Form 10-Q

May 09, 2016

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT UNDER SECTION 13 OR 15(d)

OF THE SECURITIES EXCHANGE ACT OF 1934

For Quarter Ended March 31, 2016 Commission File Number 000-06253

SIMMONS FIRST NATIONAL CORPORATION

(Exact name of registrant as specified in its charter)

Arkansas	71-0407808
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

501 Main Street, Pine Bluff, Arkansas	71601
(Address of principal executive offices)	(Zip Code)

870-541-1000

(Registrant's telephone number, including area code)

Not Applicable

Former name, former address and former fiscal year, if changed since last report

Edgar Filing: SIMMONS FIRST NATIONAL CORP - Form 10-Q

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer, or a smaller reporting company. See definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act.). Yes No

The number of shares outstanding of the Registrant’s Common Stock as of April 27, 2016, was 30,324,621.

SIMMONS FIRST NATIONAL CORPORATION

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1: BASIS OF PRESENTATION

The consolidated financial statements include the accounts of Simmons First National Corporation (the “Company”) and its subsidiaries. Significant intercompany accounts and transactions have been eliminated in consolidation.

All adjustments made to the unaudited financial statements were of a normal recurring nature. In the opinion of management, all adjustments necessary for a fair presentation of the results of interim periods have been made. Certain prior year amounts are reclassified to conform to current year classification. The consolidated balance sheet of the Company as of December 31, 2015, has been derived from the audited consolidated balance sheet of the Company as of that date. The results of operations for the period are not necessarily indicative of the results to be expected for the full year.

Certain information and note disclosures normally included in the Company’s annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s Form 10-K Annual Report for 2015 filed with the U.S. Securities and Exchange Commission (the “SEC”).

Recently Issued Accounting Pronouncements

ASU 2016-02 – *Leases* (“ASU 2016-02”). ASU 2016-02 establishes the principles to report transparent and economically neutral information about the assets and liabilities that arise from leases. The new guidance results in a more faithful representation of the rights and obligations arising from leases by requiring lessees to recognize the lease asset and lease liabilities that arise from leases in the statement of financial position and to disclose qualitative and quantitative information about lease transactions, such as information about variable lease payments and options to renew and terminate leases. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company is currently evaluating the impact this standard will have on the Company’s results of operations, financial position or disclosures.

ASU 2016-09 – *Compensation-Stock Compensation: Improvements to Employee Share-Based Payment Accounting* (“ASU 2016-09”). ASU 2016-09 simplifies the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. ASU 2016-09 is effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. The Company is currently evaluating the impact this standard will have on the Company’s results of operations, financial position or disclosures.

ASU 2016-01 – *Financial Instruments-Overall: Recognition and Measurement of Financial Assets and Financial Liabilities* (“ASU 2016-01”). ASU 2016-01 makes changes primarily affecting the accounting for equity investments, financial liabilities under the fair value option, and the presentation and disclosure requirements for financial instruments. In addition, the FASB clarified guidance related to the valuation allowance assessment when recognizing deferred tax assets resulting from unrealized losses on available-for-sale debt securities. ASU 2016-01 is effective for fiscal periods beginning after December 15, 2017, including interim periods within those fiscal years. The Company is currently evaluating the impact this standard will have on the Company’s results of operations, financial position or disclosures.

ASU 2015-16 – *Business Combinations: Simplifying the Accounting for Measurement-Period Adjustments* (“ASU 2015-16”). ASU 2015-16 requires entities to recognize measurement period adjustments during the reporting period in which the adjustments are determined. The income effects, if any, of a measurement period adjustment are cumulative and are to be reported in the period in which the adjustment to a provisional amount is determined. Also, ASU 2015-16 requires presentation on the face of the income statement or in the notes, the effect of the measurement period adjustment as if the adjustment had been recognized at acquisition date. ASU 2015-16 is effective for fiscal periods beginning after December 15, 2016 and should be applied prospectively to measurement period adjustments that occur after the effective date. The Company is currently evaluating the impact this standard will have on the Company’s results of operations, financial position or disclosures.

ASU 2015-14 – *Revenue from Contracts with Customers: Deferral of the Effective Date* (“ASU 2015-14”). ASU 2015-14 is an update to the effective date in ASU 2014-09 – *Revenue from Contracts with Customers* (“ASU 2014-09”). ASU 2014-09 provides guidance that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2015-14 is effective prospectively, for annual and interim periods, beginning after December 15, 2017. The Company is currently evaluating the impact this standard will have on the Company’s results of operations, financial position or disclosures.

ASU 2015-08 – *Business Combinations: Pushdown Accounting – Amendments to SEC Paragraphs Pursuant to Staff Accounting Bulletin No. 115* (“ASU 2015-08”). ASU 2015-08 removes references to the SEC’s Staff Accounting Bulletin (SAB) Topic 5.J on pushdown accounting from ASC 805-50, thereby conforming the FASB’s guidance on pushdown accounting with the SEC’s guidance on this topic. ASU 2015-08 became effective upon issuance. The adoption of this standard has not had a material effect on the Company’s results of operations, financial position or disclosures.

ASU 2015-02 – *Consolidation (Topic 810): Amendments to the Consolidation Analysis*. ASU 2015-02 amends the consolidation requirements of ASU 810 by changing the consolidation analysis required under GAAP. The revised guidance amends the consolidation analysis based on certain fee arrangements or relationships to the reporting entity and, for limited partnerships, requires entities to consider the limited partner’s rights relative to the general partner. ASU 2015-02 became effective for annual and interim periods beginning after December 15, 2015. The adoption of this standard has not had a material effect on the Company’s results of operations, financial position or disclosures.

There have been no other significant changes to the Company’s accounting policies from the 2015 Form 10-K. Presently, the Company is not aware of any other changes to the Accounting Standards Codification that will have a material impact on the Company’s present or future financial position or results of operations.

Acquisition Accounting, Acquired Loans

The Company accounts for its acquisitions under ASC Topic 805, *Business Combinations*, which requires the use of the purchase method of accounting. All identifiable assets acquired, including loans, are recorded at fair value. No allowance for loan losses related to the acquired loans is recorded on the acquisition date as the fair value of the loans acquired incorporates assumptions regarding credit risk. Loans acquired are recorded at fair value in accordance with the fair value methodology prescribed in ASC Topic 820, exclusive of the shared-loss agreements with the FDIC. The fair value estimates associated with the loans include estimates related to expected prepayments and the amount and timing of undiscounted expected principal, interest and other cash flows.

The Company evaluates loans acquired, other than purchased impaired loans, in accordance with the provisions of ASC Topic 310-20, *Nonrefundable Fees and Other Costs*. The fair value discount on these loans is accreted into interest income over the weighted average life of the loans using a constant yield method. The Company evaluates

purchased impaired loans in accordance with the provisions of ASC Topic 310-30, *Loans and Debt Securities Acquired with Deteriorated Credit Quality*. Purchased loans are considered impaired if there is evidence of credit deterioration since origination and if it is probable that not all contractually required payments will be collected.

For impaired loans accounted for under ASC Topic 310-30, the Company continues to estimate cash flows expected to be collected on these loans. The Company evaluates at each balance sheet date whether the present value of the loans determined using the effective interest rates has decreased significantly and if so, recognize a provision for loan loss in our consolidated statement of income. For any significant increases in cash flows expected to be collected, the Company adjusts the amount of accretable yield recognized on a prospective basis over the remaining life of the loan.

Covered Loans and Related Indemnification Asset

In September 2015, we entered into an agreement with the FDIC to terminate all loss share agreements which were entered into in 2010 and 2012 in conjunction with the Company's acquisition of substantially all of the assets ("covered assets") and assumption of substantially all of the liabilities of four failed banks in FDIC-assisted transactions. Under the early termination, all rights and obligations of the Company and the FDIC under the FDIC loss share agreements, including the clawback provisions and the settlement of loss share and expense reimbursement claims, have been resolved and terminated.

Under the terms of the agreement, the FDIC made a net payment of \$2,368,000 to the Bank as consideration for the early termination of the loss share agreements. The early termination was recorded in the Company's financial statements by removing the FDIC Indemnification Asset, receivable from FDIC, the FDIC True-up liability and recording a one-time, pre-tax charge of \$7,476,000. As a result, the Company reclassified loans previously covered by FDIC loss share to loans acquired, not covered by FDIC loss share. Foreclosed assets previously covered by FDIC loss share were reclassified to foreclosed assets not covered by FDIC loss share.

For further discussion of our acquisition and loan accounting, see Note 2, Acquisitions, and Note 5, Loans Acquired.

Earnings Per Common Share (“EPS”)

Basic EPS is computed by dividing reported net income available to common shareholders by weighted average number of common shares outstanding during each period. Diluted EPS is computed by dividing reported net income available to common shareholders by the weighted average common shares and all potential dilutive common shares outstanding during the period.

Following is the computation of earnings per common share for the three months ended March 31, 2016 and 2015:

(In thousands, except per share data)	2016	2015
Net income available to common shareholders	\$23,481	\$8,709
Average common shares outstanding	30,326	22,258
Average potential dilutive common shares	156	92
Average diluted common shares	30,482	22,350
Basic earnings per common share	\$0.77	\$0.39
Diluted earnings per common share	\$0.77	\$0.39

NOTE 2: ACQUISITIONS**Liberty Bancshares, Inc.**

On February 27, 2015, Simmons First National Corporation completed the acquisition of Liberty Bancshares, Inc. (“Liberty”), headquartered in Springfield, Missouri, including its wholly-owned bank subsidiary Liberty Bank (“LB”). The Company issued 5,181,337 shares of its common stock valued at approximately \$212.2 million as of February 27, 2015 in exchange for all outstanding shares of Liberty common stock.

Prior to the acquisition, Liberty conducted banking business from 24 branches located in southwest Missouri. Including the effects of the purchase accounting adjustments, the Company acquired approximately \$1.1 billion in assets, approximately \$780.7 million in loans including loan discounts and approximately \$874.7 million in deposits. The Company completed the systems conversion and merged LB into Simmons First National Bank (“Simmons Bank” or the “Bank”) on April 24, 2015.

Goodwill of \$95.2 million was recorded as a result of the transaction. The merger strengthened the Company's position in the southwest Missouri market and the Company is able to achieve cost savings by integrating the two companies and combining accounting, data processing, and other administrative functions all of which gave rise to the goodwill recorded. The goodwill will not be deductible for tax purposes.

Edgar Filing: SIMMONS FIRST NATIONAL CORP - Form 10-Q

A summary, at fair value, of the assets acquired and liabilities assumed in the Liberty transaction, as of the acquisition date, is as follows:

(In thousands)	Acquired from Liberty	Fair Value Adjustments	Fair Value
Assets Acquired			
Cash and due from banks, including time deposits	\$ 102,637	\$ (14)	\$ 102,623
Federal funds sold	7,060	--	7,060
Investment securities	99,123	(335)	98,788
Loans acquired, not covered by FDIC loss share	790,493	(9,835)	780,658
Allowance for loan losses	(10,422)	10,422	--

Purchase price			212,176
Goodwill			\$95,207

The following is a description of the methods used to determine the fair values of significant assets and liabilities presented in the Liberty acquisition above.

Cash and due from banks, time deposits due from banks and federal funds sold – The carrying amount of these assets is a reasonable estimate of fair value based on the short-term nature of these assets. Due from banks – time were acquired with an adjustment to fair value based on rates currently available to the Company for deposits in banks with similar maturities.

Investment securities – Investment securities were acquired with an adjustment to fair value based upon quoted market prices.

Loans acquired – Fair values for loans were based on a discounted cash flow methodology that considered factors including the type of loan and related collateral, classification status, fixed or variable interest rate, term of loan and whether or not the loan was amortizing, and current discount rates. The discount rates used for loans are based on current market rates for new originations of comparable loans and include adjustments for liquidity concerns. The discount rate does not include a factor for credit losses as that has been included in the estimated cash flows. Loans were grouped together according to similar characteristics and were treated in the aggregate when applying various valuation techniques.

Premises and equipment – Bank premises and equipment were acquired with an adjustment to fair value, which represents the difference between the Company’s current analysis of property and equipment values completed in connection with the acquisition and book value acquired.

Bank owned life insurance – Bank owned life insurance is carried at its current cash surrender value, which is the most reasonable estimate of fair value.

Goodwill – The consideration paid as a result of the acquisition exceeded the fair value of the assets acquired, resulting in an intangible asset, goodwill, of \$95.2 million.

Core deposit intangible – This intangible asset represents the value of the relationships that Liberty had with its deposit customers. The fair value of this intangible asset was estimated based on a discounted cash flow methodology that gave appropriate consideration to expected customer attrition rates, cost of the deposit base and the net maintenance cost attributable to customer deposits.

Other assets – The fair value adjustment results from certain assets whose value was estimated to be less than book value, such as certain prepaid assets, receivables and other miscellaneous assets. The deferred tax asset, included in other assets, is based on 39.225% of fair value adjustments related to the acquired assets and assumed liabilities and on a calculation of future tax benefits. The Company also recorded Liberty’s remaining deferred tax assets and liabilities as of the acquisition date.

Deposits – The fair values used for the demand and savings deposits that comprise the transaction accounts acquired, by definition equal the amount payable on demand at the acquisition date. The Company performed a fair value analysis of the estimated weighted average interest rate of Liberty’s certificates of deposits compared to the current market rates. Based on the results of the analysis, the estimated fair value adjustment was immaterial.

FHLB borrowings – The fair value of Federal Home Loan Bank borrowings is estimated based on borrowing rates currently available to the Company for borrowings with similar terms and maturities.

Subordinated debentures – The fair value of subordinated debentures is estimated based on borrowing rates currently available to the Company for borrowings with similar terms and maturities.

Accrued interest and other liabilities – The adjustment establishes a liability for unfunded commitments equal to the fair value of that liability at the date of acquisition.

During 2015 the Company finalized its analysis of the acquired loans and subordinated debentures along with the other acquired assets and assumed liabilities.

The Company's operating results for 2015 include the operating results of the acquired assets and assumed liabilities of Liberty subsequent to the acquisition date.

Community First Bancshares, Inc.

On February 27, 2015, Simmons First National Corporation completed the acquisition of Community First Bancshares, Inc. ("Community First"), headquartered in Union City, Tennessee, including its wholly-owned bank subsidiary First State Bank ("FSB"). The Company issued 6,552,915 shares of its common stock valued at approximately \$268.3 million as of February 27, 2015, plus \$9,974 in cash in exchange for all outstanding shares of Community First common stock. The Company also issued \$30.9 million of preferred stock in exchange for all outstanding shares of Community First preferred stock.

Prior to the acquisition, Community First conducted banking business from 33 branches located across Tennessee. Including the effects of the purchase accounting adjustments, the Company acquired approximately \$1.9 billion in assets, approximately \$1.1 billion in loans including loan discounts and approximately \$1.5 billion in deposits. The Company completed the systems conversion and merged FSB into Simmons Bank on September 4, 2015.

Goodwill of \$110.4 million was recorded as a result of the transaction. The merger allowed the Company's entrance into the Tennessee market and will serve as a launching platform for possible expansion into adjacent areas. The Company is able to achieve cost savings by integrating the two companies and combining accounting, data processing, and other administrative functions. Further the Company can benefit from the addition of Community First's small-business lending platform while cross-selling its trust products in Community First's market. This combination of factors gave rise to the goodwill recorded. The goodwill will not be deductible for tax purposes.

Edgar Filing: SIMMONS FIRST NATIONAL CORP - Form 10-Q

A summary, at fair value, of the assets acquired and liabilities assumed in the Community First transaction, as of the acquisition date, is as follows:

(In thousands)	Acquired from Community First	Fair Value Adjustments	Fair Value
Assets Acquired			
Cash and due from banks	\$39,848	\$--	\$39,848

Total deposits	1,535,213	849	1,536,062
Federal funds purchased and securities sold under agreement to repurchase	16,230	--	16,230
FHLB borrowings	143,047	674	143,721
Subordinated debentures	21,754	(840)	20,914
Accrued interest and other liabilities	8,769	601	9,370
Total liabilities assumed	1,725,013	1,284	1,726,297
Equity	193,312	(193,312)	--
Total equity assumed	193,312	(193,312)	--
Total liabilities and equity assumed	\$1,918,325	\$(192,028)	\$1,726,297
Net assets acquired			188,764
Purchase price			299,204
Goodwill			\$110,440

The following is a description of the methods used to determine the fair values of significant assets and liabilities presented in the Community First acquisition above.

Cash and due from banks and federal funds sold – The carrying amount of these assets is a reasonable estimate of fair value based on the short-term nature of these assets.

Investment securities – Investment securities were acquired with an adjustment to fair value based upon quoted market prices.

Loans acquired – Fair values for loans were based on a discounted cash flow methodology that considered factors including the type of loan and related collateral, classification status, fixed or variable interest rate, term of loan and whether or not the loan was amortizing, and current discount rates. The discount rates used for loans are based on current market rates for new originations of comparable loans and include adjustments for liquidity concerns. The discount rate does not include a factor for credit losses as that has been included in the estimated cash flows. Loans were grouped together according to similar characteristics and were treated in the aggregate when applying various valuation techniques.

Foreclosed assets held for sale – These assets are presented at the estimated present values that management expects to receive when the properties are sold, net of related costs of disposal.

Premises and equipment – Bank premises and equipment were acquired with an adjustment to fair value, which represents the difference between the Company's current analysis of property and equipment values completed in connection with the acquisition and book value acquired.

Bank owned life insurance – Bank owned life insurance is carried at its current cash surrender value, which is the most reasonable estimate of fair value.

Goodwill – The consideration paid as a result of the acquisition exceeded the fair value of the assets acquired, resulting in an intangible asset, goodwill, of \$110.4 million. Goodwill established prior to the acquisition was written off.

Core deposit intangible – This intangible asset represents the value of the relationships that Community First had with its deposit customers. The fair value of this intangible asset was estimated based on a discounted cash flow methodology that gave appropriate consideration to expected customer attrition rates, cost of the deposit base and the net maintenance cost attributable to customer deposits.

Other intangibles – This intangible asset represents the value of the relationships that Community First's insurance subsidiary had with their customers. The fair value of this intangible asset was estimated based on a combination of discounted cash flow methodology and a market valuation approach.

Deferred tax asset – The deferred tax asset is based on 39.225% of fair value adjustments related to the acquired assets and assumed liabilities and on a calculation of future tax benefits. The Company also recorded Community First's remaining deferred tax assets and liabilities as of the acquisition date.

Other assets – The carrying amount of these assets was deemed to be a reasonable estimate of fair value.

Deposits – The fair values used for the demand and savings deposits that comprise the transaction accounts acquired, by definition equal the amount payable on demand at the acquisition date. The Company performed a fair value analysis of the estimated weighted average interest rate of Community First's certificates of deposits compared to the current market rates and recorded a fair value adjustment for the difference.

Federal funds purchased and securities sold under agreement to repurchase – The carrying amount of federal funds purchased and securities sold under agreement to repurchase is a reasonable estimate of fair value based on the short-term nature of these liabilities.

FHLB borrowings – The fair value of Federal Home Loan Bank borrowings is estimated based on borrowing rates currently available to the Company for borrowings with similar terms and maturities.

Subordinated debentures – The fair value subordinated debentures is estimated based on borrowing rates currently available to the Company for borrowings with similar terms and maturities.

Accrued interest and other liabilities – The adjustment establishes a liability for unfunded commitments equal to the fair value of that liability at the date of acquisition.

During 2015 the Company finalized its analysis of the acquired loans and subordinated debentures along with the other acquired assets and assumed liabilities.

The Company's operating results for 2015 include the operating results of the acquired assets and assumed liabilities of Community First subsequent to the acquisition date.

Ozark Trust & Investment Corporation

On October 29, 2015, Simmons First National Corporation completed the acquisition of Ozark Trust & Investment Corporation ("Ozark Trust"), headquartered in Springfield, Missouri, including its wholly-owned non-deposit trust company, Trust Company of the Ozarks ("TCO"). Simmons issued 339,290 shares of its common stock valued at approximately \$17.9 million as of October 29, 2015, plus \$5.8 million in cash in exchange for all outstanding shares of Ozark Trust common stock.

Prior to the acquisition, Ozark Trust had over \$1 billion in assets under management. The Company owned 1,000 shares of Ozark Trust's common stock, which it acquired through its acquisition of Liberty in February 2015. The purchase price is allocated among the net assets of Ozark Trust acquired as appropriate, with the remaining balance being reported as goodwill.

A summary, at fair value, of the assets acquired and liabilities assumed in the Ozark Trust transaction, as of the acquisition date, is as follows:

(In thousands)	Acquired from Ozark Trust	Fair Value Adjustments	Fair Value
Assets Acquired			
Cash	\$ 1,756	\$ --	\$ 1,756
Investment securities	241	--	241
Premises and equipment	1,126	418	1,544
Other intangibles	--	9,733	9,733
Other assets	752	--	752
Total assets acquired	\$ 3,875	\$ 10,151	\$ 14,026
Liabilities Assumed			
Deferred tax liability	63	3,982	4,045
Accrued and other liabilities	302	--	302
Total liabilities assumed	365	3,982	4,347
Equity	3,510	(3,510)	--
Total equity assumed	3,510	(3,510)	--
Total liabilities and equity assumed	\$ 3,875	\$ 472	\$ 4,347
Net assets acquired			9,679

Purchase price	23,623
Goodwill	\$13,944

The following is a description of the methods used to determine the fair values of significant assets and liabilities presented in the Ozark Trust acquisition above.

Cash– The carrying amount of these assets is a reasonable estimate of fair value based on the short-term nature of these assets.

Investment securities –. The carrying amount of these assets was deemed to be a reasonable estimate of fair value.

Premises and equipment – Premises and equipment were acquired with an adjustment to fair value, which represents the difference between the Company’s current analysis of property values completed in connection with the acquisition and book value acquired.

Goodwill – The consideration paid as a result of the acquisition exceeded the fair value of the assets acquired, resulting in an intangible asset, goodwill, of \$13.9 million.

Other intangibles – These intangible assets represent the value of the relationships that Ozark Trust had with their customers. The fair value of these intangible assets was estimated based on a combination of discounted cash flow methodology and a market valuation approach.

Other assets – The carrying amount of these assets was deemed to be a reasonable estimate of fair value.

Deferred tax liability – The deferred tax liability is based on 39.225% of fair value adjustments related to the acquired assets and assumed liabilities and on a calculation of future tax benefits. The Company also recorded Ozark Trust’s remaining deferred tax assets and liabilities as of the acquisition date.

The purchase price allocation and certain fair value measurements remain preliminary due to the timing of the acquisition. Management will continue to review the estimated fair values and to evaluate the assumed tax positions. The Company expects to finalize its analysis of the acquired assets and assumed liabilities in this transaction over the next few months, within one year of the acquisition. Therefore, adjustments to the estimated amounts and carrying values may occur.

The Company’s operating results for 2015 include the operating results of the acquired assets and assumed liabilities of Ozark Trust subsequent to the acquisition date. This acquisition is not considered significant to the Company’s financial statements, and thus no proforma information is presented.

NOTE 3: INVESTMENT SECURITIES

The amortized cost and fair value of investment securities that are classified as held-to-maturity and available-for-sale are as follows:

(In thousands)	March 31, 2016				December 31, 2015			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized (Losses)	Estimated Fair Value	Amortized Cost	Gross Unrealized Gains	Gross Unrealized (Losses)	Estimated Fair Value

Securities with limited marketability, such as stock in the Federal Reserve Bank and the Federal Home Loan Bank, are carried at cost and are reported as other available-for-sale securities in the table above.

Certain investment securities are valued at less than their historical cost. Total fair value of these investments at March 31, 2016, was \$273.7 million, which is approximately 17.9% of the Company's combined available-for-sale and held-to-maturity investment portfolios.

The following table shows the gross unrealized losses and fair value of the Company's investments with unrealized losses, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position at March 31, 2016:

(In thousands)	Less Than 12 Months		12 Months or More		Total	
	Estimated Gross		Estimated Gross		Estimated Gross	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Held-to-Maturity						
U.S. Government agencies	\$73,941	\$ (46)	\$53,958	\$ (43)	\$127,899	\$ (89)

Available-for-Sale						
U.S. Government agencies	\$31,469	\$ (25)	\$20,284	\$ (16)	\$51,753	\$ (41)
Mortgage-backed securities	57,467	(98)	15,891	(5)	73,358	(103)
State and political subdivisions	2,084	(11)	--	--	2,084	(11)
Other securities	60	(21)	--	--	60	(21)
Total AFS	\$91,080	\$ (155)	\$36,175	\$ (21)	\$127,255	\$ (176)

These declines primarily resulted from the rate for these investments yielding less than current market rates. Based on evaluation of available evidence, management believes the declines in fair value for these securities are temporary. Management does not have the intent to sell these securities and management believes it is more likely than not the Company will not have to sell these securities before recovery of their amortized cost basis less any current period credit losses.

Declines in the fair value of held-to-maturity and available-for-sale securities below their cost that are deemed to be other than temporary are reflected in earnings as realized losses. In estimating other-than-temporary impairment losses, management considers, among other things, (i) the length of time and the extent to which the fair value has been less than cost, (ii) the financial condition and near-term prospects of the issuer, and (iii) the intent and ability of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value.

Management has the ability and intent to hold the securities classified as held to maturity until they mature, at which time the Company expects to receive full value for the securities. Furthermore, as of March 31, 2016, management also had the ability and intent to hold the securities classified as available-for-sale for a period of time sufficient for a recovery of cost. The unrealized losses are largely due to increases in market interest rates over the yields available at the time the underlying securities were purchased. The fair value is expected to recover as the bonds approach their maturity date or repricing date or if market yields for such investments decline. Management does not believe any of

the securities are impaired due to reasons of credit quality. Accordingly, as of March 31, 2016, management believes the impairments detailed in the table above are temporary. Should the impairment of any of these securities become other than temporary, the cost basis of the investment will be reduced and the resulting loss recognized in net income in the period the other-than-temporary impairment is identified.

The book value of securities sold under agreements to repurchase equaled \$86.9 million and \$96.8 million for March 31, 2016 and December 31, 2015, respectively.

Income earned on securities for the three months ended March 31, 2016 and 2015, is as follows:

(In thousands)	2016	2015
Taxable:		
Held-to-maturity	\$876	\$1,389
Available-for-sale	4,434	1,583
Non-taxable:		
Held-to-maturity	3,146	2,602
Available-for-sale	50	305
Total	\$8,506	\$5,879

Maturities of investment securities at March 31, 2016, are as follows:

(In thousands)	Held-to-Maturity		Available-for-Sale	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
One year or less	\$39,343	\$39,400	\$19,592	\$19,589
After one through five years	291,884	293,315	60,426	60,411
After five through ten years	119,343	122,356	7,754	7,983
After ten years	200,198	207,741	7,578	7,659
Securities not due on a single maturity date	23,734	24,023	715,097	722,982
Other securities (no maturity)	--	--	38,467	39,049
Total	\$674,502	\$686,835	\$848,914	\$857,673

The carrying value, which approximates the fair value, of securities pledged as collateral, to secure public deposits and for other purposes, amounted to \$963.4 million at March 31, 2016 and \$840.4 million at December 31, 2015.

There were \$329,000 of gross realized gains and no realized losses from the sale of available for sale securities during the three months ended March 31, 2016. There were \$2,000 of gross realized gains and \$40,000 of realized losses from the sale of available for sale securities during the three months ended March 31, 2015.

The state and political subdivision debt obligations are primarily non-rated bonds representing small, Arkansas, Illinois, Kansas, Missouri, Tennessee and Texas issues, which are evaluated on an ongoing basis.

NOTE 4: LOANS AND ALLOWANCE FOR LOAN LOSSES

At March 31, 2016, the Company's loan portfolio was \$4.930 billion, compared to \$4.919 billion at December 31, 2015. The various categories of loans are summarized as follows:

(In thousands)	March 31, 2016	December 31, 2015
Consumer:		
Credit cards	\$ 167,803	\$ 177,288
Other consumer	227,480	208,380
Total consumer	395,283	385,668

(1) See Note 5, Loans Acquired, for segregation of loans acquired by loan class.

Loan Origination/Risk Management – The Company seeks to manage its credit risk by diversifying its loan portfolio, determining that borrowers have adequate sources of cash flow for loan repayment without liquidation of collateral; obtaining and monitoring collateral; providing an adequate allowance for loans losses by regularly reviewing loans through the internal loan review process. The loan portfolio is diversified by borrower, purpose and industry. The Company seeks to use diversification within the loan portfolio to reduce its credit risk, thereby minimizing the adverse impact on the portfolio, if weaknesses develop in either the economy or a particular segment of borrowers. Collateral requirements are based on credit assessments of borrowers and may be used to recover the debt in case of default. Furthermore, a factor that influenced the Company's judgment regarding the allowance for loan losses consists of a five-year historical loss average segregated by each primary loan sector. On an annual basis, historical loss rates are calculated for each sector.

Consumer – The consumer loan portfolio consists of credit card loans and other consumer loans. Credit card loans are diversified by geographic region to reduce credit risk and minimize any adverse impact on the portfolio. Although they are regularly reviewed to facilitate the identification and monitoring of creditworthiness, credit card loans are unsecured loans, making them more susceptible to be impacted by economic downturns resulting in increasing unemployment. Other consumer loans include direct and indirect installment loans and overdrafts. Loans in this portfolio segment are sensitive to unemployment and other key consumer economic measures.

Real estate – The real estate loan portfolio consists of construction loans, single family residential loans and commercial loans. Construction and development loans (“C&D”) and commercial real estate loans (“CRE”) can be particularly sensitive to valuation of real estate. Commercial real estate cycles are inevitable. The long planning and production process for new properties and rapid shifts in business conditions and employment create an inherent tension between supply and demand for commercial properties. While general economic trends often move individual markets in the same direction over time, the timing and magnitude of changes are determined by other forces unique to each market. CRE cycles tend to be local in nature and longer than other credit cycles. Factors influencing the CRE market are traditionally different from those affecting residential real estate markets; thereby making predictions for one market based on the other difficult. Additionally, submarkets within commercial real estate – such as office, industrial, apartment, retail and hotel – also experience different cycles, providing an opportunity to lower the overall risk through diversification across types of CRE loans. Management realizes that local demand and supply conditions will also mean that different geographic areas will experience cycles of different amplitude and length. The Company monitors these loans closely.

Commercial – The commercial loan portfolio includes commercial and agricultural loans, representing loans to commercial customers and farmers for use in normal business or farming operations to finance working capital needs, equipment purchase or other expansion projects. Collection risk in this portfolio is driven by the creditworthiness of the underlying borrowers, particularly cash flow from customers’ business or farming operations. The Company continues its efforts to keep loan terms short, reducing the negative impact of upward movement in interest rates. Term loans are generally set up with one or three year balloons, and the Company has recently instituted a pricing mechanism for commercial loans. It is standard practice to require personal guaranties on all commercial loans, particularly as they relate to closely-held or limited liability entities.

Nonaccrual and Past Due Loans – Loans are considered past due if the required principal and interest payments have not been received as of the date such payments were due. Loans are placed on nonaccrual status when, in management’s opinion, the borrower may be unable to meet payment obligations as they become due, as well as when required by regulatory provisions. Loans may be placed on nonaccrual status regardless of whether or not such loans are considered past due. When interest accrual is discontinued, all unpaid accrued interest is reversed. Interest income is subsequently recognized only to the extent cash payments are received in excess of principal due. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Nonaccrual loans, excluding loans acquired, segregated by class of loans, are as follows:

Impaired Loans – A loan is considered impaired when it is probable that the Company will not receive all amounts due according to the contractual terms of the loans, including scheduled principal and interest payments. This includes loans that are delinquent 90 days or more, nonaccrual loans and certain other loans identified by management. Certain

other loans identified by management consist of performing loans with specific allocations of the allowance for loan losses. Impaired loans are carried at the present value of estimated future cash flows using the loan's existing rate, or the fair value of the collateral if the loan is collateral dependent.

Impairment is evaluated in total for smaller-balance loans of a similar nature and on an individual loan basis for other loans. Impaired loans, or portions thereof, are charged-off when deemed uncollectible.

Impaired loans, net of government guarantees and excluding loans acquired, segregated by class of loans, are as follows:

(In thousands)	Unpaid Contractual Principal Balance	Recorded Investment With No Allowance	Recorded Investment With Allowance	Total Recorded Investment	Related Allowance	Average Investment in Impaired Loans	Interest Income Recognized

At March 31, 2016, and December 31, 2015, impaired loans, net of government guarantees and excluding loans acquired, totaled \$33.8 million and \$18.2 million, respectively. Allocations of the allowance for loan losses relative to impaired loans were \$2.9 million and \$2.8 million at March 31, 2016 and December 31, 2015, respectively.

Approximately \$351,000 of interest income was recognized on average impaired loans of \$26.0 million for the three months ended March 31, 2016. Interest income recognized on impaired loans on a cash basis during the three months ended March 31, 2016 and 2015 was not material.

Included in certain impaired loan categories are troubled debt restructurings (“TDRs”). When the Company restructures a loan to a borrower that is experiencing financial difficulty and grants a concession that it would not otherwise consider, a “troubled debt restructuring” results and the Company classifies the loan as a TDR. The Company grants various types of concessions, primarily interest rate reduction and/or payment modifications or extensions, with an occasional forgiveness of principal.

Under ASC Topic 310-10-35 – *Subsequent Measurement*, a TDR is considered to be impaired, and an impairment analysis must be performed. The Company assesses the exposure for each modification, either by collateral discounting or by calculation of the present value of future cash flows, and determines if a specific allocation to the allowance for loan losses is needed.

Once an obligation has been restructured because of such credit problems, it continues to be considered a TDR until paid in full; or, if an obligation yields a market interest rate and no longer has any concession regarding payment amount or amortization, then it is not considered a TDR at the beginning of the calendar year after the year in which the improvement takes place. The Company returns TDRs to accrual status only if (1) all contractual amounts due can reasonably be expected to be repaid within a prudent period, and (2) repayment has been in accordance with the contract for a sustained period, typically at least six months.

The following table presents a summary of troubled debt restructurings, excluding loans acquired, segregated by class of loans.

During the three months ended March 31, 2016, the Company modified 28 loans with a recorded investment of \$9.0 million prior to modification which were deemed troubled debt restructuring. The restructured loans were modified by deferring amortized principal payments and requiring interest only payments for a period of 12 months. Based on the fair value of the collateral, a specific reserve of \$293,000 was determined necessary for these loans. Also, there was no immediate financial impact from the restructuring of these loans, as it was not considered necessary to charge-off interest or principal on the date of restructure.

During the three months ended March 31, 2015, the Company modified two loans with a recorded investment of \$348,000 prior to modification which was deemed troubled debt restructuring. The restructured loans were modified by deferring amortized principal payments and requiring interest only payments for a period of 12 months. Based on the fair value of the collateral, no specific reserve was determined necessary for this loan. Also, there was no immediate financial impact from the restructuring of this loan, as it was not considered necessary to charge-off interest or principal on the date of restructure.

There were no loans for which a payment default occurred during the three months ended March 31, 2016 and 2015, and that had been modified as a TDR within 12 months or less of the payment default, excluding loans acquired. We define a payment default as a payment received more than 90 days after its due date.

In addition to the TDRs that occurred during the period provided in the preceding tables, the Company had TDRs with pre-modification loan balances of \$166,500 and \$4.8 million at March 31, 2016 and 2015, respectively, for which other real estate owned (“OREO”) was received in full or partial satisfaction of the loans. The majority of such TDRs were in commercial real estate and residential real estate. At March 31, 2016, the Company had \$2,908,000 of consumer mortgage loans secured by residential real estate properties for which formal foreclosure proceedings are in process. At March 31, 2016, the Company had \$5,674,000 of OREO secured by residential real estate properties.

Credit Quality Indicators – As part of the on-going monitoring of the credit quality of the Company’s loan portfolio, management tracks certain credit quality indicators including trends related to (i) the weighted-average risk rating of commercial and real estate loans, (ii) the level of classified commercial and real estate loans, (iii) net charge-offs, (iv) non-performing loans (see details above) and (v) the general economic conditions in the States of Arkansas, Kansas, Missouri and Tennessee.

The Company utilizes a risk rating matrix to assign a risk rate to each of its commercial and real estate loans. Loans are rated on a scale of 1 to 8. A description of the general characteristics of the 8 risk ratings is as follows:

Risk Rate 1 – Pass (Excellent) – This category includes loans which are virtually free of credit risk. Borrowers in this category represent the highest credit quality and greatest financial strength.

Risk Rate 2 – Pass (Good) - Loans under this category possess a nominal risk of default. This category includes borrowers with strong financial strength and superior financial ratios and trends. These loans are generally fully secured by cash or equivalents (other than those rated "excellent").

Risk Rate 3 – Pass (Acceptable – Average) - Loans in this category are considered to possess a normal level of risk. Borrowers in this category have satisfactory financial strength and adequate cash flow coverage to service debt requirements. If secured, the perfected collateral should be of acceptable quality and within established borrowing parameters.

Risk Rate 4 – Pass (Monitor) - Loans in the Watch (Monitor) category exhibit an overall acceptable level of risk, but that risk may be increased by certain conditions, which represent "red flags". These "red flags" require a higher level of supervision or monitoring than the normal "Pass" rated credit. The borrower may be experiencing these conditions for the first time, or it may be recovering from weakness, which at one time justified a harsher rating. These conditions may include: weaknesses in financial trends; marginal cash flow; one-time negative operating results; non-compliance with policy or borrowing agreements; poor diversity in operations; lack of adequate monitoring information or lender supervision; questionable management ability/stability.

Risk Rate 5 – Special Mention - A loan in this category has potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the asset or in the institution's credit position at some future date. Special Mention loans are not adversely classified (although they are "criticized") and do not expose an institution to sufficient risk to warrant adverse classification. Borrowers may be experiencing adverse operating trends, or an ill-proportioned balance sheet. Non-financial characteristics of a Special Mention rating may include management problems, pending litigation, a non-existent, or ineffective loan agreement or other material structural weakness, and/or other significant deviation from prudent lending practices.

Risk Rate 6 – Substandard - A Substandard loan is inadequately protected by the current sound worth and paying capacity of the borrower or of the collateral pledged, if any. Loans so classified must have a well-defined weakness, or weaknesses, that jeopardize the liquidation of the debt. The loans are characterized by the distinct possibility that the Company will sustain some loss if the deficiencies are not corrected. This does not imply ultimate loss of the principal, but may involve burdensome administrative expenses and the accompanying cost to carry the loan.

Risk Rate 7 – Doubtful – A loan classified Doubtful has all the weaknesses inherent in a substandard loan except that the weaknesses make collection or liquidation in full (on the basis of currently existing facts, conditions, and values)

highly questionable and improbable. Doubtful borrowers are usually in default, lack adequate liquidity, or capital, and lack the resources necessary to remain an operating entity. The possibility of loss is extremely high, but because of specific pending events that may strengthen the asset, its classification as loss is deferred. Pending factors include: proposed merger or acquisition; liquidation procedures; capital injection; perfection of liens on additional collateral; and refinancing plans. Loans classified as Doubtful are placed on nonaccrual status.

Risk Rate 8 – Loss - Loans classified Loss are considered uncollectible and of such little value that their continuance as bankable assets is not warranted. This classification does not mean that the loans has absolutely no recovery or salvage value, but rather it is not practical or desirable to defer writing off this basically worthless loan, even though partial recovery may be affected in the future. Borrowers in the Loss category are often in bankruptcy, have formally suspended debt repayments, or have otherwise ceased normal business operations. Loans should be classified as Loss and charged-off in the period in which they become uncollectible.

Loans acquired are evaluated using this internal grading system. Loans acquired are evaluated individually and include purchased credit impaired loans of \$21.3 million and \$23.5 million that are accounted for under ASC Topic 310-30 and are classified as substandard (Risk Rating 6) as of March 31, 2016 and December 31, 2015, respectively. Of the remaining loans acquired and accounted for under ASC Topic 310-20, \$47.9 million and \$49.9 million were classified (Risk Ratings 6, 7 and 8 – see classified loans discussion below) at March 31, 2016 and December 31, 2015, respectively.

Loans acquired, covered by loss share agreements, had additional protection provided by the FDIC prior to the termination of the loss share agreements. During the 2014 quarterly impairment testing on the estimated cash flows of the credit impaired loans, the Company established that some of the loans covered by loss share from our FDIC-assisted transactions had experienced material projected credit deterioration. As a result, the Company established a \$954,000 allowance for loan losses on covered loans by recording a provision for loan losses of \$0.4 million (net of FDIC-loss share adjustments) during the period ended December 31, 2014. There was no further projected credit deterioration and no addition to the allowance for covered loans during 2015. The \$954,000 allowance was reclassified to allowance on acquired non-covered loans subsequent to the agreement with the FDIC to terminate the loss share agreements. See Note 5, Loans Acquired, for further discussion of the acquired loans and loss sharing agreements.

Purchased credit impaired loans are loans that showed evidence of deterioration of credit quality since origination and for which it is probable, at acquisition, that the Company will be unable to collect all amounts contractually owed. Their fair value was initially based on the estimate of cash flows, both principal and interest, expected to be collected or estimated collateral values if cash flows are not estimable, discounted at prevailing market rates of interest. The difference between the undiscounted cash flows expected at acquisition and the fair value at acquisition is recognized as interest income on a level-yield method over the life of the loan. Contractually required payments for interest and principal that exceed the undiscounted cash flows expected at acquisition are not recognized as a yield adjustment. Increases in expected cash flows subsequent to the initial investment are recognized prospectively through adjustment of the yield on the loan over its remaining life. Decreases in expected cash flows are recognized as impairment.

Classified loans for the Company include loans in Risk Ratings 6, 7 and 8. Loans may be classified, but not considered impaired, due to one of the following reasons: (1) The Company has established minimum dollar amount thresholds for loan impairment testing. Loans rated 6 – 8 that fall under the threshold amount are not tested for impairment and therefore are not included in impaired loans. (2) Of the loans that are above the threshold amount and tested for impairment, after testing, some are considered to not be impaired and are not included in impaired loans. Total classified loans, excluding loans accounted for under ASC Topic 310-30, were \$164.5 million and \$153.7 million, as of March 31, 2016 and December 31, 2015, respectively.

The following table presents a summary of loans by credit risk rating as of March 31, 2016 and December 31, 2015, segregated by class of loans. Loans accounted for under ASC Topic 310-30 are all included in Risk Rate 1-4 in this table.

Allowance for Loan Losses

Allowance for Loan Losses – The allowance for loan losses is a reserve established through a provision for loan losses charged to expense, which represents management’s best estimate of probable losses that have been incurred within the existing portfolio of loans. The allowance, in the judgment of management, is necessary to reserve for estimated loan losses and risks inherent in the loan portfolio. The Company’s allowance for loan loss methodology includes allowance allocations calculated in accordance with ASC Topic 310-10, *Receivables*, and allowance allocations calculated in accordance with ASC Topic 450-20, *Loss Contingencies*. Accordingly, the methodology is based on the Company’s internal grading system, specific impairment analysis, qualitative and quantitative factors.

As mentioned above, allocations to the allowance for loan losses are categorized as either specific allocations or general allocations.

A loan is considered impaired when it is probable that the Company will not receive all amounts due according to the contractual terms of the loan, including scheduled principal and interest payments. For a collateral dependent loan, the Company’s evaluation process includes a valuation by appraisal or other collateral analysis. This valuation is compared to the remaining outstanding principal balance of the loan. If a loss is determined to be probable, the loss is included in the allowance for loan losses as a specific allocation. If the loan is not collateral dependent, the measurement of loss is based on the difference between the expected and contractual future cash flows of the loan.

The general allocation is calculated monthly based on management’s assessment of several factors such as (1) historical loss experience based on volumes and types, (2) volume and trends in delinquencies and nonaccruals, (3) lending policies and procedures including those for loan losses, collections and recoveries, (4) national, state and local economic trends and conditions, (5) concentrations of credit within the loan portfolio, (6) the experience, ability and depth of lending management and staff and (7) other factors and trends that will affect specific loans and categories of loans. The Company establishes general allocations for each major loan category. This category also includes allocations to loans which are collectively evaluated for loss such as credit cards, one-to-four family owner occupied residential real estate loans and other consumer loans.

The following table details activity in the allowance for loan losses by portfolio segment for the three months ended March 31, 2016. Allocation of a portion of the allowance to one category of loans does not preclude its availability to absorb losses in other categories.

(In thousands)	Commercial	Real Estate	Credit Card	Other Consumer and Other	Total
<u>Three Months Ended March 31, 2016</u>					
Balance, beginning of period	\$ 5,985	\$19,522	\$3,893	\$ 1,951	\$31,351

NOTE 5: LOANS ACQUIRED

On September 15, 2015, the Company entered into an agreement with the FDIC to terminate all loss share agreements which were entered into in 2010 and 2012 in conjunction with the Company's acquisition of substantially all of the assets ("covered assets") and assumption of substantially all of the liabilities of four failed banks in FDIC-assisted transactions. Under the early termination, all rights and obligations of the Company and the FDIC under the FDIC loss share agreements, including the clawback provisions and the settlement of loss share and expense reimbursement claims, have been resolved and terminated.

Under the terms of the agreement, the FDIC made a net payment of \$2,368,000 to the bank as consideration for the early termination of the loss share agreements. The early termination was recorded in the Company's financial statements by removing the FDIC Indemnification Asset, receivable from FDIC, the FDIC True-up liability and recording a one-time, pre-tax charge of \$7,476,000. As a result, the Company reclassified loans previously covered by FDIC loss share to loans acquired, not covered by FDIC loss share. Foreclosed assets previously covered by FDIC loss share were reclassified to foreclosed assets not covered by FDIC loss share.

During the first quarter of 2015, the Company evaluated \$769.9 million of net loans (\$774.8 million gross loans less \$4.9 million discount) purchased in conjunction with the acquisition of Liberty, described in Note 2, Acquisitions, in accordance with the provisions of ASC Topic 310-20, *Nonrefundable Fees and Other Costs*. The fair value discount is being accreted into interest income over the weighted average life of the loans using a constant yield method. These loans are not considered to be impaired loans. The Company evaluated the remaining \$10.7 million of net loans (\$15.7

million gross loans less \$5.0 million discount) purchased in conjunction with the acquisition of Liberty for impairment in accordance with the provisions of ASC Topic 310-30, *Loans and Debt Securities Acquired with Deteriorated Credit Quality*. Purchased loans are considered impaired if there is evidence of credit deterioration since origination and if it is probable that not all contractually required payments will be collected.

Also during the first quarter of 2015, the Company evaluated \$1.13 billion of net loans (\$1.15 billion gross loans less \$23.7 million discount) purchased in conjunction with the acquisition of Community First, described in Note 2, Acquisitions, in accordance with the provisions of ASC Topic 310-20. The fair value discount is being accreted into interest income over the weighted average life of the loans using a constant yield method. These loans are not considered to be impaired loans. The Company evaluated the remaining \$7.0 million of net loans (\$10.1 million gross loans less \$3.1 million discount) purchased in conjunction with the acquisition of Community First for impairment in accordance with the provisions of ASC Topic 310-30.

The following table reflects the carrying value of all acquired loans as of March 31, 2016 and December 31, 2015:

(in thousands)	Loans Acquired	
	March 31, 2016	December 31, 2015

Total	\$1,590,384	\$9,150	\$69,219	\$3,689	\$459	\$1,672,901

Loans acquired were individually evaluated and recorded at estimated fair value, including estimated credit losses, at the time of acquisition. These loans are systematically reviewed by the Company to determine the risk of losses that may exceed those identified at the time of the acquisition. Techniques used in determining risk of loss are similar to the Company's legacy loan portfolio, with most focus being placed on those loans which include the larger loan relationships and those loans which exhibit higher risk characteristics.

The amount of the estimated cash flows expected to be received from the purchased credit impaired loans in excess of the fair values recorded for the purchased credit impaired loans is referred to as the accretable yield. The accretable yield is recognized as interest income over the estimated lives of the loans. Each quarter, the Company estimates the cash flows expected to be collected from the acquired purchased credit impaired loans, and adjustments may or may not be required. This has resulted in increased interest income that is spread on a level-yield basis over the remaining expected lives of the loans. For those loans previously covered by FDIC loss share, the increases in expected cash flows also reduced the amount of expected reimbursements under the loss sharing agreements with the FDIC, which was recorded as indemnification assets. The estimated adjustments to the indemnification assets were amortized on a level-yield basis over the remainder of the loss-sharing agreements or the remaining expected lives of the loans, whichever was shorter. Because the Company's loss share agreements with the FDIC have been terminated, there will be no further indemnification asset amortization in future quarters.

The impact of the adjustments on the Company's financial results for the three months ended March 31, 2016 and 2015 is shown below:

(In thousands)	Three Months Ended March 31,	
	2016	2015
Impact on net interest income	\$ 1,095	\$ 6,102
Non-interest income ⁽¹⁾	--	(2,745)
Net impact to pre-tax income	1,095	3,357
Net impact, net of taxes	\$ 665	\$ 2,040

Negative non-interest income resulted from the amortization of the FDIC indemnification assets. Because the (1) Company's loss share agreements with the FDIC have been terminated, there will be no further indemnification asset amortization.

These adjustments will be recognized over the remaining lives of the purchased credit impaired loans. The accretable yield adjustments recorded in future periods will change as the Company continues to evaluate expected cash flows from the purchased credit impaired loans.

Changes in the carrying amount of the accretable yield for all purchased impaired loans were as follows for the three months ended March 31, 2016 and 2015.

(In thousands)	Three Months Ended March 31, 2016		Three Months Ended March 31, 2015	
	Accretable Yield	Carrying Amount of Loans	Accretable Yield	Carrying Amount of Loans
Beginning balance	\$954	\$23,469	\$20,635	\$169,098
Additions	--	--	(116)	17,750
Accretable yield adjustments	2,432	--	3,074	--
Accretion	(1,352)	1,352	(6,367)	6,367
Payments and other reductions, net	--	(3,562)	--	(15,524)
Balance, ending	\$2,034	\$21,259	\$17,226	\$177,691

Purchased impaired loans are evaluated on an individual borrower basis. Because some loans evaluated by the Company, previously covered by loss share agreements, were determined to have experienced impairment in the estimated credit quality or cash flows during 2014, the Company recorded a provision to establish a \$954,000 allowance for loan losses for covered purchased impaired loans. During 2015, the Company recorded a provision totaling \$736,000 to cover impairment in the estimated credit quality of acquired loans, not covered by loss share. Non-covered loans were subsequently charged-off and the allowance was used during 2015. Because of the termination of the loss share agreements, the allowance for previously covered loans was reclassified to allowance for acquired non-covered loans, resulting in a total allowance on acquired non-covered loans of \$954,000 at March 31, 2016 and December 31, 2015.

The purchase and assumption agreements for the FDIC-assisted acquisitions allowed for the FDIC to recover a portion of the funds previously paid out under the indemnification agreement in the event losses failed to reach the expected loss level under a claw back provision (“true-up provision”). The amount of the true-up provision for each acquisition was measured and recorded at Day 1 fair values. It was calculated as the difference between management’s estimated losses on covered loans and covered foreclosed assets and the loss threshold contained in each loss share agreement, multiplied by the applicable clawback provisions contained in each loss share agreement, then discounted back to net present value. Due to the termination of the FDIC agreements in September 2015 there was no amortization expense recorded for the three months ended March 31, 2016. For the three months ended March 31, 2015, amortization expense of \$40,000 and an adjustment related to changes in expected losses of \$254,000 was recorded.

NOTE 6: GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill is tested annually, or more often than annually, if circumstances warrant, for impairment. If the implied fair value of goodwill is lower than its carrying amount, goodwill impairment is indicated, and goodwill is written down to its implied fair value. Subsequent increases in goodwill value are not recognized in the financial statements. Goodwill totaled \$327.7 million at March 31, 2016 and December 31, 2015. Goodwill impairment was neither indicated nor recorded during the three months ended March 31, 2016 or the year ended December 31, 2015.

Core deposit premiums are amortized over a ten year period and are periodically evaluated, at least annually, as to the recoverability of their carrying value. Core deposit premiums of \$11.3 million and \$14.6 million were recorded during the first quarter of 2015 as part of the Community First and Liberty acquisitions, respectively.

Intangible assets are being amortized over various periods ranging from 10 to 15 years. The Community First acquisition on February 27, 2016 included an insurance line of business and the Company recorded an intangible asset of \$420,000 during the first quarter of 2015.

The Company's goodwill and other intangibles (carrying basis and accumulated amortization) at March 31, 2016 and December 31, 2015, were as follows:

(In thousands)	March 31, 2016	December 31, 2015
Goodwill	\$327,686	\$327,686
Core deposit premiums:		
Gross carrying amount	43,617	43,648
Accumulated amortization	(7,267)	(6,217)
Core deposit premiums, net	36,350	37,431
Purchased credit card relationships:		
Gross carrying amount	2,068	2,068
Accumulated amortization	(1,034)	(931)
Purchased credit card relationships, net	1,034	1,137
Books of business intangible:		
Gross carrying amount	15,293	15,293
Accumulated amortization	(894)	(624)
Books of business intangible, net	14,399	14,669
Other intangible assets, net	51,783	53,237
Total goodwill and other intangible assets	\$379,469	\$380,923

The Company's estimated remaining amortization expense on intangibles as of March 31, 2016 is as follows:

(In thousands) Year	Amortization Expense
Remainder of 2016	\$ 4,359
2017	5,815
2018	5,711
2019	5,401
2020	5,389
Thereafter	25,108
Total	\$ 51,783

NOTE 7: TIME DEPOSITS

Time deposits include approximately \$605,236,000 and \$625,775,000 of certificates of deposit of \$100,000 or more at March 31, 2016, and December 31, 2015, respectively. Of this total approximately \$189,642,000 and \$186,352,000 of certificates of deposit were over \$250,000 at March 31, 2016 and December 31, 2015, respectively.

NOTE 8: INCOME TAXES

The provision for income taxes is comprised of the following components:

(In thousands)	March 31, 2016	March 31, 2015
Income taxes currently payable	\$11,510	\$5,760
Deferred income taxes	108	(1,578)
Provision for income taxes	\$11,618	\$4,182

The tax effects of temporary differences related to deferred taxes shown on the balance sheets were:

(In thousands)	March 31, 2016	December 31, 2015
Deferred tax assets:		
Loans acquired	\$13,194	\$14,716
Allowance for loan losses	13,186	12,700
Valuation of foreclosed assets	11,183	11,212
Tax NOLs from acquisition	14,593	14,593
Deferred compensation payable	2,714	2,767
Vacation compensation	2,309	2,250
Accrued equity and other compensation	5,545	5,197
Acquired securities	1,766	1,770
Other accrued liabilities	1,938	1,943
Unrealized loss on available-for-sale securities	--	1,655
Other	3,016	3,006
Gross deferred tax assets	69,444	71,809

Deferred tax liabilities:

Goodwill and other intangible amortization	(30,110)	(30,550)
Limitations under IRC Sec 382	(3,481)	(3,478)
Accumulated depreciation	(3,893)	(3,914)
Unrealized gain on available-for-sale securities	(2,362)	--
Other	(4,043)	(4,187)
Gross deferred tax liabilities	(43,889)	(42,129)

Net deferred tax asset, included in other assets	\$25,555	\$29,680
--	----------	----------

A reconciliation of income tax expense at the statutory rate to the Company's actual income tax expense is shown below:

(In thousands)	March 31, 2016	March 31, 2015
Computed at the statutory rate (35%)	\$12,293	\$4,504
Increase (decrease) in taxes resulting from:		
State income taxes, net of federal tax benefit	641	308
Tax exempt interest income	(1,135)	(1,024)
Tax exempt earnings on BOLI	(296)	(152)
Federal tax credits	(26)	--
Other differences, net	141	546
Actual tax provision	\$11,618	\$4,182

The Company follows ASC Topic 740, *Income Taxes*, which prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Benefits from tax positions should be recognized in the financial statements only when it is more likely than not that the tax position will be sustained upon examination by the appropriate taxing authority that would have full knowledge of all relevant information. A tax position that meets the more-likely-than-not recognition threshold is measured at the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. Tax positions that previously failed to meet the more-likely-than-not recognition threshold should be recognized in the first subsequent financial reporting period in which that threshold is met. Previously recognized tax positions that no longer meet the more-likely-than-not recognition threshold should be derecognized in the first subsequent financial reporting period in which that threshold is no longer met. ASC Topic 740 also provides guidance on the accounting for and disclosure of unrecognized tax benefits, interest and penalties.

The amount of unrecognized tax benefits may increase or decrease in the future for various reasons including adding amounts for current tax year positions, expiration of open income tax returns due to the statutes of limitation, changes in management's judgment about the level of uncertainty, status of examinations, litigation and legislative activity and the addition or elimination of uncertain tax positions.

Section 382 of the Internal Revenue Code imposes an annual limit on the ability of a corporation that undergoes an "ownership change" to use its U.S. net operating losses to reduce its tax liability. The Company closed a stock acquisition in a prior year that invoked the Section 382 annual limitation. Approximately \$37.5 million of federal net operating losses subject to the IRC Sec 382 annual limitation are expected to be utilized by the Company. The net operating loss carryforwards expire between 2028 and 2035.

The Company files income tax returns in the U.S. federal jurisdiction. The Company's U.S. federal income tax returns are open and subject to examinations from the 2012 tax year and forward. The Company's various state income tax returns are generally open from the 2009 and later tax return years based on individual state statute of limitations.

NOTE 9: SECURITIES SOLD UNDER AGREEMENTS TO REPURCHASE

We utilize securities sold under agreements to repurchase to facilitate the needs of our customers and to facilitate secured short-term funding needs. Securities sold under agreements to repurchase are stated at the amount of cash received in connection with the transaction. We monitor collateral levels on a continuous basis. We may be required to provide additional collateral based on the fair value of the underlying securities. Securities pledged as collateral under repurchase agreements are maintained with our safekeeping agents.

The gross amount of recognized liabilities for repurchase agreements was \$86.9 million and \$96.8 million at March 31, 2016 and December 31, 2015, respectively. The remaining contractual maturity of the securities sold under agreements to repurchase in the consolidated balance sheets as of March 31, 2016 and December 31, 2015 is presented in the following tables.

(In thousands)	Remaining Contractual Maturity of the Agreements				Total
	Overnight and Continuous	Up to 30 Days	30-90 Days	Greater than 90 Days	
March 31, 2016					
Repurchase agreements:					
U.S. Government agencies	\$79,535	\$ --	\$ --	\$ 7,329	\$86,864
December 31, 2015					
Repurchase agreements:					
U.S. Government agencies	\$89,512	\$ --	\$ --	\$ 7,326	\$96,838

NOTE 10: OTHER BORROWINGS AND SUBORDINATED DEBENTURES

Debt at March 31, 2016 and December 31, 2015 consisted of the following components:

(In thousands)	March 31, 2016	December 31, 2015
Other Borrowings		
FHLB advances, net of discount, due 2016 to 2033, 0.35% to 7.37% secured by residential real estate loans	\$125,603	\$109,989
Notes payable, due 10/15/2020, 3.85%, fixed rate, unsecured	51,226	52,300
Total other borrowings	176,829	162,289
Subordinated Debentures		
Trust preferred securities, due 12/30/2033, floating rate of 2.80% above the three month LIBOR rate, reset quarterly, callable without penalty	20,620	20,620
Trust preferred securities, net of discount, due 6/30/2035, floating rate of 1.75% above the three month LIBOR rate, reset quarterly, callable without penalty	9,149	9,723
Trust preferred securities, net of discount, due 9/15/2037, floating rate of 1.37% above the three month LIBOR rate, reset quarterly	10,014	9,975
Trust preferred securities, net of discount, due 12/3/2033, floating rate of 2.88% above the three month LIBOR rate, reset quarterly, callable without penalty	5,165	5,167
	5,073	5,063

Edgar Filing: SIMMONS FIRST NATIONAL CORP - Form 10-Q

Trust preferred securities, net of discount, due 12/13/2034, floating rate of 2.00% above the three month LIBOR rate, reset quarterly, callable without penalty		
Trust preferred securities, net of discount, due 6/6/2037, floating rate of 1.57% above the three month LIBOR rate, reset quarterly, callable without penalty	10,056	10,022
Total subordinated debentures	60,077	60,570
Total other borrowings and subordinated debentures	\$236,906	\$222,859

During October 2015, the Company borrowed \$52.3 million from correspondent banks at a rate of 3.85% with quarterly principal and interest payments. The debt has a 10 year amortization with a 5 year balloon payment due in October 2020.

At March 31, 2016, the Company had \$70.0 million of Federal Home Loan Bank (“FHLB”) advances with original maturities of one year or less.

The Company had total FHLB advances of \$125.6 million at March 31, 2016, with approximately \$985.9 million of additional advances available from the FHLB. The FHLB advances are secured by mortgage loans and investment securities totaling approximately \$1.089 billion at March 31, 2016.

The trust preferred securities are tax-advantaged issues that qualify for Tier 1 capital treatment. Distributions on these securities are included in interest expense on long-term debt. Each of the trusts is a statutory business trust organized for the sole purpose of issuing trust securities and investing the proceeds thereof in junior subordinated debentures of the Company, the sole asset of each trust. The preferred securities of each trust represent preferred beneficial interests in the assets of the respective trusts and are subject to mandatory redemption upon payment of the junior subordinated debentures held by the trust. The common securities of each trust are wholly-owned by the Company. Each trust's ability to pay amounts due on the trust preferred securities is solely dependent upon the Company making payment on the related junior subordinated debentures. The Company's obligations under the junior subordinated securities and other relevant trust agreements, in aggregate, constitute a full and unconditional guarantee by the Company of each respective trust's obligations under the trust securities issued by each respective trust.

Aggregate annual maturities of long-term debt at March 31, 2016, are:

(In thousands) Year	Annual Maturities
2016	\$82,134
2017	14,564
2018	24,596
2019	7,720
2020	36,389
Thereafter	71,503
Total	\$236,906

NOTE 11: CONTINGENT LIABILITIES

The Company and/or its subsidiaries have various unrelated legal proceedings, most of which involve loan foreclosure activity pending, which, in the aggregate, are not expected to have a material adverse effect on the financial position of the Company and its subsidiaries.

NOTE 12: COMMON STOCK

During 2012, the Company approved a stock repurchase program which authorized the repurchase of up to 850,000 shares of Class A common stock, or approximately 5% of the shares outstanding at that time. The shares are to be purchased from time to time at prevailing market prices, through open market or unsolicited negotiated transactions, depending upon market conditions. Under the repurchase program, there is no time limit for the stock repurchases, nor is there a minimum number of shares that the Company intends to repurchase. The Company may discontinue purchases at any time that management determines additional purchases are not warranted. The Company intends to

use the repurchased shares to satisfy stock option exercises, payment of future stock awards and dividends and general corporate purposes. The Company suspended its stock repurchases in August of 2013, with 154,136 shares remaining available for repurchase under the program.

On March 4, 2014 the Company filed a shelf registration statement with the Securities and Exchange Commission (“SEC”). Subsequently, on June 18, 2014 the Company filed Amendment No. 1 to the shelf registration statement. After becoming effective, the shelf registration statement allows the Company to raise capital from time to time, up to an aggregate of \$300 million, through the sale of common stock, preferred stock, stock warrants, stock rights or a combination thereof, subject to market conditions. Specific terms and prices are determined at the time of any offering under a separate prospectus supplement that the Company is required to file with the SEC at the time of the specific offering.

NOTE 13: UNDIVIDED PROFITS

The Company’s subsidiary bank is subject to a legal limitation on dividends that can be paid to the parent company without prior approval of the applicable regulatory agencies. The approval of the Commissioner of the Arkansas State Bank Department is required, if the total of all dividends declared by an Arkansas state bank in any calendar year exceeds seventy-five percent (75%) of the total of its net profits, as defined, for that year combined with seventy-five percent (75%) of its retained net profits of the preceding year. At March 31, 2016, the Company’s subsidiary bank had approximately \$4.4 million available for payment of dividends to the Company, without prior regulatory approval.

The risk-based capital guidelines of the Federal Reserve Board and the Arkansas State Bank Department include the definitions for (1) a well-capitalized institution, (2) an adequately-capitalized institution, and (3) an undercapitalized institution. Under the newly adopted Basel III Rules, the criteria for a well-capitalized institution are: a 5% "Tier 1 leverage capital" ratio, an 8% "Tier 1 risk-based capital" ratio, 10% "total risk-based capital" ratio; and a 6.50% "common equity Tier 1 (CET1)" ratio.

The Company and Bank must hold a capital conservation buffer composed of CET1 capital above its minimum risk-based capital requirements. The implementation of the capital conservation buffer began on January 1, 2016, at the 0.625% level and will phase in over a four-year period (increasing by that amount on each subsequent January 1 until it reaches 2.5% on January 1, 2019). As of March 31, 2016, the Company and its subsidiary bank met all capital adequacy requirements under the Basel III Capital Rules, and management believes the Company and subsidiary bank would meet all Capital Rules on a fully phased-in basis if such requirements were currently effective. The Company's CET1 ratio was 13.85% at March 31, 2016.

NOTE 14: STOCK BASED COMPENSATION

The Company's Board of Directors has adopted various stock compensation plans. The plans provide for the grant of incentive stock options, nonqualified stock options, stock appreciation rights, and bonus stock awards. Pursuant to the plans, shares are reserved for future issuance by the Company upon the exercise of stock options or awarding of bonus shares granted to directors, officers and other key employees.

The table below summarizes the transactions under the Company's active stock compensation plans for the three months ended March 31, 2016:

	Stock Options Outstanding		Non-Vested Stock Awards Outstanding	
	Number of Shares	Weighted Average Exercise Price	Number of Shares	Weighted Average Grant-Date Fair-Value
Balance, January 1, 2016	484,497	\$ 40.59	183,101	\$ 35.65
Granted	58,090	47.02	76,255	46.92
Stock Options Exercised	(10,305)	23.72	--	--
Stock Awards Vested	--	--	(35,082)	30.69
Forfeited/Expired	(3,645)	44.40	(46,495)	34.40
Balance, March 31, 2016	528,637	\$ 41.64	177,779	\$ 41.79

Exercisable, March 31, 2016 251,908 \$ 37.79

The following table summarizes information about stock options under the plans outstanding at March 31, 2016:

Range of Exercise Prices	Options Outstanding			Options Exercisable		
	Number of Shares	Weighted Average Remaining Contractual Life (Years)	Weighted Average Exercise Price	Number of Shares	Weighted Average Exercise Price	
\$17.55-\$21.51	21,997	5.06	\$ 20.05	15,647	\$ 19.89	
26.19 -26.19	21,450	0.14	26.19	21,450	26.19	
28.42 -28.42	24,800	1.12	28.42	24,800	28.42	
30.31 -30.31	28,090	2.04	30.31	28,090	30.31	
40.57 -40.57	48,690	7.41	40.57	48,690	40.57	
40.72 -40.72	1,500	8.63	40.72	300	40.72	
44.40 -44.40	62,460	7.64	44.40	34,512	44.40	
45.50 -45.50	258,255	9.36	45.50	77,161	45.50	
47.02 -47.02	58,090	9.81	47.02	--	--	
48.13 -48.13	3,305	9.46	48.13	1,258	48.13	
\$17.55-\$48.13	528,637	7.70	\$ 41.64	251,908	\$ 37.79	

Total stock-based compensation expense was \$1,215,000 and \$485,000 during the three months ended March 31, 2016 and 2015, respectively. Stock-based compensation expense is recognized ratably over the requisite service period for all stock-based awards. There was \$1,799,000 of unrecognized stock-based compensation expense related to stock options at March 31, 2016. Unrecognized stock-based compensation expense related to non-vested stock awards was \$4,885,000 at March 31, 2016. At such date, the weighted-average period over which this unrecognized expense is expected to be recognized was 3.2 years.

The intrinsic value of stock options outstanding and stock options exercisable at March 31, 2016 was \$2,050,000 and \$1,870,000. Aggregate intrinsic value represents the difference between the Company's closing stock price on the last trading day of the period, which was \$45.07 as of March 31, 2016, and the exercise price multiplied by the number of options outstanding and exercisable at a price below that closing price. The total intrinsic value of stock options exercised during the three months ended March 31, 2016 and March 31, 2015, was \$220,000 and \$193,000, respectively.

The fair value of the Company's employee stock options granted is estimated on the date of grant using the Black-Scholes option-pricing model. This model requires the input of highly subjective assumptions, changes to which can materially affect the fair value estimate. The weighted-average fair value of stock options granted during the three months ended March 31, 2016 and March 31, 2015 was \$11.64 and \$8.81 per share, respectively. The Company estimated expected market price volatility and expected term of the options based on historical data and other factors. The weighted-average assumptions used to determine the fair value of options granted are detailed in the table below:

	Three Months Ended March 31, 2016	Three Months Ended March 31, 2015
Expected dividend yield	1.96 %	2.15 %
Expected stock price volatility	27.34 %	21.08 %
Risk-free interest rate	2.01 %	2.01 %
Expected life of options (in years)	7	10

NOTE 15: ADDITIONAL CASH FLOW INFORMATION

The following is a summary of the Company's additional cash flow information during the three months ended:

(In thousands)	Three Months Ended March 31,	
	2016	2015
Interest paid	\$5,326	\$3,372
Income taxes paid	5,991	7,274
Transfers of loans not covered by FDIC loss share to foreclosed assets held for sale	2,074	2,774
Transfers of loans acquired covered by FDIC loss share to foreclosed assets covered by FDIC loss share	--	435
Transfers of premises and equipment to premises held for sale	1,441	--
Transfers of premises held for sale to foreclosed assets held for sale	--	6,126

NOTE 16: OTHER OPERATING EXPENSES

Other operating expenses consist of the following:

(In thousands)	Three Months Ended March 31,	
	2016	2015
Professional services	\$3,501	\$1,804
Postage	1,235	933
Telephone	1,060	861
Credit card expense	2,830	1,989
Operating supplies	358	454
Amortization of intangibles	1,455	899
Branch right sizing expense	14	35
Other expense	5,938	5,131
Total other operating expenses	\$16,391	\$12,106

NOTE 17: CERTAIN TRANSACTIONS

From time to time the Company and its subsidiaries have made loans and other extensions of credit to directors, officers, their associates and members of their immediate families. From time to time directors, officers and their associates and members of their immediate families have placed deposits with the Company's subsidiary, Simmons Bank. Such loans, other extensions of credit and deposits were made in the ordinary course of business, on substantially the same terms (including interest rates and collateral) as those prevailing at the time for comparable transactions with other persons not related to the lender and did not involve more than normal risk of collectability or present other unfavorable features.

NOTE 18: COMMITMENTS AND CREDIT RISK

The Company grants agri-business, commercial and residential loans to customers throughout Arkansas, Kansas, Missouri and Tennessee, along with credit card loans to customers throughout the United States. Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since a portion of the commitments may expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. Each customer's creditworthiness is evaluated on a case-by-case

basis. The amount of collateral obtained, if deemed necessary, is based on management's credit evaluation of the counterparty. Collateral held varies, but may include accounts receivable, inventory, property, plant and equipment, commercial real estate and residential real estate.

At March 31, 2016, the Company had outstanding commitments to extend credit aggregating approximately \$630,888,000 and \$903,999,000 for credit card commitments and other loan commitments. At December 31, 2015, the Company had outstanding commitments to extend credit aggregating approximately \$497,961,000 and \$805,673,000 for credit card commitments and other loan commitments, respectively.

Standby letters of credit are conditional commitments issued by the Company, to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support public and private borrowing arrangements, including commercial paper, bond financing, and similar transactions. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans to customers. The Company had total outstanding letters of credit amounting to \$26,823,000 and \$23,515,000 at March 31, 2016, and December 31, 2015, respectively, with terms ranging from 9 months to 15 years. At March 31, 2016 and December 31, 2015, the Company had no deferred revenue under standby letter of credit agreements.

NOTE 19: PREFERRED STOCK

On February 27, 2015, as part of the acquisition of Community First, the Company issued 30,852 shares of Senior Non-Cumulative Perpetual Preferred Stock, Series A ("Simmons Series A Preferred Stock") in exchange for the outstanding shares of Community First Senior Non-Cumulative Perpetual Preferred Stock, Series C ("Community First Series C Preferred Stock"). The preferred stock is held by the United States Department of the Treasury ("Treasury") as the Community First Series C Preferred Stock was issued when Community First entered into a Small Business Lending Fund Securities Purchase Agreement with the Treasury. The Simmons Series A Preferred Stock qualifies as Tier 1 capital and paid quarterly dividends. The rate remained fixed at 1% through February 18, 2016, at which time it would convert to a fixed rate of 9%. On January 29, 2016, the Company redeemed all of the preferred stock, including accrued and unpaid dividends

NOTE 20: FAIR VALUE MEASUREMENTS

ASC Topic 820, *Fair Value Measurements* defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements.

ASC Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The guidance also establishes a fair value hierarchy that requires the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value. Topic 820 describes three levels of inputs that may be used to measure fair value:

Level 1 Inputs – Quoted prices in active markets for identical assets or liabilities.

Level 2 Inputs – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets; quoted prices for similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Inputs – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

In general, fair value is based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. These adjustments may include amounts to reflect counterparty credit quality and the Company's creditworthiness, among other things, as well as unobservable parameters. Any such valuation adjustments are applied consistently over time. The Company's valuation methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While management believes the Company's valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. Furthermore, the reported fair value amounts have not been comprehensively revalued since the presentation dates, and therefore, estimates of fair value after the balance sheet date may differ significantly from the amounts presented herein. A more detailed description of the valuation methodologies used for assets and liabilities measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

Following is a description of the inputs and valuation methodologies used for assets measured at fair value on a recurring basis and recognized in the accompanying consolidated balance sheets, as well as the general classification of such assets pursuant to the valuation hierarchy.

Available-for-sale securities – Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities would include highly liquid government bonds, mortgage products and exchange traded equities. Other securities classified as available-for-sale are reported at fair value utilizing Level 2 inputs. For these securities, the Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the security's terms and conditions, among other things. In order to ensure the fair values are consistent with ASC Topic 820, we periodically check the fair values by comparing them to another pricing source, such as Bloomberg. The availability of pricing confirms Level 2 classification in the fair value hierarchy. The third-party pricing service is subject to an annual review of internal controls (SSAE 16), which is made available to us for our review. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The Company's investment in U.S. Treasury securities is reported at fair value utilizing Level 1 inputs. The remainder of the Company's available-for-sale securities are reported at fair value utilizing Level 2 inputs.

Assets held in trading accounts – The Company’s trading account investment in the AIM Fund is reported at fair value utilizing Level 1 inputs. The remainder of the Company’s assets held in trading accounts are reported at fair value utilizing Level 2 inputs.

The following table sets forth the Company’s financial assets by level within the fair value hierarchy that were measured at fair value on a recurring basis as of March 31, 2016 and December 31, 2015.

(In thousands)	Fair Value	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
March 31, 2016				
ASSETS				
Available-for-sale securities				
U.S. Treasury	\$4,302	\$4,302	\$ --	\$ --
U.S. Government agencies	78,308	--	78,308	--
Mortgage-backed securities	722,982	--	722,982	--
State and political subdivisions	11,260	--	11,260	--
Other securities	40,821	--	40,821	--
Assets held in trading accounts	7,074	2,109	4,965	--
December 31, 2015				
ASSETS				
Available-for-sale securities				
U.S. Treasury	\$3,994	\$3,994	\$ --	\$ --
U.S. Government agencies	120,237	--	120,237	--
Mortgage-backed securities	647,426	--	647,426	--
States and political subdivisions	9,874	--	9,874	--
Other securities	39,876	--	39,876	--
Assets held in trading accounts	4,422	2,409	2,013	--

Certain financial assets and liabilities are measured at fair value on a nonrecurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). Financial assets and liabilities measured at fair value on a nonrecurring basis include the following:

Impaired loans (collateral dependent) – Loan impairment is reported when full payment under the loan terms is not expected. Allowable methods for determining the amount of impairment include estimating fair value using the fair value of the collateral for collateral-dependent loans. If the impaired loan is identified as collateral dependent, then the fair value method of measuring the amount of impairment is utilized. This method requires obtaining a current independent appraisal of the collateral and applying a discount factor to the value. A portion of the allowance for loan losses is allocated to impaired loans if the value of such loans is deemed to be less than the unpaid balance. If these allocations cause the allowance for loan losses to require an increase, such increase is reported as a component of the provision for loan losses. Loan losses are charged against the allowance when management believes the uncollectability of a loan is confirmed. Impaired loans that are collateral dependent are classified within Level 3 of the fair value hierarchy when impairment is determined using the fair value method.

Appraisals are updated at renewal, if not more frequently, for all collateral dependent loans that are deemed impaired by way of impairment testing. Impairment testing for selected loans rated Special Mention or worse begins at \$500,000, with testing on all loans over \$1.5 million rated Special Mention or worse. All collateral dependent impaired loans meeting these thresholds have had updated appraisals or internally prepared evaluations within the last one to two years and these updated valuations are considered in the quarterly review and discussion of the corporate Special Asset Committee. On targeted CRE loans, appraisals/internally prepared valuations may be updated before the typical 1-3 year balloon/maturity period. If an updated valuation results in decreased value, a specific (ASC 310) impairment is placed against the loan, or a partial charge-down is initiated, depending on the circumstances and anticipation of the loan's ability to remain a going concern, possibility of foreclosure, certain market factors, etc.

Foreclosed assets held for sale – Foreclosed assets held for sale are reported at fair value, less estimated costs to sell. At foreclosure, if the fair value, less estimated costs to sell, of the real estate acquired is less than the Company’s recorded investment in the related loan, a write-down is recognized through a charge to the allowance for loan losses. Additionally, valuations are periodically performed by management and any subsequent reduction in value is recognized by a charge to income. The fair value of foreclosed assets held for sale is estimated using Level 3 inputs based on unobservable market data. As of March 31, 2016 and December 31, 2015, the fair value of foreclosed assets held for sale less estimated costs to sell was \$41.1 million and \$44.9 million, respectively.

The significant unobservable inputs (Level 3) used in the fair value measurement of collateral for collateral-dependent impaired loans and foreclosed assets primarily relate to the specialized discounting criteria applied to the borrower’s reported amount of collateral. The amount of the collateral discount depends upon the condition and marketability of the collateral, as well as other factors which may affect the collectability of the loan. Management’s assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset. It is reasonably possible that a change in the estimated fair value for instruments measured using Level 3 inputs could occur in the future. As the Company’s primary objective in the event of default would be to liquidate the collateral to settle the outstanding balance of the loan, collateral that is less marketable would receive a larger discount. During the reported periods, collateral discounts ranged from 10% to 40% for commercial and residential real estate collateral.

Mortgage loans held for sale – Mortgage loans held for sale are reported at fair value if, on an aggregate basis, the fair value of the loans is less than cost. In determining whether the fair value of loans held for sale is less than cost when quoted market prices are not available, the Company may consider outstanding investor commitments, discounted cash flow analyses with market assumptions or the fair value of the collateral if the loan is collateral dependent. Such loans are classified within either Level 2 or Level 3 of the fair value hierarchy. Where assumptions are made using significant unobservable inputs, such loans held for sale are classified as Level 3. At March 31, 2016 and December 31, 2015, the aggregate fair value of mortgage loans held for sale exceeded their cost. Accordingly, no mortgage loans held for sale were marked down and reported at fair value.

The following table sets forth the Company’s financial assets by level within the fair value hierarchy that were measured at fair value on a nonrecurring basis as of March 31, 2016 and December 31, 2015.

(In thousands)	Fair Value	Fair Value Measurements Using Quoted Prices in Active Markets for Identical	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
----------------	------------	--	---	--

Assets

(Level
1)

March 31, 2016

ASSETS

Impaired loans ⁽¹⁾ ⁽²⁾ (collateral dependent)	\$ 13,160	\$--	\$ --	\$ 13,160
Foreclosed assets held for sale ⁽¹⁾	10,523	--	--	10,523

December 31, 2015

ASSETS

Impaired loans ⁽¹⁾ ⁽²⁾ (collateral dependent)	\$ 19,027	\$--	\$ --	\$ 19,027
Foreclosed assets held for sale ⁽¹⁾	14,459	--	--	14,459

(1) These amounts represent the resulting carrying amounts on the Consolidated Balance Sheets for impaired collateral dependent loans and foreclosed assets held for sale for which fair value re-measurements took place during the period.

(2) Specific allocations of \$2,350,000 and \$1,136,000 were related to the impaired collateral dependent loans for which fair value re-measurements took place during the periods ended March 31, 2016 and December 31, 2015, respectively.

ASC Topic 825, *Financial Instruments*, requires disclosure in annual and interim financial statements of the fair value of financial assets and financial liabilities, including those financial assets and financial liabilities that are not measured and reported at fair value on a recurring basis or nonrecurring basis. The following methods and assumptions were used to estimate the fair value of each class of financial instruments.

Cash and cash equivalents – The carrying amount for cash and cash equivalents approximates fair value (Level 1).

Interest bearing balances due from banks – The fair value of interest bearing balances due from banks – time is estimated using a discounted cash flow calculation that applies the rates currently offered on deposits of similar remaining maturities (Level 2).

Held-to-maturity securities – Fair values for held-to-maturity securities equal quoted market prices, if available, such as for highly liquid government bonds (Level 1). If quoted market prices are not available, fair values are estimated based on quoted market prices of similar securities. For these securities, the Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the security's terms and conditions, among other things (Level 2). In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Loans – The fair value of loans, excluding loans acquired, is estimated by discounting the future cash flows, using the current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities. Loans with similar characteristics were aggregated for purposes of the calculations (Level 3).

Loans acquired – Fair values of loans acquired are based on a discounted cash flow methodology that considers factors including the type of loan and related collateral, variable or fixed rate, classification status, remaining term, interest rate, historical delinquencies, loan to value ratios, current market rates and remaining loan balance. The loans were grouped together according to similar characteristics and were treated in the aggregate when applying various valuation techniques. The discount rates used for loans were based on current market rates for new originations of similar loans. Estimated credit losses were also factored into the projected cash flows of the loans (Level 3).

Deposits – The fair value of demand deposits, savings accounts and money market deposits is the amount payable on demand at the reporting date (i.e., their carrying amount) (Level 2). The fair value of fixed-maturity time deposits is estimated using a discounted cash flow calculation that applies the rates currently offered for deposits of similar remaining maturities (Level 3).

Federal Funds purchased, securities sold under agreement to repurchase and short-term debt – The carrying amount for Federal funds purchased, securities sold under agreement to repurchase and short-term debt are a reasonable estimate of fair value (Level 2).

Other borrowings – For short-term instruments, the carrying amount is a reasonable estimate of fair value. For long-term debt, rates currently available to the Company for debt with similar terms and remaining maturities are used to estimate the fair value (Level 2).

Subordinated debentures – The fair value of subordinated debentures is estimated using the rates that would be charged for subordinated debentures of similar remaining maturities (Level 2).

Accrued interest receivable/payable – The carrying amounts of accrued interest approximated fair value (Level 2).

Commitments to extend credit, letters of credit and lines of credit – The fair value of commitments is estimated using the fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the present creditworthiness of the counterparties. For fixed rate loan commitments, fair value also considers the difference between current levels of interest rates and the committed rates. The fair values of letters of credit and lines of credit are based on fees currently charged for similar agreements or on the estimated cost to terminate or otherwise settle the obligations with the counterparties at the reporting date.

The fair value of a financial instrument is the current amount that would be exchanged between willing parties, other than in a forced liquidation. Fair value is best determined based upon quoted market prices. However, in many instances, there are no quoted market prices for the Company's various financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument.

Edgar Filing: SIMMONS FIRST NATIONAL CORP - Form 10-Q

The estimated fair values, and related carrying amounts, of the Company's financial instruments are as follows:

(In thousands)	Carrying Amount	Fair Value Measurements			Total
		Level 1	Level 2	Level 3

Subordinated debentures	60,570	--	55,954	--	55,954
Interest payable	1,800	--	1,800	--	1,800

The fair value of commitments to extend credit, letters of credit and lines of credit is not presented since management believes the fair value to be insignificant.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Audit Committee, Board of Directors and Stockholders

Simmons First National Corporation

Pine Bluff, Arkansas

We have reviewed the accompanying condensed consolidated balance sheet of **SIMMONS FIRST NATIONAL CORPORATION** as of March 31, 2016, and the related condensed consolidated statements of income, comprehensive income, stockholders' equity and cash flows for the three month periods ended March 31, 2016 and 2015. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2015, and the related consolidated statements of income, comprehensive income, stockholders' equity and cash flows for the year then ended (not presented herein); and in our report dated February 29, 2016, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2015, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

OVERVIEW

Our net income for the three months ended March 31, 2016 was \$23.5 million and diluted earnings per share were \$0.77, compared to net income of \$8.7 million and \$0.39 diluted earnings per share for the same period of 2015.

Net income for the quarter in both 2016 and 2015 included nonrecurring items that impacted net income. The 2015 nonrecurring items were significant and all related to our acquisitions. Excluding all nonrecurring items, core earnings for the three months ended March 31, 2016 were \$23.2 million, or \$0.76 diluted core earnings per share, compared to \$15.7 million, or \$0.70 diluted core earnings per share for the same period in 2015. Diluted core earnings per share increased by \$0.06, or 8.6%. See Reconciliation of Non-GAAP Measures and Table 13 – Reconciliation of Core Earnings (non-GAAP) for additional discussion of non-GAAP measures.

On February 19, 2016, we merged Simmons First Trust Company and Trust Company of the Ozarks with and into Simmons First National Bank. We believe this will allow us to offer our trust services in an efficient and consistent manner throughout our footprint.

On February 27, 2015, we closed the transactions to acquire Community First Bancshares, Inc. (“Community First”) and Liberty Bancshares, Inc. (“Liberty”) and at March 31, 2015 Liberty Bank and First State Bank operated as independently chartered banks. Liberty Bank was subsequently merged into our lead bank, Simmons First National Bank, on April 24, 2015 with a simultaneous systems conversion. First State Bank was subsequently merged into our lead bank, Simmons First National Bank, on September 4, 2015 with a simultaneous systems conversion. As a result of these acquisitions, we recognized \$7.0 million in after tax merger related expenses during the quarter ended March 31, 2015.

We believe that our operating results reflect the successful integration of twelve separately chartered banks and two trust companies in the last two years. As a result of acquisitions and efficiency initiatives in recent reporting periods, we have and will continue to recognize one-time revenue and expense items which may skew our short-term core business results but provide long-term performance benefits. We continue to pursue growth opportunities and focus on improvement in our core operating income.

We are also pleased with the positive trends in our balance sheet, as reflected in our organic loan growth as well as in our growth from acquisitions, which enabled us to produce a net interest margin of 4.41% for the quarter.

Stockholders' equity as of March 31, 2016 was \$1.072 billion, book value per share was \$35.35 and tangible book value per share was \$22.84. Our ratio of stockholders' equity to total assets was 14.2% and the ratio of tangible stockholders' equity to tangible assets was 9.7% at March 31, 2016. The Company's Tier I leverage ratio of 11.1%, as well as our other regulatory capital ratios, remain significantly above the "well capitalized" levels (see Table 12 in the Capital section of this Item).

Total assets were \$7.537 billion at March 31, 2016, compared to \$7.560 billion at December 31, 2015 and \$7.815 billion at March 31, 2015. Total loans, including loans acquired, were \$4.931 billion at March 31, 2016, compared to \$4.919 billion at December 31, 2015 and \$4.636 billion at March 31, 2015. We continue to have good asset quality.

Effective April 1, 2016, our wholly-owned subsidiary, Simmons First National Bank converted from a national banking association to an Arkansas state-chartered bank. The bank's name changed to Simmons Bank. Simmons Bank is a member bank of the Federal Reserve System through the Federal Reserve Bank of St. Louis. The charter conversion was a strategic undertaking that we believe will enhance our operations in the long term.

Simmons First National Corporation is a \$7.5 billion Arkansas based financial holding company conducting financial operations throughout Arkansas, Kansas, Missouri and Tennessee.

CRITICAL ACCOUNTING POLICIES

Overview

We follow accounting and reporting policies that conform, in all material respects, to generally accepted accounting principles and to general practices within the financial services industry. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. While we base estimates on historical experience, current information and other factors deemed to be relevant, actual results could differ from those estimates.

We consider accounting estimates to be critical to reported financial results if (i) the accounting estimate requires management to make assumptions about matters that are highly uncertain and (ii) different estimates that management reasonably could have used for the accounting estimate in the current period, or changes in the accounting estimate that are reasonably likely to occur from period to period, could have a material impact on our financial statements.

The accounting policies that we view as critical to us are those relating to estimates and judgments regarding (a) the determination of the adequacy of the allowance for loan losses, (b) acquisition accounting, (c) the valuation of goodwill and the useful lives applied to intangible assets, (d) the valuation of employee benefit plans and (e) income taxes.

Allowance for Loan Losses on Loans Not Acquired

The allowance for loan losses is management's estimate of probable losses in the loan portfolio. Loan losses are charged against the allowance when management believes the uncollectability of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance.

The allowance for loan losses is calculated monthly based on management's assessment of several factors such as (1) historical loss experience based on volumes and types, (2) volume and trends in delinquencies and nonaccruals, (3) lending policies and procedures including those for loan losses, collections and recoveries, (4) national, state and local economic trends and conditions, (5) concentrations of credit within the loan portfolio, (6) the experience, ability and depth of lending management and staff and (7) other factors and trends that will affect specific loans and categories of loans. We establish general allocations for each major loan category. This category also includes allocations to loans which are collectively evaluated for loss such as credit cards, one-to-four family owner occupied residential real estate loans and other consumer loans. General reserves have been established, based upon the aforementioned factors and allocated to the individual loan categories. Allowances are accrued for probable losses on specific loans evaluated for impairment for which the basis of each loan, including accrued interest, exceeds the discounted amount of expected future collections of interest and principal or, alternatively, the fair value of loan collateral.

Our evaluation of the allowance for loan losses is inherently subjective as it requires material estimates. The actual amounts of loan losses realized in the near term could differ from the amounts estimated in arriving at the allowance for loan losses reported in the financial statements.

Acquisition Accounting, Acquired Loans

We account for our acquisitions under ASC Topic 805, *Business Combinations*, which requires the use of the purchase method of accounting. All identifiable assets acquired, including loans, are recorded at fair value. No allowance for loan losses related to the acquired loans is recorded on the acquisition date as the fair value of the loans acquired incorporates assumptions regarding credit risk. Loans acquired are recorded at fair value in accordance with the fair value methodology prescribed in ASC Topic 820. The fair value estimates associated with the loans include estimates related to expected prepayments and the amount and timing of undiscounted expected principal, interest and other cash flows.

We evaluate loans acquired in accordance with the provisions of ASC Topic 310-20, *Nonrefundable Fees and Other Costs*. The fair value discount on these loans is accreted into interest income over the weighted average life of the loans using a constant yield method. These loans are not considered to be impaired loans. We evaluate purchased impaired loans accordance with the provisions of ASC Topic 310-30, *Loans and Debt Securities Acquired with Deteriorated Credit Quality*. Purchased loans are considered impaired if there is evidence of credit deterioration since origination and if it is probable that not all contractually required payments will be collected. All loans acquired, whether or not previously covered by FDIC loss share agreements, are considered impaired if there is evidence of credit deterioration since origination and if it is probable that not all contractually required payments will be collected.

For impaired loans accounted for under ASC Topic 310-30, we continue to estimate cash flows expected to be collected on purchased credit impaired loans. We evaluate at each balance sheet date whether the present value of our purchased credit impaired loans determined using the effective interest rates has decreased significantly and if so, recognize a provision for loan loss in our consolidated statement of income. For any significant increases in cash flows expected to be collected, we adjust the amount of accretable yield recognized on a prospective basis over the remaining life of the purchased credit impaired loans.

Covered Loans and Related Indemnification Asset

In September 2015, the Bank entered into an agreement with the FDIC to terminate all of its remaining loss-sharing agreements. As a result, all FDIC-acquired assets are now classified as non-covered. All acquired loans are recorded at their discounted net present value; therefore, they are excluded from the computations of the asset quality ratios for the legacy loan portfolio, except for their inclusion in total assets. Under the early termination, all rights and obligations of the Bank and the FDIC under the FDIC loss share agreements, including the clawback provisions and the settlement of loss share and expense reimbursement claims, have been resolved and terminated.

Prior to the termination of the loss share agreements, deterioration in the credit quality of the loans (immediately recorded as an adjustment to the allowance for loan losses) would immediately increase the basis of the shared-loss agreements, with the offset recorded through the consolidated statement of income. Increases in the credit quality or cash flows of loans (reflected as an adjustment to yield and accreted into income over the remaining life of the loans) decrease the basis of the shared-loss agreements, with such decrease being accreted into income over 1) the same period or 2) the life of the shared-loss agreements, whichever is shorter. Loss assumptions used in the basis of the indemnified loans are consistent with the loss assumptions used to measure the indemnification asset. Fair value accounting incorporates into the fair value of the indemnification asset an element of the time value of money, which was accreted back into income over the life of the shared-loss agreements.

Goodwill and Intangible Assets

Goodwill represents the excess of the cost of an acquisition over the fair value of the net assets acquired. Other intangible assets represent purchased assets that also lack physical substance but can be separately distinguished from goodwill because of contractual or other legal rights or because the asset is capable of being sold or exchanged either on its own or in combination with a related contract, asset or liability. We perform an annual goodwill impairment test, and more than annually if circumstances warrant, in accordance with ASC Topic 350, *Intangibles – Goodwill and Other*, as amended by ASU 2011-08 – *Testing Goodwill for Impairment*. ASC Topic 350 requires that goodwill and intangible assets that have indefinite lives be reviewed for impairment annually, or more frequently if certain conditions occur. Impairment losses, if any, will be recorded as operating expenses.

Employee Benefit Plans

We have adopted various stock-based compensation plans. The plans provide for the grant of incentive stock options, nonqualified stock options, stock appreciation rights, bonus stock awards and performance stock awards. Pursuant to the plans, shares are reserved for future issuance by the Company upon exercise of stock options or awarding of bonus shares granted to directors, officers and other key employees.

In accordance with ASC Topic 718, *Compensation – Stock Compensation*, the fair value of each option award is estimated on the date of grant using the Black-Scholes option-pricing model that uses various assumptions. This model requires the input of highly subjective assumptions, changes to which can materially affect the fair value estimate. For additional information, see Note 14, Stock Based Compensation, in the accompanying Condensed Notes to Consolidated Financial Statements included elsewhere in this report.

Income Taxes

We are subject to the federal income tax laws of the United States, and the tax laws of the states and other jurisdictions where we conduct business. Due to the complexity of these laws, taxpayers and the taxing authorities may subject these laws to different interpretations. Management must make conclusions and estimates about the application of these innately intricate laws, related regulations, and case law. When preparing the Company's income tax returns, management attempts to make reasonable interpretations of the tax laws. Taxing authorities have the ability to challenge management's analysis of the tax law or any reinterpretation management makes in its ongoing assessment of facts and the developing case law. Management assesses the reasonableness of its effective tax rate quarterly based on its current estimate of net income and the applicable taxes expected for the full year. On a quarterly basis, management also reviews circumstances and developments in tax law affecting the reasonableness of deferred tax assets and liabilities and reserves for contingent tax liabilities.

NET INTEREST INCOME

Overview

Net interest income, our principal source of earnings, is the difference between the interest income generated by earning assets and the total interest cost of the deposits and borrowings obtained to fund those assets. Factors that determine the level of net interest income include the volume of earning assets and interest bearing liabilities, yields earned and rates paid, the level of non-performing loans and the amount of non-interest bearing liabilities supporting earning assets. Net interest income is analyzed in the discussion and tables below on a fully taxable equivalent basis. The adjustment to convert certain income to a fully taxable equivalent basis consists of dividing tax-exempt income by one minus the combined federal and state income tax rate of 39.225%.

Our practice is to limit exposure to interest rate movements by maintaining a significant portion of earning assets and interest bearing liabilities in short-term repricing. Historically, approximately 70% of our loan portfolio and approximately 80% of our time deposits have repriced in one year or less. These historical percentages are consistent with our current interest rate sensitivity.

Net Interest Income

For the three month period ended March 31, 2016, net interest income on a fully taxable equivalent basis was \$72.3 million, an increase of \$17.5 million, or 31.9%, over the same period in 2015. The increase in net interest income was the result of an \$18.6 million increase in interest income and a \$1.1 million increase in interest expense.

The increase in interest income primarily resulted from a \$15.7 million increase in interest income on loans, consisting of legacy loans and acquired loans. The increase in loan volume during 2016 generated \$20.9 million of additional interest income, while a 62 basis point decline in yield resulted in a \$5.2 million decrease in interest income. The interest income increase from loan volume was primarily due to our 2015 acquisitions of Liberty and Community First; however, a portion of the increase in loan interest income can be attributed to our legacy loan growth from the same period last year.

Included in interest income is the additional yield accretion recognized as a result of updated estimates of the cash flows of our acquired loans, as discussed in Note 5, Loans Acquired, in the accompanying Notes to Consolidated Financial Statements included elsewhere in this report. Each quarter, we estimate the cash flows expected to be collected from the acquired loans, and adjustments may or may not be required. The cash flows estimate has increased based on payment histories and reduced loss expectations of the loans. This resulted in increased interest

income that is spread on a level-yield basis over the remaining expected lives of the loans. For loans previously covered by FDIC loss sharing agreements, any increases in expected cash flows also reduced the amount of expected reimbursements under the loss sharing agreements, which were recorded as indemnification assets. The estimated adjustments to the indemnification assets were amortized on a level-yield basis over the remainder of the loss sharing agreements or the remaining expected life of the loans, whichever is shorter, and were recorded in non-interest expense.

For the three months ended March 31, 2016, interest income was less by \$5.0 million and non-interest income was greater by \$2.7 million, compared to the same period in 2015, due to the adjustments discussed above. The net effect lowered 2016 first quarter pre-tax income by \$2.3 million from 2015. The accretable yield adjustments recorded in future periods will change as we continue to evaluate expected cash flows from the acquired loans. With the termination of the loss sharing agreements in 2015, there will be no future adjustments to non-interest income.

The \$1.1 million increase in interest expense is primarily from the growth in deposit accounts and other debt, primarily from Liberty and Community First acquisitions.

Net Interest Margin

Our net interest margin increased 7 basis points to 4.41% for the three month period ended March 31, 2016, when compared to 4.34% for the same period in 2015. The most significant factor in the increasing margin during the three month period ended March 31, 2016 is the impact of the lower accretable yield adjustments discussed above offset by the impact of the loans acquired in the Liberty and Community First acquisitions. Normalized for all accretion on acquired loans, our net interest margin at March 31, 2016 and 2015 was 3.92% and 3.86%, respectively.

Net Interest Income Tables

Tables 1 and 2 reflect an analysis of net interest income on a fully taxable equivalent basis for the three months ended March 31, 2016 and 2015, respectively, as well as changes in fully taxable equivalent net interest margin for the three months ended March 31, 2016, versus March 31, 2015.

Table 1: Analysis of Net Interest Margin

(FTE = Fully Taxable Equivalent) (In thousands)	Three Months Ended March 31,			
	2016		2015	
Interest income	\$75,622		\$57,255	
FTE adjustment	2,084		1,846	
Interest income – FTE	77,706		59,101	
Interest expense	5,390		4,293	
Net interest income – FTE	\$72,316		\$54,808	
Yield on earning assets – FTE	4.74	%	4.68	%
Cost of interest bearing liabilities	0.42	%	0.42	%
Net interest spread – FTE	4.32	%	4.26	%
Net interest margin – FTE	4.41	%	4.34	%

Table 2: Changes in Fully Taxable Equivalent Net Interest Margin

(In thousands)	Three Months Ended March 31, 2016 vs. 2015	
Increase due to change in earning assets	\$ 22,438	
Decrease due to change in earning asset yields	(3,833)
Decrease due to change in interest bearing liabilities	(888)
Decrease due to change in interest rates paid on interest bearing liabilities	(209)
Increase in net interest income	\$ 17,508	

Table 3 shows, for each major category of earning assets and interest bearing liabilities, the average (computed on a daily basis) amount outstanding, the interest earned or expensed on such amount and the average rate earned or expensed for the three months ended March 31, 2016 and 2015. The table also shows the average rate earned on all earning assets, the average rate expensed on all interest bearing liabilities, the net interest spread and the net interest margin for the same periods. The analysis is presented on a fully taxable equivalent basis. Nonaccrual loans were included in average loans for the purpose of calculating the rate earned on total loans.

Table 4 shows changes in interest income and interest expense resulting from changes in volume and changes in interest rates for the three month period ended March 31, 2016, as compared to the same period of the prior year. The changes in interest rate and volume have been allocated to changes in average volume and changes in average rates in proportion to the relationship of absolute dollar amounts of the changes in rates and volume.

PROVISION FOR LOAN LOSSES

The provision for loan losses represents management's determination of the amount necessary to be charged against the current period's earnings in order to maintain the allowance for loan losses at a level considered appropriate in relation to the estimated risk inherent in the loan portfolio. The level of provision to the allowance is based on management's judgment, with consideration given to the composition, maturity and other qualitative characteristics of the portfolio, historical loan loss experience, assessment of current economic conditions, past due and non-performing loans and net loan loss experience. It is management's practice to review the allowance on a monthly basis, and, after

considering the factors previously noted, to determine the level of provision made to the allowance.

The provision for loan losses for the three month period ended March 31, 2016, was \$2.8 million, compared to \$1.2 million for the three month period ended March 31, 2015, an increase of \$1.6 million. See Allowance for Loan Losses section for additional information.

The provision increase resulted from several reasons. Our increased organic legacy loan growth rate required additional allowance. Significant loan growth in our Missouri and Tennessee markets, both from new loans and from acquired loans migrating to legacy, required an allowance to be established for those loans through a provision. No provision was recorded on acquired loans during the three months ended March 31, 2016 as our credit mark on purchased credit impaired loans was deemed sufficient.

NON-INTEREST INCOME

Total non-interest income was \$29.5 million for the three month period ended March 31, 2016, an increase of \$11.2 million, or 60.9%, compared to \$18.3 million for the same period in 2015.

As previously discussed in the Net Interest Income section, there was a \$2.7 million increase in non-interest income from the three month period ended March 31, 2016 to the same period of 2015 due to the elimination of the amortization of the indemnification asset expected to be collected from the FDIC covered loan portfolios. Excluding the indemnification asset amortization adjustments, non-interest income increased \$8.5 million, or 40.4%, due primarily to the addition of Liberty and First State.

Non-interest income is principally derived from recurring fee income, which includes service charges, trust fees and credit card fees. Non-interest income also includes income on the sale of mortgage loans, investment banking income, income from the increase in cash surrender values of bank owned life insurance, gains (losses) from sales of securities and gains (losses) related to FDIC-assisted transactions and covered assets.

Table 5 shows non-interest income for the three month periods ended March 31, 2016 and 2015, respectively, as well as changes in 2016 from 2015.

Table 5: Non-Interest Income

(In thousands)	Three Months		2016	
	Ended March 31 2016	2015	Change from 2015	
Trust income	\$3,631	\$2,251	\$1,380	61.31 %
Service charges on deposit accounts	7,316	6,363	953	14.98
Other service charges and fees	1,909	1,666	243	14.59
Mortgage lending income	3,792	2,262	1,530	67.64
Investment banking income	687	894	(207)	-23.15
Credit card fees	7,200	5,648	1,552	27.48
Bank owned life insurance income	997	572	425	74.3
Gain (loss) on sale of Sec, net	329	(38)	367	965.79
Net (loss) gain on assets covered by FDIC loss share agreements	--	(2,671)	2,671	100.00
Other income	3,642	1,390	2,252	162.01
Total non-interest income	\$29,503	\$18,337	\$11,166	60.89 %

Recurring fee income (service charges, trust fees and credit card fees) for the three month period ended March 31, 2016, was \$20.1 million, an increase of \$4.1 million from the three month period ended March 31, 2015. Trust income increased by \$1.4 million or 61.31%, and service charges on deposit accounts increased by \$953,000, or 14.98%. The majority of the increase was due to the additions of accounts from the Community First and Liberty acquisitions and trust operations due to the Ozark Trust acquisition.

Mortgage lending income increased by \$1.5 million for the three months ended March 31, 2016 compared to last year, due primarily to additional lenders and customers as a result of the Community First and Liberty acquisitions.

Net loss on assets covered by FDIC loss share agreements decreased by \$2.7 million due to the termination of the FDIC loss share agreements and the related indemnification asset.

NON-INTEREST EXPENSE

Non-interest expense consists of salaries and employee benefits, occupancy, equipment, foreclosure losses and other expenses necessary for the operation of the Company. Management remains committed to controlling the level of non-interest expense, through the continued use of expense control measures that have been installed. We utilize an extensive profit planning and reporting system involving all subsidiaries. Based on a needs assessment of the business plan for the upcoming year, monthly and annual profit plans are developed, including manpower and capital expenditure budgets. These profit plans are subject to extensive initial reviews and monitored by management on a monthly basis. Variances from the plan are reviewed monthly and, when required, management takes corrective action intended to ensure financial goals are met. We also regularly monitor staffing levels at each subsidiary to ensure productivity and overhead are in line with existing workload requirements.

Non-interest expense for the three months ended March 31, 2016 was \$61.8 million, an increase of \$4.6 million, or 8.0%, from the same period in 2015. The most significant impact to non-interest expense were the following nonrecurring items.

First, we saw a \$10.3 million decrease in merger related costs from last year. We only had \$93,000 of merger related costs in the first quarter of 2016 compared to \$10.4 million in merger related costs from our acquisitions of Liberty and Community First in the first quarter of 2015.

Branch right sizing expense for the first quarter of 2016 declined to \$14,000 from \$35,000 for the first quarter of 2015.

Normalizing for the nonrecurring merger related costs and branch right sizing expenses, non-interest expense for the three months ended March 31, 2016 increased \$14.9 million, or 31.9 %, from the same period in 2015, primarily due to the incremental operating expenses of the acquired franchises.

Salaries and employee benefits increased by \$8.2 million for the three months ended March 31, 2016 and occupancy expense increased by \$914,000 for the same period, while furniture and equipment expense increased by \$679,000 from the same period in 2015. These increases, along with the increases in several other operating expense categories, were a result of the Community First and Liberty acquisitions. Professional services increased by \$1.7 million for the three months ended March 31, 2016 from the same period in 2015 related to exam fees, auditing and accounting services and general consulting expenses.

Table 6 below shows non-interest expense for the three month periods ended March 31, 2016 and 2015, respectively, as well as changes in 2016 from 2015.

Table 6: Non-Interest Expense

(In thousands)	Three Months		2016		
	Ended March 31	2015	Change from	2015	
Salaries and employee benefits	\$34,773	\$26,610	\$8,163	30.68	%

 Total non-interest expense	 \$61,789	 \$57,211	 \$4,578	 8.00	 %

LOAN PORTFOLIO

Our legacy loan portfolio, excluding loans acquired, averaged \$3.325 billion and \$2.085 billion during the first three months of 2016 and 2015, respectively. As of March 31, 2016, total loans, excluding loans acquired, were \$3.473 billion, an increase of \$226.2 million from December 31, 2015. The most significant components of the loan portfolio were loans to businesses (commercial loans, commercial real estate loans and agricultural loans) and individuals (consumer loans, credit card loans and single-family residential real estate loans).

When we make a credit decision on an acquired loan as a result of the loan maturing or renewing, the outstanding balance of that loan migrates from loans acquired to legacy loans. Our legacy loan growth from December 31, 2015 to March 31, 2016 included \$36.4 million in balances that migrated from acquired loans during the period. These migrated loan balances are included in the legacy loan balances as of March 31, 2016.

We seek to manage our credit risk by diversifying our loan portfolio, determining that borrowers have adequate sources of cash flow for loan repayment without liquidation of collateral, obtaining and monitoring collateral, providing an appropriate allowance for loan losses and regularly reviewing loans through the internal loan review process. The loan portfolio is diversified by borrower, purpose and industry and, in the case of credit card loans, which are unsecured, by geographic region. We seek to use diversification within the loan portfolio to reduce credit risk, thereby minimizing the adverse impact on the portfolio, if weaknesses develop in either the economy or a particular segment of borrowers. Collateral requirements are based on credit assessments of borrowers and may be used to recover the debt in case of default. We use the allowance for loan losses as a method to value the loan portfolio at its estimated collectible amount. Loans are regularly reviewed to facilitate the identification and monitoring of deteriorating credits.

The balances of loans outstanding, excluding loans acquired, at the indicated dates are reflected in Table 7, according to type of loan.

Table 7: Loan Portfolio

(In thousands)	March 31, 2016	December 31, 2015
Consumer:		
Credit cards	\$167,803	\$177,288
Other consumer	227,480	208,380
Total consumer	395,283	385,668

Edgar Filing: SIMMONS FIRST NATIONAL CORP - Form 10-Q

Real estate:		
Construction	300,042	279,740
Single family residential	746,754	696,180
Other commercial	1,327,372	1,229,072
Total real estate	2,374,168	2,204,992
Commercial:		
Commercial	551,695	500,116
Agricultural	143,033	148,563
Total commercial	694,728	648,679
Other	8,512	7,115
Total loans, excluding loans acquired, before allowance for loan losses	\$3,472,691	\$3,246,454

Consumer loans consist of credit card loans and other consumer loans. Consumer loans were \$395.3 million at March 31, 2016, or 11.3% of total loans, compared to \$385.7 million, or 11.9% of total loans at December 31, 2015. The increase in consumer loans from December 31, 2015, to March 31, 2016, was due to growth in direct and indirect consumer loans partially offset by the expected seasonal decline in our credit card portfolio.

Real estate loans consist of construction loans, single-family residential loans and commercial real estate loans. Real estate loans were \$2.374 billion at March 31, 2016, or 68.4% of total loans, compared to the \$2.205 billion, or 67.9%, of total loans at December 31, 2015, an increase of \$169.2 million.

Commercial loans consist of non-agricultural commercial loans and agricultural loans. Commercial loans were \$694.7 million at March 31, 2016, or 20.0% of total loans, compared to \$648.7 million, or 20.0% of total loans at December 31, 2015, an increase of \$46.0 million. Non-agricultural commercial loans increased to \$551.7 million, a \$51.6 million, or 10.3%, growth from December 31, 2015. Agricultural loans decreased to \$143.0 million, a \$5.5 million, or 3.7%, decline primarily due to seasonality of the portfolio, which normally peaks in the third quarter and is at its lowest point at the end of the first quarter.

LOANS ACQUIRED

On February 27, 2015, we completed the acquisition of Liberty and issued 5,181,337 shares of the Company's common stock valued at approximately \$212.2 million as of February 27, 2015 in exchange for all outstanding shares of Liberty common stock. Included in the acquisition were loans with a fair value of \$780.7 million.

On February 27, 2015, we also completed the acquisition of Community First and issued 6,552,915 shares of the Company's common stock valued at approximately \$268.3 million as of February 27, 2015, plus \$9,974 in cash in exchange for all outstanding shares of Community First common stock. We also issued \$30.9 million of preferred stock in exchange for all outstanding shares of Community First preferred stock. Included in the acquisition were loans with a fair value of \$1.1 billion.

On August 31, 2014, we completed the acquisition of Delta Trust & Banking Corporation ("Delta Trust"), and issued 1,629,424 shares of the Company's common stock valued at approximately \$65.0 million as of August 29, 2014, plus \$2.4 million in cash in exchange for all outstanding shares of Delta Trust common stock. Included in the acquisition were loans with a fair value of \$311.7 million.

On November 25, 2013, we completed the acquisition of Metropolitan National Bank ("Metropolitan"), in which the Company purchased all the stock of Metropolitan for \$53.6 million in cash. The acquisition was conducted in accordance with the provisions of Section 363 of the United States Bankruptcy Code. Included in the acquisition were loans with a fair value of \$457.4 million and foreclosed assets with a fair value of \$42.9 million.

On September 15, 2015, we entered into an agreement with the FDIC to terminate all loss share agreements. Under the early termination, all rights and obligations of the Company and the FDIC under the FDIC loss share agreements, including the clawback provisions and the settlement of loss share and expense reimbursement claims, have been resolved and terminated. As a result, we have reclassified loans previously covered by FDIC loss share to acquired loans not covered and reclassified foreclosed assets previously covered by FDIC loss share to foreclosed assets not covered.

Table 8 reflects the carrying value of all acquired loans as of March 31, 2016 and December 31, 2015.

Table 8: Loans Acquired

(In thousands)	March 31, 2016	December 31, 2015
Consumer:		
Other consumer	\$62,756	\$75,606
Total consumer	62,756	75,606

Commercial	120,993	154,533
Agricultural	4,898	10,573
Total commercial	125,891	165,106
Total loans acquired ⁽¹⁾	\$1,457,370	\$1,672,901

(1) Loans acquired are reported net of a \$954,000 allowance at March 31, 2016 and December 31, 2015.

Approximately \$2.0 billion of the loans acquired in the Liberty, Community First, Metropolitan and Delta Trust acquisitions were evaluated and are being accounted for in accordance with ASC Topic 310-20, *Nonrefundable Fees and Other Costs*. The fair value discount is being accreted into interest income over the weighted average life of the loans using a constant yield method. These loans are not considered to be impaired loans.

We evaluated the remaining loans purchased in conjunction with the acquisitions of Liberty, Community First, Metropolitan and Delta Trust for impairment in accordance with the provisions of ASC Topic 310-30, *Loans and Debt Securities Acquired with Deteriorated Credit Quality*. Purchased loans are considered impaired if there is evidence of credit deterioration since origination and if it is probable that not all contractually required payments will be collected. Because some loans we evaluated, previously covered by loss share agreements, were determined to have experienced impairment in the estimated credit quality or cash flows during 2014, we recorded a provision to establish a \$954,000 allowance for loan losses for covered purchased impaired loans. With the termination of our FDIC loss share agreements, the \$954,000 allowance has been reclassified as allowance on acquired loans, not covered by loss share. See Note 2 and Note 5 of the Notes to Consolidated Financial Statements for further discussion of loans acquired.

ASSET QUALITY

A loan is considered impaired when it is probable that we will not receive all amounts due according to the contractual terms of the loans. Impaired loans include non-performing loans (loans past due 90 days or more and nonaccrual loans) and certain other loans identified by management that are still performing.

Non-performing loans are comprised of (a) nonaccrual loans, (b) loans that are contractually past due 90 days and (c) other loans for which terms have been restructured to provide a reduction or deferral of interest or principal, because of deterioration in the financial position of the borrower. Simmons Bank recognizes income principally on the accrual basis of accounting. When loans are classified as nonaccrual, generally, the accrued interest is charged off and no further interest is accrued. Loans, excluding credit card loans, are placed on a nonaccrual basis either: (1) when there are serious doubts regarding the collectability of principal or interest, or (2) when payment of interest or principal is 90 days or more past due and either (i) not fully secured or (ii) not in the process of collection. If a loan is determined by management to be uncollectible, the portion of the loan determined to be uncollectible is then charged to the allowance for loan losses.

Credit card loans are classified as impaired when payment of interest or principal is 90 days past due. Litigation accounts are placed on nonaccrual until such time as deemed uncollectible. Credit card loans are generally charged off when payment of interest or principal exceeds 180 days past due, but are turned over to the credit card recovery department, to be pursued until such time as they are determined, on a case-by-case basis, to be uncollectible.

Total non-performing assets, excluding all loans acquired, increased by \$12.6 million from December 31, 2015 to March 31, 2016. Foreclosed assets held for sale decreased by \$3.7 million. Nonaccrual loans increased by \$16.5 million during the period, primarily CRE loans. Non-performing assets, including trouble debt restructurings (“TDRs”) and acquired non-covered foreclosed assets, as a percent of total assets were 1.16% at March 31, 2016, compared to 0.89% at December 31, 2015. The increase in the non-performing ratio from the fourth quarter is primarily the result of a single credit totaling \$13.5 million. We feel we are adequately reserved for the potential exposure related to this credit. Excluding this credit, the non-performing ratio was relatively unchanged at 0.98% for March 31, 2016.

From time to time, certain borrowers of all types are experiencing declines in income and cash flow. As a result, many borrowers are seeking to reduce contractual cash outlays, the most prominent being debt payments. In an effort to preserve our net interest margin and earning assets, we are open to working with existing customers in order to maximize the collectability of the debt.

When we restructure a loan to a borrower that is experiencing financial difficulty and grant a concession that we would not otherwise consider, a “troubled debt restructuring” results and the Company classifies the loan as a TDR. The Company grants various types of concessions, primarily interest rate reduction and/or payment modifications or extensions, with an occasional forgiveness of principal.

Under ASC Topic 310-10-35 – *Subsequent Measurement*, a TDR is considered to be impaired, and an impairment analysis must be performed. We assess the exposure for each modification, either by collateral discounting or by calculation of the present value of future cash flows, and determine if a specific allocation to the allowance for loan losses is needed.

Once an obligation has been restructured because of such credit problems, it continues to be considered a TDR until paid in full; or, if an obligation yields a market interest rate and no longer has any concession regarding payment amount or amortization, then it is not considered a TDR at the beginning of the calendar year after the year in which the improvement takes place. Our TDR balance increased to \$14.3 million at March 31, 2016, compared to \$5.6 million at December 31, 2015. The majority of our TDRs remain in the CRE portfolio.

We return TDRs to accrual status only if (1) all contractual amounts due can reasonably be expected to be repaid within a prudent period, and (2) repayment has been in accordance with the contract for a sustained period, typically at least six months.

We continue to maintain good asset quality, compared to the industry. The allowance for loan losses as a percent of total loans was 0.94% as of March 31, 2016. Non-performing loans equaled 1.01% of total loans. Non-performing assets were 1.02% of total assets, a 17 basis point increase from December 31, 2015. The allowance for loan losses was 93% of non-performing loans. Our annualized net charge-offs to total loans for the first three months of 2016 was 0.18%. Excluding credit cards, the annualized net charge-offs to total loans for the same period was 0.11%. Annualized net credit card charge-offs to total credit card loans were 1.46%, compared to 1.28% during the full year 2015, and more than 140 basis points better than the most recently published industry average charge-off ratio as reported by the Federal Reserve for all banks.

Table 9 presents information concerning non-performing assets, including nonaccrual loans and foreclosed assets held for sale (excluding all loans acquired and excluding foreclosed assets covered by FDIC loss share).

Table 9: Non-performing Assets

(\$ in thousands)	March 31, 2016	December 31, 2015
Nonaccrual loans ⁽¹⁾	\$34,244	\$17,714

Total non-performing assets	\$76,507	\$63,936
Performing TDRs	\$10,759	\$3,031
Allowance for loan losses to non-performing loans	93 %	166 %

Edgar Filing: SIMMONS FIRST NATIONAL CORP - Form 10-Q

Non-performing loans to total loans	1.01	%	0.58	%
Non-performing assets to total assets ⁽²⁾	1.02	%	0.85	%

(1) Includes nonaccrual TDRs of approximately \$3.6 million at March 31, 2016 and \$2.5 million at December 31, 2015.

(2) Excludes all loans acquired, except for their inclusion in total assets.

There was no interest income on nonaccrual loans recorded for the three month periods ended March 31, 2016 and 2015.

At March 31, 2016, impaired loans, net of government guarantees and loans acquired, were \$33.8 million compared to \$18.2 million at December 31, 2015. On an ongoing basis, management evaluates the underlying collateral on all impaired loans and allocates specific reserves, where appropriate, in order to absorb potential losses if the collateral were ultimately foreclosed.

ALLOWANCE FOR LOAN LOSSES

Overview

The allowance for loan losses is a reserve established through a provision for loan losses charged to expense, which represents management's best estimate of probable losses that have been incurred within the existing portfolio of loans. The allowance, in the judgment of management, is necessary to reserve for estimated loan losses and risks inherent in the loan portfolio. The Company's allowance for loan loss methodology includes allowance allocations calculated in accordance with ASC Topic 310-10, *Receivables*, and allowance allocations calculated in accordance with ASC Topic 450-20, *Loss Contingencies*. Accordingly, the methodology is based on our internal grading system, specific impairment analysis, qualitative and quantitative factors.

As mentioned above, allocations to the allowance for loan losses are categorized as either specific allocations or general allocations.

Specific Allocations

A loan is considered impaired when it is probable that we will not receive all amounts due according to the contractual terms of the loan, including scheduled principal and interest payments. For a collateral dependent loan, our evaluation process includes a valuation by appraisal or other collateral analysis. This valuation is compared to the remaining outstanding principal balance of the loan. If a loss is determined to be probable, the loss is included in the allowance for loan losses as a specific allocation. If the loan is not collateral dependent, the measurement of loss is based on the difference between the expected and contractual future cash flows of the loan.

General Allocations

The general allocation is calculated monthly based on management's assessment of several factors such as (1) historical loss experience based on volumes and types, (2) volume and trends in delinquencies and nonaccruals, (3) lending policies and procedures including those for loan losses, collections and recoveries, (4) national, state and local economic trends and conditions, (5) concentrations of credit within the loan portfolio, (6) the experience, ability and depth of lending management and staff and (7) other factors and trends that will affect specific loans and categories of loans. We established general allocations for each major loan category. This category also includes allocations to loans which are collectively evaluated for loss such as credit cards, one-to-four family owner occupied residential real estate loans and other consumer loans.

An analysis of the allowance for loan losses is shown in Table 10.

Table 10: Allowance for Loan Losses

(In thousands)	2016	2015
Balance, beginning of year	\$31,351	\$29,028
Loans charged off:		
Credit card	859	785
Other consumer	393	220
Real estate	229	293
Commercial	476	245
Total loans charged off	1,957	1,543
Recoveries of loans previously charged off:		
Credit card	242	213
Other consumer	103	133
Real estate	112	12
Commercial	7	169
Total recoveries	464	527
Net loans charged off	1,493	1,016
Provision for loan losses ⁽¹⁾	2,823	1,171
Balance, March 31 ⁽²⁾	\$32,681	29,183
Loans charged off:		
Credit card		2,322
Other consumer		1,452
Real estate		1,287
Commercial		1,170
Total loans charged off		6,231
Recoveries of loans previously charged off:		
Credit card		677
Other consumer		405
Real estate		191
Commercial		11
Total recoveries		1,284
Net loans charged off		4,947
Provision for loan losses ⁽¹⁾		7,115
Balance, end of year ⁽²⁾		\$31,351

(1) Provision for loan losses of \$736,000 attributable to loans acquired, was excluded from this table for 2015 (total year-to-date provision for loan losses is \$9,022,000). The \$736,000 was subsequently charged-off, resulting in no increase in the allowance related to loans acquired.

(2) Allowance for loan losses at March 31, 2016 and December 31, 2015 includes \$954,000 allowance for loans acquired (not shown in the table above). The total allowance for loan losses at March 31, 2016 and December 31, 2015 was \$33,635,000 and \$32,305,000, respectively.

Provision for Loan Losses

The amount of provision to the allowance during the three months ended March 31, 2016 and 2015, and for the year ended December 31, 2015, was based on management's judgment, with consideration given to the composition of the portfolio, historical loan loss experience, assessment of current economic conditions, past due and non-performing loans and net loss experience. It is management's practice to review the allowance on a monthly basis, and after considering the factors previously noted, to determine the level of provision made to the allowance.

Allowance for Loan Losses Allocation

As of March 31, 2016, the allowance for loan losses reflects an increase of approximately \$1.3 million from December 31, 2015, while total loans, excluding loans acquired, increased by \$226.2 million over the same three month period. The allocation in each category within the allowance generally reflects the overall changes in the loan portfolio mix.

The following table sets forth the sum of the amounts of the allowance for loan losses attributable to individual loans within each category, or loan categories in general. The table also reflects the percentage of loans in each category to the total loan portfolio, excluding loans acquired, for each of the periods indicated. These allowance amounts have been computed using the Company's internal grading system, specific impairment analysis, qualitative and quantitative factor allocations. The amounts shown are not necessarily indicative of the actual future losses that may occur within individual categories.

Table 11: Allocation of Allowance for Loan Losses

(\$ in thousands)	March 31, 2016		December 31, 2015	
	Allowance Amount	% of loans ⁽¹⁾	Allowance Amount	% of loans ⁽¹⁾
Credit cards	\$3,757	4.8 %	\$3,893	5.5 %
Other consumer	1,824	6.6 %	1,853	6.4 %
Real estate	19,925	68.4 %	19,522	67.9 %
Commercial	7,083	20.0 %	5,985	20.0 %
Other	92	0.2 %	98	0.2 %
Total ⁽²⁾	\$32,681	100.0%	\$31,351	100.0%

(1) Percentage of loans in each category to total loans, excluding loans acquired.

(2) Allowance for loan losses at March 31, 2016 and December 31, 2015 includes \$954,000 allowance for loans acquired (not shown in the table above). The total allowance for loan losses at March 31, 2016 and December 31, 2015 was \$33,635,000 and \$32,305,000, respectively

DEPOSITS

Deposits are our primary source of funding for earning assets and are primarily developed through our network of over 100 financial centers. We offer a variety of products designed to attract and retain customers with a continuing focus on developing core deposits. Our core deposits consist of all deposits excluding time deposits of \$100,000 or more and brokered deposits. As of March 31, 2016, core deposits comprised 90.0% of our total deposits.

We continually monitor the funding requirements along with competitive interest rates in the markets we serve. Because of our community banking philosophy, our executives in the local markets establish the interest rates offered on both core and non-core deposits. This approach ensures that the interest rates being paid are competitively priced for each particular deposit product and structured to meet the funding requirements. We believe we are paying a competitive rate when compared with pricing in those markets.

We manage our interest expense through deposit pricing and do not anticipate a significant change in total deposits. We believe that additional funds can be attracted and deposit growth can be accelerated through deposit pricing if we experience increased loan demand or other liquidity needs. We can also utilize brokered deposits as an additional source of funding to meet liquidity needs.

Our total deposits as of March 31, 2016, were \$6.080 billion, a decrease of \$6.3 million from December 31, 2015. We have continued our strategy to move more volatile time deposits to less expensive, revenue enhancing transaction accounts. Non-interest bearing transaction accounts, interest bearing transaction accounts and savings accounts totaled \$4.800 billion at March 31, 2016, compared to \$4.766 billion at December 31, 2015, a \$33.5 million increase. Total time deposits decreased \$40.0 million to \$1.280 billion at March 31, 2016, from \$1.320 billion at December 31, 2015. We had \$4.9 million and \$1.5 million of brokered deposits at March 31, 2016, and December 31, 2015, respectively.

OTHER BORROWINGS AND SUBORDINATED DEBENTURES

Our total debt was \$236.9 million and \$222.9 million at March 31, 2016 and December 31, 2015, respectively. The outstanding balance for March 31, 2016 includes \$70.0 million in FHLB short-term advances, \$55.6 million in FHLB long-term advances, \$51.2 million in notes payable and \$60.1 million of trust preferred securities. The outstanding balance for December 31, 2015 included \$40.0 million in FHLB short-term advances, \$70.0 million in FHLB long-term advances, \$52.3 million in notes payable and \$60.6 million of trust preferred securities.

The \$51.2 million notes payable is unsecured debt from correspondent banks at a rate of 3.85% with quarterly principal and interest payments. The debt has a 10 year amortization with a 5 year balloon payment due in October 2020.

During the three months ended March 31, 2015, we increased total debt by \$14 million from December 31, 2015 primarily due to the \$30.0 million increase in FHLB short-term advances offset by the maturity of \$14.4 million of FHLB long-term advances.

CAPITAL

Overview

At March 31, 2016, total capital was \$1.072 billion. Capital represents shareholder ownership in the Company – the book value of assets in excess of liabilities. At March 31, 2016, our common equity to assets ratio was 14.2%, up 40 basis points from year-end 2015.

Capital Stock

On February 27, 2009, at a special meeting, our shareholders approved an amendment to the Articles of Incorporation to establish 40,040,000 authorized shares of preferred stock, \$0.01 par value. The aggregate liquidation preference of all shares of preferred stock cannot exceed \$80,000,000.

On February 27, 2015, as part of the acquisition of Community First, the Company issued 30,852 shares of Senior Non-Cumulative Perpetual Preferred Stock, Series A (“Simmons Series A Preferred Stock”) in exchange for the outstanding shares of Community First Senior Non-Cumulative Perpetual Preferred Stock, Series C (“Community First Series C Preferred Stock”). The preferred stock was held by the United States Department of the Treasury (“Treasury”) as the Community First Series C Preferred Stock was issued when Community First entered into a Small Business Lending Fund Securities Purchase Agreement with the Treasury. The Simmons Series A Preferred Stock qualifies as Tier 1 capital and paid quarterly dividends. On January 29, 2016, the Company redeemed all of the Simmons Series A Preferred Stock, including accrued and unpaid dividends.

On March 4, 2014 the Company filed a shelf registration statement with the Securities and Exchange Commission (“SEC”). Subsequently, on June 18, 2014 the Company filed Amendment No. 1 to the shelf registration statement. After becoming effective, the shelf registration statement allows us to raise capital from time to time, up to an aggregate of \$300 million, through the sale of common stock, preferred stock, stock warrants, stock rights or a combination thereof, subject to market conditions. Specific terms and prices are determined at the time of any offering under a separate prospectus supplement that we are required to file with the SEC at the time of the specific offering.

Stock Repurchase

During 2012, we announced the adoption by the Board of Directors of a new stock repurchase program. The program authorizes the repurchase of up to 850,000 additional shares of Class A common stock, or approximately 5% of the shares outstanding at that time. The shares are to be purchased from time to time at prevailing market prices, through open market or unsolicited negotiated transactions, depending upon market conditions. Under the repurchase program, there is no time limit for the stock repurchases, nor is there a minimum number of shares that the Company intends to repurchase. We intend to use the repurchased shares to satisfy stock option exercises, payment of future stock awards and dividends and general corporate purposes. We had no stock repurchases during the first quarter of 2015 or 2016.

Cash Dividends

We declared cash dividends on our common stock of \$0.24 per share for the first three months of 2016 compared to \$0.23 per share for the first three months of 2015, an increase of \$0.01, or 4.3%. The timing and amount of future dividends are at the discretion of our Board of Directors and will depend upon our consolidated earnings, financial condition, liquidity and capital requirements, the amount of cash dividends paid to us by our subsidiaries, applicable government regulations and policies and other factors considered relevant by our Board of Directors. Our Board of Directors anticipates that we will continue to pay quarterly dividends in amounts determined based on the factors discussed above. However, there can be no assurance that we will continue to pay dividends on our common stock at the current levels or at all.

Parent Company Liquidity

The primary liquidity needs of the Parent Company are the payment of dividends to shareholders, the funding of debt obligations and the share repurchase plan. The primary sources for meeting these liquidity needs are the current cash on hand at the parent company and the future dividends received from Simmons Bank. Payment of dividends by the subsidiary bank is subject to various regulatory limitations. See the Liquidity and Market Risk Management discussions of Item 3 – Quantitative and Qualitative Disclosure About Market Risk for additional information regarding the parent company's liquidity.

Risk Based Capital

Our bank subsidiary is subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on our financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, we must meet specific capital guidelines that involve quantitative measures of our assets, liabilities and certain off-balance-sheet items as calculated under regulatory accounting practices. Our capital amounts and classifications are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require us to maintain minimum amounts and ratios (set forth in the table below) of total, Tier 1 and common equity Tier 1 capital (as defined in the regulations) to risk-weighted assets (as defined) and of Tier 1 capital (as defined) to average assets (as defined). Management believes that, as of March 31, 2016, we meet all capital adequacy requirements to which we are subject.

As of the most recent notification from regulatory agencies, the subsidiary was well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Company and the Bank must maintain minimum total risk-based, Tier 1 risk-based, common equity Tier 1 risk-based and Tier 1 leverage ratios as set forth in the table. There are no conditions or events since that notification that management believes have changed the institutions' categories.

Our risk-based capital ratios at March 31, 2016 and December 31, 2015 are presented in Table 12 below:

Table 12: Risk-Based Capital

(\$ in thousands)	March 31, 2016		December 31, 2015	
Tier 1 capital:				
Stockholders' equity	\$1,071,984		\$1,076,855	
Trust preferred securities	60,077		60,570	
Goodwill and other intangible assets	(335,166)		(331,931)	
Unrealized gain on available-for-sale securities, net of income taxes	(3,566)		2,665	
Total Tier 1 capital	793,329		808,159	
Tier 2 capital:				
Qualifying unrealized gain on available-for-sale equity securities	--		--	
Qualifying allowance for loan losses	36,398		35,068	
Total Tier 2 capital	36,398		35,068	
Total risk-based capital	\$829,727		\$843,227	
Risk weighted assets	\$5,293,395		\$5,044,453	
Assets for leverage ratio	\$7,167,839		\$7,218,559	
Ratios at end of period:				
Common equity Tier 1 ratio (CET1)	13.85	%	14.21	%
Tier 1 leverage ratio	11.07	%	11.20	%
Tier 1 risk-based capital ratio	14.99	%	16.02	%
Total risk-based capital ratio	15.67	%	16.72	%
Minimum guidelines:				
Common equity Tier 1 ratio	4.50	%	4.50	%
Tier 1 leverage ratio	4.00	%	4.00	%
Tier 1 risk-based capital ratio	6.00	%	6.00	%
Total risk-based capital ratio	8.00	%	8.00	%
Well capitalized guidelines:				
Common equity Tier 1 ratio	6.50	%	6.50	%
Tier 1 leverage ratio	5.00	%	5.00	%
Tier 1 risk-based capital ratio	8.00	%	8.00	%
Total risk-based capital ratio	10.00	%	10.00	%

Regulatory Capital Changes

In July 2013, the Company's primary federal regulator, the Federal Reserve, published final rules (the "Basel III Capital Rules") establishing a new comprehensive capital framework for U.S. banks. The rules implement the Basel Committee's December 2010 framework known as "Basel III" for strengthening international capital standards. The Basel III Capital Rules substantially revised the risk-based capital requirements applicable to bank holding companies and depository institutions compared to the then current U.S. risk-based capital rules.

The Basel III Capital Rules define the components of capital and address other issues affecting the numerator in banking institutions' regulatory capital ratios. The rules also address risk weights and other issues affecting the denominator in banking institutions' regulatory capital ratios and replace the existing risk-weighting approach with a more risk-sensitive approach.

The Basel III Capital Rules expand the risk-weighting categories from the four Basel I-derived categories (0%, 20%, 50% and 100%) to a much larger and more risk-sensitive number of categories, depending on the nature of the assets, generally ranging from 0% for U.S. government and agency securities, to 600% for certain equity exposures, and resulting in higher risk weights for a variety of asset categories, including many residential mortgages and certain commercial real estate.

The final rules include a new common equity Tier 1 capital to risk-weighted assets ratio of 4.5% and a common equity Tier 1 capital conservation buffer of 2.5% of risk-weighted assets. The rules also raise the minimum ratio of Tier 1 capital to risk-weighted assets from 4.0% to 6.0% and require a minimum leverage ratio of 4.0%. The Basel III Capital Rules became effective for the Company and its subsidiary bank on January 1, 2015, with full compliance with all of the final rule's requirements phased in over a multi-year schedule.

The Company and Bank must hold a capital conservation buffer composed of CET1 capital above its minimum risk-based capital requirements. The implementation of the capital conservation buffer began on January 1, 2016, at the 0.625% level and will phase in over a four-year period (increasing by that amount on each subsequent January 1 until it reaches 2.5% on January 1, 2019). As of March 31, 2016, the Company and its subsidiary bank met all capital adequacy requirements under the Basel III Capital Rules, and management believes the Company and subsidiary bank would meet all Capital Rules on a fully phased-in basis if such requirements were currently effective.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

See the section titled *Recently Issued Accounting Pronouncements* in Note 1, Basis of Presentation, in the accompanying Condensed Notes to Consolidated Financial Statements included elsewhere in this report for details of recently issued accounting pronouncements and their expected impact on the Company's ongoing financial position and results of operation.

FORWARD-LOOKING STATEMENTS

Certain statements contained in this quarterly report may not be based on historical facts and are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements may be identified by reference to a future period(s) or by the use of forward-looking terminology, such as "anticipate," "estimate," "expect," "foresee," "believe," "may," "might," "will," "would," "could" or "intend," future or conditional verb tenses, and variations or negatives of such terms. These forward-looking statements include, without limitation, those relating to the Company's future growth, revenue, assets, asset quality, profitability and customer service, critical accounting policies, net interest margin, non-interest revenue, market conditions related to the Company's stock repurchase program, allowance for loan losses, the effect of certain new accounting standards on the Company's financial statements, income tax deductions, credit

quality, the level of credit losses from lending commitments, net interest revenue, interest rate sensitivity, loan loss experience, liquidity, capital resources, market risk, earnings, effect of pending litigation, acquisition strategy, efficiency initiatives, legal and regulatory limitations and compliance and competition.

These forward-looking statements involve risks and uncertainties, and may not be realized due to a variety of factors, including, without limitation: the effects of future economic conditions, governmental monetary and fiscal policies, as well as legislative and regulatory changes; the risks of changes in interest rates and their effects on the level and composition of deposits, loan demand and the values of loan collateral, securities and interest sensitive assets and liabilities; the costs of evaluating possible acquisitions and the risks inherent in integrating acquisitions; the effects of competition from other commercial banks, thrifts, mortgage banking firms, consumer finance companies, credit unions, securities brokerage firms, insurance companies, money market and other mutual funds and other financial institutions operating in our market area and elsewhere, including institutions operating regionally, nationally and internationally, together with such competitors offering banking products and services by mail, telephone, computer and the Internet; the failure of assumptions underlying the establishment of reserves for possible loan losses; and those factors set forth under Item 1A. Risk-Factors of this report and other cautionary statements set forth elsewhere in this report. Many of these factors are beyond our ability to predict or control. In addition, as a result of these and other factors, our past financial performance should not be relied upon as an indication of future performance.

We believe the expectations reflected in our forward-looking statements are reasonable, based on information available to us on the date hereof. However, given the described uncertainties and risks, we cannot guarantee our future performance or results of operations and you should not place undue reliance on these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, and all written or oral forward-looking statements attributable to us are expressly qualified in their entirety by this section.

RECONCILIATION OF NON-GAAP MEASURES

The table below presents computations of core earnings (net income excluding nonrecurring items {gain from early retirement of trust preferred securities, merger related costs and branch right sizing expenses}) and diluted core earnings per share (non-GAAP). Nonrecurring items are included in financial results presented in accordance with generally accepted accounting principles (“GAAP”).

The Company believes the exclusion of these nonrecurring items in expressing earnings and certain other financial measures, including “core earnings”, provides a meaningful base for period-to-period and company-to-company comparisons, which management believes will assist investors and analysts in analyzing the core financial measures of the Company and predicting future performance. This non-GAAP financial measure is also used by management to assess the performance of the Company’s business, because management does not consider these nonrecurring items to be relevant to ongoing financial performance. Management and the Board of Directors utilize “core earnings” (non-GAAP) for the following purposes:

- Preparation of the Company’s operating budgets
- Monthly financial performance reporting
- Monthly “flash” reporting of consolidated results (management only)
- Investor presentations of Company performance

The Company believes the presentation of “core earnings” on a diluted per share basis, “diluted core earnings per share” (non-GAAP), provides a meaningful base for period-to-period and company-to-company comparisons, which management believes will assist investors and analysts in analyzing the core financial measures of the Company and predicting future performance. This non-GAAP financial measure is also used by management to assess the performance of the Company’s business, because management does not consider these nonrecurring items to be relevant to ongoing financial performance on a per share basis. Management and the Board of Directors utilize “diluted core earnings per share” (non-GAAP) for the following purposes:

- Calculation of annual performance-based incentives for certain executives
- Calculation of long-term performance-based incentives for certain executives
- Investor presentations of Company performance

The Company believes that presenting these non-GAAP financial measures will permit investors and analysts to assess the performance of the Company on the same basis as that applied by management and the Board of Directors.

“Core earnings” and “diluted core earnings per share” (non-GAAP) have inherent limitations, are not required to be uniformly applied and are not audited. To mitigate these limitations, the Company has procedures in place to identify and approve each item that qualifies as nonrecurring to ensure that the Company’s “core” results are properly reflected for period-to-period comparisons. Although these non-GAAP financial measures are frequently used by stakeholders in the evaluation of a Company, they have limitations as analytical tools, and should not be considered in isolation, or as a substitute for analyses of results as reported under GAAP. In particular, a measure of earnings that excludes nonrecurring items does not represent the amount that effectively accrues directly to stockholders (i.e., nonrecurring items are included in earnings and stockholders’ equity).

See Table 13 below for the reconciliation of non-GAAP financial measures, which exclude nonrecurring items for the periods presented.

Table 13: Reconciliation of Core Earnings (non-GAAP)

(\$ in thousands)	Three Months Ended March 31,	
	2016	2015
Net income available to common shareholders	\$23,481	\$8,709
Nonrecurring items:		
Gain from early retirement of trust preferred securities	(594)	--
Merger related costs	93	10,419
Branch right sizing	14	35
Tax effect ⁽¹⁾	191	(3,463)
Net nonrecurring items	(296)	6,991
Core earnings (non-GAAP)	\$23,185	\$15,700
Diluted earnings per share	\$0.77	\$0.39
Nonrecurring items:		
Gain from early retirement of trust preferred securities	(0.02)	--
Merger related costs	--	0.47
Branch right sizing	--	--
Tax effect ⁽¹⁾	0.01	(0.16)
Net nonrecurring items	(0.01)	0.31
Diluted core earnings per share (non-GAAP)	\$0.76	\$0.70

(1) Effective tax rate of 39.225%, adjusted for non-deductible merger related costs.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

Parent Company

The Company has leveraged its investment in subsidiary banks and depends upon the dividends paid to it, as the sole shareholder of the subsidiary banks, as a principal source of funds for dividends to shareholders, stock repurchase and debt service requirements. At March 31, 2016, undivided profits of the Company's subsidiary bank was approximately \$234.5 million, of which approximately \$4.4 million was available for the payment of dividends to the

Company without regulatory approval. In addition to dividends, other sources of liquidity for the Company are the sale of equity securities and the borrowing of funds.

Subsidiary Bank

Generally speaking, our subsidiary bank relies upon net inflows of cash from financing activities, supplemented by net inflows of cash from operating activities, to provide cash used in investing activities. Typical of most banking companies, significant financing activities include: deposit gathering; use of short-term borrowing facilities, such as federal funds purchased and repurchase agreements; and the issuance of long-term debt. The Bank's primary investing activities include loan originations and purchases of investment securities, offset by loan payoffs and investment maturities.

Liquidity represents an institution's ability to provide funds to satisfy demands from depositors and borrowers, by either converting assets into cash or accessing new or existing sources of incremental funds. A major responsibility of management is to maximize net interest income within prudent liquidity constraints. Internal corporate guidelines have been established to constantly measure liquid assets, as well as relevant ratios concerning earning asset levels and purchased funds. The management and board of directors of the subsidiary bank monitor these same indicators and makes adjustments as needed.

Liquidity Management

The objective of our liquidity management is to access adequate sources of funding to ensure that cash flow requirements of depositors and borrowers are met in an orderly and timely manner. Sources of liquidity are managed so that reliance on any one funding source is kept to a minimum. Our liquidity sources are prioritized for both availability and time to activation.

Our liquidity is a primary consideration in determining funding needs and is an integral part of asset/liability management. Pricing of the liability side is a major component of interest margin and spread management. Adequate liquidity is a necessity in addressing this critical task. There are five primary and secondary sources of liquidity available to the Company. The particular liquidity need and timeframe determine the use of these sources.

The first source of liquidity available to the Company is Federal funds. Federal funds, primarily from downstream correspondent banks, are available on a daily basis and are used to meet the normal fluctuations of a dynamic balance sheet. In addition, the Company and our subsidiary bank have approximately \$285 million in Federal funds lines of credit from upstream correspondent banks that can be accessed, when needed. Historical monitoring of these funds has made it possible for us to project seasonal fluctuations and structure our funding requirements on a month-to-month basis.

A second source of liquidity is the retail deposits available through our subsidiary banks throughout Arkansas, Kansas, Missouri and Tennessee. Although this method can be a somewhat more expensive alternative to supplying liquidity, this source can be used to meet intermediate term liquidity needs.

Third, Simmons Bank has lines of credits available with the Federal Home Loan Bank. While we use portions of those lines to match off longer-term mortgage loans, we also use those lines to meet liquidity needs. Approximately \$985.9 million of these lines of credit are currently available, if needed.

Fourth, we use a laddered investment portfolio that ensures there is a steady source of intermediate term liquidity. These funds can be used to meet seasonal loan patterns and other intermediate term balance sheet fluctuations. Approximately 56% of the investment portfolio is classified as available-for-sale. We also use securities held in the securities portfolio to pledge when obtaining public funds.

Fifth, we have a network of correspondent banks from which we can access debt to meet liquidity needs.

Finally, we have the ability to access large deposits from both the public and private sector to fund short-term liquidity needs.

We believe the various sources available are ample liquidity for short-term, intermediate-term and long-term liquidity.

Market Risk Management

Market risk arises from changes in interest rates. We have risk management policies to monitor and limit exposure to market risk. In asset and liability management activities, policies designed to minimize structural interest rate risk are in place. The measurement of market risk associated with financial instruments is meaningful only when all related and offsetting on- and off-balance-sheet transactions are aggregated, and the resulting net positions are identified.

Interest Rate Sensitivity

Interest rate risk represents the potential impact of interest rate changes on net income and capital resulting from mismatches in repricing opportunities of assets and liabilities over a period of time. A number of tools are used to monitor and manage interest rate risk, including simulation models and interest sensitivity gap analysis. Management uses simulation models to estimate the effects of changing interest rates and various balance sheet strategies on the level of the Company's net income and capital. As a means of limiting interest rate risk to an acceptable level, management may alter the mix of floating and fixed-rate assets and liabilities, change pricing schedules and manage investment maturities during future security purchases.

The simulation model incorporates management's assumptions regarding the level of interest rates or balance changes for indeterminate maturity deposits for a given level of market rate changes. These assumptions have been developed through anticipated pricing behavior. Key assumptions in the simulation models include the relative timing of prepayments, cash flows and maturities. These assumptions are inherently uncertain and, as a result, the model cannot precisely estimate net interest income or precisely predict the impact of a change in interest rates on net income or capital. Actual results will differ from simulated results due to the timing, magnitude and frequency of interest rate changes and changes in market conditions and management strategies, among other factors.

As of March 31, 2016, the model simulations projected that 100 and 200 basis point increases in interest rates would result in a negative variance in net interest income of -0.67% and -1.25%, respectively, relative to the base case over the next 12 months, while decreases in interest rates of 100 basis points would result in a negative variance in net interest income of -1.45% relative to the base case over the next 12 months. The likelihood of a decrease in interest rates in excess of 50 basis points as of March 31, 2016 is considered remote given current interest rate levels and the recent rate increase by the Federal Reserve. These are good faith estimates and assume that the composition of our interest sensitive assets and liabilities existing at each year-end will remain constant over the relevant twelve month measurement period and that changes in market interest rates are instantaneous and sustained across the yield curve regardless of duration of pricing characteristics of specific assets or liabilities. Also, this analysis does not contemplate any actions that we might undertake in response to changes in market interest rates. We believe these estimates are not necessarily indicative of what actually could occur in the event of immediate interest rate increases or decreases of this magnitude. As interest-bearing assets and liabilities reprice in different time frames and proportions to market interest rate movements, various assumptions must be made based on historical relationships of these variables in reaching any conclusion. Since these correlations are based on competitive and market conditions, we anticipate that our future results will likely be different from the foregoing estimates, and such differences could be material.

The table below presents our sensitivity to net interest income at March 31, 2016:

Table 14: Net Interest Income Sensitivity

Interest Rate Scenario	% Change from Base
Up 200 basis points	-1.25 %
Up 100 basis points	-0.67 %
Down 100 basis points	-1.45 %

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer have reviewed and evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's current disclosure controls and procedures were effective for the period.

Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal controls over financial reporting during the quarter ended March 31, 2016, which materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II: Other Information

Item 1A. Risk Factors

Management is not aware of any material changes to the risk factors discussed in Part 1, Item 1A of our Form 10-K for the year ended December 31, 2015. In addition to the other information set forth in this report, you should carefully consider the risk factors discussed in Part I, Item 1A of our Form 10-K, which could materially and adversely affect the Company's business, ongoing financial condition and results of operations. The risks described are not the only risks facing the Company. Additional risks and uncertainties not presently known to management or that management currently believes to be immaterial may also adversely affect our business, ongoing financial condition or results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) Issuer Purchases of Equity Securities. The Company made no purchases of its common stock during the three months ended March 31, 2016.

Item 6. Exhibits

Exhibit No.	Description
2.1	Purchase and Assumption Agreement, dated as of May 14, 2010, among Federal Insurance Deposit Corporation, Receiver of Southwest Community Bank, Springfield, Missouri, Federal Deposit Insurance Corporation and Simmons First National Bank (incorporated by reference to Exhibit 2.1 to Simmons First National Corporation's Current Report on Form 8-K, as amended, for May 19, 2010 (File No. 000-06253)).
2.2	Purchase and Assumption Agreement, dated as of October 15, 2010, among Federal Insurance Deposit Corporation, Receiver of Security Savings Bank F.S.B., Olathe, Kansas, Federal Deposit Insurance Corporation and Simmons First National Bank (incorporated by reference to Exhibit 2.1 to Simmons First National Corporation's Current Report on Form 8-K, as amended, for October 21, 2010 (File No. 000-06253)).
2.3	Purchase and Assumption Agreement Whole Bank All Deposits, among Federal Insurance Deposit Corporation, Receiver of Truman Bank, St. Louis, Missouri, Federal Deposit Insurance Corporation, and Simmons First National Bank, Pine Bluff, Arkansas, dated as of September 14, 2012 (incorporated by reference to Exhibit 2.1 to Simmons First National Corporation's Current Report on Form 8-K, as amended, for September 20, 2012 (File No. 000-06253)).
2.4	Loan Sale Agreement, by and between Federal Deposit Insurance Corporation, as Receiver for Truman Bank, St. Louis, Missouri, and Simmons First National Bank, Pine Bluff, Arkansas, dated as of September 14, 2012 (incorporated by reference to Exhibit 2.2 to Simmons First National Corporation's Current Report on Form 8-K, as amended, for September 20, 2012 (File No. 000-06253)).
2.5	Purchase and Assumption Agreement Whole Bank All Deposits, among Federal Insurance Deposit Corporation, Receiver of Excel Bank, Sedalia, Missouri, Federal Deposit Insurance Corporation, and Simmons First National Bank, Pine Bluff, Arkansas, dated as of October 19, 2012 (incorporated by reference to Exhibit 2.1 to Simmons First National Corporation's Current Report on Form 8-K, as amended, for October 25, 2012 (File No. 000-06253)).
2.6	Stock Purchase Agreement by and between Simmons First National Corporation and Rogers Bancshares, Inc., dated as of September 10, 2013 (incorporated by reference to Exhibit 10.1 to Simmons First National Corporation's

Edgar Filing: SIMMONS FIRST NATIONAL CORP - Form 10-Q

Current Report on Form 8-K for September 12, 2013 (File No. 000-06253)).

2.7 Agreement and Plan of Merger, dated as of March 24, 2014, by and between Simmons First National Corporation and Delta Trust & Banking Corporation (incorporated by reference to Annex A to the Joint Proxy Statement/Prospectus filed by Simmons First National Corporation on July 23, 2014 (File No. 000-06253)).

2.8 Agreement and Plan of Merger, dated as of May 6, 2014, by and between Simmons First National Corporation and Community First Bancshares, Inc., as amended on September 11, 2014 (incorporated by reference to Annex A to the Joint Proxy Statement/Prospectus filed by Simmons First National Corporation on October 8, 2014 (File No. 000-06253)).

2.9 Agreement and Plan of Merger, dated as of May 27, 2014, by and between Simmons First National Corporation and Liberty Bancshares, Inc., as amended on September 11, 2014 (incorporated by reference to Annex B to the Joint Proxy Statement/Prospectus filed by Simmons First National Corporation on October 8, 2014 (File No. 000-06253)).

2.10 Agreement and Plan of Merger, dated as of April 28, 2015, by and between Simmons First National Corporation and Ozark Trust & Investment Corporation (incorporated by reference to Exhibit 10.1 to Simmons First National Corporation's Current Report on Form 8-K for April 29, 2015 (File No. 000-06253)).

Restated Articles of Incorporation of Simmons First National Corporation (incorporated by reference to Exhibit 3.1 to Simmons First National Corporation's Quarterly Report on Form 10-Q for the Quarter ended March 31, 2009 (File No. 000-06253)).

Amended By-Laws of Simmons First National Corporation (incorporated by reference to Exhibit 3.2 to Simmons First National Corporation's Quarterly Report on Form 10-Q for the Quarter ended September 30, 2013 (File No. 000-06253)).

Certificate of Designation of Senior Non-Cumulative Perpetual Preferred Stock, Series A of Simmons First National Corporation, dated February 27, 2015 (incorporated by reference to Exhibit 3.1 to Simmons First National Corporation's Current Report on Form 8-K on October 8, 2014 (File No. 000-06253)).

Amended and Restated Trust Agreement, dated as of December 16, 2003, among the Company, Deutsche Bank Trust Company Americas, Deutsche Bank Trust Company Delaware and each of J. Thomas May, Barry L. Crow and Bob Fehlman as administrative trustees, with respect to Simmons First Capital Trust II (incorporated by reference to Exhibit 10.1 to Simmons First National Corporation's Annual Report on Form 10-K for the Year ended December 31, 2003 (File No. 000-06253)).

Guarantee Agreement, dated as of December 16, 2003, between the Company and Deutsche Bank Trust Company Americas, as guarantee trustee, with respect to Simmons First Capital Trust II (incorporated by reference to Exhibit 10.2 to Simmons First National Corporation's Annual Report on Form 10-K for the Year ended December 31, 2003 (File No. 000-06253)).

Junior Subordinated Indenture, dated as of December 16, 2003, among the Company and Deutsche Bank Trust Company Americas, as trustee, with respect to the junior subordinated note held by Simmons First Capital Trust II (incorporated by reference to Exhibit 10.3 to Simmons First National Corporation's Annual Report on Form 10-K for the Year ended December 31, 2003 (File No. 000-06253)).

Amended and Restated Trust Agreement, dated as of December 16, 2003, among the Company, Deutsche Bank Trust Company Americas, Deutsche Bank Trust Company Delaware and each of J. Thomas May, Barry L. Crow and Bob Fehlman as administrative trustees, with respect to Simmons First Capital Trust III (incorporated by reference to Exhibit 10.4 to Simmons First National Corporation's Annual Report on Form 10-K for the Year ended December 31, 2003 (File No. 000-06253)).

Guarantee Agreement, dated as of December 16, 2003, between the Company and Deutsche Bank Trust Company Americas, as guarantee trustee, with respect to Simmons First Capital Trust III (incorporated by reference to Exhibit 10.5 to Simmons First National Corporation's Annual Report on Form 10-K for the Year ended December 31, 2003 (File No. 000-06253)).

Junior Subordinated Indenture, dated as of December 16, 2003, among the Company and Deutsche Bank Trust Company Americas, as trustee, with respect to the junior subordinated note held by Simmons First Capital Trust III

Edgar Filing: SIMMONS FIRST NATIONAL CORP - Form 10-Q

(incorporated by reference to Exhibit 10.6 to Simmons First National Corporation's Annual Report on Form 10-K for the Year ended December 31, 2003 (File No. 000-06253)).

4.7 Amended and Restated Trust Agreement, dated as of December 16, 2003, among the Company, Deutsche Bank Trust Company Americas, Deutsche Bank Trust Company Delaware and each of J. Thomas May, Barry L. Crow and Bob Fehlman as administrative trustees, with respect to Simmons First Capital Trust IV (incorporated by reference to Exhibit 10.7 to Simmons First National Corporation's Annual Report on Form 10-K for the Year ended December 31, 2003 (File No. 000-06253)).

4.8 Guarantee Agreement, dated as of December 16, 2003, between the Company and Deutsche Bank Trust Company Americas, as guarantee trustee, with respect to Simmons First Capital Trust IV (incorporated by reference to Exhibit 10.8 to Simmons First National Corporation's Annual Report on Form 10-K for the Year ended December 31, 2003 (File No. 000-06253)).

4.9 Junior Subordinated Indenture, dated as of December 16, 2003, among the Company and Deutsche Bank Trust Company Americas, as trustee, with respect to the junior subordinated note held by Simmons First Capital Trust IV (incorporated by reference to Exhibit 10.9 to Simmons First National Corporation's Annual Report on Form 10-K for the Year ended December 31, 2003 (File No. 000-06253)).

4.10 Indenture, dated as of June 23, 2005, between Community First Bancshares, Inc., and Deutsche Bank Trust Company Americas, as trustee, relating to subordinated debentures due June 30, 2035 (incorporated by reference to Exhibit 4.1 to Simmons First National Corporation's Current Report on Form 8-K on October 8, 2014 (File No. 000-06253)).

4.11 First Supplemental Indenture, dated as of February 27, 2015, to Indenture, dated as of June 23, 2005, between Simmons First National Corporation and Deutsche Bank Trust Company Americas, as trustee (incorporated by reference to Exhibit 4.2 to Simmons First National Corporation's Current Report on Form 8-K on October 8, 2014 (File No. 000-06253)).

4.12 Indenture, dated as of September 10, 2007, between Community First Bancshares, Inc., and Wilmington Trust Company, as trustee, relating to subordinated debentures due September 15, 2037 (incorporated by reference to Exhibit 4.3 to Simmons First National Corporation's Current Report on Form 8-K on October 8, 2014 (File No. 000-06253)).

4.13 First Supplemental Indenture, dated as of February 27, 2015, to Indenture, dated as of September 10, 2007, between Simmons First National Corporation and Wilmington Trust Company, as trustee (incorporated by reference to Exhibit 4.4 to Simmons First National Corporation's Current Report on Form 8-K on October 8, 2014 (File No. 000-06253)).

4.14 Indenture, dated as of December 5, 2003, between Liberty Bancshares, Inc., and U. S. Bank National Association, as trustee, relating to subordinated debentures due December 5, 2033 (incorporated by reference to Exhibit 4.5 to Simmons First National Corporation's Current Report on Form 8-K on October 8, 2014 (File No. 000-06253)).

4.15 First Supplemental Indenture, dated as of February 27, 2015, to Indenture, dated as of December 5, 2003, between Simmons First National Corporation and U. S. Bank National Association, as trustee (incorporated by reference to Exhibit 4.6 to Simmons First National Corporation's Current Report on Form 8-K on October 8, 2014 (File No. 000-06253)).

4.16 Indenture, dated as of October 13, 2004, between Liberty Bancshares, Inc., and Wilmington Trust Company, as trustee, relating to subordinated debentures due October 18, 2034 (incorporated by reference to Exhibit 4.7 to Simmons First National Corporation's Current Report on Form 8-K on October 8, 2014 (File No. 000-06253)).

4.17 First Supplemental Indenture, dated as of February 27, 2015, to Indenture, dated as of October 13, 2004, between Simmons First National Corporation and Wilmington Trust Company, as trustee (incorporated by reference to Exhibit 4.8 to Simmons First National Corporation's Current Report on Form 8-K on October 8, 2014 (File No.

000-06253)).

4.18 Indenture, dated as of March 23, 2007, between Liberty Bancshares, Inc., and Wilmington Trust Company, as trustee, relating to subordinated debentures due June 6, 2037 (incorporated by reference to Exhibit 4.9 to Simmons First National Corporation's Current Report on Form 8-K on October 8, 2014 (File No. 000-06253)).

4.19 First Supplemental Indenture, dated as of February 27, 2015, to Indenture, dated as of March 23, 2007, between Simmons First National Corporation and Wilmington Trust Company, as trustee (incorporated by reference to Exhibit 4.10 to Simmons First National Corporation's Current Report on Form 8-K on October 8, 2014 (File No. 000-06253)).

10.1 Notice of discretionary bonuses to J. Thomas May, David L. Bartlett, Robert A. Fehlman, Marty D. Casteel and Robert C. Dill (incorporated by reference to Simmons First National Corporation's Current Report on Form 8-K for January 25, 2010 (File No. 000-06253)).

Deferred Compensation Agreements, adopted January 25, 2010, between Simmons First National Corporation
10.2 and Robert A. Fehlman and Marty D. Casteel (incorporated by reference to Exhibits 10.2 and 10.3 to Simmons
First National Corporation's Current Report on Form 8-K for January 25, 2010 (File No. 000-06253)).

Simmons First National Corporation Executive Retention Program, adopted January 25, 2010, and notice of
10.3 retention bonuses to David Bartlett, Robert A. Fehlman and Marty D. Casteel (incorporated by reference to
Exhibit 10.4 to Simmons First National Corporation's Current Report on Form 8-K for January 25, 2010 (File No.
000-06253)).

Simmons First National Corporation Executive Stock Incentive Plan – 2010, adopted January 25, 2010
10.4 (incorporated by reference to Exhibit 10.5 to Simmons First National Corporation's Current Report on Form 8-K
for January 25, 2010 (File No. 000-06253)).

Deferred Compensation Agreement for Marty D. Casteel (incorporated by reference to Exhibit 10.3 to Simmons
10.5 First National Corporation's Current Report on Form 8-K for January 25, 2010 (File No. 000-06253)).

Simmons First National Corporation Executive Retention Program (incorporated by reference to Exhibit 10.4 to
10.6 Simmons First National Corporation's Current Report on Form 8-K for January 25, 2010 (File No. 000-06253)).

Simmons First National Corporation Executive Stock Incentive Plan - 2010 (incorporated by reference to Exhibit
10.7 10.5 to Simmons First National Corporation's Current Report on Form 8-K for January 25, 2010 (File No.
000-06253)).

Change in Control Agreement for Robert A. Fehlman (incorporated by reference to Exhibit 10.3 to Simmons First
10.8 National Corporation's Current Report on Form 8-K filed January 29, 2010 (File No. 000-06253)).

Change in Control Agreement for David Bartlett (incorporated by reference to Exhibit 10.1 to Simmons First
10.9 National Corporation's Current Report on Form 8-K filed March 2, 2006 (File No. 000-06253)).

Change in Control Agreement for Marty D. Casteel (incorporated by reference to Exhibit 10.2 to Simmons First
10.10 National Corporation's Current Report on Form 8-K filed January 29, 2010 (File No. 000-06253)).

Amended and Restated Deferred Compensation Agreement for J. Thomas May (incorporated by reference to
10.11 Exhibit 10.23 to Simmons First National Corporation's Amendment to the Annual Report on Form 10-K/A for
the Year ended December 31, 2009 (File No. 000-06253)).

First Amendment to the Amended and Restated Deferred Compensation Agreement for J. Thomas May
10.12 (incorporated by reference to Exhibit 10.24 to Simmons First National Corporation's Amendment to the Annual
Report on Form 10-K/A for the Year ended December 31, 2009 (File No. 000-06253)).

Second Amendment to the Amended and Restated Deferred Compensation Agreement for J. Thomas May
10.13 (incorporated by reference to Exhibit 10.25 to Simmons First National Corporation's Amendment to the Annual Report on Form 10-K/A for the Year ended December 31, 2009 (File No. 000-06253)).

Executive Salary Continuation Agreement for David L. Bartlett (incorporated by reference to Exhibit 10.26 to
10.14 Simmons First National Corporation's Amendment to the Annual Report on Form 10-K/A for the Year ended December 31, 2009 (File No. 000-06253)).

409A Amendment to the Simmons First Bank of Hot Springs Executive Salary Continuation Agreement for
10.15 David Bartlett (incorporated by reference to Exhibit 10.27 to Simmons First National Corporation's Amendment to the Annual Report on Form 10-K/A for the Year ended December 31, 2009 (File No. 000-06253)).

10.16 Simmons First National Corporation Incentive and Non-Qualified Stock Option Plan (incorporated by reference to Exhibit 4.1 to Simmons First National Corporation's Registration Statement on Form S-8 filed May 19, 2006 (File No. 333-134276)).
