Notes to Unaudited Condensed Consolidated Financial Statements

Note 1 - Basis of Presentation

The accompanying condensed (a) consolidated balance sheet as of December 31, 2016, which has been derived from audited consolidated financial statements, and (b) the unaudited interim condensed consolidated financial statements have been prepared and, in the opinion of management, contain all the adjustments (consisting of those of a normal recurring nature) considered necessary to present fairly the consolidated financial position and the consolidated statements of comprehensive income and consolidated cash flows for the periods presented in conformity with generally accepted accounting principles for interim consolidated financial information and the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America. Operating results for the three months ended June 30, 2017 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2017. It is suggested that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the fiscal year ended December 31, 2016.

Principles of consolidation and nature of operations:

The condensed consolidated financial statements include the accounts of CTI Industries Corporation and its wholly-owned subsidiaries, CTI Balloons Limited and CTI Supply, Inc., its majority-owned subsidiaries, Flexo Universal, S. de R.L. de C.V. and CTI Europe gmbH, as well as the accounts of Venture Leasing S. A. de R. L., Venture Leasing L.L.C and Clever Container Company, L.L.C. (the "Company"). The last three entities have been consolidated as variable interest entities. All significant intercompany transactions and accounts have been eliminated in consolidation. The Company (i) designs, manufactures and distributes balloon products throughout the world, (ii) operates systems for the production, lamination, coating and printing of films used for food packaging and other commercial uses and for conversion of films to flexible packaging containers and other products, and (iii) distributes vacuum sealing products and home organization products in the United States.

Variable Interest Entities ("VIE's"):

The determination of whether or not to consolidate a variable interest entity under U.S. GAAP requires a significant amount of judgment concerning the degree of control over an entity by its holders of variable interest. To make these

judgments, management has conducted an analysis of the relationship of the holders of variable interest to each other, the design of the entity, the expected operations of the entity, which holder of variable interests is most “closely associated” to the entity and which holder of variable interests is the primary beneficiary required to consolidate the entity. Upon the occurrence of certain events, management reviews and reconsiders its previous conclusion regarding the status of an entity as a variable interest entity. There are three entities that have been consolidated as variable interest entities.

Use of estimates:

In preparing condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amount of revenue and expenses during the reporting period in the condensed consolidated financial statements and accompanying notes. Actual results may differ from those estimates. The Company's significant estimates include reserves for doubtful accounts, reserves for the lower of cost or market of inventory, reserves for deferred tax assets and recovery value of goodwill.

Earnings per share:

Basic earnings per share is computed by dividing net income by the weighted average number of shares of common stock outstanding during each period.

Diluted earnings per share is computed by dividing the net income by the weighted average number of shares of common stock and equivalents (stock options and warrants), unless anti-dilutive, during each period.

As of June 30, 2017 and 2016, shares to be issued upon the exercise of options and warrants aggregated 359,817 and 288,048, respectively. The number of anti-dilutive shares (not included in the determination of earnings on a diluted basis) for the three and six months ended June 30, 2017 and 2016 were 153,350 and 0, respectively.

Significant Accounting Policies:

The Company's significant accounting policies are summarized in Note 2 of the Company's consolidated financial statements for the year ended December 31, 2016. There were no significant changes to these accounting policies during the three and six months ended June 30, 2017.

Reclassification:

Certain 2016 amounts have been reclassified to conform to the 2017 presentation. (See footnote regarding ASU 2015-17.)

Recent Accounting Pronouncements:

In August 2014, the FASB issued ASU 2014-15, *Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*. This guidance amended the existing requirements for disclosing information about an entity's ability to continue as a going concern, requires management to assess an entity's ability to continue as a going concern and then to provide related disclosure in certain circumstances. This guidance is effective for annual reporting periods ending after December 2016 and for annual and interim reporting periods thereafter. See Note 2 for management's assessment of its ability to continue as a going concern.

In 2014, the FASB issued guidance on revenue recognition, which provides for a single five-step model to be applied to all revenue contracts with customers. The guidance also requires additional financial statement disclosures that will enable users to understand the nature, amount, timing and uncertainty of revenue and cash flows relating to customer contracts. The guidance provides an option to use either a retrospective approach or a cumulative effect adjustment approach to implement the guidance. In 2015, the FASB issued a deferral of the effective date of the guidance to 2018, with early adoption permitted in 2017. In 2016, the FASB issued final amendments clarifying the implementation guidance for principal versus agent considerations, identifying performance obligations and the accounting of intellectual property licenses. In addition, the FASB introduced practical expedients related to disclosures of remaining performance obligations, as well as other amendments to guidance on collectibility, non-cash consideration and the presentation of sales and other similar taxes. We are currently evaluating the impact of this guidance on our financial statements and the timing of adoption, and have not yet selected a transition approach.

In November 2015, the FASB issued ASU 2015-17, *Balance Sheet Classification of Deferred Taxes*, to eliminate the current requirements to classify deferred income tax assets and liabilities between current and noncurrent. To simplify the presentation of deferred income taxes, the amendments in this update require that deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. For public business entities, the amendments in this update are effective for financial statements issued for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Earlier application is permitted for all entities as of the beginning of an interim or annual reporting period. The Company has adopted the standard and the impact to our consolidated financial statements for the period ending June 30, 2017 is a reclassification of \$761,000 in deferred tax assets to noncurrent, and a reclassification of \$773,000 in deferred tax assets to noncurrent for the period ending December 31, 2016.

In February 2016, the FASB issued ASU 2016-02, *Leases* (Topic 842), aimed at making leasing activities more transparent and comparable. The new standard requires substantially all leases be recognized by lessees on their balance sheet as a right-of-use asset and corresponding lease liability, including today's operating leases. For public business entities, the standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early application is permitted. When the standard becomes effective, we expect that our property, plant and equipment will increase significantly due to the addition of assets under lease and the lease liabilities will correspondingly increase. There is not expected to be a significant impact on the income statement.

On August 26, 2016, the FASB issued Accounting Standards Update No. 2016-15, *Statement of Cash Flows (Topic 230)*, a consensus of the FASB's Emerging Issues Task Force ("ASU 2016-15"). The new guidance amends Accounting Standards Codification No. 230 ("ASC 230") to add or clarify guidance on the classification of certain cash receipts and payments in the statement of cash flows. ASC 230 lacks consistent principles for evaluating the classification of cash payments and receipts in the statement of cash flows. This has led to diversity in practice and, in certain circumstances, financial statement restatements. Therefore, the FASB issued the ASU 2016-15 with the intent of reducing diversity in practice with respect to eight types of cash flows. ASU 2016-15 is effective for annual and interim periods in fiscal years beginning after December 15, 2017, and is effective for the Company for the year ending December 31, 2018. The Company is currently evaluating the impact that the implementation of this standard will have on the Company's consolidated financial statements.

## **Note 2 - Liquidity and Going Concern**

The Company's primary sources of liquidity are cash and cash equivalents as well as availability under the Credit Agreement with BMO Harris. The Company has historically used availability under this revolving credit facility to fund operations.

For the six months ended June 30, 2017, the Company generated net cash from operating activities in the amount of \$3,202,237, although the Company did incur a loss for the quarter ended June 30, 2017 of \$526,000 and for the six months ended June 30, 2017 of \$468,000.

Assuming a continuation of the revolving credit under the Credit Agreement, the Company has forecast a profit for the second half of the year, which is expected to generate sufficient cash flow for the Company to meet its current obligations.

As of June 30, 2017, the Company had total borrowings outstanding under the Credit Agreement including \$9,172,000 on the revolving credit loan and \$1,664,000 on the mortgage facility. As of June 30, 2017, the Company had cash balances of \$456,000.

Also, the Company owes \$5 million on its outstanding subordinated loan with BMO Equity, which matures on January 17, 2018.

As of June 30, 2017, we met the debt covenants of the BMO Harris loan and the BMO Equity loan.

The obligations of the Credit Agreement (revolving credit loan and mortgage) were to mature on July 17, 2017 under the terms. By amendment to the Credit Agreement, BMO Harris has agreed to extend the maturity of these obligations to October 18, 2017. BMO Equity consented to this extension in exchange for a fee and for the right to exercise at any time its put of warrants issued under the Note and Warrant Agreement, with payment deferred to the maturity date of the BMO Equity loan.

The extension provides for the retention by the Company of a consultant to advise as to financial planning, forecasting, cost management and financing.

Management's plans include

Edgar Filing: CTI INDUSTRIES CORP - Form 10-Q

- (1) Acting to reduce operating expense to achieve a higher level of profitability,
- (2) Working with our consultant to reduce operating expenses, negotiate financing terms, identify financing sources,
- (3) Contacts and negotiations with our current lenders and with additional financing sources to extend our present loan facilities or to provide alternative sources for one or both of our current lenders, and
- (4) Maintaining active contact and a loan process with several potential lenders, as well as our current lenders, and receipt of non-binding proposals for our financing.

Management Assessment

Based upon our historical ability to obtain necessary financing and our current expectations, we believe that we are likely to obtain necessary financing to continue operating as a going concern. However, we do not have firm commitments at this time for alternative financing or loan extensions.

**Note 3 - Stock-Based Compensation; Changes in Equity**

The Company has adopted Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 718 which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the condensed consolidated financial statements based on their grant-date fair values.

The Company has applied the Black-Scholes model to value stock-based awards and issued warrants related to notes payable. That model incorporates various assumptions in the valuation of stock-based awards relating to the risk-free rate of interest to be applied, the estimated dividend yield and expected volatility of our common stock. The risk-free rate of interest is the related U.S. Treasury yield curve for periods within the expected term of the option at the time of grant. The dividend yield on our common stock is estimated to be 0%, as the Company did not issue dividends during 2017 and 2016. The expected volatility is based on historical volatility of the Company’s common stock.

The Company’s net loss for the three months ended June 30, 2017 and 2016 includes approximately \$5,000 and \$11,000, respectively, of compensation costs related to share based payments. The Company’s net loss for the six months ended June 30, 2017 and 2016 includes approximately \$10,000 and \$23,000, respectively, of compensation costs related to share based payments. As of June 30, 2017, there is \$16,000 of unrecognized compensation expense related to non-vested stock option grants and stock grants. We expect approximately \$5,000 of additional stock-based compensation expense to be recognized over the remainder of 2017, \$7,000 to be recognized during 2018, \$3,000 to be recognized during 2019 and \$1,000 to be recognized during 2020.

As of June 30, 2017, the Company had three stock-based compensation plans pursuant to which stock options were, or may be, granted. The Plans provide for the award of options, which may either be incentive stock options (“ISOs”) within the meaning of Section 422A of the Internal Revenue Code of 1986, as amended (the “Code”) or non-qualified options (“NQOs”) which are not subject to special tax treatment under the Code, as well as for stock grants.

On April 10, 2009, the Board of Directors approved for adoption, and on June 5, 2009, the shareholders of the Corporation approved, a 2009 Stock Incentive Plan (“2009 Plan”). The 2009 Plan authorizes the issuance of up to 250,000 shares of stock or options to purchase stock of the

Company (including cancelled shares reissued under the plan.) As of June 30, 2017, options for 250,000 shares had been granted and options for 143,094 shares remain outstanding.

(“BMO Equity”) pursuant to which (i) BMO Equity advanced to the Company the sum of \$5 million and (ii) the Company issued to BMO Equity a warrant to purchase up to Four Percent (4%) of the outstanding shares of common stock of the Company on a fully-diluted basis (140,048 shares of common stock of the Company) at the price of One Cent (\$0.01) per share. The term of the loan provided for in this Agreement is five and a half years. Interest is payable on the outstanding balance of the loan at the rate of 11.5% per annum. As of June 30, 2017, the Company was in compliance with all of the financial covenants under the Note and Warrant Purchase Agreement.

On July 29, 2016, the Company and certain accredited investors entered into a Securities Purchase Agreement wherein the investors purchased 152,850 shares of common stock of the Company at a price of \$6.00 per share. The warrants are exercisable between six months and three years from the investment date. In addition to the Purchase Agreement, the Company and each of the investors entered into a Registration Rights Agreement pursuant to which the Company agreed to file a Registration Statement with the SEC to register the common stock sold to the investors.

#### Note 8 - Concentration of Credit Risk

Concentration of credit risk with respect to trade accounts receivable is generally limited due to the large number of entities comprising the Company's customer base. The Company performs ongoing credit evaluations and provides an allowance for potential credit losses against the portion of accounts receivable which is estimated to be uncollectible. Such losses have historically been within management's expectations. During the three and six months ended June 30, 2017 and 2016, there were two customers whose purchases represented more than 10% of the Company's consolidated net sales, respectively. Sales to these customers for the three months ended June 30, 2017 and 2016 are as follows:

For the six months ended June 30, 2017, net sales were \$28,171,000 compared to net sales of \$29,355,000 for the same period of 2016, a decrease of 4%. For the six months ended June 30, 2017 and 2016, net sales by product category were as follows:

Foil Balloons. During the three months ended June 30, 2017, revenues from the sale of foil balloons increased by 6.9% compared to the prior year period from \$6,350,000 to \$6,788,000. During the six months ended June 30, 2017, revenues from the sale of foil balloons increased by 9.2% compared to the prior year period from \$14,362,000 to

\$15,680,000. During the first half of 2017, foil balloon sales to our largest customer increased to \$8,293,000 from \$8,287,000 in the first half of 2016. Sales of foil balloons to other customers increased to \$7,387,000 from \$6,075,000 for the same period last year. These increased sales represent certain new customers but principally increases in sales to significant existing customers in each of the United States, Mexico, the United Kingdom and Europe.

Latex Balloons. During the three months ended June 30, 2017, revenues from the sale of latex balloons decreased by 0.8% compared to the prior year period from \$2,263,000 to \$2,244,000. During the six months ended June 30, 2017, revenues from the sale of latex balloons increased by 1% compared to the prior year period from \$4,308,000 to \$4,349,000.

**Vacuum Sealing Products.** During the three months ended June 30, 2017, revenues from the sale of pouches and vacuum sealing machines decreased by 36.1% compared to the prior year from \$2,444,000 to \$1,563,000. During the six months ended June 30, 2017, revenues from the sale of pouches and vacuum sealing machines decreased by 31.4% compared to the prior year from \$4,768,000 to \$3,271,000. We believe that sales were affected during both the first and second quarters by the selloff of excess inventory of vacuum sealing machines held by a principal customer due to a sales promotion the customer implemented during the fourth quarter of 2016 for which a large quantity of machines were purchased. We believe such excess inventory has now been sold and anticipate increased orders for machines during the third and fourth quarters this year.

**Films.** During the three months ended June 30, 2017, revenues from the sale of laminated film products decreased by 48.2% compared to the prior year period from \$1,350,000 to \$699,000. During the six months ended June 30, 2017, revenues from the sale of laminated film products decreased by 35.2% compared to the prior year period from \$2,370,000 to \$1,536,000. Virtually all of the sales of this product line were to a single long-term customer. This customer has reduced the volume of film product purchased from our Company this year to date but we continue to maintain a long-term relationship with the customer.

**Other Revenues.** During the three months ended June 30, 2017, revenues from the sale of various other products decreased by 13% to \$1,518,000 compared to revenues from other products in the same period in 2016 of \$1,744,000. During the six months ended June 30, 2017, revenues from the sale of various other products decreased by 6% to \$3,335,000 compared to revenues from other products in the same period in 2016 of \$3,547,000. The revenues from the sale of other products during 2017 include (i) sales of a line of “Candy Blossoms” and “Candy Loons” consisting of candy and small inflated balloons sold in small containers, (ii) the sale of accessories and supply items related to balloon products, (iii) sales by Clever Container Company, L.L.C. which engages in the direct sale of container and organizing products through a network of independent distributors and (iv) sales of party goods in Mexico by Flexo Universal.

Sales to a limited number of customers continue to represent a large percentage of our net sales.

The table below illustrates the impact on sales of our top three and ten customers for the three and six months ended June 30, 2017 and 2016.

	Three Months Ended June 30, % of Sales				Six Months Ended June 30, % of Sales

Top 10 Customers	65.3	%	69.6	%	65.8	%	68.5	%

During the three and six months ended June 30, 2017, there were two customers whose purchases represented more than 10% of the Company's consolidated net sales. Sales to these customers for the three months ended June 30, 2017 were \$3,867,000 or 30.2%, and \$1,565,000 or 12.2%, of consolidated net sales, respectively. Sales to these customers for the three months ended June 30, 2016 were \$3,607,000 or 25.5%, and \$2,460,000 or 17.4%, of consolidated net sales, respectively. Sales to these customers for the six months ended June 30, 2017 were \$8,294,000 or 29.4%, and \$4,174,000 or 14.8%, of consolidated net sales, respectively. Sales to these customers for the six months ended June 30, 2016 were \$8,772,000 or 29.9%, and \$4,800,000 or 16.4%, of consolidated net sales, respectively. The amounts owed at June 30, 2017 by these customers were \$2,104,000 or 21.2%, and \$1,606,000 or 16.2%, of the Company's consolidated net accounts receivable, respectively. During the six months ended June 30, 2017, the cost of sales represented 76.1% of net sales compared to 73.6% for the six months ended June 30, 2016. The increase in cost of sales was the result of changes in the mix of products sold. We did not experience significant changes in the cost of raw materials or direct labor during the period.

General and Administrative. During the three months ended June 30, 2017, general and administrative expenses were \$1,867,000 or 14.6% of net sales, compared to \$1,905,000 or 13.5% of net sales for the same period in 2016. During the six months ended June 30, 2017, general and administrative expenses were \$3,768,000 or 13.4% of net sales, compared to \$3,662,000 or 12.5% of net sales for the same period in 2016. We have undertaken a program to reduce administrative and selling costs for the balance of the year and beyond in order to establish better profitability. We are expecting to reduce administration, selling and marketing expenses by an annual rate of at least \$1.5 million.
