Management's Discussion and Analysis of  
Financial Condition and Results of Operations

Special Note on Forward-Looking Statements

Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended, provide a safe harbor for certain forward-looking statements. This quarterly report contains statements that are forward-looking. Forward looking statements include those which are not historical facts, including without limitation statements about management's expectations for any period beyond the fiscal quarter ended June 30, 2002. Words such as "expect", "anticipate", "believe", "intend" and "estimate" and similar expressions are examples of words which identify forward looking statements. While these statements reflect the Company's beliefs as of the date of this report, they are subject to assumptions, uncertainties and risks that could cause actual results to differ materially and adversely from the results contemplated, forecast or estimated in the forward-looking statements included in this report. These factors include, but are not necessarily limited to, the impact of competitive products, the acceptance of new products or product lines in the marketplace, the Company's ability to manage growth, the availability of an adequate workforce and changes in market conditions.

Results of Operations. For the three month period ending June 30, 2002 as compared with the three month period ending June 30, 2001.

Product sales decreased \$112,105 or 4%. Please refer to the Trends section for a detailed explanation.

Gross profit decreased \$745,155. As a percentage of sales gross profit decreased from 47% to 24%. Three major factors have contributed to this significant decrease. First, second quarter sales were heavily concentrated in deep discount retailers that require low selling prices and more costly packaging. Secondly, revenues from Kmart Corporation have not increased much since its January bankruptcy; therefore, predetermined promotional costs have had a negative impact on gross profit. Additionally, as a way to remain competitive in the marketplace, the Company has provided value added products for lip balm while maintaining prices to its mass retail customers.

Selling and marketing increased \$51,748. The increase can be substantially attributed to bad debt expense for write offs of aged receivables deemed uncollectible.

General and administrative expenses decreased \$349,585. The Board granted a bonus to the President of the Company, in the amount of \$350,000 in the second

## Edgar Filing: ORALABS HOLDING CORP - Form 10QSB

quarter of year 2001 and no bonus was granted in the second quarter of year 2002.

Net income for the second quarter of year 2001 was \$134,729, but for the second quarter of 2002 the Company incurred a loss of \$149,974, as explained by the above activities. As a percentage of sales, net operating income, which excludes Interest, Other Income and Income taxes, for the second quarter of year 2001, was 6%, but for the second quarter of year 2002 the Company incurred a loss of 9% as a percentage of sales.

Results of Operations. For the six month period ending June 30, 2002 as compared with the six month period ending June 30, 2001.

Product sales decreased \$945,337 or 12%. Please refer to the Trends section for a detailed explanation.

Gross profit decreased \$1,472,425. As a percentage of sales gross profit decreased from 48% to 33%. This was caused by the fact that the first quarter of year 2001 was an exceptionally strong quarter (as we discussed in the Company's quarterly reports for the period ended March 31, 2002), and by the factors discussed above in the Results of Operations section for the second quarter of 2002.

General and administrative expenses decreased \$325,024. The Board granted a bonus to the President of the Company, in the amount of \$350,000 in second quarter of year 2001 and no bonus was granted in the second quarter of 2002.

Interest and Other Income decreased \$778,165. This was almost entirely due to the one-time transaction in the first quarter of 2001 in which the Company sold its entire minority interest in a company.

Net income decreased by \$1,196,169 or 84%, as explained by the above activities. As a percentage of sales, net operating income, which excludes Interest, Other Income and Income taxes, decreased from 18% to 3%.

9

Liquidity and Capital Resources. Balance Sheet as of June 30, 2002 compared to December 31, 2001.

At June 30, 2002, the Company had \$2,480,015 of cash and its current ratio was approximately 4 to 1. The Company believes its current capital resources are sufficient to fund operations for the next twelve months.

The Company generated \$180,610 of cash flows from operating activities for the six months ended June 30, 2002 versus \$1,143,867 for the six months ended June 30, 2001. This decrease in cash flow from operating activities was primarily due to changes in various working capital items, higher operating income for the six months ended June 30, 2001 and the gain on the sale of our minority interest in a company for the quarter ended March 31, 2001.

Accounts receivable decreased \$171,748. Reduced sales and write downs of aged receivables significantly contributed to the modest decrease in accounts receivable.

## Edgar Filing: ORALABS HOLDING CORP - Form 10QSB

Inventory increased \$208,003 due to the Company's commitment to carry higher inventory levels in an effort to support timely deliveries to customers.

Prepaid Expenses increased \$72,254. This increase was substantially due to Company insurance premiums paid in advance for the year 2002.

Deposits decreased \$205,012. The Company made a deposit in fourth quarter of 2001 for raw materials that was subsequently used to pay for the raw materials when received in the first quarter of 2002.

Accrued liabilities increased \$67,151. This can be substantially attributed to payroll and bonuses earned in the second quarter to be paid in the third quarter of 2002.

Income taxes payable decreased \$151,238. This decrease reflects tax payments made in excess of tax liabilities.

Retained earnings increased \$220,897 as a result of net income.

Trends. Lip balm revenues declined to \$5,345,271 in the first six months of 2002 as compared to \$5,691,157 in the first six months of 2001, or a 6% decrease. Kmart Corporation's bankruptcy filing negatively impacted revenues in the first quarter, and while the Company expected sales to increase, revenues continued to be lower in the second quarter. The Company does not expect Kmart revenues to reach levels obtained in year 2001. Generally, the Company believes that updated packaging and anticipated expanded distribution to existing customers will result in growth in this category in the third and fourth quarters of year 2002. Additionally, the Company anticipates gross profit should increase with cost reduction efficiencies related to expected higher volumes and a more profitable product mix for the second half of year 2002.

Sales of sour drops and breath fresheners were \$1,048,004 in the first six months of 2002 as compared to \$1,669,863 in the first six months of 2001, or a 37% decrease, consistent with the decline sustained by the Company during the first quarter. There continues to be a significant amount of competitive pressure in the sour and breath products category. The popularity of our established brands is being challenged, making it difficult for the Company to estimate revenues for the remainder of this year.

The nutritional supplements, on a relatively smaller scale, showed decline in revenue. Revenues were \$310,001 in the first six months of 2002 as compared to \$682,222 in the first six months of 2001, or a 55% decrease. Cheat & Lean(R) and 5-HTP continue to produce steady revenue. The other brands, Glucosamine + MSM, MSM, and Breast Plus(TM), have not produced significant revenue and the future of these brands is uncertain. As is the case with our sour drops and breath fresheners, with additional pressure from competitors it is difficult for the Company to estimate revenues for the remainder of this year.

Impact of Inflation. The Company's financial condition has not been affected by the modest inflation of the recent past. The Company believes that revenues will not be materially affected by inflation. The Company's lip care and oral care products are primarily very low retail price points and impulse items. The nutritional supplements are a small part (approximately 4%) of revenues and could be negatively impacted by inflation.
