## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

### Forward-Looking Information

This Form 10-QSB quarterly report of Saratoga Resources, Inc. (the "Company") for the nine months ended September 30, 2000, contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbors created thereby. To the extent that there are statements that are not recitations of historical fact, such statements constitute forward-looking statements that, by definition, involve risks and uncertainties. In any forward-looking statement, where the Company expresses an expectation or belief as to future results or events, such expectation or belief is expressed in good faith and believed to have a reasonable basis, but there can be no assurance that the statement of expectation or belief will be achieved or accomplished.

The following are factors that could cause actual results or events to differ materially from those anticipated, and include, but are not limited to: general economic, financial and business conditions; the Company's ability to minimize expenses; the Company's current dependency on its sole director and executive officer, to continue funding the Company's operations and, to the extent he should ever become unwilling to do so, the Company's ability to obtain additional necessary financing from outside investors and/or bank and mezzanine lenders; and the ability of the Company to generate sufficient revenues to cover operating losses and position it to achieve positive cash flow.

Readers are cautioned not to place undue reliance on the forward-looking statements contained herein, which speak only as of the date hereof. The Company believes the information contained in this Form 10-QSB to be accurate as of the date hereof. Changes may occur after that date, and the Company will not update that information except as required by law in the normal course of its public disclosure practices.

### Critical Accounting Policies

The Company's discussion and analysis of its financial condition and results of operations are based upon the Company's financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The Company believes certain critical accounting policies affect its more significant judgments and estimates used in the preparation of its financial statements. A description of the Company's critical accounting policies is set forth in the Company's Form 10-KSB for the year ended December 31, 1999. As of, and for the nine months ended, September 30, 2000, there have been no material changes or updates to the Company's critical accounting policies.

7

### Current Year Operations and Developments

During the nine months ended September 30, 2000, the Company continued to operate on a very limited scale with operations consisting solely of the Company's investment in a single oil and gas property. Management continued to undertake efforts to minimize costs during the period.

The financial information included in the following discussion has been rounded to thousands.

### Results of Operations

Revenues. Revenues during the nine months ended September 30, 2000 totaled \$3,000 while prior year revenue for the same period totaled \$1,000. Both years revenue consisted of gain from participation agreement. The current nine month period also includes a loss of \$5,000 from the participation agreement.

General and Administrative Expenses. General and administrative expense declined from \$302,000 during the nine months ended September 30, 1999 to \$61,000 during the same period in 2000. The decrease in general and administrative expense was attributable to a reduced level of activity following the spin-off from Saratoga Delaware and ongoing cost control measures.

Depreciation Expense. Depreciation expense declined from \$9,000 during the nine months ended September 30, 1999 to \$5,000 during the same period in 2000. The decline in depreciation expense during 2000 was attributable to assets reaching full depreciation in 1999 with minimal asset additions in 1999 and 2000.

### Financial Condition

#### Liquidity and Capital Resources.

The Company had a cash balance of \$3,000 and a working capital deficit of \$9,000 at September 30, 2000 as compared to a cash balance of \$9,000 and a working capital balance of \$21,000 at December 31, 1999.

The decline in cash and working capital balances was attributable to the operating loss incurred during 2000, partially offset by proceeds from borrowings from related parties.

The Company, at and for the period ended September 30, 2000, had limited capital resources and limited operating revenues to support its

## Edgar Filing: SARATOGA RESOURCES INC /TX - Form 10QSB

overhead. The Company is, and was, dependent upon its principal shareholder to provide financing to support operations and ongoing cost control measures to minimize negative cash flow. Unless that shareholder continues to provide financing the Company will be required to substantially limit its activities and may be unable to sustain its operations.

8

### Long-Term Debt

At September 30, 2000, the Company had long-term debt of \$90,000, including \$84,000 owed to the Company's principal shareholder. Loans from the Company's principal shareholder bear interest at 12.5% and are payable on demand. Long-term debt, other than amounts owed to the Company's principal shareholder, consisted of a bank note payable in monthly installments of \$564, including interest at 10%. The bank note is secured by a vehicle and provide for maturities of \$5,434 in 2000, \$6,004 in 2001 and \$4,345 in 2002. Subsequent to September 30, 2000, the vehicle securing the bank loan was transferred to the Company's principal shareholder and the shareholder assumed the balance owing on the bank loan.

### Capital Expenditures and Commitments

During the nine months ended September 30, 2000, the Company made no capital expenditures and, at September 30, 2000, the Company had no capital commitment obligations.

### Off-Balance Sheet Arrangements

The Company had no off-balance sheet arrangements or guarantees of third party obligations at September 30, 2000.

### Inflation
