The Certificate of Amendment to the Company's Certificate of Incorporation, already filed with the Secretary of State of Nevada, changed the Company's name to "American Capital Alliance, Inc." from Prelude Ventures, Inc. On October 9, 2003, the Company acquired an option for \$500,000 to purchase the assets and certain liabilities of Tri-State Stores,

Edgar Filing: PRELUDE VENTURES INC - Form 10QSB

Inc., an Illinois Corporation ("Tri-State"), GMG Partners LLC, an Illinois Limited Liability Company ("GMG"), and SASCO Springfield Auto Supply Company, a Delaware Corporation ("SASCO"). Tri-State, GMG and SASCO are collectively referred to herein as "TSG." Upon exercise of the option, the Company was to pay \$3,000,000 and assume certain liabilities, not exceeding \$700,000. TSG is involved in the automotive after market. During the first quarter of 2004, the Company elected not to continue to pursue this acquisition. The contractual amount of the option was never fully paid, however, amounts advanced for the option purchase and associated acquisition expenses resulted in an \$185,000 charge to operations for the year ended December 31, 2003 and \$10,000 for the nine month period ended September 30, 2004.

Motor Parts Waterhouse, Inc.

The Company issued 5,000,000 shares of common stock for an option to acquire all the outstanding stock of Motor Parts Warehouse, Inc. ("MPW"), of St. Louis, Missouri. In order to exercise the option, the Company must issue an additional 5,000,000 shares of common stock to the shareholders of MPW and pay \$2,200,000. This MPW option cannot be exercised until after the refinancing of the TSG debt of approximately \$3,000,000. MPW is also an auto parts distributor. As a result of the financing not being completed, the Company elected not to continue to pursue this acquisition.

Alliance Petroleum Products Company

On October 9, 2003, the Company also entered into a Stock Purchase Agreement ("Alliance Agreement") with Alliance Petroleum Products Company ("Alliance"), an Illinois Corporation, and a Rider to the Alliance Agreement ("Rider"). Alliance is in the business of blending and bottling motor oil and anti-freeze. Under the Alliance Agreement, the Company issued 5,000,000 shares of common stock for 100% of the issued and outstanding shares of the common stock of Alliance (757,864 common shares). An additional 5,000,000 shares of common stock of the Company is to be issued to Worldlink International Network, Inc. upon 24 months from the date hereof. Under the terms of the Rider, the Company is required to provide funding of at least \$3,500,000 to pay Harris Bank, a secured creditor of Alliance. The shareholders of Alliance have the option to have the 757,864 issued and outstanding shares of common stock of Alliance returned and the Alliance Agreement rescinded if they choose, if the Company did not arrange the funding within 150 days from the date of the execution of the Alliance Agreement. Since the expiration of the option period has expired, the principals of the transactions have verbally agreed to extend the option period pending completion of the financing. This was a material contingency to the transactions and as a result had to be resolved prior to recognition of a business combination. On June 24, 2004 (effective date July 1, 2004) the Company ("Prelude") then known

Edgar Filing: PRELUDE VENTURES INC - Form 10QSB

as American Capital Alliance, Inc., ("AMAI") and Alliance Petroleum Products Company ("Alliance"), entered into an Amendment to the original Alliance Agreement, dated October 9, 2003 whereby all previous conditions and contingencies were deemed to have been completed or waived and the agreement amended as follows:

Operations

American Petroleum Group, Inc. FKA American Capital Alliance, Inc. (the "Company") is a Chicago based holding company with an agenda to acquire, merge, and manage various business opportunities. The Company's current direction is in the manufacturing and distribution of petroleum and related products for the automotive industry. After the above acquisition, the Company is no longer considered a "development state entity"

Going Concern

The financial statements have been prepared using accounting principles generally accepted in the United States of America applicable for a going concern which assumes that the Company will realize its assets and discharge its liabilities in the ordinary course of business. At September 30, 2004, the Company has accumulated losses of \$11,496,085, since its inception. In addition, for each of the three and nine months ended September 30, 2004, the Company lost \$1,681,753 and \$1,833,925, respectively. Its ability to continue as a going concern is dependent upon the ability of the Company to obtain the necessary financing to meet its obligations and pay its liabilities arising from normal business operations when they come due; however, there can be no assurance that financing can and will be obtained. The Company is currently pursuing new debt and equity financing in conjunction with additional proposed acquisitions.

Note D -Significant Accounting Policies

Consolidation Policy

The accompanying consolidated financial statements include the accounts of the company and all of its wholly owned and majority-owned subsidiaries. Intercompany transactions and balances

Edgar Filing: PRELUDE VENTURES INC - Form 10QSB

have been eliminated in consolidation

Use of Estimates in Financial Statement Preparation

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could vary from the estimates that were used.

Cash and Cash Equivalents

For purposes of reporting cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Inventory

Inventories are stated at the lower of cost, determined by the first in, first out method, or market.

Fair Value of Financial Instruments

The carrying value of cash, accounts payable and loans payable approximates fair value because of the short maturity of these instruments. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

New Accounting Standards

Management does not believe that any recently issued, but not yet effective, accounting standards if currently adopted could have a material effect on the accompanying financial statements.

Note D - Significant Accounting Policies (Continued)

Impairment of Long Lived Assets

The Company evaluates whether events and circumstances have occurred that indicate the remaining estimated useful life of long lived assets may warrant revision or that the remaining balance of an asset may not be recoverable. The measurement of possible impairment is based on the ability to recover the balance of assets from expected future operating cash flows on an undiscounted basis. In the opinion of management, no such impairment existed at September 30, 2004.

Goodwill is assigned to specific reporting units and is reviewed for possible impairment at least annually or more frequently upon the occurrence of an event or when circumstances indicate that a

Edgar Filing: PRELUDE VENTURES INC - Form 10QSB

reporting unit's carrying amount is greater than its fair value.

Income Taxes

The Company uses the liability method of accounting for income taxes pursuant to Statement of Financial Accounting Standards, No. 109, "Accounting for Income Taxes." Any benefit from net loss carryforwards have been fully reserved for, due to the future uncertainty of the generation of earnings by the Company.

Basic Loss Per Share

The Company reports basic loss per share in accordance with the Statement of Financial Accounting Standards No. 128, "Earnings per Share". Basic loss per share is computed using the weighted average number of shares outstanding during the period. On August 25, 2004, the Company approved a one-for-twenty reverse stock split; all per share amounts have been retroactively adjusted.

Note E - Stock Borrowing Liability

In conjunction with the purchase of the afore mentioned "options", the Company entered into a stock borrowing arrangement whereby several stockholder/officers of the Company transferred approximately 1,000,000 shares pre-split or 50,000 shares on a post split basis of common stock into an escrow account. The shares were subsequently sold with the proceeds of \$500,000 being transferred to the company. The Company is obligated to return the shares to the original holders by April 2005. If the Company had to repurchase its stock at September 30, 2004, it would be required to pay \$29,000 to acquire the aggregate shares using a \$0.029 approximate share price in order to replace such shares for the original contributors of the stock.

In junction with change of control of the Company on August 11, 2004, 1,298,750 shares of common and 2,527,500 of preferred stock were issued to newly elected officers of the corporation. The Company recognized the issuance as compensation expense of \$1,516,500 for the period ended September 30, 2004. The value was based upon the closing price of the stock as quoted on the "electronic bulletin board market" on August 11, 2004. The Corporation also issued Series A Preferred Stock in the amount of 1,527,500 convertible at a ratio of one share of Series A Preferred Stock to 10 shares of common stock.

Note I - Commitments and Contingencies

Harris Bank

In conjunction with the Bank attempting to collect their debt against certain parties as indicated above in Note C, the bank is requesting that the Company become a party to any forbearance as to collection of the debt, such as becoming a guarantor or buying life insurance for the original makers of the debt. The basis of their claims is that the company is using facilities that secure the original borrowings. It is the opinion of management and counsel of the company that there is no basis and claims or commitments since Alliance or the Company was not a borrower or a guarantor on the debt (management of Alliance are guarantors of the original debt). The Company has offered to enter into negotiations with the bank and is attempting to secure financing to purchase the operating assets being utilized in the operations at fair value. To date the Company has attempted to obtain a listing of the assets; none has been provided.

Compensation for Utilizing Operation Assets

As indicated in Note C, no rent or compensation of any type has been paid to the entities that claim to have legal title to the operating assets of Alliance. Management has taken the position that since there was no contract or agreement to purchase or for the payment of rentals for these assets, therefore nothing is owed. The consolidated operations for the period since Alliance was acquired do not contain any provision for compensation for use of the facilities. The owner (and former resident of the Company and major shareholder) of the entity that owns the real estate had previously had Alliance recorded \$15,000 in rent a month with a corresponding increase to an amount payable to this entity; This is a contingency relating to the business combination that could potentially result in an adjustment of the purchase price of Alliance or additional charges to the Company's operations.

Amendment of Alliance Petroleum Products Company Agreement

On June 24, 2004 the Company amended the original agreement removing the contingencies contained in the original document, the most significant being of refinancing certain debt owed Harris Bank (see Note C and above). As part of this amendment the document stated Alliance assumed assumes all payment obligations and all other agreements of Alliance to the Harris Bank,; and all payment obligations and all other agreements of Alliance as set forth in the following four "Promissory Notes":

- o Alliance is to pay \$200,000 to Richard Stiefel after all amounts have been paid to Jesse Fuller and American Group Financial (owned by Jesse Fuller) and funding has been received from Cornell Capital Corporation. The note is non-interest bearing. Jesse Fuller was the former president and a director of the Company and a major shareholder. Richard Stiefel is an officer in Alliance and former shareholder, and currently is an officer/director/ shareholder of the Company. ----It is the position of the Company that since there was no consideration received and the funding from Cornell Capital Corporation was not completed and it is unlikely to be completed that there is no basis for this liability.
- o Alliance promises to pay American Group Financial, Inc. and/or Jesse Fuller \$407,368.09 and any additional sums that AGF or Jesse Fuller owes to Harris Bank. Jesse Fuller is the owner of AGF, the former president of the Company, former director and still a major shareholder. The note accrues interest at 5% per annum. The note due December 1, 2004. Management of the Company's position is that there was not consideration for the note and that Alliance was never a party on any debt obligations to Harris Bank.

OVERVIEW

History and Organization

American Petroleum Group, Inc., formerly American Capital Alliance, Inc., formerly Prelude Ventures, Inc. (the "Company") was incorporated under the laws of the State of Nevada on May 24, 2000. Prior to its acquisition of Alliance Petroleum Products, Inc., the Company had limited business operations and was considered a development stage enterprise. The activities during that period principally have been limited to organizational matters, and examining business and financing opportunities for the Company.

Prior Business Matters

On March 9, 2001, we acquired a 20 year mining lease from Steve Sutherland, the owner of 24 unpatented lode mining claims, sometimes referred to as the Medicine Project, located in Elko County, Nevada.

During the nine months ended September 30, 2003, management of the Company terminated the mining lease. As the Company terminated the lease, it is required to pay all federal and state mining claim maintenance fees for the current year. The Company is required to perform reclamation work on the property as required by federal state and local law for disturbances resulting from the Company's activities on the property. In the opinion of management, there will be no continuing liability. Please see the Company's Schedule 14C Information Statement as filed with the Securities and Exchange Commission on February 13, 2004 and mailed or furnished to Shareholders on February 17, 2004, and incorporated herein by reference, for additional details on this matter.

4

Business Acquisitions

"TSG" Acquisition

On October 9, 2003, the Company acquired an option for \$500,000 to purchase the assets and certain liabilities of Tri-State Stores, Inc., an Illinois Corporation ("Tri-State"), GMG Partners LLC, an Illinois Limited Liability Company ("GMG"), and SASCO Springfield Auto Supply Company, a Delaware Corporation ("SASCO"). Tri-State, GMG and SASCO are collectively referred to herein as "TSG." Upon exercise of the option, the Company was to pay \$3,000,000 and assume certain liabilities, not exceeding \$700,000. TSG is involved in the automotive after market. During the first quarter of 2004, the Company elected not to continue to pursue this acquisition.

Motor Parts Waterhouse, Inc.

The Company issued 5,000,000 shares of common stock for an option to acquire all the outstanding stock of Motor Parts Warehouse, Inc. ("MPW"), of St. Louis, Missouri. In order to exercise the option, the Company must issue an additional 5,000,000 shares of common stock to the shareholders of MPW and pay \$2,200,000. This MPW option cannot be exercised until after the refinancing of the TSG debt of approximately \$3,000,000. MPW is also an auto parts distributor. As a result of the financing not being completed, the Company elected not to continue to pursue this acquisition.

Alliance Petroleum Products Company

On October 9, 2003, the Company also entered into a Stock Purchase Agreement ("Alliance Agreement") with Alliance Petroleum Products Company ("Alliance"), an Illinois Corporation, and a Rider to the Alliance Agreement ("Rider"). Alliance

Edgar Filing: PRELUDE VENTURES INC - Form 10QSB

is in the business of blending and bottling motor oil and anti-freeze. Under the Alliance Agreement, the Company issued 5,000,000 shares of common stock for 100% of the issued and outstanding shares of the common stock of Alliance (757,864 common shares). An additional 5,000,000 shares of common stock of the Company is to be issued to Worldlink International Network, Inc. upon 24 months from the date hereof. Under the terms of the Rider, the Company is required to provide funding of at least \$3,500,000 to pay Harris Bank, a secured creditor of Alliance. The shareholders of Alliance have the option to have the 757,864 issued and outstanding shares of common stock of Alliance returned and the Alliance Agreement rescinded if they choose, if the Company did not arrange the funding within 150 days from the date of the execution of the Alliance Agreement. Since the expiration of the option period has expired, the principals of the transactions have verbally agreed to extend the option period pending completion of the financing. This was a material contingency to the transactions and as a result has to be resolved prior to recognition of a business combination. On June 24, 2004 (effective date July 1, 2004) the Company ("Prelude") now known as American Capital Alliance, Inc., ("AMAI") and Alliance Petroleum Products Company ("Alliance"), entered into an Amendment to the original Alliance Agreement, dated October 9, 2003 whereby all previous conditions and contingencies were deemed to have been completed or waived and the agreement amended as follows;

5

- o 5,000,000 shares of AMAI voting capital stock are to be issued to the shareholders of Alliance in the same proportions as the first 5,000,000 shares were issued to them pursuant to the exchange of securities contemplated in the Agreement and Plan of Reorganization upon the execution of this Amendment. The exchange of securities also includes, 1,000,000 shares of preferred shares, with the necessary Certificate of Designation, to allow conversion at the rate of 1 share of preferred to ten (10) shares of common, and to permit the preferred shareholders to vote their shares, at any time after issuance, and after they have been converted, the shares be issued to the shareholders of American in the same proportions as the first 5,000,000 shares were issued to them pursuant to the Agreement and Plan of Reorganization.
- o All the shares to the Alliance shareholders are no longer subject to a two year restriction prior to sale or transfer, but are now only subject to those transfer restrictions under Rule 144 of the Securities Laws.
- o AMAI assumes all payment obligations and all other agreements of Alliance as set forth in the including four "Promissory Notes"; and AMAI assumes all payment obligations and all other agreements of Alliance to the Harris Bank.

The operations of Alliance have been consolidated with the results of AMAI since July 1, 2004. American Petroleum Group, Inc. formerly American Capital Alliance, Inc. (the "Company") is a Chicago based holding company with an agenda to acquire, merge, and manage various business opportunities. The Company's current direction is in the manufacturing and distribution of petroleum and related products for the automotive industry. After the above acquisition, the Company is no longer considered a "development state entity"

PLAN OF OPERATIONS

We were a startup, development stage Company prior to the acquisition of Alliance Petroleum Products Company (AAPC) and did not realized any revenues from our business operations until that time. However at time of acquiring APPC

Edgar Filing: PRELUDE VENTURES INC - Form 10QSB

its sales volume was at a point below its break even point and there fore was losing money. Management of the Company feels that APCC is operating at a small percentage of its capacity with its major constraint on increasing volume being that of financing raw materials for manufacturing and some other limited variable manufacturing costs. Accordingly, we must raise money from sources other than the operations of this business. Our only other source of cash at this time is investments by others in our Company. We must raise cash to complete the acquisitions and stay in business.

6

We must also obtain additional financing to either purchase our operating assets or obtain working capital for leasing arrangements

To meet our need for cash, we are attempting to raise debt and equity financing to complete the acquisitions described in this document and fund the Company's on-going operations. There is no assurance that we will be able to raise these funds and stay in business. If we do not raise the funds required to complete any of the acquisitions, we will have to find alternate sources such as a secondary public offering, private placement of securities, or loans from officers or others. If we need additional cash and can not raise it, we will either have to suspend operations until we do raise the cash or cease operations entirely

Limited Operating History.

The only historical financial information about our Company on which to base an evaluation of our performance is the last three months after the acquisition of APCC which was generating losses at the time of acquisition . We can not guarantee we will be successful in our business operations. Our business is subject to the risks inherent in the establishment of a new business enterprise, including limited capital resources and the ability to find and finance suitable acquisition candidates. We are seeking equity and debt financing to provide the capital required to fund additional proposed acquisitions and our on-going operations.

We have no assurance that future financing will be available to the Company on acceptable terms. If financing is not available on satisfactory terms, we may be unable to continue, develop or expand our operations. Equity financing could result in additional dilution to shareholders.

Liquidity, Capital Resources and Operations

Since the Company's inception, the Company has raised funds from officer/stockholder advances, from private sales of its common shares and approximately \$500,000 from sale of borrowed stock contributed by the Company's promoters. This money has been utilized for start-up costs and operating capital. For each of the three and nine months ending September 30, 2004, the Company has sustained operating losses of \$1,681,753 and \$1,833,925, respectively, of which for each of the three month and nine months ended September 30, 2004, were \$1,516,500 and \$1,523,200, respectively, for the payment for professional services rendered to the Company and compensation to certain officers.

In this regard, the Company's plan of operations for the next 12 months is to pursue profitable business acquisitions, and obtain financing to increase the sale volume of APCC.. Product research and development is expected is expected to be minimal during the period. Additionally, the Company does not

Edgar Filing: PRELUDE VENTURES INC - Form 10QSB

expect any change in number of employees other than through acquisitions.

RISK FACTORS

Harris Bank

In conjunction with the Bank attempting to collect their debt against certain parties, the bank is requesting that the Company become a party to any forbearance as to collection of the debt, such as becoming a guarantor or buying life insurance for the original makers of the debt. Jessee Fuller is the owner of AGF, the former president of the Company, former director and still a major shareholder. The note accrues interest at 5% per annum. The note due December 1, 2004. Much of the information included in filing includes or is based upon estimates, projections or other "forward looking statements". Such forward-looking statements include any projections or estimates made by us and our management in connection with our business operations. While these forward-looking statements, and any assumptions upon which they are based, are made in good faith and reflect our current judgment regarding the direction of our business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumptions or other future performance suggested herein.

Such estimates, projections or other "forward-looking statements" involve various risks and uncertainties as outlined above. We caution the reader that important factors in some cases have affected and, in the future, could materially affect actual results and cause actual results to differ materially from the results expressed in any such estimates, projections or other "forward-looking statements".

9

Our common shares are considered speculative during our search for a new business opportunity. Prospective investors should consider carefully the risk factors set out below.

Government Regulation

To the best of our knowledge, we are not currently subject to direct federal, state or local regulation in the United States, other than regulations applicable to businesses generally.

Key personnel

All of our present officers or directors are key to our continuing operations, we rely upon the continued service and performance of these officers and directors, and our future success depends on the retention of these people,

Edgar Filing: PRELUDE VENTURES INC - Form 10QSB

whose knowledge of our business and whose technical expertise would be difficult to replace. At this time, none of the officers or directors is bound by employment agreements, and as a result, any of them could leave with little or no prior notice.

If we are unable to hire and retain technical, sales and marketing and operations personnel, any business we acquire could be materially adversely affected. It is likely that we will have to hire a significant number of additional personnel in the future if we identify and complete the acquisition of a business opportunity, or if we enter into a business combination. Competition for qualified individuals is likely to be intense, and we may not be able to attract, assimilate, or retain additional highly qualified personnel in the future. The failure to attract, integrate, motivate and retain these employees could harm our business.

Limited Operating History. Need for Additional Capital

There is limited financial information about our Company on which to base an evaluation of our performance. We were a development stage Company prior to the acquisition of APPC and have not generated any substantial revenues from operations. We can not guarantee we will be successful in our business operations. Our business is subject to the risks inherent in the establishment of a new business enterprise, including limited capital resources and the ability to find and finance suitable acquisition candidates. We are seeking equity and debt financing to provide the capital required to fund the proposed acquisitions and our on-going operations.

We have no assurance that future financing will be available to the Company on acceptable terms. If financing is not available on satisfactory terms, we may be unable to continue, develop or expand our operations. Equity financing could result in additional dilution to shareholders.

We have not conducted or received results of market research indicating that there is a demand for the acquisition of a business opportunity or business combination as contemplated by our company. Even if there is demand for the acquisition of a business opportunity or combination as contemplated, there is no assurance we will successfully complete such an acquisition or combination.

10

Regulation

Although we will be subject to regulation under the Securities Exchange Act of 1934, management believes that we will not be subject to regulation under the Investment Company Act of 1940, insofar as we will not be engaged in the business of investing or trading in securities. In the event that we engage in business combinations which result in us holding passive investment interests in a number of entities, we could be subject to regulation under the Investment Company Act of 1940, meaning that we would be required to register as an Investment company and could be expected to incur significant registration and compliance costs. We have obtained no formal determination from the Securities and Exchange Commission as to the status of our company under the Investment Company Act of 1940 and, consequently, any violation of such act would subject us to material adverse consequences.

Uncertain Ability to Manage Growth

Our ability to achieve any planned growth upon the acquisition of a suitable business opportunity or business combination will be dependent upon a number of factors including, but not limited to, our ability to hire, train and assimilate management and other employees and the adequacy of our financial resources. In addition, there can be no assurance that we will be able to manage successfully any business opportunity or business combination. Failure to manage anticipated growth effectively and efficiently could have a materially adverse effect on our business.

Edgar Filing: PRELUDE VENTURES INC - Form 10QSB

"Penny Stock" Rules May Restrict the Market for the Company's Shares

Our common shares are subject to rules promulgated by the Securities and Exchange Commission relating to "penny stocks," which apply to companies whose shares are not traded on a national stock exchange or on the NASDAQ system, trade at less than \$5.00 per share, or who do not meet certain other financial requirements specified by the Securities and Exchange Commission. These rules require brokers who sell "penny stocks" to persons other than established customers and "accredited investors" to complete certain documentation, make suitable inquiries of investors, and provide investors with certain information concerning the risks of trading in the such penny stocks. These rules may discourage or restrict the ability of brokers to sell our common shares and may affect the secondary market for our common shares. These rules could also hamper our ability to raise funds in the primary market for our common shares.

Possible Volatility of Share Prices

Our common shares are currently publicly traded on the Over-the-Counter Bulletin Board service of the National Association of Securities Dealers, Inc. The trading price of our common shares has been subject to wide fluctuations. Trading prices of our common shares may fluctuate in response to a number of factors, many of which will be beyond our control. The stock market has generally experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of companies with no current business operation. There can be no assurance that trading prices and price earnings ratios previously experienced by our common shares will be matched or maintained. These broad market and industry factors may adversely affect the market price of our common shares, regardless of our operating performance.

11

In the past, following periods of volatility in the market price of a company's securities, securities class-action litigation has often been instituted. Such litigation, if instituted, could result in substantial costs for us and a diversion of management's attention and resources.

Indemnification of Directors, Officers and Others

Our by-laws contain provisions with respect to the indemnification of our officers and directors against all expenses (including, without limitation, attorneys' fees, judgments, fines, settlements, and other amounts actually and reasonably incurred in connection with any proceeding arising by reason of the fact that the person is one of our officers or directors) incurred by an officer or director in defending any such proceeding to the maximum extent permitted by Nevada law.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of our company under Nevada law or otherwise, we have been advised the opinion of the Securities and Exchange Commission is that such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable.

Anti-Takeover Provisions

We do not currently have a shareholder rights plan or any anti-takeover provisions in our By-laws. Without any anti-takeover provisions, there is no deterrent for a take-over of our company, which may result in a change in our management and directors.

Reports to Security Holders

Edgar Filing: PRELUDE VENTURES INC - Form 10QSB

Under the securities laws of Nevada, we are not required to deliver an annual report to our shareholders but we intend to send an annual report to our shareholders.

Item 3. Controls And Procedures

The registrant's new Principal executive financial officer, based on his evaluation of the registrant's disclosure controls and procedures (as defined in Rules 13a-14 (c) of the Securities Exchange Act of 1934) as of September 30, 2004 has concluded that the registrants' disclosure controls and procedures are adequate and effective to ensure that material information relating to the registrants and their consolidated subsidiaries is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms, particularly during the period in which this quarterly report has been prepared.

12

There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholders are an adverse party or have a material interest adverse to us.

There is a threatened action by the Harris Bank of Chicago, Illinois with respect to a defaulted loan agreement. Harris Bank claims to have a lien on the equipment used by the Registrant in its operations. The Registrant has had contact with Harris Bank and is attempting to resolve the matter. In the event that a resolution is not resolved in a manner satisfactory to the Registrant, it could result in the seizure of the equipment and have a material adverse effect on the operations of the Registrant.

Item 2. Changes In Securities

Effective August 25, 2004, the control of the Registrant changed. This was due to appointment of the new Directors. In addition, the Registrant issued a controlling block of shares to the persons identified. The shares were issued as part of compensation packages for the services to be rendered to the registrant.
