FORWARD-LOOKING STATEMENTS

The Current Report on Form 8-K contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding anticipated financial results and liquidity. Actual results may differ materially from anticipated results as a result of certain risks and uncertainties, including but not limited to, general economic conditions in the markets in which the Company operates, including changes in interest rates or currency exchange rates, the financial condition of the Company's customers or suppliers, fluctuations in the production of vehicles for which the Company is a supplier, disruptions in the relationships with the Company's suppliers, labor disputes involving the Company or its significant customers or suppliers or that otherwise affect the Company, the Company's ability to achieve cost reductions that offset or exceed customer-mandated selling price reductions, the outcome of customer productivity negotiations, the impact and timing of program launch costs, the costs and timing of facility closures, business realignment or similar actions, increases in the Company's warranty or product liability costs, risks associated with conducting business in foreign countries, competitive conditions impacting the Company's key customers and suppliers, raw material costs and availability, the Company's ability to mitigate the significant impact of increases in raw material, energy and commodity costs, the outcome of legal or regulatory proceedings to which the Company is or may become a party, unanticipated changes in cash flow, including the Company's ability to align its vendor payment terms with those of its customers, the finalization of the Company's restructuring strategy and other risks described from time to time in the Company's Securities and Exchange Commission filings. In particular, the Company's financial outlook for 2007 is based on several factors, including the Company's current vehicle production and raw material pricing assumptions. The Company's actual financial results could differ materially as a result of significant changes in these factors. In addition, the Company's agreement to contribute its North American interior business to IAC North America is subject to various conditions, including the receipt of required third-party consents, as well as other closing conditions customary for transactions of this type. No assurances can be given that the proposed transaction will be consummated on the terms contemplated or at all.

The forward-looking statements in this Current Report on Form 8-K are made as of the date hereof, and the Company does not assume any obligation to update, amend or clarify them to reflect events, new information or circumstances occurring after the date hereof.

Item 2.05 Costs Associated with Exit or Disposal Activities.

As part of its previously announced Restructuring, Lear has continued consolidation and census actions. In 2006, these actions resulted in charges of \$99.7 million, consisting of employee termination costs of \$79.3 million, fixed asset impairment charges of \$5.8 million, contract termination costs of \$6.5 million and other costs of \$8.1 million (including \$6.5 million of manufacturing inefficiency costs resulting from the Restructuring). The severance and other incremental costs represent cash charges, while the asset impairment charges represent non-cash charges. Cash payments related to the Restructuring totaled \$73.3 million in 2006.

Although all aspects of the Restructuring have not been finalized, the Company continues to expect to incur total pretax costs of approximately \$300 million in connection with the Restructuring, of which \$204.1 million of costs have been incurred to date. The remaining costs are expected to be incurred in 2007. Lear continues to estimate that approximately 80% of the restructuring costs will result in cash expenditures.
