NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Organization and nature of operations

ChinaNet Online Holdings, Inc. (the "Company") was incorporated in the State of Texas in April 2006 and re-domiciled to become a Nevada corporation in October 2006. On June 26, 2009, the Company consummated a share exchange transaction with China Net Online Media Group Limited (the "Share Exchange"), a company organized under the laws of British Virgin Islands ("China Net BVI"). As a result of the Share Exchange, China Net BVI became a wholly owned subsidiary of the Company and the Company is now a holding company, which, through certain contractual arrangements with operating companies in the People's Republic of China (the "PRC"), is engaged in providing advertising, marketing, brand management and online-to-offline (O2O) sales channel building services for small and medium-sized enterprises (SMEs) and entrepreneurial management and networking services for entrepreneurs in the PRC.

The Company's wholly owned subsidiary, China Net BVI was incorporated in the British Virgin Islands. China Net BVI is the parent holding company of CNET Online Technology Limited, a Hong Kong company ("China Net HK"), which established and is the parent company of Rise King Century Technology Development (Beijing) Co., Ltd., a wholly foreign-owned enterprise ("WFOE") established in the PRC ("Rise King WFOE").

To satisfy PRC laws and regulations, the Company conducts certain business in the PRC through its Variable Interest Entities ("VIEs"). Through a series of contractual agreements between Rise King WFOE and Business Opportunity Online (Beijing) Network Technology Co., Ltd. ("Business Opportunity Online"), Beijing CNET Online Advertising Co., Ltd. ("Beijing CNET Online") and Rise King (Shanghai) Advertisement Media Co., Ltd. ("Shanghai Jing Yang") (collectively the "PRC Operating Entities" or the "VIEs"), the Company, through the WFOE, secures significant rights to influence the PRC Operating Entities' business operations, policies and management, approve all matters requiring shareholder approval, and the right to receive 100% of the income earned by the VIEs. Pursuant to the contractual agreements, all of the equity owners' rights and obligations of the VIEs were assigned to Rise King WFOE, which resulted in the equity owners lacking the ability to make decisions that have a significant effect on the VIEs, Rise King WFOE's ability to extract the profits from the operation of the VIEs and assume the residual benefits of the VIEs. Due to the fact that Rise King WFOE and its indirect parent are the sole interest holders of the VIEs, the Company included the assets, liabilities, revenues and expenses of the VIEs in its consolidated financial statements, which is consistent with the provisions of FASB Accounting Standards Codification ("ASC") Topic 810 "Consolidation", subtopic 10.

Beijing CNET Online is a 51% shareholder of Shanghai Borongdingsi Computer Technology Co., Ltd. ("Shanghai Borongdingsi") and a 10% shareholder of Beijing Saturday Education Technology Co., Ltd. ("Beijing Saturday"). Business Opportunity Online is a 51% shareholder of Beijing Chuang Fu Tian Xia Network Technology Co., Ltd. ("Beijing Chuang Fu Tian Xia"), the sole shareholder of Business Opportunity Online (Hubei) Network Technology Co., Ltd. ("Business Opportunity Online Hubei"), the sole shareholder of Quanzhou City Zhilang Network Technology

Co., Ltd. ("Quanzhou Zhi Lang"), the sole shareholder of Beijing Chuang Shi Xin Qi Advertising Media Co., Ltd. ("Beijing Chuang Shi Xin Qi"), the sole shareholder of Beijing Hong Da Shi Xing Network Technology Co., Ltd. ("Beijing Hong Da Shi Xing"), the sole shareholder of Beijing Shi Ji Cheng Yuan Advertising Media Co., Ltd. ("Beijing Shi Ji Cheng Yuan") and a 23.18% shareholder of Shenzhen City Mingshan Network Technology Co., Ltd. ("Shenzhen Mingshan"). Business Opportunity Online Hubei is the sole shareholder of Hubei CNET Advertising Media Co., Ltd. ("Hubei CNET"), the sole shareholder of Sheng Tian Network Technology (Hubei) Co., Ltd. ("Sheng Tian Hubei") and a 25.5% shareholder of Zhao Shang Ke Network Technology (Hubei) Co., Ltd. ("Zhao Shang Ke Hubei").

In January 2015, the Company through its wholly-owned subsidiary, China Net BVI incorporated a new wholly-owned BVI company named ChinaNet Investment Holding Ltd. ("ChinaNet Investment BVI"). In March 2015, ChinaNet Investment BVI together with three individuals who were not affiliated with the Company, established ChinaNet Online Holdings Korea ("ChinaNet Korea"), an entity incorporated in the Republic of Korea. ChinaNet Investment BVI invested US\$20,000 cash and beneficially own 40% of the equity interest in ChinaNet Korea.

In January 2015, the Company through one of its VIEs, Beijing CNET Online made an investment of RMB1,000,000 (approximately US\$0.16 million) to Chuangshi Meiwei Food and Beverage Investment Management (Beijing) Co., Ltd. ("Chuangshi Meiwei" or "O'Yummy"). The Company beneficially owns 10% of the equity interest in Chuangshi Meiwei.

In April 2015, the Company made an investment of RMB0.02 million (approximately US\$0.003 million) to Guohua Shiji (Beijing) Communication Co., Ltd. ("Guohua Shiji") and obtained 19% equity interest in Guohua Shiji.

In order to provide advertising and marketing services, the Company partners with TV stations or its agents to obtain time slots for resale through broadcast advertisements to advertise brands, business information, products and services of its clients. The Company also purchases internet resources from large internet search engines to attract more internet traffic to its advertising portals and provide value-added services to its clients.

Deposits to TV advertisement and internet resources providers are paid as contractual deposits to the Company's resources and services suppliers.

As of June 30, 2015, deposit to suppliers primarily consisted of the contractual deposits of approximately US\$0.7 million to two of the Company's largest internet resources suppliers and the contractual deposits of approximately US\$0.8 million for the purchasing of TV advertising time slots.

According to the contracts signed between the Company and its suppliers, the Company is normally required to pay the contract amounts in advance. These prepayments will be transferred to cost of sales when the related services are provided.

As of June 30, 2015, prepayment to suppliers primarily consisted of approximately US\$3.3 million prepayments to the Company's internet resources suppliers and approximately US\$2.0 million prepayment for the purchasing of TV advertising time slots. This US\$2.0 million advanced payment was carried forward from previous years and was paid to a TV station which had been partnered with the Company for over five years. In response to the restrictions on TV shopping infomercial implemented by the related government authorities, which resulted in the decrease in the Company's TV advertisement revenue, the Company discussed with the TV station possible alternatives of applying the balance of the advanced payment, as the amount was unlikely to be refunded to the Company, due to internal administrative policies of the TV station. The TV station and the Company agreed that the unconsumed advanced payment balance can be consumed by any third parties designated by the Company and approved by the TV station, who will broadcast advertisements or other similar TV programs using the balance of available time slots, and the Company will directly collect the amounts from the third parties for the time slots they utilized. In August 2015, the Company collected approximately US\$0.40 million of this amount. The Company expects that the remaining advanced payment balance will be fully utilized within 2015.

Following the Share Exchange, the Company became a holding company and does not conduct any substantial operations of its own. No provision for federal corporate income tax has been made in the financial statements as the Company has no assessable profits for the six and three months ended June 30, 2015, or any prior periods. The Company does not provide for U.S. taxes or foreign withholding taxes on undistributed earnings from its non-U.S. subsidiaries because such earnings are intended to be reinvested indefinitely. If undistributed earnings were distributed, foreign tax credits could become available under current law to reduce the resulting U.S. income tax liability.
- ii). China Net BVI was incorporated in the British Virgin Islands ("BVI"). Under the current law of the BVI, China Net BVI is not subject to tax on income or capital gains. Additionally, upon payments of dividends by China Net BVI to its shareholders, no BVI withholding tax will be imposed.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

In July 2012, Business Opportunity Online was approved by the related PRC governmental authorities as a High and New Technology Enterprise under the current EIT law, and was approved by the local tax authorities of Beijing, the PRC, to be entitled to a favorable statutory tax rate of 15% until December 31, 2014. After fiscal year 2014, the applicable income tax rate for Business Opportunity Online will be 25% under the current EIT law of PRC unless the entity regains the qualification as a High and New Technology Enterprise in fiscal 2015. The Company is currently in the process of applying for the High and New Technology Enterprise qualification with the related government authorities and the Company believes that more likely than not Business Opportunity Online will be able to regain its qualification as a High and New Technology Enterprise and continue to enjoy the favorable statutory tax rate of 15% after fiscal 2014. Therefore, for the six and three months ended June 30, 2015 and 2014, the Company used 15% as the applicable income tax rate for Business Opportunity Online.

Business Opportunity Online Hubei was approved by the related PRC governmental authorities to be qualified as a software company and was approved by the local tax authorities of Xiaogan City, Hubei province, the PRC, to be entitled to a EIT exemption for fiscal 2012, as its first profitable year was determined as fiscal 2011 instead of fiscal 2012 in August 2013 by the local tax authorities of Xiaogan City, Hubei province, and a 50% reduction of its applicable EIT rate which is 25% to 12.5% of its taxable income for the succeeding three years through fiscal 2015. Therefore, the applicable income tax rate for Business Opportunity Online Hubei was both 12.5% for the six and three months ended June 30, 2015 and 2014. After fiscal 2015, the applicable income tax rate for Business Opportunity Online Hubei will be 25% under the current EIT law of PRC.

1 The applicable income tax rate for other PRC operating entities of the Company was 25% for the six and three months ended June 30, 2015 and 2014.

The current EIT law also imposed a 10% withholding income tax for dividends distributed by a foreign invested enterprise to its immediate holding company outside China. A lower withholding tax rate will be applied if there is a tax treaty arrangement between mainland China and the jurisdiction of the foreign holding company. Holding companies in Hong Kong, for example, will be subject to a 5% withholding tax rate.

For the six and three months ended June 30, 2015 and 2014, all of the preferential income tax treatments enjoyed by the Company's PRC VIEs were based on the current applicable laws and regulations of the PRC and approved by the related government regulatory authorities and local tax authorities where the Company's respective PRC VIEs operate in. Business Opportunity Online and Business Opportunity Online Hubei were most affected by these preferential income tax treatments within the structure of the Company. The preferential income tax treatments are subject to change in accordance with the PRC government economic development policies and regulations. These preferential income tax treatments are primarily determined by the regulation and policies of the PRC government in the context of the overall economic policy and strategy. As a result, the uncertainty of theses preferential income tax treatments are subject to, but not limited to, the PRC government policy on supporting any specific industry's development under the outlook and strategy of overall macroeconomic development.

The net operating losses carried forward incurred by the Company (excluding its PRC operating subsidiary and VIEs) were approximately US\$13,309,000 and US\$12,161,000 at June 30, 2015 and December 31, 2014, respectively, which loss carry forwards gradually expire over time, the last of which expires in 2035. A full valuation allowance has been recorded because it is considered more likely than not that the deferred tax assets will not be realized through sufficient future earnings of the entity to which the operating losses relate.

The net operating losses carried forward (excluding bad debts provision, amortization of intangible assets acquired from business combinations and non-deductible expenses) incurred by the Company's PRC subsidiary and VIEs were approximately US\$14,426,000 and US\$12,401,000 at June 30, 2015 and December 31, 2014, respectively, which loss carry forwards gradually expire over time, the last of which expires in 2020. The related deferred tax assets was calculated based on the respective net operating losses incurred by each of the PRC subsidiary and VIEs and the respective corresponding enacted tax rate that will be in effect in the period in which the losses are expected to be utilized. The Company recorded approximately US\$96,000 and US\$572,000 valuation allowance for the six months ended June 30, 2015 and 2014, respectively, and recorded approximately US\$16,000 and US\$333,000 valuation allowance for the three months ended June 30, 2015 and 2014, respectively because it is considered more likely than not that this portion of the deferred tax assets will not be realized through sufficient future earnings of the entities to which the operating losses relate.

Full valuation allowance to bad debts provision related deferred tax assets were recorded because it is considered more likely than not that this portion of deferred tax assets will not be realized through bad debts verification by the local tax authorities where the PRC subsidiary and VIEs operate in.

The Company's non-current portion of deferred tax assets and deferred tax liabilities were attributable to different tax-paying components of the entity, which were under different tax jurisdictions. Therefore, in accordance with ASC Topic 740 "Income taxes", the non-current portion of deferred tax assets and deferred tax liabilities were presented separately in the Company's balance sheets.

The tax authority of the PRC government conducts periodic and ad hoc tax filing reviews on business enterprises operating in the PRC after those enterprises had completed their relevant tax filings, hence the Company's tax filings may not be finalized. It is therefore uncertain as to whether the PRC tax authority may take different views about the Company's tax filings which may lead to additional tax liabilities.

Long-term borrowing from director

20.

Long-term borrowing from director is a non-interest bearing loan from a director of the Company relating to the original paid-in capital contribution in the Company's wholly-owned subsidiary Rise King WFOE, which is not expected to be repaid within one year.

21.

Restricted Net Assets

As most of the Company's operations are conducted through its PRC subsidiary and VIEs, the Company's ability to pay dividends is primarily dependent on receiving distributions of funds from its PRC subsidiary and VIEs. Relevant PRC statutory laws and regulations permit payments of dividends by its PRC subsidiary and VIEs only out of their retained earnings, if any, as determined in accordance with PRC accounting standards and regulations and after it has met the PRC requirements for appropriation to statutory reserves. Paid in capital of the PRC subsidiary and VIEs included in the Company's consolidated net assets are also non-distributable for dividend purposes.

In accordance with the PRC regulations on Enterprises with Foreign Investment, a WFOE established in the PRC is required to provide certain statutory reserves, namely general reserve fund, the enterprise expansion fund and staff welfare and bonus fund which are appropriated from net profit as reported in the enterprise's PRC statutory accounts. A WFOE is required to allocate at least 10% of its annual after-tax profit to the general reserve until such reserve has reached 50% of its registered capital based on the enterprise's PRC statutory accounts. Appropriations to the enterprise expansion fund and staff welfare and bonus fund are at the discretion of the board of directors. The aforementioned reserves can only be used for specific purposes and are not distributable as cash dividends. Rise King WFOE is subject to the above mandated restrictions on distributable profits. Additionally, in accordance with the Company Law of the PRC, a domestic enterprise is required to provide a statutory common reserve of at least 10% of its annual after-tax profit until such reserve has reached 50% of its registered capital based on the enterprise's PRC statutory accounts. A domestic enterprise is also required to provide for a discretionary surplus reserve, at the discretion of the board of directors. The aforementioned reserves can only be used for specific purposes and are not distributable as cash dividends. All of the Company's PRC VIEs are subject to the above mandated restrictions on distributable profits.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

As a result of these PRC laws and regulations, the Company's PRC subsidiary and VIEs are restricted in their ability to transfer a portion of their net assets to the Company. As of June 30, 2015 and December 31, 2014, net assets restricted in the aggregate, which include paid-in capital and statutory reserve funds of the Company's PRC subsidiary and VIEs that are included in the Company's consolidated net assets, was both approximately US\$7.3 million.

The current PRC Enterprise Income Tax ("EIT") Law also imposed a 10% withholding income tax for dividends distributed by a foreign invested enterprise to its immediate holding company outside China. A lower withholding tax rate will be applied if there is a tax treaty arrangement between mainland China and the jurisdiction of the foreign holding company. Holding companies in Hong Kong, for example, will be subject to a 5% rate. Rise King WFOE is invested by its immediate holding company in Hong Kong and will be entitled to the 5% preferential withholding tax rate upon distribution of the dividends to its immediate holding company.

The ability of the Company's PRC subsidiary and VIEs to make dividends and other payments to the Company may also be restricted by changes in applicable foreign exchange and other laws and regulations.

Foreign currency exchange regulation in China is primarily governed by the following rules:

Foreign Exchange Administration Rules (1996), as amended in August 2008, or the Exchange Rules; Administration Rules of the Settlement, Sale and Payment of Foreign Exchange (1996), or the Administration Rules.

Currently, under the Administration Rules, Renminbi is freely convertible for current account items, including the distribution of dividends, interest payments, trade and service related foreign exchange transactions, but not for capital account items, such as direct investments, loans, repatriation of investments and investments in securities outside of China, unless the prior approval of the State Administration of Foreign Exchange (the "SAFE") is obtained and prior registration with the SAFE is made. Foreign-invested enterprises like Rise King WFOE that need foreign exchange for the distribution of profits to its shareholders may effect payment from their foreign exchange accounts or purchase and pay foreign exchange rates at the designated foreign exchange banks to their foreign shareholders by producing board resolutions for such profit distribution. Based on their needs, foreign-invested enterprises are permitted to open foreign exchange settlement accounts for current account receipts and payments of foreign exchange along with specialized accounts for capital account receipts and payments of foreign exchange at certain designated foreign exchange banks.

Although the current Exchange Rules allow the convertibility of Chinese Renminbi into foreign currency for current account items, conversion of Chinese Renminbi into foreign exchange for capital items, such as foreign direct investment, loans or securities, requires the approval of SAFE, which is under the authority of the People's Bank of China. These approvals, however, do not guarantee the availability of foreign currency conversion. The Company cannot be sure that it will be able to obtain all required conversion approvals for its operations or the Chinese regulatory authorities will not impose greater restrictions on the convertibility of Chinese Renminbi in the future. Currently, most of the Company's retained earnings are generated in Renminbi. Any future restrictions on currency exchanges may limit the Company's ability to use its retained earnings generated in Renminbi to make dividends or other payments in U.S. dollars or fund possible business activities outside China.

As of June 30, 2015 and December 31, 2014, there was approximately US\$29.0 million and US\$30.8 million retained earnings in the aggregate, respectively, which was generated by the Company's PRC subsidiary and VIEs in Renminbi included in the Company's consolidated net assets, aside from US\$2.8 million statutory reserve funds as of June 30, 2015 and December 31, 2014, that may be affected by increased restrictions on currency exchanges in the future and accordingly may further limit the Company's PRC subsidiary's and VIEs' ability to make dividends or other payments in U.S. dollars to the Company, in addition to the approximately US\$7.3 million restricted net assets as of June 30, 2015 and December 31, 2014, as discussed above.

The complaint seeks a court order to declare the shareholders resolutions null and void. Business Opportunity Online denied all of the allegations against it and defended vigorously against the lawsuit. Total Revenues: For the six months ended June 30, 2015 and 2014, our total revenues were both approximately US\$15.5 million. For the three months ended June 30, 2015 and 2014, our total revenues were US\$9.62 million and US\$10.36 million, respectively.

We derive the majority of our advertising service revenues from the sale of advertising space on our internet portals and from providing the related value-added technical support and services, internet marketing service and content management services to unrelated third parties and to certain related parties. Beginning in the second fiscal quarter of 2014, we elaborated an existing stream of internet marketing service by providing enhanced third-party search engine marketing ("SEM") services to the SMEs as a strategic supplement to the internet advertising services provided to our clients. We also derive revenue from the sale of advertising time purchased from different provincial satellite TV stations. Our advertising and marketing services to related parties were provided in the ordinary course of business on

the same terms as those provided to our unrelated clients. For the six and three months ended June 30, 2015 and 2014, our service revenue from related parties in the aggregate was less than 5% of the total revenue for each respective reporting period.

Our advertising service revenues are recorded net of any sales discounts. Sales discounts include volume discounts and other customary incentives offered to our small and medium-sized franchise and merchant clients, including providing them with additional advertising time for their advertisements if we have unused space available on our websites and represent the difference between our official list price and the amount we actually charge our clients. For advertising services, we typically sign service contracts with our small and medium-sized franchisor and other clients that require us to place the advertisements on our portal websites in specified locations on the sites and for agreed periods; and/or place the advertisements onto our purchased advertisement time during specific TV programs for agreed periods. We recognize revenues as the advertisement airs over the contractual term based on the schedule agreed upon with our clients. Revenue from SEM services is recognized on a monthly basis based on the direct cost consumed through search engines for providing such services with a premium. We recognize this revenue on a gross basic, as we believe that we act as the primary obligor of this transaction, which is considered the most important factor for a gross revenue recognition in accordance with ASC Topic 605, subtopic 45. We also sell effective sales lead information to our clients, which is recognized based on fixed price per sales lead when information is delivered and accepted by clients.
