ANNOUNCEMENT OF RESPONSIVE MEASURES TO BE TAKEN IN CONNECTION WITH THE DIESEL PARTICULATE FILTER ("DPF") INCIDENT

Reference is made to our announcement dated November 22, 2004 regarding the discovery of data falsification by employees in connection with the Diesel Particulate Filter ("DPF") certification.

Mitsui expresses once again our utmost regret to our DPF users and all parties concerned, including the citizens and local communities, for the occurrence of data falsification related to our DPFs resulting in the provision of products whose filtration ratios do not reach the regulatory standard.

Immediately after the identification of the incident, Mitsui established an internal investigation committee chaired by an outside counsel as well as the DPF Response Headquarters headed by our CEO & President with a view to making every effort to expedite the resolution of the problems which have arisen from the incident. On December 1, 2004, Mitsui decided to implement the responsive measures outlined below, and will be reporting to the state and local governments concerned on our decision.

Edgar Filing: MITSUI & CO LTD - Form 6-K

Responsive Measures

o Free replacement of DPFs

Mitsui will replace our DPFs for free by either supplying products of other manufacturers or upgrading or reforming our own products (subject to the acquisition of certification from the relevant local government.) Mitsui will be contacting our DPF users directly or through our sales agents regarding the specific programs for replacement. Mitsui will also compensate for the relevant losses incurred during the period of replacement work.

o Measures other than DPF replacement

For those DPF users who plan to scrap their vehicles or procure alternative vehicles, Mitsui will redeem those DPFs and reimburse the amount paid for purchasing them. Mitsui will be contacting these users directly or through sales agents regarding the specific procedures and documentations for redemption and reimbursement.

Compensation of subsidies

Mitsui intends to compensate all providers of subsidies relating to our DPFs, including state and local governments, by paying the full amount equivalent to the relevant subsidies. In this regard, Mitsui will seek instructions from the relevant providers.

Mitsui is committed to taking prompt and definitive actions as outlined above, and asks for the kind understanding of all parties concerned.
