Triton was acquired by NeoMedia in March 2006, at which time NeoMedia established the NeoMedia Telecom Services (NTS) business unit, consisting solely of Triton's business.

### RISK FACTORS

In addition to the other information included in this registration statement, including the matters addressed in "Cautionary Statement Concerning Forward-Looking Statements," you should carefully consider the following risks before deciding whether to buy our common stock. If any of these risks actually occur, our business, financial condition, operating results or cash flows could be materially adversely affected. This could cause the trading price of our common stock to decline and you may lose part or all of your investment.

#### RISKS RELATED TO NEOMEDIA'S BUSINESS

##### NEOMEDIA HAS HISTORICALLY LOST MONEY AND LOSSES MAY CONTINUE

NeoMedia has incurred substantial losses since inception, and anticipates continuing to incur substantial losses for the foreseeable future. NeoMedia incurred a loss of \$1,317,000, \$1,219,000, \$9,147,000 and \$7,230,000 for the three months ended March 31, 2006 and 2005, and the years ended December 31, 2005 and 2004, respectively. NeoMedia's accumulated losses were approximately \$93,843,000 and \$92,524,000 as of March 31, 2006 and December 31, 2005, respectively. As of March 31, 2006 and December 31, 2005 and 2004, NeoMedia had a working capital deficit of approximately \$26,478,000, \$4,874,000 and \$2,597,000, respectively. NeoMedia had stockholders' equity of \$49,427,000, \$4,227,000 and \$4,392,000 as of March 31, 2006 and December 31, 2005 and 2004, respectively. NeoMedia generated revenues of \$2,052,000, \$747,000, \$2,156,000 and \$1,700,000 for the three months ended March 31, 2006 and 2005 and the years ended December 31, 2005 and 2004, respectively. In addition, during the three months ended March 31, 2006 and 2005 and the years ended December 31, 2005 and 2004, NeoMedia recorded negative cash flows from operations of \$2,586,000, \$1,660,000, \$6,509,000 and \$4,650,000, respectively. To succeed, NeoMedia must develop new client and customer relationships and substantially increase its revenue derived from improved products and additional value-added services. NeoMedia has expended, and to the extent it has available financing, NeoMedia intends to continue to expend, substantial resources to develop and improve its products, increase its value-added services and to market its products and services. These development and marketing expenses must be incurred well in advance of the recognition of revenue. As a result, NeoMedia may not be able to achieve or sustain profitability.

NEOMEDIA'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM HAVE ADDED GOING CONCERN LANGUAGE TO THEIR REPORT ON NEOMEDIA'S CONSOLIDATED FINANCIAL STATEMENTS, WHICH MEANS THAT NEOMEDIA MAY NOT BE ABLE TO CONTINUE OPERATIONS

The report of Stonefield Josephson, Inc., NeoMedia's independent

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

registered public accounting firm, with respect to NeoMedia's consolidated financial statements and the related notes for the years ended December 31, 2005 and 2004, indicates that, at the date of their report, NeoMedia had suffered significant recurring losses from operations and its working capital deficit raised substantial doubt about its ability to continue as a going concern. NeoMedia's consolidated financial statements do not include any adjustments that might result from this uncertainty.

NEOMEDIA HAS GUARANTEED THE VALUE OF STOCK ISSUED IN CONNECTION WITH RECENT MERGERS THROUGH THE REGISTRATION OF THE SHARES, WHICH COULD RESULT IN A MATERIAL CASH LIABILITY

Pursuant to the terms of the merger agreements with Mobot, Sponge, Gavitec, and 12Snap, in the event that NeoMedia's stock price at the time the consideration shares issued in connection with each acquisition are saleable is less than the price at which they were valued for purposes of the respective merger agreements (between \$0.3839 and \$0.3956 per share), NeoMedia is obligated to compensate the sellers in cash for the difference between the price at the time the shares become saleable and the price the shares were valued for purposes of the merger agreement. Subsequent to the closing of the acquisitions, NeoMedia's stock has traded as low as \$0.202 per share. Assuming a stock price at the time the shares become saleable of \$0.227, which was the last sale price on June 15, 2006, NeoMedia would have a cash liability of \$18.5 million resulting from these clauses.

4

THERE IS LIMITED INFORMATION UPON WHICH INVESTORS CAN EVALUATE NEOMEDIA'S BUSINESS BECAUSE THE PHYSICAL-WORLD-TO-INTERNET MARKET HAS EXISTED FOR ONLY A SHORT PERIOD OF TIME

The physical-world-to-Internet market in which NeoMedia operates is a recently developed market. Further, NeoMedia has conducted operations in this market only since March 1996. Consequently, NeoMedia has a relatively limited operating history upon which an investor may base an evaluation of NeoMedia's primary business and determine NeoMedia's prospects for achieving its intended business objectives. To date, NeoMedia has sold its physical-world-to-Internet products to only 12 companies. NeoMedia is prone to all of the risks inherent to the establishment of any new business venture, including unforeseen changes in its business plan. An investor should consider the likelihood of NeoMedia's future success to be highly speculative in light of its limited operating history in its primary market, as well as the limited resources, problems, expenses, risks, and complications frequently encountered by similarly situated companies in new and rapidly evolving markets, such as the physical-world-to-Internet space. To address these risks, NeoMedia must, among other things:

- o maintain and increase its client base;
- o implement and successfully execute its business and marketing strategy;
- o continue to develop and upgrade its products;
- o continually update and improve service offerings and features;
- o respond to industry and competitive developments; and
- o attract, retain, and motivate qualified personnel.

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

NeoMedia may not be successful in addressing these risks. If NeoMedia is unable to do so, its business, prospects, financial condition, and results of operations would be materially and adversely affected, and we could be forced to curtail or cease our business operations.

NEOMEDIA'S FUTURE SUCCESS DEPENDS ON THE TIMELY INTRODUCTION OF NEW PRODUCTS AND THE ACCEPTANCE OF THESE NEW PRODUCTS IN THE MARKETPLACE.

Rapid technological change and frequent new product introductions are typical for the markets NeoMedia serves. NeoMedia's future success will depend in large part on continuous, timely development and introduction of new products that address evolving market requirements. To the extent that NeoMedia fails to introduce new and innovative products, it may lose market share to its competitors, which may be difficult to regain. Any inability, for technological or other reasons, to successfully develop and introduce new products could materially and adversely affect NeoMedia's business, and we could be forced to curtail or cease our business operations.

NEOMEDIA'S COMMON STOCK IS DEEMED TO BE "PENNY STOCK," WHICH MAY MAKE IT MORE DIFFICULT FOR INVESTORS TO SELL THEIR SHARES DUE TO SUITABILITY REQUIREMENTS

NeoMedia's common stock is deemed to be "penny stock" as that term is defined in Rule 3a51-1 promulgated under the Securities Exchange Act of 1934, as amended. These requirements may reduce the potential market for NeoMedia's common stock by reducing the number of potential investors. This may make it more difficult for investors in NeoMedia's common stock to sell shares to third parties or to otherwise dispose of them. This could cause NeoMedia's stock price to decline. Penny stocks are stock:

- o with a price of less than \$5.00 per share;
- o that are not traded on a "recognized" national exchange;
- o whose prices are not quoted on the NASDAQ automated quotation system (NASDAQ listed stock must still have a price of not less than \$5.00 per share); or
- o in issuers with net tangible assets less than \$2 million (if the issuer has been in continuous operation for at least three years) or \$10 million (if in continuous operation for less than three years), or with average revenues of less than \$6 million for the last three years.

Broker-dealers dealing in penny stocks are required to provide potential investors with a document disclosing the risks of penny stocks. Moreover, broker-dealers are required to determine whether an investment in a penny stock is a suitable investment for a prospective investor.

5

EXISTING SHAREHOLDERS WILL EXPERIENCE SIGNIFICANT DILUTION WHEN CERTAIN INVESTORS CONVERT THEIR PREFERRED STOCK TO COMMON STOCK OR WHEN THE INVESTORS EXERCISE THEIR WARRANTS AND RECEIVE COMMON STOCK UNDER THE INVESTMENT AGREEMENT WITH THE INVESTORS

The issuance of shares of common stock pursuant to the conversion of Series C Convertible Preferred Stock pursuant to our transaction with Cornell Capital Partners and the issuance of shares of common stock upon the exercise of

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

warrants will have a dilutive impact on our stockholders. As a result, our net income or loss per share could decrease in future periods, and the market price of our common stock could decline. In addition, the lower our stock price is, the more shares of common stock we will have to issue pursuant to the conversion of our preferred stock. If our stock price is lower, then our existing stockholders would experience greater dilution.

DUE TO THE ACCOUNTING TREATMENT OF CERTAIN CONVERTIBLE PREFERRED STOCK INSTRUMENTS ISSUED BY NEOMEDIA, A FLUCTUATION IN NEOMEDIA'S STOCK PRICE COULD HAVE A MATERIAL IMPACT ON NEOMEDIA'S RESULTS OF OPERATIONS

During the first quarter of 2006, NeoMedia recognized income in the amount of \$4,768,000 from adjustments recorded to reflect the change in fair value of derivatives issued in connection with its Series C Convertible Preferred Shares. The income results from a decrease in NeoMedia's share price from \$0.389 per share at the time of issuance of the Series C Convertible Preferred Shares (February 17, 2006) to \$0.345 at March 31, 2006. NeoMedia will adjust the carrying value of the derivative instruments to market at each balance sheet date. As a result, NeoMedia could experience significant fluctuations in its net income (loss) in future periods as a result of such charges.

NEOMEDIA IS UNCERTAIN OF THE SUCCESS OF ITS NEOMEDIA MOBILE BUSINESS UNIT AND THE FAILURE OF THIS UNIT WOULD NEGATIVELY AFFECT THE PRICE OF NEOMEDIA'S STOCK

NeoMedia provides products and services that provide a link from physical objects, including printed material, to the mobile Internet. NeoMedia can provide no assurance that:

- o its NeoMedia Mobile business unit will ever achieve profitability;
- o its current product offerings will not be adversely affected by the focusing of its resources on the physical-world-to-Internet space; or
- o the products NeoMedia develops will obtain market acceptance.

In the event that the NeoMedia Mobile business unit should never achieve profitability, that NeoMedia's current product offerings should so suffer, or that NeoMedia's products fail to obtain market acceptance, NeoMedia's business, prospects, financial condition, and results of operations would be materially adversely affected, and we could be forced to curtail or cease our business operations.

A LARGE PERCENTAGE OF NEOMEDIA'S ASSETS ARE INTANGIBLE ASSETS, WHICH WILL HAVE LITTLE OR NO VALUE IF NEOMEDIA'S OPERATIONS ARE UNSUCCESSFUL

At March 31, 2006 and December 31, 2005 and 2004, approximately 81%, 48% and 49%, respectively, of NeoMedia's total assets were intangible assets, consisting primarily of rights related to NeoMedia's patents, other intellectual property, and excess of purchase price over fair market value paid for Mobot, Sponge, Gavitec, 12Snap, BSD, and CSI International, Inc. If NeoMedia's operations are unsuccessful, these assets will have little or no value, which would materially adversely affect the value of NeoMedia's stock and you could lose your entire investment in NeoMedia.

NeoMedia reviews its amortizable intangible assets for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. Goodwill is required to be tested for impairment at least annually. NeoMedia may be required to record a significant charge to earnings in its financial statements during the period in which any impairment of our goodwill or amortizable intangible assets is determined, resulting in an impact on results of operations.

CERTAIN OF NEOMEDIA'S EMERGING PRODUCTS AND SERVICES HAVE LIMITED HISTORY AND MAY NOT RESULT IN SUCCESS

Certain of NeoMedia's emerging products and services have limited history upon which an investor may evaluate their prospects. In addition, to date, NeoMedia has conducted limited marketing efforts directly relating to its emerging technology products, consisting primarily of the PaperClick suite of products, and certain products of recent acquisitions Mobot and Gavitec. Many of NeoMedia's marketing efforts with respect to these emerging technologies have been largely untested in the marketplace, and may not result in materially increased sales of these emerging products and services. To penetrate the emerging markets in which it competes, NeoMedia expects that it will have to exert significant efforts to create awareness of, and demand for, its emerging products and services. NeoMedia intends to continue to expand its sales and marketing resources as the market continues to mature. NeoMedia's failure to further develop its sales and marketing capabilities and successfully market its emerging products and services would have a material adverse effect on its business, prospects, financial condition, and results of operations, and we could be forced to curtail or cease our business operations.

NEOMEDIA'S INTERNALLY DEVELOPED SYSTEMS ARE INEFFICIENT AND MAY PUT NEOMEDIA AT A COMPETITIVE DISADVANTAGE

NeoMedia uses internally developed technologies for a portion of its systems integration services, as well as the technologies required to interconnect its clients' and customers' physical-world-to-Internet systems and hardware with its own. As NeoMedia develops these systems in order to integrate disparate systems and hardware on a case-by-case basis, these systems are inefficient and require a significant amount of customization. Such client and customer-specific customization is time consuming and costly and may place NeoMedia at a competitive disadvantage when compared to competitors with more efficient systems. If NeoMedia cannot compete effectively, we could be forced to curtail or cease our business operations.

NEOMEDIA COULD FAIL TO ATTRACT OR RETAIN KEY PERSONNEL

NeoMedia's future success will depend in large part on its ability to attract, train, and retain additional highly skilled executive level management, creative, technical, and sales personnel. Competition is intense for these types of personnel from other technology companies and more established organizations, many of which have significantly larger operations and greater financial, marketing, human, and other resources than NeoMedia has. NeoMedia may not be successful in attracting and retaining qualified personnel on a timely basis, on competitive terms, or at all. NeoMedia's failure to attract and retain qualified personnel could have a material adverse effect on its business, prospects, financial condition, and results of operations, and could force us to curtail or cease our business operations.

NEOMEDIA DEPENDS UPON ITS SENIOR MANAGEMENT AND THEIR LOSS OR UNAVAILABILITY COULD PUT NEOMEDIA AT A COMPETITIVE DISADVANTAGE

NeoMedia's success depends largely on the skills of certain key management and technical personnel, including Charles T. Jensen, NeoMedia's President and Chief Executive Officer, Charles W. Fritz, NeoMedia's founder and Chairman of the Board of Directors, Martin N. Copus, NeoMedia's Chief Operating Officer and

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

head of the NMM business unit, and David A. Dodge, NeoMedia's Chief Financial Officer. The loss of the services of Messrs. Jensen, Fritz, Copus, or Dodge could materially harm NeoMedia's business because of the cost and time necessary to replace and train a replacement. Such a loss would also divert management attention away from operational issues. NeoMedia does not presently maintain a key-man life insurance policy on Messrs. Jensen, Fritz, Copus, or Dodge.

### NEOMEDIA MAY BE UNSUCCESSFUL IN INTEGRATING ITS RECENTLY COMPLETED AND PENDING ACQUISITIONS WITH ITS CURRENT BUSINESS

The success of the acquisitions of Mobot, 12Snap, Sponge, Gavitec, and BSD could depend on the ability of NeoMedia's executive management to integrate the business plan of each company with NeoMedia's overall business plan. Failure to properly integrate the business could have a material adverse effect on the expected revenue and operations of the acquisitions, as well as the expected return on investment for NeoMedia. If we are unsuccessful in integrating our recent acquisitions, we could be forced to curtail or cease our business operations

### NEOMEDIA MAY BE UNABLE TO PROTECT ITS INTELLECTUAL PROPERTY RIGHTS AND MAY BE LIABLE FOR INFRINGING THE INTELLECTUAL PROPERTY RIGHTS OF OTHERS

NeoMedia's success in the physical-world-to-Internet market is dependent upon its proprietary technology, including patents and other intellectual property, and on the ability to protect proprietary technology and other intellectual property rights. In addition, NeoMedia must conduct its operations without infringing on the proprietary rights of third parties. NeoMedia also intends to rely upon unpatented trade secrets and the know-how and expertise of its employees, as well as its patents. To protect its proprietary technology and other intellectual property, NeoMedia relies primarily on a combination of the protections provided by applicable patent, copyright, trademark, and trade secret laws as well as on confidentiality procedures and licensing arrangements. Although NeoMedia believes that it has taken appropriate steps to protect its unpatented proprietary rights, including requiring that its employees and third parties who are granted access to NeoMedia's proprietary technology enter into confidentiality agreements, NeoMedia can provide no assurance that these measures will be sufficient to protect its rights against third parties. Others may independently develop or otherwise acquire patented or unpatented technologies or products similar or superior to NeoMedia's.

7

NeoMedia licenses from third parties certain software tools that are included in NeoMedia's services and products. If any of these licenses were terminated, NeoMedia could be required to seek licenses for similar software from other third parties or develop these tools internally. NeoMedia may not be able to obtain such licenses or develop such tools in a timely fashion, on acceptable terms, or at all. Companies participating in the software and Internet technology industries are frequently involved in disputes relating to intellectual property. NeoMedia may in the future be required to defend its intellectual property rights against infringement, duplication, discovery, and misappropriation by third parties or to defend against third party claims of infringement. Likewise, disputes may arise in the future with respect to ownership of technology developed by employees who were previously employed by other companies. Any such litigation or disputes could result in substantial costs to, and a diversion of effort by, NeoMedia. An adverse determination could subject NeoMedia to significant liabilities to third parties, require NeoMedia to seek licenses from, or pay royalties to, third parties, or require NeoMedia to develop appropriate alternative technology. Some or all of these licenses may not be available to NeoMedia on acceptable terms or at all, and NeoMedia may be

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

unable to develop alternate technology at an acceptable price or at all. Any of these events could have a material adverse effect on NeoMedia's business, prospects, financial condition, and results of operations, and we could be forced to curtail or cease our business operations.

NEOMEDIA IS EXPOSED TO PRODUCT LIABILITY CLAIMS AND AN UNINSURED CLAIM COULD HAVE A MATERIAL ADVERSE EFFECT ON NEOMEDIA'S BUSINESS, PROSPECTS, FINANCIAL CONDITION, AND RESULTS OF OPERATIONS, AS WELL AS THE VALUE OF NEOMEDIA'S STOCK

Many of NeoMedia's projects are critical to the operations of its clients' businesses. Any failure in a client's information system could result in a claim for substantial damages against NeoMedia, regardless of NeoMedia's responsibility for such failure. NeoMedia could, therefore, be subject to claims in connection with the products and services that it sells. NeoMedia currently maintains product liability insurance. There can be no assurance that:

- o NeoMedia has contractually limited its liability for such claims adequately or at all; or
- o NeoMedia would have sufficient resources to satisfy any liability resulting from any such claim.

The successful assertion of one or more large claims against NeoMedia could have a material adverse effect on its business, prospects, financial condition, and results of operations, and we could be forced to curtail or cease our business operations.

NEOMEDIA WILL NOT PAY CASH DIVIDENDS AND INVESTORS MAY HAVE TO SELL THEIR SHARES IN ORDER TO REALIZE THEIR INVESTMENT

NeoMedia has not paid any cash dividends on its common stock and does not intend to pay cash dividends in the foreseeable future. NeoMedia intends to retain future earnings, if any, for reinvestment in the development and marketing of NeoMedia's products and services. As a result, investors may have to sell their shares of common stock to realize their investment.

8

SOME PROVISIONS OF NEOMEDIA'S CERTIFICATE OF INCORPORATION AND BYLAWS MAY DETER TAKEOVER ATTEMPTS, WHICH MAY LIMIT THE OPPORTUNITY OF NEOMEDIA'S STOCKHOLDERS TO SELL THEIR SHARES AT A PREMIUM TO THE THEN-CURRENT MARKET PRICE

Some of the provisions of NeoMedia's Certificate of Incorporation and bylaws could make it more difficult for a third party to acquire NeoMedia, even if doing so might be beneficial to NeoMedia's stockholders by providing them with the opportunity to sell their shares at a premium to the then-current market price. On December 10, 1999, NeoMedia's Board of Directors adopted a stockholders rights plan and declared a non-taxable dividend of one right to acquire Series A Preferred Stock of NeoMedia, par value \$0.01 per share, on each outstanding share of NeoMedia's common stock to stockholders of record on December 10, 1999 and each share of common stock issued thereafter until a pre-defined hostile takeover date. The stockholder rights plan was adopted as an anti-takeover measure, commonly referred to as a "poison pill." The stockholder rights plan was designed to enable all stockholders not engaged in a hostile takeover attempt to receive fair and equal treatment in any proposed takeover of NeoMedia and to guard against partial or two-tiered tender offers, open market accumulations, and other hostile tactics to gain control of NeoMedia. The stockholders rights plan was not adopted in response to any effort to acquire

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

control of NeoMedia at the time of adoption. This stockholders rights plan may have the effect of rendering more difficult, delaying, discouraging, preventing, or rendering more costly an acquisition of NeoMedia or a change in control of NeoMedia. Certain of NeoMedia's directors, officers and principal stockholders, Charles W. Fritz, William E. Fritz and The Fritz Family Limited Partnership and their holdings were exempted from the triggering provisions of NeoMedia's "poison pill" plan, as a result of the fact that, as of the plan's adoption, their holdings might have otherwise triggered the "poison pill".

In addition, NeoMedia's Certificate of Incorporation authorizes the Board of Directors to designate and issue preferred stock, in one or more series, the terms of which may be determined at the time of issuance by the Board of Directors, without further action by stockholders, and may include voting rights, including the right to vote as a series on particular matters, preferences as to dividends and liquidation, conversion, redemption rights, and sinking fund provisions.

NeoMedia is authorized to issue a total of 25,000,000 shares of Preferred Stock, par value \$0.01 per share. The issuance of any preferred stock could have a material adverse effect on the rights of holders of NeoMedia's common stock, and, therefore, could reduce the value of shares of NeoMedia's common stock. In addition, specific rights granted to future holders of preferred stock could be used to restrict NeoMedia's ability to merge with, or sell NeoMedia's assets to, a third party. The ability of the Board of Directors to issue preferred stock could have the effect of rendering more difficult, delaying, discouraging, preventing, or rendering more costly an acquisition of NeoMedia or a change in NeoMedia's control thereby preserving control by the current stockholders.

### RISKS RELATING TO NEOMEDIA'S INDUSTRY

#### THE SECURITY OF THE INTERNET POSES RISKS TO THE SUCCESS OF NEOMEDIA'S ENTIRE BUSINESS

Concerns over the security of the Internet and other electronic transactions, and the privacy of consumers and merchants, may inhibit the growth of the Internet and other online services generally, especially as a means of conducting commercial transactions, which may have a material adverse effect on NeoMedia's physical-world-to-Internet business.

#### NEOMEDIA WILL ONLY BE ABLE TO EXECUTE ITS PHYSICAL-WORLD-TO-INTERNET BUSINESS PLAN IF INTERNET USAGE AND ELECTRONIC COMMERCE CONTINUE TO GROW

NeoMedia's future revenues and any future profits are substantially dependent upon the widespread acceptance and use of the Internet and camera devices on mobile telephones. If use of the Internet and camera devices on mobile telephones does not continue to grow or grows more slowly than expected, or if the infrastructure for the Internet and camera devices on mobile telephones does not effectively support the growth that may occur, or does not become a viable commercial marketplace, NeoMedia's physical-world-to-Internet business, and therefore NeoMedia's business, prospects, financial condition, and results of operations, could be materially adversely affected, and we could be forced to curtail or cease our business operations. Rapid growth in the use of, and interest in, the Internet and camera devices on mobile telephones is a recent phenomenon, and may not continue on a lasting basis. In addition, customers may not adopt, and continue to use mobile telephones as a medium of information retrieval or commerce. Demand and market acceptance for recently introduced services and products over the mobile Internet are subject to a high

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

level of uncertainty, and few services and products have generated profits. For NeoMedia to be successful, consumers and businesses must be willing to accept and use novel and cost efficient ways of conducting business and exchanging information.

In addition, the public in general may not accept the use of the Internet and camera devices on mobile telephones as a viable commercial or information marketplace for a number of reasons, including potentially inadequate development of the necessary network infrastructure or delayed development of enabling technologies and performance improvements. To the extent that mobile phone Internet usage continues to experience significant growth in the number of users, their frequency of use, or in their bandwidth requirements, the infrastructure for the mobile Internet may be unable to support the demands placed upon them. In addition, the mobile Internet and mobile interactivity could lose its viability due to delays in the development or adoption of new standards and protocols required to handle increased levels of mobile Internet activity, or due to increased governmental regulation. Significant issues concerning the commercial and informational use of the mobile Internet, and online networks technologies, including security, reliability, cost, ease of use, and quality of service, remain unresolved and may inhibit the growth of Internet business solutions that utilize these technologies. Changes in, or insufficient availability of, telecommunications services to support the Internet, the Web or other online services also could result in slower response times and adversely affect usage of the Internet, the Web and other online networks generally and NeoMedia's physical-world-to-Internet product and networks in particular.

NEOMEDIA MAY NOT BE ABLE TO ADAPT AS THE INTERNET, PHYSICAL-WORLD-TO-INTERNET, AND CUSTOMER DEMANDS CONTINUE TO EVOLVE

NeoMedia may not be able to adapt as the mobile Internet and physical-world-to-Internet markets and consumer demands continue to evolve. NeoMedia's failure to respond in a timely manner to changing market conditions or client requirements would have a material adverse effect on its business, prospects, financial condition, and results of operations, and we could be forced to curtail or cease our business operations. The mobile Internet and physical-world-to-Internet markets are characterized by:

- o rapid technological change;
- o changes in user and customer requirements and preferences;
- o frequent new product and service introductions embodying new technologies; and
- o the emergence of new industry standards and practices that could render proprietary technology and hardware and software infrastructure obsolete.

10

NeoMedia's success will depend, in part, on its ability to:

- o enhance and improve the responsiveness and functionality of its products and services;
- o license or develop technologies useful in its business on a timely basis;
- o enhance its existing services, and develop new services and

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

technologies that address the increasingly sophisticated and varied needs of NeoMedia's prospective or current customers; and

- o respond to technological advances and emerging industry standards and practices on a cost-effective and timely basis.

### NEOMEDIA'S COMPETITORS IN THE MICRO PAINT REPAIR INDUSTRY COULD DUPLICATE NEOMEDIA'S PROPRIETARY PROCESSES

NeoMedia's success in the micro paint repair industry depends upon proprietary chemical products and processes. There is no guarantee that NeoMedia's competitors will not duplicate NeoMedia's proprietary processes.

### NEOMEDIA MAY NOT BE ABLE TO COMPETE EFFECTIVELY IN MARKETS WHERE ITS COMPETITORS HAVE MORE RESOURCES

While the market for physical-world-to-Internet technology is relatively new, it is already highly competitive and characterized by an increasing number of entrants that have introduced or developed products and services similar to those offered by NeoMedia. NeoMedia believes that competition will intensify and increase in the near future. NeoMedia's target market is rapidly evolving and is subject to continuous technological change. As a result, NeoMedia's competitors may be better positioned to address these developments or may react more favorably to these changes, which could have a material adverse effect on NeoMedia's business, prospects, financial condition, and results of operations, and we could be forced to curtail or cease our business operations.

Some of NeoMedia's competitors have longer operating histories, larger customer bases, longer relationships with clients, and significantly greater financial, technical, marketing, and public relations resources than NeoMedia. NeoMedia may not successfully compete in any market in which it conducts or may conduct operations. Many of NeoMedia's competitors in the Micro Paint Repair business have a longer operating history in the industry, as well as access to greater financial resources. NeoMedia may not be able to penetrate markets or market its products as effectively as NeoMedia's better-funded more-established competitors.

11

### IN THE FUTURE THERE COULD BE GOVERNMENT REGULATIONS AND LEGAL UNCERTAINTIES WHICH COULD HARM NEOMEDIA'S BUSINESS

Any new legislation or regulation, the application of laws and regulations from jurisdictions whose laws do not currently apply to NeoMedia's business, or the application of existing laws and regulations to the Internet and other online services, could have a material adverse effect on NeoMedia's business, prospects, financial condition, and results of operations, and we could be forced to curtail or cease our business operations. Due to the increasing popularity and use of the Internet, the Web and other online services, federal, state, and local governments may adopt laws and regulations, or amend existing laws and regulations, with respect to the Internet or other online services covering issues such as taxation, user privacy, pricing, content, copyrights, distribution, and characteristics and quality of products and services. The growth and development of the market for electronic commerce may prompt calls for more stringent consumer protection laws to impose additional burdens on companies conducting business online. The adoption of any additional laws or regulations may decrease the growth of the Internet, the Web or other online services, which could, in turn, decrease the demand for NeoMedia's services and

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

increase NeoMedia's cost of doing business, or otherwise have a material adverse effect on NeoMedia's business, prospects, financial condition, and results of operations, and we could be forced to curtail or cease our business operations. Moreover, the relevant governmental authorities have not resolved the applicability to the Internet, the Web and other online services of existing laws in various jurisdictions governing issues such as property ownership and personal privacy and it may take time to resolve these issues definitively.

Certain of NeoMedia's proprietary technology allows for the storage of demographic data from NeoMedia's users. In 2000, the European Union adopted a directive addressing data privacy that may limit the collection and use of certain information regarding Internet users. This directive may limit NeoMedia's ability to collect and use information collected by NeoMedia's technology in certain European countries. In addition, the Federal Trade Commission and several state governments have investigated the use by certain Internet companies of personal information. NeoMedia could incur significant additional expenses if new regulations regarding the use of personal information are introduced or if NeoMedia's privacy practices are investigated.

In addition, certain of NeoMedia's micro paint solutions could be subject to environmental regulations, which could impose significant additional expenses to NeoMedia for compliance with such new regulations.

### RISKS SPECIFIC TO THIS OFFERING

As of June 15, 2006, we had 636,093,744 shares of common stock outstanding, and options and warrants to purchase up to an aggregate 229,512,049 shares of common stock. During 2006, we sold to Cornell Capital Partners \$27,000,000 of Series C Convertible Preferred Stock that is convertible into shares of our common stock at the lower of (i) or 97% of the lowest closing bid prices (as reported by Bloomberg) of the common stock for the 30 trading days immediately preceding the conversion date, or (ii) \$0.50 per share. Up to 110,000,000 common shares underlying the Series C Convertible Preferred Stock are being registered hereunder. On March 30, 2005, we entered into a Standby Equity Distribution Agreement with Cornell Capital Partners, whereby Cornell Capital Partners agreed to purchase up to \$100 million of our common stock over a two-year period, with the timing and amount of the purchase at our discretion. No shares underlying the 2005 Standby Equity Distribution Agreement are registered with the Securities and Exchange Commission.

### EXISTING SHAREHOLDERS WILL EXPERIENCE SIGNIFICANT DILUTION WHEN CERTAIN INVESTORS CONVERT THEIR PREFERRED STOCK TO COMMON STOCK OR WHEN THE INVESTORS EXERCISE THEIR WARRANTS AND RECEIVE SHARES OF COMMON STOCK UNDER THE INVESTMENT AGREEMENT WITH THE INVESTORS

The issuance of shares of common stock pursuant to the conversion of Series C Convertible Preferred Stock pursuant to our transaction with Cornell Capital Partners and the issuance of shares of common stock in connection with the exercise of warrants will have a dilutive impact on our stockholders. As a result, our net income or loss per share could decrease in future periods, and the market price of our common stock could decline. In addition, the lower our stock price is, the more shares of common stock we will have to issue pursuant to the conversion of our preferred stock. If our stock price is lower, then our existing stockholders would experience greater dilution.

### THE MARKET PRICE OF OUR SECURITIES MAY BE VOLATILE

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

As a result of the emerging and evolving nature of the markets in which we compete, as well as the current nature of the public markets and our current financial condition, our operating results may fluctuate materially, as a result of which quarter-to-quarter comparisons of our results of operations may not be meaningful. If in some future quarters, whether as a result of such a fluctuation or otherwise, our results of operations fall below the expectations of securities analysts and investors, the trading price of our common stock would likely be materially and adversely affected. An investor should not rely on our results of any interim period as an indication of our future performance. Additionally, our quarterly results of operations may fluctuate significantly in the future as a result of a variety of factors, many of which are outside our control. Factors that may cause our quarterly results to fluctuate include, among others:

- o the ability to retain existing clients and customers;
  - o the ability to attract new clients and customers at a steady rate;
  - o the ability to maintain client satisfaction;
  - o the ability to motivate potential clients and customers to acquire and implement new technologies;
  - o the extent to which our products gain market acceptance;
  - o the timing and size of client and customer purchases;
  - o introductions of products and services by competitors;
  - o price competition in the markets in which we compete;
  - o the pricing of hardware and software that we resell or integrate into our products;
  - o the level of use of the mobile Internet and online services, as well as the rate of market acceptance of physical-world-to-Internet marketing;
  - o the ability to upgrade and develop our systems and infrastructure in a timely and effective manner;
- 13
- o the ability to attract, train, and retain skilled management, strategic, technical, and creative professionals;
  - o the amount and timing of operating costs and capital expenditures relating to the expansion of our business, operations, and infrastructure;
  - o unanticipated technical, legal, and regulatory difficulties with respect to use of the Internet; and
  - o general economic conditions and economic conditions specific to Internet technology usage and electronic commerce.

Our common stock has traded as low as \$0.01 and as high as \$0.722 between January 1, 2003 and June 15, 2006. Since February 9, 2006, NeoMedia's stock has been subject to dramatic price volatility. Between February 9, 2006 and June 15, 2006, NeoMedia's stock has traded as low as \$0.21 per share and as high as \$0.42 per share. From time to time after this offering, the market price of our common

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

stock may experience significant volatility. Our quarterly results, failure to meet analysts' expectations, announcements by us or our competitors regarding acquisitions or dispositions, loss of existing clients, new procedures or technology, changes in general conditions in the economy, and general market conditions could cause the market price of the common stock to fluctuate substantially. In addition, the stock market has experienced significant price and volume fluctuations that have particularly affected the trading prices of equity securities of many technology companies. These price and volume fluctuations often have been unrelated to the operating performance of the affected companies.

NEOMEDIA COMMON STOCK HAS BEEN SUBJECT TO DRAMATIC PRICE VOLATILITY SINCE THE FILING OF THE INFORMATION STATEMENT/PROSPECTUS RELATING TO THE MERGER WITH BSD

NeoMedia's stock has been subject to dramatic price volatility. Between January 1, 2005 and June 15, 2006, NeoMedia's stock has traded as low as \$0.189 per share and as high as \$0.722 per share. The last sale price of NeoMedia common stock on June 15, 2006 was \$0.227.

YOU MAY SUFFER SIGNIFICANT ADDITIONAL DILUTION IF OUTSTANDING OPTIONS AND WARRANTS ARE EXERCISED

As of June 15, 2006, we had outstanding stock options and warrants to purchase 229,512,049 shares of common stock, some of which have exercise prices at or below the price of our common shares on the public market. To the extent such options or warrants are exercised, there will be further dilution. In addition, in the event that any future financing should be in the form of, be convertible into, or exchangeable for, equity securities, and upon the exercise of options and warrants, investors may experience additional dilution.

YOU MAY SUFFER SIGNIFICANT DILUTION AS A RESULT OF OUR STANDBY EQUITY DISTRIBUTION AGREEMENT WITH CORNELL CAPITAL PARTNERS

On March 30, 2005, we entered into a Standby Equity Distribution Agreement (SEDA) with Cornell Capital Partners under which Cornell Capital Partners agreed to purchase up to \$100 million of our common stock over a two-year period, with the timing and amount of the purchase at our discretion. Funds will be available under the SEDA at such time when we have registered shares underlying the SEDA arrangement. To date, NeoMedia has not registered any shares underlying the SEDA, and has not drawn any funds against the SEDA.

14

FUTURE SALES OF COMMON STOCK BY OUR STOCKHOLDERS COULD ADVERSELY AFFECT OUR STOCK PRICE AND OUR ABILITY TO RAISE FUNDS IN NEW STOCK OFFERINGS

The market price of our common stock could decline as a result of sales of a large number of shares of our common stock in the market as a result of this offering, or the perception that these sales could occur. These sales also might make it more difficult for us to sell equity securities in the future at a time and at a price that we deem appropriate. The potential aggregate dilutive effect on stockholders of financing and acquisition arrangements in place as of the date of this filing, assuming various stock prices at the time of the transactions, are as follows:

In such a case, the trading price of our common stock could decline and you could lose all or part of your investment.

### USE OF PROCEEDS

We will not receive any proceeds from the sale of shares of common stock by the selling securityholders. We will, however, receive proceeds from the exercise of the warrants held by the selling security holders.

For illustrative purposes, we have set forth below our intended use of proceeds for the net proceeds to be received upon exercise of warrants being registered hereunder. The table assumes estimated offering expenses of \$50,000.

HOLDER -----	NUMBER OF WARRANTS -----	EXERCISE PRICE -----	PROCEEDS -----
Cornell Capital Partners, LP	20,000,000	\$0.500	\$10,000,000
Cornell Capital Partners, LP	25,000,000	\$0.400	10,000,000

Thornhill Capital LLC	9,000,000	\$0.010	90,000
William E. Fritz	2,500,000	\$0.010	25,000
Gross proceeds			\$32,705,700
Less: estimated offering expenses			(50,000)
Net Proceeds			\$32,655,700
			=====
Net proceeds from in-the-money warrants			\$591,700 (1)
			=====

(1) A significant portion of the potential proceeds relate to warrants that were not in-the-money based on a stock price of \$0.227, which was the last sale price on June 15, 2006. As a result, for informational purposes we have shown the total proceeds from warrants that were in-the-money as of June 15, 2006.

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

If proceeds from the exercise of all warrants are received, NeoMedia expects to use a portion of such proceeds to fund additional acquisitions in the mobile marketing, cosmetic auto repair, and telecom billing industries. In the event that NeoMedia's stock price does not reach \$0.40, \$30,500,000 of the proceeds outlined above will not be received. In such a case, NeoMedia would use the proceeds for general working capital purposes.

17

### DILUTION

NeoMedia's net tangible book value as of March 31, 2006 was \$(24,958,000) or \$(0.0397) per share of common stock. Net tangible book value per share is determined by dividing the tangible book value of NeoMedia (total tangible assets less total liabilities) by the number of outstanding shares of our common stock. Our net tangible book value will be impacted by the common stock to be issued upon conversion of the Series C Convertible Preferred Stock, as well as upon conversion of warrants for which the underlying shares are being registered hereunder. Because the Series C Convertible Preferred Stock convert at a discount to the market price of NeoMedia stock at the time of conversion, the amount of dilution will depend on NeoMedia's share price at the time that the Series C Convertible Preferred Stock is converted. In addition, we expect that certain warrants being registered hereunder will not be exercised if the market price of our common stock is less than the exercise price of the warrants. The following example shows the dilution to new investors at an offering price of \$0.25 per share (net of 3% discount to Cornell Capital Partners).

If we assume that Cornell Capital Partners had converted all 27,000 of its Series C Convertible Preferred shares at an assumed offering price of \$0.25 per share, net of 3% discount to Cornell Capital Partners, and all in-the-money warrants being registered hereunder were converted, less offering expenses of \$50,000, our net tangible book value as of March 31, 2006 would have been \$(26,300) or \$0.0001 per share. Such an offering would represent an immediate increase in net tangible book value to existing stockholders of \$0.0396 per share and an immediate dilution to new stockholders of \$0.2499 per share. The following table illustrates the per share dilution:

Assumed public offering price per share		\$0.2500
Net tangible book value per share before this offering	(\$0.0397)	
Increase attributable to new investors	\$0.0396	
	-----	
Net tangible book value per share after this offering		(\$0.0001)
		-----
Dilution per share to new stockholders		\$0.2499
		-----

The offering price of our common stock is based on the then-existing market price. In order to give prospective investors an idea of the dilution per share they may experience, we have prepared the following table showing the dilution per share at various assumed offering prices:

ASSUMED OFFERING PRICE -----	NUMBER OF SHARES TO BE ISSUED (1) -----	DILUTION PER SHARE TO NEW INVESTORS -----

### MATERIAL TRANSACTIONS WITH SELLING STOCKHOLDERS

#### CORNELL CAPITAL PARTNERS

##### SECURITIES PURCHASE AGREEMENT - SERIES C CONVERTIBLE PREFERRED STOCK

We entered into a Securities Purchase Agreement, dated February 17, 2006 (the "Agreement") with Cornell Capital Partners LP, an accredited investor (the "Purchasers"). Pursuant to the Agreement, the Purchasers agreed to purchase 8% cumulative Series C convertible preferred stock to be fully converted three (3) years from the date of issuance in the aggregate amount of \$27,000,000 (\$22 million of which was funded at closing and an additional \$5 million to be funded upon effectiveness of a registration covering the common shares underlying the Series C convertible preferred stock). Net consideration from this arrangement amounted to \$17,854,000, comprised of cash of \$14,066,000, marketable securities with a calculated fair value of \$579,000 and a purchase value of \$2,000,000, and the extinguishment of \$3,209,000 of preexisting indebtedness. In addition, the Purchasers withheld \$2,725,000 commitment and structuring fees from the gross proceeds. The Agreement also provides for the issuance to the Purchasers, at no additional cost to the Purchasers, warrants to purchase shares of the Company's common stock. In connection with the Agreement, the Company also entered into a Registration Rights Agreement with the Purchasers that requires the Company to (i) file a registration statement with the SEC registering the resale of the shares of common stock issuable upon conversion of the preferred stock and the exercise of the warrants, (ii) achieve effectiveness within 180 days of such filing and (iii) maintain effectiveness of the registration statement. Failure to meet these requirements will require the Company to incur liquidating damages amounting to 1.0% for each month, but in no event shall consideration paid as liquidating damages exceed \$1,200,000.

The Company has issued the Purchasers \$27,000,000 in aggregate principal amount of such 8% cumulative Series C convertible preferred stock. At any time prior to February 17, 2009, the Purchasers have the right to convert the preferred stock, in whole or in part, into common stock of the Company at the then effective conversion price, which varies relative to the Company's trading stock price, as follows: \$0.50 per share, or 97% of the lowest closing bid prices (as reported by Bloomberg) of the common stock for the 30 trading days immediately preceding the conversion date. The conversions are limited such that the holder cannot exceed 4.99% ownership, unless the holders waive their right to such limitation. The limitation will terminate under any event of default.

The 8% cumulative Series C convertible preferred stock also affords the Purchasers anti-dilution protection should, at any time while the Series C preferred stock are outstanding, the Company offers, sells or grants any option to purchase or offers, sells or grants any right to re-price its securities, or otherwise disposes of or issue any common stock or common stock equivalents, entitles any person to acquire shares of common stock at an effective price per share less than the then effective conversion price (excluding employee stock options), as calculated by the formula described above; then, in such instance,

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

the conversion price for the Series C convertible preferred stock shares shall be reduced to the lower price. In case of any such adjustment in the effective conversion price for the Series C convertible preferred shares, this could significantly dilute existing investors.

Under the Agreement, the Purchasers also received "A" warrants, "B" warrants and "C" warrants to purchase an aggregate of up to 75,000,000 shares of common stock. The warrants are exercisable in three separate tranches at a price of \$0.50, \$0.40 and \$0.35, respectively per share, subject to adjustment, and include under anti-dilution protection similar to that described above. The warrants have a five-year term. NeoMedia can force exercise of the warrants if the closing bid price of NeoMedia stock is more than \$0.05 greater than the exercise price of any of the warrants for 15 consecutive trading days.

The 8% cumulative Series C convertible preferred stock contains consequences in case of an event of default. Events of default which could subject the Company to penalties and liabilities as specified in the Agreement include:

- o Any case or action of bankruptcy or insolvency commenced by the Company or any subsidiary, against the Company or adjudicated by a court against the Company for the benefit of creditors;
- o Any default in its obligations under a mortgage or debt in excess of \$100,000;
- o Any cessation in the eligibility of the Company's stock to be quoted on a trading market;
- o Any lapse in the effectiveness of the registration statement covering the shares related to the conversion option, the warrants as described and transacted in the securities purchase agreement and accompanying documents;

23

- o Any failure to deliver certificates within the specified time; and
- o Any failure, by the Company, to pay in full the amount of cash due pursuant to a buy-in or failure to pay any amounts owed on account on account of an event of default within 10 days of the date due.

Additional provisions of the Agreement include the following:

- o The 8% cumulative Series C convertible preferred stock is convertible into common stock, at the option of the Purchaser, at any time after the effective date.
- o Conversions can be made in increments and from time to time.
- o The 8% cumulative Series C convertible preferred stock has voting rights on an "as converted" basis, meaning the Purchaser is entitled to vote the number of shares of common stock into which the 8% cumulative Series C convertible preferred stock was convertible as of the record date for a meeting of shareholders
- o As promptly as practicable after any conversion date, the Company shall cause its transfer agent to deliver a certificate representing the converted shares, free of any legends and trading restrictions for the number of shares converted;

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

- o The Company will reserve and keep available authorized and unissued registered shares available to be issued upon conversion;
- o Purchaser will not be responsible for any transfer taxes relative to issuance of shares;
- o If the Company offers, sells or grants stock at an effective per share price less than the then Conversion Price, then the Conversion Price shall be reduced to equal the effective conversion, exchange or purchase price for such common stock or common stock equivalents;

### STANDBY EQUITY DISTRIBUTION AGREEMENTS WITH CORNELL CAPITAL PARTNERS

On February 11, 2003, NeoMedia and Cornell Capital Partners entered into an Equity Line of Credit Agreement under which Cornell Capital Partners agreed to purchase up to \$10 million of NeoMedia's common stock over a two-year period, with the timing and amount of the purchase at the Company's discretion. The maximum amount of each purchase was \$150,000 with a minimum of seven days between purchases. The shares were valued at 98% of the lowest closing bid price during the five-day period following the delivery of a notice of purchase by NeoMedia. The Company paid 5% of the gross proceeds of each purchase to Cornell Capital Partners.

On October 27, 2003, NeoMedia and Cornell Capital Partners entered into a \$20 million Standby Equity Distribution Agreement (the "2003 SEDA"). The agreement provides for a maximum "draw" of \$280,000 per week, not to exceed \$840,000 in any 30-day period, and Cornell Capital Partners will purchase up to \$20 million of our common stock over a two-year period. The SEDA became effective during January 2004, and expired after a two-year term in January 2006. During the three months ended March 31, 2006 and 2005, we sold 751,880 and 6,998,931 shares of our common stock to Cornell Capital Partners pursuant to the 2003 SEDA. The following table summarizes funding received from Cornell Capital Partners during the three months ended March 31, 2006 and 2005:

	THREE MONTHS ENDED MARCH 31,		YE
	2006	2005	2005
	----	----	----
Number of shares sold to Cornell Capital Partners	751,880	6,998,931	26,435,
Gross Proceeds from sale of shares to Cornell Capital Partners	\$234,000	\$1,709,000	\$9,527,
Less: discounts and fees*	(24,000)	(204,000)	(1,022,
	\$210,000	\$1,505,000	\$8,505,

\* Pursuant to the terms of the 2003 SEDA , stock is valued at 98% of the lowest closing bid price during the week it was sold.

On March 30, 2005, NeoMedia and Cornell Capital Partners entered into a Standby Equity Distribution Agreement (the "2005 SEDA") under which Cornell Capital Partners agreed to purchase up to \$100 million of NeoMedia common stock

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

over a two-year period, with the timing and amount of the purchase at NeoMedia's discretion. The maximum amount of each purchase would be \$2,000,000 with a minimum of five business days between advances. The shares would be valued at 98% of the lowest closing bid price during the five-day period following the delivery of a notice of purchase by NeoMedia, and NeoMedia would pay 5% of the gross proceeds of each purchase to Cornell Capital Partners. Concurrent with the SEDA, we entered into an escrow agreement with Cornell Capital Partners and an escrow agreement, under which the escrow agent holds in an escrow account shares of our common stock, and the cash paid by Cornell Capital Partners for such shares, issued pursuant to an advance under the SEDA. The shares and funds can only be released upon receipt by the escrow agent of a joint disbursement instruction signed by NeoMedia and Cornell Capital Partners. We expect to file a registration statement with the SEC to register the shares underlying the 2005 SEDA during 2006. The 2005 SEDA would become available at the time the SEC declares effective a registration statement containing such shares.

As a commitment fee for Cornell Capital Partners to enter into the 2005 SEDA, we issued 50 million warrants to Cornell Capital Partners with an exercise price of \$0.20 per share, and a term of three years, and also paid a cash commitment fee of \$1 million. During the three months ended March 31, 2006, Cornell Capital Partners exercised 40 million of the warrants, generating cash proceeds of \$8 million to NeoMedia. We also issued 4 million warrants with an exercise price of \$0.227 to a consultant as a fee in connection with the 2005 SEDA, which have not been exercised.

On January 20, 2004, we borrowed from Cornell Capital Partners the gross amount of \$4,000,000 before discounts and fees. Of the \$4,000,000 funding, \$2,500,000 was used to fund the acquisition of CSI International, Inc. during February 2004. Cornell Capital Partners withheld a \$315,000 retention fee related to the issuance of stock to pay off the debt in the future. We paid this note in full during 2004.

We also granted to Cornell Capital Partners 40,000,000 warrants to purchase shares of our stock with an exercise price of \$0.05 per share during January 2004. In April 2004, we filed a Form SB-2 to register 40 million shares

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

underlying warrants granted to Cornell Capital Partners (and subsequently transferred by Cornell Capital Partners to Stone Street Asset Management LLC) in connection with a promissory note issued by the Company to Cornell Capital Partners. In May 2004, the Form SB-2 was declared effective by the Securities and Exchange Commission. The fair value of the warrants using the Black-Scholes pricing model was \$5,000,000. In accordance with APB 14, "Accounting for Convertible Debt and Debt Issued with Stock Purchase Warrants", we have compared the relative fair values of the warrants and the face value of the notes, and has allocated a value of \$2.5 million to the warrants. Of the \$2.5 million, \$2 million was allocated to the \$4 million note issued in January 2004 and \$0.5 million against the \$1 million note in April 2004. The \$2.5 million was recorded as a discount against the carrying value of the note. The \$2.5 million that was allocated to the notes is considered a discount on the promissory notes, and therefore was amortized over the life of the notes using the effective interest method, in accordance with Staff Accounting Bulletin No. 77, Topic 2.A.6, "Debt Issue Costs" of SFAS 141, "Business Combinations". Accordingly, we recorded an amortization of discount of \$2,500,000 related to the warrants during the year ended December 31, 2004. Stone Street Asset Management LLC exercised the warrants during November 2004, resulting in net funds to us of \$2 million.

On March 30, 2005, we borrowed from Cornell Capital Partners the principal amount of \$10,000,000 before discounts and fees in the form of a secured promissory note. ### PLAN OF DISTRIBUTION

The selling stockholders have advised us that the sale or distribution of our common stock owned by the selling stockholders may be effected directly to purchasers by the selling stockholders or by pledgees, transferees or other successors in interest, as principals or through one or more underwriters, brokers, dealers or agents from time to time in one or more transactions (which may involve crosses or block transactions) (i) on the OTC Bulletin Board or in any other market on which the price of our shares of common stock are quoted or (ii) in transactions otherwise than on the OTC Bulletin Board or in any other market on which the price of our shares of common stock are quoted. Any of such transactions may be effected at market prices prevailing at the time of sale, at prices related to such prevailing market prices, at varying prices determined at the time of sale or at negotiated or fixed prices, in each case as determined by the selling stockholders or by agreement between the selling stockholders and underwriters, brokers, dealers or agents, or purchasers. If the selling stockholders effect such transactions by selling their shares of common stock to or through underwriters, brokers, dealers or agents, such underwriters, brokers,

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

dealers or agents may receive compensation in the form of discounts, concessions or commissions from the selling stockholders or commissions from purchasers of common stock for whom they may act as agent (which discounts, concessions or commissions as to particular underwriters, brokers, dealers or agents may be in excess of those customary in the types of transactions involved). The selling stockholders and any brokers, dealers or agents that participate in the distribution of the common stock may be deemed to be underwriters, and any profit on the sale of common stock by them and any discounts, concessions or commissions received by any such underwriters, brokers, dealers or agents may be deemed to be underwriting discounts and commissions under the Securities Act.

Under the securities laws of certain states, the shares of common stock may be sold in such states only through registered or licensed brokers or dealers. The selling stockholders are advised to ensure that any underwriters, brokers, dealers or agents effecting transactions on behalf of the selling stockholders are registered to sell securities in all fifty states. In addition, in certain states the shares of common stock may not be sold unless the shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

We will pay all the expenses incident to the registration, offering and sale of the shares of common stock to the public hereunder other than commissions, fees and discounts of underwriters, brokers, dealers and agents. We estimate that the expenses of the offering to be borne by us will be approximately \$50,000. The offering expenses consist of: printing and engraving expenses of \$5,000, accounting fees of \$20,000, legal fees of \$20,000 and miscellaneous expenses of \$5,000. We will not receive any proceeds from the sale of any of the shares of common stock by the selling stockholders. We will, however, receive the exercise price upon exercise of warrants for which the underlying shares are being registered hereunder. If all warrants being registered hereunder were exercised, we would receive proceeds of \$32,655,700 (net of registration fees). However, the exercise price of a significant number of the warrants is higher than the current stock price. If only in-the-money warrants were exercised, we would receive proceeds of \$591,700 (net of registration fees).

The selling stockholders should be aware that the anti-manipulation provisions of Regulation M under the Exchange Act will apply to purchases and sales of shares of common stock by the selling stockholders, and that there are restrictions on market-making activities by persons engaged in the distribution of the shares. Under Regulation M, the selling stockholders or their agents may not bid for, purchase, or attempt to induce any person to bid for or purchase, shares of our common stock while such selling stockholders are distributing shares covered by this prospectus. Accordingly, except as noted below, the selling stockholders are not permitted to cover short sales by purchasing shares while the distribution is taking place. The selling stockholders are advised that if a particular offer of common stock is to be made on terms constituting a material change from the information set forth above with respect to the Plan of Distribution, then, to the extent required, a post-effective amendment to the accompanying registration statement must be filed with the Securities and Exchange Commission.

### DESCRIPTION OF SECURITIES

The following description of our capital stock and certain provisions of our Certificate of Incorporation and By-Laws is a summary. For additional information, please refer to our Certificate of Incorporation, as amended, and By-Laws.

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

### COMMON STOCK

NeoMedia is authorized to issue 1,000,000,000 shares of common stock, par value \$0.01 per share, of which 636,093,744 shares were issued and outstanding as of June 15, 2006. Holders of common stock are entitled to one vote for each share held of record on each matter submitted to a vote of stockholders. Holders of the common stock do not have cumulative voting rights, which means that the holders of more than one half of our outstanding shares of common stock, subject to the rights of the holders of preferred stock, can elect all of our directors, if they choose to do so. In this event, the holders of the remaining shares of common stock would not be able to elect any directors. Subject to the prior rights of any class or series of preferred stock which may from time to time be outstanding, if any, holders of common stock are entitled to receive ratably, dividends when, as, and if declared by the Board of Directors out of funds legally available for that purpose and, upon our liquidation, dissolution, or winding up, are entitled to share ratably in all assets remaining after payment of liabilities and payment of accrued dividends and liquidation preferences on the preferred stock, if any. Holders of common stock have no preemptive rights and have no rights to convert their common stock into any other securities. The outstanding common stock is duly authorized and validly issued, fully paid, and nonassessable. In the event we were to elect to sell additional shares of common stock following this offering, investors in this offering would have no right to purchase additional shares. As a result, their percentage equity interest in us would be diluted.

Except as otherwise permitted by Delaware law, and subject to the rights of the holders of preferred stock, all stockholder action is taken by the vote of a majority of the outstanding shares of common stock voted as a single class present at a meeting of stockholders at which a quorum consisting of a majority of the outstanding shares of common stock is present in person or proxy.

### PREFERRED STOCK

NeoMedia is authorized to issue 25,000,000 shares of preferred stock, par value \$0.01 per share. The Company may issue preferred stock in one or more series and having the rights, privileges, and limitations, including voting rights, conversion rights, liquidation preferences, dividend rights and preferences and redemption rights, as may, from time to time, be determined by the Board of Directors. Preferred stock may be issued in the future in connection with acquisitions, financings, or other matters, as the Board of Directors deems appropriate. In the event that the Company determines to issue any shares of preferred stock, a certificate of designation containing the rights, privileges, and limitations of this series of preferred stock shall be filed with the Secretary of State of the State of Delaware. The effect of this preferred stock designation power is that the Board of Directors alone, subject to Federal securities laws, applicable blue sky laws, and Delaware law, may be able to authorize the issuance of preferred stock which could have the effect of delaying, deferring, or preventing a change in control of NeoMedia without further action by its stockholders, and may adversely affect the voting and other rights of the holders of the Company's common stock. The issuance of preferred stock with voting and conversion rights may also adversely affect the voting power of the holders of the Company's common stock, including the loss of voting control to others.

SERIES A PREFERRED STOCK. During December 1999, the Board of Directors approved a Certificate of Resolutions Designating Rights and Preferences of Preferred Stock, filed with the Secretary of State of the State of Delaware on December 20, 1999. By this approval and filing, 200,000 shares of Series A Preferred Stock were designated. Series A Preferred carries the following

rights:

- o The right to receive mandatory cash dividends equal to the greater of \$0.001 per share or 100 times the amount of all dividends (cash or non-cash, other than dividends of shares of common stock) paid to holders of the common stock, which dividend is payable 30 days after the conclusion of each calendar quarter and immediately following the declaration of a dividend on common stock;
- o One hundred votes per each share of Series A Preferred on each matter submitted to a vote of the Company's stockholders;

29

- o The right to elect two directors at any meeting at which directors are to be elected, and to fill any vacancy on the Board of Directors previously filled by a director appointed by the Series A Preferred holders;
- o The right to receive an amount, in preference to the holders of common stock, equal to the amount per share payable to holders of common stock, plus all accrued and unpaid dividends, and following payment of 1/100th of this liquidation preference to the holders of each share of common stock, an additional amount per share equal to 100 times the per share amount paid to the holders of common stock.
- o The right to exchange each share of Series A Preferred for 100 times the consideration received per share of common stock in connection with any merger, consolidation, combination or other transaction in which shares of common stock are exchanged for or converted into cash, securities or other property.
- o The right to be redeemed in accordance with the Company's stockholders rights plan.

While accrued mandatory dividends are unpaid, we may not declare or pay dividends or distributions on, or redeem, repurchase or reacquire, shares of any class or series of junior or parity stock.

The Series A Preferred was created to be issued in connection with the Company's stockholders rights plan. No shares of Series A Preferred have been issued as of June 15, 2006.

SERIES A CONVERTIBLE PREFERRED STOCK. On June 19, 2001, the Board of Directors approved a Certificate of Designations to Create a Class of Series A Convertible Preferred Stock for NeoMedia Technologies, Inc., filed with the Secretary of State of the State of Delaware on June 20, 2001. By this approval and filing, 47,511 shares are designated as Series A Convertible Preferred Stock. The Company's Series A Convertible Preferred Stock, par value \$0.01 per share, has the following rights:

- o Series A Convertible Preferred is convertible into shares of common stock at a one-to-one ratio, subject to proportional adjustments in the event of stock splits or combinations, and dividends or distributions of shares of common stock, at the option of the holder; shares are subject to automatic conversion as determined in each agreement relating to the purchase of shares of Series A Convertible Preferred;
- o Each share of Series A Convertible Preferred is entitled to receive a liquidation preference equal to the original

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

purchase price of such share in the event of liquidation, dissolution, or winding up;

- o Upon merger or consolidation, or the sale, lease or other conveyance of all or substantially all of the Company's assets, shares of Series A Convertible Preferred are automatically convertible into the number of shares of stock or other securities or property (including cash) to which the common stock into which it is convertible would have been entitled;
- o Shares of Series A Convertible Preferred are entitled to one vote per share, and vote together with holders of common stock.

In June 2001, 452,489 shares of Series A Convertible Preferred were issued to About.com, Inc. pursuant to a certain Agreement for Payment in Common Stock, in lieu of cash payment to About.com for online advertising services. On January 2, 2002, such shares were converted into 452,489 shares of common stock.

SERIES B CONVERTIBLE REDEEMABLE PREFERRED STOCK. On January 16, 2002, the Board of Directors approved a Certificate of Designation, Preferences, Rights and Limitations of Series B 12% Convertible Redeemable Preferred Stock of NeoMedia Technologies, Inc., filed with the Secretary of State of the State of Delaware on February 28, 2002. By this approval and filing, 100,000 shares were designated as Series B 12% Convertible Redeemable Preferred Stock. The Company's Series B 12% Convertible Redeemable Preferred Stock, par value \$0.01 per share, has the following rights:

30

- o Series B Preferred shares accrue dividends at a rate of 12% per annum, or \$1.20 per share, between the date of issuance and the first anniversary of issuance;
- o Series B Preferred is redeemed to the maximum extent permitted by law (based on funds legally available for redemption) at a price per share of \$15.00, plus accrued dividends (a total of \$16.20 per share) on the first anniversary of issuance;
- o Series B Preferred receive proceeds of \$12.00 per share upon the Company's liquidation, dissolution or winding up;
- o To the extent, not redeemed on the first anniversary of issuance, Series B Preferred is automatically convertible into then existing general class of common stock on the first anniversary of issuance at a price equal to \$16.20 divided by the greater of \$0.20 and the lowest publicly-sold share price during the 90 day period preceding the conversion date, but in no event more than 19.9% of the Company's outstanding capital stock as of the date immediately prior to conversion.
- o Upon merger or consolidation, or the sale, lease or other conveyance of all or substantially all of the Company's assets, shares of Series B Preferred are automatically convertible into the number of shares of stock or other securities or property (including cash) to which the common stock into which it is convertible would have been entitled; and
- o Shares of Series B Preferred are entitled to one vote per

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

share and vote with common stock, except where the proposed action would adversely affect the Series B Preferred or where the non-waivable provisions of applicable law mandate that the Series B Preferred vote separately, in which case Series B Preferred vote separately as a class, with one vote per share.

No shares of the Series B Convertible Redeemable Preferred Stock have been issued or are currently outstanding.

**SERIES C CONVERTIBLE PREFERRED STOCK.** On February 22, 2006, NeoMedia filed with the Secretary of State of the State of Delaware a Certificate of Designation of Series C Convertible Redeemable Preferred Stock of NeoMedia Technologies, Inc., filed on February 28, 2002. - o At the Option of the Holders, if there are outstanding Series C Convertible Preferred shares on February 17, 2009, each share of Series C Preferred stock shall convert into shares of common stock at the Conversion Price then in effect on February 17, 2009; and
- o Series C Convertible Preferred shares shall not have voting rights until converted into shares of common stock.

On February 17, 2006, in connection with the \$27 million Series C Convertible Preferred Stock transaction, NeoMedia issued to Cornell Capital Partners 20 million warrants with an exercise price of \$0.50 per share, 25 million warrants with an exercise price of \$0.40 per share, and 30 million warrants with an exercise price of \$0.35 per share. On September 24, 2003, NeoMedia's shareholders approved the 2003 Stock Option Plan. ### ANTI-TAKEOVER EFFECTS OF PROVISIONS OF THE CERTIFICATE OF INCORPORATION

On December 10, 1999, the Board of Directors adopted a stockholders rights plan and declared a non-taxable dividend of one right on each outstanding share of the Company's common stock to stockholders of record on December 10, 1999 and each share of common stock issued prior to the rights plan trigger date. The stockholder rights plan was adopted as an anti-takeover measure, commonly referred to as a "poison pill." The stockholder rights plan was designed to enable all stockholders to receive fair and equal treatment in any proposed takeover of the corporation and to guard against partial or two-tiered tender offers, open market accumulations and other hostile takeover tactics to gain control of NeoMedia. The stockholders rights plan, which is similar to plans adopted by many leading public companies, was not adopted in response to any effort to acquire control of NeoMedia at the time of adoption. Certain of the Company's directors, officers and principal stockholders, Charles W. Fritz, William E. Fritz and The Fritz Family Limited Partnership and their holdings were exempted from the triggering provisions of the Company's "poison pill" plan, as a result of the fact that, as of the plans adoption, their holdings might have otherwise triggered the "poison pill".

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

On June 8, 2006, Mark Freitas ("Plaintiff"), a former Mobot shareholder, filed a complaint in Massachusetts state court against NeoMedia alleging that NeoMedia breached the merger agreement between NeoMedia and Mobot by failing to file a registration statement with the SEC that included his shares by May 9, 2006. Plaintiff's complaint requested that the Court issue a preliminary injunction prohibiting NeoMedia from (1) causing its charter to be amended so as to increase the number of shares of authorized common stock in excess of one billion shares; (2) entering into any contract, agreement, or other undertaking in which NeoMedia shares are used as payment; (3) issuing a warrant or option to acquire NeoMedia common stock with an exercise price of less than \$0.3839; and (4) filing a registration statement with the SEC that does not include the Mobot shareholder's shares. Plaintiff also seeks costs and attorney's fees.

A hearing on the request for injunctive relief is being held on June 22, 2006. NeoMedia will be opposing the request. A responsive pleading is not yet due, but NeoMedia will respond to the Complaint in a timely manner.

NeoMedia does intend to defend the lawsuit vigorously.

#### ITEM 15. INDEMNIFICATION OF DIRECTORS AND OFFICERS

As permitted by the Delaware General Corporation Law (the "DGCL"), we have included in our Certificate of Incorporation a provision to eliminate the personal liability of its directors for monetary damages for breach or alleged breach of their fiduciary duties as directors, except for liability (i) for any breach of the director's duty of loyalty to NeoMedia or its stockholders, (ii) for acts or omissions not in good faith or which involved intentional misconduct or a knowing violation of law, (iii) in respect of certain unlawful dividend payments or stock redemptions or repurchases, as provided in Section 174 of the DGCL, or (iv) for any transaction from which the director derived an improper personal benefit. The effect of this provision is to eliminate the rights of NeoMedia and our stockholders (through stockholders' derivative suits on behalf of NeoMedia) to recover monetary damages against a director for breach of the fiduciary duty of care as a director except in the situations described in clauses (i) through (iv) above. This provision does not limit nor eliminate the rights of NeoMedia or any stockholder to seek non-monetary relief such as an injunction or rescission in the event of a breach of a director's duty of care. These provisions will not alter the liability of directors under federal securities laws.

The Certificate of Incorporation and the bylaws of NeoMedia provide that it is required and permitted to indemnify our officers and directors, employees and agents under certain circumstances. In addition, if permitted by law, we are required to advance expenses to our officers and directors as incurred in connection with proceedings against them in their capacity as a director or

## Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

officer for which they may be indemnified upon receipt of an undertaking by or on behalf of such director or officer to repay such amount if it shall ultimately be determined that such person is not entitled to indemnification. At present, we are not aware of any pending or threatened litigation or proceeding involving a director, officer, employee or agent of NeoMedia in which indemnification would be required or permitted.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended (the "1933 Act") may be permitted to directors, officers or controlling persons of NeoMedia pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the United States Securities and Exchange Commission such indemnification is against public policy as expressed in the 1933 Act and is, therefore, unenforceable.

### ITEM 17. UNDERTAKINGS

The undersigned registrant hereby undertakes:

(1) To file, during any period in which it offers or sells securities, a post-effective amendment to this registration statement to:

(i) Include any prospectus required by Sections 10(a)(3) of the Securities Act of 1933 (the "Act");

(ii) Reflect in the prospectus any facts or events arising after the effective date of the Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the Registration Statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective Registration Statement;

(iii) Include any additional or changed material information on the plan of distribution;

(2) That, for the purpose of determining any liability under the Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities that remain unsold at the end of the offering.

Insofar as indemnification for liabilities arising under the Act may be permitted to directors, officers and controlling persons of the small business issuer pursuant to the foregoing provisions, or otherwise, the small business issuer has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the small business issuer of expenses incurred or paid by a director, officer or controlling person of the small business issuer in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the small business issuer will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether

Edgar Filing: NEOMEDIA TECHNOLOGIES INC - Form S-3

such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
