

Item 8.01 Other events

Agenus Inc. announced today that new Phase 3 data for GlaxoSmithKline's (NYSE: GSK) RTS,S malaria vaccine candidate, which contains Agenus' QS-21 Stimulon® adjuvant, were presented at a Multilateral Initiative on Malaria Pan African Conference in Durban, South Africa. The abstract and presentation titled, "Efficacy of RTS,S/AS01 vaccine candidate against malaria in African infants and children 18 months post-primary vaccination series: a Phase 3 randomized, double-blind controlled trial," shows that RTS,S helped protect young children and infants from clinical malaria up to 18 months post vaccination.

The full text of the press release issued in connection with the announcement is being filed as Exhibit 99.1 to this current report on Form 8-K.
