- (1) We do not "control" and are not an "affiliate" of any of our portfolio companies, each as defined in the Investment Company Act of 1940 (the "1940 Act"). In general, under the 1940 Act, we would be presumed to "control" a portfolio company if we owned 25% or more of its voting securities and would be an "affiliate" of a portfolio company if we owned 5% or more of its voting securities.
- (2) Fair value is determined in good faith by the Board of Directors of the Company.
- (3) Notes bear interest at variable rates.
- (4) Cost value reflects accretion of original issue discount or market discount, and amortization of premium.
- (5) As a percentage of net assets at June 30, 2011, investments at fair value are categorized as follows: CLO debt 52.11% and CLO equity 43.34%.
- (6) The CLO secured notes generally bear interest at a rate determined by reference to LIBOR which resets quarterly. For each CLO debt investment, the rate provided is as of June 30, 2011. The CLO subordinated notes and income notes are considered equity positions in the CLO funds. Equity investments are entitled to recurring dividend distributions which generally equal to remaining cash flow of the payments made by the underlying fund's securities less contractual payments to debt holders and fund expenses.

OXFORD LANE CAPITAL CORP.  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2011  
(unaudited)

NOTE 1. INVESTMENT VALUATION

The most significant estimate inherent in the preparation of Oxford Lane Capital Corp.'s (the "Fund's") financial statements is the valuation of investments and the related amounts of unrealized appreciation and depreciation of investments recorded. There is no single method for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments the Fund makes. The Fund is required to specifically fair value each individual investment on a quarterly basis.

The Fund complies with ASC 820-10, Fair Value Measurements and Disclosure, which establishes a three-level valuation hierarchy for disclosure of fair value measurements. ASC 820-10 clarified the definition of fair value and requires companies to expand their disclosure about the use of fair value to measure assets and liabilities in interim and annual periods subsequent to initial recognition. ASC 820-10 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820-10 also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, which includes inputs such as quoted prices for similar securities in active markets and quoted prices for identical securities in markets that are not active; and Level 3, defined as unobservable inputs for which little or no market data exists, therefore requiring an entity to develop its own assumptions. The Fund has determined that due to the general illiquidity of the market for the Fund's investment portfolio, whereby little or no market data exists, all of the Fund's investments are based upon "Level 3" inputs as of June 30, 2011. The Fund's Board of Directors determines the value of the Fund's investment portfolio each quarter. The prices used by the Fund to value securities may differ from the value that would be realized if the securities were sold, and these differences could be material to the Fund's financial statements.

The Fund has acquired a number of debt and equity positions in collateralized loan obligation ("CLO") investment vehicles. These investments are special purpose financing vehicles. In valuing such investments, the Fund considers the operating metrics of the specific investment vehicle, including compliance with collateralization tests, defaulted and restructured securities, and payment defaults, if any. In addition, the Fund considers the indicative prices provided by the broker who arranges transactions in such investment vehicles, as well as any available information on other relevant transactions in the market. Members of Oxford Lane Management, LLC's portfolio management team also prepare portfolio company valuations using the most recent trustee reports and note valuation reports. Oxford Lane Management, LLC or the Valuation Committee may request an additional analysis by a third-party firm to assist in the valuation process of CLO investment vehicles. All information is presented to the Board for its determination of fair value of these investments.

The Fund may also invest directly in senior secured loans (either in the primary or secondary markets). In valuing such investments, Oxford Lane Management, LLC's will prepare an analysis of each loan, including a financial summary, covenant compliance review, recent trading activity in the security, if known, and other business developments related to the portfolio company. All available information, including non-binding indicative bids obtained from large agent banks which may not be considered reliable, will be presented to the Valuation Committee of the Board to consider in its determination of fair value. In some instances, there may be limited trading activity in a security even though the market for the security is considered not active. In such cases the Board will consider the number of trades, the size and timing of each trade and other circumstances around such trades, to the extent such

information is available, in its determination of fair value. At June 30, 2011, the Fund did not have any direct investments in senior secured loans.

## NOTE 1. INVESTMENT VALUATION – (continued)

ASC 820-10-35, “Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly,” provides guidance on factors that should be considered in determining when a previously active market becomes inactive and whether a transaction is orderly. In accordance with ASC 820-10-35, the Fund’s valuation procedures specifically provide for the review of indicative quotes supplied by the brokers or large agent banks that make a market for each CLO investment or senior secured loan, respectively. The Fund has considered the factors described in ASC 820-10 and has determined that it is properly valuing the securities in its portfolio.

The Fund’s assets measured at fair value on a recurring basis subject to the disclosure requirements of ASC 820-10-35 at June 30, 2011, were as follows:

Assets	Fair Value Measurements at Reporting Date Using			Total
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
CLO Debt	\$ -	\$ -	\$ 16,932,234	\$ 16,932,234
CLO Equity	-	-	14,083,200	14,083,200
Total	\$ -	\$ -	\$ 31,015,434	\$ 31,015,434

## NOTE 2. FEDERAL INCOME TAXES

For tax purposes, net unrealized depreciation is \$1,258,151 because of the book to tax basis adjustment for accreted discount on equity CLOs. Aggregate gross unrealized appreciation for tax purposes is \$194,672; aggregate gross unrealized depreciation for tax purposes is \$1,452,823.

For tax purposes, the cost basis of the portfolio investments at June 30, 2011 was approximately \$32,273,585.

Item 2. Controls and Procedures

- (a) Based on an evaluation of the Disclosure Controls and Procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, the “Disclosure Controls”) as of a date within 90 days prior to the filing date (the “Filing Date”) of this Form N-Q (the “Report”), the Chief Executive Officer (its principal executive officer) and Chief Financial Officer (its principal financial officer) have concluded that the Disclosure Controls are reasonably designed to ensure that information required to be disclosed by the Registrant in the Report is recorded, processed, summarized and reported by the Filing Date, including ensuring that information required to be disclosed in the Report is accumulated and communicated to the Registrant's management, including the Registrant's principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.
- (b) There were no changes in the Registrant’s internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the Registrant’s last fiscal quarter that have materially affected or are reasonably likely to materially affect the Registrant’s internal control over financial reporting.

Item 3. Exhibits.

Certifications of principal executive officer and principal financial officer as required by Rule 30a-2(a) under the Investment Company Act of 1940 are filed herewith.
