ITEM 1. BUSINESS

General

Glen Burnie Bancorp (the "Company") is a bank holding company organized in 1990 under the laws of the State of Maryland. It presently owns all the outstanding shares of capital stock of The Bank of Glen Burnie (the "Bank"), a commercial bank organized in 1949 under the laws of the State of Maryland, serving northern Anne Arundel County and surrounding areas from its main office and branch in Glen Burnie, Maryland and branch offices in Odenton, Riviera Beach, Crownsville, Severn (two locations), Linthicum and Severna Park, Maryland. The Bank also maintains two remote Automated Teller Machine ("ATM") locations in Ferndale and Pasadena, Maryland. The Bank maintains a website at www.thebankofglenburnie.com. The Bank is the oldest independent commercial bank in Anne Arundel County. The Bank is engaged in the commercial and retail banking business as authorized by the banking statutes of the State of Maryland, including the acceptance of demand and time deposits, and the origination of loans to individuals, associations, partnerships and corporations. The Bank's real estate financing consists of residential first and second mortgage loans, home equity lines of credit and commercial mortgage loans. Commercial lending consists of both secured and unsecured loans. The Bank also originates automobile loans through arrangements with local automobile dealers. The Bank's deposits are insured up to applicable limits by the Federal Deposit Insurance Corporation ("FDIC").

The Company's principal executive office is located at 101 Crain Highway, S.E., Glen Burnie, Maryland 21061. Its telephone number at such office is (410) 766-3300.

Information on the Company and its subsidiary Bank may be obtained from the Company's website www.thebankofglenburnie.com. Copies of the Company's annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and all amendments thereto are available free of charge on the website as soon as they are filed with the SEC through a link to the SEC's EDGAR reporting system. Simply select the "Investor Relations" menu item, then click on the "All SEC Filings" or "Insider Transactions" link.

Economic and Credit Turmoil of 2008 and 2009

The turmoil and economic downturn of 2008, which continued in 2009, has engulfed the United States and world financial services industry. The ensuing overall consequences to numerous industries and the U.S. economy is well known and discussed daily in the media. The Bank and, as a result, the Company, have not been immune to the impact of these difficult economic times. While, due to conservative lending decisions, the Bank has no exposure to the credit issues affecting the sub-prime residential mortgage market, the economic slowdown resulted in the necessity of our contributing $2,442,976 to the provision for loan losses in 2009, in addition to the $1,145,649 provision made in 2008, primarily due to valuation issues in our commercial mortgage portfolio and continuing delinquency in our indirect automobile portfolio combined with adjustments we made to the risk factors in our calculation of required loan loss reserves. In addition, the economic downturn also resulted in an FDIC insurance premium assessment for 2009 of $549,716, a more than 1,400% increase from the 2008 assessment of $35,544. In 2008, the economic downturn also resulted in the necessity of the Bank taking in our first OREO (Other Real Estate Owned) property on a defaulted mortgage since 1999. Also in 2008, the Federal Housing Finance Agency was named conservator over both the Federal National Mortgage Association (Fannie Mae) and Federal Home Loan Mortgage Corporation (Freddie Mac), two government sponsored agencies in which we had invested through the purchase of $3,000,000 of AAA rated preferred stock. As a result, in 2008 we wrote down the value of those investments to $184,000 by taking a charge to earnings in third quarter of 2008 of $2,816,000. Each of these factors will be discussed as appropriate elsewhere in this report. Nevertheless, despite the continuing economic downturn and these events, which are unusual

for us in any year, we realized net income of $1,262,462 for 2009, and $403,962 net income for 2008. We remain well capitalized and did not need to apply for any funding from the U.S. Department of Treasury's Troubled Asset Relief Program (TARP). During 2009, we continued to lend money and, we believe, meet the needs of our customers and neighbors through a difficult year. We believe we are a sound, conservatively run financial institution that has been profitable in 2008 and 2009 despite the deterioration in the economic environment and the outside forces that have affected us these past two years.

Market Area

The Bank considers its principal market area for lending and deposit products to consist of Northern Anne Arundel County, Maryland, which consists of those portions of the county north of U.S. Route 50. Northern Anne Arundel County includes mature suburbs of the City of Baltimore, which in recent years have experienced modest population growth and are characterized by an aging population. Management believes that the majority of the working population in its market area either commutes to Baltimore or is employed at businesses located at or around the nearby Baltimore Washington International Airport. Anne Arundel County is generally considered to have more affordable housing than other suburban Baltimore areas and attracts younger persons and minorities on this basis. This inflow, however, has not been sufficient to affect current population trends.

Lending Activities

The Bank offers a full range of consumer and commercial loans. The Bank's lending activities include residential and commercial real estate loans, construction loans, land acquisition and development loans, commercial loans and consumer installment lending including indirect automobile lending. Substantially all of the Bank's loan customers are residents of Anne Arundel County and surrounding areas of Central Maryland. The Bank solicits loan applications for commercial loans from small to medium sized businesses located in its market area. The Company believes that this is a market in which a relatively small community bank, like the Bank, has a competitive advantage in personal service and flexibility. The Bank's consumer lending currently consists primarily of indirect automobile loans originated through arrangements with local dealers.

The Company's total loan portfolio increased during the 2009, 2008, 2007, 2006, and 2005 fiscal years. In 2009, the increase in the loan portfolio was primarily due to increases in refinanced mortgage loans, purchased money mortgage loans, home equity and commercial mortgages, partially offset by a decrease in indirect loans and mortgage participations purchased. In 2008, the increase in the loan portfolio was primarily due to increases in refinanced mortgage loans, commercial and residential construction loans and mortgage participations purchased, partially offset by additional mortgage participations sold and a decrease in indirect loans. In 2007, the increases were due to residential and commercial mortgages and construction, offset by a decrease in indirect lending and mortgage participations purchased and an increase in mortgage participations sold. In 2006, the increases were primarily due to an increase in commercial mortgages (due to an increase in participations), offset by decreases in residential mortgages and indirect automobile loans. In 2005, the increases were primarily due to an increase in commercial and industrial mortgages and indirect automobile loans.

The following table provides information on the composition of the loan portfolio at the indicated dates.

	At December 31,								
	2009		2008		2007		2006		2005
(Dollars in Thousands)	$	%	$	%	$	%	$	%	$

Allowance for credit losses	(3,573)		(2,022)		(1,604)		(1,839)		(2,201)
Loans, net	$ 235,883		$ 235,133		$ 199,753		$ 193,336		$ 190,205

The following table sets forth the maturities for various categories of the loan portfolio at December 31, 2009. Demand loans and loans which have no stated maturity, are treated as due in one year or less. At December 31, 2009, the Bank had $51,867,185 in loans due after one year with variable rates and $161,335,414 in such loans with fixed rates.

	Due Within One Year	Due Over One To Five Years (In Thousands)	Due Over Five Years	Total
Real Estate - mortgage:				
Residential	$ 7,447	$ 2,580	$ 85,656	$ 95,683
Commercial	11,113	43,639	25,093	79,845
Construction and land development	738	281	724	1,743
Installment	492	9,792	5,681	15,965
Credit Card	51	27	88	166
Indirect automobile	1,082	29,512	6,498	37,092
Commercial	6,169	500	3,132	9,801
	$ 27,092	$ 86,331	$ 126,872	$ 240,295

Real Estate Lending. The Bank offers long-term mortgage financing for residential and commercial real estate as well as shorter term construction and land development loans. Residential mortgage and residential construction loans are originated with fixed rates, while commercial mortgages may be originated on either a fixed or variable rate basis. Commercial construction loans are generally originated on a variable rate basis. Substantially all of the Bank's real estate loans are secured by properties in Anne Arundel County, Maryland. Under the Bank's loan policies, the maximum permissible loan-to-value ratio for owner-occupied residential mortgages is 80% of the lesser of the purchase price or appraised value. For residential investment properties, the maximum loan-to-value ratio is 80%. The maximum permissible loan-to-value ratio for residential and residential construction loans is 80%. The maximum loan-to-value ratio for permanent commercial mortgages is 75%. The maximum loan-to-value ratio for land development loans is 70% and for unimproved land is 65%. The Bank also offers home equity loans secured by the borrower's primary residence, provided that the aggregate indebtedness on the property does not exceed 80% of its value. Because mortgage lending decisions are based on conservative lending policies, the Company has no exposure to the credit issues affecting the sub-prime residential mortgage market.

Commercial Lending. The Bank's commercial loan portfolio consists of demand, installment and time loans for commercial purposes. The Bank's business demand, installment and time lending includes various working capital loans, equipment, vehicles, lines of credit and letters of credit for commercial customers. Demand loans require the payment of interest until called, while installment loans require a monthly payment of principal and interest, and time loans require at maturity a single payment of principal and interest due monthly. Such loans may be made on a secured or an unsecured basis. All such loans are underwritten on the basis of the borrower's creditworthiness rather than the value of the collateral.

Installment Lending. The Bank makes consumer and commercial installment loans for the purchase of automobiles, boats, other consumer durable goods, capital goods and equipment. Such loans provide for repayment in regular installments and are secured by the goods financed. Also included in installment loans are overdraft loans and other credit repayable in installments. As of December 31, 2009, approximately 62.32% of the installment loans in the Bank's portfolio (other than indirect automobile lending) had been originated for commercial purposes and 37.68% had been originated for consumer purposes.

Indirect Automobile Lending. The Bank commenced its indirect automobile lending program in January 1998. The Bank finances new automobiles for terms of up to 72 months and used automobiles for terms of up to 60 months. For used vehicles, the age of the vehicle plus the term of the loan cannot exceed eight years. The Bank does not lend more than the MSRP on new vehicles. On used vehicles, the Bank will not lend more than 110% of the average wholesale published in a nationally recognized used vehicle pricing guide. The Bank requires all borrowers to obtain vendor's single interest coverage protecting the Bank against loss in the case a borrower's automobile insurance lapses. The Bank originates indirect loans through a network of approximately 41dealers which are primarily new car dealers

located in Anne Arundel County and the surrounding counties. Participating dealers take loan applications from their customers and transmit them to the Bank for approval.

Other Loans. The Bank offers overdraft protection lines of credit, tied to checking accounts, as a convenience to qualified customers.

Although the risk of non-payment for any reason exists with respect to all loans, certain other specific risks are associated with each type of loan. The primary risks associated with commercial loans, including commercial real estate loans, are the quality of the borrower's management and a number of economic and other factors which induce business failures and depreciate the value of business assets pledged to secure the loan, including competition, insufficient capital, product obsolescence, changes in the borrowers' cost, environmental hazards, weather, changes in laws and regulations and general changes in the marketplace. Primary risks associated with residential real estate loans include fluctuating land and property values and rising interest rates with respect to fixed-rate, long-term loans. Residential construction lending exposes the Company to risks related to builder performance. Consumer loans, including indirect automobile loans, are affected primarily by domestic economic instability and a variety of factors that may lead to the borrower's unemployment, including deteriorating economic conditions in one or more segments of a local or broader economy. Because the Bank deals with borrowers through an intermediary on indirect automobile loans, this form of lending potentially carries greater risks of defects in the application process for which claims may be made against the Bank. Indirect automobile lending may also involve the Bank in consumer disputes under state "lemon" or other laws. The Bank seeks to control these risks by following strict underwriting and documentation guidelines. In addition, dealerships are contractually obligated to indemnify the Bank for such losses for a limited period of time.

The Bank's lending activities are conducted pursuant to written policies approved by the Board of Directors intended to ensure proper management of credit risk. Loans are subject to a well defined credit process that includes credit evaluation of borrowers, establishment of lending limits and application of lending procedures, including the holding of adequate collateral and the maintenance of compensating balances, as well as procedures for on-going identification and management of credit deterioration. Regular portfolio reviews are performed by the Bank's Senior Credit Officer to identify potential underperforming loans and other credit facilities, estimate loss exposure and to ascertain compliance with the Bank's policies. On a quarterly basis, the Bank's Internal Auditor performs an independent loan review in accordance with the Bank's loan review policy. For significant problem loans, management review consists of evaluation of the financial strengths of the borrower and any guarantor, the related collateral, and the effects of economic conditions.

The Bank's loan approval policy provides for various levels of individual lending authority. The maximum aggregate lending authority granted by the Bank to any one Lending Officer is $750,000. A combination of approvals from certain officers may be used to lend up to an aggregate of $1,000,000. The Bank's Executive Committee is authorized to approve loans up to $3.0 million. Larger loans must be approved by the full Board of Directors.

Under Maryland law, the maximum amount which the Bank is permitted to lend to any one borrower and their related interests may generally not exceed 10% of the Bank's unimpaired capital and surplus, which is defined to include the Bank's capital, surplus, retained earnings and 50% of its allowance for possible loan losses. Under this authority, the Bank would have been permitted to lend up to $3.08 million to any one borrower at December 31, 2009. By interpretive ruling of the Commissioner of Financial Regulation, Maryland banks have the option of lending up to the amount that would be permissible for a national bank which is generally 15% of unimpaired capital and surplus (defined to include a bank's total capital for regulatory capital purposes plus any loan loss allowances not included in regulatory capital). Under this formula, the Bank was permitted to lend up to $5.02 million to any one borrower through December 31, 2009. At December 31, 2009, the largest amount outstanding to any one borrower and its related interests was $4,890,000.

Non-Performing Loans

It will be the policy of The Bank of Glen Burnie that any loan that is ninety (90) days or more delinquent in the payment of principal and/or interest be placed into non-accrual status. Notwithstanding the aforementioned, it is determined that there appears to be a substantial amount of risk of not collecting all of the agreed upon interest that

would normally accrue to a loan, the loan should be placed into Non-Accrual status even if the determination is made prior to ninety (90) days delinquent. A variance to this rule would be if the asset is both well secured and in the process of collection. An asset is "well secured" if it is secured by (1) by collateral in the form of liens on or pledges of real or personal property, including securities that have a realizable value sufficient to discharge the debt (including accrued interest) in full, or (2) by the guarantee of a financially responsible party. An asset is "in the process of collection" if collection of the asset is proceeding in due course either (1) through legal action, including judgment enforcement procedures, or (2) in appropriate circumstances, through collection efforts not involving legal action which are reasonably expected to result in prepayment of the debt or in its restoration to a current status in the near future.

The Bank seeks to control delinquencies through diligent collection procedures. For consumer loans, the Bank sends out payment reminders on the seventh and twelfth days after a payment is due. If a consumer loan becomes 15 days past due, the account is transferred to the Bank's collections department, which will contact the borrower by telephone and/or letter before the account becomes 30 days past due. If a consumer loan becomes more than 30 days past due, the Bank will continue its collection efforts and will move to repossession or foreclosure by the 45th day if the Bank has reason to believe that the collateral may be in jeopardy or the borrower has failed to respond to prior communications. The Bank will move to repossess or foreclose in all instances in which a consumer loan becomes more than 60 days delinquent. After repossession of a motor vehicle, the borrower has a 15-day statutory right to redeem the vehicle and is entitled to 10 days' notice before the sale of a repossessed vehicle. The Bank sells the vehicle as promptly as feasible after the expiration of these periods. If the amount realized from the sale of the vehicle is less than the loan amount, the Bank will seek a deficiency judgment against the borrower. The Bank follows similar collection procedures with respect to commercial loans.

While the Bank has weathered the economic and credit turbulence during 2009 and remains strong, the Bank experienced a significant increase in non-accrual loans as of December 31, 2009. The following table sets forth the amount of the Bank's restructured loans, non-accrual loans and accruing loans 90 days or more past due at the dates indicated:

	At December 31,				
	2009	2008	2007	2006	2005
	(Dollars In Thousands)				
Restructured Loans	$ 87	$ -	$ 578	$ -	$ -
Non-accrual loans:					
Real estate – mortgage:					
Residential	$ 215	$ -	$ -	$ 3	$ 14
Commercial	2,626	659	-	-	-
Real estate - construction	-	-	-	-	-
Installment	176	208	212	46	159
Commercial	-	-	-	8	12
Total non-accrual loans	3,017	867	212	57	185
Accruing loans past due 90 days or more					
Real estate – mortgage:					
Residential	8	3	512	2	1
Commercial	-	-	-	-	-
Real estate - construction	-	5	-	-	3
Installment	1	26	-	-	-
Commercial	12	-	128	-	-
Total accruing loans past due 90 days or more	21	34	640	2	4
Total non-accrual and past due loans	$ 3,038	$ 901	$ 852	$ 59	$ 189
Non-accrual and past due loans to gross loans	1.26%	0.38%	0.43%	0.03%	0.10%
Allowance for credit losses to non-accrual and past due loans	117.61%	224.42%	188.27%	3,116.95%	1,164.55%

For the year ended December 31, 2009, interest of $105,365 would have been accrued on non-accrual loans if such loans had been current in accordance with their original terms. During that period, interest on non-accrual loans was not included in income. $2,993,569, or 99%, of the Bank's total $3,016,727 non-accrual loans at December 31, 2009 were attributable to 12 borrowers. One of these borrowers was in bankruptcy at that date. Because of the legal protections afforded to borrowers in bankruptcy, collections on such loans are difficult and the Bank anticipates that such loans may remain delinquent for an extended period of time. Three of these loans are secured with commercial real estate collateral which should repay some or all of the active principal balance on the loans.

At December 31, 2009, there were loans outstanding, totaling $6,496,910, not reflected in the above table as to which known information about the borrower's possible credit problems caused management to have serious doubts as to the ability of the borrowers to comply with present loan repayment terms. These loans consist of loans which were not 90 days or more past due but where the borrower is in bankruptcy or has a history of delinquency or the loan to value ratio is considered excessive due to deterioration of the collateral or other factors.

At December 31, 2009, the Company had $25,000 in real estate acquired in partial or total satisfaction of debt, compared to $550,000 and $50,000 in such properties at each of December 31, 2008 and 2007. This decrease resulted from the sale in 2009 of OREO valued at $550,000, which was acquired in 2008. The $25,000 balance at December 31, 2009 reflects the deposit on OREO acquired during 2009, which is awaiting ratification by the court. All such properties are recorded at the lower of cost or fair value at the date acquired and carried on the balance sheet as other real estate owned. Losses arising at the date of acquisition are charged against the allowance for credit losses. Subsequent write-downs that may be required and expense of operation are included in non-interest expense. Gains and losses realized from the sale of other real estate owned are included in non-interest income or expense. For a description of the properties comprising other real estate owned at December 31, 2009, see "Item 2. — Properties."

Allowance For Credit Losses

The Bank's allowance for credit losses is based on the probable estimated losses that may be sustained in its loan portfolio. The allowance is based on two basic principles of accounting. (1) ASC Topic 450, formerly Statement of Financial Accountings Standards (SFAS) No. 5 "Accounting for Contingencies", which requires that losses be accrued when they are probable of occurring and estimable, and (2) ASC Topic 310, formerly SFAS No. 114 "Accounting by Creditors for Impairment of a Loan", which requires that losses be accrued based on the differences between the value of collateral, present value of future cash flows or values that are observable in the secondary market and the loan balance.

The allowance for credit losses is established through a provision for credit losses charged to expense. Loans are charged against the allowance for credit losses when management believes that the collectability of the principal is unlikely. The allowance, based on evaluations of the collectability of loans and prior loan loss experience, is an amount that management believes will be adequate to absorb possible losses on existing loans that may become uncollectible. The evaluations take into consideration such factors as changes in the nature and volume of the loan portfolio, overall portfolio quality, review of specific problem loans, value of collateral, and current economic conditions and trends that may affect the borrower's ability to pay. Because mortgage lending decisions are based on conservative lending policies, the Company has no exposure to the credit issues affecting the sub-prime residential mortgage market.

In 2009, the Bank increased its provision for credit losses due to net charge offs on installment loans of $711,000 (primarily made up of charge offs on indirect automobile loans of $647,000) and adjustments to the risk factors for our loan loss reserve calculation as economic conditions deteriorated.

Transactions in the allowance for credit losses during the last five fiscal years were as follows:

	Year Ended December 31,				
	2009	2008	2007	2006	2005
	(Dollars In Thousands)				
Beginning Balance	$ 2,022	$ 1,604	$ 1,839	$ 2,201	$ 2,412

Investment Securities

The Bank maintains a substantial portfolio of investment securities to provide liquidity as well as a source of earnings. The Bank's investment securities portfolio consists primarily of securities issued by U.S. Government agencies including mortgage-backed securities, securities issued by certain states and their political subdivisions, and corporate trust preferred securities. The tax treatment of the Bank's portfolio of securities issued by certain states and their political subdivisions allows the Company to use the full tax advantage of this portfolio.

The following table presents at amortized cost the composition of the investment portfolio by major category at the dates indicated.

At December 31,

	2009	2008	2007
		(In Thousands)	
U.S. Treasury securities	$ -	$ -	$ -
U.S. Government agencies and mortgage backed securities	54,030	25,571	44,094
Obligations of states and political subdivisions	30,073	31,466	32,311
Corporate trust preferred	2,080	2,169	2,167
Total investment securities	$ 86,183	$ 59,206	$ 78,572

The following table sets forth the scheduled maturities, amortized costs and weighted average yields for the Company's investment securities portfolio at December 31, 2009:

	One Year Or Less		One To Five Years		Five to Ten Years		More Than Ten Years		Total	
	Amort. Cost	Weighted Average Yield	Amort. Cost	Weighted Average Yield	Amort. Cost	Weighted Average Yield	Amort. Cost	Weighted Average Yield	Amort. Cost	Weighted Average Yield
U.S. Treasury securities	$ -	-%	$ -	-%	$ -	-%	$ -	-%	$ -	-%
U.S. Government agencies and mortgage backed securities	-	-	-	-	1,261	5.00	52,769	4.67	54,030	4.67
Obligations of states and political subdivisions	650	3.19	1,825	3.49	566	4.36	27,032	4.40	30,073	4.32
Corporate trust preferred	-	-	-	-	-	-	2,080	8.68	2,080	8.68
Total investment securities	$ 650	3.19%	$ 1,825	3.49%	$ 1,827	4.80%	$ 81,881	4.70%	$ 86,183	4.67%

At December 31, 2009, the Bank had no investments in securities of a single issuer (other than the U.S. Government securities and securities of federal agencies and government-sponsored enterprises), which aggregated more than 10% of stockholders' equity.

Deposits And Other Sources of Funds

The funds needed by the Bank to make loans are primarily generated by deposit accounts solicited from the communities surrounding its branches in northern Anne Arundel County. Consolidated total deposits were $294,357,837 as of December 31, 2009. The Bank uses borrowings from the Federal Home Loan Bank ("FHLB") of Atlanta to supplement funding from deposits. The Bank was permitted to borrow up to $70.85 million under a line of credit from the FHLB of Atlanta as of December 31, 2009.

Deposits. The Bank's deposit products include regular savings accounts (statements), money market deposit accounts, demand deposit accounts, NOW checking accounts, IRA and SEP accounts, Christmas Club accounts and certificates of deposit. Variations in service charges, terms and interest rates are used to target specific markets. Ancillary products and services for deposit customers include safe deposit boxes, money orders and travelers checks, night depositories, automated clearinghouse transactions, wire transfers, ATMs, telephone banking, and a customer call center. The Bank is a member of the Cirrus(R) and Star(R) ATM networks.

As stated above, the Bank obtains deposits principally through its network of branch offices. The Bank does not solicit brokered deposits. At December 31, 2009, the Bank had approximately $45.2 million in certificates of deposit and other time deposits of $100,000 or more, including IRA accounts. The following table provides information as to the maturity of all time deposits of $100,000 or more at December 31, 2009:

	Amount (In Thousands)
Three months or less	$ 10,286

Over three through six months		4,829
Over six through 12 months		10,948
Over 12 months		19,183
Total	$	45,246

Borrowings. In addition to deposits, the Bank from time to time obtains advances from the FHLB of Atlanta of which it is a member. FHLB of Atlanta advances may be used to provide funds for residential housing finance, for small business lending, and to meet specific and anticipated needs. The Bank may draw on a $70.85 million line of credit from the FHLB of Atlanta, which is secured by a floating lien on the Bank's residential first mortgage loans and various federal and agency securities. There was $10 million in a convertible advance under this credit arrangement at December 31, 2009. The advance matures in November 1, 2017, is callable monthly, and bears a 3.28% rate of interest. There was a $5 million convertible advance settled July 21, 2008 with a final maturity of July 23, 2018. This advance has a 2.73% rate of interest and was callable quarterly, starting July 23, 2009. There was a $5 million convertible advance taken out August 22, 2008 which has a final maturity of August 22, 2018. This advance has a 3.344% rate of interest and is callable quarterly, starting August 22, 2011. There was $7 million in a long-term convertible advance under this credit arrangement at December 31, 2009. The advance matures in September 2010 and bears a 5.84% rate of interest. On September 7, 2000, the Company issued $5,155,000 of its 10.6% Junior Subordinated Deferrable Interest Debentures to Glen Burnie Statutory Trust I, a Connecticut statutory trust wholly owned by the Company. The Trust, in turn, issued $5 million of its 10.6% capital securities to institutional investors. The debentures are scheduled to mature on September 7, 2030, unless called by the Company not earlier than September 7, 2010. It is the Company's intention to call these debentures at the earliest opportunity. The Bank also has an unsecured line of credit in the amount of $9 million from another commercial bank but currently has no balance outstanding. The Bank has a mortgage note on the 103 Crain Highway address with a balance of $33,711 as of December 31, 2009. This note is payable monthly through October 2010 and has a 7% interest rate.

Competition

The Bank faces competition for deposits and loans from other community banks, branches or affiliates of larger banks, savings and loan associations, savings banks and credit unions, which compete vigorously (currently, sixteen FDIC-insured depository institutions operate within two miles of the Bank's headquarters). With respect to indirect lending, the Bank faces competition from other banks and the financing arms of automobile manufacturers. The Bank competes in this area by offering competitive rates and responsive service to dealers.

The Bank's interest rates, loan and deposit terms, and offered products and services are impacted, to a large extent, by such competition. The Bank attempts to provide superior service within its community and to know, and facilitate services, to, its customers. It seeks commercial relationships with small to medium size businesses, which the Bank believes would welcome personal service and flexibility. The bank believes its greatest competition comes from larger intra- and inter-state financial institutions.

Other Activities

The Company also owns all outstanding shares of capital stock of GBB Properties, Inc. ("GBB"), another Maryland corporation which was organized in 1994 and which is engaged in the business of acquiring, holding and disposing of real property, typically acquired in connection with foreclosure proceedings (or deeds in lieu of foreclosure) instituted by the Bank or acquired in connection with branch expansions by the Bank.

Employees

At December 31, 2009, the Bank had 116 full-time equivalent employees. Neither the Company nor GBB currently has any employees.

Regulation of the Company

General. The Company is a bank holding company within the meaning of the Bank Holding Company Act of 1956 (the "BHCA"). As such, the Company is registered with the Board of Governors of the Federal Reserve System (the "Federal Reserve Board") and subject to Federal Reserve Board regulation, examination, supervision and reporting requirements. As a bank holding company, the Company is required to furnish to the Federal Reserve Board annual and quarterly reports of its operations at the end of each period and to furnish such additional information as the Federal Reserve Board may require pursuant to the BHCA. The Company is also subject to regular inspection by Federal Reserve Board examiners.

Under the BHCA, a bank holding company must obtain the prior approval of the Federal Reserve Board before: (1) acquiring direct or indirect ownership or control of any voting shares of any bank or bank holding company if, after such acquisition, the bank holding company would directly or indirectly own or control more than 5% of such shares; (2) acquiring all or substantially all of the assets of another bank or bank holding company; or (3) merging or consolidating with another bank holding company.

The Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994 (the "Riegle-Neal Act") authorizes the Federal Reserve Board to approve an application of an adequately capitalized and adequately managed bank holding company to acquire control of, or acquire all or substantially all of the assets of, a bank located in a state other than such holding company's home state, without regard to whether the transaction is prohibited by the laws of any state. The Federal Reserve Board may not approve the acquisition of a bank that has not been in existence for the minimum time period (not exceeding five years) specified by the statutory law of the host state. The Riegle-Neal Act also prohibits the Federal Reserve Board from approving such an application if the applicant (and its depository institution

affiliates) controls or would control more than 10% of the insured deposits in the United States or 30% or more of the deposits in the target bank's home state or in any state in which the target bank maintains a branch. The Riegle-Neal Act does not affect the authority of states to limit the percentage of total insured deposits in the state which may be held or controlled by a bank or bank holding company to the extent such limitation does not discriminate against out-of-state banks or bank holding companies. Individual states may also waive the 30% state-wide concentration limit contained in the Riegle-Neal Act. Under Maryland law, a bank holding company is prohibited from acquiring control of any bank if the bank holding company would control more than 30% of the total deposits of all depository institutions in the State of Maryland unless waived by the Maryland Commissioner of Financial Regulation.

Additionally, the federal banking agencies are authorized to approve interstate merger transactions without regard to whether such transaction is prohibited by the law of any state, unless the home state of one of the banks opted out of the Riegle-Neal Act by adopting a law after the date of enactment of the Riegle-Neal Act and prior to June 1, 1997 which applies equally to all out-of-state banks and expressly prohibits merger transactions involving out-of-state banks. The State of Maryland did not pass such a law during this period. Interstate acquisitions of branches will be permitted only if the law of the state in which the branch is located permits such acquisitions. Interstate mergers and branch acquisitions will also be subject to the nationwide and statewide insured deposit concentration amounts described above.

The BHCA also prohibits, with certain exceptions, a bank holding company from acquiring direct or indirect ownership or control of more than 5% of the voting shares of a company that is not a bank or a bank holding company, or from engaging directly or indirectly in activities other than those of banking, managing or controlling banks, or providing services for its subsidiaries. The principal exceptions to these prohibitions involve certain non-bank activities which, by statute or by Federal Reserve Board regulation or order, have been identified as activities closely related to the business of banking or managing or controlling banks. The activities of the Company are subject to these legal and regulatory limitations under the BHCA and the Federal Reserve Board's regulations thereunder. Notwithstanding the Federal Reserve Board's prior approval of specific nonbanking activities, the Federal Reserve Board has the power to order a holding company or its subsidiaries to terminate any activity, or to terminate its ownership or control of any subsidiary, when it has reasonable cause to believe that the continuation of such activity or such ownership or control constitutes a serious risk to the financial safety, soundness or stability of any bank subsidiary of that holding company.

Effective with the enactment of the Gramm-Leach-Bliley Act ("G-L-B") on November 12, 1999, bank holding companies whose financial institution subsidiaries are well capitalized and well managed and have satisfactory Community Reinvestment Act records can elect to become "financial holding companies" which will be permitted to engage in a broader range of financial activities than are currently permitted to bank holding companies. Financial holding companies are authorized to engage in, directly or indirectly, financial activities. A financial activity is an activity that is: (i) financial in nature; (ii) incidental to an activity that is financial in nature; or (iii) complementary to a financial activity and that does not pose a safety and soundness risk. The G-L-B Act includes a list of activities that are deemed to be financial in nature. Other activities also may be decided by the Federal Reserve Board to be financial in nature or incidental thereto if they meet specified criteria. A financial holding company that intends to engage in a new activity to acquire a company to engage in such an activity is required to give prior notice to the Federal Reserve Board. If the activity is not either specified in the G-L-B Act as being a financial activity or one that the Federal Reserve Board has determined by rule or regulation to be financial in nature, the prior approval of the Federal Reserve Board is required.

The Maryland Financial Institutions Code prohibits a bank holding company from acquiring more than 5% of any class of voting stock of a bank or bank holding company without the approval of the Commissioner of Financial Regulation except as otherwise expressly permitted by federal law or in certain other limited situations. The Maryland Financial Institutions Code additionally prohibits any person from acquiring voting stock in a bank or bank holding company without 60 days' prior notice to the Commissioner if such acquisition will give the person control of 25% or more of the voting stock of the bank or bank holding company or will affect the power to direct or to cause the direction of the policy or management of the bank or bank holding company. Any doubt whether the stock acquisition will affect the power to direct or cause the direction of policy or management shall be resolved in favor of reporting to the Commissioner. The Commissioner may deny approval of the acquisition if the Commissioner determines it to be anti-competitive or to threaten the safety or soundness of a banking institution. Voting stock acquired in violation of this statute may not be voted for five years.

Capital Adequacy. The Federal Reserve Board has adopted guidelines regarding the capital adequacy of bank holding companies, which require bank holding companies to maintain specified minimum ratios of capital to total assets and capital to risk-weighted assets. See "Regulation of the Bank — Capital Adequacy."

Dividends and Distributions. The Federal Reserve Board has the power to prohibit dividends by bank holding companies if their actions constitute unsafe or unsound practices. The Federal Reserve Board has issued a policy statement on the payment of cash dividends by bank holding companies, which expresses the Federal Reserve Board's view that a bank holding company should pay cash dividends only to the extent that the company's net income for the past year is sufficient to cover both the cash dividends and a rate of earning retention that is consistent with the company's capital needs, asset quality, and overall financial condition.

Bank holding companies are required to give the Federal Reserve Board notice of any purchase or redemption of their outstanding equity securities if the gross consideration for the purchase or redemption, when combined with the net consideration paid for all such purchases or redemptions during the preceding 12 months, is equal to 10% or more of the bank holding company's consolidated net worth. The Federal Reserve Board may disapprove such a purchase or redemption if it determines that the proposal would violate any law, regulation, Federal Reserve Board order, directive, or any condition imposed by, or written agreement with, the Federal Reserve Board. Bank holding companies whose capital ratios exceed the thresholds for "well capitalized" banks on a consolidated basis are exempt from the foregoing requirement if they were rated composite 1 or 2 in their most recent inspection and are not the subject of any unresolved supervisory issues.

Regulation of the Bank

General. As a state-chartered bank with deposits insured by the FDIC but which is not a member of the Federal Reserve System (a "state non-member bank"), the Bank is subject to the supervision of the Maryland Commissioner of Financial Regulation and the FDIC. The Commissioner and FDIC regularly examine the operations of the Bank, including but not limited to capital adequacy, reserves, loans, investments and management practices. These examinations are for the protection of the Bank's depositors and not its stockholders. In addition, the Bank is required to furnish quarterly and annual call reports to the Commissioner and FDIC. The FDIC's enforcement authority includes the power to remove officers and directors and the authority to issue cease-and-desist orders to prevent a bank from engaging in unsafe or unsound practices or violating laws or regulations governing its business.

The Bank's deposits are insured by the FDIC to the legal maximum of $250,000 for each insured depositor. Some of the aspects of the lending and deposit business of the Bank that are subject to regulation by the Federal Reserve Board and the FDIC include reserve requirements and disclosure requirements in connection with personal and mortgage loans and savings deposit accounts. In addition, the Bank is subject to numerous Federal and state laws and regulations which set forth specific restrictions and procedural requirements with respect to the establishment of branches, investments, interest rates on loans, credit practices, the disclosure of customer information, the disclosure of credit terms and discrimination in credit transactions.

Patriot Act. The USA Patriot Act (the "Patriot Act"), includes provisions pertaining to domestic security, surveillance procedures, border protection, and terrorism laws to be administered by the Secretary of the Treasury. Title III of the Patriot Act entitled, "International Money Laundering Abatement and Anti-Terrorist Financing Act of 2001" includes amendments to the Bank Secrecy Act which expand the responsibilities of financial institutions in regard to anti-money laundering activities with particular emphasis upon international money laundering and terrorism financing activities through designated correspondent and private banking accounts.

Section 313(a) of the Patriot Act prohibits any insured financial institution such as the Bank, from providing correspondent accounts to foreign banks which do not have a physical presence in any country (designated as "shell banks"), subject to certain exceptions for regulated affiliates of foreign banks. Section 313(a) also requires financial institutions to take reasonable steps to ensure that foreign bank correspondent accounts are not being used to indirectly provide banking services to foreign shell banks, and Section 319(b) requires financial institutions to maintain records of the owners and agent for service of process of any such foreign banks with whom correspondent accounts have

been established.

Section 312 of the Patriot Act creates a requirement for special due diligence for correspondent accounts and private banking accounts. Under Section 312, each financial institution that establishes, maintains, administers, or manages a private banking account or a correspondent account in the United States for a non-United States person, including a foreign individual visiting the United States, or a representative of a non-United States person shall establish appropriate, specific, and, where necessary, enhanced, due diligence policies, procedures, and controls that are reasonably designed to detect and record instances of money laundering through those accounts.

The Company and the Bank are not currently aware of any account relationships between the Bank and any foreign bank or other person or entity as described above under Sections 313(a) or 312 of the Patriot Act.

The terrorist attacks on September 11, 2001 have realigned national security priorities of the United States and it is reasonable to anticipate that the United States Congress may enact additional legislation in the future to combat terrorism including modifications to existing laws such as the Patriot Act to expand powers as deemed necessary. The enactment of the Patriot Act has increased the Bank's compliance costs, and the impact of any additional legislation enacted by Congress may have upon financial institutions is uncertain. However, such legislation would likely increase compliance costs and thereby potentially have an adverse effect upon the Company's results of operations.

Community Reinvestment Act. Community Reinvestment Act ("CRA") regulations evaluate banks' lending to low and moderate income individuals and businesses across a four-point scale from "outstanding" to "substantial noncompliance," and are a factor in regulatory review of applications to merge, establish new branch offices or form bank holding companies. In addition, any bank rated in "substantial noncompliance" with the CRA regulations may be subject to enforcement proceedings. The Bank has a current rating of "satisfactory" for CRA compliance.

Capital Adequacy. The Federal Reserve Board and the FDIC have established guidelines with respect to the maintenance of appropriate levels of capital by bank holding companies and state non-member banks, respectively. The regulations impose two sets of capital adequacy requirements: minimum leverage rules, which require bank holding companies and banks to maintain a specified minimum ratio of capital to total assets, and risk-based capital rules, which require the maintenance of specified minimum ratios of capital to "risk-weighted" assets.

The regulations of the Federal Reserve Board and the FDIC require bank holding companies and state non-member banks, respectively, to maintain a minimum leverage ratio of "Tier 1 capital" (as defined in the risk-based capital guidelines discussed in the following paragraphs) to total assets of 3.0%. Although setting a minimum 3.0% leverage ratio, the capital regulations state that only the strongest bank holding companies and banks, with composite examination ratings of 1 under the rating system used by the Federal bank regulators, would be permitted to operate at or near such minimum level of capital. All other bank holding companies and banks are expected to maintain a leverage ratio of at least 1% to 2% above the minimum ratio, depending on the assessment of an individual organization's capital adequacy by its primary regulator. Any bank or bank holding company experiencing or anticipating significant growth would be expected to maintain capital well above the minimum levels. In addition, the Federal Reserve Board has indicated that whenever appropriate, and in particular when a bank holding company is undertaking expansion, seeking to engage in new activities or otherwise facing unusual or abnormal risks, it will consider, on a case-by-case basis, the level of an organization's ratio of tangible Tier 1 capital (after deducting all intangibles) to total assets in making an overall assessment of capital.

The risk-based capital rules of the Federal Reserve Board and the FDIC require bank holding companies and state non-member banks, respectively, to maintain minimum regulatory capital levels based upon a weighting of their assets and off-balance sheet obligations according to risk. Risk-based capital is composed of two elements: Tier 1 capital and Tier 2 capital. Tier 1 capital consists primarily of common stockholders' equity, certain perpetual preferred stock (which must be noncumulative in the case of banks), and minority interests in the equity accounts of consolidated subsidiaries; less all intangible assets, except for certain purchased mortgage servicing rights and credit card relationships. Tier 2 capital elements include, subject to certain limitations, the allowance for losses on loans and leases; perpetual preferred stock that does not qualify as Tier 1 capital and long-term preferred stock with an original maturity of at least 20 years from issuance; hybrid capital instruments, including perpetual debt and mandatory convertible securities; and subordinated debt and intermediate-term preferred stock.

The risk-based capital regulations assign balance sheet assets and credit equivalent amounts of off-balance sheet obligations to one of four broad risk categories based principally on the degree of credit risk associated with the obligor. The assets and off-balance sheet items in the four risk categories are weighted at 0%, 20%, 50% and 100%. These computations result in the total risk-weighted assets. The risk-based capital regulations require all banks and bank holding companies to maintain a minimum ratio of total capital (Tier 1 capital plus Tier 2 capital) to total

risk-weighted assets of 8%, with at least 4% as Tier 1 capital. For the purpose of calculating these ratios: (i) Tier 2 capital is limited to no more than 100% of Tier 1 capital; and (ii) the aggregate amount of certain types of Tier 2 capital is limited. In addition, the risk-based capital regulations limit the allowance for loan losses includable as capital to 1.25% of total risk-weighted assets.

FDIC regulations and guidelines additionally specify that state non-member banks with significant exposure to declines in the economic value of their capital due to changes in interest rates may be required to maintain higher risk-based capital ratios. The Federal banking agencies, including the FDIC, have proposed a system for measuring and assessing the exposure of a bank’s net economic value to changes in interest rates. The Federal banking agencies, including the FDIC, have stated their intention to propose a rule establishing an explicit capital charge for interest rate risk based upon the level of a bank’s measured interest rate risk exposure after more experience has been gained with the proposed measurement process. Federal Reserve Board regulations do not specifically take into account interest rate risk in measuring the capital adequacy of bank holding companies.

The FDIC has issued regulations which classify state non-member banks by capital levels and which authorize the FDIC to take various prompt corrective actions to resolve the problems of any bank that fails to satisfy the capital standards. Under such regulations, a well-capitalized bank is one that is not subject to any regulatory order or directive to meet any specific capital level and that has or exceeds the following capital levels: a total risk-based capital ratio of 10%, a Tier 1 risk-based capital ratio of 6%, and a leverage ratio of 5%. An adequately capitalized bank is one that does not qualify as well-capitalized but meets or exceeds the following capital requirements: a total risk-based capital ratio of 8%, a Tier 1 risk-based capital ratio of 4%, and a leverage ratio of either (i) 4% or (ii) 3% if the bank has the highest composite examination rating. A bank not meeting these criteria is treated as undercapitalized, significantly undercapitalized, or critically undercapitalized depending on the extent to which the bank's capital levels are below these standards. A state non-member bank that falls within any of the three undercapitalized categories established by the prompt corrective action regulation will be subject to severe regulatory sanctions. As of December 31, 2009, the Bank was well capitalized as defined by the FDIC's regulations.

Branching. Maryland law provides that, with the approval of the Commissioner, Maryland banks may establish branches within the State of Maryland without geographic restriction and may establish branches in other states by any means permitted by the laws of such state or by federal law. The Riegle-Neal Act authorizes the FDIC to approve interstate branching de novo by state banks, only in states that specifically allow for such branching.

Dividend Limitations. Pursuant to the Maryland Financial Institutions Code, Maryland banks may only pay dividends from undivided profits or, with the prior approval of the Commissioner, their surplus in excess of 100% of required capital stock. The Maryland Financial Institutions Code further restricts the payment of dividends by prohibiting a Maryland bank from declaring a dividend on its shares of common stock until its surplus fund equals the amount of required capital stock or, if the surplus fund does not equal the amount of capital stock, in an amount in excess of 90% of net earnings. In addition, the Bank is prohibited by federal statute from paying dividends or making any other capital distribution that would cause the Bank to fail to meet its regulatory capital requirements. Further, the FDIC also has authority to prohibit the payment of dividends by a state non-member bank when it determines such payment to be an unsafe and unsound banking practice.

Deposit Insurance. The Bank is required to pay semi-annual assessments based on a percentage of its insured deposits to the FDIC for insurance of its deposits by the Bank Insurance Fund ("BIF"). Under the Federal Deposit Insurance Act, the FDIC is required to set semi-annual assessments for BIF-insured institutions to maintain the designated reserve ratio of the BIF at 1.25% of estimated insured deposits or at a higher percentage of estimated insured deposits that the FDIC determines to be justified for that year by circumstances raising a significant risk of substantial future losses to the BIF.

Under the risk-based deposit insurance assessment system adopted by the FDIC, the assessment rate for an insured depository institution depends on the assessment risk classification assigned to the institution by the FDIC, which is determined by the institution's capital level and supervisory evaluations. Based on the data reported to regulators for the date closest to the last day of the seventh month preceding the semi-annual assessment period, institutions are assigned to one of three capital groups — "well capitalized, adequately capitalized or undercapitalized." Within each capital group, institutions are assigned to one of three subgroups on the basis of supervisory evaluations by the institution's primary supervisory authority and such other information as the FDIC determines to be relevant to the institution's financial condition and the risk posed to the deposit insurance fund. Under the current assessment schedule, well-capitalized banks with the best supervisory ratings are not required to pay any premium for deposit insurance. All BIF-insured banks, however, will be required to begin paying an assessment to the FDIC in an amount equal to 2.12 basis points times their assessable deposits to help fund interest payments on certain bonds issued by the Financing Corporation, an agency established by the federal government to finance takeovers of insolvent thrifts.

Transactions with Affiliates. A state non-member bank or its subsidiaries may not engage in “covered transactions” with any one affiliate in an amount greater than 10% of such bank’s capital stock and surplus, and for all such transactions with all affiliates a state non-member bank is limited to an amount equal to 20% of capital stock and surplus. All such transactions must also be on terms substantially the same, or at least as favorable, to the bank or subsidiary as those provided to a non-affiliate. The term “covered transaction” includes the making of loans, purchase of assets, issuance of a guarantee and similar other types of transactions. An affiliate of a state non-member bank is any company or entity which controls or is under common control with the state non-member bank and, for purposes of the aggregate limit on transactions with affiliates, any subsidiary that would be deemed a financial subsidiary of a national bank. In a holding company context, the parent holding company of a state non-member bank (such as the Company) and any companies which are controlled by such parent holding company are affiliates of the state non-member bank. The BHCA further prohibits a depository institution from extending credit to or offering any other services, or fixing or varying the consideration for such extension of credit or service, on the condition that the customer obtain some additional service from the institution or certain of its affiliates or not obtain services of a competitor of the institution, subject to certain limited exceptions.

Loans to Directors, Executive Officers and Principal Stockholders. Loans to directors, executive officers and principal stockholders of a state non-member bank must be made on substantially the same terms as those prevailing for comparable transactions with persons who are not executive officers, directors, principal stockholders or employees of the Bank unless the loan is made pursuant to a compensation or benefit plan that is widely available to employees and does not favor insiders. Loans to any executive officer, director and principal stockholder together with all other outstanding loans to such person and affiliated interests generally may not exceed 15% of the bank's unimpaired capital and surplus and all loans to such persons may not exceed the institution's unimpaired capital and unimpaired surplus. Loans to directors, executive officers and principal stockholders, and their respective affiliates, in excess of the greater of $100,000 or 5% of capital and surplus (up to $500,000) must be approved in advance by a majority of the board of directors of the bank with any "interested" director not participating in the voting. State non-member banks are prohibited from paying the overdrafts of any of their executive officers or directors. In addition, loans to executive officers may not be made on terms more favorable than those afforded other borrowers and are restricted as to type, amount and terms of credit.

ITEM 2. PROPERTIES

The following table sets forth certain information with respect to the Bank's offices:

	Year Opened	Owned/ Leased	Book Value	Approximate Square Footage	Deposits
Main Office: 101 Crain Highway, S.E. Glen Burnie, MD 21061	1953	Owned	$ 671,060	10,000	$ 87,115,646
Branches: Odenton 1405 Annapolis Road Odenton, MD 21113	1969	Owned	150,062	6,000	40,465,617
Riviera Beach 8707 Ft. Smallwood Road Pasadena, MD 21122	1973	Owned	130,706	2,500	31,372,810
Crownsville 1221 Generals Highway Crownsville, MD 21032	1979	Owned	296,199	3,000	51,088,811
Severn 811 Reece Road Severn, MD 21144	1984	Owned	144,954	2,500	28,640,749
New Cut Road 740 Stevenson Road Severn, MD 21144	1995	Owned	1,371,380	2,600	23,941,839
Linthicum Burwood Village Shopping Center Glen Burnie, MD 21060	2005	Leased	133,556	2,500	15,043,178

Severna Park 534 Ritchie Highway Severna Park, MD 21146	2002	Leased	87,353	2,184	17,219,471
Operations Centers: 106 Padfield Blvd. Glen Burnie, MD 21061	1991	Owned	863,065	16,200	N/A
103 Crain Highway, S.E. Glen Burnie, MD 21061	2000	Owned	272,262	3,727	N/A

At December 31, 2009, the Bank owned one foreclosed real estate property with a total book value of $25,000. The book value for the New Cut Road branch (formerly the South Crain branch) increased due to no longer leasing the premises but having built a new branch office.

ITEM 3. LEGAL PROCEEDINGS

From time to time, the Company and the Bank are involved in various legal actions relating to their business activities. At December 31, 2009, there were no actions to which the Company or the Bank was a party which involved claims for money damages exceeding 10% of the Company's consolidated current assets in any one case or in any group of proceedings presenting in large degree the same legal and factual issues.

EXECUTIVE OFFICERS OF THE REGISTRANT

Set forth below is information about the Company's executive officers.

NAME	AGE	POSITIONS
F. William Kuethe, Jr.	77	President Emeritus
Michael G. Livingston	56	President and Chief Executive Officer
John E. Porter	56	Senior Vice President and Chief Financial Officer

F. WILLIAM KUETHE, JR. was appointed to the honorary position of President Emeritus of the Company and the Bank effective January 1, 2008 when he retired from full-time employment and stepped down from his positions of President and Chief Executive Officer of the Company and the Bank which he held since 1995. Mr. Kuethe has been a director of the Company and the Bank since 1995 and was President of Glen Burnie Mutual Savings Bank from 1960 through 1995. Mr. Kuethe is a former licensed appraiser and real estate broker with banking experience from 1960 to present, at all levels. He is the father of Frederick W. Kuethe, III, a director of the Company.

MICHAEL G. LIVINGSTON was appointed President and Chief Executive Officer of the Company and the Bank effective January 1, 2008. Prior to that date, Mr. Livingston was Deputy Chief Executive Officer and Executive Vice President since August 2004, Chief Operating Officer since January 2004, Deputy Chief Operating Officer from February 2003 through December 2003, Senior Vice President from January 1998 until August 2004, and Chief Lending Officer of the Bank from 1996 until August 2004. Mr. Livingston was elected as a director of the Company and the Bank on January 1, 2005.

JOHN E. PORTER was appointed Senior Vice President in January 1998. He has been Treasurer and Chief Financial Officer of the Company since 1995 and Vice President, Treasurer and Chief Financial Officer of the Bank since 1990.

PART II

ITEM 4. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

The Common Stock is traded on the Nasdaq Capital Market under the symbol "GLBZ". As of February 23, 2009, there were 436 record holders of the Common Stock. The closing price for the Common Stock on that date was $9.70. A 20% stock dividend had been declared for stockholders' of record on January 12, 2008, payable January 18, 2008.

The following table sets forth the high and low sales prices for the Common Stock for each full quarterly period during 2009 and 2008 as reported by Nasdaq. The quotations represent prices between dealers and do not reflect the retailer markups, markdowns or commissions, and may not represent actual transactions. Also shown are dividends declared per share for these periods.

	2009			2008		
Quarter Ended	High	Low	Dividends	High	Low	Dividends
March 31,	$ 10.96	$ 8.41	$ 0.10	$ 14.12	$ 10.25	$ 0.10
June 30,	9.40	7.80	0.10	12.95	11.00	0.10
September 30	9.25	7.70	0.10	12.00	8.90	0.10
December 31	9.76	8.09	0.10	10.94	8.54	0.15

A regular dividend of $0.10 was declared for stockholders' of record on December 29, 2009, payable on January 6, 2010.

The Company intends to pay dividends approximating forty percent (40%) of its profits for each quarter. However, dividends remain subject to declaration by the Board of Directors in its sole discretion and there can be no assurance that the Company will be legally or financially able to make such payments. Payment of dividends may be limited by federal and state regulations which impose general restrictions on a bank's and bank holding company's right to pay dividends (or to make loans or advances to affiliates which could be used to pay dividends). Generally, dividend payments are prohibited unless a bank or bank holding company has sufficient net (or retained) earnings and capital as determined by its regulators. See "Item 1. Business - Supervision and Regulation - Regulation of the Company - Dividends and Distributions" and "Item 1. Business — Supervision and Regulation - Regulation of the Bank - Dividend Limitations." The Company does not believe that those restrictions will materially limit its ability to pay dividends.

Performance Graph

The following graph compares the cumulative total return on the Common Stock during the five years ended December 31, 2009 with that of a broad market index (Nasdaq Composite), and a peer group consisting of publicly traded Maryland, Virginia and District of Columbia commercial banks with total assets between $200 million and $500 million ("Peer Group"). The Peer Group is comprised of Pinnacle Bankshares Corp., Bank of the James Financial Group, Inc., Botetourt Bankshares, Inc., Bay Banks of VA., Inc., Citizens Bancorp of Virginia, Old Line Bankshares, Inc., Patapsco Bancorp Inc., Frederick County Bancorp Inc., Central Virginia Bankshares, Inc., Bay National Corp., Annapolis Bancorp, Inc., Calvin B. Taylor Bankshares Inc., and Carrollton Bancorp. A significant number of the banks we used in the Peer Group in prior years no longer qualified for the criteria which would afford a reasonable comparison to the Company and, accordingly, a new Peer Group was developed. The graph assumes $100 was invested on December 31, 2004 in the Common Stock and in each of the indices and assumes reinvestment of dividends. The following information shall not be deemed to be "soliciting material" or to be "filed" with the SEC or subject to Regulation 14A under the Securities Exchange Act of 1934, as amended (the "Exchange Act") or to the

liabilities of Section 18 of the Exchange Act, except to the extent that the Company specifically incorporates it by reference into a later filing with the SEC.

ITEM 6.MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

When used in this discussion and elsewhere in this Annual Report on Form 10-K, the words or phrases "will likely result," "are expected to," "will continue," "is anticipated," "intends", "estimate," "project" or similar expressions are inten identify "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. The Company cautions readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made, and readers are advised that various factors, including regional and national economic conditions, unfavorable judicial decisions, substantial changes in levels of market interest rates, credit and other risks of lending and investment activities and competitive and regulatory factors could affect the Company's financial performance and could cause the Company's actual results for future periods to differ materially from those anticipated or projected. The Company does not undertake and specifically disclaims any obligation to update any forward-looking statements to reflect occurrence of anticipated or unanticipated events or circumstances after the date of such statements.

Overview

During 2009, net interest income before provision for credit losses increased to $12,101,787 from $11,922,003 in 2008, a 1.51% increase. Total interest income increased from $18,176,036 in 2008 to $18,644,297 in 2009, a 2.58% increase. Interest expense for 2009 totaled $6,542,510, a 4.61% increase from $6,254,033 in 2008. Net income in 2009 was $1,262,462 compared to $403,962 in 2008. The increase in net income was primarily due to a write-down of $2,816,000 taken in 2008 on investments in three series of preferred stock issued by Federal National Mortgage Association (Fannie Mae) and Federal Home Loan Mortgage Corporation (Freddie Mac) held by the Company as a result of the appointment of the Federal Housing Finance Agency as conservator over Fannie Mae and Freddie Mac. In 2009, the Company recorded a provision for loan losses of $2,442,976, an increase from the $1,145,649 provision made in 2008. In addition, the FDIC assessment for 2009 was $549,716, an increase from the 2008 assessment of $35,544.

The Bank and, as a result, the Company, have not been immune to the impact of the continuing economic downturn in the United States in 2009. While, due to conservative lending decisions, the Bank has no exposure to the credit issues affecting the sub-prime residential mortgage market, the economic slowdown resulted in the necessity of our increasing our reserve for loan losses in 2009, as noted above, primarily due to valuation issues in our commercial mortgage portfolio and continuing delinquency in our indirect automobile portfolio combined with adjustments we made to the risk factors in our calculation of required loan loss reserves. Despite the sharp economic downturn and these events, which have negatively affected our industry, we realized net income of $1,262,462 for 2009, remained well capitalized and did not need to apply for any funding from the U.S. Department of Treasury's Troubled Asset Relief Program (TARP). In 2009, the Bank's loan portfolio remained stable with net charge-offs of $892,000 for the year.

All per share amounts throughout this report have been adjusted to give retroactive effect to a 20% stock dividend paid on January 23, 2006 and to a 20% stock dividend paid on January 18, 2008.

Comparison of Results of Operations for the Years Ended December 31, 2009, 2008 and 2007

General. For the year ended December 31, 2009, the Company reported consolidated net income of $1,262,462 ($0.46 basic and diluted earnings per share) compared to consolidated net income of $403,962 ($0.14 basic and diluted earnings per share) for the year ended December 31, 2008 and consolidated net income of $2,782,141 ($0.93 basic and

diluted earnings per share) for the year ended December 31, 2007. The increase in 2009 consolidated net income was due to the write down on Fannie Mae and Freddie Mac preferred stock in 2008, offset by the increase in the provision for loan losses, the increased FDIC insurance premium assessment, and an increase in deposit and long term borrowings expense in 2009. The decrease in 2008 consolidated net income was due to the write down on Fannie Mae and Freddie Mac preferred stock and the increase in the provision for loan losses.

Net Interest Income. The primary component of the Company's net income is its net interest income, which is the difference between income earned on assets and interest paid on the deposits and borrowings used to fund income producing assets. Net interest income is determined by the spread between the yields earned on the Company's interest-earning assets and the rates paid on interest-bearing liabilities as well as the relative amounts of such assets and liabilities. Net interest income, divided by average interest-earning assets, represents the Company's net interest margin.

Net interest income is affected by the mix of loans in the Bank's loan portfolio. Currently a majority of the Bank's loans are residential and commercial mortgage loans secured by real estate and indirect automobile loans secured by automobiles.

In 2009, the Bank continued its strategy of reducing its portfolio of above market rate savings products and continued to direct its efforts to increase higher yielding commercial loans. This strategy produced significant increases in the Bank's commercial loan portfolio. Because mortgage lending decisions are based on conservative lending policies the Company has no exposure to the credit issues affecting the sub-prime residential mortgage market. At the same time, we have reduced our exposure to lower yielding indirect automobile loans.

Consolidated net interest income for the year ended December 31, 2009 was $12,101,787 compared to $11,922,003 for the year ended December 31, 2008 and $11,866,208 for the year ended December 31, 2007. The $179,784 increase for the most recent year was primarily due to an increase in loan income partially offset by a decrease in interest income on securities and increases in interest expense on deposits and long-term borrowings. The $55,795 increase for 2008 compared to 2007 was primarily due to an increase in loan income partially offset by decreases in interest income on securities and increases in interest expense on long term borrowings. The interest income, net of tax, for 2009 was $12,807,059, a $212,720 or 1.69% increase from the after tax net interest income for 2008, which was $12,594,339, a $28,869 or 0.23% decrease from the $12,623,208 after tax net interest income for 2007.

Interest expense increased from $6,254,033 in 2008 to $6,542,510 in 2009, a $288,477 or a 4.62% increase, primarily due to a full year of interest expense on the long-term borrowings and an increase in deposit expense. Interest expense increased from $5,971,048 in 2007 to $6,254,033 in 2008, a $282,985 or a 4.74% increase, primarily due to increased borrowings used to fund the outflow from maturing higher rate 15-month certificates of deposit and IRAs and to fund loan growth. Net interest margin for the year ended December 31, 2009 was 4.29% compared to 4.31% and 4.39% for the years ended December 31, 2008 and 2007, respectively.

The following table allocates changes in income and expense attributable to the Company's interest-earning assets and interest-bearing liabilities for the periods indicated between changes due to changes in rate and changes in volume. Changes due to rate/volume are allocated to changes due to volume.

1 Tax equivalent basis. The incremental tax rate applied was (13.45%) for 2009 and (104.7%) for 2008.

2 Non-accrual loans included in average balance.

Provision for Credit Losses. During the year ended December 31, 2009, the Company made a provision of $2,442,976 for credit losses, compared to a provision of $1,145,649 and $50,000 for credit losses for the years ended December 31, 2008 and 2007, respectively. The increase in the provision for credit losses for 2009 was due to net charge offs on installment loans of $711,000 (primarily made up of charge offs on indirect automobile loans of $647,000), adjustments to the risk factors for our loan loss reserve calculation, and due to additional specific reserves on impaired loans, as economic conditions deteriorated. At December 31, 2009, the allowance for credit losses equaled 117.61% of non-accrual and past due loans compared to 224.42% and 188.27% at December 31, 2008 and 2007, respectively. During the year ended December 31, 2009, the Company recorded net charge-offs of $892,000 compared to $728,000 and $285,000 in net charge-offs during the years ended December 31, 2008 and 2007, respectively.

Other Income. Other income includes service charges on deposit accounts, other fees and commissions, net gains on investment securities, and income on Bank owned life insurance (BOLI). Other income increased from $2,050,587 in 2008 to $2,365,249 in 2009, a $314,662, or 15.34% increase. The increase was primarily due to an increase in gains on securities, partially offset by decreases in service charges and other fees and commissions. Other income decreased from $2,157,292 in 2007 to $2,050,587 in 2008, a $106,705, or 4.95% decrease. The decrease was primarily due to a decrease in service charges and other fees and commissions, partially offset by gains on investment securities.

Other Expenses. Other expenses decreased from $13,102,341 in 2008 to $10,994,851 in 2009, a $2,107,490 or 16.08% decrease. This decrease, which consists of non-interest operating expenses, was primarily due to the write-down of one Fannie Mae and two Freddie Mac securities in the amount of $2,816,000 in 2008, offset by increases in salary and employee benefits and FDIC assessments in 2009. Other expenses increased from $10,433,019 in 2007 to $13,102,341 in 2008, a $2,669,322 or 25.59% increase. This increase, which consists of non-interest operating expenses, was primarily due to the write-down of the Fannie Mae and Freddie Mac securities mentioned above. Lesser increases occurred in salaries and wages and occupancy costs, partially offset by decreases in employee benefits and furniture and equipment.

Income Taxes. During the year ended December 31, 2009, the Company recorded an income tax benefit of $233,253, compared to an income tax benefit of $679,362 for the year ended December 31, 2008. This decrease was primarily due to a tax benefit of $1,110,770 from the write-down of $2,816,000 for the Fannie Mae and Freddie Mac securities in 2008. In addition to this, the amount of tax exempt income on municipal securities decreased and there was a larger amount contributed to provision for credit losses in 2009. During the year ended December 31, 2008, the Company recorded an income tax benefit of $679,362, compared to an income tax expense of $758,340 for the year ended December 31, 2007. This difference was primarily due to a tax benefit of $1,110,770 from the write-down of $2,816,000 for the Fannie Mae and Freddie Mac securities. In addition, in 2008 the amount of tax exempt income on municipal securities decreased and a larger amount was contributed to provision for credit losses.

Comparison of Financial Condition at December 31, 2009, 2008 and 2007

The Company's total assets increased to $353,396,697 at December 31, 2009 from $332,502,215 at December 31, 2008. The Company's total assets increased to $332,502,215 at December 31, 2008 from $307,273,868 at December 31, 2007.

The Company's net loan portfolio increased to $235,882,862 at December 31, 2009 compared to $235,132,621 at December 31, 2008 and $199,753,132 at December 31, 2007. The increase in the loan portfolio during the 2009 period is primarily due to an increase in commercial mortgages, purchase money mortgages, refinances, home equity and demand commercial secured loans. They were partially offset by a decline in indirect automobile loans and mortgage participations purchased besides a larger provision for credit losses. The increase in the loan portfolio during the 2008 period is primarily due to an increase in refinanced mortgage loans, commercial and residential construction loans, demand commercial secured loans and mortgage participations purchased. These were partially offset by a decline in indirect automobile loans and additional mortgage participations sold.

During 2009, the Company's total investment securities portfolio (including both investment securities available for sale and investment securities held to maturity) totaled $84,462,605, a $26,513,960 or 45.75%, increase from $57,948,645 at December 31, 2008. This increase is primarily attributable to a increase in mortgage backed securities and Government Agency collateralized mortgage obligations (CMO) partially offset by a decrease in U.S. Government Agencies and non-Maryland municipal securities. During 2008, the Company's total investment securities portfolio (including both investment securities available for sale and investment securities held to maturity) totaled $57,948,645, a $19,917,368 or 25.58%, decrease from $77,866,013 at December 31, 2007. This decrease is

primarily attributable to a decrease in mortgage backed securities.

Deposits as of December 31, 2009 totaled $294,357,837, an increase of $24,590,239, or 9.12%, from the $269,767,598 total as of December 31, 2008. Deposits as of December 31, 2008 totaled $269,767,598, an increase of $16,850,832, or 6.66%, from the $252,916,766 total as of December 31, 2007. Demand deposits as of December 31, 2009 totaled $67,807,699, a $4,268,940, or 6.72%, increase from $63,538,759 at December 31, 2008. NOW and Super NOW accounts, as of December 31, 2009, increased by $1,273,739, or 6.04% from their 2008 level to $22,353,053. Money market accounts increased by $2,520,056, or 19.74%, from their 2008 level, to total $15,284,223 at December 31, 2009. Savings deposits increased by $2,576,600, or 5.63%, from their 2008 level, to $48,378,319 at December 31, 2009. Time deposits over $100,000 totaled $45,246,086 on December 31, 2009, an increase of $7,602,739, or 20.20% from December 31, 2008. Other time deposits (made up of certificates of deposit less than $100,000 and individual retirement accounts) totaled $95,288,457 on December 31, 2009, a $6,346,539 or 7.14% increase from December 31, 2008.

Total stockholders' equity as of December 31, 2009 decreased by $2,759,130, or 9.89%, from the 2008 period. The decrease was attributed to an increase in accumulated other comprehensive loss, net of tax, and the excess of the cash dividends paid and common stock shares repurchased and retired over the net income for 2009. Total stockholders' equity as of December 31, 2008 decreased by $1,827,902, or 6.15%, from the 2007 period. The decrease was attributed to an increase in accumulated other comprehensive loss, net of tax, and the excess of the cash dividends paid and common stock shares repurchased and retired over the net income for 2008.

Off-Balance Sheet Arrangements

Off-Balance Sheet Arrangements. The Bank is a party to financial instruments in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit, which involve, to varying degrees, elements of credit and interest rate risk in excess of the amounts recognized in the consolidated financial statements.

Loan commitments and lines of credit are agreements to lend to customers as long as there is no violation of any conditions of the contracts. Loan commitments generally have interest rates fixed at current market amounts, fixed expiration dates, and may require payment of a fee. Lines of credit generally have variable interest rates. Many of the loan commitments and lines of credit are expected to expire without being drawn upon; accordingly, the total commitment amounts do not necessarily represent future cash requirements. The Bank evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral or other security obtained, if deemed necessary by the Bank upon extension of credit, is based on management's credit evaluation. Collateral held varies but may include deposits held in financial institutions, U.S. Treasury securities, other marketable securities, accounts receivable, inventory, property and equipment, personal residences, income-producing commercial properties, and land under development. Personal guarantees are also obtained to provide added security for certain commitments.

Letters of credit are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to guarantee the installation of real property improvements and similar transactions. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Bank holds collateral and obtains personal guarantees supporting those commitments for which collateral or other securities is deemed necessary.

The Bank's exposure to credit loss in the event of nonperformance by the customer is the contractual amount of the commitment. Loan commitments, lines of credit, and letters of credit are made on the same terms, including collateral, as outstanding loans. As of December 31, 2009, the Bank has accrued $200,000 for unfunded commitments related to these financial instruments with off balance sheet risk, which is included in other liabilities.

Market Risk Management

Market risk is the risk of loss arising from adverse changes in the fair value of financial instruments due to changes in interest rates, exchange rates or equity pricing. The Company's principal market risk is interest rate risk that arises from its lending, investing and deposit taking activities. The Company's profitability is dependent on the Bank's net interest income. Interest rate risk can significantly affect net interest income to the degree that interest bearing liabilities mature or reprice at different intervals than interest earning assets. The Bank's Asset/Liability and Risk Management Committee oversees the management of interest rate risk. The primary purpose of the committee is to manage the exposure of net interest margins to unexpected changes due to interest rate fluctuations. The Company does not utilize derivative financial or commodity instruments or hedging strategies in its management of interest rate risk. The primary tool used by the committee to monitor interest rate risk is a "gap" report which measures the dollar difference between the amount of interest bearing assets and interest bearing liabilities subject to repricing within a given time period. These efforts affect the loan pricing and deposit rate policies of the Company as well as the asset

mix, volume guidelines, and liquidity and capital planning.

The following table sets forth the Bank's interest-rate sensitivity at December 31, 2009.

	0-3 Months	Over 3 To 12 Months	Over 1 Through 5 Years	Over 5 Years	Total
			(Dollars In Thousands)		
Assets:					
Cash and due from banks	$ -	$ -	$ -	$ -	$ 10,742
Federal funds and overnight deposits	692	-	-	-	692
Securities	-	651	1,851	81,961	84,463
Loans	11,508	11,172	86,331	126,872	235,883
Fixed Assets	-	-	-	-	4,121
Other Assets	-	-	-	-	17,496
Total assets	$ 12,200	$ 11,823	$ 88,182	$ 208,833	$ 353,397
Liabilities:					
Demand deposit accounts	$ -	$ -	$ -	$ -	$ 67,808
NOW accounts	22,353	-	-	-	22,353
Money market deposit accounts	15,284	-	-	-	15,284
Savings accounts	48,378	212	-	-	48,500
IRA accounts	5,988	10,969	21,674	819	39,450
Certificates of deposit	25,591	41,374	33,484	422	100,871
Other liabilities	-	-	-	-	28,737
Junior Subordinated Debenture	-	-	-	-	5,155
Stockholders' equity	-	-	-	-	25,149
Total liabilities and Stockholders' equity	$ 117,594	$ 52,555	$ 55,158	$ 1,241	$ 353,397
GAP	$ (105,396)	$ (40,732)	$ 33,024	$ 207,592	
Cumulative GAP	(105,396)	(146,128)	(113,014)	94,578	
Cumulative GAP as a % of total assets	(29.82%)	(41.35%)	(31.98%)	26.76%	

The foregoing analysis assumes that the Bank's assets and liabilities move with rates at their earliest repricing opportunities based on final maturity. Mortgage backed securities are assumed to mature during the period in which they are estimated to prepay and it is assumed that loans and other securities are not called prior to maturity. Certificates of deposit and IRA accounts are presumed to reprice at maturity. NOW savings accounts are assumed to reprice at within three months although it is the Company's experience that such accounts may be less sensitive to changes in market rates.

In addition to gap analysis, the Bank utilizes a simulation model to quantify the effect a hypothetical immediate plus or minus 200 basis point change in rates would have on net interest income and the economic value of equity. The model takes into consideration the effect of call features of investments as well as prepayments of loans in periods of declining rates. When actual changes in interest rates occur, the changes in interest earning assets and interest bearing liabilities may differ from the assumptions used in the model and, in the Bank's experience, the changes historically realized have been narrower than those projected by the model. However, the Bank believes that the model is a

prudent forecasting tool. As of December 31, 2009, the model produced the following sensitivity profile for net interest income and the economic value of equity.

	Immediate Change in Rates			
	-200 Basis Points	-100 Basis Points	+100 Basis Points	+200 Basis Points
% Change in Net Interest Income	-4.9%	-3.1%	0.6%	-1.6%
% Change in Economic Value of Equity	-16.1%	-8.2%	0.4%	-11.4%

Liquidity and Capital Resources

The Company currently has no business other than that of the Bank and does not currently have any material funding commitments. The Company's principal sources of liquidity are cash on hand and dividends received from the Bank. The Bank is subject to various regulatory restrictions on the payment of dividends.

The Bank's principal sources of funds for investments and operations are net income, deposits from its primary market area, principal and interest payments on loans, interest received on investment securities and proceeds from maturing investment securities. Its principal funding commitments are for the origination or purchase of loans and the payment of maturing deposits. Deposits are considered the primary source of funds supporting the Bank's lending and investment activities. The Bank also uses borrowings from the FHLB of Atlanta to supplement deposits, residential and small business lending, and to meet specific and anticipated needs.

The Bank's most liquid assets are cash and cash equivalents, which are cash on hand, amounts due from financial institutions, federal funds sold and money market mutual funds. The levels of such assets are dependent on the Bank's operating financing and investment activities at any given time. The variations in levels of cash and cash equivalents are influenced by deposit flows and anticipated future deposit flows.

Cash and cash equivalents (cash due from banks, interest-bearing deposits in other financial institutions, and federal funds sold), as of December 31, 2009, totaled $11,433,822, a decrease of $9,804,081 or 46.17%, from the December 31, 2008 total of $21,237,903. This decrease was due to federal funds sold and interest-bearing deposits in FHLB.

As of December 31, 2009, the Bank was permitted to draw on a $70.85 million line of credit from the FHLB of Atlanta. Borrowings under the line are secured by a floating lien on the Bank's residential mortgage loans and its portfolio of U.S. Government and agency securities. As of December 31, 2009, a $7 million long-term convertible advance was outstanding under this line. There was also a $10 million convertible advance (callable monthly and with a final maturity of November 1, 2017.) There was a $5 million convertible advance settled July 21, 2008 with a final maturity of July 23, 2018. This advance has a 2.73% rate of interest and was callable quarterly, starting July 23, 2009. There was a $5 million convertible advance taken out August 22, 2008 which has a final maturity of August 22, 2018. This advance has a 3.344% rate of interest and is callable quarterly, starting August 22, 2011. In addition the Bank has unsecured lines of credit totaling $9 million from a commercial bank on which there is no outstanding balances at December 31, 2009. Furthermore, on September 7, 2000, the Company issued $5,155,000 of its 10.6% Junior Subordinated Deferrable Interest Debentures to Glen Burnie Statutory Trust I, a Connecticut statutory trust wholly owned by the Company. The Trust, in turn, issued $5,000,000 of its 10.6% capital securities to institutional investors. The debentures are scheduled to mature on September 7, 2030, unless called by the Company not earlier than September 7, 2010. As of December 31, 2009, the full $5,155,000 was outstanding.

Federal banking regulations require the Company and the Bank to maintain specified levels of capital. At December 31, 2009, the Company was in compliance with these requirements with a leverage ratio of 8.68%, a Tier 1 risk-based capital ratio of 13.23% and total risk-based capital ratio of 14.49%. At December 31, 2009, the Bank met the criteria for designation as a well capitalized depository institution under FDIC regulations.

Impact of Inflation and Changing Prices

The consolidated financial statements and notes thereto presented herein have been prepared in accordance with generally accepted accounting principles, which require the measurement of financial position and operating results in terms of historical dollars without considering the changes in the relative purchasing power of money over time due to inflation. Unlike most industrial companies, nearly all of the Company's assets and liabilities are monetary in nature. As a result, interest rates have a greater impact on the Company's performance than do the effects of general levels of inflation. Interest rates do not necessarily move in the same direction or to the same extent as the prices of goods and services.

Critical Accounting Policies

The Company's accounting policies are more fully described in Note 1 of the Notes to the Consolidated Financial Statements, starting on page F-8 and are essential to understanding Management's Discussion and Analysis of Financial Condition and Results of Operations. As discussed there, the preparation of financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Since future events and their effects cannot be determined with absolute certainty, the determination of estimates requires the exercise of judgment. Management has used the best information available to make the estimations necessary to value the related assets and liabilities based on historical experience and on various

assumptions which are believed to be reasonable under the circumstances. Actual results could differ from those estimates, and such differences may be material to the financial statements. The Company reevaluates these variables as facts and circumstances change. Historically, actual results have not differed significantly from the Company's estimates. The following is a summary of the more judgmental accounting estimates and principles involved in the preparation of the Company's financial statements, including the identification of the variables most important in the estimation process:

Allowance for Credit Losses. The Bank's allowance for credit losses is determined based upon estimates that can and do change when the actual events occur, including historical losses as an indicator of future losses, fair market value of collateral, and various general or industry or geographic specific economic events. The use of these estimates and values is inherently subjective and the actual losses could be greater or less than the estimates. For further information regarding our allowance for credit losses, see "Allowance for Credit Losses" under Item 1- "Business" of this Annual Report.

Accrued Taxes. Management estimates income tax expense based on the amount it expects to owe various tax authorities. Income taxes are discussed in more detail in Note 10 to the consolidated financial statements. Accrued taxes represent the net estimated amount due or to be received from taxing authorities. In estimating accrued taxes, management assesses the relative merits and risks of the appropriate tax treatment of transactions taking into account statutory, judicial and regulatory guidance in the context of the Company's tax position.

Recently Issued Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2009-01, Topic 105 Generally Accepted Accounting Principles - Amendments Based on Statement of Financial Accounting Standards No. 168 - The FASB Accounting Standards Codification™ and the Hierarchy of Generally Accepted Accounting Principles. Under this ASU, The FASB Accounting Standards Codification (Codification) became the source of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. For SEC registrants, rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative GAAP. On September 15, 2009, the effective date of this ASU, the Codification superseded all then-existing non-SEC accounting and reporting standards unless a particular accounting or reporting standard was specifically grandfathered into the Codification as authoritative GAAP. All other non-grandfathered non-SEC accounting literature not included in the Codification is no longer authoritative. In the FASB's view, the issuance of this ASU and the Codification does not change GAAP (except in limited instances not applicable to public nongovernmental entities). The adoption of ASU 2009-01, formerly FASB Statement No. 168, did not have a material impact on the Company's consolidated financial statements.

On January 12, 2009, the FASB amended Topic 820, Fair Value Measurement and Disclosures, of the Codification to reduce complexity and achieve more consistent determinations as to whether other-than-temporary impairments of available for sale or held to maturity debt securities have occurred. The ASU was effective for interim and annual reporting periods ending after December 15, 2008. The adoption of this ASU did not have an impact on the Company's consolidated financial statements. This ASU was formerly FASB Staff Position (FSP) EITF 99-20-1, Amendments to the Impairment Guidance of EITF Issue No. 99-20.

In April 2009, the FASB issued three amendments to provide additional guidance and disclosures regarding fair value measurements and impairments of securities. These three amendments were effective for interim and annual periods ending after June 15, 2009. The adoption of these amendments did not have a material impact on the Company's consolidated financial statements. These amendments were formerly:

FSP FAS 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly, which provides guidance for estimating fair value when the volume and level of activity for an asset or liability have significantly decreased. This amendment is included in Accounting Standards Codification (ASC) 820-10-35.

FSP FAS 115-2 and FAS 124-2, Recognition and Presentation of Other-Than-Temporary Impairment, which provides guidance for impaired debt securities to make the guidance more operational and improve the presentation and

disclosure of other-than-temporary impairments on debt and equity securities in financial statements. This amendment is included in ASC 320-10-25.

FSP FAS 107-1 and APB 28-1, Interim Disclosures about Fair Value of Financial Instruments, which requires disclosure about fair value of financial instruments for interim reporting periods of publicly traded companies as well as in annual financial statements. This amendment is included in ASC 825-10-50.

In May 2009, the FASB issued FASB Statement No. 165, Subsequent Events, which established general standards of and accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. This FASB Statement was effective for interim and annual periods ending after June 15, 2009. The Company has complied with the requirements of FASB 165. This amendment is included in ASC 855-10-50 and 55.

In June 2009, the FASB issued FASB Statement No. 166, Accounting for Transfers of Financial Assets - an amendment of FASB Statement No. 140 to improve the reporting for the transfer of financial assets resulting from (1) practices that have developed since the issuance of FASB Statement No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, which are not consistent with the original intent and key requirements of that Statement, and (2) concerns of financial statement users that many of the financial assets (and related obligations) that have been derecognized should continue to be reported in the financial statements of transferors. This Statement must be applied as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. Earlier application is prohibited. The Company will review the requirements of FASB No. 166 and comply with its requirements. The Company does not expect that the adoption of this Statement will have a material impact on the Company's consolidated financial statements. This amendment is included in ASC 860-10.

In June 2009, the FASB issued Statement of Financial Accounting Standards No. 167, Amendments to FASB Interpretation No. 46(R), to amend certain requirements of FASB Interpretation No. 46 (revised December 2003), Consolidation of Variable Interest Entities to improve financial reporting by enterprises involved with variable interest entities and to provide more relevant and reliable information to users of financial statements. The Statement is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. Earlier application is prohibited. The Company will review the requirements of FASB No. 167 and comply with its requirements. The Company does not expect that the adoption of this Statement will have a material impact on the Company's consolidated financial statements. This amendment is included in ASC 942-810.

In August 2009 the FASB amended Topic 820 – Fair Value Measurements and Disclosures by issuance of ASU No. 2009-05. The update addresses measuring liabilities at fair value. The update provides clarification that in circumstances in which a quoted price is an active market for the identical liability is not available, other specified techniques may be used to measure fair value. The adoption of this ASU did not have a material impact on the Company's consolidated financial statements.

In January 2010, the FASB issued ASU No. 2010-06- Fair Value Measurements and Disclosures amending Topic 820. The ASU provides for additional disclosures of transfers between assets and liabilities valued under Level 1 and 2 inputs as well as additional disclosures regarding those assets and liabilities valued under Level 3 inputs. The new disclosures are effective for interim and annual reporting periods beginning after December 15, 2009 except for those provisions addressing Level 3 fair value measurements which provisions are effective for fiscal years, and periods therein, beginning after December 15, 2010.

ITEM 7. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The financial statements and supplementary data required by this Item 7 are included in the Company's Consolidated Financial Statements and set forth in the pages indicated in Item 14(a) of this Annual Report.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 8A(T). CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company maintains a system of disclosure controls and procedures that is designed to provide reasonable assurance that information, which is required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and is accumulated and communicated to management in a timely manner. The Company's Chief Executive Officer and Chief Financial Officer have evaluated this system of disclosure controls and procedures as of the end of the period covered by this annual report, and have concluded that the system is effective.

Management's Annual Report on Internal Control over Financial Reporting

The Company's management, including its Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of our financial statements for external reporting purposes in accordance with U.S. generally accepted accounting principles (GAAP). Internal control over financial reporting includes those policies and procedures that: (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with policies or procedures may deteriorate.

Management (with the participation of the Company's Chief Executive Officer and Chief Financial Officer) conducted an evaluation of the effectiveness of the Company's internal control over financial reporting based on the framework in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that the Company's internal control over financial reporting was effective as of December 31, 2009.

This Annual Report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this Annual Report.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting during the fourth quarter of 2009 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 8B. OTHER INFORMATION

Not applicable.

PART III

ITEM 9. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information with respect to the identity and business experience of the directors of the Company and their remuneration set forth in the section captioned "Proposal I — Election of Directors" in the Company's definitive Proxy Statement to be filed pursuant to Regulation 14A and issued in conjunction with the 2010 Annual Meeting of Stockholders (the "Proxy Statement") is incorporated herein by reference. The information with respect to the identity and business experience of executive officers of the Company is set forth in Part I of this Form 10-K. The information with respect to the Company's Audit Committee is incorporated herein by reference to the section captioned "Meetings and Committees of the Board of Directors" in the Proxy Statement. The information with respect to compliance with Section 16(a) of the Exchange Act is incorporated herein by reference to the section captioned "Section 16(a) Beneficial Ownership Reporting Compliance" in the Proxy Statement. The information with respect to the Company's Code of Ethics is incorporated herein by reference to the section captioned "Code of Ethics" in the Proxy Statement.

ITEM 10. EXECUTIVE COMPENSATION

The information required by this item is incorporated herein by reference to the sections captioned "Director Compensation" and "Executive Compensation" in the Proxy Statement.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this item is incorporated herein by reference to the sections captioned "Voting Securities and Principal Holders Thereof" and "Securities Ownership of Management" in the Proxy Statement.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

The information required by this item is incorporated herein by reference to the section captioned "Election of Directors" and "Transactions with Management" in the Proxy Statement.

ITEM 13. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information required by this item is incorporated herein by reference to the section captioned "Authorization for Appointment of Auditors – Disclosure of Independent Auditor Fees" in the Proxy Statement.

PART IV

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors
Glen Burnie Bancorp and Subsidiaries
Glen Burnie, Maryland

We have audited the accompanying consolidated balance sheets of Glen Burnie Bancorp and subsidiaries as of December 31, 2009, 2008, and 2007, and the related consolidated statements of income, comprehensive income, changes in stockholders' equity, and cash flows for each of the years then ended. Glen Burnie Bancorp and subsidiaries' management is responsible for these consolidated financial statements. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Glen Burnie Bancorp and subsidiaries as of December 31, 2009, 2008, and 2007, and the consolidated results of their operations and their consolidated cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Salisbury, Maryland
