PART I.

Item 1. Financial Statements.

Report of Independent Registered Public Accounting Firm

To the Board of Directors of  
Bio-Matrix Scientific Group, Inc. and Subsidiary  
(Formerly Tasco International, Inc.)  
(A Development Stage Company)

We have reviewed the consolidated accompanying balance sheet of Bio-Matrix Scientific Group, Inc. and Subsidiary (Formerly Tasco International, Inc) (A Development Stage "Company") as of March 31, 2007, and the related consolidated statements of operation, changes in stockholders' equity, and cash flows for the six months and three months ended March 31, 2007; and for the period from August 2, 2005 (inception) through March 31, 2007. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the consolidated financial statements referred to above for them to be in conformity with generally accepted accounting principles.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 5 to the consolidated financial statements, the Company is currently in the development stage. Because of the Company's current status and limited operations there is substantial doubt about its ability to continue as a going concern. Management's plans in regard to its current status are also described in Note 5. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

BIO-MATRIX SCIENTIFIC GROUP, INC. AND SUBSIDIARY  
(Formerly Tasco Holdings International, Inc.)  
(A Development Stage Company)  
Notes to Unaudited consolidated Financial Statements  
As of March 31, 2007

NOTE 1. ORGANIZATION AND DESCRIPTION OF BUSINESS

Bio-Matrix Scientific Group, Inc. (“Company”) was organized October 6, 1998, under the laws of the State of Delaware as Tasco International, Inc.

The Company is in the development stage. From October 6, 1998 to June 3, 2006 its activities have been limited to capital formation, organization, and development of its business plan to provide production of visual content and other digital media, including still media, 360-degree images, video, animation and audio for the Internet.

On July 3, 2006 the Company abandoned its efforts in the field of digital media production when it acquired 100% of the share capital of Bio-Matrix Scientific Group, Inc., a Nevada corporation, for consideration consisting of 10,000,000 shares of the common stock of the Company and the cancellation of 10,000,000 shares of the Company owned and held by John Lauring.

As a result of this transaction, the former stockholder of Bio-Matrix Scientific Group, Inc held approximately 80% of the voting capital stock of the Company immediately after the transaction. For financial accounting purposes, this acquisition was a reverse acquisition of the Company by Bio-Matrix Scientific Group, Inc under the purchase method of accounting, and was treated as a recapitalization with Bio-Matrix Scientific Group, Inc. as the acquirer. Accordingly, the financial statements have been prepared to give retroactive effect to August 2, 2005 (date of inception), of the reverse acquisition completed on July 3, 2006, and represent the operations of Bio-Matrix Scientific Group, Inc.

Bio-Matrix Scientific Group, Inc. (“BMSG”) is a development stage company in the business of designing, developing, and marketing medical devices, specifically disposable instruments used in stem cell extraction and tissue transfer procedures and operating cryogenic cellular storage facilities, specifically stem cell banking facilities. BMSG is the Company's only subsidiary and operating entity at this time.

## NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### A. BASIS OF ACCOUNTING

The financial statements have been prepared using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded as earned and expenses are recorded at the time liabilities are incurred. The Company has adopted a September 30, year-end.

### B. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### C. DEVELOPMENT STAGE

The Company is a development stage company that devotes substantially all of its efforts in the development of its plan to operate in the field of the development, manufacture and marketing of medical devices and the operation of cellular storage facilities, specifically stem cell banking facilities.

### D. CASH EQUIVALENTS

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

### E. PROPERTY AND EQUIPMENT

Property and equipment are recorded at cost. Maintenance and repairs are expensed in the year in which they are incurred. Expenditures that enhance the value of property and equipment are capitalized.

The Company has depreciated property and equipment by the straight-line method over the useful life.

### F. INCOME TAXES

Income taxes are provided in accordance with Statement of Financial accounting Standards No. 109 (SFAS 109), Accounting for Income Taxes. A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carry forwards. Deferred tax expense (benefit) results from the net change during the year of deferred tax assets and liabilities.

Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

### G. BASIC EARNINGS (LOSS) PER SHARE

In February 1997, the FASB issued SFAS No. 128, "Earnings Per Share", which specifies the computation, presentation and disclosure requirements for earnings (loss) per share for entities with publicly held common stock. SFAS No. 128 supersedes the provisions of APB No. 15, and requires the presentation of basic earnings (loss) per share and diluted earnings (loss) per share. The Company has adopted the provisions of SFAS No. 128 effective

October 6, 1998 (inception).

Basic net loss per share amounts is computed by dividing the net income by the weighted average number of common shares outstanding. Diluted earnings per share are the same as basic earnings per share due to the lack of dilutive items in the Company.

NOTE 3. Property and equipment

Property and equipment as of March 31, 2007 consists of the following:

Acquisition cost:

Production Equipment	US\$ 93,314
Production Cleanroom	78,264
Leasehold improvement	188,981
Office equipment	3,057
Computer	2,120
Subtotal	365,736
Less accumulated depreciation	(999)
Total	US\$ 364,737

## NOTE 4. WARRANTS AND OPTIONS

On July 17, 2006 the Company signed a public relations agreement with OTCFN which called for the issuance of an option agreement for 200,000 options exercisable at \$4.50 per share. These options expired six months from the date of execution of the agreement

## NOTE 5. GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company generated net losses of \$3,402,997 during the period from August 2, 2005 (inception) through March 31, 2007. This condition raises substantial doubt about the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent on its ability to meet its obligations, to obtain additional financing as may be required and ultimately to attain profitability. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Management plans to raise additional funds through debt or equity offerings. Management has yet to decide what type of offering the Company will use or how much capital the Company will raise. There is no guarantee that the Company will be able to raise any capital through any type of offerings.

## NOTE 6. INCOME TAXES

**As of March 31 , 2007**

Deferred tax assets:

Net operating tax carry forwards	\$ 1,170, 148
Other	-0-
Gross deferred tax assets	1,170,148
Valuation allowance	(1,170,148)
Net deferred tax assets	\$ -0-

As of March 31, 2007 the Company has a Deferred Tax Asset of \$1,170,148 completely attributable to net operating loss carry forwards of approximately \$3,441,613 ( which expire 20 years from the date the loss was incurred) .consisting of

- (a) \$38,616, of Net Operating Loss Carry forwards acquired in the reverse acquisition and
- (b) 3,402,997 attributable to BMSG.

Realization of deferred tax assets is dependent upon sufficient future taxable income during the period that deductible temporary differences and carry forwards are expected to be available to reduce taxable income. The achievement of required future taxable income is uncertain. In addition, the reverse acquisition of BMSG has resulted in a change of control. Internal Revenue Code Sec 382 limits the amount of income that may be offset by net operating loss (NOL) carryovers after an ownership change. As a result, the Company has the Company recorded a valuation allowance reducing all deferred tax assets to 0.

## NOTE 7. RELATED PARTY TRANSACTION

On July 3, 2006, the Company acquired 100% of the share capital of BMSG from BMXP Holdings, Inc., formerly named Bio Matrix Scientific Group, Inc. in a reverse acquisition (See Note 11).

David R. Koos, the Chairman, CEO and President of the Company, is, and at the time of the acquisition was, the Chairman and Chief Executive Officer of BMXP Holdings Inc. as well as beneficial owner of 24% of the share capital of BMXP Holdings, Inc. Brian Pockett, Vice President, COO and Director of the Company, is, and at the time of the acquisition was, Chief Operating Officer, Managing Director and a Director of BMXP Holdings Inc. as well as beneficial owner of 14% of the share capital of BMXP Holdings, Inc.

On October 11, 2006, the Company entered into an Agreement with BMXP Holdings, Inc (“BMXP”) (“Agreement”) pursuant to which the Company issued to BMXP 1,462,570 common shares of the Company on or prior to October 12, 2006. This issuance will constitute full satisfaction of the amount of \$1,191,619 plus any accrued and unpaid interest, owed to BMXP by the Company.

As further consideration to BMXP for entering into this Agreement and abiding by the terms and conditions thereof, at any time within a period of 365 days from the date of the Agreement, BMXP shall have the right, upon written demand to the Company (“Registration Demand”), to cause the Company, within ninety days of the Registration Demand, to prepare and file with the United States Securities and Exchange Commission (“SEC”) a registration statement to register under the Securities Act of 1933, as amended, 11,462,570 common shares of the Company (including the shares issued pursuant to this Agreement) owned by BMXP (“Registerable Securities”), in order that the Registerable Securities may be distributed to BMXP shareholders on a pro rata basis ( based on their ownership of common shares of the Company as of a Record Date to be determined by BMXP), and use its reasonable best efforts to cause that registration statement to be declared effective by the SEC. This right may also be exercised by any entity to which BMXP has transferred ownership of the Registerable Securities in trust for the BMXP Record Shareholders.

#### NOTE 8. STOCK TRANSACTIONS

### **ACQUISITION OF WHOLLY OWNED SUSIDIARY**

As of the acquisition of 100% of the share capital of Bio-Matrix Scientific Group, Inc. ("BMSG", a Nevada corporation) on July 3, 2006, Tasco Holdings International, Inc. ("Company") has ceased all activities relating to its historical business and adopted the business plan of BMSG.

BMSG is developmental stage company engaged primarily in the cryogenic storage of stem cells and the development of medical devices used in live tissue transfer and stem cell research.

Through BMSG, the Company has developed a line of medical devices (approximately 192 disposable instruments for use in the plastic surgery field and stem cell research). The instruments are designed to be used to harvest adult stem cells from adipose (fat) tissue. The Company seeks to market and sell these instruments to plastic surgeons and to offer the patients of these plastic surgeons an opportunity to store stem cells derived from adipose tissue for future medical treatments. The Company has not conducted or obtained any independent evaluation of the efficacy or likely market interest in using these instruments. The Company's evaluations have been limited to those conducted by Company management without the benefit of any independent or third party professional evaluation.

Through BMSG, the Company is currently constructing what it believes is a state-of-the art, FDA good manufacturing practices (cGMP) and good tissue practices (cGTP) compliant facility for the processing and cryo-storage (in liquid nitrogen) of adult stem cells. It anticipates that it will offer a similar service to expectant parents by offering to store their newborn's cord blood stem cells as well. In undertaking these plans, it intend to offer such storage services at its planned facility. The planned facility is located at 8885 Rehco Road, San Diego, California 92121 and has approximately 15,000 square feet. The planned facility was acquired under a five year lease on December 1, 2005 at a current cost of \$18,931 per month (plus certain common area costs). Under the terms of the lease, the lease term may be extended for an additional five year lease term at the then prevailing market prices.

All of the Company's current plans and strategy have been developed solely by our officers and Directors.

The Company feels it will not be able to satisfy its cash requirements over the next twelve months and shall be required to seek additional financing.

At this time, the Company plans to fund its financial needs through operating revenues (which cannot be assured) and, if required, through equity private placements of common stock. (No plans, terms, offers or candidates have yet been established and there can be no assurance that the company will be able to raise funds on terms favorable to the Company or at all.) During the period beginning January 1, 2007 and ending April 4, 2007, the Company sold 1,752,867 shares of common stock at a purchase price of \$0.25 per share.

The net proceeds of the sale of these shares sold for cash consideration, which were \$300,000, will be utilized for general working capital purposes. We estimate that these net proceeds will not be sufficient to fulfill the Company's capital needs through the next twelve months.

On November 14, 2007 the Company sold \$50,000 face value of convertible debentures for an aggregate purchase price of \$50,000 to one purchaser. The net proceeds, which are \$50,000, will be utilized general working capital purposes.

Over the next 12 months and if the Company is successful in obtaining necessary licenses (as described below), the Company anticipates opening its stem cell bank and marketing its disposable stem cell / tissue management instruments.

On November 1, 2007, the Company was granted a Biologics license ("License") from the Department of Health Services of the State of California. This License permits the Company's current facility to accept and store cord blood (Stem Cells), whole blood, and various blood related specimens for cryogenic short and long term storage and on November 13, 2007, the Company entered into an agreement with Dr. Joao L. Ascensao, M.D., Ph.D., F.A.C.P. whereby Dr. Ascensao, as an independent contractor and not as an employee, has agreed to act as the Company's Medical Director.

The Company will be required to register with the FDA under the Public Health Service Act to satisfy the regulatory requirements involving the storage of stem cells and other tissue. These regulatory requirements apply to all establishments engaged in the recovery, processing, storage, labeling, packaging, or distribution of any Human Cells, Tissues, and Cellular and Tissue-Based Products (HCT/Ps) or the screening or testing of a cell or tissue donor.

The Company can not assure that it will be successful in obtaining additional financing necessary to implement its business plan. The Company has not received any commitment or expression of interest from any financing source that has given it any assurance that it will obtain the amount of additional financing in the future that it currently anticipates. For these and other reasons, the Company is not able to assure that it will obtain any additional financing or, if it is successful, that it can obtain any such financing on terms that may be reasonable in light of its current circumstances.
