OR

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2007

OR

- o TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
- o SHELL COMPANY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number 1-14550

(Exact Name of Registrant as Specified in Its Charter)

China Eastern Airlines Corporation Limited (Translation of Registrant's Name Into English)

The People's Republic of China (Jurisdiction of Incorporation or Organization)

2550 Hongqiao Road
Hongqiao Airport
Shanghai 200335
The People's Republic of China
(8621) 6268-6268
(Address and Telephone Number of Principal Executive Offices)

Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of Each Class

Name of Each Exchange on Which Registered

American Depositary Shares Ordinary H Shares, par value RMB1.00 per share The New York Stock Exchange The New York Stock Exchange*

* Not for trading, but only in connection with the registration of American Depositary Shares. The Ordinary H Shares are also listed and traded on The Stock Exchange of Hong Kong Limited.

Securities registered or to be registered pursuant to Section 12(g) of the Act:

None

(Title of Class)

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:

None

(Title of Class)

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report.

As of December 31, 2007, 3,300,000,000 Ordinary Domestic Shares, par value RMB1.00 per share, were issued and outstanding, and 1,566,950,000 Ordinary H Shares par value RMB1.00 per share, were issued and outstanding. H Shares are Ordinary Shares of the Company listed on The Stock Exchange of Hong Kong Limited.

Indicate by check mark if the registrant is a well-known seasoned issuers, as defined in Rule 405 of the Securities Act. Yes o No b

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934. Yes o No b

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes b No o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer o

Accelerated Filer b

Non-Accelerated Filer o

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP International Financial Reporting Standards as issue by the International Accounting Standards Board b

Other o

If "Other" has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow. Item 17 o Item 18 o

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes o No b

SUPPLEMENTAL INFORMATION AND EXCHANGE RATES

In this Annual Report, unless otherwise specified, the term "dollars", "U.S. dollars" or "US\$" refers to United States dollars, the legal tender currency of the United States of America, or the United States or the U.S.; the term "Renminbi" or "RMB" refers to Renminbi, the legal tender currency of The People's Republic of China, or China or the PRC; and the term "Hong Kong dollars" or "HK\$" refers to Hong Kong dollars, the legal tender currency of the Hong Kong Special Administrative Region of China, or Hong Kong.

In this Annual Report, the term "we", "us", "our", "our Company" or "China Eastern" refers to China Eastern Airlin Corporation Limited, a joint stock limited company incorporated under the laws of the PRC on April 14, 1995, and, unless the context otherwise requires, its subsidiaries, or, in respect of references to any time prior to the incorporation of China Eastern Airlines Corporation Limited, the core airline business carried on by its predecessor, China Eastern Airlines, which was assumed by China Eastern Airlines Corporation Limited pursuant to the restructuring described in this Annual Report. The term "CEA Holding" refers to our parent, China Eastern Air Holding Company, which was established on October 11, 2002 as a result of the merger of our former controlling shareholder, Eastern Air Group Company, or EA Group, with China Northwest Airlines Company and Yunnan Airlines Company.

For the purpose of this Annual Report, references to The People's Republic of China, China and the PRC do not include Hong Kong, the Macau Special Administrative Region of China, or Macau, or Taiwan.

CAUTIONARY STATEMENT WITH RESPECT TO FORWARD-LOOKING STATEMENTS

Certain information contained in this Annual Report may be deemed to constitute forward-looking statements. These forward-looking statements include, without limitation, statements relating to:

·our fleet development plans, including, without limitation, related financing, schedule, intended use and planned disposition;

the planned expansion of our cargo operations;

·the impact of changes in the policies of the Civil Aviation Administration of China, or the CAAC, regarding route rights;

the impact of the CAAC policies regarding the restructuring of the airline industry in China;

·certain statements with respect to trends in prices, volumes, operations, margins, risk management, overall market trends and exchange rates;

our expansion plans, including acquisition of other airlines;

our marketing plans, including the establishment of additional sales offices;

our plan to add new pilots; and

the impact of unusual events on our business and operations.

The words or phrases "aim", "anticipate", "believe", "continue", "could", "estimate", "expect", "going forward", "intend", "o "plan", "potential", "predict", "project", "seek", "should", "will", "would", and similar expressions, as they relate to our Comp management, are intended to identify "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended, or the Exchange

Act. These forward-looking statements are based on current plans and estimates, and speak only as of the date they are made. We undertake no obligation to update or revise any forward-looking statement in light of new information, future events or otherwise. Forward-looking statements are, by their nature, subject to inherent risks and uncertainties, some of which are beyond our control, and are based on assumptions and analyses made by us in light of our experience and our perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate in particular circumstances. We caution you that a number of important factors could cause actual outcomes to differ, or to differ materially, from those expressed in any forward-looking statement, including, without limitation:

ii

any changes in the regulatory policies of the CAAC;
the effects of competition on the demand for and price of our services;
· the availability of qualified flight personnel and airport facilities;
·any significant depreciation of Renminbi or Hong Kong dollars against U.S. dollars, Japanese yen or Euro, the currencies in which the majority of our borrowings are denominated;
· the availability and cost of aviation fuel;
changes in political, economic, legal and social conditions in China;
· the fluctuation of interest rates;
·our ability to obtain adequate financing, including any required external debt and acceptable bank guarantees; and
general economic conditions in markets where our Company operates.
iii

GLOSSARY OF TECHNICAL TERMS

Capacity measurements

ATK (available tonne-kilometers) the number of tonnes of capacity available for

the carriage of revenue load (passengers and

cargo) multiplied by the distance flown

Item 3. Key Information

A. Selected Financial Data

The selected financial data from the consolidated income statements for the years ended December 31, 2003, 2004, 2005, 2006 and 2007 and the selected financial data from the balance sheets as of December 31, 2003, 2004, 2005, 2006 and 2007 have been derived from our audited consolidated financial statements, which have been prepared in accordance with International Financial Reporting Standards, or IFRS, as adopted by the International Accounting Standards Board ("IASB") and audited by PricewaterhouseCoopers, an independent registered public accounting firm in Hong Kong. PricewaterhouseCoopers' reports in respect of the consolidated income statements for the years ended December 31, 2005, 2006 and 2007 and the consolidated balance sheets as of December 31, 2006 and 2007 and the related footnotes are included in this Annual Report.

Pursuant to SEC Release 33-8879 "Acceptance from Foreign Private Issuers of Financial Statements Prepared in Accordance with International Financial Reporting Standards without Reconciliation to U.S. GAAP" eliminating the requirement for foreign private issuers to reconcile their financial statements to U.S. GAAP, we prepare our financial statements based on the IFRS and no longer provide a reconciliation between IFRS and U.S. GAAP.

The following information should be read in conjunction with, and is qualified in its entirety by our audited consolidated financial statements included in this Annual Report.

Exchange Rate Information

We present our historical consolidated financial statements in Renminbi. For the convenience of the reader, certain pricing information is presented in U.S. dollars and certain contractual amounts that are in Renminbi or Hong Kong dollar amounts include a U.S. dollar equivalent at the noon buying rates in New York City for cable transfers in foreign currencies as certified for customs purposes by the Federal Reserve Bank of New York on December 31, 2007 of RMB7.2946= US\$1.00 and HK\$7.7984=US\$1.00. We make no representation that the Renminbi, Hong Kong dollar or U.S. dollar amounts referred to in this Annual Report could have been or could be converted into U.S. dollars, Hong Kong dollars or Renminbi, as the case may be, at any particular rate or at all.

The noon buying rates in New York City for cable transfers as certified for customs purposes by the Federal Reserve Bank of New York were RMB6.8821= US\$1.00 and HK\$7.8061=US\$1.00 on June 18, 2008. The following table sets forth information concerning exchange rates between the RMB, Hong Kong dollar and the U.S. dollar for the periods indicated based on the noon buying rate in New York City for cable transfers of in foreign currencies as certified for customs purposes by the Federal Reserve Bank of New York.

	RMB per U	S\$1.00	HK\$ per U	S\$1.00
	High	Low	High	Low
December 2007	7.4120	7.2946	7.8073	7.7879
January 2008	7.2946	7.1818	7.8107	7.7961
February 2008	7.1973	7.1100	7.8012	7.7807
March 2008	7.1110	7.0105	7.7897	7.7642
April 2008	7.0185	6.9840	7.7963	7.7863
May 2008	7.0000	6.9377	7.8060	7.7931
June 2008 (up to June 18, 2008)	6.9633	6.8821	7.8159	7.8037

The following table sets forth the average noon buying rates between Renminbi and U.S. dollars and between Hong Kong dollars and U.S. dollars for each of 2003, 2004, 2005, 2006 and 2007, calculated by averaging the noon buying rates on the last day of each month during the relevant year.

	RMB per	HK\$ per
	US\$1.00	US\$1.00
2003	8.2771	7.7864
2004	8.2768	7.7899

C. Reasons for the Offer and Use of Proceeds

Not applicable.

D. Risk Factors

An investment in our Company involves a number of risks, some of which may be special or significantly different from risks that are normally associated with an investment in a U.S. company. You should carefully consider the following information about the risks in investing in our Company, along with the other information presented in this Annual Report.

Fuel Supply and Costs

The availability and cost of aviation fuel has a significant impact on our financial condition and results of operations. In the past, jet fuel shortages have occurred in China and, on limited occasions, required us to delay or cancel flights. Although jet fuel shortages have not occurred since the end of 1993, we cannot assure you that jet fuel shortages will not occur in the future. Fuel prices continue to be susceptible to, among other factors, political unrest in various parts of the world, Organization of Petroleum Exporting Countries policy, the rapid growth of the economies in China and India, the levels of inventory carried by industries, the amounts of reserves built by governments, disruptions to production and refining facilities and weather conditions. These and other factors that impact the global supply and demand for aircraft fuel may affect our financial performance due to its sensitivity to fuel prices. Our financial performance may be especially susceptible to recent trends of escalating fuel prices worldwide.

Fuel costs constitute a significant portion of our operating costs and, in 2007, accounted for approximately 35.1% of our operating expenses. Between 2006 and 2007, our expenses for fuel rose by 11.1%, partially as a result of increased weighted average domestic and international fuel prices, and partially as a result of the increase in total flying hours and mileage. Between 2006 and 2007, the weighted average fuel prices that we paid increased by approximately 1.7%. Due to the highly competitive nature of the airline industry and government regulation on airfare pricing, we may be unable to fully or effectively pass on to our customers any increased fuel costs we may encounter in the future. Any jet fuel shortages or any increase in domestic or international jet fuel prices may materially and adversely affect our financial condition and results of operations. From time to time, we may hedge some of our future fuel purchases to protect against potential spikes in price. However, these hedging strategies may not always be effective and can result in losses depending on price changes.

Intensified Competition

We face intense competition in each of the domestic, Hong Kong regional and international markets that we serve. In our domestic markets, we compete against smaller domestic airline companies that operate with costs that are lower than ours. We also face increasing competition from entrants to our domestic markets, as new investments into China's civil aviation industry are made following the CAAC's relaxation of certain private-sector investment rules in July 2005. See the section headed "Item 4. Information on the Company — Business Overview — Competition" for more details. In our Hong Kong regional and international markets, we compete against international airline companies that have significantly longer operating histories, greater name recognition, more resources or larger sales networks than we do, or utilize more developed reservation systems than ours. The public's perception of the safety records of Chinese airlines also materially and adversely affects our ability to compete against our international competitors. In response to competition, we have, from time to time in the past, lowered our airfares for certain of our routes, and we may be required to do the same in the future. Increased competition and pricing pressures from competition may have a material adverse effect on our financial condition and results of operations.

Government Regulation

The Chinese civil aviation industry is subject to a high degree of regulation by the CAAC. Regulatory policies issued or implemented by the CAAC encompass virtually every aspect of airline operations, including, among other things:

- · route allocation;
- · pricing of domestic airfares;
- · the administration of air traffic control systems and certain airports; and
- · aircraft registration and aircraft airworthiness certification.

As a result, we may face significant constraints on our flexibility and ability to expand our business operations or to maximize our profitability.

Government Ownership and Control of our Company

Most of the major airline companies in China are currently majority-owned either by the central government of China or by provincial or municipal governments in China. CEA Holding currently holds approximately 59.7% of our Company's equity interests on behalf of the PRC Government. As a result, CEA Holding will be able to elect our entire Board of Directors and otherwise be able to control us. CEA Holding will also have sufficient voting control to effect transactions without the concurrence of our minority shareholders. The interests of the PRC Government as the ultimate controlling person of our Company and most of other major Chinese airlines could conflict with the interests

of our minority shareholders. Although the CAAC currently has a policy of equal treatment for all Chinese airlines, we cannot assure you that the CAAC will not favor other Chinese airlines over our Company.

Insurance Coverage and Cost

As a result of the events of September 11, 2001, aviation insurers have significantly reduced the maximum amount of insurance coverage available to commercial air carriers for liability to persons other than employees or passengers for claims resulting from acts of terrorism, war or similar events, or war-risk coverage. At the same time, they have significantly increased the premiums for such coverage, as well as for aviation insurance in general. We renew our insurance policies on a yearly basis and are currently insured through November 30, 2008. However, if the insurance carriers reduce further the amount of insurance coverage available or increase the premium for such coverage when we renew our insurance coverage, our financial condition and results of operations may be materially and adversely affected.

Direct Air Link between China's Mainland and Taiwan

Currently, our operations on the Hong Kong regional routes benefit from traffic between Hong Kong and mainland China ultimately originating in Taiwan. During the Lunar Chinese New Year peak travel season in 2003, from late-January to mid-February, the PRC Government allowed special chartered flights between Shanghai and Taiwan for the first time. During the Lunar Chinese New Year peak travel seasons from late-January to mid-February in 2007 and 2008, respectively, airlines from both mainland China and Taiwan (including our Company) operated 96 and 94 non-stop direct chartered flights between selected cities in mainland China and Taiwan. In 2007, the PRC Government allowed direct flights during the Mid-Autumn Festival holiday from late-September to early-October. During this holiday, airlines from both mainland China and Taiwan (including our Company) operated approximately 24 non-stop direct chartered flights on passenger traffic routes that included Beijing-Taipei, Shanghai-Taipei, Guangzhou-Taipei, and Xiamen-Taipei. In addition, direct flights were also permitted during the observance of Qingming (Ching Ming) Festival from late-March to early-April in 2008. During this period, 11 airlines from both mainland China and Taiwan (including our Company) operated a total of 21 direct flights between the cities of Shanghai, Beijing, Guangzhou and Xiamen in mainland China and the cities of Taipei and Gaoxiong (Kaohsiung) in Taiwan. From July 2008, direct flights between Taiwan and mainland China are expected to be permitted on weekends from Fridays through Mondays on a regular basis, with a transition to direct flights on a daily basis by 2009. Since a substantial number of our passengers travelling on the Hong Kong route connect flight to and/or from Taiwan, our results of operations on Hong Kong routes could be materially and adversely affected by the direct air link between China's mainland and Taiwan. We cannot assure you that our Company can obtain sufficient Taiwan-mainland China routes or that the yields on these routes would be adequate to offset any material adverse effect on our revenues derived from operation on our Hong Kong routes.

Chinese Aviation Infrastructure Limitations and Safety

The rapid increase in air traffic volume in China in recent years has put pressure on many components of the Chinese airline industry, including air traffic control systems, the availability of qualified flight personnel and airport facilities. Our ability to provide safe air transportation depends on the availability of qualified and experienced pilots in China and the improvement of maintenance services, national air traffic control and navigational systems and ground control operations at Chinese airports. If any of these is not available or is inadequate, our ability to provide safe air transportation will be compromised and our financial condition and results of operations may be materially and adversely affected.

Operating Leverage

The airline industry is characterized by a high degree of operating leverage. Due to high fixed costs, including payments made in connection with aircraft leases, the expenses relating to the operation of any given flight do not vary proportionately with the number of passengers carried, while revenues generated from a particular flight are directly related to the number of passengers carried and the fare structure of the flight. Accordingly, a decrease in revenues may result in a proportionately higher decrease in profits.

Liquidity

We have substantial debts, and will continue to have substantial debts in the future. In addition, we entered into contractual commitments in June 2006 to acquire a number of new aircraft for delivery over the next few years. See the section headed "Item 4. Information on the Company — Property, Plants and Equipment — Fleet". As of December 31, 2007, our total outstanding debt was RMB64,463 million, and our long-term debt to equity ratio was 8.6. As of the same date, our current liabilities exceeded our current assets by RMB26,074 million. Short-term bank loans outstanding totaled RMB15,189 million as of December 31, 2007.

We are largely dependent upon cash flows generated from our operations and external financing (including short-term bank loans) to meet our debt repayment obligations and working capital requirements. If our operating cash flow is materially and adversely affected by factors such as increased competition, a significant decrease in demand for our services, or a significant increase in jet fuel prices, our liquidity would be materially and adversely affected. We have arranged financing with domestic and foreign-funded banks in China as necessary to meet our working capital requirements. We have also tried to ensure our liquidity by structuring a substantial portion of our short-term bank loans to be rolled over upon maturity. These efforts, however, may ultimately prove insufficient. Our ability to obtain financing may be affected by our financial position and leverage and our credit rating, as well as by prevailing economic conditions and the cost of financing in general. If we are unable to obtain adequate financing for our capital requirements, our liquidity and operations would be materially and adversely affected.

Future Financing Requirements

We require significant amounts of external financing to meet our capital commitments for adding and upgrading aircraft and flight equipment and for other business expansion needs. We generally acquire aircraft through either long-term capital leases or operating leases. In the past, we have obtained, sometimes with the assistance of the CAAC, guarantees from Bank of China and other Chinese banks in respect of payments under our foreign loan and capital lease obligations. However, we cannot assure you that we will be able to continue to obtain bank guarantees in the future. The unavailability of guarantees from Bank of China or other acceptable banks or the increased cost of such guarantees may materially and adversely affect our ability to borrow internationally or enter into international aircraft lease financings on acceptable terms. The ability of our Company to obtain financing may also be affected by our financial position and leverage and our credit rating as well as by prevailing economic conditions and the cost of financing generally. If we were unable to obtain financing for a significant portion of our capital requirements, our ability to acquire new aircraft or expand our operations may be impaired. We have and in the future will likely continue to have substantial debts. As a result, the interest cost associated with these debts might impair our future profitability and cause our earnings to be subject to a higher degree of volatility.

Related Party Transactions; Conflict of Interests

We have engaged in, from time to time, and may continue to engage in, in the future, a variety of transactions with CEA Holding and its various members, from whom we receive a number of important services, including support for in-flight catering and assistance with importation of aircraft, flight equipment and spare parts. Our transactions with CEA Holding and its members are conducted through a series of arm's length contracts, which we have entered into with CEA Holding and its members in the ordinary course of business. However, because we are controlled by CEA Holding and CEA Holding may have interests that are different from our interests, we cannot assure you that CEA Holding will not take actions that will serve its interests or the interests of its members over our interests.

Acquisitions

We may expand our business through acquisitions of airline companies or airline-related businesses, such as our acquisition of an equity interest in CEA Wuhan and the acquisition of certain selected assets and liabilities relating to the aviation businesses of CEA Northwest and CEA Yunnan. See "Item 4. Information on the Company" for details. Such acquisitions involve uncertainties and risks, including the following:

- ·difficulty with integrating the assets and operations of the acquired airline companies or airline-related businesses, including their employees, corporate cultures, managerial systems, processes and procedures and management information systems and services;
 - failure to achieve the anticipated synergies, cost savings or revenue-enhancing opportunities resulting from the acquisition of such airline companies or airline-related businesses;

difficulty with exercising control and supervision over the newly acquired operations; and

·increased financial pressure resulting from the assumption of recorded and unrecorded liabilities of the acquired airline companies or airline-related businesses.

If we are unable to manage or integrate the newly acquired airlines or airline-related businesses successfully without substantial expense, delay or other operational or financial problems, we may be unable to achieve the objectives or anticipated synergies of such acquisitions and such acquisitions may adversely impact the operations and financial results of our existing businesses.

Limitation on Foreign Ownership

The current CAAC policies limit foreign ownership in Chinese airlines. Under these limits, non-Chinese residents and Hong Kong, Macau or Taiwan residents cannot hold a majority equity interest in a Chinese airline company. At present, approximately 32.2% of our total outstanding shares are held by non-Chinese residents and Hong Kong, Macau or Taiwan residents (excluding the qualified foreign institutional investors that are approved to invest in the A Share market of the PRC). As a result, our access to international equity capital markets may be limited. This restriction may also limit the opportunities available to our Company to obtain funding or other benefits through the creation of equity-based strategic alliances with foreign carriers. We cannot assure you that the CAAC will increase these limits in the near future or at all.

Adverse Public Health Epidemics or Pandemics

Adverse public health epidemics or pandemics could disrupt businesses and the national economy of China and other countries where we do business. From December 2002 to June 2003, China and other countries experienced an outbreak of a new and highly contagious form of atypical pneumonia now known as severe acute respiratory syndrome, or SARS. On July 5, 2003, the World Health Organization declared that the SARS outbreak had been contained. However, a number of isolated new cases of SARS were subsequently reported, most recently in central China in April 2004. During May and June of 2003, many businesses in China were closed by the PRC Government to prevent transmission of SARS. Moreover, some Asian countries, including China, have recently encountered incidents of the H5N1 strain of bird flu, or avian flu. We are unable to predict the effect, if any, that avian flu may have on our business. Any future outbreak of SARS, avian flu or similar adverse public health developments may, among other things, severely restrict the level of economic activity in the affected areas, which may in turn significantly reduce demand for our services and have a material adverse effect on our financial condition and results of operations.

Changes in the Economic Policies of the PRC Government

Since the late 1970s, the PRC Government has been reforming the Chinese economic system. These reforms have resulted in significant economic growth and social progress. These policies and measures, however, may from time to time be modified or revised. Adverse changes in economic and social conditions in China, in the policies of the PRC Government or in the laws and regulations of China, if any, may have a material adverse effect on the overall economic growth of China and investments in the domestic airline industry. These developments, in turn, may have material adverse effects on our business operations and may also materially and adversely affect our financial condition and results of operations.

Convertibility of Renminbi

A significant portion of our revenue and operating expenses are denominated in Renminbi, while a portion of our revenue, capital expenditures and debts are denominated in U.S. dollars and other foreign currencies. The Renminbi is currently freely convertible under the current account, which includes dividends, trade and service-related foreign currency transactions, but not under the capital account, which includes foreign direct investment, unless the prior

approval of the State Administration of Foreign Exchange, or SAFE, is obtained. As a foreign invested enterprise approved by the PRC Ministry of Commerce, or MOC, we can purchase foreign currency without the approval of SAFE for settlement of current account transactions, including payment of dividends, by providing commercial documents evidencing these transactions. We can also retain foreign exchange in our current accounts, subject to a maximum amount approved by SAFE, to satisfy foreign currency liabilities or to pay dividends. However, the relevant PRC Government authorities may limit or eliminate our ability to purchase and retain foreign currencies in the future. Foreign currency transactions under the capital account are still subject to limitations and require approvals from SAFE. This may affect our ability to obtain foreign exchange through debt or equity financing, including by means of loans or capital contributions. We cannot assure you that we will be able to obtain sufficient foreign exchange to pay dividends or satisfy our foreign exchange liabilities.

Fluctuations in Exchange Rates

The value of the Renminbi against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in the PRC's political and economic conditions. On July 21, 2005, the PRC Government changed its policy of pegging the value of the Renminbi to the U.S. dollar. Under the new policy, the Renminbi is permitted to fluctuate within a narrow and managed band against a basket of certain foreign currencies. This change in policy resulted in an appreciation in the value of the Renminbi against the U.S. dollar of approximately 3.4% in 2006 and 6.9% in 2007. In May 2007, the PRC Government widened the daily trading band of the Renminbi against a basket of certain foreign currencies from 0.3% to 0.5%. It is possible that the PRC Government could adopt a more flexible currency policy, which could result in further and more significant revaluations of the Renminbi against the U.S. dollar or any other foreign currency.

Withdrawal of, or Changes to, Tax Incentives

Prior to January 1, 2008, except for a number of preferential tax treatment schemes available to various enterprises, industries and locations, business enterprises in China were subject to an enterprise income tax rate of 33% under the relevant PRC Enterprise Income Tax Law. On March 16, 2007, China passed a new enterprise income tax law, or the EIT Law, which took effect on January 1, 2008. The EIT Law imposes a uniform income tax rate of 25% for domestic enterprises and foreign invested enterprises. Business enterprises enjoying preferential tax treatment that was extended for a fixed term prior to January 1, 2008 will still be entitled to such treatment until such fixed term expires. Certain of our subsidiaries are entitled to preferential tax treatment, allowing us to enjoy a lower effective tax rate that would not otherwise be available to us.

Although the State Council of the PRC promulgated the implementing rules of the EIT Law in December 2007, a number of detailed implementing rules are still in the process of promulgation. As such, we cannot accurately evaluate the impact of the new tax rate on the preferential tax treatment enjoyed by our Company and its members, nor can we predict any future effective tax rates. To the extent that there are any withdrawals of, or changes in, our preferential tax treatment, or increases in the applicable effective tax rate, our tax liability may increase correspondingly.

Uncertainties Embodied in the PRC Legal System

The PRC legal system is a civil law system based on written statutes. Unlike common law systems, it is a system in which decided legal cases have little precedential value. In 1979, the PRC Government began to promulgate a comprehensive system of laws and regulations governing economic matters in general. Legislation over the past 20 years has significantly enhanced the protection afforded to foreign investment in China. However, the interpretation and enforcement of some of these laws, regulations and other legal requirements involve uncertainties that may limit the legal protection available to you.

Legal Proceedings

On November 21, 2004, a CRJ-200 Bombadier-supplied aircraft then owned and operated by China Eastern Air Yunnan Company, or CEA Yunnan, crashed shortly after leaving Baotou city in the Inner Mongolia Autonomous Region. All 53 people aboard died in the aircraft accident. In 2005, family members of the deceased sued, among other defendants, our Company in a U.S. court for compensation, the amount of which had not been determined. On July 5, 2007, pursuant to several conditions with which our Company has complied, the Superior Court of the State of California ordered the action stayed on the grounds of *forum non conveniens* for the purpose of permitting proceedings in the PRC. Moreover, the Superior Court scheduled and held a status conference on December 10, 2007, and intends to schedule subsequent status conferences every six months until the litigation in the PRC is resolved or until the Superior Court determines otherwise. On February 20, 2008, the plaintiff filed a motion with the Superior Court of the State of California to lift the stay. The motion was denied by the Superior Court on May 6, 2008. We

cannot assure you that the court will rule in favor of our Company in procedure or substance of the litigation. Our reputation could be substantially damaged in the event of any unfavorable court rulings against us.

Suspension and Reduction of Certain Flights in Yunnan, China

We recently experienced a suspension and reduction in our flight services due to unforeseeable circumstances, including actions taken by our pilots which were beyond our anticipation or control. Between March 31, 2008 and April 1, 2008, 21 intra-provincial flights operated by the Yunnan branch of our Company took off and, without warning, subsequently returned to their departure airports without reaching their intended destinations due to various reasons found by the CAAC Southwest Bureau, which included pilot mishandling. Pursuant to its investigation into the incident, the CAAC Southwest Bureau imposed a penalty on our Company of RMB1.5 million and suspended our right to operate flights for certain routes and reduced a number of our other flights in the Yunnan region. The occurrence of similar actions or events may be difficult to predict or foresee and may disrupt our business operations as well as result in administrative penalties, loss of revenues and harm to our reputation. See "Item 4. Information on the Company - Business Overview".

Failure or Disruption of our Computer, Communications, Flight Equipment or other Technology Systems

We are dependent on computer, communications, flight equipment and other technology systems to operate our business and enhance customer service. These systems could be disrupted due to various events, including natural disasters, power failures, terrorist attacks, equipment failures, software failures, computer viruses, and other events beyond our control. We cannot guarantee that the measures we have taken to reduce the risk of some of these potential disruptions are adequate to prevent disruptions or failures of these systems. Any substantial or repeated failure of these systems could result in the loss of important data and could have an adverse impact on our business operations, profitability, reputation and customer services.

Item 4. Information on the Company

A. History and Development of the Company

Our registered office is located at 66 Airport Street, Pudong International Airport, Shanghai, China, 201202. Our principal executive office is located at 2550 Hongqiao Road, Hongqiao Airport, Shanghai, China, 200335. The telephone number of our principal executive office is (86-21) 6268-6268. We currently do not have an agent for service of process in the United States.

Our Company was established on April 14, 1995 under the laws of China as a company limited by shares in connection with the restructuring of our predecessor and our initial public offering. Our predecessor was one of the six original airlines established in 1988 as part of the decentralization of the airline industry in China undertaken in connection with China's overall economic reform efforts. Prior to 1988, the CAAC was responsible for all aspects of civil aviation in China, including the regulation and operation of China's airlines and airports. In connection with our initial public offering, our predecessor was restructured into two separate legal entities, our Company and EA Group. According to the restructuring arrangement, by operation of law, our Company succeeded to substantially all of the assets and liabilities relating to the airline business of our predecessor. EA Group succeeded to our predecessor's assets and liabilities that do not directly relate to the airline operations and do not compete with our businesses. Assets transferred to EA Group included our predecessor's equity interests in companies engaged in import and export, real estate, advertising, in-flight catering, tourism and certain other businesses. In connection with the restructuring, we entered into various agreements with EA Group and its subsidiaries for the provision of certain services to our Company. CEA Holding assumed the rights and liabilities of EA Group under these agreements after it was formed by merging EA Group, Yunnan Airlines Company and China Northwest Airlines Company in October 2002. See "Item 7. Major Shareholders and Related Party Transactions" for more details. In 2007, our Company's total revenue from core operations accounted for approximately 95.0% of CEA Holding's total revenue. The following chart sets forth the organizational structure of our Company and our significant subsidiaries, all of which were incorporated in China, as of May 31, 2008:

In February 1997, we completed our initial public offering of 1,566,950,000 ordinary H Shares, par value RMB1.00 per share, and listed our ordinary H Shares on The Stock Exchange of Hong Kong Limited, or the Hong Kong Stock Exchange, and American Depositary Shares, or ADSs, representing our H Shares, on the New York Stock Exchange. In October 1997, we completed a public offering of 300,000,000 new ordinary domestic shares in the form of A Shares to public shareholders in China and listed such new shares on the Shanghai Stock Exchange. Following the A Share offering, EA Group continued to own 3,000,000,000 ordinary domestic shares, which represent 90.91% of our total ordinary domestic shares. As of December 31, 2006, EA Group owned 61.64% of our issued and outstanding share capital. H Shares are our ordinary shares listed on the Hong Kong Stock Exchange, and A Shares are our ordinary shares listed on the Shanghai Stock Exchange. Our H Shares and A Shares are identical in respect of all rights and preferences, except that the listed A Shares may only be held by Chinese domestic investors and certain qualified foreign institutional investors. In addition, dividends on the A Shares are payable in Renminbi.

Since our initial public offering, we have expanded our operations through acquisitions and joint ventures. In July 1998, our Company and China Ocean Shipping (Group) Company jointly established China Cargo Airlines Co., Ltd., which specializes in the air freight business. Our total investment in this joint venture was approximately RMB350 million, representing 70% of the equity interest of China Cargo Airlines Co., Ltd. In addition, we purchased from EA Group the assets and liabilities relating to airline operations of China General Aviation Company, for approximately RMB88 million in November 1999. China General Aviation Company was based in Shanxi Province in China and served primarily the northern region of China. Moreover, we completed our acquisition of Air Great Wall in June 2001 and established our Ningbo Branch following the acquisition. Air Great Wall was based in Ningbo, Zhejiang Province in China and served primarily the southeastern region of China.

In May 2002, our Company, jointly with Shanghai Civil Aviation Eastern China Kaiya System Integration Co., Ltd., established Shanghai Eastern Airlines Investment Co., Ltd., or SEAI. We hold a 99% equity interest in SEAI. SEAI serves as one of the investment vehicles of our Company for our investments in other industrial projects and provides consulting services. In August 2002, our Company, jointly with Wuhan Municipal State-owned Assets Management Committee Office and two other independent third parties, established China Eastern Airlines Wuhan Limited, or CEA Wuhan, in which our Company held a 40% equity interest. CEA Wuhan's operating results were consolidated with ours from January 2006, when we obtained control of CEA Wuhan. In March 2006, we completed our acquisition of a 38% equity interest and a 18% equity interest in CEA Wuhan from Wuhan Municipal State-owned Assets Supervision and Administration Committee and Shanghai Junyao Aviation Investment Company Limited, respectively, for an aggregate consideration of approximately RMB418 million. As a result, our equity interest in CEA Wuhan has increased to 96%. CEA Wuhan primarily serves the market in Central China. We also entered into an agreement with Rockwell Collins International Inc. of the United States to establish a joint venture avionics maintenance service company in China in September 2002. Moreover, in November 2002, our Company, jointly with China Aircraft Services Limited, established Shanghai Eastern Aircraft Maintenance Limited, in which our Company holds a 60% equity interest. In order to expand our Company's operations in Jiangsu Province of China, we increased our investment in China Eastern Airlines Jiangsu Co., Ltd., or Eastern Jiangsu, in December 2002, together with other shareholders of Eastern Jiangsu. In 2004, our Company contributed additional capital of approximately RMB408 million to Eastern Jiangsu. As a result, our equity interest in Eastern Jiangsu increased from 55% to 63%.

On March 10, 2003, we entered into a joint venture agreement with Singapore Technologies Aerospace Ltd. to establish Shanghai Technologies Aerospace Company Limited, or STA, a Sino-foreign joint venture limited liability company established under the laws of the PRC. The registered capital of STA is US\$73 million with a total investment of US\$98 million. Pursuant to the joint venture agreement, our Company shall make an in-kind capital contribution of US\$37.23 million (which includes but is not limited to flight equipment and land use rights) in installments to STA. Our Company owns a 51% equity interest in STA. STA is primarily engaged in the provision of commercial aircraft maintenance, repair and overhaul services. STA commenced operations in late 2004.

In April 2003, we entered into a share transfer agreement with CEA Holding, pursuant to which we have acquired from CEA Holding a 45% equity interest in Eastern Aviation Import and Export Company, or EAIEC, for a consideration of approximately RMB44 million. EAIEC was a wholly-owned subsidiary of CEA Holding prior to the transaction. Under the share transfer agreement, our Company and CEA Holding each undertakes to the other party that it will not establish any other entity engaging in any business similar in nature or scope to the business conducted by EAIEC.

In December 2003, we also entered into a joint venture agreement with CEA Holding to establish China Eastern Air Catering Investment Company Ltd., or CEA Catering. The registered capital of CEA Catering is RMB350 million. Pursuant to the joint venture agreement, CEA Holding and our Company made capital contributions of approximately RMB192.5 million and RMB157.5 million, respectively. As a result, CEA Holding and our Company hold a 55% and a 45% equity interest in CEA Catering, respectively. CEA Catering is primarily engaged in the business of providing air and ground catering services, food and beverage supplies and other related services.

In addition, also in December 2003, we entered into an equity transfer and capital increase agreement with CEA Holding and Shanghai Eastern Development Corporation Limited, or SEDC, pursuant to which our Company acquired 10% of SEDC's then equity interest and 35% of CEA Holding's then equity interest in Shanghai Dong Mei Aviation Travel Corporation Limited, a company that is primarily engaged in the business of selling air tickets, hotel reservation, travel agency and other related services. After the transaction, our Company holds a 45% equity interest in Shanghai Dong Mei. Our aggregate investment in Shanghai Dong Mei was approximately RMB14.9 million.

On February 18, 2004, we entered into a joint venture agreement with CEA Holding to establish China Eastern Real Estate Investment Co., Ltd., or CEA Real Estate, a limited liability company established under the laws of the PRC. The registered capital of CEA Real Estate is RMB100 million. Pursuant to the joint venture agreement, our Company has made its capital contribution of RMB5 million in cash. As a result, our Company owns a 5% equity interest in CEA Real Estate. CEA Real Estate is primarily engaged in the real estate business, including the development and sales of commercial premises and property leasing in Shanghai, China.

On August 18, 2004, we entered into a joint venture agreement with China Ocean Shipping (Group) Company and China Cargo Airlines Co., Ltd. to establish Shanghai Eastern Logistics Co., Ltd., or Eastern Logistics, a limited liability company established under the laws of the PRC. The registered capital of Eastern Logistics is RMB200 million. Pursuant to the joint venture agreement, our Company has made its capital contribution of RMB138.6 million in cash to Eastern Logistics. Our Company, directly and indirectly, owns a 70% equity interest in Eastern Logistics. Eastern Logistics is primarily engaged in the provision of cargo logistics services. Eastern Logistics commenced operations after it obtained its business license from the relevant government authority on August 23, 2004.

Pursuant to the CAAC's airline industry restructuring plan, EA Group merged with Yunnan Airlines Company and China Northwest Airlines Company and formed CEA Holding in October 2002. Yunnan Airlines Company and China Northwest Airlines Company were restructured as wholly-owned subsidiaries of CEA Holding after the merger and renamed as China Eastern Air Yunnan Company, or CEA Yunnan, and China Eastern Air Northwest Company, or CEA Northwest, respectively. CEA Northwest is based in Xi'an, Shaanxi Province in China with approximately 30 jet aircraft and serves primarily the western region of China. CEA Yunnan is based in Kunming, Yunnan Province in China with approximately 26 jet aircraft and serves primarily the southwestern region of China. The airline operations conducted by CEA Yunnan and CEA Northwest previously competed with our Company, in particular, on the Shanghai-Wenzhou route, Shanghai-Harbin route, Shanghai-Qingdao route, Shanghai-Changsha route, Changchun-Kunming route, Changsha-Ningbo route, Changsha-Kunming route and Changsha-Nanjing route.

In order to further expand our business and enhance our market competitiveness, we acquired from CEA Holding certain selected assets and liabilities relating to the aviation businesses of CEA Yunnan and CEA Northwest pursuant to a conditional assets transfer agreement, or Acquisition Agreement, entered into by our Company, CEA Holding, CEA Yunnan and CEA Northwest on May 12, 2005. The certain selected assets acquired by our Company included aircraft, engines and aviation equipment and facilities, certain employees and operating contracts, and other fixed and current assets (whether owned or leased assets). We also assumed aggregate debts of RMB9,421 million. We expressly did not assume certain legal liabilities. Following the completion of the acquisitions of these assets and liabilities in June 2005, our Company assumed and took over the aviation operations and businesses previously carried out by CEA Yunnan and CEA Northwest in accordance with the Acquisition Agreement. The air routes of CEA Yunnan and CEA Northwest were also injected into our Company with such assets and liabilities. The total consideration paid by our Company under the Acquisition Agreement was approximately RMB640 million in cash.

Under the Acquisition Agreement, each of CEA Holding, CEA Northwest and CEA Yunnan has undertaken that at any time after completion of the Acquisition Agreement, it will not, and will procure its respective subsidiaries and associated companies (including members of CEA Holding) not to, carry out, engage in or otherwise become involved or interested in any business which competes or may compete, either directly or indirectly, with our Company's aviation business. The undertaking is not made for any definite period.

On March 14, 2006, we entered into an official sponsorship agreement with the Bureau of 2010 Expo Shanghai (the "Bureau"), which designated our Company as the exclusive airline passenger carrier in China to sponsor the 2010 Shanghai Expo. Pursuant to the agreement, we are entitled to a number of rights, including the use of the Bureau's logos and trademarks and the slogan "Better City, Better Life", and priority to purchase advertising space at the Expo site. We are also able to enjoy the privileges of being a market development participant of the World Expo. The total sponsorship fee under the agreement is RMB320 million, of which RMB160 million will be paid in cash in installments and the remaining RMB160 million will be settled by value-in-kind services. See Note 14(b) to our audited consolidated financial statements for details. As part of our five-year World Expo service strategy, we have increased the number of our aircraft, expanded our route network, improved our in-cabin and ground services, and developed our aircraft maintenance and repair capabilities. We believe that, as the designated partner airline for World Expo 2010 Shanghai and with our core operations in Shanghai, one of China's principal air transportation hubs, we are well-positioned to enhance our brand image and overall operations.

On December 27, 2006, our Board of Directors passed a resolution to dispose of certain aged aircraft and related flight equipment in the forthcoming 12-months in light of the poor market reception and the high maintenance cost of these aircraft. These aircraft together with the related flight equipment and spare parts have been classified as non-current assets held for sale as of December 31, 2006. Prior to the reclassification, a valuation deficit of RMB1,035 million for these assets was recognized in the income statement as a result of the asset revaluation. For more details, see Note 35 to our audited consolidated financial statements.

On August 16, 2007, we established China Eastern Airlines Gifting Co., Ltd., a limited liability company established under the laws of the PRC. The registered capital of China Eastern Airlines Gifting Co., Ltd. is RMB50 million. Our Company directly owns a 100% equity interest in China Eastern Airlines Gifting Co., Ltd. China Eastern Airlines Gifting Co., Ltd., which commenced operations after obtaining its business license from the relevant government authority on August 17, 2007, is primarily engaged in the provision of marketing services.

On September 2, 2007, we entered into a non-binding agreement with Singapore Airlines Limited ("SIA") and Lentor Investments Pte. Ltd ("Temasek") for a proposed investment by SIA and Temasek in our Company through a subscription for new H shares, subject to legally binding documents to be entered into at a later date. SIA is primarily engaged in providing air transportation services on a global basis. Temasek, an indirect, wholly-owned subsidiary of Temasek Holdings (Private) Limited, is an investment company. On November 9, 2007, we entered into several agreements with SIA and Temasek that provided detailed terms of the investment, including: (1) the Subscription Agreement between SIA, Temasek and our Company in which SIA and Temasek would subscribe for new H shares that would represent approximately 25% and 13%, respectively, of our existing H shares for an aggregate consideration of approximately US\$923.3 million (HK\$7.2 billion); (2) the CEA Holding Subscription Agreement between CEA Holding and our Company in which CEA Holding would subscribe for new H shares for approximately 23% of existing H shares (in addition to their current holdings) for an aggregate consideration of US\$538.6 million (HK\$4.2 billion); (3) the Cooperation Agreement between SIA and our Company in which the key areas of strategic alliance and cooperation between the two parties are described, subject to termination at the option of either party; and (4) the Personnel Secondment Agreement between SIA and our Company in which the terms for the secondment of SIA personnel to executive positions within our Company are detailed, subject to termination upon the termination of the Cooperation Agreement. As shareholders' approval of the issuance of new H shares was a condition precedent in both the Subscription Agreement and the CEA Holding Subscription Agreement, we convened a general meeting on January 8, 2008 for shareholders to vote on the pending resolutions. We did not obtain shareholder approval at that meeting for the issuance of new H shares and currently have no plans to attempt another shareholder vote. Under the terms of the agreements, the Subscription Agreement and CEA Holding Subscription Agreement will expire on or before August 9, 2008 if the conditions precedent are not fulfilled.

On November 16, 2007, our Company, CEA Holding and East China Care System Co., Ltd. entered into an equity transfer agreement regarding our interest in China Eastern Air Investment Company Limited. Our Company agreed to dispose of our entire interest of 98.8% in China Eastern Air Investment Company Limited for the consideration of RMB461.9 million, while East China Care System Co., Ltd. also agreed to dispose of its entire 1.2% interest in China Eastern Air Investment Company Limited for the consideration of RMB5.7 million.

The table below sets forth details of our operating fleet since December 31, 2003 (including our acquisition or assumption of ownership of or leases for 60 aircraft as part of our acquisition of certain selected assets and liabilities relating to the aviation businesses of CEA Northwest and CEA Yunnan in 2005) and planned additions for the year 2008 and 2009:

B. Business Overview

Our Company was one of the three largest air carriers in China in terms of revenue tonne-kilometers and number of passengers carried in 2007, and is the primary air carrier serving Shanghai, China's eastern gateway and largest city. We accounted for approximately 21.0% of the total commercial air traffic (as measured in revenue tonne-kilometers, or RTKs) handled by Chinese airlines in 2007. We operate primarily from Shanghai's Hongqiao Airport and Pudong International Airport. In 2007, we accounted for 37.0% and 29.4% of all the flight traffic at Hongqiao Airport and Pudong International Airport, respectively. In 2007, we accounted for approximately 33.9% of the total passenger traffic volume and 17.9% of the total freight volume on routes to and from Shanghai. We have been consistently ranked as one of the best Chinese airlines in terms of service quality in each of the past seven years according to a poll conducted by the China Civil Aviation Association.

Compared to 2006, our traffic volume (as measured in RTKs) increased by 11.3% from 6,931.0 million in 2006 to 7,713.9 million in 2007. Our passenger traffic volume (as measured in revenue passenger-kilometers, or RPKs) increased from 50,271.9 million in 2006 to 57,182.6 million in 2007, or 13.8%. Our cargo and mail traffic volume (as measured in revenue freight tonne-kilometers, or RFTKs) increased by 7.0% from 2,444.0 million in 2006 to 2,614.1 million in 2007. In 2007, our average on-time performance rate was approximately 84.3%, which was higher than the industry average rate of approximately 80.0% in China.

Our Operations by Activity

The following table sets forth our traffic revenues by activity for each of the three years ended December 31, 2007:

	2005 (millions of RMB)	2006 (millions of RMB)	2007 (millions of RMB)
Traffic Revenues			
Passengers (1)	23,183	33,490	37,537
Cargo and mail (2)	2,731	2,843	3,114
Total Traffic Revenues	25,914	36,333	40,651

⁽¹⁾ includes revenues generated from cargo carried by passenger flights.

In accordance with industry practice, we exclude cargo carried by passenger flights when calculating passenger related operating statistics, such as passenger traffic volume, passenger capacity, passenger yield and passenger load factor, and we include cargo carried by passenger flights when calculating cargo and mail related operating statistics, such as cargo and mail traffic volume, cargo and mail capacity, cargo and mail yield and cargo and mail load factor. However, in accordance with generally accepted accounting principles, we include cargo carried by passenger flights in our financial information when calculating passenger revenues and exclude cargo carried by passenger flights from our financial information when calculating cargo and mail revenues. As such, the trends in our financial information are not representative of the trends in our operating statistics. The discussion of our operating statistics below follows industry practice.

Passenger Operations

The following table sets forth certain passenger operating statistics of our Company by route for each of the three years ended December 31, 2007:

2005	2006	2007
/11117	2.11110	/ / / / /

⁽²⁾ excludes revenues generated from cargo carried by passenger flights.

Hong Kong	62.10	63.39	65.12
International	65.16	69.64	69.44

The primary focus of our business is the provision of domestic, Hong Kong regional and international passenger airline services. We operated approximately 6,275 scheduled flights per week (excluding charter flights), serving a route network that covers 138 cities within China and abroad. In 2007, we operated a total of approximately 467 routes.

In 2007, we operated approximately 4,912 domestic flights per week on 351 routes. Our domestic routes generated approximately 61.8% of our passenger revenues. Our most heavily traveled domestic routes generally link Shanghai to the large commercial and business centers of China, such as Beijing, Guangzhou and Shenzhen. We also operated approximately 436 flights per week on 18 routes to and from Hong Kong, originating from Shanghai and 17 other major cities in eastern, northern and western China. Our Hong Kong regional routes accounted for approximately 6.1% of our passenger revenues in 2007.

In 2007, we operated approximately 352 international flights per week on 98 routes, serving 54 cities in 20 countries, primarily linking Shanghai to major cities in Asian and Southeast Asian countries (such as Japan, Korea, India, Singapore, Thailand and Bangladesh) and certain strategic locations in Europe, the United States and Australia. In 2006, we gradually introduced several routes to further improve our route network, such as Shanghai-Frankfurt, Shanghai-New York, Beijing-Seoul, Hangzhou-Qingzhou and Weihai-Seoul. In 2007, we introduced a few new international routes, including Shanghai-Maldives-Johannesburg, Hongqiao-Haneda, Beijing-Dalian-Okayama, Shanghai-Seoul-Bangkok and Hongqiao-Gimpo. Revenues derived from our operations on international routes accounted for approximately 32.1% of our passenger revenues. Revenues derived from our operations on our 23 routes to and from Japan accounted for approximately 9.5% of our passenger revenues and approximately 29.5% of our international passenger revenues in 2007.

Following its investigation into an incident that involved the return of certain of our flights to their departure points without reaching their intended destination, the CAAC Southwest Bureau found that certain flight returns were a result of pilot mishandling. As a result, two of our flight routes, namely the Kunming—Banna and Kunming—Dali routes, were suspended by the CAAC Southwest Bureau as of May 4, 2008. In addition, from April 26, 2008, the CAAC Southwest Bureau reduced the number of our Company's flights in the Yunnan region as follows: a decrease of 6 flights per day between Kunming and Lipiang, a decrease of 6 flights per day between Kunming and Zhongdian, a decrease of 2 flights per day between Kunming and Lincang, a decrease of 2 flights per day between Kunming and Lincang, a decrease of 2 flights per day between Kunming and Lincang, a decrease of 2 flights per day between Kunming and Simao and a decrease of 2 flights per day between Kunming and Wenshan. Revenues derived from the suspended and reduced flights accounted for approximately 1.5% of our total revenue from principal operations in 2007. See "Item 3. Key Information – Risk Factors".

Most of our international and Hong Kong regional flights and a substantial portion of our domestic flights either originate or terminate in Shanghai, the central hub of our route network. Our operations in Shanghai are conducted primarily at Hongqiao Airport and Pudong International Airport. All of our international flights to or from Shanghai originate or terminate at Pudong International Airport. Pudong International Airport is a newly constructed airport and

is approximately 30 kilometers from the central business district of Shanghai.

We operate most of our flights through our three hubs located in eastern, northwestern and southwestern China, namely Shanghai, Xi'an and Kunming, respectively. We believe that we will benefit from the level of development and growth opportunities in eastern, northern and western China as a whole by providing direct services between various cities in those regions and between those regions and other major cities in China. The provincial hubs also enable us to provide convenient connections for passengers on certain flights to and from Shanghai. Aircraft used for regional operations are mainly maintained by us on site at the hubs, and our sales offices are also based at each provincial hub. In addition, we are also in the process of developing our operations in Beijing and Guangzhou as our principal bases for northern China and southern China, respectively.

Cargo and Mail Operations

The following table sets forth certain cargo and mail operating statistics of our Company by route for each of the three years ended December 31, 2007:

	Year Ended December 31,		
	2005	2006	2007
C IN THE CC / DETERM / THE	2.152	2.444	2.614
Cargo and Mail Traffic (in RFTKs) (millions)	2,152	2,444	2,614

Domestic	57.41	54.24	49.55
Hong Kong	42.88	40.24	42.91
International	53.48	52.16	52.60

We are required to obtain from the CAAC the right to carry passengers or cargo on any domestic or international route. Our cargo and mail business generally utilizes the same route network used by our passenger airline business. China Cargo Airlines Co., Ltd. also maintains 27 cargo routes. We carry cargo and mail on our freight aircraft as well as in available cargo space on our passenger aircraft. Our most significant cargo and mail routes are international routes.

The development of cargo operations is an important part of our Company's growth strategy. We have six MD-11F freight aircraft for cargo and mail operations. We also have two Airbus A300F as well as three Boeing 747F freighters, one of which is under operating leases for our cargo operations in 2007.

Our Operations by Geographical Segment

Our revenues (net of business tax) by geographical segment are analyzed based on the following criteria:

- (1) Traffic revenue from services within the PRC (excluding the Hong Kong Special Administrative Region ("Hong Kong")) is classified as domestic operations. Traffic revenue from inbound and outbound services between the PRC and Hong Kong or overseas markets is classified under Hong Kong or the relevant overseas locations.
- (2) Revenue from ticket handling services, airport ground services and other miscellaneous services are classified on the basis of where the services are performed.

The following table sets forth our revenues by geographical segment for each of the three years ended December 31, 2007:

	2005 (millions of RMB)	2006 (millions of RMB)	2007 (millions of RMB)
Domestic (the PRC, excluding Hong Kong)	13,358	20,949	24,125
Hong Kong	3,150	3,245	2,695
Japan	2,644	3,583	3,642
Other countries	8,302	9,857	12,059
Total	27,454	37,634	42,521
16			

Regulation

The PRC Civil Aviation Law provides the framework for regulation of many important aspects of civil aviation activities in China, including:

the administration of airports and air traffic control systems;

aircraft registration and aircraft airworthiness certification;

operational safety standards; and

the liabilities of carriers.

The Chinese airline industry is also subject to a high degree of regulation by the CAAC. Regulations issued or implemented by the CAAC encompass virtually every aspect of airline operations, including route allocation, domestic airfare, licensing of pilots, operational safety standards, aircraft acquisition, aircraft airworthiness certification, fuel prices, standards for aircraft maintenance and air traffic control and standards for airport operations. Although China's airlines operate under the supervision and regulation of the CAAC, they are accorded a significant degree of operational autonomy. These areas of operational autonomy include:

whether to apply for any route;

the allocation of aircraft among routes;

the airfare pricing for the international and Hong Kong passenger routes;

the airfare pricing within the limit provided by the CAAC for the domestic passenger routes;

the acquisition of aircraft and spare parts;

the training and supervision of personnel; and

many other areas of day-to-day operations.

Although we have generally been allocated adequate routes in the past to accommodate our expansion plans and other changes in our operations, those routes are subject to allocation and re-allocation in response to changes in governmental policies or otherwise at the discretion of the CAAC. Consequently, we cannot assure you that our route structure will be adequate to satisfy our expansion plans.

The CAAC has established regulatory policies intended to promote controlled growth of the Chinese airline industry. We believe those policies will be beneficial to the development of and prospects for the Chinese airline industry as a whole. Nevertheless, those regulatory policies could limit our flexibility to respond to changes in market conditions, competition or our cost structure. Moreover, while our Company generally benefits from regulatory policies that are beneficial to the airline industry in China as a whole, the implementation of specific regulatory policies may from time to time materially and adversely affect our business operations.

Because our Company provides services on international routes, we are also subject to a variety of bilateral civil air transport agreements between China and other countries. In addition, China is a contracting state as well as a permanent member of the International Civil Aviation Organization, an agency of the United Nations established in 1947 to assist in the planning and development of the international air transportation. The International Civil Aviation

Organization establishes technical standards for the international airline industry. China is also a party to a number of other international aviation conventions. The business operations of our Company are also subject to those international aviation conventions.

Domestic Route Rights

Chinese airlines must obtain from the CAAC the right to carry passengers or cargo on any domestic route. The CAAC's policy on domestic route rights is to assign routes to the airline or airlines suitable for a particular route. The CAAC will take into account whether an applicant for a route is based at the point of origin or termination of a particular route. This policy benefits airlines, such as our Company, that have a hub located at each of the active air traffic centers in China. The CAAC also considers other factors that will make a particular airline suitable for an additional route, including the applicant's safety record, previous on-time performance and level of service and availability of aircraft and pilots. The CAAC will consider the market conditions applicable to any given route before such route is allocated to one or more airlines. Generally, the CAAC will permit additional airlines to service a route that is already being serviced only when there is strong demand for a particular route relative to the available supply. The CAAC's current general policy is to require the passenger load factor of one or two airlines on a particular route to reach a certain level before another carrier is permitted to commence operations on such route.

Hong Kong Route Rights

Hong Kong routes and the corresponding landing rights were formerly derived from the Sino-British air services agreement. In February 2000, the PRC Government, acting through the CAAC, and Hong Kong signed the Air Transportation Arrangement between mainland China and Hong Kong. The Air Transportation Arrangement provides for equal opportunity for airlines based in Hong Kong and mainland China. Competition from airlines based in Hong Kong increased after the execution of the Air Transportation Arrangement. The CAAC normally will not allocate an international route or a Hong Kong route to more than one domestic airline unless certain criteria, including minimum load factors on existing flights, are met. There is more than one Chinese airline company on certain of our Hong Kong routes.

The CAAC and the Economic Development and Labor Bureau of Hong Kong announced that they have reached an agreement in 2007 to further expand the Air Transportation Arrangement. This agreement will increase the routes between Hong Kong and mainland China to expand coverage to most major cities in mainland China. The capacity limits for passenger and/or cargo services on most routes will also be gradually lifted. Beginning from the winter of 2007, each side designated three airline companies to operate passenger and/or cargo flights and another airline company to operate all-cargo flights on the majority of the routes between Hong Kong and mainland China.

International Route Rights

International route rights, along with the corresponding landing rights, are derived from air services agreements negotiated between the PRC Government, acting through the CAAC, and the government of the relevant foreign country. Each government grants to the other the right to designate one or more domestic airlines to operate scheduled services between certain points within each country. Under the new air services agreement entered into between China and the U.S. in May 2007, the number of daily round-trip flights will increase from current 12 to 23 before 2012. As a result, the CAAC also expects to receive applications from Chinese airlines to fly international passenger routes. The CAAC awards the relevant route to an airline based on various criteria, including:

availability of appropriate aircraft and flight personnel;

safety record;

on-time performance; and

hub location.

Although hub location is an important criterion, an airline may be awarded a route which does not originate from an airport where it has a hub. The route rights awarded do not have a fixed expiry date and can be terminated at the discretion of the CAAC.

Airfare Pricing Policy

The PRC Civil Aviation Law provides that airfares for domestic routes are determined jointly by the CAAC and the agency of the State Council responsible for price control, primarily based upon average airline operating costs and market conditions. From February 1999 to March 2001, all domestic airlines were required to adhere to unified domestic airfares published by the CAAC from time to time and discounted sales were prohibited. In 2001, the CAAC gradually relaxed its control over domestic airfare pricing and, effective March 1, 2001, domestic airlines were permitted to offer discounts on several major domestic routes.

On March 17, 2004, China's State Council approved the Pricing Reform Plan for the Domestic Civil Aviation Industry, or the Pricing Reform Plan, effective April 20, 2004. Pursuant to the Pricing Reform Plan, the governmental authorities responsible for price control no longer directly set the airfares for domestic routes, but indirectly control the airfares for domestic routes by setting basic airfare levels and permitted ranges within which the actual fares charged by Chinese airlines can deviate from such basic airfare levels. Chinese airlines are able to set their own airfares for their domestic routes within the permitted ranges and adopt more flexible sales policies to promote their services.

The CAAC and the National Development and Reform Commission, or NDRC, jointly publish the pricing guidelines from time to time, which set forth the basic airfare levels and permitted ranges. Pursuant to the current pricing guidelines, the basic airfares for domestic routes are the published airfares implemented by Chinese airlines immediately prior to the approval of the Pricing Reform Plan (the average basic airfare for domestic routes is RMB0.75 per passenger-kilometer). Except for certain domestic routes, the actual airfare set by each Chinese airline for its domestic routes cannot be 25% higher and 45% lower than the basic airfare. Domestic routes that are not subject to the deviation range restrictions include short-haul routes between cities in the same province or autonomous region, or between a municipality and adjacent provinces, autonomous regions or another municipality. Certain tourist routes and routes served by only one Chinese airline are not subject to the bottom range restriction. The CAAC and the NDRC will announce the routes that are not subject to the deviation range restrictions through the airfare information system known as Airtis.net. Chinese airlines may apply to the CAAC and the NDRC for exemption from the bottom range restriction for a particular route. Chinese airlines are also required to file the actual airfare they set for their domestic routes within the ranges through Airtis.net 30 days prior to its implementation.

The CAAC and the NDRC will regularly review the average operating costs of Chinese airlines, and may adjust the basic airfare for particular domestic routes which, in their view, is not at a reasonable level. We expect that, as reforms continue in 2008, we will have more flexibility in operating our aviation business in the future. The promotion by Chinese regulators of a regulated and orderly market and a fair and positive competition mechanism will also provide a favorable environment for the growth of our business.

Under the PRC Civil Aviation Law, maximum airfares on Hong Kong and international routes are set in accordance with the terms of the air services agreements pursuant to which these routes are operated. In the absence of an air services agreement, airfares are set by the airlines themselves or by the CAAC with reference to comparable market prices, taking into account the international airfare standards established through the coordination of the International Air Transport Association, which organizes periodic air traffic conferences for the purpose of coordinating international airfares. Discounts are permitted on Hong Kong and international routes. For the airline industry in China as a whole, the airfare per kilometer is substantially higher for Hong Kong and international routes than for domestic routes.

Acquisition of Aircraft and Spare Parts

Most Chinese airlines are required to purchase their aircraft, aircraft spare parts and other aviation equipment through the China Aviation Supplies Import & Export Group Corporation, or the CASC Group, an entity controlled by the CAAC. If a Chinese airline plans to acquire an aircraft, the airline must first seek approval from the CAAC and NDRC and must, as a condition of approval, provide specific acquisition plans, which are subject to modification by the CAAC and NDRC. If approval of an aircraft acquisition is obtained, the airline negotiates the terms of the acquisition with the manufacturer together with the CASC Group because the CASC Group possesses the license required to import or export aircraft and is entitled to receive a commission. Our Company is permitted to import aircraft, aircraft spare parts and other equipment for our own use from manufacturers through EAIEC, which is 55% owned by CEA Holding and 45% owned by our Company, without the participation of CASC. This gives us freedom in rationalizing our maintenance practices by allowing us to maintain a relatively lower overall inventory level of aircraft parts and equipment than we otherwise would have to maintain. We are still required to obtain an approval from the NDRC for any import of aircraft. We generally pay a commission to EAIEC in connection with these imports.

Domestic Fuel Supply and Pricing

The Civil Aviation Oil Supply Company, or CAOSC, which is controlled by the CAAC, is currently the dominant civil aviation fuel supply company in China. We currently purchase a significant portion of our domestic fuel supply from CAOSC. The PRC Government determines the fuel price at which the CAOSC acquires fuel from domestic suppliers and the CAAC issues a guidance price. The retail price at which the CAOSC resells fuel to airline customers is set within a specified range based on this guidance price.

Safety

The CAAC has made the improvement of air traffic safety in China a high priority. The CAAC is responsible for the establishment of operational safety, maintenance and training standards for all Chinese airlines, which have been formulated based on international standards. Each Chinese airline is required to provide flight safety reports to the CAAC, including reports of flight incidents or accidents involving its aircraft which occurred during the relevant reporting period and other safety related problems. The CAAC conducts safety inspections on each airline periodically.

The CAAC oversees the training of most Chinese airline pilots through its operation of the pilot training college. The CAAC implements a unified pilot certification process applicable to all Chinese airline pilots and is responsible for

the issuance, renewal, suspension and cancellation of pilot licenses. Each pilot is required to pass the CAAC-administered examinations before obtaining a pilot license and is subject to an annual examination in order to have such certification renewed.

All aircraft operated by Chinese airlines, other than a limited number of leased aircraft registered in foreign countries, are required to be registered with the CAAC. All of our aircraft are registered with the CAAC. All aircraft operated by Chinese airlines must have a valid certificate of airworthiness issued and annually renewed by the CAAC. In addition, maintenance permits are issued to a Chinese airline only after the maintenance capabilities of that Chinese airline have been examined and assessed by the CAAC. These maintenance permits are renewed annually. All aircraft operated by Chinese airlines may be maintained and repaired only by CAAC certified maintenance facilities, whether located within or outside China. Aircraft maintenance personnel must be certified by the CAAC before assuming aircraft maintenance posts.

Security

The CAAC establishes and oversees the implementation of security standards and regulations based on the PRC laws and standards established by international civil aviation organizations. Each airline is required to submit to the CAAC an aviation security handbook describing specific security procedures established by the airline for the day-to-day operations and security training for staff. Such security procedures must be formulated based on the relevant CAAC regulations. Chinese airlines that operate international routes must also adopt security measures in accordance with the requirements of the relevant international agreements. We believe that our Company is in compliance with all applicable security regulations.

Noise and Environmental Regulation

All airlines and airports in China are required to comply with noise and environmental regulations of the State Environmental Protection Agency that are modeled on international standards. The CAAC regulations allow Chinese airports to refuse take-off and landing rights to any aircraft that does not comply with State noise regulations. We believe that our Company is in compliance with all applicable noise and environmental regulations.

Chinese Airport Policy

Prior to September 2003, all civilian airports in China were operated directly by the CAAC or by provincial or municipal governments. In September 2003, as part of the restructuring of the aviation industry in China, the CAAC handed over 93 civilian airports to provincial or municipal governments. The CAAC retained the authority to determine the take-off and landing charges, as well as charges on airlines for the use of airports and airport services. Prior to 2004, Chinese airlines were generally required to collect from their passengers on behalf of the CAAC a levy for contribution to the civil aviation infrastructure fund, which was used for improving China's civilian airport facilities. Our revenue for the previous years is shown net of this levy. In 2003, the levy was 5% of domestic airfares and 2% of international airfares. The levy was waived by the CAAC from May 1, 2003 to December 31, 2003. With effect from September 2004, the civil aviation infrastructure levies, now paid to the Ministry of Finance, have been reflected in air fares of Chinese airlines rather than collected as a separate levy.

Limitation on Foreign Ownership

The CAAC's present policies limit foreign ownership in Chinese airlines. Under these limits, non-Chinese residents and Hong Kong, Macau or Taiwan residents cannot aggregately hold a majority of our total outstanding shares. Currently, approximately 32.2% of our total outstanding shares are held by non-Chinese residents and Hong Kong, Macau or Taiwan residents (excluding the qualified foreign institutional investors that are approved to invest in the A Share market of the PRC).

Competition

Domestic

Domestic competition from other Chinese airlines has been increasing recently as our competitors have increased capacity and expanded operations by adding new routes or additional flights to existing routes and acquiring other airlines. In addition, we face increasing competition from entrants to our domestic markets as new investments into China's civil aviation industry are made following the CAAC's relaxation of certain private-sector investment rules in July 2005. We expect that competition in the future from other Chinese airlines on our routes will further increase as the CAAC promotes controlled competition in order to advance the growth of the domestic airline industry as a whole. Our Company competes against our domestic competitors primarily on the basis of safety, quality of service and frequency of scheduled flights. With the combination of our dominant position in Shanghai, our route network and our continued commitment to safety and service quality, we believe that our Company is well-positioned to compete against our domestic competitors in the growing airline industry in China.

There are currently 23 passenger airlines operating in China, and our Company competes with many of them on various domestic routes. All of these airlines operate under the regulatory supervision of the CAAC. In July 2005, the CAAC introduced new rules to further open the civil aviation industry to domestic investors, including private-sector investors, which may result in the establishment of more new Chinese airlines and create more competition. Our Company, Air China Limited, or Air China, which is based in Beijing and listed on the Hong Kong Stock Exchange and the London Stock Exchange, and China Southern Airlines Company Limited, or China Southern, which is based in Guangzhou and listed on the Hong Kong Stock Exchange and the New York Stock Exchange, are the three leading air carriers in China, both in terms of revenue tonne-kilometers and size of operations. Each of these three airlines operates at least 400 routes and has a fleet of at least 200 jet aircraft. As of December 31, 2007, our Company, Air China and China Southern accounted for 21.4%, 28.2% and 25.7%, respectively, of the total commercial air traffic (as measured in RTKs) handled by Chinese airlines.

Each of the domestic airlines competes against other airlines operating the same routes or flying indirect routes to the same destinations. Our principal competitors in the domestic market are China Southern and Air China, which also provide transportation services on some of our routes, principally routes originating from the major air transportation hubs in China, such as Shanghai, Guangzhou and Beijing. Some of these routes are among our most heavily traveled routes. Since most of the major domestic airlines operate routes from their respective hubs to Shanghai, our Company also competes against virtually all of the major domestic airlines on these routes. The number of airlines operating flights to and from Shanghai has increased significantly in recent years. We also face domestic competition from Shanghai Airlines, an airline based in Shanghai which is smaller than our Company. Competition between Shanghai Airlines and us increases as Shanghai Airlines expands its long-haul capacity and operates routes to more cities served by our Company.

Hong Kong

Our high yielding Hong Kong routes are highly competitive. The primary competitor on our Hong Kong routes is Hong Kong Dragon Airlines Limited, or Dragonair. We currently operate approximately 460 flights per week on routes between 19 Chinese cities and Hong Kong. Dragonair competes with us on several of these routes. Moreover, in April 2003, Cathay Pacific Airways Limited, or Cathay, obtained licenses to fly to Beijing, Shanghai and Xiamen in China. Cathay commenced its services on the Hong Kong-Beijing, Hong Kong-Shanghai and Hong Kong-Xiamen routes in December 2003, January 2005 and February 2005, respectively. With Cathay commencing its operations on the Hong Kong-Shanghai route, we face more intensified competition on this route. Hong Kong Express Airways Limited commenced its services on Xi'an-Hong Kong route in April 2007. Hong Kong Airlines Limited also commenced its services on Nanchang-Hong Kong route in July 2007 and Hefei-Hong Kong route in December 2007, ending our exclusive services on both routes. In addition to the frequency and convenience of our flights and the number of routes offered, our Company's competitive strategy for the Hong Kong routes also stresses safety and service quality. The new Air Transportation Arrangement signed between the PRC Government and the administrative government of Hong Kong in February 2000 provides for equal opportunity for airlines based in Hong Kong and mainland China. As a result, Dragonair has increased the frequency of its flights on several of our Hong Kong routes, resulting in intensified competition. Our Company also faces competition from Dragonair in our Hong Kong cargo operations.

On September 28, 2006, Cathay, which previously owned approximately 17.79% of Dragonair, acquired the remaining 82.21% equity interest in Dragonair, turning Dragonair into a wholly-owned subsidiary of Cathay. In connection with the acquisition, Cathay doubled its shareholding in Air China to 20% and Air China acquired approximately 10.16% equity interest in Cathay. Cathay and Air China also entered into an agreement to enhance cooperation between them in a number of operational areas, including operating all the passenger services of Cathay and Air China between Hong Kong and mainland China as joint venture routes under code-share and revenue and cost-pooling arrangements. Cathay's acquisition of Dragonair and enhanced cooperation with Air China may further intensify the competition on the routes between Hong Kong and mainland China and impose greater competitive

pressure on the other airline companies operating on these routes.

At present, our Hong Kong routes benefit from traffic between Hong Kong and mainland China ultimately originating in Taiwan. During the Lunar Chinese New Year peak travel season from late-January to mid-February in 2003, the PRC Government allowed special chartered flights between Shanghai and Taiwan for the first time. During the Lunar Chinese New Year peak travel seasons from late-January to mid-February in 2006 and 2007, respectively, airlines from both mainland China and Taiwan (including our Company) operated 72 and 96 non-stop direct chartered flights between selected cities of mainland China and Taiwan. In 2006, the PRC Government allowed for the first time direct flights during the Mid-Autumn Festival holiday from late-September to early-October. During this holiday, airlines from both mainland China and Taiwan (including our Company) operated 22 non-stop direct chartered flights on passenger traffic routes that included Beijing-Taipei, Shanghai-Taipei, Guangzhou-Taipei, Xiamen-Gaoxiong (Kaohsiung), and Xiamen-Taipei. In addition, direct flights were permitted for the first time during the observance of Oingming (Ching Ming) Festival from late-March to early-April in 2007. During this period, 11 airlines from both mainland China and Taiwan (including our Company) operated a total of 42 direct flights on the same passenger traffic routes. From July 2008, direct flights between Taiwan and mainland China are expected to be permitted on weekends from Fridays through Sundays on a regular basis, with a transition to direct flights on a daily basis by 2009. As such, our results of operations on Hong Kong routes could be materially and adversely affected. Although we are likely to be commissioned to be one of the several airlines for this mainland China - Taiwan direct air services, we cannot assure you that our Company can obtain sufficient Taiwan-mainland China routes or that the yields on these routes would be adequate to offset any material adverse effect on our revenues derived from operation on our Hong Kong routes.

In 1995, China National Aviation Corporation, or CNAC, which is controlled by Air China, acquired an interest in Air Macau. Air Macau started to operate routes in 1996 between Macau and mainland China, including routes to cities in mainland China such as Beijing, Shanghai, Xiamen and Wuhan. Air Macau also operates routes between Macau and Taiwan, including flights which allow passengers to travel between mainland China and Taiwan through Macau without changing planes in Macau. Air Macau's routes provide an alternative to our Hong Kong routes for passengers traveling between Taiwan and mainland China. The airfares on some of Air Macau's routes are significantly lower than airfares on our Company's comparable routes.

International

We compete with Air China, China Southern and many other well-established foreign carriers on our international routes. Most of our international competitors are very well-known international carriers and are substantially larger than us and have substantially greater financial resources than we do. Many of our international competitors also have significantly longer operating histories and greater name recognition than we do. Some international passengers, who may perceive these airlines to be safer than Chinese airlines in general, may prefer to travel on these airlines. In addition, many of our international competitors have more extensive sales networks and utilize more developed reservation systems than ours, or engage in promotional activities, such as frequent flyer programs, that may be more popular than ours and effectively enhance their ability to attract international passengers. We also face significant competition in our international cargo operations. Moreover, China and the United States entered into an air service agreement on July 24, 2004. Pursuant to this agreement, five additional airlines from each country are allowed to serve the China-U.S. market over the next few years. It is expected that there will be a significant increase in China-U.S. air services over the next few years due to this agreement, which would further intensify competition in this market.

Air China operates the largest number of international routes among all Chinese airlines. Beijing, the hub of Air China's operations, is the destination for most international flights to China. We compete with All Nippon Airways, Japan Airlines, Air China, Shanghai Airlines and Northwest Airlines, Inc. on our passenger routes to Japan. Hainan Airlines Company Limited, China Southern and Hong Kong Express Airways Limited also entered the Japan market and had some impact on sales for our Osaka, Nagoya and Okinawa routes. On our Korean routes, we compete with Asiana Airlines, Korean Air, China Southern and Shanghai Airlines. Both Korean Air and Asiana Airlines increased

their traffic capacity by over 40% for Korean routes. Our primary competition on our flights to Southeast Asia comes from Thai Airways International, Singapore Airlines and China Southern. On our passenger flights to the United States, our principal competitors include Northwest Airlines, Inc., United Airlines, American Airlines, Air China and China Southern. On our European routes, our competitors include Air China, the Air France-KLM Group, Virgin Atlantic Airways, British Airways and Lufthansa German Airlines. We compete with Air China and Qantas Airways Ltd. on our Australian routes. Our Company competes in the international market on the basis of price, service quality, frequency of scheduled flights and convenient sales arrangements. To improve our competitive position in international markets, we have established additional dedicated overseas sales offices, launched our own frequent flyer program, participated in the "Asia Miles" frequent flyer program which is popular in Asia, and entered into code-sharing arrangements with a number of foreign airlines. We have also improved our online reservation and payment system.

Maintenance and Safety

The rapid increase in air traffic volume in China in recent years has put pressure on many components of the Chinese airline industry, including air traffic control systems, the availability of qualified flight personnel and airport facilities. In recent years, the CAAC has placed increasing emphasis on the safety of Chinese airline operations and has implemented a number of measures aimed at improving the safety record of the airlines. Our Company's ability to provide safe air transportation in the future depends on the availability of qualified and experienced pilots in China and the improvement of maintenance services, national air traffic control and navigational systems and ground control operations at Chinese airports. Our Company has a good safety record and regards the safety of our flights as the most important component of our operations.

Maintenance Capability

We currently perform regular repair and maintenance checks for all of our aircraft. We are able to perform D1 checks on our Boeing 737 aircraft and C checks on MD-82, Airbus A320, A340-300 and A300-600 aircraft. We also perform certain maintenance services for other Chinese airlines. Our primary aircraft maintenance base is at Hongqiao Airport. We have additional maintenance bases at Pudong International Airport and each of our provincial hubs. Our maintenance staff in Shanghai supervises the operation of our regional maintenance facilities. Our Company currently employs approximately 6,043 workers as maintenance and engineering personnel. Some of our aircraft maintenance personnel participated in the manufacturer training and support programs sponsored by Airbus Industries G.I.E., or Airbus, and Boeing Corporation, or Boeing. In order to enhance our maintenance capabilities and to reduce our maintenance costs, we have, over the past few years, acquired additional maintenance equipment, tools and fixtures and other assets, such as airborne testing and aircraft data recovery and analysis equipment. Our Company's avionics electronic equipment is primarily maintained and repaired at our electronic maintenance equipment center located in Shanghai, which was set up in cooperation with Honeywell, Inc. and is one of the largest and most advanced avionic electronic facilities in China.

We entered into a joint venture with Honeywell International Inc., formerly Allied Signal Inc., in Shanghai for the purpose of performing maintenance and repairs on aircraft wheel assemblies and brakes. Since October 1997, we have operated a maintenance hangar at Hongqiao Airport which has the capacity to house two wide-body aircraft. Our Company and Rockwell Collins International Inc. of the United States have also co-established Collins Aviation Maintenance Service Shanghai Limited, which is primarily engaged in the provision of repair and maintenance services for avionics and aircraft entertaining facilities in China. Our Company and Rockwell Collins International Inc. hold 35% and 65%, respectively, of the equity interests in the joint venture. Moreover, in November 2002, our Company, jointly with Aircraft Engineering Investment Limited, established Shanghai Eastern Aircraft Maintenance Limited, in which our Company holds 60% of the equity interests, to provide supplemental avionics and other maintenance services to our Company. STA, which was established in 2004 by our Company and Singapore Technologies Aerospace Ltd. under a joint venture agreement dated March 10, 2003, also provides us with aircraft maintenance, repair and overhaul services.

The enhancement of our maintenance capabilities allows our Company to perform various maintenance operations in-house and continue to maintain lower spare parts inventory levels.

Safety

The provision of safe and reliable air services for all of our customers is one of our primary operational objectives. Our Company implements uniform safety standards and safety-related training programs in all operations. Our flight safety management division monitors and supervises our Company's flight safety. We have had a flight safety committee since the commencement of our business, comprised of members of our senior management, to formulate policies and implement routine safety checks at our Shanghai headquarters and all provincial hubs. The flight safety

committee meets monthly to review our overall operation safety record during the most recent quarter and to adopt measures to improve flight safety based upon these reviews. We have also implemented an employee incentive program, using a system of monetary rewards and discipline, to encourage compliance with the CAAC safety standards and our safety procedures. We periodically evaluate the skills, experience and safety records of our pilots in order to maintain strict control over the quality of our pilot crews.

The management of each of our provincial hub operations is responsible for the flight safety operations at the respective hub under the supervision of our flight safety management division. We prepare monthly safety bulletins detailing recent developments in safety practices and procedures and distribute them to each of our flight crew, the maintenance department and the flight safety management department. The CAAC also requires our Company to prepare and submit semi-annual and annual flight safety reports.

All of our jet passenger aircraft pilots participated in the manufacturer training and support programs sponsored by Airbus and Boeing and are required to undergo recurrent flight simulator training and to participate in a flight theory course periodically. Our Company uses flight simulators for MD-82, A300-600R, A320 and A330/340 at our own training facility, the training facility located in the CAAC training center or overseas training facilities.

Fuel Supplies

Fuel costs represented approximately 35.1% of our operating expenses in 2007. We currently purchase a significant portion of the aviation fuel for our domestic routes from regional branches of the CAOSC. Fuel costs in China are affected by costs at domestic refineries and limitations in the transportation infrastructure, as well as by insufficient storage facilities for aviation fuel in certain regions of China. We purchase a portion of the aviation fuel for our international routes from foreign fuel suppliers located at the destinations of these routes, generally at international market prices.

In 2007, our fuel expenses increased 11.1% as a result of increased weighted average domestic and international fuel prices, the expansion of our business operations and an increase in flying hours. In particular, in 2007, the weighted average fuel prices paid by our Company increased by approximately 1.7%.

Ground Facilities and Services

The center of our operations is Shanghai, one of China's principal air transportation hubs. Our Shanghai operations are based at Hongqiao Airport and Pudong International Airport. We currently also operate from various other airports in China, including Yaoqiang Airport in Jinan, Lukou Airport in Nanjing, Liuting Airport in Qingdao, Luogang Airport in Hefei, Changbei Airport in Nanchang, Wushu Airport in Taiyuan, Zhengding Airport in Shijiazhuang, Lishe Airport in Ningbo, Tianhe Airport in Wuhan, Wujiaba Airport in Kunming and Xianyang Airport in Xi'an. We own hangars, aircraft parking and other airport service facilities at Hongqiao Airport and Pudong International Airport and lease from CEA Holding certain buildings at Hongqiao Airport where our principal executive offices are located.

We have our own ground services and other operational services, such as aircraft cleaning and refueling and the handling of passengers and cargo for our operations at Hongqiao Airport and Pudong International Airport. We also provide ground services for many other airlines that operate to and from Hongqiao Airport and Pudong International Airport. At other airports served by our Company, we generally contract for ground services with these airports or the principal airlines based at these airports for fees and other charges which are typically based on passenger or cargo volume or aircraft tonnage.

In-flight meals and other catering services for our Shanghai-originated flights are provided primarily by Shanghai Eastern Air Catering Limited Liability Company, a joint venture company affiliated with CEA Holding. We generally contract with local catering companies for flights originating from other airports. We have improved the quality of our in-flight meal service in recent years.

We incur certain airport usage fees and other charges for services performed by the airports from which our Company operates flights, such as air traffic control charges, take-off and landing fees, aircraft parking fees and fees payable in connection with the use of passenger waiting rooms and check-in counter space. At domestic airports, such fees are generally charged at rates prescribed by the CAAC, which are lower than rates generally in effect at airports outside China.

Marketing and Sales

Passenger Operations

Our marketing strategy with respect to passenger operations is primarily aimed at increasing our market share for all categories of air travelers. With respect to our Hong Kong and international routes, we are permitted to market our services on the basis of price. We also have limited flexibility in setting our airfares for domestic routes after the implementation of the Pricing Reform Plan in April 2004, and therefore are able to adjust our domestic airfares in response to market demand. As part of our overall marketing strategy, we emphasize our commitment to safety and service quality. We believe that emphasis on safety is a critical component of our ability to compete successfully. In order to improve our customer services, we participated in joint cabin crew training and exchange programs with foreign airlines, including Asiana Airlines and Japan Airlines.

We have also adopted customized strategies to market our services to particular travelers. We seek to establish long-term customer relationships with business entities that have significant air travel requirements. In order to attract and retain business travelers, we focus on frequency of flights between major business centers, convenient transit services and an extensive sales network. We launched our "Golden Swallow" frequent flyer program in 1998 and joined the "Asia Miles" frequent flyer program in April 2001 to attract and retain travelers. In August 2003, we changed the name of our frequent flyer program to "Eastern Miles" and introduced a series of new services, including, among others, instant registration of membership and mileage, online registration of mileage, and accumulation of mileage on expenses at certain hotels and restaurants that are our strategic partners. As a result of our continual efforts to develop the "Eastern Miles" program, the number of frequent flyers surpassed 3.8 million in 2007, with a flight-taking rate of 9.7%, bringing the influence of our products into full play. The special services hotline "95108" call centre was established and came into operation in 2004.

In 2000, we launched the "China Eastern Airlines-Great Wall" co-branded credit card jointly with the Bank of China, which provides our customers with benefits such as airfare discounts, hotel room reservation packages and increased baggage allowances. In 2004, working with partner hotels, we launched our Eastern Holiday product series to attract more leisure travelers. In addition, we continued to promote our "China Eastern Express" services on our Shanghai-Hong Kong and Shanghai-Beijing routes and our "China Shuttle" transit services. Our "China Eastern Express" services (including "BTBT" and "Shanghai Beijing Express") provide more scheduled flights on some of our heavily traveled routes, such as Shanghai-Hong Kong and Shanghai-Beijing, compared with our other routes. Our "China Shuttle" services provide expedited transit services at Honggiao Airport and Pudong International Airport for transit travelers on domestic routes and certain international routes, significantly enhancing our customer service. We streamlined the transfer and connection procedures, rationally allocated flights, and also introduced different fares for connection flights to meet the needs of different travelers. In 2005, we launched international routes originating from Shenyang, Dalian, Xi'an, Shenzhen, Chongqing, Chengdu and Harbin under internal code-sharing arrangements. We also introduced the "Single Check-in for Transit Passengers and Luggage" service in 23 cities including Shantou and Xiamen. All these efforts improved the quality of our transit services and, as a result, the number of passengers who used our transit services exceeded 1,080 thousand and 800 thousand persons/time in 2006 and 2007, respectively. In June 2004, we officially introduced our China Eastern Service Scheme to the public at large. Under this scheme, we devote efforts to flight scheduling, assurance and maintenance and enhance our non-regular services.

We have entered into code-sharing arrangements with American Airlines, Japan Airlines, Korean Airlines, Asiana Airlines, Qantas Airways, Air France, Thai Airways and Shanghai Airlines. We are also contemplating more code-sharing arrangements with other airlines and plan to continue to strengthen our existing cooperation with other international airlines.

Our advertising, marketing and other promotional activities include the use of radio, television and print advertisements. We plan to continue to use advertising and promotional campaigns to increase sales on new routes and competitive routes.

In 2002, we upgraded our online ticket booking and payment system to facilitate customer purchases of tickets via the Internet. We continue to encourage our customers to book and purchase tickets via the Internet. We also maintain an extensive domestic network of sales agents and representatives in order to promote in-person ticket sales and to assist customers. The majority of our airline tickets are sold by domestic and international sales agents. Our tickets are sold throughout China through over 7,000 large- and mid-sized sales agencies and travel agencies who have contractual relationships with us. Currently, our direct domestic ticket sales are handled primarily through employees based at our ticket counters located at Hongqiao Airport and Pudong International Airport in Shanghai and in Anhui, Jiangsu, Zhejiang, Jiangxi, Shandong, Shanxi, Hebei, Hubei, Yunnan and Shaanxi provinces, as well as at the airports in Beijing, Chengdu, Fuzhou, Guangzhou, Hangzhou, Ningbo, Shenzhen, Xiamen and Yantai. Direct sales are also promoted through the availability of our telephone reservation and confirmation services. In addition to our domestic sales agents, we maintain overseas sales or representative offices in Los Angeles, New York, Vancouver, Madrid, Paris, London, Frankfurt, Munich, Moscow, Sydney, Melbourne, Tokyo, Osaka, Nagasaki, Fukuoka, Nagoya, Okinawa, Niigata, Sapporo, Kagoshima, Hiroshima, Fukushima, Okayama, Matsuyama, Komatsu, Singapore, Bangkok, Seoul, New Delhi, Kuala Lumpur, Mumbai, Maldives, Johannesburg and Hong Kong, which facilitate the sale of international and Hong Kong air tickets and provide reservation confirmation and other services. The establishment of our Hong Kong operations division in 2005 also facilitates our marketing and sales in Hong Kong. In order to promote international ticket sales, we intend to increase our international sales force by expanding our overseas network of commissioned independent sales agents.

As of June 1, 2008, we stopped issuing paper tickets for air travel in accordance with a mandate from the International Air Transport Association (IATA). The IATA represents approximately 240 airlines and comprises 94% of scheduled international air traffic. As a result of the mandate, we now issue electronic itineraries and receipts as well as electronic tickets to our passengers. We believe the transition to 100% electronic ticketing will decrease administrative costs and increase flexibility and travel options for passengers in addition to benefiting the environment through the reduced need for paper. All of our direct passenger ticket sales are recorded on our computer systems. All Chinese airlines, including us, are required to use the passenger reservation service system provided by the CAAC's computer information management center, which is linked with the computer systems of major Chinese commercial airlines. We have also entered into membership agreements with several international reservation systems, including ABACUS, the largest computer reservation system in southeast Asia, TOPAS of Korea, SABRE, GALILEO and WORLDSPAN of the United States, AMADEUS of Europe, INFINI and AXESS of Japan and Sirena-Travel of Russia, which have made it easier for customers and sales agents to make reservations and purchase tickets for our international flights.

Cargo Operations

We maintain a network of cargo sales agents domestically and internationally. We established domestic cargo sales offices in Beijing, Shanghai, Xiamen and other major transportation hubs in China, and international cargo sales offices in Hong Kong, Tokyo, Osaka, Nagoya, Seoul, Los Angeles, Dallas, Seattle, Chicago, San Francisco, New York, Anchorage, Paris, Luxembourg and our other overseas flight destinations. In 2005, we established our northern China, southern China, southeastern China and overseas sales management centers to improve coordination among our sales offices. We are also improving our cargo sales on passenger flights through full utilization of our existing passenger sales network.

Ancillary Airline Activities

In addition to our airline operations, we also generate commission revenues from tickets sold on behalf of other airlines. Commission rates for these sales are determined by the CAAC and are based on the price of the tickets sold.

Moreover, we derive revenues from the provision of airport ground services for airlines operating to or from Hongqiao Airport and Pudong International Airport, including aircraft cleaning, loading, unloading, storage and ground transportation of cargo and passenger luggage. At present we are the principal provider of these services at Hongqiao Airport and Pudong International Airport. We provide these services to foreign carriers generally pursuant to one-year renewable contracts. In 2007, we generated revenues of approximately RMB1,366 million from our airport ground services and cargo handling services.

Patents and Trademarks

We own or have obtained licenses to use various domestic and foreign patents, patent applications and trademarks related to our business. While patents, patent applications and trademarks are important to our competitive position, no single one is material to us as a whole.

We own various trademarks related to our business. The most important trademark is the service trademark of China Eastern Airlines Corporation Limited. All of our trademarks are registered in China.

Insurance

The CAAC purchases fleet insurance from PICC Property and Casualty Company Limited, or PICC, and China Pacific Property Insurance Company Ltd., on behalf of all Chinese airlines. PICC has reinsured a substantial portion of its aircraft insurance business through Lloyd's of London. The fleet insurance is subject to certain deductibles. The premium payable in connection with the insurance is allocated among all Chinese airlines based on the aircraft owned or leased by these airlines. Under the relevant PRC laws, the maximum civil liability of Chinese airlines for injuries to passengers traveling on domestic flights has been increased to RMB400,000 per passenger in March 2006, for which our Company also purchases insurance. As of July 31, 2006, the Convention for the Unification of Certain Rules for International Carriage by Air of 1999, or Montreal Convention, became effective in China. Under the Montreal Convention, carriers of international flights are strictly liable for proven damages up to 100,000 Special Drawing Rights and beyond that, carriers are only able to exclude liability if they can prove that the damage was not due to negligence or other wrongful act of the carrier (and its agents) or if the damage solely arose from the negligence or other wrongful act of a third party. We believe that we maintain adequate insurance coverage for the civil liability that can be imposed due to injuries to passengers under Chinese law, the Montreal Convention and any agreement we are subject to. We also maintain hull all risk, hull war risk and aircraft legal liability insurance, including third party liability insurance, of the types and in amounts customary for Chinese airlines, See also "Item 3. Key Information — Risk Factors — Insurance coverage and cost" for more information on our Company's insurance coverage.

C. Organizational Structure

See the section headed "Item 4. Information on the Company — Business Overview".

D. Property, Plants and Equipment

Fleet

In 2005, as part of our acquisition of certain selected assets and liabilities relating to the aviation businesses of CEA Northwest and CEA Yunnan, we acquired or assumed the ownership of or the leases for 60 additional aircraft. We also added 27 aircraft to our fleet through other transactions, including the purchase of two Airbus A321 aircraft and three EMB145 aircraft, the finance lease of five Airbus A320 aircraft, the operating lease of four Airbus A320 aircraft, seven B737-700 aircraft and three B737-800 aircraft, and the operating lease of one Airbus A300F freighter and two B747F freighters. Moreover, we entered into agreements to purchase five A319 aircraft (with engines), five EMB145 aircraft, 15 A320 series aircraft, two Boeing 747-400 freight aircraft, four Boeing 737 aircraft and 15 Boeing 787 aircraft, respectively. In 2006, we added 27 aircraft to our fleet, including the finance lease of three A319 aircraft, two A321 aircraft, six B737-700 aircraft, one B747F freighter and four EMB145 aircraft, and the operating lease of one B737-700 aircraft, three A330-200 aircraft and seven A330-300 aircraft. On December 27, 2006, our Board of Directors passed a resolution to dispose of certain aged aircraft and related flight equipment in the forthcoming 12-months in light of the poor market reception and the high maintenance cost of these aircraft. For more details, see Note 37 to our audited consolidated financial statements. In 2007, we added 20 aircraft to our fleet, including the finance lease of five A330-300 aircraft, two A320 aircraft,

aircraft, two B737-700 aircraft, three EMB145 aircraft and one B747F freighter. In 2007, we entered into an agreement with Airbus to purchase ten A320 aircraft (with engines). On January 20, 2008, we entered into an agreement with Boeing to purchase 30 737 NG Series aircraft (with engines). We plan to continue to expand our scale in 2008 and to adjust and optimize our route network, thereby increasing our competitiveness and ability to create more attractive products and services to meet the needs of the market.

Existing Fleet

As of December 31, 2007, we had a fleet of 223 aircraft, including 197 jet passenger aircraft that have more than 100 seats and 11 jet freighters. The following table sets forth the details of our fleet as of December 31, 2007:

		Number of Aircraft Owned	Aircraft under		
	Total Number of Aircraft	and under Finance Lease	Operating Lease	Average Number of Seats	Average age (in years) ⁽¹⁾
Jet Passenger Aircraft:					
Wide-body:					
A340-600	5	5			4.6
A340-300	5	5			11.6
A330-300	12	5	7		1.6
A330-200	4	1	3	264	1.4
A300-600	8	8		— 269	13.6
B767-300	3	3		263	11.7
Narrow-body:					
MD-90	9	9			10.0

Boeing 737-800	7		- 7	158	4.1
Boeing 737-700	31	16	15	122	4.4
Boeing 737-300	23	16	7	138	12.2
EMB 145	10	10		50	2.0
CRJ-200	5	5		50	6.4
Total Passenger Aircraft:	212	137	75		
Cargo Aircraft:					
MD-11F	6	6			16.0
A300F	2	2			19.0
B747F	3	2	1	_	1.5
Total Fleet	223	147	76	<u> </u>	- -

⁽¹⁾ The average aircraft age is weighted by the number of available seats.

Our average daily aircraft utilization rate was 9.8 hours in 2007, representing an increase of 0.4 hours compared to 2006. The table below sets forth the daily average utilization rates of our jet passenger aircraft for each of the three years ended December 31, 2007.

	2005	2006 (in hours)	2007
Wide-body:			
A340-600	13.8	14.0	13.7
A340-300	12.8	12.1	11.7
A330-300		9.3	9.6
A330-200		11.5	14.2
A300-600	8.9	8.6	9.3
A310	7.2	_	

Edgar Filing: CHINA EASTERN AIRLINES CORP LTD - Form 20-F

B767-300	9.2	9.1	10.1
Narrow-body:			
MD-90	8.0	8.1	7.7
MD-82	6.2	_	_
A321	8.3	9.0	9.6
A320	9.2	9.3	9.8
A319	9.5	7.8	10.0
Boeing 737-800	9.9	10.5	10.6
Boeing 737-700	9.9	9.9	10.0
Boeing 737-300	9.0	9.0	9.4
EMB 145	7.7	7.6	8.0
CRJ-200	5.1	7.4	8.5
28			

Most of our jet passenger aircraft were manufactured by either Airbus or Boeing. Our Airbus A340-300 and A340-600 aircraft are primarily used for our routes to the United States, Europe, Hong Kong, Korea and other international destinations, including Los Angeles, New York, London, Paris, Seoul, and Bangkok, and on major domestic routes to cities such as Dalian. Our Airbus A330 aircraft are primarily used for the routes of Beijing-Shanghai and Shanghai-Hong Kong and Singapore, Australia, India, Japan and Korea routes. Our Airbus A320, MD-90 and Boeing B737 aircraft are suitable for middle and short distance flights and are primarily used for our domestic routes. Our EMB145 and CRJ-200 aircraft are mainly used on our regional short-distance routes.

Our MD-11F, A300F and B747F aircraft are used for our cargo operations and carry cargo to the United States, Europe and Japan. Our general aviation services customers include provincial authorities in charge of agriculture, forestry and geology.

Future Fleet Development

Our aircraft acquisition program focuses on aircraft that will modernize and rationalize our fleet to better meet the anticipated requirements of our route structure, taking into account aircraft size and fuel efficiency. Our aircraft acquisition program, however, is subject to the approval of the CAAC and the NDRC. The following table summarizes our currently anticipated jet aircraft deliveries from 2008 to 2009 as of December 31, 2007:

	2008	2009	Total
Aircraft			
A330-300	3	_	3
A330-200	1	_	1
A321	5	_	5
A320	8	10	18
B737-800	1	3	4
B737-700	1	7	8
Total	19	20	39

The actual acquisition of any of these aircraft or any additional aircraft may depend on such factors as the general economic conditions, our operating results and other capital requirements. We believe that our aircraft acquisition plan will help us accomplish our expansion plans while maintaining an efficient fleet and ensuring alternative sources of supply.

Fleet Financing Arrangements

We generally acquire aircraft through either long-term capital leases or operating leases. To take advantage of the low interest rates for long-term loans in 2002, we also purchased a certain number of aircraft and financed them by borrowing long-term loans from banks in China. Under the terms of most capital leases, we generally are obligated to make lease payments that finance most of the purchase price of the aircraft over the lease term. Upon the expiration of the lease term, we must either purchase the aircraft at a specified price or pay any amount by which such price exceeds the proceeds from the disposition of the aircraft to third parties. Alternatively, some capital leases provide for ownership of the aircraft to pass to us upon satisfaction of the final lease payment. Under capital leases, aircraft are generally leased for approximately the whole of their estimated working life, and the leases are either non-cancelable or cancelable only on a payment of a major penalty by the lessee. As a result, we bear substantially all of the economic risks and rewards of ownership of the aircraft held under capital leases. Operating leases, however, are customarily cancelable by the lessee on short notice and without major penalty. Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

We intend to increase the use of operating leases to improve the flexibility of our operations. However, each decision on our financing alternatives will depend on an evaluation of the following factors:

our aircraft requirements and anticipated future deliveries;

capital structure and cash flow situation;

prevailing interest rates; and

other market conditions in effect at the time of any such acquisition or financing.

All of our payment obligations under current aircraft leases have been guaranteed by banks in China.

Operating Facilities

Our corporate headquarters, base maintenance center and other primary airport facilities in Shanghai, occupying an area of approximately 412,422 square meters of land, are located at Hongqiao Airport. We also own office buildings, cargo operating buildings and a maintenance center at Pudong International Airport. The total gross floor area of all of our buildings and facilities is approximately 341,000 square meters.

We own all of the buildings and facilities located at Hongqiao Airport, with the exception of the office buildings where our corporate headquarters are located. We lease from CEA Holding our corporate headquarters office buildings and the land on which our corporate headquarters are located. We have acquired buildings and ancillary facilities at Pudong International Airport with a total gross floor area of approximately 158,400 square meters.

We also have operations in the airports in Nanjing, Qingdao, Jinan, Taiyuan, Shijiazhuang, Hefei, Nanchang, Ningbo, Wuhan, Kunming and Xi'an, respectively. In Nanjing, we lease all the buildings and facilities our Company occupies from the airport authority. In Qingdao, Hefei and Nanchang, we have the right to use such buildings and facilities constructed and maintained by our Company. However, the right to use such buildings and facilities cannot be transferred or leased to third parties. In Taiyuan and Shijiazhuang, we own our maintenance facilities and lease office building from CEA Holding and other facilities from the local airport authorities. In Kunming and Xi'an, we leased from CEA Holding operating facilities including office buildings, warehouses and workshops under an agreement.

Item 4A. Unresolved Staff Comments

None.

Item 5. Operating and Financial Review and Prospects

You should read the following discussion in conjunction with our audited consolidated financial statements, together with the related notes, included elsewhere in this Annual Report. Our consolidated financial statements have been prepared in accordance with IFRS. We acquired from CEA Holding certain selected assets and liabilities relating to the aviation businesses of CEA Yunnan and CEA Northwest in June 2005. Our consolidated financial statements as of and for the year ended December 31, 2006 reflect the results of operations of those acquired assets and liabilities from the effective date of the acquisition, June 30, 2005.

Overview

Our primary business is the provision of domestic, Hong Kong regional and international passenger and cargo airline services. Our overall capacity on an available tonne kilometer, or ATK, basis increased by 9.2%, from 11,065.6 million ATKs in 2006 to 12,085.9 ATKs in 2007, and our passenger capacity on an available seat kilometer, or ASK, basis increased by 10.3%, from 70,468.3 million ASKs in 2006 to 77,717.2 million ASKs in 2007. Total traffic on a revenue tonne kilometer, or RTK, basis increased by 11.3%, from 6,931.0 million RTKs in 2006 to 7,713.9 PTKs in 2007.

The historical results of operations discussed in this Annual Report may not be indicative of our future operating performance. Like those of other airlines, our operations depend substantially on overall passenger and cargo traffic volume and are subject to seasonal and other variations that may influence passenger travel demand and cargo volume and may not be under our control, including unusual political events and other unforeseen events. Our operations will be affected by, among other things, fluctuations in the aviation fuel price, aircraft acquisition and leasing costs, maintenance expenses, take-off and landing charges, wages, salaries and benefits, other operating expenses and the rates of income taxes paid. We expect the aviation fuel price to continue to remain high and have a material adverse effect on our profitability. We expect depreciation expenses and operating lease expenses to increase as new aircraft and related flight equipment are acquired. Maintenance expenses may also increase as a result of acquisitions of new aircraft, although we expect to benefit from certain maintenance and fuel cost savings as older aircraft are retired and replaced.

Our financial performance is also significantly affected by factors associated with operating in a highly regulated industry, as well as a number of other external variables, including political and economic conditions in China, competition, foreign exchange fluctuations and public perceptions of the safety of air travel with Chinese airlines. Because nearly every aspect of our airline operations is subject to the regulation of the CAAC, our operating revenues and expenses are directly affected by the CAAC regulations with respect to, among other things, domestic airfares, level of commissions paid to sales agents, the aviation fuel price, take-off and landing charges and route allocations. The nature and extent of airline competition and the ability of Chinese airlines to expand are also significantly affected by various CAAC regulations and policies. Changes in the CAAC's regulatory policies, or in the implementation of such policies, are therefore likely to have a significant impact on our future operations.

Certain Financial Information by Business Segment

For the year ended December 31, 2005, we principally operated in one business segment, namely the operation of our civil aviation business, including the provision of passenger, cargo, mail delivery and other extended transportation services. In view of the continued growth of our China cargo and mail transportation services, we began to review the cargo and mail transportation services business separately and to report it as a separate segment. Accordingly, since 2006, our Company has operated in two business segments, namely the passenger business segment (including cargo carried by passenger flights) and cargo and mail transportation business segment.

The following table sets forth our segment results for the year ended December 31, 2007:

	Passenger RMB	Cargo and mail RMB (in mil	Unallocated RMB llions)	Total RMB

2007 Compared to 2006

Revenues

Our revenues increased by 13.0% from RMB37,634 million in 2006 to RMB42,521 million in 2007 (net of the applicable PRC business tax). This increase was primarily due to an increase in the revenues of our passenger business segment and cargo and mail business segment, as a result of increased traffic volume, partly offset by the average yield. In 2007, we transported a total of 39.2 million passengers, representing an 11.8% increase from 35.0 million passengers in 2006. Our total passenger traffic (as measured in RPKs) increased by 13.8% from 50,272 million passenger-kilometers in 2006 to 57,183 million passenger-kilometers in 2007 and our total cargo and mail traffic (as

measured in RFTKs) increased by 7.0% from 2,444 million freight tonne-kilometers in 2006 to 2,614 million freight tonne-kilometers in 2007. Our average yield for the passenger business segment remained at RMB0.61 per passenger-kilometer, whereas our average yields for the cargo and mail business segment decreased by 8.7% from RMB2.3 per tonne-kilometer in 2006 to RMB2.1 per tonne-kilometer in 2007.

Passenger business segment revenues

Our total passenger business segment revenues, including revenues generated from cargo carried by passenger flights, increased by 11.7% from RMB34,702 million in 2006 to RMB38,746 million in 2007. Total passenger business segment revenues after elimination of inter-segment revenues, which accounted for 90.3% of our total revenues, increased by 12.9% from RMB34,012 million in 2006 to RMB38,397 million in 2007. The increase was primarily due to the increase in traffic revenues for the passenger business segment.

Our traffic revenues for the passenger business segment increased by RMB4,047 million, or 12.1%, from RMB33,490 million in 2006 to RMB37,537 million in 2007, due to the increase in traffic revenues generated from our domestic and international services, partly offset by those generated from our Hong Kong regional services.

In accordance with our internal financial reporting, our passenger business segment includes cargo carried by passenger flights as stated in Note 7(a) to the financial statements. In accordance with industry practice, our passenger related operating statistics, such as passenger traffic volume and passenger yield, exclude cargo carried by passenger flights. The following discussion of our passenger revenues (excluding cargo carried by passenger flights) and passenger related operating statistics conform to industry practice.

Our domestic passenger traffic revenues (excluding Hong Kong passenger revenues), which accounted for 61.8% of our total passenger traffic revenues in 2007, increased by 14.8% from RMB18,947 million in 2006 to RMB21,747 million in 2007. This increase was primarily due to an increase in our domestic passenger traffic following increases in our capacity. Compared to 2006, our domestic passenger traffic (as measured in RPKs) increased by 13.5%, from 31,272 million tonne-kilometers in 2006 to 35,492 million tonne-kilometers in 2007. The number of passengers carried on domestic routes increased by 12.3%, from 27.7 million in 2006 to 31.2 million in 2007. Our passenger-kilometers yield for domestic routes remained at RMB0.61 per passenger-kilometer.

International passenger traffic revenues, which accounted for 32.1% of our total passenger traffic revenues in 2007, increased by 22.5% from RMB9,206 million in 2006 to RMB11,274 million in 2007. This increase was primarily due to an increase in our international passenger traffic, which resulted from increases in our capacity, as well as an increase in air fares. Our international passenger traffic (as measured in RPKs) increased by 18.8% in 2007, from 15,478 million in 2006 to 18,386 million in 2007. The number of passengers carried on international routes increased by 18.0%, from 4.8 million in 2006 to 5.7 million in 2007. Our passenger-kilometers yield for international routes increased from RMB0.58 per passenger-kilometer in 2006 to RMB0.61 per passenger-kilometer in 2007.

Hong Kong passenger traffic revenues, which accounted for 6.1% of our total passenger traffic revenues in 2007, decreased by 16.1% from RMB2,554 million in 2006 to RMB2,143 million in 2007. This decrease was due to a slight decrease of 6.5%, from 3,521 million in 2006 to 3,305 million in 2007, in our Hong Kong passenger traffic (as measured in RPKs), as well as in our passenger-kilometers yield. The number of passengers carried on Hong Kong routes decreased 6.3%, from 2.5 million in 2006 to 2.3 million in 2007. Our passenger-kilometers yield for Hong Kong routes decreased from RMB0.71 per passenger-kilometer in 2006 to RMB0.65 per passenger-kilometer in 2007.

Cargo and mail segment revenues

We generate cargo and mail revenues from our cargo and mail transportation services. Our total revenues from our cargo and mail business segment, excluding revenues generated form cargo carried by passenger flights, increased by 13.0% from RMB3,552 million in 2006 to RMB4,015 million in 2007. There were no inter-segment revenues in 2006 and 2007. The increase was primarily due to an increase in our cargo and mail traffic caused by increases in service volume as a result of the expansion of our capacity, partly offset by the average cargo yield. Cargo and mail yield decreased from RMB2.30 in 2006 to RMB2.10 in 2007 per cargo tonne-kilometer primarily due to fare decreases resulting from intensified market competition.

Our traffic revenues for cargo and mail business segment increased by RMB270 million, or 9.5%, from RMB2,843 million in 2006 to RMB3,114 million in 2007, due to the increase in traffic revenues generated from our international services and Hong Kong regional services.

In accordance with our internal financial reporting, our cargo and logistics business segment excludes cargo carried by passenger flights as stated in Note 7(a) to the financial statements. In accordance with industry practice, our cargo and mail related operating statistics, such as cargo and mail traffic volume and cargo and mail yield, include cargo carried

by passenger flights. The following discussion of our cargo and mail revenues (including cargo carried by passenger flights) and cargo and mail related operating statistics conform to industry practice.

Our domestic cargo and mail traffic revenues (excluding Hong Kong cargo and mail revenues), which accounted for 10.8% of our total cargo and mail traffic revenues in 2007, increased by 17.2% from RMB506 million in 2006 to RMB593 million in 2007. This increase was primarily due to an increase in our domestic cargo and mail traffic, as well as an increase in service charges. Compared to 2006, our domestic cargo and mail traffic (as measured in RFTKs) increased by 5.9%, from 575 million in 2006 to 609 million in 2007. The weight of cargo and mail carried on domestic routes increased by 5.7%, from 439 million kilograms in 2006 to 464 million kilograms in 2007. Our freight tonne-kilometers yield for domestic routes increased from RMB0.87 per tonne-kilometer to RMB0.98 per tonne-kilometer.

International cargo and mail traffic revenues, which accounted for 79.6% of our total cargo and mail traffic revenues in 2007, decreased slightly by 0.7% from RMB4,396 million in 2006 to RMB4,364 million in 2007, due to a significant decrease in service charges despite the increase of 10.3% in the weight of cargo and mail carried on international routes from 359 million kilograms in 2006 to 396 million kilograms in 2007. Our freight tonne-kilometers yield for international routes decreased from RMB2.54 per tonne-kilometer to RMB2.31 per tonne-kilometer.

Hong Kong cargo and mail traffic revenues, which accounted for 9.6% of our total cargo and mail traffic revenues in 2007, decreased by 27.0% from RMB723 million in 2006 to RMB528 million in 2007. This decrease was primarily due to a decrease of 16.8%, from 141 million in 2006 to 118 million in 2007, in our Hong Kong cargo and mail traffic (as measured in RFTKs). The amount of cargo and mail carried on Hong Kong routes also decreased by 16.6%, from 96 million kilograms in 2006 to 80 million kilograms in 2007. Our freight tonne-kilometers yield for Hong Kong routes increased from RMB5.24 per tonne-kilometer to RMB4.49 per tonne-kilometer.

Other revenues

We also generated revenues other than passenger and cargo and mail services from airport ground services and ticket handling services. Airport ground services include loading and unloading of cargo, aircraft cleaning and ground transportation of cargo and passenger luggage for aircraft arriving at or departing from Hongqiao Airport and Pudong International Airport of Shanghai. We are currently the principal provider of airport ground services at both Hongqiao Airport and Pudong International Airport. Our total other revenues increased by 12.5% from RMB2,061 million in 2006 to RMB2,318 million in 2007 due to the increase in ticketing services as a result of increases in ticket refund charges and airport ground services as a result of increased air traffic.

Operating Expenses

Our two business segments, namely, our passenger business segment and our cargo and mail business segment, incur similar operating expenses which are subject to similar trends. As a result, we do not provide segmental analysis for our operating expenses and the following discussion is based on our business as a whole.

Our total operating expenses increased by 5.0% from RMB41,050 million in 2006 to RMB43,087 million in 2007 primarily due to a significant increase in aviation fuel expenses, wages, salaries and other benefits, take off and landing charges, office, administration and other expenses and selling and marketing expenses, partly offset by the decrease in aircraft operating lease and aircraft maintenance expenses. However, our total operating expenses as a percentage of our revenues decreased from 109.1% in 2006 to 101.3% in 2007.

Aviation fuel expenses, which accounted for 35.1% of our total operating expenses in 2007, increased by 11.1% from RMB13,609 million in 2006 to RMB15,117 million in 2007. This increase was primarily due to rising fuel prices, the increase in fuel consumption due to the substantial increase in our total flying hours and mileage in 2007. In 2007, we consumed a total of 2.55 million tonnes of aviation fuel, representing an increase of 9.5% compared to 2006. We paid a weighted average fuel price of RMB5,879 per tonne in 2007, representing an increase of RMB99 per tonne, or approximately 1.7%, from RMB5,780 per tonne in 2006. Aviation fuel expenses accounted for 35.1% of our total operating expenses in 2007, as compared to 33.3% in 2006.

Take-off and landing charges, which accounted for 12.0% of our total operating expenses in 2007, increased by 3.71% from RMB4,989 million in 2006 to RMB5,174 million in 2007 primarily due to the increase in our flights from approximately 340,000 in 2006 to approximately 370,000 in 2007, while party offset by a decrease in the average take-off and landing charges.

Wages, salaries and benefits, which accounted for 10.0% of our total operating expenses in 2007, increased by 22.3% from RMB3,538 million in 2006 to RMB4,327 million in 2007, primarily due to the increase in the number of our employees following the expansion of our core business operations, the improvement of basic salaries and the increase in flying hour payments resulting from the increase in the flying hours of our pilots.

Office, administration and other expenses, which was largely incurred by our passenger business segment, increased by 8.9% from RMB3,621 million in 2006 to RMB3,943 million in 2007 primarily due to our business expansion, an increase in overseas crew expenses and an increase in settlement fees due to flight delays resulting from the additional number of flights.

Selling and marketing expenses, which was largely incurred by our passenger business segment, increased by 4.0% from RMB1,735 million in 2006 to RMB1,805 million in 2007, accounting for 4.2% of our total operating expenses in 2007. The increase was primarily due to the increase in agency business handling fees and distribution system service fees as a result of an increase in the number of passengers carried as well as an increase in the price of overseas distribution systems.

Aircraft operating lease expenses decreased by 3.5% from RMB2,955 million in 2006 to RMB2,851 million in 2007. The decrease was mainly due to the expiry of operating leases of certain aircraft in 2007 and the appreciation of the Renminbi against the U.S. dollar. The number of aircraft operated by us increased from 205 as of December 31, 2006 to 223 as of December 31, 2007. Depreciation and amortization expenses increased by 4.7% from RMB4,597 million in 2006 to RMB4,812 million in 2007 primarily due to the expansion of the scale of our operations and the introduction of additional aircraft.

Aircraft maintenance expenses, which accounted for 5.6% of our total operating expenses in 2007, decreased by 9.6% from RMB2,647 million in 2006 to RMB2,392 million in 2007. This was principally due to the timing of overhauls of aircraft under operating leases.

Other Operating Income

Our other operating income was primarily generated from government subsidies and a revaluation of our financial instruments. The net amount of our other operating income increased from RMB424 million in 2006 to RMB605 million in 2007 primarily due the fact that revaluation of our financial instruments resulted in net losses of RMB38 million in 2006 and net gains of RMB117 million in 2007. The increase was also due to an increase in government subsidies from RMB462 million in 2006 to RMB488 million in 2007. The government subsidies represent subsidies granted to us by the PRC government and local government as well as other subsidies granted by various local municipalities to encourage our Company to operate certain routes to cities where these municipalities are located.

Finance Costs

Our finance costs increased by 12.1% from RMB1,766 million in 2006 to RMB1,979 million in 2007 primarily due to interest expenses of RMB732 million on finance leases, representing an increase of 23.7% from 2006, and interest expenses of RMB1,629 million on loans from banks and other financial institutions, representing an increase of 3.1% from 2006. However, the above amounts were partly offset by the recognition of a net exchange gain of RMB2,023 million arising from the retranslation of U.S. dollar denominated liabilities.

Net Profit

As a result of the foregoing operating results, the net profit attributable to equity holders was RMB269 million in 2007, as compared to a net loss of RMB3,313 million in 2006.

Fixed Assets

Our Company had approximately RMB47,548 million of fixed assets as of December 31, 2007, including aircraft, engines and flight equipment with a value of approximately RMB43,036 million. Fixed assets are initially recognized at cost and are subsequently stated at a revalued amount, being their fair values at the date of revaluation less any

subsequent accumulated depreciation.

Market conditions and global economic factors that are beyond our control affect the valuation of fixed assets. The determination of fair value requires significant judgment, including judgment on valuations by our management and/or by independent professional appraisers. Our Directors have reviewed the carrying value of our property, plant and equipment as of December 31, 2007. An impairment loss of RMB131 million was recognized for certain aircraft and related equipment reclassified to non-current assets held for sale. Except for this amount, the value of other assets is not materially different from their carrying amounts.

2006 Compared to 2005

Revenues

Our revenues increased by 37.1% from RMB27,454 million in 2005 to RMB37,634 million in 2006 (net of the applicable PRC business tax). This increase was primarily due to an increase in our passenger business segment revenues, as a result of an increase in our capacity resulting from our acquisition of certain selected assets and liabilities relating to the aviation businesses of CEA Northwest and CEA Yunnan and our acquisitions of other aircraft, which increased our traffic volume and average yield. In 2006, we transported a total of 24.3 million passengers, representing a 44.3% increase from 35.0 million passengers in 2005. Our total passenger traffic (as measured in RPKs) increased by 38.2% from 36,381 million passenger-kilometers in 2005 to 50,272 million passenger-kilometers in 2006 and our total cargo and mail traffic (as measured in RFTKs) increased by 13.6% from 2,152 million freight tonne-kilometers in 2005 to 2,444 million freight tonne-kilometers in 2006. Our average yield for the passenger business segment increased from RMB0.57 per passenger-kilometer to RMB0.61 per passenger-kilometer, whereas our average yields for the cargo and mail business segment slightly decreased by 0.4% from RMB2.31 per tonne-kilometer in 2005 to RMB2.30 per tonne-kilometer in 2006.

Passenger business segment revenues

Our total passenger business segment revenues, including revenues generated from cargo carried by passenger flights, increased by 43.4% from RMB24,195 million in 2005 to RMB34,702 million in 2006. Total passenger business segment revenues after elimination of inter-segment revenues, which accounted for 90.4% of our total revenues, increased by 41.4% from RMB24,050 million in 2005 to RMB34,012 million in 2006. The increase was primarily due to the increase in traffic revenues for the passenger business segment.

Our traffic revenues for the passenger business segment increased by RMB10,307 million, or 44.5%, from RMB23,183 million in 2005 to RMB33,490 million in 2006 due to the increase in the revenues generated from our domestic, international and Hong Kong services.

In accordance with our internal financial reporting, our passenger business segment includes cargo carried by passenger flights as stated in Note 7(a) to the financial statements. In accordance with industry practice, our passenger related operating statistics, such as passenger traffic volume and passenger yield, exclude cargo carried by passenger flights. The following discussion of our passenger revenues (excluding cargo carried by passenger flights) and passenger related operating statistics conform to industry practice.

Our domestic passenger traffic revenues (excluding Hong Kong passenger revenues), which accounted for 61.7% of our total passenger traffic revenues in 2006, increased by 65.6% from RMB11,442 million in 2005 to RMB18,947 million in 2006. This increase was primarily due to an increase in our domestic passenger traffic following increases in our capacity, as well as an increase in air fares. Our domestic passenger traffic increased (as measured in RPKs) by 54.2%, from 20,278 million in 2005 to 31,272 million in 2006. The number of passengers carried on domestic routes increased by 19.2% from 18.2 million passengers in 2005 to 21.7 million passengers in 2006. Our passenger-kilometers yield for domestic routes increased from RMB0.56 per passenger-kilometer in 2005 to RMB0.61 per passenger-kilometer in 2006.

International passenger traffic revenues, which accounted for 30.0% of our total passenger traffic revenues in 2006, increased by 31.4% from RMB7,007 million in 2005 to RMB9,206 million in 2006. This increase was primarily due to an increase in our international passenger traffic, which resulted from increases in our capacity, as well as an increase in air fares. Our international passenger traffic (as measured in RPKs) increased by 20.8% in 2006, from 12,819 million in 2005 to 15,478 million in 2006. The number of passengers carried on international routes increased by 27.8%, from 3.8 million in 2005 to 4.8 million in 2006. Our passenger-kilometers yield for international routes

increased from RMB0.54 per passenger-kilometer in 2005 to RMB0.58 per passenger-kilometer in 2006.

Hong Kong passenger traffic revenues, which accounted for 8.3% of our total passenger traffic revenues in 2006, increased by 2.2% from RMB2,498 million in 2005 to RMB2,554 million in 2006 due to an increase in our Hong Kong passenger traffic, partly offset by the decrease in air fares. Our Hong Kong passenger traffic (as measured in RPKs) increased slightly by 7.2% in 2006, from 3,284 million in 2005 to 3,521 million in 2006. Our passenger-kilometers yield for Hong Kong routes decreased from RMB0.76 per passenger-kilometer in 2005 to RMB0.71 per passenger-kilometer in 2006.

Cargo and mail business segment revenues

We generate cargo and mail revenues from our cargo and mail transportation services. Our total revenues from our cargo and mail transportation services business segment, excluding revenues generated from cargo carried by passenger flights, increased by 7.4% from RMB3,306 million in 2005 to RMB3,552 million in 2006. There were no inter-segment revenues in 2005 and 2006. The increase was primarily due to an increase in our cargo and mail traffic following an increase in our capacity. Cargo and mail yield decreased slightly from RMB2.31 in 2005 to RMB2.30 in 2006 per cargo tonne-kilometer primarily due to fare decreases resulting from intensified market competition.

Our traffic revenues for cargo and mail business segment increased by RMB658 million, or 13.3%, from RMB2,731 million in 2005 to RMB2,843 million in 2006 due to the increase in revenues generated from our international and Hong Kong services.

In accordance with our internal financial reporting, our cargo and logistics business segment excludes cargo carried by passenger flights as stated in Note 7(a) to the financial statements. In accordance with industry practice, our cargo and mail related operating statistics, such as cargo and mail traffic volume and cargo and mail yield, include cargo carried by passenger flights. The following discussion of our cargo and mail revenues (including cargo carried by passenger flights) and cargo and mail related operating statistics conform to industry practice.

Our domestic cargo and mail traffic revenues (excluding Hong Kong cargo and mail revenues), which accounted for 9.0% of our total cargo and mail traffic revenues in 2006, increased by 46.2% from RMB346 million in 2005 to RMB506 million in 2006. This increase was primarily due to an increase in our domestic cargo and mail traffic following increases in our capacity, as well as an increase in service charges. Our domestic cargo and mail traffic (as measured in RFTKs) increased by 40.3%, from 410 million in 2005 to 575 million in 2006. The weight of cargo and mail carried on domestic routes increased by 39.0%, from 316 million kilograms in 2005 to 439 million kilograms in 2006. Our freight tonne-kilometers yield for domestic routes increased from RMB0.85 per tonne-kilometer in 2005 to RMB0.87 per tonne-kilometer in 2006.

International cargo and mail traffic revenues, which accounted for 78.2% of our total cargo and mail traffic revenues in 2006, increased by 10.7% from RMB3,970 million in 2005 to RMB4,396 million in 2006. This increase was primarily due to an increase in our international cargo and mail traffic, which resulted from increases in our capacity, as well as an increase in air fares. Our international cargo and mail traffic (as measured in RFTKs) increased by 7.5% in 2006, from 1,607 million in 2005 to 1,728 million in 2006. The weight of cargo and mail carried on international routes increased by 3.2%, from 348 million kilograms in 2005 to 359 million kilograms in 2006. Our freight tonne-kilometers yield for international routes increased from RMB2.48 per tonne-kilometer in 2005 to RMB2.54 per tonne-kilometer in 2006.

Hong Kong cargo and mail traffic revenues, which accounted for 12.9% of our total cargo and mail traffic revenues in 2006, increased by 11.3% from RMB650 million in 2005 to RMB723 million in 2006 due to an increase in our Hong Kong cargo and mail traffic and the increase in service charges. Our Hong Kong cargo and mail traffic (as measured in RFTKs) increased slightly by 4.8% in 2006, from 135 million in 2005 to 141 million in 2006. The weight of cargo and mail carried on Hong Kong routes increased by 3.9%, from 92 million kilograms in 2005 to 96 million kilograms in 2006. Our freight tonne-kilometers yield for Hong Kong routes increased from RMB4.76 per tonne-kilometer in 2005 to RMB5.24 per tonne-kilometer in 2006.

Other revenues

We also generated revenues other than passenger and cargo and logistics services from airport ground services and ticket handling services. Airport ground services include loading and unloading of cargo, aircraft cleaning and ground transportation of cargo and passenger luggage for aircraft arriving at or departing from Hongqiao Airport and Pudong

International Airport of Shanghai. We are currently the principal provider of airport ground services at both Hongqiao Airport and Pudong International Airport. Our total other revenues increased by 22.3% from RMB1,685 million in 2005 to RMB2,061 million in 2006 due to the increase in revenues generated from airport ground services.

Operating Expenses

Our two business segments, namely our passenger business segment and our cargo and mail business segment, incur similar operating expenses which are subject to similar trends. As a result, we do not provide segmental analysis for our operating expenses and the following discussion is based on our business as a whole.

Our total operating expenses increased by 48.3% from RMB27,685 million in 2005 to RMB41,050 million in 2006 primarily due to our business expansion and a significant increase in aviation fuel expenses resulting from increased fuel prices. In addition, increases of depreciation and amortization, aircraft operating lease expense, take-off and landing charges, wages, salaries and benefits, aircraft maintenance expenses and office, administrative and other expenses also contributed to the increase of our operating expenses. Our total operating expenses as a percentage of our revenues increased from 100.8% in 2005 to 109.1% in 2006.

Aviation fuel expenses, which accounted for 33.2% of our total operating expenses in 2006, increased by 53.1% from RMB8,889 million in 2005 to RMB13,609 million in 2006. This increase was primarily due to rising fuel prices and our business expansion in 2006. In 2006, we consumed a total of 2,346,400 tonnes of aviation fuel, representing an increase of 23.9% compared to 2005. The weighted average fuel price paid by our Company was RMB5,780 per tonne in 2006, representing an increase of RMB1,454 per tonne, 33.6%, from RMB4,326 per tonne in 2005. Aviation fuel expenses accounted for 33.3% of our total operating expenses in 2006, as compared to 32.1% in 2005.

Depreciation and amortization and aircraft operating lease rentals, which accounted for 18.4% of our total operating expenses in 2006, increased by 32.0% from RMB5,723 million in 2005 to RMB7,552 million in 2006 primarily due to the introduction of additional aircraft which were primarily financed by way of finance or operating leases, resulting in a larger increase in depreciation and operating lease expenses. The number of aircraft operated by us increased from 180 as of December 31, 2005 to 205 as of December 31, 2006.

Take-off and landing charges, which accounted for 12.2% of our total operating expenses in 2006, increased by 34.2% from RMB3,719 million in 2005 to RMB4,989 million in 2006 primarily due to the expansion of our business and the increase in the number of our flights, while partly offset by a decrease in the average take-off and landing charges resulting from an increase in the number of domestic flights. The number of our flights increased from approximately 211,000 in 2005 to approximately 340,000 in 2006.

Wages, salaries and benefits, which accounted for 8.6% of our total operating expenses in 2006, increased by 48.1% from RMB2,389 million in 2005 to RMB3,538 million in 2006 primarily due to a significant increase in the number of our employees following our acquisition of certain selected assets and liabilities relating to aviation businesses of CEA Northwest and CEA Yunnan. The total number of our employees increased by 31.0% from 29,301 as of December 31, 2005 to 38,392 as of December 31, 2006.

Aircraft maintenance expenses, which accounted for 6.4% of our total operating expenses in 2006, increased by 91.3% from RMB1,384 million in 2005 to RMB2,647 million in 2006. The main reason for the increase was that more aircraft were delivered for repair as a result of the continuous expansion in our fleet size.

Office, administrative and other expenses, which accounted for 8.8% of our total operating expenses in 2006, increased by 42.0% from RMB2,550 million in 2005 to RMB3,621 million in 2006 primarily due to our business expansion, resulting in increases in flight training expenses and branch office expenses.

Other Operating Income

Our other operating income was primarily generated from government subsidies and fair value gains on our financial instruments. The net amount of our other operating income increased from RMB245 million in 2005 to RMB424 million in 2006 primarily due to an increase in government subsidies from RMB193 million in 2005 to RMB462 million in 2006. The government subsidies represent subsidies granted to us by local governments in consideration of the relocation of our international flights and related facilities from Shanghai Hongqiao Airport to Pudong International Airport, subsidies granted by various local municipalities to encourage our Company to operate certain routes to places where these municipalities are located and other subsidies granted by the PRC Government.

Finance Costs

Our finance costs increased by 57.4% from RMB1,122 million in 2005 to RMB1,766 million in 2006 primarily due to an increase in interest relating to obligations under finance leases from RMB325 million in 2005 to RMB544 million in 2006, representing an increase of 59.7%, and interest expenses of RMB1,581 million on loans from banks and other financial institutions, representing an increase of 60.3% from RMB990 million in 2005. However, the above amounts were partly offset by the recognition of a net carrying exchange gain of RMB888 million arising from the retranslation of foreign currency liabilities.

Net Loss

As a result of the foregoing operating results, the net loss attributable to equity holders was RMB3,313 million in 2006, as compared to a net loss of RMB467 million in 2005.

Fixed Assets

Our Company had approximately RMB40,050 million of fixed assets as of December 31, 2006, including aircraft, engines and flight equipment with a value of approximately RMB35,793 million. Fixed assets are initially recognized at cost and are subsequently stated at a revalued amount, being their fair values at the date of revaluation less any subsequent accumulated depreciation.

Valuation of fixed assets is affected by market conditions and global economic factors that are not within our control. The determination of fair value requires significant judgment, including judgment on valuations by our management and/or by independent professional appraisers. Our Directors have reviewed the carrying value of our fixed assets as of December 31, 2006 based on the valuations conducted by independent valuers. These valuations resulted in a valuation deficit of RMB1,035 million relating to certain aircraft and related equipment. With the exception of those assets giving rise to the valuation deficit referred to above, the revalued amounts of the other assets are not materially different from their carrying amounts.

B. Liquidity and Capital Resources

We typically finance our working capital requirements through a combination of funds generated from operations and short-term bank loans. As a result, our liquidity could be materially and adversely affected to the extent there is a significant decrease in demand for our services or if there is any delay in obtaining bank loans. As of December 31, 2006 and 2007, we had cash and cash equivalents of RMB1,987 million and RMB1,655 million, respectively.

Cash Flows from Operating Activities

In 2007, we had net cash inflow from operating activities of RMB2,695 million as a result of our cash generated from operations of RMB4,998 million less interest and income tax we paid in 2007. Our cash generated from operations of RMB4,998 million was mainly due to operating profit before working capital changes of RMB5,978 million and the changes in working capital of RMB980 million. The operating profit before working capital changes of RMB5,978 was a result of the profit before income tax of RMB268 million, mainly adjusted for: (i) depreciation of property, plant and equipment of RMB4,787 million, and (ii) interest expenses of RMB1,978 million, partly offset by net foreign exchange gains of RMB2,023 million. Changes in working capital mainly consist of (i) value for flight equipment spare parts of RMB501 million, (ii) trade receivables of RMB369 million, (iii) prepayments, deposits and other receivables of RMB337 million, partly offset by (i) amounts due from related parties of RMB350 million and (ii) sales in advance of carriages of RMB320 million.

In 2006, we had net cash inflows from operating activities of RMB1,339 million as a result of the cash generated from operations in the amount of RMB3,459 million less interest and income tax we paid in 2006. Our cash generated from operations amounted to RMB3,459 million was mainly due to our operating profit before working capital changes of RMB3,383 million and the changes in working capital of RMB75 million. The operating profit before working capital changes of RMB3,383 million was a result of the loss before income tax of RMB3,616 million, mainly adjusted for (i) depreciation of property, plant and equipment of RMB4,566 million, (ii) interest expenses of RMB1,822 million, and (iii) a revaluation deficit of RMB1,035 million, partly offset by net foreign exchange gains of RMB888 million. Changes in working capital mainly consisted of other payables and accrued expenses in the amount of RMB1,510 million, partly offset by (i) the value of flight equipment spare parts of RMB583 million, (ii) prepayments, deposits and other receivables in the amount of RMB503 million, and (iii) trade payables and notes payables in the amount of RMB182 million.

In 2005, we had net cash inflows from operating activities of RMB1,952 million as a result of the cash generated from our operations in the amount of RMB3,370 million less interest and income tax we paid in 2005. Our cash generated from operations of RMB3,370 million was primarily due to our operating profit before working capital changes of RMB4,309 million and the changes in working capital of RMB939 million. The operating profit before working capital changes of RMB4,309 million was a result of the loss before income tax of RMB577 million, mainly adjusted for (i) depreciation of property, plant and equipment of RMB3,912 million and (ii) interest expenses of RMB1,100 million, partly offset by net foreign exchange gains of RMB415 million. Changes in working capital mainly consisted of (i) other payables and accrued expenses in the amount of RMB1,013 million, (ii) value of flight equipment spare parts in the amount of RMB295 million, and (iii) prepayments, deposits and other receivables of RMB288 million, partly offset by trade payables and notes payables in the amount of RMB821 million.

Cash Flows from Investing Activities

In 2007, our net cash outflow from investing activities was RMB1,756 million. Our net cash outflow for investing activities mainly consisted of (i) advanced payments on acquisition of aircrafts of RMB3,737 million and (ii) additions of property, plant and equipment of RMB1,592 million, partly offset by the refund of advanced payments upon delivery of aircrafts of RMB3,065 million.

In 2006, our net cash outflow from investing activities was RMB1,679 million. Our net cash outflow for investing activities mainly consisted of (i) advanced payments on acquisition of aircrafts of RMB4,561 million and (ii) additions of property, plant and equipment of RM880 million, partly offset by the refund of advanced payments upon delivery of aircrafts of RMB3,745 million.

In 2005, our net cash outflow from investing activities was RMB10,369 million. Our net cash outflow for investing activities mainly consisted of (i) advanced payments on acquisition of aircrafts of RMB7,752 million and (ii) additions of property, plant and equipment of RMB2,676 million.

Cash Flows from Financing Activities

In 2007, our net cash outflow from financing activities was RMB1,254 million. Our net cash outflow for financing activities mainly consisted of (i) repayments of short-term bank loans of RMB16,020 million, (ii) repayments of notes payable of RMB6,206 million, (iii) repayments of long-term bank loans of RMB2,985 million and (iv) repayments of principal for finance leases of RMB2,975 million, partly offset by (i) proceeds from draw down of short-term bank loans of RMB18,465 million, (ii) proceeds from issuance of notes payable of RMB4,351 million and (iii) proceeds of draw down of long-term bank loans of RMB3,383 million.

In 2006, our net cash inflow from financing activities was RMB421 million. Our net cash inflow for financing activities mainly consisted of (i) proceeds from draw down of short-term bank loans of RMB14,749 million, (ii)

proceeds from issuance of notes payable of RMB7,696 million and (iii) proceeds from draw down of long-term bank loans of RMB6,910 million, partly offset by (i) repayments of short-term bank loans of RMB15,134 million, (ii) repayments of notes payable of RMB6,014 million, (iii) repayments of long-term bank loans of RMB4,179 million and (iv) repayment of debentures of RMB2,000 million.

In 2005, our net cash inflow from financing activities was RM8,186 million. Our net cash inflow for financing activities mainly consisted of (i) proceeds from draw down of short-term bank loans of RMB14,307 million, (ii) proceeds from draw down of long-term bank loans of RMB5,135 million, (iii) proceeds from issuance of notes payable of RMB4,229 million and (iv) proceeds from issuance of debentures of RMB1,952 million, partly offset by (i) repayments of short-term bank loans of RMB8,873 million, (ii) repayments of long-term bank loans of RMB3,843 million, (iii) repayments of notes payable of RMB3,376 million and (iv) principal repayments of finance lease obligations of RMB1,157 million.

Working Capital and Liabilities

We generally operate with a working capital deficit. As of December 31, 2007, our current liabilities exceeded our current assets by RMB26,074 million. In comparison, our current liabilities exceeded our current assets by RMB24,616 million as of December 31, 2006. The increase in our current liabilities in 2007 was primarily due to an increase in borrowings for payment of advances on aircraft and flight equipment, other payables and accrued expenses, including accrued fuel cost, accrued aircraft overhaul expenses and accrued salaries, wages and benefits, and sales in advance of carriage. Short-term loans outstanding totaled RMB13,176 million and RMB15,189 million as of December 31, 2006 and 2007, respectively. We have arranged, and we believe that we will continue to be able to arrange, short-term bank loans with domestic and foreign-funded banks in China as necessary to meet our working capital requirements. Long-term bank loans outstanding totaled RMB14,932 million and RMB14,675 million as of December 31, 2006 and 2007, respectively.

Our consolidated interest-bearing borrowings as of December 31, 2006 and 2007 for the purpose of calculating the indebtedness of our Company, were as follows:

As of December 31

	115 01 2 001110	·- · -
	2006	2007
	(RMB milli	on)
Secured bank loans	6,656	4,767
Unsecured bank loans	21,452	25,097
Total	28.108	29.864

The maturity profile of interest-bearing borrowings of our Company as of December 31, 2006 and 2007 was as follows:

	As of Decem	As of December 31		
	2006	2007		
	(RMB mill	(RMB million)		
Within one year	16,016	18,495		
In the second year	3,053	5,927		
In the third to fifth year inclusive	7,561	4,217		
After the fifth year	1,478	1,226		
Total	28,108	29,864		

As of December 31, 2007, our interest rates relating to short-term borrowings ranged from 4.38% to 6.72%, while our fixed interest rates on our interest-bearing borrowings for long-term bank loans ranged from 4.52% to 7.64%. Our bank loans are denominated in Renminbi, U.S. dollars, Euro and Hong Kong dollars. As of December 31, 2007, our total bank loans denominated in Renminbi amounted to RMB12,529 million, our total bank loans denominated in U.S. dollars amounted to RMB17,197 million, our total bank loans denominated in Euro amounted to RMB130 million, while our bank loans denominated in Hong Kong dollar were equivalent to approximately RMB8 million. See Note 27 to the consolidated financial statements for more information on our borrowings.

We have entered into credit facility agreements with certain Chinese banks to meet our future working capital needs. However, our ability to obtain financing may be affected by our financial position and leverage and credit ratings, as well as by prevailing economic conditions and the cost of financing generally. If we are unable to obtain financing for a significant portion of our capital requirements, our ability to acquire new aircraft and to expand our operations may be materially and adversely affected.

We have, and in the future may continue to have, substantial debts. As of December 31, 2006 and 2007, our long-term debt to equity ratio was 7.7 and 8.6, respectively. The interest expenses associated with these debts may impair our future profitability. We expect that cash from operations and bank borrowings will be sufficient to meet our operating cash flow requirements, although events that materially and adversely affect our operating results can also have a negative impact on liquidity.

Capital Expenditures

Our aircraft orders as of December 31, 2007 included commitments to acquire 39 aircraft to be delivered in 2008 and 2009. We expect our capital expenditures for aircraft and related equipment, including deposits, through 2010 to be in aggregate approximately RMB50,853 million, including RMB17,127 million in 2008 and RMB15,057 million in 2009, in each case subject to contractually stipulated increases or any increase relating to inflation. Construction of our facilities at the Pudong International Airport and the purchase of maintenance equipment and other property and equipment will continue to require additional capital expenditures in 2008. We plan to finance our other capital commitments through a combination of funds generated from operations, existing credit facilities, bank loans, leasing arrangements and other external financing arrangements.

The following table sets forth our current estimate of our capital expenditures for 2008, 2009, 2010 and 2011:

		Year ending De	cember 31,	
	2008E	2009 E	2010E	2011E
		(RMB mi	llion)	
Property, plant and equipment	17,127	15,057	13,960	2,532

C. Research and Development, Patents and Licenses, etc.

None.

D. Trend Information

Other than as disclosed elsewhere in this Annual Report, we are not aware of any trends, uncertainties, demands, commitments or events for the period from January 1, 2007 to December 31, 2007 that are reasonably likely to have a material effect on our net revenues, income, profitability, liquidity or capital resources, or that caused the disclosed financial information to be not necessarily indicative of future operating results or financial conditions.

E. Off-balance Sheet Arrangements

We have not entered into any off-balance sheet arrangements other than our operating lease arrangements:

- ·We have not entered into any financial guarantees or other commitments to guarantee the payment obligations of any unconsolidated entity;
- ·We have not entered into any obligations under any derivative contracts that are indexed to our own shares and classified as shareholder's equity, or that are not reflected in our consolidated financial statements; and
- ·We do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity.

F. Tabular Disclosure of Contractual Obligations

Contractual Obligations and Commercial Commitments

The following tables set forth selected information regarding our outstanding contractual and commercial commitments as of December 31, 2007:

	Payments Due by Period				
	(RMB millions)				
Contractual Obligations	Total	Less Than 1 Year	1-3 Years	4-5 Years	After 5 Years
Long-Term Debt	14,675	3,305	5,927	4,217	1,226
Capital Leases	20,608	3,357	2,206	5,714	9,331
Operating Leases	15,400	2,614	2,382	5,033	5,371
Unconditional Purchase Obligations	50,853	17,127	15,057	18,669	_
Other Long-term Obligations ⁽¹⁾	864	_	_	_	_
Post-retirement Benefit					
Obligations ⁽¹⁾	1,405	_	_	_	_
Deferred Tax Liabilities	50	_	_	_	_
Short-term Bank Loans	15,189	15,189	_	_	_
Interest Obligations	7,389	2,113	1,111	2,336	1,829
Under Finance Lease	4,156	811	639	1,509	1,197
Under Bank Loans	3,233	1,302	472	827	632
Fixed Rate	1,639	869	193	288	289
Variable Rate ⁽²⁾	1,594	433	279	539	343
Total	126,433	43,705	26,683	35,969	17,757

(2) For our variable rate loans, interest rates range from 3 months LIBOR + 0.25% to 6 months LIBOR + 1%. Interest obligations relating to variable rate loans are calculated based on the relevant LIBOR rates as of December 31, 2007. A 1% increase in the interest rate would increase the interest obligations by RMB274 million in total with RMB74 million in year 1, RMB48 million in years 2, RMB93 million in years 3 to 5 and RMB59 million for subsequent years.

Critical Accounting Policies

Critical accounting policies are defined as those that are reflective of significant judgments and uncertainties and potentially result in materially different results under different assumptions and conditions.

⁽¹⁾ Figures of payments due by period are not available.

Our audited consolidated financial statements have been prepared in accordance with IFRS. Our principal accounting policies are set forth in Note 2 to our audited consolidated financial statements. IFRS requires that we adopt the accounting policies and make estimates that our Directors believe are most appropriate in the circumstances for the purposes of giving a true and fair view of our results and financial condition. However, different policies, estimates and assumptions in critical areas could lead to materially different results. The critical accounting policies adopted and estimates made in the preparation of these financial statements are identified as follows:

Estimated impairment of property, plant and equipment and intangible assets

We test whether property, plant and equipment and intangible assets have been impaired in accordance with the accounting policy stated in Note 2(n) to the financial statements. The recoverable amounts of cash generating units have been determined based on value-in-use calculations. These calculations require the use of estimates which are disclosed in Note 16(a) to the financial statements. In 2007, after reviewing the business environment as well as our objectives and past performance, there was no material impairment loss for goodwill.

Valuation of property, plant and equipment

Our property, plant and equipment is subsequently stated at revalued amounts less accumulated depreciation in accordance with the accounting policy stated in Note 2(m) to the financial statements. Revaluations of property, plant and equipment will be performed at sufficiently regular intervals, at least every five years, by independent professional valuers. In each of the intervening years valuations will be undertaken by our Directors. If the subsequent revalued amounts differ materially from carrying amounts, the carrying amounts will be adjusted to the revalued amounts. Their recorded value is impacted by management judgment, including valuations performed by management and/or independent professional valuers, estimates of useful lives, residual values and impairment charges. If different judgments or estimates had been utilized, material differences could have resulted in the amount of revaluation and related depreciation charges. Our Directors have reviewed the carrying value of our fixed assets as of December 31, 2007 and concluded that there is RMB131 million valuation deficit relating to certain aircraft and related equipment. With the exception of those assets giving rise to the valuation deficit referred to above, the revalued amounts of the other assets are not materially different from their carrying amounts.

Revenue recognition

We recognize passenger, cargo and mail revenues in accordance with the accounting policy stated in Note 2(f) to the financial statements. Unused tickets are recognized in traffic revenues based on current estimates. Management annually evaluates the balance in the Sales in advance of carriage account ("SIAC") and records any adjustments, which can be material, in the period the evaluation is completed. These adjustments result from differences between the estimates of certain revenue transactions and the timing of recognising revenue for any unused air tickets and the related sales price, and are impacted by various factors, including a complex pricing structure and interline agreements throughout the industry, which affect the timing of revenue recognition.

Overhaul costs

The overhaul costs in relation to return condition checks for aircraft and engines under operating leases is provided on a straight line basis over the term of the leases. Overhaul costs for aircraft and engines owned by us or held under finance leases are capitalized as a component of property, plant and equipment and are depreciated over the appropriate maintenance cycles. All other repairs and maintenance costs are charged to the income statements as and when incurred. The amount of overhaul costs charged/amortized to operating profits is impacted by management's estimates of the expected flying hours and overhaul costs, which are largely based on past experience of overhauls of the same or similar models of aircraft. Different judgments or estimates could significantly affect the estimated overhaul expense and materially impact the results of operations. During the year ended December 31, 2007, we reviewed the way we account for certain aircraft maintenance activities and decided to change our accounting policy with respect to the cost of major overhauls of airframes and engines held under operating leases. The review of our accounting policy was, in part, initiated in response to recent changes in generally accepted accounting practice in the United States which have eliminated the use of the accrual method for overhauls. See Note 2(b)(i) for details.

Retirement benefits

We operate and maintain defined retirement benefit plans which provide retirees with benefits including transportation subsidies, social activity subsidies as well as other welfare. The cost of providing the aforementioned benefits in the defined retirement benefit plan is actuarially determined and recognized over the employees' service period by utilizing various actuarial assumptions and using the projected unit credit method in accordance with the accounting policy stated in Note 2(w) to the financial statements. These assumptions include, without limitation, the selection of discount rate, annual rate of increase of per capita benefit payment and employees' turnover rate. The discount rate is based on management's review of local high quality corporate bonds. The annual rate of increase of benefit payments is based on the general local economic conditions. The employees' turnover rate is based on historical trends of the

Group. Additional information regarding the retirement benefit plans is disclosed in Note 32 to the financial statements.

Deferred income tax

In assessing the amount of deferred tax assets that need to be recognized in accordance with the accounting policy stated in Note 2(k) to the financial statements, we consider future taxable income and ongoing prudent and feasible tax planning strategies. In the event that our estimates of projected future taxable income and benefits from available tax strategies are changed, or changes in current tax regulations are enacted that would impact the timing or extent of our ability to utilize the tax benefits of net operating loss carry forwards in the future, adjustments to the recorded amount of net deferred tax assets and taxation expense would be made.

Foreign Currency Transactions

We have debts denominated in U.S. dollars, Japanese yen or Euro in addition to our debts denominated in Renminbi. We generate a significant amount of foreign currency revenues, including U.S. dollar, Japanese yen, Euro, Korean won, Hong Kong dollar, Singapore dollar, Australian dollar, and Thailand baht revenues, from ticket sales made in overseas offices. Pursuant to current foreign exchange regulations in China, we may retain our foreign currency earnings subject to the approval of SAFE. We have also designated certain personnel to manage the foreign currency risks through derivative financial products such as forward foreign exchange contracts and interest rate swaps. We use interest rate swaps to reduce risks related to changes in market interest rates. As of December 31, 2007, the notional amount of outstanding interest rate swap agreements was approximately US\$624 million, compared to US\$631 million as of December 31, 2006. These interest rate swap agreements will expire between 2008 and 2016. In addition, we use currency forward contracts to reduce risks related to changes in currency exchange rates in respect of ticket sales and expenses denominated in foreign currencies. As of December 31, 2007, the notional amount of the outstanding currency forward contracts was approximately US\$33 million, which was the same as of December 31, 2006. These currency forward contracts will expire between 2008 and 2010.

Pursuant to IFRS, our monetary assets and liabilities denominated in foreign currencies are required to be translated into Renminbi at the year end at exchange rates announced by the People's Bank of China. The net exchange gains or losses are recognized and reflected in the income statement for the relevant year. Any fluctuation of the exchange rates between Renminbi and foreign currencies may materially and adversely affect our financial condition and results of operations. Primarily due to an appreciation of Renminbi against certain foreign currencies (including the U.S. dollar and the Japanese yen) following the measures introduced by the PRC Government in July 2005 to reform the Renminbi exchange rate regime, we recognized a net exchange gain of RMB2,023 million in 2007, compared to a net exchange gain of RMB888 million in 2006.

Taxation

Since we changed our registered address to Pudong district in Shanghai on July 1, 2001, we have been subject to income tax at the rate of 15%. Our effective tax rate, however, may be higher than the rate of 15% because some of our subsidiaries are incorporated in jurisdictions where the applicable income tax rate is 33% rather than 15%. We had carried forward tax losses of approximately RMB5,849 million and RMB5,380 million as of December 31, 2006 and 2007, respectively, which can be used to set off against future taxable income before 2008 and 2012, respectively.

On March 16, 2007, the National People's Congress approved the Enterprise Income Tax Law (the "EIT Law"), which took effect on January 1, 2008. The PRC enterprise income tax rate for the Company and all its subsidiaries, except those registered in Hong Kong, has been changed to a standard tax rate of 25%. However, the tax bureau in which the Company and certain of its subsidiaries are registered has not yet announced the detailed transitional provisions from the old rate to the new CIT rate. For the purposes of deferred tax calculations, the Company and its subsidiaries apply a 25% tax rate effective since January 1, 2008. The net deferred tax position of the Company and its subsidiaries as of December 31, 2007 is insignificant and management considers that the change in tax rate will not have a material impact on our deferred tax position. Further detailed measures and regulations on the determination of taxable profit, tax incentives and grandfathering provisions will be issued by the tax authorities. As and when the tax authorities announce the additional regulations, we will assess their impact, if any, and the corresponding change in accounting estimate will be accounted for prospectively.

Inflation

In recent years, China has not experienced significant inflation and in 2006, inflation did not have a significant effect on our business. According to the National Bureau of Statistics of China, China's overall national inflation rate, as represented by the general consumer price index, was approximately 1.5% and 4.8% in 2006 and 2007, respectively. Although neither inflation nor deflation in the past had any material adverse impact on our results of operations, we cannot assure you that the deflation or inflation of the Chinese economy in the future would not materially and adversely affect our financial condition and results of operations.

New Pronouncements

The following standards, amendments and interpretations to existing standards, which have been published and are relevant to our Company's operations, are mandatory for accounting periods beginning on or after January 1, 2008 or later periods. We are still assessing the impact of these new/revised standards and interpretations in detail.

IFRIC 13, "Customer loyalty programmes" (effective from July 1, 2008)

- ·IFRIC 14, "IAS 19 The limit on a defined benefit asset, minimum funding requirements and their interaction" (effective from January 1, 2008)
 - IAS 1 (Revised), "Presentation of Financial Statements" (effective from January 1, 2009)
 - · IFRS 8, "Operating segments" (effective from January 1, 2009)
- ·IAS 27 (Revised) "Consolidated and Separate Financial Statements" (effective from annual period beginning on or after July 1, 2009)

· IFRS 3 (Revised) "Business Combinations" (effective for business combinations with acquisition date on or after the beginning of the first annual reporting period beginning on or after July 1, 2009)

G. Safe Harbor

See the section headed "CAUTIONARY STATEMENT WITH RESPECT TO FORWARD-LOOKING STATEMENTS".

Item 6. Directors, Senior Management and Employees

A. Directors and Senior Management

The following table sets forth certain information concerning our Directors, executive officers and supervisors during this reporting period. None of our Directors, supervisors or members of our senior management was selected or chosen as a result of any arrangement or understanding with customers, suppliers or others. There is no family relationship between any Director, supervisor or executive officer and any other Director, supervisor or executive officer of our Company.

Name	Age	Shares Owned	Position
Li Fenghua	58	6,600 A Shares	Chairman of the Board of Directors
Li Jun ⁽¹⁾	55	0	Vice Chairman

48	

On June 29, 2007, during the 2006 annual general meeting, the shareholders of the Company approved the termination of office for the entire fourth session of the Board of the Company and approved the appointment of Mr. Li Fenghua, Mr. Li Jun, Mr. Luo Chaogeng, Mr. Cao Jianxiong, Mr. Luo Zhuping, Mr. Hu Honggao, Mr. Peter Lok, Mr. Wu Baiwang, Mr. Zhou Ruijin and Mr. Xie Rong as directors to the fifth session of the Board of the Company. The shareholders of the Company also approved the termination of office as a whole for the fourth session of the Supervisory Committee, and approved the appointment of Mr. Liu Jiashun, Ms. Liu Jiangbo and Mr. Xu Zhao as supervisors nominated by shareholders to the fifth session of the Supervisory Committee. Pursuant to an employees' representatives meeting of the Company, Ms. Wang Taoying and Ms. Yang Jie were nominated as supervisors by the employees of the Company with effect from June 29, 2007.

On June 29, 2007, the fifth session of the Board of the Company convened its first meeting for 2007 and elected Mr. Li Fenghua as the Chairman of the Board of the Company and Mr. Li Jun as the Vice Chairman of the Board of the Company. In addition, Mr. Xie Rong, Mr. Hu Honggao and Mr. Zhou Ruijin were appointed as the members of the Audit Committee and Mr. Xie Rong as the chairman of the Audit Committee. Mr. Wu Baiwang, Mr. Luo Chaogeng and Mr. Luo Zhuping were appointed as the members of the planning and development committee of the Company (the "Planning and Development Committee") and Mr. Wu Baiwang as the chairman of the Planning and Development Committee. Mr. Zhou Ruijin, Mr. Luo Chaogeng and Mr. Wu Baiwang were appointed as members of the remuneration and assessment committee of the Company (the "Remuneration and Assessment Committee"), and Mr. Zhou Ruijin as the chairman of the Remuneration and Assessment Committee. Based on the nomination by the Chairman of the Board of the Company, Mr. Cao Jianxiong was appointed as the President of the Company, and based on the nomination by the President of the Company and Mr. Luo Weide as the Chief Financial Officer of the Company. Based on the nomination by the Chairman of the Board of the Company, Mr. Luo Zhuping was appointed as the secretary to the Board of the Company. Ms. Liu Jiangbo was elected as the chairman of the supervisory committee of the Company

Directors and Executive Officers

Mr. Li Fenghua is the incumbent Chairman of our Board of Directors, president and deputy party secretary of CEA Holding. Mr. Li joined the civil aviation industry in 1968 and was deputy head, and subsequently became head, of the 26th Fleet of the CAAC from 1987 to 1992. From 1992 to 1996, Mr. Li served as vice-president, and then became president, of the Hubei branch of China Southern Airlines (Group). Since 1996, he became vice-president of China Southern Airlines (Group). In 2000, Mr. Li became party secretary and vice-president of China Southern Airlines Company Limited. From October 2002 to September 2004, he served as the President of our Company and vice-president of CEA Holding. In September 2004, he became president and deputy party secretary of CEA Holding. Mr. Li graduated from the China Civil Aviation Senior Aviation School and holds the title of First Class Pilot.

Mr. Li Jun is currently the Vice Chairman of the Board of the Company and the party secretary of CEA Holding. Mr. Li joined the civil aviation industry in 1972. Since 1977, Mr. Li served as officer in the Political Department and office secretary of CAAC. Mr. Li served as person-in charge of Policy Research Department in the Civil Aviation Bureau in 1984, deputy director of Policy Research Department in the Civil Aviation Bureau in 1986, deputy manager of Planning Department in CAAC in 1989, manager of Planning Department in CAAC in 1994, director of the General Office in CAAC in 1996, manager of Personnel Education Department in CAAC in 2000, and deputy head and party committee member of CAAC in 2001. Since 2006, Mr. Li has served as party secretary of CEA holding. Mr. Li graduated from the Party School of the Central Committee of the C.P.C. He holds a bachelor degree in Economic Management and is a qualified Economist.

Mr. Luo Chaogeng is currently an executive Director of our Company. Mr. Luo joined the civil aviation industry in 1970. Mr. Luo was a flight mechanic of the instructing team of the Lanzhou Civil Aviation Administration Bureau

from August 1970 to August 1972. From August 1972 to March 1989, he was the flight mechanic of the 8th Civil Aviation Flight Team. From March 1989 to August 1994, he was the deputy commissar, commissar and party secretary of the Xian Flight Team of China Northwest Airlines. From August 1994 to October 1997, he was the party secretary of the aircraft maintenance plant of China Northwest Airlines. From October 1996 to March 1997, he was the party secretary and deputy general manager of the aircraft maintenance base of China Northwest Airlines. From March 1996 to December 2000, he was the deputy director of the Civil Aviation Administration Bureau of China Northwest Airlines. From December 2000 to November 2001, Mr. Luo was the general manager of Yunnan Airlines and the director and deputy party secretary of Civil Aviation Administration Bureau of Yunnan. From November 2001 to September 2002, he was the general manager and deputy party secretary of Yunnan Airlines. From September 2002 to September 2004, he also served concurrently as the general manager of Yunnan Airlines. From September 2004 to the present, he has been the party constitution member and vice president of China Airlines Group Company, and from September 2004 to October 2006, he served as president and deputy party secretary of China Airlines Corporation Limited. From September 1998 to June 2001, Mr. Luo studied a postgraduate course for incumbent leading cadres in professional economics and management at the Central Party School of Shaanxi. Mr. Luo has obtained first class competency in flight mechanics.

Mr. Cao Jianxiong is currently an executive Director of our Company. Mr. Cao joined the civil aviation industry in 1982. From 1992, he served as president of Shanghai Eastern Airlines Development Company and in 1994 he became president of Eastern Airlines Futures Brokerage Company. In early 1996 he served as assistant President of our Company. From 1997, he served as Vice President and Chief Financial Officer of our Company. Since December 1999, he has served as vice president of EA Group. Since October 2002, he served as vice president of CEA Holding, and he also was the party secretary of China Eastern Air Northwest Company from December 2002 to September 2004. Since October 2006, he has served as President of our Company. Mr. Cao graduated from the Civil Aviation Management Institute with a major in labor economics. Mr. Cao also received a Master's degree in global economics from Eastern China Normal University's Department of International Finance. Mr. Cao holds the title of Economist.

Mr. Luo Zhuping is an executive Director of our Company, the secretary of our Board of Directors and the head of the secretariat of our Board of Directors. Mr. Luo joined CEA in 1988. He was deputy chief and then chief of the enterprise management department of China Eastern Airlines from 1992 to 1997. He was deputy head of the share system office from 1993 to 1996. In 1997, he became the secretary of our Board of Directors and the head of the secretariat of our Board of Directors. He became a Director of our Company in June 2004. Mr. Luo graduated from the Faculty of Philosophy and the Faculty of Law of Anhui University in 1979 and 1985, respectively. In 1994, Mr. Luo received a Master's degree from the Economics Department of Eastern China Normal University, majoring in global economics. In 1998, he participated in the training program for senior managers of large state-owned enterprises organized in the U.S.A. by the State Economic and Trade Commission and Morgan Stanley.

Mr. Hu Honggao has served as an independent non-executive Director of our Company since 1996. He is the vice-dean and professor of law at Fudan University School of Law as well as the head of the Civil and Commercial Law Research Centre of Fudan University, supervising doctoral students majoring in civil and commercial law at Fudan University. He is also a senior lawyer at the Shanghai Shen Yang Law Office. Mr. Hu is a managing director of China Commercial Law Research Society, a managing director of China Economic Law Research Society, a member of the Legislative Consultation Committee of the Shanghai Municipal Government, a member of the Legislative Profession Consultation Committee of the Shanghai Standing Committee of the People's Congress, vice-chairman of the Shanghai Economic Law Research Society and an arbitrator of the Shanghai Arbitration Committee.

Mr. Peter Lok has been an independent non-executive Director of our Company since 1998. Mr. Lok went to the College of Air Traffic Control in England for further studies after joining the Hong Kong Civil Aviation Department in December 1956. He studied air transport, air accident investigation and administration and management of civil aviation in England from 1968 to 1973. In 1982, he became assistant director of the Hong Kong Civil Aviation Department. From 1985, during his time in office at the air services division of the Hong Kong Civil Aviation Department, he participated in negotiations with various countries regarding air traffic rights. He became deputy director in 1988, and subsequently became director in 1990 of the Hong Kong Civil Aviation Department. Mr. Lok retired in 1996 and has served as a consultant at the Flights Standards Department of the CAAC. Mr. Lok is the first Chinese director of the Hong Kong Civil Aviation Department and was at one time an instructor of the College of Air Traffic Control of Hong Kong.

Mr. Wu Baiwang has served as an independent non-executive Director of our Company since 1998. Mr. Wu joined the civil aviation industry in 1959 and was deputy fleet leader and subsequently became fleet leader of the 12th Fleet of the CAAC from 1976 to 1984. From 1984 to 1992, Mr. Wu was deputy head and subsequently became head of the CAAC Jilin Bureau. From 1992 to 1995, Mr. Wu was head and party secretary of the CAAC Northeastern Bureau. From September 1995 to 1998, he became president of China General Aviation Corporation. He was the party secretary and vice-president of Guangzhou Baiyun International Airport Group Company and the Chairman of the board of directors of Guangzhou Baiyun International Airport Company Limited from 1998 to September 2003. Mr. Wu graduated from Chinese Civil Aviation School in 1965 and holds the title of First Class Pilot.

Mr. Zhou Ruijin has served as an independent non-executive Director of our Company since 2000. Mr. Zhou was deputy editor-in-chief and the East China regional director of the People's Daily. From 1988 to 1993, Mr. Zhou was party secretary and deputy editor-in-chief of the Liberation Daily. From April 1993 to 1996 he was deputy editor-in-chief of the People's Daily and from 1996 to 2000 he was deputy editor-in-chief and the East China regional director of the People's Daily. After he retired, he became vice-chairman of the China Productivity Council and Chairman of the Shanghai Productivity Council. Mr. Zhou graduated from the journalism department of Fudan University in 1962.

Mr. Xie Rong has served as an independent non-executive Director of our Company since 2003. Mr. Xie is a certified accountant in the People's Republic of China and the deputy head of Shanghai National Accounting Institute. He taught at the faculty of accounting of Shanghai University of Finance and Economics from December 1985 to March 1997, and had been an assistant professor, a professor, a doctorate-tutor and the deputy dean of the faculty. Mr. Xie was a partner of KPMG Huazhen from December 1997 to October 2002, and has been the deputy head of Shanghai National Accounting Institute since October 2002. Mr. Xie graduated from Shanghai University of Finance and Economics and has a doctorate degree in Economics.

Mr. Zhang Jianzhong has served as a Vice President of our Company since June 2004. Mr. Zhang joined the civil aviation industry in 1982. From April 1982 to December 1987, he was an assistant of the Shanghai Civil Aviation Planning Bureau. From December 1987 to April 1990, he was the deputy director of the planning department of Shanghai Hongqiao Airport. From April 1990 to January 1996, he was the director of the planning department of China Eastern Airlines. From January 1996 to April 1999, he was the manager of the sales and marketing department of our Company. From April 1999 to April 2003, he was the Assistant to the President of our Company. From September 2000 to December 2001, he served concurrently as the director of the office of strategic study of our Company. From December 2001 to May 2003, he served concurrently as the general manager of the computer information centre of our Company. From April 2003 to June 2004, he was the chief economic official of our Company. From May 2003 to June 2004, he served concurrently as the general manager of the sales and marketing department of our Company. Mr. Zhang graduated from the Faculty of Mechanical Engineering of Zhejiang University and Professional Study in Economics and Management at Fudan University, where he obtained his master's degree.

Mr. Li Yangmin has served as a Vice President and deputy general manager of our Company since October 2005. Mr. Li joined the civil aviation industry in 1985. From July 1985 to October 1996, he was the deputy head of the aircraft maintenance workshop, head of technology office and secretary of the workshop branch of Northwest Company. From October 1996 to June 2002, he was the deputy general manager of the aircraft maintenance base and the manager of air route department of Northwest Company. From June 2002 to March 2004, he was the general manager of the aircraft maintenance base of China Eastern Air Northwest Company. From March 2004 to October 2005, he was the vice president and a member of the standing committee to the party committee of China Eastern Air Northwest Company. Mr. Li graduated from China Civil Aviation Academy. He is a qualified senior engineer.

Mr. Fan Ru has served as Vice President of our Company since November 2006. Mr. Fan started his civil aviation career in 1966. He was a deputy fleet leader of China Eastern Airlines' Shanghai Fleet since 1988 and was the head of aviation technology management office of China Eastern Airlines since 1995. He was appointed as the deputy chief pilot and the head of aviation technology management office of the Company in 1997. He was the chief pilot of our Company from 1999 to November 2006. Mr. Fan graduated from Advanced Aviation School for professional flying. He has received tertiary education and has obtained first class technical qualifications for pilots.

Mr. Luo Weide has served as Chief Financial Officer of our Company since 2000. In 1976 Mr. Luo began his military service at the Air Force in Liuan Airport. From 1979 to 1991 he successively served as department head and deputy head of the Putuo branch of the Shanghai Municipal Tax Bureau. From 1991 to 1993 he concurrently served as head of the finance bureau and the state asset bureau of Putuo District, Shanghai. From 1993 to 1998 he successively served

as deputy chief accountant, chief accountant and executive deputy president of Shanghai Jinqiao (Group) Co., Ltd. From 1998 to 2000, he was vice president of Shanghai Pudong Development (Group) Co., Ltd. and chairman of the board and president of Pudong Finance Company. Mr. Luo graduated from the Sino-European International Business School in 1999 with a Master's degree in business administration. He holds the titles of Senior Accountant and Senior Economist.

Supervisory Committee

As required by the PRC Company Law and our articles of association, our Company has a supervisory committee, or the Supervisory Committee, whose primary duty is the supervision of our senior management, including our Board of Directors, managers and senior officers. The Supervisory Committee consists of five supervisors.

Ms. Liu Jiangbo is currently the chairman of the supervisory committee of the Company (the "Supervisory Committee"), and a party member, vice president, and the head of disciplinary inspection group of CEA holding. Ms. Liu Jiangbo joined the civil aviation industry in 1979. Since then, Ms. Liu had been an officer in the Beijing Administrative Bureau of Civil Aviation of China and the deputy secretary of the committee of C.P.C. of the transportation business division. Ms. Liu served as secretary of the committee of the Communist Youth League of the National Civil Aviation in 1985, deputy director of the personnel department of the Traffic Control Bureau of the Aviation of China in 1987, supervisor to the Civil Aviation Administration of China appointed by the Supervisory Bureau of China in 1990, deputy director of the transportation division of CAAC in 1994, secretary of the committee of C.P.C. and vice president of Yunnan Airlines Corporation Limited in 2000, and the party member, vice president and head of the disciplinary examination committee of CEA holding in 2002. Ms. Liu graduated from the Graduate School of Chinese Academy of Social Sciences, majoring in business management of industrial economics, having the qualification of post-graduate and senior political work instructor.

Mr. Xu Zhao is currently a Supervisor of the Company, and the chief accountant of CEA holding. Mr. Xu joined the civil aviation industry in 2007. Mr. Xu served as engineer and accountant in Dongfeng Motor Group Company Limited in 1991 and 1997 respectively, Mr. Xu joined Shanghai Yanhua High Technology Limited Company as a manager in finance department in 2000, and joined Shaanxi Heavy Duty Automobile Co. Limited as a chief financial officer in 2002. Since January 2007, Mr. Xu has served as the chief accountant in CEA holding. Mr. Xu graduated from Chongxing University, majoring in moulding, and The Chinese University of Hong Kong, majoring in accounting, and holds a master degree. Mr. Xu is qualified as an engineer and an accountant, and is a certified public accountant in the PRC.

Ms. Wang Taoying, is currently a Supervisor, the assistant to the president, and the general manager of the auditing department of the Company. Ms. Wang joined the civil aviation industry in 1972, was the deputy director of the supervisory and auditing department and the deputy manager of the disciplinary committee office of China Eastern Airlines Company from March 1993 to August 1995. Ms. Wang was the head of the auditing department of China Eastern Airlines Company from August 1995 to March 1997, the supervisor in the first session of the Supervisory Committee from January 1995 to March 1998, the cabin service manager of the Company from March 1997 to April 1999, and the deputy general manager of security department in Pudong, Shanghai of the Company taking charge of the servicing safety in the production procedure from April 1999 to August 2000. Ms. Wang also acted as chief officer of the auditing department of the Company from August 2000 to August 2004. From August 2004 to August 2006, she served as the general manager of the auditing department of the Company and has been the assistant to the president of the Company and the general manager of the auditing department since August 2006. Ms. Wang graduated from the Shanghai Second Polytechnic University, majoring in sociopolitics, and holds a Master of Business Administration degree from the Open University of Macau.

Ms. Yang Jie has served as a supervisor of our Company since June 2001. Ms. Yang joined the civil aviation industry in 1992. From 1996 to 1998 she was electronic technology supervisor of the technology office and Communist Youth League secretary of the overhaul department at the aircraft maintenance base of our Company. From 1998 to September 2000 she was Communist Youth League deputy secretary of the aircraft maintenance base of our Company. She was the deputy secretary of our Company's Communist Youth League from September 2000 to July 2002, and the secretary of our Company's Communist Youth League from August 2002 to January 2003. Since January 2003, she has been the secretary of the Communist Youth League of CEA Holding, as well as the secretary of the Communist Youth League of our Company. Ms. Yang graduated with a major in aviation electronics from the

China Civil Aviation Academy and a major in Business Administration from Sunny Management Academy at Donghua University and she received a master degree in Business Administration. She is also a qualified engineer.

Mr. Liu Jiashun has served as a supervisor of our Company since June 2000. From 1993 to 1999 Mr. Liu was party secretary, deputy president and secretary of the disciplinary committee secretary of China Aviation Fuel Hainan Company, as well as chairman of the board and president of Hainan Nanyang Air Transport Co., Ltd. From 1997 to 1999 he was also in charge of fuel supply engineering at Haikou's Meilan Airport and served as director of Meilan Airport Co., Ltd. and vice chairman of the board and president of Meilan Industrial Co., Ltd. From 1999 to 2000 he was deputy party secretary of China Aviation Fuel East China Company and he is currently deputy party secretary and secretary of the disciplinary committee of the East China branch of China Aviation Fuel Company. Mr. Liu received post-graduate education and has qualifications as a political work instructor.

B. Compensation

The aggregate amount of cash compensation paid by us to our Directors, supervisors and the senior management during 2007 for services performed as Directors, supervisors and officers or employees of our Company was approximately RMB2,402,000. In addition, Directors and supervisors who are also officers or employees of our Company receive certain other in-kind benefits which are provided to all of our employees. Our Company does not have any bonus or profit sharing plan or any stock option plan.

Details of the emoluments paid to our Directors, supervisors and senior management are as follows:

Name and Principal Position	Salaries and allowances Bor RMB'000 RMI	ıus	Total RMB'000
Executive Directors			
Li Fenghua*	_	<u> </u>	
Luo Chaogeng*	_	_	_

Total 2,402 — 2,402

* Certain Directors of our Company received emoluments from CEA Holding, our parent company, part of which is in respect of their services to our Company and our subsidiaries. No apportionment has been made as it is impracticable to apportion this amount between their services to our Company and their services to CEA Holding.

During the year ended December 31, 2007, no Directors and supervisors waived their compensation.

C. Board Practices

All of our Directors and supervisors serve a term of three years or until such later date as their successors are elected or appointed. Directors and supervisors may serve consecutive terms. Two of the supervisors are employee representatives appointed by our employees, and the rest are appointed by the shareholders. The following table sets forth the number of years our Directors, executive officers and supervisors have held their positions and the expiration of their current term.

Name	Held Position Since	Expiration of Term
Li Fenghua	June 29, 2007	June 29, 2010
Li Jun	June 29,2007	June 29, 2010
Luo Chaogeng	June 29, 2007	June 29, 2010
Cao Jianxiong	June 29, 2007	June 29, 2010
Luo Zhuping	June 29, 2007	June 29, 2010
Hu Honggao	June 29, 2007	June 29, 2010
Peter Lok	June 29, 2007	June 29, 2010
Wu Baiwang	June 29, 2007	June 29, 2010
Zhou Ruijin	June 29, 2007	June 29, 2010
Xie Rong	June 29, 2007	June 29, 2010
Liu Jiangbo	June 29, 2007	June 29, 2010
Xu Zhao	June 29, 2007	June 29, 2010
Wang Taoying	June 29, 2007	June 29, 2010
Yang Jie	June 29, 2007	June 29, 2010
Liu Jiashun	June 29, 2007	June 29, 2010
Zhang Jianzhong	June 29, 2007	June 29, 2010
Li Yangmin	June 29, 2007	June 29, 2010
Fan Ru	June 29, 2007	June 29, 2010
Luo Weide	June 29, 2007	June 29, 2010

None of our Directors, supervisors or members of our senior management has entered into any agreement or reached any understanding with us requiring our Company to pay any benefits as a result of termination of their services.

Our Board of Directors established the audit committee in August 2000 in accordance with the listing rules of the Hong Kong Stock Exchange. On June 29, 2007, the fifth session of the Board of the Company held the first meeting for 2007 and elected Mr. Xie Rong, Mr. Hu Honggao and Mr. Zhou Ruijin as the members of the Audit Committee and appointed Mr. Xie Rong as the chairman of the Audit Committee. The audit committee is authorized to, among other things, examine our internal control system and review auditing procedures and financial reports with our auditors. Subject to the approval of the shareholders' meeting, the audit committee of our Company is also directly responsible for the appointment, compensation, retention and oversight of our external auditors, including resolving disagreements between management and the auditor regarding financial reporting. The external auditors report directly to the audit committee. The audit committee holds at least four meetings each year. The audit committee has established procedures for the receipt, retention and treatment of complaints received by our Company regarding accounting, internal controls or auditing matters, and procedures for the confidential, anonymous submission by employees of concerns regarding questionable accounting or auditing matters. The audit committee has the authority to engage independent counsel and other advisors, as it determines necessary, to carry out its duties. Our Company provides appropriate funding, as determined by the audit committee, for payment of compensation to the external auditors, advisors employed by the audit committee, if any, and ordinary administrative expenses of the audit committee that are necessary or appropriate in carrying out its duties.

On June 29, 2007, the fifth session of the Board of the Company held the first meeting for 2007 and appointed Mr. Zhou Ruijin, Mr. Luo Chaogeng and Mr. Wu Baiwang as the remuneration and assessment committee of the Company (the "Remuneration and Assessment Committee"), and Mr. Zhou Ruijin was elected as the chairman of the Remuneration and Assessment Committee. The remuneration and assessment committee is authorized to review the performance of our Directors, supervisors and management as well as determine their annual compensation level. The remuneration and assessment committee shall submit to our Board of Directors or shareholders' meeting for approval compensation plans and oversee the implementation of approved compensation plans. The remuneration and assessment committee may consult financial, legal or other outside professional firms in carrying out its duties. The remuneration and assessment committee shall meet once a year, within twenty days after the announcement of annual results.

D. Employees

Through arrangements with CEA Holding and others, we provide certain benefits to our employees, including housing, retirement benefits and hospital, maternity, disability and dependent medical care benefits. Our Company does not have any bonus or profit sharing plan or any stock option plan. See Notes 30 and 31 to our audited consolidated financial statements. Our employees are members of a labor association which represents employees with respect to labor disputes and certain other employee matters. We believe that we maintain good relations with our employees and with their labor association. The table below sets forth the number of our employees as of December 31, 2005, 2006 and 2007, respectively:

		As of December 31,			
	2005	2006	2007		
DU .	0.154	2.606	2.052		
Pilots	2,154	2,696	2,873		
Flight attendants	3,752	5,069	5,851		
Maintenance personal	4,480	5,595	6,043		
Sales and marketing	3,658	2,863	2,483		
Other	15,257	22,169	23,227		
Total	29,301	38,392	40,477		

E. Share Ownership

See Item 6.A and Item 6.B above.

Item 7. Major Shareholders and Related Party Transactions

A. Major Shareholders

The following table sets forth certain information regarding ownership of our capital stock as of December 31, 2007 by all persons who were known to us to be the beneficial owners of 5% or more of our capital stock:

Title of Class	Identity of Person or Group	Amount Owned	Percent of Class	Percent of Total Shares
Domestic Shares	CEA Holding	2,904,,000,000	88%	59.67%
	HKSCC Nominees			
H Shares	Limited ⁽¹⁾	1,544,484,799	98.57%	31.73%

(1) As custodian of the Depositary for American Depositary Shares representing H Shares.

CEA Holding has held 59.67% of our issued and outstanding capital stock since its establishment in October 2002, and neither it nor HKSCC Nominees Limited has any voting rights different from those of other shareholders. We are not aware of any arrangement which may at a subsequent date result in a change of control of our Company.

As of December 31, 2007 and June 18, 2008, there were 1,566,950,000 H Shares issued and outstanding. As of December 31, 2007 and June 18, 2008, there were, respectively, 55 and 52 registered holders of American depositary receipts evidencing 1,496,150 and 1,281,898 ADSs. Since certain of the ADSs are held by nominees, the above number may not be representative of the actual number of U.S. beneficial holders of ADSs or the number of ADSs

beneficially held by U.S. persons.

Our Company is currently a majority-owned subsidiary of CEA Holding. CEA Holding itself is a wholly state-owned enterprise under the administrative control of China State-owned Assets Supervision and Administration Commission, or SASAC. CEA Holding's shareholding in our Company is in the form of ordinary domestic shares, through which it, under the supervision of the SASAC, enjoys shareholders' rights and benefits on behalf of the PRC Government.

B. Related Party Transactions

Relationship with CEA Holding and Associated Companies

We enter into transactions from time to time with CEA Holding and its subsidiaries. For a description of such transactions, see Note 40 to our audited consolidated financial statements.

Related Business Transactions

As our Company and EA Group and its subsidiaries were a single group prior to the restructuring in 2002, certain arrangements among us have continued after the restructuring and the establishment of CEA Holding. Each of these arrangements is non-exclusive, although we do not currently intend to enter into any equivalent contracts with third parties.

Eastern Aviation Import and Export Corporation, or EAIEC, a 55% owned subsidiary of CEA Holding.

Our Company and EAIEC have entered into an import/export agency agreement dated May 12, 2005 to supersede our agreement dated January 7, 1997, regarding the import and export of aircraft-related accessories, machinery and equipment for a term of three years commencing from July 1, 1999. The agreement is subject to renewal. For the year ended December 31, 2007, the handling charges paid to EAIEC were approximately RMB35 million in total.

We have certain balances with EAIEC, which are unsecured, interest-free and have no fixed term of repayment. See Note 40(b) to our audited consolidated financial statements for more details.

On April 29, 2008, we entered into an agreement to renew our agreement dated May 12, 2005 regarding the import and export of aircraft-related accessories, machinery and equipment in substantially the same terms for an additional term of three years commencing from July 1, 2008.

Shanghai Eastern Aviation Advertising Service Co., Ltd., or Eastern Advertising, a 55% owned subsidiary of CEA Holding.

Our Company and Eastern Advertising have entered into an advertising service agreement dated May 12, 2005 to supersede our agreement dated December 30, 1996, regarding the provision of advertising services for a term of three years commencing from July 1, 2005. The agreement is subject to renewal. For the year ended December 31, 2007, the aggregate amount we paid to Eastern Advertising for advertising services was approximately RMB14 million.

On April 29, 2008, we entered into an agreement to renew our agreement dated May 12, 2005 regarding the provision of advertising services in substantially the same terms, for an additional term of three years commencing from July 1, 2008.

China Eastern Air Catering Investment Co., Ltd., or CEA Catering, a 55% subsidiary of CEA Holding. The remaining 45% is owned by our Company.

On May 12, 2005, our Company entered into certain catering service agreements with a number of subsidiaries of CEA Catering (including Shanghai Eastern Air Catering Co., Ltd.) regarding the provision of in-flight catering services (including the supply of in-flight meals and beverages, cutlery and tableware) and related storage and complementary services required in our Company's daily airline operations and civil aviation business. For the year ended December 31, 2007, the aggregate amount we paid to the subsidiaries of CEA Catering for the supply of in-flight meals and other services was approximately RMB331 million.

On April 29, 2008, we entered into a service agreement with CEA Catering in substantially the same terms to supercede our agreements dated May 12, 2005. The agreement, regarding the provision of in-flight catering services (including the supply of in-flight meals and beverages, cutlery and tableware) and related storage and complementary services required in our Company's daily airline operations and civil aviation business, is for a term of three years commencing from July 1, 2008.

Eastern Air Group Finance Co., Ltd., or Eastern Finance, which is 46.3% owned and controlled by CEA Holding and other subsidiaries of CEA Holding.

Our Company and Eastern Finance have entered into a financial services agreement dated May 12, 2005 to supersede our agreement with Eastern Finance dated January 8, 1997, regarding the provision of deposit services, loan and financing services and certain other financial services such as the provision of trust loans, financial guarantees and credit facilities and credit references for a term of three years commencing from July 1, 2005. The agreement is subject to renewal. Pursuant to this agreement, we may place deposits with, and obtain loans from, Eastern Finance. As of December 31, 2007, we had short-term deposits amounting to RMB408 million placed with Eastern Finance, which paid interest to us at 0.7% per annum. In addition, our Company had short-term loans of RMB260 million from Eastern Finance. During the year ended December 31, 2007, the weighted average interest rate on the loan was 5.3% per annum.

Pursuant to the financial services agreement, Eastern Finance shall deposit all moneys deposited by our Company under the agreement with commercial bank(s) in China, including, for example, Industrial and Commercial Bank of China, Bank of China, China Construction Bank, Bank of Agriculture and Bank of Communications. Eastern Finance has also undertaken under the financial services agreement that all outstanding loans it provides to CEA Holding and its subsidiaries (other than our Company) will not at any time and from time to time exceed the aggregate amount of its equity capital, surplus reserves and deposits received from other parties.

On April 29, 2008, we entered into a financial services agreement to renew our agreement dated May 12, 2005 regarding the provision of deposit services, loan and financing services and certain other financial services such as the provision of trust loans, financial guarantees and credit facilities and credit references, in substantially the same terms, for an additional term of three years commencing from July 1, 2008. The new financial services agreement is subject to approval by independent shareholders at our upcoming Annual General Meeting scheduled for June 30, 2008.

TravelSky Technology Ltd., which is 33% owned by CEA Holding.

We pay ticket reservation service charges to TravelSky, which is 33% owned by CEA Holding, in connection with our use of its computer reservation system. For the year ended December 31, 2007, we paid ticket reservation service charges to TravelSky of approximately RMB241 million.

Shanghai Eastern Aviation Equipment Manufacturing Corporation, or SEAEMC, a wholly-owned subsidiary of CEA Holding.

Our Company and SEAEMC have entered into a service agreement dated May 12, 2005 to supersede our agreement dated December 31, 1996 regarding the provision of comprehensive services in relation to maintenance, repair and overhaul of aircraft and aviation equipment, and procurement of related equipment and materials required in our Company's daily operations for a term of three years commencing from July 1, 2005. The agreement is subject to renewal. SEAEMC was established in 1996. SEAEMC's predecessor was Shanghai Civil Aviation Maintenance and Engineering Company. For the year ended December 31, 2006, we paid RMB11 million to SEAEMC for the purchase by our Company of certain aviation equipment from SEAEMC.

On April 29, 2008, we entered into a service agreement to renew our agreement dated May 12, 2005, in substantially the same terms. The agreement regarding the provision of comprehensive services in relation to maintenance, repair and overhaul of aircraft and aviation equipment, and procurement of related equipment and materials required in our Company's daily operations extends for an additional term of three years commencing from July 1, 2008.

Ticket Sales

On May 12, 2005, our Company entered into certain sales agency services agreements with several subsidiaries of CEA Holdings regarding the sales of our air tickets by such subsidiaries of CEA Holding as our sales agents and the provision of complementary services for a term of three years commencing from July 1, 2005. The agreement is subject to renewal. Under such agreements, the sales agents charge commissions at rates with reference to those prescribed by the CAAC and the International Aviation Transportation Association, as determined following arm's length negotiations. Such commissions are payable monthly in arrears. The parties will perform an annual review of the then prevailing commission rate before the 31st of December in each calendar year, and agree on any required adjustments to such commission rate in respect of the next calendar year. For the year ended December 31, 2007, the aggregate amount of commissions we paid to those sales agents for the sales agency services was approximately RMB9 million.

On April 29, 2008, we entered into certain sales agency service agreements to renew our agreements dated May 12, 2005 regarding the sales of our air tickets by certain subsidiaries of CEA Holding as our sales agents and the provision of complementary services, in substantially the same terms, for an additional term of three years commencing from July 1, 2008.

Property Leases

Our Company and EA Group had entered into an office lease agreement dated January 7, 1997 in respect of office premises located at 2550 Hongqiao Road, Shanghai, China. The lease term is one year and renewable by the parties, subject to mutual agreement with respect to rental terms. The total rental payment is approximately RMB158,342 per month. In addition, our Company and EA Group had entered into a staff dormitory lease agreement dated December 31, 1996, pursuant to which EA Group had agreed to enter into lease arrangements with our employees for dormitories in Shanghai, Anhui Province, Shandong Province and Jiangxi Province. The term of the lease and the rental payments are set in accordance with Chinese regulations and the rate prescribed by the Shanghai Municipal Government. CEA Holding has assumed EA Group's rights and liabilities under those lease agreements after its establishment.

On May 12, 2005, we entered into a property leasing agreement with CEA Holding, CEA Northwest and CEA Yunnan for a term of three years, subject to renewal of another three years. Pursuant to this property leasing agreement, we leased from CEA Holding, for our use in daily airlines and other business operations: (i) a maximum of altogether 33 land properties owned by CEA Holding through, and registered in the name of, CEA Northwest, covering an aggregate site area of approximately 692,539 square meters located primarily in Xi'an, Xianyang and Yongdeng, together with a total of 225 building properties and related construction, infrastructure and facilities occupying an aggregate floor area of approximately 269,148 square meters; and (ii) a maximum of altogether seven land properties owned by CEA Holding through, and registered in the name of, CEA Yunnan, covering an aggregate site area of approximately 420,768 square meters primarily located in Kunming, together with a total of 81 building properties and related construction, infrastructure and facilities occupying an aggregate floor area of approximately 457,722 square meters. Under the property leasing agreement, our Company shall pay annual rentals to CEA Holding. The rentals are payable half-yearly in advance, and are subject to review and adjustments provided that the adjustments shall not exceed the applicable inflation rates published by the relevant local PRC authorities. In 2007, we paid a rental of RMB55 million under this property leasing agreement.

On April 29, 2008, we entered into an agreement to renew the property leasing agreement dated May 12, 2005 for an additional term of three years commencing July 1, 2008. Pursuant to the agreement, we will renew our lease on all properties covered by the previous property leasing agreement entered into on May 12, 2005, except that where we previously leased 81 building properties and related construction, infrastructure and facilities, we will instead lease 77 building properties and related construction, infrastructure and facilities covering an aggregate floor area of

approximately 452,949 square meters. In addition, CEA Holding will be the only counterparty in the property leasing renewal agreement. Under the property leasing renewal agreement, our Company will pay annual rentals of approximately RMB55.14 million. The rental payments will be payable half-yearly in advance, and are subject to review and adjustments provided that the adjustments shall not exceed the applicable inflation rates published by the relevant local PRC authorities. The property leasing renewal agreement is subject to approval by independent shareholders at our upcoming Annual General Meeting scheduled for June 30, 2008.

Guarantee by CEA Holding

As of December 31, 2007, certain unsecured long-term bank loans of the Group with an aggregate amount of RMB1,008 million were guaranteed by CEA Holding (see Note 29 to our audited consolidated financial statements).

Subscription Agreement with CEA Holding

Our Company and CEA Holding entered into a subscription agreement on November 9, 2007 for CEA Holding to subscribe in cash for 1,100,418,000 new H Shares, which would represent approximately 23% of our existing H shares, for an aggregate consideration of HK\$4.2 million. The subscription agreement was part of a proposed investment by SIA and Temasek. See the section headed "Item 4. Information on the Company – History and Development of the Company".

Disposal of interests in China Eastern Air Investment Company Limited

On November 16, 2007, our Company, CEA Holding and East China Care System Co., Ltd. entered into an equity transfer agreement regarding our interests in China Eastern Air Investment Company Limited. Our Company agreed to dispose our entire interest of 98.8% in China Eastern Air Investment Company Limited for the consideration of RMB461.9 million, while East China Care System Co., Ltd. also agreed to dispose of its entire 1.2% interest in China Eastern Air Investment Company Limited for the consideration of RMB5.7 million.

C. Interests of Experts & Counsel

Not applicable.

Item 8. Financial Information

A. Consolidated Statements and Other Financial Information

Financial Statements

You should read "Item 18. Financial Statements" for information regarding our audited consolidated financial statements and other financial information.

Legal Proceedings

We are involved in routine litigation and other proceedings in the ordinary course of our business. We do not believe that any of these proceedings are likely to be material to our business operations, financial condition or results of operations. In 2005, the family members of certain victims in the aircraft accident (the aircraft was then owned and operated by China Eastern Air Yunnan Company), which occurred in Baotou city in the Inner Mongolia Autonomous Region on November 21, 2004, sued, among other defendants, our Company in a U.S. court for compensation, the amount of which has not been determined. As of December 31, 2006, we had filed a motion to contest the claim in the U.S. court because we expressly did not assume the legal liability of such incident in our acquisition of certain selected assets relating to the aviation business of CEA Yunnan. On July 5, 2007, pursuant to several conditions with which our Company has complied, the Superior Court of the State of California ordered the action stayed on the grounds of *forum non conveniens* for the purpose of permitting proceedings in the PRC. Moreover, the Superior Court scheduled and held a status conference on December 10, 2007, and intends to schedule subsequent status conferences every six months until the litigation in the PRC is resolved or until the Superior Court determines otherwise. On February 20, 2008, the plaintiff filed a motion with the Superior Court of the State of California to lift the stay. The motion was denied by the Superior Court on May 6, 2008. We believe, based on professional advice, that it is unlikely that there will be any material adverse effect on our financial position.

Save for the above-mentioned, we were not involved in any other new material litigation in the period of this report.

Dividends and Dividend Policy

For the fiscal year ended December 31, 2004, our shareholder's meeting approved the payment of a cash dividend of RMB0.02 per share. For the fiscal year ended December 31, 2005, our Board of Directors did not recommend any dividend payout. For the fiscal year ended December 31, 2006, our Board of Directors did not recommend any dividend payout due to our operating results in 2006. For the fiscal year ended December 31, 2007, our Board of Directors also did not recommend any dividend payout due to our total accumulated losses of RMB2,699 million in the year 2007. The balance of retained profits will be carried forward to next year. We will not convert funds from the common reserve to increase our share capital during this period. The declaration and payment of dividends for years following 2007 will depend upon our financial results, our shareholders' interests, general business conditions and strategies, our capital requirements, contractual restrictions on the payment of dividends by us to our shareholders, and other factors our Directors may deem relevant. Holders of our H Shares will receive the equivalent amount of cash dividend as that declared in Renminbi, if any, based on the foreign exchange conversion rate published by the People's Bank of China, or PBOC, on the date of the distribution of the cash dividend.

B. Significant Changes

Significant Post Financial Statements Events

The newly enacted Enterprise Income Tax Law, or EIT Law, became effective on January 1, 2008, and superseded the Income Tax Law for Foreign Invested Enterprises and Foreign Enterprises of the PRC and the Provisional Regulations

on Enterprise Income Tax of the PRC. The EIT Law imposes a uniform income tax rate of 25% for domestic enterprises and foreign invested enterprises. Therefore, while we were subject to a 33% income tax rate prior to January 1, 2008, we have been subject to a lower tax rate of 25% starting from January 1, 2008. Although the State Council of the PRC promulgated the implementing rules of the EIT Law in December 2007, a number of detailed implementing rules are still in the process of promulgation and we are currently unable to fully and accurately evaluate its impact on us.

Item 9. The Offer and Listing

A. Offer and Listing Details

The principal trading market for our H Shares is the Hong Kong Stock Exchange. The ADSs, each representing 100 H Shares, have been issued by The Bank of New York as the Depositary and are listed on the New York Stock Exchange. Prior to our initial public offering and subsequent listings on the New York Stock Exchange and the Hong Kong Stock Exchange on February 4 and 5, 1997, respectively, there was no market for our H Shares or ADSs. Our publicly traded domestic shares, or A shares, have been listed on the Shanghai Stock Exchange since November 5, 1997.

As of December 31, 2007 and June 18, 2008, there were 1,566,950,000 H Shares issued and outstanding. As of December 31, 2007 and June 18, 2008, there were, respectively, 55 and 52 registered holders of American depositary receipts evidencing 1,496,150 and 1,281,898 ADSs. Since certain of the ADSs are held by nominees, the above number may not be representative of the actual number of U.S. beneficial holders of ADSs or the number of ADSs beneficially held by U.S. persons. The depositary for the ADSs is The Bank of New York. A total of 3,300,000,000 domestic ordinary shares were also outstanding as of June 18, 2008.

The table below sets forth certain market information relating to our H Shares and ADSs in respect of the period from 2002 to June 18, 2008.

	Price Per H Share (HK\$)		Price Per ADS (US\$)	
	High	Low	High	Low
2003	1.39	0.88	18.33	9.60
2004	1.85	1.28	23.22	17.03
2005	1.70	0.95	22.48	12.52
2006	1.70	0.95	22.48	12.52
First Quarter 2006	1.44	1.19	18.24	15.50
Second Quarter 2006	1.29	1.03	16.88	13.07
Third Quarter 2006	1.36	0.99	17.25	13.00
Fourth Quarter 2006	1.73	1.30	22.54	16.91

Not applicable.

F. Expenses of the Issue

Not applicable.

Item 10. Additional Information

A. Share Capital

Not applicable.

B. Memorandum and Articles of Association

The following is a brief summary of certain provisions of our Articles of Association, as amended. Such summary does not purport to be complete. For further information, you and your advisors should refer to the text of our Articles of Association, as amended, and to the texts of applicable laws and regulations.

A copy of the English translation of our Articles of Association, as amended on June 29, 2007, is attached as an exhibit to this Annual Report on Form 20-F. We also received shareholder approval at the January 9, 2008 extraordinary general meeting for proposed amendments to the Articles of Association that are conditional upon the completion of the Investor Subscription Agreement between SIA, Temasek and our Company and the completion of the CEA Holding Subscription Agreement between CEA Holding and our Company. As the completion of both the Investor Subscription Agreement between SIA, Temasek and our Company and the CEA Holding Subscription Agreement between CEA Holding and our Company has not yet occurred, we have not included the related proposed amendments in our current Articles of Association as they are not currently in effect.

Selected Summary of the Articles of Association

We are a joint stock limited company established in accordance with the "Company Law of the People's Republic of China" (the "Company Law"), the "State Council's Special Regulations Regarding the Issue of Shares Overseas and the Listing of Shares Overseas by Companies Limited by Share" (the "Special Regulations") and other relevant laws and regulations of the State. We were established by way of promotion with the approval under the document "Ti Gai Sheng" [1994] No.140 of the People's Republic of China's State Commission for Restructuring the Economic System.

We are registered with and have obtained a business license from China's State Administration Bureau of Industry and Commerce on April 14, 1995. Our business license number is: 10001767-8. We changed our registration with Shanghai Administration for Industry and Commerce on October 18, 2002. The number of our Company's business license is: Qi Gu Hu Zong Zi No. 032138.

We were incorporated in the People's Republic of China for the purpose of providing the public with safe, punctual, comfortable, fast and convenient air transport services and other ancillary services, to enhance the cost-effectiveness of the services and to protect the lawful rights and interests of shareholders.

Board of Directors

The Board of Directors shall consist of eleven (11) directors, who are to be elected at the shareholders' general meeting and will hold a term of office for three (3) years. At least one-third of the members of the Board of Directors shall be independent directors. The Directors are not required to hold shares of our Company.

Directors who are directly or indirectly materially interested in a contract, transaction or arrangement or proposed contract, transaction or arrangement with our Company (other than his contract of service with our Company) shall declare the nature and extent of his interests to the Board of Directors at the earliest opportunity, whether or not the contract, transaction or arrangement or proposal therefore is otherwise subject to the approval of the Board of Directors.

In accordance with our Articles, a director shall abstain from voting at a board meeting the purpose of which is to approve contracts, transactions or arrangements that such director or any of his or her associates (as defined in the relevant rules governing the listing of securities) has a material interest. Such director shall not be counted in the quorum for the relevant board meeting.

Unless the interested director discloses his interests in accordance with our Articles of Association and the contract, transaction or arrangement is approved by the Board of Directors at a meeting in which the interested director is not counted in the quorum and refrains from voting, a contract, transaction or arrangement in which that director is materially interested is voidable at the instance of our Company except as against a bona fide party thereto acting without notice of the breach of duty by the interested director. A director is also deemed to be interested in a contract, transaction or arrangement in which an associate of the director is interested.

Our Articles provide that our Company shall not in any manner pay taxes for or on behalf of a director or make directly or indirectly a loan to or provide any guarantee in connection with the making of a loan to a director of our Company or of our Company's holding company or any of their respective associates. However, the following transactions are not subject to such prohibition: (1) the provision by our Company of a loan or a guarantee of a loan to a company which is a subsidiary of our Company; (2) the provision by our Company of a loan or a guarantee in connection with the making of a loan or any other funds to any of its directors, administrative officers to meet expenditure incurred or to be incurred by him for the purposes of our Company or for the purpose of enabling him to perform his duties properly, in accordance with the terms of a service contract approved by the shareholders in general meeting; (3) our Company may make a loan to or provide a guarantee in connection with the making of a loan to any of the relevant directors or their respective associates in the ordinary course of its business on normal commercial terms, provided that the ordinary course of business of our Company includes the lending of money or the giving of guarantees.

Our Articles do not contain any requirements for (i) the directors' power to vote compensation to themselves or any members of their body, in the absence of an independent quorum or (ii) the directors to retire by a specified age.

Description of the Shares

As of December 31, 2007, our share capital structure was as follows: 4,866,950,000 ordinary shares, of which (a) 2,904,000,000 A shares were issued upon the establishment of the Company and all subscribed for by the promoter of the Company, which represent 59.7% of our share capital, were held by Eastern Air Group Company; (b) 1,566,950,000 H shares, which represent 32.2% of our share capital, were issued to and purchased by foreign investors in an initial public offering; and (c) 396,000,000 A shares, which represent 8.1% of our share capital, were issued to investors in China.

Our ordinary shareholders shall enjoy the following rights:

- (i) the right to dividends and other distributions in proportion to the number of shares held;
- (ii) the right to attend or appoint a proxy to attend Shareholders' general meetings and to vote thereat;
- (iii) the right of supervisory management over the Company's business operations, and the right to present proposals or enquiries;
- (iv) the right to transfer shares in accordance with laws, administrative regulations and provisions of these Articles of Association:
- (v) the right to obtain relevant information in accordance with the provisions of these Articles of Association, including:
- (1) the right to obtain a copy of these Articles of Association, subject to payment of the cost of such copy;
- (2) the right to inspect and copy, subject to payment of a reasonable charge;
- (a) all parts of the register of shareholders;
- (b) personal particulars of each of the Company's directors, supervisors, general manager, deputy general managers and other senior administrative officers, including:
- (aa) present name and alias and any former name or alias;
- (bb) principal address (residence);
- (cc) nationality;
- (dd) primary and all other part-time occupations and duties;
- (ee) identification documents and their relevant numbers;
- (c) state of the Company's share capital;
- (d) reports showing the aggregate par value, quantity, highest and lowest price paid in respect of each class of shares repurchased by the Company since the end of the last accounting year and the aggregate amount paid by the Company for this purpose;
- (e) minutes of Shareholders' general meetings and the accountant's report,

- (vi)in the event of the termination or liquidation of the Company, to participate in the distribution of surplus assets of the Company in accordance with the number of shares held;
 - (vii) other rights conferred by laws, administrative regulations and these Articles of Association.

A shareholder (including a proxy), when voting at a Shareholders' general meeting, may exercise such voting rights in accordance with the number of shares carrying the right to vote and each share shall have one vote. Resolutions of shareholders' general meetings shall be divided into ordinary resolutions and special resolutions. To adopt an ordinary resolution, votes representing more than one half of the voting rights represented by the shareholders (including proxies) present at the meeting must be exercised in favor of the resolution in order for it to be passed. To adopt a special resolution, votes representing more than two-thirds of the voting rights represented by the shareholders (including proxies) present at the meeting must be exercised in favor of the resolution in order for it to be passed. Our ordinary shareholders are entitled to the right to dividends and other distributions in proportion to the number of shares held, and they are not liable for making any further contribution to the share capital other than as agreed by the subscriber of the relevant shares on subscription. Our Articles provide that a controlling shareholder (as defined in the Articles) shall not approve certain matters which will be prejudicial to the interests of all or some of other shareholders by exercising his/her voting rights.

The Listing Agreement between us and the Hong Kong Stock Exchange further provides that we may not permit amendments to certain sections of the Articles of Association subject to the Mandatory Provisions for the Articles of Association of Companies Listed Overseas promulgated by the State Council Securities Commission and the State Restructuring Commission on August 27, 1994 (the "Mandatory Provisions"). These sections include provisions relating to (i) varying the rights of existing classes of shares; (ii) voting rights; (iii) our power to purchase our own shares; (iv) rights of minority shareholders; and (v) procedures upon liquidation. In addition, certain amendments to the Articles of Association require the approval and assent of relevant PRC authorities.

Shareholders' Meetings

Shareholders' general meetings are divided into annual general meetings and extraordinary general meetings. Shareholders' general meetings shall be convened by the Board of Directors. Annual general meetings are held once every year and within six (6) months from the end of the preceding financial year. The Board of Directors shall convene an extraordinary general meeting within two (2) months of the occurrence of any one of the following events:

- (i) where the number of Directors is less than the number of Directors required by the Company Law or two-thirds of the number of Directors specified in these Articles of Association;
 - (ii) where the unrecovered losses of the Company amount to one-third of the total amount of its share capital;
- (iii) where shareholder(s) holding 10 per cent or more of the Company's issued and outstanding shares carrying voting rights request(s) in writing the convening of an extraordinary general meeting;
 - (iv) when deemed necessary by the Board of Directors or as requested by the supervisory committee.

When we convene a shareholders' general meeting, written notice of the meeting shall be given forty five (45) days before the date of the meeting to notify all of the shareholders in the share register of the matters to be considered and the date and place of the meeting. A shareholder who intends to attend the meeting shall deliver his written reply concerning the attendance of the meeting to us twenty (20) days before the date of the meeting. When we convene a shareholders' annual general meeting, shareholders holding 5 per cent or more of the total voting shares of the Company shall have the right to propose new motions in writing, and we shall place those matters in the proposed motions within the scope of functions and powers of the Shareholders' general meeting on the agenda.

Shareholders' Rights

Set forth below is certain information relating to the H Shares, including a brief summary of certain provisions of the Articles, and selected laws and regulations applicable to us.

Sources of Shareholders' Rights

The rights and obligations of holders of H Shares and other provisions relating to shareholder protection are principally provided in the Articles of Association and the PRC Company Law. The Articles of Association incorporate mandatory provisions in accordance with the Mandatory Provisions. We are further subject to management ordinances applicable to the listed companies in Hong Kong SAR and the United States, as our H Shares are listed on the Hong Kong Stock Exchange and the New York Stock Exchange (in the form of ADSs).

In addition, for so long as the H Shares are listed on The Hong Kong Stock Exchange, we are subject to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "HKSE Rules"), the Securities and Futures Ordinance of Hong Kong (the "SFO") and the Hong Kong Code on Takeovers and Mergers and Share Repurchases.

Unless otherwise specified, all rights, obligations and protections discussed below derived from the Articles of Association, the PRC Company Law and abovementioned laws and regulations.

Significant Differences in the H Shares and A Shares

Holders of H Shares and A Shares, with minor exceptions, are entitled to the same economic and voting rights. The Articles of Association provide that dividends or other payments payable to H Share holders shall be declared and calculated in Renminbi and paid in Renminbi, while those to A Share holders shall be declared and calculated in Renminbi and paid in the local currency at the place where such A Shares are listed (if there is more than one place of listing, then the principal place of listing as determined by the Board of Directors). In addition, the H Shares can only be traded by investors of Taiwan, Hong Kong, Macau and any country other than the PRC, while A Shares may be traded only by investors within the territory of the PRC.

Restrictions on Transferability and the Share Register

H Shares may be traded only among investors who are not PRC persons, and may not be sold to PRC investors. There are no restrictions on the ability of investors who are not PRC residents to hold H Shares.

Pursuant to the Articles of Association, we may refuse to register a transfer of H Shares unless

- (1)a fee (for each instrument of transfer) of two dollars and fifty cents Hong Kong dollars or any higher fee as agreed by the Stock Exchange has been paid to us for registration of any transfer or any other document which is related to or will affect ownership of or change of ownership of the shares;
 - (2) the instrument of transfer only involves H Shares;
 - (3) the stamp duty chargeable on the instrument of transfer has been paid;
- (4) the relevant share certificate and upon the reasonable request of the Board of Directors any evidence in relation to the right of the transferor to transfer the shares have been submitted;

(5)

if it is intended to transfer the shares to joint owners, then the maximum number of joint owners shall not exceed four (4);

(6) we do not have any lien on the relevant shares.

If we refuse to register any transfer of shares, we shall within two months of the formal application for the transfer provide the transferor and the transferee with a notice of refusal to register such transfer. No changes in the shareholders' register due to the transfer of shares may be made within thirty (30) days before the date of a Shareholders' general meeting or within five (5) days before the record date established for the purpose of distributing a dividend.

Merger and Acquisitions

In the event of the merger or division of our Company, a plan shall be presented by our Board of Directors and shall be approved in accordance with the procedures stipulated in our Articles of Association and then the relevant examining and approving formalities shall be processed as required by law. A shareholder who objects to the plan of merger or division shall have the right to demand that we or the shareholders who consent to the plan of merger or division acquire such dissenting shareholders' shareholding at a fair price. The contents of the resolution of merger or division of our Company shall be made into special documents for shareholders' inspection.

Repurchase of Shares

We may, with approval according to the procedures provided in these Articles of Association and subject to the approval of the relevant governing authority of the State, repurchase its issued shares under the following circumstances:

- (i) cancellation of shares for the reduction of its capital;
- (ii) merging with another company that holds shares in our Company;
- (iii) other circumstances permitted by relevant laws and administrative regulations.

We shall not repurchase its issued shares except under the circumstances stated above.

We may, with the approval of the relevant State governing authority for repurchasing its shares, conduct the repurchase in one of the following ways:

- (i) making a pro rata general offer of repurchase to all our shareholders;
- (ii) repurchasing shares through public dealing on a stock exchange;
- (iii) repurchase by an off-market agreement outside a stock exchange.

Interested Shareholders

Articles 88 and 89 of our Articles of Associations provide the following:

Article 88:

The following circumstances shall be deemed to be a variation or abrogation of the class rights of a class:

- (i) to increase or decrease the number of shares of such class, or increase or decrease the number of shares of a class having voting or equity rights or privileges equal or superior to those of the shares of that class;
- (ii) to effect an exchange of all or part of the shares of such class into shares of another class or to effect an exchange or create a right of exchange of all or part of the shares of another class into the shares of such class;
- (iii) to remove or reduce rights to accrued dividends or rights to cumulative dividends attached to shares of such class;
- (iv) to reduce or remove a dividend preference or a liquidation preference attached to shares of such class;

- (v) to add, remove or reduce conversion privileges, options, voting rights, transfer or pre-emptive rights, or rights to acquire securities of the Company attached to shares of such class;
- (vi) to remove or reduce rights to receive payment payable by the Company in particular currencies attached to shares of such class;
- (vii) to create a new class of shares having voting or equity rights or privileges equal or superior to those of the shares of such class;
- (viii) to restrict the transfer or ownership of the shares of such class or add to such restrictions;

- (ix) to allot and issue rights to subscribe for, or convert into, shares in the Company of such class or another class;
- (x) to increase the rights or privileges of shares of another class;
- (xi) to restructure the Company where the proposed restructuring will result in different classes of shareholders bearing a disproportionate burden of such proposed restructuring;
- (xii) to vary or abrogate the provisions of this Chapter.

Article 89:

Shareholders of the affected class, whether or not otherwise having the right to vote at Shareholders' general meetings, shall nevertheless have the right to vote at class meetings in respect of matters concerning sub-paragraphs (2) to (8), (11) and (12) of Article 88, but interested shareholder(s) shall not be entitled to vote at class meetings.

The meaning of "interested shareholder(s)" as mentioned in the preceding paragraph is:

- (i) in the case of a repurchase of shares by offers to all shareholders or public dealing on a stock exchange under Article 30, a "controlling shareholder" within the meaning of Article 33;
- (ii) in the case of a repurchase of shares by an off-market contract under Article 30, a holder of the shares to which the proposed contract relates;
- (iii) in the case of a restructuring of the Company, a shareholder within a class who bears less than a proportionate obligation imposed on that class under the proposed restructuring or who has an interest in the proposed restructuring different from the interest of shareholders of that class.

Ownership Threshold

There are no ownership thresholds above which shareholder ownership is required to be disclosed.

Changes in Capital

Article 78(1) provides that any increase or reduction in share capital shall be resolved by a special resolution at a shareholders' general meeting.

Changes in Registered Capital

The Company may reduce its registered share capital. It shall do so in accordance with the Company Law, any other relevant regulatory provisions and these Articles of Association.

Recent Amendments to the Articles of Association

On June 29, 2007, our shareholders approved an amendment to Article 21 of the Articles of Association. The Articles were amended by adding the following new paragraph after the first paragraph of Article 21:

"On 18th December, 2006, the share reform plan of the Company was approved in the relevant shareholders' meeting of the A share market. Upon the implementation of the share reform, the total share capital of the Company remained unchanged and still comprised 4,866,950,000 shares, of which 2,904,000,000 A shares, representing 59.67% of the total share capital of the Company, were held by China Eastern Air Holding Company. The 1,566,950,000 shares,

representing 32.20% of the total share capital of the Company, were overseas listed H shares, and the 396,000,000 shares, representing 8.13% of the total share capital of the Company, were domestic listed A shares."

C. Material Contracts

For a summary of any material contracts entered into by our Company or any of its consolidated subsidiaries outside of the ordinary course of business during the last two years, see "Item 4. Information on the Company", "Item 5. Operating and Financial Review and Prospects" and "Item 7. Major Shareholders and Related Party Transactions".

In addition, we entered into the following agreements to purchase aircraft, which are filed with this Annual Report as exhibits:

- •an amendment to an aircraft purchase agreement, dated as of April 21, 2005, between our Company and Airbus SAS regarding the purchase of 15 Airbus A320 series aircraft;
 - an aircraft purchase agreement, dated as of August 8, 2005, between our Company and The Boeing Company regarding the purchase of 15 Boeing 787 aircraft (with engines);
- •an aircraft purchase agreement, dated as of December 20, 2005, as amended by a supplemental agreement dated as of April 10, 2006, between our Company and The Boeing Company regarding the purchase of 20 Boeing 737 NG series aircraft (with engines);
 - an amendment to an aircraft purchase agreement, dated as of June 26, 2006, between our Company and Airbus SAS regarding the purchase of 30 Airbus A320 aircraft (with engines); and
- •an aircraft purchase agreement, dated January 30, 2008, between our Company and Boeing regarding the purchase of 30 737 NG aircraft (with engines).

D. Exchange Controls

The Renminbi is not currently a freely convertible currency. SAFE, under the authority of PBOC, controls the conversion of Renminbi into foreign currency. Prior to January 1, 1994, Renminbi could be converted to foreign currency through the Bank of China or other authorized institutions at official rates fixed daily by SAFE. Renminbi could also be converted at swap centers open to Chinese enterprises and foreign invested enterprises, or FIEs, subject to SAFE approval of each foreign currency trade, at exchange rates negotiated by the parties for each transaction. Effective January 1, 1994, a unitary exchange rate system was introduced in China, replacing the dual-rate system previously in effect. In connection with the creation of a unitary exchange rate, the PRC Government announced the establishment of an inter-bank foreign exchange market, the China Foreign Exchange Trading System, or CFETS, and the phasing out of the swap centers. Effective December 1, 1998, the swap centers were abolished by the PRC Government.

On July 21, 2005, the PRC Government changed its decade-old policy of pegging the value of the Renminbi to the U.S. dollar. Under the new policy, the Renminbi is permitted to fluctuate within a narrow and managed band against a basket of certain foreign currencies. This change in policy has resulted in a significant appreciation of the Renminbi against the U.S. dollar. While the international reaction to Renminbi revaluation has generally been positive, there remains significant international pressure on the PRC Government to adopt an even more flexible currency policy, which could result in a further and more significant appreciation of Renminbi against the U.S. dollar.

In general, under existing foreign exchange regulations, domestic enterprises operating in China must price and sell their goods and services in China in Renminbi. Any foreign exchange received by such enterprises must be sold to authorized foreign exchange banks in China. A significant portion of our revenue and operating expenses are denominated in Renminbi, while a portion of our revenue, capital expenditures and debts are denominated in U.S. dollars and other foreign currencies. Renminbi is currently freely convertible under the current account, which

includes dividends, trade and service-related foreign currency transactions, but not under the capital account, which includes foreign direct investment, unless the prior approval of the SAFE, is obtained. As a foreign investment enterprise approved by the MOC, we can purchase foreign currency without the approval of SAFE for settlement of current account transactions, including payment of dividends, by providing commercial documents evidencing these transactions. We can also retain foreign exchange in our current accounts, subject to a maximum amount approved by SAFE, to satisfy foreign currency liabilities or to pay dividends. However, the relevant PRC Government authorities may limit or eliminate our ability to purchase and retain foreign currencies in the future. Foreign currency transactions under the capital account are still subject to limitations and require approvals from SAFE. This may affect our ability to obtain foreign exchange through debt or equity financing, including by means of loans or capital contributions. We cannot assure you that we will be able to obtain sufficient foreign exchange to pay dividends or satisfy our foreign exchange liabilities.

E. Taxation

The taxation of income and capital gains of holders of H Shares or ADSs is subject to the laws and practices of China and of jurisdictions in which holders of H Shares or ADSs are resident or otherwise subject to tax. The following summary of certain relevant taxation provisions is based on current law and practice, is subject to change and does not constitute legal or tax advice. The discussion does not deal with all possible tax consequences relating to an investment in the H Shares or ADSs. In particular, the discussion does not address the tax consequences under state, local and other laws, such as non-U.S. federal laws. Accordingly, you should consult your own tax adviser regarding the tax consequences of an investment in the H Shares and ADSs. The discussion is based upon laws and relevant interpretations in effect as of the date of this Annual Report, all of which are subject to change.

Taxation — Hong Kong

The following discussion summarizes the material Hong Kong tax provisions relating to the ownership of H shares or ADSs purchased in connection with the global offering and held by you.

Dividends

Under current Hong Kong Inland Revenue Department practice, no Hong Kong tax is payable by the recipient in respect of dividends paid by us.

Taxation of Capital Gains

No Hong Kong tax is imposed on capital gains arising from the sale of property (such as H shares) acquired and held as investment assets. However, if a person carries on a trade, profession or business in Hong Kong (e.g., trading and dealing in securities) and derives trading gains from that trade, profession or business in or from Hong Kong, Hong Kong profits tax will be payable. Gains from sales of H shares effected on or off the Hong Kong Stock Exchange are considered to derive from or arise in Hong Kong for this purpose. Hong Kong profits tax is currently charged at the rate of 16.5% for corporations and at the rate of 15% for individuals.

No Hong Kong tax liability will arise on capital or trading gains arising from the sale of ADSs where the purchase and sale is effected outside Hong Kong, e.g. on the NYSE.

Hong Kong Stamp Duty

Hong Kong stamp duty is payable by each of the seller and the purchaser for every sold note and every bought note created for every sale and purchase of the H shares. Stamp duty is charged at the total rate of 0.2% of the value of the H shares transferred (the buyer and seller each paying 0.1% of such stamp duty). In addition, a fixed duty of HK\$5 is currently payable on an instrument of transfer of H shares. If one of the parties to a sale is a non-resident of Hong Kong and does not pay the required stamp duty, the stamp duty not paid will be assessed on the instrument of transfer (if any), and the transferee will be liable for payment of such stamp duty.

If the withdrawal of H shares when ADSs are surrendered or the issuance of ADSs when H shares are deposited results in a change of beneficial ownership in the H shares under Hong Kong law, Hong Kong stamp duty at the rate described above for sale and purchase transaction will apply. The issuance of ADSs for deposited H shares issued directly to the depositary or for the account of the depositary should not lead to a Hong Kong stamp duty liability. Holders of the ADSs are not liable for the Hong Kong stamp duty on transfers of ADSs outside of Hong Kong so long as the transfers do not result in a change of beneficial interest in the H shares under Hong Kong law.

Hong Kong Estate Duty

Hong Kong estate duty was abolished with respect to persons passing away on or after February 11, 2006.

Taxation — China

The following is a general summary of certain Chinese tax consequences of the acquisition, ownership and disposition of the H Shares and ADSs. This summary does not purport to address all material tax consequences of the ownership of Shares or ADSs, and does not take into account the specific circumstances of any particular investors. This summary is based on the tax laws of China as in effect on the date of this Annual Report, as well as on the U.S.-China Treaty, all of which are subject to change (or changes in interpretation), possibly with retroactive effect.

In general, and taking into account the earlier assumptions, for Chinese tax purposes, holders of ADRs evidencing ADSs will be treated as the owners of the H Shares represented by those ADSs, and exchanges of H Shares for ADSs, and ADSs for H Shares, will not be subject to Chinese tax.

Taxation of Dividends by China

Individual Investors

The Provisional Regulations of China Concerning Questions of Taxation on Enterprises Experimenting with the Share System, or the Provisional Regulations, provide that dividends from Chinese companies are ordinarily subject to a Chinese withholding tax levied at a flat rate of 20%. However, the Chinese State Tax Bureau issued, on July 21, 1993, a Notice Concerning the Taxation of Gains on Transfer and Dividends from Shares (Equities) Received by Foreign Investment Enterprises, Foreign Enterprises and Foreign Individuals, or the Tax Notice, which provides that dividends from a Chinese company on shares listed on an overseas stock exchange, or Overseas Shares, such as H Shares (including H Shares represented by ADSs), would not be subject to Chinese withholding tax. The relevant tax authority has not collected withholding tax on dividend payments on Overseas Shares.

Amendments to the individual Income Tax Law of the PRC, or the Amendments, were promulgated on October 31, 1993 and became effective on January 1, 1994. The Amendments provide that any provisions of prior administrative regulations concerning individual income tax which contradict the Amendments are superseded by the Amendments. The Amendments and the amended Individual Income Tax Law can be interpreted to mean that foreign individuals are subject to a withholding tax on dividends received from a Chinese company at a rate of 20% unless such income is specifically exempted from individual income tax by the financial authority of the State Council. However, in a letter dated July 26, 1994 to the State Commission for Restructuring the Economic System, the State Securities Commission and the China Securities Regulatory Commission, the State Tax Bureau confirmed the temporary tax exemption set forth in the Tax Notice for dividends received from a Chinese company listed overseas. In the event this letter is withdrawn, a 20% tax may be withheld on dividends in accordance with the Provisional Regulations, the Amendments, and the Individual Income Tax law of China. Such withholding tax may be reduced pursuant to an applicable double taxation treaty.

Enterprises

Under the newly enacted PRC Enterprise Income Tax Law, or the EIT Law, and the implementation regulations to the EIT Law, effective January 1, 2008, PRC income tax at the rate of 10% is applicable to dividends payable to investors that are "non-resident enterprises", which do not have an establishment or place of business in the PRC, or which have such establishment or place of business but the relevant income is not effectively connected with the establishment or place of business. The rate could be reduced or eliminated pursuant to an applicable double taxation treaty.

Tax Treaties

Non-Chinese investors resident in countries which have entered into double-taxation treaties with China may be entitled to a reduction of the withholding tax imposed on the payment of dividends to non-Chinese investors of our Company. China currently has double-taxation treaties with a number of other countries, including Australia, Canada, France, Germany, Japan, Malaysia, the Netherlands, Singapore, the United Kingdom and the United States.

Under the U.S.-China Treaty, China may tax a dividend paid by our Company to a U.S. holder of H Shares or ADSs only up to a maximum of 10% of the gross amount of such dividend.

Taxation of Capital Gains by China

Individual Investors

The Tax Notice provides that gains realized upon the sale of Overseas Shares are not subject to taxes on capital gains. Although the Ministry of Finance has been empowered to collect a tax of 20% on gains derived from the sale of equity shares, a joint notice issued in February 1996 by the Ministry of Finance and the State Tax Bureau indicated that no capital gains tax would be imposed on gains from the sale of shares until the Ministry of Finance and the State Tax Bureau promulgate new rules. Therefore, holders of H Shares or ADSs have not been subject to taxation on gains realized upon the sale or disposition of such shares currently. However, holders of H Shares or ADSs could become subject to a 20% capital gains tax in the future, unless reduced or eliminated pursuant to an applicable double taxation treaty.

Under the U.S.-China Treaty, China may only tax gains from the sale or disposition by a U.S. holder of H Shares or ADSs representing an interest in the company of 25% or more.

Enterprises

Under the EIT Law and the implementation regulations to the EIT Law, gains realized upon the sale of Overseas Shares by "non-resident enterprises" may be subject to PRC taxation at the rate of 10% (or lower treaty rate).

Chinese Stamp Tax

Chinese stamp tax imposed on the transfer of shares of Chinese publicly traded companies under the Share System Tax Regulations should not apply to the acquisition or disposition by non-Chinese investors of H Shares or ADSs outside of China by virtue of the Provisional Regulations of The People's Republic of China Concerning Stamp Tax, which provides that Chinese stamp tax is imposed only on documents executed or received within China or that should be considered as having been executed or received within China.

United States Federal Income Taxation

You should consult your own tax advisor regarding the United States federal, state and local and other tax consequences of acquiring, owning and disposing of H shares or ADSs in your particular circumstances.

United States Federal Income Taxation

This section describes the material United States federal income tax consequences of the ownership and disposition of H shares or ADSs. This section applies to you only if you are a U.S. holder, as defined below, and you hold your H shares or ADSs as capital assets for United States federal income tax purposes. This section does not address all of the tax consequences relating to the purchase, ownership and disposition of the H shares or ADSs, and does not apply to you if you are a member of a special class of holders subject to special rules, including:

a dealer in securities;

- a trader in securities that elects to use a mark-to-market method of accounting for your securities holdings;
 - a partnership or other entity treated as a partnership for U.S. federal income tax purposes;

a tax-exempt organization;

a bank, financial institution, or insurance company;

· a real estate investment trust, a regulated investment company, or a grantor trust;

a person liable for alternative minimum tax;

a person that actually or constructively owns 10% or more of our voting stock;

a person who receives the H shares or ADSs as compensation for services;

certain U.S. expatriates;

a person that holds H shares or ADSs as part of a straddle or a hedging or conversion transaction; or

a person whose functional currency is not the U.S. dollar.

Moreover, this description does not address United States federal estate and gift taxes or any state or local tax consequences of the acquisition, ownership and disposition of the H shares or ADSs.

This section is based on the Internal Revenue Code of 1986, as amended, its legislative history, existing and proposed regulations, published rulings and court decisions, all as currently in effect. These laws are subject to change, possibly on a retroactive basis. In addition, this section is based in part upon the representations of the Depositary and the assumption that each obligation in the Deposit Agreement and any related agreement will be performed in accordance with its terms.

You are a U.S. holder if you are a beneficial owner of H shares or ADSs and you are:

an individual citizen or resident of the United States;

·a corporation or other entity treated as a corporation for United States federal income tax purposes created or organized under the laws of the United States or any political subdivision thereof;

an estate whose income is subject to United States federal income tax regardless of its source; or

a trust

subject to the primary supervision of a United States court and the control of one or more United States persons; or

- that has elected to be treated as a United States person under applicable United States Treasury regulations.

If a partnership (including any entity treated as a partnership for United States federal tax purposes) is a beneficial owner of the H shares or ADSs, the treatment of the partner in such partnership will generally depend upon the status of the partner and the activities of the partnership. If an investor is a partner in a partnership that holds H shares or ADSs, such investor should consult its tax advisor.

In general, and taking into account the earlier assumptions, for United States federal income tax purposes, if you hold ADRs evidencing ADSs, you will be treated as the owner of the H shares represented by those ADRs. Exchanges of H shares for ADRs, and ADRs for H shares, generally will not be subject to United States federal income tax.

Taxation of Dividends

Subject to the discussions below under "-PFIC Rules," the gross amount of any distribution (without reduction for any Chinese tax withheld) we make on the H shares or ADSs out of our current or accumulated earnings and profits (as determined for United States federal income tax purposes) will be includible in your gross income as ordinary

dividend income when the distribution is actually or constructively received by you, or by the depositary in the case of ADSs. Distributions that exceed our current and accumulated earnings and profits will be treated as a return of capital to you to the extent of your basis in the H shares or ADSs and thereafter as capital gain. We, however, may not calculate earnings and profits in accordance with U.S. tax principles. In this case, all distributions by us to U.S. Holders will generally be treated as dividends. Any dividend will not be eligible for the dividends-received deduction generally allowed to United States corporations in respect of dividends received from United States corporations. The amount of any distribution of property other than cash will be the fair market value of such property on the date of such distribution.

Subject to certain exceptions for short-term and hedged positions, the U.S. dollar amount of dividends received by an individual, trust or estate prior to January 1, 2011 with respect to the H shares or ADSs will be subject to taxation at a maximum rate of 15% if the dividends are "qualified dividends." Dividends paid on H shares or ADSs will be treated as qualified dividends if either (i) we are eligible for the benefits of a comprehensive income tax treaty with the United States that the Internal Revenue Service, or IRS, has approved for the purposes of the qualified dividend rules, or (ii) the dividends are with respect to ADSs readily tradable on a U.S. securities market, provided that we were not, in the year prior to the year in which the dividend was paid, and are not, in the year in which the dividend is paid, a passive foreign investment company (a "PFIC"). The Agreement Between the Government of the United States of America and the Government of the People's Republic of China for the Avoidance of Double Taxation and the Prevention of Tax Evasion with Respect to Taxes on Income (the "Treaty") has been approved for the purposes of the qualified dividend rules, and we expect to qualify for benefits under the Treaty. We are considered a qualified foreign corporation with respect to the ADSs because our ADSs are listed on the New York Stock Exchange. Finally, based on our audited financial statements and relevant market data, we believe that we did not satisfy the definition for PFIC status for U.S. federal income tax purposes with respect to our 2007 taxable year. In addition, based on our audited financial statements and our current expectations regarding the value and nature of our assets, the sources and nature of our income, and relevant market data, we do not anticipate becoming a PFIC in our 2008 taxable year or any future year. However, our PFIC status in future years will depend on the composition of our income and assets (which for this purpose depends in part on the market value of the H shares or ADSs) in those years. See the discussion of the PFIC rules below.

The U.S. Treasury has announced its intention to promulgate rules pursuant to which holders of common stock and intermediaries through whom such stock is held will be permitted to rely on certifications from issuers to establish that dividends are treated as qualified dividends. Because such procedures have not yet been issued, it is not clear whether we will be able to comply with them. Holders of H shares or ADSs should consult their own tax advisers regarding the availability of the reduced dividend tax rate in light of their own particular circumstances.

If we make a distribution paid in Hong Kong dollars (or other foreign currency), you will be considered to receive the U.S. dollar value of the distribution determined at the spot Hong Kong dollar (or such other foreign currency)/U.S. dollar rate on the date such distribution is received by you or by the depositary, regardless of whether you or the depositary convert the distribution into U.S. dollars. Any gain or loss resulting from currency exchange fluctuations during the period from the date the dividend payment is includible in your income to the date you or the depositary convert the distribution into U.S. dollars will be treated as ordinary income or loss from U.S. sources.

Subject to various limitations, any Chinese tax withheld from distributions in accordance with the Treaty will be deductible or creditable against your United States federal income tax liability. Dividends paid by us generally will constitute income from sources outside the United States for U.S. foreign tax credit limitation purposes and will be categorized as "passive income" or, in the case of certain U.S. Holders as "general category income" for U.S. foreign tax credit purposes.

In the event we are required to withhold PRC income tax on dividends paid to U.S. Holders on the H Shares or ADSs (see discussion under "Taxation — China"), you may be able to claim a reduced 10% rate of PRC withholding tax if you are eligible for the benefits under the Treaty. You should consult your own tax advisor about the eligibility for reduction of PRC withholding tax.

You may not be able to claim a foreign tax credit (and instead may claim a deduction) for non-United States taxes imposed on dividends paid on the H Shares or ADSs if you (i) have held the H shares or ADSs for less than a specified minimum period during which you are not protected from risk of loss with respect to such shares, (ii) are obligated to make payments related to the dividends (for example, pursuant to a short sale) or (iii) hold the H shares or ADSs in an arrangement in which your expected economic return, after non-United States taxes, is insubstantial. The rules relating to the foreign tax credit are complex. You should consult your own tax advisors regarding the effect of

these rules in your particular circumstances.

Taxation of Capital Gains

Subject to the discussions below under "-PFIC Rules," upon a sale, exchange or other disposition of the H shares or ADSs, you will generally recognize capital gain or loss for United States federal income tax purposes in an amount equal to the difference between the U.S. dollar value of the amount realized and your tax basis, determined in U.S. dollars, in such H shares or ADSs. Any gain or loss will generally be United States source gain or loss for foreign tax credit limitation purposes and as a result of the U.S. foreign tax credit limitation, foreign taxes, if any, imposed upon capital gains in respect of H shares or ADSs may not be currently creditable. Capital gain of certain non-corporate U.S. holders, including individuals, is generally taxed at a maximum rate of 15 percent where the property has been held more than one year. Your ability to deduct capital losses is subject to significant limitations.

If you are paid in a currency other than U.S. dollars, any gain or loss resulting from currency exchange fluctuations during the period from the date of the payment resulting from sale, exchange or other disposition is made to the date you convert the payment into U.S. dollars will be treated as United States source ordinary income or loss.

PFIC Rules

In general, a foreign corporation is a PFIC for any taxable year in which, after applying relevant look-through rules with respect to the income and assets of subsidiaries:

- 75% or more of its gross income consists of passive income, such as dividends, interest, rents, royalties, and gains from the sale of assets that give rise to such income; or
- ·50% or more of the average quarterly value of its assets consists of assets that produce, or are held for the production of, passive income.

We believe that we will not meet either of the PFIC tests in the current or subsequent taxable years and therefore will not be treated as a PFIC for such periods. However, because the determination of the PFIC status is a factual determination that must be made at the close of each taxable year, there can be no assurance that we will not be a PFIC in the current or subsequent taxable years.

If we were a PFIC in any taxable year that you held the H shares or ADSs, you generally would be subject to special rules with respect to "excess distributions" made by us on the H shares or ADSs and with respect to gain from your disposition of the H shares or ADSs. An "excess distribution" generally is defined as the excess of the distributions you receive with respect to the H shares or ADSs in any taxable year over 125% of the average annual distributions you have received from us during the shorter of the three preceding years, or your holding period for the H shares or ADSs. Generally, you would be required to allocate any excess distribution or gain from the disposition of the H shares or ADSs rateably over your holding period for the H shares or ADSs. The portion of the excess distribution or gain allocated to a prior taxable year, other than a year prior to the first year in which we became a PFIC, would be taxed at the highest United States federal income tax rate on ordinary income in effect for such taxable year, and you would be subject to an interest charge on the resulting tax liability, determined as if the tax liability had been due with respect to such particular taxable years. The portion of the excess distribution or gain that is not allocated to prior taxable years, together with the portion allocated to the years prior to the first year in which we became a PFIC, would be included in your gross income for the taxable year of the excess distribution or disposition and taxed as ordinary income.

The foregoing rules with respect to excess distributions and dispositions may be avoided or reduced if you are eligible for and timely make a valid "mark-to-market" election. If your H shares or ADSs were treated as shares regularly traded on a "qualified exchange" for United States federal income tax purposes and a valid mark-to-market election was made, in calculating your taxable income for each taxable year you generally would be required to take into account as ordinary income or loss the difference, if any, between the fair market value and the adjusted tax basis of your H shares or ADSs at the end of your taxable year. However, the amount of loss you would be allowed is limited to the extent of the net amount of previously included income as a result of the mark-to-market election. The New York Stock Exchange in which the ADSs will be traded is a qualified exchange for United States federal income tax purposes.

Alternatively, a timely election to treat us as a qualified electing fund under Section 1295 of the Code could be made to avoid the foregoing rules with respect to excess distributions and dispositions. You should be aware, however, that if we become a PFIC, we do not intend to satisfy record keeping requirements that would permit you to make a qualified electing fund election.

If you own the H shares or ADSs during any year that we are a PFIC, you must file IRS Form 8621. We encourage you to consult your own tax advisor concerning the United States federal income tax consequences of holding the H shares or ADSs that would arise if we were considered a PFIC.

Backup Withholding and Information Reporting

In general, information reporting requirements will apply to dividends in respect of the H shares or ADSs or the proceeds of the sale, exchange, or redemption of the H shares or ADSs paid within the United States, and in some cases, outside of the United States, other than to various exempt recipients, including corporations. In addition, you may, under some circumstances, be subject to "backup withholding" with respect to dividends paid on the H shares or ADSs or the proceeds of any sale, exchange or transfer of the H shares or ADSs, unless you

- · are a corporation or fall within various other exempt categories, and, when required, demonstrate this fact; or
- •provide a correct taxpayer identification number on a properly completed IRS Form W-9 or a substitute form, certify that you are exempt from backup withholding and otherwise comply with applicable requirements of the backup withholding rules.

Any amount withheld under the backup withholding rules generally will be creditable against your United States federal income tax liability provided that you furnish the required information to the IRS in a timely manner. If you do not provide a correct taxpayer identification number you may be subject to penalties imposed by the IRS.

H. Documents on Display

You may read and copy documents referred to in this Annual Report on Form 20-F that have been filed with the U.S. Securities and Exchange Commission at the SEC's public reference room located at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference rooms and their

copy charges. The SEC also maintains a web site at http://www.sec.gov that contains reports, proxy statements and other information regarding registrants that file electronically with the SEC.

The SEC allows us to "incorporate by reference" the information we file with the SEC. This means that we can disclose important information to you by referring you to another document filed separately with the SEC. The information incorporated by reference is considered to be part of this Annual Report on Form 20-F.

I. Subsidiary Information

Not applicable.

J. Comparison of NYSE Corporate Governance Rules and PRC Corporate Governance Rules for Listed Companies

Under the amended Corporate Governance Rules of NYSE, foreign issuers (including our Company) listed on the NYSE are required to disclose a summary of the significant differences between their domestic governance rules and NYSE corporate governance rules that would apply to a U.S. domestic issuer. We have posted a description of such differences under the section entitled "Report of Directors" of our 2007 Hong Kong Annual Report, which can be accessed through the following link on our website:

http://www.ce-air.com/upload/zh_CN/eastern/investor/finance/PDF1209446086066.pdf

Item 11. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

Our debts include both fixed-rate and variable-rate long-term loans and other loans. As a result, we are subject to the market risk of fluctuation of interest rates which may affect the estimated fair value of our debt liabilities or result in losses in cash flow. We use interest rate swaps to reduce risks related to changes in market interest rates. As of December 31, 2007, the notional amount of the outstanding interest rate swap agreements was approximately US\$624 million. These interest rate swap agreements will expire between 2008 and 2016. The carrying amounts, the estimated fair value and the effect as a result of the change of the average interest rate on our long-term and other loans as of December 31, 2007 are set forth as follows:

RMB'000

Carrying amounts	14,674,826
Estimated fair value	14,111,199
Decrease in the estimated fair value resulting from an increase of the average interest rate by	
1%	188,577
Increase in the estimated fair value resulting from a decrease of the average interest rate by 1%	207,115

Foreign Currency Exchange Rate Risk

Although we derive most of our income from China in Renminbi, our financial lease obligations as well as certain bank loans are denominated in U.S. dollars, Japanese yen, Euro or Renminbi. Pursuant to current foreign exchange regulations in China, we may retain our foreign currency earnings generated from ticket sales made in our overseas offices subject to the approval of SAFE. We use forward contracts to reduce risks related to changes in currency exchange rates in respect of ticket sales and expenses denominated in foreign currencies. These currency forward contracts will expire between 2008 and 2010.

Pursuant to IFRS, our monetary assets and liabilities denominated in foreign currencies are required to be translated into Renminbi at the year end at exchange rates announced by PBOC. Any fluctuation of the exchange rates between Renminbi and foreign currencies may materially and adversely affect our financial condition and results of operations. Following the measures introduced by the PRC Government in July 2005 to reform the Renminbi exchange rate regime, Renminbi has appreciated significantly against certain foreign currencies, including U.S. dollar and Japanese yen. The following table shows the effect on our profit and loss account as a result of the impact on our non-Renminbi denominated monetary assets and liabilities as of December 31, 2007 as a consequence of a fluctuation in value of the

following major foreign currencies.

Profit and Loss Account Decrease/Increase by RMB'000

U.S. dollar appreciates/ (depreciates) by 5%

1,555,851

Japanese yen appreciates/ (depreciates) by 5%

27,139

Item 15. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our President and Chief Financial Officer, our management conducted an evaluation of the effectiveness of our Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) of the U.S. Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of December 31, 2007, the end of the fiscal year covered by this Annual Report. Our President and Chief Financial Officer, after evaluating the effectiveness of our disclosure controls and procedures, have concluded that as of the end of the period covered by this Form 20-F, our disclosure controls and procedures were effective to ensure that material information required to be disclosed in the reports that we file and furnish under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and regulations.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in the Exchange Act Rules 13a-15(f) and 15d-15(f) and have designed internal control over financial reporting or caused internal control over financial reporting to be designed under our supervision in order to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles, as applicable. Under the supervision and with the participation of our President and our Chief Financial Officer, our management conducted an evaluation of the effectiveness of our internal control over financial reporting as of December 31, 2007 based upon the criteria in the Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on that evaluation, our management has concluded that our internal control over financial reporting was effective as of December 31, 2007 in providing reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Due to its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. In addition, projections of any evaluation of effectiveness of our internal control over financial reporting to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

The effectiveness of the Company's internal control over financial reporting as of December 31, 2007 has been audited by PricewaterhouseCoopers, an independent registered public accounting firm, as stated in their report.

Changes in Internal Control over Financial Reporting

For the year ended December 31, 2006, we identified the following material weaknesses in our internal control over financial reporting:

- (i) We did not maintain effective controls over the financial reporting process to ensure the completeness and accuracy of the preparation and review of our consolidated financial statements. Specifically, our Company did not have effective controls over the process for identifying, accumulating and reviewing all required supporting information, including the review of certain spreadsheets, to ensure the completeness and accuracy of our consolidated financial statements and disclosures, including the processes required to ensure complete and accurate recording and disclosure relating to deferred income tax accounting, the consolidated statement of cash flows, and certain property, plant and equipment disclosures. This control deficiency resulted in audit adjustments and additional disclosures to the 2006 consolidated financial statements.
- (ii) We did not maintain effective controls over the completeness and accuracy of our Company's deferred income tax assets and liabilities and our related provision for income taxes account. Specifically, our Company did not maintain effective controls over the accuracy and completeness of the components of the income tax provision calculations and related deferred income taxes, and over the monitoring of the differences between the income tax basis and the financial reporting basis of assets and liabilities to effectively reconcile the differences to the reported deferred income tax balances. In addition, our Company did not maintain effective controls to ensure that the appropriate factors were used in estimating the valuation allowance for our deferred income tax assets. This control deficiency resulted in audit adjustments to income tax expense and deferred income tax asset and liability accounts in the 2006 annual consolidated financial statements.

During 2007, we implemented the following remediation measures to address the weaknesses described above:

(i) We launched a risk management project and hired professional consultants to revise our risk management framework and refine our future plans for risk management.

- (ii) We hired additional accounting personnel to increase the number of staff members familiar with IFRS accounting standards. We also improved our training programs for finance employees in relation to IFRS and the preparation of financial statements as well as enhanced our control over spreadsheets.
- (iii) We specifically assigned personnel to calculate our deferred income tax assets and liabilities. Moreover, we improved the training resources for our employees in relation to deferred tax calculation and related review and monitoring procedures.

As of December 31, 2007, our management determined that applicable controls were effectively designed and operating so as to enable our management to conclude that the material weaknesses described above have been remediated.

In addition to the remediation measures above which were designed to address specifically the material weaknesses we identified in 2006, we made the following additional material changes to our internal control over financial reporting during the period covered by this Annual Report:

- (i) We established a complete set of procedures to track and control rotables, a type of re-usable component in our aircraft, that were subject to repair. In addition, we maintained a list of rotables under repair the value attributed to and summarized those being scrapped during the year. We also established procedures to ensure that our estimation and calculation of the value attributed to rotables are in compliance with both PRC GAAP and IFRS.
- (ii) We increased the use of electronic tickets (90% for domestic routes and 80% for international routes), which has improved our ability to reconcile the balances in the settlement system and the accounting system. On a monthly basis, we assigned employees in our Settlement Department to reconcile and analyze discrepancies between these balances.
- (iii)On a monthly basis, our Accounting Department analyzed and assessed the reasonableness of the provisions for fuel, food and beverage and take-off and landing expenses. We conducted an aging analysis of our provisions on a monthly basis and reconciled balances with our main suppliers on a semi-annual basis.
- (iv) In order to prevent fraud, our Accounting System Management Department disabled the function within our ORACLE system that previously allowed the same individual to both record and review accounting entries.
- (v)Our Information Technology Management Department has implemented technology management policies at our headquarters and all branches, which included the strengthening of the controls over access to information on our Company's intranet.

Item 16A. Audit Committee Financial Expert

Our Board of Directors has determined that Mr. Xie Rong, the chairman of our audit committee, is an independent financial expert serving on our audit committee.

Item 16B. Code of Ethics

We have adopted a code of ethics that applies to our Directors, supervisors, President, Chief Financial Officer and other senior managers of our Company. We have filed this code of ethics as Exhibit 11.1 to this Annual Report. Our code of ethics of ethics are an also be found on our corporate website, http://www.ce-air.com/cea2/en_US/cea2_enUS_news_detail/0,15275,200,00.html?newsId=200. A copy of our code of ethics will be provided to any person free of charge upon written request to Zhuping Luo, Secretary Office of the Board of Directors, Eastern Airlines Corporation Limited at 2550 Hongqiao Road, Hongqiao Airport, Shanghai

200335, the People's Republic of China.

Item 16C. Principal Accountant Fees and Services

The following table sets forth the aggregate audit fees, audit-related fees and tax fees of our principal accountants and all other fees billed for products and services provided by our principal accountants other than the audit fees, audit-related fees and tax fees for each of the two years ended December 31, 2007:

	Audit Fees (RMB)	Audit-Related Fees (RMB)	Tax Fees (RMB)	All Other Fees (RMB)
2006	20,000,00	0 0	120,000	0
2007	18,380,00	0 0	60,000	0

Before our principal accountants were engaged by our Company or our subsidiaries to render audit or non-audit services, the engagement was approved by our audit committee.

Audit Fees

Audit fees primarily consist of fees for the audit of the consolidated financial statements as of and for the years ended December 31, 2006 and 2007 and services provided in connection with regulatory filings.

Audit-Related Fees

Audit-related fees primarily consist of fees for assurance and related services which are reasonably related to the performance of audit or review and generally include advisory services regarding specific regulatory filings and reporting procedures and other agreed-upon services related to accounting and billing records. No audit-related services were performed by Pricewaterhouse Coopers for the fiscal years ended December 31, 2006 and 2007.

Tax Fees

Tax fees primarily consist of fees for tax compliance services.

All Other Fees

No other services were performed by PricewaterhouseCoopers for the fiscal years ended December 31, 2006 and 2007.

Item 16D. Exemptions from the Listing Standards for Audit Committees

Not applicable.

Item 16E. Purchase of Equity Securities by the Issuer and Affiliated Purchasers

Not applicable.

PART III

Item 17. Financial Statements

We have elected to provide the financial statements and related information specified in Item 18 in lieu of Item 17.

Item 18. Financial Statements

Reference is made to pages F-1 to F-102.

Item 19. Exhibits

- (a) See Item 18 for a list of the financial statements filed as part of this Annual Report.
 - (b) Exhibits to this Annual Report:

Exhibit Index

Exhibits Description

- 1.1 Articles of Association as amended on June 29, 2007 (English translation).
- 2.1 Specimen Certificate for the H Shares.⁽¹⁾
- 2.2 Form of Deposit Agreement among the Registrant, The Bank of New York, as depositary, and Owners and Beneficial Owners from time to time of American Depositary Receipts.⁽²⁾
- 4.1 Office Space Lease Agreement between our Company and Eastern Air Group Company (together with English translation).⁽¹⁾
- 4.10 Amendment No. 9 to the A320 Purchase Agreement, dated as of April 21, 2005, between our Company and Airbus SAS. (3) (5)
- 4.11 Assets Transfer Agreement, dated as of May 12, 2005, between our Company, CEA Holding, CEA Northwest and CEA Yunnan (English translation).⁽³⁾
- 4.12 Aircraft Purchase Agreement, dated as of August 8, 2005, between our Company and The Boeing Company. (4) (5)
- 4.13 Aircraft Purchase Agreement, dated as of December 20, 2005, as amended by a supplemental agreement dated as of April 10, 2006, between our Company and The Boeing Company. (4) (5)
- 4.14 Amendment No. 10 to the A320 Purchase Agreement, dated as of June 26, 2006, between our Company and Airbus SAS. (4) (5)
- 4.15 Aircraft Purchase Agreement, dated as of January 30, 2008, between our Company and The Boeing Company. (5)
- 8.1 List of Subsidiaries (as of June 18, 2008).
- 11.1 Code of Ethics (English translation).
- 12.1 Certification of President pursuant to Rule 13a-14(a).
- 12.2 Certification of Chief Financial Officer pursuant to Rule 13a-14(a).
- 13.1 Certification of President pursuant to Rule 13a-14(b).
- 13.2 Certification of Chief Financial Officer pursuant to Rule 13a-14(b).
- (1) Incorporated by reference to our Registration Statement on Form F-1 (File No. 333-6260), filed with the Securities and Exchange Commission on January 9, 1997.

Incorporated by reference to our Registration Statement on Form F-6 (File No. 333-6284), filed with the Securities and Exchange Commission with respect to American Depositary Shares representing our H Shares.

- (3) Incorporated by reference to our annual report on Form 20-F (File No. 001-14550), filed with the Securities and Exchange Commission on June 24, 2005.
- (4) Incorporated by reference to our annual report on Form 20-F (File No. 001-14550), filed with the Securities and Exchange Commission on July 7, 2006.
- (5) Portions of this document have been omitted pursuant to a confidential treatment request, and the full, unredacted document has been separately submitted to the Securities and Exchange Commission with a confidential treatment request.

SIGNATURES

The registrant hereby certifies that it meets all of the requirements for filing on Form 20-F and that it has duly caused and authorized the undersigned to sign this Annual Report on its behalf.

December 31, 2007	F-7
Notes to the Consolidated Financial Statements	F-8

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of China Eastern Airlines Corporation Limited:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of income, of changes in equity and of cash flows ("consolidated financial statements") present fairly, in all material respects, the financial position of China Eastern Airlines Corporation Limited ("the Company") and its subsidiaries (collectively referred to as the "Group") at December 31, 2007 and 2006, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2007 in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2007, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express opinions on these financial statements and on the Company's internal control over financial reporting based on our audits which were integrated audits in 2007 and 2006. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. CORPORATE INFORMATION

China Eastern Airlines Corporation Limited (the "Company"), a joint stock company limited by shares was incorporated in the People's Republic of China (the "PRC") on April 14, 1995. The address of its registered office is 66 Airport Street, Pudong International Airport, Shanghai, the PRC. The Company and its subsidiaries (together, the "Group") are principally engaged in the operation of civil aviation, including the provision of passenger, cargo, and mail delivery and other extended transportation services.

The Company is majority owned by China Eastern Air Holding Company ("CEA Holding"), a state-owned enterprise incorporated in the PRC.

The Company's shares are traded on The Stock Exchange of Hong Kong Limited, The New York Stock Exchange and The Shanghai Stock Exchange.

These consolidated financial statements have been approved for issue by the Board of Directors on April 14, 2008.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

The consolidated financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS"). The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of property, plant and equipment, available-for-sale financial assets, financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.

The preparation of consolidated financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements, are disclosed in Note 4.

The Group's accumulated losses were approximately RMB2,637million as at December 31, 2007 and its current liabilities exceeded its current assets by approximately RMB26,074million. Based on the Group's history of obtaining finance, its relationships with its bankers, banking facilities available and net operating cash inflow, the Board of Directors consider that the Group will be able to obtain sufficient financing to enable it to operate and meet its liabilities as and when they fall due. Accordingly, it is appropriate that these consolidated financial statements should be prepared on a going concern basis and they do not include any adjustments that would be required should the Company and the Group fail to continue as a going concern.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- (a) Basis of preparation (continued)
- (i) Standards, amendment and interpretations effective in 2007
- §IFRS 7, 'Financial instruments: Disclosures', and the complementary amendment to IAS 1, 'Presentation of financial statements Capital disclosures', introduces new disclosures relating to financial instruments.

(ii) Standards, amendments and interpretations to existing standards that are not yet effective and relevant for the Group's operations

The following standards, amendments and interpretations to existing standards have been published and are mandatory for the Group's accounting periods beginning on or after January 1, 2008 or later periods, but the Group has not early adopted them:

- §IFRIC 13, 'Customer loyalty programmes' (effective from July 1, 2008). IFRIC 13 clarifies that where goods or services are sold together with a customer loyalty incentive (for example, loyalty points or free products), the arrangement is a multiple-element arrangement and the consideration receivable from the customer is allocated between the components of the arrangement using fair values. The Group will apply IFRIC 13 from January 1, 2009. The expected impact is still being assessed in detail by management.
- §IFRIC 14, 'IAS 19 The limit on a defined benefit asset, minimum funding requirements and their interaction' (effective from January 1, 2008). IFRIC 14 provides guidance on assessing the limit in IAS 19 on the amount of the surplus that can be recognized as an asset. It also explains how the pension asset or liability may be affected by a statutory or contractual minimum funding requirement. The Group will apply IFRIC 14 from January 1, 2008, but it is not expected to have any impact on the Group's accounts.
- §IAS 1 (Revised), "Presentation of Financial Statements" (effective from January 1, 2009). IAS 1 (Revised) requires all owner changes in equity to be presented in a statement of changes in equity. All comprehensive income is presented in one statement of comprehensive income or in two statements (a separate income statement and a statement of comprehensive income). It requires presenting a statement of financial position as at the beginning of the earliest comparative period in a complete set of financial statements when there are retrospective adjustments or reclassification adjustments. However, it does not change the recognition, measurement or disclosure of specific transactions and other events required by other IFRSs. The Group will apply IAS 1 (Revised) from January 1, 2009.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Basis of preparation (continued)

- (ii) Standards, amendments and interpretations to existing standards that are not yet effective and relevant for the Group's operations (continued)
- §IFRS 8, 'Operating segments' (effective from January 1, 2009). IFRS replaces IAS 14 and aligns segment reporting with the requirements of the US standard SFAS 131, 'Disclosures about segments of an enterprise and related information'. The new standard requires a 'management approach', under which segment information is presented on the same basis as that used for internal reporting purposes. The Group will apply IFRS 8 from January 1, 2009, but it is not expected to have any impact on the Group's financial statements.
- §IAS 27 (Revised) "Consolidated and Separate Financial Statements" (effective from annual period beginning on or after July 1, 2009). The amendment requires non-controlling interests (i.e. minority interests) to be presented in the consolidated statement of financial position within equity, separately from the equity of the owners of the parent. Total comprehensive income must be attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. Changes in a parent's ownership interest in a subsidiary that do not result in the loss of control are accounted for within equity. When control of a subsidiary is lost, the assets and liabilities and related equity components of the former subsidiary are derecognized. Any gain or loss is recognized in profit or loss. Any investment retained in the former subsidiary is measured at its fair value at the date when control is lost. The Group will apply IAS 27 (Revised) from January 1, 2010.
- §IFRS 3 (Revised) "Business Combinations" (effective for business combinations with acquisition date on or after the beginning of the first annual reporting period beginning on or after July 1, 2009). The amendment may bring more transactions into acquisition accounting as combinations by contract alone and combinations of mutual entities are brought into the scope of the standard and the definition of a business has been amended slightly. It now states that the elements are 'capable of being conducted' rather than 'are conducted and managed'. It requires considerations (including contingent consideration), each identifiable asset and liability to be measured at its acquisition-date fair value, except leases and insurance contracts, reacquired right, indemnification assets as well as some assets and liabilities required to be measured in accordance with other IFRSs. They are income taxes, employee benefits, share-based payment and non current assets held for sale and discontinued operations. Any non-controlling interest in an acquiree is measured either at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets. The Group will apply IFRS 3 (Revised) from January 1, 2010.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- (b) Revised accounting estimates and change of accounting policy
 - (i) Treatments on aircraft and engine overhaul costs

During the year ended December 31, 2007, the Group reviewed the way it accounts for certain aircraft maintenance activities and decided to change its accounting policy with respect to the cost of major overhauls of airframes and engines held under operating leases. The review of the Group's accounting policy was, in part, initiated in response to recent changes in generally accepted accounting practice in the United States which have eliminated the use of the accrual method for overhauls.

Previously, the Group accrued for the cost of periodic major overhauls of airframes over the period between overhauls based on flying hours but only accrued for certain return condition checks for engines based on the specific terms of operating lease agreements. The Group has now adopted a new policy under which the periodic cost of major overhauls of both airframes and engines is expensed as incurred and accrual is made for the estimated cost of return condition checks (for both airframes and engines) on a straight line basis over the term of the relevant lease. The Group determined that its new policy for accounting of overhauls for aircraft under operating leases is more relevant and appropriate in the context of the significant growth in the size of the Group's fleet. The new policy is consistent with similar policies adopted by many other large international airlines with mature fleets. The impact of the change in accounting policy for airframes is immaterial to the amounts reported in prior years. If the adjustments had been applied retrospectively, the impact would have been to decrease aircraft maintenance expense and loss for the year ended December 31, 2006 by RMB 78 million (2005: increase aircraft maintenance expense and loss for the year by RMB 26 million).

As part of the Group's review of its accounting for overhaul costs, inconsistencies were identified in (1) the way that the Group's previous policies had been applied to certain individual engines based on interpretation of their lease contracts; and (2) the accounting for maintenance costs under certain "Power by hour" contracts where maintenance contractors receive agreed payments based on the number of operating hours for the engine. The net effect of the necessary adjustments, if they had been applied retrospectively, would have been to increase aircraft maintenance expense and loss for the year ended December 31, 2006 by RMB 33 million (2005: decrease aircraft maintenance expense and loss for the year by RMB 35 million). The impact of these corrections is immaterial to the amounts reported in prior years.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- (b) Revised accounting estimates and change of accounting policy (continued)
 - (i) Treatments on aircraft and engine overhaul costs (continued)

The aggregate impact of the application of the change in accounting policy and the correction of the inconsistencies referred to above is immaterial to both the 2007 and prior year financial statements and all changes have been recognized in the current year. The cumulative impact of the new policy and the corrections was an increase of RMB 31 million in net assets and profit as of and for the year ended December 31, 2007.

(ii) Change in useful life of flight equipment

The Group has changed the estimated useful life of flight equipment. Previously, flight equipment was depreciated over 20 years plus an annual provision of 7% for scrapped items. The economic useful life of flight equipment has been reviewed and is now depreciated over 10 years with no annual provision for scrapped items with effect from January 1, 2007. Management considers the new treatment more accurately reflects past experience and is consistent with industry practice. The change in estimate has resulted in a decreased depreciation charge of RMB44 million for the year ended December 31, 2007.

(iii) Change in depreciation method for components related to engine overhaul

The Group has changed the depreciation method applied to components related to engine overhauls. Previously, components related to engine overhauls were depreciated on a straight-line basis over 2 to 8 years. The economic useful life of components related to engine overhauls has been reviewed and is now depreciated between each overhaul period using the ratio of actual flying hours and estimated flying hours between overhauls. Management considers the new policy better reflects the pattern in which the component's future economic benefits are expected to be consumed by the entity. The change in estimate has resulted in a decreased depreciation charge of RMB109 million for the year ended December 31, 2007.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Consolidation

The consolidated financial statements include the financial statements of the Company and all of its subsidiaries made up to December 31.

(i) Subsidiaries

Subsidiaries are all entities (including special purpose entities) over which the Group has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group, including those acquired from holding companies. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest.

The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the income statement.

Inter-company transactions, balances and unrealized gains on transactions between Group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Consolidation (continued)

(ii) Transactions with minority interests

The Group applies a policy of treating transactions with minority interests as transactions with parties external to the Group. Disposals to minority interests result in gains and losses for the Group that are recorded in the income statement. Purchases from minority interests result in goodwill, being the difference between any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary.

(iii) Associates

Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting and are initially recognized at cost. The Group's investments in associates includes goodwill (net of any accumulated impairment loss) identified on acquisition.

The Group's share of its associates' post-acquisition profits or losses is recognized in the income statement, and its share of post-acquisition movements in reserves is recognized in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the associate.

Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Dilution gains and losses in associates are recognized in the consolidated income statement.

A listing of Group's principal associates is set out in Note 20.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Consolidation (continued)

(iv) Jointly controlled entities

A jointly controlled entity is an entity in which the Group has joint control over its economic activity established under a contractual arrangement. The Group's investments in jointly controlled entities includes goodwill (net of any accumulated impairment loss) identified on acquisition.

The Group's interests in jointly controlled entities are accounted for by the equity method of accounting based on the audited financial statements or management accounts of the jointly controlled entities. The Group's share of its jointly controlled entities' post-acquisition profits or losses is recognized in the income statement, and its share of post-acquisition movements is adjusted against the carrying amount of the investment. When the Group's share of losses in a jointly controlled entity equals or exceeds its interest in that entity, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the jointly controlled entity.

The Group recognizes the portion of gains or losses on the sale of assets by the Group to the joint venture that it is attributable to the other venturers. The Group does not recognize its share of profits or losses from the joint venture that result from the Group's purchase of assets from the joint venture until it resells the assets to an independent party. However, a loss on the transaction is recognized immediately if the loss provides evidence of a reduction in the net realizable value of current assets, or an impairment loss.

A listing of Group's principal jointly controlled entities is set out in Note 21.

(d) Segmental reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. A geographical segment is engaged in providing products or services within a particular economic environment that are subject to risks and returns that are different from those of segments operating in other economic environments.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(e) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Chinese Renminbi ("RMB"), which is the Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the income statement, except when deferred in equity as qualifying cash flow hedges or qualifying net investment hedges.

(f) Revenue recognition and sales in advance of carriage

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and the provision of services in the ordinary course of the Group's activities. Revenue is shown net of business and value-added taxes, returns, rebates and discounts and after eliminating sales within the Group.

The Group recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below. The amount of revenue is not considered to be reliably measurable until all contingencies relating to the sale have been resolved. The Group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

(i) Traffic revenues

Passenger, cargo and mail revenues are recognized as traffic revenues when the transportation services are provided. The value of sold but unused tickets is recognized as sales in advance of carriage ("SIAC").

(ii) Commission income

Commission income represents amounts earned from other carriers in respect of sales made by the Group's agents on their behalf, and is recognized in the income statement upon ticket sales.

(iii) Other revenue

Revenues from other operating businesses, including income derived from the provision of ground services and cargo handling services, are recognized when the services are rendered.

Edgar Filing: CHINA EASTERN AIRLINES CORP LTD - Form 20-F

Rental income from subleases of aircraft is recognized on a straight-line basis over the terms of the respective leases. Rental income from leasing office premises and cargo warehouses is recognized on a straight-line basis over the lease term.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(g)

Government grants

Grants from the Government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to costs are deferred and recognized in the income statement over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to property, plant and equipment are included in non-current liabilities as deferred government grants and are credited to the income statement on a straight-line basis over the expected lives of the related assets.

(h) Maintenance and overhaul costs

In respect of aircraft and engines under operating leases, the Group has the responsibility to fulfill certain return conditions under the leases. As the Group has obligation to fulfill these return conditions, provision for these return condition checks is made on a straight line basis over the term of the leases.

In respect of aircraft and engines owned by the Group or held under finance leases, overhauls costs are capitalised as a component of property, plant and equipment and are depreciated over the appropriate maintenance cycles (Note 2(m)).

All other repairs and maintenance costs are charged to the income statement as and when incurred.

(i) Interest income

Interest income is recognized on a time-proportion basis using the effective interest method. When a receivable is impaired, the Group reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loans is recognized using the original effective interest rate.

(j) Borrowing costs

Borrowing costs incurred for the construction of any qualifying asset, including the interest attributable to loans for advance payments used to finance the acquisition of aircraft, are capitalised during the period of time that is required to complete and prepare the asset for its intended use. Other borrowing costs are expensed.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(k) Current and deferred tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the jurisdictions where the Company and its subsidiaries, associates and jointly controlled entities operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, associates and jointly controlled entities, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

(l) Intangible assets

(i) Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired subsidiary, associate or jointly controlled entity at the date of acquisition. Goodwill on acquisition of subsidiaries is included in 'intangible assets'. Goodwill on acquisition of associates and jointly controlled entities is included in 'investments in associates' and 'investments in jointly controlled entities' and is tested for impairment as part of the overall balances. Separately recognized goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(l) Intangible assets (continued)

(ii) Sponsorship fees

Sponsorship fees paid and payable in relation to the 2010 Shanghai Expo have been capitalised and are being amortized on a straight-line basis over the period of the sponsorship program. The cost of the intangible asset is calculated based on the expected cash payment and the fair value of the services to be provided.

(iii) Computer software costs

Acquired computer software licenses are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortized using the straight-line method over their estimated useful lives of 5 to 6 years. Costs associated with developing or maintaining computer software programmes are recognized as expense when incurred.

(m) Property, plant and equipment

Property, plant and equipment is recognized initially at cost which comprises purchase price, and any directly attributable costs of bringing the assets to the condition for their intended use.

Subsequent to initial recognition, property, plant and equipment is stated at fair value, based on periodic, but at least once every five years, valuations by external independent valuers, less subsequent accumulated depreciation and accumulated impairment losses. In the intervening years, the Directors review the carrying values of property, plant and equipment and adjustment is made where they are materially different from fair value. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. Increases in the carrying amount arising on revaluation are credited to the revaluation reserve in shareholders' equity. Decreases that offset previous increases relating to the same asset are charged against the revaluation reserve directly in shareholders' equity; all other decreases are charged to the income statement.

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately.

When each major aircraft overhaul is performed, its cost is recognized in the carrying amount of the item of property, plant and equipment and is depreciated over the appropriate maintenance cycles. Components related to airframe overhaul cost, are depreciated on a straight-line basis over 2 to 8 years. Components related to engine overhaul costs, are depreciated between each overhaul period using the ratio of actual flying hours and estimated flying hours between overhauls. Upon completion of an overhaul, any remaining carrying amount of the cost of the previous overhaul is derecognized and charged to the income statement.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(m) Property, plant and equipment (continued)

Except for components related to overhaul costs, depreciation method of which has been described in the proceeding paragraph, other depreciation of property, plant and equipment is calculated using the straight-line method to write down their costs or revalued amounts to their residual values over their estimated useful lives, as follows:

Aircraft, engines and flight equipment 10 to 20 years Buildings 15 to 35 years Other property, plant and equipment 5 to 20 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2(n)).

Gains and losses on disposals are determined by comparing the proceeds with the assets' carrying amount and are recognized within office, administrative and other expenses, in the income statement. When revalued assets are sold, the amounts included in the revaluation reserve are transferred to retained profits.

Construction in progress represents buildings under construction and plant and equipment, being mainly flight simulators, pending installation. This includes the costs of construction or acquisition and interest capitalised. No depreciation is provided on construction in progress until the asset is completed and ready for use.

(n) Impairment of investments in subsidiaries, associates, jointly controlled entities and non-financial assets

Assets that have an indefinite useful life or which are not yet available for use are not subject to amortization and are tested annually for impairment. Other assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that have suffered an impairment are reviewed for possible reversal of the impairment at each balance sheet date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(0)

Lease prepayments

Lease prepayments represent acquisition costs of land use rights less accumulated amortization. Amortization is provided over the lease period of the land use rights on a straight-line basis.

(p) Advanced payments on acquisition of aircraft

Advanced payments on acquisition of aircraft represent payments to aircraft manufacturers to secure deliveries of aircraft in future years, including attributable finance costs, and are included in non-current assets. The balance is transferred to property, plant and equipment upon delivery of the aircraft.

(q) Flight equipment spare parts

Flight equipment spare parts are stated at the lower of cost and net realizable value. Cost is determined using the weighted average method. The cost of flight equipment spare parts comprises the purchase price (net of discounts), freight charges, duty and value added tax and other miscellaneous charges. Net realizable value is the estimated selling price of the flight equipment in the ordinary course of business, less applicable selling expenses.

(r) Trade receivables

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the trade receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the assets is reduced through the use of an allowance account, and the amount of the loss is recognized in the income statement. When a trade receivable is uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited in the income statement.

(s) Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of three months or less.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(t) Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any differences between the proceeds (net of transaction costs) and the redemption value is recognized in the income statement over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

(u) Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount can be reliably estimated.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(v) Leases

(i) A Group company is the lessee

Finance leases

The Group leases certain property, plant and equipment. Leases of property, plant and equipment where the Group has acquired substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's commencement at the lower of the fair value of the leased property and the present value of the minimum lease payments.

Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The corresponding rental obligations, net of finance charges, are included in other short-term and other long-term payables. The interest element of the finance cost is charged to the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. Leased assets are depreciated using a straight-line basis over their expected useful lives to residual values.

For sale and leaseback transactions resulting in a finance lease, differences between sales proceeds and net book values are deferred and amortized over the minimum lease terms.

Operating leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the income statement on a straight-line basis over the period of the lease.

For sale and leaseback transactions resulting in an operating lease, differences between sales proceeds and net book values are recognized immediately in the income statement, except to the extent that any profit or loss is compensated for by future lease payments at above or below market value.

(ii) A Group company is the lessor

Assets leased out under operating leases are included in property, plant and equipment in the balance sheet. They are depreciated over their expected useful lives on a basis consistent with similar property, plant and equipment. Rental income is recognized on a straight-line basis over the lease term.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(w)

Retirement benefits

The Group participates in defined contribution retirement schemes regarding pension and medical benefits for employees organised by the municipal governments of the relevant provinces. The contributions to the schemes are charged to the income statement as and when incurred.

In addition, the Group provides retirees with post-retirement benefits including retirement subsidies, transportation subsidies, social function activity subsidies as well as other welfare. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The defined benefit obligation is calculated annually using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions in excess of the greater of 10% of the value of plan assets or 10% of the defined benefit obligation are charged or credited to income over the employees' expected average remaining working lives.

Past-service costs are recognized immediately in income, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past-service costs are amortized on a straight-line basis over the vesting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(x) Derivative financial instruments

Derivative financial instruments are initially recognized in the balance sheet at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

The Group documents, at the inception of the transaction, the relationship between hedging instruments and hedged items, as well as its risk management objectives and strategy for undertaking various hedge transactions. The Group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items.

Derivative financial instruments that do not qualify for hedge accounting are accounted for as trading instruments and any unrealized gains or losses, being changes in fair value of the derivatives, are recognized in the income statement immediately.

Changes in the fair value of derivatives that are designated and qualify as fair value hedges and that are highly effective, are recorded in the income statement, along with any changes in the fair value of the hedged assets or liabilities that are attributable to the hedged risk.

Derivative financial instruments that qualify for hedge accounting and which are designated as a specific hedge of the variability in cashflows of a highly probable forecast transaction, are accounted for as follows:

- (i) the effective portion of any change in fair value of the derivative financial instrument is recognized directly in equity. Where the forecast transaction or firm commitment results in the recognition of an asset or a liability, the gains and losses previously deferred in equity are included in the initial measurement of the cost of the asset or liability. Otherwise, the cumulative gain or loss on the derivative financial instrument is removed from equity and recognized in the income statement in the same period during which the hedged forecast transaction affects net profit or loss.
 - (ii) the ineffective portion of any change in fair value is recognized in the income statement immediately.

When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognized in the income statement when the committed or forecast transaction ultimately occurs. When a committed or forecast transaction is no longer expected to occur, the cumulative gain or loss that was recorded in equity is immediately transferred to the income statement.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(y) Available-for-sale financial assets

Investments in securities other than subsidiaries, associates and jointly controlled entities, being held for non-trading purposes, are classified as available-for-sale financial assets and are initially recognized at fair value plus transaction costs. At each balance sheet date, the fair value is remeasured, with any resulting gain or loss being recognized directly in equity, except for impairment losses. When these investments are derecognized, the cumulative gain or loss previously recognized directly in equity is recognized in the income statement.

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset is impaired. In the case of equity securities classified as available for sale, a significant or prolonged decline in the fair value of the securities below its cost is considered an indicator that the securities are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss, measured as the difference between the acquisition cost and the current fair value less any impairment loss on that financial asset previously recognized in the income statement, is removed from equity and recognized in the income statement. Impairment losses recognized in the income statement on equity instruments are not reversed through the income statement.

(z) Dividend distribution

Dividend distribution to the Company's shareholders is recognized as a liability in the financial statements in the period in which the dividends are approved by the Company's shareholders.

(aa) Comparatives

Where necessary, prior year amounts have been reclassified to conform with changes in presentation in the current year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. FINANCIAL RISK MANAGEMENT

(a) Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and fuel price risk), credit risk, and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The Group uses derivative financial instruments to hedge certain risk exposures.

Risk management is carried out by a central treasury department (the "Group Treasury") under policies approved by the Board of Directors. The Group Treasury identifies, evaluates and hedges financial risks in close co-operation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest-rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments.

(i) Foreign currency risk

The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the US dollars, Japanese Yen and Euro. Foreign exchange risk arises from ticket sales made in overseas offices, expenses, recognized assets and liabilities denominated in currencies other than RMB.

The Group normally generates sufficient foreign currencies for payment of foreign currency expenses. The Group also enters into certain foreign currency forward contracts to hedge against foreign currency risk. Details of foreign currency forward contracts are disclosed in Note 34(b) to the financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. Financial risk management (continued)

The following table details the Group's and the Company's exposure at the balance sheet date to currency risk.

		2006			2007

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

(ii) Interest rate risk

The Group's interest-rate risk primarily arises from long-term borrowings. Borrowings issued at variable rates expose the Group to cash flow interest-rate risk. Borrowings issued at fixed rates expose the Group to fair value interest-rate risk. During 2007 and 2006, the Group's borrowings at variable rates were primarily denominated in US dollars. The interest rates and terms of repayment of borrowings made to the Group and interest rate swaps are disclosed in Notes 29 and 34(a) to the financial statements.

To hedge against the variability in the cash flows arising from a change in market interest rates, the Group has entered into certain interest rate swaps to swap variable rates into fixed rates.

The following table details the Group's interest rate profile of the interest-bearing financial instruments at the balance sheet date.

	2006 RMB'000	2007 RMB'000
Fixed rate instruments		
Borrowings	(8,779,059)	(9,734,862)
Obligations under finance leases	(9,304,320)	(14,570,519)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

(ii) Interest rate risk (continued)

The following table indicates the approximate change in the Group's profit and loss and other components of equity in response to reasonable possible changes in the interest rate.

		2006			2007	
	Increase /(decrease) in interest rates	Effect on profit and loss RMB'000	Effect on other components of equity RMB'000	Increase /(decrease) in interest rates	Effect on profit and loss RMB'000	Effect on other components of equity RMB'000
Floating rate instruments	0.25%	(36,086)	1,227	0.25%	(57,681)	27,872
	(:::)		F.,	al nuica uigh		

(iii) Fuel price risk

The Group's results of operations may be significantly affected by fluctuations in fuel prices which is a significant expense for the Group. Aircraft fuel accounts for 35% of the Group's operating expenses for the year ended December 31, 2007 (2006: 33%). The Group has entered into certain financial derivatives to hedge against fuel price risk. Details of fuel option contracts are disclosed in Note 34(c) to the financial statements.

For the year ended, if fuel prices had been 5% higher/lower with all other variables held constant, the impact is shown below.

	2006 Effect on profit and loss RMB'000	2007 Effect on profit and loss RMB'000
Net increase in fuel price	17,960	8,766
Net decrease in fuel price	(45,290)	(17,531)
F-30		

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

(iv) Credit risk

The Group's credit risk is primarily attributable to cash and cash equivalents, derivative financial instruments and deposits with banks and financial institutions, as well as credit exposures to sales agents. The Group has a credit policy in place to monitor the exposures to these credit risks on an on-going basis.

The Group has policies in place to ensure that blank tickets are only made available to sales agents with an appropriate credit history. A major portion of sales are conducted through sales agents and the majority of these agents are connected to various settlement plans and/or clearing systems which impose requirements on their credit standing.

A significant portion of the Group's air tickets are sold by agents participating in the Billing and Settlements Plan ("BSP"), a clearing system between airlines and sales agents organised by the International Air Transportation Association. The balance due from BSP agents amounted to approximately RMB896 million as at December 31, 2007 (2006: RMB650 million).

Except for the above, the Group has no significant concentration of credit risk, with the exposure spreading over a number of counterparties.

Further quantitative disclosures in respect of the Group's exposure to credit risk arising from trade receivables are set out in Note 23.

The Group's cash management policy is to deposit cash and cash equivalents mainly in state-owned banks and other banks, which are highly rated by an international credit rating company. The Group also deposits cash and cash equivalents in an associate financial institution owned by its holding company (Note 40). The management does not expect any loss to arise from non-performance by these banks and financial institution.

Transactions in relation to derivative financial instruments are only carried out with financial institutions of high reputation. The Group has policies that limit the amount of credit exposure to any one financial institution. Management does not expect any losses from non-performance by these banks.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

(v) Liquidity risk

The Group's primary cash requirements have been for additions of and upgrades to aircraft, engines and flight equipment and payments on related borrowings. The Group finances its working capital requirements through a combination of funds generated from operations and both short and long term bank loans. The Group generally finances the acquisition of aircraft through long-term finance leases and bank loans.

The Group operates with a working capital deficit. As at December 31, 2007, the Group's net current liabilities amounted to RMB26,074 million (2006: RMB24,616million). For the year ended December 31, 2007, the Group recorded a net cash outflow from operating activities of RMB2,695 million (2006: inflow RMB1,339 million), a net cash outflow from investing activities and financing activities of RMB3,011 million (2006: RMB1,258 million), and an decrease in cash and cash equivalents of RMB316 million (2006: RMB80 million).

The Directors of the Company believe that cash from operations and short-term bank borrowings will be sufficient to meet the Group's operating cashflow. Due to the dynamic nature of the underlying businesses, the Group's treasury policy aims at maintaining flexibility in funding by keeping credit lines available. The Directors of the Company believe that the Group has obtained sufficient general credit facilities from PRC banks for financing future capital commitments and for working capital purposes.

Management monitors rolling forecasts of the Group's liquidity reserves on the basis of expected cash flows:

The table below analyses the Group's financial liabilities that will be settled into relevant maturity groupings based on the remaining period at the balance sheet to the contractual maturity dates. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

(b) Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including borrowings and trade and other payables, as shown in the consolidated balance sheet) less cash and cash equivalents. Total capital is calculated as equity, as shown in the consolidated balance sheet, plus net debt.

The gearing ratios at December 31, 2006 and 2007 were as follows:

	2006	2007
Total borrowings	28,107,740	29,863,828
Less: Cash and cash equivalents	(1,987,486)	(1,655,244)
Net debt	26,120,254	28,208,584
Total equity	2,814,897	3,027,763
Total capital	28,935,151	31,236,347
Gearing ratio	0.90	0.90
F-34		

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

(c) Fair value estimation of financial assets and liabilities

The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the balance sheet date. The quoted market price used for financial assets held by the Group is the current bid price; the quoted market price used for financial liabilities is the current asking price.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance sheet date. Quoted market prices or dealer quotes for similar instruments are used for long-term debt. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments. The fair value of interest-rate swaps is calculated as the present value of the estimated future cash flows. The fair value of forward foreign exchange contracts is determined using forward exchange market rates at the balance sheet date. The fair value of fuel option contracts is determined using quoted market values.

The carrying value less impairment provision for trade receivables and the carrying value of payables approximate their fair values. The fair values of other long-term receivables are based on cash flows discounted using a rate based on the borrowing rate. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments (Note 28 and 29).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

Estimates and judgments used in preparing the financial statements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(a) Estimated impairment of property, plant and equipment and intangible assets

The Group tests whether property, plant and equipment and intangible assets have been impaired in accordance with the accounting policy stated in Note 2(n) to the financial statements. The recoverable amounts of cash generating units have been determined based on value-in-use calculations. These calculations require the use of estimates which are disclosed in Note 16(a) to the financial statements.

(b) Valuation of property, plant and equipment

The Group's property, plant and equipment is subsequently stated at revalued amounts less accumulated depreciation in accordance with the accounting policy stated in Note 2(m) to the financial statements. Revaluations of property, plant and equipment will be performed at sufficiently regular intervals, at least every five years, by independent professional valuers. In each of the intervening years valuations will be undertaken by the Directors of the Company. If the subsequent revalued amounts differ materially from carrying amounts, the carrying amounts will be adjusted to the revalued amounts. Their recorded value is impacted by management judgment, including valuations performed by management and/or independent professional valuers, estimates of useful lives, residual values and impairment charges. If different judgments or estimates had been utilized, material differences could have resulted in the amount of revaluation and related depreciation charges.

(c) Revenue recognition

The Group recognizes passenger, cargo and mail revenues in accordance with the accounting policy stated in Note 2(f) to the financial statements. Unused tickets are recognized in traffic revenues based on current estimates. Management annually evaluates the balance in the Sales in advance of carriage account ("SIAC") and records any adjustments, which can be material, in the period the evaluation is completed.

These adjustments result from differences between the estimates of certain revenue transactions and the timing of recognising revenue for any unused air tickets and the related sales price, and are impacted by various factors, including a complex pricing structure and interline agreements throughout the industry, which affect the timing of revenue recognition.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (CONTINUED)

(d) Overhaul costs

The amount of overhaul costs charged/amortized to operating profits is impacted by management's estimates of the expected flying hours and overhaul costs, which are largely based on past experience of overhauls of the same or similar models of aircraft. Different judgments or estimates could significantly affect the estimated overhaul expense and materially impact the results of operations.

(e) Retirement benefits

The Group operates and maintains defined retirement benefit plans which provide retirees with benefits including transportation subsidies, social activity subsidies as well as other welfare. The cost of providing the aforementioned benefits in the defined retirement benefit plan is actuarially determined and recognized over the employees' service period by utilizing various actuarial assumptions and using the projected unit credit method in accordance with the accounting policy stated in Note 2(w) to the financial statements. These assumptions include, without limitation, the selection of discount rate, annual rate of increase of per capita benefit payment and employees' turnover rate. The discount rate is based on management's review of local high quality corporate bonds. The annual rate of increase of benefit payments is based on the general local economic conditions. The employees' turnover rate is based on historical trends of the Group. Additional information regarding the retirement benefit plans is disclosed in Note 32 to the financial statements.

(f) Deferred income tax

In assessing the amount of deferred tax assets that need to be recognized in accordance with the accounting policy stated in Note 2(k) to the financial statements, the Group considers future taxable income and ongoing prudent and feasible tax planning strategies. In the event that the Group's estimates of projected future taxable income and benefits from available tax strategies are changed, or changes in current tax regulations are enacted that would impact the timing or extent of the Group's ability to utilize the tax benefits of net operating loss carry forwards in the future, adjustments to the recorded amount of net deferred tax assets and taxation expense would be made.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

5. REVENUES

The Group is principally engaged in the operation of civil aviation, including the provision of passenger, cargo, mail delivery and other extended transportation services.

	Year ended December 31			
	2005	2006	2007	
	RMB'000	RMB'000	RMB'000	
Revenues				
Traffic revenues				
– Passenger	21,367,747	31,121,718	36,064,642

Note:

The government subsidies represent (i) subsidies granted by the Central Government and local government to the Group; and (ii) other subsidies granted by various local municipalities to encourage the Group to operate certain routes to cities where these municipalities are located.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

7. SEGMENT INFORMATION

In accordance with the Group's internal financial reporting, the Group has determined that business segments be presented as the primary reporting format and geographical as the secondary reporting format.

(a) Primary reporting format by business segment

The Group has two business segments, namely passenger and cargo and logistics, which are structured and managed separately, according to the nature of their operations and the services they provide.

- (1) Passenger business segment includes cargo carried by passenger flights.
- (2) Inter-segment transfers or transactions are entered into under normal commercial terms and conditions that would also be available to unrelated third parties.

The segment results for the year ended December 31, 2007 are as follows:

	Passenger RMB'000	Cargo and logistics RMB'000	Unallocated RMB'000	Total RMB'000
Traffic revenues	37,537,460	3,113,488	-	40,650,948
Other revenues	1,208,760	900,529	208,456	2,317,745
Total segment revenue	38,746,220	4,014,017	208,456	42,968,693
Inter-segment revenue	(348,643)	-	(98,824)	(447,467)
Revenues	38,397,577	4,014,017	109,632	42,521,226

F-44				

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

7. SEGMENT INFORMATION (CONTINUED)

(b) Secondary reporting format by geographical segment

The Group's two business segments operate in four main geographical areas, even though they are managed on a worldwide basis.

The Group's revenues (net of business tax) by geographical segment are analyzed based on the following criteria:

- (1) Traffic revenue from services within the PRC (excluding the Hong Kong Special Administrative Region ("Hong Kong")) is classified as domestic operations. Traffic revenue from inbound and outbound services between the PRC and Hong Kong or overseas markets is classified under Hong Kong or the relevant overseas locations.
- (2) Revenue from ticket handling services, airport ground services and other miscellaneous services are classified on the basis of where the services are performed.

	Year ended December 31,		
	2005	2006	2007
	RMB'000	RMB'000	RMB'000
Domestic (the PRC, excluding Hong Kong)	13,357,972	20,948,698	24,125,288
Hong Kong	3,150,123	3,244,846	2,694,857
Japan	2,644,372	3,582,962	3,642,220
Other countries	8,301,976	9,857,626	12,058,861
Total	27,454,443	37,634,132	42,521,226

The major revenue-earning assets of the Group are its aircraft, all of which are registered in the PRC. Since the Group's aircraft are deployed flexibly across its route network, there is no suitable basis of allocating such assets and the related liabilities to geographical segments and hence segment assets and capital expenditure by geographic segment have not been presented.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

8. WAGES, SALARIES AND BENEFITS

	Year ended December 31,

F-47			

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

12. TAXATION

(a) Income tax charged /(credited) to the consolidated income statement is as follows:

	Year ended December 31,			
	2005	2006	2007	
	RMB'000	RMB'000	RMB'000	
Provision for PRC income tax	(81,734)	48,072	72,918	
Deferred taxation (Note 12(c))	(56,970)	(211,004)	(49,155)	
	(138,704)	(162,932)	23,763	

For 2007, the Company is subject to PRC income tax at a reduced rate of 15%, pursuant to the Circular Hu Shui Er Cai (2001) No. 104 issued by the Shanghai Municipal Tax Bureau.

Certain subsidiaries of the Group located in Pudong, Shanghai are subject to PRC income tax at a reduced rate of 15%, pursuant to the preferential tax policy in Pudong, Shanghai. Other subsidiaries of the Group are generally subject to the PRC corporate income tax at the standard rate of 33% for the years presented.

On March 16, 2007, the National People's Congress approved the Corporate Income Tax of the People's Republic of China (the"new CIT Law"). The PRC enterprise income tax rate for the Company and all its subsidiaries, except those registered in Hong Kong, will change to a standard tax rate of 25%. However, the tax bureau of Pudong district, in which the Company and certain of its subsidiaries are registered, has not yet announced the detailed transitional provisions from the old rate to the new CIT rate. For the purposes of deferred tax calculation, the Company and its subsidiaries registered in Pudong apply 25% tax rate effective from January 1, 2008. The net deferred tax position is nearly neutral for the Company and its subsidiaries registered in Pudong as of December 31, 2007. Therefore, management considers that the change in tax rate does not have material impact on the Group's deferred tax position.

Further detailed measured and regulations on determination of taxable profit, tax incentives and grandfathering provisions will be issued by the tax authorities. As and when the tax authorities announce the additional regulations, the Group will assess their impact, if any, and the corresponding change in accounting estimate will be accounted for prospectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

12. TAXATION (CONTINUED)

Tax on the Group's consolidated income statement differs from the theoretical amount that would arise using the taxation rate of the home country of the Company as follows:

	Year ended December 31,			
	2005	2006	2007	
	RMB'000	RMB'000	RMB'000	
Profit/(loss) before income tax	(577,432)	(3,615,697)	268,266	
Adjusted by:				
Share of result of associates and jointly controlled				
entities	13,330	(133,161)	(88,398)	
	(564,102)	(3,748,858)	179,868	
Tax calculated at enacted tax rate of 15%	(84,615)	(562,329)	26,980	
Effect attributable to subsidiaries charged at tax rates				
of 17.5% or 33%	(18,334)	(27,969)	(49,578)	
Effect of tax rate change	-	-	24,289	
Expenses not deductible for tax purposes	5,642	13,852	12,031	
Utilization/(recognization) of previously unrecognized				
tax losses	-	23,130	(157,531)	
Unrecognized tax losses	86,074	327,739	54,647	
Other unrecognized temporary differences	-	16,067	112,925	
Gain arising from intra-group property, plant				
and equipment disposal subject to taxation	-	46,578	-	
Effect attributable to subsidiaries with income tax				
exemptions	(33,852)	-	-	
Income not subject to taxation	(4,462)	-	-	
Reversal of income tax provision made in prior years				
as a result of tax clearance with local tax bureau	(81,807)	-	-	
Others	(7,350)	-		
Tax charge/(credit)	(138,704)	(162,932)	23,763	

⁽b) The Group operates international flights to overseas destinations. There was no material overseas taxation for the years ended December 31, 2006 and 2007, as there are double tax treaties between the PRC and the corresponding jurisdictions (including Hong Kong) relating to aviation businesses.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

12. TAXATION (CONTINUED)

(c) Deferred income tax assets and liabilities are offset when there is a legally enforceable right of offset and when the deferred income taxes relate to the same authority. The following amounts, determined after appropriate offsetting, are shown in the balance sheets:

	December 31		
	2006	2007	
	RMB'000	RMB'000	
Deferred tax assets			
 Deferred tax asset to be utilized after 12 months 	81,010	111,874	
 Deferred tax asset to be utilized within 12 months 	1,136	1,337	
	82,146	113,211	
Deferred tax liabilities			
 Deferred tax liability to be realized after 12 months 	(68,459)	(50,369)	
 Deferred tax liability to be realized within 12 months 	-	-	
	(68,459)	(50,369)	
Deferred tax assets/(liabilities), net	13,687	62,842	

Movements in the net deferred taxation asset/(liability) are as follows:

	December 31		
	2006 RMB'000	2007 RMB'000	
At January 1	(166,501)	13,687	
Additions through business acquisitions	(29,326)	-	
Credited to income statement	211,004	49,155	
Charged/(credited) to equity – gain/(losses) on cash flow hedges (Note 36)	(1,490)	-	
At December 31	13,687	62,842	

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

12. TAXATION (CONTINUED)

The deferred tax assets and liabilities (prior to the offsetting of balances within the same tax jurisdiction) were made up of the taxation effects of the following:

	December 31		
	2006	2007	
	RMB'000	RMB'000	
Deferred tax assets:			
Tax losses carried forward	90,335	317,392	
Provision for obsolete flight equipment spare parts	68,574	138,783	
Provision for receivables	57,467	79,195	
Provision for post-retirement benefits	216,570	351,283	
Other accrued expenses and provisions	97,823	107,283	
	530,769	993,936	
Deferred tax liabilities:			
Depreciation and amortization	(517,082)	(931,094)	
	(517,082)	(931,094)	
Net deferred tax assets/(liabilities)	13,687	62,842	

In accordance with the PRC tax law, tax losses can be carried forward to offset against future taxable income for a period of five years. As at December 31, 2007, the Group had tax losses carried forward of approximately RMB 5,380 million (2006: RMB5,849 million) which will expire between 2008 and 2012, and which are available to set off against the Group's future taxable income. As at December 31, 2007, the Group did not recognize RMB1,028 million (2006: RMB882 million) of deferred tax assets arising from tax losses available as management did not consider it probable that such tax losses would be realized before they expire.

13. DIVIDEND

No interim dividend was paid during both 2007 and 2006.

The Board of Directors of the Company has not recommended any dividend in respect of the year ended December 31, 2007. No final dividend was paid in respect of the year ended December 31, 2006.

14. PROFIT/LOSS ATTRIBUTABLE TO SHAREHOLDERS

The profit attributable to equity holders of the Company is dealt with in the financial statements of the Company to the extent of RMB420 million (2006: loss of RMB2,664 million, 2005, loss of RMB406 million).

15. EARNING/LOSS PER SHARE

The calculation of basic earning per share is based on the profit attributable to equity holders of the Company of RMB269 million (2006: loss of RMB3,313 million, 2005: loss of RMB467 million) and the weighted average number of shares of 4,866,950,000 (2006: 4,866,950,000, 2005: 4,866,950,000) in issue during the year.

The Company has no potentially dilutive option or other instruments relating to ordinary shares.

F-52				

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

16. INTANGIBLE ASSETS (CONTINUED)

Notes:

(a) Impairment tests for goodwill

The Group operates in two cash-generating units ("CGU") which are passenger (including cargo carried by passenger flights) and cargo and logistics.

The recoverable amount of a CGU is determined based on value-in-use calculations. These calculations use cash flow projections based on financial forecasts, with reference to past performance and expectations for market development, approved by management covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated growth rates which do not exceed the long-term average growth rate for the aviation businesses in which the CGU operates. The discount rate used of approximately 10% is pre-tax and reflects specific risks relating to the Group's business.

(b) Sponsorship fees

In March 2006, the Company entered into an agreement (the "Sponsorship Agreement") with the Bureau of 2010 Expo Shanghai (the "Bureau") which designated the Group as the exclusive airline passenger carrier in the PRC to sponsor the 2010 Shanghai Expo. The Company will be entitled to a number of rights, including but not limited to the use of the Expo logo in the Group's products, priority to purchase advertising space at the Expo site etc. In return, the Company is required to pay a total sponsorship fee of RMB320 million, RMB160 million of which would be paid in cash by instalments, the remaining RMB160 million would be settled by value-in-kind services ("VIK") (in the form of goods or services) to support the 2010 Shanghai Expo. Accordingly, an intangible asset has been recognized and is being amortized on a straight-line basis over the beneficial period from the effective date of the Sponsorship Agreement to the completion of the Expo. The outstanding sponsorship fee of RMB233 million (2006: 279 million) has also been recognized as other long-term liabilities (Note 31) in the Group's balance sheet.

17. PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

Notes:

(a) On December 31, 2007, the Group's property, plant and equipment were carried at their revalued amounts and costs less accumulated depreciation and impairment loss. Had the property, plant and equipment of the Group and the Company been stated at cost less accumulated depreciation and impairment losses, the carrying amounts of property, plant and equipment would have been as follows:

	2006 RMB'000	2007 RMB'000
At December 31	39,722,018	47,227,254

- (b) In 2006 and 2007, the Board of Directors passed resolutions to dispose of certain aircraft and the related equipment and have been actively seeking buyers. The relevant assets have been reclassified as "Non-current assets held for sale" at December 31, 2006 and 2007 (Note 37).
- (c) As at December 31, 2007, aircraft owned by the Group with an aggregate net book amount of approximately RMB9,923 million (2006: RMB9,110 million) were pledged as collateral under certain loan arrangements (Note 29).

(Note (b))	389,871	-	
Prepaid staff benefits (Note (c))	54,898	40,567	
Rental and renovation deposits	31,338	33,032	
Other long-term receivables	90,280	78,249	
	1,099,265	660,751	

Notes:

- (a) The fair value of deposits relating to aircraft under operating leases of the Group is RMB441 million (2006: RMB480 million), which is determined using the expected future payments discounted at market interest rates prevailing at the year end of 2.4%-3.06% (2006: 2.5%-4.0%).
- (b) The deposits are pledged as collateral under certain finance lease arrangements (Note 28). The fair value of deposits relating to aircraft under finance leases of the Group is RMB420 million (2006: RMB1,249 million), which is determined using the expected future payments discounted at market interest rates prevailing at the year end of 2.4% (2006: 2.6%). The deposits are caused at amortized cost.

	2006	2007
	RMB'000	RMB'000
Deposits relating to aircraft under finance leases	1,199,250	419,604
Less: Deposits relating to aircraft under finance leases - current portion		
(Note 24)	(809,379)	(419,604)
Deposits relating to aircraft under finance leases - Long term portion	389,871	-

(c) Prepaid staff benefits represent subsidies to certain employees as an encouragement to purchase motor vehicles. The employees are required to serve the Group for six years from the date of receipt of the subsidies. If the employee leaves before the end of the six-year period, a refund by the employee is required calculated on a pro-rata basis. These subsidies are amortized over six years on a straight-line basis.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

23. TRADE RECEIVABLES AND NOTES RECEIVABLE

The credit terms given to trade customers are determined on an individual basis, with the credit periods generally ranging from half a month to two months.

The aging analysis of trade receivables and notes receivable is as follows:

	2006 RMB'000	2007 RMB'000
Within 90 days	1,506,219	1,761,799
91 to 180 days	118,323	104,991
181 to 365 days	88,342	187,355
Over 365 days	97,303	101,769
	1,810,187	2,155,914
Less: provision for impairment of receivables	(90,405)	(59,907)
	1,719,782	2,096,007

The carrying amounts of the trade receivables approximate their fair value.

Trade receivables that were neither past due nor impaired relate to a large number of independent sales agents for whom there is no recent history of default.

As of December 31, 2007, trade receivables of RMB360 million (2006: RMB343 million) were past due but not impaired. These relate to a number of independent sales agents for whom there is good track record with the Group. The Group holds cash deposit of RMB202 million (2006: RMB267 million) as collateral against these trade receivables. The ageing analysis of these trade receivables is as follows:

	2006	2007
	RMB'000	RMB'000
Up to 6 months overdue	269,727	202,238
6 to 12 months overdue	73,979	157,850
	343,706	360,088

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

23. TRADE RECEIVABLES AND NOTES RECEIVABLE (CONTINUED)

As of December 31, 2007, trade receivables of RMB44 million (2006: RMB72 million) were impaired and fully provided for. The remaining impaired trade receivables relate to customers that were in financial difficulties and only a portion of the receivables is expected to be recovered. The factors considered by management in determining the impairment are described in Note 2(r).

The ageing of these receivables is as follows:

	2006	2007
	RMB'000	RMB'000
12 to 24 months overdue	25,560	26,734
Over 24 months overdue	71,743	75,035
	97,303	101,769

Movements on the group provision for impairment of trade receivables are as follows:

	2006	2007
	RMB'000	RMB'000
At January 1	93,010	90,405
Receivables written off during the year as uncollectible	-	(4,009)
Unused amounts reversed	(2,605)	(26,489)
At December 31	90,405	59,907

The carrying amounts of the Group's trade receivables are denominated in the following currencies:

	2006 RMB'000	2007 RMB'000
Currency		
Renminbi	1,480,012	1,800,355
US Dollar	85,129	89,944
HK Dollar	67,803	80,246
Euro	38,698	54,185
Korea Won	21,217	41,538
Japanese Yen	4,270	1,323
Other currencies	22,653	28,416
	1,719,782	2,096,007

The net impact of creation and release of provisions for impaired receivables have been included in 'Provision for impairment of trade and other receivables' in the income statement (Note 9). Amounts charged to the provision account are generally written off when there is no expectation of recovering additional cash.

The maximum exposure to credit risk at the reporting date is the carrying amount of receivables shown above.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

24. PREPAYMENTS, DEPOSITS AND OTHER RECEIVABLES

	2006	2007
	RMB'000	RMB'000
Rebates receivable on aircraft acquisitions	627,640	929,652
Deposits relating to aircraft under finance leases - current portion (Note		
22(b))	809,379	419,604

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

28.

Obligations under finance leases

At December 31, 2007, the Group had 55 aircraft (2006: 46) under finance leases. Under the terms of the leases, the Group has the option to purchase, at or near the end of the lease terms, certain aircraft at fair market value and others at either fair market value or a percentage of the respective lessors' defined cost of the aircraft. The obligations under finance leases are principally denominated in US Dollars.

The future minimum lease payments (including interest), and the present value of the minimum lease payments under finance leases are as follows:

	Dec	ember 31,200	06	Dec	cember 31,200°	7
						Present
			Present value			value of
	Minimum		of minimum	Minimum		minimum
	lease		lease	lease		lease

The fair values of obligations under finance leases of the Group are RMB16,577million (2006: RMB11,550 million), which are determined using the expected future payments discounted at market interest rates prevailing at the year end of 4.77% to 7.34% (2006: 2.5% to 7.0%).

At December 31, 2007, the Group had bank deposits totaling RMB420 million (2006: RMB1,249 million) pledged as collateral under certain finance lease arrangements (Note 22(b)).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

29. BORROWINGS

	December	December 31,	
	2006	2007	
	RMB'000	RMB'000	
Long-term bank borrowings			
- secured	6,655,850	4,767,233	
– unsecured	8,276,257	9,907,593	
	14,932,107	14,674,826	
Less: current portion	2,840,694	3,305,519	
Non-current portion	12,091,413 11,3		
Short-term bank borrowings	13,175,633	15,189,002	
The borrowings are repayable as follows:			
Within one year	16,016,327	18,494,521	
In the second year	3,053,315	5,927,098	
In the third to fifth year inclusive	7,560,389	4,216,517	
After the fifth year	1,477,709	1,225,692	
	28,107,740	29,863,828	

As at December 31, 2007, the secured bank borrowings of the Group for the purchases of aircraft were secured by the related aircraft with an aggregate net book amount of RMB9,923 million (2006: RMB9,110 million) (Note 17).

Certain unsecured bank borrowings of the Group totaling of RMB1,008 million (2006: RMB695 million) were guaranteed by CEA Holding (Note 40(c)).

Short-term borrowings of the Group are repayable within one year with interest charged at the prevailing market rates based on the rates quoted by the People's Bank of China. As at December 31, 2007, the interest rates relating to such borrowings ranged from 4.38% to 6.72% per annum (2006: 4.39% to 6.12% per annum). During the year ended December 31, 2007, the weighted average interest rate on short-term bank loans was 5.75 % per annum (2006: 5.60% per annum).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

29. BORROWINGS (CONTINUED)

The terms of the long-term bank borrowings are summarised as follows:

Currency	Interest rate and final maturities	2006 RMB'000	2007 RMB'000
RMB denominated	Interest rates ranging from 4.52% to 7.64% per annum with final maturities through to 2017.	5,707,500	6,132,551
U.S. dollar denominated	Interest rates ranging from 5.55% to 6.15% per annum with final maturities through to 2019	9,124,607	8,418,967
EURO denominated	Interest rate is 6 months LIBOR +0.6% with final maturity through 2010.	100,000	123,308
Total long-term bank borrowings		14,932,107	14,674,826

The fair value of long-term borrowings of the Group is RMB14,111 million (2006: RMB15,397 million), which is determined using the expected future payments discounted at market interest rates prevailing at the year end of 7.71% (2006: 4.5%).

The carrying amounts of the borrowings are denominated in the following currencies:

	2006 RMB'000	2007 RMB'000
Renminbi	11,309,419	12,528,550
US Dollars	16,698,321	17,196,836
Euro	100,000	130,145

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

32. RETIREMENT BENEFIT PLANS AND POST-RETIREMENT BENEFITS

(a) Defined contribution retirement schemes

(i) Pension

The Group companies participate in defined contribution retirement schemes organised by municipal governments of the various provinces in which the Group companies operate, and substantially all of the Group's PRC employees are eligible to participate in the Group companies' retirement schemes. The Group companies are required to make annual contributions to the schemes at rates ranging from 20% to 22% on the employees' prior year salary and allowances. Employees are required to contribute to the schemes at rate 8% of their basic salaries. The Group has no other material obligation for the payment of retirement benefits beyond the annual contributions under these schemes. For the year ended December 31, 2007, the Group's pension cost charged to the consolidated income statement amounted to RMB296 million (2006: RMB238 million, 2005: RMB228 million).

(ii) Medical insurance

The majority of the Group's PRC employees participate in the medical insurance schemes organised by the municipal governments, under which the Group and its employees are required to contribute to the scheme approximately 12% and 2%, respectively, of the employee's basic salaries. For those employees who participate in these schemes, the Group has no other obligation for the payment of medical expense beyond the annual contributions. For the year ended December 31, 2007, the Group's medical insurance contributions charged to the income statement amounted to RMB77 million (2006: RMB60 million, 2005: RMB52 million).

(b) Post-retirement benefits

In addition to the above retirement schemes, the Group provides retirees with other post-retirement benefits including transportation subsidies, social function activities subsidies and others. The expected cost of providing these post-retirement benefits is actuarially determined and recognized by using the projected unit credit method, which involves a number of assumptions and estimates, including inflation rate, discount rate and employees' turnover ratio.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

32. RETIREMENT BENEFIT PLANS AND POST-RETIREMENT BENEFITS (CONTINUED)

The post-retirement benefit obligations recognized in the balance sheets are as follows:

	2006 RMB'000	2007 RMB'000
Present value of unfunded post-retirement benefit obligations	1,892,926	2,155,393
Unrecognized actuarial losses	(569,242)	(750,266)
Post-retirement benefit obligations	1,323,684	1,405,127
Less: current portion (Note 27)	(30,724)	(34,425)
Long-term portion	1,292,960	1,370,702
Changes in post-retirement benefit obligations are as follows:		
	2006	2007

	2006	2007
	RMB'000	RMB'000
At January 1	1,238,702	1,323,684
Charged to income statement (Note 8)	146,968	170,670
Payments	(61,986)	(89,227)
At December 31	1,323,684	1,405,127
F-72		

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

32. RETIREMENT BENEFIT PLANS AND POST-RETIREMENT BENEFITS (CONTINUED)

(b) Post-retirement benefits (Continued)

The costs of post-retirement benefits are recognized under wages, salaries and benefits in the income statement as follows:

	2005	2006	2007
	RMB'000	RMB'000	RMB'000
Current service cost	56,436	63,957	73,416
Interest cost	45,200	72,435	83,858
Actuarial losses recognized	823	10,576	13,396
Total (Note 8)	102,459	146.968	170.670

The principal actuarial assumptions at the balance sheet date are as follows:

	2006	2007
Discount rate	3.75%	4.75%
Annual rate of increase of per capita benefit payment	1.5%	2.5%
Employee turnover rate	3.0%	3.0%
Mortality rate	8.84%	8.43%

33. STAFF HOUSING BENEFITS

(a) Staff housing fund

In accordance with the PRC housing reform regulations, the Group is required to contribute to the State-sponsored housing fund at rates ranging from 7% to 15% (2006: 7% to 15%) of the specified salary amount of its PRC employees. At the same time, the employees are required to contribute an amount equal to the Group's contribution. The employees are entitled to claim the entire sum of the fund contributed under certain specified withdrawal circumstances. For the year ended December 31, 2007, the Group's contributions to the housing funds amounted to RMB285 million (2006: RMB228 million, 2005: RMB195 million) which has been charged to the income statement. The staff housing fund payable as at December 31, 2007 amounted to RMB135 million (2006: RMB123 million) (Note 27). The Group has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

(b) Staff housing allowances

In addition to the above staff housing fund contributed to the state sponsored housing fund, the Group also provides staff housing allowances to eligible employees who have not been allocated with any housing quarters or who have not been allocated with a quarter above the minimum as set out in the Group's staff housing allowance policy introduced in October 2003 (the "Policy") based on the area of quarter to which they are entitled and the unit price as set out in the Policy.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

33. STAFF HOUSING BENEFITS (CONTINUED)

The total entitlement is principally vested over a period of 20 years. Upon an employee's resignation, his or her entitlement will cease and any unpaid entitlement related to past service up to the date of resignation will be paid. As at December 31, 2007, the present obligation of the provision for employee's staff housing entitlement is RMB363 million (2006: RMB439 million).

For the year ended December 31, 2007, the staff housing benefits provided under the Policy amounted to RMB53 million (2006: RMB31 million, 2005: RMB36 million) which has been charged to the income statement (Note 8).

34. DERIVATIVE FINANCIAL INSTRUMENTS

	Asset	s	Liabilities

Non-current portion	73,269	6,077	14,096	21,558	

The maximum exposure to credit risk at the reporting date is the fair value of the derivative assets in the balance sheet.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

34. DERIVATIVE FINANCIAL INSTRUMENTS (CONTINUED)

Notes:

(a) Interest rate swaps

The Group uses interest rate swaps to reduce the risk of changes in market interest rates (Note 3(a)(ii)). The interest rate swaps entered into by the Group are generally for swapping variable rates, usually referenced to LIBOR, into fixed rates. The Group's interest rate swaps qualify for hedge accounting and are accounted for as cashflow hedges. As at December 31, 2007, the notional amount of the outstanding interest rate swap agreements was approximately US\$624 million (2006: US\$631 million). These agreements will expire between 2008 and 2016. For the year ended December 31, 2007, a net loss of RMB80 million (2006: RMB4 million) arising from changes in the fair value of the interest rate swaps subsequent to initial recognition has been recognized directly in the hedging reserve (Note 36).

(b) Forward foreign exchange contracts

The Group uses currency forward contracts to reduce risk of changes in currency exchange rates in respect of ticket sales and expenses denominated in foreign currencies (Note 3(a)(i)). These contracts are generally for selling Japanese Yen and purchasing U.S. dollars at fixed exchange rates. As at December 31, 2007, the notional amount of the outstanding currency forward contracts was approximately US\$33 million (2006: US\$33 million), which will expire between 2008 and 2010. For the year ended December 31, 2007, a net gain of RMB2 million (2006: a net gain of RMB6 million) arising from changes in the fair value of these foreign currency forwards has been recognized directly in the hedging reserve (Note 36).

(c) Fuel option contracts

The Group uses fuel option contracts to reduce the risk of changes in market oil/petroleum prices in connection with aircraft fuel costs. As at December 31, 2007, the Group had outstanding fuel option contracts to buy approximately 7,980,000 barrels of crude oil at prices which ranged from US\$50 to US\$95 per barrel and to sell approximately 2,300,000 barrels of crude oil at prices which ranged from US\$43 to US\$115 per barrel, all of which will expire between 2008 and 2009. Management did not designate these fuel option contracts for hedge accounting and changes in fair values have been recognized directly in the income statement.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

36. Reserves (continued)

Notes:

(a) Statutory and Discretionary Reserves

	December 31,		
	2006	2007	
	RMB'000	RMB'000	
Statutory common reserve fund	400,819	-	
Discretionary common reserve fund	27,989	-	
	428,808	-	

Pursuant to the PRC regulations and the Group companies' Articles of Association, each of the Group companies is required to transfer 10% of its profit for the year, as determined under the PRC Accounting Regulations, to a statutory common reserve fund until the fund balance exceeds 50% of the Group company's registered capital. The statutory common reserve fund can be used to make good previous years' losses, if any, and to issue new shares to shareholders in proportion to their existing shareholdings or to increase the par value of the shares currently held by them, provided that the balance after such issue is not less than 25% of the registered capital.

Each of the Group companies is permitted to transfer 5% of its profit for the year as determined under the PRC Accounting Regulations, to a discretionary common reserve fund. The transfer to this reserve is subject to approval at shareholders' meetings.

No profit appropriation by the Company to the discretionary common reserve fund has been made for the year ended December 31, 2007 (2006: nil).

The Group adopted the Accounting Standards for Business Enterprises promulgated by the Ministry of Finance of PRC on February 15, 2006 (the "new PRC GAAP") from January 1, 2007. According to the relevant requirements under the new PRC GAAP, certain adjustments were made to the retained earnings in previous years upon first-time adoption. While the new PRC GAAP no longer permits the Group's share of surplus reserves of subsidiaries to be presented on a consolidated basis, an additional adjustment on the transfer is made in the current year.

(b) Capital reserve

Capital reserve represents the difference between the fair value of the net assets injected and the nominal amount of the Company's share capital issued in respect of a group restructuring in June 1996.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

37. NON-CURRENT ASSETS HELD FOR SALE

In December 2006, the Board of Directors passed a resolution to dispose of certain older aircraft and related flight equipment in the forthcoming 12-months. Accordingly, these aircraft together with related flight equipment and spare parts were classified as non-current assets held for sale as at December 31, 2006. Despite of the Company's continuing effort to locate and negotiate with potential buyers, no agreement to dispose these assets has been reached. It is management's intention to dispose these assets in the forthcoming 12-months and management is continuing to take active step to locate potential buyers of these assets. They have therefore been classified as non-current assets held for sale as of December 31, 2007. An impairment loss of RMB131 million has been recognized in the income statement in relation to these assets.

In addition to the above non-current assets held or sale brought forward from 2006, in August 2007, the Group entered into a sale and leaseback transaction to dispose of certain other older aircraft in the forthcoming 12-months and the transaction was completed in March 2008. The related aircraft have been classified as non-current assets held for sale as of December 31, 2007.

The aggregate carrying amount of non-current assets held for sale as at December 31, 2007 amounted to RMB2,262 million. Liabilities directly associated with these assets held for sale amounted to RMB127 million as at December 31, 2007, representing bank loans with interest rates ranging from 5.02% to 5.55% and final maturities through to 2008. The bank loans are secured by the related aircraft at a net carrying amount of RMB296 million.

In the third to fifth year inclusive	6,253,277	4,991,164
After the fifth year	7,021,741	5,341,362
	18,743,295	15,191,339
Land and buildings		
Within one year	153,487	87,410
In the second year	42,362	50,683
In the third to fifth year inclusive	71,587	40,888
After the fifth year	54,535	29,846
	321,971	208,827
	19,065,266	15,400,166

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

40. RELATED PARTY TRANSACTIONS

The Group is part of a larger group of companies under CEA Holding and has extensive transactions and relationships with members of CEA Holding. Related parties refer to entities of which CEA Holding is a shareholder and is able to exercise control or joint control. The transactions were made at prices and terms mutually agreed between the parties. The directors of the Company are of the opinion that the transactions with related parties (see below) during the year were conducted in the usual course of business.

The Group is controlled by CEA Holding, which owns approximately 61.64% of the Company's shares as at December 31, 2007. The aviation industry in the PRC is administrated by the CAAC. CEA Holding and the Group is ultimately controlled by the PRC government, which also controls a significant portion of the productive assets and entities in the PRC (collectively referred as the "SOEs").

(a) Related party transactions

The Group sells air tickets through sales agents and is therefore likely to have extensive transactions with other state-controlled enterprises, and the employees and their close family members of SOEs while such employees are on corporate business. These transactions are carried out on normal commercial terms that are consistently applied to all of the Group's customers. Due to the large volume and the pervasiveness of these transactions, management is unable to determine the aggregate amount of the transactions for disclosure. Therefore, retail transactions with these related parties are not disclosed herein. The Directors of the Company believe that meaningful related party disclosures on these retail transactions have been adequately made.

(c) Guarantees by holding company

Certain unsecured bank borrowings of the Group totaling of RMB1,008 million (2006: RMB695 million) were guaranteed by CEA Holding (Note 29).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

41. ULTIMATE HOLDING COMPANY

The Directors regard CEA Holding, a state-owned enterprise established in the PRC, as being the ultimate holding company.

42. CONTINGENT LIABILITIES

In 2005, the family members of certain victims in the aircraft accident (the aircraft was the nowned and operated by China Eastern Air Yunnan Company), which occurred in Baotou on November 21, 2004, sued the Company in a U.S. court for compensation.

On July 5, 2007, pursuant to several conditions with which the Company has complied, the Superior Court of the State of California ordered the action stayed on the grounds of forum non convenience for the purpose of permitting proceedings in the PRC. On February 20, 2008, the plaintiff filed a motion with the Superior Court of the State of California to lift the stay. The case is still pending. The Directors believe that a negative outcome will not have a material adverse effect on the financial condition and results of operations of the Company.

43. POST BALANCE SHEET EVENT

- (a) On August 29, 2007, the Company convened a board meeting in which the Directors of the Company approved a plan to set up a regional carrier with China Aviation Industry Corporation I (AVIC I). On January 24, 2008, the Company entered into an agreement with AVIC I agreeing that the regional carrier would have a registered capital of RMB 1 billion in which the Company holds a 40% interest. The new carrier, Xingfu Airlines, was established on March 28, 2008
- (b) On January 20, 2008, the Company entered into an agreement with the Boeing Company to purchase 30 737 NG Series aircraft (with engines) at a consideration of approximately US\$1.94 billion (approximately RMB13.98 billion).
