BIOMETRX, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - Basis of Presentation

In the opinion of the Company's management, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the information set forth therein. These financial statements are condensed and therefore do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements.

Results of operations for interim periods are not necessarily indicative of the results of operations for the full year.

The Company has incurred a net loss of \$3,887,506 for the six months ended June 30, 2008 and has a working capital deficit of \$3,934,965 at June 30, 2008. The Company's net cash used in operations during the six months ended June 30, 2008 was \$1,004,994. The Company continues to assess and maintain a strict budget discipline. The Company though optimistic about internally generating cash flow sufficient to meet recurring expenses remains dependent upon raising additional capital. These factors raise substantial doubt about the Company's ability to continue as a going concern, though the Company has raised additional funds from investors.

There can be no assurance that sufficient funds will be generated during the next year or thereafter from operations or that funds will be available from external sources, such as debt or equity financings or other potential sources. The lack of additional capital could force the Company to curtail or cease operations and would, therefore, have an adverse effect on its business. Furthermore, there can be no assurance that any such required funds, if available, will be available on attractive terms or that they will not have significant dilutive effect on the Company's existing stockholders.

The accompanying unaudited condensed consolidated financial statements do not include any adjustments related to the recoverability or classification of asset-carrying amounts or the amounts and classifications of liabilities that may result should the Company be unable to continue as a going concern.

The Company is attempting to address its lack of liquidity by raising additional funds, either in the form of debt or equity, or some combination thereof.

There can be no assurances that the Company will be able to raise the additional funds it requires.

In 2007 the Company exited the development stage since principal operations commenced.

Note 2 - Recently Issued Accounting Pronouncements

Recent Accounting Pronouncements

In February, 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities - Including an amendment of FASB Statement No. 115" ("SFAS No. 159"). This statement permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, which is consistent with the Board's long-term measurement objectives for accounting for financial instruments. This statement is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007, although earlier adoption is permitted. Management has not determined the effect the adoption of this standard will have on the Company's financial position, results of operations or cash flows.

In June 2007, the Accounting Standards Executive Committee issued Statement of Position 07-1, "Clarification of the Scope of the Audit and Accounting Guide Investment Companies and Accounting by Parent Companies and Equity Method Investors for Investments in Investment Companies" ("SOP 07-1"). SOP 07-1 provides guidance for determining whether an entity is within the scope of the AICPA Audit and Accounting Guide Investment Companies (the "Audit Guide"). SOP 07-1 was originally determined to be effective for fiscal years beginning on or after December 15, 2007, however, on February 6, 2008, FASB issued a final Staff Position indefinitely deferring the effective date and prohibiting early adoption of SOP 07-1 while addressing implementation issues.

In June 2007, the FASB ratified the consensus in EITF Issue No. 07-3, "*Accounting for Nonrefundable Advance Payments for Goods or Services to be Used in Future Research and Development Activities*" (EITF 07-3), which requires that nonrefundable advance payments for goods or services that will be used or rendered for future research and development (R&D) activities be deferred and amortized over the period that the goods are delivered or the related services are performed, subject to an assessment of recoverability. EITF 07-3 will be effective for fiscal years beginning after December 15, 2007. The adoption of EITF 07-3 has not had a material impact on the Company's financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 141(R), "Business Combinations" ("SFAS No. 141(R)"), which establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in an acquiree, including the recognition and measurement of goodwill acquired in a business combination. SFAS No. 141(R) is effective as of the beginning of the first fiscal year beginning on or after December 15, 2008. Earlier adoption is prohibited and the Company is currently evaluating the effect, if any, that the adoption will have on its financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interest in Consolidated Financial Statements, an amendment of ARB No. 51" ("SFAS No. 160"), which will change the accounting and reporting for minority interests, which will be recharacterized as noncontrolling interests and classified as a component of equity within the consolidated balance sheets. SFAS No. 160 is effective as of the beginning of the first fiscal year beginning on or after December 15, 2008. Earlier adoption is prohibited and the Company is currently evaluating the effect, if any, that the adoption will have on its financial position, results of operations or cash flows.

Note 4 - Notes Payable

Notes payable at June 30, 2008 consist of the following:

Notes payable to private investors; bearing interest at 10% per annum and due May 15, 2008.	\$	800,000
---	----	---------

The loans are evidenced by 10% Promissory Notes due May 15, 2008. As part of an extension agreement entered into on August 27, 2007 the lenders agreed to extend Notes that had previously been due on June 30, 2007 until May 15, 2008. Such Extension Agreement was entered into in contemplation of a proposed financing for the Company. As of June 30, 2008, the Notes are in default and due on demand.

Note Payable to Biometrx Investors, LLC (BIL) (see Note 10), is evidenced by a 12%, secured Promissory Note, due April 21, 2009, secured by various Company assets including accounts receivable, inventory, and fixed assets. Interest accrues and is payable monthly beginning November 1, 2008. (See Note 10)

Note 6 - Convertible Notes

On June 29, 2006, the Company entered into a Securities Purchase Agreement, with four investors relating to the issuance and sale, in a private placement exempt from the registration requirements of the Securities Act of 1933, as amended, of units (the "Units") consisting of 8% Convertible Notes in the principal amount of \$950,000 ("Notes"), Series A Common Stock Purchase Warrants ("A Warrants") and Series B Common Stock Purchase Warrants ("B Warrants"). In addition, the company entered into an Exchange Agreement with the two investors who purchased \$650,000 of the Preferred Stock Units, previously reported on Form 8-K dated April 28, 2006 whereby the Company agreed to issue the Units in exchange for the return and cancellation of the previously issued Preferred Stock Units. Accordingly, at closing the Company issued its 8% Convertible Notes in the aggregate principal amount of \$1,600,000, 1,600,000 A Warrants and 800,000 B Warrants to the Investors. The Company also issued an aggregate of 128,000 shares of its common stock valued at \$172,800 to the investors representing one year's of prepaid interest on the Notes.

The Notes mature 24 months from the closing. The Notes are convertible at the option of the holder into the Company's common stock at the rate of \$1.00 per share. The Notes are mandatorily convertible into the Company's common stock if the closing bid price of the Company's common stock is above \$2.50 per share for ten (10) consecutive trading days and if the daily volume for the same period exceeds 100,000 shares per day. The Company may redeem the Notes for 125% of the principal amount of the Note together with all accrued and unpaid interest provided that (i) an event of default has not occurred, and (ii) an effective registration statement covering the shares underlying the Note exists.

Each A Warrant entitles the holder to purchase one share of the Company's common stock at an exercise price of \$1.75 per share commencing on the date of issuance and expiring at the close of business on the fifth anniversary of the issuance date. Each B Warrant entitles the holder to purchase one share of the Company's common stock at an exercise price of \$.10 per share commencing 181 days after issuance and expiring at the close of business on the fifth anniversary of the initial exercise date. Notwithstanding the foregoing if the Company provides the holder of a B Warrant with validation and acknowledgement, in the form of bona fide purchase order demonstrating that at least \$1,000,000 of the Company's products have been ordered, other than its initial order from a national retailer in the amount of approximately 23,000 garage door opening units, within 181 days after the date of the Securities Purchase Agreement, the B Warrants shall automatically terminate. The Company did not receive this purchase order. Both the A and B Warrants contain provisions that protect the holder against dilution by adjustment of the exercise price in certain events including, but not limited to, stock dividends, stock splits, reclassifications, or mergers.

BIOMETRX, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 6 - Convertible Notes (Continued)

Pursuant to the Selling Agent Letter Agreement between the Company and the Selling Agent, the Selling Agent was paid a cash fee of \$95,000 (10% of the aggregate purchase price of the Units sold to the subscribers) in addition to the \$75,000 it received, inclusive of \$10,000 in expenses. The Company also issued the Selling Agent a warrant to purchase 160,000 shares of its common stock on the same terms as the A Warrants. Such warrant was valued at \$182,716 using the Black Scholes model. In addition, the Company paid \$15,000 to the Selling Agent's counsel and \$32,500 to its counsel.

The Company recorded a combined debt discount in the amount of \$1,215,200 to reflect the beneficial conversion feature of the convertible debt and the value of the warrants. The beneficial conversion feature, was recorded pursuant to Emerging Issues Task Force ("ETIF") 00-27: Application of EITF No. 98-5, "Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios," to certain convertible instruments. In accordance with EITF 00-27, the Company evaluated the value of the beneficial conversation feature and recorded this amount (\$207,200) as a reduction of the carrying amount of the convertible debt and as an addition to paid-in capital. Additionally, the fair value of the warrants (\$1,008,000) was calculated and recorded as a further reduction to the carrying amount of the convertible debt and as addition to paid-in capital.

The Company is amortizing the discount over the term of the debt. Amortization of the debt discount for the quarter ended June 30, 2008 was \$136,838, and this amortization is recorded as interest expense for the value of the warrants and the value of the beneficial conversion feature.

As part of the Private Placement, the Company entered into a registration rights agreement (the "Registration Rights Agreement") with each subscriber who purchased Units in the Private Placement. Under the Registration Rights Agreement, the Company is obligated to file a registration statement (the "Registration Statement") on Form SB-2, relating to the resale by the holders of the Common Stock underlying the Notes, Warrants and Selling Agent Warrant. If such Registration Statement was not filed by July 14, 2006, or does not become effective within 90 days after closing, the Company has agreed to pay to the investors 1.5% of the gross proceeds of the offering for each month in which the Company fails to comply with such requirements. The Company did not file the Registration Statement by July 14, 2006 and therefore is accruing 1.5% (\$24,000) of the gross proceeds for each month the Company fails to file the Registration Statement. For the year ended December 31, 2006 the Company recorded \$144,000 as additional finance costs. In December 2006 the Company issued to the Convertible Noteholders Forebearance Notes in the amount of \$387,437 that included the \$144,000 liquidated damages.

On October 10, 2006 the Company amended the exercise price of the 1,600,000 Class A Warrants relating to the above referenced Private Placement from \$1.75 to \$1.00. Subsequently, the Company offered to lower the exercise price to the investors to \$.30 if the investors would exercise in cash in lieu of a cashless exercise.

The Company entered into a Securities Purchase Agreement dated as of December 28, 2006, with three investors relating to the issuance and sale, in a private placement ("Private Placement") exempt from the registration requirements of the Securities Act of 1933, as amended (the "Securities Act"), of units (the "Units") consisting of Senior Convertible Debentures in the principal amount of \$1,500,000 ("Debentures"), 1,500,000 Series A Common Stock Purchase Warrants ("A Warrants") and 750,000 Series B Common Stock Purchase Warrants ("B Warrants"). The closing occurred on January 5, 2007.

BIOMETRX, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 6 - Convertible Notes (Continued)

The Debentures matured on June 29, 2008. The Debentures are convertible at the option of the holder into the Company's common stock at the rate of \$1.00 per share. The Debentures are convertible at the option of the Company into the Company's common stock if the closing bid price of the Company's common stock is above \$2.50 per share for ten (10) consecutive trading days and if the shares underlying the Debentures are registered. The Company may redeem the Debentures for 125% of the principal amount of the Debenture together with all accrued and unpaid interest provided that (i) an event of default has not occurred, (ii) the price of the Company's common stock exceeds \$1.50 and (ii) an effective registration statement covering the shares underlying the Debentures exists.

Each A Warrant entitles the holder to purchase one share of the Company's common stock at an exercise price of \$1.00 per share commencing on the date of issuance and expiring at the close of business on the fifth anniversary of the issuance date. Each B Warrant entitles the holder to purchase one share of the Company's common stock at an exercise price of \$.10 per share at any time after July 1, 2007 and expiring at the close of business on the fifth anniversary of the initial issuance date. Notwithstanding the foregoing if the Company provides the holder of a B Warrant with validation and acknowledgement on or before June 30, 2007 that the Company has both received and booked revenues for its products totaling \$1,000,000, the B Warrants shall automatically terminate. Both the A and B Warrants contain provisions that protect the holder against dilution by adjustment of the exercise price in certain events including, but not limited to, stock dividends, stock splits, reclassifications, or mergers.

The Company recorded a combined debt discount in the amount of \$1,500,000 to reflect the beneficial conversion feature of the convertible debt and the value of the warrants. The beneficial conversion feature, was recorded pursuant to Emerging Issues Task Force ("EITF") 00-27: Application of EITF No. 98-5, "Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios," to certain convertible instruments. In accordance with EITF 00-27, the Company evaluated the value of the beneficial conversion feature and recorded this amount (\$284,307) as a reduction of the carrying amount of the convertible debt and as an addition to paid-in capital. Additionally, the fair value of the warrants (\$1,215,693) was calculated and recorded as a further reduction to the carrying amount of the convertible debt and as addition to paid-in capital.

The Company is amortizing the discount over the term of the debt. Amortization of the debt discount for the quarter ended June 30, 2008 was \$114,640, and this amortization is recorded as interest expense for the value of the warrants and the value of the beneficial conversion feature.

Pursuant to the Selling Agent Letter Agreement between the Company and First Montauk Securities Corporation ("Selling Agent"), the Selling Agent was paid a cash fee of \$150,000 (10% of the aggregate purchase price of the Units sold to the subscribers). The Company also issued the Selling Agent a warrant to purchase 150,000 shares of its common stock on the same terms as the A Warrants.

As part of the Private Placement, the Company entered into a registration rights agreement (the "Registration Rights Agreement") with each subscriber who purchased Units in the Private Placement. Under the Registration Rights Agreement, the Company is obligated to file a registration statement (the "Registration Statement") on Form SB-2, relating to the resale by the holders of the Common Stock underlying the Debentures, Warrants and Selling Agent Warrant.

Note 6 - Convertible Notes (Continued)

As a condition to closing, the Company obtained consents and waivers from the investors of its private placement of \$1,600,000 principal amount of Convertible Notes (“Notes”) issued on June 29, 2006, pursuant to which each of the prior investors agreed to waive any and all existing defaults relating to the Notes and agreed to forebear from exercising any rights accruing upon default until June 30, 2007. In connection therewith, the Company issued to the investors Convertible Notes (“Forebearance Notes”) in the aggregate principal amount of \$387,437, representing liquidated damages due under the Notes. The Forebearance Notes are convertible into the Company’s common stock at \$1.00 per share.

The Company recorded a debt discount in the amount of \$387,437 to reflect the beneficial conversion feature of the forbearance convertible debt. The beneficial conversion feature, was recorded pursuant to Emerging Issues Task Force (“EITF”)00-27 Application of EITF No. 98-5. “Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios,” to certain convertible instruments. In accordance with EITF 00-27, the Company evaluated the value of the beneficial conversion feature and recorded this amount as a reduction of the carrying amount of the convertible debt and as an addition to paid-in capital.

The Company is amortizing the discount over the term of the debt. Amortization of the debt discount for the quarter ended June 30, 2008 was \$48,068.

During the six months ended June 30, 2008, 2,596,724 shares were issued to convert convertible debt of \$741,526 to stock, and to pay accrued interest payable of \$10,831 and current interest of \$34,484. Additionally, upon conversion \$15,511 of deferred finance costs were written off and debt conversion costs of \$201,938 were included in interest expense.

On May 30, 2008 bioMETRX, Inc. (the "Company") entered into a Securities Purchase Agreement, with an investor relating to the issuance and sale, in a private placement ("Private Placement") exempt from the registration requirements of the Securities Act of 1933, as amended (the "Securities Act"), of an aggregate of 555,555 shares of the Company's Common Stock priced at \$0.18 per share and 277,778 Common Stock Purchase Warrants ("Warrants"). As part of this Private Placement the investor has agreed to limit his sales of the Company's common stock to 10% of their respective holdings during any thirty (30) day period. The Company received gross proceeds of \$100,000 from the sale of the aforementioned securities. The proceeds of this Private Placement are being used primarily as working capital. The shares were subsequently issued on July 10th, 2008.

Each Warrant entitles the holder to purchase one share of the Company's common stock at an exercise price of \$1.00 per share commencing on the date of issuance and expiring at the close of business on the fifth anniversary of the issuance date. The Warrants contain provisions that protect the holder against dilution by adjustment of the exercise price in certain events including, but not limited to, stock dividends, stock splits, reclassifications, or mergers. The Warrants do not have a cashless exercise provision.

On May 30, 2008 the Company issued 26,667 shares of its common stock to an independent contractor in lieu of \$8,000 of expenses due and payable to him. The company also issued 2,000 shares to four employees as incentive shares.

On June 3, the Company issued 100,000 shares of its common stock to Michael Kevin Henderson as consideration of his entering into an employment agreement to serve as the Company's Senior Vice President of Business Development for an initial term of three years. The shares carried a value of \$28,000 at the time of issuance.

On June 4, the Company granted to Travis Ratledge 10,000 shares of its common stock as a signing bonus for his entering into an employment letter with the Company. The stock carried a value of \$2,800 at the time of issuance.

On June 16, the Company issued 68,645 shares and 64,107 shares of its common stock to Ernest Pellegrino and Max Povlotsky for the cash less exercise of 192,250 and 179,500 warrants respectively.

On May 2, 2008, the Company issued 300,000 shares of its common stock to John Rath as compensation under a financial consulting agreement between the Corporation and Mr. Rath.

On April 22, 2008, the Company issued 100,000 shares to Cliff Zsvec as consideration for his signing an Executive Employment Agreement.

The Company is dependent on raising additional funding necessary to implement its business plan. bioMETRX' auditors have issued a "going concern" opinion on the financial statement for the year ended December 31, 2007, indicating a working capital and net equity deficiency. These factors raise substantial doubt in bioMETRX' ability to continue as a going concern, though it has recently raised over \$885,000 through the sales of its common stock to accredited investors. If bioMETRX is unable to raise further funds or if revenues are insufficient to complete the development of its products and fund its operations, it is unlikely that bioMETRX will remain as a viable going concern.

2008 Professional/Consultant Stock Compensation Plan

On March 13, 2008, the Board of Directors adopted the Company's 2008 Professional/Consultant Stock Compensation Plan ("2008 Plan"). The purpose of the 2008 Plan is to provide compensation in the form of the Company's common stock to eligible consultants who render services to the Company.

The total number of share of the Company's common stock that may be issued under the 2008 Plan is 7,500,000. For each 12 month period during which the Plan is effective, the number of shares issued under the 2008 Plan is limited to 2,500,000. As of June 30, 2008 there were 661,959 shares issued under the 2008 Plan.

2005 Equity Incentive Plan

Effective December 20, 2005, the Board of Directors approved the formation of the 2005 Equity Incentive Plan ("the Plan") to benefit the Company's key employees (including its directors, officers and employees) as well as consultants of the Company and its affiliates.

On January 5, 2006 the Company amended its 2005 Equity Incentive Plan by allowing for a "cashless exercise" of stock options. When this provision is utilized, the shareholder will return the cost of the exercise of the option in shares back to the Company.

The aggregate number of shares that may be issued under the Plan is 1,250,000. The Plan permits the Company to make awards of stock options, stock appreciations rights, warrants, stock awards and other equity awards.

Legal Proceedings

On November 16, 2006, the Company was the subject of a complaint filed by Intellicon seeking a final payment of \$20,000 plus accrued interest for engineering design services performed for the Company. The Company has negotiated a settlement of this lawsuit, subject to the execution of a settlement agreement.

On March 7, 2007 the Company's subsidiary, bioMETRX Technologies Inc. became the subject of a complaint filed by two individuals, a former officer and a consultant with whom it had previously severed its business relationship. The plaintiffs allege damages arising from certain inducements which were relied upon to their detriment.

The Company considers these complaints to be baseless and without merit and has filed counter-claims in the matter. The company continues to vigorously pursue damages in the course of its defense of this complaint and other previous acts of the plaintiffs.

On March 10, 2008, the Company became the subject of a complaint entitle Arrow Electronics, Inc. v. bioMETRX Technologies, Inc. et al. The complaint was filed in the Supreme Court of the State of New York County of Nassau (Index No. 08-4900). The complaint alleges breach of contract and the plaintiff is seeking damages of \$194,139.15. The Company entered into a settlement agreement on June 26th, 2008. The Company paid \$35,000 at that time and is to pay \$13,250.83 per month for twelve months at twelve (12) per cent interest.

The Company is a defendant in a lawsuit titled Worldwide Electronic Solutions, L.L.C. v. Biometrx, Inc. et al. The action was filed in the Superior Court of the State of Arizona for the Country of Maricopa. The complaint alleged breach of contract and sought damages of approximately \$190,000, the Company did not answer the complaint in that it believes that the Court had no jurisdiction. The Company entered into a settlement agreement on May 14th, whereby they made a cash payment of \$25,000 and has escrowed 578,000 shares of its Common Stock as security for the Company making further payments under the settlement agreement. The Company is attempting to raise sufficient capital to retire this obligation within the next 120 days, In the event the Company fails to make the remaining payments they will forfeit these shares. Plaintiff's counsel filed on May 28th, 2008, a motion to withdraw the judgment previously issued by default WESCO.

At June 30, 2008 included in payroll taxes payable are federal tax liens of approximately \$300,000.

Note 10- Subsequent Events

On July 8, 2008, the Company, its wholly owned subsidiary bioMETRX Florida, Inc. (“Subsidiary”) and Biometrics Investors, Inc. (“BIL”) entered into an Asset Purchase Agreement whereby the Company through its Subsidiary acquired certain assets of Sequiam Corporation from BIL. BIL was Sequiam’s senior secured lender and BIL acquired these assets as a result of a default by Sequiam in its obligations to BIL and BIL’s subsequent foreclosure of the assets securing said obligations. The Company acquired from BIL substantially all of the operating assets of certain subsidiaries of Sequiam.

As consideration for these assets, the Company issued to BIL, 300 shares of the Company’s Series A Convertible Preferred Stock (“Preferred Stock”) of which 44 are immediately vested and the balance vests upon the happening of certain events more specifically described in the Certificate of Designation to be filed. Each share of Preferred Stock converts into shares of the Company’s Common Stock at the rate of 30,900 shares for each share of Preferred Stock, subject to adjustment for reverse and forward stock splits, stock dividends, stock combinations and other similar transactions occurring after the original issue date of the Preferred Stock. Upon closing of this asset purchase agreement, BIL’s converted a convertible note of \$250,000 into 1,388,889 shares of the Common Stock and 1,388,889 Common Stock Purchase Warrants exercisable for a term of five (5) years at an exercise price of \$1.00 per share.

On July 9, 2008, the Company issued 250,000 shares to Lexmark Consulting LLC pursuant to a financial and corporate advisory contract.

On August 1, 2008, the Company issued 12,500 shares of its common stock under its 2008 Professional/Consultant Stock Compensation Plan to Rodger Michell in consideration of \$2,214 in accounting services previously performed on behalf of the Corporation.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

Background

bioMETRX, Inc. (the "Company"), designs, develops, engineers and markets biometric-based (finger recognition) products for the consumer home security, and consumer electronics industries under its proprietary protected brand called "smartTOUCH™". The company is building a valuable leading product brand that consumers identify as having finger recognition technology and are easy to use, secure, smart and dependable, protecting families and simplifying their lives. The company's partners and clients include Master Lock Corporation (a Fortune Brands Subsidiary), The Overhead Door Company, Fujitsu, OKI Semiconductor, Honeywell, Hewlett Packard and the Shell Oil Company, among others.

The Company develops products for itself, and its partners and clients serving various vertical consumer residential and security markets. We provide OEM's with a broad range of products and services from our proprietary biometric embedded designs and solutions, to complete market ready products. We also support sales and marketing initiatives in assisting consumer awareness and accelerating market penetration for their products. We are the first company to bring a mainstream consumer biometric product to retail shelves, and we are the only company that has direct experience with consumers and biometric products in their homes.

The Company's new marketing initiatives include an aggressive co-branding campaign with its OEM partners that have established trusted brand recognition in their respective markets. The company is in negotiations with a high profile spokesperson to promote the "smartTOUCH™" brand to consumers in the home improvement market. The new spokesperson will host the company's online customer service product video tutorials, appear in both TV and print ads, as well as making personal appearances at trade shows.

The Company's core focus is on developing simple-to-use, cost-efficient, finger-activated, lifestyle products under the trade name smartTOUCH. Through its co-development, co-marketing and co-branding agreements, for example, with Master Lock Corporation , the Company also markets its products as Master Lock smartTOUCH through the diverse MasterLOCK distribution channels. . The company continues to work closely with its partners and clients to integrate finger recognition technology into their products as well as developing new products for them.

The Company's current product line includes biometrically enabled garage door openers, USB portable flash drives, thermostats, gun vaults and gun safes. The company is also developing residential door locks, central station alarm keypads , garage/gate openers, mailboxes and kitchen cabinet locks with its partners. Our products utilize finger recognition technology designed to augment or replace conventional security methods such as keys, keypads, and PIN numbers.

The home security industry consists of garage door manufacturers, key and locks manufacturers, portable lock manufacturers, and central station alarm monitoring companies, representing an aggregate \$25 billion global market. bioMETRX develops specific products in these markets which are currently being sold through retailers, dealers and direct to consumers in the United States. The Company has fulfilled significant orders placed by The Home Depot in November, 2007 of its first product, the Garage Door Opener, also known as the MasterLock™ smartTouch GDO, and has recently reached over \$800,000 in reorders from individual Home Depot stores. The company has spent 6 months successfully reengineered its GDO product, significantly reducing its cost to build, and expects the new product to be ready for delivery to retailers by 1st quarter, 2009.

The Company has completed software enhancements as well as some hardware design modifications on its smartSTIK product and expects the new product to be available in late 4th quarter, 2008.

The Company has introduced its products and services commercially and is considered an entry level market vendor of consumer-based biometric products. bioMETRX has limited assets, significant liabilities and limited business operations, though it has realized meaningful revenues from its initial product and is now realizing revenues from two other products.

On July 8, 2008, the Company through its wholly-owned subsidiary bioMETRX, Florida, Inc. completed the acquisition of certain of its competitors assets, Sequiam Corporation (“Sequiam Assets”) from Sequiam’s senior secured lender Biometrics, Investors, LLC (“BIL”). As consideration for these assets, the Company issued BIL 300 shares of its Series A Convertible Preferred Stock (“Preferred Stock”) of which 44 shares immediately vested and the balance vests upon the happening of certain events more specifically described in the Certificate of Designation which defines the rights and preferences of the Preferred Stock. Each share of Preferred Stock converts into shares of the Company’s Common Stock at the rate of 30,900 shares for each share of Preferred Stock. Upon the closing of the asset purchase, BIL converted an outstanding Note in the principal amount of \$250,000 into 1,388,889 shares of the Company’s Common Stock, as well as receiving 1,388,889 Common Stock Purchase Warrants exercisable for a term of five (5) years at an exercise price of \$1.00 per share.

The Company has signed on new significant OEM business while expanding its current OEM relationships to include marketing plans and sales initiatives. The Company has secured additional product stock and is building inventory for several of its products while continuing to ship product to fulfill orders. The Company is also developing proprietary new technology that will substantially decrease the cost of its products, widening the market for its partners and clients..

Management’s plan of operations for the next twelve months is to raise additional capital, integrate the Sequiam assets into the Company’s business model, complete cost reduction development, expand its engineering and manufacturing capacity and continue marketing the Company’s products and services.

Since the closing of the second quarter, the Company acquired certain assets of its former competitor Sequiam Corporation (“Sequiam”) increasing both its product offerings by picking up three market ready and distributed products, as well as taking over relationships with OEM’s in complimentary markets. The Company also secured key executives of Sequiam to assist it with maintaining relationships and transition of assets and technology. The acquisition of the Sequiam assets had a minimal effect on increasing the Company’s overhead and management believes that its’ operating overhead shall continue to maintain its low levels for the foreseeable future...

As of the date of this report, the Company also acquired the assets of Biometrics.Co.ZA, a South African nation security company that concentrates on developing and integrating biometric time and attendance, as well as physical access products for both commercial and industrial businesses. The Company did not pay any additional consideration for this acquisition. The Company expects to quickly rebrand its South African business offerings by introducing them to both the United States, and European market under its new smartTOUCH EnterpriseID brand. The Company also intends to offer its current consumer biometric products to the African continent through a yet to be formed subsidiary named bioMETRX South Africa.

The Company has realized a total of \$1,487,000 in total revenue from the Home Depot contract, which is a three year, limited exclusive contract reflecting minimum orders of 160,000 units over a three year period. The company expects to receive an additional \$6,400,000 in new orders for its other products over the next 6 months. The company has recorded approximately \$100,000 in revenues in the 2nd quarter, and has recorded an additional \$200,000 in revenue in the first four weeks of the third quarter, giving the company a seven week total of more than \$300,000. The company’s revenue growth is expected to dramatically increase during the remainder of the third quarter as well as in the 4th quarter of this year that will be based on the performance of two pilots at COSTCO and with The Overhead Company this fall . As the demand for products increases, the company will require additional financing until it is internally generating positive cash flow. As of this filing, additional financing through the sale of its securities or other financing will still be required in order to meet cash needs to bring the Company to profitability. The company is still at the stage that there is no assurances that the Company’s products and services may be commercially sold in sufficient volumes to attain such profitability and such sales are directly affected to the extent that the company is capable of establishing sufficient transitional manufacturing credit lines to build such products, and to raise interim operating cash. The Company’s balance sheet continues to reflect negative shareholder equity, though it has been substantially reduced through the conversion of debt to equity by various institutional note holders. For the balance of this year, the Company will be reliant on the attraction of additional equity in order for it to reflect positive shareholder value , unless revenues exceed management’s expectations for the current fiscal year 2008.

The Company expects it will require \$3,000,000-5,000,000 over the next 12 months to accomplish its goals, though it is anticipated that this will incrementally be raised in stages, and expects funding to be financed by the private sale of its securities and lines of credit with commercial banks for continuous manufacturing output of its products. At present, the company does have an initial term sheet from an investment group that is under consideration by the company’s Board of Directors.

Our corporate address is 500 North Broadway, Suite 204, Jericho, New York 11753, our telephone number is (516) 937-2828 and our facsimile number is (516) 937-2880. We also maintain a satellite office in Orlando, Florida, as well as an office in Cape Town, South Africa.

Current Market Outlook - Target Markets/Applications

Management believes that there continues to be a unique and growing opportunity in the consumer electronics market for the incorporation of biometrics technology in multiple devices, requiring personal identification or key access. The Company is encouraged by increased interest it has received from leading OEM's in the consumer sector providing a credible basis for the continued adoption of the technology. Prospective home/office security and electronics devices include the introduction of "biometric" access controls on anything that presently requires a key, keypad or Personal Identification Number ("PIN"). bioMETRX is the first company to offer biometric security and electronics products for the home consumer market at any significant level.

Our focus continues to center on developing simple to use, cost efficient, finger activated consumer electronics products principally under the trade name "smartTOUCH Ô". Our current and prospective consumer products include biometrically enabled and secure residential garage/gate door openers/locks, central station alarm pads, padlocks, door locks and thermostats.

Although market data on the use of automatic garage door openers is limited, management estimates that there are 30 million homes in the United States equipped with automatic garage doors. For many families, the automatic garage door opener has made the garage door the most frequently used door for entering and exiting the home. Consequently, there is a large potential market for the smartTOUCH™ Garage Door Opener which meets the consumer need for security and convenience combined.

As a result of its co-marketing agreement with MasterLock™, the GDO is currently sold under the co-brand name MasterLock™ smartTOUCH™ which the Company expects to accelerate product sell-through as MasterLOCK is expected to market through its large big box retailing channels. As of the writing of this report, MasterLOCK is expanding its management of this product with the company and is starting to assist the Company by providing resources to better manage manufacturing. Master Lock brings significant retail, logistical and distribution experience to the company.

We have initiated large scale manufacturing of our products with a third party contract manufacturer located in the United States with manufacturing operations in China. An existing investor has provided initial financing, and the company expects increased assistance from its partners as more products are introduced to the market.

Other smartTOUCH Ô Consumer Products

The smartTOUCH Ô line of products under development includes products that can be used to secure lockers, gates, automobiles, trailers and other household and computerized electronic products.

While the Company's main current focus is to bring to market consumer-based products through our relationship with MasterLock, we also expect to dedicate additional focus on the healthcare industry over the next 12 months. Government legislation surrounding the integrity, confidentiality and privacy of patient data was enacted under HIPAA. HIPAA requires the healthcare industry to restructure current information technology ("IT") infrastructures and methods. We are identifying opportunities to develop biometric products and solutions for end users in the healthcare fields, as well as enabling biometric technology for original equipment manufacturers ("OEMs") and application developers to incorporate into their offerings to assist healthcare organizations working towards meeting legislative demands, while increasing efficiencies and user convenience and lowering overall administrative costs and risks associated with passwords, PINs and keys. To that end, the Company is exploring a number of prospective medical products, some of which may become available by late 2008. The Company acquired a patent for the biometric storage and retrieval of an electronic medical record in January, 2007.

Results of Operations

For the three months ended June 30, 2008 and 2007

For quarter ended June 30, 2008, bioMetrx has generated revenues of \$99,364 as compared to \$11,425 for the quarter ended June 30, 2007. During quarter ended June 30, 2008, bioMetrx had net losses totaling \$2,451,244 as compared to losses totaling \$2,726,522 for the similar period ended June 30, 2007. The compensatory element of stock and warrant issuances and amortization of deferred finance charges remaining on the convertible notes were the greatest contributors of the net loss. The Company continues to limit its cash used in operations, though it is still reliant upon invested capital to fund its operations.

For the quarter ending June 30, 2008, bioMetrx' general and administrative expenses totaled \$ 1,850,826 or 98.6% of total expenses, while for the three months ended June 30, 2007 general and administrative expenses totaled \$ 1,135,259 or 87.3% of total expenses. For the quarter ended June 30, 2008, bioMetrx stock-based compensation of \$1,089,838 or 58.9% of expenses, as compared to \$1,058,494 or 38.8 % of total expenses during the three months ended June, 2007. Research and development costs were \$26,479 or 0.01 % of total expenses incurred in the period for the quarter ending June 30, 2008, while research and development costs during the quarter ended June 30, 2007 totaled \$165,762 or 6.1% of total expenses.

For the six months ended June 30, 2008 and 2007

For the six month period ended June 30, 2008, the Company has generated revenues of \$102,107 compared to only \$11,425 for the six month period ended June 30, 2007. Net operating losses declined to \$3,887,506 for the six month period ended June 30, 2008 from \$5,737,668 for the similar period ended June 30, 2007. General and administrative expense were \$2,406,988 or 98.7% of total operating expense for the period ended June 30, 2008 as compared to \$2,514,082 or 91.9% of total operating expenses for the similar period ended June 30, 2007. Salaries of \$529,091 or 21.7% of total operating expenses incurred for the period ended June 30, 2008 comparably to salaries of \$494,422 or 38% of total operating expenses for the similar period ended June 30, 2007. The decline in net losses was attributable to a 48% decrease in stock based compensation and amortization of deferred finance cost.

Liquidity and Capital Resources

As of June 30, 2008 bioMETRX had total assets of \$1,670,523 and total current assets of \$ 678,399. At June 30, 2008 bioMETRX had total liabilities of \$4,613,364 of which all liabilities were current. We have negative working capital at June 30, 2008 of \$3,934,965 and an equity deficit of \$2,942,841. The Company has substantial purchase orders to fulfill upon receiving further capital as well as meaningful receivables which it has acquired from the Asset Purchase Agreement between the Company and Biometrics Investors, Ltd. Because of this deficit, the Company's ability to continue to operate as a going concern remains in question. Unless additional capital is contributed or until such time as the Company generates significant revenues and becomes cash flow positive our future is uncertain.

bioMETRX is dependent on raising additional funding necessary to implement its business plan. bioMETRX' auditors have issued a "going concern" opinion on the financial statement for the year ended December 31, 2007, indicating a working capital and net equity deficiency. These factors raise substantial doubt in bioMETRX' ability to continue as a going concern, though it has recently raised over \$885,000 through the sales of its common stock to accredited investors. If bioMETRX is unable to raise further funds or if revenues are insufficient to complete the development of its products and fund its operations, it is unlikely that bioMETRX will remain as a viable going concern.

Critical Accounting Policies and Estimates:

Our financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make significant estimates and judgments that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosure of contingent assets and liabilities. We evaluate our estimates, including those related to contingencies, on an ongoing basis. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policy, among others; involve the more significant judgments and estimates used in the preparation of our consolidated financial statements:

The Company accounts for compensation costs associated with stock options and warrants issued to non-employees using the fair-value based method prescribed by Financial Accounting Standard No. 123 - Accounting for Stock-Based Compensation. The Company uses the Black-Scholes options-pricing model to determine the fair value of these instruments as well as to determine the values of options granted to certain lenders by the principal stockholder. The following estimates are used for grants in 2008: Expected future volatility over the expected lives of these instruments is estimated to mirror historical experience, measured by a weighted average of closing share prices prior to each measurement date. Expected lives are estimated based on management's judgment of the time period by which these instruments will be exercised.

In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement No. 123R ("SFAS 123R") "Share Based Payment," a revision of statement No. 123, "Accounting for Stock Based Compensation." This standard requires the Company to measure the cost of employee services received in exchange for equity awards based on grant date fair value of the awards. The Company adopted SFAS 123R effective January 1, 2006. The standard provides for a prospective application. Under this method, the Company will begin recognizing compensation cost for equity based compensation of or all new or modified grants after the date of adoption.

Information Relating To Forward-Looking Statements

When used in this Report on Form 10-QSB, the words "may," "will," "expect," "anticipate," "continue," "estimate," "intend," and similar expressions are intended to identify forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 regarding events, conditions and financial trends which may affect the Company's future plans of operations, business strategy, operating results and financial position. Such statements are not guarantees of future performance and are subject to risks and uncertainties and actual results may differ materially from those included within the forward-looking statements as a result of various factors. Such factors include, among others: (i) the Company's ability to obtain additional sources of capital to fund continuing operations; in the event it is unable to timely generate revenues (ii) the Company's ability to retain existing or obtain additional licensees who will act as distributors of its products; (iii) the Company's ability to obtain additional patent protection for its technology; and (iv) other economic, competitive and governmental factors affecting the Company's operations, market, products and services. Additional factors are described in the Company's other public reports and filings with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to publicly release the result of any revision of these forward-looking statements to reflect events or circumstances after the date they are made or to reflect the occurrence of unanticipated events.

Recent Accounting Pronouncements

In June 2006, the FASB issued "Accounting for Uncertain Tax Positions - an Interpretation of FASB Statement No. 109", ("FIN No. 48"), which prescribes a recognition and measurement model for uncertain tax positions taken or expected to be taken in the Company's tax returns. FIN No. 48 provides guidance on recognition, classification, presentation, and disclosure of unrecognized tax benefits. Fin No. 48 is effective for fiscal years beginning after December 15, 2006. The adoption of this statement have no material impact on the Company's financial position, results of operations or cash flows. In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements", which defines fair value, establishes a framework for measuring fair value, and expands fair value disclosures. The standard does not require any new fair value measurements. This standard is effective for fiscal years beginning after November 15, 2007. The adoption of this new standard is not expected to have a material effect on the Company's financial position, results of operations or cash flows.

In December 2006, the FASB issued FSP EITF 00-19-2, "Accounting for Registration Payment Arrangements" ("FSP 00-19-2"), which addresses accounting for registration payment arrangements. FSP 00-19-2 specifies that the contingent obligation to make future payments or otherwise transfer consideration under a registration payment arrangement, whether issued as a separate agreement or included as a provision of a financial instrument or other agreement, should be separately recognized and measured in accordance with SFAS No. 5, "Accounting for Contingencies". FSP 00-19-2 further clarifies that a financial instrument subject to a registration payment arrangement should be accounted for in accordance with other applicable generally accepted accounting principles without regard to the contingent obligation to transfer consideration pursuant to the registration payment arrangement. For registration payment arrangements and financial instruments subject to those arrangements that were entered into prior to the issuance of EITF 00-19-2, this guidance shall be effective for financial statements issued for fiscal years beginning after December 15, 2006 and interim periods within those fiscal years. The Company does not expect the adoption of this standard will have a material impact on its financial position, results of operations or cash flows.

In February, 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities - Including an amendment of FASB Statement No. 115" ("SFAS No. 159"). This statement permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, which is consistent with the Board's long-term measurement objectives for accounting for financial instruments. This statement is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007, although earlier adoption is permitted. Management has not determined the effect the adoption of this standard will have on the Company's financial position, results of operations or cash flows.

In June 2007, the Accounting Standards Executive Committee issued Statement of Position 07-1, "Clarification of the Scope of the Audit and Accounting Guide Investment Companies and Accounting by Parent Companies and Equity Method Investors for Investments in Investment Companies" ("SOP 07-1"). SOP 07-1 provides guidance for determining whether an entity is within the scope of the AICPA Audit and Accounting Guide Investment Companies (the "Audit Guide"). SOP 07-1 was originally determined to be effective for fiscal years beginning on or after December 15, 2007, however, on February 6, 2008, FASB issued a final Staff Position indefinitely deferring the effective date and prohibiting early adoption of SOP 07-1 while addressing implementation issues.

In June 2007, the FASB ratified the consensus in EITF Issue No. 07-3, "Accounting for Nonrefundable Advance Payments for Goods or Services to be Used in Future Research and Development Activities" (EITF 07-3), which requires that nonrefundable advance payments for goods or services that will be used or rendered for future research and development (R&D) activities be deferred and amortized over the period that the goods are delivered or the related services are performed, subject to an assessment of recoverability. EITF 07-3 will be effective for fiscal years beginning after December 15, 2007. The Company does not expect that the adoption of EITF 07-3 will have a material impact on its financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 141(R), "Business Combinations" ("SFAS No. 141(R)"), which establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in an acquiree, including the recognition and measurement of goodwill acquired in a business combination. SFAS No. 141(R) is effective as of the beginning of the first fiscal year beginning on or after December 15, 2008. Earlier adoption is prohibited and the Company is currently evaluating the effect, if any, that the adoption will have on its financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interest in Consolidated Financial Statements, an amendment of ARB No. 51" ("SFAS No. 160"), which will change the accounting and reporting for minority interests, which will be recharacterized as noncontrolling interests and classified as a component of equity within the consolidated balance sheets. SFAS No. 160 is effective as of the beginning of the first fiscal year beginning on or after December 15, 2008. Earlier adoption is prohibited and the Company is currently evaluating the effect, if any, that the adoption will have on its financial position, results of operations or cash flows.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the AICPA, and the SEC did not, or are not believed by management to, have a material impact on the Company's present or future consolidated financial statements.

Item 3: Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management carried out an evaluation, under the supervision and with the participation of the Company's Chairman of the Board of Directors and Chief Financial Officer, its principal executive officer and principal financial officer, respectively of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of December 31, 2007, pursuant to Exchange Act Rule 13a-15. Such disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company is accumulated and communicated to the appropriate management on a basis that permits timely decisions regarding disclosure. Based upon that evaluation, the Company's Chairman of the Board of Directors and Chief Financial Officer concluded that the Company's disclosure controls and procedures as of December 31, 2007 are effective.

Management's Report on Internal Control Over Financial Reporting

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The Company's internal control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As required by Section 404 of the Sarbanes-Oxley Act of 2002, management assessed the effectiveness of the Company's internal control over financial reporting as of June 30, 2008. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control-Integrated Framework.

Based on our assessment and those criteria, management concluded that the Company maintained effective internal control over financial reporting as of June 30, 2008.

Changes in Internal Control Over Financial Reporting

No changes in the Company's internal control over financial reporting have come to management's attention during the quarter ended June 30, 2008 that have materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act.)

PART II - OTHER INFORMATION

Item 1: Legal Proceedings

On November 16, 2006, the Company was the subject of a complaint filed by Intellicon seeking a final payment of \$20,000 plus accrued interest for engineering design services performed for the Company.
