional indebtedness is expected to increase the competitiveness of the Company. Moreover, if other BDCs take advantage of the ability to incur additional indebtedness and the Company does not have the flexibility to do so, its competitiveness relative to such BDCs may be reduced.

The potential impact (both positive and negative) on net investment income, return to stockholders, and net asset value.

We believe having the operating flexibility to incur additional leverage is in the best interests of our stockholders because it would permit us to increase our net investment income with a larger investment portfolio as well as enable us to use lower cost debt capital and optimize the timing of additional higher cost equity capital raises. Increasing our net investment income will enable us to more easily maintain and/or increase our distributions to stockholders from net investment income, and together with raising future equity capital on more favorable terms and conditions, should enable us to augment the returns to our stockholders through a higher return on equity.

However, the Board noted that the converse was also true and, if the Company's net investment income or the value of the Company's assets decreased, additional leverage would cause the Company's income and/or net asset value to decline more sharply than it otherwise would have if the Company did not employ such additional leverage, increasing the risk of investing in the Company's common stock. In addition, the Company would have to service any additional debt that it incurs, including interest expense on debt and dividends on preferred stock, that the Company may issue, as well as the fees and costs related to the entry into or amendments to debt facilities. These expenses (which may be higher than the expenses on the Company's current borrowings due to the rising interest rate environment) would decrease net investment income, and the Company's ability to pay such expenses will depend largely on the Company's financial performance and will be subject to prevailing economic conditions and competitive pressures.

Additional flexibility to make required regulated investment company distributions without violating the 1940 Act.

Prior to the passage of the SBCAA, the 1940 Act prohibited BDCs from declaring any dividend or other distribution to holders of any class of capital stock, in the case of debt securities, or common stock, in the case of preferred stock, unless the asset coverage with respect to such senior securities was at least 200%. By lowering the asset coverage requirement to 150% (without giving effect to any exemptive relief with respect to SBA debentures), the Company will have additional flexibility, subject to compliance with the covenants under any debt facilities, to continue making the distributions to stockholders required to maintain its qualification as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended. This additional flexibility may be helpful in circumstances where the value of the Company's assets, and thus the Company's asset coverage, declines, but the level of the Company's net investment income remains relatively constant (i.e., the Company continues to have cash available to make any necessary distributions to stockholders). If the Company were to fail to make required distributions and no longer qualify as a regulated investment company, the Company would be subject to corporate-level U.S. federal income taxes.

We expect to continue to be prudent in our utilization of leverage. Once the increase in leverage is effected, we initially intend to have a target leverage ratio range of 0.95x to 1.25x as compared to our current target leverage ratio range of 0.75x to 0.95x. We anticipate incurring additional leverage through both long-term and short-term debt with floating and fixed interest rates to optimize our cost of capital and the amount of debt outstanding. Our primary goal in using higher leverage is to grow our investment portfolio while capitalizing on the strong demand for venture growth stage lending as well as using lower cost debt capital thereby delaying higher cost equity capital raises until we believe conditions are optimal for such an equity raise. We expect to use proceeds from prepayments and repayments, as well as proceeds from equity capital raises, to reduce our leverage outstanding but may also maintain liquidity and

borrowing capacity in anticipation of new investment fundings.

Fees and Expenses Table

The following table is intended to assist stockholders in understanding the various costs and expenses that an investor in the Company's common stock will bear, directly or indirectly, assuming that the Company employs (1) its actual asset coverage ratio as of June 30, 2018, (2) a hypothetical asset coverage ratio of 200% (excluding the Company's SBA debentures as permitted by the Company's exemptive relief), and (3) a hypothetical asset coverage ratio of 150% (excluding the Company's SBA debentures as permitted by the Company's exemptive relief). However, the Company

cautions you that some of the percentages indicated in the table below are estimates and may vary. The footnotes to the fee table state which items are estimates. Except where the context suggests otherwise, stockholders will indirectly bear such fees or expenses.

TABLE OF CONTENTS

(2) Expenses for the Actual asset coverage as of June 30, 2018 (252.7%) column are based on actual expenses incurred for the six-months ended June 30, 2018, annualized for a full year.

Expenses for the 200% asset coverage column are based on hypothetical expenses for the six-months ended June 30, 2018, which assume a hypothetical asset coverage ratio of 200%, the maximum amount of borrowings that (3) currently could be incurred by the Company, annualized for a full year. This information is not a representation of the amount of borrowings that the Company intends to incur or that would be available to the Company to be incurred.

Expenses for the 150% asset coverage column are based on hypothetical expenses for the six-months ended June 30, 2018, which assume a hypothetical asset coverage ratio of 150%, the maximum amount of borrowings that (4) could be incurred by the Company upon effectiveness of the 150% asset coverage requirements to the Company, annualized for a full year. This information is not a representation of the amount of borrowings that the Company intends to incur or that would be available to the Company to be incurred.

Operating expenses represents our estimated operating expenses by annualizing our actual operating expenses incurred for the six-months ended June 30, 2018, including all fees and expenses of our consolidated subsidiaries and excluding interests and fees on indebtedness. Operating expense growth under the 200% and 150% asset (5) coverage columns are estimated using the average of the Company's actual historical operating expenses as a percentage of total assets averaged for the last 8 quarters, and assuming full immediate reinvestment of the debt proceeds that would be obtained from maximizing the amount of debt that could be raised.

We do not have an investment adviser and are internally managed by our executive officers under the supervision (6) of the Board. As a result, we do not pay investment advisory fees, but instead we pay the operating costs associated with employing investment management professionals.

Interest and fees paid in connection with borrowed funds represents our estimated interest, fees and credit facility expenses by annualizing our actual interest, fees, and credit facility expenses incurred for the six-months ended June 30, 2018, including the Wells Facility, the Union Bank Facility, the 2022 Notes, the 2024 Notes, the 2025 (7) Notes, the 2022 Convertible Notes, the 2021 Asset-Backed Notes and the SBA debentures. For the purposes of the 200% and 150% asset coverage column, we have assumed the maximum permissible debt is raised using the cost of debt on our most recent debt offering in April 2018 for our 2025 Notes, along with the cost of debt on the existing facilities. Additionally, the Company is in the process of amending and renegotiating the terms of the Credit Facilities to enable the Company to incur additional leverage in accordance with the reduced asset coverage requirements. However, the Company does not expect the interest rates or fees on the Credit Facilities will increase as a result of the approval of the Proposal.

Total annual expenses is the sum of operating expenses, and interest and fees paid in connection with borrowed funds. Total annual expenses is presented as a percentage of weighted average net assets attributable to common (8) stockholders because the holders of shares of our common stock (and not the holders of our debt securities or preferred stock, if any) bear all of our fees and expenses, including the fees and expenses of our wholly-owned consolidated subsidiaries, all of which are included in this fee table presentation.

Example

The following example demonstrates the projected dollar amount of total cumulative expenses that would be incurred over various periods with respect to a hypothetical investment in our common stock, assuming (1) its actual asset coverage ratio as of June 30, 2018, (2) a hypothetical asset coverage ratio of 200% (excluding the Company's SBA debentures as permitted by the Company's exemptive relief), and (3) a hypothetical asset coverage ratio of 150% (excluding the Company's SBA debentures as permitted by the Company's exemptive relief). These amounts are based upon our payment of annual operating expenses at the levels set forth in the table above and assume no additional leverage.
