

ALUMINUM CORP OF CHINA LTD  
Form 20-F  
June 25, 2008

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, DC 20549

---

FORM 20-F

REGISTRATION STATEMENT PURSUANT TO SECTION 12(b) OR (g) OF  
THE SECURITIES EXCHANGE ACT OF 1934

OR

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF  
1934

For the fiscal year ended December 31, 2007

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF  
THE SECURITIES EXCHANGE ACT OF 1934

Commission file number: 001-15264

(Exact name of Registrant as specified in its charter)

ALUMINUM CORPORATION OF CHINA LIMITED  
(Translation of Registrant's name into English)

People's Republic of China  
(Jurisdiction of incorporation or organization)

---

No. 62 North Xizhimen Street, Haidian District, Beijing, People's Republic of China (100082)  
(Address of Principal Executive Offices)

---

Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of each Class  
American Depositary Shares, each representing 25 H Shares

Class H Ordinary Shares\*

Name of Each Exchange on which Registered

New York Stock Exchange, Inc.

\* Not for trading, but only in connection with the registration of American Depositary Shares on the New York Stock Exchange, Inc. The Ordinary H Shares are also listed and traded on The Stock Exchange of Hong Kong Limited.

Securities registered or to be registered pursuant to Section 12(g) of the Act:

None

(Title of Class)

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:

None

(Title of Class)

---

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of December 31, 2007:

Domestic Shares, par value RMB1.00 per share	9,580,521,924
--	---------------

H Shares, par value RMB1.00 per share	3,943,965,968
---------------------------------------	---------------

(including 406,067,500 H Shares in the form of American Depositary Shares)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes  No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Security Exchange Act of 1934.

Yes  No

Note-Checking the box above will not relieve any registrant required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 from their obligations under those Sections.

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act (Check one):

Large accelerated filer  Accelerated filer  Non-accelerated filer

Indicate by check mark which financial statement item the registrant has elected to follow.

Item 17  Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act)

Yes  No

### FORWARD-LOOKING STATEMENTS

Certain information contained in this annual report, which does not relate to historical financial information may be deemed to constitute forward-looking statements. The words or phrases "will likely result", "are expected to", "will continue", "is anticipated", "estimate", "project", "believe" or similar expressions are intended to identify "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended, or the Exchange Act. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results and those presently anticipated or projected. We wish to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. These forward-looking statements include, without limitation, statements relating to:

- \* future prices and demand for our products;
- \* future PRC tariff levels for alumina and primary aluminum;

- \* sales of our products;
- \* the amount and nature of, and potential for, future development;
- \* production, consumption and demand forecasts of bauxite, alumina and primary aluminum;
- \* expansion, consolidation or other trends in the primary aluminum industry;
- \* the effectiveness of our cost-saving measures;
- \* future expansion plans and capital expenditures;
- \* expected production capacity increases;
- \* competition;
- \* changes in legislation, regulations and policies;
- \* estimates of proven and probable bauxite reserves;
- \* our research and development plans; and
- \* our dividend policy.

These statements are based on assumptions and analyses made by us in light of our experience and our perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate in particular circumstances. However, whether actual results and developments will meet our expectations and predictions depends on a number of risks and uncertainties, which could

- i -

---

cause actual results to differ materially from our expectations. These risks are more fully described in the section entitled "Item 3. Key Information - Risk Factors".

Consequently, all of the forward-looking statements made in this annual report are qualified by these cautionary statements. We cannot assure you that the actual results or developments anticipated by us will be realized or, even if substantially realized, that they will have the expected effect on us or our business or operations.

Unless otherwise indicated, statistical and market trend information, as well as statements related to market position and competitive data, are based on our internal statistics and/or estimates gathered from our own research and/or various publicly available sources.

### CERTAIN TERMS AND CONVENTIONS

Translations of amounts in this annual report from Renminbi into U.S. dollars and vice versa have been made at the rate of RMB7.2946 to US\$1.00, which was the noon buying rate in the New York City for cable transfers in Renminbi per U.S. dollar as certified for customs purposes by the Federal Reserve Bank of New York on December 31, 2007. You should not construe these translations as representations that the Renminbi amounts actually represent U.S. dollar amounts or could be converted into U.S. dollars at that rate or at all. See "Item 3. Key Information - Exchange Rate Information" for information regarding the noon buying rates from January 1, 2003 through June 20, 2008.

We publish our financial statements in Renminbi.

Various amounts and percentages set out in this document have been rounded and, accordingly, are not the exact figures and may not total.

Unless the context otherwise requires, references in this annual report to:

"A Shares"

are to the domestic ordinary shares, with a nominal value of RMB1.00 each;

"Alcoa"

are to Alcoa International (Asia) Ltd., a company incorporated under the laws of Hong Kong;

"alumina-to-silica ratio"

are to the ratio of alumina to silica by weight found in bauxite;

"aluminum fabrication"

are to the process of taking primary aluminum and converting it into plates, strips, bars, tubes, etc. which can be further converted into consumer or other end products;

"bauxite"

are to mineral ores whose composition is principally alumina;

"Baotou Aluminum"

are to Baotou Aluminum Co., Ltd. On December 28, 2007, it became our wholly-owned subsidiary after the

completion of shares exchange.

"Bayer process"

are to a refining process employed to extract alumina from ground bauxite with a strong solution of caustic soda at an elevated temperature;

"brownfield development"

are to development projects at existing plants or facilities;

"CCB"

are to China Construction Bank, a PRC state-owned bank established pursuant to PRC government approval;

"Chalco," "the Company", "the Group", "our company," "we," "our" and "us"

are to Aluminum Corporation of China Limited and its subsidiaries and, where appropriate, to its predecessors;

"Chalco Mining"

are to Chalco Mining Co., Ltd, our subsidiary that is established under PRC law;

"Chalco Nanhai"

are to Chalco Nanhai Alloy Company, our subsidiary that is established under PRC law;

"Chalco Trading"

are to China Aluminum International Trading Corporation Limited, our subsidiary that is established under PRC law;

"China"

and the "**PRC**" are to the People's Republic of China, excluding for purposes of this annual report, Hong Kong Special Administrative Region, Macao Special Administrative Region and Taiwan;

"China Cinda"

are to China Cinda Asset Management Corporation, a PRC state-owned financial enterprise established pursuant to PRC government approval;

"China Development Bank"

are to a PRC state-owned bank established pursuant to PRC government approval;

---

"Chinalco", "Chinalco Group"

and the "**ultimate holding company**" are to our controlling shareholder, Aluminum Corporation of China and its subsidiaries (other than Chalco and its subsidiaries) and, where appropriate, to its predecessors;

"China Orient"

are to China Orient Asset Management Corporation, a PRC state-owned financial enterprise established pursuant to PRC government approval;

"diasporite"

are to a mineral of bauxite deposits with the chemical composition of  $Al_2O_3 \cdot H_2O$ ;

"Exchange Act"

are to The Securities Exchange Act of 1934, as amended;

"fabricating ingots"

are to the primary aluminum or aluminum alloy ingots that may be used directly in the aluminum fabrication process;

"Fushun Aluminum"

are to Fushun Aluminum Company Limited, our subsidiary that is established under PRC law;

"Gansu Hualu"

are to Gansu Hualu Aluminum Company Limited, our subsidiary that is established under PRC law;

"gibbsitic"

are to a mineral of bauxite deposits with the chemical composition of  $Al_2O_3 \cdot 3H_2O$ ;

"greenfield investment"

are to investment projects to construct new plants or facilities;

"Guangxi Baise"

are to Guangxi Baise Yin Hai Aluminum Company Limited, a subsidiary of Guangxi Investment;

"Guangxi Huayin"

are to Guangxi Huayin Aluminum Company Limited, a PRC entity in which we hold 33% equity interest.

"Guangxi Investment"

are to Guangxi Investment (Group) Co., Ltd., formerly known as Guangxi Development and Investment Co., Ltd., a PRC state-owned enterprise established in the PRC and one of our promoters and shareholders;

"Guizhou Development"

are to Guizhou Provincial Materials Development and Investment Corporation, a PRC state-owned enterprise established in the PRC and one of our promoters and shareholders;

"HK\$"

and "**HK dollars**" are to Hong Kong dollars, the lawful currency of the Hong Kong Special Administrative Region of the PRC;

"H Shares"

are to overseas listed foreign shares of par value RMB1.00 each, which are listed on the Hong Kong Stock Exchange and traded in HK dollars;

"Hong Kong Stock Exchange"

are to The Stock Exchange of Hong Kong Limited;

"hybrid Bayer-sintering process"

are to the refining process developed in China which involves the application of the Bayer process and the sintering process in combination to extract alumina from bauxite more efficiently;

"ingots"

and "**remelt ingots**" are to the international standard primary metal products from an aluminum smelter. Remelt ingots are the aluminum ingots generally remelted before being cast into alloyed products or used for aluminum fabrication;

"Jiaozuo Wanfang"

are to Jiaozuo Wanfang Aluminum Manufacturing Co. Ltd., our associated company that is established under PRC law, in which we hold 29% of its equity interest;

"kA"

are to kiloamperes, a unit for measuring the strength of an electric current, with one kiloampere equal to 1,000 amperes;

"kWh"

are to kilowatt hours, a unit of electrical power, meaning one kilowatt of power for one hour;

"Lanzhou Aluminum"

are to Lanzhou Aluminum Co., Ltd., previously our associated company that was a joint stock limited company established under the PRC law, whose A Shares were traded on the Shanghai Stock Exchange. On April 24, 2007, we completed the merger of Lanzhou Aluminum by way of share exchange and Lanzhou Aluminum became our wholly-owned subsidiary. Its shares ceased to be traded on the Shanghai Stock Exchange. In June 2007, Lanzhou Aluminum was divided into two wholly-owned branches: Lanzhou branch and Northwest Aluminum Fabrication Plant, which are mainly engaged in producing primary aluminum products and fabricated aluminum products, respectively;

- iii -

---

"Listing Rules"

are to the Rules Governing the Listing of Securities on the Hong Kong Stock Exchange (as amended from time to time);

"LME"

are to the London Metal Exchange Limited;

"NYSE"

are to New York Stock Exchange Inc.;

"ore-dressing Bayer process"

are to a refining process we developed which involves the treatment of bauxite in order to increase its alumina-to-silica ratio so as to allow the Bayer process to then be applied;

"provinces"

are to provinces and to provincial-level autonomous regions and municipalities in China, excluding Hong Kong Special Administrative Region, Macao Special Administrative Region, and Taiwan, which are directly under the supervision of the central PRC government;

"refining"

are to the chemical process required to produce alumina from bauxite;

"Research Institute"

are to Zhengzhou Research Institute, our wholly-owned branch mainly providing research and development services;

"RMB"

are to Renminbi, the lawful currency of the PRC;

"NDRC"

are to China National Development and Reform Commission;

"Northwest Aluminum"

are to Northwest Aluminum Fabrication Plant, our wholly-owned branch;

"SASAC"

are to State-owned Assets Supervision and Administration Commission of the State Council;

"Shandong Aluminum"

are to Shandong Aluminum Industry Co., Limited, previously our majority owned subsidiary that was established under PRC law, whose A Shares were traded on the Shanghai Stock Exchange. On April 24, 2007, we completed the merger of Shandong Aluminum by way of share exchange and Shandong Aluminum became our wholly-owned subsidiary. Its shares ceased to be traded on the Shanghai Stock Exchange. In September 2007, Shandong Aluminum was changed into Shandong branch, our wholly-owned branch.

"Shanxi Coal"

are to Shanxi Huatai Coal Co., Ltd., our subsidiary that is established under PRC law;

"Shanxi Huasheng"

are to Shanxi Huasheng Aluminum Company Limited, our subsidiary that is established under PRC law;

"Shandong Huayu"

are to Shandong Huayu Aluminum and Power Company Limited, our subsidiary that is established under PRC law;

"Shanxi Huaze"

are to Shanxi Huaze Aluminum and Power Co., Limited, our subsidiary that is established under PRC law;

"Shanxi Zhangze"

are to Shanxi Zhangzhe Electricity Company Limited, an entity established under PRC law;

"sintering process"

are to a refining process employed to extract alumina from ground bauxite by mixing with supplemental materials and burning in a coal fired kiln;

"smelting"

are to the electrolytic process required to produce molten aluminum from alumina;

"tonne"

are to the metric ton, a unit of weight, with one metric ton equal to 1,000 kilograms or 2,204.6 pounds;

"US\$"

are to U.S. dollars, the lawful currency of the United States of America;

"WTO"

are to World Trade Organization; and

"Zunyi Aluminum"

are to Zunyi Aluminum Company Limited, our subsidiary that is established under PRC law.

## PART I

Not required for filing this annual report.

- 1 -

---

### ITEM 2. OFFER STATISTICS AND EXPECTED TIMETABLE

Not required for filing this annual report.

## ITEM 3. KEY INFORMATION

## SELECTED FINANCIAL DATA

## Historical Financial Information

The following tables present our summary income statement data and cash flow data for the years ended December 31, 2003, 2004, 2005, 2006 and 2007; and the summary balance sheet data as of December 31, 2003, 2004, 2005, 2006 and 2007. The summary balance sheet data as of December 31, 2005, 2006 and 2007 and income statement and cash flow data for the years ended December 31, 2005, 2006 and 2007 have been derived from, and should be read in conjunction with, the audited financial statements included elsewhere in this report. The summary balance sheet data as of December 31, 2003, 2004 and 2005 and income statement and cash flow data for the years ended December 31, 2003 and 2004 have been derived from our historical financial statements as of and for such dates, which are not included in this annual report. Unless otherwise indicated, the financial statements are prepared and presented in accordance with Hong Kong Financial Reporting Standards ("HKFRS" or "HKGAAP").

In accordance with HKFRS, as Chinalco exercised de facto and actual control over the Company and Baotou Aluminum before our acquisition of Baotou Aluminum, our acquisition of Baotou Aluminum qualifies as common control business combination, and merger accounting is applied. Accordingly, the consolidated financial statements for all periods presented have been retroactively restated as if the current structure and operations had been in existence since inception. In contrast, the Company is not considered to be controlled by Chinalco for the application of generally accepted accounting principles in the United States ("U.S. GAAP") purpose. Hence, the acquisition of Baotou Aluminum is not a common control transaction and is accounted for under the purchase method by including the result of Baotou Aluminum only from the effective date of acquisition. For a reconciliation of our net income and equity under HK GAAP to U.S. GAAP, see Note 37 to our audited consolidated financial statements. For more information, please see "Item 5 - Operating and Financial Review and Prospects - U.S. GAAP Reconciliation".

- (1) The amounts as of December 31, 2005, 2006 and 2007 and for each of the years in the three-year ended December 31, 2007 are presented to reflect the acquisition of Baotou Aluminum under merger accounting method under HKFRS. The HKFRS information as of December 31, 2003 and 2004 and for each of the two years ended December 31, 2004 is omitted because such selected financial data cannot be provided on a restated basis without unreasonable effort.

- 8 -

- (2) Total other revenue of RMB70 million and RMB105 million, related costs of RMB17 million and RMB18 million and interest income of RMB89 million and RMB184 million were previously included in "general and administrative expenses" and "other gain, net" for the years ended December 31, 2005 and 2006, respectively. They were separately presented as part of total revenue, cost of sales and interest income (including in finance costs, net), respectively, in the consolidated income statement for the respective years end in annual report this year in order to conform to the current year presentation.

- (3)

Translated solely for the convenience of the reader into U.S. dollars at the noon buying rate in New York for cable transfers payable in foreign currencies as certified for customs purposes by the Federal Reserve Bank of New York of US\$1.00 to RMB7.2946 prevailing on December 31, 2007.

#### Exchange Rate Information

The following table sets forth, for the periods indicated, the noon buying rate in New York for cable transfers payable in foreign currencies as certified for customs purposes by the Federal Reserve Bank of New York in Renminbi per U.S. dollar:

Period	Noon Buying Rate			
	Period End	Average <sup>(1)</sup>	High	Low
	(expressed in RMB per US\$)			
2003	8.2767	8.2771	8.2800	8.2765
2004	8.2765	8.2768	8.2773	8.2764
2005	8.0702	8.1826	8.2765	8.0702
2006	7.8041	7.9579	8.0702	7.8041
2007	7.2946	7.5806	7.8127	7.2946
	7.2946	7.3680	7.4120	7.2946
December 2008				
January	7.1818	7.2405	7.2946	7.1818
February	7.1115	7.1644	7.1973	7.1100
March	7.0120	7.0722	7.1110	7.0105
April	6.9870	7.0007	7.0185	6.9840
May	6.9400	6.9725	7.0000	6.9377
June through June 20, 2008	6,8796	6,9129	6,9633	6,8700

- 9 -

(1) Determined by averaging the rates on the last business day of each month during the respective period, except for monthly averages, which are determined by averaging the rates on each business day of the month.

On June 20, 2008, the non buying rate for Renminbi was U.S. dollar 1.00  
= RMB6.8796

## CAPITALIZATION AND INDEBTEDNESS

Not Applicable

## REASONS FOR THE OFFER AND USE OF PROCEEDS

Not Applicable

## RISK FACTORS

We are subject to various changing business, competitive, economic, political and social conditions in China as well as factors relating to the alumina and aluminum industry. These changing conditions and factors entail certain risks, which are described below:

- \* We price our alumina and primary aluminum products by reference to international and domestic market prices, import cost of alumina and changes in supply and demand in the domestic market. Each of these factors may fluctuate beyond our control. Historically, the international market prices for alumina and primary aluminum products have been volatile. Because most of our costs are fixed and we may not be able to respond quickly to any sudden decrease in alumina or primary aluminum prices, any significant fluctuation in international market prices could materially and adversely affect our business, financial condition and results of operations.
- \* Our plans to upgrade and expand our alumina and primary aluminum plants will require capital expenditure of approximately RMB20,600 million in 2008. See "Item 4. Information on the Company - Property, Plants and Equipment - Our Expansion". We may also need further funding for debt servicing, working capital, investments, potential acquisitions and joint ventures and other corporate requirements. We cannot assure you that cash generated from our operations will be sufficient to fund these development plans, or that our actual capital expenditures and investments will not significantly exceed our current planned amounts. If either of these conditions arises, we may have to seek external financing to satisfy our capital needs. Our ability to obtain external financing at reasonable costs is subject to a variety of uncertainties. Failure to obtain sufficient external funds for our development plans could adversely affect our business, financial condition and results of operations.
- \* Our planned expansion, cost reduction and technology improvement projects could be delayed or adversely affected by, among other things, failure to receive required regulatory approvals, difficulties in obtaining

sufficient financing, technical difficulties, or human and other resources constraints. Moreover, the actual costs involved in these projects may exceed those originally contemplated. Cost savings and other economic benefits expected from these projects may not materialize as a result of any project delay, cost overrun, or change in market conditions. Failure to obtain intended economic benefits from these projects could adversely affect our business, financial condition and results of operations.

- \* Our business has grown rapidly. In order to manage our growth and increased scale of operations effectively, we must continue to implement and improve our operational, financial and management systems, continue to develop the managerial skills of our managers, and continue to train, motivate and manage our employees. Failure to manage our growth and expanded operations effectively could adversely affect our financial condition and results of operations.
  
- \* We signed the Aurukun project development agreement with the Queensland State Government of Australia ("Queensland Government") on March 23, 2007. We also entered into a land use agreement with various indigenous peoples in respect of the Aurukun project on March 23, 2007. The Queensland Government officially issued the Aurukun bauxite exploration permit to the Company in September 2007. Further, to implement our international development strategy, we entered into a joint venture arrangement with Malaysia Mining Company (MMC) and Saudi Arabian Binladin Group (SBG) on May 9, 2008, according to which, a joint venture will be established in Saudi Arabia and will develop and operate a primary aluminum plant with a planned annual capacity of approximately one million tonnes and a self-owned power plant with a planned capacity of 1,860MW. As we are new to these overseas markets, we cannot assure you that our overseas expansion or investment will be successful or that we will not suffer foreign exchange losses in connection with our overseas investment.

- 10 -

- 
- \* Our operations consume substantial amount of energy. Although we generally expect to meet the energy requirements for our alumina refineries and primary aluminum smelters from internal sources and external contracts, our results of operations may be materially adversely affected by the following factors:
    - \* significant increases in electricity costs; and
  
    - \* unavailability or shortage of electrical power or other energy sources, interruption of energy supply, or curtailment of the operation of one or

more refineries or smelters due to our inability to extend energy contracts upon their expirations.

- \* We face competition from both domestic and international primary aluminum producers. Our principal competitors in the primary aluminum business are domestic smelters, some of which are expanding their production capacities. These smelters pose competitive challenges to our primary aluminum operations in production costs, product quality and price. We also face increasing competition from international primary aluminum suppliers as China continues to open up its aluminum industry to international trade. As a result of China's accession to the WTO on December 11, 2001, competition from international suppliers of alumina may increase as tariff and non-tariff barriers for imported alumina have been significantly reduced and may continue to be reduced. The standard tariff on imports of alumina into China was abolished on January 1, 2008. Intensified competition may result in reductions in our selling prices or sales volume and may have a material adverse effect on our financial condition and results of operations. If we are not successful in reducing our costs, or if we are unable to maintain or increase our current share of China's primary aluminum market, our financial condition, results of operations and profitability could be materially and adversely affected.
- \* We rely heavily on coal as our energy and fuel source in our production process. As we significantly increase our production capacities, our consumption of coal will increase significantly accordingly. If our coal suppliers are not able to supply the amount of coal needed for our production due to general short supply of coal or lack of available railcars for transportation or any other reason, we may be forced to reduce our production output or suspend our production, which could materially adversely affect our financial condition and results of operation.
- \* Bauxite is the most important raw material for alumina production. We obtain our bauxite from three major sources, including our own mines, jointly operated mines, and other suppliers. See "Item 4. Information on the Company - Business Overview - Business Operations - Alumina - Raw Materials - Bauxite". Each of these sourcing methods could affect the security or cost of our supply of bauxite. The price for bauxite has increased substantially in recent years due to the rapid expansion of alumina output in China which significantly increased the demand for bauxite. In 2007, the average domestic price of bauxite increased by 21.2%, while the average price of imported bauxite increased by 65.6% to RMB530 per tonne from RMB320 per tonne in 2006. If we cannot obtain a steady supply of key raw materials at a competitive price, which could materially adversely affect our financial condition and results of operations could be materially adversely affected.
- \* The smelting of primary aluminum employs an electrolytic reduction process that requires large and continuous supply of electricity. Interruptions of electricity supply can result in lengthy production

shutdowns, increased costs associated with restarting production and waste of production in progress. In extreme cases, interruptions of electricity supply can also cause damage to or destruction of the equipment and facilities. If this occurs, our operations may be adversely affected.

- \* Electricity cost is the principal production cost component of our primary aluminum production. In October 2007, the PRC government issued "Notice to Further Solutions to Differences in Electricity Rates", according to which, the preferential electricity prices previously enjoyed by Chinese primary aluminum enterprises were eliminated at the end of 2007. The implementation of this notice increased the costs of primary aluminum enterprises in China. If electricity prices increase but are not passed on to our customers, our operating margin, financial condition and results of operations could be materially adversely affected.

- 11 -

---

- \* Our alumina products are mainly delivered by rail or truck, and our primary aluminum products are transported to our customers mostly by rail. If we are unable to make on-time delivery due to logistics and transportation problems, our results of operations may be adversely affected.
- \* A main objective of our research and development projects is to develop new methods and new processes to improve the efficiency of extracting alumina from bauxite that has relatively low alumina-to-silica ratios. If China's supply of bauxite with high alumina-to-silica ratios declines, our failure to achieve technological improvements or to implement such improvements in commercial applications could impede our efforts to reduce unit production costs and to compete with major international producers.
- \* The bauxite reserve data on which we base our production, revenue and expenditure plans are estimates that we have developed internally and may be inaccurate. There are numerous uncertainties inherent in estimating quantities of reserves, including many factors beyond our control. If these estimates are inaccurate or the indicated tonnages are not recovered, our business, financial condition, and results of operations may be materially and adversely affected.
- \* We rely on short-term borrowings to meet part of our financing needs. If we fail to achieve timely rollover, extension or refinancing of our short-term debts, we may be unable to meet our obligations in connection with debt servicing, accounts payable and/or other liabilities when they become due and payable. In addition, we may be exposed to changes in interest rates. If interest rates increase substantially, our results of operations could be

adversely affected.

- \* Our primary sources of funding are cash generated by operating activities, short-term and long-term bank borrowings, proceeds from shares offerings, and proceeds from short-term bond and long-term bond offerings. In 2007, we required our customers to make prepayments or deposits for purchases of alumina. The total amount of prepayments and deposits was approximately RMB1,053 million as of December 31, 2007. We have relied on prepayments and deposits received from customers as a source of liquidity. In the event that demand for our alumina declines significantly, we may not be able to require such prepayments and deposits from customers, in which case this source of liquidity may not be available to us.
- \* Chinalco, a state-owned enterprise, as of December 31, 2007 owned 38.56% of our issued share capital and is our largest shareholder. The interest of Chinalco may conflict or even compete with our interest and that of our public shareholders. Chinalco may take actions that favor the interest of its subsidiaries, associates and other related entities over ours and that of our public shareholders. In addition, Chinalco and some of its subsidiaries and associates provide a range of services to us, including engineering and construction services, social services, land and property leasing and supply of raw and supplemental materials. Some of the services Chinalco provides to us, such as educational and medical care services for our employees, would be difficult to obtain from other sources. Our cost of operations may increase if Chinalco becomes unable to provide such services to us.
- \* Chinalco has substantial financial obligations relating to the businesses, operations and personnel that it retained in the reorganization. While Chinalco generates significant operating revenue and receives government support, it may also rely on dividends received from us as a means of funding these obligations. Subject to the relevant provisions of the PRC Company Law and our Articles of Association, Chinalco may seek to influence our decision as to the amount of dividends we pay out in order to satisfy its cash flow requirements. Any increase in our dividend payout resulting from Chinalco's influence could reduce funds available for reinvestment in our businesses and thus may materially reduce our future financial strength and adversely affect our future results of operations.
- \* Our alumina and primary aluminum production operations are subject to environmental protection laws and regulations in China, which impose such penalties as waste discharge fees, fines or closure of non-compliant plants. Each of our alumina and primary aluminum production plants has

implemented a system to control its emissions and to oversee its compliance with PRC environmental regulations. However, the PRC government has taken steps, and may take additional steps, towards more rigorous enforcement of applicable laws, and/or adoption of more stringent environmental standards. If the PRC national or local authorities enact additional regulations or enforce existing or new regulations in a more rigorous manner, we may be required to make additional environmental expenditures, which could have a materially adverse impact on our financial condition and results of operations.

- \* We may experience major accidents in the course of our operations, which may cause significant property damage and personal injuries. Significant industry-related accidents and natural disasters may cause interruptions to various parts of our operations, or could result in property or environmental damage, increase in operating expenses or loss of revenue. The occurrence of such accidents and the resulting consequences may not be covered adequately, or at all, by the insurance policies we carry. In accordance with customary practice in China, we do not carry any business interruption insurance or third party liability insurance for personal injury or environmental damage arising from accidents on our property or relating to our operations other than our automobiles. Losses or payments incurred by us as a result of major accidents or natural disasters may have a material adverse effect on our operating performance if such losses or payments are not fully insured.
- \* The licenses to mine bauxite in some of our bauxite mines have expired and lapsed. While we are seeking to renew those expired licenses, we may be subject to administrative fines for operating mines without a valid license, or we may be ordered to cease our mining operations all together until we obtain the renewed licenses. The failure to renew those expired mining licenses may adversely affect our financial condition and results of operations.
- \* Our H Shares became a Hang Seng Index constituent stock on June 10, 2008, which may attract buying interests of so-called "Hang Seng Index funds" aiming to maintain their investment portfolio parallel to that of the Hang Seng Index. We have no control of the selection of the Hang Seng Index constituent stocks and may not be able to continue to maintain our H Shares as a Hang Seng Index constituent stock. If our H shares are deselected from the Hang Seng Index, the market's interests in investing in our H shares may correspondingly wane, and our share price may materially decline.
- \* As of May 6, 2008, 2,500,684,890 A Shares that had previously been subject to a trading moratorium became available for trading on the Shanghai Stock Exchange. If all or a significant portion of these tradable shares are offered for sale on the Shanghai Stock Exchange, the A Share price may materially decrease due to the over-supply of the A Shares on the market.

- \* We are also subject to a number of risks relating to the PRC, including the following:
  - \* The central and local PRC governments continue to exercise a substantial degree of control and influence over the aluminum industry in China and shape the structure and characteristics of the industry by means of policies in respect of major project approvals, preferential treatments such as tax incentives and safety, environmental and quality control. If the PRC government changes its current policies or the interpretation of those policies that are currently beneficial to us, we may face pressure on profit margins and significant constraints on our ability to expand our business operations or to maximize our profitability.
  - \* Under current PRC regulatory requirements, the construction of new alumina refineries, the expansions of primary aluminum plants and mining projects in excess of RMB500 million require the government approval. If any of our important projects necessary for our growth or cost reduction are not approved, or not approved in a timely manner, our financial condition and results of operations may be materially and adversely affected.
  - \* A significant portion of our business, assets and operations are located in China. The economy of China differs from the economies of most developed countries in many respects. The economy of China has been transitioning from a planned economy to a market-oriented economy. Although in recent years the PRC government has implemented measures emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets and the establishment of sound corporate governance in business enterprises, a substantial portion of productive assets in China are still owned by the PRC government. In addition, the PRC government continues to play a significant role in regulating industry by imposing industrial policies. It also exercises significant control over China's economic growth through the allocation of resources, controlling payment of foreign currency-denominated obligations, setting monetary policy and providing preferential treatment to particular industries or companies. Some of these measures benefit the overall economy of China, but may have a materially adverse impact on us.
  - \* Since 1994, the conversion of Renminbi into foreign currencies, including Hong Kong and U.S. dollars, had been based on rates set by the People's Bank of China, or PBOC, which had been set daily based on the previous day's PRC interbank foreign exchange market rate and current exchange rates on the world financial markets. On July 21, 2005, PBOC announced a reform of its exchange rate system and revalued the Renminbi. Under the reform, Renminbi is allowed to trade against a basket of foreign currencies. Since July 21, 2005 the Renminbi has

appreciated 16.4% as of May 31, 2008. Any further appreciation of Renminbi in the future will increase the prices of our export sales denominated in foreign currencies and reduce the Renminbi equivalent value

- 13 -

---

of our account receivables denominated in foreign currencies, which may materially and adversely affect our financial condition and results of operations. On the other hand, any devaluation of Renminbi may adversely affect the value of, and dividends payable on, our H Shares and ADSs in foreign currencies since we receive our revenue and denominate our profits in Renminbi. Our financial condition and operating performance may also be affected by changes in the value of certain currencies other than Renminbi in which our earnings and obligations are denominated. In particular, a devaluation of the Renminbi could increase the portion of our cash flow required to satisfy our foreign currency-denominated obligations.

- \* Since 1979, many new laws and regulations covering general economic matters have been promulgated in China. Despite this activity to develop the legal system, China's system of laws is not yet complete. Even where adequate law exists in China, enforcement of existing laws or contracts based on existing law may be uncertain and sporadic, and it may be difficult to obtain swift and equitable enforcement or to obtain enforcement of a judgment by a court of foreign jurisdiction. The relative inexperience of China's judiciary in many cases creates additional uncertainty as to the outcome of any litigation. In addition, interpretation of statutes and regulations may be subject to government policies reflecting domestic political changes. These uncertainties may create situations that are not favorable to us, which may materially adversely affect our financial conditions and results of operations.

See also "Item 4. Information on the Company - Business Overview", "Item 5. Operating and Financial Review and Prospects", "Item 7. Major Shareholders and Related Party Transactions - Related Party Transactions", "Item 8. Financial Information" and "Item 11. Quantitative and Qualitative Disclosures about Market Risks".

#### ITEM 4. INFORMATION ON THE COMPANY

##### HISTORY AND DEVELOPMENT OF THE COMPANY

###### Overview

We were incorporated as a joint stock limited company under PRC laws on September 10, 2001 under the corporate name of . Our scope of business includes bauxite mining, production of alumina, primary aluminum and ancillary products, and provision of engineering services. Pursuant to a reorganization agreement effective as of July 1, 2001 among Chinalco, Guangxi Investment, Guizhou Development and our predecessor, as well as a mining rights agreement between Chinalco and us, substantially all of Chinalco's alumina and primary aluminum production operations, operations of a research institute, as well as mining operations and mining rights of bauxite mines and other related assets and liabilities were transferred to us upon our formation.

We are currently the largest producer of alumina and primary aluminum in terms of production and sales volume in China, one of the fastest growing major aluminum markets in the world. Alumina and primary aluminum are our principal products. Alumina is refined from bauxite through a chemical process and is the key raw material for producing primary aluminum, which in turn is a widely used metal and the key raw material for aluminum fabrication. In addition to alumina and primary aluminum, we also produce and sell a comparatively small amount of alumina chemical products, including alumina hydrate and alumina-based industrial chemical products, carbon products, including principally carbon anodes and cathodes, and gallium.

In 2007, we produced approximately 9,570,000 tonnes of alumina, representing a year-on-year increase of 8.38%, and approximately 1,020,000 tonnes of alumina chemical products, representing a year-on-year decrease of 7.27%. Our total alumina products represent approximately 39.2% of all alumina products manufactured in China during that year, making us the third largest producer of alumina in the world. The intra-company utilization ratio of alumina was increased to approximately 49.7% for 2007 from approximately 40.0% for 2006.

- 14 -

---

Our alumina production capacity has increased rapidly in the past few years. From 2002 to 2007, our annual alumina production capacity increased from 5,410,000 tonnes to approximately 10,200,000 tonnes.

We produced 2,800,000 tonnes of primary aluminum in 2007, which accounted for approximately 22.3% of China's domestic primary aluminum production for 2007. From 2002 to 2007, our annual primary aluminum production increased from 750,000 tonnes to 2,800,000 tonnes.

Our key operating assets include one subsidiary mainly engaged in mining bauxite products, four integrated alumina and primary aluminum production plants, two alumina refineries, one research institute and 12 primary aluminum smelters, including Jiaozuo Wanfang. Our Research Institute also provides products for commercial sales. Most of our refineries are located in reasonable proximity to abundant bauxite reserves and, as of December 31, 2007, had annual production capacities ranging from 850,000 to 2,217,000 tonnes. Our primary aluminum smelters had annual production capacities ranging from 56,000 to 412,000 tonnes as of December 31, 2007. Since December 31, 2004, all of our production facilities have been operated under the ISO9001:2000, OHSAS 18001:1999 and GB/T 28001-2001 standards.

#### Recent domestic developments

On April 24, 2007, we issued 1,236,731,739 A Shares by way of share exchange with the other shareholders of Shandong Aluminum and Lanzhou Aluminum, including providing cash alternative to those shareholders. This share

exchange resulted in the merger of Shangdong Aluminum and Lanzhou Aluminum. This issuance was approved by the shareholders at an Extraordinary General Meeting held on February 27, 2007. This mergers optimized resource allocation, improved our corporate governance structure and upgraded our platform for capital operations.

On December 28, 2007, we issued 637,880,000 A Shares in exchange 100% equity interest in Baotou Aluminum. Baotou Aluminum had an annual production capacity of approximately 307,000 tonnes of aluminum as of December 31, 2007. Our acquisition of Baotou Aluminum reduced the business competition with our controlling shareholder Chinalco.

As approved at our 2008 Extraordinary General Meeting, we submitted to the China Beijing Equity Exchange on May 12, 2008 the application to acquire 100% of the equity interest in Lanzhou Liancheng Longxing Aluminum Company Limited, 100% of the equity interest in Chinalco Southwest Aluminum Cold Rolling Company Limited, 84.02% of the equity interest in Chinalco Henan Aluminum Company Limited, 75% of the equity interest in Chinalco Ruimin Company Limited, 60% of the equity interest in Chinalco Southwest Aluminum Company Limited and 56.86% of the equity interest in Huaxi Aluminum Company Limited from Aluminum Corporation of China and China Nonferrous Metals Processing Technology Company Limited ("Transferors"). The equity interests of the above companies are listed on the China Beijing Equity Exchange for bidding at a consideration of RMB4,175 million. On May 13, 2008, we received the confirmation from the China Beijing Equity Exchange and became the ultimate transferee of the above equity interests. On May 21, 2008, we entered into an acquisition agreement with Transferors for the acquisition of the equity interests of the above companies. The acquisition was complete in early June 2008.

On June 20, 2008 the Company announced that based on the initial calculation on its financial information for the first half of 2008 in accordance with the Accounting Standards for Business Enterprises issued by the Ministry of Finance of the PRC, the net profit (attributable to the equity holders of the Company) for the six months from January 1, 2008 to June 30, 2008 was forecast to decrease by over 50% as compared with the same period last year. For comparison purpose, the audited net profit and earnings per share under PRC GAAP for the first half of 2007 were RMB6.397 billion and RMB0.53, respectively. The Company's announcement was made pursuant to PRC laws governing the listing of it's A Shares on the Shanghai Stock Exchange.

- 15 -

---

The following sets forth those of our plants acquired or newly established in 2007 that are either currently in operation or under construction:

Plants in operation	Principal products
Baotou Aluminum	aluminum product
Northwest Aluminum	fabricated aluminum products
Lanzhou branch	aluminum products
Plant under construction	Principal products
Chalco Nanhai	fabricated aluminum products

## Recent overseas development

To secure our bauxite supply, we continued to participate in overseas development projects in 2007. On March 23, 2007 we signed the Aurukun Project development agreement with the Queensland State Government of Australia ("Queensland Government") and entered into land use agreements with various indigenous peoples in respect of the Aurukun project. The Queensland Government officially issued the Aurukun bauxite exploration permit to us in September 2007. We commenced the feasibility study in the fourth quarter of 2007, and we have selected a principal contractor for the Aurukun project through bidding. See "Business Overview - Raw Materials - Alumina".

On October 3, 2007, we entered into a MOU to jointly construct a primary aluminum plant in Saudi Arabia with an annual capacity of one million tonnes with the Malaysia Mining Company (MMC) and Saudi Arabian Binladin Group (SBG). On November 24, 2007, the parties to the MOU have officially entered into a Cooperation Framework Agreement and received the project permit issued by the Saudi Arabia General Investment Authority. The Cooperation Framework Agreement also provides that the project will utilize our technologies and major equipment manufactured in China. On May 9, 2008, we entered into a joint venture arrangement with MMC and SBG, according to which, the joint venture will be established in Saudi Arabia and develop and operate a primary aluminum plant with a planned annual capacity of approximately one million tonnes as well as a self-owned power plant with a planned capacity of 1,860MW. We proposed to hold 40% and 20% equity interest in the primary aluminum plant and self-owned power plant respectively. The project is located in an area with abundant low-cost energy supplies including heavy crude oil for generating electricity, where primary aluminum can be produced at a competitive cost. We commenced the feasibility study in early 2008.

- 16 -

---

Our capital expenditures in 2005, 2006 and 2007 were RMB9,188 million, RMB12,833 million and RMB18,134 million, respectively. We currently expect our capital expenditures to be approximately RMB20,600 million in 2008. For details of our capital expenditures and our future plan, please see "Our Expansion and Profit Improvement Plan" and "Item 5 -Operating and Financial Review and Prospects - Capital Expenditures and Capital Commitments".

Our principal executive office is currently located at No. 62 North Xizhimen Street, Haidian District, Beijing, 100082, People's Republic of China. Our contact telephone number is (86)10 8229 8103. Our website is [www.chalco.com.cn](http://www.chalco.com.cn). Information on our website does not constitute part of this annual report.

## Strategic Investor

We and Alcoa agreed in 2001 to develop a long-term strategic relationship. The key components of this relationship involved an investment by Alcoa in our Company and the formation of a joint venture company, Guangxi Pingguo Joint Venture, between Alcoa and us, to own and operate our Pingguo facilities. We entered into a strategic investor subscription agreement and a memorandum of understanding for the establishment of the joint venture with Alcoa in 2001. However, we did not enter into any formal joint venture agreement with Alcoa as of December 31, 2007.

On September 13, 2007 Alcoa sold its equity interest in our Company and ceased to be our strategic investor.

---

Our Initial Public Offering of H Shares and Subsequent Additional Issuances

- \* In December 2001 we completed our global initial public offering in which 2,749,889,968 H Shares were listed on the main board of the Hong Kong Stock Exchange (stock code 02600), and 409,646,400 H Shares in the form of ADSs were sold in the United States and listed on the NYSE under the symbol "ACH".
- \* On January 6, 2004, we placed 549,976,000 additional H Shares pursuant to Regulation S of the U.S. Securities Act of 1933. The net proceeds amounted to RMB3,251 million.
- \* On May 9, 2006, we placed 644,100,000 H Shares in the share capital of our Company . The net proceeds from the placement amounted to HK\$4,248 million (equivalent to RMB4,391 million). The placing shares were listed on the Hong Kong Stock Exchange on May 19, 2006.

Issuance of A Shares

- \* On April 24, 2007, we issued 1,236,731,739 domestically listed Renminbi-denominated ordinary shares ("A Shares") by way of share exchange with the other shareholders of Shandong Aluminum and Lanzhou Aluminum, including those offering cash alternative to these shareholders. This issuance was approved by the shareholders at the Extraordinary General Meeting held on February 27, 2007. Since all issued shares were exchanged and distributed to shareholders of Shandong Aluminum and Lanzhou Aluminum, we did not receive any proceeds through the issuance. The A Shares trading on the Shanghai Stock Exchange commenced on April 30, 2007. Our total share capital increased to 12,886,607,892 shares, comprising 7,794,564,567 restricted A Shares, 1,148,077,357 unrestricted A Shares and 3,943,965,968 H Shares. Chinalco's equity interest in us was diluted from 39.59% to 35.79% as a result of the A Shares issuance. At the same time, China Orient transferred all of its equity interest in us to Chinalco and ceased to be our shareholder. Chinalco's equity interest in us increased to 40.46% as a result of the transfer.

- 
- \* On December 28, 2007, we issued 637,880,000 A Shares in exchange for

100% share equity of Baotou Aluminum after obtaining shareholders' approval at our Extraordinary General Meeting held on October 12, 2007 and the approval of the CSRC on December 7, 2007. Since all issued shares were exchanged and distributed to the shareholders of Baotou Aluminum, we did not receive any funds through this issuance. Our total share capital increased to 13,524,487,892 shares, comprising 8,149,901,935 restricted A Shares, 1,430,619,989 unrestricted A Shares and 3,943,965,968 H Shares. Chinalco's equity interest in us was diluted to 38.56% as a result of this issuance.

As of June 23, 2008, due to the expiration of the trading moratorium of 2,500,684,890 shares of our restricted A Shares on May 6, 2008, our total share capital of 13,524,487,892 ordinary shares comprised 5,649,217,045 restricted A Shares, 3,931,304,879 unrestricted A shares, and 3,943,965,968 H Shares. Chinalco's equity interest in us remained 38.56%.

## BUSINESS OVERVIEW

### Our Principal Products

We manage our operations according to our two principal business segments: alumina and primary aluminum. Our alumina segment includes the production and sale of our alumina-related products, namely, alumina and alumina chemical products, including alumina hydrate, alumina-based industrial chemical products and gallium. Our primary aluminum segment includes the production and sale of our primary aluminum-related products, namely, primary aluminum (including both ingots and other primary aluminum products) and carbon products. External sales of our alumina and primary aluminum segments accounted for approximately 27.3% and 70.5%, respectively, of our total revenue in 2007. Alumina is refined from bauxite through a chemical process and is the key raw material for producing primary aluminum, which in turn is a key raw material for aluminum fabrication.

Our alumina segment products consist primarily of alumina, which accounted for approximately 93.8% of our total alumina segment output based on total production volume in 2007. Other alumina segment products consist primarily of alumina chemical products, which are used in the production of chemical, pharmaceutical, ceramic and construction materials. In the process of refining bauxite into alumina, we also produce small amount of gallium, which is a related product and a high-value rare metal with special usage in the electronics and telecommunications industries.

Our most important primary aluminum product is ingots, which accounted for approximately 82.9% of our total primary aluminum output in 2007. Our standard ingots are 20-kilogram remelt ingots used for general aluminum fabrication primarily for the automotive, construction, power and consumer goods industries. In addition, we also produce high value-added and high profit margin primary aluminum products, such as electrical aluminum and aluminum alloys used for special industrial applications. In 2007, we continued to adjust our product mix and increased the production of high value-added primary aluminum such as aluminum alloys by approximately 44.9% from 2006 to capture the higher profit margin of such products. Our primary aluminum plants also produce carbon products (principally carbon anodes and cathodes) used in smelting operations.

The carbon we produce supplies substantially all of the carbon products required for our smelters. We also sell some of our carbon products to external smelters.

We began to recycle scrap materials for our primary aluminum production in 2003. In 2007 our Shandong branch used recycled materials to produce approximately 74,000 tonnes of primary aluminum products. At present, only our Shandong branch has the capability to produce primary aluminum products from recycled materials.

#### Our Production Capacity

The following table sets forth the production capacity of alumina and primary aluminum for each of our plants as of December 31, 2007:

Plant	Production Capacity as of December 31, 2007	
	Alumina	Primary Aluminum
	(in thousand tonnes) <sup>(1)</sup>	
Guangxi branch	850.0	139.5
Zhongzhou branch	1,830.0	-
Qinghai branch	-	367.0
Shanxi branch	2,217.0	-
Guizhou branch	1,200.0	403.7
Henan branch	2,050.0	56.0
Shandong branch	1,500.0	75.0
Shanxi Huaze	-	280.0
Lanzhou branch <sup>(2)</sup>	-	428.0
Shanxi Huasheng	-	220.0
Fushun Aluminum	-	140.0
Jiaozuo Wanfang <sup>(3)</sup>	-	412.0
Zunyi Aluminum	-	110.0
Shandong Huayu	-	100.0

- 20 -

Gansu Hualu	-	140.0
Baotou Aluminum <sup>(4)</sup>	-	307.0

Guangxi Huayin	530.0	-
Research Institute	20.0	18.0
	<hr/>	<hr/>
Total	10,197.0	3,196.2
	<hr/>	<hr/>

- (1) Our production capacity takes into account designed capacity and subsequent modifications. Designed capacity is based on various assumptions including down time for ordinary maintenance and repairs and assumptions as to ore grade of bauxite used.
- (2) On April 24, 2007, we completed the merger of Lanzhou Aluminum by way of share exchange and Lanzhou Aluminum became our wholly-owned subsidiary. In June 2007, Lanzhou Aluminum was divided into two wholly-owned branches: Lanzhou branch and Northwest Aluminum.
- (3) Jiaozuo Wanfang is our associated company of which we own a 29% equity interest. Its results of operations are not consolidated into our financial statements. Production capacity presented above represents 100% of Jiaozuo Wanfang's smelting capacity. See Note 10(b) to our audited consolidated financial statements.
- (4) After our A Shares issuance and exchange on December 28, 2007, Baotou Aluminum became our wholly-owned subsidiary.

The following table sets forth, for the periods indicated, information relating to our production volumes of the alumina segment and primary aluminum segment products:

Production Volume by Product	Years Ended December 31		
	2005	2006	2007
	<hr/>	<hr/>	<hr/>
	(in thousand tonnes, except Gallium)		
Alumina segment			
Alumina	7,181.0	8,830.0	9,573.0
Alumina chemical products	937.0	1,100.0	1,023.0
Gallium (in tonnes)	22.2	25.5	33.2
Primary aluminum segment			
Primary aluminum <sup>(1)(2)(3)</sup>	1,051.6	1,930.0	2,801.0
Carbon	672.0	1,060.0	1,291.7

- 
- 
- (1) Including ingots and other primary aluminum products.
  - (2) Jiaozuo Wanfang is our associated company of which we own 29% of its equity interest. Its results of operations are not consolidated into our financial statements. Production volumes for 2007 presented above include the 328,800 tonnes of Jiaozuo Wanfang which represented 100% of its production volumes. See Note 10(b) to our audited consolidated financial statements.
  - (3) On December 28, 2007, Baotou Aluminum became our wholly-owned subsidiary. Before December 28, 2007, we owned no interest in Baotou Aluminum. Therefore, the production volumes of Baotou Aluminum were not included in our production volumes for 2007.

## Production Process

### Alumina

Alumina is produced from bauxite, an aluminum-bearing ore, through a chemical refining process. The production process to be used for producing alumina is determined by the mineral composition of the bauxite used. The production process generally includes the sintering process, the Bayer process, the hybrid Bayer-sintering process or the ore-dressing Bayer process. Most of the bauxite found in China is diasporite bauxite with high alumina content and high silica content, resulting in low alumina-to-silica ratios. The Bayer process cannot efficiently refine such bauxite unless the alumina-to-silica ratio of the bauxite is sufficiently increased prior to refining. Refining low alumina-to-silica ratio bauxite generally requires the use of either the sintering process or the hybrid Bayer-sintering process, and we have developed and improved the process, which enables us to process diasporite bauxite that is generally found in China efficiently.

### Primary Aluminum

Primary aluminum is made from alumina through a smelting process using electrolytic reduction. The electrolytic process takes place in a reduction cell, or "pot", a steel shell lined with carbon cathodes and refractory materials. Powerful electric currents are passed through the pot to produce molten aluminum. The molten aluminum is transferred to holding furnaces and then poured directly into molds to produce foundry ingots, or further refined to form fabricating ingots. Most of the primary aluminum we produce is in the form of ingots.

The two methods commonly used to produce primary aluminum are the "pre-bake" reduction process and the "Soderberg" reduction process. Most modern aluminum production facilities adopt the pre-bake reduction. As of December 31, 2007, all of our primary aluminum capacity used pre-bake anode reduction pot-lines. In the pre-bake

reduction process, the anodes are pre-formed in a separate facility where the pollutants can be contained. The cells themselves are enclosed with removable panels, so that the waste gases produced can be extracted using large exhaust fans. These gases are then treated and purified to reduce emissions of dust and fluoride to acceptable levels regulated by State Environmental Protection Agencies.

Production Facilities

Alumina

We operate seven main alumina production facilities. Four of these seven refinery plants are integrated with primary aluminum smelting operations. Our total designed annual production capacity for alumina products was approximately 10,197,000 tonnes as of December 31, 2007. In 2007, our actual production of alumina products was approximately 9,570,000 tonnes of alumina and approximately 1,020,000 tonnes of alumina chemical products. In 2007, we supplied approximately 4,760,000 tonnes of alumina to our own smelters, and sold the

- 22 -

---

remaining products to other domestic smelters. All of our alumina chemical products in the alumina segment we produced in 2007 were sold externally, either domestically or overseas for use in chemical, pharmaceutical and other industries.

As of December 31, 2007, Guangxi Huayin was a jointly controlled entity in which we held a 33% equity interest and we were the third largest equity holder of Guangxi Huayin. Therefore, the results of operations of Guangxi Huayin were not consolidated into our audited financial statements in 2007. See Note 10(a) to our audited consolidated financial statements. In addition, Guangxi Huayin's production volumes were not included in our production volumes for 2007.

The following table sets forth the designed annual production capacity, alumina production output, alumina chemical products production output and the utilization rate of each of our alumina refineries and our Research Institute as of December 31, 2007.

As of December 31, 2007				
Designed Annual Production Capacity <sup>(1)</sup>	Alumina Production Output	Alumina Chemical Products Production Output	Utilization Rate <sup>(2)</sup> (%)	Production Process

---

Shanxi branch <sup>(3)</sup>	2,217.0	2,219.3	19.5	101.2	Hybrid Bayer-sintering
------------------------------	---------	---------	------	-------	---------------------------

Henan branch <sup>(3)</sup>	2,050.0	2,302.5	59.1	114.2	Hybrid Bayer-sintering
Shandong branch <sup>(3)</sup>	1,500.0	1,129.7	674.6	101.5	Sintering
Guizhou branch	1,200.0	1,083.9	10.2	90.9	Hybrid Bayer-sintering
Zhongzhou branch <sup>(3)</sup>	1,830.0	1,896.3	179.6	110.0	Sintering and Bayer
Guangxi branch <sup>(3)</sup>	850.0	941.6	36.2	113.5	Bayer
Guangxi Huayin <sup>(4)</sup>	530.0	-	-	-	Bayer
Research Institute <sup>(3)(5)</sup>	20.0	-	43.3	122.0	Bayer
	<hr/>	<hr/>	<hr/>		
Total	10,197.0	9,573.3	1,022.5	100.0	
	<hr/>	<hr/>	<hr/>	<hr/>	

- (1) Our production capacity takes into account designed capacity and subsequent modifications. Capacity is based on various assumptions, including down time for ordinary maintenance and repairs and assumptions as to the ore grade of bauxite used.
- (2) The capacity utilization rate is derived from the summation of (i) the production output of alumina chemical products multiplied by a quotient based on alumina content in these alumina chemical products and (ii) the production output of alumina divided by production capacity of a particular plant. Rates greater than 100% reflect the higher productivity obtained through the use of higher-grade bauxite than originally contemplated in capacity calculations.
- (3) Due to the technology upgrading of each refinery, our production capacity now exceeds our originally designed production capacity.
- (4) The Designed Annual Production Capacity represents the capacity calculated in proportion to our equity interest in the minority-owned company.
- (5) The alumina chemical products production facilities of our Research Institute are test facilities for research and development purposes. These products are sold commercially, and such sales are included in our total revenue.

#### Overseas investment

To secure future bauxite and alumina supply, we have pursued an investment opportunity in Australia.

- 23 -

On September 15, 2006, we were selected. On March 23, 2007, we signed the Aurukun Project development agreement with the Queensland Government and entered into land use agreements with various indigenous peoples. The Queensland Government officially issued the Aurukun bauxite exploration permit to the Company in September 2007. We have selected the principal contractor for the Aurukun project through a bidding process. The alumina production capacity of this project is expected to reach 2,100,000 tonnes per annum.

### Primary Aluminum

We operate 14 major primary aluminum production facilities located in nine provinces in China. Four of these 14 smelter plants are integrated with alumina refining operations and are self-sufficient with respect to alumina supply. In addition, our Research Institute also operates a test plant that produces primary aluminum in connection with its research and development.

The total annual production capacity for primary aluminum products of all 14 of our major primary aluminum production facilities, including four integrated alumina and primary aluminum production plants, Jiaozuo Wanfang, and our Research Institute in 2007 was 3,196,200 tonnes. In 2007, we, including

- 24 -

Jiaozuo Wanfang, produced approximately 2,801,000 tonnes of primary aluminum. Jiaozuo Wanfang, however, as of December 31, 2007, was our associated company and we owned 29% of its equity interest. The results of operations of Jiaozuo Wanfang are not included in our consolidated audited financial statements. See Note 10(b) to our audited consolidated financial statements.

The following table sets forth the designed annual production capacity, output of primarily aluminum products, the utilization rate and the smelting equipment used in each of our aluminum smelters and our Research Institute as of December 31, 2007:

Plant	As of December 31, 2007			Smelting Equipment
	Production Capacity <sup>(1)</sup>	Aluminum Output	Utilization Rate <sup>(2)</sup> (%)	
	(in thousand tonnes, except percentages)			

Baotou Aluminum <sup>(3)</sup>	307.0	-	-	
--------------------------------	-------	---	---	--

				135kA, 200kA & 240kA pre-bake
Fushun Aluminum	140.0	119.0	85.0	200 kA pre-bake
Gansu Hualu	140.0	132.5	94.6	160 kA & 210kA pre-bake
Guangxi branch	139.5	151.1	108.3	160kA & 320kA pre-bake
Guizhou branch	403.7	437.4	108.3	160 kA, 186kA & 230kA pre-bake
Henan branch	56.0	57.7	103.0	85kA pre-bake
Jiaozuo Wanfang <sup>(4)</sup> <sup>(5)</sup>	412.0	328.8	79.8	280 kA pre-bake
Lanzhou branch <sup>(5)</sup>	428.0	256.7	60.0	75kA, 200kA & 350 kA pre-bake
Qinghai branch	367.0	395.1	107.7	160kA & 200kA pre-bake
Research Institute <sup>(6)</sup>	18.0	21.0	116.7	140 kA & 280kA pre-bake
Shandong Huayu	100.0	108.0	108.0	240 kA pre-bake
Shandong branch	75.0	152.8	203.7	85kA pre-bake
Shanxi Huasheng	220.0	228.6	103.9	300 kA pre-bake
Shanxi Huaze	280.0	289.0	103.2	300kA pre-bake
Zunyi Aluminum	110.0	110.0	100.0	200 kA pre-bake
Others	-	13.4	-	-
	<u>          </u>	<u>          </u>	<u>          </u>	
Total	3,196.2	2,801.2	87.6	
	<u>          </u>	<u>          </u>	<u>          </u>	

- (1) Production capacity takes into account designed capacity, subsequent modifications and down time for ordinary maintenance and repairs. Our production capacity includes new projects completed in 2007.
- (2) The capacity utilization rate is determined by dividing the production output of a particular plant by that plant's production capacity.
- (3) On December 28, 2007, Baotou Aluminum became our wholly-owned subsidiary. However, its production volumes were not included in our production volumes for 2007.
- (4) As of December 31, 2007, Jiaozuo Wanfang was our associated company. We owned 29% of its equity interest. The results of operations of Jiaozuo Wanfang were not included in our consolidated audited financial statements. See Note 10(b) to our audited consolidated financial statements. Since we exercise significant influence over Jiaozuo Wanfang,

100% of its designed annual production capacity and production volume are included in the table above.

- 25 -

- 
- (5) Construction for upgrading these facilities for Lanzhou branch and Jiaozuo Wanfang were completed at the end of 2007.
  - (6) The primary aluminum production facilities of our Research Institute are experimental facilities for research and development purposes. Primary aluminum produced at this smelter is sold commercially, and such sales are included in our total revenue.

#### Overseas Development

To implement our international development strategy, we initiated a research program on overseas development projects in 2004. On October 3, 2007, we entered into a memorandum of understandy ("MOU") to jointly construct a primary aluminum plant in Saudi Arabia with an annual capacity of one million tonnes with the MMC and SBG. On November 24, 2007, the parties to the MOU officially entered into a cooperation framework agreement and received the project permit issued by the Saudi Arabia General Investment Authority. The cooperation framework agreement provides that the project will utilize our technologies and major equipment manufactured in China. On May 9, 2008, we entered into a joint venture arrangement with MMC and SBG, according to which, the joint venture will be established in Saudi Arabia and will develop and operate a primary aluminum plant with a planned annual capacity of approximately one million tonnes as well as a self-owned power plant with a planned capacity of 1,860MW. We will hold 40% and 20% equity interest in the primary aluminum plant and self-owned power plant respectively, and as a result, will become the largest shareholder in the aluminum project and the smallest shareholder in the self-owned power plant. The project is located in an area with abundant low-cost energy supplies including heavy crude oil for generating electricity, where primary aluminum can be produced at a competitive cost. We commenced the feasibility study in early 2008.

#### Raw Materials

##### Alumina

Bauxite is the principal raw material for the production of alumina. Most of the bauxite in China is  $AL_2O_3 \cdot H_2O$  mineral, which is an uncommon kind of mineral in other parts of the world, where  $AL_2O_3 \cdot 3H_2O$  is prevailing. Aluminum deposits run through a broad area in central China and are especially abundant in the southern and northern parts of central China. The largest aluminum deposit lies in Shanxi Province.

Our aluminum deposits, except those of Guangxi Pingguo Mine which is an accumulation deposit due to original erosion, usually have similar stratigraphical sequences. Primary bauxite deposit, as a type of sedimentary  $AL_2O_3 \cdot H_2O$  of Carboniferous or Permian age, is contained in clay rock, limestone or coal seams. A zonary red shale is usually located at the bottom of the bauxite and the red seam distributes over the irregular "karst-type" erosion face on the top of Ordovician limestone. Aluminum deposits in northern China are usually covered with a very thick Quaternary

weathering.

The thickness and quality of deposits vary with locations. Quality is usually consistent in smooth sections but changes sharply in karst "billabong" terrain. The level of hardness of minerals also varies. A sequence that includes a seam of hard bauxite of fine quality in the middle and soft bauxite of inferior quality on the bottom and top seams is common in deposits.

Generally, deposits are horizontal or with an obliquity of 0-8°, but there are also steep deposits at an angle of 75°, such as the Guizhou No. 2 Mine. Most of the original mineralization is not influenced by folds and faults, and some fractures of a low obliquity and folds emerge in certain deposits, which is evident in the Guizhou No. 2 Mine area where the underground mining method must be used due to the obliquity of its bauxite body reaching 70° with the influence of folds and several meters of dislocation arising from partial faults.

The systematic and accurate method of test boring, inspection pit, trial trench, density, tonnage analysis and calculation applied to the geological work of bauxite in China is an appropriate method to analyze these types of deposits.

On average, our refineries consume approximately 2.0 tonnes of bauxite to produce one tonne of alumina. We used approximately 15,800,000 tonnes, 18,760,000 tonnes and 20,242,900 of bauxite in our alumina production in 2005, 2006 and 2007, respectively. In 2007, bauxite cost represented approximately 25.5%, as compared to 23.0% in 2006 of our per unit alumina production costs.

*Supply.* The predominant use of bauxite is for alumina production. Except for our Shandong branch, all of our refineries are located in the four provinces where over 90% of China's potentially mineable bauxite has been found. We generally source our bauxite from mines close to our refineries to save transportation costs. We procure our bauxite supply principally from three sources:

- \* our own bauxite mining operations;
- \* jointly operated mines; and
- \* purchases from other suppliers, which principally include small independent mines and, to a lesser extent, imports.

We purchase bauxite from a number of suppliers. We are not dependent on any single supplier or a small group of suppliers for our bauxite requirements. We endeavor to explore new bauxite reserves and streamline our bauxite procurement system to support the growth of our alumina production. In 2007 we had three new stopes in three of our mines. In addition, we have one new jointly-operated mine. In 2007, we also acquired full ownership in three jointly owned mines.

The combined production of our own mines and jointly operated mines was 8,521,800 tonnes in 2007, representing a decrease of 3.44% compared to the production volume in 2006.

The following table sets forth, for the periods indicated, the proportion of our bauxite requirements supplied by our three sources:

	Years Ended December 31,					
	2005		2006		2007	
	Percentage of		Percentage of		Percentage of	
Total Bauxite Supply	our total Bauxite Supply (%)	Total Bauxite Supply	Our Total Bauxite Supply (%)	Total Bauxite Supply	our Total Bauxite Supply (%)	

- 26 -

	(in thousand tonnes)		(in thousand tonnes)		(in thousand tonnes)	
Our owned mines	2,988.1	18.9	4,115.3	21.4	4,770.2	20.3
Jointly operated mines	3,854.8	24.4	4,710.3	24.6	3,751.6	15.9
Other suppliers	8,949.6	56.7	10,343.4	54.0	15,015.8	63.8
Total	15,792.5	100%	19,169.0	100%	23,537.6	100%

The total designed annual production capacity of our own mines was 5.3 million tonnes, and the total bauxite production in 2007 was approximately 4.8 million tonnes. All of our mines are accessible via railroads or highways.

#### Owned Mines.

We currently own 10 open-pit mines. As of December 31, 2007, these mines had approximately 211.2 million tonnes of aggregate proven and probable bauxite reserves as such terms are defined by the SEC. This amount of bauxite reserves would be sufficient to sustain our mining operations in excess of 30 years assuming an annual mining output of 5,000,000 tonnes. As none of our mines produce bauxite for external sales, we are assured of full access to the bauxite produced by our own mines. In 2007, we sourced approximately 20.3 % of our bauxite from mines that we own and operate. In order to obtain or retain the title to mines, we are required to comply with mining qualifications approved by the relevant Chinese authorities and pay an annual fee in amount of RMB1,000 per km<sup>2</sup>.

For the three years from 2005 to 2007, our own mines produced bauxite of 2,988,100 tonnes, 4,115,300 tonnes and 4,770,200 tonnes, representing 18.9%, 21.4% and 20.3% of the demand from our alumina production, respectively. The following table sets forth information regarding ownership, mining methods and license renewal dates for our

Edgar Filing: ALUMINUM CORP OF CHINA LTD - Form 20-F

own mines as of December 31, 2007:

Branch/Subsidiary	Mine	Stope	Location	Nature of ownership	Mining Method	License Renewal Date

		Dafoyan			Underground	December 2022

The respective terms of the mining rights permits are the shorter of the estimated working life of the mine and 30 years beginning 2001. We are required to obtain mining rights permits to operate mining services. According to PRC laws and regulations, to obtain mining rights permits, a mine owner must first prepare exploration reports of the mine and then submit those reports as part of an application to the local government for approval. If an applicant for mining rights permits is not the owner of a mine, the applicant must first enter into an agreement with the mine owner, and then follow the foregoing procedures. The development license is subject to renewal on a regular basis. In addition to mining rights permits, in order to operate these mines, we are required to have land use rights on the land relating to these mines. We lease land use rights relating to all these mines from Chinalco pursuant to a land use rights leasing agreement that we entered into upon our formation. Chinalco's land use rights relating to over 90% of our mining properties are for 50-year terms beginning on July 1, 2001. The remaining land use rights relating to the mines we own and operate are for shorter terms, some as short as eight years. All of our land use rights leases end on the expiry date of the mining rights or the end of the actual mine life, whichever is earlier. Both the land use rights

and their leases are renewable.

The following table sets forth the specified details about our own mines.

Branch/Subsidiary Mine		Total				
		Area (km <sup>2</sup> )	Reserves (million tonnes)	Average Grade (%) Al <sub>2</sub> O <sub>3</sub>	SiO <sub>2</sub>	Ratio of Average A/S <sup>(1)</sup>
Chalco Mining	Mianchi, Luoyang, Xiaoguan, Sanmenxia	52.18	68.8	63.51	11.88	5.35
Guangxi	Pingguo	136.04	83.9	57.19	4.89	11.70
Guizhou	No.1, No. 2	23.93	32.5	65.72	10.33	6.36
Shanxi	Xiaoyi	8.88	23.6	64.21	12.36	5.20

Total (average)		245.2	211.3	61.41	8.91	6.89
By reserve type						
	Proven reserve		65.2	63.46	9.72	6.53
	Probable reserve		146.1	60.49	8.56	7.07
	Total (average) reserves		211.3	61.41	8.91	6.89

(1) Refers to the ratio of average grade of Al<sub>2</sub>O<sub>3</sub> to the average grade of SiO<sub>2</sub> of the reserves.

(2) As of December 31, 2007, Nanchuan mine was still under construction.

## Jointly Operated Mines.

We currently jointly operate 16 bauxite mines. Jointly operated mines are generally operated pursuant to long-term contractual arrangements in which we typically contribute resources such as funding, equipment, labor and management, and the other parties contribute land and/or mining rights and certain personnel resources. The other parties are also typically responsible for obtaining all relevant certificates or approvals in respect of the lands. Generally, we are able to control the mining operations of our jointly operated mines, including determination of production schedules as well as the amounts and grades of bauxite produced. As of December 31, 2007, we had obtained mining rights certificates for all of our 16 jointly operated mines. To better utilize our resources and reduce costs, we currently manage our jointly-operated mines using one of the following three methods: (i) establishing joint ventures with other companies to invest in and share resources; (ii) providing mining technology or other resources to companies with local mines in return for exclusive purchase rights to the bauxite ores; or (iii) contracting with local companies for their mining services to operate mines owned by us.

In the years ended December 31, 2005, 2006 and 2007, our jointly-operated mines produced bauxite of 3,854,800 tonnes, 4,710,300 tonnes and 3,751,600, representing 24.4% increase, 24.6% increase and 15.9% decrease of the demand from our alumina production, respectively. The following table sets forth ownership and operator data as well as information on mining methods and license renewal dates for our jointly operated mines as of December 31, 2007:

Branch/Subsidiary	Mine	Location	Name of Joint Operator	Mining Method	License Renewal Date	Material Terms
Guizhou	Goujiang	Zunyi, Guizhou Province	Guojiang Economic Development Mining Co., Ltd.	Open pit	August 2011	This mine is 100% owned by Guojiang Economic Development Mining Co., Ltd. We provide mining services in return for the exclusive purchase rights to the mined bauxite for a period of 10 years starting from 1998.
	Maige	Guiyang, Guizhou Province	n/a <sup>(1)</sup>	Open pit	October 2012	This mine is 100% owned and operated by Qingzhen City Xinfeng Mining Co., Ltd. We possess the

						exclusive purchase rights to the mined bauxite for 15 years starting from 2000.
	Zhijin	Bijie, Guizhou Province	n/a <sup>(1)</sup>	Open pit	September 2005	This mine is 100% owned and operated by Guizhou Chengjin Mining Co., Ltd. We possess the exclusive purchase rights to the mined bauxite for 15 years starting from 2001.
	Tuanxi	Zunyi, Guizhou Province	n/a <sup>(1)</sup>	Open pit	May 2009	This mine is 100% owned by Qingzhen City Xingwang Mining Co., Ltd. We possess the exclusive purchase rights of the mined bauxite for 30 years starting from 2003.
Shanxi	Wenquan Town	Lvliang, Shanxi Province	n/a <sup>(1)</sup>	Open pit	April 2007	We are the sole owner of these mines and are
	Shangtan	Changzhi, Shanxi Province	n/a <sup>(1)</sup>	Open pit	December 2009	conducting research on the
	Yangpo	Changzhi, Shanxi Province	n/a <sup>(1)</sup>	Open pit	July 2008	development plan of these mines
	Shaping	Changzhi, Shanxi Province	n/a <sup>(1)</sup>	Open pit	January 2010	and searching for operators for
	Jindui	Guxian Jindui, Shanxi Province	n/a <sup>(1)</sup>	Open pit	January 2010	future development.

Edgar Filing: ALUMINUM CORP OF CHINA LTD - Form 20-F

Shicao	Luofan Shicao, Shanxi Province	n/a <sup>(1)</sup>	Open pit	August 2008	We are the sole owner of these mines and are conducting research on the development plan of these mines and searching for operators for future development.
Nanpo	Yangcheng Nanpo, Shanxi Province	n/a <sup>(1)</sup>	Open pit	July 2010	We fully own these mines and are conducting research on the development plan of these mines and searching for operators for future development.
Sunjiata	Lin Xian Company	n/a <sup>(1)</sup>	Underground	December 2009	We are the sole owner of these mines and are conducting research on the development plan of these mines and searching for operators for future development.
Chalco Mining	Shanchuan Zhengzhou, Henan Province	n/a <sup>(1)</sup>	Open pit	November 2008	We are the sole owner of these mines and are conducting research on the development plan of these mines. We are searching for operators for future development.
Jiyuan			Open pit		

Edgar Filing: ALUMINUM CORP OF CHINA LTD - Form 20-F

		Yuxiang mining Co. Ltd.	Shandong Alumina Corporation		October 2011	We are the sole owner of this mine and have contracted with Yuxiang Mining Co. Ltd. for its provision of mining services.
Shandong	Yuanping	Xinzhou, Shanxi Province	Yuanpinggao Alumina mine	Open pit / Underground	December 2007	We established a joint venture with Yuanpinggao Alumina mine, in which we hold 51% equity interest.
	Dayu	Yangquan, Shanxi Province	n/a <sup>(1)</sup>	Open pit	June 2007	We are the sole owner of these mines and are conducting research on the development plan of these mines. We are searching for operators for future development.

(1) We have decided to cooperate with other parties to undertake the mining operations in these mines. However, as of December 31, 2007, we had not confirmed any party for such cooperations.

Jointly operated mines are typically smaller than our own mines but larger than the small independent mines in terms of reserves and production scales. Our 16 jointly operated mines had approximately 26.2 million tonnes in the aggregate of proven and probable bauxite reserves as such terms are defined by the SEC. Security of supply from jointly operated mines is contingent upon the extension or renewal of the joint operation arrangements and mining rights upon their expiration. Accordingly, we view our jointly operated mines, as a group, as a stable and long-term source of our bauxite supply, although the particular mines comprising this group may change. Jointly operated mines supplied 20.4% of our bauxite needs in 2007.

The following table sets forth the specific details of our jointly-operated mines.

Branch/Subsidiary Mine	Total			
	Area	Reserves	Average Grade	Ratio of (%)

Edgar Filing: ALUMINUM CORP OF CHINA LTD - Form 20-F

		(km <sup>2</sup> )	(million tonnes)	Al <sub>2</sub> O <sub>3</sub>	SiO <sub>2</sub>	Average A/S <sup>(1)</sup>
Guizhou	Goujiang Tuanxi Zhijin Maige	18.37	10.3	62.26	11.92	5.45
Shanxi	Wenquanxiang Shangtan Yangpo Shaping Jindui Shicao Nanpo Sunjiata	16.13	12.6	63.30	10.64	5.95

By reserve type						
Proven reserve			1.7	61.77	12.65	4.81
Probable reserve			24.6	62.81	11.04	5.69
Total (average) reserves			26.3	62.79	11.17	5.62

(1) Refers to the ratio of average grade of Al<sub>2</sub>O<sub>3</sub> to the average grade of SiO<sub>2</sub> of the reserves.

- (2) As of December 31 2007, the newly established Qingshuigou and Yuanping mines were still under construction.

#### Other Suppliers.

In addition to our own mines and our jointly operated mines, we also source bauxite from other suppliers. A majority of other suppliers are small independent mines. In addition, we also secure a small

- 27 -

---

portion of bauxite from overseas. Bauxite secured from other suppliers accounted for 63.8% of our total bauxite supply in 2007.

- \* Small Independent Mines. We purchase bauxite directly from small independent mines or through local distributors that procure bauxite from these mines. Small independent mines are not affiliated with us and generally have annual bauxite production capacities not exceeding 200,000 tonnes. These mines have historically been our important source of bauxite.
- \* In addition, we also source a small portion of bauxite from overseas suppliers.

#### Bauxite Procurement.

A mineral resource department in our headquarters is responsible for the control and coordination of the supply of our bauxite. To determine how our bauxite requirement will be allocated among our principal sources each year, we first estimate our total bauxite needs for the year. Based on market conditions, production costs and other factors, we decide on the amount of bauxite that we wish to source from our own mines, and allocate the remaining requirements among the jointly operated mines and other suppliers. Given the increasing price of bauxite supplied by external independent mines resulting from high market demand, our management or operational control of our own mines and jointly operated mines generally allows us to adjust the procurement levels from these sources during the course of the year to accommodate market conditions.

#### Alumina-to-Silica Ratio.

The production method for alumina refining is determined by the mineral composition of the bauxite, as measured by reference to its alumina-to-silica ratio. Most of the bauxite reserves in China are diasporic with low alumina-to-silica ratios. Based on our current technology, an efficient application of the Bayer process requires bauxite with an alumina-to-silica ratio of 10:1 or higher, while the sintering process can refine bauxite with an alumina-to-silica ratio as low as 4:1. The average alumina-to-silica ratio of the proven and probable reserves of our own mines is from 6.5:1 to 7:1.

#### Prices.

There is neither governmental regulation of bauxite prices nor an official trading market for bauxite in China. We negotiate and agree on bauxite prices with our suppliers, based on ore quality, mining costs, market conditions, transportation costs and various governmental taxes or levies, including a resource tax imposed by local governments. As we procure bauxite from three different sources, our total bauxite cost is influenced by the following factors:

- \* the cost of our own mining operations;
- \* the terms of our operational arrangements with respect to our jointly operated mines; and
- \* the market conditions relating to purchases from small independent mines.

We purchase a significant amount of bauxite from sources other than our own mines as a means to protect the resources that we have already acquired. Additionally, in order to fully utilize our own resources, we refine all bauxite that meets the minimum technical requirements for our production of alumina. We also purchase ore of higher grades from other suppliers and blend the ore of various grades to meet the exact technical requirements for our alumina production. This practice allows for flexibility and the inclusion of isolated, poorer grade bauxite, to better utilize the available bauxite deposit.

Our own mines did not produce to their designed capacities primarily because the delay in upgrading of our manufacturing facilities resulted in insufficient production capacities. However, due to the decrease in supply of high quality bauxite at reasonable prices in recent years, we have increased our expenditures in the improvement and upgrading of our own mines. Through purchases of modern equipment, we have enhanced the stability and quality of our bauxite supply. The following table sets forth, for the periods indicated, our capital expenditures for our mines:

	2003	2004	2005	2006	2007
	(RMB thousand)				
Capital Expenditures					
Infrastructure construction	3,751.46	303,894.34	50,552.37	550,237.51	450,084.58
Facility upgrade	6,360.40	7,714.74	34,193.98	64,971.36	60,633.39
Total	10,111.86	311,609.08	84,746.35	615,208.87	510,717.97

We have implemented efforts to improve and upgrade several of our mines in the year ended December 31, 2007. These upgrade plans include: (i) RMB2,559 million in Phase III of the Guangxi alumina project; (ii) RMB1,814 million in Phase IV of the Guizhou alumina project for the expansion and (iii) RMB617 million in the 800,000 tonnes alumina construction project.

#### Primary Aluminum

An average of approximately 2.0 tonnes of alumina and 14,500 kWh of electricity are required to produce one tonne of primary aluminum. Alumina and electricity, the two principal components of costs in the smelting process, accounted for approximately 43.2% and 33.7%, respectively, of our unit primary aluminum production costs in 2007. In addition, we also require carbon anodes, carbon cathodes and sodium fluoride in the smelting process.

Alumina is the main raw material in the production of primary aluminum. Our Shandong, Henan, Guizhou and Guangxi smelters have historically sourced all or substantially all of the alumina they required from their respective integrated refineries. All our plants which do not have integrated alumina refining operations on site have obtained alumina internally from our own alumina refineries located elsewhere.

Due to mergers and consolidations, there were 52 primary aluminum smelters each with an annual production volume not less than 100,000 tonnes in the PRC as of December 31, 2007. The average production volume of these primary aluminum smelters is approximately 130,000 tonnes. With the development of the primary aluminum industry, our competitiveness has been enhanced. In 2007, the total amount of alumina consumed by our smelters was approximately 4,740,000 tonnes.

#### Supplemental Materials, Electricity and Fuel

The main fuel used by our mining and manufacturing equipment. We are able to purchase diesel supplies from the public markets.

We source our water mainly from local rivers, lakes or underground water resources.

- 28 -

---

#### Alumina

Electricity, coal, alkali (caustic soda or soda ash) and heavy oil are the other principal items required for our alumina production. We established a supplies department in our headquarters to control and coordinate the budgeting and procurement for all major items required for our production. In addition, to raise the efficiency of materials flow, a distribution center has been set up at each production facility. However, our efforts to reduce unit costs by improving the efficiency of material supplies by the procurement system were to a certain extent offset by the significantly increased prices for coal and fuel in the market in 2007.

#### Electricity.

Electricity is one of the principal forms of energy used in our refining process. Electricity represented approximately 7.6% of our unit alumina production cost in 2007.

To the extent that power produced by the joint operation facility is insufficient to meet a refinery's total power requirements, we purchase the shortfall from regional power grids at government-mandated rates pursuant to power supply agreements. Power prices in China can vary, sometimes substantially, from one region to another, based on power production costs in the region as well as the consuming community's ability to pay. Accordingly, power costs for our various plants differ. Most of our electricity supply agreements are one to three year renewable contracts with regional power grids.

#### Coal.

Large quantities of coal are used as a reducing agent and as fuel to produce steam and gas in the alumina refining process. The coal we consumed directly in the alumina refining process in 2007 represented 5.8% of our unit alumina production costs.

To secure our coal supply, we entered into a joint venture agreement with Jiaozuo Coal (Group) Co., Ltd. ("Jiaozuo Coal") on April 12, 2004 to establish a joint venture company in Henan Province to operate coal mines and manage coal processing business on May 15, 2004. We contributed 30% of the total registered capital in the amount of RMB45.0 million by way of cash and Jiaozuo Coal contributed 70% of the total registered capital in the amount of RMB105.0 million by way of cash and revalued coal mining rights in respect of Zhaogu mine. Zhaogu mine is currently under construction and the construction is expected to be completed by the end of 2008. According to the joint venture agreement, we are entitled to all of the slack coal produced by the joint venture company.

#### Alkali.

Alkali is used as a supplemental material in alumina refining. The sintering process and the hybrid Bayer-sintering process require soda ash while caustic soda is used in the Bayer process. We purchase all of our alkali from third party suppliers. Alkali accounted for 8.0% of our unit alumina production cost in 2007.

#### Fuel Oil.

Fuel oil is used as fuel in the calcination of aluminum hydroxide to make alumina. Most of our refineries use heavy oil. Heavy oil represented approximately 3.8% of our unit alumina production cost in 2007.

There is no governmental regulation on the prices of fuel oil, alkali or coal. The prices are set at market rates or through negotiations. We have not experienced difficulty in obtaining these materials in sufficient quantity and at acceptable prices.

Deliveries of raw materials and supplemental materials are generally made on a monthly basis. Our suppliers arrange for railway transportation of these raw materials by submitting to local bureaus of the Ministry of Railways their annual and monthly transportation plans. These local bureaus then arrange for appropriate rail transportation to transport such raw materials or fuel to our refineries.

#### Primary Aluminum

##### Electricity.

Smelting primary aluminum requires a substantial and continuous supply of electricity. In 2007, we consumed 34.9 billion kWh of electricity for our primary aluminum production and the cost of electricity represented 33.7% of the unit cost of primary aluminum. Therefore, the availability and price of electricity are key considerations in our primary aluminum production operations. Costs of electricity have increased periodically in the recent years due to severe shortage of electric power in China. In 2007, electricity prices increased due to the government adjustment. Accordingly, our electricity purchase price increased 3.2% compared to 2006. In October, 2007, Chinese government issued "Notice to Further Solutions to Difference in Electricity Rates", according to which the preferential electricity price originally enjoyed by Chinese primary aluminum enterprises ended at the end of 2007. The implementation of this Notice has further increased the costs for primary aluminum enterprises in China. In addition, several Chinese provinces experienced power shortage in the first quarter of 2008 mainly due to damages to power lines caused by the severe weather conditions. We believe the price of electricity will increase in 2008.

We have expedited the implementation of integrated energy-saving technology, mainly by streamlining production workflow and improving our product structure. In 2007, aggregate energy consumption of primary aluminum production decreased by 1.38%, compared to 2006.

We purchase electricity from the regional power grids for our smelter operations. Prices for electricity supplied by the power grids under power supply contracts are set by the government based on the power generation

- 29 -

---

cost in the region and the consumers' ability to pay. Industrial users within each region are generally subject to a common electricity tariff schedule, but prices vary, sometimes substantially, across regions. Each regional power grid serves a region comprising several provinces. The regional power grids generally rely on multiple power sources to generate electricity, with coal and hydro power being the two most common sources. We believe that the different types of power sources do not imply different degrees of reliability of supply, and that our power supply from the grids is generally not reliant upon any particular generation facility supplying the grid.

Electricity purchased from different power grids is subject to different tariff levels in 2007. Our smelters' average electricity cost was RMB0.359 /kWh in 2007.

#### Carbon Products.

Carbon anodes and cathodes are key elements of the smelting process. As of December 31, 2007, carbon anodes represented 11.7% of our unit primary aluminum production costs. Each of our smelters produces carbon products other than carbon cathodes, such as carbon anodes. Only our Guizhou plant has a carbon cathode production facility, which supplies all of our smelters with the carbon cathodes required and sells any excess domestically to third-party smelters.

#### Suppliers

We purchase some raw materials including bauxite, coal, fuel oil and alkali from outside suppliers. The amount of raw materials provided by our five largest suppliers for alumina products and primary aluminum products accounted for 27.3% and 20.2%, respectively, of our total cost of raw materials for 2007. The cost of raw materials supplied by our largest supplier accounted for 11.6% and 6.3% of our total cost of raw materials for alumina and primary aluminum production, respectively, in 2007. All payments to our suppliers are in Renminbi.

#### Sales and Marketing

We coordinate our major sales and marketing activities at our corporate headquarters. We set uniform prices for our alumina products and set minimum prices for primary aluminum products in each region where our primary aluminum products are sold. We have consolidated the networks of our branch offices to eliminate overlapping of administrative support and to reduce sales costs. In response to increasingly intensified competition, we established Shandong Alumina Chemicals Sales Department to centralize the sales of our alumina chemical products nationwide.

Our subsidiaries have also played an important role in improving our after-sales services and enhancing our influence in the marketplace.

In 2003, as part of our centralized management program, we required all sales of alumina and primary aluminum to be settled upon delivery. However, due to the increased number of the subsidiaries acquired by us, our net trade receivables increased from RMB2,282.2 million as of December 31, 2006 to RMB2,975.7 million as of December 31, 2007. Since 2004, we have required our customers to make prepayments and deposits for purchases of alumina. The total amount of deposits and prepayments received was RMB1,052.9 million as of December 31, 2007. We expect to continue this policy so long as market demand remains strong.

#### Alumina

We sell a majority of our alumina output to third-party customers and the remaining portion to our own aluminum smelters. In 2007, we used approximately 4.8 million tonnes of alumina produced by ourselves, which represented approximately 46.7% of our total alumina production. All of our output of alumina chemical products are sold to third-party customers.

- 30 -

---

#### Sales

We coordinate sales of alumina at our corporate headquarters. In the fourth quarter of each year, we organize a national alumina sales conference with our domestic primary aluminum smelter customers in order to match our supply with their requirements for the following year. At such annual conferences, based on our production capacity for the following year, we first reserve the amount of alumina needed for primary aluminum production by our smelters before we determine the amount available for sale to third party primary aluminum smelters. After that, we allocate our alumina to smelters with whom we have long-standing relationships and that have good credit and a good payment history. We consider other smelters only if we have additional alumina to allocate. Approximately 95.0% of our sales of alumina are made through these annual conferences.

Based on the sales allocations we make at the annual conference, we and our customers typically enter into one-year sales agreements that set forth their total allocation and delivery schedules. At the time of entering into these one-year sales agreements, prices are left open and determined at or near the time of delivery at the then prevailing market price. We apply uniform prices to alumina sales regardless of where the alumina is produced. If a customer does not accept our price near the time of delivery, it may refuse to take delivery despite the one-year agreement. We began selling a portion of our alumina pursuant to long-term sales contracts which have terms longer than one year in 2001. Since January 1, 2004, we have gradually enter into three-year to five-year sales contracts for alumina. The volume of sales to third party customers under these long-term sales contracts accounts for approximately 37.3% of the total sales volume in 2007. Under such a long-term sales contract, the sales volume is fixed, and the price is linked to an index of three-month futures price of primary aluminum quoted at the Shanghai Futures Exchange.

#### Customers

We sell our alumina to smelters throughout China. Sales to our five largest third party customers accounted for 12.9%, 13.0% and 10.1% of our total alumina revenue from third party customers for 2005, 2006 and 2007, respectively. Sales to our largest customer accounted for 3.6%, 4.0% and 3.4%, respectively, of our total external alumina revenue for the same periods. All of our major third party customers in the last three years have been domestic smelters.

#### Pricing

We sell our alumina products by way of spot sales or under long-term contracts. Pricing for our alumina products is determined by the nature of the sale as described below.

#### Spot sales.

We set, and adjust as necessary, uniform sales prices for alumina produced by any of our refineries. In 2007, The highest and lowest spot price of domestic alumina was RMB4,200 per tonne and RMB2,400 per tonne, respectively. The annual average selling price of our alumina was RMB3,412.0 per tonne, representing a year-on-year decrease of 16.92%. We set uniform prices for all our sales of alumina to third party customers by reference to import costs of alumina, the market supply and demand conditions, as well as our short-term and mid-term projections. Our pricing generally takes into account:

- \* free-on-board Australia prices for alumina exports into China;
- \* international transportation costs;
- \* the applicable standard PRC import tariff;
- \* value-added tax at 17%;
- \* import related fees; and
- \* domestic supply and demand conditions.

#### Long-term contracts sales.

Internationally, the customary practice for alumina pricing under long-term contracts is by reference to the LME prices for primary aluminum. Since January 2004, we have entered into a number of domestic long-term alumina sales contracts with three-year to five-year terms, under which the sales price is set as a percentage of the three-month primary aluminum prices on the Shanghai Futures Exchange. As a result, fluctuations of primary aluminum prices on the Shanghai Futures Exchange can affect our alumina

prices under these long-term contracts, and the significance of such effects may increase as we increase the proportion of alumina sales under long-term contracts.

### Primary Aluminum

Substantially all of our primary aluminum products are sold to third party customers. In 2007, we, including Jiaozuo Wanfang, sold approximately 2,760,000 tonnes of primary aluminum, with the average price of RMB19,689 per tonne, representing a year-on-year decrease of 4.3% from the average price of RMB20,570 per tonne in 2006.

### Sales

We sell our primary aluminum through two channels:

- \* Contract sales.

Most of our primary aluminum sales are made pursuant to contracts entered into directly with our established customers. These may be long-term or short-term contracts.

- \* Sales on the Shanghai Futures Exchange.

As part of our effort to manage market risk, we sell a portion of our primary aluminum products on the Shanghai Futures Exchange through futures contracts of one to six month terms to hedge against a potential decline in primary aluminum prices.

We hold an annual regional primary aluminum sales conference in the fourth quarter of each year to coordinate the production and sales for the following year. We centrally control our product futures sales on the Shanghai Futures Exchange.

To improve the efficiency of our distribution, we divide our China market into several regions as follows:

- \* southern China (including Guangdong and Fujian Provinces);
- \* eastern China (including Jiangsu and Zhejiang Provinces and Shanghai Municipality);
- \* southwestern China (including Sichuan Province and Chongqing Municipality);
- \* the Beijing-Tianjin-Tanggu area; and
- \* northeastern China (including Heilongjiang Province).

## Customers

Apart from a small amount of export sales, we sell all of our primary aluminum products to domestic customers. The Chinese market is our core market for primary aluminum, and we expect it to remain so for the foreseeable future. Domestic customers of our primary aluminum products principally consist of:

- \* domestic aluminum fabricators that use our primary aluminum as raw material for further processing; and
- \* aluminum distributors that resell our primary aluminum products to domestic aluminum fabricators or other purchasers.

Our five largest customers combined together accounted for approximately 21.1%, 9.0% and 12.1% of our total primary aluminum revenue for 2005, 2006 and 2007, respectively. Our largest customer accounted for approximately 9.8%, 3.0% and 3.2% of our total primary aluminum revenue during the same periods.

Our export operations consist of ordinary sales of our products to international customers. All export sales of our primary aluminum are sold at negotiated prices. Exports of primary aluminum are subject to a 15% export tax, and no export tax refund is available. Due to the small quantity of our exportation, the export tax does not have substantial effect on us.

- 32 -

---

## Pricing

We establish pricing guidelines for domestic sales of our own primary aluminum products, taking into account three main factors:

- \* the primary aluminum spot prices on the Shanghai Futures Exchange;
- \* our production costs and expected profit margins; and
- \* market supply and demand conditions.

As part of our sales integration and centralization efforts, we set minimum prices with respect to each region in China where our primary aluminum is sold. These minimum prices are expressed by reference to the Shanghai Futures Exchange spot price for primary aluminum, not including transportation. The minimum prices may differ from region to region, but all of our primary aluminum sold into a region, regardless of the plant or warehouse from which it originates or is shipped, is sold at or generally above the minimum price applicable to that region. Those of our smelter plants filling particular orders are principally involved in discussions with the customer as to the pricing and delivery arrangements for specific transactions. They are required to comply with the minimum pricing guidelines unless prior approval from our corporate headquarters is obtained. In general, we supply each region with products

from our nearest smelters to minimize transportation costs.

#### Alumina Chemical Products and Gallium

Alumina chemical products and gallium are intermediate products of, or otherwise related to, our alumina production. Our production levels for these products are based on market demand for them. We sell all of our alumina chemical products and gallium to third party customers, mostly domestically but some internationally. Prices for our alumina chemical products and gallium are set according to market demand or by agreement with our customers.

#### Delivery

##### Alumina

Delivery of alumina is made from our refineries by rail or truck. Our sales price is normally exclusive of transportation costs. For long-distance delivery, we have spur lines connecting our plants to the national railway routes. We are responsible for the maintenance of these spur lines. The price of shipping on the national railway system is fixed by the government.

##### Primary Aluminum

Our primary aluminum products are transported to our customers mostly by rail. In view of the substantial distances that separate our smelter plants from southern and eastern China where most of the aluminum fabrication plants are concentrated, we have subsidiaries (often with warehousing capacity leased from third parties) in major cities in eastern and southern China to facilitate deliveries and coordination.

#### Our Facilities

Our core facilities include 17 production plants and our Research Institute. Set forth below is a plant-by-plant description of our facilities. Our production operations are organized and managed according to our two business segments, alumina and primary aluminum. See "Item 4 - History and Development of the Company-Overview" for details of the plants under construction. All of our facilities are accessible via railroads or highways.

##### Guangxi Branch

The Guangxi branch commenced operations in 1994 and is located in the Guangxi Zhuang Autonomous Region in southwestern China, an area rich in bauxite resources. The Guangxi branch receives bauxite for production via highway from the Pingguo mine, located in Guangxi Pingguo. The Guangxi branch is our newest alumina and primary aluminum plant, and is equipped with imported production facilities and technology.

Our Guangxi branch is situated within 17 kilometers of our own mines that contain large, easily exploitable high alumina-to-silica ratio bauxite reserves. The Guangxi branch is our only refinery that uses the Bayer method exclusively. With imported European technology and production equipment, our Guangxi refinery features a high level of automation and energy efficiency. Since its inception, we have increased the Guangxi branch's original designed production capacity by removing production bottlenecks and capacity expansions. As of December 31, 2007, its production capacity reached 850,000 tonnes of alumina per annum. Most of its alumina output is used in the primary aluminum smelter at our Guangxi branch and the remainder is sold to third party smelters. The Phase III construction of Guangxi Alumina, with a production capacity of 880,000 tonnes, commenced in March 2006 and is expected to be completed in the second quarter of 2008, and the plant has already test-produced aluminum products.

Our Guangxi branch also uses advanced 160 kA and 320 kA pre-bake reduction pot-lines developed by ourselves for its primary aluminum production. As of December 31, 2007, the branch's production capacity reached 139,500 tonnes of primary aluminum per annum. All primary aluminum it produces is sold to third party customers.

#### Guizhou Branch

Our primary aluminum production facilities in Guizhou Province, which possesses integrated alumina and primary aluminum production facilities, commenced operations in 1966.

Our Guizhou alumina refinery commenced operations in 1978 and is one of the most advanced facilities of its kind in China, as many of its key technologies and equipment are imported. It uses the hybrid Bayer-sintering process for its alumina production and relies on our own third party and outside suppliers for bauxite supply. Bauxite from our own nearby mines is delivered to the refinery by cable cars and train. Its alumina output is mostly used in the primary aluminum production at the same plant and the remainder is sold to third party smelters. As of December 31, 2007, the production capacity of our Guizhou branch reached 1,200,000 tonnes of alumina per annum, after completion of an environmental protection management project in at the end of 2007, which increased the annual alumina production capacity of Guizhou branch by 400,000 tonnes. The primary aluminum facilities at our Guizhou branch consist of large-scale pre-bake reduction pot-lines, ranging from 160 kA to 186 kA. As a result of technological innovations and overhauls since its inception, our Guizhou smelter plant is among the most technologically advanced smelters in China. In 2007, the annual production capacity of primary aluminum of our Guizhou branch was 403,700 tonnes.

Our Guizhou branch also contains a modern carbon production facility which produces carbon anodes as well as carbon cathodes. It is our only facility that produces carbon cathodes and supplies all of the carbon cathodes required by seven of our facilities and our Research Institute. Its carbon cathodes are also sold to third party customers throughout China.

#### Henan Branch

Our Henan branch is located in Zhengzhou, Henan Province, a province rich in bauxite resources. Bauxite is delivered to our Henan Branch for production via railway and highway from the following mines: Xiaoguan mine located in Zhengzhou; Luoyang mine in Luoyang; Yanchi mine in Sanmenxia; Yuzhong mine in Zhengzhou; and Jiaozuo mine in Jiaozuo. Its alumina and primary aluminum production commenced and primary aluminum in 1966 and 1967, respectively. Our Henan branch was the first refinery in China to develop the hybrid Bayer-sintering process. We commenced the operation of a new alumina production line in February 2004 using the ore-dressing Bayer process that we have developed in recent years to refine low alumina-to-silica ratio bauxite. Since its inception, the Henan branch's production facilities have undergone substantial technological upgrades, based on equipment

imported from Germany and Denmark. The refinery has also benefited from its access to high alumina-to-silica ratio bauxite from our own mines and through local market purchases. Its alumina output is first used to satisfy its primary aluminum production, and the remainder is sold to our other smelters and third party customers. The designed annual production capacity of alumina of our Henan branch was 2,050,000 tonnes in 2007.

We upgraded a portion of the primary aluminum facilities at this branch, which now utilizes 85 kA pre-bake reduction pot-lines. Its carbon plant produces high quality carbon products for sales to third party customers in China as well

- 34 -

---

as for export, after meeting the needs of our various smelting operations. As of December 31, 2007, the plant's production capacity reached 56,000 tonnes of primary aluminum per annum.

#### Shandong Branch

The Shandong branch commenced operations in 1954 and has the capacity to produce both alumina and primary aluminum. Bauxite is delivered to our Shandong branch for production via railway and highway from the Yangquan mine in Shanxi Yangquan. Its refinery was China's first production facility for alumina. Both the refinery and smelter are owned and operated by Shandong Aluminum, which became our wholly-owned subsidiary after our A Shares issuance and exchange on April 30, 2007. It produces the majority of its alumina through the sintering process, but has a small production line to produce alumina through the Bayer process using imported bauxite. During 2002, the Bayer production line was converted into an ore-dressing sintering operation. The Shandong branch purchases the majority of the bauxite required for its production from small third party mines in Henan and Shanxi Provinces. Its alumina output is first used to satisfy its primary aluminum production, and the remainder is sold to our other smelters as well as third party customers. As of December 31, 2007, the annual capacity of alumina of our Shandong branch reached 1,500,000 tonnes.

Our Shandong branch's primary aluminum operations have undergone technological and equipment upgrades, with the majority of its original equipment having been replaced by more advanced equipment. As of December 31, 2007, its production capacity reached 75,000 tonnes of primary aluminum per annum.

In addition, our Shandong branch also produces substantial amounts of alumina chemical products. It is the largest and most technologically advanced alumina chemical products production facility, and produces the most varieties of these products in China. Alumina chemical products produced by our Shandong branch are used in the jewelry, ceramics and other industries. Its alumina chemicals products are sold both domestically and internationally.

#### Qinghai Branch

Located in Qinghai Province, our Qinghai branch is a stand-alone primary aluminum production facility and is also China's second largest smelter in terms of production capacity. This branch commenced operations in 1987 and is one of the most technologically advanced primary aluminum smelters in China. It operates 160 kA automated pre-bake anode reduction pot-lines that were developed domestically. It benefits from relatively low electricity costs in Qinghai Province resulting from substantial hydroelectric power stations in the region. Historically, the branch has

relied on our Shanxi, Shandong, Henan and Zhongzhou branches for its alumina supply. Because of its relatively remote location, it incurs higher average transportation costs for both raw materials and its primary aluminum products than our other branches. The Qinghai branch's designed annual production capacity of primary aluminum was 367,000 tonnes in 2007.

#### Shanxi Branch

The Shanxi branch commenced operations in 1987 and is located in Shanxi Province, a province with rich bauxite deposits in China. Bauxite is transported to our Shanxi branch for production via railway and highway from the Xiaoyi mine in Shanxi Province. Our Shanxi branch is a stand-alone alumina plant and is currently China's largest alumina plant in terms of production capacity.

The Shanxi branch's production facilities are primarily imported and are more technologically advanced than our other domestic alumina refineries. Shanxi branch relies on bauxite from our own mines as well as third party suppliers. Due to its close proximity to large coal mines and substantial water resources, it currently has the largest power generation capacity of all of our alumina manufacturing facilities. The total alumina production capacity of our Shanxi branch reached 2,217,000 tonnes in 2007.

#### Zhongzhou Branch

Situated in Henan Province, our Zhongzhou branch is a stand-alone alumina plant, located near bauxite, coal and water supplies. It commenced operations in 1993 and is equipped with imported and self-developed technology and has undergone various improvements and upgrades, including improved sintering technology. We purchase bauxite supplies from Henan and Shanxi Provinces. In 2007, following the completion of a project involving the upgrade of the sintering process, as well as a project involving alumina

- 35 -

---

concentration with added bauxite after digestion of the ore-dressing Bayer process, its production capacity reached 1,830,000 tonnes of alumina per annum.

#### Lanzhou Branch

Our Lanzhou branch is situated in Lanzhou city in Gansu Province and is a stand-alone primary aluminum plant. It was part of Lanzhou Aluminum before June 2007, whose A Shares were listed on Shanghai Stock Exchange until April 24, 2007, when we merged with Lanzhou Aluminum through share exchange. See "Item 4 - History and Development of the Company - The A Shares Offering". In June 2007, Lanzhou Aluminum was divided into two wholly-owned branches: Lanzhou branch and Northwest Aluminum. Our Lanzhou branch owns a primary aluminum smelting plant with a designed annual production capacity of approximately 428,000 tonnes after completion of a new primary aluminum project by the end of 2007.

\* a new producer would need access to a substantial and stable supply of bauxite as well as approval from relevant department State Council of China;

- \* we are experienced in alumina production and our production technologies are specifically adapted to the particular chemical composition of bauxite found in China;
- \* we have strong capacity in technology research and hold certain proprietary technologies and patents;
- \* we have a large number of professionals who have extensive experience in production and management in this area;
- \* we are supported by the state policy.

In early 2007, affected by the rapid expansion of new alumina production capacity and output in the PRC, the international spot price of alumina continued a downward trend. The annual average price of imported alumina in 2007 was US\$393 per tonne, representing a year-on-year decrease of 11.69%. The annual average selling price of our alumina was RMB3,412 per tonne, representing a year-on-year decrease of 16.92%. In 2007, our alumina production represented approximately 39.2% of the total national consumption and approximately 49.2% of the total national output of alumina.

In order to improve the efficiency and competitiveness of the Chinese alumina industry as well as to protect environment, National Development and Reform Commission of China ("NDRC") published "Entrance Conditions for Aluminum Industry" (the "Entrance Conditions") in October 2007. According to the Entrance Conditions, any new bauxite projects or alumina projects must be approved by provincial or state government authorities. The Entrance Conditions also provide detailed requirements for capital size, service period and resource utilization rate for a new project to be approved. The Entrance Conditions has established a high entry barrier for new alumina producers in China.

We believe that we have competitive advantages over our foreign competitors in the China alumina market. As a local supplier situated in close proximity to our customers, we do not incur international transportation and import-related costs and enjoy stable long-term relationships with our customers in a vast and growing market. Our competitive advantages may be reduced if international suppliers of alumina can offer alumina in China at prices below ours. As a result of China's accession to the WTO on December 11, 2001, competition from international suppliers of alumina may increase as tariff and non-tariff barriers for imported alumina are significantly reduced. The standard tariff on imports of alumina into China has been eliminated since January 1, 2008.

#### Primary Aluminum

##### Domestic Competition

Over 90% of our primary aluminum revenue is derived from sales in China. Our competition includes other domestic smelters and international producers that sell primary aluminum into China. In 2007, our primary aluminum production represented approximately 22.5% of total national consumption.

There are approximately 100 primary aluminum smelting companies operating in China, which sell substantially all of their products in China. We are the largest integrated alumina and primary aluminum producer in China, and our

Guizhou branch, Jiaozuo Wanfang and Lanzhou branch operate three of the ten largest smelters in China. Our smelters combined together accounted for 22.3% of the domestic primary aluminum production for 2007. Currently, only fourteen smelters in China (including Chalco) have annual production capacities of 300,000 tonnes or more. Most smelters have smaller production capacities. It is the PRC government's industrial policy to consolidate the Chinese primary aluminum industry into an industry that consists of larger, less polluting and more efficient producers. Accordingly, the larger smelters are being granted favorable treatment, including priority in the allocation of raw materials and electricity supplies. These preferential treatments give large domestic smelters a stronger competitive advantage over small domestic smelters. Moreover, according to the Entrance Condition, effective from October 2007, any new aluminum projects must be approved by the relevant department of the State Council of China and there will be no approval to any new aluminum projects except those environmental protection upgrade projects and expired equipment exchange projects specially planned by the PRC government.

- 38 -

---

We face competition from other large domestic smelters. We have several advantages over such competitors, including:

\* Scale of production.

With 14 primary aluminum facilities, we can achieve significant economies of scale. In addition, our scale of production enables us to achieve high production volumes in order to fill large customer orders and maintain a large customer base. Through our national distribution network, we are able to make timely deliveries to customers from our local warehouses.

\* Technology.

We believe we employ more sophisticated and efficient technology than most of our domestic competitors. Our Guangxi, Guizhou and Qinghai branches are among the most technologically advanced primary aluminum smelting facilities in China. In addition, our technological support and research and development capabilities are superior to other domestic smelters.

\* Vertical integration.

As the largest integrated alumina and primary aluminum producer in China, we are able to supply alumina internally to our 14 primary aluminum plants. As a result, we save on transportation, warehousing and related costs. In addition, because we operate our own alumina refineries, we are able to assure a stable supply of alumina for our primary aluminum smelting operations. Since 2006, we captured the market opportunity and expanded our primary aluminum business by mergers and acquisitions. We acquired seven primary aluminum plants in 2006 and 2007, which significantly improved our own utilization rate of the alumina we produced.

\* Quality.

The quality of our primary aluminum is generally higher than that of the primary aluminum produced by most of our domestic competitors. The primary aluminum produced by most of our smelters has satisfied the quality standards of the London Metal Exchange, or LME, and we are registered for trading on the LME.

#### International Competition

The tariff rate for alumina and primary aluminum imports has been reduced to nil since January 1, 2008 and August 1, 2007, respectively. China had a net export of approximately 49,400 tonnes of primary aluminum in 2007, representing a 91.0% decrease from 2006. Competition from international suppliers of alumina and primary aluminum is expected to increase. Such competitors are likely to be large, efficient international companies, which generally have lower unit production costs than we do. Some competitors may also consider establishing joint venture companies with local producers in China to gain access to the resources in China and to lower transportation costs. However, certain PRC governmental policies directed at promoting the growth of larger domestic smelters are likely to be retained, and the PRC government encourages large domestic smelters to explore overseas markets.

#### Research and Development

Our research and development efforts over the years have facilitated the expansion of our production capacity and reduced our unit production costs. We have successfully commercialized our previous research and development results in various technologies. In 2007, we made significant progress in research and development of new methods and technologies, including: various technologies to improve our energy efficiency and decrease production costs, as well as refinery method utilizing low-grade bauxite. We further strengthened the intellectual property management and protection by filing a total of 297 patent applications during the year.

As of December 31, 2007, we owned 406 patents. The major registered patents relate primarily to technologies and know-how, equipment and new products. Once registered, a patent in China for a new invention is valid for 20 years and for a new function or a new design is valid for 10 years from the date of the patent application.

As of December 31, 2007, we owned 26 trademarks, which are used to identify our businesses and products. The trademarks have a term of 10 years. We have entered into a Trademarks License Agreement with Chinalco for the non-exclusive use by Chinalco of two of our trademarks relating to aluminum fabrication.

---

Although the PRC has been steadily amending its patent, trademark, and license laws to comply with various international agreements, its laws are still evolving. In its current form, Chinese intellectual property law differs from United States intellectual property law in many significant ways. For instance, the State Intellectual Property Office of the PRC may grant a compulsory license on a patent if it is unable to obtain a license from the patent owner for reasonable terms and within a reasonable time frame. Chinese patent law also provides immunity from damages for

an entity that uses or sells a patented product without knowing that it was made or sold without the patentee's permission so long as it proves that the infringing product was obtained from a legitimate source. United States patent law does not offer such provisions. Chinese law also awards patents on a first-to-file system as opposed to the United States' first-to-invent system. Chinese trademark law is similarly based on a first-to-register system as opposed to the United States' first-to-use system.

Moreover, the PRC government and its courts have limited experience in enforcing its intellectual property laws. The current PRC patent and trademark laws have only been in effect for approximately 20 years. Courts in China do not have the same level of experience in enforcing and interpreting intellectual property laws as the courts in the United States. However, the PRC government has created administrative bureaus to resolve administrative and judicial matters relating to patent and trademark infringement disputes. These administrative bureaus also have the power to order an infringing party to cease and desist from such use.

We do not regard any single patent, license, or trademark to be material to our sales and operations as a whole. We have no material patents, licenses, or trademarks the duration of which cannot, in the judgment of our management, be extended as necessary. We are neither involved in any material intellectual property disputes against us nor are we pursuing any legislation relating to intellectual property rights against any party.

#### Environmental Protection

We are subject to PRC national environmental laws and regulations as well as environmental regulations promulgated by the local governments where we operate. These include regulations on waste discharge, land repair, emissions disposal and mining control. For example, national regulations promulgated by the PRC government set discharge standards for emissions into the air and water. National environmental protection enforcement authorities also promulgate discharge fees for various waste substances. These schedules usually provide for discharge fee increases for each incremental increase of the amount of discharge up to a specified level set by the PRC government or the local government. For any discharge exceeding the specified level, the relevant PRC government agencies may order any of our facilities to rectify certain behavior causing environmental damage, and subject to PRC government approval, the local government has the authority to order any of our facilities to close for failure to comply with existing regulations.

Our bauxite mining operations are subject to relevant environmental laws and regulations promulgated by national and local governments, including regulations on waste discharge, land repair, emission management and mining control.

The pollutants discharged from our alumina refining process include red mud, waste water and waste emission of gases and dust. Our primary aluminum production process generates fluorides, pitch fume and dust. It is illegal for such waste to be released into the atmosphere without first being processed. Once processed, the amount of pollutants that can be released is subject to national or local discharge limits.

Each of our alumina refineries and primary aluminum smelters has its own waste treatment facilities on site or has developed other methods to dispose of the industrial waste. In 2006, our Shandong branch, Henan branch, Shanxi branch, Zhongzhou branch, Guangxi branch, Qinghai branch and Lanzhou Aluminum received awards from local governments for their outstanding performances in environment protection.

In 2007, our comprehensive energy consumption of alumina and comprehensive alternating current consumption of aluminum decreased by 1.24% and 1.38%, respectively, as compared with the corresponding period in the previous

year, mainly due to our energy-saving efforts by using new production techniques and technologies.

Our total expenditures for environmental protection was RMB69.8 million, RMB105.5 million and RMB533.0 million for the years ended December 31, 2005, 2006 and 2007, respectively. We have been granted ISO14001:1996 accreditations issued by The International Certification Network on December 31, 2004. We believe that our operations are substantially in compliance with currently applicable national and provincial environmental regulations.

- 40 -

---

#### Insurance

We currently maintain insurance coverage on our property, plant and equipment, our transportation vehicles and various assets that we consider to be subject to significant operating risks.

We paid a total of RMB47.4 million, RMB54.6 million and RMB57.6 million in insurance premiums in 2005, 2006 and 2007, respectively.

We are covered under the injury and accidental death insurance provided by the local government labor departments and do not purchase separate insurance policies from commercial insurers with respect to such risks.

Consistent with what we believe to be the customary practice in China, we generally do not carry any third party liability insurance to cover claims in respect of personal injury, environmental damage arising from accidents on our property or relating to our operations (other than our automobiles) or business interruption insurance. More extensive insurance is either unavailable in China or would impose a cost on our operations that would reduce our competitiveness with other producers.

#### Seasonality

Our business is not seasonal.

#### Regulatory Overview

Producers of alumina and primary aluminum are subject to national industrial policies and relevant laws and regulations in areas of environmental protection, import and export, land use, foreign investment regulation and taxation. We are also subject to regulations relating to activities such as mining.

We are principally subject to governmental supervision and regulation by two agencies of the PRC government:

- \* the NDRC, which sets and implements the major policies concerning China's economic and social development, approves investments exceeding certain amounts, including approval of Sino-foreign joint venture projects,

coordinates the development of state-owned enterprises and oversees their reform, and formulates industrial policies and investment guidelines for all industries including the aluminum industry; and

- \* the Ministry of Land and Resources, which has the authority to grant land use licenses and mining right permits.

The following is a brief summary of the principal laws, regulations, policies and administrative directives to which we are subject.

#### Requirements for New Entrants and Other Capital Investments

The constructions of new alumina refineries and new primary aluminum smelters require prior approval by the NDRC, the important projects among which shall be approved by the State Council. Any nonferrous metals projects and rare earths mining projects in which the amount of total investment exceeds RMB5,000 million shall be approved by the NDRC and filed with the State Council for record. All other projects shall be filed with the competent local authorities for record regardless of the scale of such projects. Moreover, in order to obtain governmental approval for its establishment, a new alumina refinery must have an annual production capacity of at least 500,000 tonnes if it uses the sintering process, 400,000 tonnes if it uses the hybrid Bayer-sintering process or 300,000 tonnes if it uses the Bayer process. All legal and regulatory requirements for new projects and other capital investments in the alumina and aluminum industries apply to us. Accordingly, we are required to obtain all necessary governmental approvals for our capital expenditure plans.

Any capital markets financing activities, for example, those to finance capital projects, are subject to approval by securities regulatory authorities and other relevant authorities in China, regardless of whether the funds are

- 41 -

---

raised in China or on the international capital markets. An issuer of equity securities or equity-linked securities in the PRC must obtain prior approval from the CSRC. For the issuance of equity or equity-linked overseas securities, the issuer is also required to obtain approval from the NDRC. Offerings of debt facilities, such as debentures, are subject to approval from the People's Bank of China, as well as the NDRC. For all international financing activities through bank borrowing or issuance of debt, the issuer must obtain prior approval from the State Administration of Foreign Exchange and register with it after the completion of the transaction.

Foreign investment in the production of alumina and primary aluminum is encouraged by the PRC government subject to various conditions. Wholly foreign-owned companies may conduct bauxite mining operations in the western region of China, but bauxite mining activities in other regions of China may only be conducted jointly with PRC entities in the form of joint ventures.

#### Entrance Conditions for Aluminum Industry

"Entrance Conditions for Alumina Industry" provides that, (i) all new bauxite projects must be approved by relevant authorities at the provincial governments, with an exception for those projects with a total investment over RMB 500

million, for which the approval from the State Council is required. In addition, all new bauxite projects should have an annual production capacity of not less than 300,000 tonnes with a service period of over 15 years; (ii) all new alumina projects must obtain approval from the State Council. Alumina projects which consume domestic bauxite mines must have an annual production capacity of over 800,000 tonnes and service duration of bauxite mines must exceed 30 years. Alumina projects which consume imported bauxite mines must have an annual production capacity of over 600,000 tonnes and have reliable bauxite supply. Raw materials supplied under long-term purchase agreements with terms of over five years must exceed 60% of the total raw material demand; (iii) all new aluminum projects must be approved by the State Council. In near future, approval will only be granted to environmental protection upgrade projects and those projects under state plan to replace out-of-date equipments. All update or replacement project must have reliable alumina supply, power supply and transportation access.

### Pricing

The PRC government does not impose any limitations with respect to the pricing of alumina, primary aluminum and related products. Thus, alumina and primary aluminum producers are free to set prices for their products. All the raw materials, supplemental materials and other supplies that we purchase are based on market prices. Freight transportation on the national railway system is subject to government mandated pricing.

### Electricity Supply and Price

The State Electricity Regulatory Commission is responsible for the supervision and administration of the power industry in China. The NDRC and local governments regulate electricity pricing. Electricity suppliers may not change their electricity prices without governmental authorization.

The Electric Power Law and related rules and regulations govern electricity supply and distribution. Currently, China's state-owned power companies, through their respective local subsidiaries, operate all the regional power grids in China from which we obtain most of our electricity requirements. In October, 2007, Chinese government issued "Notice to Further Solutions to Difference in Electricity Rates", according to which the preferential electricity rate originally enjoyed by Chinese primary aluminum enterprises ended at the end of 2007.

### Regulations Concerning Imports and Exports of Alumina and Primary Aluminum

The import taxes on alumina and primary aluminum were abolished on January 1, 2008 and August 1, 2007, respectively. The export tax for primary aluminum has been increased to 15% since November 1, 2006. In addition, under the PRC government directive, effective from August 22, 2006 we no longer import alumina for processing.

### Environmental Protection Laws and Regulations

The State Environmental Protection Administration of China is responsible for uniform supervision and control of environmental protection in China. It formulates national environmental quality and discharge standards and monitors China's environmental system. Environmental protection bureaus at the county level or above are responsible for environmental protection within their respective jurisdictions.

Environmental regulations require companies to file an environmental impact report with the relevant environmental bureau for approval before undertaking the construction of a new production facility or any major expansion or renovation of an existing production facility. New facilities built pursuant to this approval are not permitted to operate

until the relevant environmental bureau has performed an inspection and is satisfied that the facilities are in compliance with environmental standards.

The Environmental Protection Law requires any facility that produces pollutants or other hazards to incorporate environmental protection measures in its operations and establish an environmental protection responsibility system. Such system includes adoption of effective measures to control and properly dispose of waste gases, waste water, waste residue, dust or other waste materials. Any entity that discharges pollution must register with the relevant environmental protection authority.

- 42 -

---

Penalties for breaches of the Environmental Protection Law include a warning, payment of damages and imposition of a fine. Any entity undertaking a construction project that fails to install pollution prevention and control facilities in compliance with environmental standards for a construction project may be ordered to suspend production or operations and may be fined. Criminal liability may be imposed for a material violation of environmental laws and regulations that causes loss of property or personal injuries or death.

#### Mineral Resources Laws and Regulations

All mineral resources in China are owned by the State under the current Mineral Resources Law. Exploration, exploitation and mining operations must comply with the relevant provisions of the Mineral Resources Law and are under the supervision of the Ministry of Land and Resources. Exploration and exploitation of mineral resources are also subject to examination and approval by the Ministry of Land and Resources and relevant local authorities. Upon approval, a mining permit is issued by the relevant administrative authorities, which are responsible for supervision and inspection of mining exploitation in their jurisdiction. Annual reports are required to be filed by the holders of mining rights with the relevant administrative authorities.

The PRC government permits mine operators of collectively owned mines to exploit mineral resources in designated areas and individuals to mine scattered mineral resources. Such mine operators and individuals are subject to government regulation. Mining activities by individuals are restricted. Individuals are not permitted to exploit mineral reserves allocated for exploitation by a mining enterprise or company or protected reserves. Indiscriminate mining that damages mineral resources is prohibited.

If mining activities result in damage to arable land, grassland or afforested area, the mining operator must take measures to return the land to an arable state within the prescribed time frame. Any entity or individual which fails to fulfill its remediation obligations may be fined and denied application for land use rights for new land by the relevant land and natural resources authorities.

It is unlawful for an entity or individual to conduct mining operations in areas designated for other legal mining operators. A mining operator whose exploitation causes harm to others in terms of production or in terms of living standards is liable for compensation and is required to take necessary remedial measures. When a mine is closed, a mine closure report and information concerning the mining facilities, hidden dangers, remediation and environmental protection must be submitted for examination and approval in accordance with the relevant law.

The mineral products illegally extracted and the income derived from such activities may be confiscated and may result in fines, revocation of the mining permit and, in serious circumstances, criminal liability.

#### Tax Laws and Regulation

In March 2007, the PRC government promulgated the Corporate Income Tax Law which became effective from January 1, 2008. The Corporate Income Tax Law imposed a single income tax rate of 25% on both domestic and foreign invested enterprises. The Tax Law of the People's Republic of China for Enterprises with Foreign Investment and Foreign Enterprises (the "FIE and FE tax laws") and Provisional Regulations of the PRC on Enterprise Income Tax (collectively referred to as the "existing tax laws") were abolished simultaneously. The Corporate Income Tax Law provides for a 5-year transitional period for those entities that applied FIE and FE tax laws in previous years. On December 11, 2007, PRC government promulgated the Corporate Income Tax Law Implementation Rules which also became effective from January 1, 2008.

### ORGANIZATIONAL STRUCTURE

We are organized as a joint stock limited company under PRC law. As of June 23, 2008, Chinalco, China Cinda, China Construction Bank Corporation, China Development Bank, Baotou Aluminum (Group) Co., Ltd. Guangxi Investment, Guizhou Development, Lanzhou Aluminum Factory, Lanzhou Economic Information Consultation Company, Baotou Aluminum, Guiyang Aluminum Magnesium Design and Research Institute and our public shareholders own 38.56%, 6.65%, 5.24%, 4.10%, 2.60%, 1.46%, 0.96%, 0.59%, 0.07%, 0.03% and 39.74%, respectively, of our issued share capital.

- 43 -

---

#### Shandong Aluminum

, a significant subsidiary incorporated in the PRC and located in Shandong Province, in which we had previously held a 71.43% interest, is a joint stock limited company established under PRC law. Its A Shares were traded on the Shanghai Stock Exchange. Pursuant to a Share exchange between Shandong Aluminum and us on April 30, 2007, we currently hold 100% of the equity interest in Shandong Aluminum, and the A Shares of Shandong Aluminum were delisted from the Shanghai Stock Exchange as a result of such share exchange.

#### Lanzhou Aluminum

, was previously our associate company in which we held a 28% equity interest pursuant to a share exchange between Lanzhou Aluminum and us on April 30, 2007, it became our wholly-owned subsidiary, and its A Shares were delisted from the Shanghai Stock Exchange. In June 2007, Lanzhou Aluminum was divided into the Lanzhou branch and Northwest Aluminum Fabrication Plant, which are mainly engaged in producing primary aluminum products and fabricated aluminum products, respectively. Both of them are our wholly owned branches.

#### Baotou Aluminum

, incorporated in the PRC and located in the Inner Mongolia Autonomous Region pursuant to a share exchange between Baotou Aluminum and us on December 28, 2007, it became our wholly-owned subsidiary, and its A Shares were delisted

from the Shanghai Stock Exchange.

## PROPERTY, PLANT AND EQUIPMENT

### Mines

The following map sets forth the location of our large-scale, mid-scale and small-scale mines and properties:

The following map sets forth details of the area surrounding our largest mine, Pingguo Mine:

The Guangxi Pingguo plant commenced operations in 1994 and is located in the Guangxi Zhuang Autonomous Region. It is our newest alumina and primary aluminum plant. The surrounding infrastructure includes roadways and waterways. As of December 31, 2007, the plant had a production capacity of 850,000 tonnes of alumina per annum.

Land

Chinalco leases to us 445 pieces or parcels of land, which are located in six provinces, covering an aggregate area of approximately 58.22 million square meters for the purposes of all aspects of our operations and businesses. The leased land consists of:

- \* 439 pieces of allocated land with an area of approximately 58.02 million square meters, on which Chinalco has obtained authorization from the relevant administrative authorities to manage and lease the land use rights; and
- \* 2 pieces of land with an area of approximately 200,000 square meters for which Chinalco has paid the land premiums and has been granted the land use rights certificates.

The land is leased for the following terms:

- \* allocated land: 50 years commencing from July 1, 2001 (except for land use rights of mines operated by us, whose leased terms shall end on the expiration date of the mining rights or at the end of the actual mine life, whichever is earlier); and
- \* granted land: until expiration of the relevant land use right permits.

- 44 -

---

## Buildings

Our principal executive offices, which we lease from Chinalco, are located at No. 62 North Xizhimen Street, Hai Dian District, Beijing, People's Republic of China, 100082.

Pursuant to the reorganization, Chinalco transferred to us, among other operating assets, ownership of the buildings and properties for the operation of our core businesses, with Chinalco retaining the remaining buildings and properties for Chinalco's remaining operations. The buildings transferred to us comprise 4,631 buildings with an aggregate gross area of approximately 4.2 million square meters.

The buildings transferred to us pursuant to the reorganization, which are located on land leased from Chinalco, may be sold or transferred only with the consent of Chinalco and in accordance with applicable land transfer procedures. Chinalco has undertaken to provide its consent and the necessary assistance to affect land grant procedures to ensure that our buildings can be legally transferred or sold.

We and Chinalco also lease to each other a number of other buildings and properties for ancillary uses, which comprise mainly buildings for offices, dormitory, canteen and storage purposes. We lease 37 buildings to Chinalco, with an aggregate gross area of approximately 18,928 square meters. Chinalco leases 89 buildings to us, with an aggregate gross area of approximately 272,370.33 square meters. The leased terms of all these buildings are 20 years

commencing from July 1, 2001. Chinalco has obtained proper land and building title certificates for all of the buildings it leases to us by the end of 2004. We also leased from China Aluminum Development Co., Ltd., a wholly-owned subsidiary of Chinalco, 30,160.81 square meters of office space for a term of three years commencing from March 28, 2005 for a consideration of RMB61.65 million per annum.

For environmental issues in relation to the utilization of our assets, please refer to "Item 4. Environmental Protection".

#### Our Expansion

Our capital expansion plan for 2008 requires a total of RMB20,600 million in capital expenditures for technology upgrading and several acquisition projects to increase our annual production capacity. In 2008, our annual production capacities of alumina, primary aluminum and aluminum alloy are expected to increase by 880,000 tonnes, 695,000 tonnes and 1,090,000 tonnes, respectively. For more information, see "Item 5. Operating and Financial Review and Prospects - Capital Expenditure Plan".

The following table shows the expected aggregate effects of our expansion and improvement plans for our alumina and primary aluminum production facilities for 2007:

	Planned Capital Investment for 2008	Production Capacity as of December 31, 2007	Expected Production Capacity as of December 31, 2008
	(RMB in billions)	(in thousand tonnes)	
Alumina	8.71	10,197.0	11,077.0 <sup>(1)</sup>
Primary aluminum	7.18	3,196.2 <sup>(2)</sup>	3,891.2 <sup>(3)</sup>
Aluminum alloy	0.57	200.0	200.0
Other acquisition	4.18	-	-

- 45 -

(1) includes 530,000 tonnes of expected production capacity as of December 31, 2008 from Guangxi Huayin, a jointly controlled entity in which we have 33% equity interest. The total expected production capacity of Guangxi Huayin as of December 31, 2008 is approximately 1,600,000 tonnes. See Note 10(a) to our audited consolidated financial statements.

(2)

includes 412,000 tonnes of production capacity as of December 31, 2007 from Jiaozuo Wanfang, which is our associated company in which we have 29% equity interest. The total production capacity of Jiaozuo Wanfang as of December 31, 2007 is approximately 412,000 tonnes. See Note 10(b) to our audited consolidated financial statements.

- (3) includes 412,000 tonnes of expected production capacity as of December 31, 2008 from Jiaozuo Wanfang, which is our associated company in which we have 29% equity interest. The total expected production capacity of Jiaozuo Wanfang as of December 31, 2008 is approximately 412,000 tonnes. See Note 10(b) to our audited consolidated financial statements.

Capital expenditures are expected to further expand our alumina and primary aluminum production capacities to further enhance synergies arising from economies of scale, vertical integration and reduction of our unit production cost.

During 2007, we issued 638 million A Shares and accomplished the merger by share exchange of Baotou Aluminum. The merger of Baotou Aluminum with the Company led to an increase of 307,000 tonnes of production capacity of primary aluminum. In addition, Lanzhou branch completed a new primary aluminum production capacity expansion project by the end of 2007, which increased its annual production capacity to approximately 428,000 tonnes.

- 46 -

---

In 2008, we will continue the expansion and restructuring of our primary aluminum, alumina and aluminum alloy projects, the majority of which are included as follows:

- \* Guangxi Alumina third-phase project of 880,000 tonnes.

This project is expected to be completed in the third quarter of 2008.

- \* Chongqing and Zunyi Alumina projects of 800,000 tonnes each.

Both of the projects are expected to be completed in June 2009.

- \* Guangxi Huayin primary aluminum project of 1,600,000 tonnes.

This project is expected to be completed in the second quarter of 2008.

- \* Baotou Aluminum.

This project is expected to be completed at the end of 2008. We expect the completion of this project to increase our annual primary aluminum production capacity by 150,000 tonnes.

\* Shanxi Huaze Project.

This project is expected to be completed in 2009. We expect the completion of this project to increase our annual aluminum alloy production capacity by 100,000 tonnes. By the end of 2008, our annual aluminum alloy production is expected to be initially increased by 70,000 tonnes.

\* Zunyi Aluminum.

This project is expected to be completed at the end of 2008. We expect the completion of this project to increase our annual primary aluminum production capacity by 125,000 tonnes.

We intend to fund these capital expenditures through a combination of internal funds derived from our own operations, the proceeds from the placement of H Shares and bank financing.

The preceding paragraphs provide a summary of our current capital expenditure plans for our major projects. These plans have been developed based on facts currently known to us, assumptions we believe to be reasonable and our estimates of market and other conditions. They may change as circumstances change, and may be modified as our business plans evolve. Other than as required by law, we do not undertake any obligation to publish updates of our plans or their implementation status.

#### ITEM 4A. UNRESOLVED STAFF COMMENTS

We did not receive any written comments from the SEC staff regarding our 2006 Form 20-F filing at least 180 days before December 31, 2007.

#### ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

The following discussion and analysis should be read in conjunction with our audited financial statements, and selected historical financial data, in each case together with the accompanying notes, included elsewhere in this annual report. This section contains certain expressions such as "expect", "anticipate", "believe", "seek", "estimate", "intends", "should", "may" or other terms or phrases which are forward-looking statements involving risks and uncertainties. See "Item 3 Key Information Risk Factors". Forward-looking

- 47 -

---

statements are not guarantees of our future performance or results and our actual results could materially differ from those disclosed in the forward-looking statements.

The HKFRS financial information discussed in this section have been restated after taking into account the effect of the acquisition of Baotou Aluminum, which was accounted for using merger accounting. See Note 5 to the Financial Statements.

#### Critical Accounting Policies

We have identified a number of accounting policies below as critical to our business operations and the understanding of our results of operations. Some of our accounting policies require our management to make significant judgments relating to estimates and assumptions about the effects of circumstances to reported amounts in our financial statements. We have established procedures and processes to facilitate the making of such judgments in the preparation of our financial statements. See Note 2 to our audited consolidated financial statements for the impact of such accounting policies and any associated risks relating to these policies on our results of operations. Our management has identified areas of uncertainty and the variables most important in making the necessary estimates. Management has used the best information available but actual performance may differ from our management's estimates and future changes in key variables could change future reported amounts in our financial statements.

#### Property, Plant and Equipment

The carrying amounts of long-lived assets are reviewed whenever events or changes in circumstances indicate that the book value of the assets may not be recoverable. An impairment exists when the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is measured at the higher of net selling price and value in use, calculated based on discounted future pre-tax cash flows related to the asset or the cash generating unit to which the assets belong. A cash-generating unit is the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or group of assets. Estimates of future cash flows include the cash inflows from continuing use of the asset and cash outflows to prepare the asset for use that can be directly attributed, or allocated on a reasonable and consistent basis, to the asset. If applicable, estimates also include net cash flows to be received (or paid) for the disposal of the asset at the end of its useful life. Management made a number of significant assumptions and estimates in the application of the discounted future cash flow model to forecast operating cash flows, including business prospects, market conditions, selling prices and sales volume of products, costs of production and funding sources. If there is an indication of impairment, the carrying value of such assets is written down to its recoverable amount. In addition, we determine the estimated useful lives of our property, plants and equipment based on the historical experience of the actual useful lives of property, plant and equipment of similar nature and functions. Management will increase the depreciation charge where useful lives are less than previously estimated lives, and will write-off or write-down technically obsolete or non-strategic assets that have been abandoned or sold. Results in actual transactions could differ from those estimates used to evaluate the impairment of such long-lived assets.

- 48 -

---

#### Goodwill

Goodwill represents the excess of purchase consideration over the fair values ascribed to the identifiable net assets of entities acquired. Until December 31, 2004, under HK GAAP, goodwill resulting from acquisitions under purchase accounting was recognized as an intangible asset and amortized on a straight-line basis over its estimated useful economic life of not more than 20 years. In accordance with the provisions of HKFRS 3 effective from January 1,

2005, the Company has ceased amortization of goodwill. Separately recognized goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. Impairment losses on goodwill are not reversed. Under U.S. GAAP, annual amortization of this amount ceased effective from January 1, 2002. Goodwill is subject to annual impairment testing and is written down if carrying value exceeds fair value. Management made a number of significant assumptions and estimates in the application of the discounted future cash flow model to forecast operating cash flows, including business prospects, market conditions, selling prices and sales volumes of products, costs of production and funding sources. Management considers both past data and all currently available information at the time the valuations of its businesses are performed. Results in actual transactions could differ from those estimates used to evaluate the impairment of goodwill.

- 49 -

---

#### U.S. GAAP Reconciliation

Our financial statements are prepared in accordance with HKFRS, which differs in various material respects from U.S. GAAP. See Note 37 to our audited consolidated financial statements. The summary of differences involve management's estimates and assumptions which may affect the reported amounts of assets and liabilities and revenues and expenses.

#### Newly adopted Hong Kong Financial Reporting Standards

The Hong Kong Institute of Certified Public Accountants, or HKICPA, has issued a number of new/revised Hong Kong Financial Reporting Standards, or HKFRS, which are effective and mandatory for accounting periods beginning on or after January 1, 2007. Please refer to Note 2 (a) (i) to our audited financial statements for details.

#### New HKFRS pronouncements

For a detailed discussion of new accounting pronouncements, please see Note 2(a)(ii) to our audited financial statements.

#### Overview

We are the largest producer of alumina and primary aluminum in China. We are also the third largest producer of alumina, and also the fourth largest producer of primary aluminum in the world in terms of production volume for the year ended December 31, 2007. We are engaged primarily in alumina refining and primary aluminum smelting operations. We report our financial results according to the following business segments:

- \* Alumina segment, which consists of mining and purchasing bauxite and other raw materials, refining bauxite into alumina, and selling alumina both internally to our primary aluminum smelters and externally to customers outside of our Company. This segment also includes the production and

sale of alumina chemical products and gallium.

- \* Primary aluminum segment, which consists of procuring alumina and other raw materials (including recycled aluminum), supplemental materials and electricity, smelting alumina to produce primary aluminum, and selling substantially all our primary aluminum products to external customers. This segment includes production and sales of carbon products.
- \* Corporate and other services segment, which includes our headquarters' operations, research conducted by our research institutes and provision of our research and development services to third parties.

#### Factors Affecting Our Results of Operations

Our results of operations and the period-to-period comparability of our financial results are affected by a number of external factors. Our financial statements may not be indicative of our future earnings, cash flows or financial position for numerous reasons including those described below.

#### Acquisitions

Our results of operations and financial condition have been and will continue to be affected by subsidiaries, associates and branches we have acquired or will acquire. Fushun Aluminum, Shandong Huayu, Zunyi Aluminum, Gansu Hualu and Jiaozuo Wanfang which we acquired in 2006 increased our annual production capacity primary aluminum by 749,000 tonnes in 2006. In 2007, we acquired Baotou Aluminum, which increased our annual production capacity of primary aluminum by 530,000 tonnes.

#### Alumina Prices

We sell our alumina products by way of spot sales or under long-term contracts. Pricing for our alumina products is determined by the nature of the sale as described below.

#### Spot sales.

We set uniform prices for all our external sales of alumina by reference to import costs of alumina, the market supply and demand conditions as well as our short-term and mid-term projections. Our pricing generally takes into account:

- \* free-on-board Australia prices for alumina exports into China;
- \* international transportation costs;
- \* the applicable standard PRC import tariff;
- \* value-added tax at 17%;

- 
- \* import related fees; and
  - \* domestic demand and supply conditions.

The international market price for alumina fluctuates from time to time, and such fluctuation affects the price of our alumina, which reflects the changes in the international market prices. Consumption and demand for primary aluminum throughout the world, including the PRC, continued to grow. The spot price of alumina in the international market supplied to China reached its highest point at US\$430.0 per tonne in March 2007. Affected by the rapid expansion of PRC alumina production capacity and output, the international spot price began to weaken and bottomed in August 2007. The annual average price of alumina in 2007 was US\$393 per tonne, representing a year-on-year decrease of 11.69%. The yearly average selling price of our alumina in 2007 was RMB3,412 per tonne, representing a year-on-year decrease of 16.92%.

The global output of alumina for 2007 was approximately 74.53 million tonnes, representing a year-on-year increase of 8.68%. The global alumina consumption reached approximately 74.70 million tonnes, representing a year-on-year increase of 12.50%. Due to the significant expansion of the PRC's alumina production capacity, domestic supply of alumina in 2007 increased, thereby relieving the procurement pressure on the international spot market. Domestic output of alumina reached approximately 19.45 million tonnes, representing growth of 41.97% over 2006, while its demand reached approximately 26.00 million tonnes, representing a further year-on-year increase of 36.80%. In 2007, the imported alumina in the PRC amounted to approximately 5.23 million tonnes, representing a year-on-year decrease of 24.31%.

*Long-term contracts sales.* Internationally, the customary practice for alumina pricing under long-term contracts is by reference to the LME prices for primary aluminum. Since 2001, we have entered into a number of domestic long-term alumina sales contracts with terms ranging from three to five years, pursuant to which, the sales price is set as a percentage of the three-month primary aluminum prices on the Shanghai Futures Exchange ("SHFE"). As a result, fluctuations of primary aluminum prices on the SHFE can affect our alumina prices under these long-term contracts, and the significance of such effects may increase as we increase the proportion of alumina sales under long-term contracts. We sold approximately 1,800,000 tonnes of alumina under long-term contracts in 2007.

#### Primary Aluminum Prices

Like most primary aluminum producers in China, we price our primary aluminum products by reference to SHFE spot prices. The SHFE primary aluminum spot prices generally reflect LME primary aluminum spot prices, plus an amount on account of international transportation, import tariffs, value-added tax and other import-related costs. Thus, fluctuations in the SHFE (and, by extension, the LME) spot prices affect our operating results. Primary aluminum prices on the SHFE and LME tend to be cyclical and volatile. The following table sets out the average three-month primary aluminum futures price on LME and the SHFE in 2005, 2006 and 2007.

2005	2006	2007
------	------	------

---

(U.S. Dollar per tonne)

LME	1,900.0	2,591.0	2,661.0
Shanghai Futures Exchange	1,782.0	2,227.0	2,294.0

Year 2007 saw a slower economic growth in the US, Europe, Japan and other western economies.

- 51 -

The price of primary aluminum remained high in the first half of the year but as a result of the US subprime crisis in August 2007, the price of aluminum fell to a record low. In 2007, the lowest price of three-month primary aluminum futures on LME was approximately US\$2,326.5 per tonne, the highest price was US\$2,937.5 per tonne and the average price was US\$2,661.0 per tonne, a year-on-year decrease of 2.70%. In the PRC, the primary aluminum price in the PRC market maintained at a steady level, despite the US subprime crisis, primarily due to continued growth in primary aluminum consumption by the robust PRC national economy. The highest, lowest and average price of three-month aluminum futures on the SHFE in 2007 was RMB20,900 per tonne, RMB17,480 per tonne and RMB19,580 per tonne, respectively, representing a year-on-year decrease of 2.76%.

Global output of primary aluminum for 2007 was approximately 38.15 million tonnes, representing a year-on-year increase of 12.30%. The PRC's primary aluminum output continued a rapid growth and reached approximately 19.45 million tonnes in 2007, representing an increase of 41.97% over 2006. Global primary aluminum consumption was 37.81 million tonnes in 2007, representing an increase of 10.14% over 2006. The rapid growth of the PRC's economy boosted the fast growth of primary aluminum consumption in a wide range of industries including construction, transportation, electricity and packaging. Accordingly, domestic primary aluminum consumption for 2007 was approximately 12.44 million tonnes, representing an increase of 43.48% over 2006.

#### Electricity Prices

The smelting of primary aluminum requires a substantial and continuous supply of electricity. Therefore, the availability and price of electricity are key considerations in our primary aluminum production operations. Interruptions of electricity supply can result in lengthy production shutdowns, increased costs associated with restarting production and waste of production in progress. In extreme cases, interruptions of electricity supply can also cause damage to or destruction of the equipment and facilities. We encountered severe shortages of electric power supply in 2005 and shortages were gradually relieved in 2006. In 2007, electricity prices increased due to the government adjustment. Accordingly, our electricity purchase price increased by 3.2% compared to 2006. At the end of 2007, the preferential electricity prices originally enjoyed by Chinese primary aluminum enterprises were eliminated according to "Notice to Further Solutions to Differences in Electricity Rates" issued by the Chinese government in October 2007, which further increased the costs for our primary aluminum production. In addition, several Chinese provinces experienced power shortage in the first quarter of 2008 mainly due to damages to power supply caused by the severe weather conditions. We believe the prices of electricity will increase in 2008. Electricity accounted for approximately 7.6% of our unit alumina production costs and 33.7% of our unit primary aluminum production costs in 2007.

#### Debt and Financing Costs

Our financing costs consist predominantly of interest expense on our borrowings. The majority of our debts has been incurred to fund our capital expenditures. Interest rates on loans related to capital expenditures and working capital set by banks generally follow guidelines issued by the People's Bank of China. The People's Bank of China increased interest rates for commercial loans chargeable by state-owned banks in 2006 and 2007, which correspondingly increased our interest expense on our floating rate loans during these periods. In 2007, we incurred interest expenses of RMB926.3 million on our short-term, medium-term, and long-term borrowings, representing a 19.5% increase compared to 2006.

#### Consolidated results of operations

The following table sets forth, for the periods indicated, certain income and expense items as a percentage of our revenue from our consolidated statements of income:

	Years Ended December 31,		
	2005	2006	2007
	(%)	(%)	(%)
Revenue	100.0	100.0%	100%
Cost of sales	(68.5)	(67.8)	(75.1)

- 52 -

Gross profit	31.5	32.2	24.9
Other gains, net	0.1	0.6	0.2
Selling and distribution expenses	(2.0)	(1.6)	(1.5)
General and administrative expenses	(4.2)	(3.8)	(3.7)
Research and development expenses	(0.3)	(0.1)	(0.3)
Operating profit	25.1	27.3	19.6
Finance costs, net	(0.9)	(1.0)	(1.0)
Operating profit after net finance costs	24.2	26.3	18.6

Sales to Chinalco and its subsidiaries, jointly-controlled entities and other related parties accounted for approximately 8.8% and 11.2% of consolidated revenue for the two years ended December 31, 2006 and 2007, respectively. For information on related party transactions, see "Item 7 - Major Shareholders and Related Party Transactions - Related Party Transactions" and Note 32 to our audited consolidated financial statements.

Year Ended December 31, 2007 Compared with Year Ended December 31, 2006

(Prepared based on financial information under HKFRS)

### Results of Operations

Our net profit attributable to our equity holders amounted to RMB10,244.5 million for the year ended December 31, 2007, representing a year-on-year decrease of RMB1,597.2 million or a decrease by 13.5% from RMB11,841.7 million in the year ended December 31, 2006.

### Revenue

Our total revenue increased by RMB11,353 million from RMB64,827 million for the year 2006 to RMB76,180 million for the year 2007, representing an increase of 17.5%. The increase was primarily due to an increase in the sales of primary aluminum partially offset by decrease in the average price of primary aluminum. Our sales volume of primary aluminum to third party customers reached 3,092,600 tonnes, representing an increase of 956,700 tonnes or 44.79% from 2,135,900 tonnes of 2006. The growth was primarily attributable to the increase in the production volume of primary aluminum, as a result of the acquisition and establishment of Zunyi Aluminum and other subsidiaries and the merger with Lanzhou Aluminum. The increase in the sale of primary aluminum was also attributable to the increased efficiency in production output through technological innovation of production lines and the increase in trade sales. Our external sales volume of alumina decreased from 6,275,700 tonnes in 2006 to 6,030,900 tonnes in 2007 primarily because of the shift of external sales of alumina to internal sales due to our acquisition.

Our average, external selling price of primary aluminum decreased from RMB17,463 per tonne in 2006 to RMB16,914 per tonne in 2007 due to the general market decline in demand for primary aluminum. Our external selling price of alumina also decreased from RMB3,618 per tonne in 2006 to RMB2,912 per tonne in 2007 due to the general market decline in demand for alumina.

### Cost of Sales

Our total cost of sales increased by RMB13,267 million or 30.2% from RMB43,931 million in 2006 to RMB57,198 million in 2007. The increase was mainly attributable to the growth in external sales volume and the increased unit cost of sales of alumina.

### Selling and Distribution Expenses

Our selling and distribution expenses increased by RMB159 million from RMB1,028 million in 2006 to RMB1,187 million in 2007, representing an increase of 15.5%, which was primarily attributable to the increase in transportation, loading/unloading and packaging expenses resulting from the growth of sales volume of primary aluminum products.

### General and Administrative Expenses

General and administrative expenses increased by RMB323 million from RMB2,466 million in 2006 to RMB2,789 million in 2007, representing an increase of 13.1%. The increase was mainly attributable to the increase of approximately RMB78.0 million in tax charges other than income tax payable to the PRC tax authorities as a result of expanded business scale increase in expenses on depreciation for management equipment and administration costs by approximately RMB106.0 million and increase in losses on assets disposal.

### Research and Development Expenses

Our expenditure for research and development increased by RMB112 million from RMB116 million in 2006 to RMB228 million in 2007.

### Other Gains, Net

Net other gains in 2007 was RMB131 million, a decrease of RMB251 million or 65.8% from RMB382 million in 2006. This was attributable to the account of an estimated gain of RMB236 million from negative goodwill as a result of the acquisitions of subsidiaries in the year of 2006, whereas there was no such activity in 2007.

### Operating Profit

As a result of the foregoing, our operating profit decreased by RMB2,759 million from RMB17,668 million in 2006 to RMB14,909 million in 2007, representing a decrease of 15.6%. Our operating profit as a percentage of sales of goods was 27.3% in 2006 and 19.6% in 2007.

### Finance Costs, Net

Our net finance costs increased by RMB101 million, or 15.9% from RMB637 million in 2006 to RMB738 million in 2007. This was attributable to the increase of interest expense arising from the increase in the outstanding bank loans as well as interest rates.

### Income Tax Expense

Our income tax expense decreased by RMB1,630 million, or 37.0% from RMB4,411 million in 2006 to RMB2,781 million in 2007. Of this amount, approximately RMB800 million was due to a year-on-year decrease in our profit and a decrease of an aggregate of RMB805 million due to the preferential policies on reduction and exemption of enterprise income tax for the purchase of domestically-manufactured production equipment, which resulted in decrease of income tax expense of RMB737 million as compared to 2006. In 2007, our average tax rate was 19.3%, which was lower than the average tax rate of 25.8% in 2006 and the statutory tax rate of 33.0%, primarily due to the decrease of consolidated tax rate as a result of our merger and acquisition of Lanzhou Aluminum, Baotou Aluminum, as well as the establishment of Zunyi Aluminum. The decrease was also attributable to the preferential policies that we enjoyed in 2007 in respect of the reduction and exemption of enterprise income tax for the purchase of domestically manufactured production equipment.

## Minority Interest

Minority interest increased by RMB512 million from RMB872 million in 2006 to RMB1,384 million in 2007, primarily due to the increase in the minority interest after the acquisition of subsidiaries.

## Profit for the Year Attributable to Equity Holders of the Company

As a result of the foregoing, our profit attributable to equity holders of the Company decreased by RMB1,597 million, a decrease of 13.5% from RMB11,842 million in 2006 to RMB10,245 million in 2007.

## Year Ended December 31, 2006 Compared with Year Ended December 31, 2005

(Prepared based on financial information under HKFRS)

## Results of Operations

Our net profit attributable to our equity holders amounted to RMB11,842 million for the year ended December 31, 2006, representing a year-on-year increase of RMB4,770 million or an increase by 67.4% from RMB7,072 million in the year ended December 31, 2005.

## Revenue

Our total revenue increased by RMB24,155 million from RMB40,672 million for the year 2005 to RMB64,827 million for the year 2006, representing an increase of 59.4%. The increase was primarily due to the increase in sales volume and selling prices of our principal products, alumina and primary aluminum. Our external sales volume of primary aluminum reached 2,135,900 tonnes, representing an increase of 985,859 tonnes or 85.7% from 1,150,041 tonnes of 2005. The growth was primarily attributable to the increase of production volume of primary aluminum resulting from commencement of production of the

- 53 -

---

aluminum production line of Guizhou branch and the aluminum project of Shanxi-Huaze, acquisition and establishment of subsidiaries, improvement and technological renovation of other production lines and the increase in trade sales. The increase of sales volume of primary aluminum contributed to an increase of RMB13,414 million in sales.

The external sales volume of alumina increased from 6,074,358 tonnes in 2005 (inclusive of trade volumes of 1,055,400 tonnes) to 6,275,700 tonnes in 2006 (inclusive of trade volumes of 1,149,400 tonnes), representing an increase of 201,342 tonnes or 3.3%. The increase was mainly attributable to the increase in output from the overall operation of the 800,000 tonnes alumina phase III production line in Shanxi, and the 700,000 tonnes alumina production line in Henan during 2006. The increase of the external sales volume of alumina contributed to an increase of RMB678 million in revenue.

In 2006, due to the effect of the increase in the market price of primary aluminum, our average external selling price of primary aluminum products reached RMB17,463 per tonne (excluding tax, hereinafter), representing an increase of RMB2,969 per tonne or 20.5% from RMB14,494 per tonne in 2005, which contributed to an increase of RMB5,652 million in revenue.

In 2006, our average external selling price of alumina products reached RMB3,618 per tonne, representing an increase of RMB250 per tonne (or 7.4%) from RMB3,368 per tonne in 2005, which contributed to an increase of RMB1,830 million in revenue.

In 2006, the sales of alumina chemicals and other products increased by approximately RMB1 billion from 2005.

#### Cost of Sales

Our total cost of sales increased by RMB16,054 million or 57.6% from RMB27,877 million in 2005 to RMB43,931 million in 2006. The increase was mainly attributable to the growth in external sales volume and the increased unit cost of sales of alumina.

#### Selling and Distribution Expenses

Our selling and distribution expenses increased by RMB242 million from RMB786 million in 2005 to RMB1,028 million in 2006, representing an increase of 30.8%, which was primarily attributable to the increase in transportation fee, loading fee and packing fee due to the growth of sales volume of primary aluminum.

#### General and Administrative Expenses

General and administrative expenses increased by RMB753 million from RMB1,713 million in 2005 to RMB2,466 million in 2006, representing an increase of 43.9%. The increase was mainly attributable to the increase in expenses of approximately RMB344 million as a result of acquisitions and the establishment of subsidiaries. The related tax charges other than income tax imposed by the PRC tax authorities, salaries and welfare expenses and traveling and entertainment expenses increased by RMB183 million, RMB127 million and RMB62 million respectively due to the expanded business.

#### Research and Development Expenses

Our expenditure for research and development slightly increased by RMB2 million from RMB114 million in 2005 to RMB116 million in 2006.

#### Other Gains, Net

Net other gains in 2006 was RMB382 million, an increase of RMB350 million or 1,093.8% from RMB32 million in 2005. This was mainly attributable to the recognition of excess of interest in fair value of net identifiable assets acquired over costs of business acquisitions completed during 2006 amounting to RMB236 million. The hedging activities on primary aluminum and receipts of government grants also contributed approximately RMB135 million increase from 2005.

---

### Operating Profit

As a result of the foregoing, our operating profit increased by RMB7,454 million from RMB10,214 million in 2005 to RMB17,668 million in 2006, representing an increase of 73.0%. Our operating profit as a percentage of sales of goods was 25.1% in 2005 and 27.3% in 2006.

### Finance Costs, Net

Our net finance costs increased by RMB279 million or 77.9% from RMB358 million in 2005 to RMB637 million in 2006. The increase was primarily attributable to the fact that interest expense began to be recorded on borrowings related to the following projects upon commencement of production: Shanxi Huaze's aluminum smelting and power project, Shanxi alumina project of 800,000 tonnes and Henan alumina project of 700,000 tonnes. This led to an increase of RMB278 million in interest expense. The increase of short-term cash investment primarily contributed to the increase in interest income while the devaluation of HK\$ denominated H-share proceeds in 2006 led to an exchange loss that year.

### Income Tax Expense

Our income tax expense increased by RMB1,901 million or 75.7% from RMB2,510 million in 2005 to RMB4,411 million in 2006. The increase was mainly attributable to our increased profit. In 2006, our average tax rate was 25.76%, which was slightly higher than the average tax rate of 25.40% in 2005. Our income tax rate is lower than the statutory tax rate of 33.0%. This is mainly because of the preferential tax rate of 15% for our three branches in Guizhou, Guangxi and Qinghai and for our two acquired subsidiaries Baotou Aluminum and Zunyi Aluminum Company Limited, all of which are located in the western region of the PRC to qualify for the preferential tax treatment.

### Minority Interest

Minority interest increased by RMB573 million from RMB299 million in 2005 to RMB872 million in 2006, primarily due to the increase in the minority interest as a result of the acquisition of subsidiaries and establishment of joint ventures, and the increase in profits of our subsidiaries.

### Profit for the Year Attributable to Equity Holders of the Company

As a result of the foregoing, our profit attributable to equity holders of the Company increased by RMB4,770 million, an increase of 67.4% from RMB7,072 million in 2005 to RMB11,842 million in 2006.

## Discussion of Segment Operations

We account for our operations on a segmental basis, that is, separately accounting for the alumina and primary aluminum segments as well as the corporate and other services segment. Unless otherwise indicated, also included in these segments are other revenues derived from such activities as supplying electricity, gas, heat and water to affiliates, selling scrap and other materials, and providing services including transportation and research and development to third parties. Interest income included in net finance costs is not attributed to any segments. For additional data and information relating to our business segments and segment presentation, see Note 21 to our audited consolidated financial statements.

The following table sets forth (i) revenue by segment for the periods indicated, and (ii) the contribution of external sales and inter-segment sales for 2007 as a percentage of revenue for such period, both before and after elimination of inter-segment sales.

	Before Elimination of Inter-segment Sales			After Elimination of Inter-segment Sales

Year Ended December 31, 2007 Compared with Year Ended December 31, 2006

Alumina Segment

Revenue.

Our total revenue of the alumina segment decreased by RMB3,139 million, representing a decrease of 8.2% from RMB38,269 million in 2006 to RMB35,130 million in 2007, mainly due to a lower selling price of alumina products.

Revenue from the external sales of alumina segment decreased by RMB4,784 million or 18.7% from RMB25,602 million in 2006 to RMB20,818 million in 2007, mainly due to the decrease in external sales volume and decrease in the selling price of our alumina.

Revenue from the sales of alumina to our smelters increased by RMB1,645 million from RMB12,667 million in 2006 to RMB14,312 million in 2007, primarily due to the increase in the total demand for alumina for increased production of primary aluminum as a result of the acquisition of aluminum production enterprises.

Cost of sales.

The total alumina segment cost of sales in 2007 increased from RMB24,410 million in 2006 to RMB26,964 million in 2007, representing a year-on-year increase of 10.5%, primarily due to an increase in sales volume of alumina and an increase in unit costs in 2007.

Operating Profit.

Our total operating profit of alumina segment decreased by RMB5,693 million, or 41.1% from RMB13,859 million in 2006 to RMB8,166 million in 2007.

Primary Aluminum Segment

Revenue.

Our total revenue for the primary aluminum segment increased by RMB15,313 million or 39.9% from RMB38,394 million in 2006 to RMB53,707 million in 2007, mainly due to the increase in our primary aluminum sales volume resulting from increased production capacity as a result of our acquisition and establishment of aluminum enterprises and technological renovation.

Cost of Sales.

The total primary aluminum segment cost of sales in 2007 increased from RMB33,393 million in 2006 to RMB46,285 million in 2007, representing a year-on-year increase of 38.6%, primarily due to an increase in sales volume of primary aluminum in 2007.

Operating Profit.

The primary aluminum segment recorded an operating profit of RMB7,422 million in 2007, representing an increase of RMB2,421 million as compared with RMB5,001 million in 2006.

Corporate and Other Services Segment

Our corporate and other services segment reflected the expenses of our headquarters, research and development services and product sales of our Research Institute to external customers. This segment recorded an increase in

operating loss from RMB59 million in 2006 to a loss of RMB77 million in 2007.

Year Ended December 31, 2006 Compared with Year Ended December 31, 2005

#### Alumina Segment

##### Revenue.

Our total revenue of the alumina segment increased by RMB9,583 million, representing an increase of 33.4% from RMB28,686 million in 2005 to RMB38,269 million in 2006.

Revenue from the external sales of alumina segment in 2006 increased by RMB3,098 million or 13.8% from RMB22,504 million in 2005 to RMB25,602 million in 2006, mainly due to the increase in external sales volume and selling price of our alumina.

Revenue from the sales of alumina to our smelters rose by RMB6,485 million from RMB6,182 million in 2005 to RMB12,667 million in 2006, primarily due to the increased total demand of alumina for production which was met by our increased output of primary alumina resulting from increased production capacity.

##### Cost of sales.

The total alumina segment cost of sales in 2006 increased from RMB18,402 million in 2005 to RMB24,410 million in 2006, representing a year-on-year increase of 32.7%, primarily due to an increase in sales volume of alumina and an increase in unit costs in 2006.

##### Operating Profit.

Our total operating profit of alumina segment increased by RMB3,575 million, or 34.8% from RMB10,284 million in 2005 to RMB13,859 million in 2006.

#### Primary Aluminum Segment

##### Revenue.

Our total revenue for the primary aluminum segment increased by RMB20,428 million or 113.7% from RMB17,966 million in 2005 to RMB38,394 million in 2006, mainly due to the increase of the Group's primary aluminum sales volume and selling price.

##### Cost of Sales.

The total primary aluminum segment cost of sales in 2006 increased from RMB17,504 million in 2005 to RMB33,393 million in 2006, representing a year-on-year increase of 90.8%, primarily due to an increase in sales volume of primary aluminum and an increase in unit costs in 2006.

##### Operating Profit.

The primary aluminum segment recorded an operating profit of RMB5,001 million in 2006, representing an increase of RMB4,539 million as compared with RMB462 million in 2005.

#### Corporate and Other Services Segment

Our corporate and other services segment reflected the expenses of our headquarters, research and development services and product sales of our Research Institute to external customers. This segment recorded a decrease in operating loss from RMB103 million in 2005 to a loss of RMB59 million in 2006.

#### Working Capital and Liabilities

Our primary sources of funding are cash generated by operating activities, prepayments and deposits from customers, short-term and long-term borrowings, and proceeds from equity or debt offerings. Our primary uses of funds have been production-related working capital, repayments of short-term and long-term borrowings and capital expenditures. Since 2004, we have required our customers to make deposits or

- 59 -

---

prepayments for purchases of alumina. As of December 31, 2007, the total amount of deposits and prepayments received amounted to RMB1,053 million. Our current assets amounted to RMB26,211 million at December 31, 2007, representing a decrease of RMB912 million as compared with RMB27,123 million at December 31, 2006.

As of December 31, 2007, our bank balances and cash amounted to RMB7,803 million, representing a decrease of RMB5,180 million as compared with RMB12,983 million as of December 31, 2006 mainly due to redemption of matured short-term bonds of RMB3,000 million and RMB2,000 million, respectively.

As of December 31, 2007, our inventories amounted to RMB13,474 million, representing an increase of RMB3,528 million as compared with RMB9,946 million as of December 31, 2006. Our days of inventory in 2007 were 74 days, representing an increase of 4 days as compared with 70 days in 2006, resulting from the increased reserve of minerals and the merger of Lanzhou Aluminum.

Our net accounts receivable amounted to RMB2,976 million, representing an increase of RMB694 million as compared with RMB2,282 million as of December 31, 2006. Of the accounts receivable, notes receivable increased from RMB1,735 million as of December 31, 2006 to RMB2,404 million, while trade receivables increased by RMB24 million from RMB548 million as of December 31, 2006 to RMB572 million. The revenue rate of trade receivables remained relatively unchanged at approximately 5.

As of December 31, 2007, our current liabilities amounted to RMB18,832 million, representing a decrease of RMB4,840 million as compared with RMB23,672 million at the end of 2006. Of the current liabilities, the total short-term loans decreased by RMB532 million to RMB3,115 million in 2007 from RMB3,647 million in 2006; short-term bonds amounted to RMB3,051 million, representing a decrease of RMB1,934 million as compared to the corresponding period in 2006; and accounts payable increased by RMB382 million while current income taxes payables and other current liabilities decreased by RMB1,223 million and RMB825 million, respectively.

In March 2007, we obtained Board approval to issue short-term bonds in the principal amount of not more than RMB5 billion and with a maturity period of one year, which was then approved by our shareholders at the Annual General Meeting held on May 18, 2007. On June 15, 2007, we issued domestic short-term bonds in the total principal amount of RMB3 billion to supplement our working capital. We have paid off the matured bonds on June 17, 2008.

A resolution relating to the issue of long-term corporate bonds by us in a principal amount not exceeding RMB5.0 billion was approved at our Special General Meeting held on February 27, 2007. On March 19, 2007, we received the requisite approvals and on June 13, 2007, we issued long-term corporate bonds with maturity of ten years in the principal amount of RMB2 billion. The bonds bear interest at a fixed rate of 4.50% per annum. The proceeds raised from the bonds issuance will be used mainly for renovation or expansion of our alumina and aluminum production facilities.

As a result of the foregoing, our net current assets amounted to RMB7,379 million as of December 31, 2007. This represented an increase of RMB3,928 million as compared to the net current assets of RMB3,451 million as of December 31, 2006.

As of December 31, 2007, our current ratio (current assets/current liabilities) was 1.39, representing an increase of 0.24 as compared to 1.15 as of December 31, 2006. Our quick ratio ((current assets - inventories)/current liabilities) was 0.68, representing a decrease of 0.05 as compared to 0.73 in 2006.

Our gearing ratio (net debts/total capital as defined in Note 3(c) to our audited consolidated financial statements) remained relatively stable at approximately 29.99% as of December 31, 2007 (2006: 28.34%).

Our ability to obtain additional external financing in the future and the cost of such financing are subject to a variety of uncertainties, including:

- \* obtaining PRC government approvals required to access domestic or international financing or to undertake any project involving significant capital investment, which, depending on the circumstances, may include one or more approvals from the NDRC, the State Administration of Foreign Exchange, the Ministry of Commerce and the China Securities Regulatory Commission;
- \* our future operating performances, financial condition and cash flows;
- \* the cost of financing and the condition of financial markets; and
- \* potential changes in monetary policy of the PRC government with respect to bank interest rates and lending practices.

If we fail to achieve timely rollover, extension or refinancing of our short-term debts, we may be unable to meet our obligations in connection with debt service, accounts payable and/or other liabilities when they become due and payable.

In light of our good credit standing and various domestic and overseas financing methods, we believe that there will be no difficulty in financing capital investments. Our capital expenditures and external investments are mainly financed by operating activities, long-term and short-term borrowings and additional shares placement.

#### Cash and Cash Equivalents

Our cash and cash equivalents as of December 31, 2007 amounted to RMB7,707 million, including Renminbi balances and foreign currency deposits of Hong Kong dollar, US\$, EURO and Australian dollar which were respectively translated to RMB128.28 million, RMB41.07 million, RMB32.41 million and RMB11.39 million. The following table sets forth, for the periods indicated, a condensed summary of our statement of cash flows:

	Years Ended December 31,

	<u>          </u>	<u>          </u>	<u>          </u>

(1) Represents profit before income tax expense and minority interest as adjusted for depreciation, loss on disposal of property, plant and equipment, interest income and interest expense, etc.

- 62 -

- (2) Represents (increase)/decrease in inventories, accounts receivable, other current assets, accounts payable and other payables and accruals, etc.

#### Net Cash Generated From Operating Activities

Cash from operations decreased by RMB3,970 million or 28.06% from RMB14,147 million in 2006 to RMB10,177 million in 2007. The decrease was primarily the result of our slightly decreased profit.

- \* centralize and simplify internal clearing and settlement procedures;
- \* utilize excess bank deposits to reduce bank borrowings; and
- \* improve the efficiency of our internal funds management.

#### Borrowings and Banking Facilities

- 63 -

Our net borrowings for the years ended December 31, 2005, 2006 and 2007 were as follows:

	As of December 31,			
	2005	2006	2007	2007

(1) Translated solely for the convenience of the reader into U.S. dollars at noon buying rate in New York City on December 31, 2007 for cable transfers in RMB by the Federal Reserve Bank of New York of US\$1.00 to RMB7.2946.

As of December 31, 2007, except for a long-term of approximately 736 million Japanese yen (or equivalent of RMB47.19 million) and a short-term loan of approximately US\$12 million (or equivalent of RMB85.8 million), all the other borrowings were denominated in RMB. Please also refer to Item 11 for details of interest rate structure disclosure of the borrowings above.

We had total bank balances and cash as of December 31, 2007 of RMB7,803 million, equivalent to US\$1,070 million. Additionally, we have a history of strong earnings and of generating significant cash inflows from our

continuous operating activities (cash generated from operating activities amounted to approximately RMB10,177 million, equivalent to US\$1,395 million for the year ended December 31, 2007). Our Directors are of the view that we will continue to be able to meet our borrowing payment obligations as they fall due from working capital generated from our operating activities. Additionally, our Directors do not foresee any events that may have an impact on our satisfaction of such obligations.

- 64 -

---

As of December 31, 2007, we had secured loans of RMB526 million (including short-term loans) and we, on a stand-alone basis, provided guarantees in respect of RMB2,087 million of long-term loans for our subsidiaries.

As of December 31, 2007, Chinalco guaranteed RMB300 million of our bank loans. The guarantees by Chinalco and its subsidiaries to various banks in respect of banking facilities and loans granted to third parties as of December 31, 2000 remained with Chinalco after our reorganization.

As of December 31, 2007, we had total banking facilities of RMB49,764 million. Out of the total banking facilities granted, amounts totaling RMB16,246 million have been utilized as of December 31, 2007. Approximately RMB31,000 million in bank facilities are subject to renewals in 2008. We believe that we will be able to renew these facilities when they expire.

In addition, as of December 31, 2007, we had credit facilities through our primary aluminum futures agent at the LME amounting to RMB387 million, in which RMB6 million has been utilized. The futures agent has the right to adjust the related credit facilities.

#### Foreign Exchange

We conduct our business primarily in Renminbi, which is also our functional and reporting currency. We convert a portion of our Renminbi revenue into other currencies to meet foreign currency financial obligations and to pay for imported equipment and materials. Under current foreign currency regulations in China, to meet these needs, we are permitted to convert Renminbi into the necessary foreign currencies at authorized banks based on a presentation of the relevant contracts. We may also borrow foreign currency loans from such banks for these purposes. To the extent that we need to obtain foreign currency funding for capital projects as defined under foreign exchange regulations, we would be required to obtain approval from the State Administration of Foreign Exchange. Transactions in foreign exchange are translated at exchange rates prevailing at the transaction dates. Monetary assets and liabilities expressed in foreign currencies at the balance sheet date are translated at exchange rates prevailing at the balance sheet date. Exchange differences arising in these cases are recognized as income or expense in the income statement.

Renminbi is not a freely convertible currency. The restrictions on foreign exchange imposed by the PRC government may result in material differences between future exchange rate and current exchange rate or historical exchange rate. The changes in the exchange rate of Renminbi will impact our ability to carry out operations relating to foreign exchange. Those changes will also impact our ability to pay dividends in HK dollars and to pay dividends of American Depository Shares in U.S. dollars. We believe that we are able to obtain sufficient foreign exchange to implement the above-mentioned obligations. In addition, our foreign currency denominated short-term bank deposits amounted to RMB309.2 million, of which RMB41.1 million was denominated in U.S. dollars, RMB107.4 million

was denominated in Australian dollars and RMB128.3 million was denominated in HK dollars. Most of our sales are domestic and, as such, we have a limited amount of foreign currency denominated accounts receivable. See "Item 11 - Quantitative and Qualitative Disclosures about Market Risk - Foreign Exchange Rate Risk". Our sources of foreign exchange include the H Shares placement, borrowings and funds converted from Renminbi. We do not anticipate that we will incur significant additional foreign currency debts in the near future.

We have been, and will continue to be, affected by changes in exchange rates in connection with our ability to meet our foreign currency obligations and will be affected by such changes in connection with our ability to pay dividends on H Shares in HK dollars and on ADSs in U.S. dollars. As of December 31, 2007, we maintained bank balances of US\$5.6 million, HK\$137.0 million, 16.8 million Australian dollars and 3.0 million euros or the equivalent of approximately RMB309.2 million for purposes of satisfying our foreign currency obligations and paying dividends to our overseas shareholders. We believe that we have obtained or will be able to obtain sufficient foreign exchange to continue to satisfy these obligations. We do not engage in any financial contract or other arrangement to hedge our currency exposure.

#### Impact of Appreciation of Renminbi

- 65 -

---

We believe that, given that the price of domestic alumina is determined by referring to the price of imported alumina, the appreciation of Renminbi will affect prices of the domestic spot market of alumina.

However, the appreciation of Renminbi will not have a significant impact on our operations because our import and export volume and foreign currency loans were minimal in 2007. From the perspective of production costs, the appreciation of Renminbi will, to some extent, decrease our competitiveness in the international market.

#### Inflation

According to the National Bureau of Statistics of China, China experienced inflation of 0.7% in 2001, deflation of 0.8% in 2002, inflation of 1.2%, 3.9%, 1.8%, 1.3% and 4.8% in 2003, 2004, 2005, 2006 and 2007, respectively. As a result, inflation in the PRC has not had a significant impact on our operating performances in recent years.

#### Trend Information

In 2007, China's GDP growth rate reached 11.4%. China's economy is expected to continue its strong growth in 2008, with increasingly important contribution from industrial growth. We expect the national demand for alumina and primary aluminum to grow in line with the nation's continuous economic growth. The development of the Chinese economy is expected to further support market prices of primary aluminum and alumina.

However, we will continue to face challenges in 2008, such as:

- \* an increase in production cost resulting from continued increases in prices of raw materials, fuel and power; and

- \* intensified domestic competition resulting from the cancellation of tax refund for primary aluminum export and the enhancement of the production capacity of alumina.

U.S. GAAP Reconciliation

Our financial statements are prepared in accordance with HKFRS, which differs in various material respects from U.S. GAAP. See Note 37 to our audited consolidated financial statements for details. The summary of differences involve management's estimates and assumptions which may affect the reported amounts of assets and liabilities, the disclosure regarding contingent assets and liabilities and revenues and expenses. These material differences, as they apply to our financial statements, relate primarily to the following:

- (a) Revaluation of property, plant and equipment
- (b) Amortization of goodwill
- (c) Unrecognized excess of interest in the net fair value of net assets acquired over cost
- (d) Revaluation of mining rights
- (e) Fair value of consideration on acquisitions
- (f) Acquisition of minority interest
- (g) Acquisition of Baotou Aluminum
- (h) Minority interest
- (i) Income tax effect of U.S. GAAP adjustments

Contractual obligations

The following table summarizes our contractual obligations and commercial commitments as of December 31, 2007:

- 66 -

---

Total	Payment due by period			
	2008	2009-2010	2011-2012	Thereafter

	RMB	RMB	RMB	RMB	RMB
	(in millions)				
Long-term debts	14,333.3	2,194.0	3,791.7	3,466.8	4,880.8
Long-term bonds	2,000.0	-	-	-	2,000.0
Interest payments	4,623.9	969.5	1,497.0	1,105.2	1,052.2
Operating leases	27,148.5	686.9	1,373.8	1,373.9	23,713.9
Capital commitment for					
property, plant and equipment	8,698.1	8,698.1	-	-	-
Commitments for capital contribution	550.4	550.4	-	-	-
<b>Total</b>	<b>57,354.2</b>	<b>13,098.9</b>	<b>6,662.5</b>	<b>5,945.9</b>	<b>31,646.9</b>

#### Capital Expenditures and Capital Commitments

The following table sets forth our capital expenditures by segment for the years ended 2005, 2006 and 2007, and the capital expenditures in each segment as a percentage of our total capital expenditures for such years.

Years Ended December 31,					
2005		2006		2007	
RMB	%	RMB	%	RMB	%
(in millions, except percentages)					

- 67 -

Alumina	5,312.9	57.8	3,462.9	27.0	4,634.9	25.6
Primary aluminum	3,621.0	39.4	8,567.3	66.7	12,507.3	69.0
Corporate and other services	124.8	1.4	120.3	1.0	493.7	2.7

Unallocated	<u>129.6</u>	<u>1.4</u>	<u>682.0</u>	<u>5.3</u>	<u>498.0</u>	<u>2.7</u>
Total	<u>9,188.3</u>	<u>100.0</u>	<u>12,832.5</u>	<u>100.0</u>	<u>18,133.9</u>	<u>100.0</u>

In 2007, we spent approximately 94.6% of our capital expenditure to improve our alumina and primary aluminum production capacity.

- \* We used RMB4,634.9 million of our alumina segment expenditures: (i) to expand our alumina production capacity; (ii) to undertake technological improvements to our alumina production processes and facilities and (iii) for the Guizhou branch project to improve the control on environment protection.
- \* We used RMB12,507.3 million to expand our primary aluminum production capacity of primary aluminum smelters, such as Lanzhou Aluminum.

In 2008, we expect to use approximately RMB20,600 million for technology upgrade and acquisition of new plants; of this amount, we expect to use approximately RMB8,710.0 million for our alumina project, approximately RMB7,180.0 million for our primary aluminum projects and approximately RMB4,180.0 million for acquisition of new plants.

Our capacity expansion plan reflects our focus on completion of our production chain, which consists of mining operation, alumina production operation and primary aluminum production operation, to take advantage of our market position in China. In addition, we continually evaluate acquisition and joint venture opportunities and may take advantage of these opportunities if we determine that it is in our and our shareholders' best interests. We expect that our alumina and primary aluminum production capacity will reach approximately 11.1 million and 3.9 million tonnes, respectively, by the end of 2008.

These are our current plans with respect to our capital expenditures. They may change as circumstances change, and may be modified as our business plans evolve. Other than as required by law, we do not undertake any obligation to publish updates of our plans.

As of December 31, 2007, our capital commitments relating to investments in property, plant and equipment amounted to RMB27,355 million, of which those contracted but not provided for amounted to RMB8,698 million and those authorized and not contracted amounted to RMB18,657 million. Our external investment commitments amounted to RMB550 million, mainly attributable to the establishment of Chalco Zunyi. Our investment in construction and upgrade of technology as well as external investment and acquisition improved our capacity and output of alumina and primary aluminum.

We expect to use operating cash flow in meeting such commitments with the shortfall be satisfied by bank loans and short-term and long-term bonds.

---

## Research and Development

Our department of science and technology coordinates the research and development efforts undertaken at our Research Institute and technology centers at our plants. The Research Institute, the only organization in China dedicated to aluminum research, is responsible for the research and development of technologies and associated projects that are applied at our relevant plants. The technology centers at our plants focus on providing engineering solutions to, and technological application of, research and development efforts. Each of the plants also conducts operational testing and pilot experimentation relating to various research and development topics. Although we collaborate with universities and other research institutions in China on some of our projects, we generally do not outsource our research and development.

Our total expenditure for research and development was approximately RMB114.6 million, RMB116.4 million and RMB228.0 million for 2005, 2006 and 2007, respectively.

## ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

All of our Directors and Supervisors are elected for a three-year term. At the expiry of the term of office, the term is renewable upon re-election. Each of our Directors and Supervisors has entered into a service contract with us for a term of three years. The service contract is not terminable by us within one year without payment of compensation (other than statutory compensation). There were no arrangements providing for benefits upon termination of our Directors, Supervisors or other senior management personnel.

In addition to Director's fees, our Directors are entitled to performance bonuses. The Executive Directors are also entitled to the welfare benefits provided under the relevant PRC laws and regulations.

### Directors

An election of the Board was conducted at the 2006 Annual General Meeting held on May 18, 2007. The third session of the Board consisted of nine Directors, with four Executive Directors, namely Mr. Xiao Yaqing, Mr. Luo Jianchuan, Mr. Chen Jihua and Mr. Liu Xiangmin, two Non-Executive Directors, namely Mr. Shi Chungui, and Mr. Helmut Wieser (resigned from the position of Non-Executive Director on September 17, 2007 as Alcoa Inc. sold all its shares in the Company), and three Independent Non-Executive Directors, namely Mr. Poon Yiu Kin, Samuel (resigned from the position of Independent Non-Executive Director on May 9, 2008), Mr. Kang Yi and Mr. Zhang Zhuoyuan. Mr. Xiao Yaqing is Chairman and Chief Executive Officer (CEO). On May 9, 2008, Mr. Wang Mengkui and Mr. Zhu Demiao were elected to be our Independent Non-Executive Directors.

The term of Directors' service is three years. The business address of each of our directors is No. 62 North Xizhimen Street, Hai Dian District, Beijing, People's Republic of China, 100082.

We follow our home country practice in relation to the composition of our Board of Directors in reliance on the exemption provided under Section 303A.00 of the NYSE Corporate Governance Rules available to foreign private

issuers. Our home country practice does not require a majority of directors of a listed company to be Independent Directors. As such, the majority of our Directors are not independent within the meaning of NYSE Corporate Governance Rules.

The table and discussion below set forth information concerning our directors as of December 31, 2007.

- 69 -

---

Name	Age	Positions with the Company
Executive Directors		
Xiao Yaqing	49	Chairman of the Board of Directors and Chief Executive Officer
Luo Jianchuan	45	Director and President

Non-executive Directors		
Shi Chungui	68	Director
Independent Non-executive Directors		
Poon Yiu Kin, Samuel	49	Independent Director
Kang Yi	68	Independent Director
Zhang Zhuoyuan	74	Independent Director

We appointed two new Independent Non-Executive Directors at our Annual General Meeting held on May 9, 2008. The table and discussion below set forth information concerning our Directors as of June 23, 2008:

Name	Age	Positions with the Company
------	-----	----------------------------

- 70 -

## Executive Directors

Xiao Yaqing	49	Chairman of the board of directors and Chief Executive Officer
Luo Jianchuan	45	Director and President
Chen Jihua	40	Director, Vice President and Chief Financial Officer
Liu Xiangmin	46	Director and Vice President

## Non-executive Directors

Shi Chungui	68	Director
-------------	----	----------

## Independent Non-executive Directors

Kang Yi	68	Independent Director
Zhang Zhuoyuan	74	Independent Director
Wang Mengkui	70	Independent Director
Zhu Demiao	44	Independent Director

## Executive Directors

Xiao Yaqing,

aged 49, is the Chairman of the Board, Chief Executive Officer of the Company, the Chairman of the Nomination Committee of the Board and is also the President of Aluminum Corporation of China. He has been employed by the Company since 2004. Mr. Xiao graduated from Central South University of Industry in 1982 majoring in pressure processing and holds a doctorate degree from Central South University of Industry. Mr. Xiao is a professor-grade senior engineer. Having engaged in such fields as metallic material research, production and corporate management, and capital operation for a long time, Mr. Xiao has outstanding achievement as well as extensive practical experience and eminent operating competence. He formerly served as an engineer, department head, deputy chief engineer and chief engineer of Northeast Light Alloy Fabrication Plant. He had also served as General Manager of Northeast Light Alloy Corporation Limited, the plant manager of Southwest Aluminum Fabrication Plant, Chairman and General Manager of Southwest Aluminum (Group) Co., Ltd. and Deputy President of Aluminum Corporation of China.

Luo Jianchuan,

aged 45, is an Executive Director and President of the Company as well as the Chairman of Development Planning Committee of the Board. He has been employed by the Company since 2001. Mr. Luo graduated from Kunming University of Science and Technology in 1985 majoring in mining, holds a doctorate degree from Central South University of Industry and is a senior engineer. He has participated in nonferrous metal trading and corporate management for a long period of time, and thus has extensive professional experience and strong management skill in those fields. Mr. Luo formerly served as an engineer of the Lead and Zinc Bureau of China Non-ferrous Metals Industry Corporation, Manager of Haikou Nanxin Industry & Commerce Corporation, Assistant to General Manager of Jinpeng Mining Development Corporation, Deputy General Manager and General Manager of Beijing Xinquan Tech-trading Corporation, Assistant to General Manager of China Non-Ferrous Metals Industry Trading Group Corporation, Deputy Chief of the Trading Division of China Copper, Lead & Zinc Group Corporation, General Manager of China Aluminum International Trading Corporation Limited, General Manager of the Operations and Sales Division, Vice President and Senior Vice President of the Company.

- 71 -

---

Chen Jihua,

aged 40, is an Executive Director, Vice President and the Chief Financial Officer of the Company. Mr. Chen has been employed by the Company since 2001. He holds a Master's degree from Central University of Finance and Economics. He has engaged in corporate and financial management for a long time and accumulated extensive and professional experience. He formerly served as Executive Manager of the International Finance Department of China Chengxin Securities Appraisal Company Limited, Financial Controller of Red Bull Vitamin Beverages Company Limited, Regional (China) Financial Controller of Saudi Arabia ALJ (China) Limited, Financial Controller of Jitong Network Communications Company Limited, the Assistant to the President of Aluminum Corporation of China and General Manager of the Company's Finance Department.

Liu Xiangmin,

aged 46, is an Executive Director and Vice President of the Company and has been employed by the Company since 2001. Mr. Liu graduated from Central South University of Industry in 1982, majoring in non-ferrous metal science and holds a doctorate degree in Central South University of Industry. He is a professor-grade senior engineer and has participated in non-ferrous metal metallurgy and corporate management for a long term and accumulated extensive and professional experience. Mr. Liu previously served as Deputy Head and Head of the Alumina branch of Zhongzhou Aluminum Plant, Deputy Head of Zhongzhou Aluminum Plant, and General Manager of Zhongzhou branch of the Company.

Non-Executive Directors

Shi Chungui,

aged 68, is a Non-executive Director of the Company and a member of the Expert Advisory Committee of China Cinda Asset Management Corporation. He has been employed by the Company since 2005. He graduated from Northeast University of Finance and Economics and majoring in accounting in 1964. Mr. Shi is a senior economist with extensive experience in finance, government and corporate management. Mr. Shi was previously Head of Commerce Bureau of Qinhuangdao City, Hebei Province, the Standing Deputy Mayor of Qinhuangdao City, Hebei

Province, President of Hebei Branch of China Construction Bank, President of Beijing Branch of China Construction Bank, Deputy President of the Head Office of China Construction Bank and Deputy President of China Cinda Asset Management Corporation.

Independent Non-Executive Directors

- 72 -

---

Kang Yi,

aged 68, is an Independent Non-Executive Director and the Chairman of the Remuneration Committee of the Company. Mr. Kang has served as an Independent Non-Executive Director of the Company since 2004. Mr. Kang graduated from Central South University of Industry in 1965 majoring in the metallurgy of non-ferrous metals. He is a professor-grade senior engineer and has engaged in corporate management and civil service for a long term. Mr. Kang has extensive experience and is currently Chairman of the China Nonferrous Metals Industry Association. He is also a member of the China Association for Science and Technology, Chairman of Non-ferrous Metals Society of China and an Independent Non-Executive Director of Jiangxi Copper Company Limited. Mr. Kang once served as factory manager of Qingtongxia Aluminum Plant, Head of the Economic Committee of Ningxia Hui Autonomous Region, Deputy General Manager of China Non-ferrous Metals Industry Corporation, Deputy Head of the State Non-ferrous Metals Industry Bureau and a member of the previous session of National Committee of the Chinese People's Political Consultative Conference ("CPPCC").

Zhang Zhuoyuan,

aged 74, is an Independent Non-Executive Director of the Company. He is a member of the Chinese Academy of Social Sciences and a researcher of Institute of Economics. Mr. Zhang graduated from the Faculty of Economics of Zhongnan University of Economics and has achieved extensive and professional accomplishment in such aspects as political economy, price theory and marketing. Mr. Zhang had consecutively served as the director and researcher of the Institute of Finance, Trade and Economics of Chinese Academy of Social Sciences, the chief editor of "Finance & Trade Economics" and a tutor of doctorate students, director, researcher and tutor of doctorate students of the Institute of Industrial Economics of Chinese Academy of Social Sciences, director, researcher and tutor of doctorate students of the Institute of Economics of Chinese Academy of Social Sciences. He is the chief editor of Economics Research Journal. Mr. Zhang is also a member of the Ninth and Tenth Sessions of CPPCC, deputy director of China Association of Pricing, China Society of Urban Economy and Chinese Society for Urban Studies, director of Chinese Society for Cost Studies and Secretary-General of Foundation of Sun Ye Fang Economics and Science. Mr. Zhang is also currently an Independent Director of Jiangnan Securities Co.Ltd.

Wang Mengkui,

aged 70, was elected as an Independent Nonexecutive Director of the Company on May 9, 2008. Mr. Wang is an economist. He graduated from School of Economics, Beijing University. He is a professor and doctor advisor of Beijing University. He has engaged in long-term on economic theory analysis and economic policy and he is experienced in economic theory and practice. He had served in the magazine "Red Flag" and First Ministry of Machine Building Industry and served as a vice head and researcher of the economic team of the research office of the Secretariat of the CPC Central Committee, the governing member of the State Development and Planning

Commission, the executive vice director of economic research centre of the State Development and Planning Commission, the vice director and director of the Development Research Center of the State Council. He also served as a member of the tenth Standing Committee of NPC, the vice director of Financial and Economic Affairs Committee of NPC. He has participated in the drafting of many important documents of China's government, and took charge of various important research topics such as national economic and social development and economic system reform. He has many publications in economics and other areas.

Zhu Demiao,

aged 44, was elected as an Independent Nonexecutive Director of the Company on May 9 2008. Zhu Demiao is the managing director of Oaktree Capital (Hong Kong) Ltd. He graduated from the University of Chicago GSB with a MBA degree, and obtained a master's degree in economics from the Research Institute for Fiscal Science, Ministry of Finance, PRC and obtained a bachelor's degree in economics from Hebei Geological Institute. Mr. Zhu is a PRC Certified Public Accountant. He has extensive experience in finance and international capital market. He had participated in financing, auditing and consultation project in several multinational companies as well as merger and acquisition project of large scale enterprises. Mr. Zhu served as the managing director, member of executive committee of Asia-pacific region and chairman of operation committee of great China region of JP Morgan Chase & Co. and served as the head of China business in equity capital market department and the investment bank department of Credit Suisse First Boston. He also worked in the investment analysis department of the FMC Corporation in Chicago, and served in the Ministry of Finance, PRC.

#### Supervisors

Our supervisors are elected to represent our employees and shareholders and serve a term of three years or until the election of their respective successors. Mr. Luo Tao and Mr. Ou Xiaowu resigned as Chairman of the Supervisory Committee and Supervisor of the Company, respectively, with effect from August 23, 2006, and Mr. Ao Hong and Mr. Zhang Zhankui were appointed as Chairman of the Supervisory Committee and Supervisor respectively at the Extraordinary General Meeting on October 13, 2006. On May 18, 2007, Mr. Ao Hong, Mr. Yuanli and Mr. Zhang Zhankui were elected to renew their terms of office.

The supervisors convened two meetings in 2007. The table and discussion below set forth certain information concerning our supervisors.

Name	Age	Positions with the Company
Ao Hong	47	Chairman of Supervisor Committee
Yuan Li	50	Supervisor (employee representative), General Manager of Corporate Culture Department of the Company

Zhang Zhankui                      50                      Supervisor

Ao Hong,

aged 47, is currently a Vice President of Aluminum Corporation of China. Mr. Ao graduated from Kunming University of Science and Technology majoring in Metallurgy. He holds a Master degree from Central South University and is a professor-grade senior engineer with extensive experience in non-ferrous metals research, corporate management, corporate governance and internal control. Mr. Ao formerly served as an engineer, senior engineer, Head of General Office and Vice Chairman of Beijing General Research Institute for Non-ferrous Metals, Chairman of GRINM Semiconductor Materials Co., Ltd., Guorui Electronic Materials Co., Ltd., Beijing Guojing Infrared Optical Technology Co., Ltd., Guowei Silver Anticorrosive Materials Company and Guo Jing Micro-electronic Holdings Ltd. in Hong Kong, respectively.

Yuan Li,

aged 50, is a Supervisor elected as the employee representative of the Company and a General Manager of the Corporate Culture Department of the Company. Mr. Yuan has been employed by the Company since 2001. He is an engineer with extensive administrative and managerial experience. He formerly served as a Manager and Deputy Head of the General Management Office of China Non-ferrous Metals Industry Corporation, Head of the Department of Research and Investigation as well as Head of the Secretariat and an assistant inspector of the State Bureau of Nonferrous Metals Industry and the Deputy Head of the Department of Political Affairs and the Head of the Community Union Working Department of Aluminum Corporation of China.

Zhang Zhankui,

aged 50, is Deputy Head of the Finance Department of Aluminum Corporation of China. Mr. Zhang is a postgraduate researcher in economic management and a senior accountant. He has extensive experience in corporate financial accounting, fund management and auditing. Mr. Zhang formerly served as Head of the Finance Division and then Head of the Audit Division of China General Design Institute for Non-ferrous Metals, Deputy General Manager of Beijing Enfei Tech-industry Group, Head of the Accounting Division of the Finance Department and Deputy Head of the Finance Department of China Copper Lead & Zinc Group Corporation, manager of the Asset and Finance of the Listing Office of Chinalco and Head of the Fund Division of the Finance Department of Chinalco and manager of the General Division of the Finance Department of the Company.

#### Other Senior Management Personnel

The table and discussion below set forth certain information concerning other senior management personnel.

Name	Age	Positions with the Company
Ding Haiyan	50	Vice President
Jiang Yinggang	45	Vice President
Liu Qiang	44	Secretary to the Board

Ding Haiyan,

aged 50, is Vice President of the Company and has been employed by the Company since 2001. Graduating from Capital University of Economics and Business in 1982 majoring in Labor Economics, Mr. Ding holds a Master's degree in Economics and is a senior economist with extensive experience in labor, wages, insurance, merger and acquisition of enterprises and capital operation. He once served as Head of Labor Wage Division of the Human Resource Department and Deputy Director of the Bureau of Labor and Insurance of China Nonferrous Metals Industry Corporation, the Deputy Director-General of the Enterprise Reform Department of the State Bureau of Non-ferrous Metals Industry as well as Head Manager of the Department of Asset Operation, Deputy Head of the Listing Office and Assistant to President of Aluminum Corporation of China, and was an Executive Director and the Secretary of the Board of the Company.

- 74 -

---

Jiang Yinggang,

aged 45, is Vice President of the Company and General Manager of Qinghai branch of the Company. Graduating in 1983 from Central South University of Industry majoring in the metallurgy of non-ferrous metals, Mr. Jiang holds a Master's degree in metallurgy engineering of non-ferrous metals and is a professor-grade senior engineer. He has participated in production operation and corporate management of production enterprises for a long period of time and has extensive professional experience. He has served as Deputy Head and Head of Corporate Management Department of Qinghai Aluminum Plant, Head of Qinghai Aluminum Smelter, Deputy General Manager and General Manager of Qinghai Aluminum Company Limited, and General Manager of Qinghai branch of the Company.

Liu Qiang,

aged 44, is Secretary to the Board and has been employed by the Company since 2001. Ms. Liu holds a Master's degree in English literature and is a deputy senior translator. She studied finance and business administration at the University of International Business and Economics, Beijing for one year. Ms. Liu has extensive experience in the import and export of non-ferrous metals and analysis of the aluminum market. She once served in the finance department of Hong Kong Oriental Xiyuan (Holdings) Company Limited. Ms. Liu formerly served as Manager of the finance department of the Australian branch of China National Non-Ferrous Metals Import and Export Corporation; a senior market analyst for the Aluminum Industry in China National Non-Ferrous Metals Trading Group and China National Metals and Minerals Import and Export Corporation as well as Deputy Manager of the Import and Export Division of China Aluminum International Trading Co., Ltd.

Audit Committee

On May 9, 2008, Mr. Poon Yiu Kin, Samuel, former Chairman of the audit committee, resigned from the position of Independent Non-Executive Director and Mr. Wang Mengkui and Mr. Zhu Demiao were elected as new Independent Non-Executive Directors. Currently, our audit committee consists of four Independent Non-Executive Directors, namely, Mr. Wang Mengkui, Mr. Zhu Demiao, Mr. Kang Yi and Mr. Zhang Zhuoyuan. Mr. Zhu Demiao is Chairman of the audit committee. Our audit committee satisfies the requirements of Rule 10A-3 of the Exchange Act and NYSE Rule 303A.06 relating to audit committees, including the requirements relating to independence of the audit

committee members. The primary duties of our audit committee as set out in the committee charter are to review our annual and interim financial reports, review and approve the selection of and remuneration paid to our independent auditors, approve audit and audit-related services, approve related party transactions, supervise our internal financial reporting process, including our internal controls and disclosure controls and procedures, supervise our internal and external auditors, and review management policies. The audit committee convened four meetings in 2007.

#### Remuneration Committee

We established a Remuneration and Nomination Committee under the Board. At the first meeting of the Third Session of the Board held on May 18, 2007, Remuneration and Nomination Committee was divided into two committees, namely Remuneration Committee and Nomination Committee. On May 9, 2008, Mr. Poon Yiu Kin, Samuel, resigned from the position of independent non-executive director and Mr. Wang, Mengkui and Mr. Zhu, Demiao were elected as new members of the remuneration committee. Currently, our remuneration committee consists of one Executive Director, namely Mr. Chen Jihua and two Independent Non-Executive Directors, Mr. Kang Yi, and Mr. Zhang Zhuoyuan. Mr. Kang Yi serves as the Chairman of the Committee.

Committee members' responsibilities as set out in the committee charter include reviewing compensation policies and performance appraisals with respect to the Directors and senior management, reviewing the regulations of assessment of achievement and performance of Executive Directors and senior managers. In 2007, Remuneration Committee convened one meeting, mainly focusing on the withdrawal of discretionary bonus of the Company's Directors, Supervisors and Senior Management, and the proposal in relation to liability insurance of the Company's Directors, Supervisors and Senior Management.

#### Nomination Committee

We established a Remuneration and Nomination Committee under the Board. At the first meeting of the Third Session of the Board held on May 18, 2007, Remuneration and Nomination Committee was divided into two committees, namely Remuneration Committee and Nomination Committee. On May 9, 2008, Mr. Poon Yiu Kin, Samuel, resigned from the position of Independent Non-Executive Director. Currently, the nomination committee consists of two Executive Directors, namely Mr. Xiao Yaqing and Mr. Luo Jianchuan and two Independent Non-executive Directors, Mr. Kang Yi, and Mr. Zhang Zhuoyuan. Mr. Xiao Yaqing serves as the Chairman of the Committee.

Committee members' responsibilities as set out in the committee charter include reviewing and

- 75 -

---

recommending selection of Independent Directors and members of the committees under the Board of Directors, approving the terms of Directors service contracts, and the appointment and removal of senior executives. In 2007, the Committee convened two meetings, mainly focusing on nomination of candidates for the Chief Executive Officer, President and Secretary of the Board of our Company and other members of the Board.

We follow our home country practice in relation to the composition of our nomination committee in reliance on the exemption provided under NYSE Corporate Governance Rule 303A.00 available to foreign private issuers. Our home

country practice does not require us to establish a nomination committee which must be composed entirely of independent directors.

#### Planning and Development Committee

We have established a strategic planning and development committee which consists of Executive Directors, Mr. Luo Jianchuan, Mr. Liu Xiangmin, Mr. Ding Haiyan, Mr. Yu Xin Xing and Mr. Xie Hong. Mr. Luo Jianchuan was Chairman of the Committee. In accordance with the committee charter, the committee reviews and assesses our strategic plans for development, fiscal budgeting, investment, business operations and annual rates of return on investments.

#### Disclosure Committee

Our disclosure committee consists of the Chief Executive Officer, the Chief Financial Officer and other senior management members. Our Chief Executive Officer and Chief Financial Officer serve as the Chairman and Vice Chairman of the committee, respectively. The committee implements our disclosure controls and procedures and reviews information disclosed to ensure accurate, open and timely disclosure. All discloseable information (including annual and interim results) shall be subject to the approval of the Company's Disclosure Committee with the Chief Executive Officer as its Chairman. For the purpose of discloseable financial statements and the relevant information, the Chief Financial Officer shall confirm that the Company's results and financial position have been reflected on a true and fair basis under relevant accounting principles and requirements.

#### Compensation

##### Directors', Supervisors' and Senior Officers' Compensation

The aggregate amount of cash compensation paid by us to our Directors (not including our Independent Directors), Supervisors and senior management in 2007 for services performed as Directors, Supervisors and officers or employees of our Company was approximately RMB7.1 million. The aggregate amount of cash compensation paid by us to our Supervisors and senior management in 2007 was approximately RMB0.6 million and RMB1.8 million, respectively. Our Executive Directors and Supervisors who are employees also receive compensation in the form of housing allowances, other allowances and benefits, as well as our contribution to the pension plans. Directors and Supervisors who are not employed by us receive fees for their services. We have entered into three-year service contracts with all of our Directors and Supervisors. None of these service contracts provides benefits to our Directors upon termination.

Details of the emoluments paid to the Company's Directors during the reporting period are as follows:

For the year ended December 31, 2007

Name of Director	Fees RMB'000	Salary RMB'000	Discretionary bonus RMB'000	Employer's contribution to retirement schemes	Total RMB'000
				RMB'000

(1) Mr. Zhang Chengzhong was appointed as an Executive Director of the Company on October 13, 2006 and resigned on May 18, 2007.

(2) Mr. Joseph C Muscari resigned from his office as a Non-Executive Director of the Company on May 18, 2007.

(3) Mr. Wang Dianzuo resigned from his office as a Non-Executive Director of the Company on May 18, 2007.

(4) Mr. Poon Yiu Kin, Samuel resigned from the position of Independent Non-Executive Director on May 9, 2008.

(5) Mr. Helmut Wieser resigned from the position of Non-Executive Director

on September 17, 2007.

### Senior Management Incentive System

In order to better provide incentives for our senior management and improve our shareholders' value, we adopted a special compensation system for our senior management designed to link our senior management's financial interests with our operating performances. Under this system, the senior management's compensation consists of the following components:

- \* basic salaries;
- \* performance bonuses; and
- \* incentive bonuses.

### Board Practices

#### Board of Directors

An election of the Board was conducted at the 2006 Annual General meeting held on May 18, 2007. The third session Board consisted of nine Directors, with four Executive Directors, namely Mr. Xiao Yaqing, Mr. Luo Jianchuan, Mr. Chen Jihua and Mr. Liu Xiangmin, two Non-executive Directors, namely Mr. Shi Chungui and Mr. Helmut Wieser (resigned from the position of Non-Executive Director on September 17, 2007 as Alcoa Inc. sold all its shares in the Company), and three Independent Non-executive Directors, namely Mr. Poon Yiu Kin, Samuel, Mr. Kang Yi and Mr. Zhang Zhuoyuan. Mr. Xiao Yaqing is Chairman and Chief Executive Officer ("CEO").

Mr. Helmut Wieser resigned from the position of Non-Executive Director on September 17, 2007 as Alcoa Inc. sold all its shares in our Company. Mr. Poon Yiu Kin, Samuel, resigned from the position of Independent Non-Executive Director and Mr. Zhu Demiao and Mr. Wang Mengkui were elected as new Independent Non-Executive Director at the Annual General Meeting held on May 9, 2008.

- 77 -

---

### Supervisory Committee

We have a supervisory committee composed of three Supervisors. Supervisors serve a term of three years. Upon the expiration of their terms of office, they may be reappointed to serve consecutive terms. The Supervisory Committee is presided over by a chairman who may be elected or removed with the consent of two-thirds or more of the members of the Supervisory Committee. The term of office of the Chairman is three years, renewable upon re-election. The Supervisory Committee of the Company consists of three members, with one Supervisor being elected from the staff as a representative of the employees. Members of the Supervisory Committee may also observe meetings of the Board of Directors. Our current Supervisory Committee was appointed at the Annual General

Meeting held on May 18, 2007, and Mr. Ao Hong and Mr. Zhang Zhankui have been re-elected as Chairman of the Supervisory Committee and Supervisor, respectively. In the election of staff representatives held in the same month, Mr. Yuan Li was re-elected as the staff representative Supervisor of the Third Session of the Supervisory Committee.

Supervisors attend board meetings as non-voting members. The Supervisory Committee is responsible to the shareholders' general meeting and has the following duties and responsibilities:

- \* to supervise our handling of our financial matters;
- \* to supervise any acts of directors, the general manager, deputy general manager and other senior officers that are in violation of laws, administrative regulations or our Articles of Association;
- \* to request Directors, the general manager, deputy general manager and other senior officers to rectify their acts that are detrimental to the interests of Chalco;
- \* to verify such financial information as financial reports, business reports and profit distribution plans submitted by the board of directors to the shareholders' general meeting, and arrange certified public accountants and auditors to verify issues;
- \* to propose to convene interim shareholders' general meetings; and
- \* to bring lawsuits against Directors on behalf of Chalco.

#### Audit Committee

See "Item 6. Directors, Senior Management and Employees - Audit Committee".

#### Employees

As of December 31, 2005, 2006 and 2007, we had a total of approximately 68,200, 88,004 and 94,269 employees, respectively.

The table below sets forth the number of our employees by function as of the period indicated:

As of December 31,

(1) Baotou Aluminum was acquired by us in December 2007 and the employees of Baotou Aluminum were not included.

We have workers' unions at the plant level that protect employees' rights and welfare benefits, organize educational programs, encourage employee participation in management decisions, and assist in mediating disputes between individual employees and us. All employees are union members. We have not been subjected to any strikes or other labor disturbances that have interfered with our operations, and we believe that we have good relationships with our employees.

The remuneration package of our employees includes salary, bonuses and allowances. Employees also receive welfare benefits including medical care, housing subsidies, childcare and education, retirement and other miscellaneous items.

In accordance with applicable PRC regulations, we participate in pension contribution plans organized by provincial and municipal governments, under which each of our plants is required to contribute an amount equal to a specified percentage of the sum of its employees' salaries, bonuses and various allowances. The amount of contribution as a percentage of the employees' salary is, on average, approximately 20.0% depending in part on the location of the plant and the average age of the employees. We have made all required pension contributions up to December 31, 2007. Retirees who retired prior to the date of the reorganization will have their pensions paid out of the pension plans established by the PRC government. We have also introduced a new employee incentive plan which includes performance bonuses for our employees. We provide to our employees various social welfare benefits through hospitals, schools, retirement homes and other institutions owned by Chinalco and its other affiliates or through third parties.

#### Share Ownership

None of our Directors, Supervisors or senior management owns any interest in any shares or options to purchase our shares.

#### ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS

##### Major Shareholders

We are a joint stock limited company organized under the laws of the PRC. Our parent company, Chinalco, a state-owned enterprise, currently owned 38.56% of our outstanding common shares and is our largest shareholder. Chinalco holds a significant portion of our domestic shares in the form of state legal person shares and can exercise all rights as our controlling shareholder according to the relevant laws, rules and regulations. Chinalco has substantial influence over our management and policies and corporate actions, not only in its capacity as the largest shareholder, but also because our Chairman holds senior management positions with Chinalco and Chinalco has nominated two of the three members of our Supervisor Committee. Approximately 39.72% of our total outstanding common shares are held by public holders, with 29.15% and 10.57% owned by public holders of H Shares and public holders of A Shares, respectively.

The following table sets forth information regarding ownership of our issued and outstanding capital stock as of December 31, 2007. The table includes all persons who are known by us to own, either as beneficial owners or holders of record, five percent or more of our capital stock.

	As of December 31, 2007	
Holder of Domestic Shares and H Shares	No. of shares	Approximate % of issued share capital
	(in millions)	

- 81 -

---

 Holders of Domestic Shares

Chinalco	5,214.41	38.56
China Cinda Asset Management Corporation	900.56	6.65
China Construction Bank Corporation	709.77	5.24
Other public holders of A Shares	2,755.78	20.40

## Holders of H Shares

Templeton Asset Management Corporation	716.73	5.30
J.P. Morgan Fleming Asset Management Holdings Inc. <sup>(1)</sup>	249.02	1.84
Other H shares Holders	2,978.22	22.01
Total	13,524.49	100.00

(1) These H shares were held by J.P. Morgan Fleming Asset Management Holdings Inc. through its controlled corporations, of which 237,364,000 H Shares were held directly by JF Asset Management Limited in the capacity of investment manager and 11,660,000 H Shares were held directly by JF International Management Inc.

We are not aware of any arrangement that may at a subsequent date result in a change of control of Chalco.

On May 9, 2006, we placed 644,100,000 H Shares in the share capital of our Company at a price of HK\$7.25 per H Share ("Placing Shares"). The Placing Shares comprise (i) 600,000,000 new H Shares to be allotted and issued by the Company and (ii) 44,100,000 H Shares to be converted from the same number of existing State-owned domestic shares that are to be allocated from Chinalco to the National Social Security Fund Council (the "NSSF") of the PRC, in reliance upon Regulation S under the U.S. Securities Act of 1933. The Placing Shares represent approximately 5.83% of then issued share capital of our Company and approximately 5.53% of then issued share capital of our Company as enlarged by the issuance of the new H Shares. The Placing shares were listed on the Hong Kong Stock Exchange on May 19, 2006.

On April 30, 2007, dealings in the A Shares on the Shanghai Stock Exchange commenced. We initially offered 1,236,731,739 A Shares in exchange for the existing issued shares of Shandong Aluminum and Lanzhou Aluminum, other than those held by us. Our total share capital increased to 12,886.6 million shares from 11,649.9 million shares.

On December 28, 2007, we offered 637,880,000 A Shares in exchange for the existing issued shares of Baotou Aluminum, resulting in the total share capital of the Company increasing by 637,880,000 shares to 13,524,487,892 shares.

To the best of our knowledge, as of December 31, 2007, none of the outstanding H Shares was held by United States holders of record, and all of the outstanding ADSs were held by 96 United States holders of record. There were no non-PRC holders holding A Shares of record. Our ADS ratio changed from one (1) ADS representing one hundred (100) H Shares to one (1) ADS representing twenty-five (25) H Shares. The ratio change is effected with respect to

- 82 -

---

the holders of ADSs of record on October 6, 2006. The new ADSs have been distributed to the holders of ADSs on October 11, 2006.

As an owner of at least 30% of our issued and outstanding shares, the parent company is deemed a controlling shareholder and therefore may not exercise its voting rights relating to our shares with respect to various matters in a manner prejudicial to the interests of our other shareholders. See "Item 10. Additional Information - Memorandum and Articles of Association". In accordance with our Articles of Association, each share of our capital stock has one vote and the shares of the same class have the same rights. Other than the restrictions noted in the first sentence of this paragraph, the voting rights of our major holders of domestic shares are identical to those of any other holders of our domestic shares, and the voting rights of our major holders of H Shares are identical to those of our other holders of H Shares. Holders of domestic shares and H Shares are deemed to be shareholders of different classes for some matters, which may affect their respective interests. Holders of H Shares and domestic shares are entitled to the same voting rights.

#### Related Party Transactions

#### Connected Transactions under Hong Kong Listing Rules

Under the HKSE Listing Rules, transactions between connected persons and us constitute connected transactions and such transactions are normally subject to reporting, announcement and/or shareholders' approval unless otherwise waived by the Hong Kong Stock Exchange. Under the HKSE Listing Rules, Chinalco, Guangxi Baise, Guizhou Development and Shanxi Zhangze, are considered our connected persons. According to certain waivers granted by the Hong Kong Stock Exchange on December 22, 2003, our Independent Non-executive Directors must review and certify annually that the contracts entered into between our connected persons and us are based on normal commercial terms that are fair and reasonable. Commencing on June 7, 2004, our Audit Committee pre-approves related-party transactions in accordance with the NYSE Listing Rules. The following transactions are exempted from the strict compliance of the requirements under the Listing Rules in relation to connected transactions, subject to certain conditions as stated in the waiver letter issued by the Hong Kong Stock Exchange.

Although connected transactions are not synonymous with related party transactions, the concepts are sufficiently similar that the following description of our connected transactions would satisfy the disclosure requirements under U.S. securities laws. See the table below for a list of the amounts paid under such transactions for the years ended December 31, 2005, 2006 and 2007.

We have the following ongoing connected transactions with our connected persons.

- \* Comprehensive Social Welfare and Logistics Services Agreement with Chinalco;
- \* General Agreement on Mutual Provision of Production Supplies and Ancillary Services with Chinalco;
- \* Mineral Supply Agreement with Chinalco;
- \* Provision of Engineering, Construction and Supervisory Services Agreement with Chinalco;
- \* Land Use Rights Leasing Agreement with Chinalco;
- \* Buildings Leasing Agreement and Head Office Leasing Agreement with Chinalco;
- \* Aluminum Ingots and Alumina Supply Agreement with Chinalco and Guangxi Baise;
- \* Aluminum Ingots Agency Agreement with Guizhou Development;
- \* Agreement on Management of Electricity Generators with Shanxi Zhangze;
- \* Share Exchange with Shandong Aluminum with Chinalco;
- \* Share Exchange with Lanzhou Aluminum with Chinalco;
- \* Share Exchange with Baotou Aluminum with Chinalco in December 2007; and
- \* Equity transfer Agreement with Chinalco.

#### Comprehensive Social Welfare and Logistics Agreement

Chinalco provides certain social welfare and logistics services on a continuing basis to us. To regulate our relationship with Chinalco in this regard, we have entered into the Comprehensive Social and Logistics Services

Agreement with Chinalco on November 5, 2001 for the provision of social welfare and logistics services.

On October 12, 2007 our shareholders approved the revision of the annual limits for the amount of connected transactions, mainly due to an expected increase of costs and charges for Chinalco to provide cement, coal, transportation and other related products and services. Such costs and charges are expected to continue to increase in line with the increase in the market prices and the growth of PRC economy. Further, with the expansion in the Company's production capabilities, the use of the products and services provided by Chinalco is expected to increase accordingly.

- 83 -

---

#### General Agreement on Mutual Provision of Production Supplies and Ancillary Services

Chinalco retained certain non-core assets and businesses relating to ancillary production supplies and services which include assets and businesses for, among other things, (a) the supply of various raw materials required in the course of production of alumina and primary aluminum; (b) the provision of transportation and loading services; and (c) the provision of production supporting service, which continue to provide ancillary production supplies and services to us on an ongoing basis.

The domestic supply of coal, electricity, fuel and logistics services in 2005 and 2006 was in short supply, the situation remains the same in 2007 and is expected to continue into the future, causing the relevant costs of the production supplies and services of Chinalco to continue to increase.

In addition, following the completion of several of our newly built alumina facilities, the upgrading of certain of our alumina productions, and the completion of several domestic mergers and acquisitions by us, our production capacity of smelting and alumina is expected to experience significant increases, and the need for the production supplies and ancillary services provided by Chinalco will accordingly increase significantly.

Chinalco also retained all its assets and businesses relating to aluminum fabrication (except for aluminum fabrication capacity of Shandong Aluminum). It purchases its supply of primary aluminum as well as other alumina products from us. On the other hand, Chinalco transferred to us (a) operating assets and businesses for the production of alumina, primary aluminum, scrap materials, coal and pitch, and (b) assets and businesses for provision of ancillary production supplies and services which include, among other things, the supply of electricity, gas, heat and water, spare parts and the provision of repair and maintenance services. Such assets and businesses continue to provide ancillary production supplies and services to Chinalco.

As the subsidiaries of Chinalco has continued to increase, including companies such as Ruimin Aluminum Strap Company Limited and Lanzhou Liancheng Aluminum Industrial Company Limited, the need for these subsidiaries to purchase our products has also increased accordingly and hence, larger quantities of alumina are being purchased from us. On October 12, 2007 our shareholders approved the revision of the annual limits of the transactions under the Mutual Supply Agreement with Chinalco for the three financial years ending December 31, 2009 in order to cater for the increased volume and value of mutual supply transactions with Chinalco and its associates.

The revision of annual limits are primarily due to (a) the mergers and acquisition by Chinalco of several large-scale aluminum production plants during 2006 and early 2007 which led to increased amount and volume of purchases of alumina by Chinalco and its relevant associates from us; (b) Chalco International Trading directly purchasing primary aluminum from Chinalco and its relevant associates instead of acting as an agent for such purchases as previously arranged.

#### Mineral Supply Agreement

Chinalco retained certain assets and businesses relating to several small bauxite mines and limestone quarries in respect of which the mining rights have not been transferred to us. Chinalco continues to provide bauxite and limestone to us on an ongoing basis. Chinalco also purchases bauxite and limestone from other mines and re-sells them to us.

To formalize the relationship between Chinalco and us in these respects, we entered into a Mineral Supply Agreement with Chinalco on November 5, 2001.

Two of our new alumina production facilities commenced production in 2007, which increased the demand for bauxite and limestone. We expect the costs and volume of purchase of these minerals by us to continue to increase in the coming two financial years ending December 31, 2009.

- 84 -

---

#### Provision of Engineering, Construction and Supervisory Services Agreement

Chinalco has retained all its operating assets and liabilities relating to metallurgical construction and construction supervisory services and Luoyang Research Institute for Non-ferrous Metals Processing, which specializes in engineering design. The other operating assets and liabilities relating to engineering design services have been transferred to us.

Chinalco has provided and is expected to continue to provide metallurgical design, construction and supervisory services to us and we have provided and are expected to continue to provide various research and development services relating to engineering design to Chinalco.

We have entered into a Provision of Engineering, Construction and Supervisory Services Agreement with Chinalco dated November 5, 2001, relating to the provision of such engineering design, construction and supervisory services, which was renewed on December 26, 2006.

#### Land Use Rights Leasing Agreement

Chinalco has leased to us all the 445 pieces or parcels of land for the purposes of all aspects of our operations and businesses. On November 5, 2001, we entered into the Land Use Rights Leasing Agreement with Chinalco for the leasing of these 445 parcels of land covering an aggregate area of approximately 58.22 million square meters, which are located in six provinces in the PRC. The annual rent payable to Chinalco is approximately RMB239.1 million.

As a result of the adjustment in the standard land price and land use tax made by relevant local authorities in 2004, Chinalco was required to pay an extra tax amount of RMB66.0 million in 2004. On January 11, 2005, after arm's length negotiations between Chinalco and us, we agreed to bear the annual tax increment beginning from January 1, 2004, pursuant to which our payment of the rental for land use right increased from RMB173.0 million to RMB239.1 million. We had applied and recommended to the HKSE for the amendment of maximum amount of annual land use right payable by us be adjusted from RMB200.0 million to RMB250.0 million.

Due to the adjustment of land tax in Zhongzhou branch and Shanxi branch, and at the request of Chinalco, we have agreed to bear the increase in land tax of approximately RMB44.9 million of these two branch factories of the Company. The relevant land use rights were leased to us pursuant to the Land Use Right Leasing Agreement between our Company and Chinalco dated November 5, 2001. Payment by us of the increased land tax for Chinalco is expected to exceed the annual limit of this category of continuing connected transactions of RMB250 million in 2006. Therefore, we revised the annual cap for the Land Use Right Leasing Agreement for the year ending December 31, 2006 to RMB290 million.

On August 20, 2007, based on an appraisal report dated April 30, 2007 prepared by China Enterprise Appraisal Company Limited, an independent valuer qualified in the PRC, the total annual rental of the land use rights of the land leased by Chinalco to us was increased to RMB620.0 million commencing from January 1, 2007. The appraisal of the prevailing market rent was made pursuant to a provision for rental adjustment in the Land Use Right Leasing Agreement. Under the Listing Rules of the Shanghai Stock Exchange and the Hong Kong Listing Rules, the aforesaid revision of annual rental was not required to be approved by the Independent Directors of the Company.

On February 25, 2008, Chinalco and we entered into a supplemental agreement, pursuant to which the total annual rental of the land use rights in connection with the land leased by Chinalco to us was further increased from RMB620.0 million to RMB1 billion for each of the two years ending 31 December 2009 (the "Supplemental Agreement"). We revised annual cap of the exempt continuing connected transaction (i.e. RMB1 billion) on March 6, 2008.

The revised annual renewal for the two financial years ending December 31, 2009 resulted from (i) the increase in the PRC land use rights tax pursuant to the relevant PRC laws and regulations; (ii) the increase in the total area of leased land in relation to the mergers and acquisitions that took place in 2007; and (iii) the increase in the total number of plots of land leased by our subsidiaries in 2007. We made announcement regarding details of this revisions on March 6, 2008.

The revised annual cap of this exempt continuing connected transaction (i.e. RMB1 billion) also provides ample contingency to accommodate the possible fluctuations resulting in any changes in market conditions given the increasing volatility of rentals of the properties in the PRC and our possible future acquisitions of assets from Chinalco as part of its business development plan.

The transactions under the Supplemental Agreement constitute continuing connected transactions of us under the Listing Rules. The revised annual rental of RMB1 billion is less than 2.5% of the applicable percentage ratio under the Listing Rules. The rental revision is required to be disclosed by way of announcement but is not required to be approved by the independent shareholders of the Company.

Buildings Leasing Agreement

At the Special General Meetings of the Company held on February 27, 2007, it was approved to aggregate the rental payable to Chinalco under the Buildings Leasing Agreement dated November 5, 2001 with the rent payable under the Head Office Leasing Agreement to China Aluminum Development Company Limited under one category of continuing connected transactions and apply for an aggregate annual limit of RMB100 million for each of the three years ending December 31, 2009.

Chinalco transferred to us, among other operating assets, ownership of the buildings and properties for the operation of our core businesses, with Chinalco retaining the buildings and properties for its remaining operations. We leased to Chinalco and Chinalco leased to us a number of buildings and properties for ancillary uses, which include buildings and properties mainly for offices, dormitory, canteen and storage purposes. The buildings and properties we lease to Chinalco comprise 59 buildings with an aggregate gross floor area of 62,819 square meters. In turn, the buildings and properties Chinalco leases to us for ancillary uses comprise 100 buildings with an aggregate gross area of 273,637 square meters. We entered into the Buildings Leasing Agreement on November 5, 2001 with Chinalco, regarding the terms and conditions for the lease of these buildings and properties.

At the time of the 2003 Waiver Renewal, the annual limit for the Buildings Leasing Agreement was set at RMB12 million, being the estimated total amount of rent payable by us to Chinalco in respect of approximately 100 buildings leased by us from Chinalco pursuant to the Buildings Leasing Agreement dated November 5, 2001. Due to the steady growth of the PRC economy, we expect the aggregate amount of rental payable by us to Chinalco to increase during the next three years. On March 28, 2005, we entered into a tenancy agreement with China Aluminum Development Company Limited, a wholly-owned subsidiary of Chinalco, in respect of the office premises at 12th to 16th floors and 18th to 31st floors of No. 62 North Xizhimen Street, Hai Dian District, Beijing, PRC with an aggregate gross floor area of 30,160.81 square meters for a term of three years. The annual rent amounts to RMB61.6 million, determined according to the prevailing market rate. The eight months' period from February 15, 2005 to October 14, 2005 during renovation was rent free.

Due to the recent increase in rent of office premises in Beijing, we, at the request of China Aluminum Development Company Limited, has agreed to make prepayment of the annual rent and property management fees of the leased premises for the remaining two years of the tenancy. The prepayment amounted to RMB145,314,782. Considering the rapid and steady economic growth in the PRC during the past three years and the general trend of rental increase during the same years, the Directors propose an annual cap of RMB100 million for the three years ending December 31, 2009. During 2006, we made a prepayment of RMB74 million per year for the next two years to Chinalco in respect of the head office rental and property management fees.

---

#### Aluminum Ingots and Alumina Supply Agreement

Our Directors propose to aggregate the annual limits of the supply of aluminum ingots and alumina to Guangxi Nonferrous Metal under the Aluminum Ingots and Alumina Supply Agreement dated November 5, 2001 with the annual limits of Alumina Supply Agreement with Guangxi Baise under one category of continuing connected transactions and to apply an aggregate annual limit of RMB450 million for each of the two years ending December 31, 2009.

- 86 -

In addition, Guangxi Baise, which is a subsidiary of Guangxi Investments will enter into the Baise Agreement with us for the supply of alumina to Guangxi Baise. As Guangxi Baise is a 48% subsidiary of Guangxi Investments, it is therefore an associate of Guangxi Investments and a connected person of us. The Baise Agreement between the Company and Guangxi Baise has a term from January 1, 2007 to December 31, 2009. Under the agreement, Guangxi Baise shall purchase from us a total of 270,000 tonnes of alumina, of which 70,000 tonnes shall be delivered by us to Guangxi Baise for the year ending December 31, 2007 and 100,000 tonnes shall be delivered for each of the two years ending December 31, 2009.

#### Aluminum Ingots Agency Agreement

Guizhou Development has been and is expected to continue to be our agent for the distribution and sale of our aluminum ingots and related products for a commission. Such transactions between Guizhou Development and us are connected transactions within the meaning of the Listing Rules.

To regulate the relationship between Guizhou Development and ourselves in this respect, we entered into an agency agreement relating to the sale of aluminum ingots with Guizhou Development as our agent on November 5, 2001.

#### Agreement on Management of Electricity Generators

On January 15, 2003, we entered into a joint venture agreement with Shanxi Zhangze Electricity Company Limited ("Shanxi Zhangze") for the establishment of a joint venture company named as Shanxi Huaze. We hold 60% equity interest in Shanxi Huaze and Shanxi Zhangze holds the remaining 40%. Under the Listing Rules, Shanxi Zhangze is a substantial shareholder of Shanxi Huaze, one of our subsidiaries, and therefore a connected person of us.

On December 4, 2007, Shanxi Huaze entered into a management agreement (the "Management Agreement") with Shanxi Zhangze for the management of No. 3 and No. 4 generating units of Shanxi Huaze by Shanxi Zhangze at a fixed management fee per Kilowatt hour. Pursuant to the Management Agreement, Shanxi Zhangze is responsible for the management of the two electricity generators and is responsible for all liabilities arising from any accidents within its responsibility for the fuel costs and fixed costs, including but not limited to payment of water fee, raw materials, salaries, maintenance and taxes etc. of the two electricity generators; and Shanxi Zhangze was to manage the two electricity generators in accordance with the terms of the management specified in the management agreement. It is estimated that the annual management fee payable to Shanxi Zhangze under the Management Agreement will be approximately RMB13 million. The contracting arrangement with initial estimation of RMB800 million is no longer applicable to such transactions. The transaction was announced on December 4, 2007.

#### Share Exchange with Shandong Aluminum and Lanzhou Aluminum in April 2007

According to the merger agreement entered into between Lanzhou Aluminum and our Company on December 28, 2006, we merged with Lanzhou Aluminum by way of share exchange, which included an exchange of non-tradable Lanzhou Shares by the issue of new A Shares of our Company to Lanzhou Aluminum Factory, a shareholder of Lanzhou Aluminum. As all the equity interest of Lanzhou Aluminum Factory had been transferred to Chinalco at nil consideration, Lanzhou Aluminum Factory hence became a related party of our Company. As such, the transaction stated above constituted a connected transaction under the Listing Rules of Hong Kong. The transaction was

approved by the independent shareholders of our Company at the special general meeting held on February 27, 2007. On April 24, 2007, our Company completed the share exchange with Lanzhou Aluminum Factory.

Share Exchange with Baotou Aluminum in December 2007

According to the share exchange agreement entered into between our Company and Baotou Aluminum on July 20, 2007, we merged with Baotou Aluminum by way of share exchange, including exchanging non-tradable Baotou Shares by issuance of new A Shares of our Company to Baotou Aluminum (Group), the shareholder of Baotou Aluminum. The aforesaid transaction was approved by independent shareholders of our Company at the special general meeting held on October 20, 2007. On December 28, 2007, we completed the share exchange with Baotou Aluminum.

Equity transfer Agreement on November 23, 2007

Chinalco transferred its 49% equity interests in Hewan Power Plant through an open tender process conducted through China Beijing Equity Exchange. Such stake started trading on the Equity Exchange China Beijing Exchange on October 26, 2007. Based on the open tender result, such equity was transferred to us at the consideration of RMB497 million. On November 23, 2007, we entered into an equity transfer agreement, prior to which, we and Chinalco respectively held 51% and 49% equity interest in Hewan Power Plant. Subsequent to the equity transfer, Chinalco ceased to hold any equity of Hewan Power Plant, and Hewan Power Plant became our wholly-owned subsidiary.

We provide the following additional information on material related party transactions during the years ended December 31, 2005, 2006 and 2007:

## ITEM 8. FINANCIAL INFORMATION

### Consolidated Financial Statements

See pages F-1 to F-96 following Item 19.

- 88 -

---

### Legal Proceedings

As of December 31, 2007, Fushun Aluminum, a subsidiary of our Company was named in the claims by various banks for its joint liabilities amounting to approximately RMB681 million for the repayments of loans due from a third party. Fushun Aluminum was acquired by us from the third party in 2006. The Directors, after obtaining independent legal advice, are of the opinion that as the acquisition was conducted on fair basis and the consideration was set close to the asset value of the assets acquired, no contingency provision for such claims is necessary as of December 31, 2007.

### Dividends

Our Board of Directors declares dividends, if any, in Renminbi with respect to H Shares on a per share basis and pays such dividends in HK dollars. Any final dividend for a financial year is subject to shareholders' approval. The Bank of New York, as depositary, converts the HK dollar dividend payments and distributes them to holders of ADSs in U.S. dollars, less expenses of conversion. Under the PRC Company Law and our Articles of Association, all of our shareholders have equal rights to dividends and distributions. The holders of the H Shares share proportionately on a per share basis in all dividends and other distributions declared by our Board of Directors.

The declaration of dividends is subject to the discretion of our board of directors, which takes into account the following factors:

- \* our financial results;
- \* capital requirements;
- \* contractual restrictions on the payment of dividends by us to our shareholders or by our subsidiaries to us;
- \* our shareholders' interests;
- \* the effect on our credit worthiness;

- \* general business conditions; and
- \* other factors our Board of Directors may deem relevant.

We may only distribute dividends after we have made allowance for:

- \* recovery of losses, if any;
- \* allocation to the statutory common reserve fund; and
- \* allocation to a discretionary common reserve fund if approved by our shareholders and after allocation is made to the statutory common reserve fund.

Pursuant to PRC laws and regulations, dividends may only be distributed after allowance has been made for: (1) recovery of losses, if any; (2) allocations to the statutory surplus reserve; and (3) allocations to a discretionary surplus reserve if approved by the shareholders. The allocations to the statutory surplus reserve is 10% of our net profit determined in accordance with PRC GAAP. Our distributable profits for the current financial year will be equal to our net profits determined in accordance with PRC GAAP or HK GAAP, whichever is lower, less allocations to the statutory surplus reserve and if approved by the shareholders, discretionary surplus reserve.

The Board of Directors approved to declare an interim dividend of RMB0.137 per share and a special dividend of RMB0.013 per share at the Special General Meeting held on October 12, 2007.

- 89 -

---

We believe that our dividend policy strikes a balance between two important goals:

- \* providing our shareholders with a competitive return on investment; and
- \* assuring sufficient reinvestment of profits to enable us to achieve our strategic objectives.

See "Item 10. Additional Information - Taxation" for a discussion of the tax consequences of receipt of dividends.

Other Significant Changes since December 31, 2007

On February 4, 2008, we issued domestic short-term bonds in the total principal amount of RMB2 billion. The bonds bear an interest rate of 4.99% per annum, and have a maturity period of one year. The net proceeds of the short-term bonds issuance will be principally used as our working capital. On June 4, 2008, we issued our first tranche of domestic medium-term bonds in the total principal amount of RMB5 billion with a maturity period of three years, at

annual interest rate of 5.3%. The net proceeds of the first tranche of medium-term bonds issuance will be principally used to supplement medium-term working capital and for repayment of bank borrowing. We have been permitted to issue additional RMB5 billion medium-term bonds by various tranches on or before May 20, 2010 pursuant to the approval from the National Association of Financial Market Institutional Investors.

On May 9, 2008, the Board of Directors approved a final dividend of RMB0.053 per share for the year 2007 based on 35% of our profit after tax for 2007 and after deducting the interim dividend paid, the distributable dividend amounted to approximately RMB717 million for a total share capital of 13,524,487,892 shares as of December 31, 2007.

On May 21, 2008, we entered into an acquisition agreement with Aluminum Corporation of China and China Nonferrous Metals Processing Technology Co., Ltd. ("Transferors") to acquire 100% of the equity interest in Lanzhou Liancheng Longxing Aluminum Company Limited, 100% of the equity interest in Chinalco Southwest Aluminum Cold Rolling Company Limited, 84.02% of the equity interest in Chinalco Henan Aluminum Company Limited, 75% of the equity interest in Chinalco Ruimin Co., Ltd., 60% of the equity interest in Chinalco Southwest Aluminum Co., Ltd. and 56.86% of the equity interest in Huaxi Aluminum Company Limited from the Transferors. The acquisition was complete in early June 2008.

#### ITEM 9. THE OFFER AND LISTING

The Shanghai Stock Exchange is the principal non-US trading market for our A Shares. The Hong Kong Stock Exchange is the principal non-US trading market for our H Shares. Before October 2006, the ADSs, each representing 100 H Shares, have been issued by the Bank of New York as depositary and are listed on the NYSE. Our ADS ratio changed from one (1) ADS representing one hundred (100) H Shares to one (1) ADS representing twenty-five (25) H Shares from October, 2006. The ratio change is effected with respect to the holders of ADSs of record on October 6, 2006. The new ADSs have been distributed to the holders of ADSs on October 11, 2006. No additional H Shares were issued by reason of this change.

The following table sets forth, for the periods indicated, the reported high and low closing prices for our shares on each of these two stock exchanges:

Calendar Period	NYSE		Hong Kong Stock Exchange	
	High	Low	High	Low
	(US\$ per ADS)		(HK\$ per H Share)	

- 90 -

2008				
January <sup>(1)</sup>	50.28	33.00	15.80	9.80
February <sup>(1)</sup>	52.49	36.91	16.50	11.04
March <sup>(1)</sup>	49.57	35.00	15.44	10.42
April <sup>(1)</sup>	46.38	38.26	14.58	11.72
May <sup>(1)</sup>	47.95	39.70	14.88	12.16

(1) Effective from October, 2006, the Company's American Depositary Shares (the "ADSs") ratio has been changed from 1 ADS representing 100 H Shares to 1 ADS representing 25 H Shares.

#### ITEM 10. ADDITIONAL INFORMATION

- 91 -

---

Our registered office is located at No.12B, Fuxing Road, Hai Dian District, Beijing, People's Republic of China 100814. Our telephone number at this address is (86) 10 8229 8103.

#### Memorandum and Articles of Association

A copy of the English translation of our Articles of Association was filed with the SEC as an exhibit to the registration statement on Form F-1 (Registration No. 333-14068) under the Securities Act in connection with a global offering of our H Shares and American depository shares on December 5, 2001. Because our Articles of Association have undergone several amendments since 2001, we have filed a copy of the English translation of our Articles of Association as of June 30, 2007 as Exhibit 1.1 to the Company's 20-F filed on June 20, 2007. Amendments to our

Articles of Association since June 9, 2005 are subject to approval by State-owned Assets Supervision and Administration Commission under the State Council. Since June 20, 2007, our Articles of Association underwent the following amendments:

\* Our Articles of Association were amended and approved at Special General Meeting on October 12, 2007. We have deleted sentence providing that the quorum of any class meeting convened for purpose shall be at least one-third of the total number of issued shares of that class. The Board is of the view that the one-third shareholding quorum requirement is unduly restrictive. Such provision is not a requirement of the Mandatory Provisions and is not common among large-scale H share companies listed on the Hong Kong Stock Exchange. Moreover, the requirement to reply by returning the reply slip 20 days before the date of the class meeting as provided in Article 99 has already provided the mechanism to ensure that the class shareholders receive the notice of the class meeting. We have also amended the Articles of Association in accordance with the merger of Baotou Aluminum with the Company by way of share exchange through issuance of new A Shares. The amendments are subject to approval by State-owned Assets Supervision and Administration Commission of the State Council. The revised Article 99 reads: "The Company shall, 45 days before the date of class meeting of shareholders (including the date of meeting) , send written notice of the class meeting and inform all registered shareholders of that class of the matters to be considered at the class meeting and the date and venue of the class meeting. Those shareholders of the class who intend to attend shall send the written reply to the Company 20 days before the class meeting. If the number of voting shares represented by shareholders who intend to attend the meeting amount to more than one-half of the Company's total voting shares, the Company may hold the meeting; if not, the Company shall within five days notify the shareholders, again by way of public announcement, of the matters to be considered at, and the place and date for, the meeting. The Company may then hold the meeting after such announcement."

\* Our Articles of Association were amended and approved at the general shareholders' meeting held on May 9, 2008 to (1) expand the business scope; and (2) add additional conditions for effectiveness of share certificates and obtaining the authorization from the Board of Directors to imprint the Company seal on the share certificates. The amendments are subject to approval by State-owned Assets Supervision and Administration Commission of the State Council. The revised Article 13 and Article 39 reads:

\* Article 13

"The business scope of the Company will be as approved by the companies registration authorities.

"The business scope of the Company include: exploration and mining of bauxite and limestone mine; production and sale of bauxite and magnesite products, smelted products and processed products; production and sale of carbon products, relevant non-ferrous products, water and electricity, industrial oxygen and nitrogen; production, sales, loading, unloading and transportation of autoclaved fly ash brick; exploration design, construction and installation; manufacture, installation and maintenance of mechanical equipment, spare parts, non-standard equipment; repair of automobile and engineering machinery, manufacture and sale of automobile of special process; road transportation for cargo; installation, repair, inspection and sales of telecommunication and testing instruments; automatic measurement control, network, software system design and installation debugging; operation of office automation and instruments; relevant technological development and technical service."

\* Article 39

"Share certificates shall be signed by the legal representative. In case other members of the senior management are also required to sign by the stock exchange on which the Company's shares are listed, such other members of the senior management shall also sign. The share certificates shall become valid after applying the Company's seal (including the share seal of the Company) or after being imprinted with the seal. Authorisation from the Board of Directors should be obtained to affix the Company seal (including the share seal) or to imprint the Company seal on the share certificates. The signature of the Chairman or other member of the senior management may also be in imprinted form."

Our objects and purposes

Our Articles of Association as amended from time to time are filed with the Hong Kong Companies Registrar. Our business scope can be found in Article 13 of our Articles of Association, as amended at the Annual General Meeting held on May 9, 2008, which includes exploration and mining of bauxite and limestone mines; production and sales of bauxite and magnesite products, smelted products and processed products; production and sale of carbon products, relevant non-ferrous metal products, water, electricity, industrial oxygen and nitrogen; production, sales, loading, unloading and transportation of autoclaved fly ash brick; exploration design, construction and installation; manufacture, installation and maintenance of mechanical equipment, spare parts, non-standard equipment; repair of automobiles and engineering machinery, manufacture and sale of automobile of special process; road transportation for cargo; installation, repair, inspection and sales of telecommunication and test instruments; automatic measurement control, network, software system design and installation debugging; operation of office automation and instruments; relevant technological development and technical service.

Directors' power to vote on matters in which he or she has an interest

Under Article 169, a Director shall not vote in any resolution of the Board of Directors for approving any contract, transaction or arrangement in which such Director or any of his associates (as defined in the applicable rules

governing the listing of securities amended from time to time) is materially interested, and shall not be either counted into the quorum of the meeting. Unless the interested director has disclosed his or her interest to the Board of Directors in accordance with the Article 169 and the contract, transaction or arrangement has been approved by the Board of Directors at a meeting in which the interested Director is not counted in the quorum and has refrained from voting, a contract, transaction or arrangement in which such Director is materially interested is voidable at the instance of our Company except as against a bona fide party thereto acting without notice of the breach of duty by such Director.

#### Borrowing powers

Subject to compliance with applicable laws and regulations of the PRC, we have the power to raise and borrow money which power includes (without limitation) the issuance of debentures and the charging or mortgaging of part or whole of our business or properties and other rights permitted. The Articles of Association do not contain any specific provision in respect of the manner in which borrowing powers may be exercised by the Directors nor do they contain any specific provision in respect of the manner in which such powers may be varies, other than (a) provisions which give the Directors the power to formulate proposals for the issuance of debentures by us; (b) Article 86(2) provides that the issuance of bond must be approved by the shareholders in a general meeting by way of a special resolution; and (c) Article 108(4) provides that the Directors have the power to formulate our annual final financial budgets and final accounts which shall be passed by over half of the Directors.

#### Age limit for retirement

There is no provision pertaining to the retirement of Directors pursuant to an age limit requirement in our Articles of Association.

#### Directors' qualifying shares

Under Article 103, the Directors are not required to hold any qualifying shares.

#### Dividend rights

Article 54(1) provides that holders of our common shares have the right to receive dividends and distribution of profits in other forms, in proportion to the number of shares held. Under Article 48, when we convoke a general shareholders' meeting, allocate dividends, liquidates or perform other activities that require the verification of equity rights, the board of directors or the general meeting convener must specify a date as the equity rights determination date. The shareholders registered in the shareholder roster after closing as at the equity rights determination date are the Company's shareholders entitled to appropriate rights and interests.

#### Voting rights

Article 54(2) provides that holders of our ordinary shares have the right to lawfully request, convene, chair, attend in person or appoint a proxy to attend and vote at general meetings of shareholders in respect of the number of shares held.

#### Rights to share profits

Article 60(7) provides that a plan for profit distribution and a plan for making up for losses formulated by the Board of Directors in accordance with Article 108(6) must be approved by way of the shareholders' general meeting.

#### Rights to share surplus in the event of liquidation

Article 54(6) provides that the shareholders have the right to participate in the distribution of our surplus assets in proportion to the number of shares held in the event of the termination or liquidation of us.

#### Redemption provisions; sinking fund provisions and liability to further capital calls

Article 29 provides that we may repurchase issued shares in accordance with the procedures provided in the Articles of Association and with the approvals from the relevant governing authorities of PRC under the following circumstances: (1) cancellation of shares for the purpose of reducing our capital; (2) amalgamation with other company which owns our shares; (3) granting bonus shares to our employees; (4) shareholders disagreeing with our general meeting's resolution on merger or division and requiring us to acquire the shares in their possession; (5) other purposes permitted by law and administrative regulations.

No securities issued by us are (a) redeemable, (b) entitled to a sinking fund or (c) subject to liability for further capital calls.

#### Actions necessary to change the rights of holders of our shares or holders of a class of shares

Under Article 86(5), revision of any rights of class shareholders, e.g., rights to dividends, share profits or surplus in the event of liquidation or voting rights, requires a special resolution of the shareholders' general meeting. Under Article 79, a special resolution must be passed by votes representing more than two-thirds of the voting rights represented by the shareholders (including proxies) present at the meeting.

The rights attached to any class of shares may be varied or abrogated only with the sanction of a special resolution passed at the shareholders' general meeting and by holders of shares of the affected class passed at a separate general meeting of the class convened in accordance with the Article 97 to Article 101 respectively. The circumstances which are deemed to be a variation or abrogation of the class rights are set forth under Article 96. Except for the circumstances under Article 88 (1), (9) and (10), shareholders of the affected class, whether or not otherwise having the right to vote at shareholders' general meetings, have the right to vote at class meetings but Interested Shareholders (as defined under Article 97) are not entitled to vote at class meetings.

Resolutions of a class meeting shall be passed by two-thirds or more of the shares with voting rights held by the class shareholders who, according to Article 97, are entitled to vote at that class meeting. Written notice must be given to all shareholders who are registered as holders of that class in the register of shareholders 45 days before the date of the class meeting. Such notice must contain the matters to be considered at such meeting, the date and the place of meeting. Those shareholders of the class who intend to attend send the written reply to us 20 days before the class meeting.

The proceedings of a class meetings shall be conducted as nearly as possible as that of a shareholders' general meetings. The provisions in the Articles of Association relating to the proceedings of a shareholders' general meetings shall apply to class meetings.

The special procedures for approval by a class of shareholders do not apply where we issue, upon the approval by special resolution of shareholders in general meeting, either separately or concurrently once every 12 months, not more than 20% of each of our existing issued Domestic-Invested Shares and Overseas-Listed Foreign-Invested Shares (as defined under Article 18).

Provisions discriminating against any existing or prospective shareholder as a result of owning a substantial number of shares

Chinalco, as our controlling shareholder, shall not exercise its voting rights in a manner prejudicial to the interest of all or some part of the shareholders when making decision on the following matters:

- \* to relieve a Director or Supervisor of his duty to act honestly in our best interest;
- \* to approve the expropriation by a Director or Supervisor (for his own benefit or for the benefit of another), in any manner, our assets, including but not limited to an opportunity beneficial to us; or
- \* to approve the expropriation by a Director or Supervisor (for his own benefit or for the benefit of another ) the individual rights of other shareholders, including but not limited to rights to distributions and voting rights save and except our restructuring, submitted for approval by the shareholders in general meeting in accordance with the Articles of Association.

Conditions governing the manner in which annual general meetings and extraordinary general meetings of shareholders are convoked

Shareholders' general meetings can be Annual General Meetings or Extraordinary General Meetings. Annual General Meetings are held once a year within six months after the end of the preceding financial year.

The Board of Directors is required to convene an Extraordinary General Meeting within two months of the occurrence of any one of the following circumstances:

- (1) where the number of Directors falls below the number required by the Company Law or two-thirds of the number required by the Articles of Association;
- (2) where our unrecovered losses amount to one-third of the total amount of its paid-in-capital;
- (3) where requested by shareholder(s) holding 10 percent or more of our shares for more than ninety consecutive days (the number of shares held shall be the figures as at the date of the written request from shareholder);

- (4) whenever the Board of Directors deems necessary or the supervisory committee proposes to convene the same.

We shall, within 45 days (Inclusive of date of meeting) before the date of meeting, send written notices of the shareholders' general meeting and inform all registered shareholders of the matters to be considered at the meeting and the date and venue of the meeting. Those shareholders who intend to attend the meeting shall send the written reply to the Company 20 days before the meeting.

Motions put forward at the general meeting shall be specific and shall relate to the matters to be considered at a shareholders' general meeting. Motion raised at a general meeting shall satisfy the following requirements:

- (1) it shall be free of conflicts with the provision of laws, administrative regulations and Articles of Association, and fall into our business scope and the terms of the reference of the shareholders' general meeting;
- (2) it shall have definite topics to discuss and specific matters to resolve;
- (3) it shall be submitted in writing or served to the convener.

#### Limitations on the rights to own securities

Under Article 18, the shares issued to domestic investors and denominated in Renminbi are Domestic-Invested Shares whereas the shares issued to overseas investors and denominated in foreign currency are Foreign-Invested Shares. Under Article 17, our Domestic-Invested Shares can be held only by PRC shareholders and our Foreign-Invested Shares, such as H shares and ADSs can be held only by foreign shareholders and other shareholders from regions of Hong Kong, Macau and Taiwan.

#### Provisions having an effect of delaying, deferring or preventing a change in control

Under Article 111, in making decisions in respect of market development, merger and acquisition, and investment in a new field, where the consideration to be paid or the assets to be acquired exceed 10% of our total assets, the Board of Directors is required to engage relevant professional consultants to provide professional opinions, which shall serve as the key reference for the decision making of the Board of Directors concerning projects of any investment, merger or acquisition.

Under Article 86(3), division, merger, dissolution and liquidation of us and material acquisitions and disposals by us must be approved by a special resolution at the shareholders' general meeting.

There are no provisions pertaining to the ownership threshold above which shareholder ownership must be disclosed under the Articles of Association.

#### Conditions governing changes in registered capital

Under Article 108(7), any proposal for the increase or decrease of our registered capital must be formulated by the Board of Directors. Article 86(1) further provides that any increase or reduction in share capital requires adoption of a special resolution at a shareholders' general meeting.

#### Material Contracts

On March 12, 2007, we entered into a sponsorship agreement with CITIC Securities Co., Ltd. and China Galaxy Securities Co., Ltd. in relation to the merger with Shandong Aluminum Industry Co., Ltd. and Lanzhou Aluminum Co., Ltd. through share exchange and public issue of our A Shares. Please see "Item 4 - Information on the Company - the A Shares Offering" and "Item 19 - Exhibit 4.2".

On December 28, 2006, we entered into a merger agreement with Shandong Aluminum Industry Co., Ltd. to consummate the merger with Shandong Aluminum Industry Co., Ltd through share exchange. Please see "Item 4 - Information on the Company - the A Shares Offering" and "Item 19 - Exhibit 4.3".

On December 28, 2006, we entered into a merger agreement with Lanzhou Aluminum Co., Ltd. to consummate the merger with Lanzhou Aluminum Co., Ltd through share exchange. Please see "Item 4 - Information on the Company - the A Shares Offering" and "Item 19 - Exhibit 4.4".

On July 20, 2007, we entered into a merger agreement with Baotou Aluminum Co., Ltd. to consummate the acquisition of Baotou Aluminum Co., Ltd through share exchange. Please see "Item 4 - Information on the Company - the A Shares Offering" and "Item 19 - Exhibit 4.5".

On May 21, 2008, we entered into an acquisition agreement with Aluminum Corporation of China ("Chinalco") and China Nonferrous Metals Processing Technology Co., Ltd. ("China Nonferrous Metals"). Please see "Item 4 - Information on the Company - Recent domestic development" and "Item 19 - Exhibit 4.6"

#### Exchange Controls

The existing foreign exchange regulations have significantly reduced government foreign exchange controls for transactions under the current account, including trade and service related foreign exchange transactions and payment of dividends. We may undertake current account foreign exchange transactions without prior

- 92 -

---

approval from the State Administration of Foreign Exchange by producing commercial documents evidencing such transactions, provided that they are processed through Chinese banks licensed to engage in foreign exchange transactions. The PRC government has stated publicly that it intends to make the Renminbi freely convertible in the future. However, we cannot predict whether the PRC government will continue its existing foreign exchange policy and when the PRC government will allow free conversion of Renminbi to foreign currency.

Foreign exchange transactions under the capital account, including principal payments in respect of foreign currency-denominated obligations, continue to be subject to significant foreign exchange controls and require the

approval of the State Administration of Foreign Exchange. These limitations could affect our ability to obtain foreign exchange through debt or equity financing, or to obtain foreign exchange for capital expenditures.

Since 1994, the conversion of Renminbi into Hong Kong and United States dollars has been based on rates set by the People's Bank of China, which are set daily based on the previous day's PRC interbank foreign exchange market rate and current exchange rates on the world financial markets. From 1994 to July 20, 2005, the official exchange rate for the conversion of Renminbi to U.S. dollars was generally stable. On July 21, 2005, the PRC government introduced a managed floating exchange rate system to allow the value of the Renminbi to fluctuate within a regulated band based on market supply and demand and by reference to a basket of currencies. On the same day, the value of the Renminbi appreciated by 2.0% against the U.S. dollar. Since then, the PRC government has made, and may in the future make, further adjustments to the exchange rate system. The PBOC announces the closing price of a foreign currency traded against the Renminbi in the inter-bank foreign exchange market after the closing of the market on each working day, and makes it the central parity for the trading against the Renminbi on the following working day. Fluctuations in exchange rates may adversely affect the value, translated or converted into US dollars or Hong Kong dollars, of our net assets, earnings and any declared dividends. We cannot give any assurance that any future movements in the exchange rate of the Renminbi against the US dollar and other foreign currencies will not adversely affect our results of operations and financial condition.

## Taxation

### China Taxation

The following discussion summarizes the material PRC tax provisions relating to the ownership and disposition of H Shares or ADSs purchased in connection with the global offering and held by the investor as capital assets.

### Dividends Paid to Individual Investors

According to the PRC Individual Income Tax Law, as amended, dividends paid by Chinese companies to a domestic individual are ordinarily subject to a PRC withholding tax levied at a flat rate of 20%. For a foreign individual who is not a resident of China, the receipt of dividends from a company in China is normally subject to a withholding tax of 20% unless specifically exempted by the tax authority of the State Council or reduced by an applicable tax treaty. However, on July 21, 1993, the PRC State Administration of Taxation issued the Notice Concerning the Taxation of Gains on Transfer and Dividends from Shares (Equities) Received by Foreign Investment Enterprises, Foreign Enterprises and Foreign Individuals (the "Tax Notice"). Under the Tax Notice, dividends paid by a Chinese company to foreign individuals with respect to shares listed on an overseas stock exchange, or Overseas Shares, including the H Shares and ADSs, are temporarily exempt from a PRC withholding tax. However, if the Tax Notice is withdrawn, we will withhold such taxes as required by law.

In a letter dated July 26, 1994 to the former State Commission for Restructuring the Economic System, the former State Council Securities Committee and the CSRC, the PRC State Administration of Taxation restated the exemption. In the event that the letter is withdrawn, a 20% tax may be withheld on dividends paid to non-PRC individual holders of H Shares or ADSs, subject to reduction by an applicable tax treaty between China and the country where such holders reside. To date, the relevant tax authorities have not collected withholding tax from dividend payments on such shares exempted under the Tax Notice.

### Dividends Paid to Non-PRC Enterprises

According to the new PRC Enterprise Income Tax Law and its implementation rules, which became effective on January 1, 2008, dividends derived from the revenues accumulated from January 1, 2008 and are paid by Chinese companies to non-resident enterprises, which are established under the laws of non-PRC jurisdictions and have no establishment or residence in China or whose dividends from China do not relate to their establishment or residence in China, are ordinarily subject to a Chinese withholding tax levied at a flat rate of 10% unless exempted or reduced pursuant to an applicable double-taxation treaty or other exemptions. Dividends paid by PRC companies to resident enterprises, including enterprises established under the laws of non-PRC jurisdictions but whose "de facto management body" is located in the PRC, are not subject to any PRC withholding tax, unless the dividends are derived from the publicly traded shares which have been held continuously by the resident enterprises for less than twelve months. Before the effectiveness of the new PRC Enterprise Income Tax Law and its implementation rules, a foreign enterprise with no permanent establishment in China receiving dividends paid with respect to a Chinese company's Overseas Shares will temporarily not be subject to the 10% withholding tax according to the Tax Notice. However, the effectiveness of such exemption granted by the Tax Notice becomes uncertain in light of the provisions under the new PRC Enterprise Income Tax Law and its implementation rules. If the withholding tax becomes applicable in the future, the rate could be reduced under an applicable double-taxation treaty.

- 93 -

---

#### Tax Treaties

Non-PRC shareholders who are residents or citizens of a country that has entered into a double-taxation treaty with China may be entitled to a reduction in the amount of tax withheld, if any, imposed on the payment of dividends. China currently has such treaties with a number of countries, including:

- \* the United States;
- \* Australia;
- \* Canada;
- \* France;
- \* Germany;
- \* Japan;
- \* Malaysia;
- \* Singapore;
- \* the United Kingdom; and

\* the Netherlands.

Under each one of such treaties, the rate of withholding tax imposed by China's taxation authorities is generally reduced. For example, under the double taxation treaty between China and the United States, China may tax dividends paid by us to an eligible U.S. holder up to a maximum of 10% of the gross amount received by such person. Under the treaty, an eligible U.S. holder is a person who, by reason of domicile, residence, place or head office, place of incorporation or any other criterion of similar nature is subject to taxation in the United States, as applicable under the treaty's "treaty shopping provisions".

#### Capital Gains

According to the new PRC Enterprise Income Tax Law and its implementation rules, which became effective on January 1, 2008, capital gains realized by foreign enterprises, which are established under the laws of non-PRC jurisdictions and have no establishment or residence in China or whose capital gains from China do not relate to their establishment or residence in China, are ordinarily subject to capital gains tax at the rate of 10%. The capital gains realized by resident enterprises, including enterprises established under the laws of non-PRC jurisdictions but whose "de facto management body" is located in the PRC, upon the sales of overseas-listed shares are subject to the PRC enterprise income tax. Before the effectiveness of the new PRC Enterprise Income Tax Law, gains realized by foreign enterprises that are holders of Overseas Shares of a PRC company excluding the shares held through their PRC domestic establishment or residences were, temporarily, exempted from the withholding tax according to the Tax Notice. However, the effectiveness of such exemption granted by the Tax Notice becomes uncertain in light of the provisions under the new Enterprise Income Tax Law and its implementation rules. With respect to individual holders of H shares, the Provisions for Implementation of Individual Income Tax Law of China, as amended, or the Provisions, stipulated that income tax on gains realized on the sale of equity shares shall be regulated in separate rules to be drafted by the Ministry of Finance. However, no income tax on gains realized on the sale of equity shares has been collected. Gains on the sale of shares by individuals were temporarily exempted from individual income tax pursuant to notices issued jointly by the Ministry of Finance and the SAT dated March 30, 1998. According to the Tax Notice, individual holders of Overseas Shares, such as H shares, are temporarily not subject to capital gains tax.

- 94 -

---

#### Additional China Tax Considerations

Under the Provisional Regulations of the PRC Concerning the Stamp Duty, a stamp duty is not imposed by China on the transfer of shares, such as the H Shares or ADSs, of Chinese publicly traded companies that take place outside of China.

#### United States Federal Income Taxation

Each potential investor is strongly urged to consult his or her own tax advisor to determine the particular United States federal, state, local, treaty and foreign tax consequences of acquiring, owning or disposing of the H Shares or ADSs.

\* tax-exempt entities;

- \* partnerships or other entities treated as partnerships for United States federal income tax purposes;
- \* banks, financial institutions, and insurance companies;
- \* real estate investment trusts, regulated investment companies and grantor trusts;
- \* dealers or traders in securities, commodities or currencies;
- \* U.S. holders liable for alternative minimum tax;
- \* U.S. holders that own, actually or constructively, 10% or more of our voting stock;
- \* persons who receive the H Shares or ADSs as compensation for services;
- \* U.S. holders that hold the H Shares or ADSs as part of a straddle or a hedging or conversion transaction;
- \* certain U.S. expatriates; or
- \* U.S. holders whose functional currency is not the U.S. dollar.

Moreover, this description does not address United States federal estate and gift taxes or any state or local tax consequences of the acquisition, ownership and disposition of the H Shares or ADSs.

This discussion is based on the Code, its legislative history, final, temporary and proposed United States Treasury regulations promulgated thereunder, published rulings and court decisions as in effect on the date hereof, all of which are subject to change, or changes in interpretation, possibly with retroactive effect. In addition, this discussion is based in part upon representations of the depositary and the assumption that each obligation in the deposit agreement and any related agreements will be performed according to its terms.

You are a "U.S. holder" if you are a beneficial owner of H Shares or ADSs and are:

- \* an individual citizen or resident of the United States for United States federal income tax purposes;

- \* a corporation or other entity treated as a corporation for United States federal income tax purposes created or organized under the laws of the United States or any political subdivision thereof;
- \* an estate the income of which is subject to United States federal income tax without regard to its source; or
- \* a trust:
  - subject to the primary supervision of a United States court and the control of one or more United States persons; or
  - that has elected to be treated as a United States person under applicable United States Treasury regulations.

If a partnership (including any entity treated as a partnership for United States federal tax purposes) is a beneficial owner of the H Shares or ADSs, the treatment of the partner in such partnership will generally depend upon the status of the partner and the activities of the partnership. If an investor is a partner in a partnership that holds H Shares or ADSs, such investor should consult its tax advisor. We urge you to consult your tax advisors regarding the United States federal, state, local and non-United States tax consequences of the purchase, ownership and disposition of the H Shares or ADSs.

In general, if you hold ADRs evidencing ADSs, you will be treated as the owner of the H Shares represented by the ADSs. Exchanges of H shares for ADRs, and ADRs for H shares, generally will not be subject to United States federal income tax.

### **Distributions on the H Shares or ADSs**

Subject to the discussions below under "PFIC Rules," the gross amount of any distribution (without reduction for any Chinese tax withheld) we make on the H Shares or ADSs out of our current or accumulated earnings and profits (as determined for United States federal income tax purposes) will be includible in your gross income as ordinary dividend income when the distribution is actually or constructively received by you, or by the depository in the case of ADSs. Distributions that exceed our current and accumulated earnings and profits will be treated as a return of capital to you to the extent of your basis in the H Shares or ADSs and thereafter as capital gain. We, however, may not calculate earnings and profits in accordance with U.S. tax principles. In this case, all distributions by us to U.S. Holders will generally be treated as dividends. Any dividend will not be eligible for the dividends-received deduction generally allowed to United States corporations in respect of dividends received from United States corporations. The amount of any distribution of property other than cash will be the fair market value of such property on the date of such distribution.

Subject to certain exceptions for short-term and hedged positions, the U.S. dollar amount of dividends received by an individual, trust or estate prior to January 1, 2011 with respect to the H Shares or ADSs will be subject to taxation at a maximum rate of 15% if the dividends are "qualified dividends." Dividends paid on H Shares or ADSs will be treated as qualified dividends if either (i) we are eligible for the benefits of a comprehensive income tax treaty with the United States that the Internal Revenue Service, or IRS, has approved for the purposes of the qualified dividend rules, or (ii) the dividends are with respect to ADSs readily tradable on a U.S. securities market, provided that we were not,

in the year prior to the year in which the dividend was paid, and are not, in the year in which the dividend is paid, a PFIC. The Agreement Between the Government of the United States of America and the Government of the People's Republic of China for the Avoidance of Double Taxation and the Prevention of Tax Evasion with Respect to Taxes on Income (the "Treaty") has been approved for the purposes of the qualified dividend rules, and we expect to qualify for benefits under the Treaty. We are considered a qualified foreign corporation with respect to the ADSs because our ADSs are listed on the New York Stock Exchange. Finally, based on our audited financial statements and relevant market data, we believe that we did not satisfy the definition for PFIC status for U.S. federal income tax purposes with respect to our 2007 taxable year. In addition, based on our audited financial statements and our current expectations regarding the value and nature of our assets, the sources and nature of our income, and relevant market data, we do not anticipate becoming a PFIC for our 2008 taxable year or any future year. However, our status in future years will depend on our

- 96 -

---

income and assets (which for this purpose depends in part on the market value of the H Shares or ADSs) in those years. See the discussion of the PFIC rules below.

The U.S. Treasury has announced its intention to promulgate rules pursuant to which holders of common stock and intermediaries through whom such stock is held will be permitted to rely on certifications from issuers to establish that dividends are treated as qualified dividends. Because such procedures have not yet been issued, it is not clear whether we will be able to comply with them. Holders of H Shares or ADSs should consult their own tax advisers regarding the availability of the reduced dividend tax rate in light of their own particular circumstances.

If we make a distribution paid in HK dollars, you will be considered to receive the U.S. dollar value of the distribution determined at the spot HK dollar/U.S. dollar rate on the date such distribution is received by you or by the depositary, regardless of whether you or the depositary convert the distribution into U.S. dollars. Any gain or loss resulting from currency exchange fluctuations during the period from the date the dividend payment is includible in your income to the date you or the depositary convert the distribution into U.S. dollars will be treated as ordinary income or loss from U.S. sources.

Subject to various limitations, any Chinese tax withheld from distributions in accordance with the Treaty will be deductible or creditable against your United States federal income tax liability. Dividends paid by us generally will constitute income from sources outside the United States for U.S. foreign tax credit limitation purposes and will be categorized as "passive income" or, in the case of certain U.S. Holders as "general category income" for U.S. foreign tax credit purposes.

In the event we are required to withhold PRC income tax on dividends paid to U.S. Holders on the H Shares or ADSs (see discussion under "Taxation - China"), you may be able to claim a reduced 10% rate of PRC withholding tax if you are eligible for the benefits under the Treaty. You should consult your own tax advisor about the eligibility for reduction of PRC withholding tax.

You may not be able to claim a foreign tax credit (and instead may claim a deduction) for non-United States taxes imposed on dividends paid on the H Shares or ADSs if you (i) have held the H Shares or ADSs for less than a specified minimum period during which you are not protected from risk of loss with respect to such shares, (ii) are obligated to make payments related to the dividends (for example, pursuant to a short sale) or (iii) hold the H Shares

or ADSs in an arrangement in which your expected economic return, after non-United States taxes, is insubstantial.

### **Sale, Exchange or Other Disposition**

Subject to the discussions below under "PFIC Rules," upon a sale, exchange or other disposition of the H Shares or ADSs, you will generally recognize capital gain or loss for United States federal income tax purposes in an amount equal to the difference between the U.S. dollar value of the amount realized and your tax basis, determined in U.S. dollars, in such H Shares or ADSs. Any gain or loss will generally be United States source gain or loss for foreign tax credit limitation purposes and as a result of the U.S. foreign tax credit limitation, foreign taxes, if any, imposed upon capital gains in respect of H Shares or ADSs may not be currently creditable. Capital gain of certain non-corporate U.S. holders, including individuals, is generally taxed at a maximum rate of 15% where the property has been held more than one year. Your ability to deduct capital losses is subject to significant limitations.

If you are paid in a currency other than U.S. dollars, any gain or loss resulting from currency exchange fluctuations during the period from the date of the payment resulting from sale, exchange or other disposition is made to the date you convert the payment into U.S. dollars will be treated as United States source ordinary income or loss.

### **PFIC Rules**

In general, a foreign corporation is a PFIC for any taxable year in which, after applying relevant look-through rules with respect to the income and assets of subsidiaries:

- 97 -

- 
- \* 75% or more of its gross income consists of passive income, such as dividends, interest, rents, royalties, and gains from the sale of assets that give rise to such income; or
  - \* 50% or more of the average quarterly value of its assets consists of assets that produce, or are held for the production of, passive income.

We believe that we will not meet either of the PFIC tests in the current or subsequent taxable years and therefore will not be treated as a PFIC for such periods. However, there can be no assurance that we will not be a PFIC in the current or subsequent taxable years.

If we were a PFIC in any taxable year that you held the H Shares or ADSs, you generally would be subject to special rules with respect to "excess distributions" made by us on the H Shares or ADSs and with respect to gain from your disposition of the H Shares or ADSs. An "excess distribution" generally is defined as the excess of the distributions you receive with respect to the H Shares or ADSs in any taxable year over 125% of the average annual distributions you have received from us during the shorter of the three preceding years, or your holding period for the H Shares or ADSs. Generally, you would be required to allocate any excess distribution or gain from the disposition of the H Shares or ADSs ratably over your holding period for the H Shares or ADSs. The portion of the excess distribution or gain allocated to a prior taxable year, other than a year prior to the first year in which we became a PFIC, would be

taxed at the highest United States federal income tax rate on ordinary income in effect for such taxable year, and you would be subject to an interest charge on the resulting tax liability, determined as if the tax liability had been due with respect to such particular taxable years. The portion of the excess distribution or gain that is not allocated to prior taxable years, together with the portion allocated to the years prior to the first year in which we became a PFIC, would be included in your gross income for the taxable year of the excess distribution or disposition and taxed as ordinary income.

The foregoing rules with respect to excess distributions and dispositions may be avoided or reduced if you are eligible for and timely make a valid "mark-to-market" election. If your H Shares or ADSs were treated as shares regularly traded on a "qualified exchange" for United States federal income tax purposes and a valid mark-to-market election was made, in calculating your taxable income for each taxable year you generally would be required to take into account as ordinary income or loss the difference, if any, between the fair market value and the adjusted tax basis of your H Shares or ADSs at the end of your taxable year. However, the amount of loss you would be allowed is limited to the extent of the net amount of previously included income as a result of the mark-to-market election. The New York Stock Exchange in which the ADSs will be traded is a qualified exchange for United States federal income tax purposes.

Alternatively, a timely election to treat us as a qualified electing fund under Section 1295 of the Code could be made to avoid the foregoing rules with respect to excess distributions and dispositions. You should be aware, however, that if we become a PFIC, we do not intend to satisfy record keeping requirements that would permit you to make a qualified electing fund election.

If you own the H Shares or ADSs during any year that we are a PFIC, you must file IRS Form 8621. We encourage you to consult your own tax advisor concerning the United States federal income tax consequences of holding the H Shares or ADSs that would arise if we were considered a PFIC.

### **Backup Withholding and Information Reporting**

In general, information reporting requirements will apply to dividends in respect of the H Shares or ADSs or the proceeds of the sale, exchange, or redemption of the H Shares or ADSs paid within the United States, and in some cases, outside of the United States, other than to various exempt recipients, including corporations. In addition, you may, under some circumstances, be subject to "backup withholding" with respect to dividends paid on the H Shares or ADSs or the proceeds of any sale, exchange or transfer of the H Shares or ADSs, unless you

- \* are a corporation or fall within various other exempt categories, and, when required, demonstrate this fact; or

- 98 -

- 
- \* provide a correct taxpayer identification number on a properly completed IRS Form W-9 or a substitute form, certify that you are exempt from backup withholding and otherwise comply with applicable requirements of the backup withholding rules.

Any amount withheld under the backup withholding rules generally will be creditable against your United States federal income tax liability provided that you furnish the required information to the IRS in a timely manner. If you do not provide a correct taxpayer identification number you may be subject to penalties imposed by the IRS.

### Hong Kong Taxation

The following discussion summarizes the material Hong Kong tax provisions relating to the ownership of H Shares or ADSs purchased in connection with the global offering and held by you.

#### Dividends

Under current Hong Kong Inland Revenue Department practice, no Hong Kong tax is payable by the recipient in respect of dividends paid by us.

#### Taxation of Capital Gains

No Hong Kong tax is imposed on capital gains arising from the sale of property (such as H shares) acquired and held as investment assets. However, if a person carries on a trade, profession or business in Hong Kong (e.g., trading and dealing in securities) and derives trading gains from that trade, profession or business in or from Hong Kong, Hong Kong profits tax will be payable. Gains from sales of H shares effected on or off the Hong Kong Stock Exchange are considered to derive from or arise in Hong Kong for this purpose. Hong Kong profits tax is currently charged at the rate of 16.5% for corporations and at the rate of 15% for individuals.

No Hong Kong tax liability will arise on capital or trading gains arising from the sale of ADSs where the purchase and sale is effected outside Hong Kong, e.g. on the NYSE.

#### Hong Kong Stamp Duty

Hong Kong stamp duty is payable by each of the seller and the purchaser for every sold note and every bought note created for every sale and purchase of the H shares. Stamp duty is charged at the total rate of 0.2% of the value of the H shares transferred (the buyer and seller each paying 0.1% of such stamp duty). In addition, a fixed duty of HK\$5 is currently payable on an instrument of transfer of H shares. If one of the parties to a sale is a non-resident of Hong Kong and does not pay the required stamp duty, the stamp duty not paid will be assessed on the instrument of transfer (if any), and the transferee will be liable for payment of such stamp duty.

If the withdrawal of H shares when ADSs are surrendered, or the issuance of ADSs when H shares are deposited, results in a change of beneficial ownership in the H shares under Hong Kong law, Hong Kong stamp duty at the rate described above for sale and purchase transaction will apply. The issuance of ADSs for deposited H shares issued directly to the depository or for the account of the depository should not lead to a Hong Kong stamp duty liability. Holders of ADSs are not liable for the Hong Kong stamp duty on transfers of ADSs outside of Hong Kong so long as it does not result in a change of beneficial interest in the H shares under Hong Kong law.

#### Comparison of NYSE Corporate Governance Rules and PRC Corporate Governance Rules For Listed Companies

Under the amended Corporate Governance Rules of NYSE, foreign issuers (including us) listed on the NYSE are required to disclose a summary of the significant differences between their domestic corporate

- 99 -

---

governance rules and NYSE corporate governance rules that would apply to a U.S. domestic issuer. We have posted a description of such differences on our website:

<http://www.chalco.com.cn/zl/html/144/2008/20080624130056702530523/20080624130151420123963.pdf>

#### Documents on Display

We are subject to the information reporting requirements of the Exchange Act and, in accordance with the Act, file certain reports and other information with the SEC. You may read and copy any report, statement or other information filed by us at the SEC's public reference rooms in Washington, D.C., New York and Chicago, Illinois. Please call the SEC at 1-800-SEC-0330 for further information on the public reference rooms. Our reports and other information file with the SEC are also available to the public from commercial document retrieval services and the website maintained by the SEC at <http://www.sec.gov>.

As a foreign private issuer, we are exempted from the rules under the Act prescribing the furnishing and content of proxy statements to shareholders.

#### ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to various types of market risks, including credit risk relating to financial assets, changes in foreign exchange rates, interest rates and the prices of alumina and primary aluminum, in the normal course of business.

We borrow short-term and long-term funds, including variable-rate debts, principally denominated in Renminbi. We hedge a limited amount of our sales through trading of futures contracts on the Shanghai Futures Exchange. Our hedging activities are subject to policies approved by our senior management. Substantially all of the financial instruments we hold are for purposes other than trading.

The following discussion, which constitutes "forward-looking statements" that involve risk and uncertainties, summarize our market-sensitive financial instruments including fair value, maturity and contract terms. Such discussions address market risk only and do not present other risks, which we face in the normal course of business.

#### Credit Risk

The carrying amounts of bank balances, accounts and other receivables included in the balance sheet represent our maximum exposure to credit risk in relation to our financial assets. While strong State support is behind those major state-owned financial institutions into which our savings are deposited, and our Directors are of opinion that there is no significant credit risk on bank balances being deposited. We also perform periodic credit evaluations of our customers and believe that we have made adequate provision for uncollectible accounts and other receivables in the

financial statements.

None of our major customers exceed 10% of total revenue and do not individually present a material risk to our sales.

We use the majority of our futures contracts traded on the Shanghai Futures Exchange and LME to hedge against adverse fluctuations in aluminum prices and do not hold other derivatives instruments. The futures contracts are marked to market at balance sheet dates and corresponding unrealized holding gains (loss) are recorded in the income statement for the year. The fair value of the unrealized holding losses for the years ended December 31, 2005 and 2006 were RMB8,360,000, RMB5,703,000, respectively. We have a fair value of unrealized holding gains of RMB8,103 million for the year ended December 31, 2007.

#### Foreign Exchange Rate Risk

We conduct our business primarily in Renminbi, which is also our functional and reporting currency. We convert a portion of our Renminbi revenue into other currencies to meet foreign currency financial obligations and to pay for imported equipment and materials.

- 100 -

---

Many foreign currency exchange transactions involving Renminbi, including foreign exchange transactions under our capital account, are subject to foreign exchange controls and require the approval of the State Administration of Foreign Exchange. Actions taken by the PRC government could cause future exchange rates to vary significantly from current or historical exchange rates. On July 21, 2005 the People's Bank of China announced changes to the RMB exchange rate regime to break the peg to the US Dollar. As a result, the value of the RMB appreciated by 2% on that day. The value of the RMB is currently determined by the PRC government under a managed floating exchange rate regime based on market supply and demand with a reference to a basket of currencies and has appreciated approximately 12% since July 21, 2005. Fluctuations in exchange rates could adversely affect the value, translated or converted into U.S. dollars or Hong Kong dollars, of our net assets, earnings and any declared dividends. We cannot assure you that any future movements in the exchange rates of Renminbi against the U.S. dollar and other foreign currencies will not adversely affect our operating performances and financial condition.

As of December 31, 2007, we had two foreign currency denominated loans with principal of RMB47.19 million in Japanese Yen and RMB85.80 million in US dollars. In addition, our foreign currency denominated short-term bank deposits amounted to RMB309.20 million, of which RMB41.07 million was denominated in U.S. dollars, RMB107.4 million was denominated in Australian dollars, RMB128.28 million was denominated in Hong Kong dollars and RMB32.41 million was denominated in euros. Most of our sales are domestic and as such we have a limited amount of foreign currency denominated accounts receivable.

A significant depreciation in the Renminbi against major foreign currencies could have an adverse impact on our capital expenditures program. We have incurred relatively small amounts of foreign currency denominated debts for capital expenditures primarily relating to development of our alumina refineries, and may incur foreign currency denominated debts in the future. To the extent the Renminbi devalues against any of these currencies, it would correspondingly increase our repayment costs on such loans.

As of December 31, 2007, as the foreign currency denominated assets and liabilities table an insubstantial portion of our total assets and liabilities, the Directors are of the opinion that we are not exposed to any significant foreign exchange risk.

#### Interest Rate Risk

We are exposed to interest rate risk resulting from fluctuations in interest rates on our debts, primarily on our long-term debt obligations. Our debts consist of fixed and variable-rate debt obligations with original maturities ranging from 1 to 19 years. We undertake debt obligations to support general corporate purposes including capital expenditures and working capital needs. Upward fluctuations in interest rates increase the cost of new debts and the interest cost of outstanding variable rate borrowings. Fluctuations in interest rates can also lead to significant fluctuations in the fair values of our debt obligations. We do not currently use any derivative instruments to modify the nature of our debts so as to manage our interest rate risk. Instead, our treasury department closely monitors the market interest rates and maintains proper portfolio of variable rate and fixed rate debts in order to reduce the exposure to any one form of interest rate risk.

The table below sets forth information about our interest rate sensitive financial instruments, including foreign currency denominated debt instruments that are sensitive to foreign currency exchange rates. The table presents principal cash flows and related weighted average interest rates by expected maturity dates. The information is presented in Renminbi equivalents. We do not have any capital lease obligations. The information below should be read in conjunction with our audited balance sheets and Note 20 to our audited financial statements.

	Expected Maturity						Total	Fair value
	2008	2009	2010	2011	2012	Thereafter

\* Data in Renminbi equivalents.

## Commodity Price Risk

We are exposed to fluctuations in the prices of alumina and primary aluminum. We import alumina from suppliers outside China. Such purchases are made at market prices. In addition, all our sales of alumina and primary aluminum are made at market prices. Therefore, fluctuations in the prices of alumina and primary aluminum have a significant effect on our operating performances.

We enter into short-term futures contracts traded on the Shanghai Futures Exchange and LME to hedge a limited amount of sales of primary aluminum so as to minimize the impact of the fluctuations in the price of primary aluminum on our operating performances. Gains and losses on such futures contracts are recorded as other gains, net at each balance sheet date. The contracts have maturity dates that do not exceed six months.

The fair value of futures contracts are based on quoted market prices. As of December 31, 2007, the Company's position in futures contracts and options of aluminum is as follows:

Edgar Filing: ALUMINUM CORP OF CHINA LTD - Form 20-F

As of December 31, 2006					As of December 31, 2007				
	Contract	Market	Unrealized		Contract	Market	Unrealized

ITEM 12. DESCRIPTION OF SECURITIES OTHER THAN EQUITY SECURITIES

Not applicable.

PART II

ITEM 13. DEFAULTS, DIVIDEND ARREARAGES AND DELINQUENCIES

None

ITEM 14. MATERIAL MODIFICATIONS TO THE RIGHTS OF SECURITY HOLDERS AND USE OF PROCEEDS

None.

ITEM 15. CONTROLS AND PROCEDURES

Our Chairman, who performs the functions of Chief Executive Officer, and our Chief Financial Officer, after evaluating the effectiveness of Aluminum Corporation of China Limited's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15(d)-15(e) of the U.S. Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the period covered by this annual report, have concluded that, as of such date, our company's disclosure controls and procedures were effective to ensure that material information required to be disclosed in the report that we file and furnish under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and regulations.

**Management's Report on Internal Control over Financial Reporting**

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

- 103 -

Our internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of a company's assets, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures are being made only in accordance with authorizations of our management and Directors, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on the consolidated financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

---

Under the supervision of and with the participation of the Chief Executive Officer and Chief Financial Officer, our management conducted an evaluation of the effectiveness of the company's internal control over financial reporting as of December 31, 2007 based on the framework in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of Treadway Commission. Based on this evaluation, our management has concluded that our internal control over financial reporting was effective as of December 31, 2007.

We have excluded Lanzhou Aluminum from our assessment of internal control over financial reporting as of December 31, 2007 because this entity was acquired during 2007 and qualified under current United States Securities and Exchange Commission regulations for exclusion from our assessment of internal control over financial reporting. Total assets and total revenue of Lanzhou Aluminum in aggregate represent 11% and 1%, respectively, of our related consolidated financial statement amounts as of and for the year ended December 31, 2007.

The effectiveness of our internal controls over financial reporting as of December 31, 2007 has been audited by PricewaterhouseCoopers, an independent registered public accounting firm, as stated in their report which is included herein.

### Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the fiscal year covered by this annual report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 16. [RESERVED]

ITEM 16A. AUDIT COMMITTEE FINANCIAL EXPERT

Our Audit Committee members are Mr. Wang Mengkui, Mr. Zhu Demiao, Mr. Kang Yi and Mr. Zhang Zhuoyuan. Our Board of Directors has determined that Mr. Zhu Demiao is the financial expert serving on our Audit Committee as well as the Chairman of the Audit Committee. See "Item 6. Directors, Senior Management and Employees".

ITEM 16B. CODE OF ETHICS

We have adopted a Code of Ethics that applies to our Chief Executive Officer, Chief Financial Officer, other Directors, Independent Non-executive Directors, senior management and employees. We have posted our Code of Ethics on our website: <http://www.chalco.com.cn>. A copy of this Code of Ethics is available, without charge, upon request from the address on the cover of this Form 20-F.

- 104 -

ITEM 16C. PRINCIPAL ACCOUNTANT FEES AND SERVICES

PricewaterhouseCoopers served as our independent auditor for the 2007 fiscal year. A description of the fees billed to us by PricewaterhouseCoopers for professional services in each of the last two fiscal years is set forth below:

	Year ended December 31,	
	2006	2007
	RMB	RMB
	(in thousands)	
Audit fees	30,000	22,000
Audit-related fees	4,253	6,500

All other fees	781	11,000
	<hr/>	<hr/>
Total	35,034	39,500
	<hr/>	<hr/>

"Audit fees" represents fee obtained from annual audit work.

"Audit-related fees" represents fees charged by PricewaterhouseCoopers for assurance and related services that are reasonably related to the performance of the audit or review of our consolidated financial statements and are not reported under "Audit fees".

"All other fees" represents fees for the advisory services on SAP implementation project.

In April 2003, our Audit Committee established pre-approval policies and procedures under which all audit and non-audit services performed by our principal accountants must be approved by the Audit Committee. For 2007, all of the services provided by PricewaterhouseCoopers were pre-approved by the Audit Committee.

## MERGER AGREEMENT

The merger agreement was entered into on 28 December 2006 by following parties:

the Acquiree or the Merged Party: Shandong Aluminum Industry Co.Ltd, a joint stock limited company incorporated in the People's Republic of China with limited liability ("Shandong Aluminum")

Whereas:

1. Aluminum Corporation of China Limited, a company has overseas listed foreign shares ("H Shares"), the H Shares and ADRs of which are listed on the Hong Kong Stock Exchange and the New York Stock Exchange, respectively.
2. Shandong Aluminum Industry Co.Ltd, a company has domestically listed domestic shares ("A Shares"), the A shares of which are listed on the Shanghai Stock Exchange. Chalco and other public A shareholders hold 71.43% and 28.57% interests in the total share capital of Shandong Aluminum, respectively. Shandong Aluminum has not completed its share reform.
3. The relevant proposal regarding the merger of Shandong Aluminum by Chalco and the share reform of Shandong Aluminum, as well as this agreement have been approved by the board of Chalco and Shandong Aluminum under the Company Law of the People's Republic of China ("Company Law") and the Articles of Association of each party, respectively.
4. Chalco and Shandong Aluminum desire to make certain representations, warranties, covenants and agreements in connection with the Merger and set forth the terms on which it will be carried into effect.

Through friendly negotiation, parties hereto have reached the following

7-2-2-3

---

agreement on matters of the Merger under Company Law, Contract Law of the People's Republic of China and the provisions of relevant laws, regulations, and normative documents:

1. Definitions and Interpretations

1.1 Definitions

For the purposes of this Agreement, except as otherwise expressly provided or unless the context clearly requires otherwise, following terms used herein have the following meanings:

the "Acquirer", the "Merging Party" "Chalco"	Aluminum Corporation of China Limited, a joint stock limited company incorporated in the People's Republic of China
the "Acquiree", the "Merged Party" "Shandong Aluminum"	Shandong Aluminum Industry Co.Ltd, a joint stock limited company incorporated in the People's Republic of China
"Subsisting Company"	Chalco after the Merger
"Third Party"	Unless otherwise confirmed as any party no particular with reference to the context, it refers to one or more persons who provide Cash Alternative to A shareholders of Shandong Aluminum. Shares of A shareholders who have exercised their cash alternative will transfer to the Third Party. The Third Party will exercise the rights to transfer such shares to A Shares of Chalco.
"Compensated Party"	each present and former senior management and director of Shandong Aluminum and its Subsidiaries, and each person who becomes any of the foregoing prior to the Completion Date of the Merger.
"Subsidiaries"	for the purpose of Shandong Aluminum, any corporation,

7-2-2-4

---

joint venture (equity or contractual) or other business organization, whether incorporated

or unincorporated, of which (a) at least 50% of the securities or other interests having by their terms ordinary voting power to elect a majority of the Board of Directors or others performing similar functions with respect to such corporation, joint venture or other business organization is directly or indirectly owned or controlled by Shandong Aluminum or by any one or more of its Subsidiaries, or (b) Shandong Aluminum or any other Subsidiary of Shandong Aluminum is a general partner (excluding any such partnership where Shandong Aluminum or any Subsidiary of Shandong Aluminum does not have a majority of the voting interest in such partnership), or co-venturer owning at least 50% of the aggregate joint venture interests.

"Person" a natural person, partnership, corporation, limited liability company, business trust, joint stock company, trust, unincorporated association, joint venture, governmental entity or other entity or organization.

the "Merger" the merger of Shandong Aluminum by Chalco as set out in section 2.1 hereof.

"Consideration of the Merger" For the purpose of Chalco, the consideration for the Merger will be satisfied with A shares of Chalco with number equal to Total Shares for the Share Exchange which will be issued to A shareholders of Shandong Aluminum and/or the third party who has paid cash consideration for the Merger. For the purpose of A shareholders of Shandong Aluminum, they can exchange shares of Shandong Aluminum held by them for A shares of Chalco, or obtain relevant cash

7-2-2-5

---

consideration by exercising cash alternative.

"Share Reform"

actions or events that remove the split share structure between non-circulating shareholders and circulating shareholders of Shandong Aluminum by the Merger and the completion of share reform.

"Agreement" the Merger Agreement.

" the Board of Chalco" the board of Chalco.

"the Articles of Association of Chalco" the Articles of Association of Chalco.

"A Shares of Chalco" the ordinary shares of Chalco in initial public offering to domestic investors which have been listed on the Shanghai Stock Exchange, after approved by the CSRC and the Shanghai Stock Exchange.

"Dissenting Shares in Chalco" any shares of Chalco as to which the holder thereof put forward objections in writing upon the approval of the merger agreement and the Merger thereunder at the general meeting described in sub-paragraph 2.5.1 and demanded Chalco and/or other shareholders who agree with the Merger to purchase their shares at a fair price in accordance with the article 170 the Articles of Association of Chalco, and has neither withdrawn nor lost the right to put forward such demand as at the Completion Date of the Merger.

"the Articles of Association of Shandong Aluminum" the Articles of Association of Shandong Aluminum.

"Shandong Aluminum Agreement" any note, bond, mortgage, indenture, lease, license, contract, agreement or other instrument or obligation to which Shandong Aluminum or any of its Subsidiary is a party or by which any of them or any of their properties or assets may be bound as at Completion Date of the Merger.

7-2-2-6

---

"A shares of Shandong Aluminum"	the ordinary shares of Chalco in initial public offering to domestic investors which have been listed on the Shanghai Stock Exchange.
"Total shares to be exchanged"	sum of 3.15 times of total number of A shares of Shandong Aluminum (rounded up to 1 share)
"PRC"	the People's Republic of China which excludes the Hong Kong Special Administrative Region of the PRC, the Macau Special Administrative Region of the PRC and Taiwan, for the purpose of this Agreement.
"Government Authorities"	a court, arbitral tribunal, administrative agency or commission or other governmental or other regulatory authority or agency of the People's Republic of China, or any provincial or municipal or other local jurisdictions thereof or of Hong Kong, or of the United States or any state thereof, to the extent there is jurisdiction.
"CSRC"	China Securities Regulatory Commission.
"Hong Kong Stock Exchange"	the Stock Exchange of Hong Kong Limited
"CSDCC"	China Securities Depository and Clearing Corporation Limited, Shanghai Branch.
"Effective Date of the Merger"	the date when all conditions under this agreement are satisfied (or all conditions not being satisfied are waived under the rules of this Agreement) and the Merger obtains authorization or approval from the competent authorities (Save as the approval for the listing of A Shares of Chalco on the Shanghai Stock Exchange which can be obtained later).

"Completion Date of the Merger" the time stipulated in the section 2.2 of the Agreement;

7-2-2-7

---

"Registration Date" the registration time when Shareholders of Shandong Aluminum entitled to receive the Consideration of the Merger are determined in accordance with section 3.1 and 3.2, the specific time of which will be announced by Shandong Aluminum later.

"Claim Period of Cash Alternative" the period in which qualified A shareholders of Shandong Aluminum may declare to exercise the cash alternative, the specific time of which will be announced by Shandong Aluminum later.

"Share Exchange Date" the issue date of A Shares of Chalco.

"Balance Sheet Date" the date of balance sheet, namely 30 June 2006, the benchmark date of the merger.

"Balance Sheet" the most recent published audited balance sheet of Shandong Aluminum and its consolidated subsidiaries included in the Financial Statements.

"Transitional Period" the period from the date when this Agreement is executed to the Completion Date of the Merger.

"Hong Kong Listing Rules" the rules governing the listing of securities on Hong Kong Stock Exchange.

"Shanghai Listing Rules" the rules governing the listing of securities on Shanghai Stock Exchange.

"Company Law" the Company Law of the PRC and its amendment from time to time.

"Environmental Protection Law" each national, local and applicable foreign law and regulation relating to pollution, protection or preservation of human health or the environment, including, without limitation, ambient air, surface water, ground water, land surface or subsurface strata, and natural resources, and including, without limitation, each law and regulation relating to emissions, discharges, releases or threatened

7-2-2-8

---

releases of Materials Causing Environmental Problem, or otherwise relating to the generation, storage, containment (whether above ground or underground), disposal, transport or handling of Materials Causing Environmental Problem, or the preservation of the environment or mitigation of adverse effects thereon and each law and regulation with regard to record keeping, notification, disclosure and reporting requirements respecting Materials of Environmental Concern.

"Environmental Pollution Claims" any claim, action, investigation or notice by any person or entity alleging potential liability for investigatory, cleanup or governmental response costs, or natural resources or property damages, or personal injuries, attorney's fees or penalties relating to (i) the presence, or release into the environment, of any Materials Causing Environmental Problem at any location owned or operated by Shandong Aluminum or any of its Subsidiaries, now or in the past, or (ii) any violation, or alleged violation, of any Environmental Law.

"Materials Causing Environmental Problem" pollutants, contaminants, toxic or hazardous substances, materials and wastes, petroleum and petroleum products, asbestos and asbestos-containing materials, polychlorinated biphenyls, radon and lead or lead-based paints and materials.

"Intellectual Property"	all of the following: Trademarks, Patents, Copyrights, trade secrets and Licenses.
"Copy Right"	PRC and foreign registered and unregistered copyrights (including, but not limited to, those in computer software and databases), rights of publicity and all registrations and applications to register the same.
"Trademark"	PRC and foreign registered and unregistered trademarks,

7-2-2-9

---

	service marks, logos, trade names, corporate names and all registrations and applications to register the same.
"Patent"	issued PRC and foreign patents and pending patent applications, patent disclosures, and any and all divisions, continuations, continuations-in-part, reissues, re-examinations, and extension thereof.
"License"	all licenses and agreements pursuant to which Shandong Aluminum has acquired rights in or to any Trademarks, Patents, or Copyrights, or licenses and agreements pursuant to which Shandong Aluminum has licensed or transferred the right to use any of the foregoing.
"Principle Business Factories"	all the manufacture factories completely owned, controlled or invested by Shandong Aluminum which are engaged in its principle business such as mining, smelting, production and processing.
"Tax" or "Taxation"	all taxes, charges, fees, duties, levies, penalties or other assessments imposed by any national, provincial, local or applicable foreign governmental authority, including, but not limited to, income, gross receipts, excise, property, sales, gain, use, license, custom duty, unemployment, capital stock, transfer, franchise, payroll, withholding, social security, minimum

estimated, and other taxes, and shall include interest, penalties or additions attributable thereto.

"Liabilities Carrying Voting Rights" indebtedness having general voting rights and indebtedness convertible into securities having such rights.

"RMB" Renminbi yuan.

## 1.2 Interpretations

7-2-2-10

---

1.2.1 When a reference is made in this Agreement to a section or article, such reference shall be to a section or article of this Agreement unless otherwise clearly indicated to the contrary.

1.2.2 Whenever the words "include", "includes" or "including" are used in this Agreement they shall be deemed to be followed by the words "without limitation."

1.2.3 A reference to any party to this Agreement or any other agreement or document shall include such party's successors and permitted assigns.

1.2.4 A reference to any legislation or to any provision of any legislation shall include any modification or re-enactment thereof, any legislative provision substituted therefore and all regulations and statutory instruments issued thereunder or pursuant thereto.

1.2.5 The parties have participated jointly in the negotiation and drafting of this Agreement. If an ambiguity or question of intent or interpretation arises, this Agreement shall be construed as if drafted jointly by the parties, and no presumption or burden of proof shall arise favoring or disfavoring any party by virtue of the authorship of any provisions of this Agreement.

## 2. The Merger

### 2.1 The Merger

Subject to the terms and conditions of the Agreement, the Merger of Chalco and Shandong Aluminum will be conducted by way of share exchange and will be completed on Completion Date of the Merger. The Merger will be conducted in parallel to the Share Reform of Shandong Aluminum and the A share issue of Chalco.

Upon completion of the Merger, (1) Shandong Aluminum will be consolidated into

7-2-2-11

---

Chalco, delisted, de-registered legal person status and no longer existed as an independent company; (2) Chalco, as the Subsisting Company after the Merger, its registered capital and shareholding structure will be changed accordingly; (3) Chalco and all its rights, privileges, immunities and licenses will not be affected by the Merger; (4) All assets, liabilities, businesses and employees of Shandong Aluminum will be assumed by Chalco under laws. All rights and liabilities attached to the assets of Shandong Aluminum also will be enjoyed and assumed by Chalco under laws; (5) The Articles of Association of Chalco will be the Articles of Association of the Subsisting Company. New Articles of Association (draft) have been prepared by Chalco in wake of the issue of A shares. The Articles of Association (draft) will be the new Articles of Association of the Subsisting Company, and will take effect upon approval by relevant authorities after the issue and listing of A share; (6) the Merger shall have the effectiveness as stipulated by the Company Law.

Shandong Aluminum was aware and agreed that Chalco would acquire Lanzhou Aluminum Corporation Limited. ("Lanzhou Aluminum") while acquiring Shandong Aluminum. However, the merger of Shandong Aluminum by Chalco and the merger of Lanzhou Aluminum are not inter-conditional.

## 2.2 Completion Date of the Merger

Chalco and Shandong Aluminum shall conduct the change of registration of Chalco and deregistration of Shandong Aluminum with the Industrial and Commercial Administration as soon as possible. Completion Date of the Merger shall be the date when all conditions set out in Article 7 are fulfilled or waived (if applicable) and the change of registration of Chalco and deregistration of Shandong Aluminum are completed.

### 2.3 Directors, Supervisors and Senior Management of the Subsisting Company

Members of the board, supervisory committee of Chalco shall become directors and supervisors of the Subsisting Company commencing from the Completion Date of the Merger, until its successors are duly appointed or assume the post under the Articles

7-2-2-12

---

of Association of the Subsisting Company or resigned or are dismissed upon approval by the Subsisting Company. The Management of Chalco shall become Senior Management of the Subsisting Company commencing from the Completion Date of the Merger, until its successors are duly appointed or assume the post under the Articles of Association of the Subsisting Company or resigned or are dismissed upon approval by the Subsisting Company.

Directors and supervisors of Shandong Aluminum shall cease to perform their duties and obligations commencing from the Completion Date of the Merger.

### 2.4 Further Action

If the Subsisting Company deems or is informed that it is necessary or appropriate to make any application, contract, transfer, guarantee or any other action or events, at any time after the Completion Date of the Merger, to grant, improve or confirm any rights, own rights or interests of Chalco and Shandong Aluminum and their properties or assets which acquired or will be acquired by the Subsisting Company as a result of merger or execution of this agreement, for the purpose of executing this agreement, directors or any other person authorized by the board of the Subsisting Company shall be granted the rights to execute or deliver all such application, contract, transfer, guarantee or other relevant documents in the name of or on behalf of Chalco and Shandong Aluminum, and take all necessary action to grant, improve or confirm rights, own rights or interests of such rights, properties or assets of the Subsisting Company, for the purpose of executing this agreement.

### 2.5 General Meeting

2.5.1 In order to complete the Merger, Chalco and Shandong Aluminum shall take following action under Company Law through their respective board:

- 1) to duly convene, notify, hold all necessary shareholders' and/or directors' meeting immediately, to make discussion in respect of

7-2-2-13

---

the approval of the Merger and the Agreement and take actions;

- 2) to try their best to obtain support from the shareholders for the Merger, and take all other necessary or proper action, to obtain voting and consent of shareholders which is necessary for the Completion of the Merger under Company Law, the Articles of Association and/or the Hong Kong Listing Rules and Shanghai Listing Rules.

2.5.2 Unless otherwise required by applicable law, Chalco and Shandong Aluminum shall have rights to review information set out in relevant documents in respect of the Merger before sending to any third party, authority department or security regulatory authorities or written materials to each party, in the event they are relating to Chalco and Shandong Aluminum, and conduct negotiation with the other party regarding such information and written materials if applicable. Chalco and Shandong Aluminum shall act in a proper and timely manner when exercising aforesaid rights.

### 3. Consideration of the Merger

#### 3.1 Share Exchange

##### 3.1.1 Share Exchange

As at the date of Share Exchange, since the Merger does not require any shareholder of Shandong Aluminum to take any further action, all A shareholders of Shandong Aluminum whose names appear on the register of members of the Company at the registration date (excluding shareholders who exercised the cash alternative under regulations set out in clause 3.2) shall exchange their each A share in Shandong

Aluminum for certain A shares in Chalco at the share exchange ratio set out in sub-paragraph 3.1.2. After the Registration Date, save as the third party, being the cash alternative provider,

7-2-2-14

---

any person whose name does not appear on the register of members of the Company at the registration date are not entitled to the rights set out in this sub-paragraph.

### 3.1.2 Share Exchange Price and Share Exchange Ratio

The A shares of Chalco and Shandong Aluminum were priced at RMB6.6 and RMB20.81 per share respectively. The share exchange ratio is 1:3.15, namely, each A shares in Shandong Aluminum will exchange for 3.15 A shares in Chalco.

### 3.1.3 Arrangement for the odd shares

Upon the share exchange, the numbers of A shares in Chalco obtained by A shareholders of Shandong Aluminum shall be integral. If number of shares in Shandong Aluminum held by A shareholders of Shandong Aluminum, after divided by share exchange ratio, is not integral, the odd shares are sorted according to the value of fractions and will be distributed to one shareholder for one share (by computer balloting in case that the number of equal fractions exceeds that of odd shares) until the actual share exchange number equals to the total number of the A shares of Chalco.

### 3.1.4 Arrangement for the restricted shares of Shandong Aluminum

All the A Shares of Shandong Aluminum which have been pledged or subject to other third party rights or judicially frozen should be exchanged for Chalco shares during the share exchange, while the pledge, other third party rights and judicial freezing attached to such shares remain unchanged over the exchanged Chalco A shares ..

## 3.2 Cash alternative

### 3.2.1 Subject entitled to cash alternative

All holders of A Shares of Shandong Aluminum whose name appeared on the register of shareholders as at the register date shall be entitled to exercise cash alternative as specified by this clause other than holders of

7-2-2-15

---

the following shares:

(1) the lock-up shares of Shandong Aluminum held by Directors', Supervisors' and Senior Management of Shandong Aluminum, (2) shares of Shandong Aluminum which have been pledged, or subject to other third party rights or judicially frozen, (3) shares of Shandong Aluminum held by the shareholders who have undertaken to Chalco and Shandong Aluminum to opt for share exchange and give up the cash alternative, and (4) other shares of Shandong Aluminum which are prohibited from exercising the cash alternative under the laws. Such shareholders can only exchange shares as specified by clause 3.1.

Person whose name didn't appear on the register of shareholders shall not be entitled to exercise cash alternative.

### 3.2.2 The consolidated consideration for exercising cash alternative

Holders of A Shares of Shandong Aluminum exercising cash alternative will receive cash consideration of RMB16.65 paid by the third party in respect of each share of Shandong Aluminum exercised.

### 3.2.3 Exercise of cash alternative

Holders of A Shares of Shandong Aluminum entitled to exercise cash alternative shall exercise cash alternative through Shanghai Stock Exchange during the Declaration Period for cash alternative, and such shareholders could apply for cash alternative for all or part of the shares of Shandong Aluminum held by them. Upon expiry of the Declaration Period of the cash alternative, none shall exercise cash alternative any more.

### 3.2.4 Settlement and delivery for shares exercising cash alternative

Upon the expiry of the Declaration Period, both parties to the Merger shall negotiate with the third parties and determine the allocation proportion and number of such shares among the third parties, while no negotiation is needed in the case of a single third party. It should be ensured that the

7-2-2-16

---

third parties will deposit amount payable into the designated bank accounts within the stipulated time in compliance with the requirement of regulatory authorities or departments. Both parties to the Merger shall, together with third parties and relevant authorities and departments, go through settlement and delivery procedures in respect of Cash Alternative, and transfer cash consideration into the capital account of corresponding shareholders.

### 3.3 Dissenting Shares in Chalco

3.3.1 The holders of dissenting shares in Chalco are entitled to require Chalco and/or other shareholders who agree with the Merger to purchase their shares at fair price in accordance with the article 170 the Articles of Association of Chalco, and the holders of dissenting shares can put forward such claims in writing upon the approval of the merger agreement and the Merger thereunder at the general meeting described in sub-paragraph 2.5.1.

3.3.2 In case the holders of such dissenting shares require any assenting shareholders to purchase their shares at a fair price, Chalco shall fulfil any reasonable obligations of the holders of such assenting shares, at their request, to such dissenting shareholders. However, (1) assenting shareholders shall submit to Chalco the claims in writing received by them for purchasing shares at fair price, request for withdrawal (if any) or other documents required to be submitted under the Company Law the Articles of Association of Chalco;

(2) assenting shareholders shall furnish Chalco with the opportunity to lead all negotiations and procedures related to the determination of fair price under the Articles of Association of Chalco; and (3) unless with prior consent in writing of Chalco, such assenting shareholders who opt to request Chalco to assume the aforesaid obligations shall not on their own

initiative determine any fair price or make any payment thereunder, and shall not solve and propose to solve any request to determine the fair

7-2-2-17

---

price.

3.3.3 Chalco is entitled to appointing any third party to acquire the shares claimed by such dissenting shareholders to be sold, in which case the dissenting shareholders may not request Chalco or any assenting shareholders to cancel their claims.

3.4 Share register: no further share ownership

On the registration date, the share register of Shandong Aluminum shall be closed. Subsequently, there is no further register for share transfer in the shareholder record of Shandong Aluminum other than transfer to the third party who provides cash alternative. On and after the registration date, holders of A Shares of Shandong Aluminum shall not own any rights related to such shares other than the rights of obtaining the consolidated consideration as provided in clause 3.1 and clause 3.2.

4. Representations and warranties of Shandong Aluminum

Shandong Aluminum hereby represents and warrants to Chalco that all of the statements contained in this Article IV are true and correct as at the date of this Agreement, and will be true and correct as at Effective Date of the Merger and Completion Date of the Merger.

4.1 Organization; Qualification.

It (i) is a joint stock limited company duly organized, validly existing and in good standing under the PRC Laws; and (ii) has full corporate power and authority to carry on its business as it is now being conducted and to own the properties and assets it now owns.

7-2-2-18

---

## 4.2 Subsidiaries

All the outstanding capital stock of each Subsidiary is owned directly or indirectly by it free and clear of all liens, options or encumbrances of any kind and all material claims or charges of any kind, and is validly issued, fully paid and nonassessable. Each Subsidiary (i) is a legal person duly organized, validly existing and in good standing under the PRC Laws; and (ii) has full corporate power and authority to carry on its business as it is now being conducted and to own the properties and assets it now owns.

## 4.3 Share capital

4.3.1. Total share capital of Shandong Aluminum is 672 million shares. Shandong Aluminum has 192 million outstanding A Shares as at the signing date of this agreement. All outstanding shares of Shandong Aluminum are officially authorised, validly issued and full paid up, and subject to no overpayment. Saving above provisions, as at the signing date of this agreement (1) there is no other shares of Shandong Aluminum authorised, issued or outstanding; (2) there is no options, negotiable options, pre-emptive rights, subscription rights or other rights, agreements, arrangements or commitments concerning the issued or unissued share capital of Shandong Aluminum or any subsidiary of Shandong Aluminum, and (3) Shandong Aluminum or any its subsidiary has no unfulfilled contractual obligations to repurchase, redeem or obtain otherwise of any share or share capital of Shandong Aluminum, its subsidiaries or associated companies.

4.3.2. The substantial debts of Shandong Aluminum or any of its subsidiaries shall not restrict (1) the repayment of debts by its or any of its subsidiaries in advance; (2) any debts born by its or any of its subsidiaries, or (3) any security interest on properties

7-2-2-19

---

or assets of any of its or any of its subsidiaries set by its or any of its subsidiaries.

## 4.4 Authorisation; Validity of Agreement; Company Action

Shandong Aluminum has full corporate power and authority to execute and deliver this Agreement, and to consummate the Merger. The execution and performance by it of this Agreement and the consummation by it of the Merger, have been duly authorized by its Board of Directors and, except for obtaining the approval of its shareholders as contemplated by Section 2.5.1, no other corporate action on the part of it is necessary to authorize the execution and delivery by it of this Agreement or the consummation by it of the Merger. This Agreement have been duly executed and delivered by Shandong Aluminum and, assuming due and valid authorization, execution and delivery thereof by the other party, this Agreement is valid and binding obligation enforceable against Shandong Aluminum in accordance with its terms, subject to bankruptcy and similar laws.

#### 4.5 Approvals of the Merger by the Board

Board of Directors of Shandong Aluminum, at a meeting duly called and held, has (1) determined that each of this Agreement and the Merger is fair to and in the best interests of its shareholders; (2) approved the Merger; and (3) resolved to recommend that its shareholders approve and adopt this Agreement and the Merger.

#### 4.6 Consents and Approvals; No Violations

Except for the filings, permits, authorizations, consents and approvals as may be required under, and other applicable requirements of, Shanghai Listing Rules, the Company Law or any other applicable law and regulation, none of the execution, delivery or performance of this Agreement by Shandong Aluminum, the consummation by it of the Merger or compliance by it with any of the provisions hereof will (1) conflict with or result in any breach of any provision of the articles of association, or similar organizational documents of it or any Subsidiary; (2) result in violation or breach of, or constitute (with or without due notice or the passage of time or both) a default (or give rise to any right of termination, amendment, cancellation or acceleration) under, any of the terms, conditions or provisions of any Shandong Agreement; or (3) violate

7-2-2-20

---

any order, writ, injunction, decree, statute, rule or regulation applicable to it, any Subsidiary or any of its or their properties or assets, excluding from the foregoing clauses (2) and (3) such violations, breaches or defaults which would not, individually or in

the aggregate, have a material adverse effect on it and Subsidiaries, taken as a whole.

#### 4.7 CSRC and SSE Documents and Financial Statements

Shandong Aluminum has filed with the CSRC and the SSE, and has heretofore made available to Chalco, true and complete copies of, all the Documents. As of their respective dates or, if amended, as of the date of the last such amendment filed prior to the date hereof, all the Documents, including, without limitation, any financial statements or schedules included therein (a) did not contain any untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary in order to make the statements made therein, in the light of the circumstances under which they were made, not misleading, and (2) complied in all material respects with the current regulations and rules of the PRC. The Financial Statements have been prepared from, and are in accordance with, the books and records of it and its consolidated Subsidiaries, comply in all material respects with applicable accounting requirements and with the published rules and regulations of the PRC with respect thereto, and fairly present the consolidated financial position and the consolidated results of operations and cash flows (and changes in financial position, if any) of it and its consolidated Subsidiaries as of the times and for the periods referred to therein.

#### 4.8 Absence of Certain Changes

Since the date of the Balance Sheet, (i) the business of Shandong Aluminum and each of its Subsidiaries has been conducted only in the ordinary and usual course consistent with past practice, (2) it is not aware of any events or changes (including the incurrence of any liabilities of any nature, whether or not accrued, contingent or otherwise) having or reasonably likely to have, individually or in the aggregate, a material adverse effect on it and its Subsidiaries, taken as a whole, (3) its assets have not been affected in any

7-2-2-21

---

way as a result of flood, fire, explosion or other casualty (whether or not covered by insurance) , and (4) it has not taken any action which would have been prohibited under Section 6.1 if such section applied to the period between the Balance Sheet Date and the date of execution of this Agreement.

#### 4.9 Litigation

There is no material action, suit, inquiry, proceeding or investigation by or before any court or governmental or other regulatory or administrative agency or commission pending or threatened against or involving Shandong Aluminum or any of its Subsidiaries, or which questions or challenges the validity of this Agreement or any action taken or to be taken by it or any of its Subsidiary pursuant to this Agreement or in connection with the Merger; and it does not know or have any reason to know of any valid basis for any such material action, proceeding or investigation. Neither it nor any of its Subsidiary is in default under or in violation of, or knows of any valid basis for any claim of material default under or material violation of, any contract, commitment or restriction to which it is a party or by which it is bound. Neither Shandong Aluminum nor any of its Subsidiaries is subject to any judgment, order or decree which may have an adverse effect on its business practices or on its ability to acquire any property or conduct its business in any area.

#### 4.10 Employee Benefit Plans

Each material profit-sharing, pension plan, fund or program; each employment, or termination agreement; and each other employee benefit plan, fund, program, agreement or arrangement, in each case, that is sponsored, maintained or contributed to or required to be contributed to by it, or to which it is party, whether written or oral, for the benefit of any employee or former employee of Shandong Aluminum or any of its Subsidiaries. Neither Shandong Aluminum, any of its Subsidiaries has any commitment or formal plan, whether legally binding or not, to create any additional employee benefit plan or modify or change any existing plan that would affect any employee or former

7-2-2-22

---

employee of it or any of its Subsidiaries.

#### 4.11 Tax Matters; Government Benefits

Shandong Aluminum and each of its Subsidiaries have duly filed all Tax Returns that are required to be filed excluding only such Tax Returns as to which any failure to file does not have a material adverse effect on it and its Subsidiaries and have duly paid or caused to be duly paid in full or made provision of all Taxes for all periods or portions thereof ending through the date hereof. All

Taxes owed and due by Shandong Aluminum and all Subsidiaries relating to operations on or prior to the Balance Sheet Date (whether or not shown on any Tax Return) have been paid or have been adequately reflected on the Financial Statements. Since the Balance Sheet Date, Shandong Aluminum has not incurred liability for any Taxes other than in the ordinary course of business. Neither Shandong Aluminum nor any Subsidiary has received written notice of any claim made by an authority in a jurisdiction where neither it nor any Subsidiary file Tax Returns, that it is or may be subject to taxation by that jurisdiction.

- 4.11.1 No national, provincial, or local audits, examinations or other administrative proceedings have been commenced or, to its knowledge, are pending with regard to any Taxes or Tax Returns or financial status or management of Shandong Aluminum or of any of its Subsidiaries. No written notification has been received by Shandong Aluminum or by any of its Subsidiaries that such an audit, examination or other proceeding is pending or threatened with respect to any Taxes due from or with respect to or attributable to it or any of its Subsidiaries or any Tax Return or financial status or management filed by or with respect to it or any of its Subsidiaries. To its knowledge, there is no dispute or claim concerning any Tax liability or financial status or management of its, or any of its Subsidiaries either claimed or raised by any taxing authority or auditing authority in writing.

7-2-2-23

---

#### 4.12 Title to Properties; Encumbrances

All material properties and assets reflected in the Balance Sheet and all the properties and assets purchased by Shandong Aluminum and its Subsidiaries since the balance sheet date (other than inventory and short term investments) are free and clear of all mortgages, title defects or objections, liens, claims, charges, security interests or other encumbrances of any nature whatsoever including, without limitation, leases, chattel mortgages, conditional sales contracts, collateral security arrangements and other title or interest retention arrangements, and are not, in the case of real property, subject to any rights of way, building use restrictions, exceptions, variances, reservations or limitations of any nature whatsoever except, with respect to all such properties and assets: (1) liens shown on the Balance Sheet as securing specified liabilities or obligations and liens incurred in connection with the purchase of property and/or assets, if such purchase was effected after the date of the Balance

Sheet, with respect to which no default exists; (2) minor imperfections of title, if any, none of which are substantial in amount, materially detract from the value or impair the use of the property subject thereto, or impair the operations of Shandong Aluminum or any of its Subsidiaries and which have arisen only in the ordinary course of business and consistent with past practice; and (3) liens for current taxes not yet due. The rights, properties and other assets presently owned, leased or licensed by Shandong Aluminum and its Subsidiaries and described elsewhere in this Agreement include all rights, properties and other assets necessary to permit it and its Subsidiaries to conduct their businesses in all material respects in the same manner as their businesses have been conducted prior to the date hereof.

#### 4.13 Manufacture Factory and Equipment

The Manufacture Factories, structures and equipment of Shandong Aluminum and each of its Subsidiaries are structurally sound with no known defects and are in good operating condition and repair and are adequate for the uses to which they are being put. None of such Manufacture Factories, structures or equipment is in need of maintenance or repairs except for ordinary, routine maintenance and repairs which are not material in nature or cost or overhaul in accordance with plan or required under relevant state policies. Neither Shandong Aluminum nor any of its Subsidiaries has received notification that it is in violation of any applicable building, zoning, environmental, health or other law, ordinance or regulation in respect of its Manufacture Factories or

7-2-2-24

---

structures or their operations.

#### 4.14 Leases

The terms of all leases pursuant to which Shandong Aluminum or any of its Subsidiaries leases material real or personal property are valid, binding and enforceable in accordance with their terms, and are in full force and effect; there are no existing defaults by Shandong Aluminum or any of its Subsidiaries thereunder; no event of default has occurred which (whether with or without notice, lapse of time or the happening or occurrence of any other event) would constitute a default thereunder; and all lessors under such leases have consented (where such consent is necessary) to the consummation of the Merger without requiring modification in the

rights or obligations of the lessee under such leases.

#### 4.15 Environmental Laws

(1) Shandong Aluminum and each of its Subsidiaries are in compliance in all material respects with all Environmental Laws, including, but not limited to, compliance with any permits or other governmental authorizations or the terms and conditions thereof; (2) neither it nor any of its Subsidiaries has received any communication or notice, whether from a governmental authority or otherwise, alleging any material violation of or noncompliance with any Environmental Laws by it or any of its Subsidiaries or for which any of them is responsible, and there is no pending or, to its knowledge, threatened Environmental Claim; and (c) to its knowledge, there are no past or present facts or circumstances that could form the basis of any Environmental Claim against it or any of its Subsidiaries or against any person or entity whose liability for any material Environmental Claim it or any of its Subsidiaries has retained or assumed either contractually or by operation of law, except where such Environmental Claim, if made, would not have a material adverse effect on it and its Subsidiaries taken as a whole.

#### 4.16 Compliance with Laws

Shandong Aluminum and its Subsidiaries are in compliance with, and have not violated any applicable law, rule or regulation of any PRC national, local, or

7-2-2-25

---

foreign government or agency thereof which materially affects the business, properties or assets of it and its Subsidiaries, and no notice, charge, claim, action or assertion has been received by it or any of its Subsidiaries or has been filed, commenced or, to its knowledge, threatened against it or any of its Subsidiaries alleging any such violation, except for any matter otherwise covered by this sentence which does not have, individually or in the aggregate, a material adverse effect on it and its Subsidiaries, taken as a whole. All licenses, permits and approvals required under such laws, rules and regulations are in full force and effect except where the failure to be in full force effect would not have a material adverse effect on it and its Subsidiaries taken as a whole. All licenses, permits and approvals required under such laws, rules and regulations are in full force and effect except where the failure to be in full force and effect would not have a material adverse effect on it and its

Subsidiaries taken as a whole.

#### 4.17 Intellectual Property

Either Shandong Aluminum or one of its Subsidiaries owns, or is licensed or otherwise possesses legally enforceable rights to use its Intellectual Property, and the consummation of the Merger will not alter or impair such ability in any respect. To Shandong Aluminum's knowledge, there are no oppositions, cancellations, invalidity proceedings, interferences or re-examination proceedings presently pending with respect to its Intellectual Property that are reasonably likely to have a material adverse effect on it and its Subsidiaries. To its knowledge, the conduct of the business of Shandong Aluminum and its Subsidiaries and its Intellectual Property does not infringe any Intellectual Property rights or any other proprietary right of any person, and neither it nor any of its Subsidiaries has received any written notice from any other Person pertaining to or challenging the right of it or any of its Subsidiaries to use any of the Intellectual Property. Neither it nor any of its Subsidiaries has made any claim of a violation or infringement by others of its rights to or in connection with the Intellectual Property which is still pending.

7-2-2-26

---

#### 4.18 Insurance

All material policies of fire, liability, and other forms of insurance owned or held by it and each of its Subsidiaries are in full force and effect, all premiums with respect thereto covering all periods up to and including the Completion Date have been paid, and no notice of cancellation or termination has been received with respect to any such policy. Such policies will not in any way be affected by, or terminate or lapse by reason of, the Merger.

#### 4.19 No Condemnation or Expropriation

Neither the whole nor any portion of the material leaseholds or any other material assets of Shandong Aluminum or any of its Subsidiaries is subject to any governmental decree or order to be sold or is being condemned, expropriated or otherwise taken by any public authority with or without payment of compensation therefore, nor, to the best of its knowledge, has any such condemnation, expropriation or taking been proposed.

#### 4.20 Consents

Unless PRC laws or regulations require otherwise, no consent of any person is necessary, the failure to obtain of which will prevent the consummation of the Merger, including, without limitation, consents from parties to loans, contracts, leases or other agreements.

#### 5. Representations and Warranties of Chalco

Chalco hereby represents and warrants to Shandong Aluminum that all of the statements contained in this Article V are true and correct as of the date of this Agreement and will be true and correct as of the Completion Date.

##### 5.1 Organization; Qualification

7-2-2-27

---

Chalco (1) is a company of limited liability duly organized, validly existing and in good standing under the PRC Laws; and (2) has full corporate power and authority to carry on its business as it is now being conducted and to own the properties and assets it now owns.

##### 5.2 Authorisation; Validity of Agreement; Company Action

Chalco has full corporate power and authority to execute and deliver this Agreement, and to consummate the Merger. The execution, delivery and performance by it of this Agreement and the consummation by it of the Merger, have been duly authorized by its Board of Directors and, except for obtaining the approval of its shareholders as contemplated by Section 2.5.1, no other corporate action on the part of it is necessary to authorise the execution and delivery by it of this Agreement or the consummation by it of the Merger. This Agreement have been duly executed and delivered by it and, assuming due and valid authorisation, execution and delivery thereof by the other party, this Agreement is valid and binding obligation enforceable against Chalco in accordance with its terms, subject to bankruptcy and similar laws.

##### 5.3 Approvals of the Merger by the Board

Board of Directors of Chalco, at a meeting duly called and held, has (1) determined that each of the Agreement and the Merger is fair to

and in the best interests of its shareholders, (2) approved the Merger, and (3) resolved to recommend that its shareholders approve and adopt this Agreement and the Merger.

#### 5.4 Consents and Approvals; No Violations

Except for the filings, permits, authorizations, consents and approvals as may be required under, and other applicable requirements of, the U.S. securities laws, Listing Rules, Takeovers Code and Company Law, none of the execution, delivery or performance of this Agreement by Chalco, the consummation by it

7-2-2-28

---

of the Merger or compliance by it with any of the provisions hereof will (1) conflict with or result in any breach of any provision of the articles of association, or similar organizational documents of it or any Subsidiary, (2) result in a violation or breach of, or constitute (with or without due notice or the passage of time, or both) a default (or give rise to any right of termination, amendment, cancellation or acceleration) under, any of the terms, conditions or provisions of any Company Agreement, or (3) violate any order, writ, injunction, decree, statute, rule or regulation applicable to it, any Subsidiary or any of their properties or assets, excluding from the foregoing clauses (2) and (3) such violations, breaches or defaults which would not, individually or in the aggregate, have a material adverse effect on it and Subsidiaries, taken as a whole.

## 6. COVENANTS

### 6.1 Interim Operations

Shandong Aluminum covenants and agrees that prior to the Completion Date, except (i) as expressly contemplated by this Agreement, or (ii) required by applicable law, after the date hereof:

- 6.1.1 the business of Shandong Aluminum and its Subsidiaries shall be conducted only in the usual, regular and ordinary course and substantially in the same manner as heretofore conducted, and each of it and its Subsidiaries shall use its best efforts to preserve its business organization intact, keep available the services of its current officers and employees and maintain its existing relations with customers, suppliers, creditors, business partners and others having business dealings with it, to the end

that the goodwill and ongoing business of each of them shall be unimpaired at the Completion Date; meanwhile, Shandong Aluminum or any of its Subsidiaries (as appropriate) shall perform or procure the performance of capital expenditures and maintenance expenses in

7-2-2-29

---

all the plans in relation to principle business factories owned by Shandong Aluminum or any of its Subsidiaries prior to the Completion Date. In case that any of such capital expenditures and maintenance expenses fails to be completed on the Completion Date for any reason, Shandong Aluminum shall take all necessary and reasonable actions and make all necessary and reasonable preparations (including reasonable management of any funds concerning such capital expenditures) for completion of the uncompleted capital expenditures and maintenance expenses by the existing company within the reasonable period.

- 6.1.2 neither Shandong Aluminum nor any of its Subsidiaries shall: (1) amend its articles of incorporation or similar organizational documents, (2) issue, sell, transfer, pledge, dispose of or encumber any shares of any class or series of its capital stock or Voting Debt, or securities convertible into or exchangeable for, or rights of any kind to acquire, any shares of any class or series of its capital stock or any Voting Debt, (3) declare, set aside or pay any dividend or other distribution payable in cash, stock or property with respect to any shares of any class or series of its capital stock; (4) split, combine or reclassify any shares of any class or series of its stock; or (5) redeem, purchase or otherwise acquire directly or indirectly any shares of any class or series of its capital stock, or any instrument or security which consists of or includes a right to acquire such shares;
- 6.1.3 neither Shandong nor any of its Subsidiaries shall (1) incur or modify any indebtedness or other material liability, other than in the ordinary and usual course of business and consistent with past practice; or (2) modify, amend or terminate any of its material contracts or waive, release or assign any material rights or claims, except in the ordinary course of business and consistent with past practice;

7-2-2-30

- 6.1.4 neither it nor any of its Subsidiaries shall: (1) incur or assume any material long-term debt, or except in the ordinary course of business, incur or assume any material short-term indebtedness in amounts not consistent with past practice; (2) modify the terms of any material indebtedness or other material liability, other than modifications of short term debt in the ordinary and usual course of business and consistent with past practice; (3) assume, guarantee, endorse or otherwise become liable or responsible (whether directly, contingently or otherwise) for the material obligations of any other person, as being in the ordinary course of business and consistent with past practice; (4) make any material loans, advances or capital contributions to, or investments in, any other person (other than to or in wholly owned Subsidiaries of it) if; or (5) enter into any material commitment or transaction (including, but not limited to, any capital expenditure or purchase, sale or lease of assets or real estate);
- 6.1.5 neither it nor any of its Subsidiaries shall transfer, lease, license, sell, mortgage, pledge, dispose of, or encumber any material assets other than in the ordinary and usual course of business and consistent with past practice;
- 6.1.6 Shandong Aluminum or any of its subsidiaries shall not enter into any contract or transaction in connection with material assets purchase, excluding those occurred during normal operations or consistent with past practices;
- 6.1.7 Shandong Aluminum or any of its subsidiaries shall not pay for, repurchase, cancel or pay off any material request, obligation or liability (absolute, contingent or others), excluding those in normal operations or in line with past practices;
- 6.1.8 Shandong Aluminum or any of its subsidiaries shall not, through any plan, perform liquidation, dissolution, reorganization, recapitalization or other reorganization (excluding this merger), wholly or partially, to the Company or any of its subsidiaries;
- 6.1.9 Shandong Aluminum or any of its subsidiaries shall not change the adopted accounting methods, excluding those required

by the PRC Accounting Standards; or

6.1.10 Shandong Aluminum or any of its subsidiaries shall not enter into any agreement, contract, undertakings, or arrangement concerning the above matters and shall not make authorization and proposal in respect of above matters or announce intentions for engaging in above matters.

## 6.2 Access; Confidentiality

Upon receiving reasonable prior notice, Shandong Aluminum shall (and shall procure each of its subsidiaries to) provide all of its properties, account books, undertakings and minutes to the principals, employees, accountants, legal advisers, financial advisers, or other representatives in normal working time prior to the completion of the merger. In such period, Shandong Aluminum shall (and shall procure its subsidiaries to) timely provide Chalco (1) each report, supplementary provision, registered report or the copy of other documents submitted or received in such period as required by Securities Law of the PRC and the Shanghai Listing Rules, and (2) all other information relevant to its business, property and personnel as Chalco may reasonably request.

## 6.3 Reasonable Best Efforts

6.3.1 In accordance with and subject to this Agreement, Chalco and Shandong Aluminum both agree, prior to completion date of the merger, to take or procure to take all necessary, proper or reasonable (according to any governing law) actions with reasonable best efforts to complete the merger as soon as possible. Such actions include but not limited to (1) to prepare and submit all forms, registration and notices for the purpose of completion of the merger and to take any action to obtain any necessary approval, consent, order, exemption or waiver from any third party or governmental authority and/or securities regulatory agency; (2) to meet the other party's conditions for execution, and (3) Shandong Aluminum shall officially submit all necessary conditions to cancel applications to the Administration of Industry and Commerce when all conditions set out in clauses 7.1.1~ 7.1.6 are fulfilled or waived (if applicable). In addition, after the execution of the Agreement, either party hereto shall not take any action which may result in the delay or failure to obtain the permission, approval or consent from any governmental authority prior to the

completion date of the merger.

7-2-2-32

---

6.3.2 Prior to the completion date of the merger, either party shall promptly negotiate with the other party for the documents or other information in respect of the Agreement or the merger submitted to governmental authority and/or securities regulatory agency, and shall provide necessary information and copies of such documents and information to the other party (or their respective legal adviser). Upon receipt of the letter in respect of the Agreement and the merger from governmental authority and/or securities regulatory agency, the Party shall promptly notify the other party. In the event that either party or its connected entities are required by governmental authority and/or securities regulatory agency for additional information or documents in respect of the Agreement and the merger, the party shall perform in due diligence and give proper reply after negotiation with the other party. In the event that the permissions (including environment permission) are required to transfer, alternate or change upon the execution of the Agreement and the completion of the merger, the involved party shall perform with best efforts.

#### 6.4 Publicity

The initial press release with respect to the execution of this Agreement shall be a press release acceptable to Chalco and Shandong Aluminum. Thereafter, until the date the Merger is terminated or abandoned pursuant to Article VIII, neither party nor any of its Affiliates shall issue or cause the publication of any press release, other announcement or documents with respect to the Merger, or this Agreement without prior consultation with the other party, except as may be required by law or by any listing agreement with a securities exchange or trading market or by other regulatory authorities.

#### 6.5 Directors' and Officers' Insurance and Indemnification

For three years after the completion date of merger, Chalco (or any successor to Chalco) shall indemnify, defend and hold harmless each Indemnified Party against all losses, claims, damages, liabilities, costs, fees and expenses, including reasonable fees and disbursements of counsel and judgments, fines, losses, claims, liabilities and amounts paid in settlement (provided that any such

settlement is effected with the written consent of the Chalco or any successor to Chalco) arising out of actions or omissions related to the Agreement or the Merger occurring at or prior to the Effective Date to the full extent required under applicable law, as in effect at the date hereof; provided that, in the event any claim or claims are asserted or made within such three year period, all rights to indemnification in respect of any such claim or claims shall continue until disposition of any and all such claims. Meanwhile, Shandong Aluminum shall guarantee that its directors and officers will never claim to Chalco

7-2-2-33

---

or any successor to Chalco based on their losses of positions because of the termination of Shandong Aluminum. The provisions in the Section shall survive the completion of the merger.

#### 6.6 Notice and Announcement for the Creditors

Upon obtaining the approvals from the shareholders' general meetings referred to in Section 2.5.1, Chalco and Shandong Aluminum shall inform their own creditors of the Merger by notice or announcement and satisfy their requirements of repayment or guarantee in accordance with the Company Law and their own articles of association.

#### 6.7 Chalco's Covenants

Chalco promises to suspend declaration of its dividend of 2006 (excluding declared interim dividend of 2006) prior to the practicable date of the distribution in which Chalco's A shares may have the chance to participate after the exchange date for the purpose of Chalco's A shares participation in the distribution.

### 7. CONDITIONS TO THE MERGER

#### 7.1 Conditions to Each Party's Obligation to Effect the Merger

The respective obligation of each party to effect the Merger shall be subject to the satisfaction at or prior to December 31, 2007 (or such later date as Chalco and Shandong Aluminum have agreed) of each of the following conditions, any and all of which may be waived in whole or in part by Chalco or Shandong Aluminum, as the case may be, to the extent permitted by applicable law:

#### 7.1.1 Shareholder Approval

The merger and merger agreement shall have been approved and adopted by over 2/3 of shareholders of Chalco with voting rights present at the general meeting (Matters relating to the issue of A shares of Chalco are approved) and shall have been approved and adopted by over 2/3 of non-connected shareholders of Shandong Aluminum with voting rights present at the general meeting for the purpose of completion of the merger. The merger proposal is passed at relevant shareholders' meeting of Shandong Aluminum.

#### 7.1.2 PRC Governmental Approvals

7-2-2-34

---

All necessary PRC governmental approvals, including, without limitation, China Securities Regulation Commission and State-owned Asset Supervision Administration of the State Council, for the Merger and the Merger Agreement shall have been obtained, and such approvals shall not contain terms and conditions that would have a material adverse effect on the operation of the Surviving Company after the completion date of merger;

#### 7.1.3 Issue and listing of Chalco's A shares

The initial public issue of A shares to domestic investors by Chalco has been approved by CSRC and the listing of such A shares has been approved by Shanghai Stock Exchange.

#### 7.1.4 Overseas Governmental and Regulatory Approvals

All necessary authorizations, registrations, filings, consents, permissions and approvals in connection with the Merger having been obtained or made from, with or by (as the case may be) appropriate governmental bodies and/or regulatory bodies, in Hong Kong and/or any other relevant jurisdictions (except the PRC);

#### 7.1.5 Confirm that the third party to the Merger and the Share Reform is capable of paying the cash consideration to holders

of A shares of Shandong Aluminum who have elected the Cash Alternative and will participate in the share exchange for becoming a shareholder of Chalco.

#### 7.1.6 Statutes; Court Orders

No statute, rule or regulation shall have been enacted or promulgated by any governmental authority which prohibits the consummation of the Merger; and there shall be no order or injunction of a court of competent jurisdiction in effect precluding consummation of the Merger;

#### 7.2 Conditions to Chalco's Obligations to Effect the Merger

7-2-2-35

---

The obligations of Chalco to consummate the Merger shall be subject to the satisfaction on or prior to December 31, 2007 (or such later date as Chalco and Shandong Aluminum have agreed) of each of the following conditions, any and all of which may be waived in whole or in part by Chalco, to the extent permitted by applicable law.

7.2.1 Representations and Warranties The representations and warranties of Shandong Aluminum set forth in Article IV shall not contain mistakes or omissions which would be of material significance to the Merger as of the completion date of the merger;

7.2.2 Covenants Shandong Aluminum shall have complied in all material respects with its undertakings under the terms of this Agreement and, to the extent that there is failure to comply, such non-compliance shall not be of material significance to the Merger;

#### 7.3 Conditions to Shandong Aluminum's Obligations to Effect the Merger

The obligations of Shandong Aluminum to consummate the Merger shall be subject to the satisfaction on or prior to December 31, 2007 (or such later date as Chalco and Shandong Aluminum have agreed) of each of the following conditions, any and all of which may be waived in whole or in part by Shandong Aluminum, to the extent permitted by applicable law.

7.3.1 Representations and Warranties. The representations and warranties of Chalco set forth in Article V shall not contain mistakes or omissions which would be of material significance to the Merger as of the completion date of the merger; and

7.3.2 Covenants. Chalco shall have complied in all material respects with its undertakings under the terms of this Agreement and, to the extent that there is failure to comply, such non-compliance shall not be of material significance to the Merger.

## 8. TERMINATION OF THE MERGER

7-2-2-36

---

### 8.1 Termination

The Merger may be terminated or abandoned at any time prior to the completion date of the merger, whether before or after shareholder's approval thereof:

#### 8.1.1 By either of Chalco and Shandong Aluminum:

- (1) if any Governmental Entity shall have issued an order, decree or ruling or taken any other action (which order, decree, ruling or other action the parties hereto shall use their reasonable efforts to lift), which permanently restrains, enjoins or otherwise prohibits the Merger and such order, decree, ruling or other action shall have become final and non-appealable;
- (2) all the Conditions referred to in Article VII shall not have been satisfied or waived (if applicable) by December 31, 2007;
- (3) Chalco has not obtained the requisite vote required by Section 2.5.1 at the duly held special shareholders meeting;  
or
- (4) Shandong Aluminum has not obtained the requisite vote required by Section 2.5.1 at the duly held special shareholders meeting and/or relevant shareholders' meeting;

8. By Chalco:  
1.2

If Shandong Aluminum shall have breached any of its representations, warranties, covenants or other agreements contained in this Agreement, which breach cannot be or has not been cured within 30 days after the giving of written notice by Chalco to Shandong Aluminum, as applicable; and

8. By Shandong Aluminum  
1.3

If Chalco shall have breached any of its representation, warranty, covenant or other agreement contained in this Agreement, which breach cannot be or has not been cured within 30 days after the giving of written notice by Shandong Aluminum to Chalco, as applicable.

7-2-2-37

---

8. Chalco and Shandong Aluminum both agree to terminate the  
1.4 Agreement in writing prior to the completion date of the merger.

8.2 Effect of Termination

In the event of the termination or abandonment of the Merger by any party hereto pursuant to the terms of this Agreement, written notice thereof shall forthwith be given to the other party or parties specifying the provision hereof pursuant to which such termination or abandonment of the Merger is made, and there shall be no liability on the part of Chalco or Shandong Aluminum except (1) for fraud committed to the other party related to the Merger or for breach of this Agreement prior to such termination or abandonment of the Merger and (2) as set forth in Sections 8.1.2 or 8.1. 3.

9. MISCELLANEOUS

9.1 Taxes

9.1.1 Except as specifically provided to the contrary in this Agreement, including Section 9.1.2 and 9.1.3, all taxes incurred

in connection with this Agreement and the consummation of the Merger shall be paid in accordance with relevant laws, regulations or regulatory documents. Should no such provision, such taxes shall be paid by the party incurring such expenses.

9.1.2 If Chalco shall terminate or abandon the Merger pursuant to Section 8.1.1(4) or Section 8.1.2, or if Shandong Aluminum shall terminate or abandon the Merger pursuant to Section 8.1.1(4), then Shandong Aluminum shall pay to Chalco an amount equal to Chalco's actual and reasonably documented out-of-pocket fees and expenses incurred by Chalco in connection with, the Merger, this Agreement and the consummation of the Merger.

9.1.3 If Shandong Aluminum shall terminate or abandon the Merger pursuant to Section 8.1.1(3) or Section 8.1.3, or if Chalco shall terminate or abandon the Merger pursuant to Section 8.1.1(3), then Chalco shall pay to Shandong Aluminum an amount equal to Shandong Aluminum's actual and reasonably documented out-of-pocket fees and expenses

7-2-2-38

---

incurred by Shandong Aluminum in connection with, the Merger, this Agreement and the consummation of the Merger.

## 9.2 Amendment and Modification

Subject to applicable law, this Agreement may be amended, modified and supplemented in any and all respects, whether before or after any vote of the shareholders of both parties contemplated hereby, by written agreement of the parties hereto, by action taken by their respective Boards of Directors, at any time prior to the completion date of the merger with respect to any of the terms contained herein; provided, however, that after the approval of this Agreement by their respective shareholders, no such amendment, modification or supplement shall reduce the amount or change the form of the Merger Consideration.

## 9.3 Non-survival of Representations and Warranties

None of the representations and warranties in this Agreement or in any schedule or other document delivered pursuant to this Agreement shall survive the completion date of the merger. The

foregoing sentence shall not limit any covenant or agreement of the parties which by its terms contemplates performance after the completion date of the merger.

#### 9.4 Notices

All notices and other communications hereunder shall be in writing and shall be deemed given if delivered personally, telecopied (which is confirmed) or sent by an overnight courier service, such as Federal Express and EMS in the PRC, to the parties at the following addresses (or at such other address for a party as shall be specified by like notice):

##### 9.4.1 if to Chalco, to:

Aluminum Corporation of China Limited  
Address: No.62 North Xizhimen Street, Haidian District,  
Beijing  
Postcode:  
Attention: Ma Xiaoling

7-2-2-39

---

Tel: (010) 8229 8606  
Fax: (010) 8229 8620

##### 9.4.2 if to Shandong Aluminum, to:

Shandong Aluminum Industry Co., Ltd.  
Address: No.1, Wugongli Road, Zhandian District, Zibo City,  
Shandong Province, PRC.  
Postcode: 255052  
Attention: Wang Guozhong  
Tel: 0533-2930136  
Fax: 0533-2985999

If delivered by courier, the delivery is confirmed when the notice reaches the address and the addressee confirmed above; if delivered by facsimile, the delivery is confirmed upon receipt of the facsimile slip by the sender; if delivered by mail or speed post, the arrival date shown on the return receipt shall be the

delivery date.

#### 9.5 Counterparts

This Agreement may be executed in one or more counterparts, each of which shall be considered one and the same agreement.

#### 9.6 Entire Agreement; No Third Party Beneficiaries

This Agreement (including the documents and the instruments referred to herein): (a) constitute the entire agreement and supersede all prior agreements and understandings, both written and oral, among the parties with respect to the subject matter hereof and thereof, and (b) except as provided in Section 6.5 are not intended to confer upon any person other than the parties hereto and thereto any rights or remedies hereunder.

#### 9.7 Severability

7-2-2-40

---

Any term or provision of this Agreement that is held by a court of competent jurisdiction or other authority to be invalid, void or unenforceable in any situation in any jurisdiction shall not affect the validity or enforceability of the remaining terms and provisions hereof or the validity or enforceability of the offending term or provision in any other situation or in any other jurisdiction. If the final judgment of a court of competent jurisdiction or other authority declares that any term or provision hereof is invalid, void or unenforceable, the parties agree that the court making such determination shall have the power to reduce the scope, duration, area or applicability of the term or provision, to delete specific words or phrases, or to replace any invalid, void or unenforceable term or provision with a term or provision that is valid and enforceable and that comes closest to expressing the intention of the invalid or unenforceable term or provision.

#### 9.8 Governing Law

This Agreement shall be governed by and construed in accordance with the laws of the People's Republic of China.

#### 9.9 Force Majeure

Prior to the Completion Date of the Merger, in the event that the Merger fails to be fulfilled or fully fulfilled as a result of force majeure (including but not limited to events, such as earthquakes, typhoons, floods, fires, wars and acts of administrative intervention by the government) and changes in conditions, the party having the above force majeure event shall at once inform the other party about the event in the form of telegram or written notice within seven days, and provide details of the event and valid proofs for reasons of failure or partial failure to perform or the needs to delay performance of the Agreement. Both parties shall decide whether or not to amend or terminate the Agreement by reference to the extent of the impact on the performance of the Agreement by the event. If the event leads to the failure of the Merger, both parties will not assume any liability for breach.

#### 9.10 Time of Essence

Either party hereto agrees that, with regard to all dates and time periods set forth or referred to in this Agreement, time is of the essence.

#### 9.11 Extension; Waiver

At any time prior to the completion date of the merger, the parties may (a) extend the

7-2-2-41

---

time for the performance of any of the obligations or other acts of the other parties, (b) waive any inaccuracies in the representations and warranties of the other parties contained in this Agreement or in any document delivered pursuant to this Agreement or (c) subject to the proviso of Section 8.2, waive compliance by the other parties with any of the agreements or conditions contained in this Agreement. Any agreement on the part of a party to any such extension or waiver shall be valid only if set forth in an instrument in writing signed on behalf of such party. The failure of any party to this Agreement to assert any of its rights under this Agreement or otherwise shall not constitute a waiver of those rights.

#### 9.12 Assignment

Neither this Agreement nor any of the rights, interests or obligations hereunder shall be assigned by any of the parties hereto (whether by operation of law or otherwise) without the prior written consent of the other parties. Subject to the preceding sentence, this Agreement will be binding upon, inure to the benefit of and be enforceable by the parties and their respective successors and assigns.

#### 9.13 Language

The Agreement shall be written and signed in Chinese.

#### 9.14 Heads

All captions given at the head of each article are just for reader's convenience and shall not be referred to at comprehension and interpretation of the Agreement.

#### 9.15 Settlement of Disputes

All disputes arising from or in connection with this Agreement shall be settled through negotiation between the parties. If no agreement could be reached, the dispute shall be submitted to China International Economic and Trade Arbitration Committee for arbitration in accordance with the prevailing rules of the Commission. Arbitration shall be made in accordance with effective arbitration rules at that time. The arbitration award shall be final, binding upon both parties hereto.

7-2-2-42

---

#### 9.16 Effecting the Agreement

The Agreement shall come into effect upon signature by both parties hereto.

IN WITNESS WHEREOF, Chalco has caused this agreement to be signed by their respective officers thereunto duly authorized as of the date first written above.

MERGER AGREEMENT

The merger agreement was entered into on 28 December 2006 by following parties:

the Acquiree or the Merged Party: Lanzhou Aluminum Corporation Limited, a joint stock limited company incorporated in the People's Republic of China with limited liability ("Lanzhou Aluminum")

Whereas:

1. Aluminum Corporation of China Limited, a company has overseas listed foreign shares ("H Shares"), the H Shares and ADRs of which are listed on the Hong Kong Stock Exchange and the New York Stock Exchange, respectively.
2. Lanzhou Aluminum Corporation Limited, a company has domestically listed domestic shares ("A Shares"), the A shares of which are listed on the Shanghai Stock Exchange. Chalco, Lanzhou Aluminum Factory, Lanzhou Economic Information Consultants Inc. and other public A shareholders hold 29%, 14.65%, 1.69% and 55.65% interests in the total share capital of Lanzhou Aluminum, respectively. Lanzhou Aluminum has not completed its share reform.
3. The relevant proposal regarding the merger of Lanzhou Aluminum by Chalco and the share reform of Lanzhou Aluminum, as well as this agreement have been approved by the board of Chalco and Lanzhou Aluminum under the Company Law of the People's Republic of China ("Company Law") and the Articles of Association of each party, respectively.
4. Chalco and Lanzhou Aluminum desire to make certain representations, warranties, covenants and agreements in connection with the Merger and set forth the terms on which it will be carried into effect.

7-2-2-3

---

Through friendly negotiation, parties hereto have reached the following agreement on matters of the Merger under Company Law, Contract Law of the People's Republic of China and the provisions of relevant laws, regulations, and normative documents:

1. Definitions and Interpretations

1.1 Definitions

For the purposes of this Agreement, except as otherwise expressly provided or unless the context clearly requires otherwise, following

terms used herein have the following meanings:

the "Acquirer", the "Merging Party" "Chalco"	Aluminum Corporation of China Limited, a joint stock limited company incorporated in the People's Republic of China
the "Acquiree", the "Merged Party" "Lanzhou Aluminum"	Lanzhou Aluminum Corporation Limited, a joint stock limited company incorporated in the People's Republic of China
"Subsisting Company"	Chalco after the Merger
"Third Party"	Unless otherwise confirmed as any party no particular with reference to the context, it refers to one or more persons who provide Cash Alternative to A shareholders and other non-circulating shareholders of Lanzhou Aluminum. Shares of A shareholders and other non-circulating shareholders of Lanzhou Aluminum who have exercised their cash alternative will transfer to the Third Party. The Third Party will exercise the rights to transfer such shares to A Shares of Chalco.
"Compensated Party"	each present and former senior management and director of Lanzhou Aluminum and its Subsidiaries, and each person

7-2-2-4

---

who becomes any of the foregoing prior to the Completion Date of the Merger.

"Subsidiaries"	for the purpose of Lanzhou Aluminum, any corporation, joint venture (equity or contractual) or other business organization, whether incorporated or unincorporated, of which (a) at least 50% of the securities or other interests having by their terms ordinary voting power to elect a majority of the Board of Directors or others performing similar functions with respect to such corporation,
----------------	---

joint venture or other business organization is directly or indirectly owned or controlled by Lanzhou Aluminum or by any one or more of its Subsidiaries, or (b) Lanzhou Aluminum or any other Subsidiary of Lanzhou Aluminum is a general partner (excluding any such partnership where Lanzhou Aluminum or any Subsidiary of Lanzhou Aluminum does not have a majority of the voting interest in such partnership), or co-venturer owning at least 50% of the aggregate joint venture interests.

"Person" a natural person, partnership, corporation, limited liability company, business trust, joint stock company, trust, unincorporated association, joint venture, governmental entity or other entity or organization.

the "Merger" the merger of Lanzhou Aluminum by Chalco as set out in section 2.1 hereof.

"Consideration of the Merger" For the purpose of Chalco, the consideration for the Merger will be satisfied with A shares of Chalco with number equal to Total Shares for the Share Exchange which will be issued to A shareholders and other non-circulating shareholders of Lanzhou Aluminum and/or the third party who has paid cash consideration

7-2-2-5

---

for the Merger. For the purpose of A shareholders and other non-circulating shareholders of Lanzhou Aluminum, they can exchange shares of Lanzhou Aluminum held by them for A shares of Chalco, or obtain relevant cash consideration by exercising cash alternative.

"Share Reform" actions or events that remove the split share structure between non-circulating shareholders and circulating shareholders of Lanzhou Aluminum by the Merger and the completion of share reform.

"Agreement"	the Merger Agreement.
"the Board of Chalco"	the board of Chalco.
"the Articles of Association of Chalco"	the Articles of Association of Chalco.
"A Shares of Chalco"	the ordinary shares of Chalco in initial public offering to domestic investors which have been listed on the Shanghai Stock Exchange, after approved by the CSRC and the Shanghai Stock Exchange.
"Dissenting Shares in Chalco"	any shares of Chalco as to which the holder thereof put forward objections in writing upon the approval of the merger agreement and the Merger thereunder at the general meeting described in sub-paragraph 2.5.1 and demanded Chalco and/or other shareholders who agree with the Merger to purchase their shares at a fair price in accordance with the article 170 the Articles of Association of Chalco, and has neither withdrawn nor lost the right to put forward such demand as at the Completion Date of the Merger.
"the Articles of Association of Lanzhou Aluminum"	the Articles of Association of Lanzhou Aluminum.

7-2-2-6

---

"Lanzhou Aluminum Agreement"	any note, bond, mortgage, indenture, lease, license, contract, agreement or other instrument or obligation to which Lanzhou Aluminum or any of its Subsidiary is a party or by which any of them or any of their properties or assets may be bound as at Completion Date of the Merger.
------------------------------	---

"A shares of Lanzhou Aluminum"	the ordinary shares of Chalco in initial public offering to domestic investors which have been listed on the Shanghai Stock Exchange.

## 1.2 Interpretations

- 1.2.1 When a reference is made in this Agreement to a section or article, such reference shall be to a section or article of this Agreement unless otherwise clearly indicated to the contrary.
- 1.2.2 Whenever the words "include", "includes" or "including" are used in this Agreement they shall be deemed to be followed by the words "without limitation."
- 1.2.3 A reference to any party to this Agreement or any other agreement or document shall include such party's successors and permitted assigns.
- 1.2.4 A reference to any legislation or to any provision of any legislation shall include any modification or re-enactment thereof, any legislative provision substituted therefore and all regulations and statutory instruments issued thereunder or pursuant thereto.
- 1.2.5 The parties have participated jointly in the negotiation and drafting of this Agreement. If an ambiguity or question of intent or interpretation arises, this Agreement shall be construed as if drafted jointly by the parties, and no presumption or burden of proof shall arise favoring or disfavoring any party by virtue of the authorship of any provisions of this Agreement.

7-2-2-11

## 2. The Merger

### 2.1 The Merger

Subject to the terms and conditions of the Agreement, the Merger of Chalco and Lanzhou Aluminum will be conducted by way of share exchange and will be completed on Completion Date of the Merger. The Merger will be conducted in parallel to the Share Reform of Lanzhou Aluminum and the A share issue of Chalco.

Upon completion of the Merger, (1) Lanzhou Aluminum will be consolidated into Chalco, delisted, de-registered legal person status and no longer existed as an independent company; (2) Chalco, as the Subsisting Company after the Merger, its registered capital and shareholding structure will be changed accordingly; (3) Chalco and all its rights, privileges, immunities and licenses will not be affected by the Merger; (4) All assets, liabilities, businesses and employees of Lanzhou Aluminum will be taken over by Chalco under laws. All rights and liabilities attached to the assets of Lanzhou Aluminum also will be enjoyed and assumed by Chalco under laws; (5) The Articles of Association of Chalco will be the Articles of Association of the Subsisting Company. New Articles of Association (draft) have been prepared by Chalco in wake of the issue of A shares. The Articles of Association (draft) will be the new Articles of Association of the Subsisting Company, and will take effect upon approval by relevant authorities after the issue and listing of A share; (6) the Merger shall have the effectiveness as stipulated by the Company Law; Lanzhou Aluminum was aware and agreed that Chalco would acquire Shangdong Aluminum Industry Co., Ltd. ("Shangdong Aluminum") while acquiring Lanzhou Aluminum. However, the merger of Lanzhou Aluminum by Chalco and the merger of Shangdong Aluminum are not inter-conditional.

### 2.2 Completion Date of the Merger

7-2-2-12

---

Chalco and Lanzhou Aluminum shall conduct the change of registration of Chalco and deregistration of Lanzhou Aluminum with the Industrial and Commercial Administration as soon as possible. Completion Date of the Merger shall be the date when all conditions

set out in Article 7 are fulfilled or waived (if applicable) and the change of registration of Chalco and deregistration of Lanzhou Aluminum are completed.

### 2.3 Directors, Supervisors and Senior Management of the Subsisting Company

Members of the board, supervisory committee of Chalco shall become directors and supervisors of the Subsisting Company commencing from the Completion Date of the Merger, until its successors are duly appointed or assume the post under the Articles of Association of the Subsisting Company or resigned or are dismissed upon approval by the Subsisting Company. The Management of Chalco shall become Senior Management of the Subsisting Company commencing from the Completion Date of the Merger, until its successors are duly appointed or assume the post under the Articles of Association of the Subsisting Company or resigned or are dismissed upon approval by the Subsisting Company.

Directors and supervisors of Lanzhou Aluminum shall cease to perform their duties and obligations commencing from the Completion Date of the Merger.

### 2.4 Further Action

If the Subsisting Company deems or is informed that it is necessary or appropriate to make any application, contract, transfer, guarantee or any other action or events, at any time after the Completion Date of the Merger, to grant, improve or confirm any rights, own rights or interests of Chalco and Lanzhou Aluminum and their properties or assets which acquired or will be acquired by the Subsisting Company as a result of merger or execution of this agreement, for the purpose of executing this agreement, directors or any other person

7-2-2-13

---

authorized by the board of the Subsisting Company shall be granted the rights to execute or deliver all such application, contract, transfer, guarantee or other relevant documents in the name of or on behalf of Chalco and Lanzhou Aluminum, and take all necessary action to grant, improve or confirm rights, own rights or interests of such rights, properties or assets of the Subsisting Company, for the purpose of executing this agreement.

## 2.5 General Meeting

2.5.1 In order to complete the Merger, Chalco and Lanzhou Aluminum shall take following action under Company Law through their respective board:

- 1) to duly convene, notify, hold all necessary shareholders' and/or directors' meeting immediately, to make discussion in respect of the approval of the Merger and the Agreement and take actions;
- 2) to try their best to obtain support from the shareholders for the Merger, and take all other necessary or proper action, to obtain voting and consent of shareholders which is necessary for the Completion of the Merger under Company Law, the Articles of Association and/or the Hong Kong Listing Rules and Shanghai Listing Rules.

2.5.2 Unless otherwise required by applicable law, Chalco and Lanzhou Aluminum shall have rights to review information set out in relevant documents in respect of the Merger before sending to any third party, authority department or security regulatory authorities or written materials to each party, in the event they are relating to Chalco and Lanzhou Aluminum, and conduct negotiation with the other party regarding such information and written materials if applicable. Chalco and Lanzhou Aluminum

7-2-2-14

---

shall act in a proper and timely manner when exercising aforesaid rights.

## 3. Consideration of the Merger

### 3.1 Share Exchange

#### 3.1.1 Share Exchange

As at the date of Share Exchange, since the Merger does not require any shareholder of Lanzhou Aluminum to take any further action, all other non-circulating shareholders and A

shareholders of Lanzhou Aluminum whose names appear on the register of members of the Company at the registration date (excluding shareholders who exercised the cash alternative under regulations set out in clause 3.2) shall exchange their each other non-circulating share and A share in Lanzhou Aluminum for certain A shares in Chalco at the share exchange ratio set out in sub-paragraph 3.1.2. After the Registration Date, save as the third party, being the cash alternative provider, any person whose name does not appear on the register of members of the Company at the registration date are not entitled to the rights set out in this sub-paragraph.

### 3.1.2 Share Exchange Price and Share Exchange Ratio

The A shares of Chalco and Lanzhou Aluminum were priced at RMB6.6 and RMB11.88 per share respectively, other non-circulating shares of Lanzhou Aluminum was priced at RMB6.6. The share exchange ratio for A shares in Lanzhou Aluminum and Chalco is 1:1.80, namely, each A shares in Lanzhou Aluminum will exchange for 1.80 A shares in Chalco. The share exchange ratio between other non-circulating shares of Lanzhou Aluminum and A shares of Chalco is 1:1, namely, each other non-circulating share in Lanzhou Aluminum will exchange for one A shares in Chalco.

7-2-2-15

---

### 3.1.3 Arrangement for the odd shares

Upon the share exchange, the numbers of A shares in Chalco obtained by other non-circulating shares and A shareholders of Lanzhou Aluminum shall be integral. If number of shares in Lanzhou Aluminum held by other non-circulating shareholders and A shareholders of Lanzhou Aluminum, after divided by share exchange ratio, is not integral, the odd shares are sorted according to the value of fractions and will be distributed to one shareholder for one share (by computer balloting in case that the number of equal fractions exceeds that of odd shares) until the actual share exchange number equals to the total number of the A shares of Chalco.

### 3.1.4 Arrangement for the restricted shares of Lanzhou Aluminum

In the share exchange, other non-circulating shares or A shares of Lanzhou Aluminum which have been pledged or subject to

other third party rights or judicially frozen should be exchanged for Chalco shares, while the pledge, other third party rights and judicial freezing attached to such shares remain unchanged over the exchanged Chalco A shares.

### 3.2 Cash alternative

#### 3.2.1 Subject entitled to cash alternative

All holders of A Shares and other non-circulating shares of Lanzhou Aluminum whose name appeared on the register of shareholders as at the register date shall be entitled to exercise cash alternative as specified by this clause other than holders of the following shares: (1) the lock-up shares of Lanzhou Aluminum held by Directors', Supervisors' and Senior Management of Lanzhou Aluminum, (2) shares of Lanzhou Aluminum which have been pledged, or subject to other third party rights or judicially frozen, (3) shares of Lanzhou Aluminum held by the shareholders who have undertaken to Chalco and Lanzhou Aluminum to opt for share

7-2-2-16

---

exchange and give up the cash alternative, and (4) other shares of Lanzhou Aluminum which are prohibited from exercising the cash alternative under the laws. Such shareholders can only exchange shares as specified by Paragraph 3.1.

Person whose name didn't appear on the register of shareholders shall not be entitled to exercise cash alternative.

#### 3.2.2 The consolidated consideration for exercising cash alternative

Holders of A Shares of Lanzhou Aluminum exercising cash alternative will receive cash consideration of RMB9.50 paid by the third party in respect of each share of Lanzhou Aluminum exercised. Holders of other non-circulating Shares of Lanzhou Aluminum exercising cash alternative will receive cash consideration of RMB5.534 paid by the third party in respect of each share of Lanzhou Aluminum exercised.

#### 3.2.3 Exercise of cash alternative

Holders of A Shares and other non-circulating shares of Lanzhou Aluminum entitled to exercise cash alternative shall exercise cash alternative through Shanghai Stock Exchange during the Declaration Period for cash alternative, and such shareholders could apply for cash alternative for all or part of the shares of Lanzhou Aluminum held by them. Upon expiry of the Declaration Period of the cash alternative, none shall exercise cash alternative any more.

### 3.2.4 Settlement and delivery for shares exercising cash alternative

Upon the expiry of the Declaration Period, both parties to the Merger shall negotiate with the third parties and determine the allocation proportion and number of such shares among the third parties, while no negotiation is needed in the case of a single third party. The third parties shall deposit

7-2-2-17

---

amount payable into the designated bank accounts within the stipulated time in compliance with the requirement of regulatory authorities or departments. Both parties to the Merger shall, together with third parties and relevant authorities and departments, go through settlement and delivery procedures in respect of Cash Alternative, and transfer cash consideration into the capital account of corresponding shareholders.

### 3.3 Dissenting Shares in Chalco

3.3.1 The holders of dissenting shares in Chalco are entitled to require Chalco and/or other shareholders who agree with the Merger to purchase their shares at fair price in accordance with the article 170 the Articles of Association of Chalco, and the holders of dissenting shares can put forward such claims in writing upon the approval of the merger agreement and the Merger thereunder at the general meeting described in sub-paragraph 2.5.1.

3.3.2 In case the holders of such dissenting shares require any assenting shareholders to purchase their shares at a fair price, Chalco shall fulfil any reasonable obligations of the holders of such assenting shares, at their request, to such dissenting shareholders. However, (1) assenting shareholders shall submit to Chalco the claims in writing received by them for purchasing shares at fair price, request for withdrawal (if any) or other

documents required to be submitted under the Company Law the Articles of Association of Chalco; (2) assenting shareholders shall furnish Chalco with the opportunity to lead all negotiations and procedures related to the determination of fair price under the Articles of Association of Chalco; and (3) unless with prior consent in writing of Chalco, such assenting shareholders who opt to request Chalco to assume the aforesaid obligations shall not on their own initiative determine any fair price or make any payment thereunder, and shall not solve and

7-2-2-18

---

propose to solve any request to determine the fair price.

3.3.3 Chalco is entitled to appointing any third party to acquire the shares claimed by such dissenting shareholders to be sold, in which case the dissenting shareholders may not request Chalco or any assenting shareholders to cancel their claims.

#### 3.4 Share register: no further share ownership

On the registration date, the share register of Lanzhou Aluminum shall be closed. Subsequently, there is no further register for share transfer in the shareholder record of Lanzhou Aluminum other than transfer to the third party who provides cash alternative. On and after the registration date, holders of A Shares and other non-circulating shares of Lanzhou Aluminum shall not own any rights related to such shares other than the rights of obtaining the consolidated consideration as provided in clause 3.1 and/or clause 3.2.

#### 4. Representations and warranties of Lanzhou Aluminum

Lanzhou Aluminum hereby represents and warrants to Chalco that all of the statements contained in this Article IV are true and correct as at the date of this Agreement, and will be true and correct as at Effective Date of the Merger and Completion Date of the Merger.

##### 4.1 Organization; Qualification.

It (i) is a joint stock limited company duly organized, validly existing and in good standing under the PRC Laws; and (ii) has full corporate power and authority to carry on its business as it is now being conducted and to own the properties and assets it now owns.

## 4.2 Subsidiaries

All the outstanding capital stock of each Subsidiary is owned directly or indirectly by

7-2-2-19

---

it free and clear of all liens, options or encumbrances of any kind and all material claims or charges of any kind, and is validly issued, fully paid and nonassessable. Each Subsidiary (i) is a legal person duly organized, validly existing and in good standing under the PRC Laws; and (ii) has full corporate power and authority to carry on its business as it is now being conducted and to own the properties and assets it now owns.

## 4.3 Share Capital

4.3.1. Total share capital of Lanzhou Aluminum is 542,326,578 shares. Lanzhou Aluminum has 301,820,754 outstanding A Shares and 88,654,382 other non-circulating shares as at the signing date of this agreement. All outstanding shares of Lanzhou Aluminum are officially authorised, validly issued and full paid up, and subject to no overpayment. Saving above provisions, as at the signing date of this agreement (1) there is no other shares of Lanzhou Aluminum authorised, issued or outstanding; (2) there is no options, negotiable options, preemptive rights, subscription rights or other rights, agreements, arrangements or commitments concerning the issued or unissued share capital of Lanzhou Aluminum or any subsidiary of Lanzhou Aluminum, and (3) Lanzhou Aluminum or any its subsidiary has no unfulfilled contractual obligations to repurchase, redeem or obtain otherwise of any share or share capital of Lanzhou Aluminum, its subsidiaries or associated companies.

The substantial debts of Lanzhou Aluminum or any of its subsidiaries shall not restrict (1) the repayment of debts by its or any of its subsidiaries in advance; (2) any debts born by its or any of its subsidiaries, or (3) any security interest on properties or assets of any of its or any of its subsidiaries set by its or any of its subsidiaries.

## 4.4 Authorisation; Validity of Agreement; Company Action

Lanzhou Aluminum has full corporate power and authority to execute and

7-2-2-20

---

deliver this Agreement, and to consummate the Merger. The execution and performance by it of this Agreement and the consummation by it of the Merger, have been duly authorized by its Board of Directors and, except for obtaining the approval of its shareholders as contemplated by Section 2.5.1, no other corporate action on the part of it is necessary to authorize the execution and delivery by it of this Agreement or the consummation by it of the Merger. This Agreement have been duly executed and delivered by Lanzhou Aluminum and, assuming due and valid authorization, execution and delivery thereof by the other party, this Agreement is valid and binding obligation enforceable against Lanzhou Aluminum in accordance with its terms, subject to bankruptcy and similar laws.

#### 4.5 Approvals of the Merger by the Board

Board of Directors of Lanzhou Aluminum, at a meeting duly called and held, has (1) determined that each of this Agreement and the Merger is fair to and in the best interests of its shareholders; (2) approved the Merger; and (3) resolved to recommend that its shareholders approve and adopt this Agreement and the Merger.

#### 4.6 Consents and Approvals; No Violations

Except for the filings, permits, authorizations, consents and approvals as may be required under, and other applicable requirements of, Shanghai Listing Rules, the Company Law or any other applicable law and regulation, none of the execution, delivery or performance of this Agreement by Lanzhou Aluminum, the consummation by it of the Merger or compliance by it with any of the provisions hereof will (1) conflict with or result in any breach of any provision of the articles of association, or similar organizational documents of it or any Subsidiary; (2) result in violation or breach of, or constitute (with or without due notice or the passage of time or both) a default (or give rise to any right of termination, amendment, cancellation or acceleration) under, any of the terms, conditions or provisions of any Lanzhou Agreement; or (3) violate any order, writ, injunction, decree, statute, rule or regulation applicable to it, any Subsidiary or any of its or their properties or assets, excluding from

the foregoing clauses (2) and (3) such violations, breaches or defaults which would not, individually or in the aggregate, have a material adverse effect on it and Subsidiaries, taken as a whole.

7-2-2-21

---

#### 4.7 CSRC and SSE Documents and Financial Statements

Lanzhou Aluminum has filed with the CSRC and the SSE, and has heretofore made available to Chalco, true and complete copies of, all the Documents. As of their respective dates or, if amended, as of the date of the last such amendment filed prior to the date hereof, all the Documents, including, without limitation, any financial statements or schedules included therein (a) did not contain any untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary in order to make the statements made therein, in the light of the circumstances under which they were made, not misleading, and (2) complied in all material respects with the current regulations and rules of the PRC. The Financial Statements have been prepared from, and are in accordance with, the books and records of it and its consolidated Subsidiaries, comply in all material respects with applicable accounting requirements and with the published rules and regulations of the PRC with respect thereto, and fairly present the consolidated financial position and the consolidated results of operations and cash flows (and changes in financial position, if any) of it and its consolidated Subsidiaries as of the times and for the periods referred to therein.

#### 4.8 Absence of Certain Changes

Since the date of the Balance Sheet, (i) the business of Lanzhou Aluminum and each of its Subsidiaries has been conducted only in the ordinary and usual course consistent with past practice, (2) it is not aware of any events or changes (including the incurrence of any liabilities of any nature, whether or not accrued, contingent or otherwise) having or reasonably likely to have, individually or in the aggregate, a material adverse effect on it and its Subsidiaries, taken as a whole, (3) its assets have not been affected in any way as a result of flood, fire, explosion or other casualty (whether or not covered by insurance) , and (4) it has not taken any action which would have been prohibited under Section 6.1 if such section applied to the period between the Balance Sheet Date and the date of execution of this Agreement.

7-2-2-22

#### 4.9 Litigation

There is no material action, suit, inquiry, proceeding or investigation by or before any court or governmental or other regulatory or administrative agency or commission pending or threatened against or involving Lanzhou Aluminum or any of its Subsidiaries, or which questions or challenges the validity of this Agreement or any action taken or to be taken by it or any of its Subsidiary pursuant to this Agreement or in connection with the Merger; and it does not know or have any reason to know of any valid basis for any such material action, proceeding or investigation. Neither it nor any of its Subsidiary is in default under or in violation of, or knows of any valid basis for any claim of material default under or material violation of, any contract, commitment or restriction to which it is a party or by which it is bound. Neither Lanzhou Aluminum nor any of its Subsidiaries is subject to any judgment, order or decree which may have an adverse effect on its business practices or on its ability to acquire any property or conduct its business in any area.

#### 4.10 Employee Benefit Plans

Each material profit-sharing, pension plan, fund or program; each employment, or termination agreement; and each other employee benefit plan, fund, program, agreement or arrangement, in each case, that is sponsored, maintained or contributed to or required to be contributed to by it, or to which it is party, whether written or oral, for the benefit of any employee or former employee of Lanzhou Aluminum or any of its Subsidiaries. Neither Lanzhou Aluminum, any of its Subsidiaries has any commitment or formal plan, whether legally binding or not, to create any additional employee benefit plan or modify or change any existing plan that would affect any employee or former employee of it or any of its Subsidiaries.

#### 4.11 Tax Matters; Government Benefits

7-2-2-23

---

Lanzhou Aluminum and each of its Subsidiaries have duly filed all Tax Returns that are required to be filed excluding only such Tax

Returns as to which any failure to file does not have a material adverse effect on it and its Subsidiaries and have duly paid or caused to be duly paid in full or made provision of all Taxes for all periods or portions thereof ending through the date hereof. All Taxes owed and due by Lanzhou Aluminum and all Subsidiaries relating to operations on or prior to the Balance Sheet Date (whether or not shown on any Tax Return) have been paid or have been adequately reflected on the Financial Statements. Since the Balance Sheet Date, Lanzhou Aluminum has not incurred liability for any Taxes other than in the ordinary course of business. Neither Lanzhou Aluminum nor any Subsidiary has received written notice of any claim made by an authority in a jurisdiction where neither it nor any Subsidiary file Tax Returns, that it is or may be subject to taxation by that jurisdiction.

4.11.1 No national, provincial, or local audits, examinations or other administrative proceedings have been commenced or, to its knowledge, are pending with regard to any Taxes or Tax Returns or financial status or management of Lanzhou Aluminum or of any of its Subsidiaries. No written notification has been received by Lanzhou Aluminum or by any of its Subsidiaries that such an audit, examination or other proceeding is pending or threatened with respect to any Taxes due from or with respect to or attributable to it or any of its Subsidiaries or any Tax Return or financial status or management filed by or with respect to it or any of its Subsidiaries. To its knowledge, there is no dispute or claim concerning any Tax liability or financial status or management of its, or any of its Subsidiaries either claimed or raised by any taxing authority or auditing authority in writing.

#### 4.12 Title to Properties; Encumbrances

All material properties and assets reflected in the Balance Sheet and all the properties and assets purchased by Lanzhou Aluminum and its Subsidiaries since the balance sheet date (other than inventory and short term investments)

7-2-2-24

---

are free and clear of all mortgages, title defects or objections, liens, claims, charges, security interests or other encumbrances of any nature whatsoever including, without limitation, leases, chattel mortgages, conditional sales contracts, collateral security arrangements and other title or interest retention arrangements, and

are not, in the case of real property, subject to any rights of way, building use restrictions, exceptions, variances, reservations or limitations of any nature whatsoever except, with respect to all such properties and assets: (1) liens shown on the Balance Sheet as securing specified liabilities or obligations and liens incurred in connection with the purchase of property and/or assets, if such purchase was effected after the date of the Balance Sheet, with respect to which no default exists; (2) minor imperfections of title, if any, none of which are substantial in amount, materially detract from the value or impair the use of the property subject thereto, or impair the operations of Lanzhou Aluminum or any of its Subsidiaries and which have arisen only in the ordinary course of business and consistent with past practice; and (3) liens for current taxes not yet due. The rights, properties and other assets presently owned, leased or licensed by Lanzhou Aluminum and its Subsidiaries and described elsewhere in this Agreement include all rights, properties and other assets necessary to permit it and its Subsidiaries to conduct their businesses in all material respects in the same manner as their businesses have been conducted prior to the date hereof.

#### 4.13 Manufacture Factory and Equipment

The Manufacture Factories, structures and equipment of Lanzhou Aluminum and each of its Subsidiaries are structurally sound with no known defects and are in good operating condition and repair and are adequate for the uses to which they are being put. None of such Manufacture Factories, structures or equipment is in need of maintenance or repairs except for ordinary, routine maintenance and repairs which are not material in nature or cost or overhaul in accordance with plan or required under relevant state policies. Neither Lanzhou Aluminum nor any of its Subsidiaries has received notification that it is in violation of any applicable building, zoning, environmental, health or other law, ordinance or regulation in respect of its Manufacture Factories or structures or their operations.

#### 4.14 Leases

7-2-2-25

---

The terms of all leases pursuant to which Lanzhou Aluminum or any of its Subsidiaries leases material real or personal property are valid, binding and enforceable in accordance with their terms, and are in full force and effect; there are no existing defaults by Lanzhou Aluminum or any of its Subsidiaries thereunder; no event of default

has occurred which (whether with or without notice, lapse of time or the happening or occurrence of any other event) would constitute a default thereunder; and all lessors under such leases have consented (where such consent is necessary) to the consummation of the Merger without requiring modification in the rights or obligations of the lessee under such leases.

#### 4.15 Environmental Laws

(1) Lanzhou Aluminum and each of its Subsidiaries are in compliance in all material respects with all Environmental Laws, including, but not limited to, compliance with any permits or other governmental authorizations or the terms and conditions thereof; (2) neither it nor any of its Subsidiaries has received any communication or notice, whether from a governmental authority or otherwise, alleging any material violation of or noncompliance with any Environmental Laws by it or any of its Subsidiaries or for which any of them is responsible, and there is no pending or, to its knowledge, threatened Environmental Claim; and (c) to its knowledge, there are no past or present facts or circumstances that could form the basis of any Environmental Claim against it or any of its Subsidiaries or against any person or entity whose liability for any material Environmental Claim it or any of its Subsidiaries has retained or assumed either contractually or by operation of law, except where such Environmental Claim, if made, would not have a material adverse effect on it and its Subsidiaries taken as a whole.

#### 4.16 Compliance with Laws

Lanzhou Aluminum and its Subsidiaries are in compliance with, and have not violated any applicable law, rule or regulation of any PRC national, local, or foreign government or agency thereof which materially affects the business, properties or assets of it and its Subsidiaries, and no notice, charge, claim, action or assertion has been received by it or any of its Subsidiaries or has been filed, commenced or, to its knowledge, threatened against it or any of its

7-2-2-26

---

Subsidiaries alleging any such violation, except for any matter otherwise covered by this sentence which does not have, individually or in the aggregate, a material adverse effect on it and its Subsidiaries, taken as a whole. All licenses, permits and approvals required under such laws, rules and regulations are in full force and effect except where the failure to be in full force effect

would not have a material adverse effect on it and its Subsidiaries taken as a whole. All licenses, permits and approvals required under such laws, rules and regulations are in full force and effect except where the failure to be in full force and effect would not have a material adverse effect on it and its Subsidiaries taken as a whole.

#### 4.17 Intellectual Property

Either Lanzhou Aluminum or one of its Subsidiaries owns, or is licensed or otherwise possesses legally enforceable rights to use its Intellectual Property, and the consummation of the Merger will not alter or impair such ability in any respect. To Lanzhou Aluminum's knowledge, there are no oppositions, cancellations, invalidity proceedings, interferences or re-examination proceedings presently pending with respect to its Intellectual Property that are reasonably likely to have a material adverse effect on it and its Subsidiaries. To its knowledge, the conduct of the business of Lanzhou Aluminum and its Subsidiaries and its Intellectual Property does not infringe any Intellectual Property rights or any other proprietary right of any person, and neither it nor any of its Subsidiaries has received any written notice from any other Person pertaining to or challenging the right of it or any of its Subsidiaries to use any of the Intellectual Property. Neither it nor any of its Subsidiaries has made any claim of a violation or infringement by others of its rights to or in connection with the Intellectual Property which is still pending.

#### 4.18 Insurance

All material policies of fire, liability, and other forms of insurance owned or held by it and each of its Subsidiaries are in full force and effect, all premiums with

7-2-2-27

---

respect thereto covering all periods up to and including the Completion Date have been paid, and no notice of cancellation or termination has been received with respect to any such policy. Such policies will not in any way be affected by, or terminate or lapse by reason of, the Merger.

#### 4.19 No Condemnation or Expropriation

Neither the whole nor any portion of the material leaseholds or any other material assets of Lanzhou Aluminum or any of its

Subsidiaries is subject to any governmental decree or order to be sold or is being condemned, expropriated or otherwise taken by any public authority with or without payment of compensation therefore, nor, to the best of its knowledge, has any such condemnation, expropriation or taking been proposed.

#### 4.20 Consents

Unless PRC laws or regulations require otherwise, no consent of any person is necessary, the failure to obtain of which will prevent the consummation of the Merger, including, without limitation, consents from parties to loans, contracts, leases or other agreements.

### 5. Representations and Warranties of Chalco

Chalco hereby represents and warrants to Lanzhou Aluminum that all of the statements contained in this Article V are true and correct as of the date of this Agreement and will be true and correct as of the Completion Date.

#### 5.1 Organization; Qualification

Chalco (1) is a company of limited liability duly organized, validly existing and in good standing under the PRC Laws; and (2) has full corporate power and authority to carry on its business as it is now being conducted and to own the properties and assets it now owns.

7-2-2-28

---

#### 5.2 Authorisation; Validity of Agreement; Company Action

Chalco has full corporate power and authority to execute and deliver this Agreement, and to consummate the Merger. The execution, delivery and performance by it of this Agreement and the consummation by it of the Merger, have been duly authorized by its Board of Directors and, except for obtaining the approval of its shareholders as contemplated by Section 2.5.1, no other corporate action on the part of it is necessary to authorise the execution and delivery by it of this Agreement or the consummation by it of the Merger. This Agreement have been duly executed and delivered by it and, assuming due and valid authorisation, execution and delivery thereof by the other party, this Agreement is valid and binding obligation enforceable against Chalco in accordance with its terms, subject to bankruptcy and similar laws.

### 5.3 Approvals of the Merger by the Board

Board of Directors of Chalco, at a meeting duly called and held, has (1) determined that each of the Agreement and the Merger is fair to and in the best interests of its shareholders, (2) approved the Merger, and (3) resolved to recommend that its shareholders approve and adopt this Agreement and the Merger.

### 5.4 Consents and Approvals; No Violations

Except for the filings, permits, authorizations, consents and approvals as may be required under, and other applicable requirements of, the U.S. securities laws, Listing Rules, Takeovers Code and Company Law, none of the execution, delivery or performance of this Agreement by Chalco, the consummation by it of the Merger or compliance by it with any of the provisions hereof will (1) conflict with or result in any breach of any provision of the articles of association, or similar organizational documents of it or any Subsidiary, (2) result in a violation or breach of, or constitute (with or without due notice or the

7-2-2-29

---

passage of time, or both) a default (or give rise to any right of termination, amendment, cancellation or acceleration) under, any of the terms, conditions or provisions of any Company Agreement, or (3) violate any order, writ, injunction, decree, statute, rule or regulation applicable to it, any Subsidiary or any of their properties or assets, excluding from the foregoing clauses (2) and (3) such violations, breaches or defaults which would not, individually or in the aggregate, have a material adverse effect on it and Subsidiaries, taken as a whole.

## 6. COVENANTS

### 6.1 Interim Operations

Lanzhou Aluminum covenants and agrees that prior to the Completion Date, except (i) as expressly contemplated by this Agreement, or (ii) required by applicable law, after the date hereof:

6.1.1 the business of Lanzhou Aluminum and its Subsidiaries shall

be conducted only in the usual, regular and ordinary course and substantially in the same manner as heretofore conducted, and each of it and its Subsidiaries shall use its best efforts to preserve its business organization intact, keep available the services of its current officers and employees and maintain its existing relations with customers, suppliers, creditors, business partners and others having business dealings with it, to the end that the goodwill and ongoing business of each of them shall be unimpaired at the Completion Date; meanwhile, Lanzhou Aluminum or any of its Subsidiaries (as appropriate) shall perform or procure the performance of capital expenditures and maintenance expenses in all the plans in relation to principle business factories owned by Lanzhou Aluminum or any of its Subsidiaries prior to the Completion Date. In case that any of such capital expenditures and maintenance expenses fails to be completed on the

7-2-2-30

---

Completion Date for any reason, Lanzhou Aluminum shall take all necessary and reasonable actions and make all necessary and reasonable preparations (including reasonable management of any funds concerning such capital expenditures) for completion of the uncompleted capital expenditures and maintenance expenses by the existing company within the reasonable period.

- 6.1.2 neither Lanzhou Aluminum nor any of its Subsidiaries shall:
- (1) amend its articles of incorporation or similar organizational documents, (2) issue, sell, transfer, pledge, dispose of or encumber any shares of any class or series of its capital stock or Voting Debt, or securities convertible into or exchangeable for, or rights of any kind to acquire, any shares of any class or series of its capital stock or any Voting Debt, (3) declare, set aside or pay any dividend or other distribution payable in cash, stock or property with respect to any shares of any class or series of its capital stock; (4) split, combine or reclassify any shares of any class or series of its stock; or (5) redeem, purchase or otherwise acquire directly or indirectly any shares of any class or series of its capital stock, or any instrument or security which consists of or includes a right to acquire such shares;
- 6.1.3 neither Lanzhou nor any of its Subsidiaries shall (1) incur or modify any indebtedness or other material liability, other than in the ordinary and usual course of business and consistent with

past practice; or (2) modify, amend or terminate any of its material contracts or waive, release or assign any material rights or claims, except in the ordinary course of business and consistent with past practice;

- 6.1.4 neither it nor any of its Subsidiaries shall: (1) incur or assume any material long-term debt, or except in the ordinary course of business, incur or assume any material short-term indebtedness in amounts not consistent with past practice; (2) modify the terms of

7-2-2-31

---

any material indebtedness or other material liability, other than modifications of short term debt in the ordinary and usual course of business and consistent with past practice; (3) assume, guarantee, endorse or otherwise become liable or responsible (whether directly, contingently or otherwise) for the material obligations of any other person, as being in the ordinary course of business and consistent with past practice; (4) make any material loans, advances or capital contributions to, or investments in, any other person (other than to or in wholly owned Subsidiaries of it) if; or (5) enter into any material commitment or transaction (including, but not limited to, any capital expenditure or purchase, sale or lease of assets or real estate);

- 6.1.5 neither it nor any of its Subsidiaries shall transfer, lease, license, sell, mortgage, pledge, dispose of, or encumber any material assets other than in the ordinary and usual course of business and consistent with past practice;
- 6.1.6 Lanzhou Aluminum or any of its subsidiaries shall not enter into any contract or transaction in connection with material assets purchase, excluding those occurred during normal operations or consistent with past practices;
- 6.1.7 Lanzhou Aluminum or any of its subsidiaries shall not pay for, repurchase, cancel or pay off any material request, obligation or liability (absolute, contingent or others), excluding those in normal operations or in line with past practices;
- 6.1.8 Lanzhou Aluminum or any of its subsidiaries shall not, through any plan, perform liquidation, dissolution, reorganization, recapitalization or other reorganization (excluding this merger),

wholly or partially, to the Company or any of its subsidiaries;

6.1.9 Lanzhou Aluminum or any of its subsidiaries shall not change the adopted accounting methods, excluding those required by the PRC Accounting Standards; or

6.1.10 Lanzhou Aluminum or any of its subsidiaries shall not enter into any agreement, contract, undertakings, or arrangement concerning the above matters and shall not make authorization

7-2-2-32

---

and proposal in respect of above matters or announce intentions for engaging in above matters.

## 6.2 Access; Confidentiality

Upon receiving reasonable prior notice, Lanzhou Aluminum shall (and shall procure each of its subsidiaries to) provide all of its properties, account books, undertakings and minutes to the principals, employees, accountants, legal advisers, financial advisers, or other representatives in normal working time prior to the completion of the merger. In such period, Lanzhou Aluminum shall (and shall procure its subsidiaries to) timely provide Chalco (1) each report, supplementary provision, registered report or the copy of other documents submitted or received in such period as required by Securities Law of the PRC and the Shanghai Listing Rules, and (2) all other information relevant to its business, property and personnel as Chalco may reasonably request.

## 6.3 Reasonable Best Efforts

6.3.1 In accordance with and subject to this Agreement, Chalco and Lanzhou Aluminum both agree, prior to completion date of the merger, to take or procure to take all necessary, proper or reasonable (according to any governing law) actions with reasonable best efforts to complete the merger as soon as possible. Such actions include but not limited to (1) to prepare and submit all forms, registration and notices for the purpose of completion of the merger and to take any action to obtain any necessary approval, consent, order, exemption or waiver from any third party or governmental authority and/or securities regulatory agency; (2) to meet the other party's conditions for execution, and (3) Lanzhou Aluminum shall officially submit

all necessary conditions to cancel applications to the Administration of Industry and Commerce when all conditions set out in clauses 7.1.1~ 7.1.6 are fulfilled or waived (if applicable). In addition, after the execution of the Agreement, either party hereto shall not take any action which may result in the delay or failure to obtain the permission, approval or consent from any governmental authority prior to the completion date of the merger.

- 6.3.2 Prior to the completion date of the merger, either party shall promptly negotiate with the other party for the documents or other information in respect of the Agreement or the merger submitted to governmental authority and/or securities regulatory agency, and shall provide necessary information and copies of such documents and information to the other party (or their respective legal adviser). Upon receipt of the letter in

7-2-2-33

---

respect of the Agreement and the merger from governmental authority and/or securities regulatory agency, the Party shall promptly notify the other party. In the event that either party or its connected entities are required by governmental authority and/or securities regulatory agency for additional information or documents in respect of the Agreement and the merger, the party shall perform in due diligence and give proper reply after negotiation with the other party. In the event that the permissions (including environment permission) are required to transfer, alternate or change upon the execution of the Agreement and the completion of the merger, the involved party shall perform with best efforts.

#### 6.4 Publicity

The initial press release with respect to the execution of this Agreement shall be a press release acceptable to Chalco and Lanzhou Aluminum. Thereafter, until the date the Merger is terminated or abandoned pursuant to Article VIII, neither party nor any of its Affiliates shall issue or cause the publication of any press release, other announcement or documents with respect to the Merger, or this Agreement without prior consultation with the other party, except as may be required by law or by any listing agreement with a securities exchange or trading market or by other regulatory authorities.

## 6.5 Directors' and Officers' Insurance and Indemnification

For three years after the completion date of merger, Chalco (or any successor to Chalco) shall indemnify, defend and hold harmless each Indemnified Party against all losses, claims, damages, liabilities, costs, fees and expenses, including reasonable fees and disbursements of counsel and judgments, fines, losses, claims, liabilities and amounts paid in settlement (provided that any such settlement is effected with the written consent of the Chalco or any successor to Chalco) arising out of actions or omissions related to the Agreement or the Merger occurring at or prior to the Effective Date to the full extent required under applicable law, as in effect at the date hereof; provided that, in the event any claim or claims are asserted or made within such three year period, all rights to indemnification in respect of any such claim or claims shall continue until disposition of any and all such claims. Meanwhile, Lanzhou Aluminum shall guarantee that its directors and officers will never claim to Chalco or any successor to Chalco based on their losses of positions because of the termination of Lanzhou Aluminum. The provisions in the Section shall survive the completion of the merger.

7-2-2-34

---

## 6.6 Notice and Announcement for the Creditors

Upon obtaining the approvals from the shareholders' general meetings referred to in Section 2.5.1, Chalco and Lanzhou Aluminum shall inform their own creditors of the Merger by notice or announcement and satisfy their requirements of repayment or guarantee in accordance with the Company Law and their own articles of association.

## 6.7 Chalco's Covenants

Chalco promises to suspend declaration of its dividend of 2006 (excluding declared interim dividend of 2006) prior to the practicable date of the distribution in which Chalco's A shares may have the chance to participate after the exchange date for the purpose of Chalco's A shares participation in the distribution.

## 7. CONDITIONS TO THE MERGER

### 7.1 Conditions to Each Party's Obligation to Effect the Merger

The respective obligation of each party to effect the Merger shall be subject to the satisfaction at or prior to December 31, 2007 (or such later date as Chalco and Lanzhou Aluminum have agreed) of each of the following conditions, any and all of which may be waived in whole or in part by Chalco or Lanzhou Aluminum, as the case may be, to the extent permitted by applicable law:

#### 7.1.1 Shareholder Approval

The merger and merger agreement shall have been approved and adopted by over 2/3 of non-connected shareholders of Chalco with voting rights present at the general meeting (Matters relating to the issue of A shares of Chalco are approved) and shall have been approved and adopted by over 2/3 of non-connected shareholders of Lanzhou Aluminum with voting rights present at the general meeting for the purpose of completion of the merger. The merger proposal is passed at relevant shareholders' meeting of Lanzhou Aluminum.

#### 7.1.2 PRC Governmental Approvals

All necessary PRC governmental approvals, including, without limitation, China Securities Regulation Commission and State-owned Asset Supervision

7-2-2-35

---

Administration of the State Council, for the Merger and the Merger Agreement shall have been obtained, and such approvals shall not contain terms and conditions that would have a material adverse effect on the operation of the Surviving Company after the completion date of merger;

#### 7.1.3 Issue and listing of Chalco's A shares

The initial public issue of A shares to domestic investors by Chalco has been approved by CSRC and the listing of such A shares has been approved by Shanghai Stock Exchange.

#### 7.1.4 Overseas Governmental and Regulatory Approvals

All necessary authorizations, registrations, filings, consents, permissions and approvals in connection with the Merger

having been obtained or made from, with or by (as the case may be) appropriate governmental bodies and/or regulatory bodies, in Hong Kong and/or any other relevant jurisdictions (except the PRC);

7.1.5 Confirm that the third party to the Merger and the Share Reform is capable of paying the cash consideration to holders of A shares and other holders of non-tradable shares of Lanzhou Aluminum who have elected the Cash Alternative and will participate in the share exchange for becoming a shareholder of Chalco.

7.1.6 Statutes; Court Orders

No statute, rule or regulation shall have been enacted or promulgated by any governmental authority which prohibits the consummation of the Merger; and there shall be no order or injunction of a court of competent jurisdiction in effect precluding consummation of the Merger;

7.2 Conditions to Chalco's Obligations to Effect the Merger

The obligations of Chalco to consummate the Merger shall be subject to the satisfaction on or prior to December 31, 2007 (or such later date as Chalco and Lanzhou Aluminum have agreed) of each of the following conditions, any and all of

7-2-2-36

---

which may be waived in whole or in part by Chalco, to the extent permitted by applicable law.

7.2.1 Representations and Warranties The representations and warranties of Lanzhou Aluminum set forth in Article IV shall not contain mistakes or omissions which would be of material significance to the Merger as of the completion date of the merger;

7.2.2 Covenants Lanzhou Aluminum shall have complied in all material respects with its undertakings under the terms of this Agreement and, to the extent that there is failure to comply, such non-compliance shall not be of material significance to the Merger;

### 7.3 Conditions to Lanzhou Aluminum's Obligations to Effect the Merger

The obligations of Lanzhou Aluminum to consummate the Merger shall be subject to the satisfaction on or prior to December 31, 2007 (or such later date as Chalco and Lanzhou Aluminum have agreed) of each of the following conditions, any and all of which may be waived in whole or in part by Lanzhou Aluminum, to the extent permitted by applicable law.

7.3.1 Representations and Warranties. The representations and warranties of Chalco set forth in Article V shall not contain mistakes or omissions which would be of material significance to the Merger as of the completion date of the merger; and

7.3.2 Covenants. Chalco shall have complied in all material respects with its undertakings under the terms of this Agreement and, to the extent that there is failure to comply, such non-compliance shall not be of material significance to the Merger.

## 8. TERMINATION OF THE MERGER

### 8.1 Termination

7-2-2-37

---

The Merger may be terminated or abandoned at any time prior to the completion date of the merger, whether before or after shareholder's approval thereof:

8.1.1 By either of Chalco and Lanzhou Aluminum:

- (1) if any Governmental Entity shall have issued an order, decree or ruling or taken any other action (which order, decree, ruling or other action the parties hereto shall use their reasonable efforts to lift), which permanently restrains, enjoins or otherwise prohibits the Merger and such order, decree, ruling or other action shall have become final and non-appealable;
- (2) all the Conditions referred to in Article VII shall not have been satisfied or waived (if applicable) by December 31,

2007;

- (3) Chalco has not obtained the requisite vote required by Section 2.5.1 at the duly held special shareholders meeting;  
or
- (4) Lanzhou Aluminum has not obtained the requisite vote required by Section 2.5.1 at the duly held special shareholders meeting and/or relevant shareholders' meeting;

#### 8.1.2 By Chalco:

If Lanzhou Aluminum shall have breached any of its representations, warranties, covenants or other agreements contained in this Agreement, which breach cannot be or has not been cured within 30 days after the giving of written notice by Chalco to Lanzhou Aluminum, as applicable; and

#### 8.1.3 By Lanzhou Aluminum

If Chalco shall have breached any of its representation, warranty, covenant or other agreement contained in this Agreement, which breach cannot be or has not been cured within 30 days after the giving of written notice by Lanzhou Aluminum to Chalco, as applicable.

#### 8.1.4 Chalco and Lanzhou Aluminum both agree to terminate the Agreement

7-2-2-38

---

in writing prior to the completion date of the merger.

#### 8.2 Effect of Termination

In the event of the termination or abandonment of the Merger by any party hereto pursuant to the terms of this Agreement, written notice thereof shall forthwith be given to the other party or parties specifying the provision hereof pursuant to which such termination or abandonment of the Merger is made, and there shall be no liability on the part of Chalco or Lanzhou Aluminum except (1) for fraud committed to the other party related to the Merger or for

breach of this Agreement prior to such termination or abandonment of the Merger and (2) as set forth in Sections 8.1.2 or 8.1. 3.

## 9. MISCELLANEOUS

### 9.1 Taxes

9.1.1 Except as specifically provided to the contrary in this Agreement, including Section 9.1.2 and 9.1.3, all taxes incurred in connection with this Agreement and the consummation of the Merger shall be paid in accordance with relevant laws, regulations or regulatory documents. Should no such provision, such taxes shall be paid by the party incurring such expenses.

9.1.2 If Chalco shall terminate or abandon the Merger pursuant to Section 8.1.1(4) or Section 8.1.2, or if Lanzhou Aluminum shall terminate or abandon the Merger pursuant to Section 8.1.1(4), then Lanzhou Aluminum shall pay to Chalco an amount equal to Chalco's actual and reasonably documented out-of-pocket fees and expenses incurred by Chalco in connection with, the Merger, this Agreement and the consummation of the Merger.

9.1.3 If Lanzhou Aluminum shall terminate or abandon the Merger pursuant to Section 8.1.1(3) or Section 8.1.3, or if Chalco shall terminate or abandon the Merger pursuant to Section 8.1.1(3), then Chalco shall pay to Lanzhou Aluminum an amount equal to Lanzhou Aluminum's actual and reasonably documented out-of-pocket fees and expenses incurred by Lanzhou Aluminum in connection with, the Merger, this Agreement and the consummation of the Merger.

7-2-2-39

---

### 9.2 Amendment and Modification

Subject to applicable law, this Agreement may be amended, modified and supplemented in any and all respects, whether before or after any vote of the shareholders of both parties contemplated hereby, by written agreement of the parties hereto, by action taken by their respective Boards of Directors, at any time prior to the completion date of the merger with respect to any of the terms contained herein; provided, however, that after the approval of this Agreement by their respective shareholders, no such amendment,

modification or supplement shall reduce the amount or change the form of the Merger Consideration.

### 9.3 Non-survival of Representations and Warranties

None of the representations and warranties in this Agreement or in any schedule or other document delivered pursuant to this Agreement shall survive the completion date of the merger. The foregoing sentence shall not limit any covenant or agreement of the parties which by its terms contemplates performance after the completion date of the merger.

### 9.4 Notices

All notices and other communications hereunder shall be in writing and shall be deemed given if delivered personally, telecopied (which is confirmed) or sent by an overnight courier service, such as Federal Express and EMS in the PRC, to the parties at the following addresses (or at such other address for a party as shall be specified by like notice):

#### 9.4.1 if to Chalco, to:

Aluminum Corporation of China Limited  
Address: No.62 North Xizhimen Street, Haidian District,  
Beijing  
Postcode:  
Attention: Ma Xiaoling  
Tel: (010) 8229 8606  
Fax: (010) 8229 8620

7-2-2-40

---

#### 9.4.2 if to Lanzhou Aluminum, to:

Lanzhou Aluminum Co., Ltd.  
Address: No.981, Shandan Street, Xigu District, Lanzhou City,  
Gansu Province, PRC.  
Postcode:  
Attention: Qin Yifa  
Tel: 0931-7549414

Fax: 0931-7558857

If delivered by courier, the delivery is confirmed when the notice reaches the address and the addressee confirmed above; if delivered by facsimile, the delivery is confirmed upon receipt of the facsimile slip by the sender; if delivered by mail or speed post, the arrival date shown on the return receipt shall be the delivery date.

#### 9.5 Counterparts

This Agreement may be executed in one or more counterparts, each of which shall be considered one and the same agreement.

#### 9.6 Entire Agreement; No Third Party Beneficiaries

This Agreement (including the documents and the instruments referred to herein): (a) constitute the entire agreement and supersede all prior agreements and understandings, both written and oral, among the parties with respect to the subject matter hereof and thereof, and (b) except as provided in Section 6.5 are not intended to confer upon any person other than the parties hereto and thereto any rights or remedies hereunder.

#### 9.7 Severability

Any term or provision of this Agreement that is held by a court of competent jurisdiction or other authority to be invalid, void or unenforceable in any situation in any jurisdiction shall not affect the validity or enforceability of the remaining terms and provisions hereof or the validity or enforceability of the offending term or

7-2-2-41

---

provision in any other situation or in any other jurisdiction. If the final judgment of a court of competent jurisdiction or other authority declares that any term or provision hereof is invalid, void or unenforceable, the parties agree that the court making such determination shall have the power to reduce the scope, duration, area or applicability of the term or provision, to delete specific words or phrases, or to replace any invalid, void or unenforceable term or provision with a term or provision that is valid and enforceable and that comes closest to expressing the intention of the invalid or unenforceable term or provision.

9.8 Governing Law

This Agreement shall be governed by and construed in accordance with the laws of the People's Republic of China.

9.9 Force Majeure

Prior to the Completion Date of the Merger, in the event that the Merger fails to be fulfilled or fully fulfilled as a result of force majeure (including but not limited to events, such as earthquakes, typhoons, floods, fires, wars and acts of administrative intervention by the government) and changes in conditions, the party having the above force majeure event shall at once inform the other party about the event in the form of telegram or written notice within seven days, and provide details of the event and valid proofs for reasons of failure or partial failure to perform or the needs to delay performance of the Agreement. Both parties shall decide whether or not to amend or terminate the Agreement by reference to the extent of the impact on the performance of the Agreement by the event. If the event leads to the failure of the Merger, both parties will not assume any liability for breach.

9.10
